ABSTRACT

Salary and related data are reported for 8,325 professional staff members in the 109 Association of Research Libraries (ARL) member university libraries, including law and medical libraries. Salary and related data for the 11 non-university ARL member libraries are reported for 3,799 professional staff members. Summarized in 42 tables, the data includes: distribution by salary level; salary trends in ARL nonuniversity libraries; filled positions; average, median, and beginning professional salaries; average years of professional experience; beginning professional salaries for fiscal years 1995-96 and 1996-97; median professional salaries for fiscal years 1995-96 and 1996-97; average professional salaries for fiscal years 1995-96 and 1996-97; average, median, and beginning professional salaries for fiscal years 1993-94 to 1996-97; salary trends in ARL university libraries; distribution of professional staff by salary, sex, and position; number, average salaries, and average years of experience of minority and non-minority librarians by position, sex, and years of experience; number and average salaries of librarians by years of experience, type of institution, size of professional staff, and geographic region; and university libraries by geographical region. Categories of salary information by library type include: ARL non-university libraries (2 tables); ARL university libraries (21 tables); Canadian ARL university libraries (4 tables); ARL university medical libraries (7 tables); and ARL university law libraries (7 tables). Copies of the university and non-university library questionnaires are provided. (SWC)

-----------------	----

INTRODUCTION

ARL Annual Salary Survey 1996-97 reports salary data for all professional staff working in ARL libraries. The Association of Research Libraries (ARL) represents the interests of 120 libraries that serve major North American research institutions. The Association operates as a forum for the exchange of ideas and as an agent for collective action to influence forces affecting the ability of these libraries to meet the future needs of scholarship. The ARL Statistics and Measurement Program, which produces *ARL Annual Salary Survey*, is organized around collecting, analyzing, and distributing quantifiable information describing the characteristics of research libraries. *ARL Annual Salary Survey* is the most comprehensive and thorough guide to current salaries in large U.S. and Canadian academic and research libraries, and is a valuable management and research tool that describes salaries for librarians.

Data for 8,325 professional staff members were reported this year for the 109 ARL university libraries, including their law and medical libraries (766 staff members reported by 65 medical libraries and 637 staff members reported by 70 law libraries). For the 11 nonuniversity ARL members, data were reported for 3,799 professional staff members. For the first time the report includes data from Ohio University, whose library became an ARL member in 1996.

This year's publication follows the general format of previous years. Most tables show Canadian salaries converted into U.S. dollar equivalents at the rate of 1.3613 Canadian dollars per U.S. dollar.¹ Tables 25 through 28, however, pertain exclusively to staff in Canadian university libraries, and salary data are expressed in Canadian dollars.

There were 853 minority professional staff reported in 96 U.S. university member libraries, including law and medical, eleven more than last year. Six minorities were added because of the inclusion of Ohio University. Note that the data for minority professionals comes only from the U.S. university member libraries; Canadian law prohibits the identification of Canadians by ethnic category. In the tables that follow, the university population is generally treated in three distinct groups: staff in the "general" library system, staff in the university medical libraries, and staff in the university law libraries. All branch libraries for which data were received, other than law and medical, are included in the "general" category, whether or not those libraries are administratively independent.

Overall, minority staff make up 11.28% of the professional staff in U.S. university libraries (including law and medical). Specifically, Asians/Pacific Islanders comprise 5.2%, Blacks comprise 3.7%, Hispanics 2.2%, and American Indian/Native Alaskan comprise .2%.

¹ This is the average monthly noon exchange rate published in the Bank of Canada *Review* for the period July 1995-June 1996.

All	5,378	64.60%	2,947	35.40%	8,325

² Includes staff in medical and law libraries

Women comprise 72.7% of staff in the four ethnic/racial groups that comprise minority staff, as compared to 63.3% for Caucasian/Other women in all U.S. university member libraries. The overall gender balance in the 109 Canadian and U.S. university libraries (including law and medical) is 35.7% male and 64.3% female. See Figures 1, above, and Figure 3, below, for more detail on ethnic distribution.

³ The number of directors in 1980-81 is 84 instead of 98 because some positions were vacant and some directors did not report their salaries in the early years.

Many readers have inquired about evidence of gender-based salary differentials. Data on salary comparisons for directors also are frequently requested. It is perhaps noteworthy that the average salary for female directors in university libraries is slightly higher than the average salary for male directors (see Table 15) this year.⁴

Examining salary data over a sixteen-year period, from FY 1980-81 to FY 1996-97, we can see that women have gradually closed the earnings gap across different job categories. In eleven job categories, women decreased the apparent earnings differential; in six job categories, the earnings differential increased. Overall, women earned 87% of men's salaries in 1980 but 92% of men's salaries in 1996 (see Figure 2). Graph 2 shows the average salaries for men and women over the last sixteen years. The drop in the unadjusted salaries in FY 1994-95 was experienced by both groups, so salaries for both men and women in ARL libraries follow similar trends.

Graph 2

* Salaries are not adjusted for inflation.

⁴ Figure 2 shows slightly different numbers because it describes only 98 libraries. Table 15 describes 109 libraries.

There is an extensive literature regarding the reasons earnings differentials persist. One of the reasons that has been identified repeatedly as contributing to the earnings differential between men and women is the fact that librarianship is predominantly a woman's profession and, consequently, is undervalued for a variety of historical and social reasons. The scarcity of men in the profession is probably one of the reasons that their salaries tend to be slightly higher than those of women. Furthermore, in 1980 there were more professional men (38.2%) compared to 1996 (35.2%). Graph 3 shows the number of professionals by sex over the last sixteen years. One can detect there that although both the number of women and men professionals increased slightly, the number of women increased somewhat faster than men.

Graph 3

Number of Professionals by Sex
(reporting data for 98 ARL university libraries)

Looking at the 1996-97 data, as Table 15 demonstrates, average salaries for men in most cases surpass those of women in the same job category. For only eleven categories (of the twenty-seven used in the Tables) do average salaries of women exceed those of men. Moreover, the *overall* average for all positions shows that the average salary for men is almost 8% higher than the average salary for women. Table 17 provides average years of professional experience for many of the same staffing categories for which salary data are shown in Table 15. An inspection of data in Table 17 reveals that experience differentials between men and women

cannot account fully for all of the salary differentials evident in Table 15. Table 19 further reveals that the average salary for men is consistently higher than the average salary for women in every one of the experience cohorts. With some exceptions, this pattern is also repeated for minority librarians (see Table 20). Table 20 shows that minority women are paid more compared to minority men if they have fewer than seven years experience. In many cases, the opposite is true if they have more than seven years experience.

Minority professional staff continue to be disproportionately distributed across the U.S. In Figure 3, above, one can compare the number of minority staff with other staff, region by region. These patterns of distribution have been relatively stable for the entire history of the ARL data collection experience.

Salaries in private U.S. university libraries continue to exceed those paid in publicly supported U.S. university libraries. In FY 1996-97, the differential is \$2,366, or 5.1% more for the average position in a private institution. In the cases of heads of acquisitions, reference, circulation, government documents/maps, as well as for reference librarians and a couple of other categories, average administrative salaries in the public sector exceed those paid for similar positions in the private university libraries (see Table 22).

Size of the library, as measured by the number of professional staff, is also a significant determinant of salary. As a rule, the largest libraries pay the highest

⁵ American Indian/Native Alaskan

average salaries, not only overall, but for specific positions as well. There are a few exceptions, however. In three cases the second largest group of libraries (those that report 75-120 professionals) pay the highest average salaries in specific job categories. In another nine cases the lowest average salaries are paid by the second smallest libraries (50-74 professionals) rather than the smallest. These exceptions account for less than 11.1% of the cases where comparisons can be made. Average salaries for all staff in a size cohort increase by \$1,018, \$2,747, and \$805 respectively as one proceeds from university libraries with the smallest number of staff to university libraries with the largest number of staff. These aggregated differentials account for an 10.2% disparity between the smallest and largest libraries (see Table 23).

Tables 3 and 12 reveal changes in beginning professional and median salaries, as well as changes in the U.S. Bureau of Labor's Cost of Living Index (CPI-U) for nonuniversity and university libraries. Table 12 includes law and medical library staff in order to maintain continuity for the twelve-year span of time which the tabular data cover. Table 3 reveals that the purchasing power of nonuniversity staff at the median is the same as it was twelve years ago, while the typical beginning professional salary has gained 13.9% in purchasing power during the same decade, which suggests salary compression.

Salaries for professional staff in university libraries have generally made more progress than nonuniversity library salaries, partly because university median salaries are slightly lower than those of nonuniversity libraries salaries. The purchasing power of salaries at the median has for the second year been 9.4% higher than inflation, and the median beginning professional salary continues to show a larger gain -- 11.05% -- when compared to FY 1985. However, these levels indicate that there has been no change in the purchasing power of professionals in ARL libraries in the last year; compared to FY 1991 and FY 1992, there has been a slight decline.

Rank structure continues to provide a useful framework for examining professional salaries in ARL university libraries. The following table displays average salary and years of experience in the most commonly used rank structures. Note that not all individuals may have a rank that fits into the rank structure the library utilizes. Most commonly, directors may have no rank or a rank outside the structure, and it is common for non-librarians included in the survey (business officers, personnel staff, computer specialists, etc.) to be unranked, as well.

The pattern of relationships between rank and salary seen in past years continues with the present report where higher rank is associated with a higher average years of experience and a higher salary. Over 70% (5,950 professionals) of the 8,325 librarians in ARL university member libraries occupy a rank within these three most commonly found ranking systems.

No. of Staff	1,431		3,282		1,237	

Readers are reminded that these data reflect only salaries, and that there are other compensation issues which may have influenced the pattern of salaries in various institutions. In addition, a highly standardized structure for capturing data has been used, and this may portray results in a way that cannot be fully representative of a local situation.

Concluding, I would like to acknowledge with thanks Patricia Brennan, William Crowe, Gordon Fretwell, Ron Naylor, and Kendon Stubbs, all of whom reviewed this final draft and provided valuable suggestions and advice.

Martha Kyrillidou
Association of Research Libraries
November 5, 1996

TABLE 1: DISTRIBUTION BY SALARY LEVEL

Figures in columns headed by fiscal year show the number of filled professional positions. Columns headed by cum. % show the percentage of all filled positions with salaries equal to or more than the beginning of each salary range. For example, in FY 1996-97, 30.4% of ARL university librarians earned more than \$50,000, as did 56.5% of ARL nonuniversity librarians.

Salary Range	University Librarians				Nonuniversity Librarians			
	FY 1995-96	cum. %	FY 1996-97	cum. %	FY 1995-96	cum. %	FY 1996-97	cum. %
\$200,000 - 250,000	1		1

TABLE 3: SALARY TRENDS IN ARL NONUNIVERSITY LIBRARIES

Salary figures for the current year are displayed in the context of the previous years and compared to the changes in the Consumer Price Index (CPI) to show trends in the purchasing power of median and beginning professional salaries. Salary figures and CPI numbers have been converted to adjusted indexes using July 1984 as the base.

Fiscal Year	No. of Libs.	Total Staff	Median Salary	BPS** Median	Median Salary Index	BPS** Index	Actual CPI	Adjusted CPI
1996-97	11	3,799	\$51,150	\$28,380	151.0	172.0	157.0	151.0
1995-96	11	3,915	49,149	28,162	145.1	170.7	152.5	146.7

TABLE 12: SALARY TRENDS IN ARL UNIVERSITY LIBRARIES*

Salary figures for the current year are displayed in the context of the previous years and compared to the changes in the Consumer Price Index (CPI) to show trends in the purchasing power of median and beginning professional salaries. Salary figures and CPI numbers have been converted to adjusted indexes using July 1984 as the base.

Fiscal Year	No. of Libs.	Total Staff	Median Salary	BPS** Median	Median Salary Index	BPS** Index	Actual CPI	Adjusted CPI
1996-97	109	8,325	\$43,170	\$27,687	165.3	167.7	157.0	151.0
1995-96	108	8,231	41,901	27,000	160.5	163.6	152.5	146.7
1994-95	108	8,216	41,088	26,000	157.4	157.6	148.4	142.8
1993-94	108	8,132	40,225	25,834	154.1	156.6	144.4	139.0
1992-93	108	8,212	39,265	25,000	150.4	151.5	140.2	134.9
1991-92	107	8,256	38,537	24,000	147.7	145.5	136.2	131.1
1990-91	107	8,382	36,701	23,800	140.6	144.2	130.7	125.8
1989-90	107	8,253	34,629	22,000	132.7	133.3	124.0	119.3
1988-89	107	8,087	32,461	20,400	124.4	123.6	118.3	113.9
1987-88	106	7,962	30,534	19,460	117.0	117.9	113.6	109.3
1986-87	105	7,718	28,941	18,250	110.9	110.6	109.6	105.5
1985-86	105	7,543	27,485	17,500	105.3	106.1	107.6	103.6
1984-85	104	7,161	26,100	16,500	100.0	100.0	103.9	100.0

Canadian salaries expressed in U.S. dollars.

* - Includes medical and law libraries in median salary.

** - Beginning professional salary.

ARL ANNUAL SALARY SURVEY 1996-97

Questionnaires and Instructions

ASSOCIATION OF RESEARCH LIBRARIES

ARL ANNUAL SALARY SURVEY 1996-97
UNIVERSITY LIBRARY QUESTIONNAIRE

Part I: Summary Data

Reporting Institution _____ Date Returned to ARL _____
Report Prepared by (name) _____
Title _____
Email address _____ Phone number _____
Contact person (if different) _____
Title _____
Email address _____ Phone number _____

1.	Beginning Professional Salary	Main	Law	Medical
	Beginning professional salary for 1996-97.	_____	_____	_____

(Note: ARL will calculate the 1996-97 median and average professional salaries for your library from the data you supply in Part II of this questionnaire.)

2. **Footnotes** (Please compare with footnotes from surveys of previous years.)

a. Figures include salaries for main campus only.
_____ Yes _____ No _____ We have only one campus.

b. Other libraries not included:

- ☐ 1 level (i.e., no differentiated levels)
☐ 2 levels
☐ 3 levels
☐ 4 levels
☐ 5 levels
☐ more than 5 levels (please specify the number of levels:)

d. Other comments:

This image shows a single sheet of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page. There are approximately 20 lines visible. The paper appears to be a standard notebook page.

ARL ANNUAL SALARY SURVEY 1996-97

UNIVERSITY LIBRARY QUESTIONNAIRE

General Instructions for Completing the Questionnaire

1. This survey is concerned with professional positions only. Since the criteria for determining professional status vary among libraries, there is no attempt to define the term "professional." Each library should report the salaries of those staff members it considers professionals, irrespective of faculty status or membership in a collective bargaining unit, including, when appropriate, staff who are not librarians in the strict sense of the term, such as computer experts, systems analysts, budget officers, etc.
2. Individual salaries for the general, law, and medical library may be reported on the enclosed disk, using LOTUS 1-2-3 or Microsoft Excel (for Macintosh users). See "Instructions for Data Inputters" for each software package. Please DO NOT alter the worksheets on the disks in any way; do not change any page or line numbers. We cannot accept data in WordPerfect format because of uploading and conversion problems. If you are not able to produce data that can be saved in either Lotus or Excel, please submit your data using the printed forms. [If you have a word processing file with your data in properly labeled columns, you may submit a print-out of that file in lieu of the pre-printed forms.]
3. Salaries should be reported for both full-time and part-time professional positions. Salaries for part-time positions should **NOT** be converted to their full-time equivalents; report the actual part-time salary paid, and indicate the percent appointment for that employee in the appropriate column.
4. To calculate the percent appointment, if less than 1.00, which stands for 100%, divide the months the employee works by the number of months considered to be the norm for full-time employment at your institution (or the number of hours per week an employee works by the number of hours per week considered to be the norm for full-time employment at your institution). For example, if a full-time appointment at your institution is 12 months, a 9-month part-time appointment would be .75, i.e. 75%. If a full-time appointment at your institution is 40 hours per week, an appointment at 30 hours per week is also .75. To calculate the percent appointment for an employee who works 30 hours a week and only for 9 months a year, when the norm for full-time employment is 40 hours a week and a 12-month appointment, multiply the percent appointment per week by the percent appointment per year, i.e. $.75 \times .75 = .56$.
5. Percent appointment should be rounded to two decimal places; do NOT use whole numbers (e.g., enter .65, not 65 or 65%). All other numbers (e.g. salaries, years of experience) should be rounded to the **nearest whole number**.
6. The salaries for all professional positions should be included, regardless of whether the salaries come from regular library budget funds **or from special funds such as research grants**. Please include all professionals involved in the provision of library services, including **contract-supported positions**.
7. The salary figures should be straight gross salary figures. **Do not include fringe benefits.**
8. Salary figures should be reported in digits only; do NOT use "\$" or "," (e.g., 25470, not \$25,470).
9. Explanatory footnotes to the reported figures may be provided, when necessary, at the end of Part I. Footnotes will be included in the published survey, where appropriate.
10. After all data have been entered, make a backup copy of the complete file (including individual names/id#s) for your institution's master file, if you wish to refer to this file in the future. Note: The data submitted to ARL

does NOT include individual names or id#s, so ARL will NOT be able to supply a copy of your institution's complete file next year.

11. The questionnaire should be returned to the ARL Office by August 31, 1996. If you are providing the individual data on the diskette, please return the diskette in the mailer, along with Part I of the survey and a printout of the data file. Be sure to keep a complete copy of your return, including the diskette, for your files.

Instructions for Completing Part I: Summary Data

1. Part I of this survey deals with general information for the current fiscal year, 1996-97.
2. Please include the Beginning Professional Salary for Law and Medical libraries if included in the survey; if not included, enter "N/A" in the appropriate blank.
3. **Question 1.** The Beginning Professional Salary is the salary that would be paid to a newly-hired professional without experience, not necessarily the lowest professional salary paid. In reporting the beginning salary, please use a figure that is actually used or likely to be used for entry-level librarians hired by your library, even if it is your practice rarely to hire entry-level professionals without experience.

Please report the 1996-97 Beginning Professional Salary to the best of your knowledge as it exists on July 1, 1996. Do not delay returning your survey with the expectation that more information will be available later.

4. The 1996-97 Average and Median Salary figures will be calculated by ARL from the individual data supplied.
5. Be sure to fill in the name of the reporting library and the name of the person who prepares the report.

Instructions for Completing Part II: Individual Data

1. Part II of this survey requests information on salary, sex, minority status, rank, and years of experience for all filled positions for fiscal year 1996-97. Vacant positions should be excluded from your report. No optional data are requested this year. The survey requests information for individuals; aggregate data for each institution will be generated by computer.
2. Data for the general, law, and medical libraries may be reported on the enclosed microcomputer diskette; see #4 below for specific instructions.
3. **Survey Form.** If you are not able to submit the data on the diskette, please use the enclosed forms. Photocopy additional sheets if you cannot list all professional positions in the space provided. You may also use a print-out from a word-processing document with all columns correctly ordered and labeled.

If you are reporting on paper forms only, list information for individuals in separate Law or Medical libraries on sheets devoted only to each of those two branches. Check the appropriate box at the top of the form to indicate when a sheet is only for Law or Medical library staff.

The left-hand column labeled "Name/ID" has been provided so the form can also serve as a work sheet. After the forms have been completed, the left-hand column should be removed to ensure anonymity of the data. Except for segregating Law and Medical library staff, the order in which staff members are entered on the form is immaterial; enter them in the order most convenient for you.

4. **Diskette.** The floppy diskette contains data input files for general, law, and medical library data in Lotus 1-2-3 or Microsoft Excel formats. They are labeled as follows:

	<u>Lotus 1-2-3</u>	<u>Excel</u>
General	ARL6xxxx.WKS	ARL6xxxx.X1
Law	LAW6xxxx.WKS	LAW6xxxx.X1
Medical	MED6xxxx.WKS	MED6xxxx.X1

xxxx = Library identification number; see label on the enclosed diskette. The file names this year have a "6" preceding the four-digit library identification number, to distinguish them from, and prevent overwriting of, files you may have created in prior years.

The files contain empty worksheets with columns labeled as follows:

<u>Name/ID</u>	<u>LibID</u>	<u>Page</u>	<u>Line</u>	<u>Salary</u>	<u>Job</u>	<u>Sex</u>	<u>OEOcat</u>	<u>Yrsexp</u>	<u>Rank</u>	<u>Percent</u>
----------------	--------------	-------------	-------------	---------------	------------	------------	---------------	---------------	-------------	----------------

The first entry in the column labeled "LibID" is already filled in so there will be no question about the institutional identity of the diskettes as they are received. If the diskette has been damaged in any way, or if the number in the LibID column is not the same as the number printed on the return address label (on the diskette mailer), please call the ARL Office for instructions.

Detailed instructions for inputting data in each format are enclosed. **Please do not alter any formats, page or line numbers; please do not submit data using word processing software** (use printed sheets instead).

After all data have been entered, make a backup copy of the complete file (including individual names/id#s) for your institution's master file, if you wish to refer to this file in the future. Note: The data submitted to ARL does NOT include individual names or id#s, so **ARL will NOT be able to supply a copy of your institution's complete file next year.**

5. **Salary.** Enter the individual salaries *as they exist* on July 1, 1996. If the library normally increases salaries at a date later than July 1, and the salary as of that later date is known or can be estimated (within \$100 or so) by the time the questionnaire is due to be returned, use the higher salary figure and footnote the effective date and/or whether the reported figures are known or estimated. Please do not hold up the reporting process for later salary adjustments. Salaries should be reported for all filled positions. Vacant positions should be excluded from your report.

Salary figures should be rounded off to the nearest whole dollar. Use digits only; do NOT use "\$" or "," in reporting in figures (e.g., 25470, not \$25,470).

6. **Position Code (Job).** The position categories used in this survey are intended to correspond roughly with the activities carried on in libraries, not with any particular pattern of staff organization or nomenclature.

Please use these categories in the manner you feel best applies to your library. Indicate a position title by means of one of the following codes.

DIRLIB	Director of Libraries (or equivalent title; refers to chief executive)
ASCDIR	Associate Director
ASTDIR	Assistant Director
HDMED	Head, Medical Library (Human Medicine only)
HDLAW	Head, Law Library
HDBR	Head, Other Branch Library (including Veterinary Medicine)
FSPEC	Functional Specialist
SSPEC	Subject Specialist
HDACQ	Head, Acquisitions Department
HDCAT	Head, Catalog Department/Unit
HDCIRC	Head, Circulation
HDCOMP	Head, Library and Computer Systems
HDDOC	Head, Documents Department
HDMAP	Head, Map Room/Department
HDRBM	Head, Rare Book/Manuscripts Department
HDREF	Head, Reference Department
HDSE	Head, Serials Department
HDOTH	Head, Other Department/Service/Agency
CAT	Catalogers, both general and specialized
REF	Reference librarians, both general and specialized
PUBS	Public Services, non-supervisory, <u>except</u> reference librarians
TECH	Technical Services, non-supervisory, <u>except</u> catalogers
ADMIN	Administrative and other units, non-supervisory position

If any individual has responsibilities described by more than one of the above categories, choose the category that is most typical of his/her general duties. Codes must be used exactly as they appear in the list above.

Associate or Assistant Director, and Head, Other Branch: Use these codes for all persons at these levels regardless of the area of specialty. If an assistant or associate director is also head of a department, choose the category that most reflects the general duties of the person currently in the position.

Specialists. These are of two kinds: Subject Specialists, who primarily build collections (but may also offer specialized reference and bibliographic services); and Functional Specialists, who are media specialists or who are experts in management fields such as personnel, fiscal matters, systems, preservation, etc. Specialists may not be, strictly speaking, professional librarians (i.e., have the MLS). The "specialist" category would generally not be used for someone with significant supervisory responsibilities, who should instead be listed as a department head or assistant director (see also note under Assistant Department Head, below).

Department Heads. Department Heads not specifically included in the above list should be included under the category "Head, Other Department/Service/Agency." Head, Catalog Department should be used either for the

department that handles all cataloging, or for the head of a specialized cataloging unit (e.g. copy cataloging or foreign languages). List the head of library automation and computer systems, applications, programming, etc. as HDCOMP unless that person is also an Associate or Assistant Director, in which case use the appropriate administrative code. If there is an intermediate level of management between an Associate or Assistant Director and the professionals who actually carry out the analysis, programming, etc., use HDCOMP to define that intermediate level. Professionals who carry out analysis, programming, etc. should be listed as functional specialists (FSPEC).

Head, Acquisitions Department. Use HDACQ for all of the following positions: (a) head of a department that is responsible for the selection of material (or management of selection activities carried out on a basis encompassing more than a single organizational unit), but not responsible for the placement of orders, payment of invoices, etc.; (b) head of a department responsible for the placement of orders, maintaining on-order files, payment of invoices, etc., but not responsible for selection decisions; (c) head of a department responsible for both the selection decisions (or coordination of selection activities) and for acquiring the material. Libraries that split these two functions between two departments should report more than one professional with the position HDACQ.

[*Special note concerning Assistant Department Heads.* Assistant Department Heads who are responsible for major units and spend the bulk of their time in supervision and revision of the work of others should also be listed as "Head, Other Department/Service/Agency." See additional subcodes below for Head, Cataloging, and Head, Other Department. However, Assistant Head positions responsible for small units or for supervision only in the absence of the head should be reported as non-supervisory or specialist positions as appropriate.]

7. **Sex.** Indicate either M or F, for male and female, respectively. Please use only the letter indicated; do not spell out the word.
8. **Minority status code (OEOCat).** U.S. university libraries, only, should indicate minority status by means of one of the following code numbers. (Leave blank if a Canadian library or if vacant):
 - 1 Black
 - 2 Hispanic
 - 3 Asian or Pacific Islander
 - 4 American Indian or Native Alaskan
 - 5 Caucasian/Other
9. **Total years of professional experience (Yrsexp).** Define "professional experience" as indicated in the general instructions; for most professional staff members this will mean counting the years since the MLS degree was awarded. When counting, do not subtract interim periods when an individual was not engaged in professional library employment if these periods are short in relation to the overall professional career. Count an academic year contract period as a full year. Be sure to include professional experience in previous positions and in other institutions. Numbers should be rounded off to the nearest whole number.

10. **Rank.** Responses concerning rank should be limited to professional librarians and other professionals reported in the survey who occupy the same ranks as librarians. Leave the rank column blank for professionals who do not occupy these ranks or if the column is not applicable. For example, if the Library Business Officer holds a rank typically used for university administrators but not for librarians, do not supply a rank code for that individual or describe his/her rank in answering other questions, even if you have included salary and other data for the Business Officer.

If multiple ranking structures are used for librarians and these structures are substantially different and not equivalent, enter individual rank information only for that group which represents the largest fraction of “rank-and-file” librarians.

Do not use roman numeral rank levels. Convert your local ranking system if necessary.

Complete the column labeled “Rank Code” using the following codes:

- 0 A rank normally occupied solely by the library director and/or assistant and associate directors.
- 9 Rank unknown; or, there is confusion or controversy regarding how to code this individual’s rank.
- 1 Lowest level in the rank structure.
- 2 Next highest level in the rank structure.
- 3-8 Successively higher levels in the rank structure. Highest number in this range should be equivalent to the highest rank in the library’s structure (unless the highest rank is occupied solely by the director and/or assistant and associate directors).

When counting the total number of rank levels, include ranks that may be unoccupied at the present time due to circumstances like unusually high turnover, hiring freezes, etc.

11. **Percent.** Change the 100% appointment to less than that only for part-time people. Enter percent with decimal points. For example, a 65% appointment would be entered as .65.

Part I: Summary Data

Reporting Institution _____ Date Returned to ARL _____

Report Prepared by (name) _____

Title _____

Email address _____ Phone number _____

Contact person (if different) _____

Title _____

Email address _____ Phone number _____

1. Complete the table on the back of this sheet by indicating the number of filled or temporarily vacant professional positions in each salary range for fiscal years 1995-96 and 1996-97.

2. Median professional salary for fiscal year 1996-97. _____

3. Beginning professional salary for 1996-97. _____

4. Footnotes (Please compare with footnotes from surveys of previous years.)

a. Law Library salaries are included.

_____ Yes _____ No _____ We do not have a Law Library.

b. Medical Library salaries are included.

_____ Yes _____ No _____ We do not have a Medical Library.

c. Branch libraries not included (please attach an additional sheet if necessary):

5. Other comments (please attach an additional sheet if necessary):

Indicate the number of filled professional positions
in each salary range for fiscal years 1995-96 and 1996-97.

Salary Range	Number of Positions	
	1995-96	1996-97
\$200,000 or more		
175,000 - 199,999		
150,000 - 174,999		
140,000 - 149,999		
130,000 - 139,999		
120,000 - 129,999		
110,000 - 119,999		
100,000 - 109,999		
95,000 - 99,999		
90,000 - 94,999		
85,000 - 89,999		
80,000 - 84,999		
75,000 - 79,999		
70,000 - 74,999		
65,000 - 69,999		
60,000 - 64,999		
55,000 - 59,999		
50,000 - 54,999		
48,000 - 49,999		
46,000 - 47,999		
44,000 - 45,999		
42,000 - 43,999		
40,000 - 41,999		
38,000 - 39,999		
36,000 - 37,999		
34,000 - 35,999		
32,000 - 33,999		
30,000 - 31,999		
29,000 - 29,999		
28,000 - 28,999		
27,000 - 27,999		
26,000 - 26,999		
25,000 - 25,999		
24,000 - 24,999		
23,000 - 23,999		
22,000 - 22,999		
21,000 - 21,999		
Less than 21,000		
Total Number of Positions		

Please return the completed questionnaire to the
ARL Statistics and Measurement Program by **August 31, 1996**.

ARL ANNUAL SALARY SURVEY 1996-97

NONUNIVERSITY LIBRARY QUESTIONNAIRE

GENERAL INSTRUCTIONS

1. This survey is concerned with the salaries of professional positions only. Since the criteria for determining professional status vary among libraries, there is no attempt to define the term "professional." Each library should report the salaries of those staff members it considers professionals, irrespective of membership in a collective bargaining unit, and including, when appropriate, staff who are not librarians in the strict sense of the term, such as systems analysts, budget officers, etc.
2. Salaries should be reported for all filled positions. Vacant positions should be excluded from your report.
3. Report 1996-97 salaries *as they exist* on July 1, 1996. If the library normally increases salaries at a date after July 1, and the salary as of that later date is known or can be estimated (within \$100 or so) by the time the questionnaire is due to be returned, please use the higher salary and footnote the effective date and/or whether the reported figures are known or estimated. Please do not hold up the reporting process for later salary adjustments.
4. The Median Salary is the salary that has an equal number of salaries above it and below it. In those libraries with an even number of positions, the median salary is the average of the two salaries that have an equal number of salaries above and below them.
5. The Beginning Professional Salary is the salary that would be paid to a professional without experience, not necessarily the lowest professional salary paid. In reporting the beginning salary, please use a figure that is actually used or likely to be used for entry-level librarians hired by your library.
6. Salaries should be reported for both full-time and part-time professional positions. However, salaries for part-time positions should be converted to their full-time equivalents before reporting; do not report the actual part-time salary paid.
7. Salaries should normally be reported on a 12-month basis. If an appointment is for 9 or 10 months at the option of the employee, the actual salary paid should be increased to its 12-month equivalent. However, if appointments of less than 12 months are required by the employer, report the actual salary paid.
8. The salaries for all professional positions should be included, regardless of whether the salaries come from regular library budget funds or from special funds such as research grants.
9. The salary figures should be straight gross salary figures. Do not include fringe benefits.
10. Explanatory footnotes to the reported figures may be provided when necessary. Footnotes will be included in the published survey.
11. Be sure to fill in the name of the reporting library and the name of the person who prepares the report.
12. Please return the questionnaire to the ARL Statistics and Measurement Program Office by **August 31, 1996.**

FOOTNOTES TO ARL ANNUAL SALARY SURVEY 1996-97

ARIZONA STATE	Includes main and west campus.
BRIGHAM YOUNG	Excludes law library.
BROWN	Includes the John Carter Brown Library.
CALIFORNIA, BERKELEY	<p>Excludes "affiliated" libraries on campus, which are independently or departmentally administered (e.g. Institutes for Governmental Studies, Transportation Studies, Industrial Relations, Water Resources Center Archive, Architectural Slide Library, Chicano Studies Library, Asian American Studies Library, etc.).</p> <p>Assistant, Associate, and (full) Librarian ranks comprise 14 partly-overlapping salary steps. Assistant, Associate, and (full) University Librarian ranks are each assigned ungraduated salary ranges, also partly overlapping, with the University Librarian title only administered under the University's Executive personnel program.</p> <p>Some appointees in the AUL/UL/Director series do not actually hold MLS degrees, and additionally hold nominal or part-time faculty appointments. Salaries given represent Library compensation only.</p>
CALIFORNIA, DAVIS	Head of Serials also serves as Head of Cataloging.
CALIFORNIA, SANTA BARBARA	Includes salaries for professional staff members who are not librarians: Specialist, Programmer/Analyst.
CANADA INSTITUTE FOR SCIENTIFIC AND TECHNICAL INFORMATION	Last year, CISTI included all positions, instead of just professional positions, which is why the total number of positions looks dramatically lower this year.
CHICAGO	Salaries for staff at the law and medical libraries are included in the reporting for the main library.
CINCINNATI	Includes figures for the University of Cincinnati main campus and its two branch campuses at Clermont and Raymond Walters College.
CORNELL	Excludes Cornell Medical Library.
DELAWARE	Excludes the salaries of staff of libraries not directly reporting to the Director of Libraries.
DUKE	Includes Fuqua School of Business Library and the Divinity Library, though both are independent and separately administered from the main library system.
EMORY	<p>Salaries effective September 1, 1996.</p> <p>Includes all Emory libraries. Includes salaries for library staff at the Oxford Campus and all hospital library branches.</p> <p>Rank structure is used in the General Libraries only.</p>
FLORIDA	In <i>ARL Annual Salary Survey 1995-96</i> , Table 29 incorrectly reported 21 filled positions for the medical library; there were only 13 filled positions. Revised figures for Table 29, 1995-96 are as follows: Average salary, \$35,374; Median salary, \$36,878; Beginning Salary, \$26,000 (no change); Average Years Experience, 18.2.
FLORIDA STATE	Excludes Developmental Research School.
GEORGIA	Beginning salary is \$34,000 with both MLS/JD at the law library.
HARVARD	<p>Includes all libraries on the Boston and Cambridge campuses, including the Schlesinger Library at Radcliffe College.</p> <p>Excludes Biblioteca Berernson in Florence, Italy; and the Center for Hellenic Studies and the Dumbarton Oaks libraries in Washington, DC.</p>

FOOTNOTES TO ARL ANNUAL SALARY SURVEY 1996-97

HOUSTON	Salaries effective September 1, 1996.
HOWARD	<p>A three-step rank structure is used at the Law library, whereas no rank structure is used in either the "general" or the Medical libraries.</p> <p>In 1995-96, the medical library data was included with the main library data.</p>
ILLINOIS, CHICAGO	Salaries effective September 1, 1996.
	<p>Beginning salary is \$28,500 for first year Resident Librarians.</p> <p>Beginning salary is \$32,000 for tenure track positions.</p>
ILLINOIS, URBANA	Salaries effective August 21, 1996.
INDIANA	Excludes Indianapolis School of Law, Dentistry, and Medicine Library; IUPUI University Library, Herron School of Art Library, Columbus Library, and Science & Engineering Library; and other campus libraries at IU East, IU Kokomo, IU Northwest, IU Southeast, IU South Bend, and IUPUI at Fort Wayne.
JOHNS HOPKINS	<p>Excludes Applied Physics Laboratory and School of Advanced International Studies in Bologna, Italy.</p> <p>Figures from the Welch Medical Library do not include the Genome Data Base or the Welch Laboratory for Applied Bioinformatics.</p>
KANSAS	<p>Excludes University of Kansas School of Medicine Library in Wichita.</p> <p>Salaries reported for the main library include the Lawrence and Edwards campuses. Salaries reported for the medical library include the Dykes Library and Clendenning History of Medicine Library.</p>
KENTUCKY	Excludes Community College Libraries.
LAVAL	Since there is one general library, data for staff in law and medical libraries cannot be disaggregated. There is no independent administration, or separate facilities, for either a law or a medical library.
LIBRARY OF CONGRESS	Salaries include professional and administrative positions.
LINDA HALL LIBRARY	Excludes branch library in New York.
LOUISIANA STATE	In 1995-96, a veterinary medicine library was incorrectly included as a medical library. This year, staff from this library have been included with the main library.
McMASTER	<p>Salary ranges have not changed from those in effect for the 1992-93 salary year. Agreement on salary increase, usually effective July 1, has not yet been reached.</p> <p>Rank structures are not employed. Salary ranges are based on total classification points for each librarian.</p>
MICHIGAN	<p>Excludes Bentley Historical, Clements, Gerald Ford Presidential, Business, and Resident Hall Libraries.</p> <p>Beginning salary is \$34,000 with both MLS/JD at the law library.</p>
MISSOURI	Salaries at the law library are as of September 1, 1996. Beginning salary is unavailable for the law library.
NATIONAL AGRICULTURAL LIBRARY	All salaries are now tracked with benefits.

FOOTNOTES TO ARL ANNUAL SALARY SURVEY 1996-97

NEBRASKA	<p>Beginning salary is \$30,000 with both MLS/JD at the law library.</p> <p>The former Dean of Libraries (now Associate Vice Chancellor for Information Services) is still a member of the Library Faculty but is no longer on the Libraries' budgets. He has not been included in this year's survey.</p>
NEW MEXICO	<p>Excludes Bainbridge Bunting Slide Library, College of Education Tireman Education Resource Center, Harwood Foundation, Native American Studies Center Library, Gallup Branch Campus Library, Los Alamos Branch Campus Library, Santa Fe Graduate Center Library, Taos Education Center, and Valencia Branch Campus.</p> <p>The UNM Health Sciences Center Library, the UNM Law School Library, and the UNM General Library are autonomous libraries within the University of New Mexico, administered and funded separately from one another.</p> <p>A seven-step rank structure is used at the Medical library, whereas a four-step rank structure is used in both the "general" and Law libraries.</p>
NEW YORK UNIVERSITY	Salaries effective September 1, 1996.
NEW YORK PUBLIC LIBRARY	Excludes positions at New York Public Library Branch libraries.
NORTH CAROLINA	Salaries effective September 1, 1996.
OHIO UNIVERSITY	Excludes OU-Lancaster, OU-Chillicothe, OU-Eastern, OU-Southern, and OU-Zanesville.
OHIO STATE	Includes salaries of librarians at four regional campuses, the Agricultural Technical Institute, and the Ohio Agricultural Research and Development Center.
OKLAHOMA STATE	<p>Includes branch libraries in Oklahoma City and Okmulgee. Medical library data are for the College of Osteopathic Medicine Library in Tulsa.</p> <p>The Library faculty will receive a salary increase averaging five percent beginning on October 1, 1996. Increases for each position will be based upon merit and certain other factors.</p>
PITTSBURGH	<p>Excludes regional campuses at Bradford, Greensburg, Johnston, and Titusville.</p> <p>A four-step rank structure is used at the Medical library, whereas a five-step structure is used at the "general" and Law libraries.</p>
PRINCETON	Includes Forrestal Campus.
ROCHESTER	Excludes Eastman School Ensemble Library and Eastman School Recording Arts & Services.
RUTGERS	Excludes School of Management and Labor Relations Library; and Center for Alcohol Studies Library.
RUTGERS, CAMDEN (LAW)	The ranks for librarians are: Librarian III or Assistant Professor, generally an entry level position; Librarian II or Associate Professor, generally awarded after tenure is achieved; Librarian I or Professor. Two other levels, Professor I and Professor II, are possible but are generally reserved for distinguished professors, a level achievable by librarians but exceedingly rare.
RUTGERS, NEWARK (LAW)	Beginning professional salary is for rank 2. We normally do not hire at rank 1.
SOUTH CAROLINA	<p>Excludes branch campus libraries of the USC system.</p> <p>USC Library Faculty hold the rank of Librarian.</p>
SOUTHERN CALIFORNIA	<p>Excludes law library.</p> <p>Medical library data includes medical and dental libraries.</p>

FOOTNOTES TO ARL ANNUAL SALARY SURVEY 1996-97

SOUTHERN ILLINOIS	<p>Excludes staff in Ulysses S. Grant Association.</p> <p>A four-step rank structure is used at the Medical library, whereas a three-step structure is used at both the "general" and Law libraries.</p>
SUNY - ALBANY	<p>Individuals who are not part of the rank structure are not librarians but have second level administrative or supervisory responsibilities.</p>
SUNY - BUFFALO	<p>SUNY established the rank of Distinguished Librarian this year. SUNY - Buffalo does not have anyone in this new rank to date.</p>
TEMPLE	<p>A five-step rank structure is used at both the "general" and Medical libraries, whereas no rank structure is used at the Law library.</p>
TEXAS	<p>Includes General Libraries, Harry Ransom Humanities Research Center, and the Center for American History.</p> <p>Beginning January 1996, in accordance with Senate Bill 102 of the 74th Texas Legislature, "benefit replacement pay" is considered to be part of total compensation, and is therefore included in the salary figures. "Benefit replacement pay" covers a portion of the employee's contribution to OASI; previous to 1996, this amount was considered to be a fringe benefit. "Benefit replacement pay" does not represent an increase in actual compensation to the employee.</p>
TEXAS A&M	<p>Excludes Geosciences Library at Galveston.</p> <p>Beginning professional salary for librarians is \$27,000; for other professionals, \$24,000.</p>
TORONTO	<p>Salary scales have remained the same since 1992-93.</p> <p>In <i>ARL Annual Salary Survey 1995-96</i>, Tables 4, 25, and 29 reported average and median salaries incorrectly. Revised figures for 1995-96 follow. Table 4: Average salary, US\$45,818; Median salary, US\$48,447. Table 25: Average salary, CAN\$63,202; Median salary CAN\$66,828. Table 29: Average salary, US\$46,389; Median salary, US\$48,510.</p>
TULANE	<p>Excludes Tulane Regional Primate Center Library.</p>
UTAH	<p>A six-step rank structure is used at the Law library, whereas a four-step structure is used at the "general" and Medical libraries.</p>
WASHINGTON U.-ST. LOUIS	<p>Beginning salary is \$32,532 with both MLS/JD at the law library.</p> <p>While there is no ranking structure for professionals in the main library, the medical library does use a rank structure with two levels.</p>
WESTERN ONTARIO	<p>Excludes Affiliated College Libraries (King's College, Brescia College, Huron College).</p>

ARL STATISTICS AND MEASUREMENT

PUBLICATIONS

The Age Demographics of Academic Librarians: A Profession Apart. Stanley J. Wilder. December 1995. ISBN 0-918006-77-5. 88pp. \$30.

Based on data from the ARL Annual Salary Survey, this report describes age demographics of ARL librarians and makes startling retirement projections for this group. The report reviews the implications for the future of higher education, touching on matters such as race and ethnicity of librarians, differences among groups of librarians with special assignments, and the growing demands of the information age. It also examines the shape and movement of the ARL librarian age profile and correlates it to the 1960s period of baby boom growth in higher education.

Annual Publications

ARL Statistics. ISSN 0147-2135. Standing orders: \$65 (\$35 ARL members).

The standard resource for information on research library operations and trends. Compiled annually, presenting data on a wide range of topics including collections size and growth, materials and operating expenditures, staffing, and public service activities.

Includes graphs comparing historical data. Also available on the World Wide Web <URL:<http://arl.cni.org/stats/Statistics/stat.html>> and on disk \$15.

ARL Academic Law and Medical Library Statistics. ISSN 1088-1093. Standing orders: \$65 (\$35 ARL members).

Presents data on a wide range of topics for academic law and medical libraries including collections size and growth, materials and operating expenditures, staffing, and public service activities.

Developing Indicators for Academic Library Performance: Ratios from the ARL Statistics. ISSN 1084-9459. \$50 (\$25 ARL members).

This book presents 30 selected ratios that describe changes in internal library operations, as well as resources per faculty and per student, for the ARL university libraries over a two-year period. It enables managers to analyze and compare resources in peer institutions. A brief overview of the context of ratio analysis and the development of performance indicators in higher education and academic libraries is also included.

ARL Preservation Statistics. ISSN 1050-7442. Standing orders: \$65 (\$35 ARL members).

Annual compilation of data on current levels of preservation efforts and reports on the key organizational, functional, and fiscal components comprising ARL preservation programs. Includes descriptive indices of preservation activities in research libraries, preservation staffs and expenditures, and productivity.

To order contact ARL Publications: Email—pubs@cni.org, Phone—202-296-2296.

jblix@cni.org

December, 1996

Research Librarians' Salaries At a Stalemate

The newly released *ARL Annual Salary Survey 1996-97* reports that the median salary figure for university libraries is \$43,170; for nonuniversity libraries it is \$51,150. The median beginning professional salary at university libraries is \$27,687; for nonuniversity libraries it is \$28,380. Although the median university salary figure increased from \$41,901 in FY 1995-96 to \$43,170 in FY 1996-97, there is no real increase in the purchasing power of librarians when inflation is taken into account.

The average salary for female directors in university libraries is slightly higher this year than for male directors, .55% higher. At medical libraries, female directors earn 6.1% less than male directors. At law libraries they earn 4.1% less. In most job categories, women continue to earn lower salaries than men.

Minority librarians in the 96 U.S. university libraries number 853 and account for 11.28% of ARL's U.S. library professionals. Minorities in research libraries continue to be disproportionately distributed across the country and are underrepresented in the New England, West North Central, East South Central, West South Central, and Mountain regions. The salary differential separating minority average salaries from overall average salaries is \$2,173, or 4.9% lower for minority staff.

The *ARL Annual Salary Survey 1996-97* is a compilation of detailed tables of salaries of over 12,000 professional librarians based on data collected from ARL member libraries and analyzed by job category, years of experience, sex, minority status, size of library, and geographic region. Information on this and other ARL products and services can be found on the ARL World Wide Web site <[URL:http://arl.cni.org/](http://arl.cni.org/)>.

-more-

The Association of Research Libraries is a not-for-profit membership organization comprising 120 libraries of North American research institutions. Its mission is to shape and influence forces affecting the future of research libraries in the process of scholarly communication. ARL programs and services promote equitable access to, and effective use of recorded knowledge in support of teaching, research, scholarship and community service. The Association articulates the concerns of research libraries and their institutions, forges coalitions, influences information policy development, and supports innovation and improvement in research library operations. ARL operates as a forum for the exchange of ideas and as an agent for collective action. The Statistics and Measurement Program works to describe and measure the performance of research libraries and their contributions to these goals.
