ABSTRACT

In the mission statement that introduces this annual report, the Arizona Superintendent of Public Instruction defines the goals of revamping the state's "Essential Skills" program to reflect high academic standards and achievement, develop a fiscally responsible equitable school finance system, and reorganize the state department of education to improve efficiency and accountability. The first section of the report provides an overview of school enrollment and funding through general statistical information on: (1) state funding and revenues; (2) expenditure history; (3) average daily membership history; (4) state summary of the number and type of public schools; (5) private school enrollment and statistics; (6) state, federal, and private funds administered by the State Board of Education; (7) the annual financial report of county school superintendents; and (8) food service program information. Section 2 contains the school district, county, and state summary of financial data, with reviews of data on enrollment, tax allocation and rates, teacher salaries and other staffing expenditures, and other program expenditures. Section 1 contains 3 graphs and 12 tables. Section 2 contains 6 charts for each of the state's 233 regular school districts, the counties, and the state as a whole. (SLD)

ARIZONA DEPARTMENT OF EDUCATION
January 12, 1996

Since I became Superintendent of Public of Instruction I have committed myself to providing all of Arizona's students with access to an extraordinary education. No matter where our children reside, they must have an equal opportunity to receive the highest quality education possible. In order to accomplish this vision I have focused my attention on the following three areas:

- revamping Arizona's Essential Skills in order to reflect high academic standards and achievement;
- developing an equitable school finance system that is also fiscally responsible; and
- reorganizing the state Department of Education in order to improve our service to schools, as well as to increase efficiency and accountability.

The *Arizona Student Achievement Program* (ASAP) is causing much anxiety and concern across the state, and not without good reason. While a strong majority of Arizonans agree with the intent of ASAP (measuring academic achievement based on demonstrated performance), many are frustrated because of its vagueness and lack of high academic content. I have, therefore, undertaken several activities to correct this. An academic summit was held in the fall, comprised of parents, educators, business people, and other concerned citizens, to examine critically our *Essential Skills* to determine if they reflect the standards that our state demands. To this end, the summit participants are rewriting these standards to ensure that they are academic in nature.

I believe it is important to note that the development of educational standards is not a one-time activity. We must continually examine and refine our standards to ensure that not only are they clear and understandable, but that they reflect the kinds of educational skills that our children must have in order to compete in an ever changing marketplace.

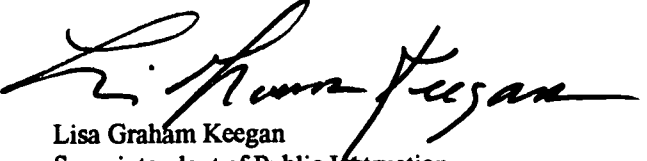

The debate over school finance reform is one of the most complex and critical issues Arizona has faced since statehood. The direction we take will have educational and economic ramifications for many years to come. Though many disagree with the genesis of this debate (the Arizona Supreme Court's Roosevelt

v. Bishop decision), I believe the opportunity to restructure our education system in order to reflect meaningful reform is tremendous.

When I testified before the Joint Legislative Committee on School Finance Reform I challenged each person there to ask our parents if they feel overwhelmed in trying to understand our system of finance -- they do; ask teachers if they feel empowered to utilize the resources they have available to them to better serve their students -- they don't; and ask citizens if they know how to get information in a timely manner on how funds are used to educate children -- they can't. I believe we must examine the very structure of our school finance system and ask why we continue to increase the debt at an alarming rate (approximately \$6 billion) and spend annually over \$200 million in interest on the debt alone. While it is understandable that a growing state such as ours might incur high debt to finance new construction, it is not fiscally sensible to perpetuate the current method of financing capital costs. Arizona citizens today provide the resources we need to retire existing debt, provide a safe school environment for every child, and ultimately dedicate a greater proportion of our available funds to classroom instruction. We must summon the energy and courage to do so.

As I advocate for the critical examination of the way we operate and fund schools, I believe we must also examine the way the state Department of Education functions. I believe firmly that the Education Department must be, first and foremost, a service agency. I have been greatly impressed with the professionalism and dedication of the employees of this department. Their hard work and commitment to the educators, students, and families of this state moves us closer to our dream of access to an extraordinary education for all students.

Sincerely,

Lisa Graham Keegan
Superintendent of Public Instruction

STATE FUNDING FOR EDUCATION

The general fund appropriation for the State of Arizona in 1994-95 was \$4,193,089,400. The total for all education including the Board of Regents and Community colleges was \$2,344,372,300 or 55.9 percent of the total appropriation. The Department of Education was appropriated \$1,643,278,900 or 39.2 percent of the total. The graph below shows the percentage appropriated for other governmental functions. The majority of the general fund appropriation to the Department of Education is paid in basic and additional state aid to local school districts.

SUMMARY OF APPROPRIATED FUNDS BY AGENCY FY 95 - GENERAL FUND ONLY

Total revenues available to school districts in 1985-86 through 1994-95 and the percentage by source are indicated on Table 1. For fiscal years 1986 through 1990, the Total Revenues included Maintenance and Operation, Capital Outlay, Adjacent Ways and Debt Service Funds only. For fiscal year 1991 through 1995, the Total Revenues includes School Plant, State and Federal Projects in addition to the four funds included in previous years.

EXPENDITURE HISTORY

The total expenditures for maintenance and operation (M & O) for 1994-95 were \$2,683,636,261. This represents an increase of 7.3% over 1993-94 M & O expenditures. This increase is primarily due to increases in total student growth (see Table 3) and an increase of 2% in the per-student funding approved by the legislature.

ADM HISTORY AND DISTRIBUTION

The average daily membership (ADM) in elementary and secondary districts increased by about 172,000 students over the ten-year period of 1985-86 to 1994-95. As shown in Table 3, student growth was less than 3.0% for fiscal years 1988-89 through 1990-91. However, student growth has increased at a fairly constant rate for the last four years. Each year's figures are the basis for equalization assistance payments in the following fiscal year.

SECTION II

ARIZONA SCHOOL DISTRICT, COUNTY, AND STATE SUMMARY OF FINANCIAL DATA

The following definitions and explanatory comments are intended to assist in interpreting the data shown for each school district.

FINANCIAL INFORMATION

1. **FINANCIAL DATA SUMMARY:** Fund Balances, Revenues, Transfers, Budgets, and Expenditures. Fiscal year 1994-95 includes the Classroom Improvement Fund (CIF). Laws 1994, Ninth Special Session, Chapter 2, Section 31 mandated that 1% of the 2% growth rate for the base support level and capital outlay revenue limit be used for classroom improvement.
 - a. **Maintenance and Operation (M & O):** Fund 000 Administration, Instruction, Instruction Support, and Operations for Regular Programs, Special Programs, Pupil Transportation, Desegregation, Overrides, Dropout Prevention, and the Classroom Improvement Fund.

Note: Because of variances in reporting the Classroom Improvement Fund (Fund 790), M & O Revenues in the "Finances By Fund" table may not match the M & O amount reported in the "Revenues Received By Source" table.
 - b. **Capital Outlay:** Fund 410 Capital Expenditures (including capital outlay reserve expenditures), Desegregation, Overrides, and the Classroom Improvement Fund.
 - c. **Adjacent Ways:** Fund 430 which relates to the improvement of public streets, alleys, etc., which are adjacent to school property.
 - d. **Debt Service:** Fund 500 payments of interest and principal on general obligation debt.
 - e. **School Plant:** Funds 006 and 007 which are the proceeds from sale and lease of district property. These expenditures could be for maintenance and operation or capital outlay in the current year.
 - f. **Federal Projects:** All federally funded categorical grant programs.
 - g. **State Projects:** All state funded categorical grant programs.
 - h. **Food Services:** Fund 710 which is the total revenues and expenditures for food services. The receipts generated from the sale of meals have not been subtracted to produce a net food service cost.
 - i. **Auxiliary Operations:** Fund 740 for bookstore operation and athletic activities.
 - j. **Unemployment Insurance:** Fund 960 is used by some districts for contributions and payments of unemployment insurance. The interest earned on this fund makes it self-supporting in most cases. Deposits to this fund are made from other funds.
 - k. **Other:** School Plant Special Construction, Gifts and Donations (Capital), Condemnation, Housing Facilities, Other Projects (Capital), Civic Center, Community School, Gifts and Donations, Vocational and Technical Education Projects, Fingerprint, Insurance Proceeds, Textbooks, Litigation Recovery, Teacherage, Insurance Refund, and Self-Insurance.

NOT INCLUDED ABOVE: The following three items have been excluded from the total because they are considered a duplicate expenditure.

- l. Bond Building: Fund 440 for purchase of sites, construction, furniture and apparatus, and improving school grounds.
 - m. Intergovernmental Agreements: Fund 930 used by the fiscal agent to account for intergovernmental agreements. This money is expended on behalf of all participating districts or agencies.
 - n. Indirect Costs: Fund 950 for the administrative costs related to federal programs.
2. REVENUES RECEIVED BY SOURCE: A breakdown of revenues by source for Maintenance and Operation, Capital Outlay, Adjacent Ways, Debt Service and Other Funds. The Other Funds include School Plant Funds under Local, State Projects under State and Federal Projects under Federal. Revenues included in the "Other" category (Section 1.k.) are generally local, they were not included in the analysis by source.
- Variances in county revenues between FY1992-93 through 1994-95 are due to cash balance reversions reported by the counties as revenue. The law required cash reversions be added to County Equalization Assistance when calculating State Equalization Assistance for FY1992-93 and 1993-94; there were no cash reversions in FY1994-95.
- 3. SPECIAL EDUCATION PROGRAMS EXPENDITURES BY TYPE: A detail of total expenditures for special education by handicapped category and other special programs within Subsections 002 and 011. These are included in the Maintenance and Operation Fund total.
 - 4. GIFTED PROGRAMS: Duplicated enrollment is reported by grade level. Expenditures for all gifted programs are reported by K-8 and 9-12 grade levels.

MISCELLANEOUS DATA

- 1. Bonds Outstanding as of June 30, 1995.
- 2. Investment in General Fixed Assets as of June 30, 1995: Reported values of Land and Improvements, Building and Improvements, Furniture, Equipment and Vehicles and Construction in Progress.
- 3. Tax Rates: Total tax rate levied against taxable property in the district on primary and secondary assessed valuation. In Sierra Vista Unified, the tax rate is the combined elementary and high school rate. In joint school districts, the tax rate in the county of jurisdiction was used.
- 4. Assessed Valuation: The assessed valuation for primary, secondary and Salt River Project (SRP) property is included. The high school assessed valuation is used for Sierra Vista Unified. The assessed valuation for joint school districts include the valuation in all applicable counties.

STATISTICAL INFORMATION

- 1. Average Daily Membership
 - a. State Aid ADM (resident): The average daily membership for the first 100 days in session of all the public school students residing in the district, students from unorganized territories that attend school in the district and students placed in the district by a state agency or court of competent jurisdiction. This figure is the original basis for equalization assistance in the following year.
 - b. Attending ADM (resident): The average daily membership for the first 100 days in session for resident students that attend school in the district.
 - c. Attending ADM (non-resident): The average daily membership for the first 100 days in session for nonresident students that attend school in the district.

- d. Total Attending ADM: The resident and non-resident attending ADM combined.
- 2. Enrollment: Number of students enrolled on October 1, 1994. In past years, year end enrollment was used.
- 3. Staffing Summary:
 - a. Number of FTE's: Number of "Full-Time Equivalent" employees as reported on the School District Employee Report.
 - b. Students per Staff: Attending Average Daily Membership students divided by the number of "Full-Time Equivalent" employees as reported on the School District Employee Report.
- 4. Teachers' Salaries: Total amount of salaries paid to teachers as reported by the district.

Title: <i>Statistical and Financial Data for Fiscal Year 1994-1995 Annual Report of the Superintendent of Public Instruction</i>	
Author(s): <i>Arizona Department of Education</i>	
Corporate Source: <i>Arizona Department of Education</i>	Publication Date: <i>January 1996</i>

II. REPRODUCTION RELEASE:

In order to disseminate as widely as possible timely and significant materials of interest to the educational community, documents announced in the monthly abstract journal of the ERIC system, *Resources in Education* (RIE), are usually made available to users in microfiche, reproduced paper copy, and electronic/optical media, and sold through the ERIC Document Reproduction Service (EDRS) or other ERIC vendors. Credit is given to the source of each document, and, if reproduction release is granted, one of the following notices is affixed to the document.

If permission is granted to reproduce the identified document, please CHECK ONE of the following options and sign the release below.
