ABSTRACT

Designed for use in calculating the distribution of state aid to colleges in the Wisconsin Technical College System (WTCS) and in preparing financial and enrollment reports, this document provides a summary of projected cost allocations for the WTCS for 1996-97, derived from data submitted by the colleges on cost allocation schedules. Following a brief foreword, college and statewide data is provided in the following four sets of tables: (1) summaries of college operational costs and total budgets, total expenditures and revenues by college, staff types and costs by college, materials fees and full-time equivalent (FTE) student enrollments by college, and statewide costs and FTE enrollment by aid category; (2) projected FTE costs by college by aid category, including college parallel education, associate degree programs, vocational programs, vocational-adult programs, community services, and total costs; (3) FTE students and costs by college for the instructional divisions of agriculture, business, graphics, home economics, industrial, service and health, technical, television, general education, and total costs; and (4) statewide FTE enrollment and operational cost percentages, cost ratios per FTE student, and FTE student enrollment percentages by instructional division and aid category. The report indicates that, statewide for 1996-97, total operational costs will be \$559,942,700; the number of FTE students will be 57,225; the average cost per FTE student will be \$9,785; and the ratio of cost per FTE ratio will be 1. FOREWORD

The information contained in this summary was derived from data submitted by the technical colleges on their 1996-97 projected cost allocation schedules.

Cost allocation information is used to calculate the distribution of state aids to each college, and prepare financial and enrollment reports including state statistical summaries and reports on the financing of technical education in Wisconsin. The data is also used to answer requests for information from the Governor, the Legislature and the public. In addition, the costs by instructional division are used in preparing Wisconsin's State Plan for Vocational Education required by federal statute.

The continuing education costs and numbers cannot be compared to any actual or projected cost allocation schedules prior to the 1991-92 projected summary as they are computed on a different basis due to a realignment of aid codes in the vocational-adult and community services categories.

NOTE: The Research function has been eliminated in the Wisconsin Technical College System and the associated costs distributed to other appropriate functions. The schedules in this report reflect this accounting change.

The table below provides a statewide summary by aid category of the 1996-97 projected unit costs and ratios for full-time equivalent (FTE) students:

	College <u>Parallel</u>	Postsecondary		Continuing Education		<u>Total</u>
		<u>Associate Degree</u>	<u>Vocational Diploma</u>	<u>Vocational- Adult</u>	<u>Community Services</u>	
Total Operational Cost ¹	\$31,275.6	\$290,439.9	\$186,223.3	\$49,268.1	\$2,735.8	\$559,942.7
Full-Time Equivalent Students ²	4,702	31,377	15,672	5,068	406	57,225
Cost per Full-Time Equivalent	\$6,652	\$9,257	\$11,881	\$9,722	\$6,743	\$9,785
Cost per FTE Ratios	.68	.95	1.21	.99	.69	1.00

The financial and enrollment information reported in this summary will not be finalized until after completion of the required audits in the following fiscal year. Enrollments may not agree on all schedules due to rounding of some college projections which were submitted to the hundredth of an FTE. Differences in unit costs appearing in the schedules which follow reflect the interplay of factors unique to each college, including the mix of programs, the number of locations where courses are offered, enrollment levels, and the average number of credits for which students enroll.

¹In thousands.

²An FTE student represents 30 credits in each aid category.

¹Includes all monies for auxiliary and public service functions, "non-add" amounts, as well as debt service, enterprise, internal service, proprietary, and trust and agency funds (i.e., everything not included as operational cost).

²Percentages in this column are the percentage which the operational cost is of the total budget.

³Operational percentages add horizontally to 100 percent, except for note 2 above and operational subtotal column which adds vertically.

¹The numbers vary because of differing organizational structures among the districts. This position classification includes the district director and other certified administrators who are responsible for the overall educational program of the district or for an assigned portion of the overall educational program.

²This is the sum or average of the four previous staff classifications.

³The (#) columns indicate number of staff. The top portion contains full-time equivalent (FTE) staff numbers; the bottom portion contains each district's percentage distribution of staff which adds horizontally, except for the total column which adds vertically. NOTE: The staff numbers cannot be compared to any cost allocation Schedule A-3 Staff Analysis Summary prior to the actual 1989-90 count. Beginning with the 1989-90 actual summary, the staff counts are computed on a different basis using workload percentages reported by the districts for employees in all funds and functions.

⁴The (\$) columns indicate average compensation: The top portion contains amounts that are the mean personal services cost of salary plus fringe benefits for each staff classification; the total represents the statewide mean personal services cost for that classification; the bottom portion contains each district's rank for that classification.

¹Figures rounded as follows: full-time equivalent (FTE) students to nearest tenth, and average (arithmetic mean) materials fees per credit to nearest nickel.

²Computed as follows: each district's materials fees by aid category were divided by the FTE students, and that cost per FTE quotient was divided by 30 to yield the materials fees per credit. This amount will vary according to each district's program mix and number of exemptions by aid category.
