ABSTRACT

The Centralia College Foundation (CCF) was established in 1982 to develop activities to support Washington's Centralia College and the surrounding community. This report provides information on the CCF and describes Foundation goals for 1996 through 2006. First, background information is provided on the establishment and fundraising projects of the CCF, indicating that between 1986 to 1995 the Foundation generated over \$2.5 million in cash and gifts. Next, a discussion is provided of a 1995 revision of the CCF mission statement to reflect changes in the college's mission. The bulk of the document then describes goals for the following areas: (1) the Annual Fund, the CCF's major fundraising program; (2) the Business Associates Program; (3) the Deferred/Planned Gifts Program; (4) the formation of associate groups of donors having special interests, such as Friends of the Library; (5) the Major Gifts Program, for annual gifts of \$500 or more; (6) special fundraising events; (7) student scholarships; (8) facilities improvements in support of the college's facilities plans; and (9) programs for alumni. Appendixes provide a review of CCF accomplishments from 1982 to 1995-96, a table of amounts raised from 1986-87 to 1995-96, a chart of CCF development priorities, a list of college scholarship needs for 1996, a map of proposed facilities improvements, and a history of CCF property acquisition from 1985 to 1996. Report of the Planning Committee
1996-2006

Executive Summary

This document charts the course for the Centralia College Foundation from 1996 through 2006. These recommendations were developed for the Centralia College Foundation Board of Directors by the Planning Committee.

It is noted that previous planning efforts have enabled the Foundation to become well established and successful. It is now time to build upon past achievements and strengthen the ability of the Foundation to support the College and the community.

- The Mission Statement of the Centralia College Foundation has been revised to reflect the mission of Centralia College.
- Annual Fund Campaign goals have been established for the next decade.
- Business Associates program will be revitalized to better serve the needs of the business community.
- Deferred or Planned Gifts program is being initiated which provides for a structured society of major donors.
- Associate groups will be developed which provide for special interest areas of the College.
- Major Gift recognition and encouragement programs will be enhanced.
- Special Events will be held annually to increase awareness of the College and the Foundation.
- Student Scholarship Endowments will be solicited, greatly adding to yearly scholarship awards.
- The Foundation will continue to assist the College to achieve its Facilities Master Plan.
- Alumni Programs will be strengthened to provide a greater means for alumni identification and affiliation.
- The external and internal capacity of the Foundation for growth and development will be strengthened.

Report of the Planning Committee 1996-2006

Introduction

Not much happens without an idea . . . a dream . . . a plan . . . and enthusiastic follow-through! This has been our experience with regard to the Centralia College Foundation. Planning has been an essential factor in our success.

In 1986, the Centralia College Foundation embarked on a five year plan and made amazing progress. The Report of the Planning Committee 1990-1995 guided the development of the Foundation to great success. Hopefully, this present planning effort will chart the course through the year 2006.

This plan will be reviewed and updated annually by the Planning Committee and changes, if any, will be presented at the June Board Meeting.

I. Background

The Centralia College Foundation was established in 1982 by visionary College and community leaders. During the next few years, the organization became established and fundraising projects were initiated.

In the Fall of 1986, the Foundation embarked upon its first Annual Fund Drive. In the decade that followed the yearly Annual Fund Campaign has become the basic fundraising program of the Foundation which attracts new donors and keeps the needs of the College/Foundation before the public. During the period 1986-95, the college has increased its support of the Foundation, and the Foundation has received over \$2.5 million in cash and in-kind gifts. A review of the accomplishments of the Foundation is contained in Appendix A, B.

Planning has been essential to guide our growth. The five year "pyramid" plan introduced in 1986 has served us well (see Appendix C). The Planning Committee report for 1990-1995 produced great gains. This present planning effort charts a course for the decade of 1996-2006. It presents challenges which, if met, can position the Foundation and the College to better serve students and the community.

II. Mission Statement Revision

Mission statements guide organizations and help them to focus on their essential purpose. Rather than a road map which changes periodically, the mission statement is a compass which points to the "magnetic north" of the organization.

The first formal mission statement was approved by the Board of Directors in 1990. This statement was reflective and supportive of the College mission statement adopted by the College Board of Trustees earlier that year. In December, 1995, the College Board of Trustees adopted a revised mission statement, as a result of the College strategic planning process. In turn, the Foundation Planning Committee reviewed the new College statement and proposed a revised Foundation mission statement:

CENTRALIA COLLEGE FOUNDATION MISSION STATEMENT

The Centralia College Foundation exists to support and to enhance the ability of Centralia College to accomplish its mission to be a dynamic learning community.

The Centralia College Foundation will actively stimulate our community to invest funds, other assets and energies with the Foundation. This effort will help perpetuate the College and assist it to operate at a level far above that which can be achieved from state and federal support alone.

This mission statement was adopted by the Foundation Board of Directors on June 12, 1996.

III. Planning for the Future 1996-2006

There are a number of programs, projects and activities which will insure the continued success of the Centralia College Foundation. These include:

A. The Annual Fund

The Annual Fund will continue to be the bedrock of all our fundraising efforts. This will be major fundraising program conducted yearly by the Centralia College Foundation. It consists of the solicitation of funds from individuals and businesses by personal contact and direct mail. It includes the organization of a volunteer fundraising committee; the listing, rating and assignment of prospects; personal contacts; production of personal solicitation letters; general mailings and the recording and acknowledgment of gifts. Goals of the Annual Fund are to make friends and develop supporters of the College, continually add new donors, upgrade the giving of existing donors and build a base of College supporters upon whom the College may draw for participation in future programs.

The Annual Fund is considered to include gifts which are given in response to the drive. It does not usually include funds from planned giving, estates, etc. Goals for Annual Fund income are projected as follows:

Figures above represent 000s. This represents an ambitious 10% increase per year.

B. Business Associates

The Business Associates Program activity phase includes the continuous cultivation and solicitation of the business community. The program consists of informational mailings, personal contacts with business executives and business cultivation luncheons or breakfasts to provide opportunities for interaction between the College and the business community. It also involves the development and submission of proposals for the funding of specific projects to benefit the College and its educational programs.

The commitment of this program is important to the development of the Foundations role in the community.

C. Deferred/Planned Gifts

The Deferred/Planned Gifts Program involves continuous identification and cultivation of those individuals who are prospects for a major gift in the form of unitrust, annuity trust, pooled income fund, life insurance, life estate program or specific bequest. A Deferred Gifts Plan has been developed. Elements of the program involve building the deferred gifts prospect file, quarterly mailings to those prospects and personal interviews where appropriate. The major cost factors are prospect research time and deferred/planned gifts publications for mailing. Some other expenses may be involved in occasional cultivation contacts and professional and/or legal costs for analysis and document preparation.

Planned Giving Action Plan is as follows:

- Structured society of major donors - recognition event.
- Publish Literature - brochures, etc.
- Organize Advisory Council including luncheon and speaker
- Mailing list
- Recognition and encouragement of prospective donors

D. Associate Groups

Recognizing that some donors and potential donors may closely identify with and have a special interest in giving to specific areas of the College, the Centralia College Foundation will encourage the development of one associate group every 3 years. It is the goal of the Foundation that these groups (such as the Nursing Associates, Friends of the Library, Electronic Associates and Civil Engineering Associates) be in-place and operational.

E. Major Gifts

The Major Gifts Program involves the recognition & encouragement of those who have given or are prospects for gifts of \$500 per year or more. Elements of the program include a newsletter from the President of the College, plus selected individual invitations to campus events as guests of the College/Foundation.

There are at present approximately 75 individuals or companies in this category. Our goal is to add 10% or more each year which would result in up to 250 by 2006.

F. Special Events

Special events promote awareness of the College and the Foundation and also raise some funds. Generally, the costs associated with the events are covered by the proceeds. Special events in the past have included Night on the Rhine, Orient Express, Mardi Gras, and Sail the Sapphire Seas.

Our goal is to hold at least one such event each year.

G. Student Scholarships

Student scholarships assist students to defray part of their college expenses. They also provide recognition and encouragement to students. Student scholarships also encourage attendance at Centralia College and they are also a means to recognize donors.

At present endowments to fund scholarships total \$1,288,140. Approximately \$37,000 was awarded to 30 students from endowed scholarships and approximately \$38,500 was awarded to 40 students from community/living endowment scholarships, in Spring, 96.

Our goal is to add five scholarship endowments each year for the next 10 years bringing the total number of endowments to 143.

The Endowment Fund is envisioned to grow to \$5,000,000 by 2006, yielding an annual disbursement of \$250,000 per year by that date.

Funding for student scholarships is vitally important to maintaining student access to college (see Appendix D). The Centralia College Foundation can play a big role in making this possible, in much the same way as the W.F. West trust has funded college attendance of W.F. West High School students down through the years.

H. College Facilities

Centralia College has in place a Facilities Master plan which provides direction for campus development. The Foundation has been instrumental in acquiring properties in the Master Plan, holding them and then helping the College to acquire them as needed for campus expansion.

Appendix E contains a map of the College Facilities Master Plan which identifies target blocks and properties. To date the Foundation has acquired seven properties, as can be seen in Appendix F.

The Foundation will maintain a property account from which property acquisitions will be funded. Funds from the sale of properties will also be deposited into this account.

I. Alumni Programs

The establishment of an alumni association was a goal of the Centralia College Foundation in 1986-87. This was accomplished in 1987 when the Centralia College Alumni Association was formed.

During the years since its inception, the Alumni Association has held meetings and organized events to benefit the College. Modest funding has been provided by the Associated Students, and staff support has been provided through the Student Services department.

The alumni of Centralia College constitute a significant resource to the College and the Foundation. Friendship, affiliation and financial support are possible if the Alumni Association is to be viable. The Centralia College Foundation wants to see the development of an active Alumni Association which can play a major role in support of the College.

This will require both planning and funding. The Centralia College Foundation would like to have a plan, including funding, in place June 30, 1997.

J. Foundation Support

No funding is provided from the State designated for the financial support of the Foundation. In fact, state funding can only be directed to the Foundation through the Quid pro Quo agreement, as per guidelines provided by the Attorney General.

As the Foundation has grown over the years the organization has become better able to fund its operation. Present staffing and funding is as follows:

Kathleen Thornton
Executive Director

1/2 Foundation, 1/2 College

Sue Young
Accountant

College

Brenda Lane
Secretary

1/2 Foundation, 1/2 College

To accommodate the growth envisioned in this report, staff and budget support will be identified, and reported to the Board on an annual basis.

Property Acquisition History
1985-Present**

The acquisition of real property by the College is a long and cumbersome process. It involves Board of Trustees, General Administration (GA), State Board for Community and Technical Colleges, and the Governor/legislators. This process is necessary for any such acquisitions.

The Centralia College Foundation has enabled Centralia College to act quickly when key properties come on the market. The Foundation has bought and held these properties until the State can purchase them. This process has been utilized to acquire the following properties:
