JUDICIAL DECISIONS

The statutory requirement that no member of the board of chiropractic examiners can be a stockholder in or member of the faculty or board of trustees of any school of chiropractic was not violated by a member who was listed in the bulletin of a chiroprac-

tic college as a member of its board of trustees and a visiting lecturer where, inter alia, he declined the invitation to serve, he never attended any meetings of the board and did not participate as a member of the faculty or deliver any lectures to classes; the introduction in evidence of an opinion by the attorney general which was rendered after the filing of this action, although contrary to statute, was harmless error. *State ex rel. Smith v Morgan* (1978, Miss) 361 So 2d 338.

An attorney general's opinion, itself infected with unconstitutional state action in attempting to support the action of a school board in establishing a racially segregated private school, cannot be relied on to justify an unconstitutional action, despite statutory language exonerating persons acting in good faith in accordance therewith. *United States v Tunica County School Dist.* (1970, ND Miss) 323 F Supp 1019, affd (CA5 Miss) 440 F2d 377.

Where district attorney was serving three counties, he was not precluded from maintaining mandamus proceedings on behalf of

one of such counties to compel motor vehicle comptroller to pay over certain funds to county out of gasoline tax collections in excess of the share which comptroller was willing to concede. *McCullen v State* (1953) 217 Miss 256, 63 So 2d 856.

Right to bring a mandamus action on behalf of Hancock county, to compel the state highway commission to appraise and reimburse such county for its proportionate value of a bridge, connecting Hancock and Harrison counties, which had been taken over by the commission, was not in the attorney general exclusively, but the district attorney of the judicial district in which Hancock county is located also had such right, and could maintain the action in Hinds county. *State ex rel. Cowan v State Highway Com.* (1943) 195 Miss 657, 13 So 2d 614.

The courts will not undertake to control the attorney general in the matter of his official opinion. *Woodbury v McClurg* (1901) 78 Miss 831, 29 So 514.

JUDICIAL DECISIONS

The decision of the Supreme Court declaring unconstitutional the portion of the Sovereign Immunity Act (§§ 11-41-6 et seq.) mandating that all claims against the State be governed by case law governing sovereign immunity as it existed on November 10, 1982, applies prospectively only, and is "purely prospective" so that it applies only to claims arising after the mandate issues. *Presley v Mississippi State Highway Com.* (1992, Miss) 608 So 2d 1288.

To the extent that § 11-46-6 purports to freeze the doctrine of sovereign immunity to the state of development of the common law prior to *Pruett v City of Rosedale* (1982, Miss) 421 so2d 1046, it is void; the State is immunized from claims arising thereafter to the extent that the Supreme Court would do so applying the evolving standards of common law, including any extensions or contractions of the doctrine deemed appropriate, on a case by case basis and to the extent that those benefitting by the immunity did not

prepare themselves by acquiring insurance policies covering the liability in question in the event that immunity did not obtain. *Presley v Mississippi State Highway Com.* (1992, Miss) 608 So 2d 1288.

The portion of the Sovereign Immunity Act (§§ 11-46-1 et seq.) requiring that all claims against the State be governed by case law governing sovereign immunity as it existed immediately prior to the decision in *Pruett v City of Rosedale* (1982, Miss) 421 So 2d 1046 is unconstitutional as it violates the doctrine of separation of powers and the prohibition against reviving or amending a law by reference to its title only. *Presley v Mississippi State Highway Com.* (1992, Miss) 608 So 2d 1288.

State Highway Commission is alter ego of state and shares in state's Eleventh Amendment immunity from suit in federal court. *Brady v Michelin Reifenwerke* (1985, SD Miss) 613 F Supp 1076.

§ 11-46-3. Declaration of legislative intent.

(1) The Legislature of the State of Mississippi finds and determines as a matter of public policy and does hereby declare, provide, enact and reenact that the "state" and its "political subdivisions," as such terms are defined in Section 11-46-1, are not now, have never been and shall not be liable, and are, always have been and shall continue to be immune from suit at law or in equity on account of any wrongful or tortious act or omission or breach of implied term or condition of any warranty or contract, including but not limited to libel, slander or defamation, by the state or its political subdivisions, or any such act, omission or breach by any employee of the state or its political subdivisions, notwithstanding that any such act, omission or breach constitutes or may be considered as the exercise or failure to exercise any duty, obligation or function of a governmental, proprietary, discretionary or ministerial nature and notwithstanding that such act, omission or breach may or may not arise out of any activity, transaction or service for which any fee, charge, cost or other consideration was received or expected to be received in exchange therefor.

(2) The immunity of the state and its political subdivisions recognized and reenacted herein is and always has been the law in this state, before and after November 10, 1982, and before and after July 1, 1984, and is and has been in full force and effect in this state except only in the case of rights which, prior to the date of final passage hereof, have become vested by final judgment of a court of competent jurisdiction or by the express terms of any written contract or other instrument in writing.

JUDICIAL DECISIONS

A county was protected by sovereign immunity in a wrongful death action arising from an automobile collision which occurred on a county road bridge on September 20, 1985, following the enactment of §§ 11-46-1 et seq. *Coplin v Francis* (1994, Miss) 631 So 2d 752.

The decision of the Supreme Court declaring unconstitutional the portion of the Sovereign Immunity Act (§§ 11-41-6 et seq.) mandating that all claims against the State be governed by case law governing sovereign immunity as it existed on November 10, 1982, applies prospectively only, and is "purely prospective" so that it applies only to claims arising after the mandate issues. *Presley v Mississippi State Highway Com.* (1992, Miss) 608 So 2d 1288.

To the extent that § 11-46-6 purports to freeze the doctrine of sovereign immunity to the state of development of the common law prior to *Pruett v City of Rosedale* (1982, Miss) 421 so2d 1046, it is void; the State is immunized from claims arising thereafter to the extent that the Supreme Court would do so applying the evol-

ing standards of common law, including any extensions or contractions of the doctrine deemed appropriate, on a case by case basis and to the extent that those benefitting by the immunity did not prepare themselves by acquiring insurance policies covering the liability in question in the event that immunity did not obtain. *Presley v Mississippi State Highway Com.* (1992, Miss) 608 So 2d 1288.

The portion of the Sovereign Immunity Act (§§ 11-46-1 et seq.) requiring that all claims against the State be governed by case law governing sovereign immunity as it existed immediately prior to the decision in *Pruett v City of Rosedale* (1982, Miss) 421 So 2d 1046 is unconstitutional as it violates the doctrine of separation of powers and the prohibition against reviving or amending a law by reference to its title only. *Presley v Mississippi State Highway Com.* (1992, Miss) 608 So 2d 1288.

In a personal injury action against a city and city officials, the 6-year statute of limitations set forth in § 15-1-49, rather than the 2-year statute of limitations set forth in § 11-46-11(3) of the Tort

Claims Act, applied since the Tort Claims Act had not yet taken effect. *Starnes v Vardaman* (1991, Miss) 580 So 2d 733.

The continuance of electrical power is a property interest worthy of due process protections. Thus, the defense of sovereign immunity was not available to a county where a homeowner alleged

that he had been damaged when the county and an electrical utility discontinued his electrical power, since sovereign immunity is no defense where a violation of constitutional rights is concerned. *Tucker v Hinds County* (1990, Miss) 558 So 2d 869.

§ 11-46-5. Waiver of immunity; course and scope of employment; presumptions.

(1) Notwithstanding the immunity granted in Section 11-46-3, or the provisions of any other law to the contrary, the immunity of the state and its political subdivisions from claims for money damages arising out of the torts of such governmental entities and the torts of their employees while acting within the course and scope of their employment is hereby waived from and after July 1, 1993, as to the state, and from and after October 1, 1993, as to political subdivisions; provided, however, immunity of a governmental entity in any such case shall be waived only to the extent of the maximum amount of liability provided for in Section 11-46-15.

(2) For the purposes of this chapter an employee shall not be considered as acting within the course and scope of his employment and a governmental entity shall not be liable or be considered to have waived immunity for any conduct of its employee if the employee's conduct constituted fraud, malice, libel, slander, defamation or any criminal offense other than traffic violations.

(3) For the purposes of this chapter and not otherwise, it shall be a rebuttable presumption that any act or omission of an employee within the time and at the place of his employment is within the course and scope of his employment.

(4) Nothing contained in this chapter shall be construed to waive the immunity of the state from suit in federal courts guaranteed by the Eleventh Amendment to the Constitution of the United States.

§ 11-46-7. Exclusiveness of remedy; joinder of government employee; immunity for acts or omissions occurring within course and scope of employee's duties; provision of defense for and payment of judgments or settlements of claims against employees; contribution or indemnification by employee.

(1) The remedy provided by this chapter against a governmental entity or its employee is exclusive of any other civil action or civil proceeding by reason of the same subject matter against the governmental entity or its employee or the estate of the employee for the act or omission which gave rise to the claim or suit; and any claim made or suit filed against a governmental entity or its employee to recover damages for any injury for which immunity has been waived under this chapter shall be brought only under the provisions of this chapter, notwithstanding the provisions of any other law to the contrary.

(2) An employee may be joined in an action against a governmental entity in a representative capacity if

the act or omission complained of is one for which the governmental entity may be liable, but no employee shall be held personally liable for acts or omissions occurring within the course and scope of the employee's duties. For the purposes of this chapter an employee shall not be considered as acting within the course and scope of his employment and a governmental entity shall not be liable or be considered to have waived immunity for any conduct of its employee if the employee's conduct constituted fraud, malice, libel, slander, defamation or any criminal offense.

(3) From and after July 1, 1993, as to the state, from and after October 1, 1993, as to political subdivisions, and subject to the provisions of this chapter, every governmental entity shall be responsible for providing a defense to its employees and for the payment of any judgment in any civil action or the settlement of any claim against an employee for money damages arising out of any act or omission within the course and scope of his employment; provided, however, that to the extent that a governmental entity has in effect a valid and current certificate of coverage issued by the board as provided in Section 11-46-17, or in the case of a political subdivision, such political subdivision has a plan or policy of insurance and/or reserves which the board has approved as providing satisfactory security for the defense and protection of the political subdivision against all claims and suits for injury for which immunity has been waived under this chapter, the governmental entity's duty to indemnify and/or defend such claim on behalf of its employee shall be secondary to the obligation of any such insurer or indemnitor, whose obligation shall be primary. The provisions of this subsection shall not be construed to alter or relieve any such indemnitor or insurer of any legal obligation to such employee or to any governmental entity vicariously liable on account of or legally responsible for damages due to the allegedly wrongful error, omissions, conduct, act or deed of such employee.

(4) The responsibility of a governmental entity to provide a defense for its employee shall apply whether the claim is brought in a court of this or any other state or in a court of the United States.

(5) A governmental entity shall not be entitled to contribution or indemnification, or reimbursement for legal fees and expenses from its employee unless a court shall find that the act or omission of the employee was outside the course and scope of his employment. Any action by a governmental entity against its employee and any action by an employee against the governmental entity for contribution, indemnification, or necessary legal fees and expenses shall be tried to the court in the same suit brought on the claim against the governmental entity or its employee.

(6) The duty to defend and to pay any judgment as provided in subsection (3) of this section shall continue after employment with the governmental entity has been terminated, if the occurrence for which liability is alleged happened within the course and scope of duty while the employee was in the employ of the governmental entity.

(7) For the purposes of this chapter and not otherwise, it shall be a rebuttable presumption that any act or omission of an employee within the time and at the place of his employment is within the course and scope of his employment.

(8) Nothing in this chapter shall enlarge or otherwise adversely affect the personal liability of an employee of a governmental entity. Any immunity or other bar to a civil suit under Mississippi or federal law shall remain in effect. The fact that a governmental entity may relieve an employee from all necessary legal fees and expenses and any judgment arising from the civil lawsuit shall not under any circumstances be communicated to the trier of fact in the civil lawsuit.

JUDICIAL DECISIONS

When the State is sued to determine whether a state statute or action is unconstitutional, the State cannot be held liable for damages if the conduct falls within one of the exceptions found in § 11-46-9. *State v Hinds County Bd. of Supervisors* (1994, Miss) 635 So 2d 839.

A county's action seeking a determination of whether § 47-5-112 violated any constitutional rights enjoyed by the county was not barred, since there is no sovereign immunity when the relief sought is a declaration that a particular statute or action of the State is unconstitutional. *State v Hinds County Bd. of Supervisors* (1994, Miss) 635 So 2d 839.

Sheriff's deputies who obtained a search warrant were shielded

from liability by qualified immunity since the action of obtaining the search warrant was discretionary rather than ministerial. *Barrett v Miller* (1992, Miss) 599 So 2d 559.

Sheriff deputies were not exercising discretionary authority in searching a home where the deputies were acting under a search warrant which gave them the authority to search and set out the parameters in which the search should be carried out; the execution of the search warrant was a ministerial act and required no discretionary decision making, aside from the places in the house to be searched, on the part of the deputies executing the warrant, and therefore the deputies who executed it were not shielded from

liability by qualified immunity. *Barrett v Miller* (1992, Miss) 599 So 2d 559.

A sheriff's duties with respect to operating a jail and keeping prisoners confined were discretionary in nature and, therefore, the sheriff was entitled to the protection of qualified immunity in a suit to recover for the wrongful death of a victim who was murdered by escaped inmates. *McQueen v Williams* (1991, Miss) 587 So 2d 918.

Any liability on the part of the Mississippi State Highway Commission for a breach of its implied warranty that plans and specifications to a contractor for resurfacing would provide a reasonably safe highway, was premised upon a tort liability arising from negligently defective plans and specifications, rather than any contractual obligation, and therefore the Commission was immune from suit. *Employers Ins. of Wausau v Mississippi State Highway Com.* (1990, Miss) 575 So 2d 999, cert den (US) 116 L Ed 2d 46, 112 S Ct 72.

The governor's duties under § 47-5-93 and § 7-1-5(c) and (d) are discretionary and, as such, the governor enjoys a qualified immunity to a civil suit for damages based on the governor's alleged failure to perform his duties under those statutes. *McFadden v State* (1989, Miss) 542 So 2d 871.

Although ordinarily private individual may not maintain suit against school district to enforce zoning ordinance or to enjoin what is in essence public nuisance created by construction of school building, where construction of school building in violation of municipal offstreet parking ordinance would obstruct abutting landowner's right of ingress and egress, landowner may obtain injunction against construction of building unless and until school district complies with parking ordinance. *Robinson v Indianola Municipal Separate School Dist.* (1985, Miss) 467 So 2d 911.

§ 11-46-11. Statute of limitations; notice of claim requirements.

(1) After all procedures within a governmental entity have been exhausted, any person having a claim for injury arising under the provisions of this chapter against a governmental entity or its employee shall proceed as he might in any action at law or in equity; provided, however, that ninety (90) days prior to maintaining an action thereon, such person shall file a notice of claim with the chief executive officer of the governmental entity, and, if the governmental entity is participating in a plan administered by the board pursuant to Section 11-46-7(3), such chief executive officer shall notify the board of any claims filed within five (5) days after the receipt thereof.

(2) The notice of claim required by subsection (1) of this section shall be in writing, delivered in person or by registered or certified United States mail. Every notice of claim shall contain a short and plain statement of the facts upon which the claim is based, including the circumstances which brought about the injury, the extent of the injury, the time and place the injury occurred, the names of all persons known to be involved, the amount of money damages sought and the residence of the person making the claim at the time of the injury and at the time of filing the notice.

(3) All actions brought under the provisions of this chapter shall be commenced within one (1) year next after the date of the tortious, wrongful or otherwise actionable conduct on which the liability phase of the action is based, and not after; provided, however, that the filing of a notice of claim as required by subsection (1) of this section shall serve to toll the statute of limitations for a period of ninety-five (95) days. The limitations period provided herein shall control and shall be exclusive in all actions subject to and brought under the provisions of this chapter, notwithstanding the nature of the claim, the label or other characterization the claimant may use to describe it, or the provisions of any other statute of limitations which would otherwise govern the type of claim or legal theory if it were not subject to or brought under the provisions of this chapter.

§ 11-46-13. Jurisdiction; appeals; venue.

(1) Jurisdiction for any suit filed under the provisions of this chapter shall be in the court having original or concurrent jurisdiction over a cause of action upon which the claim is based. The judge of the appropriate court shall hear and determine, without a jury, any suit filed under the provisions of this chapter. Appeals may be taken in the manner provided by law.

(2) The venue for any suit filed under the provisions of this chapter against the state or its employees shall be in the county in which the act, omission or event on which the liability phase of the action is based, occurred or took place. The venue for all other suits filed under the provisions of this chapter shall be in the county or judicial district thereof in which the principal offices of the governing body of the political subdivision are located. The venue specified in this subsection shall control in all actions filed against governmental entities, notwithstanding that other defendants which are not governmental entities may be joined in the suit, and notwithstanding the provisions of any other venue statute that otherwise would apply.

§ 11-46-16. Authority to purchase liability insurance; waiver of immunity to extent of insurance coverage.

(1) Any governmental entity, in the discretion of its governing authorities, may purchase and maintain liability insurance to cover wrongful or tortious acts or omissions of such governmental entity or its employees. The authority granted under this subsection (1) shall not affect any similar authority of any governmental entity that is specifically granted by another statute, but any governmental entity having such authority pursuant to another statute shall be governed by that statute and shall be subject to all conditions, restrictions, limitations and provisions of the statute that applies specifically to that governmental entity.

(2) If any governmental entity has in effect liability insurance to cover wrongful or tortious acts or omissions of such governmental entity or its employees, such governmental entity may be sued by anyone affected to the extent of such insurance carried; however, except as otherwise provided in subsection (3) of this section, immunity from suit is only waived to the extent of such liability insurance carried and a judgment creditor shall have recourse only to the proceeds or right to proceeds of such liability insurance. No attempt shall be made in the trial of any case to suggest the existence of any insurance which covers in whole or in part any judgment or award rendered in favor of a claimant, but if the verdict rendered by the jury exceeds the limit of applicable insurance, the court, on motion, shall reduce the amount of the judgment as against the governmental entity only and not as to joint tort-feasors, if any, to a sum equal to the applicable limit stated in the insurance policy.

(3) Except as otherwise provided in Section 19-7-8, Mississippi Code of 1972, a governmental entity which has in effect liability insurance to cover wrongful or tortious acts or omissions of such governmental entity or its employees may, in its discretion, pay any amount of a claim that is within the deductible amount, if any, contained in such liability insurance policy. The determination of whether funds are available to pay any claim that is within the deductible amount and whether to pay a claim in any event shall be within the sole and exclusive discretion of the governmental entity. The authority granted to governmental entities under this subsection does not create a right in any claimant to demand or receive compensation for a claim; and nothing in this subsection shall be considered as a waiver of the immunity granted under Section 11-46-3. The provisions of this subsection only extend to governmental entities the discretionary authority to pay claims that otherwise would not be authorized without an act of the Legislature.

(4) The provisions of this section shall be of no force or effect from and after July 1, 1993, as to the state and, from and after October 1, 1993, shall be of no force or effect as to political subdivisions.

§ 11-46-17. Creation of Tort Claims Fund; liability insurance.

(1) There is hereby created in the State Treasury a special fund to be known as the "Tort Claims Fund."

All such monies as the Department of Finance and Administration shall receive and collect under the provisions of subsection (2) of this section and all such funds as the Legislature may appropriate for use by the board in administering the provisions of this chapter shall be deposited in such fund. All monies in the fund may be expended by the board for any and all purposes for which the board is authorized to expend funds under the provisions of this chapter. All interest earned from the investment of monies in the fund shall be credited to the fund. Monies remaining in such fund at the end of a fiscal year shall not lapse into the State General Fund.

(2) From and after July 1, 1993, each governmental entity other than political subdivisions shall participate in a comprehensive plan of self-insurance and/or one or more policies of liability insurance administered by the Department of Finance and Administration. Such plan shall provide coverage to each of such governmental entities for every risk for which the board determines the respective governmental entities to be liable in the event of a claim or suit for injuries under the provisions of this chapter, including claims or suits for injuries from the use or operation of motor vehicles; provided, however, that the board may allow such plan to contain any reasonable limitations or exclusions not contrary to Mississippi state statutes or case law as are normally included in commercial liability insurance policies generally available to governmental entities. In addition to the coverage authorized in the preceding sentence, the plan may provide coverage for liabilities outside the provisions of this chapter, including but not limited to liabilities arising from Sections 1983 through 1987 of Title 42 of the United States Code and liabilities from actions brought in foreign jurisdictions, and the board shall establish limits of coverage for such liabilities. Each governmental entity participating in the plan shall make payments to the board in such amounts, times and manner determined by the board as the board deems necessary to provide sufficient funds to be available for payment by the board of such costs as it incurs in providing coverage for the governmental entity. Each governmental entity of the state other than the political subdivisions thereof participating in the plan procured by the board shall be issued by the board a certificate of coverage whose form and content shall be determined by the board but which shall have the effect of certifying that in the opinion of the board each of such governmental entities is adequately insured.

Prior to July 1, 1993, the Board of Trustees of State Institutions of Higher Learning may provide such liability coverage for each university, department, trustee, employee, volunteer, facility and activity as the board of trustees, in its discretion, shall determine advisable. If liability coverage, either through insurance policies or self-insurance retention is in effect, immunity from suit shall be waived only to the limit of liability established by such insurance or self-insurance program.

From and after July 1, 1993, such liability coverage established by the board of trustees must conform to the provisions of this section and must receive approval from the board. Should the board reject such plan, the board of trustees shall participate in the liability program for state agencies established by the board.

(3) All political subdivisions shall, from and after October 1, 1993, obtain such policy or policies of insurance, establish such self-insurance reserves, or provide a combination of such insurance and reserves as necessary to cover all risks of claims and suits for which political subdivisions may be liable under this chapter; provided, however, that such policy or policies of insurance or such self-insurance may contain any reasonable limitations or exclusions not contrary to Mississippi state statutes or case law as are normally included in commercial liability insurance policies generally available to political subdivisions. All such plans of insurance and/or reserves shall be submitted for approval to the board. The board shall issue a certificate of coverage to each political subdivision whose plan of insurance and/or reserves it approves in the same manner as provided in subsection (2) of this section. Whenever any political subdivision fails to obtain the board's approval of any plan of insurance and/or reserves, the political subdivision shall act in accordance with the rules and regulations of the board and either obtain a satisfactory plan of insurance and/or reserves to be approved by the board.

(4) Any governmental entity of the state may purchase liability insurance to cover claims in excess of the amounts provided for in Section 11-46-15 and may be sued by anyone in excess of the amounts provided for in Section 11-46-15 to the extent of such excess insurance carried; provided, however, that the immunity from suit above the amounts provided for in Section 11-46-15 shall be waived only to the extent of such excess liability insurance carried.

(5) Any two (2) or more political subdivisions are hereby authorized to enter into agreement and to contract between and among themselves for the purpose of pooling their liabilities as a group under this chapter.

Such pooling agreements and contracts may provide for the purchase of one or more policies of liability insurance and/or the establishment of self-insurance reserves and shall be subject to approval by the board in the manner provided in subsections (2) and (3) of this section.

(6) The board shall have subrogation rights against a third party for amounts paid out of any plan of self-insurance administered by such board pursuant to this section in behalf of a governmental entity as a result of damages caused under circumstances creating a cause of action in favor of such governmental entity against a third party. The board shall deposit in the Tort Claims Fund all monies received in connection with the settlement or payment of any claim, including proceeds from the sale of salvage.

19-25-65. Sheriff to serve as county librarian.

§ 19-25-65. Sheriff to serve as county librarian.

The sheriff shall be the custodian of the books other than record books belonging to the county, and he shall keep the Mississippi Department Reports, census reports, statutes of the state, the "Mississippi Reports," digests, and legislative journals assigned to his county in a suitable and safe bookcase in the courtroom of the courthouse. He shall keep them well bound in leather, or stiff boards with leather back and corners, to be paid for out of the county treasury on the order of the board of supervisors, and he shall preserve them in good condition. He shall be fined ten dollars (\$10.00) by the court, either circuit or chancery, as for a contempt, for each volume belonging to the county and which has passed into his custody that shall be out of the courtroom at any term of court. He shall also receive and preserve in the same way all books of every kind, maps, charts, and other like things that may be donated to the county by the state, the United States, from individuals or other sources. He shall not permit any of the books in his keeping to be carried out of the courthouse.

The sheriff shall, in case of binding or rebinding of books belonging to the county, cause the statutes of the state to be labeled "Laws of Mississippi," and the year of their enactment shall appear thereon. If the reports and digests or code are rebound, they shall be labeled as they were originally.

In his settlement with the clerk of the board of supervisors for the month of December of each calendar year, the sheriff shall file with the said clerk a sworn itemized statement of the volumes of the Mississippi Reports on hand in the county library on the last business day of said month, and for all volumes missing since the settlement for the previous December the clerk shall debit the said sheriff in his said settlement at the rate of four dollars (\$4.00) for each of said missing volumes.

I. UNDER CURRENT LAW

1. In general

City of Hattiesburg could lawfully proceed with issuance of general obligation industrial park bonds under Chapter 886, Local and Private Laws of Mississippi, Regular Session 1984, which dispenses with the necessity for a bond issue election, except upon petition of 10 percent of the city's registered voters. *Brandon v Hattiesburg* (1986, Miss) 493 So 2d 324.

2.-5. [Reserved for future use.]

II. UNDER FORMER LAW

6. In general

Where a majority of the qualified electors residing in a consolidated school district, by petition, request issuance of bonds for certain school purposes, it is not necessary to call for an election on the question, in the absence of a request in the petition itself calling for such an election, and the requirement that the bond shall be issued "in the manner provided for by law," in such case, has no reference to the provisions of this section but refers to the details of the issuance. *Re Validation Bonds of Orange Grove Consol. School Dist.* (1940) 187 Miss 373, 193 So 6.

The issuance of such bonds was not objectionable on the ground that the board sought to issue county-wide bonds for obligations which appeared on the face of the order to be, in large part, the debts of several, separate road districts, where there was nothing in the record to show that during the time such obligations were incurred the public roads in the county were being maintained under any separate district system. *Re Validation of Lincoln County Funding Bonds* (1940) 187 Miss 392, 193 So 26.

The issuance of such bonds not objectionable on the ground that the debts were invalid based on a presumption that in view of such order the county budget was exceeded, since the condition might have been brought about by this appointment in the collection of expected amounts of taxes and there was no showing in the record as to how the condition was brought about. *Re Validation of Lincoln County Funding Bonds* (1940) 187 Miss 392, 193 So 26.

A course of conduct pursued by a County Board of Supervisors in incurring debts for county road work when there were insufficient funds in the road fund at the time for the payment of such debts, and in ordering warrants for their payment without funds on hand to be paid out of such moneys as should thereafter come into the road funds, was within the express prohibition of this section, and such debts so incurred could not be the foundation for any action in mandamus for their payment. *Edmondson v Board of Sup'rs* (1939) 185 Miss 645, 187 So 538.

Holder of county warrant on game and fish fund, held entitled to compel board of supervisors by mandamus to issue and sell bonds of county in sufficient amount to pay warrant, after game and fish laws repealed. *Tucker Printing Co. v Board of Sup'rs* (1934) 171 Miss 608, 158 So 336.

Bank, which advanced funds with which school district purchased land for teachers' home, took trust deed to secure loan, and collected interest thereon without petition or election by qualified voters as required by statute, held accountable in representative suit by taxpayers for interest collected and without any rights against school district since loan was void. *Toler v Love* (1934) 170 Miss 252, 154 So 711.

But company selling goods to county held not entitled to mandatory order requiring board of supervisors to issue bonds to pay claim, where seller did not show it would be entitled as matter of right to have clerk issue warrant if money were available to pay

it. *American Oil Co. v Bishop* (1932) 163 Miss 249, 141 So 271, sugg of error overr 163 Miss 257, 141 So 765.

Lack or insufficiency of funds necessary to pay county indebtedness incurred under positive statute, and road and bridge obligations arising out of emergency, held not to invalidate indebtedness and obligations. *Choctaw County v Tennison* (1931) 161 Miss 66, 134 So 900.

Validity of items of outstanding warrants and obligations cannot be adjudicated by chancellor in county bond validation proceeding, such objections constituting collateral attacks on county board's judgment. *Harvey v Covington County* (1931) 161 Miss 765, 138 So 403 (followed in *Hegwood v Smith County* (1932, Miss) 140 So 223).

Failure of State's bond attorney to attend hearing in county bond validation proceeding did not invalidate proceeding. *Harvey v Covington County* (1931) 161 Miss 765, 138 So 403.

The board of mayor and aldermen may order the issuance of bonds at an adjourned regular meeting. *Green v Hutson* (1925) 139 Miss 471, 104 So 171.

A county having outstanding obligations may issue bonds to obtain money to pay same. *Crenshaw v Jackson* (1920) 122 Miss 711, 84 So 912.

The legislature may authorize the city to issue bonds for the construction and equipment of a hospital on a majority vote and it shall pass general laws under which cities may be chartered without violating the Constitution of the state. *Feemster v Tupelo* (1920) 121 Miss 733, 83 So 804.

The Supreme Court may take judicial notice of the conflict in opinion among people of the county on the question of issuing bonds for public improvement. *Madison County v Howard* (1918) 119 Miss 133, 80 So 524.

This section does not require the board of supervisors to issue serial bonds to take up outstanding loan warrants for the payment of which current taxes are pledged. *Board of Sup'rs v Bourgeois* (1918) 118 Miss 163, 79 So 91.

The issuance of county funding bonds for the payment of outstanding and unpaid obligations of the county could not be attacked on the ground that some of the obligations were not incurred in the manner provided by law, where the order of the board of supervisors for the issuance of such bonds in reciting its investigation and findings as to the validity of the items as obligations of the county was sufficient to give such obligations the dignity required by this section, without reciting the antecedent and evidentiary facts. *Re Validation of Lincoln County Funding Bonds* (1940) 187 (Miss) 392, 193 So 26.

7. Purposes for which issued

Sections 3598 and 6416, Code 1942, authorizing issuance of municipal bonds for purpose of erecting school buildings and purchasing lands authorize use of funds to construct stadium and athletic field, provided they are appropriate, proper, and necessary to comply with courses in physical education prescribed by board of education, department of education and trustees of schools under §§ 6423, 6665, 6666, and 6670, Code of 1942. *Nichols v Calhoun* (1948) 204 Miss 291, 37 So 2d 313.

Although a municipality has not legally declared itself to be a separate school district, it may under its charter powers purchase lands for school purposes and construct school buildings and issue bonds for such purposes. *Bingham v Woodell* (1915) 109 Miss 769, 69 So 678.

A city may prepare for the construction of a waterworks plant four years before the expiration of a franchise of a waterworks company in the city without an abuse of its discretion. *Griffith v Mayor & Board of Aldermen* (1912) 102 Miss 1, 58 So 781.

A municipality is limited to the purposes for which bonds may be issued and to the amount authorized. *Hazlehurst v Mayes* (1910) 96 Miss 656, 51 So 890.

Under an earlier statute, bonds could not be issued for the purpose of buying real estate for public parks. *Hazlehurst v Mayes* (1910) 96 Miss 656, 51 So 890.

Municipal bonds may be issued for the purpose of paving streets in the business portion of the municipality and a tax can be rightfully laid upon all the taxable property in the municipality to pay for them. *Maybin v Biloxi* (1900) 77 Miss 673, 28 So 566.

Under an earlier form of this provision it was held that the restrictive provisions of the last paragraph of Code 1892, § 4014 (Code 1906, § 4534), limit both the preceding paragraphs, and the provision in the second paragraph as to the levying and collecting of taxes to erect and repair schoolhouses, is not additional to the powers to issue bonds for that purpose contained in this section. *Boguechitto v Lewis* (1898) 75 Miss 741 (19 23 So 549).

8. Irregularities in issuance

Bona fide holders of municipal bonds regular on their face are protected against informalities and irregularities in proceedings authorized in the issuance of the bonds and from mistakes of the municipal authorities. *Greene v Rienzi* (1905) 87 Miss 463, 40 So 17.

A municipality may estop itself from setting up irregularities in their issuance as a defense to its bonds. *Town Council of Lexington v Union Nat. Bank* (1897) 75 Miss 1, 22 So 291.

9. Application of statutes of limitation

The failure of this statute to make reference to any statute of limitations did not have the effect of waiving, as to all obligations of a county incurred after its enactment, a statute providing that statutes of limitations should begin to run in favor of the state, counties and municipal corporations at the time when the plaintiff had the first right to demand payment. *Fuqua v Board of Supervisors* (1941) 192 Miss 6, 4 So 2d 350.

The six-year statute of limitations was applicable to the right of a teacher in an agricultural high school to demand payment of salary from the proceeds of bonds to be issued by the county and to compel issuance of such bonds by mandamus upon failure of the board of supervisors (which was not shown to have ever been advised of the existence of the obligation until suit was filed), otherwise to do so. *Fuqua v Board of Supervisors* (1941) 192 Miss 6, 4 So 2d 350.

10. Effect of debt limit on issuance

In the issuance of funding bonds for the payment of claims against a supervisor's district, county boards of supervisors must find as a jurisdictional fact that the proposed funding bonds, when added to a county's outstanding bonded indebtedness, shall not exceed 10 per cent of the assessed valuation of taxable property within the county, and set forth such fact in its order before the bonds can validly be issued or validated. *Brown v Board of Sup'rs* (1939) 185 Miss 216, 187 So 738.

The failure of the county board of supervisors to affirmatively adjudicate in an order providing for the issuance of funding bonds to pay certain claims or debts incurred by a supervisor's district that the debt incurred, when added to all of the then outstanding indebtedness of the supervisor's district, both bonded and floating, did not result in the imposition upon any of the property in such district of an indebtedness for road purposes of more than 10 per cent of the assessed value of such property, as ascertained by the last completed assessment for taxation, constituted fatal error and rendered such order of the board null and void, on its face, and subject to attack in a proceeding for validation of such bonds. *Brown v Board of Sup'rs* (1939) 185 Miss 216, 187 So 738.

Where the chancellor was in error in rendering a decree of validation as to issuance of certain funding bonds in payment of claims against a supervisor's district because the order of the board for such issuance was void because of the violation of § 4321, a decree would be reversed without prejudice to the right of the county to provide for the payment of such indebtedness by the

legal issuance of other bonds under this section, or in such other manner as might be authorized by law. *Brown v Board of Sup'rs* (1939) 185 Miss 216, 187 So 738.

Proposed county bonds to take up outstanding county obligations were "funding" and not "refunding" bonds, and therefore limited to ten per cent of assessed value of taxable property of county. *Lee v Hancock County* (1938) 181 Miss 847, 178 So 790, 179 So 559. sugg of error overr 181 Miss 859, 179 So 559.

"Refunding bond" is a bond issued to pay off an older issue; to "refund a debt" meaning to fund it again or anew; the word "fund" in this connection meaning to convert into a more or less permanent debt bearing regular interest. *Lee v Hancock County* (1938) 181 Miss 847, 178 So 790, sugg of error overr 181 Miss 859, 179 So 559.

11. Date of maturity

Funding bonds for outstanding obligations issued under this section are not subject to the limitation that their maturity shall not run beyond ten years, applicable to funding bonds to discharge an indebtedness incurred on anticipation tax obligations. *Re Validation of Lincoln County Funding Bonds* (1940) 187 Miss 392, 193 So 26.

A case with reference to bond issue by Leflore County holding that this statute does not require bonds to begin to mature at the expiration of the 1st year after their issuance. *Robertson v Board of Sup'rs* (1919) 119 Miss 621, 81 So 408.

12. Injunctive relief

A resident taxpayer of the municipality may enjoin the wrongful issuance of municipal bonds. *Clarksdale v Broaddus* (1900) 77 Miss 667, 28 So 954.

13. Judicial review

Where a petition for a writ of certiorari, filed in the circuit court, after a decree in chancery court validating the issuance of county funding bonds, was confined in the same record, made by the board of supervisors, which the chancery court had before it in the validation proceedings, disposition of an appeal from the chancery court would not be stayed. *Re Validation of Lincoln County Funding Bonds* (1940) 187 Miss 392, 193 So 26.

An appeal by taxpayers to the circuit court from orders and allowances made by the board of supervisors with respect to the issuance of county funding bonds was improper, where the bill of exceptions failed to set forth the facts in full and was not signed by the president of the board as the law required, and items which should have been entered and a statement as to their correctness

was left to the clerk. *Re Validation of \$50,000 Serial Funding Bonds* (1940) 187 Miss 512, 193 So 449.

An appeal to the circuit court by taxpayers from orders and allowances made by the county board of supervisors with respect to the issuance of county funding bonds was ineffective, where the chancery court had acquired jurisdiction of the whole matter in a validation proceeding. *Re Validation of \$50,000 Serial Funding Bonds* (1940) 187 Miss 512, 193 So 449.

With respect to an appeal to the circuit court by taxpayers from orders and allowances of a board of supervisors with respect to issuance of county funding bonds, a party having a claim to be allowed or having been allowed by the board is an interested party on an appeal to the circuit court, and separate appeals from all orders must be prosecuted where an appeal has been taken, and the bill of exceptions must either be filed during the court term or meeting of the board of supervisors or within such time as the law or the board might allow for filing such bill and appeal. *Re Validation of \$50,000 Serial Funding Bonds* (1940) 187 Miss 512, 193 So 449.

The right of a taxpayer to prosecute appeals from orders and allowances by a board of supervisors in connection with the issuance of funding bonds to matters in which he has no pecuniary or property interest is limited. *Re Validation of \$50,000 Serial Funding Bonds* (1940) 187 Miss 512, 193 So 449.

The chancery court, having acquired jurisdiction of a proceeding on validation of county funding bonds, erred in dismissing the proceedings, in view of the fact that it had the power to pass upon the legality of the bond issue in all respects, including the various claims constituting the alleged indebtednesses, and an appeal by the taxpayers to the circuit court during the pendency of such proceeding in the chancery court was improper. *Re Validation of \$50,000 Serial Funding Bonds* (1940) 187 Miss 512, 193 So 449.

In the absence of an appeal from an order of the board of county supervisors adjudicating the validity of certain claims, for the payment of which an order for the issuance of funding bonds was made, no objections could be taken on appeal from a decree validating such bonds based on the ground that the indebtednesses for the payment of which the bonds were to be issued did not constitute valid, legal and undisputed outstanding obligations of a supervisor's district for the reason that such indebtednesses were incurred in violation of § 4321 prohibiting the incurring of an indebtedness unless there is sufficient money at the time in the particular fund from which allowance for the payment thereof is to be made, since the chancellor had no jurisdiction to pass on the validity of such claim and such objection constituted a collateral attack on the orders and judgments of the board of supervisors. *Brown v Board of Sup'rs* (1939) 185 Miss 216, 187 So 738.

Except as provided in Sections 25-1-77 through 25-1-93, no state department, institution or agency shall purchase, operate or maintain any passenger vehicle out of any funds available for the use of such department, institution or agency, unless same has been or may be donated.

All new passenger vehicles purchased by any state department, institution, agency, university, community or junior college, or local governing authority, except vehicles purchased to be used for law enforcement purposes by the law enforcement departments of the Mississippi Highway Safety Patrol, Mississippi Department of Transportation, Public Service Commission, Tax Commission, State Institutions of Higher Learning, and Department of Wildlife, Fisheries & Parks, and vehicles used for law enforcement purposes by local governing authorities, shall be of a fuel-efficient model which meets the needs of the using entity. No such new passenger vehicles purchased shall be luxury vehicles, utility, carryall or full-size vehicles as defined by the industry, unless the executive head of the purchasing entity first declares that a special need exists and/or special circumstances exist which require transportation of passengers in conditions requiring a luxury, utility, carryall or full-size vehicle. Upon receipt of such declaration, the Public Procurement Review Board created under Section 27-104-7 shall disallow the purchase by state agencies if adequate justification is not provided. Approval from the Public Procurement Review Board is not required for purchases by local governing authorities. Furthermore, power windows, power door locks and power seats may not be added as options to any vehicle purchased by any state agency unless adequate justification is provided. It is the intent of the Legislature that each such passenger vehicle purchased be the most prudent possible and still adequately meet the needs for which the vehicle is purchased. The term "passenger vehicle" shall not be construed to mean trucks or motor-driven equipment whose primary use is not the transportation of passengers.

For purposes of this section, passenger vehicle shall be defined as a vehicle which is designed to transport four (4) or more persons and/or provides adequate seating for at least four (4) persons. The terms "luxury vehicle," "full-size vehicle," "utility vehicle" and "carryall vehicle" shall be as defined by the industry.

Prior to January 1, 1996, the Department of Finance and Administration, Office of Purchasing and Travel, in cooperation with the Office of the Auditor, Property Control Division, shall prepare an inventory of vehicles owned by all state departments, agencies or institutions. The inventory shall include but is not limited to the name of the agency or institution and the quantity and primary use of vehicles in each of the following categories: subcompact, compact sedan, mid-size sedan, full-size sedan, utility vehicle, carryall vehicle, compact pick-up, mid-size pick-up, one-half ton pick-up, three-quarter ton pick-up, one ton pick-up, passenger van, cargo van, bus, other. This inventory shall be used by the 1996 Legislature to determine the need for limitations on the quantities of vehicles in each category for each entity.

Nothing in Sections 25-1-77 through 25-1-93 shall be construed to prohibit agencies, departments and institutions from purchasing and operating passenger vehicles when used exclusively to transport patients, prisoners, students, faculty or staff of state institutions, blind and sighted employees essential to operate blind training programs or material, products and client-trainees in the sheltered workshop program, or bookmobiles. The superintendents of the Columbia Training School and Oakley Training School, or staff members designated by them, may use such passenger vehicles for other official functions and operations of those institutions at their discretion. Passenger vehicles or similar vehicles used for any other purposes shall be considered as automobiles and subject to the restrictions set forth in the aforesaid sections.

In addition to the motor vehicles authorized to be owned and operated by the Mississippi Department of Public Safety, said department is also authorized to receive, own and operate special purpose motor vehicles to be used solely in investigations.

Of the motor vehicles authorized to be owned and operated by the Mississippi Highway Safety Patrol, no more than twenty-one (21) vehicles may be kept for use by administrative personnel of the patrol whose principal duties are performed at the Highway Safety Patrol Headquarters Building and the Drivers' License Examining Station in Hinds County to commute to and from the residence of said personnel to the office at which such duties are regularly performed.

Of the motor vehicles authorized to be owned and operated by the Mississippi Department of Transportation, not more than five (5) vehicles may be kept for use by administrative personnel of the department to commute between their residences and the offices at which their duties are regularly performed. The executive director of the department is authorized to allow additional department personnel to commute to and from their residences in department vehicles due to the nature of their job and for the safety of the traveling public.

Of the motor vehicles authorized to be owned and operated by the State Tax Commission, no more than four (4) vehicles may be kept for use by administrative personnel whose principal duties are performed at State Tax Commission offices in Hinds County to commute to and from the residence of said personnel to the office at which such duties are regularly performed.

The provisions of Chapter 226, Laws of 1964, remain in force and are not affected by this section.

Any state officer, employee or board member who violates any of the foregoing provisions of Sections 25-1-77 through 25-1-85 shall be liable on his or her official bond for the total amount of the purchase price of the passenger vehicle, plus the total amount of funds expended in violation of said sections for the operating costs of such vehicle.

| Presiding Justice of the Supreme Court | 86,400.00 |
| Associate Justices of the Supreme Court | 85,800.00 |

However, in addition to their present official duties, there are hereby imposed upon the Supreme Court Justices the extra duties of making a special study of existing laws and reporting to each regular session of the Legislature such constructive suggestions as they may deem necessary for the improvement of the administration of justice, and of advising and counseling with the State Librarian in the selection of law books for purchase and use in the State Law Library, advising with the librarian thereof upon the removal from the library of any books which may be the least frequently used, and for the placing of same in a convenient location so as to provide additional space for such books and other current publications which may be more frequently used or called for. For such extra services each justice, from and after July 1, 1989, shall receive a sum sufficient when added to the present salaries of said justices to aggregate Eighty-eight Thousand Four Hundred Dollars (\$88,400.00) for the Chief Justice, Eighty-six Thousand Four Hundred Dollars (\$86,400.00) for the Presiding Justice, and Eighty-five Thousand Eight Hundred Dollars (\$85,800.00) for Associate Justices, per annum. Said judges shall advise and supervise in the purchase of law books for the libraries of each district, and shall study and evaluate the inventory of books and facilities now existing in the libraries of each district to effect the removal and relocation of obsolete publications so as to provide additional space for those books and current publications more frequently used. Said judges shall study the existing rules promulgated by the circuit and chancery court judicial associations governing the operation of chancery and circuit courts, and revise the same pursuant to existing laws. For such extra services each judge, from and after July 1, 1989, shall receive a sum sufficient when added to the present salaries of said judges to aggregate Seventy-six Thousand Two Hundred Dollars (\$76,200.00) per annum for each judge. Upon the expiration of the existing term, the above-captioned salaries become effective in due course, and the extra duties and compensation provided for shall cease.

(3) The Supreme Court shall prepare a payroll for chancery judges and circuit judges and submit such payroll to the Department of Finance and Administration.

[From and after July 1, 1994, this section will read as follows:]

(1) The annual salaries of the following judges are hereby fixed as follows, to begin at the commencement of the next term of office immediately succeeding the existing term:

Editor's Note—

Laws, 1984, ch. 482, § 1, proposed to amend section 25-4-105, effective from and after the date Senate Concurrent Resolution No. 548 of the 1984 regular session of the Mississippi legislature (Chapter 655, Laws, 1984) was ratified by the electorate in November, 1984. Senate Concurrent Resolution No. 548 (Chapter 655, Laws, 1984) proposed to amend § 109 of the Mississippi Constitution, and to repeal §§ 107 and 210 of the Mississippi Constitution. The Senate Concurrent Resolution No. 548 was submitted to the electorate for ratification in November, 1984, but was rejected; thus the proposed amendment to § 25-4-105 never became effective.

Section 43-33-507 provides that all references to the Mississippi Housing Finance Corporation in any other law or regulation shall be deemed to refer to and apply to the Mississippi Home Corporation.

Laws, 1994, ch. 586, §§ 3 and 4, provide as follows:

"SECTION 3. The Attorney General of the State of Mississippi is hereby directed to submit this act, immediately upon approval by the Governor, or upon approval by the Legislature subsequent to a veto, to the Attorney General of the United States or to the United States District Court for the District of Columbia in accordance with the provisions of the Voting Rights Act of 1965, as amended and extended.

"SECTION 4. This act shall take effect and be in force from and after the date it is effectuated under Section 5 of the Voting Rights Act of 1965, as amended and extended."

Laws, 1994, ch. 586, §§ 2 and 3, provide as follows:

"SECTION 2. The Attorney General of the State of Mississippi is directed to submit this act, immediately upon approval by the Governor, or upon approval by the Legislature subsequent to a veto, to the Attorney General of the United States or to the United States District Court for the District of Columbia in accordance with the provisions of the Voting Rights Act of 1965, as amended and extended.

"SECTION 3. This act shall take effect and be in force from and after the date it is effectuated under Section 5 of the Voting Rights Act of 1965, as amended and extended."

I. IN GENERAL

1. In general; definitions; construction of terms
- A public servant with purely ministerial duties and with no

power to vote on matters considered by the governmental entity with which he or she is associated is not considered a "member" of that entity as the term is applied in §§ 25-4-101 et seq of the Ethics in Government laws. Moore ex rel. Chickasaw County v McCullough (1993, Miss) 633 So 2d 421.

Following characteristics serve as guidelines to distinguish between public office and public employment: (1) position should be prescribed by law; (2) position should have some specified term; (3) duties and powers of office should be defined or implied by law and should include authority to exercise some sovereign powers of state; (4) duties of office must concern public; and (5) holder of position should have power and authority to act in his or her own right. Op. of Miss. Ethics Comm. Op. No. 88-21-E.

Sister is not necessarily included in definition of "relative". Op. of Miss. Ethics Comm. Op. No. 90-098-E.

City and city school district are separate "authorities" under Code. Op. of Miss. Ethics Comm. Op. No. 92-025-E.

Chairmanship of state commission is "public office" where position is prescribed by law and has specified term, power and duties of position are defined by statute and include authority to exercise some sovereign power of state, and holder of position must take oath of office. Op. of Miss. Ethics Comm. Op. No. 92-068-E.

Whether legislator has "material financial interest" in a company which does business with state is dependent on totality of circumstances involved, for example value of ownership in corporation, percent of ownership, total income from corporation, posi-

tion or positions held in it, legal responsibility, if any, to all stock holders and any conditions placed upon one's interest, divestiture of interest and to whom divestiture is made, compensation, abstention from voting on appropriation measures which fund any projects for which corporation may become subcontractor, conveyance of ownership into blind trust during his tenure in legislature and for one year afterwards, and related factors. Op. of Miss. Ethics Comm. Op. No. 92-086-E.

Commission has found that whenever Constitution Section 109 is violated, Code Section 25-4-105 subsection (2) is also violated. Op. of Miss. Ethics Comm. Op. No. 92-086-E.

Commission has applied the principle that any interest of one spouse accrues to the other spouse. Op. of Miss. Ethics Comm. Op. No. 91-111-E.

II. PARTICULAR PERSONS, MATTERS, AND CIRCUMSTANCES

6. State legislators

Insurance business, with which member of state legislature is associated, may not serve as agent for administrator of worker's compensation self-insurance pool for purpose of marketing worker's compensation self-insurance to county governments when county's authority to participate in pool was created by 1988 legislative act. Any agreement by county to participate in pool would constitute contract pursuant to section. Legislators/marketing insurance company agents would have interest in contracts as a result of their company consummating contracts and receiving benefits for such work. Op. of Miss. Ethics Comm. Op. No. 89-10-E.

Legislature may not lease real property to state agency; prohibition would not be removed by either use of irrevocable trust, transfer of property to corporation the sole stockholders of which are legislator's children or a trust, or transfer of property to a spouse who assumes indebtedness and transacts with government agent lessee. Op. of Miss. Ethics Comm. Op. No. 89-85-E.

Legislator may not contract with state commission to perform various duties related to fundraising and receive as payment percentage of funds raised as well as reimbursement for expenses incurred. Op. of Miss. Ethics Comm. Op. No. 90-118-E.

Law does not prohibit legislator/attorney from representing private clients in eminent domain matters brought about by Department of Economic Development, however legislator is cautioned that in serving as attorney for private clients there should be no use of his official position as set forth in subsection (1) of § 25-4-105. Op. of Miss. Ethics Comm. Op. No. 91-029-E.

Section prohibits legislator from selling land to state highway department, unless transfer is accomplished by eminent domain. Op. of Miss. Ethics Comm. Op. No. 91-033-E.

Section does not prohibit person from serving as chairman of large state commission within one year of being state legislator. Position of chairperson of state commission, in instance involved, is public office, therefore subject could accept appointment to such office without violating § 25-4-105 or Constitution Section 109. Op. of Miss. Ethics Comm. Op. No. 92-068-E.

It is conflict of interest for member of legislature to own more than 10 percent of a corporation which does subcontracting work on road construction projects funded, in part, by State Highway Department, because subcontract of legislator's firm would not exist without prime contract, thereby calling into play violation of Constitution Section 109. Op. of Miss. Ethics Comm. Op. No. 92-086-E.

As to whether it is conflict of interest for member of Legislature to own more than 10 percent of corporation which operates as subcontractor on sanitary water and sewer projects for counties, districts, cities, or towns within state, each separate subcontract would have to be analyzed to determine under what specific legal

authority their prime contracts were let and how each would be funded. Should any of potential subcontract emanate from general legislation or from general legislative funding during legislator's term or one year thereafter, there would be conflict violation. Whether legislator votes or does not vote is not controlling; Section 109 of Constitution prohibits interest in certain contracts, and voting on matter does not bring section into application, nor does refraining from voting prevent its application. Op. of Miss. Ethics Comm. Op. No. 92-086-E.

Legislator's ownership over 30 percent of one corporation and 15 percent of another corporation, each of which were subjects of trust in purchase/redemption agreements, which did subcontracting work on road project funded in part by state Highway Department, one of which was valued at over \$500,000, the other over \$2,000,000, constituted prohibited interest in such companies. Fact that legislator's interest was placed in blind trust did not remove prohibited interest, it merely assigned management of it for period of time to a trustee. Op. of Miss. Ethics Comm. Op. No. 92-086-E.

Ethics violation arises where state legislator becomes employed by local school district within one year of expiration of his term. Op. of Miss. Ethics Comm. Op. No. 92-095-E.

Bank which employs legislator would be in violation if it purchased bonds or otherwise pursued business with state authorized by legislature during term of the legislator or for one year thereafter. Such business would not be a violation where it concerned bond issues authorized by legislature prior to the term of office of the legislator in question. Furthermore, violation might arise not only upon legislator's participation in legislative functions that involve matters singularly affecting the bank/employer, but may also arise upon participation in functions that involve competitor of the bank/employer, depending on facts involved. Op. of Miss. Ethics Comm. Op. No. 93-158-E.

Law prohibits legislator from being employed as agent to sell individual health and group insurance policies by insurance company which is under contract with state. As agent selling individual health and group insurance policies, receipt of resulting commissions constitutes material financial interest on part of legislator and since material financial interest in insurance company on part of legislator is prohibited when that company is a contractor, subcontractor, or vendor with Legislature, insurance company may not contract with Legislature. Op. of Miss. Ethics Comm. Op. No. 92-119-ER.

Attorney who is member of legislature may represent private clients before state agencies such as Mississippi Public Service Commission. However, should client be other than private client and take on form of governmental entity, determination of fact would have to be made in each case as to whether or not ethics laws would become applicable. Op. of Miss. Ethics Comm. Op. No. 92-183-E.

There is no prohibition against legislator being employed as attorney for and representing clients in gaming industry, although caution should be exercised so legislator does not use his official position for pecuniary benefit for himself or business with which he is associated; violation of statute may be avoided by complete recusal in matters which may benefit client. Op. of Miss. Ethics Comm. Op. No. 93-033-E.

Legislator may not become employed as consultant to home health agency, because of potential for agency to receive funds authorized by legislature. Op. of Miss. Ethics Comm. Op. No. 93-076-E.

7. —Dual office, employment or position

State senator could accept appointment as Executive Director of Mississippi Employment Security Commission without violating

§ 25-4-105 or Constitution § 109. Op. of Miss. Ethics Comm. Op. No. 88-21-E.

Legislator may simultaneously serve as adjunct professor at Mississippi university where such service would be without compensation or expense reimbursement. Op. of Miss. Ethics Comm. Op. No. 88-185-E.

Newly elected legislator may not have simultaneous employment with a state commission. Legislator would be in violation immediately upon being sworn into office where he is employed by state agency or commission. Commission recommends that legislator-elect resign from state employment prior to being sworn in to Legislature. Op. of Miss. Ethics Comm. Op. No. 91-140-E.

8. County supervisors

Section prohibits county from contracting with company that employs spouse of one of the county's supervisors. Spouse's salary constitutes prohibited interest on part of supervisor in any contract with spouse's employer. Op. of Miss. Ethics Comm. Op. No. 91-137-E.

Section prohibits county supervisor from becoming employed by county tourism board or commission at expiration of his term of office, where such tourism board or commission is formed as result of state, local and private legislation and implemented by board of supervisors. Op. of Miss. Ethics Comm. Op. No. 92-010-E.

Law prohibits corporation in which material financial interest exists on the part of a county supervisor, from contracting with regional mental health authority. Op. of Miss. Ethics Comm. Op. No. 92-031-E.

Ethics violation arises where county contracts with electric company owned by person whose father is member of board of supervisors who rents building to son. Op. of Miss. Ethics Comm. Op. No. 92-075-E.

Violation would occur should person be elected county supervisor and thereafter become affiliated with law firm which contracts with insurance company to represent certain county entities and public officials in same and other counties. Violation would not exist if law firm did not represent any of county personnel or entities of county or if supervisor chose not to affiliate with law firm. Neither recusal nor abstention prevents potential violation; while vote may be removed, prohibited interest in contract authorized by board lingers. Op. of Miss. Ethics Comm. Op. No. 93-216-E.

Ethics in Government law may be violated should supervisor and his immediate family serve as teachers in same county. If supervisor or "relative", meaning spouse, child, or parent, became teacher in city school system, no per se violation of ethics law would occur; city school system is separate authority from that of county. Should supervisor or "relative" become employed by county school system, where all of local funding portion or of salaries under teaching contract comes from mandatory local tax levies, again no violation would occur. Where portion of salary derived by public school teacher under teaching contract or that of a "relative" comes from discretionary local tax levies, such teaching contract would violate Section 109 of state Constitution and Code Section 24-4-105, subsection (2), while teacher is member of board of governing authority which makes such tax levies or within one year after term on governing board expires. Op. of Miss. Ethics Comm. Op. No. 92-103-E.

Law does not prohibit business owned by county supervisor from contracting with cities and towns within county, provided no county funds are used by entities in payment pursuant to a purchase; such purchase was not a consequence of town or city's compliance with requirement of county brought about by actions of board of which supervisor was a member, or within one year thereafter; and supervisor has not used official position for pecuniary benefit from self or his business in violation of Code. Ethics laws would not prohibit supervisor from doing business with other counties and cities within state or with the state. Op. of Miss. Ethics Comm. Op. No. 92-123-E.

Law prohibits county from contracting with bank as depository when one of supervisors received \$6,600 per year as advisory member of bank. Op. of Miss. Ethics Comm. Op. No. 92-146-E.

Member of county board of supervisors simultaneously employed by county hospital of same county would have prohibited interest in contract authorized by the board of which he is a member. Provisions would be violated should described circumstances exist subsequent to start of new budget cycle, whereas prior to such start of budget cycle no violation would occur since employment in question had been authorized prior to the supervisor's taking office. Same principles would apply to any new contracts authorized between hospital and board of supervisors or as to any such items requiring action on part of board, such as hospital's budget, contracts which include payment to hospital for services or of interest to all employees of hospital, as their sustenance is in part derived from such contract. Only complete recusal on part of supervisor in all board deliberations and voting as to matters involving hospital, including appointment of its trustees, will avoid violation as to code subsection (1), but recusal removes only the vote, and not the prohibited interest subject to constitutional Section 109 and code § 25-4-105(2). (Commission also recommended that office of Attorney General be contacted as to applicability of Constitutional separation of powers doctrine as Commission lacks authority to interpret that provision.) Op. of Miss. Ethics Comm. Op. No. 92-231-E.

9. Mayor, alderman, councilperson

Alderman may not cast vote in such manner as to result in benefit to a business with which he is associated, thus motion before board of aldermen resulting in conditional use permit being granted to oil company employing an alderman would constitute conflict. Op. of Miss. Ethics Comm. Op. No. 90-066-E.

Alderman may not, during ice storm subsequently proclaimed to be state-wide emergency, contract on behalf of city with private business owned and operated by employee of city to remove trees, tree limbs, etc., posing danger to public and interruption of utility service, notwithstanding emergency status. Op. of Miss. Ethics Comm. Op. No. 89-78-E.

City may not purchase goods or services from county co-op when chairman of board of co-op is city employee and bookkeeper of co-op is city alderman. Op. of Miss. Ethics Comm. Op. No. 89-159-E.

Alderman may not sell goods to contractor who is to be paid from proceeds of a community development block grant awarded to the city in which he is alderman; any agreement entered into city which predicates receipt of block grant constitutes contract pursuant to section, and alderman would be interested in contract, for without it there would be no purchase of building supplies. Op. of Miss. Ethics Comm. Op. No. 91-035-E.

It would be violation for alderman or councilman to become general manager or employee of non-profit service company owned by 2 other non-profit corporations which contract with their city. In addition, alderman or councilman would be subcontractor with governmental entity of which he or she is a member and thus have "material financial interest" in any business which is a contractor, subcontractor, or vendor with the governmental entity of which he or she is member, in violation of this section. Op. of Miss. Ethics Comm. Op. No. 91-062-E.

Violation exists where alderman owns approximately four tenths of one percent of stock of a corporation, such stock valued at \$20,000, where corporation is expected to contract with city and to receive Community Development Block Grant initiated by city. Prohibited interest on part of alderman can be removed only by his divesting himself of investment. Recusal, "no" vote or abstention from voting does not remove prohibited interest. Op. of Miss. Ethics Comm. Op. No. 92-040-E.

Law prohibits attorney from becoming city attorney of a town whose mayor is attorney's secretary. Op. of Miss. Ethics Comm. Op. No. 93-130-E.

Ethics laws prohibit mayor and alderman from serving on city's

chamber of commerce. Discretion of city governing body and its action in setting aside, appropriating, or expending funds to chamber so that chamber can provide its services to city constitutes at least an implied contract between two entities. Such contract would be illegal, with affected board member and board as a whole being liable. Mayor and alderman may, however, be members of chamber, as opposed to members of its board of directors. Op. of Miss. Ethics Comm. Op. No. 93-219-E.

Law does not prohibit city employees such as city clerk from serving on city's chamber of commerce. Not being members of city's governing board, no conflict would arise. However, should they become compensated members of chamber's board of directors in future, such should be brought to attention of Commission as it could constitute violation of ethics law. Op. of Miss. Ethics Comm. Op. No. 93-219-E.

City councilman is in violation of ethics laws if he does business with gaming operation which is lessee of city and also votes on matters coming before council which concern gaming operation. Op. of Miss. Ethics Comm. Op. No. 92-186-E.

It is not improper for alderman to participate in board deliberations and votes concerning dockside gambling when casino corporation is negotiating with both city and yacht club of which alderman is a member and in which alderman owns form of indebtedness, where alderman and his spouse purchased, in 1982, a \$1,000 construction bearer bond of yacht club, which approximately in November, 1992 was transferred to a person not a "relative" and also in November, 1992 alderman's membership in yacht club was removed, and alderman did not have boat at yacht club nor current affiliation with it. Op. of Miss. Ethics Comm. Op. No. 92-206-E.

Ethics laws do not prohibit city councilman from simultaneously being employee of state commission. Op. of Miss. Ethics Comm. Op. No. 93-022-E.

Where citizens seeking to qualify for office of town alderman also is plaintiff in federal lawsuit against town, any settlement of suit may be effectuated and any agreed-to liability against city may be paid, prior to alderman candidate's taking office; however should alderman candidate take office first, then any settlement would in effect be precluded; settlement would be contract and new alderman would have an interest in it which would be authorized by the board of which he is a member, in violation of code and state constitution. However, legal fees may be paid to city attorney with respect to action since attorney's contract to represent city in action was entered into prior to alderman candidate's taking office. This holds true whether payment of fees is effected before or after alderman takes office. Finally, should court determine liability against city or order city to pay plaintiff's legal costs, city may pay amounts regardless of whether or not alderman takes office. Op. of Miss. Ethics Comm. Op. No. 93-035-E.

There would be no violation of subsection (1) of the section were city councilman to vote on zoning matter concerning land adjacent to him which vote would not result in pecuniary benefit to him. Op. of Miss. Ethics Comm. Op. No. 93-066-E.

10. —Conflict involving family member

Section does not prohibit emancipated son of alderman from becoming employee of same city. Particular factors indicating emancipation are key determinants in decision. However, alderman/father should not participate in any board matter concerning son. Furthermore, Commission expressed concern that son's emancipation could be direct result of his obtaining job with city, financially enabling him to live apart from parents; should that be true, alderman/father would have interest in son's employment contract, implicating prohibitions of section. Op. of Miss. Ethics Comm. Op. No. 90-065-E.

Section prohibits town from contracting with local bank where spouse of alderman is assistant vice president of bank. Under such facts, alderman would have an interest in any contract authorized by his board, as without order of the board the city would be un-

able to proceed with the particular contractual arrangement described. Op. of Miss. Ethics Comm. Op. No. 91-054-E.

Ethics violation exists where person is elected alderman whose spouse is sergeant on city's police department. Once city's annual budget is adopted or like official action takes place which affects spouse of alderman, a violation of Constitutional Section 109 and Code Section 25-4-105(2) will occur. Op. of Miss. Ethics Comm. Op. No. 92-111-E.

Violation of ethics laws would occur should spouse of councilperson serve as public defender following spouse's appointment by mayor in mayor-council form of city government. Op. of Miss. Ethics Comm. Op. No. 93-133-E.

11. Public agency or commission

State agency's having its vehicles repaired at dealership of one of its commissioners would be violation of section. Commissioner as owner of dealership has material financial interest in company which constitutes interest in any contract between his company and board of which he is member. Also, if commissioner participated in any positive manner in any board action allowing commission to do business with his company, such participation would constitute violation of section. Op. of Miss. Ethics Comm. Op. No. 89-44-E.

Executive director of state entity may simultaneously own business which sells public information produced by state where such venture will be on subject's personal time, no public facility or equipment or supplies would be used, and information is "public" in nature; advertising via television, radio, newspaper, or direct mail which reaches public employees or officials would not cause confrontation with ethics laws where any contract involved would not be contract with government entity but with private entity. However, to avoid appearance of impropriety, subject's public position and/or employer should not appear in conjunction with private business in any way and subject is reminded that he cannot use public employees or resources on behalf of private company. Op. of Miss. Ethics Comm. Op. No. 89-48-E.

Member of state commission may not participate through his corporation in sponsorship of improvements on state property in return for exclusive signage (publicity); thus where stadium is considering refurbishing existing scoreboard and adding color matrix system and would solicit corporate sponsorship to offset cost, each sponsor receiving privilege panel which would bear its name and logo, provision would be violated if local financial institution, in which commission member was officer, became one of such sponsors. Recusal by board member/corporate officer would be effective bar to application of subsection (1) but not as to subsections (2) or (3)(a) or § 109 of Constitution. Op. of Miss. Ethics Comm. Op. No. 89-67-E.

Insufficient information is provided to determine whether conflict of interest violation would exist where corporation, of which commission member is officer, would agree to place mobile automated machine on property of public stadium during football games. Op. of Miss. Ethics Comm. Op. No. 89-67-E.

Expanded board of newly renamed and modified statutory "governmental entity" may not offer executive position of employment to former board member less than one year after that member's resignation. Where prohibition is from accepting executive position with board "of which [person] was a member", governmental entity in question was same one of which subject was previously member, merely expanded and continued in slightly different form with four additional members. Op. of Miss. Ethics Comm. Op. No. 89-141-E.

Where corporation's president is member of board of directors of a state board, corporation is prohibited from selling materials to that state board; however, it is not prohibited from selling materials to other department of the state. Caution should be exercised by the state board member so that none of his actions as board member serves as a predicate to or trigger of purchases by other state agencies from board member's private corporation. Op. of Miss. Ethics Comm. Op. No. 90-092-E.

State public servant is prohibited from serving as administrator of a grant received by a county from state department of which public servant is member. Violation is present and continues even though contract predates employment by the state of the person involved. Op. of Miss. Ethics Comm. Op. No. 90-117-E.

Doctor who is National Health Service obligee employed by the Department of State of Mississippi who provides hospital care after normal working hours and on weekends and is reimbursed by Medicaid for such services for patients who are covered, and is willing to perform same services after hours and on weekends for non-Medicaid eligible patients, to be compensated by state, where there be no other doctors in area readily available to provide such service to such patients, may continue in such contractual arrangement, as long as his services are reasonably available from 2 or fewer commercial sources and provided that such transactions otherwise comply with public purchase laws. However caution is urged, for should doctor's after hours contractual obligations actually occur during or carry over into time in which he performs regular responsibilities, such would constitute prohibited use of his official position to obtain pecuniary benefit other than that compensation which is provided by law. Also, doctor is prohibited from recommending the services he would perform after hours to patients while on public duty and subsequently performing such service as private doctor. Op. of Miss. Ethics Comm. Op. No. 90-126-E.

Law does not per se prohibit company owned by member of a state commission from becoming contractor, subcontractor, or vendor to private corporation which is licensed to commission, because license is not a contract; however, commission member must avoid using his position for pecuniary benefit and should recuse self from any commission action directly affecting any private corporation with which his company has been doing or reasonably expects to do business as contractor, subcontractor, or vendor with any entity licensed by commission. Commission member is also precluded from using or disclosing any information he obtains as result of his position to benefit himself or anyone else, if information has not been communicated to public or is not public information. In all Commission has grave concern as to appearance of impropriety that would arise from described arrangement. Op. of Miss. Ethics Comm. Op. No. 93-183-E.

Where city's Convention Commission acquires land from partnership in which one of its former members has financial interest, violation occurs; although Commission may discuss and decide upon one or more sites in order of preference based on demographic merits and economic factors, nevertheless, if Commission's decision is that its first preference is property in which former member holds interest, Commission may not decide that if property is still available at end of one year from former member's resignation Commission would then seek to acquire property. Contract in such case would be authorized during one year period, and simply delaying its execution does not preclude application of prohibition. Furthermore, violation would occur even if partnership was willing to donate land, if partnership also owned land surrounding the land which would be donated, as surrounding land would very likely increase in value and thereby benefit former member who holds interest in it. Op. of Miss. Ethics Comm. Op. No. 92-166-E.

City's convention commission and city itself are barred from purchasing or receiving land as donation from partnership, a substantial financial and operating interest of which is possessed by former chairperson of convention commission, within one year after his resignation. Op. of Miss. Ethics Comm. Op. No. 92-149-E.

Law does not prohibit company from contracting with state commission where spouse of part owner of company is also employee of commission, but who exercises no control over contracts. Application of ethics code provisions rest upon determination of fact in each case; generally, as long as employee exercises no control over contracts, does not approve contracts, does not attempt to influence such decisions, and does not intentionally use or disclose non-public information as regards spouse's business,

code sections would not be violated. Op. of Miss. Ethics Comm. Op. No. 92-182-E.

Where executive employee of state regulatory commission sought to resign state employment and become employed either by corporation or by one of its subsidiaries, one of which possessed license issued by commission and another which had no contact with employees of commission but expected to be considered for future license, no violation would occur simply by subject's becoming employed by one of the corporations; same would be the same where subject accepted employment with another subsidiary which conducts gaming activities within the state, or with another entity which plans to conduct gaming activities within the state but which has not yet been issued a license and which had no contact with any employee of commission, as long as former employee does not divulge confidential information. Op. of Miss. Ethics Comm. Op. No. 92-237-E.

Ethics laws do not prohibit city councilman from simultaneously being employee of state commission. Op. of Miss. Ethics Comm. Op. No. 93-022-E.

Law bars member of official state board from being compensated by company which enters into contract with board. Consequently member of board who has promoted eggs and other farm products as home economist and private contractor for number of years, may not engage in radio, television, or other media promotions where board of which she is member has entered into a contractual relationship with private company to produce and broadcast advertisement promoting eggs, where company would like to utilize aforementioned member in such advertisements, for compensation, and where agreement leads production questions including casting to discretion of the advertising company. Op. of Miss. Ethics Comm. Op. No. 93-104-E.

12. Public authority

Senior vice president of local bank depository of city housing authority may not also serve as commissioner/board member of housing authority, as he would hold prohibited interest in contracts for depositories. Op. of Miss. Ethics Comm. Op. No. 89-26-E.

Appointed member of city/county developmental authority may not become employed as auditor of same authority. Op. of Miss. Ethics Comm. Op. No. 90-021-E.

It would be violation for Board of Commissioners of a transportation authority to compensate its president for serving temporarily as its executive director as well. It matters not whether president resigned to become executive director or whether he provided temporary services in any capacity for the authority simultaneous with his service as board member, since for president to temporarily assume duties as executive director would require formal action on part of board, similarly compensation to board president would also require formal action on part of board; without order of board, employment or compensation would not be authorized; any such authorization brings in prohibitions of this section and Constitution Section 109. Op. of Miss. Ethics Comm. Op. No. 91-075-E.

Bank would violate law were it to bid on bonds issued for county's Economic Development District, where bank officer is simultaneously trustee for District. Additionally, any participation by trustee/bank officer in board deliberations or vote as concerns matter which would result in "pecuniary benefit" to trustee is prohibited; to avoid violation of provision, trustee/bank officer should totally recuse self, which would be effective as to § 25-4-105 subsection (1) but not as to Constitution Section 109 or Code subsection (2). Op. of Miss. Ethics Comm. Op. No. 91-083-E.

No violation of ethics laws occurs when Port Authority commissioner owns stock in company which is neither contractor nor subcontractor of Port Authority or otherwise contracts with Authority, despite fact that another owner of stock of company owns second corporation which contracts with Port Authority. Op. of Miss. Ethics Comm. Op. No. 93-118-E.

Commissioner of Port Authority may not own 200 shares of

casino stock valued at approximately \$1,000 where casino is under lease with Authority, and Authority participates on percentage basis in revenues generated by casino, and frequently deals with problems arising concerning lease. Stock owned by commissioner constitutes interest in lease contract authorized by his Authority, thus is prohibited. Op. of Miss. Ethics Comm. Op. No. 93-118-E.

Public purchase and trading of casino stock during 1993 by commissioner of Port Authority resulting in profits of over \$28,000, current holdings of 500 shares with unrealized gain of over \$8,000, and ownership of 600 shares in IRA of dependent relative with unrealized gain of over \$12,000, each constitute violation of Ethics law. Op. of Miss. Ethics Comm. Op. No. 93-118-E.

Constitutional Section 109 and Code Section 25-4-105 subsections (2) and (3)(a) would not prohibit casino from contracting with bank depository where vice president and member of board of directors of bank depository served as commissioner of Port Authority. Authority's lease with casino does not in and of itself create interest in lease on part of commissioner, merely because his bank holds contract with casino, where there is no evidence that bank would not contract with casino if casino had not held lease with commission. Also, commissioner does not have material financial interest in casino as he does not receive any income or benefit from it. Nevertheless, commissioner-banker should not vote on matters affecting casino since his bank could be indirectly affected which in turn could cause commissioner to violate subsection (1), thus commissioner ought to recuse self from casino matters coming before Authority. Op. of Miss. Ethics Comm. Op. No. 93-118-E.

Ethics laws prohibit Industrial Development Authority from contracting with bank to sell it land when one of IDA commissioners is employed by bank. While recusal on part of commissioner in deliberations and voting on board of which he is member would remove potential violation of subsection (1), it would not remove prohibited interest in violation of subsection (2) and Constitution Section 109. Op. of Miss. Ethics Comm. Op. No. 93-173-E.

Law prohibits bank from purchasing bonds of public regional airport authority, where such purchase is secondary purchase following an original issuance to another institution, where member of board of airport authority has material financial interest in bank. Without order by airport authority board, airport would be unable to proceed with particular contractual arrangement described. Op. of Miss. Ethics Comm. Op. No. 92-229-E.

13. School, board of education

Member of board of trustees of consolidated school district had material financial interest in auto parts company which employed him such as to constitute an interest in any contract between the company and the board of which he is a member (assuming that he earns in excess of \$100,000 annually, since it was not stated); therefore any sales of goods or services by subject's employer to his school district would cause subject to violate Constitution § 109 and Code § 25-4-105. Op. of Miss. Ethics Comm. Op. No. 88-156-E.

Where daughter or daughter-in-law of county school board member sought to be employed as teacher's aide or substitute teacher by same county, if she was financially dependent upon school board member then such employment would constitute violation of section, as school board member would have an interest in her employment, however if she was free from member's control and support then provisions would not be violated. Op. of Miss. Ethics Comm. Op. No. 88-184-E.

School board member may not be employed by major supplier of school district. Op. of Miss. Ethics Comm. Op. No. 89-34-E.

It would be conflict of interest for school board member to simultaneously be major stockholder in bank depository of same school district; where bank depository was authorized prior to board member's bank's purchase of second bank involved, violation occurs but it is problematical whether court would order any penalty. However, penalties should be in order should school board again select purchased bank as depository at end of current deposit contract year. Op. of Miss. Ethics Comm. Op. No. 90-028-E.

Candidate if elected to county school board may possess leasehold interest in Sixteenth Section land negotiated before becoming candidate, inasmuch as all transactions for leasehold interest occurred prior to candidacy and required no action on part of county school board other than acceptance of lease payment which is ministerial in nature. However, should any intervening events such as new statutory requirements or sale of leasehold interest occur requiring consideration and/or action by county school board, then section would become pertinent, and recusal by candidate would not prevent violation of provision. Furthermore candidate is cautioned not to participate in any board action affecting leasehold interest, in order to avoid application of section. However, recusal would be effective in this regard. Op. of Miss. Ethics Comm. Op. No. 89-63-E.

No violation exists where sister of prospective appointee as member of school board has been principal and long-time employee of one of schools served by such board. Sister is not included in definition of "relative" in § 25-4-103(p). Op. of Miss. Ethics Comm. Op. No. 90-098-E.

Law does not prohibit employee of one school district from becoming member of board of trustees of another adjoining school district provided employee recuses self from any deliberations or actions in the first school district that concern second school district. Op. of Miss. Ethics Comm. Op. No. 91-001-E.

Ethics violation arises where state legislator becomes employed by local school district within one year of expiration of his term. Op. of Miss. Ethics Comm. Op. No. 92-095-E.

Superintendent of school district may not accept honorarium from staff development session for an agency when his salary and expenses are paid by his own district. Op. of Miss. Ethics Comm. Op. No. 93-132-E.

Ethics in Government law may be violated should supervisor and his immediate family serve as teachers in same county. If supervisor or "relative", meaning spouse, child, or parent, became teacher in city school system, no per se violation of ethics law would occur; city school system is separate authority from that of county. Should supervisor or "relative" become employed by county school system, where all of local funding portion or of salaries under teaching contract comes from mandatory local tax levies, again no violation would occur. Where portion of salary derived by public school teacher under teaching contract or that of a "relative" comes from discretionary local tax levies, such teaching contract would violate Section 109 of state Constitution and Code Section 24-4-105, subsection (2), while teacher is member of board of governing authority which makes such tax levies or within one year after term on governing board expires. Op. of Miss. Ethics Comm. Op. No. 92-103-E.

Violation arises where spouse of cafeteria manager of county school district is elected member of same district's school board. Violation would occur when board rehires its employees each year. Op. of Miss. Ethics Comm. Op. No. 92-165-E.

Ethics laws prohibit spouse of member of county board of education from being employed as school bus driver for county. Op. of Miss. Ethics Comm. Op. No. 89-115-E.

It is violation for school board member's spouse to be secretary with school county food service, despite that a salary is paid entirely from federal funds. Conflict can be resolved only by one or other spouse resigning from position. Furthermore, spouse cannot be paid as long as member remains on school board and for one year thereafter. Op. of Miss. Ethics Comm. Op. No. 88-55-E.

Ethics in Government laws prohibit county school board member from contracting with corporation as to sale of sixteenth section timber when trustee is employed by corporation. Subsection (3) paragraph (a) would be violated as such trustee/employee would have a material financial interest in a contract with governmental authority of which he is member. However, trustee whose spouse was corporate employee would not violate same provision. Op. of Miss. Ethics Comm. Op. No. 92-173-E.

Ethics in Government laws prohibit county school board mem-

ber from contracting with corporation as to sale of sixteenth section timber when trustee is employed by corporation. Subsection (3) paragraph (a) would be violated as such trustee/employee would have a material financial interest in a contract with governmental authority of which he is member. However, trustee whose spouse was corporate employee would not violate same provision. Op. of Miss. Ethics Comm. Op. No. 92-173-E.

Both county school board trustee who is employed by corporation and trustee whose spouse is employed by corporation possess "interest, direct or indirect" in contract authorized by school board with corporation as to sale of sixteenth section timber such as to call into application § 24-4-105 subsection (2). Op. of Miss. Ethics Comm. Op. No. 92-173-E.

Violation arises upon continued employment of vocational counselor of county school district after he is sworn as elected member of county school board. Counselor should either resign elected position or resign counselor position. Op. of Miss. Ethics Comm. Op. No. 92-200-E.

14. Hospital, health care

No violation exists where members of community hospital board of trustees and its administrative employees serve as members, board members or officers of non-profit corporation organized by hospital to provide patient health care services. As long as trustees and employees are compensated by hospital according to state law rather than non-profit corporation, they would have no prohibited interest in any contracts between hospital and non-private corporation nor any material financial interest in such non-profit corporation, and their interest in corporation would be to represent hospital's interest and concerns. However, once partnership is formed, contracts between hospital and partnership would effectively preclude any hospital trustee, employee or agent from becoming investor, whether directly or indirectly, in partnership. Also, public servants of hospital would not be allowed to become employees of partnership or of any facility owned by partnership. Moreover, any doctor who is classified as independent contractor with hospital should analyze his or her contract prior to becoming associated with partnership to ensure that he or she is not public servant of hospital; nature and scope of each contract would determine whether given doctor is independent contractor or public servant. Op. of Miss. Ethics Comm. Op. No. 92-048-E.

Ethics Laws prohibit nurse employed as state division director of program from becoming employed during off hours by private nursing agency which has provider agreement with division, and which also operates in part under plans of care which are improved by same nurse. To avoid violation, it would be necessary for nurse to completely remove herself from any official functions dealing with private employer; however, even such measure would be ineffective as to application of subsection (3)(a). Op. of Miss. Ethics Comm. Op. No. 93-161-E.

It would be difficult for nurse employed as state division director of program from becoming employed by private medical doctor who is not under provider agreement or plan of care but who does receive Medicaid reimbursement, since, although private off-hours employment with private agency which is neither under provider agreement, plan of care for children, or supervision or inspection of division nor receives Medicaid reimbursement, would not in and of itself violate ethics laws, such employment should be subject to periodic review so that due to any intervening facts one or more code sections are not violated. Op. of Miss. Ethics Comm. Op. No. 93-161-E.

Member of county board of supervisors simultaneously employed by county hospital of same county would have prohibited interest in contract authorized by the board of which he is a member. Provisions would be violated should described circumstances exist subsequent to start of new budget cycle, whereas prior to such start of budget cycle no violation would occur since employment in question had been authorized prior to the supervisor's taking office. Same principles would apply to any new contracts authorized between hospital and board of supervisors or

as to any such items requiring action on part of board, such as hospital's budget, contracts which include payment to hospital for services or of interest to all employees of hospital, as their sustenance is in part derived from such contract. Only complete recusal on part of supervisor in all board deliberations and voting as to matters involving hospital, including appointment of its trustees, will avoid violation as to code subsection (1), but recusal removes only the vote, and not the prohibited interest subject to constitutional Section 109 and code § 25-4-105(2). (Commission also recommended that office of Attorney General be contacted as to applicability of Constitutional separation of powers doctrine as Commission lacks authority to interpret that provision.) Op. of Miss. Ethics Comm. Op. No. 92-231-E.

Legislator may not become employed as consultant to home health agency, because of potential for agency to receive funds authorized by legislature. Op. of Miss. Ethics Comm. Op. No. 93-076-E.

15. Judge, judicial employee

Conflict of interest laws do not permit Chancellor to lease private law office property to county for use of court administrator whose existence was created by an order of the Chancellor. Op. of Miss. Ethics Comm. Op. No. 89-98-E.

Chancellor may sell private law office real property to third party and thereafter lease same or part of same premises for his own use and use of court administrator whose existence was created by an order of the Chancellor, such lease to be at county expense; however such arrangement is permissible only if sale to disinterested third-party is absolute and final with no future options and not contingent upon any future action of Chancellor, and the space leased from third party would be that for use by the Chancellor. Chancellor must not be placed into any position of receiving pecuniary benefit prohibited by section. Op. of Miss. Ethics Comm. Op. No. 89-98-E.

Ethics in Government laws prohibit newly elected county supervisor from having spouse employed as deputy justice court clerk. Violations would occur once board adopts annual budget after newly elected supervisor takes office. Underlying rationale is principle that any interest of one spouse accrues to other spouse. Op. of Miss. Ethics Comm. Op. No. 91-111-E.

Service of writs or summons by deputy circuit clerk during her regular working hours would constitute use of her official position for pecuniary benefit in violation of code. To serve writs or process without violating subsection (1), such activity must be devoid of such factors as use of official position, county facilities and county telephones, etc, during regular working hours. Op. of Miss. Ethics Comm. Op. No. 93-142-E.

16. Law enforcement

Ethics laws would be violated should sheriff employ his spouse. Sheriff's office is not a separate authority, but part of county government. Board of supervisors must authorize sheriff's expenditures, including the hiring of employees, predicated on recommendation of sheriff. Such recommendation or hiring by sheriff constitute use of his official position to obtain pecuniary benefit in violation of code. Op. of Miss. Ethics Comm. Op. No. 92-085-E.

Ethics violation exists where person is elected alderman whose spouse is sergeant on city's police department. Once city's annual budget is adopted or like official action takes place which affects spouse of alderman, a violation of Constitutional Section 109 and Code Section 25-4-105(2) will occur. Op. of Miss. Ethics Comm. Op. No. 92-111-E.

Since county school system, pursuant to § 25-4-103(a), is separate authority from that of county proper, which includes board of supervisors, sheriff's office, and other divisions, county sheriff and employee of county Law Enforcement Agency may own and operate business, such as private security business, which contracts with county school system, so long as other provisions are not violated. However, Commission points out strong potential for

abuse, concerning, for instance, use of confidential information and licensing of private security company employees to carry weapons. Another concern is almost certain appearance of impropriety that would arise. Op. of Miss. Ethics Comm. Op. No. 93-225-E.

17. —District attorney

Where district attorney is currently using set of law books owned by legal assistant employed by him, legal assistant may not sell set to district attorney, even though district attorney would then purchase upgrades from independent vendor, since legal assistant is public servant and as such is prohibited from being contractor or vendor with governmental entity of which he is member. Op. of Miss. Ethics Comm. Op. No. 93-093-E.

Spouse of district attorney may not remain his secretary following their marriage when her initial employment occurred before marriage, inasmuch as her continued employment as well as her supervision would be at discretion of district attorney, and her salary would depend on district attorney's written requisition to state. Op. of Miss. Ethics Comm. Op. No. 93-093-E.

As to whether district attorney may be paid for monthly rental of personally owned property, including office space, from funds appropriated by state for office expense allowance, any such rental would constitute prohibited contract. Such would also be case if such services were purchased from a spouse. However, determination of fact would be necessary if rental was from parent or child. Op. of Miss. Ethics Comm. Op. No. 93-093-E.

Rent may not be paid to compulsory school attendance officers for use of their home as office, from state funds appropriated for compulsory school attendance officers office expense allowance, as such would violate subsection (3) paragraph (a) of section. Determination of fact would be required to decide whether or not rental would involve use of official position for pecuniary benefit in violation of subsection (1). Op. of Miss. Ethics Comm. Op. No. 93-093-E.

18. Attorney

Where legislator/attorney who practices in same city where his father is councilman and his law associate is city attorney, legislator/attorney may perform those legal services contracted to him by his law associate which would not otherwise have been prohibited had legislator/attorney contracted from them directly. Op. of Miss. Ethics Comm. Op. No. 90-052-E.

As to whether conflict provisions affect legislator/attorney who practices in same city where his father is councilman and his law associate is city attorney, and legislator/attorney acts as assistant city attorney or as city prosecutor or city judge, since state of emancipation exists between father and son with no financial dependency or involvement, father would not be legally "interested" in any contract between city and his son, therefore conflict provisions are not applicable. However to avoid "use of office" violation, father/councilman should not participate in any city council proceedings which may concern or affect son, including vote or negotiation concerning him. Thus, as long as separation of powers problem does not exist, father/councilman does not "use his official position" and son is not prohibited from serving the city in categories indicated. Op. of Miss. Ethics Comm. Op. No. 90-052-E.

Law does not prohibit legislator/attorney from representing private clients in eminent domain matters brought about by Department of Economic Development, however legislator is cautioned that in serving as attorney for private clients there should be no use of his official position as set forth in subsection (1) of § 25-4-105. Op. of Miss. Ethics Comm. Op. No. 91-029-E.

Conflict of interest law prohibits law firm, of which member of state board is member, from representing state agency where such representation and contract require approval by state board. Moreover, board member's recusal as to voting and deliberations would avoid violation of subsection (1) only, not of subsection (2) or

of Constitution Section 109. Op. of Miss. Ethics Comm. Op. No. 91-132-E.

Ethics in government laws are not violated should spouse of a city attorney/ex-legislator become employed by same city's school district. City and city school district are separate "authorities" under subsection (a) of § 25-4-103 and spouse may be employed by a separate authority. Op. of Miss. Ethics Comm. Op. No. 92-025-E.

Law prohibits attorney from becoming city attorney of a town whose mayor is attorney's secretary. Op. of Miss. Ethics Comm. Op. No. 93-130-E.

Violation of ethics laws would occur should spouse of councilperson serve as public defender following spouse's appointment by mayor in mayor-council form of city government. Op. of Miss. Ethics Comm. Op. No. 93-133-E.

Violation would occur should person be elected county supervisor and thereafter become affiliated with law firm which contracts with insurance company to represent certain county entities and public officials in same and other counties. Violation would not exist if law firm did not represent any of county personnel or entities of county or if supervisor chose not to affiliate with law firm. Neither recusal nor abstention prevents potential violation; while vote may be removed, prohibited interest in contract authorized by board lingers. Op. of Miss. Ethics Comm. Op. No. 93-216-E.

Attorney who is member of legislature may represent private clients before state agencies such as Mississippi Public Service Commission. However, should client be other than private client and take on form of governmental entity, determination of fact would have to be made in each case as to whether or not ethics laws would become applicable. Op. of Miss. Ethics Comm. Op. No. 92-183-E.

19. Other

The assignment of a lease-purchase contract with a county to a business owned by the chancery clerk of the county board of supervisors did not violate § 25-4-105(3)(a), which prohibits a public servant from being a contractor, subcontractor or vendor with the governmental entity of which he or she is a member, since an assignment of a contract to a public servant's business does not violate the language of the statute, and the chancery clerk was not a "member" of a governmental entity but was merely an employee. Moore ex rel. Chickasaw County v McCullough (1993, Miss) 633 So 2d 421.

Law prohibits assistant data clerk and secretary for county tax assessor from accepting fee from citizen to furnish citizen with information from property record cards and tax receipts, if public servant conducted such work during regular working hours, unless such duty was part of her official duties, and if it were considered her official duty, any receipt of fee would constitute violation of subsection (1). Section would also be violated if any of records or facilities of tax assessor which were not available to and freely used by public after hours were used by public servant after hours in fulfilling desired request for fee. Op. of Miss. Ethics Comm. Op. No. 93-175-E.

Where manager is hired by state to help manage two federal grants, and manager's two children seek to become employed by one of the two grants, hiring and continued employment of children would constitute use of manager's official position for pecuniary benefit for a relative in violation of code subsection (1). Additional possible violations under subsection (3)(d) could exist but must be found through determination of facts. Commission adds that situation raises suspicion among public and reflects unfavorably upon state. In relation to 93-206-E(n 19) add: "As to money paid to employee's children, department should be guided by § 25-4-113." Op. of Miss. Ethics Comm. Op. No. 93-206-E.

Ethics laws prohibit volunteer fire department from purchasing gasoline from service station owned by son of county supervisor and from which supervisor receives monthly income. Op. of Miss. Ethics Comm. Op. No. 93-208-E.

Law is not violated when County Medical Examiner Investigator has Deputy who is simultaneously a director of local funeral home. Op. of Miss. Ethics Comm. Op. No. 92-125-E.

Ethics law is not violated should designated pathologist be named State Medical Examiner and serve in that capacity, without compensation, while continuing to conduct autopsies as pathologist. However, commission voices grave concern as to practicality and propriety of having pathologist conducting large percentage of state's autopsies also responsible for rules and regulations under which he and his professional colleagues perform public duties, and path he would be forced to follow in order not to fall into violation of using official position for pecuniary benefit may be so narrow as to limit effectiveness as State Medical Examiner. Op. of Miss. Ethics Comm. Op. No. 92-132-E.

Law prohibits employee of county tax assessor's office from writing bail bonds returnable to county; any bond written by county employee or his bail bonding company and accepted by county court and returnable to county would constitute prohibited contract between the county and employee and his company. It is of no consequence whether the person placed under bond may be charged with felony or misdemeanor, deciding factor being that bond is accepted by and returnable to county. Duties and responsibilities of county employee must be kept entirely separate and distinct from any pursuit of his bail bond business. Op. of Miss. Ethics Comm. Op. No. 93-037-E.

§ 25-4-107. Complaints; where brought; removal; initiated by; defendant's right to jury trial.

(1) Any complaint for a violation of this article shall be brought in the circuit court of the county in which the violation occurred; provided, however, that upon the motion of the defendant such action shall be removed to the county in which the defendant resides. Any such complaint may be initiated only by the Mississippi Ethics Commission or the district attorney of the county in which the violation occurred.

(2) The defendant in any trial for a violation of this article shall have the right to a trial by jury; provided, however, that such defendant may, upon proper motion, waive his right to a trial by jury. A unanimous verdict of the jury shall be required for a finding of a violation of this article.

JUDICIAL DECISIONS

The jury trial provision of § 25-4-107 does not alter or amend the summary judgment procedure under Rule 56, Miss.R.Civ.P.; the conflicts of interest statute provides for civil remedies and

penalties, and the provision for trial by jury means no more than it means in any other civil process before the circuit court. *Towner v Moore* (1992, Miss) 604 So 2d 1093.

§ 25-4-109. Penalties; elected and nonelected public servants.

(1) Upon a finding by clear and convincing evidence that any elected public servant or other person has violated any provision of this article, a circuit court of competent jurisdiction may censure the elected public servant or remove the elected public servant from office or impose a civil fine of not more than five thousand dollars (\$5,000.00) or both.

(2) Upon a finding by clear and convincing evidence that any nonelected public servant has violated any provision of this article, a circuit court of competent jurisdiction may censure, remove, suspend, or order a reduction in pay or demotion of the nonelected public servant or impose a civil fine of not more than five thousand dollars (\$5,000.00) or both.

(1) An authority head and any other public servant having the authority to appoint a person to a position of public service, regardless of whether or not such appointment requires the approval of the senate or any other body, employee or person, shall take such action as may be ordered by a circuit court of competent jurisdiction with respect to any public employee within his authority or any such appointee upon a finding by such court that such employee or appointee has violated any provision of this article. Such action may include the imposition of the conditions described in subsection (2) of section 25-4-109.

(2) Upon a finding by a circuit court of competent jurisdiction that a former public servant or other person has violated any provision of this article or any order promulgated hereunder, such court shall bar or impose reasonable conditions upon:

(a) The appearance before any authority of such former public servant or other person.

(b) The conduct of, or negotiation or competition for, business with any authority by such former public servant or other person for such period of time as may be necessary or appropriate to effectuate the purposes of this article.

Fees

§ 25-7-65. Printers and publishers.

Printers and publishers shall be entitled to the following fees:

(a) For publishing in a newspaper any summons, order, citation, advertisement or notice required by law to be published in a newspaper, Eight Cents (8¢) for each word it contains for the first insertion, and Five Cents (5¢) for each of said words for each subsequent insertion required by law; provided, however, that as an alternative, such printers and publishers may charge such fees per line which are acceptable to the party placing the publication not to exceed the Eight Cents (8¢) and Five Cents (5¢) per word as set out hereinabove.

When four (4) or more numerals appear consecutively in any such legal publication, four (4) numerals shall be considered as one (1) word, and if there remains a fractional portion of such unit of four (4) numerals therein such fraction shall also be counted as one (1) word. In the case of numbers containing less than four (4) numerals which are isolated from other numerals by words in such publication, the same shall be counted as one (1) word. When tables or tabular matter are included, each line of the standard newspaper column shall be considered as containing at least six (6) words.

(b) For making proof of publication, making a copy thereof, and for depositing to the same, either and all, One Dollar (\$1.00); to be paid for both publications and proof on delivery of the proof of publication, but this section shall not apply to the publication of ordinances of municipalities and proceedings of the board of supervisors.

JUDICIAL DECISIONS

Where two newspapers submitted bids of \$15 and \$25 per month, respectively, for the publication of the proceedings of a board of supervisors, the board could not award the contract to the newspaper making the \$25 bid, on the theory that a stipulation in its bid that it would charge the legal rate for the publication in

case the minutes of the board did not amount to \$25 as computed by the legal rate might render the amount to be paid less than that stipulated in the other bid, since the law inserted a stipulation to the same effect in the bid of the other newspaper. *Klyce v Alcorn County* (1942) 192 Miss 440, 6 So 2d 298.

JUDICIAL DECISIONS

The attendance by members of a County Board of Supervisors individually or in a body at social functions or at charities, or with industry or business representatives when their only purpose and function is to listen, and to take no official action at the time, are not public meetings within the Open Meetings Act. Hinds County Bd. of Supervisors v Common Cause of Mississippi (1989, Miss) 551 So 2d 107.

Meetings held by a County Board of Supervisors with city officials and several other people to discuss developing a sewage system in the southern part of the county to induce homeowners to build in that area, were official meetings under the Open Meetings Act. Hinds County Bd. of Supervisors v Common Cause of Mississippi (1989, Miss) 551 So 2d 107.

Meeting is within Open Meeting Act when there is assemblage of members of public body at which official acts, including actions

relating to formation and determination of public policy, may be taken; although purely social functions are not covered, factors to consider in making determination of whether activity is business or social include activity that takes place at function, advance call or notice given members, agenda, claim for per diem and travel expenses by members, and other pertinent factors. Board of Trustees v Mississippi Publishers Corp. (1985, Miss) 478 So 2d 269, 12 Media L R 1389.

State board of trustees of state institutions of higher learning is "public body" within meaning of § 25-41-3(a) of Open Meetings Act; executive session meetings between state board and its university presidents and staff are "meetings" under § 25-41-3(a), and are thus subject to Open Meetings Act. Mississippi Publishers Corp. v Board of Trustees (1983, Miss Ch) 9 Media L Rptr 2450.

§ 25-41-5. Official meetings of public bodies to be public and open.

All official meetings of any public body, unless otherwise provided in this chapter or in the Constitutions of the United States of America or the State of Mississippi, are declared to be public meetings and shall be open to the public at all times unless declared an executive session as provided in section 25-41-7.

JUDICIAL DECISIONS

Requirement that official meetings be open to public at all times may not be avoided by use of telephone polls among members of public body to conduct official acts; however, recording of final vote by telephone is not prohibited where vote is reduced to public record and all deliberation prior to final vote has taken place in accordance with Open Meetings Act. § 25-41-7. Executive sessions.

(1) Any public body may enter into executive session for the transaction of public business; provided, however, all meetings of any such public body shall commence as an open meeting, and an affirmative vote of three-fifths (3/5) of all members present shall be required to declare an executive session.

(2) The procedure to be followed by any public body in declaring an executive session shall be as follows: Any member shall have the right to request by motion a closed determination upon the issue of whether or not to declare an executive session. Such motion, by majority vote, shall require the meeting to be closed for

a preliminary determination of the necessity for executive session. No other business shall be transacted until the discussion of the nature of the matter requiring executive session has been completed and a vote, as required in subsection (1) hereof, has been taken on the issue.

(3) An executive session shall be limited to matters allowed to be exempted from open meetings by subsection (4) of this section. The reason for holding such an executive session shall be stated in an open meeting, and the reason so stated shall be recorded in the minutes of the meeting. Nothing in this section shall be construed to require that any meeting be closed to the public, nor shall any executive session be used to circumvent or to defeat the purposes of this chapter.

(4) A public body may hold an executive session pursuant to this section for one or more of the following reasons:

(a) Transaction of business and discussion of personnel matters relating to the job performance, character, professional competence, or physical or mental health of a person holding a specific position.

(b) Strategy sessions or negotiations with respect to prospective litigation, litigation or issuance of an appealable order when an open meeting would have a detrimental effect on the litigating position of the public body.

(c) Transaction of business and discussion regarding the report, development or course of action regarding security personnel, plans or devices.

(d) Investigative proceedings by any public body regarding allegations of misconduct or violation of law.

(e) Any body of the Legislature which is meeting on matters within the jurisdiction of such body.

(f) Cases of extraordinary emergency which would pose immediate or irrevocable harm or damage to persons and/or property within the jurisdiction of such public body.

(g) Transaction of business and discussion regarding the prospective purchase, sale or leasing of lands.

(h) Discussions between a school board and individual students who attend a school within the jurisdiction of such school board or the parents or teachers of such students regarding problems of such students or their parents or teachers.

(i) Transaction of business and discussion concerning the preparation of tests for admission to practice in recognized professions.

(j) Transaction of business and discussions or negotiations regarding the location, relocation or expansion of a business or an industry.

(k) Transaction of business and discussions regarding employment or job performance of a person in a specific position or termination of an employee holding a specific position. The exemption provided by this paragraph includes the right to enter into executive session concerning a line item in a budget which might affect the termination of an employee or employees. All other budget items shall be considered in open meetings and final budgetary adoption shall not be taken in executive session.

(5) The total vote on the question of entering into an executive session shall be recorded and spread upon the minutes of such public body.

(6) Any such vote whereby an executive session is declared shall be applicable only to that particular meeting on that particular day.

JUDICIAL DECISIONS

The attendance by members of a County Board of Supervisors individually or in a body at social functions or at charities, or with industry or business representatives when their only purpose and function is to listen, and to take no official action at the time, are not public meetings within the Open Meetings Act. *Hinds County Bd. of Supervisors v Common Cause of Mississippi* (1989, Miss) 551 So 2d 107.

Within the framework of the statutory language of the Open Meetings Act itself, all statutory exceptions must, under the spirit and philosophy of the Act, be strictly construed against executive sessions. Even though an executive session might come under "personnel matters," or another of the subjects listed under § 25-41-7(4), this in and of itself is insufficient in the absence of at least a reasonably arguable basis of an actual, present need for a closed meeting on the subject. *Hinds County Bd. of Supervisors v Common Cause of Mississippi* (1989, Miss) 551 So 2d 107.

Under § 25-41-7(4), "personnel matters" were restricted to matters dealing with employees hired and supervised by a County Board of Supervisors, not those employees of some other county officials, and not other county officials themselves. Nor, would a member of the Board of Supervisors be classified "personnel." Moreover, an independent contractor such as an accountant, lawyer, or architect is not an employee of the Board, and would not come under "personnel." Thus, the Board was not entitled to go into executive session under the "personnel matters" exception to consider appointments to fill a vacancy on the Board, to discuss employees of some other county official, or to consider the employment of, or discussions with, an architect concerning his employment. *Hinds County Bd. of Supervisors v Common Cause of Mississippi* (1989, Miss) 551 So 2d 107.

Under § 25-41-7, the reason given for going into executive session must be meaningful. The reason stated must be of sufficient specificity to inform those present that there is in reality a specific, discrete matter or area which the public body had determined should be discussed in executive session. The public body

may then go into executive session to discuss this one matter, and, when concluded, must re-open the meeting. No matter may be discussed at the executive session other than the announced subject. *Hinds County Bd. of Supervisors v Common Cause of Mississippi* (1989, Miss) 551 So 2d 107.

Total vote on question of entering into executive session must be recorded, by individual member's expression, in minutes. *Board of Trustees v Mississippi Publishers Corp.* (1985, Miss) 478 So 2d 269, 12 Media L R 1389.

As term "personnel" used in § 25-41-7 is not defined within Open Meetings Act, its use is of common and ordinary meaning and any further definition must be addressed by court on case-by-case development guided by general rules of statutory definition together with legislative intent of act and its declared policy. *Board of Trustees v Mississippi Publishers Corp.* (1985, Miss) 478 So 2d 269, 12 Media L R 1389.

The meeting of a city planning commission, which was a "public body" within the meaning of § 25-41-3(a), with two professional city planners, each of whom had provided expert testimony in prior annexation trials, to consider possible expansion of the city through annexation of additional lands, came within the litigation exception to the statute, even though no attorneys were present, since annexation confirmation proceedings are "litigation" within the meaning of the section, since opposition to the proposed annexation was reasonably expected by the commission, since the minutes of the meeting clearly indicated it was a strategy session with respect to the prospective litigation, and since the annexation confirmation proceedings were "prospective litigation" within the meaning of the section, that is, litigation reasonably likely to occur in the reasonably foreseeable future; and thus, the planning commission had the lawful power to hold an executive session and exclude from it members of the press and public. *Vicksburg v Vicksburg Printing & Pub. Co.* (1983, Miss) 434 So 2d 1333, 9 Media L R 2279.

§ 25-41-9. Conduct of persons attending meetings.

Any public body may make and enforce reasonable rules and regulations for the conduct of persons attending its meetings.

§ 25-41-11. Minutes.

Minutes shall be kept of all meetings of a public body, whether in open or executive session, showing the members present and absent; the date, time and place of the meeting; an accurate recording of any final actions taken at such meeting; and a record, by individual member, of any votes taken; and any other information that the public body requests be included or reflected in the minutes. The minutes shall be recorded within a reasonable time not to exceed thirty (30) days after recess or adjournment and shall be open to public inspection during regular business hours.

Minutes of legislative committee meetings shall consist of a written record of attendance and final actions taken at such meetings.

JUDICIAL DECISIONS

In an action by the state executive committee of a political party against the state commissioner for public safety in connection with a dispute over the proper fee for access to the complete drivers license records of the state, under §§ 25-61-7 and 45-1-21, the amount of the fee to be commensurate with the actual cost to the state of providing the copies of those records. *Roberts v Mississippi Republican Party State Executive Committee* (1985, Miss) 465 So 2d 1050.

Political party provided with access to drivers license records may be charged only for actual cost of providing copies of records.

Roberts v Mississippi Republican Party State Executive Committee (1985, Miss) 465 So 2d 1050.

In dispute over reasonableness of fee charged for providing drivers license records to political party, both § 25-61-7 and § 45-1-21 must be given effect since there is no express repeal of § 45-1-21 and no irreconcilable conflict between statutes. *Roberts v Mississippi Republican Party State Executive Committee* (1985, Miss) 465 So 2d 1050.

(2) If any public record which is held to be exempt from disclosure pursuant to this chapter contains material which is not exempt pursuant to this chapter, the public body shall separate the exempt material and make the nonexempt material available for examination and/or copying as provided for in this chapter.

(3) Trade secrets and confidential commercial and financial information of a proprietary nature developed by a college or university under contract with a firm, business, partnership, association, corporation, individual or other like entity shall not be subject to inspection, examination, copying or reproduction under this chapter.

JUDICIAL DECISIONS

Venue was not proper in Forrest County while action in Hinds County was pending and abeyance agreed to, where statute provided that one aggrieved by denial of access to public records could institute suit in Chancery Court of County in which public body was located; contention that Board of Trustees of state institutions of higher learning could be sued in any county where it did busi-

ness was rejected, where to do so would require Board to defend actions in all 82 counties; Chancery Court has no jurisdiction over defendant who neither resides nor is found in county where suit is filed, absent waiver. Board of Trustees v Slyke (1987, Miss) 510 So 2d 490.

§ 25-61-15. Penalty for wrongful denial of access to record.

CHAPTER 7
Income Tax and Withholding

ARTICLE 1
INCOME TAX

SEC.
27-7-15. Gross income defined.

§ 27-7-15. Gross income defined.

[Until January 1, 1998, this section reads as follows:]

(1) For the purposes of this article, except as otherwise provided, the term "gross income" means and includes the income of a taxpayer derived from salaries, wages, fees or compensation for service, of whatever kind and in whatever form paid, including income from governmental agencies and subdivisions thereof; or from professions, vocations, trades, businesses, commerce or sales, or renting or dealing in property, or reacquired property; also from annuities, interest, rents, dividends, securities, insurance premiums, reinsurance premiums, considerations for supplemental insurance contracts, or the transaction of any business carried on for gain or profit, or gains, or profits, and income derived from any source whatever and in whatever form paid. The amount of all such items of income shall be included in the gross income for the taxable year in which received by the taxpayer. The amount by which an eligible employee's salary is reduced pursuant to a salary reduction agreement authorized under Section 25-17-5 shall be excluded from the term "gross income" within the meaning of this article.

(2) In determining gross income for the purpose of this section, the following, under regulations prescribed by the commissioner, shall be applicable:

(a) Dealers in property. Federal rules, regulations and revenue procedures shall be followed with respect to installment sales.

(b) Casual sales of property. Federal rules, regulations and revenue procedures shall be followed with respect to installment sales.

(i) The term "installment sale" means a disposition of property where at least one (1) payment is to be received after the close of the taxable year in which the disposition occurs.

(ii) The term "installment method" means a method under which the income recognized for any taxable year from the disposition is that proportion of the payments received in that year which the gross profit (realized or to be realized when payment is completed) bears to the total contract price.

(c) Reserves of insurance companies. In the case of insurance companies, any amounts in excess of the legally required reserves shall be included as gross income.

(d) Affiliated companies or persons. As regards sales, exchanges or payments for services from one to another of affiliated companies or persons or under other circumstances where the relation between the buyer and seller is such that gross proceeds from the sale or the value of the exchange or the payment for services are not indicative of the true value of the subject matter of the sale, exchange, or payment for services, the commissioner shall prescribe uniform and equitable rules for determining the true value of the gross income, gross sales, exchanges, or payment for services, or require consolidated returns of affiliates.

(e) Alimony and separate maintenance payments. The federal rules, regulations and revenue procedures in determining the deductibility and taxability of alimony payments shall be followed in this state.

(f) Reimbursement for expenses of moving. There shall be included in gross income (as compensation for

services) any amount received or accrued, directly or indirectly, by an individual as a payment for or reimbursement of expenses of moving from one residence to another residence which is attributable to employment or self-employment.

(3) In the case of taxpayers other than residents, gross income includes gross income from sources within this state.

(4) The words "gross income" do not include the following items of income which shall be exempt from taxation under this article:

(a) The proceeds of life insurance policies and contracts paid upon the death of the insured. However, the income from the proceeds of such policies or contracts shall be included in the gross income.

(b) The amount received by the insured as a return of premium or premiums paid by him under life insurance policies, endowment, or annuity contracts, either during the term or at maturity or upon surrender of the contract.

(c) The value of property acquired by gift, bequest, devise or descent, but the income from such property shall be included in the gross income.

(d) Interest upon the obligations of the United States or its possessions, or securities issued under the provisions of the Federal Farm Loan Act of July 17, 1916, or bonds issued by the War Finance Corporation, or obligations of the State of Mississippi or political subdivisions thereof.

(e) The amounts received through accident or health insurance as compensation for personal injuries or sickness, plus the amount of any damages received for such injuries or such sickness or injuries, or through the War Risk Insurance Act, or any law for the benefit or relief of injured or disabled members of the military or naval forces of the United States.

(f) Income received by any religious denomination or by any institution or trust for moral or mental improvements, religious, Bible, tract, charitable, benevolent, fraternal, missionary, hospital, infirmary, educational, scientific, literary, library, patriotic, historical, or cemetery purposes or for two (2) or more of such purposes, if such income be used exclusively for carrying out one or more of such purposes.

(g) Income received by a domestic corporation which is "taxable in another state" as this term is defined in this article, derived from business activity conducted outside this state. Domestic corporations taxable both within and without the state shall determine Mississippi income on the same basis as provided for foreign corporations under the provisions of this article.

(h) In case of insurance companies, there shall be excluded from gross income such portion of actual premiums received from an individual policyholder as is paid back or credited to or treated as an abatement of premiums of such policyholder within the taxable year.

(i) Income from dividends that has already borne a tax as dividend income under the provisions of this article, when such dividends may be specifically identified in the possession of the recipient.

(j) Amounts paid by the United States to a person as added compensation for hazardous duty pay as a member of the Armed Forces of the United States in a combat zone designated by Executive Order of the President of the United States.

(k) Amounts received as retirement allowances, pensions, annuities, or optional retirement allowances paid under the Federal Social Security Act, the Railroad Retirement Act, the Federal Civil Service Retirement Act, or any other retirement system of the United States government, retirement allowances paid under the Mississippi Public Employees' Retirement System, Mississippi Highway Safety Patrol Retirement System or any other retirement system of the State of Mississippi or any political subdivision thereof. The exemption allowed under this paragraph (k) shall be available to the spouse or other beneficiary at the death of the primary retiree.

A taxing statute will be strictly construed against the taxing power and in favor of the taxpayer, and all doubts as to whether or not a tax has been imposed must be resolved in favor of the taxpayer. State v Johnson (1960) 238 Miss 211, 118 So 2d 308.

The word "property" as used in subsection (a) of this section, applying where property is sold upon the deferred payment plan, is not limited to tangible property. *State v Johnson* (1960) 238 Miss 211, 118 So 2d 308.

2. Particular applications

A pro rata distribution to stockholders of a corporation of stock in another corporation acquired by it in exchange for assets, does not constitute taxable income. *Mississippi State Tax Com. v Hogg* (1960) 239 Miss 597, 124 So 2d 300.

Where a taxpayer, who had received 10 instalment promissory notes representing part of the purchase price from him of certain shares of stock, exercised his option to pay income tax on gains received in the years in which the deferred payments were received by him, and subsequently taxpayer transferred these notes in a bona fide transaction to a merchandise corporation in which he was a principal stockholder, for purpose of enabling indorsee to use notes as collateral in its business, with the taxpayer receiving in return, and as consideration for the transfer, substantially identical notes of the corporation payable to him in instalments, taxpayer retained the privilege to report his taxable gain under the new instalment notes on the deferred payment basis. *State v Johnson* (1960) 238 Miss 211, 118 So 2d 308.

Where the entire business of a Mississippi corporation consisted of assembling component parts to be used by the New Jersey corporation which owned all of its outstanding stock, the statutory basis for income taxes of the Mississippi corporation was its gross income, and its gross income was the true value of the services it performed for the New Jersey corporation. The Tax Commission could not lawfully substitute for the statutory method of determining gross income an apportionment formula that included the income of the New Jersey corporation, and that portion of a tax regulation authorizing the commissioner to consolidate the income of a resident corporation with that of an affiliated foreign corporation and apply an apportionment formula for income tax purposes is void. *Universal Mfg. Where an instalment sale of real estate is made, instalments of trust deed indebtedness assumed by the purchaser maturing subsequent to the year of sale are not to be considered in determining whether the initial payment exceeds 30 percent. *State Tax Com. v Edmondson* (1967, Miss) 196 So 2d 873.

To determine whether the initial payment received in connection with an instalment sale of real estate exceeds 30 percent, only the sum paid in cash plus any trust deed indebtedness assumed by the purchaser which matures in the year of the sale are to be included. *State Tax Com. v Edmondson* (1967, Miss) 196 So 2d 873.

The subsequent amendment of income tax statute could not be considered in determining whether under original statute gross income included profits on sales of property not regularly employed in conduct of regular trade or business, where original statute was not ambiguous. *Viriden v State Tax Com.* (1938) 180 Miss 467, 177 So 784.

An administrative interpretation of income tax statute to effect that it did not impose tax on gains realized from capital transactions could not be considered in determining whether gross income within statute included profits on sales of property not regularly employed in conduct of regular trade or business, where the administrative interpretation was in conflict with statute and the commission making the interpretation had not adhered to such interpretation. *Viriden v State Tax Com.* (1938) 180 Miss 467, 177 So 784.

Including income from sources outside the state in determining a citizen's taxable income while excluding it in determining the taxable income of domestic corporations does not deny to a citizen the equal protection of the laws where there is nothing to negative the possible existence of just grounds of difference and it appears that the state has adopted generally a policy of avoiding double taxation of the same economic interest in corporate income by taxing either income of the corporation or dividends of its stockholders, but not both, and in the case of corporate income and dividends attributable to business done outside the state and received by stockholders of domestic corporations, the stockholders are taxed. *Lawrence v State Tax Com.* (1932) 286 US 276, 76 L Ed 1102, 52 S Ct 556, 87 ALR 374.

2. What constitutes taxable income

Election by state to tax the shares of national banks according to their value as permitted under Act of Congress (12 USCA § 548) exhausted its right to tax such bank, or its shares, or the income therefrom; and, accordingly, the state legislature did not intend,

under the Income Tax Act of 1934, to tax the income dividends derived from such shares. *Mississippi State Tax Com. v Brown* (1940) 188 Miss 483, 193 So 794, 127 ALR 919, sugg of error overr 188 Miss 516, 195 So 465, 127 ALR 933.

This income tax law will not be construed as taxing income from national bank shares where it was enacted at a time when the view prevailing in the Supreme Court of the United States was that instrumentalities of the United States could not be taxed by the state on income. *Mississippi State Tax Com. v Brown* (1940) 188 Miss 483, 193 So 794, 127 ALR 919, sugg of error overr 188 Miss 516, 195 So 465, 127 ALR 933.

Refunds or payments by a ginning company to its patrons, under an agreement that if they would pay its charges for ginning their cotton and accept payment for their cotton seed at prices offered by it therefor, it would thereafter make an equitable adjustment of such prices and charges and pay them additional money for the cotton seed purchased from them, construed by both parties to be an agreement by the ginning company to do for all its patrons what under its charter it was required to do for its patrons who owned its corporate stock, were not a part of the ginning company's gross income and therefore included in the taxable income of the corporation. *State v Morgan Gin Co.* (1939) 186 Miss 66, 189 So 817.

Money received in a business transaction which the taxpayer has no right to retain but must return is not income within the purview of this section. [Code 1942, § 9227], since his income from the business is neither increased nor diminished thereby. *State v Morgan Gin Co.* (1939) 186 Miss 66, 189 So 817.

A taxpayer's "gross income" included profits on sales of property not regularly employed in conduct of regular trade or business where income tax statute was broad enough to include profits on sales of all property in gross income, notwithstanding statute contained provisions for determining gains realized or losses sustained from disposition of assets employed in conduct of regular trade or business but not for determining gains or losses sustained on sales of property not employed in trade or business, since provisions for determining gains or losses were not in conflict with legislative intent clearly expressed in preceding provisions that

Increase in value of property, accruing over period of years, may be taxed as "income" of year in which it is converted into money or other property. *Fernwood Lumber Co. v Mississippi State Tax Com.* (1933) 167 Miss 273, 149 So 727.

Income earned by citizen and resident of state, whether earned within or without state, is subject to tax. *Lawrence v Mississippi State Tax Com.* (1931) 162 Miss 338, 137 So 503, affd 286 US 276, 76 L Ed 1102, 52 S Ct 556, 87 ALR 374.

Rental of land received under Agricultural Adjustment Act was a "gain" or "income" from land and not "other compensation received from United States government" so as to be exempt from state income tax within terms of former statute exempting salaries, wages and other compensation received from the United States government. *Chapman v State* (1937) 179 Miss 507, 176 So 391.

Rental of land received under Agricultural Adjustment Act was not exempt from state income tax as a "gift," since gift by government must be authorized by valid Act of Congress. *Chapman v State* (1937) 179 Miss 507, 176 So 391.

The salary of a vice-president of a federal land bank is not exempt from state income tax, since federal land banks, though federal instrumentalities, were established primarily to make loans on farm lands, are operated in part for profit, and private investors may own their stock. *Parker v Mississippi State Tax Com.* (1937) 178 Miss 680, 174 So 567, cert den 302 US 742, 82 L Ed 574, 58 S Ct 144.

That profit or gain is evidenced by something which is property taxable as such does not render it exempt from taxation as "income." *Fernwood Lumber Co. v Mississippi State Tax Com.* (1933) 167 Miss 273, 149 So 727.

1. In general

This section [Code 1942, § 9697] designates what property shall be exempt from taxation, all property being taxable except that named. *Teche Lines, Inc. v Board of Sup'rs* (1932) 165 Miss 617, 143 So 486.

This section [Code 1942, § 9697] and subsequent sections declare the general policy of the state with regard to exemptions. All property within the territorial limits of the state shall be taxed except such as shall be specifically exempted. *Barnes v Jones* (1925) 139 Miss 675, 103 So 773, 43 ALR 673.

A tax-collector, being merely a ministerial officer, cannot determine the constitutionality of a statute exempting a property owner from liability for taxes. *Yazoo & M. V. R. Co. v West* (1901) 78 Miss 789, 29 So 475.

Section 27-35-35 and § 27-35-37 are not unconstitutionally vague and ambiguous in that they fail to set forth a specific formula for valuation of branch bank intangibles. Any vagueness or ambiguity in § 27-35-35 and § 27-35-37 when read in isolation is cured by reading them in *pari materia* with other statutes dealing with the same or similar subjects, especially § 27-13-13. Additionally, § 27-35-35 is not unconstitutional on the ground that it fails to allow deduction from taxable capital (i.e., net worth) those amounts invested in tax exempt government securities since government obligations are expressly exempted from ad valorem taxation by § 27-31-1(u). It is clear that § 27-31-1(u) is to be read in *pari materia* with all taxation statutes and nothing in § 27-35-35 implies that the general exemptions of § 27-31-1 are inapplicable to banks. *Calhoun County Bd. of Supervisors v Grenada Bank* (1988, Miss) 543 So 2d 138.

Parents of Black school children have standing to challenge the constitutionality of § 27-31-1(d) insofar as it is applied to grant state, county, or municipal sales of property tax exemptions to any private school in Mississippi which engages in racial discrimination in admissions policies for students and employment of faculty and staff, notwithstanding that plaintiffs failed to allege that any private racially desegregated school within the state will cease to operate if it is denied exemptions from the taxes under attack. *Moton v Lambert* (1981, ND Miss) 508 F Supp 367.

2. Construction, generally

While tax exemption statute must be strictly construed against the exemption and all reasonable doubts be resolved against it, and hospital has burden of showing right to the exemption, courts will not ascribe to legislature intention to be unfair and unjust and will not so interpret exemption statute as to cause unthought-of results. *Board of Supervisors v Vicksburg Hospital, Inc.* (1935) 173 Miss 805, 163 So 382.

The law exempting property will be strictly construed against the exemption and in construing the statute the rule *eiusdem generis* applies. *Currie-Finch Brick & Lumber Co. v Miller* (1920) 123 Miss 850, 86 So 579.

But while as a general rule exemptions from taxation must be strictly construed, the legislature has the authority to relax such rule with reference to educational and religious institutions. *Adams County v Catholic Diocese of Natchez* (1916) 110 Miss 890, 71 So 17.

By exempting bonds authorized by the Agriculture and Industry Act and the income therefrom, the legislature must have intended to benefit the bondholders, not the county, since § 25-3i-1(b) already exempted property of the State of Mississippi and its political subdivisions. *Board of Supervisors v Hattiesburg Coca-Cola Bottling Co.* (1984, Miss) 448 So 2d 917.

In determining whether a labor union was a benevolent organization, so as to exempt its building from ad valorem taxation, the Supreme Court was not bound by rulings of the Attorney General and the State Tax Commission categorizing labor unions as fraternal and benevolent organizations, or by the fact that the union was allowed certain federal tax exemptions. *United Rubber, etc. v Lee County Board of Supervisors* (1979, Miss) 369 So 2d 497.

3. Burden of proof

One claiming exemption from taxation has the burden of show-

ing that the claim comes clearly within exemption law, unaffected by other statutes which clearly render property subject to lien for drainage district assessment. *Willis Creek Drainage Dist. v Yazoo County* (1950) 209 Miss 849, 48 So 2d 498.

Exemption from taxation is not presumed, but the burden of proof is on those who claim the exemption. *Barnes v Jones* (1925) 139 Miss 675, 103 So 773, 43 ALR 673.

4. Property of United States, state, or subdivisions thereof

A tax sale in 1933 of city owned property was void because of the statute which exempts from taxation all property belonging to municipal corporations. *Richton Tie & Timber Co. v McWilliams* (1953) 218 Miss 355, 67 So 2d 374.

Under this section [Code 1942, § 9697], no school is liable for the drainage district taxes sought to be imposed upon it, nor are the county or school lands liable merely because the same are benefited by drainage improvements. *Sunflower County v Moorhead Drainage Dist.* (1953) 216 Miss 190, 62 So 2d 214.

The board of supervisors could, in their discretion, pay out of general county funds the assessment tax levied by drainage district on realty used as county farm and where they ruled against payment of taxes, the realty used could not be liable for the tax. *Sunflower County v Moorhead Drainage Dist.* (1953) 216 Miss 190, 62 So 2d 214.

This section [Code 1942, § 9697] was never intended to abate an existing judgment lien as fixed by a final decree of chancery court against land subsequently purchased by state or one of its subdivisions. *Willis Creek Drainage Dist. v Yazoo County* (1950) 209 Miss 849, 48 So 2d 498.

This section [Code 1942, § 9697], exempting from taxation property belonging to the state or to any county, levee board or municipal corporation thereof, was never intended to abate an existing judgment lien as fixed by final decree of the chancery court against land subsequently purchased by the state or one of its subdivisions. *Willis Creek Drainage Dist. v Yazoo County* (1950) 209 Miss 849, 48 So 2d 498.

While drainage district assessments are a species of taxation and are taxation in the broad sense of the term, they are not taxes within the meaning of this section [Code 1942, § 9697]. *Willis Creek Drainage Dist. v Yazoo County* (1950) 209 Miss 849, 48 So 2d 498.

A county, on becoming a voluntary purchaser of drainage district lands encumbered with a judgment lien for assessments, does not acquire such lands free of the lien despite the fact that the lands are to be used for the public purpose. *Willis Creek Drainage Dist. v Yazoo County* (1950) 209 Miss 849, 48 So 2d 498.

Attempted assessment of property owned by municipality on January 1, 1937 for state and county taxes for 1937 is void for reason that property was exempt from taxation and sale for unpaid taxes on third Monday of September 1938 is void sale. *Tardo v Sterling* (1949) 205 Miss 439, 38 So 2d 911, *sugg of error overr* (1949) 205 Miss 448, 39 So 2d 504.

Where contracts for the construction of ships for the United States Maritime Commission stipulated that the title to all materials, equipment, supplies and all other property assembled at the contractor's plant or elsewhere for the purpose of being used for the construction of the vessels, as well as title to the vessels themselves, on account of which payments were made, should vest immediately in the commission, and that the contractor should pay all taxes lawfully assessed against the vessels, materials, supplies or equipment, the partially constructed vessels were not subject to the tax imposed by this statute [Code 1942, § 9697], since they were the property of the federal government. *Craig v Ingalls Shipbuilding Corp.* (1942) 192 Miss 254, 5 So 2d 676.

Statute exempting property belonging to municipality includes lands acquired by enforcement of collection of municipal taxes. *Alvis v Hicks* (1928) 150 Miss 306, 116 So 612.

Where city purchased lands for city taxes in 1921 and 1922, and

state purchased same lands for taxes in 1924, parties purchasing from state acquired no title. *Alvis v Hicks* (1928) 150 Miss 306, 116 So 612.

Lands conveyed to the state as swamp and overflowed lands from the federal government are not subject to taxation. *Dees v Kingman* (1918) 119 Miss 199, 80 So 528; *Penick v Floyd Willis Cotton Co.* (1919) 119 Miss 828, 81 So 540.

If the lands of the county are exempt from taxation, they remain exempt though excised and added to another county. See Code 1880, § 468, and this section [Code 1942, § 9697]. *Warren County v Nall* (1900) 78 Miss 726, 29 So 755.

The property of a city is exempt. A sale thereof for taxes is void and that too though no objection be made by the city officers. *Meridian v Phillips* (1888) 65 Miss 362, 4 So 119.

5. Specific exemptions

Rent from property owned by a Masonic lodge applied to the payment of the balance of the purchase price on the property is not being applied for fraternal and benevolent purposes. *Senter v Tupelo* (1924) 136 Miss 269, 101 So 372.

A printing press owned by a practical printer, editor and publisher of a newspaper and necessary to carry on his trade or business as such, is not exempt. *Frantz v Dobson* (1887) 64 Miss 631, 2 So 75.

Under the United States statutes, Loan and Currency Acts 1862, 1863, legal tender United States notes are exempt from state taxation, and so are national bank notes issued under Acts of Cong. February 25, 1863, and March 3, 1863. *Horne v Green* (1876) 52 Miss 452.

A labor union was not a benevolent organization, so as to exempt its building from ad valorem taxation, even though it participated to some extent in charitable causes, where its primary purpose was to negotiate and obtain for its members higher wages, fringe benefits, and better working conditions. *United Rubber, etc. v Lee County Board of Supervisors* (1979, Miss) 369 So 2d 497.

6. —Cemeteries

An acreage acquired by a cemetery corporation and platted for burial purposes, but in which only four or five persons were interred before the property was allowed to go to weeds and then rented for farming purposes, was not exempt from taxes assessed beginning with the year in which the property was so rented, except as to lots in which persons were actually buried. *Evans v Jackson* (1946) 201 Miss 14, 28 So 2d 249.

7. —Charitable institutions

Uncultivated land owned by charitable organization, from which a few loads of wood only were taken, held not exempt from taxation. *Smith v Myatt* (1927) 146 Miss 388, 111 So 590.

A social club for the diversion of members and persons connected with religious or charitable societies is held not to be exempt from taxation. *New Standard Club v McRaven* (1916) 111 Miss 92, 71 So 289.

Property belonging to a charitable society if leased for profit, is taxable under this section [Code 1942, § 9697]. *Ridgely Lodge, I. O. O. F. v Redus* (1900) 78 Miss 352, 29 So 163.

Use of the income of the property for charity does not warrant exemption. *Ridgely Lodge, I. O. O. F. v Redus* (1900) 78 Miss 352, 29 So 163.

A non-profit corporation's low income apartment complex for elderly, handicapped, and disabled persons was not a "charitable society" exempted from taxes pursuant to § 27-31-1(d), where the corporation received fair market rent from all tenants and used the rent revenues to pay mortgage payments. *Better Living Services, Inc. v Bolivar County* (1991, Miss) 587 So 2d 914.

8. —Religious institutions

Church property not being absolutely exempt from taxation, injunction was not proper method to determine exemption. *North American Old Roman Catholic Diocese v Havens* (1932) 164 Miss 119, 144 So 473, 84 ALR 1313.

Since church property was subject to taxation unless it was being used for religious or charitable purposes, the owner of the property was required to appear at meeting of board of supervisors fixed by law in which notice was given by publication that the board would hear objections to assessments, and if at such meeting property was assessed for taxation, appeal should be taken to circuit court where the case might be tried de novo. *North American Old Roman Catholic Diocese v Havens* (1932) 164 Miss 119, 144 So 473, 84 ALR 1313.

Unused church lot held not exempt from taxation. *Enochs v Jackson* (1926) 144 Miss 360, 109 So 864.

Personal property of a religious society which is devoted primarily to the use of gain and reinvestment is not exempt from taxes. *Gunter v Jackson* (1922) 130 Miss 637, 94 So 844.

Property which a religious society has no right to own is not exempt from taxation. *Central Methodist Church v Meridian* (1921) 126 Miss 780, 89 So 650.

Lands purchased by a church for religious purposes after a lien for the taxes of the then current year has attached, is acquired subject to, and not exempt from, such lien and a sale thereof for such taxes will be valid. *McHenry Baptist Church v McNeal* (1905) 86 Miss 22, 38 So 195.

9. —Educational institutions

Attempted back assessment of taxes against tract of land owned by college, not in excess of maximum limitation, located about one-fourth of a mile from the campus and used for trucking purposes, as well as for growing corn and hay for the horses owned and used by the college, was void, since such tract was exempt from taxation. *Jackson v Belhaven College* (1943) 195 Miss 734, 15 So 2d 621.

Religious society's land used in connection with college held not taxable merely because platted and subdivided into lots for future sale. *Chandler v Executive Committee on Education* (1933) 165 Miss 690, 146 So 597.

But property of an incorporated educational institution for the education of youth exclusively is exempt from taxation whether the institution is operated for private profit or otherwise. *Board of Sup'rs v Gulf Coast Military Academy* (1921) 126 Miss 729, 89 So 617.

A grant of specific exemption of land to a college negatives an intention on the part of the legislature to include land of a different character, which is held by the college as a part of its endowment. *Millsaps College v Jackson* (1927) 275 US 129, 72 L Ed 196, 48 S Ct 94.

10. —Hospitals

Although no particular beds or wards in a hospital were separately set aside, designated, and maintained for the use of charity patients, the property of the hospital was exempt from taxation, where it appeared that within the hospital one or more wards, or the equivalent thereof, as well as the services of the staff physician, were at all times available to charity patients, that both in number and in point of time more than enough patients to satisfy the statutory requirements were received and treated without any preliminary inquiry whether they were or were not able to pay, and were continued to be cared for even though it was ascertained that they were unable to pay, that none were turned away or were turned out, and that nurses and other servitors in the hospital were not permitted to know who were paying patients and who were being cared for and treated without pay. *Natchez v Natchez Sanatorium Benevolent Ass'n* (1941) 191 Miss 91, 2 So 2d 768.

The legislature, in providing for the exemption for hospital set out herein, intended to encourage treatment and hospitalization of those needing such assistance, but who were unable to pay for it. *Rush Hospital Benevolent Ass'n v Board of Sup'rs* (1940) 187 Miss 204, 192 So 829.

Where it appeared that a hospital maintained one or more charity wards, that all charges and expenses connected with the management of the hospital were shown to be reasonable, that the income thereof was used in operating the hospital and that the hospital had operated at a deficit, and it declared itself to be a nonprofit organization, the hospital came within the requirement set forth in this act and was entitled to the exemption. *Rush Hospital Benevolent Ass'n v Board of Sup'rs* (1940) 187 Miss 204, 192 So 829.

As regards exemption from taxation, what may be suitable compensation for services rendered by the hospital is primarily for the decision of the corporation; and if it is within the limit, as to which reasonable men might differ reasonably, the judgment of the hospital authorities should not be overturned; that should it be manifest that compensation for services was unreasonable, and the proof sustained that theory, then the judgment of the hospital authorities would not be controlling, but only persuasive. *Rush Hospital Benevolent Ass'n v Board of Sup'rs* (1940) 187 Miss 204, 192 So 829.

Under statute exempting from taxation all property belonging to religious, charitable, or benevolent organizations used for hospital purposes, and which hospital maintains one or more charity wards, and where all income is used entirely for hospital purposes, a hospital claiming exemption may be operated for profit in that its income may exceed its expenses, provided all of income is devoted to hospital purposes. *Board of Sup'rs v Jackson Hospital Benevolent Ass'n* (1937) 180 Miss 129, 177 So 27.

A hospital which was operated primarily for care of patients who paid therefor, and wherein care of charity patients was neither sought nor encouraged, was exempt from taxation, as against contention that hospital was operated for profit, where income of hospital other than that allocated to current expenses was being used to liquidate bona fide debt incurred by hospital in purchase of its property. *Board of Sup'rs v Jackson Hospital Benevolent Ass'n* (1937) 180 Miss 129, 177 So 27.

Statutory subsection exempting from taxation all property, real or personal, "whether belonging to religious or charitable or benevolent organizations," which is used for hospital purposes under conditions described in the subsection held to exempt from taxation property of hospitals therein described, though not belonging to religious, charitable, or benevolent organizations, the word "whether" not being intended as a videlicet, but merely to show that property of such organizations owning such hospitals was also exempt. *Board of Supervisors v Vicksburg Hospital, Inc.* (1935) 173 Miss 805, 163 So 382.

Where hospital had two charity wards and services of its physicians were furnished without charge and hospital was not a profit-making institution, hospital held exempt from taxation, though several physicians who were principal owners of the stock had their offices therein and with other physicians constituted themselves a clinic, using the hospital's facilities and dividing profits among themselves, where the services of the physicians rendered to hospital were worth more than benefits granted the physicians. *Board of Supervisors v Vicksburg Hospital, Inc.* (1935) 173 Miss 805, 163 So 382.

Where there was no separation of nurses' home from hospital or demand separately to assess the nurses' home on part of board of supervisors of county and matter was not raised in lower court, supreme court, finding that hospital was exempt from taxation, could not separately assess the nurses' home. *Board of Supervisors v Vicksburg Hospital, Inc.* (1935) 173 Miss 805, 163 So 382.

But under Code 1906, §§ 4251, 4252 (Code 1942, §§ 9697, 9710), property used as a home for nurses was not exempt from taxation, although the nurses were instructed therein with reference to

treatment of patients. *Johnson v Mississippi Baptist Hospital* (1925) 140 Miss 485, 106 So 1.

11. —Loans

The legislature in granting the exemption under these sections contemplated not in the accountant's conception of the effective rate of interest or interest yield, but the usual sense of the term, the interest which is charged and agreed to by the parties for the period of the loan. *Bailey v North American Finance Co.* (1951) 212 Miss 97, 54 So 2d 227.

Where a finance company charges interest on the money loaned at the rate of 5 per cent per annum for the entire period of the loan and then aggregates the principal and interest and divides the total into monthly installments, even though the interest yield which the finance company receives for the use of its money is in most instances more than 6 per cent, the loans did not have the rate of interest exceeding 6 per cent and those notes held by the company on such loans were not subject to ad valorem taxes. *Bailey v North American Finance Co.* (1951) 212 Miss 97, 54 So 2d 227.

Statute (Code 1942, § 37), providing for forfeiture of all interest and recovery of that paid where notes or evidence of indebtedness stipulate a rate of interest not greater than 6 per cent per annum

after date or after maturity, but interest in excess of that per cent is in fact charged, was enacted to prevent evasion of subdivision (v) of this section [Code 1942, § 9697], exempting from taxation notes and loans made at a rate of interest not greater than 6 per cent per annum. *Johnson v Carter* (1948) 203 Miss 38, 33 So 2d 296.

Money loaned pursuant to arrangement between lender and brokerage company whereby interest in excess of six per cent was received by means of exaction of commission by brokerage company for investigation purposes, held subject to tax, in that arrangement was mere subterfuge for purpose of evading taxes. *Gully v Gulf Coast Industrial Loan Co.* (1934) 168 Miss 768, 151 So 754.

Loans made by foreign corporation consummated upon approval by corporation's New York office and traveling auditor's financial report, and evidenced by note kept with collateral in New York office and payable there, held not to have such local "business situs" as to subject them to local taxation. *Gully v C. I. T. Corp.* (1933) 168 Miss 268, 150 So 367.

Where lender delivered to borrower \$95, taking note for \$100 due ten months after date, loan held not exempt from taxation. *Industrial Loan & Inv. Co. v Adams County* (1932) 163 Miss 654, 141 So 756.

§ 27-31-21. Public school libraries and buildings.

All public libraries and buildings in which the free public schools are taught, and the lots on which same are situated, not exceeding four acres in dimensions, without cost to the state or any county or municipality thereof for rent or lease, and also the real and personal property of library associations, used for library purposes where no dividends are declared, and to which the children attending the public schools have free access, shall be exempt from all state, county, and municipal taxes.

27-65-105. Exemptions; governmental.

§ 27-65-105. Exemptions; governmental.

The exemption from the provisions of this chapter which are of a governmental nature or which are more properly classified as governmental exemptions than any other exemption classification of this chapter shall be confined to those persons or property exempted by this section or by provisions of the Constitutions of the United States or the State of Mississippi. No governmental exemption as now provided by any other section shall be valid as against the tax herein levied. Any subsequent governmental exemption from the tax levied hereunder shall be provided by amendment to this section.

No exemption provided in this section shall apply to taxes levied by Section 27-65-15 or 27-65-21, Mississippi Code of 1972, except as provided by subsection (f) of this section.

The tax levied by this chapter shall not apply to the following:

(a) Sales of property, labor or services taxable under Sections 27-65-17, 27-65-19 and 27-65-23, when sold to and billed directly to and payment therefor is made directly by the United States government, the State of Mississippi and its departments, institutions, counties and municipalities or departments or school districts of said counties and municipalities.

The exemption from the tax imposed under this chapter shall not apply to sales of tangible personal property, labor or services to contractors purchasing in the performance of contracts with the United States, the State of Mississippi, counties and municipalities.

(b) Sales to schools, when such schools are supported wholly or in part by funds provided by the State of Mississippi, provided that this exemption does not apply to sales of property which is not to be used in the ordinary operation of the school, or which is to be resold to the students or the public.

(c) Amounts received from the sale of school textbooks to students.

(d) Sales to the Mississippi Band of Choctaw Indians, but not to Indians individually.

(e) Sales of fire fighting equipment to governmental fire departments or volunteer fire departments for their use.

(f) Sales of any gas from any project, as defined in the Municipal Gas Authority of Mississippi Law, to any municipality shall not be subject to sales, use or other tax.

Laws, 1979, ch. 461, § 2, effective from and after July 2, 1979, provides as follows:

"Nothing in this act shall affect or defeat any claim, assessment, appeal, suit, right or cause of action for taxes due or accrued under the Mississippi Sales Tax Law or the Mississippi Use Tax Law prior to the date on which this act becomes effective, whether such assessments, appeals, suits, claims or actions shall have been begun before the date on which this act becomes effective, or shall thereafter be begun; and the provisions of the aforesaid statutes and amendments thereto are expressly continued in full force, effect and operation for the purpose of the assessment, collection and enrollment of liens for any taxes due or accrued and the executing of any warrant thereunder prior to the date on which this act becomes effective, or for the filing of reports, and for the imposition of any penalties, forfeitures or claims for failure to comply therewith."

- 1.-5. [Reserved for future use.]
6. Under former § 27-65-29

Under statute levying a tax on the gross income from business of operating a hotel and also statute [Code 1942, § 10113] exempting from the general sales tax so much of the gross income as it derived from sales of tangible property to the United States Government and so much thereof as it derived from charges for labor to the United States government, the furnishing of lodging in a hotel to the United States government is neither sale of tangible property nor a charge for labor. *Edwards House Co. v Stone* (1952) 216 Miss 96, 61 So 2d 663.

A hotel operator, who contracted with the United States government to supply lodging to army and air force recruits and agreed that the government would not be expected to pay the sales tax of such lodgings, was himself liable for the sales tax upon the lodg-

ings so furnished. *Edwards House Co. v Stone* (1952) 216 Miss 96, 61 So 2d 663.

An amount received from a federal agency for services rendered in compressing cotton was subject to the privilege tax hereunder [Code 1942, § 10113], such amount not being income from a sale to the government within the exception therein provided. *Compress of Union v Stone* (1940) 188 Miss 49, 193 So 329, cert den 311 US 668, 85 L Ed 429, 61 S Ct 27.

The imposition of a privilege tax on an amount received from a federal agency for services rendered in compressing cotton was not violative of the federal constitution as being a tax on one of the federal governmental agencies, since the tax was not imposed on a federal governmental agency but on income derived from such an agency. *Compress of Union v Stone* (1940) 188 Miss 49, 193 So 329, cert den 311 US 668, 85 L Ed 429, 61 S Ct 27.

An asserted tax exemption is to be construed strictly against the one who asserts a claim of exemption, and the language of this section [Code 1942, § 10116] must be construed most favorably to the taxing power, with the claimant having the burden of showing clearly his right to the exemption. *Fuel Services, Inc. v Rhoden* (1971, Miss) 245 So 2d 600.

Laws, 1984, ch. 488, § 341, provides as follows:

CHAPTER 7
Public Purchases

IN GENERAL

SEC.

31-7-13. Bid requirements and exceptions; public auctions.

§ 31-7-13. Bid requirements and exceptions; public auctions.

All agencies and governing authorities shall purchase their commodities and printing; contract for fire insurance, automobile insurance, casualty insurance (other than workers' compensation) and liability insurance; and contract for public construction as herein provided.

(a) Purchases which do not involve an expenditure of more than Five Hundred Dollars (\$500.00), exclusive of freight or shipping charges, may be made without advertising or otherwise requesting competitive bids. Provided, however, that nothing contained in this paragraph shall be construed to prohibit any agency or governing authority from establishing procedures which require competitive bids on purchases of Five Hundred Dollars (\$500.00) or less.

(b) Purchases which involve an expenditure of more than Five Hundred Dollars (\$500.00) but not more than Five Thousand Dollars (\$5,000.00), exclusive of freight and shipping charges, may be made from the lowest and best bidder without publishing or posting advertisement for bids, provided at least two (2) competitive written bids have been obtained. Any governing authority purchasing commodities pursuant to this paragraph (b) may authorize its purchasing agent, or his designee, with regard to governing authorities other than counties, or its purchase clerk, or his designee, with regard to counties, to accept the lowest and best competitive written bid. Such authorization shall be made in writing by the governing authority and shall be maintained on file in the primary office of the agency and recorded in the official minutes of the governing authority, as appropriate. The purchasing agent or the purchase clerk, or their designee, as the case may be, and not the governing authority, shall be liable for any penalties and/or damages as may be imposed by law for any act or omission of the purchasing agent or purchase clerk, or their designee, constituting a violation of law in accepting any bid without approval by the governing authority. The term "competitive written bid" shall mean a bid submitted on a bid form furnished by the buying agency or governing authority and signed by authorized personnel representing the vendor, or a bid submitted on a vendor's letterhead or identifiable bid form and signed by authorized personnel representing the vendor.

(c) Purchases which involve an expenditure of more than Five Thousand Dollars (\$5,000.00), exclusive of freight and shipping charges, may be made from the lowest and best bidder after advertising for competitive sealed bids once each week for two (2) consecutive weeks in a regular newspaper published in the county or municipality in which such agency or governing authority is located. The date as published for the bid opening shall not be less than seven (7) working days after the last published notice; however, if the purchase involves a construction project in which the estimated cost is in excess of Ten Thousand Dollars (\$10,000.00), such bids shall not be opened in less than fifteen (15) working days after the last notice is published and the notice for the purchase of such construction shall be published once each week for two (2) consecutive weeks. The notice of intention to let contracts or purchase equipment shall state the time and place at which bids shall be received, list the contracts to be made or types of equipment or supplies to be purchased, and, if all plans and/or specifications are not published, refer to the plans and/or specifications on file. In all cases involving governing authorities, before the notice shall be published or posted, the plans or specifications for the construction or equipment being sought shall be filed with the clerk of the board of the governing authority, and there remain. If there is no newspaper published in the county or municipality, then such notice shall be given by posting same at the courthouse, or for

municipalities at the city hall, and at two (2) other public places in the county or municipality, and also by publication once each week for two (2) consecutive weeks in some newspaper having a general circulation in the county or municipality in the above provided manner. On the same date that the notice is submitted to the newspaper for publication, the agency or governing authority involved shall mail written notice to the main office of the Mississippi Contract Procurement Center that contains the same information as that in the published notice. In addition to these requirements, agencies shall maintain a vendor file and vendors of the equipment or commodities being sought may be mailed solicitations and specifications, and a bid file shall be established which shall indicate those vendors to whom such solicitations and specifications were mailed, and such file shall also contain such information as is pertinent to the bid. Specifications pertinent to such bidding shall be written so as not to exclude comparable equipment of domestic manufacture. Provided, however, that should valid justification be presented, the Department of Finance and Administration or the board of a governing authority may approve a request for specific equipment necessary to perform a specific job. Provided further, that a registered professional engineer or architect may write specifications for a governing authority to require a specific item of equipment available only from limited sources or vendors when such specifications conform with the rules and regulations promulgated by an appropriate federal agency regulating such matters under the federal procurement laws. Further, such justification, when placed on the minutes of the board of a governing authority, may serve as authority for that governing authority to write specifications to require a specific item of equipment needed to perform a specific job. In addition to these requirements, from and after July 1, 1990, vendors of relocatable classrooms and the specifications for the purchase of such relocatable classrooms published by local school boards shall meet all pertinent regulations of the State Board of Education, including prior approval of such bid by the State Department of Education. Nothing in this section shall prohibit any agency or governing authority from writing specifications to include life-cycle costing, total cost bids, extended warranties or guaranteed buy-back provisions, provided that such bid requirements shall be in compliance with regulations established by the Department of Audit.

(d) Purchases may be made from the lowest and best bidder. In determining the lowest and best bid, freight and shipping charges shall be included. If any governing authority accepts a bid other than the lowest bid actually submitted, it shall place on its minutes detailed calculations and narrative summary showing that the accepted bid was determined to be the lowest and best bid, including the dollar amount of the accepted bid and the dollar amount of the lowest bid. No agency or governing authority shall accept a bid based on items not included in the specifications.

(e) Any lease-purchase of equipment which an agency is not required to lease-purchase under the master lease-purchase program pursuant to Section 31-7-10 and any lease-purchase of equipment which a governing authority elects to lease-purchase may be acquired by a lease-purchase agreement under this paragraph (e). Lease-purchase financing may also be obtained from the vendor or from a third-party source after having solicited and obtained at least two (2) written competitive bids, as defined in paragraph (b) of this section, for such financing without advertising for such bids. Solicitation for the bids for financing may occur before or after acceptance of bids for the purchase of such equipment or, where no such bids for purchase are required, at any time before the purchase thereof. No such lease-purchase agreement shall be for an annual rate of interest which is greater than the overall maximum interest rate to maturity on general obligation indebtedness permitted under Section 75-17-101, and the term of such lease-purchase agreement shall not exceed the useful life of property covered thereby as determined according to the upper limit of the asset depreciation range (ADR) guidelines for the Class Life Asset Depreciation Range System established by the Internal Revenue Service pursuant to the United States Internal Revenue Code and regulations thereunder as in effect on December 31, 1980, or comparable depreciation guidelines with respect to any equipment not covered by ADR guidelines. Any lease-purchase agreement entered into pursuant to this paragraph (e) may contain any of the terms and conditions which a master lease-purchase agreement may contain under the provisions of Section 31-7-10(5), and shall contain an annual allocation dependency clause substantially similar to that set forth in Section 31-7-10(8). Each agency or governing authority entering into a lease-purchase transaction pursuant to this paragraph (e) shall maintain with respect to each such lease-purchase transaction the same information as required to be maintained by the Department of Finance and Administration pursuant to Section 31-7-10(13). However, nothing contained in this section shall be construed to permit agencies to acquire items of equipment with a total acquisition cost in the aggregate of less than Ten Thousand Dollars (\$10,000.00) by a single lease-purchase trans-

action. All equipment, and the purchase thereof by any lessor, acquired by lease-purchase under this paragraph and all lease-purchase payments with respect thereto shall be exempt from all Mississippi sales, use and ad valorem taxes. Interest paid on any lease-purchase agreement under this section shall be exempt from State of Mississippi income taxation.

(f) When necessary to ensure ready availability of commodities for public works and the timely completion of public projects, no more than two (2) alternate bids may be accepted by a governing authority for commodities. No purchases may be made through use of such alternate bids procedure unless the lowest and best bidder, for reasons beyond his control, cannot deliver the commodities contained in his bid. In that event, purchases of such commodities may be made from one (1) of the bidders whose bid was accepted as an alternate.

(g) In the event a determination is made by an agency or governing authority after a construction contract is let that changes or modifications to the original contract are necessary or would better serve the purpose of the agency or the governing authority, such agency or governing authority may, in its discretion, order such changes pertaining to the construction that are necessary under the circumstances without the necessity of further public bids; provided that such change shall be made in a commercially reasonable manner and shall not be made to circumvent the public purchasing statutes.

(h) In the event any agency or governing authority shall have advertised for bids for the purchase of gas, diesel fuel, oils and other petroleum products and coal and no acceptable bids can be obtained, such agency or governing authority is authorized and directed to enter into any negotiations necessary to secure the lowest and best contract available for the purchase of such commodities.

(i) Any agency or governing authority authorized to enter into contracts for the construction, maintenance, surfacing or repair of highways, roads or streets, may include in its bid proposal and contract documents a price adjustment clause with relation to the cost to the contractor, including taxes, based upon an industry-wide cost index, of petroleum products including asphalt used in the performance or execution of the contract or in the production or manufacture of materials for use in such performance. Such industry-wide index shall be established and published monthly by the State Department of Transportation with a copy thereof to be mailed, upon request, to the clerks of the governing authority of each municipality and the clerks of each board of supervisors throughout the state. The price adjustment clause shall be based on the cost of such petroleum products only and shall not include any additional profit or overhead as part of the adjustment. The bid proposals or document contract shall contain the basis and methods of adjusting unit prices for the change in the cost of such petroleum products.

(j) If the executive head of any agency of the state shall determine that an emergency exists in regard to the purchase of any commodities or repair contracts, so that the delay incident to giving opportunity for competitive bidding would be detrimental to the interests of the state, then the provisions herein for competitive bidding shall not apply and the head of such agency shall be authorized to make the purchase or repair. Total purchases so made shall only be for the purpose of meeting needs created by the emergency situation. In the event such executive head is responsible to an agency board, at the meeting next following the emergency purchase, documentation of the purchase, including a description of the commodity purchased, the purchase price thereof and the nature of the emergency shall be presented to the board and placed on the minutes of the board of such agency. The head of such agency shall, at the earliest possible date following such emergency purchase, file with the Department of Finance and Administration (i) a statement under oath certifying the conditions and circumstances of the emergency, and (ii) a certified copy of the appropriate minutes of the board of such agency, if applicable.

(k) If the governing authority, or the governing authority acting through its designee, shall determine that an emergency exists in regard to the purchase of any commodities or repair contracts, so that the delay incident to giving opportunity for competitive bidding would be detrimental to the interest of the governing authority, then the provisions herein for competitive bidding shall not apply and any officer or agent of such governing authority having general or special authority therefor in making such purchase or repair shall approve the bill presented therefor, and he shall certify in writing thereon from whom such purchase was made, or with whom such a repair contract was made. At the board meeting next following the emergency purchase or repair contract, documentation of the purchase or repair contract, including a description of the commodity purchased, the price thereof and the nature of the emergency shall be presented to the board and shall be placed on the minutes of the board of such governing authority.

(l) The commissioners or board of trustees of any hospital owned or owned and operated separately or jointly by one or more counties, cities, towns, supervisors districts or election districts, or combinations thereof, may contract with such lowest and best bidder for the purchase or lease of any commodity under a contract of purchase or lease-purchase agreement whose obligatory terms do not exceed five (5) years. In addition to the authority granted herein, the commissioners or board of trustees are authorized to enter into contracts for the lease of equipment or services, or both, which it considers necessary for the proper care of patients if, in its opinion, it is not financially feasible to purchase the necessary equipment or services. Any such contract for the lease of equipment or services executed by the commissioners or board shall not exceed a maximum of five (5) years' duration and shall include a cancellation clause based on unavailability of funds. If such cancellation clause is exercised, there shall be no further liability on the part of the lessee.

(m) Excepted from bid requirements are:

(i) Purchasing agreements, contracts and maximum price regulations executed or approved by the Department of Finance and Administration.

(ii) Repairs to equipment, when such repairs are made by repair facilities in the private sector; however, engines, transmissions, rear axles and/or other such components shall not be included in this exemption when replaced as a complete unit instead of being repaired and the need for such total component replacement is known before disassembly of the component; provided, however, that invoices identifying the equipment, specific repairs made, parts identified by number and name, supplies used in such repairs, and the number of hours of labor and costs therefor shall be required for the payment for such repairs.

(iii) Purchases of parts for repairs to equipment, when such repairs are made by personnel of the agency or governing authority; however, entire assemblies, such as engines or transmissions, shall not be included in this exemption when the entire assembly is being replaced instead of being repaired.

(iv) Raw unprocessed deposits of gravel or fill dirt which are to be removed and transported by the purchaser.

(v) Motor vehicles or other equipment purchased from an agency or governing authority at a public auction held for the purpose of disposing of such vehicles or other equipment.

(vi) Purchases, sales, transfers or trades by governing authorities when such purchases, sales, transfers or trades are made by a private treaty agreement or through means of negotiation, from any federal agency or authority, another governing authority or state agency of the State of Mississippi, or any state agency of another state adjacent to the State of Mississippi. Nothing in this section shall permit such purchases through public auction except as provided for in paragraph (v) of this section.

(vii) Perishable supplies or foods purchased for use in connection with hospitals, the school lunch programs, homemaking programs and for the feeding of county or municipal prisoners.

(viii) Noncompetitive items available from one (1) source only.

(ix) Construction of incinerators and other facilities for disposal of solid wastes in which products either generated therein, such as steam, or recovered therefrom, such as materials for recycling, are to be sold or otherwise disposed of; provided, however, in constructing such facilities a governing authority or agency shall publicly issue requests for proposals, advertised for in the same manner as provided herein for seeking bids for public construction projects, concerning the design, construction, ownership, operation and/or maintenance of such facilities, wherein such requests for proposals when issued shall contain terms and conditions relating to price, financial responsibility, technology, environmental compatibility, legal responsibilities and such other matters as are determined by the governing authority or agency to be appropriate for inclusion; and after responses to the request for proposals have been duly received, the governing authority or agency may select the most qualified proposal or proposals on the basis of price, technology and other relevant factors and from such proposals, but not limited to the terms thereof, negotiate and enter contracts with one or more of the persons or firms submitting proposals.

(x) Supplies, commodities and equipment purchased by hospitals through group purchase programs pursuant to Section 31-7-38.

(xi) Purchases of data processing equipment made by governing authorities under the provisions of purchase agreements, contracts or maximum price regulations executed or approved by the State Central Data Processing Authority.

(xiii) Purchases of contracts for fire insurance, automobile insurance, casualty insurance, health insurance and liability insurance by governing authorities or agencies.

(xiv) Purchases of coal and/or natural gas by municipally-owned electric power generating systems that have the capacity to use both coal and natural gas for the generation of electric power.

(xv) Purchases by libraries or for libraries of books and periodicals; processed film, video cassette tapes, filmstrips and slides; recorded audio tapes, cassettes and diskettes; and any such items as would be used for teaching, research or other information distribution; however, equipment such as projectors, recorders, audio or video equipment, and monitor televisions are not exempt under this paragraph.

(xvi) Purchases of unmarked vehicles when such purchases are made in accordance with purchasing regulations adopted by the Department of Finance and Administration pursuant to Section 31-7-9(2).

(xvii) Sales, transfers or trades of any personal property between governing authorities within a county or any such transaction involving governing authorities of two (2) or more counties.

(xviii) Purchases of ballots printed pursuant to Section 23-15-351.

(xx) From and after January 1, 1991, purchases made by state agencies involving any item that is manufactured, processed, grown or produced from the state's prison industries.

(xxv) Contracts or purchases by the State Prison Emergency Construction and Management Board when exercising its emergency powers to remove two thousand (2,000) inmates from county jails; however, exemptions under this subparagraph (xxv) do not apply to contracts or purchases for private correctional facilities, the South Mississippi Correctional Institution and the Central Mississippi Correctional Facility. This subparagraph shall stand repealed from and after July 1, 1996.

In connection with the purchase of noncompetitive items only available from one (1) source, a certification of the conditions and circumstances requiring the purchase shall be filed by the agency with the Department of Finance and Administration and by the governing authority with the board of the governing authority. Upon receipt of such certification the Department of Finance and Administration or the board of the governing authority, as the case may be, may, in writing, authorize the purchase, which authority shall be noted on the minutes of the body at the next regular meeting thereafter. In such situations, a governing authority is not required to obtain the approval of the Department of Finance and Administration.

(n)(i) All contracts for the purchase of commodities and equipment may be let for periods of not more

than twenty-four (24) months in advance, subject to applicable statutory provisions prohibiting the letting of contracts during specified periods near the end of terms of office.

Agencies may make purchases as authorized under this subparagraph (ii) in accordance with such regulations, policies and procedures as are promulgated by the Department of Finance and Administration.

(o) No contract or purchase as herein authorized shall be made for the purpose of circumventing the provisions of this section requiring competitive bids, nor shall it be lawful for any person or concern to submit individual invoices for amounts within those authorized for a contract or purchase where the actual value of the contract or commodity purchased exceeds the authorized amount and the invoices therefor are split so as to appear to be authorized as purchases for which competitive bids are not required. Submission of such invoices shall constitute a misdemeanor punishable by a fine of not less than Five Hundred Dollars (\$500.00) nor more than One Thousand Dollars (\$1,000.00), or by imprisonment for thirty (30) days in the county jail, or both such fine and imprisonment. In addition, the claim or claims submitted shall be forfeited.

(p) When in response to a proper advertisement therefor, no bid firm as to price is submitted to an electric utility for power transformers, distribution transformers, power breakers, reclosers or other articles containing a petroleum product, the electric utility may accept the lowest and best bid therefor although the price is not firm.

Although a county board of supervisors may advertise for purchase of equipment pursuant to § 31-7-13, the board is not invariably required to accept the lowest bid, rather, the law contemplates that the board, if it accepts any bids at all, will accept the lowest and best bid and, if it accepts a bid that is not dollarwise the lowest, the board must place on its minutes the detailed calculations in a narrative summary explaining why the accepted bid was determined to be the lowest and best bid. *Canton Farm Equipment, Inc. v Richardson* (1987, Miss) 501 So 2d 1098.

A special act of the Legislature authorizing the board of supervisors of a designated county to reimburse a former sheriff thereof for expense incurred in purchasing disinfectants for the county jail, which claim had previously been disallowed by the board of supervisors, was void as being within the prohibition of this section [Code 1942, § 9027] in suspending the operation of a general law (Code 1942, § 9027) relating to the purchase of supplies by the county which expressly requires contracts for the purchase of supplies, etc., to be let upon competitive bids and prohibits any individual members of the board from making such purchases. *Beall v Board of Supervisors* (1941) 191 Miss 470, 3 So 2d 839.

"Emergency" in statute authorizing members of board of supervisors to make emergency expenditures is unforeseen occurrence of combination of circumstances calling for immediate action. *Attala County v Mississippi Tractor & Equipment Co.* (1932) 162 Miss 564, 139 So 628.

When price of disinfectants for jail and courthouse exceeded one hundred dollars, individual member of board of supervisors had no authority to contract therefor. *Franklin County v American Disinfectant Co.* (1929) 153 Miss 583, 121 So 271.

A suit for bills of lumber, totaling over \$1,400, sold to a member of a board of supervisors, without competitive bids having been secured, was dismissed, in the absence of a showing that any emergency existed suspending the requirement of the statute, notwithstanding it might be conceded that the account was susceptible of a breaking down into separate and independent items each less than \$100. *Duncan v Board of Sup'rs* (1941, Miss) 4 So 2d 219.

(e) To keep a complete record of all official acts of the state superintendent and the acts of the State Board of Education;

(f) To prepare, have printed and furnish all officers charged with the administration of the laws pertaining to the public schools, such blank forms and books as may be necessary to the proper discharge of their duties, said printing to be paid for out of funds provided by the Legislature;

(g) To have printed in pamphlet form the laws pertaining to the public schools and publish therein forms for conducting school business, the rules and regulations for the government of schools that the State Superintendent or the Board of Education may recommend, and such other matters as may be deemed worthy of public interest pertaining to the public schools, said printing to be paid for out of funds provided by the Legislature;

(h) To meet all superintendents annually at such time and place as the State Superintendent shall appoint for the purpose of accumulating facts relative to schools, to review the educational progress made in the various sections of the state, to compare views, discuss problems, hear discussions and suggestions rel-

ative to examinations and qualifications of teachers, methods of instruction, textbooks, summer schools for teachers, visitation of schools, consolidation of schools, health work in the schools, vocational education and other matters pertaining to the public school system;

(i) To advise all superintendents upon all matters involving the welfare of the schools, and at the request of any superintendent to give an opinion upon a written statement of facts on all questions and controversies arising out of the interpretation and construction of the school laws, in regard to rights, powers and duties of school officers and superintendents, and to keep a record of all such decisions. Before giving any opinion, the superintendent may submit the statement of facts to the Attorney General, and it shall be the duty of the Attorney General forthwith to examine such statement and suggest the proper decision to be made upon such fact;

(j) To require annually, and as often as the State Superintendent may deem proper, of all superintendents, detailed reports on the educational business of the various districts;

(k) On or before January 10 in each year to prepare under the direction of the State Board of Education and have printed the annual report of the board to the Legislature showing:

- (5) Such general matters, information and recommendations as relate, in the board's opinion, to the educational interests of the state;

(l) To determine the number of educable children in the several school districts under rules and regulations prescribed by the State Board of Education;

37-7-301. Powers and duties of school boards.

37-7-303. Insurance on school property.

37-7-333. Authority of school board of school district as to control of funds; reports of tax collector; deposit of funds; records.

§ 37-7-301. Powers and duties of school boards.

The school boards of all school districts shall have the following powers, authority and duties in addition to all others imposed or granted by law, to wit:

(a) To organize and operate the schools of the district and to make such division between the high school grades and elementary grades as, in their judgment, will serve the best interests of the school;

(b) To introduce public school music, art, manual training and other special subjects into either the elementary or high school grades, as the board shall deem proper;

(c) To be the custodians of real and personal school property and to manage, control and care for same, both during the school term and during vacation;

(d) To have responsibility for the erection, repairing and equipping of school facilities and the making of necessary school improvements;

(e) To suspend or to expel a pupil for misconduct in the school, upon school buses, on the road to and from school, during recess or upon the school playgrounds, and to delegate such authority to the appropriate officials of the school district;

(f) To visit schools in the district, in their discretion, in a body for the purpose of determining what can be done for the improvement of the school in a general way;

(g) To support, within reasonable limits, the superintendent, administrative superintendent, principal and teachers where necessary for the proper discipline of the school;

(h) To exclude from the schools students with what appears to be infectious or contagious diseases; provided, however, such student may be allowed to return to school upon presenting a certificate from a public health officer or duly licensed physician that the student is free from such disease;

(i) To require those vaccinations specified by the State Health Officer as provided in Section 41-23-37, Mississippi Code of 1972;

(j) To see that all necessary utilities and services are provided in the schools at all times when same are needed;

(k) To authorize the use of the school buildings and grounds for the holding of public meetings and gatherings of the people under such regulations as may be prescribed by said board;

(l) To prescribe and enforce rules and regulations not inconsistent with law or with the regulations of the State Board of Education for their own government and for the government of the schools, and to transact their business at regular and special meetings called and held in the manner provided by law;

(m) To maintain and operate all of the schools under their control for such length of time during the year as may be required;

(n) To enforce in the schools the courses of study and the use of the textbooks prescribed by the proper authorities;

(o) To make orders directed to the superintendent of schools or administrative superintendent for the issuance of pay certificates for lawful purposes on any available funds of the district and to have full control of the receipt, distribution, allotment and disbursement of all funds provided for the support and operation of the schools of such school district whether such funds be derived from state appropriations, local ad valorem tax collections, or otherwise;

(p) To select all school district personnel in the manner provided by law, and to provide for such employee fringe benefit programs, including accident reimbursement plans, as may be deemed necessary and appropriate by the board;

(q) To provide and regulate athletic programs and other school activities;

(r) To join, in their discretion, any association of school boards and other public school-related organizations, and to pay from local funds other than minimum foundation funds, any membership dues;

(s) To expend local school activity funds, or other available school district funds, other than minimum education program funds, for the purposes prescribed under this paragraph. "Activity funds" shall mean all funds received by school officials in all school districts paid or collected to participate in any school activity, such activity being part of the school program and partially financed with public funds or supplemented by public funds. The term "activity funds" shall not include any funds raised and/or expended by any organization unless commingled in a bank account with existing activity funds, regardless of whether the funds were raised using school facilities. Organizations shall not be required to make any payment to any school for the use of any school facility if, in the discretion of the local school governing board, the organization's function shall be deemed to be beneficial to the official or extracurricular programs of the school. For the purposes of this provision, the term "organization" shall not include any organization subject to the control of the local school governing board. Activity funds may only be expended for any necessary expenses or travel costs, including advances, incurred by students and their chaperons in attending any in-state or out-of-state school-related programs, conventions or seminars and/or any commodities, equipment, travel expenses, purchased services or school supplies which the local school governing board, in its discretion, shall deem beneficial to the official or extracurricular programs of the district, including items which may subsequently become the personal property of individuals, including yearbooks, athletic apparel, book covers and trophies. Activity funds may be used to pay travel expenses of school district personnel. The local school governing board shall be authorized and empowered to promulgate rules and regulations specifically designating for what purposes school activity funds may be expended. The local school governing board shall provide (a) that such school activity funds shall be maintained and expended by the principal of the school generating the funds in individual bank accounts, or (b) that such school activity funds shall be maintained and expended by the superintendent of schools in a central depository approved by the board. The local school governing board shall provide that such school activity funds be audited as part of the annual audit required in Section 37-9-18. The State Auditor shall prescribe a uniform system of accounting and financial reporting for all school activity fund transactions;

(t) To contract, on a shared savings, lease or lease-purchase basis, for energy efficiency services and/or equipment as provided for in Section 31-7-14, not to exceed ten (10) years;

(u) To maintain accounts and issue pay certificates on school food service bank accounts;

(v)(i) To lease a school building from an individual, partnership, nonprofit corporation or a private for-profit corporation for the use of such school district, and to expend funds therefor as may be available from any non-minimum program sources. The school board of the school district desiring to lease a school building shall declare by resolution that a need exists for a school building and that the school district cannot provide the necessary funds to pay the cost or its proportionate share of the cost of a school building required to meet the present needs. The resolution so adopted by the school board shall be published once each week for three (3) consecutive weeks in a newspaper having a general circulation in the school district involved, with the first publication thereof to be made not less than thirty (30) days prior to the date upon which the school board is to act on the question of leasing a school building. If no petition requesting an election is filed prior to such meeting as hereinafter provided, then the school board may, by resolution spread upon its minutes, proceed to lease a school building. If at any time prior to said meeting a petition signed by not less than twenty percent (20%) or fifteen hundred

(1500), whichever is less, of the qualified electors of the school district involved shall be filed with the school board requesting that an election be called on the question, then the school board shall, not later than the next regular meeting, adopt a resolution calling an election to be held within such school district upon the question of authorizing the school board to lease a school building. Such election shall be called and held, and notice thereof shall be given, in the same manner for elections upon the questions of the issuance of the bonds of school districts, and the results thereof shall be certified to the school board. If at least three-fifths ($\frac{3}{5}$) of the qualified electors of the school district who voted in such election shall vote in favor of the leasing of a school building, then the school board shall proceed to lease a school building. The term of the lease contract shall not exceed twenty (20) years, and the total cost of such lease shall be either the amount of the lowest and best bid accepted by the school board after advertisement for bids or an amount not to exceed the current fair market value of the lease as determined by the averaging of at least two (2) appraisals by members of the American Institute of Real Estate Appraisers or the Society of Real Estate Appraisers. The term "school building" as used in this item (v) shall be construed to mean any building or buildings used for classroom purposes in connection with the operation of schools and shall include the site therefor, necessary support facilities, and the equipment thereof and appurtenances thereto such as heating facilities, water supply, sewage disposal, landscaping, walks, drives and playgrounds. The term "lease" as used in this item (v)(i) may include a lease/purchase contract;

(ii) If two (2) or more school districts propose to enter into a lease contract jointly, then joint meetings of the school boards having control may be held but no action taken shall be binding on any such school district unless the question of leasing a school building is approved in each participating school district under the procedure hereinabove set forth in item (v)(i). All of the provisions of item (v)(i) regarding the term and amount of the lease contract shall apply to the school boards of school districts acting jointly. Any lease contract executed by two (2) or more school districts as joint lessees shall set out the amount of the aggregate lease rental to be paid by each, which may be agreed upon, but there shall be no right of occupancy by any lessee unless the aggregate rental is paid as stipulated in the lease contract. All rights of joint lessees under the lease contract shall be in proportion to the amount of lease rental paid by each;

(w) To employ all noninstructional and noncertificated employees and fix the duties and compensation of such personnel deemed necessary pursuant to the recommendation of the superintendent of schools or the administrative superintendent;

(x) To employ and fix the duties and compensation of such legal counsel as deemed necessary;

(y) Subject to rules and regulations of the State Board of Education, to purchase, own and operate trucks, vans and other motor vehicles, which shall bear the proper identification required by law;

(z) To expend funds for the payment of substitute teachers and to adopt reasonable regulations for the employment and compensation of such substitute teachers;

(aa) To acquire in its own name by purchase all real property which shall be necessary and desirable in connection with the construction, renovation or improvement of any public school building or structure. If the board shall be unable to agree with the owner of any such real property in connection with any such project, the board shall have the power and authority to acquire any such real property by condemnation proceedings pursuant to Section 11-27-1 et seq., Mississippi Code of 1972, and for such purpose, the right of eminent domain is hereby conferred upon and vested in said board;

(bb) To charge reasonable fees related to the educational programs of the district, in the manner prescribed in Section 37-7-335;

(cc) Subject to rules and regulations of the State Board of Education, to purchase relocatable classrooms for the use of such school district, in the manner prescribed in Section 37-1-13;

(dd) Enter into contracts or agreements with other school districts, political subdivisions or governmental entities to carry out one or more of the powers or duties of the school board, or to allow more efficient utilization of limited resources for providing services to the public;

(ee) To provide for in-service training for employees of the district. Until June 30, 1994, the school boards may designate two (2) days of the minimum school term, as defined in Section 37-19-1, for employee in-service training for implementation of the new statewide testing system as developed by the State Board

of Education. Such designation shall be subject to approval by the State Board of Education pursuant to uniform rules and regulations;

(ff) The school boards of all school districts, as part of their duties to prescribe the use of textbooks, may provide that parents and legal guardians shall be responsible for the textbooks and for the compensation to the school district for any books which are not returned to the proper schools upon the withdrawal of their dependent child. If a textbook is lost or not returned by any student who drops out of the public school district, the parent or legal guardian shall also compensate the school district for the fair market value of the textbooks.

Editor's Note—

Laws, 1989, ch. 585, § 9, provides as follows:

"If any section, paragraph, sentence, clause, phrase or any part of this act is declared to be unconstitutional or void, or if for any reason is declared to be invalid or of no effect, the remaining sections, paragraphs, sentences, clauses, phrases or parts thereof shall be in no manner affected thereby but shall remain in full force and effect."

Section 7-7-2, as added by Laws, 1984, chapter 488, § 90, and amended by Laws, 1985, chapter 455, § 14, Laws 1986, chapter 499, § 1, provided, at subsection (2) therein, that the words "state auditor of public accounts," "state auditor," and "auditor" appearing in the laws of the state in connection with the performance of auditor's functions transferred to the state fiscal management board, shall mean the state fiscal management board whenever they appear. Thereafter, Laws, 1989, chapter 532, § 2, amended § 7-7-2 to provide that the words "State Auditor of Public Accounts," "State Auditor" and "Auditor" appearing in the laws of this state in connection with the performance of Auditor's functions shall mean the State Fiscal Officer whenever they appear; Subsequently, Laws, 1989, ch. 544, § 17, effective July 1, 1989, and codified as § 27-104-6, provides that wherever the term "State Fiscal Officer" appears in any law it shall mean "Executive Director of the Department of Finance and Administration".

Laws, 1990, ch. 588, § 7, amended this section effective July 1, 1990, provided that the Legislature by concurrent resolution adopted by the House and Senate in session prior to July 1, 1990 declare that sufficient funds were dedicated and made available for the implementation of Chapter 588. However, such funds were not made available by the Legislature prior to July 1, 1990, and by direction of the Office of the Attorney General of the State of Mississippi the amendatory provisions have not been printed in this volume. Text of the amendment can be found in the Advance Sheet Acts of the 1990 Legislative Session published by the Secretary of State's Office, Jackson, Mississippi.

Laws, 1995, ch. 515, § 2, provides as follows:

"SECTION 2. Any actions taken by school officials prior to the effective date of this act which are specifically authorized herein, are hereby ratified, approved and confirmed."

JUDICIAL DECISIONS

Where the minutes showed that the board of trustees of a school district at a meeting for the purpose of choosing teachers for the following school term selected petitioner, along with others, as teachers, and that the board would require teachers without degrees to take summer work towards them, but did not indicate that this provision was a condition precedent or subsequent to the employment contract of the teachers so elected, failure of petitioner to attend summer school did not automatically invalidate her contract, and the board of trustees could only remove her under the provisions of § 26, chapter 20, Laws of 1953, extraordinary session (Code 1942, § 6286-26). *Cheatham v Smith* (1957) 229 Miss 803, 92 So 2d 203.

In the construction and erection of elementary and junior high schools and the preparation of school grounds, trustees of the city municipal separate school district were exercising power conferred upon them by the Constitution and the legislature, and were not agents of the city. *Harrell v Jackson* (1957) 229 Miss 815, 92 So 2d 240.

A school board has the authority to employ and fix the duties and compensation of non-instructional personnel. *Yarborough v Camphor* (1994, Miss) 645 So 2d 867, reh den (1994, Miss) 1994 Miss LEXIS 662.

A school board's posting of a performance bond for the benefit of a private construction company in connection with its job training program was an illegal expenditure; by posting a performance bond as guarantor for a private company, the school board far exceeded its statutory authority to conduct vocational education training, and therefore personal liability for the illegal expenditure would be imposed on board members. *Smith v Dorsey* (1992, Miss) 599 So 2d 529.

A school board's expenditures of \$21,548.92 to pay campaign workers to promote passage of a bond referendum for new school buildings and \$945.03 for lunch for poll workers on election day constituted illegal expenditures since a school district is without explicit or implicit statutory authority to expend taxpayer funds in a promotional effort for the passage of a bond referendum; neither §§ 37-59-1 et seq., which is devoted to school bonds and obligations, nor § 37-7-301(d), which empowers local school districts to construct schools, authorize a school board to spend public funds to promote passage of a bond issue, and therefore board members who voted affirmatively for the advertising budget from which the expenditures were made would be personally liable for the illegal expenditures. *Smith v Dorsey* (1992, Miss) 599 So 2d 529.

A public school board had the authority to consolidate schools within its district and to reassign students en masse; the plan was not a "reorganization of the school district" within the meaning of § 37-7-105. Section 37-7-105 and its petition, publication and referendum procedures do not apply to everything the school board may wish to abolish, alter or reorganize. The statute applies only where the school board "abolishes, alters or reorganizes a school district." The phrase "school district" imports the geographic boundaries of the district and perhaps the corporate organization or structure thereof. The school board's plan did not alter the existing structure of the school district, which remained a county-wide district, and did not reorganize corporate structure, and therefore §§ 37-7-103 and 37-7-105 did not apply. *Petition of 2,952 Registered Voters* (1990, Miss) 574 So 2d 619.

A denial of a list of witnesses does not always amount to a prejudicial denial of due process, particularly where student witnesses in a school disciplinary proceeding are involved, since a school board has not been given the power of subpoena. However, school boards should be especially sensitive to the right of students to know the complete nature of the charges, especially where charges of misconduct are denied and proof is based solely on testimony of other students. Although confrontation may not be an absolute necessity—or even advisable—in every case, written statements should ordinarily be provided. Findings of fact should be made, especially where there are multiple allegations. School boards should take note that although courts should not become involved in running schools, expulsion and suspension are severe sanctions requiring solemn attention to a pupil's rights. *Jones v Board of Trustees* (1988, Miss) 524 So 2d 968.

Notice procedure set forth in Leasing Act is constitutionally adequate, since it is reasonably calculated, under all circumstances, to apprise interested parties of pendency of action and afford them opportunity to present objections. *Cox v Jackson Municipal Separate School Dist.* (1987, Miss) 503 So 2d 265.

A high school sophomore who, along with a schoolmate, drank 2 or 3 sips of beer at her home before leaving for school was denied procedural due process when, despite there being no school board rule prohibiting the drinking of beer by students at home, the school board took away all her school credits for the semester as punishment for drinking the beer, and, again, where procedures for a de novo hearing before the school board were ignored. *Warren County Bd. of Education v Wilkinson* (1986, Miss) 500 So 2d 455.

As matter of state substantive due process, school board's disciplinary rule or scheme is constitutionally enforceable where, fairly viewed, it furthers substantial legitimate interest of school district; authority vested in school boards consistent with constitutional limitation includes substantial discretion with respect to administration of punishment to student who violates school rule. *Clinton Municipal Separate School Dist. v Byrd* (1985, Miss) 477 So 2d 237.

A school district was expressly and impliedly, both by statute and case law, authorized to file and pursue a claim for damages resulting from the alleged faulty construction of a school building against the contractor, the architect, the bonding company, the subcontractors, and the furnishers of building materials, under § 11-45-11, since the district had responsibility for the erection, repairing and equipping of school facilities pursuant to § 37-7-619, and since § 7-5-1 did not require that the action be brought by the Attorney General, in that the subject matter of the allegations was an isolated contract and its alleged breach resulting in a defective school roof, which was hardly a matter of state-wide interest. *Grenada Municipal Separate School Dist. v Jesco, Inc.* (1984, Miss) 449 So 2d 226.

A municipal separate school district may bring suit for alleged damages resulting from the alleged faulty construction of a district's school building against the contractor, the architect, the bonding company, the sub-contractors, and the furnishers of building materials. *Grenada Municipal Separate School Dist. v Jesco, Inc.* (1984, Miss) 449 So 2d 226.

A rule promulgated by a school principal, pursuant to authority delegated to the principal by the board of trustees to decide whether "a student's hair is too long," that male students should not wear their hair longer than two inches above the eyebrows, had a rational basis to prevent disruption of the atmosphere of learning and was not an improper invasion of family privacy. *Shows v Freeman* (1967 Miss) 230 So 2d 63.

High school principal's deletion from school-sponsored student newspaper of pages containing articles he reasonably considered objectionable did not violate student's First Amendment rights. *Hazelwood School Dist. v Kuhlmeier* (1988) 484 US 260, 98 L Ed 2d 592, 108 S Ct 562, 14 Media L R 2081.

§ 37-7-303. Insurance on school property.

(1) The school board of any school district may insure motor vehicles and shall insure the school buildings, equipment and other school property of the district against any and all hazards that the board may deem necessary to provide insurance against. The cost of such insurance shall be paid out of any school funds of the district other than minimum education program funds. Such school board shall be authorized to contract for such insurance for a term of not exceeding five (5) years and to obligate the district for the payment of the premiums thereon. When necessary, the school board is authorized and empowered, in its discretion, to borrow money payable in annual installments for a period of not exceeding five (5) years at a rate of interest not exceeding eight percent (8%) per annum to provide funds to pay such insurance premiums. The money so borrowed and the interest thereon shall be payable from any school funds of the district other than minimum education program funds. The school boards of school districts are further authorized and empowered, in all cases where same may be necessary, to bring and maintain suits and other actions in any court of competent jurisdiction for the purpose of collecting the proceeds of insurance policies issued upon the property of such school district.

(2) Two (2) or more school districts, together with other educational entities or agencies, may agree to pool their liabilities to participate in a group workers' compensation program. The governing authorities of any school board or other educational entity or agency may authorize the organization and operation of, or the participation in such a group self-insurance program with other school boards and educational entities or agencies, subject to the requirements of Section 71-3-5. The Workers' Compensation Commission shall approve such group self-insurance programs subject to uniform rules and regulations as may be adopted by the commission applicable to all groups.

§ 37-7-333. Authority of school board of school district as to control of funds; reports of tax collector; deposit of funds; records.

The school boards of all school districts shall have full control of the receipt, distribution, allotment and disbursement of all funds which may be provided for the support and maintenance of the schools of such district whether such funds be minimum education program allotments, funds derived from supplementary tax levies as authorized by law, or funds derived from any other source whatsoever except as may otherwise be provided by law for control of the proceeds from school bonds or notes and the taxes levied to pay the principal of and interest on such bonds or notes. The tax collector of each county shall make reports, in writing, verified by his affidavit, on or before the twentieth day of each month to the superintendent of schools of each school district within such county reflecting all school district taxes collected by him for the support of said school district during the preceding month. He shall at the same time pay over all such school district taxes collected by him for the support of said school district directly to said superintendent of schools.

All such allotments or funds shall be placed in the depository or depositories selected by the school board in the same manner as provided in Section 27-105-305 for the selection of county depositories. Provided, however, the annual notice to be given by the school board to financial institutions may be given by the school board at any regular meeting subsequent to the board's regular December meeting but prior to the regular May meeting. The bids of financial institutions for the privilege of keeping school funds may be

received by the school board at some subsequent meeting, but no later than the regular June meeting; and the selection by the school board of the depository or depositories shall be effective on July 1 of each year. School boards shall advertise and accept bids for depositories, no less than once every three (3) years, when such board determines that it can obtain a more favorable rate of interest and less administrative processing. Such depository shall place on deposit with the superintendent of schools the same securities as required in Section 27-105-315.

(d) To keep an accurate record of the names of all of the members of the school board showing the districts for which each was elected or appointed, the post office address of each, and the date of the expiration of his term of office. All official correspondence shall be addressed to the school board and notice to such members shall be regarded as notice to the residents of the district and it shall be the duty of the members to notify such residents.

(f) To distribute promptly all reports, letters, forms, circulars and instructions which he may receive for the use of school officials.

(l) To manage the leasing of all sixteenth section land located within the county.

(m) To manage all transportation funds and supervise the transportation of eligible pupils within the county.

(n) To implement the decisions of the county board of education.

(o) To function as a special accounting officer and treasurer with respect to minimum program funds and lease payments for sixteenth section land. He or his designee shall issue all warrants without the necessity of registration thereof by the chancery clerk. Transactions with the depositories and with the various tax collecting agencies which involve school funds for such school district shall be with the administrative superintendent of schools, or his designee where applicable.

(2) All funds to the credit of any school district which are distributed by an administrative superintendent shall be paid out on pay certificates issued by the administrative superintendent upon order of the school board of said county properly entered upon the minutes thereof, and all such orders shall be supported by properly itemized invoices from the vendors covering the materials and supplies purchased. All such orders and the itemized invoices supporting same shall be filed as a public record in the office of the administrative superintendent for a period of five (5) years. The administrative superintendent shall be liable upon his official bond for the amount of any pay certificate issued in violation of the provisions of this section. The school board shall have the power and authority to direct and cause warrants to be issued against such district funds for the purpose of refunding any amount of taxes erroneously or illegally paid into such fund when such refund has been approved in the manner provided by law.

(3) It shall be the duty of the administrative superintendent of schools to keep and preserve the minutes of the proceedings of the school board.

(4) The administrative superintendent of schools shall maintain as a record in his office a book or a computer printout in which he shall enter all demands, claims and accounts paid from any funds of the school district. All claims found by the school board to be illegal shall be rejected or disallowed. All claims which are found to be legal and proper shall be allowed and ratified as paid by the administrative superintendent. All claims as to which a continuance is requested by the claimant and those found to be defective but which may be perfected by amendment shall be continued. The administrative superintendent of schools shall issue a pay certificate against any legal and proper fund of the school district in favor of the claimant in payment of claims. The provisions of this section, however, shall not be applicable to the payment of teachers' salaries, salaries of drivers of publicly owned school buses, travel advances, amounts due private contractors, or other obligations where the amount thereof has been previously approved by a contract or by an order of the school board entered upon its minutes, or by inclusion in the current fiscal year budget, and all such amounts may be paid by the administrative superintendent of schools by pay certificates issued by him against the legal and proper fund without allowance of a specific claim therefor as provided in this section, provided that the payment thereof is otherwise in conformity with law.

(5) The powers and duties of the administrative superintendent as prescribed in this section shall be exclusive and shall be the sole authority for all actions of such administrative superintendents.

(6) All administrative superintendents shall, on or before the tenth day of each month, prepare and file school district financial statements with the superintendent of each consolidated school district within such county. The State Department of Audit shall prescribe the financial information to be made available in such monthly report and shall provide forms for this purpose. If any administrative superintendent shall willfully fail to comply with the requirements of this subsection, such person shall be guilty of a misdemeanor, and upon conviction, shall be punished by a fine not exceeding One Thousand Dollars (\$1,000.00) or by imprisonment for a term not exceeding six (6) months, or both.

(7) The State Board of Education shall report to the Legislature on or before January 7, 1990, with recommendations on a transition procedure to ensure an orderly closure of the offices of administrative superintendents. § 37-9-75. Prohibition on strikes by teachers; definitions; penalties; injunctive relief; bar to reemployment.

(1) For purposes of this section:

(a) "Strike" means a concerted failure to report for duty, a willful absence from one's position, the stoppage of work, a deliberate slowing down of work, or the withholding, in whole or in part, of the full, faithful and proper performance of the duties of employment, for the purpose of inducing, influencing or coercing a change in the conditions, compensation, rights, privileges or obligations of public employment; provided, however, that nothing herein shall limit or impair the right of any certified teacher to express or communicate a complaint or opinion on any matter related to the conditions of public employment so long as the same is not designed and does not interfere with the full, faithful and proper performance of the duties of employment.

(b) "Certified teacher" shall mean the following employees of public school districts: classroom teachers, supervisors of programs, librarians, guidance personnel, audiovisual personnel and vocational directors.

(2) It is hereby declared that a strike, concerted work stoppage or concerted refusal to perform lawful duties in any manner by certified teachers against public school districts within the State of Mississippi shall be illegal, unprotected and contrary to the public policy of the State of Mississippi.

(3) No certified teacher, group of certified teachers or teacher organization shall promote, encourage or participate in any strike against a public school district, the State of Mississippi or any agency thereof.

(4) No person exercising any authority, supervision or direction over any certified teacher shall have the power to authorize, approve or consent to a strike by one or more certified teachers, and such person shall not authorize, approve or consent to such strike. No local school governing board or any person exercising authority, supervision or direction over any public school shall attempt to close or curtail the operations of the public school, or to change or alter in any manner the schedule of operations of said school in order to circumvent the full force and effect of this statute. In the event of a strike against the public school, the local school governing board shall continue school operations as long as practicable in order to ascertain which teachers are on strike, and certify the names of such teachers to the Attorney General. Any member of a local school governing board or public school administrator who violates this subsection shall be guilty of a misdemeanor and upon conviction shall be fined not less than One Hundred Dollars (\$100.00) nor more than Two Hundred Fifty Dollars (\$250.00) for each day such violation continues.

(5) Chancery courts having jurisdiction of the parties are vested with the authority to hear and determine all actions alleging violations of subsection (3) of this section. Suits to enjoin violations of subsection (3) of this section shall have priority over all matters on the court's docket except other emergency matters.

(6) If a certified teacher, a group of certified teachers, a teacher organization, or any officer, agent or representative of any teacher organization engages in a strike in violation of subsection (3) of this section, any public school district whose employees are involved or whose employees may be affected by the strike shall file suit to enjoin the strike in the Chancery Court of the First Judicial District of Hinds County, Mississippi, or in the chancery court having proper jurisdiction and proper venue of such actions. The chancery court shall conduct a hearing with notice to all interested parties, at the earliest practicable time. If the complainant makes a prima facie showing that a violation of subsection (3) of this section is in progress or that there is a clear, real and present danger that such a strike is about to commence, the chancery court shall issue a temporary restraining order enjoining the strike. Upon final hearing, the chancery court shall either make the injunction permanent or dissolve it.

(7) If an injunction to enjoin a strike issued pursuant to this section is not promptly complied with, on the application of the complainant, the chancery court shall immediately initiate contempt proceedings against those who appear to be in violation. A teacher organization found to be in contempt of court for violating an injunction against a strike shall be fined up to Twenty Thousand Dollars (\$20,000.00) for each such calendar day. The fines so collected shall immediately accrue to the school district and shall be used by it to replace those services denied the public as a result of the strike. Each officer, agent or representative of a teacher

organization found to be in contempt of court for violating an injunction against a teacher organization shall be liable for any damages which might be suffered by a public employer as a result of a violation of the provisions of subsection (3) of this section by the teacher organization or its representatives, officers and agents. The chancery court having jurisdiction over such actions is empowered to enforce judgment against teacher organizations by the attachment or garnishment of organization initiation fees or dues.

(8) If the court, after a hearing on notice, determines that a certified teacher has violated subsection (3) of this section, it shall order the termination of his or her employment by the public school district. No person knowingly violating the provision of said subsection may, subsequent to such violation, be employed or reemployed as a teacher by any public school district in the state unless the court first finds a public necessity therefor.

The provisions of this subsection (8) shall be cumulative and supplemental to any other applicable provision of law.

CHAPTER 11

General Provisions Pertaining to Education

SEC.

37-11-11. Furnishing public school instruction for hospitalized children.

§ 37-11-11. Furnishing public school instruction for hospitalized children.

(1) For the purposes of this section, the term "hospital" shall include community-based programs and facilities licensed or approved by the Department of Mental Health for treatment of chemical substance use and abuse.

(2) When five (5) or more children of educable mind between the ages of six (6) and twenty-one (21) years who are capable of pursuing courses of instruction at secondary school level or below shall be confined in a hospital for an extended period of time, such children shall be eligible for and shall be provided with a program of education, instruction and training within such hospital in the manner hereinafter set forth, provided that the need for hospitalization for an extended period of time shall be certified by the chief of staff of such hospital and that the ability of such children to do school work shall be certified by qualified psychologists and/or educators approved by the State Board of Education.

(3) When five (5) or more children as set forth herein shall be confined in the same hospital, then the board of trustees of the school district in which such hospital is located shall be authorized and empowered, in its discretion, to provide a program of education, instruction and training to such children within such hospital. For such purpose the board shall be authorized and empowered to employ and contract with teachers, provide textbooks and other instructional materials, correspondence courses and instructional equipment and appliances, and otherwise provide for the furnishing of such program and to administer and supervise the same. Such program shall be furnished in a manner as prescribed by rules and regulations adopted by the State Board of Education. The state board shall have full power to adopt such rules, regulations, policies and standards as it may deem necessary to carry out the purpose of this section, including the establishment of qualifications of any teachers employed under the provisions hereof. It is expressly provided, however, that no program shall be furnished under this section except in a hospital licensed for operation by the State of Mississippi and only in cases where such hospital shall consent thereto, shall provide any classroom space, furniture and facilities which may be deemed necessary, and otherwise shall cooperate in carrying out the provisions of this section. Before such program of education, instruction and training shall be provided, the governing authorities of said hospital shall enter into a contract with the board of trustees of the school district which stipulates that said hospital agrees to furnish the necessary classroom space, furniture and facilities and provide for their upkeep, fuel and such other things as may be necessary for the successful operation of the program of education, instruction and training.

(4) In cases when children who are residents of school districts other than the school district providing such education program may participate in the program prescribed in this section. The boards of trustees of the districts of which such children are residents shall pay to the board of trustees of the school district furnishing such school program the pro rata part of the expenses of furnishing such school program within such hospital, which payments may be made from any funds available for the operation and maintenance of the schools of the district in which such child is a resident. The amount so paid shall be based upon, but shall not exceed, the current per pupil cost of education in the school district of the child's residence, and the amount to be so paid by the school district of the child's residence shall be fixed by the State Board of Education. If the amount to be paid which has been so fixed shall not be paid upon due demand made by the school district providing a program therefor, then the State Board of Education shall deduct any such amounts from the next allocation of minimum education program school funds attributable to any such district and shall remit the same to the board of trustees of such school district which is furnishing such school program. If the amounts so paid by such school districts of the child's residence shall not be sufficient

to pay the expenses of furnishing such program, then the remainder of such expenses over and above that so paid by such school districts shall be paid by the State Board of Education to the school district providing such school program out of any funds available to the State Board of Education, including minimum education program school funds. However, such payments shall not exceed Three Hundred Dollars (\$300.00) per child in average daily attendance in such program. Provided, however, the State Board of Education shall in its discretion be authorized and empowered to exceed the said Three Hundred Dollars (\$300.00) per pupil limitation where such limitation would make it impractical to operate such a program.

Minimum Program of Education

SEC.

37-19-7. Scale of teachers' salaries; experience increases; salary supplement for Master Teachers.

37-19-21. Supportive services.

§ 37-19-7. Scale of teachers' salaries; experience increases; salary supplement for Master Teachers.

(1) The allowance in the minimum education program for teachers' salaries in each county and separate school district shall be determined and paid in accordance with the scale for teachers' salaries as provided in this subsection for the number of teachers employed not in excess of the number of teacher units allotted. For teachers holding the following types of certificates or the equivalent as determined by the State Board of Education, the scale shall be as follows:

1995-1996 School Year and School Years Thereafter

| | |
|------------|-------------|
| AAAA | \$22,900.00 |
| AAA | 22,050.00 |
| AA | 21,200.00 |
| A | 20,150.00 |

It is the intent of the Legislature that any state funds made available for salaries of certificated personnel in excess of the funds paid for such salaries for the 1986-1987 school year shall be paid to certificated personnel pursuant to a personnel appraisal and compensation system implemented by the State Board of Education. The State Board of Education shall have the authority to adopt and amend rules and regulations as are necessary to establish, administer and maintain the system. For the purposes of this paragraph, "certificated personnel" means the following employees of public school districts: classroom teachers, superintendents, assistant superintendents, principals, assistant principals, supervisors of programs, librarians, guidance personnel, audiovisual personnel, vocational directors and school psychologists/psychometrists.

All teachers employed on a full-time basis shall be paid a minimum salary in accordance with the above scale. However, no school district shall receive any funds under this section for any school year during which the local supplement paid to any individual teacher shall have been reduced to a sum less than that paid to that individual teacher for performing the same duties from local supplement during the immediately preceding school year. The amount actually spent for the purposes of group health and/or life insurance shall be considered as a part of the aggregate amount of local supplement but shall not be considered a part of the amount of individual local supplement.

For teachers holding a Class AAAA certificate, the minimum base pay specified in this subsection shall be increased by the sum of Five Hundred Eighty Dollars (\$580.00) for each year of teaching experience possessed by the person holding such certificate until such person shall have twenty-two (22) years of teaching experience.

For teachers holding a Class AAA certificate, the minimum base pay specified in this subsection shall be increased by the sum of Five Hundred Thirty Dollars (\$530.00) for each year of teaching experience possessed by the person holding such certificate until such person shall have twenty-two (22) years of teaching experience.

For teachers holding a Class AA certificate, the minimum base pay specified in this subsection shall be increased by the sum of Four Hundred Seventy-five Dollars (\$475.00) for each year of teaching experience

possessed by the person holding such certificate until such person shall have twenty-two (22) years of teaching experience.

For teachers holding a Class A certificate, the minimum base pay specified in this subsection shall be increased by the sum of Three Hundred Ninety-five Dollars (\$395.00) for each year of teaching experience possessed by the person holding such certificate until such person shall have eighteen (18) years of teaching experience.

The level of professional training of each teacher to be used in establishing the salary allotment for the teachers for each year shall be determined by the type of valid teacher's certificate issued to those teachers on or before October 1 of the current school year.

(2) From and after the 1995-1996 school year and beginning with the next school year following the school year in which a teacher meets the standard requirements, any certificated teacher who shall have met the requirements and acquired a Master Teacher certificate from the National Board of Professional Teaching Standards and who is employed by a local school board as a teacher and not as an administrator shall receive a Three Thousand Dollar (\$3,000.00) salary supplement in addition to any other compensation to which the teacher may be entitled. The additional compensation shall take effect when the number of subject areas for which the National Board of Professional Teaching Standards' assessment process for certification is sufficient to allow eighty percent (80%) of existing teachers in Mississippi to be eligible to apply for the certification. All such salary supplements shall be paid directly by the State Department of Education to the local school district and shall be in addition to its minimum education program allotments and not a part thereof in accordance with regulations promulgated by the State Board of Education. Local school districts shall not reduce the local supplement paid to any teacher receiving such salary supplement, and the teacher shall receive any local supplement to which teachers with similar training and experience are otherwise entitled.

§ 37-43-1. Declaration of intent; definition of "board" and "textbook".

This chapter is intended to furnish a plan for the adoption, purchase, distribution, care and use of free textbooks to be loaned to the pupils in all elementary and high schools of Mississippi.

The books herein provided by the State Board of Education, which shall be the State Textbook Procurement Commission, shall be distributed and loaned free of cost to the children of the free public schools of the state and of all other schools located in the state, which maintain educational standards equivalent to the standards established by the State Department of Education for the state schools as outlined in the Approval Requirements of the State Board of Education for Nonpublic Schools.

Teachers shall permit all pupils in all grades of any public school to carry to their homes for home study, the free textbooks loaned to them, and any other regular textbooks whether they be free textbooks or not.

For the purposes of this chapter, the term "board" shall mean the State Board of Education.

Textbook shall be defined as any medium or manual of instruction which contains a systematic presentation of the principles of a subject and which constitutes a major instructional vehicle for that subject.

JUDICIAL DECISIONS

1. Validity and construction
2. Taxpayers' suit

1. Validity and construction

Provision for a state textbook fund and for distribution and lending of free textbooks to the pupils of elementary schools, whether public or private, non-sectarian or sectarian, was not in contravention of the constitutional prohibition against control by any religious or other sect over any part of the school or other educational funds of the state, or the appropriation of any funds toward the support of any sectarian school or any school not conducted as a free school, in view of the facts that the benefits hereunder were directed to the pupils themselves and not to schools as such, in keeping with the state's paramount duty to educate the children thereof, and the fact that the use of the textbook fund constituted no charge against any public school fund, properly so called, not against any trust funds available for particular schools or educational purposes. *Chance v Mississippi State Textbook Rating & Purchasing Board* (1941) 190 Miss 453, 200 So 706 (action under statute prior to amendment extending its application to high schools).

The privilege of requisition by qualified private or sectarian schools for the loan of such books to its pupils does not place in such schools the "control [of] any part of the school or other educational funds" of the state. *Chance v Mississippi State Textbook Rating & Purchasing Board* (1941) 190 Miss 453, 200 So 706.

The loaning of free textbooks under a statute so providing irrespective of whether the school was public or private, under circumstances wherein the state retained full control and ownership over such books and their preservation was fostered by the exaction of suitable compensation for their loss or damage, did not constitute a direct or indirect aid to the respective schools which the pupils attended, although school attendance should be compulsory. *Chance v Mississippi State Textbook Rating & Purchasing Board* (1941) 190 Miss 453, 200 So 706.

The appropriation of funds for the purchase of free textbooks to be distributed and loaned to pupils in elementary schools, including qualified private schools, did not constitute a pledging or loaning of the credit of the state in aid of any person, association, or corporation in contravention of the constitutional prohibition in that respect, in view of the fact that the books belonged to and were controlled by the state, that they were merely loaned to the individual pupils therein designated, that their preservation was fostered by exaction of suitable compensation for their loss or damage, and that the duty of protection through fumigation against contagion by use was assumed by the state. *Chance v Mississippi State Textbook Rating & Purchasing Board* (1941) 190 Miss 453, 200 So 706.

§ 37-43-2. State Board of Education to function instead of State Textbook Procurement Commission; related transfer of property and personnel; Textbook Procurement Commission to retain advisory capacity as Mississippi State Textbook Advisory Board.

(1) On July 1, 1987, the State Board of Education shall assume all power, authority, duties and functions of the State Textbook Procurement Commission. All records, personnel, property and unexpended balances of appropriations, allocations or other funds of the State Textbook Procurement Commission shall be transferred to the State Board of Education on July 1, 1987. All such employee transfers shall be in accordance with the rules and regulations of the State Personnel Board. It is the intent of the Legislature that the number of persons employed by the state as a result of the consolidation required by this section shall be reduced where possible, but that such reduction shall result from attrition of employees and not dismissal.

(2) Each officer or agency subject to the provisions of this section is hereby authorized and empowered to

Free textbooks, like tuition grants directed to students in private schools, are a form of tangible financial assistance benefiting the schools themselves, and the state's constitutional obligation requires it to avoid not only operating the old dual system of racially segregated schools but also providing tangible aid to schools that practice racial or other invidious discrimination. *Norwood v Harrison* (1973) 413 US 455, 37 L Ed 2d 723, 93 S Ct 2804, on remand (ND Miss) 382 F Supp 921, supp op (ND Miss) 410 F Supp 133, app dismd (CA5 Miss) 563 F2d 722.

The constitutional infirmity of the Mississippi textbook program is that it significantly aids the organization and continuation of a separate system of private schools which may discriminate if they so desire. *Norwood v Harrison* (1973) 413 US 455, 37 L Ed 2d 723, 93 S Ct 2804, on remand (ND Miss) 382 F Supp 921, supp op (ND Miss) 410 F Supp 133, app dismd (CA5 Miss) 563 F2d 722.

In reviewing decisions of state textbook purchasing board that private schools are eligible to receive state-owned textbooks, as to those private academies which were established during the wave of massive desegregation orders of federal courts, a prima facie case of racial discrimination arises from proof (a) that the school's existence began close upon the heels of the massive desegregation of public schools within its locale, and (b) that no blacks are or have been in attendance as students and none is or has ever been employed as teacher or administrator at the private school; once plaintiffs have established a prima facie case of racially discriminatory admission policies as to a particular academy, the burden shifts to the school's officials or representatives to rebut an inference of racial disparity. *Norwood v Harrison* (1974, ND Miss) 382 F Supp 921, supp op (ND Miss) 410 F Supp 133, app dismd (CA5 Miss) 563 F2d 722.

2. Taxpayers' suit

In an action against a state textbook rating and purchasing board to enjoin the members thereof from distributing or loaning free textbooks to pupils of private and sectarian elementary schools, the complainants, describing themselves as adult resident citizens of Forrest County, Mississippi, property owners and taxpayers of the state for themselves and all other citizens, property owners and taxpayers of the state similarly situated and of the same class and kind who might desire to, and who were thereby requested, to join in the action, and alleging that the complaint had applied to the attorney general to bring the suit, that he was the only public official authorized to do so, and that such official had not only refused to do so but on the contrary had appeared in the suit as a representative and counsel for one of the defendants, met the requirements of a taxpayers' suit. *Chance v Mississippi State Textbook Rating & Purchasing Board* (1941) 190 Miss 453, 200 So 706.

promulgate such rules and regulations not conflicting with this section necessary to accomplish an orderly transition. Each officer or agency subject to this section shall assist, with the fullest degree of reasonable cooperation, any other officer or agency in carrying out the intent and purpose of this section.

(3) All members serving on the Mississippi State Textbook Procurement Commission as it existed under the provisions of Section 37-43-3 prior to June 30, 1987, shall continue to serve in an advisory capacity to the State Board of Education until December 31, 1987. This advisory board shall be known as the "Mississippi State Textbook Advisory Board," and shall assist the State Board of Education in assuming its duties under the provisions of this section and shall provide technical assistance as may be requested. The State Department of Education, from any funds appropriated thereto, shall, upon the request of the State Board of Education, timely pay all sums reasonably required for the operation of the Mississippi State Textbook Advisory Board, including per diem and actual expenses of such board, through December 31, 1987.

(1) For the purpose of assisting the board during an adoption, there shall be rating committees in each of the fields in which textbooks are considered for adoption. Each committee shall be composed of seven (7) members. The State Superintendent of Public Education shall appoint four (4) members of each of the committees, each of whom shall be a competent, experienced teacher who is currently teaching in the field in which the textbooks are considered for adoption. The Governor of the State of Mississippi thereupon shall appoint three (3) members of each of said committees, who shall be persons he deems competent to participate in the appraisal of books offered for adoption, in each field, for use in the public schools of this state.

(2) It shall be the duty of said rating committees to appraise the books offered for adoption in each field in which textbooks are offered for adoption and recommend eight (8) books and/or series for each adoption to be made by the board and giving the reasons for or basis of such recommendations. No book shall be recommended which does not receive a majority vote of the members of each committee. Any member dissenting from any majority vote of the committee shall make his appraisal of any book recommended or rejected by the majority of the committee and specify the reasons therefor and make such recommendations as he thinks proper. All appraisals, recommendations, and dissents if any, shall be in writing and filed with the board for its consideration upon the adoption. The travel expenses of such committees shall be reimbursed in the amount as provided in Section 25-3-41 and shall be paid out of the State Textbook Fund. Such rating committees shall be subject to the provisions of Section 37-43-17. The board shall have the power to reject any and all recommendations of the rating committees and to call for further recommendations; in no case shall the board adopt any book not recommended by the rating committees.

(3) Any and all sample textbooks that may be furnished by the publisher thereof as provided by Section 37-43-59 to any member of the board, the Superintendent of Public Education, and any member of a rating committee shall within one (1) year after receipt of same by said member be turned in to the State School Book Depository without cost to the State of Mississippi, and the same shall thereafter be used without any cost to the State of Mississippi in supplying free textbooks to the educable children of the State of Mississippi as now provided by law or shall be sold to the highest bidder by the board with the proceeds immediately deposited in the State Treasury to the credit of the State Textbook Fund.

(4) No state official, state employee, school board member, school superintendent, principal, teacher or any

other individual shall sell or donate sample textbooks furnished them by the State School Book Depository as part of the textbook adoption or selection process. Said individuals and public officials shall not receive payment by the state depository, any publisher or any other company for sample textbooks.

(5) School districts may annually utilize an amount not to exceed twenty-five percent (25%) of its annual textbook allotment from the General Fund for the purchase of developmental, advanced placement and distance learning textbooks; computer software; and used textbooks which have been state-adopted. Textbooks purchased through this provision, with the exception of used textbooks which have been state-adopted, shall be exempt from the rating requirements mandated in Section 37-43-21(2), and all textbooks purchased through this provision shall be exempt from the bid and depository requirements provided in Section 37-43-23, Mississippi Code of 1972. School districts may annually utilize any portion of the said twenty-five percent (25%) textbook allotment designated through this provision for the repair of textbooks; provided, however, that school districts are authorized and encouraged to utilize the Mississippi Department of Corrections bookbinder for the repair of textbooks.

(6) Prices for new textbook purchases shall not be higher than the lowest price at which books are sold anywhere in the United States, after all discounts are allowed.

Laws, 1989, ch. 585, § 9, provides as follows:

"If any section, paragraph, sentence, clause, phrase or any part of this act is declared to be unconstitutional or void, or if for any reason is declared to be invalid or of no effect, the remaining sections, paragraphs, sentences, clauses, phrases or parts thereof shall be in no manner affected thereby but shall remain in full force and effect."

Laws, 1990, ch. 589, § 50, amended this section effective July 1, 1990, provided that the Legislature by concurrent resolution adopted by the House and Senate in session prior to July 1, 1990, declared that sufficient funds were dedicated and made available for the implementation of Chapter 589. Funds, however, were not made available by the Legislature prior to July 1, 1990, and by direction of the Office of the Attorney General of the State of Mississippi the amendatory provisions have not been printed in this volume. Text of the amendment can be found in the Advance Sheet Acts of the 1990 Legislative Session published by the Secretary of State's Office, Jackson, Mississippi.

JUDICIAL DECISIONS

Textbook approval committee's rejection of *Mississippi: Conflict and Change*, while not constituting censorship per se, was certainly an impermissible rejection precluding the purchase of such textbook with state funds and evidenced a racially discriminatory purpose on the part of the defendants and accordingly, violated the civil rights statutes, where reasons given by some committee members for rejecting the textbook indicated that race was a motivating factor; those members who did not indicate that race

influenced them in their decision also did not indicate any other reason for their rejection, which was a violation of the committee's statutory duty to state the reasons for its recommendation; and the legislative history and background of the textbook statutes also demonstrated racially discriminatory policies as a motivating factor. *Loewen v Turnipseed* (1980, ND Miss) 488 F Supp 1138.

§ 37-43-23. Bids; prices; distribution of books.

The State Board of Education is hereby authorized, empowered and directed to advertise for and receive sealed bids for textbooks. Bidders shall quote their lowest net wholesale prices, and net exchange prices, f.o.b. Central Depository, Jackson, Mississippi; however, the board may, in its discretion, establish a state depository or depositories or inaugurate any other plan for the distribution of books. Such prices shall not be higher than the lowest price at which books are sold anywhere in the United States, after all discounts are allowed. It is the intent of the Legislature that the price paid for a textbook shall not exceed the lowest price at which the same book, both having the same copyright date, is sold anywhere in the United States after all discounts are allowed. Every contract entered into under the provisions of this section by the board

and any publisher or publishing company shall contain a provision that the publisher covenants and agrees that he is not furnishing under contract executed after the first day of January of the year in which the contract becomes effective, to any state, county or school district in the United States, the textbooks embraced in the contract at a price below the price stipulated therein. At any time that the board may find that any book or books, in either regular or special editions, are being furnished in any other state at a lower price under contract than it is being furnished in Mississippi, the contract shall be forfeited to the state. Any contractor who violates this provision shall return all money paid out for such book or books and also forfeit such book or books to the state, and suit may be brought on the bond of the contractor for all losses sustained.

Successful bidders or contractors shall be required to maintain a depository at a place within the State of Mississippi, to be named by the board, where a stock of books sufficient to meet all reasonable and immediate demands shall be kept. Upon requisition of the board, the depository shall ship books, transportation charges paid, to the various shipping points in Mississippi to be specified by the board. For such service the depository shall make no charge to the board except the actual cost of transportation from the depository to the shipping point designated. The cost of distribution shall not exceed eight percent (8%) of the total appropriation for any fiscal year.

All books furnished the State of Mississippi by contractors under this chapter shall continue to measure up to the same standards as are required in the contract, said standards to include printing, binding, cover boards, mechanical makeup, and any other relevant points as set out in the plans and specifications as fixed by the board. Any contractor of any book or books, who fails to keep said books up to said standards, shall forfeit, not only his contract to the state, but shall return all money paid out for such book or books and also forfeit said books to the state.

§ 37-43-31. Selection of books by local school districts.

(1) The State Board of Education shall adopt and furnish textbooks only for use in those courses set up in the state course of study as recommended by the State Accreditation Commission and adopted by such board,

or courses established by acts of the Legislature. In all subjects the board, in its discretion, may adopt textbooks and/or series from those recommended by the textbook rating committees. The board may adopt a plan which permits the local school districts to choose the book or books to be requisitioned from those adopted, provided:

(a) That, when a book is furnished by the state, it shall remain in use during the period of its adoption;

(b) That the average per pupil cost of textbooks so furnished any unit shall not exceed that allowed for all other units in the state;

(c) That nothing herein provided shall be construed as giving any school the authority to discard or replace usable copies of textbooks now being furnished by the state;

(d) That the State Department of Education is authorized to disburse the annual textbook appropriation directly to the public school districts in accordance with Section 37-43-31(1)(b). The textbooks procured through this chapter, as well as textbooks which are on hand on June 30, 1994, which were previously purchased through the provisions of this statute, shall become the property of the public school district which purchased them, unless the State Department of Education authorizes the transfer of unneeded textbooks to another location in accordance with rules and regulations promulgated by the State Board of Education;

(e) That textbooks which are on loan to other than public schools as referenced in Section 37-43-1, shall remain the property of the State of Mississippi. All requisitions for textbooks from these schools shall be submitted to the State Department to be processed and subsequently shipped to the requesting school. No funds shall be disbursed directly from the State Department of Education to the schools in this category for the purpose of procuring textbooks; and

(f) That funds made available through this chapter may be used to purchase any state-adopted or non-adopted textbook from any state depository, directly from the publisher, or in accordance with the provisions of Sections 37-43-21(5) and 37-43-31(3). For purchases made directly from the publisher, the public school district, or the State Department of Education when purchasing for other than public schools, shall not pay a higher price for a textbook than that listed on the current state-adopted list.

(2) Whenever any book under contract is displaced by a new adoption, the board may continue to require the schools to use the recently purchased books from any previous adoption; however, such period of use shall not exceed four (4) years.

(3) If five (5) or more school boards petition the State Board of Education to add a book, or a series of books, to the approved list of state adoptions in a given subject area, then the State Superintendent of Public Education shall have sixty (60) days to show cause to the State Board of Education why the books in question should or should not be purchased with state funds. If the petition is not acted upon within the sixty-day period, the petition shall be deemed to be approved. Once a textbook has been approved through the petition process, any public school district or eligible other school may procure the said textbook utilizing funds appropriated through this chapter.

(4) If new and innovative textbooks that would improve a particular course of study become available between adoption cycles, a school board may petition the State Board of Education for permission to purchase these books out of sequence to be paid for with state textbook funds.

(5) The State Board of Education shall not allow previously rejected textbooks to be used if such textbooks were rejected for any of the following reasons:

(a) Obscene, lewd, sexist or vulgar material;

(b) Advocating prejudicial behavior or actions; or

(c) Encouraging acts determined to be anti-social or derogatory to any race, sex or religion.

(6) All books or series of books adopted under the petition procedures of this chapter shall be purchased under the provisions for bidding, pricing and distribution as prescribed in Section 37-43-23.

(7) Petition procedure books or series of books adopted under this section shall be considered only until the date of the next regular adoption series in the applicable subject area. Petition procedure books shall be submitted for formal adoption at the next applicable regular textbook adoption as prescribed under the pro-

visions of Chapter 43, Title 37, Mississippi Code of 1972; otherwise, such books adopted under the petition procedures which do not receive formal adoption approval as recommended by the textbook rating committee shall be dropped from the state textbook petition adoption list. Provided, however, this provision shall in no way prohibit a school district from using other funds, federal or local, for the purchase of such books.

vided free to public schoolchildren to qualifying nonpublic elementary and secondary schools, including parochial schools, constitutes an impermissible establishment of religion in violation of the First Amendment. *Meek v Pittenger* (1975) 421 US 349, 44 L Ed 2d 217, 95 S Ct 1753, reh den 422 US 1049, 45 L Ed 2d 702, 95 S Ct 2668.

1. In general

A resolution of the school trustees requesting the board of supervisors to call an election for school bond issue which recites the necessary preliminary facts complied with the statute despite the objection that the order recited but did not adjudicate that the district is the legally existing district. *Tedder v Board of Sup'rs* (1952) 214 Miss 717, 59 So 2d 329.

On appeal to the circuit court from an order of the board of supervisors of Neshoba County directing issuance of bonds in the amount of \$40,000 for the benefit of a high school, the circuit court had authority to hear and determine the matter only on the case as presented by the bill of exceptions as an appellate court, and hence the court was correct in refusing to permit the introduction of evidence on the hearing of the cause in the circuit court. *East Neshoba Vocational High School Bonds v Board of Sup'rs* (1952) 213 Miss 146, 56 So 2d 394.

Under Code 1942, § 6370, gymnasium is school building and bonds may be issued for erection or repair of gymnasium, improvement of water system and repairing and improving school buildings. *Re Savannah Special Consol. School Dist.* (1950) 208 Miss 460, 44 So 2d 545.

Code 1942, §§ 4341, 4342, and 6370, dealing with the same subject-matter, must be interpreted to harmonize with each other, to stand with as full effect as possible consistently with related

sections, and to fit into the dominant policy of entire legislation on subject. *Ashcraft v Board of Sup'rs* (1948) 204 Miss 65, 36 So 2d 820.

Code 1942, §§ 4342 and 6370 providing for the issuance of bonds for consolidated school districts are written into and become a part of Code 1942, § 4341, specifically providing for creation of specified area which shall be a unit for the issuance of school bonds and for application of all other provisions of law with reference to issuance and payment of school bonds to such specified areas. *Ashcraft v Board of Sup'rs* (1948) 204 Miss 65, 36 So 2d 820.

Issuance of school bonds to construct, erect and equip new school building, to move, relocate, make alterations and additions to existing principal's residence, and to move, relocate, make alterations to building used as school building is within authorized purposes under Code 1942, §§ 4341 and 6370. *Ashcraft v Board of Sup'rs* (1948) 204 Miss 65, 36 So 2d 820.

The purpose for the issuance of bonds under Code 1942, § 6370, must be free from ambiguity, and the proceeding for their issuance must clearly show such purposes upon their face, and show it with such certainty as will distinctly disclose that their issuance will be definitely within the statutory authority. *Hisaw v Ellison Ridge Consol. The issuance of bonds in a proceeding on petition by a majority of electors of a consolidated school district was erroneous where the statement of purposes for the issuance of such bonds in the petition filed with the board of supervisors contained the abbreviation of et cetera, the inclusion of which made the petition broader than the statute, and prayed for things which the statute did not embrace. *Hisaw v Ellison Ridge Consol. § 39-3-201. Entry into and contents of compact.

The Interstate Library Compact is hereby enacted into law and entered into by this state with all states legally joining therein in the form substantially as follows:

INTERSTATE LIBRARY COMPACT

Article I. Policy and Purpose

Because the desire for the services provided by libraries transcends governmental boundaries and can most effectively be satisfied by giving such services to communities and people regardless of jurisdictional lines, it is the policy of the states party to this compact to cooperate and share their responsibilities; to authorize cooperation and sharing with respect to those types of library facilities and services which can be more economically or efficiently developed and maintained on a cooperative basis, and to authorize cooperation and sharing among localities, states and others in providing joint or cooperative library services in areas where the distribution of population or of existing and potential library resources make the provision of library service on an interstate basis the most effective way of providing adequate and efficient service.

Article II. Definitions

As used in this compact:

- (a) "Public library agency" means any unit or agency of local or state government operating or having power to operate a library.
- (b) "Private library agency" means any nongovernmental entity which operates or assumes a legal obligation to operate a library.
- (c) "Library agreement" means a contract establishing an interstate library district pursuant to this compact or providing for the joint or cooperative furnishing of library services.

Article III. Interstate Library Districts

(a) Any one or more public library agencies in a party state in cooperation with any public library agency or agencies in one or more other party states may establish and maintain an interstate library district. Subject to the provisions of this compact and any other laws of the party states which pursuant hereto remain applicable, such district may establish, maintain and operate some or all of the library facilities and services for the area concerned in accordance with the terms of a library agreement therefor. Any private library agency or agencies within an interstate library district may cooperate therewith, assume duties, responsibilities and obligations thereto, and receive benefits therefrom as provided in any library agreement to which such agency or agencies become party.

(b) Within an interstate library district, and as provided by a library agreement, the performance of library functions may be undertaken on a joint or cooperative basis or may be undertaken by means of one or more arrangements between or among public or private library agencies for the extension of library privileges to the use of facilities or services operated or rendered by one or more of the individual library agencies.

(c) If a library agreement provides for joint establishment, maintenance or operation of library facilities or services by an interstate library district, such district shall have power to do any one or more of the following in accordance with such library agreement:

1. Undertake, administer and participate in programs or arrangements for securing, lending or servicing of books and other publications, any other materials suitable to be kept or made available by library.

ies, library equipment or for the dissemination of information about libraries, the value and significance of particular items therein, and the use thereof.

2. Accept for any of its purposes under this compact any and all donations, and grants of money, equipment, supplies, materials, and services, (conditional or otherwise) from any state or the United States or any subdivision or agency thereof, or interstate agency, or from any institution, person, firm or corporation, and receive, utilize and dispose of the same.

3. Operate mobile library units or equipment for the purpose of rendering bookmobile service within the district.

4. Employ professional, technical, clerical, and other personnel, and fix terms of employment, compensation and other appropriate benefits; and where desirable, provide for the inservice training of such personnel.

5. Acquire, hold, and dispose of any real or personal property or any interest or interests therein as may be appropriate to the rendering of library service.

6. Construct, maintain and operate a library, including any appropriate branches thereof.

7. Do such other things as may be incidental to or appropriate for the carrying out of any of the foregoing powers.

Article IV. Interstate Library Districts, Governing Board

(a) An interstate library district which establishes, maintains or operates any facilities or services in its own right shall have a governing board which shall direct the affairs of the district and act for it in all matters relating to its business. Each participating public library agency in the district shall be represented on the governing board which shall be organized and conduct its business in accordance with provision therefor in the library agreement. But in no event shall a governing board meet less often than twice a year.

(b) Any private library agency or agencies party to a library agreement establishing an interstate library district may be represented on or advise with the governing board of the district in such manner as the library agreement may provide.

Article V. State Library Agency Cooperation

Any two or more state library agencies of two or more of the party states may undertake and conduct joint or cooperative library programs, render joint or cooperative library services, and enter into and perform arrangements for the cooperative or joint acquisition, use, housing and disposition of items or collections of materials which, by reason of expense, rarity, specialized nature, or infrequency of demand therefor would be appropriate for central collection and shared use. Any such programs, services or arrangements may include provision for the exercise on a cooperative or joint basis of any power exercisable by an interstate library district and an agreement embodying any such program, service or arrangement shall contain provisions covering the subjects detailed in Article VI of this compact for interstate library agreements.

Article VI. Library Agreement

(a) In order to provide for any joint or cooperative undertaking pursuant to this compact, public and private library agencies may enter into library agreements. Any agreement executed pursuant to the provisions of this compact shall, as among the parties to the agreement:

1. Detail the specific nature of the services, programs, facilities, arrangements or properties to which it is applicable.
2. Provide for the allocation of costs and other financial responsibilities.
3. Specify the respective rights, duties, obligations and liabilities of the parties.
4. Set forth the terms and conditions for duration, renewal, termination, abrogation, disposal of joint or common property, if any, and all other matters which may be appropriate to the proper effectuation and performance of the agreement.

(b) No public or private library agency shall undertake to exercise itself, or jointly with any other library agency, by means of a library agreement any power prohibited to such agency by the constitution or statutes of its state.

(c) No library agreement shall become effective until filed with the compact administrator of each state involved, and approved in accordance with Article VII of this compact.

Article VII. Approval of Library Agreements

(a) Every library agreement made pursuant to this compact shall, prior to and as a condition precedent to its entry into force, be submitted to the attorney general of each state in which a public library agency party thereto is situated, who shall determine whether the agreement is in proper form and compatible with the laws of his state. The attorneys general shall approve any agreement submitted to them unless they shall find that it does not meet the conditions set forth herein and shall detail in writing addressed to the governing bodies of the public library agencies concerned the specific respects in which the proposed agreement fails to meet the requirements of law. Failure to disapprove an agreement submitted hereunder within ninety days of its submission shall constitute approval thereof.

(b) In the event that a library agreement made pursuant to this compact shall deal in whole or in part with the provision of services or facilities with regard to which an officer or agency of the state government has constitutional or statutory powers of control, the agreement shall, as a condition precedent to its entry into force, be submitted to the state officer or agency having such power of control and shall be approved or disapproved by him or it as to all matters within his or its jurisdiction in the same manner and subject to the same requirements governing the action of the attorneys general pursuant to paragraph (a) of this article. This requirement of submission and approval shall be in addition to and not in substitution for the requirement of submission to and approval by the attorneys general.

Article VIII. Other Laws Applicable

Nothing in this compact or in any library agreement shall be construed to supersede, alter or otherwise impair any obligation imposed on any library by otherwise applicable law, nor to authorize the transfer or disposition of any property held in trust by a library agency in a manner contrary to the terms of such trust.

Article IX. Appropriations and Aid

(a) Any public library agency party to a library agreement may appropriate funds to the interstate library district established thereby in the same manner and to the same extent as to a library wholly maintained by it and, subject to the laws of the state in which such public library agency is situated, may pledge its credit in support of an interstate library district established by the agreement.

(b) Subject to the provisions of the library agreement pursuant to which it functions and the laws of the states in which such district is situated, an interstate library district may claim and receive any state and federal aid which may be available to library agencies.

Article X. Compact Administrator

Each state shall designate a compact administrator with whom copies of all library agreements to which his state or any public library agency thereof is party shall be filed. The administrator shall have such other powers as may be conferred upon him by the laws of his state and may consult and cooperate with the compact administrators of other party states and take such steps as may effectuate the purposes of this compact. If the laws of a party state so provide, such state may designate one or more deputy compact administrators in addition to its compact administrator.

Article XI. Entry Into Force and Withdrawal

(a) This compact shall enter into force and effect immediately upon its enactment into law by any two states. Thereafter, it shall enter into force and effect as to any other state upon the enactment thereof by such state.

(b) This compact shall continue in force with respect to a party state and remain binding upon such state until six months after such state has given notice to each other party state of the repeal thereof. Such withdrawal shall not be construed to relieve any party to a library agreement entered into pursuant to this compact from any obligation of that agreement prior to the end of its duration as provided therein.

Article XII. Construction and Severability

This compact shall be liberally construed so as effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any party state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state party thereto, the compact shall remain in full force and effect as to the remaining states and in full force and effect as to the state affected as to all severable matters.

57-39-21. Energy efficiency standards for buildings; enforcement.

§ 57-39-21. Energy efficiency standards for buildings; enforcement.

(1) The board, in consultation with other appropriate professional groups and organizations, and others knowledgeable in the subject, shall develop and promulgate in accordance with Title III of Public Law 94-163 and Title III of Public Law 94-385 of the Ninety-fourth Congress, thermal and lighting efficiency standards, standards for computer-based energy management systems, standards for systems for cogeneration of heating, cooling and electricity, and standards for design to use passive solar energy concepts, in order to promote the efficient use of energy. The standards shall apply to all buildings as required by subsections (4) and (5) of this section. For the purposes of this section, "building" shall mean any structure which includes provisions for a heating or cooling system, or both, or for a hot water system, except exempted buildings. Unless it is an exempted building, each of the following is a building, within the meaning of this section:

(a) Any building which provides facilities or shelter for public assembly, or which is used for educational, office or institutional purposes;

(b) Any inn, hotel, motel, sports arena, supermarket, transportation terminal, retail store, restaurant or other commercial establishment which provides services or retails merchandise;

(c) Any portion of an industrial plant building used primarily as office space; and

(d) Any building owned by a state or political subdivision or instrumentality thereof, including libraries, museums, schools, hospitals, auditoriums, sports arenas and university buildings.

(2) Exempt buildings shall include:

(a) Buildings and structures or portions thereof whose peak design rate of energy usage is less than three and four-tenths (3.4) British thermal units per hour per square foot or one (1.0) watt per square foot of floor area for all purposes;

(b) Buildings and structures or portions thereof which are neither heated nor cooled by fuel;

(c) Any mobile home;

(d) Any privately-owned, non-commercial building or structure whose construction, heating, cooling or lighting arrangement is not in conflict with federal law;

(e) Any building owned or leased in whole or in part by the United States Government.

(3) This section shall apply to existing buildings as follows:

(a) Additions to existing buildings. Additions to existing buildings or structures may be made to such buildings or structures without making the entire building or structure comply. The new addition shall conform to the provisions of this section as they relate to new construction only.

(b) Historic buildings. Historic buildings are exempt from this section. This exemption shall apply to those buildings which have been specifically designated as historically significant by the state or local governing body, or listed in "The National Register of Historic Places" or which have been determined to be eligible for listing.

(c) Change of occupancy. Any change in the occupancy or use of any existing building or structure constructed under this section which would require a substantial increase in demand for either fossil fuel or electrical energy supply shall not be permitted unless such building or structure is made to comply with the requirements of this section.

(4) The lighting efficiency standards promulgated pursuant to subsection (1) shall:

(a) For all existing buildings throughout the state, be of a uniform stringency to the extent possible, provided that any more stringent local standards existing on July 1, 1979, shall prevail; and

(b) For all new buildings in the state, be a standard consistent with the provisions of section 9 of Standard 90-75 of the American Society of Heating, Refrigeration and Air-conditioning Engineers.

(5) The thermal efficiency standards promulgated pursuant to subsection (1) shall:

(a) For all new buildings in the state, be a standard consistent with the provisions of sections 4 through 9 of Standard 90-75 of the American Society of Heating, Refrigeration and Air-conditioning Engineers; and

(b) For all existing buildings which are altered, repaired or renovated in this state and in which the cost of the alteration, repair or renovation exceeds twenty-five percent (25%) of the fair market value of the building be a standard consistent with the provisions of the most stringent local standard existing on the effective date of this chapter as determined by the commission.

(6) Beginning July 1, 1980, the design, direction, construction and alteration of any building for which the standards promulgated pursuant to subsection (1) of this section shall apply shall be accomplished so that the building or applicable portions thereof shall meet or conform to such standards. Local governing authorities shall adopt rules and regulations for the administration and enforcement of this section, and to adopt such penalties for violation of this section as they deem appropriate, except in regard to buildings owned by the state. In state-owned buildings, the building commission shall provide for the compliance with the standards adopted under this chapter. Local governing authorities are authorized to adopt rules and regulations as developed and promulgated by the commission for the administration and enforcement of these standards and to adopt such penalties for violations of the standards as they deem appropriate. Local governing authorities are authorized to establish an inspection fee for the inspection of thermal and lighting standards not to exceed fifty dollars (\$50.00).
