ABSTRACT

Designed to answer the most frequently asked questions about the Arizona community colleges, this factbook offers organizational, financial, and enrollment data for the state system as a whole as well as individual colleges. First, the State Board's philosophy, mission, and value statements are provided along with a map of Arizona college districts. Next, 1994-95 progress reports are presented for the Board and 19 colleges in 10 districts, including statistical data on enrollments, staffing, and funds and descriptions of major accomplishments for the period. Data on student enrollment and enrollment trends for all the colleges are then presented for 1990-91 to 1994-95, and financial information is detailed for the same period, including the State Board budget for 1994-95. Information on programs of study is provided next, including a curriculum matrix and brief discussions of skills centers, tech prep initiatives, and federal vocational education funding. Finally, a directory of Board staff and lists of districts and colleges are provided. A statistical supplement provides tables of data for 1994-95 for the state's community colleges, covering student enrollment, income sources, expenditures, and numbers and types of certificates issued and staff employed. ---

October 27, 1995

The Honorable Fife Symington  
Governor  
State of Arizona  
1700 West Washington  
Phoenix, Arizona 85007

Dear Governor Symington:

It is my distinct pleasure, on behalf of the State Board of Directors for Community Colleges of Arizona, to present you the Annual Report to the Governor, 1994-1995 as required by A.R.S. §15-1427. This report includes a brief statement regarding the progress of Arizona's Community Colleges during the past fiscal year and provides statistical information on finances, enrollment, employment, and educational programs.

The State Board and I appreciate your continued support on behalf of Arizona's Community College system.

Sincerely,

A handwritten signature in cursive script, appearing to read "James A. Ullman".

James A. Ullman  
Chairman, Maricopa County

## ACKNOWLEDGMENTS

Many individuals contributed to the preparation of the Annual Report. The following community college district representatives, Sandy Bryan, Karen Nicodemus, Marlene Meyers, Laurie McCown, Ralph Orr Jr., Richard D. Balsley, Lori O'Brien, Cathy Pierce-Urbanski, Joyce Jackson, Fred Gaudet, Mary A. Day, Alberto R. Sanchez, David Irwin, Howard Greenlee, Ina Smith-Ball, Kate Lynch, David Roddy, Everett C. Robinson, Philip J. Silvers, Chuck Reinebold, R. Paul Maffey, Ray Wojda, Roger L. Johnson, A. Daniel Simper, Louis Attinasi, Eloise Young, Elise Bernal, Winifred A. Black, are gratefully acknowledged for their assistance in the collection of data used in this report.

In addition, the Annual Report Team would also like to thank the State Board office staff for their time, effort, and cooperation in the production of this report.

## Philosophy of Arizona's Community College System

The philosophy of the Arizona community college system is a reflection of the purpose of a free democratic society: government of, by and for the people. This can be best achieved by an educated populace so that all may exercise intelligently and morally the rights, privileges and duties of self-government. This entails the affirmation that each individual has worth and dignity, must be afforded an opportunity to develop skills and talents, and must share the responsibilities of providing educational services with the community.

Further, the philosophy recognizes that education is a vital lifelong process that--like the society to which it responds--is never static nor completely realized. Education in a democratic society aims to equip all members with the knowledge and techniques necessary for coping with the economic, social and political dynamics affecting not only the individual but also the community.

It is therefore appropriate that the individual, the community and the state should share the financing and governance of the community college system. At the district level, fiscal and educational policy can be determined by local needs. At the state level, it is imperative to establish standards, and to assess and coordinate needs and services in the best interest of the state.

Because the communities in Arizona differ widely in demographic, economic and geographical characteristics, the community colleges of Arizona must be permitted relative autonomy and a variety of curricula. But each community college must be committed to the following general objectives:

1. To offer the first two years of baccalaureate parallel or preprofessional courses of the highest quality, so that students enrolled in transfer programs may complete study for the baccalaureate in four-year colleges and universities.
2. To provide occupational programs in technical, vocational and paraprofessional fields leading to an associate degree or a certificate, and to provide retraining and upgrading of skills in these fields, so that students enrolled in occupational programs are qualified to meet current needs of the labor market.
3. To provide appropriate general education for all citizens, so that they may perform their personal and professional roles more effectively, and exercise their obligations and privileges as citizens more intelligently.
4. To offer programs in continuing education for those who wish to improve professional skills, acquire new ones, or expand their fields of knowledge and general interest.
5. To provide sound academic and occupational counseling, including job placement services, so that students may learn to define their goals clearly and pursue them realistically.
6. To provide cultural and community service programs for the enrichment of the community, and to encourage the use of community college facilities and services by all citizens of the community for educational and cultural purposes.

Finally, a democratic society prizes and values individual differences. The role of the community college is to encourage men and women of all ages to develop their skills and talents differently, each according to abilities and interests, so that collectively they contribute to the continuum of democracy.

Adopted by the State Board of Directors for Community Colleges of Arizona on October 23, 1976.

# State Board of Directors for Community Colleges of Arizona

## Mission

The mission of the State Board of Directors for Community Colleges of Arizona is to provide for the governance, oversight, planning, and coordination of Arizona's community college system, in order to provide an integrated statewide system of community colleges that satisfies the differing educational needs of all the peoples of Arizona.

Adopted November 21, 1992

## Vision

We, the State Board of Directors for Community Colleges of Arizona, are dedicated to the principle that the citizens of this state must have access to a broad array of educational services through community colleges. We are guided by high ethical standards, a vision for the future of the state, and an appreciation of the broad cultural diversity of the citizenry. We are committed to the principles of responsible management of state resources and are innovators in planning for the future development of the state community college system.

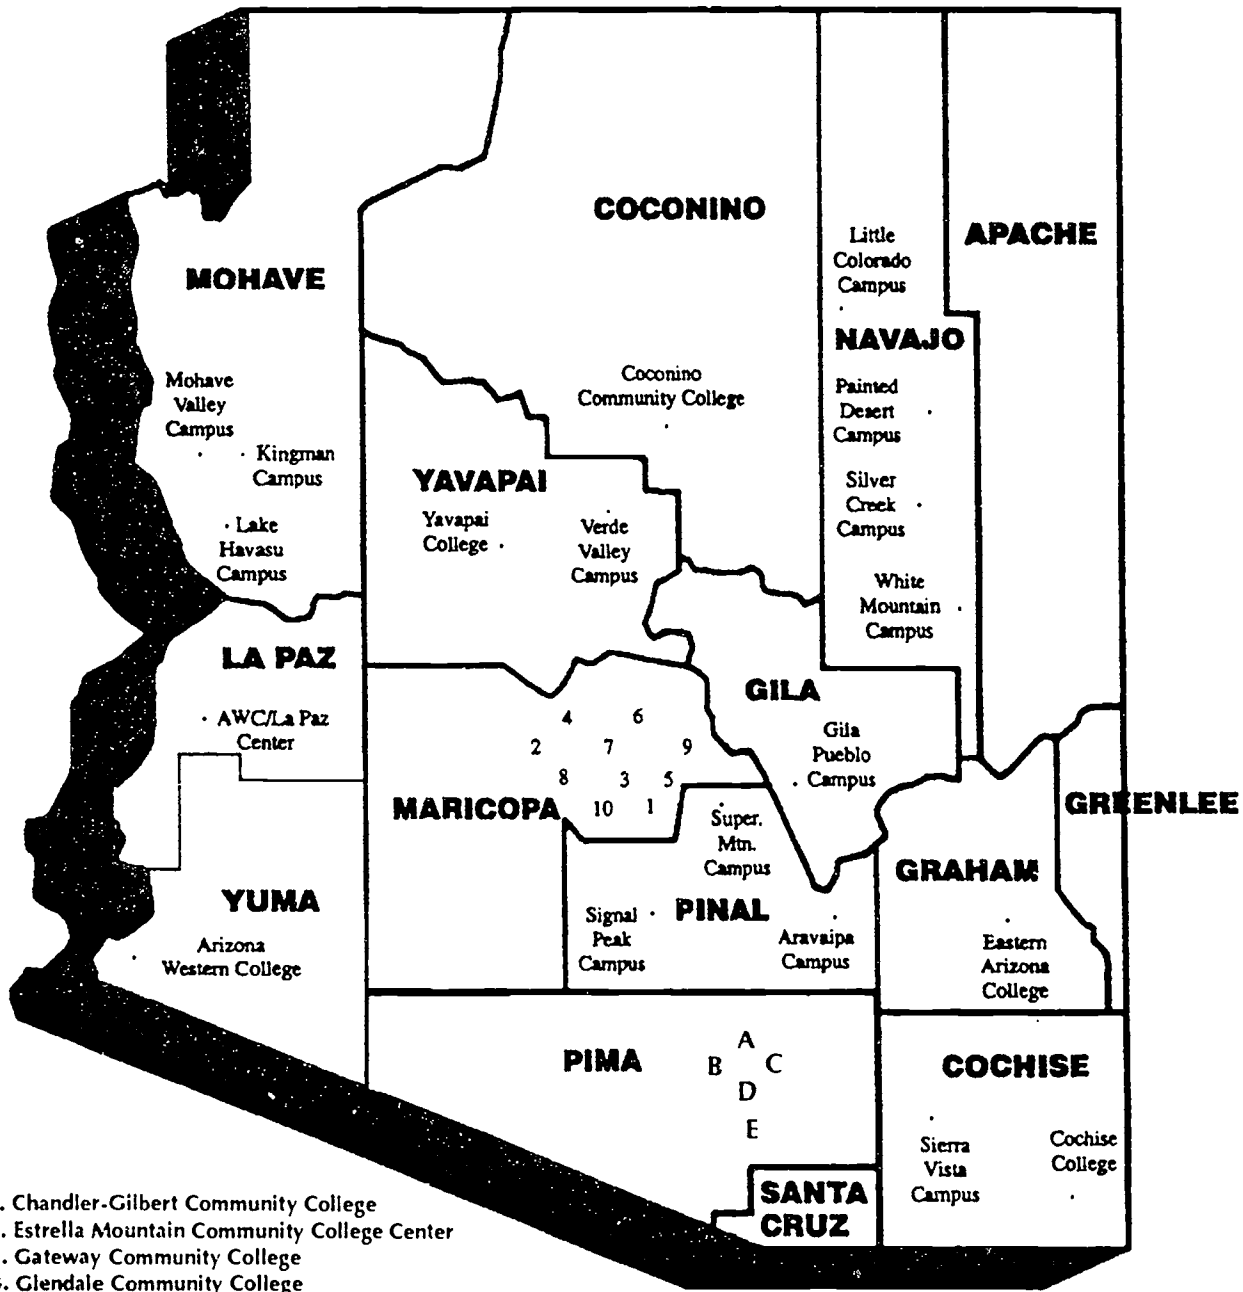

We systematically assess the dynamic changes in higher education to foster modifications in policies and practices required for Arizona's community colleges to remain at the forefront of educational effectiveness. We focus on the current and future needs of individual students and the educational needs of the entire state. We are an effective force for unity within the system of community colleges as it prepares for the global and interdependent society of the twenty-first century.

In fulfilling our trust, we balance the responsibility to provide statewide governance and oversight with sensitivity to the responsibility of the District Governing Boards as stewards of the respective community college districts. We are the leading advocate for the community college system with the Legislature, the Executive Branch of Government, other state agencies, and with the public. We accept responsibility for the resources and mission entrusted to us by the citizens of Arizona.

Adopted June 18, 1994

**Arizona Community College  
Progress Reports  
1994-95**

# *The State Board of Directors for Community Colleges of Arizona*

Dr. Donald E. Puyear  
Executive Director

---

## **Introduction**

The State Board of Directors for Community Colleges of Arizona is the state level of the two-tiered community college governance system that also includes local governance of community college districts.

The mission of the State Board of Directors for Community Colleges of Arizona is to provide for the governance, oversight, planning and coordination of Arizona's community college system, in order to provide an integrated statewide system of community colleges that satisfies the differing educational needs of all the peoples of Arizona.

## **Major Accomplishments in 1994-95**

- **State Board Rules:** The State Board continued the process of review and revalidation of its rules to insure currency and compliance with state requirements.

- **Study Sessions:** The State Board conducted several study sessions by discussing such topics as School-to Work, Review and Approval of the Community College System Budget Request to the Governor submitted through the Office of Strategic Planning and Budgeting, "Boards That Make a Difference"-John Carver, Author.

- **New Board Members:** Patrick Carlin from Mohave County and T.O. Beach from Yuma County were appointed by Governor Symington and confirmed by the State Senate in 1994. Their terms are from January 1994 to January 2001. In addition, Regent Judith Gignac joined the Board in 1994 as the representative from the Arizona Board of Regents. Lois W. Claridge from Graham County and Theodore C. Fichtl from Cochise County were appointed and confirmed by the State Senate in 1995. Their terms are from January 1995 to January 2002. Charles Losh, State Director of Vocational and Technological Education, will represent the Superintendent of Public Instruction as a member of the State Board.

- **Tuition Reciprocity Agreement:** The State Board developed and approved a tuition reciprocity agreement with the New Mexico Commission on Higher Education for the benefit of students in Arizona and New Mexico.

- **Ad Hoc Committee on Policies and Procedures for Credit Course and Program Approval:** The committee identified the criteria for credit courses which will be incorporated into State Board Rules pending approval by the Attorney General's Office.

- **Campus Site Visitations and Board meetings:** State Board members and office staff visited and conducted State Board meetings at Mesa Community College, Paradise Valley Community College, Pima

Community College, Eastern Arizona College, Cochise College, and Yavapai College.

● **Institutional Effectiveness:** The State Board in cooperation with district representatives published two reports on issues identified by the Task Force on Institutional Effectiveness Measures.

### The State Office

● **Certification Study:** The study was completed and work has begun to incorporate the recommendations of the study. The certification office has begun to conduct certification workshops with district representatives on certification procedures and requirements.

● **Office Restructure:** The State Office has begun and will continue to increase its efficiency by allowing personnel to fulfill the office mission at present staffing levels. To accomplish the office mission several changes took place such as Virginia Payan was approved for the position of Certification Clerk, Donna Williamson was approved for the position of Certification Administrative Assistant, Barbara Collins was approved for the position of Certification Officer, Patricia Gelvin for the position of Clerk Typist II, and Carol Nau was approved as Assistant to the Executive Director and the State Board.

● **Collaboration and Cooperation:** The State Office and the Arizona Board of Regents office have begun to work together in order to meet the statutory reporting requirements that impact higher education in the state such as the Report on Students Under the Age of Eighteen (A.R.S. §15-1821) and the Report on Academic Performance of High School Graduates (A.R.S. §15-1822).

## *Arizona Community Colleges* **FACTS AT A GLANCE: 1994-95**

The mission of the State Board of Directors for Community Colleges of Arizona is to provide for the governance, oversight, planning and coordination of Arizona's community college system.

## Introduction

Cochise College has a history of change, a history of evolving to meet the educational needs of a diverse community. The third community college established in the state is located in the southeastern corner of Arizona in Cochise County and continues to grow to meet the needs of its people. The first campus, built 10 miles west of Douglas, serves a younger, more Hispanic community. The city of Douglas and its "twin" city across the border, Agua Prieta, and surrounding bedroom communities have a combined population of over 100,000. A major port for traffic between the U.S. and the Mexican states of Sonora and Chihuahua, area industry centers around serving the flow of goods and people. Maquiladoras, "twin plants," operate on both sides of the border and employ large numbers of the combined community.

The Sierra Vista campus is nestled next to the Huachuca Mountains and Ft. Huachuca, a high tech military installation and the major employer in southern Arizona. The Fort consists of the U.S. Army's Intelligence Center and School, the Information Systems Command, the Electronic Proving Ground, and other similar units. Sierra Vista is poised to become a major intersection on the information super highway. Cochise College Sierra Vista campus serves a diverse community which expects quality higher education.

The third center for Cochise College is situated in the agricultural community of Willcox, which is becoming known for its ecotourism. Educational needs in the Willcox area center around transfer credits and personal development.

## Major Accomplishments in 1994-95

● **Facilities:** In the course of one year, the Sierra Vista campus has taken on a completely new look. Four buildings have been relocated to the edge of campus, the library and science buildings constructed centrally, and a classroom building doubled in size.

The centerpiece of the construction is the library with more than 20,000 square feet of lofting architecture. Contained within are distance learning classrooms, an atrium for receptions and student socializing, multi-media carrels for students to use technology, a place to "surf" the Internet, and a handsome community conference room, along with all the traditional and contemporary resources of a modern library in a setting designed to enhance learning.

The new science building is no less impressive with the enhancement of learning at the core of its 16,000 square foot design. Classrooms serving the various science disciplines are located efficiently along a service area for the development and storage of teaching aids. Multiple purposes, flexibility, and student/staff safety were the primary considerations in the creation of this essential building.

Classroom building 300 was doubled in size to create rehearsal space for the music department, multifunctional classrooms, additional office space and a center for campus security.

● **Computer Technology:** Replacing an outmoded administrative computer system was a major priority. The installation of a

DEC hardware system and SCT Banner software operational system has taken great energy. Converting from one system which did not integrate information to a new system which combines information from one administrative need to another is not easy. But the rewards of registering students on the new system have been realized. Payroll is operational. Three more systems need to be established to complete the upgrade.

● **New Educational Partnerships:** Cochise College formed an alliance with Western International University to offer instruction in international business and computer information systems to the bachelor and master levels. WIU offers classes on the Douglas campus to a local population of students who can now stay at home and achieve a four year degree and more. In addition to the business program, WIU is offering an aviation management program in conjunction with Cochise College.

● **Community Service:** The College actively searches for service opportunities to the community beyond the classroom offerings. This year, in conjunction with several Sierra Vista agencies, the College sponsored an Economic Forum created to provide local business and government agencies with an accurate analysis of the economic climate.

### Issues for 1995-96

● **Educational Partnerships:** The College continues to meet the increased demand for services to Ft. Huachuca by providing full-time assistance in educational counseling and financial aid, as well as additional classes at Fort Huachuca.

● **Relationships with Mexican educational institutions** have been put on a temporary hold until the economy in Mexico stabilizes, though such international partnerships

## Cochise College FACTS AT A GLANCE: 1994-95

There is much to look forward to in Cochise College's future. The two major campuses, at Douglas and at Sierra Vista, are both poised at the threshold of major challenges and opportunities.

continue to be important to the future economic impact on Cochise County and the region.

●The College Aviation program continues to evolve its marketing efforts and has developed a partnership with Arizona State University to offer flight programs. An international partnership with the country of Namibia has been created for the aviation maintenance technology program.

●Adult education programs in partnership with county and state agencies have grown tremendously. A new building on the Sierra Vista campus is proposed to handle the expanding programs, which include the development of a One-Stop Career Center.

# *Coconino Community College*

Dr. Philip Tullar  
President

---

## **Introduction**

Arizona's newest community college was created on July 1, 1991. It is charged with serving community needs of the residents of Coconino County, Arizona's largest county. In its four-year history, the College has experienced dramatic and consistent growth.

## **Major Accomplishments in 1994-95**

● Dr. Philip Tullar assumed the presidency of the college on September 1, 1994. He led the college to adopt a team leadership style as the institution transitioned to a new innovative non-hierarchical organizational structure which promotes open and efficient communication. The organizational wheel is driven by the needs of students with input from the citizens of the community, policy directives from the governing board, and innovative thought and teamwork by the faculty, staff, and president.

● The college staff and faculty continued to expand. New positions this year included Vice President for Educational Services, Vice President for Administrative Support, Dean for Student Services, Dean for Page Campus, Registrar, Curriculum, Grants/Planning/Institutional Research, Library and Media Support, and 11 new full-time Faculty members.

● Coconino Community College initiated a comprehensive strategic planning process which included community, faculty and staff to develop institutional goals and objectives

for the 21st century. The mission and philosophy of the college was revised to include a single statement which reflects the college values of promoting student success.

● The College developed a self-study and student outcomes assessment plan to prepare for a North Central Association accreditation review.

● The College was approved as an institution eligible for grants under the Higher Education Act Title III.

● A major software conversion was undertaken when the SCT BANNER Finance and Human Resources modules were implemented. The BANNER system provides the new database system for the college reporting and record keeping activities.

● A comprehensive ADA self-evaluation was completed and ADA policy documents have been developed.

● A more comprehensive Student Services program was developed and implemented.

## **Major Projects for 1995-96**

● An evaluation team from the North Central Association for Colleges and Schools will visit the college in November 1995. The college goal is to achieve accreditation.

● A permanent satellite campus is being developed in Page, Arizona through an

innovative agreement with the City. The City of Page has donated 22 acres of land and is constructing a library in conjunction with the college. Architectural master planning and building design are nearing completion. Ground breaking ceremonies are expected in the near future, with facility completion in 1996.

- The College began implementation of the SCT BANNER Student Services software module. The Project Team was formed in June 1995, and training will be conducted during 1995-96. The Student system is expected to begin live registration in November 1996 for the Spring 1997 term.

- Implementation of the SCT BANNER Financial Aid software module will also begin. The Project Team is to be formed in March/April 1996 and training will be conducted during 1996-97. The Financial Aid system is expected to be in use by 1997 after the BANNER Student Services module is available for data connections.

### Issues for 1995-96

- Coconino Community College is constantly challenged to meet the educational demands of its community. Enrollment continues to grow at a remarkable rate exceeding 20% each semester.

- The college currently leases 50,000 sq. ft. in a former strip mall in Flagstaff. This facility is used for classrooms/offices and has reached maximum capacity. Other facilities are needed as the college continues to grow to meet the growing community demand. The district governing board has authorized the president to investigate options for a permanent facility in the Flagstaff area.

- An offer to donate approximately 50 acres for a permanent campus development in Flagstaff is expected to be considered by the

## *Coconino Community College* **FACTS AT A GLANCE: 1994-95**

The Coconino County Community College District was created on July 1, 1991, and is charged with serving the community college needs of all the residents of Coconino County.

District Governing Board. Planning for the permanent facilities is expected to begin in 1996.

- Financial Aid will undergo a scheduled Program Review by the United States Department of Education in 1996. Financial Aid will also be undergoing recertification with the Department of Education.

- The college has limited resources due to its funding structure. Additional revenue from local or state sources is unlikely, and the college is concerned about keeping tuition rates affordable. A future enrollment cap may become necessary if enrollment continues and no additional revenue stream is developed.

# *Eastern Arizona College*

Gherald L. Hoopes, Jr.  
President

---

## **Introduction**

Eastern Arizona College (EAC), founded in 1888, serves the 82,400 residents of three eastern Arizona counties—Graham, Greenlee and Gila. In addition to the main campus in Thatcher and a campus in Globe, the College delivers educational programs at 12 other primary locations.

During the 1994-95 school year, EAC enrolled 4,521 students in Graham County, 3,098 students in Gila County, 742 students in Greenlee County, and 566 students in prison programs, for a total of 8,927 students districtwide. EAC's students range in age from 12 to 92 with an average student age of 36.

EAC's 1994-95 operational cost per Full-Time Student Equivalent (FTSE) was \$4,356.

## **Major Accomplishments in 1994-95**

- EAC attained highest-ever enrollment in Graham County at 1,521 FTSE.
- The College completed comprehensive satisfaction surveys of current students and residents of its service areas and received very high ratings from both groups.
- EAC made continued significant progress toward compliance with the Americans with Disabilities Act as addressed in the College's ADA Transition Plan for Structural Renovation.

## ***Curriculum Accomplishments***

- EAC received Nursing curriculum approval from the State Board of Directors for Community Colleges of Arizona, the State Board of Nursing and the North Central Association of Colleges and Schools. The program was requested by local health care providers and classes began in the Fall of 1995.
- Mining Technology curriculum was added to Gila County programs in response to Cyprus Miami, Magma Pinto Valley and Carlotta Copper Co. corporate and employee interest.
- The College developed and implemented a Building Trades curriculum at the request of the Federal Correctional Institution in Safford.

## ***Technological Accomplishments***

- EAC began a major network expansion project to bring full computer networking capabilities, including Internet connectivity, to Gila Pueblo Campus and to Payson and San Carlos Satellite Centers.
- The College offered Internet and e-mail accounts to all EAC students. It responded to community interest in Internet connectivity by offering access to local public school teachers and administrators, as well as providing them with training and orientation on Internet usage and applicability in the classroom.

- EAC doubled computer resources for Greenlee County extension classes with the addition of new computers. Permanent office space was established in Morenci to serve the educational needs of Greenlee County residents more efficiently.

- EAC enhanced higher education opportunities for the community by providing an NAUNET instructional interactive television (IITV) classroom facility at the Thatcher campus. The College added detailed NAU class and curriculum information to EAC publications.

- EAC improved student security by adding PIN number capability to telephone and terminal registration and records systems. It added telephone and terminal reporting of class grades option to Automated Student Information System.

### Major Issues & Resolutions in 1994-95

- Began 2-phase construction/renovation of Math-Science complex.

- Developed building plans to enhance student housing with construction of new residence hall complex scheduled for 1997.

- Cooperated with Gila County residents to obtain legislative funding to build a Payson campus on a 55-acre site being purchased from the Forest Service. Received \$1 million of the \$2 million requested.

- Increased Small Business Development Center services in Gila County with the hiring of a coordinator for the SBDC in San Carlos.

### Issues for 1995-96

- Completion of Self-Study report in preparation for North Central Association of

and successful site visit by NCA evaluators.

- Completion of Math-Science complex
- Initiation of a new residence hall complex
- Planning for successful implementation of a new Payson campus site

● Maintaining a stable funding base, including equalization.

● Continue ongoing efforts in support of a system-wide initiative to facilitate transfer of students attending Arizona's state-funded community colleges to Arizona's state-funded universities without loss of credit.

# *Maricopa County Community College District*

Dr. Paul Elsner  
Chancellor

---

## **Introduction**

The Maricopa County Community College District vision is to strive to exceed the changing expectations of its many communities for effective, innovative, student-centered, flexible and lifelong educational opportunities. MCCCCD faculty and staff are committed to respecting diversity, continuous quality improvement, and the efficient use of resources. It is a learning institution guided by its shared values.

MCCCCD is the second largest multi-college district in the nation. Approximately 160,000 students are served annually in credit courses, and an additional 30,000 students enroll in non-credit special interest courses.

MCCCCD's mission is to create and continuously improve affordable, accessible, and effective learning environments for the lifelong educational needs of the diverse communities served through:

- University transfer education
- General education
- Developmental education
- Workforce development
- Student development services
- Continuing education
- Community education

## **Major Accomplishments in 1994-95**

- In November 1994, Maricopa County

voters approved a capital development program for MCCCCD to be paid for with general obligation bond funds totaling \$385.8 million. This will allow for the addition of close to 40% more classroom space, the development of a new campus in east Mesa, and the purchase of land for a future campus in north Scottsdale. The bond funds will also be used to renovate and remodel aging buildings on existing campuses, upgrade equipment and replace obsolete technology, upgrade utility infrastructure and central plants, open four more satellite education centers, and add a second skill center in the West Valley. All projects are planned for completion within the next seven to ten years.

- Cost-effective, customized work force training has made MCCCCD an important resource to both local and relocating businesses and industries in the Valley, and has established MCCCCD as the largest job training provider in Arizona. Since 1982, the MCCCCD Business and Workforce Development department has trained employees of 68 new and expanding Valley companies; and, Motorola University in partnership with Mesa Community College's Business and Industry Institute enrolled approximately 17,500 employees in FY 1994-95.

- In FY 1994-95, the Maricopa Community Colleges Foundation reached new heights in corporate and individual contributions for scholarships and special programs. To date, 6,859 MCCCCD students have been awarded \$1,858,543.

## Issues for 1995-96

- Students attend MCCCCD institutions for a variety of reasons: career enhancement, university transfer, job re-entry, specific occupational skills, less-expensive tuition, convenience, etc. In colleges and universities across the nation, computing and telecommunications are changing the way students learn.

In an MCCCCD Governing Board Strategic Conversation (April 11, 1995), participants projected future student needs and expectations to include the traditional teaching and learning methods as well as more flexible schedules, in-home learning, and 24-hour access to information, 12 months per year. None of these require a "facility;" they require technology. With technology comes more competition to the educational arena. Future educational institutions will no longer have protected sales territories; MCCCCD recognizes this competition as a very real upcoming issue. Therefore, the development of non-traditional partnerships with business and industry will make it possible to take advantage of opportunities such as those provided by distance learning.

In general, MCCCCD operates in a rapidly changing environment with a reasonably strong growth economy in the general community it serves. More emphasis on providing better focused and targeted career programs for many students not desiring to transfer to a university remains a high priority. Many changes in the health provider communities, manufacturing, retail, marketing and financial sectors require constant upgrading of programs.

- The human factor is a critical part of the capital development program implementation. Concurrently, MCCCCD has initiated the Oracle/Apollo technology program to keep pace with academic and

administrative needs; the new hardware and software will require all employees from faculty to administrative staff to undergo significant organizational change. Extensive coordinated training of new processes and goals will be essential.

- Implementation of the capital development program will dominate upcoming issues

throughout the district. The approximate one million square feet of additional space will require new employees and will increase maintenance and operational costs. Maintaining financial health and stability while undergoing a forty percent size increase will require astute management techniques.

## *Chandler-Gilbert Community College*

Ms. Arnette Ward  
President

---

### **Major Accomplishments in 1994-95**

- The Center for Computer Training was established in the Fall of 1994, in response to the needs of business and industry to have an efficient and cost-effective method of training employees on current software applications. Short-term classes are offered in Windows and DOS-based applications including spreadsheets, graphics, word processing and database applications. The Center has been very successful. Now in its second year of operation, other classes and times have been added to better accommodate industry's needs.
- In support of active learning initiatives focusing on critical writing and thinking skills, service learning is the newest learning strategy at CGCC. Service learning goes beyond volunteerism or community service in that it integrates the service experience into the academic curriculum. CGCC's Service Learning program resulted in students contributing over 15,000 hours of community service through hundreds of agencies and sites in the surrounding communities. Other teaching initiatives include workshop physics, integrated teaching community and collaborative learning, portfolio assessment and inquiry based learning.
- The North Central Association of Colleges and Schools (NCA) approved CGCC's Student Learning Outcomes Assessment Plan. The plan, with major emphasis on

critical thinking and personal development, will be implemented starting Fall, 1995.

- The CGCC Aviation Center moved its entire program and staff to the Educational Center adjacent to Williams Gateway Airport. For nearly two years, CGCC has been involved in the development of an "Educational Mall" at the former air force base. This opportunity enables CGCC's Aviation Division to expand into a larger facility under one roof.
- For the third year CGCC Aviation students received the state, regional and national VICA Gold, Silver and Bronze Medal awards. Another student also received a \$17,000 scholarship.

### **Major Issues & Resolutions in 1994-95**

- After passage of the bond election in November, 1994, CGCC Building Committees completed their educational specifications for new classroom and Learning Resource Center buildings. The buildings are expected to be completed in 1997.
- Development of the Sun Lakes Education Center began Spring, 1995. The Advisory Board is working on site selection and course offerings. Announcement of a permanent site will soon be made and off-site non-credit classes began Fall, 1995.

## Issues for 1995-96

- CGCC's service area encompasses the fastest-growing area in the Valley of the Sun. Both Cities of Chandler and Gilbert are ranked among the top three to four fastest growing communities in the nation.
- A new Technician Training Program is planned for Spring, 1996: This program is for those interested in possible employment in semi-conductor and other high-tech manufacturing, assembly, and test industries. Graduates can expect to earn \$25,000 to \$50,000 annually at local high-tech firms.
- To meet the customer demand for quality higher education in the southeast valley, CGCC needs to complete its campus master plan to serve this growing population.
- CGCC is undertaking their self-study for the North Central Association's accreditation visit in Fall 1996.

# *Estrella Mountain Community College Center*

Dr. Homero Lopez  
Provost

---

## **Introduction**

Estrella Mountain Community College Center, the tenth and newest member of the Maricopa Community College District, opened its campus to students in the Fall of 1992. Estrella Mountain is an educational center of Glendale Community College located in southwestern Maricopa County. It is positioned to serve a growing population, currently at 122,000 residents and expected to increase by 100,000 residents in twenty years. Estrella Mountain's service area is comprised of seven west Valley cities: Avondale, Buckeye, El Mirage, Goodyear, Litchfield Park, Surprise, and Tolleson, as well as a portion of west Phoenix.

## **Major Accomplishments in 1994-95**

- Estrella Mountain Community College Center is a national model for the integration of technology. Estrella Hall houses the Information Commons - a space integrating instructional support, library services, and information access. This area is linked to all other facilities on campus and provides voice, video, and data capability. In its brief three-year history, over 2,000 national and international visitors have come to Estrella Mountain to learn how to design, construct, and use these types of facilities for their own institutions.

- Fall 1995 marked the establishment of Estrella Mountain as an Northern Arizona

University (NAU) State Academic Program site. The installation of an interactive instructional television lab supports the delivery of NAU courses and programs on the Estrella Mountain campus. Both four-year and master's level degrees are now available from NAU at the Estrella Mountain site. Partnerships with ASU West and the University of Phoenix also provide transfer to four-year degrees.

- Estrella Mountain received the first place Crescordia Award for Art in Public Places from the Valley Forward Association, Fall of 1994. The award recognizes the campus for exemplary work in the integration of art into campus architecture.

- In its second year, the Estrella Mountain Genesis West program has graduated its first students and doubled the number of students registered in the program. Genesis West, a partnership with both Agua Fria and Tolleson High School Districts offers an alternative school program for academically capable drop-out youth. They complete both their high school diploma and earn college credit on the Estrella Mountain campus.

- In partnership with Rio Salado Community College and the Literacy Volunteers of Maricopa County, Estrella Mountain has served over 6,000 clients in basic skills, ESOL, and GED programs.

- Estrella Mountain is active in the newly-established Western Maricopa County

Enterprise Zone which supports economic development efforts in the West Valley. Estrella Mountain provides consulting and training to local cities and towns and to newly established business and industry.

### **Issues for 1995-96**

The following activities will position Estrella Mountain to better meet the needs of the rapidly growing population of its service area in far western Maricopa County.

- The College is actively engaged in planning for Phase II due to the passage of a Maricopa County bond initiative in the Fall of 1994.

- Estrella Mountain has begun the process to seek independent accreditation from the North Central Association of Colleges and Schools.

# *GateWay Community College*

Dr. Phil Randolph  
President

---

## **Introduction**

As one of the Maricopa Community Colleges, GateWay Community College has served its communities since 1968. Faculty, staff, and students work together to seek and develop opportunities which are innovative and responsive to the diverse needs of their community. By demonstrating its commitment to excellence in teaching and learning, GateWay Community College exceeds the expectations of those it serves. The mission of the college is to provide effective, accessible, and responsive educational services in a multi-cultural environment, resulting in student success and customer satisfaction.

## **Major Accomplishments in 1994-95**

- GateWay Community College enrolled 11,387 individuals; generated 2,418 yearly Full-Time Student Equivalent (FTSE); awarded 206 associate degrees and 639 occupational certificates.
- Specialized accreditation was granted to three occupational programs: Court Reporting, Physical Therapist Assisting, and Medical Radiography.
- The following new occupational programs were implemented: Surgical Nurse First Assistant and Manufacturing Technology.
- As part of a first year Learn and Serve American Higher Education grant, nine

faculty from six disciplines planned, implemented, and monitored service-learning projects -- the integration of community service within the curriculum. Over 600 hours of community service in nine sites were provided by 109 students. Funding for the second year from the Corporation for National Service was also approved.

- GateWay Community College received approval from the Arizona Department of Education to operate a charter high school. GateWay Community High School will provide courses for an accelerated, career-focused high school diploma program. The goal is to academically prepare 16- to 21-year old adult students to enter the labor force in technical or health career areas to pursue post-secondary education.
- The College received a \$35,000 Helen Fuld Health Trust grant for the purchase of interactive video equipment by the Nursing Division.
- The College formed a partnership with the Arizona Conservation Corps providing General Equivalency Diploma (GED) preparation and testing, and college readiness and computer courses for AmeriCorps members.
- Institutional eligibility to participate in federal student aid has been extended through July 1999.

## Major Issues and Resolutions in 1994-95

- Renovation of classrooms into a Chemistry Lab and development of a Real Time Court Reporting lab will offer greater accessibility for students as well as address environmental and safety issues.
- Two Maricopa Small Business Development Centers merged and GWCC relocated its center to the District Office.
- Voters approved the bond issue of the Maricopa County Community College District during the general election on November 8, 1994. Of the \$386 million bond, over \$30 million will be used by GateWay for the construction of an energy-efficient central plant, a Health and Nursing Education Center, expansion of its Child Care Center, on-site improvements, and remodeling of existing buildings.
- More than \$46,000 of tuition assistance funds were received from Maricopa's Budget Development Executive Council for tuition assistance during 1995-96 for individuals of POWER and ICE/VICA programs.

## Issues for 1995-96

- Faculty, staff, and business community representatives will develop education specifications by for the new Health and Nursing Education Center in order to incorporate current and anticipated technologies for effective learning and design flexible space for new and changing curricular offerings as the college enters the 21st century.
- Integration of the GateWay Community High School as part of the college and the district is also an important issue.
- The College will be working on the implementation of the Ford Federal Direct Student Loan program
- Faculty and administration will address the institutionalization and sustainability of service learning.
- Changes within the health field stressing multi-skilled approaches to care-giving, challenge the college to maintain ongoing dialogue with the healthcare profession and monitor and track students' job placements.

# *Glendale Community College*

Dr. John Waltrip  
President

---

## **Introduction**

Glendale Community College celebrated its 30th year in 1995. The college serves over 30,000 credit students each year in northwest Maricopa County. It is a comprehensive two-year college with a full range of courses in the arts, sciences, business and technology.

## **Major Accomplishments in 1994-95**

- Glendale Community College began implementing a seven-year capital development plan including new classrooms, remodeling of aging buildings, and replacing soon-to-be-obsolete classroom equipment.
- The following new courses have been added: 20 new courses in Business Technology for the Office; five new courses in Total Quality Management; Internet—Levels I-III; Making Healthy Decisions: HIV/AIDS; Inter-cultural Perspectives; MacLiteracy for Musicians; Women in Other Cultures; Women Writers (various countries); Review of General Chemistry I; Visual Basic Programming I; Survey of Programming Languages; Pre-Engineering Technology; Writing with Oral Practice I-IV; Classical Backgrounds in Literature; Geostrategy in History and Future; Developmental Algebra; and Math Anxiety Avoidance.
- New programs such as Business Technology for the Office (Data Entry Clerk

certificate, Receptionist certificate, General Office Secretary certificate, Office Coordinator certificate, and Administrative Office Coordinator Associate of Applied Science [AAS] degree); Financial Planning certificate; High Technology (Semi-conductor) Manufacturing AAS degree; Total Quality Management certificate, and a Chrysler (Automotive) Apprenticeship Program have also been added.

- Many departments increased the number of courses available in short-term, open entry/open exit, and flex format.
- New facilities, equipment and technology: a materials request telephone line and Spanish-speaking information line; a voice-activated computer that allows students to run computer programs entirely by voice; a stand-alone reading machine that scans most printed material and reads it aloud; A TDD telephone device for the deaf in the Student Union; networked software for time management, test taking, and learning skills diagnosis. Ground breaking ceremonies were held for the Paolo Soleri Amphitheatre, a siltcast half-domed structure that is an original design created for the college.
- GCC's "Home Page" on the World-Wide Web debuted on the Internet at <http://www.gc.maricopa.edu>.
- The following student success initiatives were implemented: new Student Success

all offices that serve students; an early warning system between faculty and academic advisors to increase student retention, and a faculty handbook for mentoring at-risk students.

### **Issues for 1995-96**

- GCC will continue implementing the capital development plan for physical plant improvements, renovation of facilities, and additional classroom space.
- The Institutional Effectiveness Committee will finalize a strategic planning model and write three-year planning goals. They will

also formalize a list of effectiveness indicators for annual reporting to internal and external constituents.

- Departments will continue to increase the number of courses offered in non-traditional formats to meet the needs of working students.
- Administrators will seek ways to stabilize enrollment trends and increase student retention.
- All employees will welcome a new President.

# *Mesa Community College*

Dr. Larry Christiansen  
President

---

## **Introduction**

Mesa Community College is the largest of the Maricopa Community Colleges and still growing. It is a multi-purpose institution of higher education that provides opportunities for lifelong learning to a diverse student population; promotes excellence in teaching, learning and service; and encourages collaboration among its students, faculty, staff and community within a multi-cultural world.

## **Major Accomplishments in 1994-95**

Mesa Community College enjoyed an outstanding year for 1994-95. The major accomplishments and issues for the year involved enrollment growth and the districtwide bond election, MCC's scheduled reaccreditation self-study and visitation, and the reuse plan of the former Williams Air Force Base.

● In the Fall, MCC achieved new record highpoint enrollments for the Institution. Student unduplicated headcount reached 21,454 students, while Full-time Student Equivalents (FTSE) also reached a record 10,805.3.

● Voters approved the district's November bond issue by 3-to-2 ratio, with particularly strong support in the East Valley. The seven-year \$369 million districtwide capital development program will provide capital funding of approximately \$49 million

for MCC, as well as \$26 million for the development of the East Mesa Campus at Power and McKellips Roads.

● In the Spring, Mesa Community College received a ten-year reaccreditation recommendation, following its scheduled visitation by the North Central Association of Colleges and Secondary Schools. The reaccreditation concluded a three-year self-study process that examined the college in detail. The ten-year accreditation is the maximum allowable term by NCA. MCC also received a ten-year accreditation at its last visitation in 1985.

● Mesa Community College became the first institution to offer college classes at the former Williams Air Force Base when it began fire science classes at the site in October. The base re-use plan was formally approved following several years of negotiations. The East Valley Think Tank, a consortium of all public educational providers in the East Valley, played a major role in shaping the re-use plan.

● MCC also completed a major remodeling of the open computer lab areas, allowing more efficient service to students in even larger numbers.

● The MCC Chamber Opera Company presented the Arizona premier of the Broadway hit, "The Secret Garden," to sell-out crowds.

●The Center for Public Policy and Service received one of the first Americorp volunteers assigned under the new national service program.

●The College completed a major rewiring of the computer networks of the campus, significantly increasing capacity and capabilities.

●The football team hosted and won the annual Valley of the Sun Bowl.

●MCC Engineering faculty John Michael Sims was one of two statewide recipients of the 1994 Wayne M. McGrath Distinguished Faculty Award.

●The College was one of only a handful of community colleges selected as a site for the national BACCHUS Health and Fitness tour. The tour encourages health and fitness choices over substance abuse.

●The Multi-cultural/American Indian Center initiated a series of public presentations/discussions on a wide range of topics related to diversity.

●MCC was selected by Brigham Young University to become the first Arizona college in BYU's transfer consortium. The agreement simplifies transfer by MCC graduates to BYU.

●"The Legend," MCC's student newspaper was recognized as Newspaper of the year by the Associated Collegiate Press. The paper also won Best of Show in the two-year college category.

●MCC music students won ten of the top fifteen places in the districtwide Outstanding Performers Competition.

●The Peervention Program, where student volunteers provide alcohol and drug abuse prevention information, as well as acting as positive role models, was recognized as the college's Innovation of the Year and was also recognized by the Mesa Rotary.

●The A Cappella Choir and the Sun Valley Chorale teamed up with the Mesa Symphony for a performance at the Chandler Center for the Arts of operatic excerpts.

●Five MCC students were named as finalist in the districtwide Creative Writing Competition.

●MCC hosted a districtwide pow wow to honor and celebrate Native American graduates.

●More than 1,200 MCC students received Associate degrees.

### Issues for 1995-96

●A major issue for 1995-96 will be accommodating additional growth created by continued population growth in the East Valley.

●MCC will continue planning for major new facilities using capital development funds from the 1994 bond election. This planning is expected to move to action during the 1995-96 year.

●Mesa Community College will focus on continuous improvement as a major operational agenda to encourage the college to serve its students and the community at large ever more efficiently and effectively.

# *Paradise Valley Community College*

Dr. Raúl Cárdenas  
President

---

## **Introduction**

Paradise Valley Community College is celebrating its 10th anniversary during the 1995-96 academic year. The college began operations in temporary facilities in August 1985 as the Northeast Valley Education Center. Today PVCC has an enrollment of more than 5,300 students. The mission of Paradise Valley Community College is to provide lifelong learning opportunities through effective and accessible instructional programs and student services. These programs and services are continuously evaluated and improved to meet the needs of students, businesses and the community.

## **Major Accomplishments in 1994-95**

- PVCC received a 10-year accreditation by the North Central Association of Colleges and Schools. The recognition was made possible by the contribution and dedication of all segments of the college community - faculty, staff, students and community leaders.
- PVCC established a center for International Studies with the assistance of a \$150,000 International Studies Title VI-B grant from the U.S. Department of Education. The college was designated a Regional Center for Asian Studies by the East-West Center in Hawaii. The college also became a member of the World Trade Center of Arizona, an affiliate of World Trade Centers worldwide. PVCC also developed a partnership with the American Graduate School of International Management to provide expertise in the areas of staff development, specialized seminars and lectures.

- PVCC offered a summer Sports Camp for male and female high school athletes that featured daily workouts in the Fitness Center and classes in nutrition, injury prevention, motivation and goal-setting.
- The College continued to expand its summer session offerings, resulting in a record enrollment of 1,587 students.
- PVCC continued its partnership with the Paradise Valley Unified School District, ASU East and NAU Phoenix with its partnership in Learning Connections, an educational consortium for the north Valley educational institutions. The College expanded its collaboration with the Paradise Valley School District in a joint effort to implement a Tech Prep program.
- The College added new Hazardous Materials Technology degree and certificate programs to its curriculum.
- PVCC, in cooperation with the Greater Paradise Valley Chamber of Commerce, presented Paradise Days, a community festival that recognized community volunteers and health and business organizations.

## **Major Issues and Resolution in 1994-95**

- PVCC added an athletic program consisting of men's and women's cross country, men's and women's tennis and men's golf, beginning with the Fall 1995 semester.
- To broaden its academic offerings, the College

added 17 courses that include American sign language, Arizona geography, critical values in education, food service management, meteorology, and Saturday one-day computer classes.

### **Issues for 1995-96**

With the passage of the Maricopa Capital Development Campaign, PVCC is beginning to

develop plans for a \$28 million expansion program that will include the addition of new classroom buildings and the remodeling of existing facilities. Two new classroom buildings are scheduled to open in January 1998, allowing the college to continue to expand its offerings.

# *Phoenix College*

Dr. Marie Pepicello  
President

---

## **Major Accomplishments in 1994-95**

- After a national search, Dr. Jayni Flores was appointed Dean of Instruction in July.
- With passage of the 1994 bond issue, the College has commenced with the purchase of the Temple Beth Israel property; planning for Library expansion; and improvement of computer labs and computer network.
- A partnership was established through a major grant between the Osborn School District, Xerox Palo Alto Research Center, the U.S. Department of Defense and Phoenix College. The purpose of the grant is to develop the concept of a "Virtual School" which will allow students to learn via computer and have access to teachers and experts worldwide.
- The College continued use of Quality Improvement Teams to review various college processes, e.g. Financial Aid office operations and student government.
- Phoenix College co-sponsored a summer school session in Guanajuato, Mexico.
- The Departments of Justice and Legal Studies provided and hosted a legal expo workshop for legal assisting students and

the community.

- School-to-Work initiatives were implemented in two departments, Applied Arts and Human Sciences, and Art/Photography.
- The College takes pride and continues to celebrate its 75th Anniversary.

## **Major Issues and Resolutions in 1994-95**

- The English Department, under the guidance of Dr. Lisa Miller, continues to formalize the Creative Writing Certificate curriculum.
- For the first time, the Applied Business Department offered several courses via the Internet.
- The Mathematics Department used the collaborative learning approach in several mathematics courses.
- The College has positioned itself and is on-line in preparing for accreditation visitation by the North Central Association of Colleges and Schools scheduled for April, 1996.
- Implementation of structural and operational changes to the Student Athlete Scholastic Success (SASS) Program will allow it to be more effective in serving student athletes.

- The college continues to seek areas which must be brought into compliance with the Americans with Disabilities Act (ADA) regulations.

### **Issues for 1995-96**

- Conclusion of the 75th Anniversary activities and events.
- The College will monitor health reform activities in order to adjust curricula for anticipated changes in the health industry.

- Strengthen instructional technology in support of faculty.

- The continuation of the North Central Association accreditation study and report, leading to the NCA team visit scheduled for April, 1996.

- Continual planning and initiation of remodeling projects made possible with the passage of the 1994 bond issue.

# *Río Salado Community College*

Dr. Linda Thor  
President

---

## **Introduction**

Founded in 1978, Río Salado Community College is the only community college in Arizona designed to serve students who want or need an alternative to a traditional college environment. Approximately 71 percent of Río's more than 24,000 students work full-time. Río responds by offering affordable credit and non-credit courses at more than 250 locations. These classes are provided with advanced technology and through a variety of convenient delivery options.

## **Major Accomplishments in 1994-95**

- Río helped approximately 10,600 students who enrolled in its Adult Basic Education program. Donna Masterjohn, who earned her General Education Diploma (GED) through Río, was awarded the national Adult Basic Education General Education Learner of the Year Award.
- Río's Phi Theta Kappa Honor Society chapter was named a Five Star Chapter and was recognized for achievement in four areas: scholarship, leadership, fellowship and service. Out of approximately 1,100 chapters internationally, Río's chapter was ranked 50th in these four areas.
- Río's Department of Occupational Programs tied for the 1995 Innovation of the Year Award in the Maricopa County Community College District. The

department was selected because of its consistent success in meeting the educational needs of businesses and government agencies.

- Río President, Dr. Linda M. Thor, was elected President of the Arizona Community College Presidents' Council.
- Río created a department of Information Technologies Services and welcomed Ryan Carstens as its Dean of Technology.

## **Major Issues and Resolutions in 1994-95**

- The Governing Board purchased a six story, 120,000 square foot building in Tempe as the future headquarters for Río administration, faculty, and student services. Plans were also made to devote a major portion of the building to a state-of-the-art Technology Production Center, in collaboration with other MCCCDC colleges.
- Río began developing the Río Institute for Senior Education (R.I.S.E.), a Sun Cities-based program open to people ages 55 and older. R.I.S.E. participants design and administer their own courses, programs and activities. Río is in the process of planning a facility in the Sun Cities area for the R.I.S.E. program.
- Río's Distance Learning Department introduced Flex Start classes giving students the freedom to choose the start dates for

their classes. More than 900 students took advantage of this innovative new program in the first session alone.

### **Issues for 1995-96**

- Rio will continue to consolidate its administrative and student services, making Rio Tempe at 14th Street a one-stop center offering a host of classes, as well as

registration, financial aid, tutoring, advising, testing, and other support services.

- Rio will continue to fine tune and expand its offerings to accommodate the changing needs and desires of its students. Rio will continue to lead the MCCC in Distance Learning offerings, and will expand course options for students living throughout the country and the world.

# *Scottsdale Community College*

Dr. Arthur DeCabooteer  
President

---

## **Introduction**

Scottsdale Community College is located on land leased from the Salt River Pima-Maricopa Indian Community. The college's mission is to create accessible, effective and affordable teaching and learning environments for the people of our communities so that they may grow personally and become productive citizens in a changing, multi-cultural world.

## **Major Accomplishments in 1994-95**

- The S.C.C. Community Education Program experienced record enrollment for Spring 1995 - the highest single semester enrollment ever. This trend continued into the summer.
- S.C.C. will offer an Associate of Applied Science Degree (AAS) in Hospitality/Gaming Management beginning this Fall semester. This new 64-credit program is designed to offer the required core of hospitality management courses combined with specialty courses in the new casino management area. The program is aimed at preparing students for entry and mid-level management careers in casino operations and the gaming industry.
- S.C.C. initiated a new orientation program for new students. Included as part of this new effort are: a Saturday orientation session, production of a video tape and brochure outlining easy steps to accessing college services & programs, and a Student Ambassador program.
- The Maricopa County Community College District's \$386 million bond issue was passed by the voters of Maricopa County. S.C.C. will receive \$34 million for new buildings, renovation and upgrading of the central plant.
- The outcomes assessment plan for accreditation by the North Central Association of Colleges and Schools was accepted.
- S.C.C. has established a "Home Page" on the Internet World Wide Web.
- The college has completed marketing and retention plans that will continually look at ways to manage student enrollment strategies and retention.
- The National Science Foundation awarded S.C.C. a \$10,000 grant to fund computers and other software that will be incorporated into the Chemistry curriculum. This project will help S.C.C. students to become acquainted with the current technology used to collect data and prepare scientific reports.
- The National Science Foundation also awarded the college a \$29,089 grant for the "Seamless Integration" project in the Mathematics Department. These funds will provide assistance in the purchase of equipment for the project. This teaching

methodology will integrate the use of computers and calculus math courses. S.C.C. will match the grant, giving the project a funding total of \$58,178.

- The college also received a \$25,000 grant from the U.S. West Foundation to build distance learning electronic classrooms of the future.
- A \$20,000 Eugene P. Davis Memorial Scholarship was awarded to S.C.C. to support deserving students and the college baseball program.
- S.C.C. graduated the first student to complete the Motion Picture/Television Production Tech Prep Program. This 2 + 2 program was developed through the cooperation between Scottsdale Schools and S.C.C.. The objective of the Tech Prep Program is to provide the training needed to enable students to compete for today's highly skilled technical positions.
- A three-year pilot project has been initiated to provide services for International students and to develop programs to expand involvement in International Education.

### **Major Issues and Resolutions in 1994-95**

- College committees will be developing educational construction specifications for the Child Care and Applied Science Buildings. This is the first phase of construction outlined in the bond issue.
- Faculty and staff will be preparing a self study for the North Central Association of Colleges and Schools' visit in January 1997.
- Construction by ADOT, and the College, will have an impact on traffic, congestion,

and parking at S.C.C.. Past parking problems will be alleviated with the addition of 225 student/open parking spaces on campus.

### **Issues for 1995-96**

- S.C.C. will be examining/exploring different methods, times and locations for scheduling classes that appeal to the changing needs of students.
- College personnel will be involved with the districtwide change to learner-centered computing system, with new soft-ware for financial aid, human resources and new student information. Training employees, equipping offices and providing hardware will be a major undertaking for the human resources department.

# *South Mountain Community College*

Dr. John Cordova  
President

---

## **Introduction**

Founded in 1979, South Mountain Community College serves more than 6,000 students each year. SMCC's service area, which surrounds South Mountain Park in Phoenix, includes South Phoenix, Ahwatukee/Foothills, Tempe, Guadalupe and Laveen. The 104-acre campus is located in an area that is a mix of rural, urban and suburban neighborhoods. SMCC offers a liberal arts education in a culturally diverse environment. More than 50 percent of students are of ethnic background and more than 10 percent speak languages other than English.

## **Major Accomplishments in 1994-95**

●**First Year Experience:** A formalized First Year Experience program was developed to improve student retention. First-time students were contacted to participate in new and existing programs.

●**Occupational Program Development:** Four programs are in the process of development. Each program has offered one to two classes each semester such as, microcomputer maintenance and repair, supermarket management, office assistance, and behavior health science.

●**Storytelling Institute:** A group of faculty members formed the South Mountain Storytelling Institute. Two activities were presented. Labyrinth Day, a class project for

mythology students, featured a large labyrinth, which was experienced by many community members including 500 elementary school children. The African American Family Arts Festival, held in February, introduced African culture in storytelling, dance and music. A Storytelling Festival and a variety of activities is planned for 1995-96.

●**Market Analysis:** A telephone survey was conducted with 542 households in south Phoenix, Ahwatukee and Tempe during the Summer of 1994, to gauge the awareness about the college and community needs for services through SMCC. Another survey collected data on businesses with 50 or more employees in the SMCC service area. Survey results were presented in November to all employees. The community survey found that those living closest to the campus have a high awareness of the college, while those living on the south side of the mountains have a very low awareness of SMCC. The majority wanted more occupational programs to be offered. Area businesses were largely unfamiliar with SMCC. There was an anticipated need for training in several areas, including computing and Total Quality Management.

## **Issues for 1995-96**

●**Student Literature Review Team:** A student review team will assist the college in assessing and improving materials intended for student information.

●**Town Hall:** A community town hall is planned early next year to help the college further identify community needs and desires for higher education.

●**Teleservice Technology Program:** Plans are in place for Spring of 1996 to introduce the first program in Arizona that will

emphasize training in customer service, call-center supervision and teleservice technology.

# *Mohave Community College*

Dr. Charles Hall  
President

---

## **Introduction**

Mohave Community College serves the residents of Mohave County and neighboring communities in California, Nevada and Utah from its campuses in Bullhead City, Kingman, and Lake Havasu City, and from the North Mohave Center in Colorado City. The unduplicated headcount for the 1994-95 academic year was 10,719. The Full-Time Student Equivalent (FTSE) for the 1994-95 academic year was 2,034.

## **Major Accomplishments in 1994-95**

- During the past academic year, MCC completed its building expansion program, which added more than 63,000 square feet of learning space among the four sites. The completion of the \$4 million project was the second major building project undertaken by the college since 1992. The two projects combined have added more than 60 new classrooms among the four campus sites.
- Mohave Community College continued its strong relationship with business and industry by working with major new companies on training programs. Among the clients MCC has worked with in the past year are Scott Paper, North Star Steel and Sun State Truss. The college will continue to develop this program during the 1995-96 academic year as additional businesses build and/or relocate to Mohave County. The college's standing offer to develop training programs specifically for

any business in the county remains intact for future or existing businesses.

- The college developed and implemented a major training program in conjunction with the Fort Mojave Tribe. In addition to providing training for all of the employees at the Avi Casino, management employees also enrolled in training courses arranged and taught by MCC.
- Continuing the work that was begun nearly three years ago, Mohave Community College is beginning to see the fruits of the labor that have gone into the development of its Tech Prep program. This program is beginning to be implemented into the area high schools as curriculum articulation and negotiations culminated in the signing of an agreement with the college and area high schools earlier this year.
- For the first time ever, Mohave Community College expanded its course offerings to include a second summer session in 1995. The addition of a second summer session made MCC in effect, a year-round educational institution.
- "Partners In Progress," a major fund-raising campaign, was implemented during the past academic year to obtain additional support for the college and its programs. This program will continue through the 1996-97 academic year in an effort to raise between \$1.3 and \$2.2 million. Funds raised through this community effort will go toward the purchase of equipment, scholarships for students and the retirement of long-term debt.

## Major Issues and Resolutions in 1995-96

● One of the priorities for the 1995-96 academic year is the development of the Emerging Technologies program. This program, when the curriculum is fully developed, will provide specific skills for students who will be entering the emerging high technology fields of business.

● Also an important issue is the continued enhancement of the college through the Partners In Progress campaign. As the fund-raising effort continues, MCC will be better able to service its students by providing equipment, scholarships and reducing the long-term debt of the college.

● Mohave Community College will continue to work with Northern Arizona University on the expansion of NAU's telecommunications link. NAU is currently offering classes in Kingman via the link and is on schedule to begin offering these classes in Lake Havasu City in the Fall of 1995. The link is expected to extend to Bullhead City in 1996.

### Issues for 1995-96

● MCC will continue to upgrade its facilities in compliance with the Americans with Disabilities Act. During the 1995-96 academic year, an estimated \$200,000 will be spent in this area. Many of these improvements such as sloped sidewalks, railings and Braille lettering are already in place.

● Further development and implementation of the Emerging Technologies program is needed.

● With the Tech Prep program now being implemented into the area's high school

## Mohave Community College FACTS AT A GLANCE: 1994-95

Mohave Community College serves the residents of its communities from its campuses in Bullhead City, Kingman, and Lake Havasu City, and from its North Mohave Center in Colorado City.

curricula, the challenge will be that of working with area businesses to provide specific training in skill areas needed for employment.

- Further development and implementation of the Emerging Technologies program is needed.

- The constant challenge for Mohave Community College is that of remaining at the

forefront of developments in technology and curriculum, and balancing the college's resources while meeting these needs.

- Continued staff development through training and in-service activities is also a priority.

# *Northland Pioneer College*

Dr. John Anderson  
President

---

## **Introduction**

Serving an area larger than the state of West Virginia, Northland Pioneer College is a comprehensive, multi-campus community college with four campuses, six satellite centers and numerous other delivery sites throughout Navajo and Apache counties in Northeastern Arizona. NPC was established in 1974 and is primarily funded by Navajo County. An intergovernmental contract allows NPC to provide classes in Apache County, which lacks an organized community college district.

Nearly half of NPC's service-area population is Native American, residing on one of three major Indian Reservations (Navajo, Hopi and Apache) making up nearly 40 percent of the College District's land area.

## **Mission**

The mission of Northland Pioneer College is to provide quality educational programs, services and resources for the residents of Navajo and Apache counties. The curriculum will include a variety of academic, technical and enrichment courses to promote personal growth, develop individual skills, and prepare students for continuing educational and employment opportunities. The College also recognizes the importance of community involvement, environmental awareness, and open access for all who have the desire and ability to learn.

## **Major Accomplishments in 1994-95**

- College President Dr. John Anderson was the recipient of the Arizona Tax Research Association (ATRA) Good Government Award. In accepting the award, Dr. Anderson noted, "This is statewide recognition for the outstanding job done by the faculty and staff in providing the best possible higher education at the lowest cost. Everyone involved with the college shares in this award."
- Navajo County voters approved, by nearly a 2-1 margin, issuing \$15.6 million in general obligation bonds. This was the first successful bond election in the College's 21-year history. The funds will be used to construct four classroom/laboratory/library complexes (one on each of the four campuses), remodel an old middle school donated to the College by the White Mountain Apache Tribe, construct new facilities at Kayenta and Keams Canyon, and expand the interactive telecommunications network linking the College's delivery sites scattered over 21,000 square miles. Planning is already underway on the four classroom facilities, with construction scheduled to begin in January, 1996.
- The District completed the first permanent classroom building on the White Mountain Campus in Show Low. The Ponderosa Center was dedicated Aug. 14, and provides state-of-the-art facilities for the sciences and health sciences. A typical hospital nurses' station and four hospital beds are included in the laboratory for the nursing and nursing

assistant programs.

- NPC was one of 65 Learn and Serve America grant recipients. The \$40,000 planning grant was used to integrate service learning into existing curriculum and to orient faculty to the benefits of service learning. Students participated in several community activities, including the Special Olympics. Fortunately, part of the grant was extended until January, 1996.

- "At-risk" youth are being encouraged to stay and succeed in school through a \$350,000 federally-funded technology and community resources project. The Northeastern Arizona School, College and University Partnership (NA-SCUP) is intended to "reduce the dropout rate in each of the local school system partners." The program will be expanded to other high schools aside from Alchesay High School and the Cibecue Community School now that funding has been approved for another four years. Over 70 percent of Navajo and Apache counties' high school students have been identified as "at-risk." SCUP provides year-round staffing, including academic enrichment and counseling positions, which will be absorbed by the participating school districts by the end of the five-year project.

### Major Issues and Resolutions in 1994-95

- The College secured a third \$200,000 payment from the Legislature for capital improvements on the White Mountain Campus. The payments are being used in a lease-purchase agreement with Sallie Mae for the new Ponderosa Center.

- Northland's Associate Degree Nursing Program was awarded the maximum four-year accreditation by the Arizona State Board of Nursing, which also authorized expanding the program to include the Little

Colorado Campus in Winslow. A second interactive video channel has been added to link the nursing program delivery sites.

### Issues for 1995-96

- A pilot resource sharing program with New Mexico Community College (Hobbs, N.M.) allows NPC faculty or staff to trade places with their NMCC counterparts. This program was proposed by NPC President Dr. John Anderson at the Rocky Mountain Regional Presidents Association.
- Two full-time faculty positions have been added in southern Apache County, part of the \$100,000 contractual increase approved by voters in 1994.
- Northland will actively lobby for increased capital improvement payments from the State Legislature. After receiving \$600,000, the College is still eligible to receive \$2.9 million.
- Northland will continue to seek legislative

funding for mandated programs, including compliance with the Americans with Disabilities Act (ADA), and the extensive requests for data and reports required from both the federal and state level.

- Creative funding sources to allow construction of residence halls on the White Mountain Campus in Show Low will continue to be examined. There is a need, but the numbers still do not allow an affordable, revenue-based project.
- Northland's on-ramp to the Information Super highway is still under construction. Before Northeastern Arizona can access the Internet, five Local Area Networks (LANs) and a two-county Wide Area Network (WAN) need to be completed. Summer monsoons storms have damaged some of the equipment already in place. Other weather-resistant technology may have to be used to link the many educational delivery points.

# *Pima Community College*

Dr. Robert D. Jensen

Chancellor

---

## **Introduction**

Pima Community College, is the fifth largest multi-campus community college in the United States. This year, the College offered more than 2,000 active and pilot courses in 202 different programs leading to Associate of Arts, Associate of Science, Associate of Applied Arts, and Associate of Applied Science degrees and basic, advanced, and technical certificates. In 1994-95, the College served 53,657 students in credit and non-credit classes. Unduplicated headcount was 37,101 for credit courses and 16,556 for non-credit courses.

## **Major Accomplishments in 1994-95**

- The College marked its 25th Anniversary with a year-long celebration, including campus open houses, special arts events, reunions, a community picnic, and a public forum--2020 Vision: the Next 25 Years.

- Pima County voters approved a \$139.98 million bond package to modernize and complete campuses, construct an advanced aviation technology center and education centers in Green Valley and northwest Tucson, upgrade the College's communications infrastructure, and renovate facilities to meet requirements of the Americans with Disabilities Act.

- With the retirement of Dr. Jeff Hockaday, the College Board of Governors appointed

Dr. Robert D. Jensen as its new Chancellor. Dr. Jensen was the Chancellor of Contra Costa Community College District in California at the time of his appointment. PCC's new chief executive reported in September 1995.

- The College hosted two statewide conferences for Arizona's community colleges: 1) an orientation and planning session on the concept of Program Admissions process to support student success and ensure more reliable reporting of student outcomes, and 2) a day-long session on student outcomes assessment and accountability reporting.

- Interactive, touch-screen kiosks for student decision-making information have been installed at off-campus locations at Davis-Monthan Air Force Base, Nogales, the Tucson Urban League, Green Valley, Tucson Medical Center, Rincon and Canyon del Oro High Schools.

- The College expanded its presence in Green Valley by opening a 4,100 square-foot facility in the Green Valley Mall.

- A U.S. State Department grant enabled the College to host the first cultural exchange program between American Indian students from the Pascua Yaqui Tribe and students from Kazakhstan. Pima Community College was the first community college to receive the prestigious American Association of University Administrators John L. Blackburn Award for cost savings and excellence through restructuring, and had the lowest administrative

costs per full-time student of Arizona's community colleges. It also received the Pima County 1994 Pollution Prevention Award and the Arizona Pollution Prevention Leadership Enhancement (APPLE) Award.

- PCC's Small Business Development and Training Center teamed with the Tucson Indian Center to set up the Small Business American Indian Satellite Center.

- PCC's Desert Vista Campus launched the "Sequential Degree" program partnership with the University of Arizona, with 20 students in Bilingual Education. The College also expanded an Interdisciplinary Studies degree program with the UA's Extended University.

- The PCC Office of Financial Aid decreased the average financial aid award time from eight to four weeks.

- In collaboration with business and industry representatives, the Office of Occupation Education completed 17 DACUM processes, analyzing skill performance requirements in each business/industry cluster.

### Major Issues and Resolutions in 1994-95

- A Basic Skills Assessment Task Force completed the first phase of a plan to assess entering students in Reading, Writing, and Math for placement purposes.

- PCC and the Tucson Unified School District signed a memorandum of understanding to promote seamless transitions from K-12 to the community college to the university. The College is also working with five area school districts

## *Pima Community College* **FACTS AT A GLANCE: 1994-95**

Pima Community College,  
the fifth largest multi-campus community college in  
the nation, celebrates its 25th anniversary in 1994-95.

to create a "continuous curriculum" from grade 11 through community college.

### **Issues for 1995-96**

- The College will update its Mission Statement and Mission Indicators of Success under the leadership of its new chancellor. This will be preceded by a process to clarify institutional values.

- The College will break ground on its 40,000 square foot Community Campus facility in the Downtown Commerce Park. It will house a teleconference center for use by the College, Northern Arizona University, corporations, and community organizations.

- The College will pilot test and consider adoption of a computerized skills assessment battery.

- PCC's Office of Assessment Research will conduct indepth analyses of student outcomes using the College's longitudinal file of student data and the statewide student tracking system.

- District and campus-level task forces will complete educational specifications and detailed planning for capital expenditures under the \$139.98 million bond funding.

- Interactive video advising units to assist students in academic and career choices have been installed at the West Campus Disabled Student Resources Center and Davis-Monthan AFB, and will be followed by units on the Tohono O'odham Nation in Sells and at the Nogales Education Center.

- The Adjunct Faculty Task Force will complete its evaluation of the implementation of the 3-year plan to improve recruitment, support, and compensation of part-time faculty, and the task force will update its recommendations.

- The College will formulate a long-range approach to enrollment management.

# *Central Arizona College*

Dr. John J. Klein  
President

## **Introduction**

Established as the Pinal County Community College District in 1962, Central Arizona College includes campuses in Aravaipa, north of Tucson between Mammoth and Winkelman; Signal Peak, north of Tucson and south of Phoenix between Casa Grande and Coolidge; Superstition Mountain in Apache Junction; and an education center at the Arizona State Prison in Florence. The college's mission is dedicated to the lifelong learning process and seeks to further the educational, social, economic and cultural development of its constituents in the following areas: general education, transfer education, occupational and technical education, student development, developmental education, continuing education and community services and economic development.

## **Major Accomplishments in 1994-95**

- Most of CAC's Honors Program sophomores were accepted into honors programs at the University of Arizona and the University of Iowa. Fourteen student-athletes were named Academic All-Americans (3.6 grade point average). In addition, the Women's Softball team won its eighth national championship in the last 12 years; Men's Track and Field finished third in the nation; Women's Basketball finished seventh in the nation; and Men's Cross Country finished third nationally.
- 25th Anniversary celebrations included

festivities at each campus, including a ribbon-cutting ceremony for Superstition Mountain Campus' new laboratory science building, which will house the new Health Occupations program; an alumni reception prior to commencement at Aravaipa Campus; and presentation of a time capsule, speeches by former college officials and students, and a reception for Governing Board Award recipients prior to commencement at Signal Peak.

- Phase III of distance learning on the CACNet interactive video/audio microwave system was implemented, connecting the Aravaipa, Signal Peak and Superstition Mountain campuses with multimedia classes broadcast to and from each location.
- CAC's connection to the worldwide Internet information system now includes all three campus Learning Resource Centers, strengthening the college's commitment to enhance student and staff access of information.
- A master plan of facilities at all three campuses included maintenance upgrades, building repairs and renovations in compliance with Americans with Disabilities Act requirements. A central plant replacement of the heating and cooling system was also completed at Signal Peak.
- Increased enrollment by serving 14,157 unduplicated headcount due to growth in

Pinal County and business expansion, providing workforce development.

## Major Issues and Resolutions in 1994-95

Working with community and industry leaders, CAC strengthened its alliance with Caterpillar and Empire Machinery by offering a more concentrated diesel/heavy equipment training program. New educational programs in Health Occupations, Workforce 2000, Environmental Technology, and Electronics Manufacturing were developed, the latter targeting the growing semiconductor manufacturing industry with the help of Intel Corporation. Corrections Officer training was also conducted with Corrections Corporation of America, which operates private prisons. A new degree program for correctional officers was also developed for Arizona Department of Corrections.

- Teaching innovations included Continuous Improvement techniques in the classroom, linked courses, and learning communities. Computer upgrades and the establishment of multimedia classrooms also improved the teaching and learning process.

- CAC formed a strategic alliance with Northern Arizona University, providing on-site offices and distance learning classrooms at Signal Peak to offer upper division and graduate level courses to Pinal County residents.

- The Small Business Development Center was reorganized with the assistance of Pinal County government to deliver services to business in an ever-changing economy.

## Central Arizona College FACTS AT A GLANCE: 1994-95

Central Arizona College's mission is dedicated to the lifelong learning process and seeks to further the educational, social, economic and cultural development of its constituents.

### Enrollment

Annual Full-Time Student Equivalent. . . . . 3,060  
 Fall Headcount (credit) . . . . . 4,240  
 Spring Headcount (credit) . . . . . 4,650

<i>by Full- or Part-Time</i>	Fall	Spring
Full-Time	1,091 (25.7%)	911 (19.6%)
Part-Time	3,149 (74.3%)	3,739 (80.4%)

<i>by Gender</i>	Fall	Spring
Female	2,494 (58.8%)	2,676 (57.5%)
Male	1,746 (41.2%)	1,974 (42.5%)

<i>by Ethnicity/Race</i>	Fall	Spring
American Indian	201 (4.7%)	253 (5.4%)
African American	128 (3.0%)	117 (2.5%)
Asian American	36 (0.8%)	32 (0.7%)
Caucasian	2,621 (61.8%)	3,066 (65.9%)
Hispanic	1,252 (29.5%)	1,180 (25.4%)
Other	2 (0.0%)	2 (0.0%)

### Instructional Staff

Full-Time Instructors, Fall 1994 . . . . . 95  
 Part-Time Instructors, Fall 1994 . . . . . 286

### District Sources of Funds

District Tax Levy . . . . . \$9,740,244  
 State Aid . . . . . \$5,560,800  
 Tuition and Fees . . . . . \$1,439,765  
 Fund Balances . . . . . \$2,433,547  
 Other & Transfers . . . . . \$864,023  
 Less Amount for Future Acquisitions . . . . . \$0

### District Expenditures

General Fund . . . . . \$15,384,627  
 Capital Outlay Plant Fund . . . . . \$1,654,585  
 Bond & Debt . . . . . \$295,000  
 Bond & Debt Interest . . . . . \$144,338

- CAC Foundation fundraising activities intensified. The Foundation received more than \$100,000 in donations and awarded more than \$75,000 in scholarships.

### **Issues for 1995-96**

- Developing strategic plans to meet current and future growth for the Governing Board and staff will continue to be a challenge with unpredictable funding sources.

- State-mandated tax incentives for corporations will continue to decrease funding from property valuation assessments and place a greater burden and reliance on

state appropriations, residential property owners, and student tuition and fees.

- The lack of articulation with the state's public universities will continue to place hardship on community college transfer students.

- The Arizona Revised Statutes §15-14.63, provides for state matching funds for campus development. CAC is requesting \$1 million from the State Legislature to aid in completing development of the Superstition Mountain Campus in Apache Junction.

# *Yavapai College*

Dr. Doreen Dailey  
President

---

## **Introduction**

Campuses in Prescott and the Verde Valley, extension sites in Chino Valley, Prescott Valley and Sedona and numerous outreach sites, provide educational services to a rapidly growing population in an area of over 8,100 square miles. Telecommunications technology provides interactive courses between Prescott and the Verde Valley and to outlying areas. The College offers professional-technical programs, university transfer courses and, as an active member of the community, pursues partnerships with business to offer specialized contract training. Collaborations allow the College to efficiently husband operating funds and provide additional learning opportunities for constituents.

The college hosts the largest Elderhostel in the United States and provides small business counseling through Small Business Development Centers in Prescott and the Verde Valley.

## **Major Accomplishments in 1994-95**

- The new Vision, Purpose, and Mission statement has become an integral part of the College and service to students is the byword of all employees.
- Pursuing a chief objective of the recent accreditation study, faculty are designing ways to accurately measure student success. Applied in many programs, one example has

English students developing portfolios with examples of work to show future employers.

- Self-management principles are being espoused throughout the College. The District Student Services Council(DSSC) has successfully team-managed student services for over a year without a dean. The result has been improved communication between departments and improved services to students.
- The college has undertaken a comprehensive stewardship activity, involving employees in identifying ways to reduce cost per Full-Time Student Equivalent (FTSE) and increase efficiency.
- A national conference on Tech-Prep School-To-Work initiatives held at Yavapai College in early August attracted leaders in the School-To-Work initiatives Dale Parnell, Dan Hull and David Crippens as presenters. The number of schools in the Tech-Prep consortium has tripled in the past year and the three-day workshop acquainted many high-school instructors with the techniques and application of Tech-Prep education in the classroom.

- Recent data verify that existing professional/technical programs meet the needs of the county and reinforced goals to provide more short-term instruction, focus on the impact of technology, and find ways to deliver instruction at the work site. Yavapai College has created a Technology Center to allow flexibility in program offerings, enhance support for existing programs, maintain an up-to-date curriculum and allow the college to expand into other technology-based

instruction. A computer lab will provide a hub for year-round computer-based training.

- The College has extended its electronic reach via television into outlying areas. Enrollment is strong and plans are to increase course offerings as mechanics permit. An Interactive Television classroom on the Prescott Campus has been dedicated to NAU and in the first year has seen enrollment more than double that projected.

- A "Center for Creative Imaging" is under development in conjunction with the new Sedona Cultural Park. Curriculum being explored in cooperation with business and industry will design programs to train individuals for the visual communications industry of the 21st century.

- The Prescott Valley Business and Career Center will be open by Summer of 1996. Programs will prepare adults for job upgrades and changes.

- Directed and funded by the Center for Disease Control in Atlanta and the Arizona Department of Health Services, the biology faculty have undertaken a major, two-year study of Hantavirus in Northern Arizona. It is unique for a community college to do research on a national scale.

- In collaboration with area secondary schools, the college has developed an alternative school on the Prescott Campus for high school students at risk of dropping out. In its first two months, the school already has a waiting list.

### Major Issues and Resolutions in 1995-96

- Stewardship within the college and educational outreach will be principal issues. Employees have been challenged to work together to reduce costs and increase FTSE.

## *Yavapai College* **FACTS AT A GLANCE: 1994-95**

Yavapai College provides educational services in a county nearly the size of Massachusetts. Two major campuses, along with other sites throughout the county, serve a rapidly growing county population.

- Providing educational opportunities throughout the county has challenged the college to develop innovative teaching and learning methods. Mobile computer labs, short-term training, distance delivery by television and interactive video are challenging new ways of providing education to students.

- cultivate tri-city educational collaboratives with secondary and middle schools.

- develop methods and procedures for governance that invest employees with responsibility.

### **Issues for 1995-96**

- The challenge is to expand on early victories and continue to develop learning methods.

Yavapai College must harness technology to assure effectiveness of teaching and learning and continue to:

- expand its role in economic and community development.

# *Arizona Western College*

Dr. James Carruthers  
President

---

## **Introduction**

Arizona Western College, the first community college established under the Arizona Community College Law of 1960, opened its doors to students in the fall of 1963. AWC is committed to the Arizona community college system's "Statement of Philosophy" and provides comprehensive, lifelong, quality learning opportunities through a broad range of curricula and support services which address the intellectual, social, and cultural needs of its constituents.

## **Major Accomplishments in 1994-95**

- Northern Arizona University in Yuma secured funding for a 50,000 square foot building on campus. The building is expected to be ready for occupancy by spring semester, 1997.
- Over 140 participants took part in the Language Institute during its first year of operation.
- North Central Association of Colleges and Schools approved AWC's assessment plan. The first stages of this plan are currently underway.
- Six additional classrooms were completed and ready for use at the Gadsden Middle School/AWC San Luis Center. Through the partnership, this addition gives AWC access to classroom space during daytime hours as well as additional space in the evenings.

- A certificate program for culinary arts was added to the curriculum.
- An Associate in General Studies major was added to the curriculum, which will better serve students building specific transfer degree options.

## **Issues for 1995-96**

- Secure greater commitment from the legislature to increase community college appropriations and to create greater funding equity at the state and local levels.
- Continue consortium activity, most notably with NAU in Yuma.
- Develop plans for the renovation of the Student Services Building to enhance cooperation, interaction, and the merging of AWC and NAU in Yuma student service functions.
- Purchase and implement computer software to enhance and expedite customer service.
- Develop a comprehensive plan of management, student tracking, academic advising, financial aid processing, and compliance reporting.
- Develop long-range plans for the academic, physical plant, and student services areas.

*Arizona Western College*  
**FACTS AT A GLANCE: 1994-95**

Arizona Western College provides comprehensive, lifelong, quality learning opportunities through a broad range of curricula and support services which address the needs of its constituencies.

## SKILL CENTERS

Another dimension of postsecondary education may be experienced at one of Arizona's Skill Centers. There are two centers which are located in Maricopa and Pima Counties. These centers are unique operations that have existed in Arizona since 1962. Their purpose is to train unemployed and under employed persons for entry or re-entry into the labor market. Even though each Skill Center is responsible to the local community college district, they maintain a great degree of autonomy.

Most programs at the Skill Centers do not require a high school diploma for entry although students are encouraged to take advantage of the tutoring and testing available for a General Education Development (GED) certificate. In order to be truly responsive to the needs of students, the open-entry/open exit concept is utilized. Students may enroll on any day of the week, and they receive their certificates of completion the day they are "job-ready".

Listed below are some of the training clusters offered at one or more of Arizona's Skill Centers:

Accounting and Payroll	Food Preparation/Service
Auto Body	Health Occupations
Business and Office Education	Hotel and Airline Reservations
Carpentry: Qualified Framer	Meatcutting
Computer Based Programs/Occupations	Printing
Computerized Office Procedures	Retail Skills
Facilities Maintenance	Retail Banking
Federal Correctional/Institutions	Safety Trades
Welding Trades	

### Skill Centers of Arizona Enrollment Data

<u>Skill Centers</u>	<u>FTSE*</u>	<u>Student Clock Hrs.</u>	<u>No. of Students</u>	<u>No. of Programs</u>	<u>Job** Placement</u>	<u>Certificates Awarded</u>
Maricopa	810	518,157	3,039	13	1,744	2,492
Pima	427	272,980	876	4	488	600
<b>Total</b>	<b>1,237</b>	<b>791,137</b>	<b>3,915</b>	<b>17</b>	<b>2,232+</b>	<b>3,092</b>

\* One Skill Center FTSE (full-time student equivalent) equals 640 clock hours of instruction.

\*\*Conducted by Skill Center. Additional placements made by cooperating agency job developers and Department of Economic Security Job Services. (Estimated 70%)

+ These are verifiable placements by the Skill Centers.

# Tech Prep

---

Tech Prep programs are designed to provide students with higher levels of academic and technical skills. Traditional lines between academic and vocational/ occupational instruction are diminished. Tech Prep helps students focus on the importance of a sound educational program through commitment to a program designed with a non-duplicative sequence of competencies through community college and beyond.

There are 15 Tech Prep consortia in Arizona. All the community college districts are members along with 95 high schools and districts. The consortia and programs are as follows:

**Cochise Consortium:** Business, Health, Public Service, Technology

**Coconino Consortium:** Accounting, Administrative Support, Business Administration, Computer Information Systems, Computer-Aided Drafting, Construction (Building) Trades, Hospitality, Marketing, Nursing (Health)

**Eastern Arizona Consortium:** Advertising Design, Automotive Technology, Child Development, Drafting, Machine Welding, Office Technology, Small Business Management

**East Valley Consortium:** Accounting, Administrative Support, Aircraft Maintenance, Allied Health, Culinary Arts, Electronics, Marketing

**Glendale Consortium:** Accounting, Agriculture/ Biotechnology, Automotive, Child Care, Drafting, Electronics, Health Occupations, Marketing, Nursing Assistant, Office Automation Systems

**Mohave Consortium:** Administrative Support, Building Trades, Business, Computer Informa-

tion, Health Services, Hospitality

**Northland Consortium:** Administrative Office Support, Building Trades (Construction Technology), Business/Computer Information Systems/ Accounting, Computer/Industrial/Electronics Technology, Drafting, Early Childhood Education, Health Related Occupations

**Paradise Valley Consortium:** Accounting, Computer Information Systems, Engineering/ CAD, Environmental Hazardous Materials Technology, International Business, TQM: Customer Service and Process Leadership.

**Phoenix Consortium:** Fashion Merchandising, Fashion Technology, Food Preparation Administration, Interior Design, Printing/Graphics Technology.

**Pima Consortium:** Administrative Support, Advanced Technology, Allied Health, Automotive Technology, Design/Construction/Operations & Maintenance.

**Pinal Consortium:** Child Care Guidance, Health Occupations, Hospitality, Manufacturing/ Engineering Technology, Office Administrative Support

**Scottsdale Consortium:** Drafting, Environmental Design, Personal Computer Applications, Motion Picture/TV Production

**Southwest Arizona Tech Prep Consortium:** Accounting, Agriculture Business, Agriculture/ Biotechnology, Automotive Technology, Business, Business/Information Systems, Culinary Arts, Drafting/CAD, Early Childhood Education, Marketing, Welding

**West Maricopa Consortium:** Administration of Justice, Administrative Support, Business and Personal Computers, Computer Science, General Business, Health, Marketing/Hospitality

**Yavapai Consortium:** Agricultural Administration, Business/Computer Technology, Computer Assisted Design, Construction, Health

Science, Hospitality, Office Administration, Paralegal

Tech Prep is a federal program funded by the Carl D. Perkins Vocational and Applied Technology Act of 1990 and is coordinated statewide from the office of the State Board of Directors for Community Colleges of Arizona.
