ABSTRACT

This report provides state summary tables and district reports of graduation rates, dropout rates, and suspension and expulsion rates. The Colorado graduation rate for the class of 1995 was 77.4%, a decrease of 1.4 percentage points from the rate reported for the class of 1994. Computation of this rate included the 53 alternative and second-chance schools in the state. In 66 districts, the graduation rate was at or above 90%. Female students continued to exhibit a higher graduation rate than male students. The modest increases that were reflected in the graduation rates for minority students from 1991 to 1993 were lower in 1995 than the rates reported in 1991, with the greatest decline (5.7%) among Hispanic Americans. The dropout rate for the 1994-95 school year was 4.4%, an increase of 0.1% from 1993-94. Figures from 1993-94 indicated that about one third of dropouts returned to school the following year. The total number of students expelled from Colorado schools in 1994-95 was 1,661, with 40% of the expulsions due to detrimental behavior. The state's public schools reported 68,135 total suspensions, involving 47,072 elementary and secondary school students. White males were the students most commonly expelled. A question-and-answer section summarizes information about graduates, dropouts, and students suspended or expelled. (Contains 14 tables.) (SLD)

## ACKNOWLEDGEMENTS

This publication was prepared by Jo Ann Keith, Statistics/Data Base Coordinator and Martina Wambolt, Data Collection Coordinator, with the Research and Evaluation Unit.

Local school district personnel were essential in providing information contained in this publication. Their time and effort are appreciated.

Christine Warren-Head, Cain Padelio and Diedre Middents with Information Management Services Unit were very helpful in providing data processing support.

## MISSION STATEMENT

The Research and Evaluation Unit of the Colorado Department of Education empowers our coworkers, the public, and the educational community to make informed decisions regarding quality education for Colorado's diverse learners by collecting and disseminating accurate, timely information, and by sharing our expertise in data collection, research and evaluation.

## INTRODUCTION

This report provides state summary tables and district reports of graduation rates, dropout rates, suspension and expulsion rates.

A graduate is a student who completed locally-defined requirements for graduation from high school. If a student is not considered a graduate by the local board of education, then he/she is not included in the graduation rate calculation.

The graduation rate is a cumulative or longitudinal rate which calculates the number of students who actually graduate as a percent of those who were in membership and could have graduated over a four-year period (i.e., from grades 9-12). However, it may also include students, under age 21, who completed high school in three years, four years, or longer.

During the fall of 1988, a task force comprised of school district and Colorado Department of Education personnel recommended that the graduation rate calculation be based on information reported for the dropout data collection system. The dropout data collection system, implemented in the 1987-88 school year, provides pupil membership and transfer data by grade, school, and district. Schools with grades 7-12 are required to complete an end-of-year report which provides counts of students entering and withdrawing during the 12 month period July 1 through June 30.

The dropout rate is an annual rate reflecting the percentage of all students enrolled in grades 7-12 who leave school during the reporting period and are not known to transfer to other public or private schools. In accordance with a 1993 legislative mandate, beginning with the 1993-94 school year, the dropout rate calculation excludes expelled students.

The 1995 graduation rate is a four-year rate based on students reported by school districts who began 9th grade in the 1991-92 school year. The membership base used to calculate a high school's graduation rate includes students who transfer into the Class of 1995 and excludes students who transfer out of the Class of 1995. In addition, high schools can adjust their membership base for a student reported as a dropout during a previous school year if the high school has documentation that the student returned or transferred to another educational program.

Although the Department is able to report graduation rates for the Class of 1995 and for future graduating classes, it is not currently possible to track students who drop out from their graduating class but complete their education several years later.

Several school districts have initiated alternative education programs for students who have dropped out or are at risk of dropping out. For those districts that have alternative schools, a district graduation rate, completer rate, and dropout rate is calculated including and excluding the alternative school. This comparison enables the reader to evaluate the rates of the traditional school program apart from the total district rates.

## GRADUATION RATES

The 1995 graduation rate is a four-year rate based on students reported by school districts who began 9th grade in the 1991-92 school year. The membership base used to calculate a high school's graduation rate includes students who transfer into the Class of 1995 and excludes students who transfer out of the Class of 1995. In addition, high schools can adjust their membership base for a student reported as a dropout during a previous school year if the high school has documentation that the student returned or transferred to another educational program.

- The Colorado graduation rate for the Class of 1995 is 77.4 percent. This is a decrease of 1.4 percentage points from rate reported for the Class of 1994. The Class of 1991 had a 78.9 percent graduation rate.
- The graduation rate of 77.4 percent represents all Colorado public schools, including alternative schools. There are 53 alternative and second chance high schools in the state that address the educational needs of students who previously dropped out or are at risk of dropping out of school. These alternative schools not only impact districts' graduation rates but also the overall state graduation rate since they are serving more and more students. The number of graduates from alternative schools in 1991 was 867 students and in 1995 there were 1102 graduates.
- Sixty-six school districts or 38 percent of all Colorado school districts had a graduation rate at or above 90 percent in 1995. This is similar to the Class of 1991 when sixty-seven school districts (38 percent) had a graduation rate at or above 90 percent.
- Thirty percent of Colorado's public high schools had a graduation rate of 90 percent or better.

## COMPLETER RATES

The Completer Rate is also a cumulative or longitudinal rate which calculates the number of students who graduate, receive certificates or other designations of high school completion. It is also calculated as a percent of those who were in membership and could have graduated or completed over a four-year period (i.e., from Grades 9-12).

- The completer rate for the Class of 1995 is 78.8 percent. Completers include graduates and students receiving other certificates or designations of completion from a Colorado public high school.

## GED COMPLETERS

- According to information collected by the Adult Basic Education/GED (General Education Development) Office from GED testing centers, 7,506 students (65 percent of the test takers) received a GED during 1995.
- Of the 7,506 students receiving a GED, 4,251 (57 percent) were under 21 years of age; 2,044 (27 percent) were between 21 - 30; 866 (11.5 percent) were 31 - 40; 249 (3.3 percent) were 41 - 49 and 96 (1.3 percent) were over 50 years of age.

## ADULT COMPLETERS

- During the 1994-95 school year 13 school districts reported 445 adult completers (students over age 21) from their educational programs. Adults receiving a high school diploma numbered 164; other certificates of completion 162; and GEDs 119.

GRADUATION RATES INCLUDING ALTERNATIVE SCHOOLS

Table 1:

	CLASS OF 1992		CLASS OF 1993		CLASS OF 1994		CLASS OF 1995	
	Number of Graduates	Graduation Rate	Number of Graduates	Graduation Rate	Number of Graduates	Graduation Rate	Number of Graduates	Graduation Rate
Total	31059	79.9%	31839	79.9%	31,867	78.8%	32,409	77.4%
Male	15,436	78.0%	15,755	77.7%	15,694	76.4%	15,765	74.7%
Female	15,623	81.9%	16,084	82.2%	16,173	81.1%	16,644	80.2%
American Indian	222	59.7%	225	52.9%	215	53.3%	244	49.2%
Asian	915	83.1%	926	81.7%	988	82.8%	990	79.6%
Black	1,286	69.9%	1,356	68.8%	1,346	67.5%	1,396	66.7%
Hispanic	4,094	65.9%	4,247	65.8%	4,186	63.3%	4,195	60.0%
White	24,542	83.7%	25,085	84.0%	25,132	83.1%	25,584	82.4%

- The graduation rate for Class of 1995 is 77.4 percent a decrease of 1.4 percentage points from the 1994 rate of 78.8 percent. The Classes of 1992 and 1993 had graduation rates of 79.9 percent which was an increase of 1.0 percentage point over the 1991 rate of 78.9 percent.
- The graduation rate of 77.4 percent represents all Colorado public schools including 53 alternative schools. The number of graduates from alternative schools has increased 41.1 percent, from 867 students in 1991 to 1,223 students in 1994.
- Female students continue to exhibit a higher graduation rate than male students, but rates for both gender groups dropped for the second consecutive year. The 1995 graduation rate of 80.2 percent for female students is 2.0 percentage point lower than the 1993 rate of 82.2 percent. For male students the 1995 rate of 74.7 percent is 3.0 percentage points lower than the 1993 rate of 77.7 percent.
- The modest increases that were reflected in the graduation rates for minority students from 1991 to 1993 are now lower for 1995 than the rates reported for the Class of 1991.

	1991	1995	Difference
American Indian	53.6	49.2	- 4.4
Asian	84.2	79.6	- 4.6
Black	69.7	66.7	- 3.0
Hispanic	65.7	60.0	- 5.7
White	82.4	82.4	+0.0

White	24,786	84.5%	25,340	84.9%	25,424	84.0%	25,933	83.8%

- The completer rate is also a cumulative or longitudinal rate which calculates the number of students who graduate and students who receive certificates or other designations of high school completion as a percent of those students under age 21 who were in membership in a Colorado school district program and could have graduated or completed.
- The completer rate of 78.8 percent for the Class of 1995 is 1.4 percentage points higher than the graduation rate.
- Completer rates are higher than graduation rates for all ethnic/racial groups; 1.2 percentage points for American Indian students, 0.9 for Asian students, 2.6 for Black students, 2.2 for Hispanic students, and 1.4 for White students.
- Completers for the Class of 1995 include: 32,4097 who completed local board-defined requirements for graduation and received a high school diploma from a Colorado school district, 348 who received a G.E.D. (General Education Development) certificate after completing a program of studies in a Colorado school district, and 226 students who received certificates or other designations of high school completion, attendance or training from a Colorado school district.

**GRADUATION RATES BY SETTING OF DISTRICTS**

**Table 3:**

District Setting	Number of Districts	Graduation Rates				Change from 1992
		1992	1993	1994	1995	
Denver Metro	15	79.2%	77.6%	78.6%	76.9%	-2.3%
Urban Suburban	15	80.1%	80.4%	77.9%	77.4%	-2.7%
Outlying City	13	79.9%	80.8%	77.8%	77.1%	-2.8%
Outlying Town	47	83.5%	83.9%	82.5%	81.3%	-2.2%
Rural	86	81.7%	82.1%	81.2%	81.4%	-0.3%
<b>TOTAL</b>	<b>176</b>	<b>79.9%</b>	<b>79.9%</b>	<b>78.8%</b>	<b>77.4%</b>	<b>-2.5%</b>

- The graduation rates for each of the setting categories showed a decline from the 1992 rates. Outlying City School districts reflect the biggest decline of 2.8 percentage points.

## DROPOUT RATES

The dropout rate is an annual rate reflecting the percentage of all students enrolled in grades 7-12 who leave school during the reporting period and are not known to transfer to other public or private schools. In accordance with a 1993 legislative mandate, beginning with the 1993-94 school year, the dropout rate calculation excludes expelled students.

- Colorado's dropout rate for the 1994-95 school year was 4.4 percent, an increase of 0.1 percent from 1993-94.
- The total membership base for grades 7-12 was 305,768 and 13,077 students dropped out resulting in the rate of 4.3 percent.
- Of the 13,077 students reported as dropouts during the 1993-94 school year, 3,782 were reported as retrievals during the 1994-95 school year. This represents approximately one-third (29 percent) of the 1993-94 dropouts returning to school the following year.

Colorado Law (22-33-106 C.R.S.) defines grounds for the suspension and/or expulsion of students from public schools. This includes but is not limited to carrying, bringing, using or possession of a deadly weapon, sale of drugs or controlled substance; commission of an act which if committed by an adult would be robbery or assault; habitually disruptive student; disobedience or open and persistent defiance of proper authority; willful destruction or defacing of school property; behavior on or off school property detrimental to the welfare or safety of other pupils or school personnel; and repeated interference with a school's ability to provide educational opportunities to other students.

The 1994-95 school year was the first year information from all public schools was collected in a standard reporting format. School districts were requested to report number of students suspended and total occurrences of suspensions. A student suspended more than once during the school year is counted only once in the student count but each occurrence is included in the suspension count.

#### EXPULSIONS

- The total number of students reported as being expelled during the 1994-95 school year was 1,661. Of that number, 544 were expelled for less than the school year, 899 expelled for the remainder of the school year and 218 were expelled into the 1995-96 school year.
- Forty percent (665) of the expulsions were due to detrimental behavior; 29.1 percent (483) due to possession of deadly weapons; 19 percent (315) due to drugs or controlled substances; and 11.9 percent (198) for other reasons defined by the local district.
- Of the total number of students expelled (1661), 45.4 percent were White males; 24.2 percent Hispanic males; 6.5 percent Black males; 1.9 percent American Indian males; and 1.6 percent Asian males. White females expelled was 10.1 percent; Hispanic females 6.8 percent; Black females 2.2 percent; American Indian females 1.0 percent and Asian females 0.3 percent.
- The 1661 students expelled during the 1994-95 school year included 119 students from elementary, 728 from middle/junior high, and 814 from the senior high schools.

#### SUSPENSIONS

- During the 1994-95 school year, Colorado Public Schools reported 68,135 total occurrences of out-of-school suspensions involving 47,072 elementary and secondary students.
- The highest number of suspensions (46,393) 68.1 percent occurred due to detrimental behavior followed by 23.9 percent for other reasons (16,268); 6.5 percent (4,441) for drugs or controlled substances; and 1.5 percent (1,033) for deadly weapons.
- Ninety-six percent of the suspensions were for five days or less and four percent were for more than five days.

Table 13: STATE SUMMARY OF SUSPENSIONS AND EXPULSIONS FROM COLORADO SCHOOL DISTRICTS DURING THE 1994-95 SCHOOL YEAR

## QUESTIONS AND ANSWERS ABOUT COLORADO DROPOUT RATES

**Who Is Considered a Colorado Dropout?** By Colorado law, a dropout is a "person who leaves school for any reason, except death, before completion of a high school diploma or its equivalent, and who does not transfer to another public or private school or enroll in an approved home study program." A student is not a dropout if he/she transfers to an educational program recognized by the district, completes a G.E.D. or registers in a program leading to a G.E.D., is committed to an institution that maintains educational programs, or is so ill that he/she is unable to participate in a homebound or special therapy program.

**Who Is a Transfer?** A student is considered a transfer to another district or educational program if the receiving school or program sends for the student's records, or if the sending district can document that the parent or legal guardian has provided information regarding the school or education program into which the student is transferring. This definition of a transfer is in accordance with the Public School Finance Act of 1988, 22-53-207(3), C.R.S.

**What If a Student Just Disappears?** A student who disappears from school is considered a dropout unless the student transferred to another educational program.

**What Is the Dropout Rate?** The Colorado dropout rate is an annual rate, reflecting the percentage of all students enrolled in grades 7-12 who leave school during a single school year. It is calculated by dividing the number of dropouts by a membership base which includes all students who were in membership any time during the year. In accordance with a 1993 legislative mandate, beginning with the 1993-94 school year, the dropout rate calculation excludes expelled students.

**Can the Dropout Rate Be Multiplied by Four to Find Out How Many Students Drop Out Over the Four Years of High School?** No. The dropout rate is an annual rate only. It is not statistically valid to simply multiply the annual rate by four to find out how many students dropped out during high school. The graduation rate, however, provides a measure of how many students completed graduation requirements.

**Can a Student Drop Out More Than Once? How Does That Affect the Annual Dropout Rate?** Some students have a pattern of dropping out and returning to school several times before they either graduate or drop out and do not return. In the state reporting system, a student is counted as a dropout only once within a given reporting period (i.e., from July 1 through June 30). However, if a student drops out during one school year, then returns to school the following year and drops out again, he/she will be counted in the dropout rate two years in a row.

**How Valid Are Colorado's Dropout Rates?** The Colorado Department of Education provides definitions, guidelines, and training regarding the proper procedures for identifying and reporting dropout statistics. The data are edited and screened upon receipt and a turnaround document with the calculated rates is returned to the district for verification. In submitting the data to the state, each superintendent signs an assurance that the district has followed the required procedures.

**How Are Dropout Data Reported?** Dropout data are reported annually to the Department by Colorado school districts. Dropout data are collected for grades 7-12, by school building and by district. Data are reported separately by sex, ethnicity/race, and grade level of students.

## QUESTIONS AND ANSWERS ABOUT COLORADO GRADUATION RATES AND COMPLETER RATES

**Who is a Graduate?** In Colorado, local school boards are responsible for establishing the requirements for high school graduation. There is no statewide definition.

**Do All Colorado School Districts Have the Same Requirements For Graduation?** No. Each local school board defines graduation requirements for its district. These vary from district to district. The state considers a graduate to be any student who has met the graduation requirements of his or her local school district.

**Are There Students Who Complete 12 Years of School and Do Not Graduate?** Yes. Some districts award certificates or other designations of high school completion or attendance to students who do not complete the standard high school graduation requirements. Also, some students who do not complete the traditional high school graduation requirements do successfully achieve a general equivalency certificate (GED).

**Who Will Be Included in the Calculation of Graduation Rate?** Two types of rates are calculated by the Department for school districts and for the state: Graduation Rates and Completer Rates.

**Graduation Rates.** Graduation rates are calculated based on high school graduates only. A graduate is a student who completed locally-defined requirements for graduation. If a student is not considered a graduate by the local board of education, then he/she is not included in the graduation rate calculation.

**Completer Rates.** Completer rates are calculated based on all students who are graduates, plus those who are not considered graduates but receive another certificate or designation of high school completion.

**What Happens to Students Who Graduate in the Summer?** Summer graduates are included in the graduation rate calculation of the current graduating class, or in the following year's graduation rate calculation, based on a district's reporting practice.

**What Happens if a Student Was Reported as a Dropout at Some Point During His or Her High School Years and the School Subsequently Receives Information that the Student Transferred into Another Educational Program? Does That Student Affect the Graduation Rate For the Class of Which He/She Was Originally a Member?** No. If the high school has documentation of the student's transfer into another educational program or completion of an educational program, then an adjustment may be made to the membership base used to calculate the graduation rate. These students are not reported as completers from the district, they are taken out of the membership base of the school and treated as if they transferred from the school. However, the dropout rate for the year in which they were reported as a dropout remains unchanged.

**What is the Graduation Rate?** The graduation rate is a cumulative or longitudinal rate which calculates the number of students who actually graduate as a percent of those who were in membership and could have graduated over a four-year period (i.e., from Grades 9-12).

A graduation rate will be reported for each graduating class (i.e., the Class of 1995). The rate is calculated by dividing the number of graduates by the membership base. The membership base is derived from end-of-year count of eighth graders four years earlier (i.e., in the spring of 1991), and adjusted for the number of students who have transferred into or out of the district during the years covering grades 9 through 12.

**What is the Completer Rate?** The Completer Rate is also a cumulative or longitudinal rate which calculates the number of students who graduate, receive certificates or other designations of high school completion. It is also calculated as a percent of those who were in membership and could have graduated or completed over a four-year period (i.e., from Grades 9-12).

Information needed to calculate graduation and completer rates is available from the dropout data collection system initiated in the 1987-88 school year.

**What Is Meant By the "Class of 1995"?** Graduation rates and completer rates will be reported for a particular class. The Class of 1995 will include students who graduated in the spring of 1995 and during the summer of 1995. It may include students who completed high school in three years, four years or longer.

#### **SOURCE OF INFORMATION**

Data published in this report were obtained from all Colorado public schools on CDE Form 2, End of Year Pupil Membership, Dropouts and Graduates Report. Data collected on these forms were then summarized for reporting in the various formats.

Data for alternative schools in some tables are reported separately. This provides additional information for those districts' schools that are established to give students who are dropouts or potential dropouts an alternative to the traditional program. The alternative schools' data also includes those Second Chance Programs operated by districts and Boards of Cooperative Services. However, it does not include any educational programs for dropouts that are incorporated as part of the traditional high school program.
