ABSTRACT
                 In December 1995, Florida's Saint Petersburg Junior
College undertook a study of graduates from 1994-95 to obtain
information on their current activities, determine their satisfaction
with programs and services, and obtain data to supplement college
reports. Of the 2,612 completers from 1994-95, 1,410 completed
surveys. Study findings included the following: (1) over 68% (n=967)
of the respondents reported that they were employed, while 65% were
continuing their education; (2) 38.3% reported that they were both
employed and continuing their education, with 42.2% of these employed
full-time and 49.3% employed part-time; (3) employment in a field
related to their education was reported by nearly 85% of the 341
Associate of Science (AS) degree graduates and 76% of the 17
certificate graduates; (4) the average hourly wage for AS graduates
employed in a field related to their study was $12.69, compared to
$11.47 for Associate of Arts graduates; (5) overall, 42% of the
graduates indicated that their studies helped them obtain their
present positions, while 38.9% thought that they had no effect; and
(6) 96.7% of respondents rated the overall quality of instruction at
the college as good or excellent. The survey instrument and tables
showing outcomes by program are appended. (HAA)

RECENT ALUMNI SURVEY

1994-95

St. Petersburg Junior College
Institutional Research - DO

RECENT ALUMNI SURVEY

EXECUTIVE SUMMARY

As part of the St. Petersburg Junior College (SPJC) strategic planning process, the Institutional Assessment Group developed the "Recent Alumni Survey." Designed to be administered to all graduates within the first year of their program completion, the survey serves multiple purposes:

- To obtain information about the current activities of College alumni,
- To determine student satisfaction with the programs and services available at SPJC,
- To obtain data to supplement and meet the Performance Based Incentive Funding (PBIF) criteria, and
- To obtain data to complete the yearly Placement and Follow-Up Report.

This year's effort included surveying 2,612 completers who graduated in reporting year 1994-95. A mail survey was administered to the completers in December 1995 with a reminder sent in January 1996. Furthermore, during the months of March and April 1996, telephone follow-up surveys were conducted to acquire information from all graduates who did not respond by mail.

A total of 1,410 graduate responses were received. Of this total, 796 were received by mail and 614 responded by telephone. Responses were received from 993 A.A. graduates, 393 A.S. graduates, and 24 Certificate (CT.) graduates. The overall response rate was 54.0% (57.8% A.A. degree graduates; 46.0% A.S. graduates; and 61.5% CT. graduates). The report reflects the findings of the survey efforts only. Additional information about graduate placements will be sent to the college from Florida Education Training Placement Information Program (FETPIP). This program is responsible for locating and verifying placement data of the former student and providing feedback to the community colleges for completion of reporting requirements and meeting the 70% mandate of the Florida Legislature.

Some highlights of the findings are:

- Over 68% (967) of the 1,410 graduates reported that they were employed. This varied by degree. More than eighty-five percent (85.9%) of the 417 A.S. and CT. graduates were employed compared to 61.3% (609) A.A. graduates.

- Sixty-five percent (65%) of the respondents reported they were continuing their education. As expected, the percentage of A.A. graduates continuing their education was greater than other program completers. Eighty-one percent (81.3%) of the A.A. graduates are furthering their education either in a four-year or a two-year college (studying in another program area). This compares with 26.4% of the A.S. and CT. completers who are continuing their education.

- Of the 1,410 respondents, 540 (38.3%) reported they were both employed and continuing their education. Of these, 228 (42.2%) were employed full-time and continuing their education; 266 (49.3%) were employed part-time and continuing their education; and 46 (8.5%) were continuing their education and were employed but did not indicate the number of hours per week.

- Employment in-field was reported by nearly 85% of the 341 A.S. graduates and 76% of the 17 CT. graduates.

- Regarding salary, the survey results showed the hourly salary for the A.S. completers employed in a field related to their studies was slightly higher than the A.A. completers who were employed in a field related to their studies. The average hourly salary for 180 A. S. graduates employed full-time in a study-related field (and who disclosed their wage) was $12.69; for the 79 A.A. respondents the amount was $11.47. The amounts earned varied by program with those employed in the health professions generally earning more than others.

- In attaining employment, 42% of the graduates indicated that their SPJC studies helped them obtain their present positions, 38.9% indicated that their studies had no effect regarding their employment, and 10.5% indicated that their studies either helped them retain their position or helped them obtain a promotion. Another 8.6% indicated that their employment assisted them in other areas.

- Of those A.A. degree graduates continuing their education, over 9 in 10 (90.5%) transferred to upper-level institutions and 93.8% of them remain in Florida.

- When asked about their satisfaction with programs and services, the vast majority (90.7%) rated their overall preparation for work/school after SPJC, and 96.7% rated the quality of instruction as good, very good or excellent.

The responses confirmed that SPJC academic programs (A.A., A.S. and CT.) are achieving their intended objectives. The A.A. programs appear to be preparing students for transfer to a four-year institution while the A.S. and CT. programs are preparing students for work. This is consistent with the findings of the 1992-93 Graduate Survey conducted by the Institutional Research Office in the Summer of 1994.

INTRODUCTION

As part of the St. Petersburg Junior College (SPJC) strategic planning process, the Institutional Assessment Group developed the Recent Alumni Survey. Designed to be administered to all graduates within the first year of their program completion, the survey serves multiple purposes:

- To obtain information about college alumni current activities.
- To determine student satisfaction with the programs and services available at SPJC.
- To obtain data to supplement and meet the Performance Based Incentive Funding (PBIF) criteria.
- To obtain data to complete the yearly Placement and Follow-Up Report.

The 1994-95 Recent Alumni Survey is the second attempt to survey graduates. A more comprehensive survey was administered in the Summer of 1994. The first survey, the 1992-93 Graduate Survey, was undertaken to obtain data regarding graduate satisfaction with programs and services; to assess the graduates' achievements and to identify factors that affected those achievements; to determine if SPJC graduates were able to attend their first choice college and study their first choice major, and the reasons if not true.

The Institutional Research Office administered this survey to the 1994-95 reporting year graduates. There were 2, 612 completers. Of this number 1,719 received the A.A. degree, 854 received the A.S. degree, and 39 received postsecondary Certificates (CT.). This population of graduates was mailed a Recent Alumni Survey in December 1995 (**Appendix A**). Non-respondents were mailed a follow-up survey in January 1996. Finally, telephone follow-up surveys were conducted to acquire the information from those graduates who did not respond by mail during the months of March and April 1996.

There were 1,410 survey responses, 796 by mail and 614 by telephone. Responses were received from 993 A.A. graduates, 393 A. S. graduates, and 24 CT. graduates. The survey response rate was 54.0% (57.8% A.A. degree graduates; 46.0% A.S. graduates; and 61.5% CT. degree graduates). **Table 1** shows the number of responses by degree earned and source of response. For a listing of response rates by program see **Appendix B**.

Table 1. Responses by Telephone, Mail, and Degree

Category	A.A.	A.S.	CT.	Total
No. of Graduates	1719	854	39	2612

Telephone responses	468	136	10	614
Total Responses	993	393	24	1410
Response Rate	**57.8%**	**46.0%**	**61.5%**	**54.0%**

FINDINGS

CURRENT ACTIVITIES

In order to learn about current activities of alumni, the survey addressed several areas that would follow SPJC graduation such as military, employment and education.

Military

Five (5) respondents enlisted in full-time military service. Of these, three (3) hold an A.A. degree and two (2) hold an A. S. degree.

4

Employment

In the employment section, all graduates were asked about their employment status. Specifically, they were asked if their employment was related to their education, if their education prepared them for their current employment, if their studies helped with their present employment, the hours they worked, their job title and duties, and their wages.

The majority of the respondents reported they were employed. In total 68.5% (967 of 1,410 respondents) reported some type of employment. Employment was shown in all degree areas. This was true for 61.3% of the A.A. degree graduates (609 of 993 respondents), 86.8% of the A.S. degree graduates (341 of 393 respondents), and 70.8% of the postsecondary certificate recipients (17 of 24 respondents). Only 31.1% of all graduates reported they were unemployed. **Table 2** summarizes employment and education activities by degree.

Of the 1,410 respondents, 540 (38.3%) reported they were both employed and continuing their education. Of these, 228 (42.2%) were employed full-time and continuing their education; 266 (49.3%) were employed part-time and continuing their education; and 46 (8.5%) were continuing their education and were employed but did not indicate the number of hours per week.

When asked if their employment was related to their SPJC studies, 528 (59.8%) of the 882 graduates who responded to this item indicated that it was related. Two hundred ninety (290, 88.2%) of the 329 A.S. graduates who responded to the item indicated that this was true and 13 (86.7%) of the 15 CT. students responded likewise. This compares to 225 (41.8%) of the 538 A.A. graduates who responded they were employed in a field related to their training. Since the A.S. and CT. programs are designed to prepare students for employment after graduation, it would be expected that the employed in field response would be strongly weighted toward the vocational programs rather than the A.A. program. **Table 3** summarizes the data by type of program completed.

Table 3. Employment Related to Program Completed

Relationship	A.A. Count	A.A. %	A.S. Count	A.S. %	CT. Count	CT. %	Total Count	Total %
Related								
Full-time	149	27.7	251	76.3	7	46.7	407	46.1
Part-time	76	14.1	39	11.9	6	40.0	121	13.7
Non-related								
Full-time	135	25.1	32	9.7	2	13.3	169	19.2
Part-time	178	33.1	7	2.1	-	-	185	21.0
Total	538	100.0	329	100.0	15	100.0	882	100.0

The hourly salary for the A.S. graduates employed in a field related to their studies was slightly higher than the A.A. graduates who were employed in a field related to their studies. The average hourly salary for the 180 A. S. graduates employed full-time in a study-related field, and who disclosed their wage, was $12.62; for the 79 A.A. graduates the amount was $11.47. The actual hourly salary for the A.S. graduates employed full-time in a study-related field ranged $4.25 to $29.35 per hour compared to $4.50 to $25.39 per hour for A.A. graduates. The amounts earned varied by program with those employed in the health professions generally earning more than others. The highest paid jobs were for students completing programs in Dental Hygiene ($18.75 to $23.00); Nursing ($8.50 to $29.35); and Veterinary Technology ($7.50 to 22.05). Interestingly, Interpreter Training ($20.00/hour) considered a service profession was among those highest paid. **Appendix C** shows the hourly wage for each A.S. and CT. program and **Appendix F** lists job titles of the A.S. graduates employed in field.

Lastly, graduates were asked whether their SPJC studies assisted them in their present employment. **Table 4** shows that over 86% (835) of the nine hundred sixty-seven (967) graduates who were employed responded to this item. Over 61% of the respondents indicated that their SPJC studies helped with their employment in some manner. More graduates indicated their studies helped them obtain their present position (42%) than indicated that their studies either helped them retain their position (3.5%) or helped them obtain a promotion (7.0%). An additional 8.6% indicated their studies helped them achieve other employment goals.

Table 4. SPJC Studies Help With Present Employment

Category	A.A. Count	A.S. Count	CT. Count	Total Count
Helped obtain the position	125	217	9	351
	15.0%	26.0%	1.1%	42.0%
Helped retained position	16	13	-	29
	1.9%	1.6%	-	3.5%
Helped obtain promotion	23	33	2	58
	2.8%	4.0%	0..2%	7.0%
Had no effect	270	52	3	325
	32.3%	6.2%	0.4%	38.9%
Other	56	15	1	72
	6.7%	1.8%	0.1%	8.6%
Total Respondents	490	330	15	835
	58.7%	39.5%	1.8%	100.0%

Education

Table 2 shows that of the 1,410 respondents, 917 (65.0%) reported they were continuing their education. Of those continuing their education, 636 (69.4%) were attending full-time, 268 (29.2%) were attending part-time and 13 (1.4% were attending but did not report on credits). **Table 5** shows the data by degree completed. Eight hundred seven (807, 88.1%) were A. A. graduates, 96 (10.5%) were A.S. graduates, and 14 (1.5%) were certificate recipients. Therefore, the conclusion can be made that the A. A. program is successfully meeting its intended objective of preparing students for transfer to upper level work.

Table 5: Percent Enrolled at Universities/Colleges

Enrollment of Graduates	A.A. Count	A.A. %	A.S. Count	A.S. %	CT. Count	CT. %	Total Count	Total %
Full-time	604	65.9	23	2.5	9	1.0	636	69.4
Part-time	196	21.4	67	7.3	5	0.5	268	29.2
Unknown	7	0.8	6	0.6	-	-	13	1.4
Total	807	88.1	96	10.4	14	1.5	917	100.0

The majority of students (93.8%) who are continuing their education remain in Florida. **Table 6** shows that of the 917 respondents who are attending college, 687 (74.9%) are enrolled in one of the nine Florida state universities. Additionally, the majority of SPJC graduates continue to enroll at the University of South Florida. Furthermore, these findings are similar to those reported in the 1992-93 Recent Graduate Survey conducted by the Institutional and Research Office. The data supports the fact that the nine universities remain popular among SPJC graduates. Refer to **Appendix D** for a complete listing of institutions attended.

Table 6. Summary Of Institutions Attended By Respondents

Type of Institution	A.A. Count	A.A. %	A.S. Count	A.S. %	CT. Count	CT. %	Total Count	Total %

Unrecognizable	9	1.0	-	-	-	-	9	1.0
Unknown	10	1.1	2	0.2	-	-	12	1.3
Total	807	88.1	96	10.4	14	1.5	917	100.0

Professional Organizations

Students were asked if they had joined a professional organization since they had graduated. **Appendix E** lists the organizations' graduates have joined by degree earned.

SATISFACTION WITH PROGRAMS AND SERVICES

The survey asked about the student's perceived satisfaction with the college's programs and services. Specifically, students were asked about (1) the quality of instruction, (2) course materials, (3) course scheduling, (4) equipment, (5) student support services, and (6) overall preparation for work/school after SPJC. The responses are summarized by degree completed in **Table 7**. Over ninety percent of graduates rated quality of instruction (97.0%), course materials (94.6%) and overall preparation for work /school after SPJC (90.7%) as either excellent, very good, or good. The remaining items also were rated as excellent, very good, or good by the majority of the graduates: course scheduling, 89.3%; equipment, 85.0%; student support services, 84.2%. By degree earned, Table 7 shows that over 92% of the graduates rated quality of instruction (A.A., 98.3%; A.S., 93.7%; CT., 100%) and course materials (A.A., 95.4%; A.S., 92.8%; CT., 94.5%) as excellent, very good, or good. The overall preparation for work/school after SPJC was ranked excellent, very good, or good by 91.7% of the A.A. degree completers, 88.1% of the A.S. degree completers and 100% of the CT. completers. These percentages imply that the majority of graduates were satisfied with their SPJC experience.

Comments

The graduates were also asked to make comments relevant to their course work and to help evaluate SPJC academic programs by answering the following questions: (1) "Which, if any, courses in your program should be eliminated or changed and in what way?" and (2) "Which new course/skills, if any, should be added?" All student responses to these questions were sent directly to the appropriate program director for their review.

Recommend SPJC to Others

Graduates were asked if they would recommend SPJC to others. Over 90% (1,276) of the 1,410 respondents responded that they would recommend SPJC. **Table 8** shows the responses by type of degree earned. More completers of the A.A. degree (91.5%) would recommend SPJC than completers of other programs (A.S. degree 88.5%, CT. recipients 79.2%), however, the majority of all graduates would make such a recommendation.

Table 8. Recommendation of SPJC to Others

Category	A.A.	A.S.	CT.	Total
Yes	909	348	19	1276
	91.5%	88.5%	79.2%	90.5%
No	9	10	-	19
	0.9%	2.5%	-	1.3%
No Response	75	35	5	110
	7.6%	8.9%	20.8%	7.8%
Total	993	393	24	1410

Performance Based Incentive Funding

A final purpose of the survey was to gather data to supplement Performance Based Incentive Funding (PBIF) files. The survey asked students if they received assistance to attend SPJC from the following programs: JTPA/EDWAA; JTPA/123; Project Independence; Vocational Rehabilitation; or English as a Second Language. Fifty-five (55, 3.9%) of the 1,410 respondents indicated that they received assistance from the aforementioned programs to attend SPJC. **Table 9** summarizes the data by type of program completed. Note, employment data collected as part of the survey and previously described were also used in supplementing the PBIF files. This information included date of employment, job titles, and job relatedness to studies. **Appendix F** lists job titles held by the A.S. and CT. completers by program. These data were used as well to supplement state information about SPJC graduates. Supplemental files for 1994-95 funds from the PBIF program were submitted to the Division of Community Colleges on April 5, 1996.

Table 9. Assistance To Attend SPJC

| Programs	A.A.	A.S.	CT.	Total	%
JTPA/EDWAA	3	13	1	17	30.9
JTPA/123	1	-	-	1	1.8
Project Independent	4	6	-	10	18.2
Voc. Rehabilitation	6	15	1	22	40.0
English as a Second Language	4	1		5	9.1
Total	18	35	2	55	100.0

Placement and Follow-Up Report

Much of the data used to supplement the College's PBIF information will be used to complete the annual Placement and Follow-Up report. This report will be completed during October, 1996 following the receipt of statewide data from the Office of Bureau of Research and Information Systems.

CONCLUSION

Responses from graduates confirmed that SPJC academic programs are achieving their intended objectives. The A.A. programs appear to be preparing students for transfer to a four year institution, while the A.S. and CT. programs are preparing students for work. Furthermore, program completers are exceptionally satisfied with the quality of instruction at SPJC and with their overall preparation for work or school following graduation. These conclusions are consistent with those reported in the 1992-93 Graduate Survey study conducted by the Institutional Research Office in 1994.

The findings support the judgment that St. Petersburg Junior College is successfully accomplishing all its intended objectives as stated in the mission and continues to provide quality education to its students. Support is provided in that over 90% of the College's graduates have indicated they would recommend SPJC to other students.

11

ST. PETERSBURG JUNIOR COLLEGE
DEPARTMENT OF INSTITUTIONAL AND PROGRAM PLANNING
RECENT ALUMNI SURVEY

Please take a few minutes to help us bring our records up to date. Your responses will help us improve instruction and advise other students in your degree program about employment opportunities.

Please complete the survey below, sign and return in the enclosed postage-paid envelope.

A. Are you currently in the military?   Yes ☐   No ☐

B. Are you currently employed?   Yes ☐   No ☐

C. If employed, how did your studies at SPJC help you with your present employment?

_____ Helped obtain the position   _____ Helped retain a position already held
_____ Helped obtain promotion with current employer   _____ Had no effect
_____ Other (Explain)_____

D. If you are employed other than military, please provide the following information:

a. Date of employment in current position _____

b. Wage per hour $_____   c. Full-time ☐   Part-time ☐

d. Employer:_____

Supervisor:_____

Address:_____
         Street   City   State   Zip

e. Is the work that you are doing related to your studies?   Yes ☐   No ☐

f. Job Title:_____

g. Job Duties:_____

h. May we contact your employer to evaluate our academic program?   Yes ☐   No ☐

E. Are you continuing your education?

a. Yes, I am currently enrolled in a degree program (specify major). _____

Name of Institution:_____

b. Yes, I am taking courses but have not enrolled in a degree program.

Name of Institution:_____

c. Yes, I am currently re-enrolled at SPJC (specify major/courses). _____

d. If you are continuing your education, are you enrolled?   Full-time ☐   Part-time ☐

e. No, I am not currently attending a college or university.   ☐

F. Training and Education: How would you rate your SPJC experience in the following categories?

	5 Excellent	4 Very Good	3 Good	2 Fair	1 Poor	NA Unaware or haven't used
Quality of Instruction	☐	☐	☐	☐	☐	☐
Course Materials	☐	☐	☐	☐	☐	☐
Course Scheduling	☐	☐	☐	☐	☐	☐
Equipment	☐	☐	☐	☐	☐	☐
Student Support Services	☐	☐	☐	☐	☐	☐
Overall preparation for work/school after SPJC	☐	☐	☐	☐	☐	☐

H. Please help us to evaluate your specific SPJC academic program by answering the following questions.

Which, if any, courses in your program should be eliminated or changed and in what way?

Which new courses/skill, if any, should be added?

I. Would you recommend SPJC to others?   Yes_____   No_____

J. Did you receive any assistance to attend SPJC from any of these programs? If yes, please check all that apply.

☐ JTPA/EDWAA   ☐ JTPA/123 (Economically Disadvantaged)   ☐ Project Independence

☐ Vocational Rehabilitation   ☐ English as a Second Language

Comments:

I certify to the best of my knowledge that the above information is true.
