ABSTRACT
        Intended as a resource to help decrease student withdrawal
and increase student success at California's Santa Monica College, this
report presents results from a study of student withdrawal and success rates
for 8 sessions, from winter 1994 through fall 1994. Following an overview of
the project and general observations based on findings, tables of results are
presented for the following 16 student characteristics: gender, ethnicity,
age, day/night attendance status, residency status, resident students' first
language, level of prior education, returning/first-time enrollment status,
deferred or full matriculation status, foreign or local high school
attendance, number of hours employed, educational goals, date that students
add a class, major, cumulative grade point average, and student load.
Highlighted findings include the following: (1) Asian and White males had
higher withdrawal rates than Asian and White females, respectively, while no
gender differences were found for other ethnic groups; (2) with respect to
age, students between 20 and 24 had the lowest success rates, while those
between 60 and 64 had the highest; (3) regarding student residence, those
with F-1 visas had the lowest withdrawal rate, followed by non-resident
students; (4) with respect to students' prior educational level, non-high
school graduates had the highest withdrawal rate, followed by adult diploma
students; and (5) students who did not work and those who worked only 1 to 9
hours per week withdrew at lower than average rates and succeeded at higher
than average rates. (TGI)

SANTA MONICA COLLEGE

CLASS SUCCESS -
CLASS WITHDRAWAL

Research Report 96.6.1.0   June 27, 1996

Peter Geltner
Dean of Institutional Research
pgeltner@smc.edu

Overview of the Research Project

The purpose of this project is to study the success of students in classes and the withdrawal of students from classes at Santa Monica College. The report is intended as a tool to give the college information to help decrease student withdrawal and to help increase student success. The categories investigated were suggested by the college ad hoc Research and Futures Committee.

Success means that an official student who was enrolled in a class on the census date completed the class with an A, B, C, or Credit grade.

Withdrawal means that an official student who was enrolled in a class on the census date received a W in the class.

Students not included in the above categories received grades of D, F, No Credit, Incomplete, or In Progress.

The project studies the cumulative pattern of students over two years, for the eight sessions from Winter 1994 through Fall 1995. In each category, students are counted each time they take a class. For example, a student officially taking 20 classes during the two years might succeed in 15 classes and withdraw from 3 classes. Using the notation in this report, we would say that $n = 20$, $S = 15$, and $W = 3$. These values are then added for all students in the category under consideration, such as gender or ethnicity.

The data in the report consist of the *population* of all students taking classes over the two year time period. However, the data will be treated as *sample* data in order to use them to predict success and withdrawal rates for students in the near future, and to find methods to increase the success rates and decrease the withdrawal rates. This assumes that there will not be circumstances in the near future which will drastically affect the values.

The confidence level in the study is 95%. This means that if we were to select different samples of a given size from the population under consideration, then in the long run, 95% of the confidence intervals would actually contain the value of the true population percentage. For example, we might say that the success rate of students at Santa Monica College is 67.6%, with a 95% confidence interval from 67.4% to 67.8%.

In the report, the notation "Sig" is used to indicate a significant difference between the adjacent value and the corresponding "Total" value. (The word *significant* is **not** a synonym for the word *important*. A difference in two values may be mathematically significant, even though the difference is small.)

Observations

The observations listed below are arranged according to the characteristic being examined. Conclusions reached by examining only one characteristic at a time may be in error. For example, there appears to be a strong influence of student load on the data, distorting the percentages in the other categories.[1]

Gender

1.   Asian males have a higher withdrawal rate than Asian females and White males have a higher withdrawal rate than white females.
2.   There is no significant difference between withdrawal rates for males and females in the following ethnic categories: Black, Hispanic, American Indian, Other Non-White.
3.   Asian females have the lowest withdrawal rate, followed by Asian males, followed by White females.
4.   Black males and females have the highest withdrawal rate.
5.   Females have a higher success rate than males for all ethnic categories except American Indian. In the sample data, American Indian females also have a higher success rate than males, but the difference is not significant.
6.   Asian females have the highest success rate, followed by white females.
7.   Black males have the lowest success rate, followed by black females.

Ethnicity

8.   Hawaiian students have the highest withdrawal rate, followed by Black students.
9.   Chinese students have the lowest withdrawal rate, followed by Japanese students, followed by Other Asian students. (However, Korean students withdraw at a higher than average rate.)
10.   Chinese students have the highest success rate, followed by Other Asian and Japanese students, followed by White students, followed by Asian Indian students.
11.   Hawaiian students have the lowest success rate, followed by Guamanian students, followed by Black students, followed by Central American students.
12.   Among broader ethnic categories, Black students have the highest withdrawal rate, followed by American Indian students.
13.   Among broader ethnic categories, Asian students have the lowest withdrawal rate, followed by White students.
14.   Among broader ethnic categories, Asian students have the highest success rate, followed by White students.
15.   Among broader ethnic categories, Black students have the lowest success rate, followed by Hispanic students.

Age

16.   Students in the 15-19 age group have the lowest withdrawal rate, followed by students in the 20-24 age group.
17.   Students in the 70-74 age group have the highest withdrawal rate, followed by students in the 50-54 age group.
18.   Students in the 20-24 age group have the lowest success rate, followed by students in the 15-19 age group.
19.   Students in the 60-64 age group have the highest success rate, followed by students in the 45-49 age group.
20.   It appears that younger students withdraw at a lower rate, but also succeed at a lower rate, than other students. (However, 15-19 year old Asian students and Other Non-White students succeed at a high rate.)
21.   Age is *not* a factor in the withdrawal rate of Black students.

Day / Night

22.   Hispanic, White, and Other Non-White night students withdraw at a higher rate than day students.
23.   Hispanic and White night students succeed at a lower rate than day students, but Black and Asian night students succeed at a higher rate than day students.

---

[1] Under the Load category, we find that both part time and full time White students have a higher success rate than the rates for Asian students. However, the success rate for all Asian students is higher than the success rate for all White students. This sounds like a contradiction. It is not. The key factor involved in this situation is that full time students have a higher success rate than part time students, and a high proportion of Asian students are full time, while a much lower proportion of White students are full time. Thus, it appears that the higher success rate for Asians is due to Load, and not due to Ethnicity. This illustrates that we must be very careful not to draw false conclusions when examining relationships among items of data. In fact, even the conclusions reached in this footnote could be false, because other variables may need to be considered.

Residence

24. F-1 visa students have the lowest withdrawal rate, followed by non-resident students.
25. Among F-1 visa students, Black students have the lowest withdrawal rate, followed by Other Non-White students, followed by Hispanic students.
26. Among F-1 visa students, Asian students have the highest withdrawal rate, followed by White students.
27. F-1 visa students have the highest success rate, followed by non-resident students.
28. Among F-1 visa students, Black students have the highest success rate, followed by White students, followed by Hispanic students.
29. Among F-1 visa students, Asian students have the lowest success rate, followed by Other Non-White students.
30. Among resident students, White students have the lowest withdrawal rate, followed by Asian students and Other Non-White students.
31. Among resident students, Black students have the highest withdrawal rate, followed by American Indian students, followed by Hispanic students.

First Language - Residents

32. Among resident students, White students have the lowest withdrawal rate, followed by Asian students.
33. Among resident students, Black students have the highest withdrawal rate, followed by American Indian students.
34. Among resident students, White students have the highest success rate, followed by Asian students.
35. Among resident students, Black students have the lowest success rate, followed by Hispanic students.
36. Resident students with English as a first language withdraw at a higher rate than resident students with a non-English first language.
37. Resident students with English as a first language succeed at a lower rate than resident students with a non-English first language.
38. Among resident students with a non-English first language, White students have the lowest withdrawal rate, followed by Other Non-White students.
39. Among students with a non-English first language, Black students have the highest withdrawal rate, followed by Hispanic students.
40. Among resident students with English as a first language, White students have the lowest withdrawal rate, followed by Asian students.
41. Among resident students with English as a first language, Black students have the highest withdrawal rate, followed by Hispanic students.

Education Level

42. Students with the highest withdrawal rate are non-high school graduates, followed by adult diploma students.
43. Students with the lowest withdrawal rate are foreign high school diploma students, followed by high school advanced placement students, followed by BA students, followed by AA students.
44. Students with the lowest success rate are non-high school graduates, followed by adult diploma students.
45. Students with the highest success rate are BA students, followed by foreign high school diploma students, followed by high school advanced placement students and AA students.

Enrollment Status

46. Students with the highest withdrawal rate are returning SMC students, followed by first time SMC students.
47. Students with the lowest withdrawal rate are high school advanced placement students, followed by continuing students.
48. Students with the highest success rate are high school advanced placement students, followed by continuing students.
49. Students with the lowest success rate are returning SMC students, followed by first time college students.

Matriculation Status

50. Deferred matriculants withdraw at a higher rate than full matriculants.
51. Deferred matriculants succeed at a lower rate than full matriculants.
52. Black deferred matriculants withdraw at a higher rate than other Black students, but also succeed at a higher rate.

High School

53. Foreign high school students withdraw at a lower rate and succeed at a higher rate than other students.
54. Local high school students withdraw at a lower rate than out-of-state high school students.
55. Among foreign high school students, the highest withdrawal rate is for Black students, followed by Hispanic students.
56. Among foreign high school students, the lowest withdrawal rate is for Asian students, followed by American Indian students and White students.
57. Among foreign high school students, the highest success rate is for Asian students, followed by White students.
58. Among foreign high school students, the lowest success rate is for Black students, followed by Hispanic students.

Employment Hours

59. Students who do not work and students who work only 1-9 hours per week withdraw at a lower than average rate and succeed at a higher than average rate.
60. Students who work 20 or more hours per week withdraw at a higher than average rate.
61. Students who work 10 or more hours per week succeed at a lower than average rate.
62. Black student withdrawal rates are not affected by employment hours.
63. Black students who do not work succeed at a lower rate than other Black students. Black students who work 40 or more hours per week succeed at a higher rate than other Black students.
64. Asian students who do not work withdraw at a lower than average Asian rate.
64. Asian students who work any number of hours withdraw at a higher than average Asian rate.
65. Asian students who do not work succeed at a higher than average Asian rate.
66. Asian students who work 10 or more hours per week succeed at a lower than average Asian rate.

Goal

67. Students with the highest withdrawal rate are those whose goal is to complete a high school diploma, followed by those whose goal is pre-employment skills or on-job skills.
68. Students with the lowest withdrawal rate are those whose goal is prerequisite graduate school, followed by those whose goal is maintain license and career change.
69. Students with the highest success rate are those whose goal is prerequisite graduate school, followed by those whose goal is career change.
70. Students with the lowest success rate are those whose goal is complete high school diploma, followed by those whose goal is on-job skills, followed by those whose goal is improve basic skills or pre-employment skills or undecided.

Date of Class Add

71. Students with a higher than average withdrawal rate add a class from week -4 through week 1.
72. Students with a lower than average withdrawal rate add a class before week -4 or after week 1.
73. The highest withdrawal rate is for students who add a class in weeks -2 or -1.
74. The highest success rate is for students who add a class before week -4 or after week 1.

Major

75. The highest withdrawal rates are for students with the following majors, in rank order from highest to lowest: printing, welding, Chicano studies, unknown, drafting, construction technology, philosophy, administration of justice, and liberal arts.
76. The lowest withdrawal rates are for students with the following majors, in rank order from lowest to highest: manufacturing, physical education, geography, economics, graphic design, interior design, business administration, respiratory therapy, chemistry, and cinema
77. The highest success rates are for students with the following majors, in rank order from highest to lowest: manufacturing, machine shop, geography, economics, home economics, french, graphic design, interior design, chemistry, and respiratory therapy.
78. The lowest success rates are for students with the following majors, in rank order from lowest to highest: fashion merchandising, drafting, printing, athletic trainer, auto body, Chicano studies, architectural drafting, welding, business supervision, and administration of justice
79. Among Black students the highest withdrawal rate is for students majoring in philosophy, followed by students majoring in french. The lowest withdrawal rate is for students majoring in speech, followed by students majoring in real estate or anthropology.

80. Among Hispanic students the highest withdrawal rate is for students majoring in communicative disorders, followed by students majoring in vocational nursing. The lowest withdrawal rate is for students majoring in cinema, followed by students majoring in philosophy or pre-medicine.

81. Among Asian students the highest withdrawal rate is for students majoring in physical education or business supervision, followed by students majoring in philosophy. The lowest withdrawal rate is for students majoring in astronomy, followed by students majoring in respiratory therapy.

82. Among American Indian students the highest withdrawal rate is for students majoring in administration of justice. The lowest withdrawal rate is for students majoring in political science, followed by students majoring in psychology.

83. Among Other Non-White students the highest withdrawal rate is for students majoring in fire technology, followed by students majoring in business merchandising. The lowest withdrawal rate is for students majoring in speech, followed by students majoring in electronics.

84. Among White students the highest withdrawal rate is for students majoring in printing, followed by students majoring in drafting. The lowest withdrawal rate is for students majoring in manufacturing, followed by students majoring in physics.

85. Among Black students the highest success rate is for students majoring in home economics, followed by students majoring in speech or physics. The lowest success rate is for students majoring in philosophy, followed by. students majoring in pre-optometry.

86. Among Hispanic students the highest success rate is for students majoring in chemistry, followed by students majoring in dance. The lowest success rate is for students majoring in speech, followed by students majoring in industrial arts or construction technology.

87. Among Asian students the highest success rate is for students majoring in Chicano studies, followed by students majoring in astronomy. The lowest success rate is for students majoring in business supervision, followed by students majoring in auto body.

88. Among American Indian students the highest success rate is for students majoring in psychology, followed by students majoring in art. The lowest success rate is for students majoring in administration of justice, followed by students majoring in CIS.

89. Among Other Non-White students the highest success rate is for students majoring in speech, followed by students majoring in interior design. The lowest success rate is for students majoring in business merchandising, followed by students majoring in fire technology..

90. Among White students the highest success rate is for students majoring in manufacturing, followed by students majoring in physics or respiratory therapy. The lowest success rate is for students majoring in architectural drafting, followed by students majoring in drafting.

Cumulative Grade Point Average

91. The withdrawal rate of students decreases as the cumulative grade point average increases.
92. The success rate of students increases as the cumulative grade point average increases.
93. Black students are the only ethnic category for which the withdrawal rate is lower than average for a C grade.

Load

94. Full time students have a lower withdrawal rate than part time students.
95. Full time students have a higher success rate than part time students.
96. Among part time students, Asian students have the lowest withdrawal rate, followed by White students.
97. Among full time students, Asian students have the lowest withdrawal rate, followed by White students.
98. Among part time students, Black students have the highest withdrawal rate, followed by Hispanic students.
99. Among full time students, Black students have the highest withdrawal rate, followed by American Indian students (results are not significant), followed by Hispanic students.
100. Among part time students, White students have the highest success rate, followed by Asian students.
101. Among full time students, White students have the highest success rate, followed by Asian students.
102. Among part time students, Black students have the lowest success rate, followed by Hispanic students.
103. Among full time students, Black students have the lowest success rate, followed by Hispanic students.

TABLE OF CONTENTS

Withdrawal Summary

For the following categories, the male withdrawal rate is significantly higher than the female withdrawal rate:

	male	female	total
All	22.1%	20.4%	21.2%
Asian	18.1%	15.2%	16.7%
White	21.6%	19.1%	20.2%

For the following categories, there is not sufficient evidence to conclude that the withdrawal rates for males and females are different; however, sample data yield the following information:

	male	female	total
Black	29.3%	28.9%	29.1%
Hispanic	24.7%	23.6%	24.1%
American Indian	24.4%	25.2%	24.9%
Other Non-White	22.0%	21.7%	21.8%

Success Summary

For the following categories, the male success rate is significantly lower than the female success rate:

	male	female	total
All	65.2%	69.7%	67.6%
Black	53.1%	55.3%	54.3%
Hispanic	59.5%	62.6%	61.2%
Asian	69.2%	75.9%	72.5%
Other Non-White	64.3%	67.1%	65.8%
White	68.7%	74.0%	71.8%

For the following category, there is not sufficient evidence to conclude that the success rates for males and females are different; however, sample data yield the following information:

	male	female	total
American Indian	63.3%	65.0%	64.2%

Withdrawal Summary

For the following categories, the withdrawal rate is significantly higher than the 21.2% rate for all students:

American Indian, Alaskan	24.9%
Black	29.1%
Central American	23.6%
Hawaiian	35.4%
Korean	22.0%
Mexican, Chicano	24.5%
Other Hispanic	25.0%

For the following categories, the withdrawal rate is significantly lower than the 21.2% rate for all students:

Chinese	11.9%
Japanese	14.4%
Other Asian	16.3%
White	20.2%

For other categories, there is not sufficient evidence to conclude that the withdrawal rate is different than the 21.2% rate for all students.

Success Summary

For the following categories, the success rate is significantly lower than the 67.6% rate for all students:

American Indian, Alaskan	64.2%
Black	54.3%
Central American	58.6%
Filipino	66.2%
Guamanian	50.0%
Hawaiian	44.8%
Korean	65.3%
Mexican, Chicano	60.7%
Other Hispanic	62.2%
Other Non-White	66.0%

For the following categories, the success rate is significantly higer than the 67.6% rate for all students:

Asian Indian	70.1%
Chinese	80.2%
Japanese	73.2%
Other Asian	73.4%
White	71.8%

For other categories, there is not sufficient evidence to conclude that the success rate is different than the 67.6% rate for all students.

10

Withdrawal Summary

For each of the following age categories, the withdrawal rate is significantly higher than the baseline total rate for students in the given ethnic category:

	all	black	hisp	Asian	Am.Ind.	otherNW	white	
	21.2%	29.1%	24.1%	16.7%	24.9%	21.8%	20.2%	baseline
25-29	21.7%		25.5%				20.7%	
30-34	22.1%						21.1%	
35-39	21.9%			19.1%				
40-44	23.2%			21.7%			21.7%	
50-54	24.0%	37.2%	30.9%	23.6%				
70-74	27.6%							

For each of the following age categories, the withdrawal rate is significantly lower than the baseline total rate for students in the given ethnic category:

	all	black	hisp	Asian	Am.Ind.	otherNW	white	
	21.2%	29.1%	24.1%	16.7%	24.9%	21.8%	20.2%	baseline
15-19	18.7%		21.0%	13.0%		17.0%	17.5%	
20-24								
45-49		23.6%						
65-69			10.0%					

For other categories, there is not sufficient evidence to conclude that the withdrawal rate is different than the baseline total rate for students.

Success Summary

For each of the following age categories, the success rate is significantly lower than the baseline total rate for students in the given ethnic category:

	all	black	hisp	Asian	Am.Ind.	otherNW	white	
	67.6%	54.3%	61.2%	72.5%	64.2%	65.8%	71.8%	baseline
15-19	66.8%	49.2%	59.5%					
20-24	66.2%	52.7%	59.5%	72.0%		63.6%	69.9%	
25-29				71.5%				
70-74							64.0%	

For each of the following age categories, the success rate is significantly higher than the baseline total rate for students in the given ethnic category:

	all	black	hisp	Asian	Am.Ind.	otherNW	white	
	67.6%	54.3%	61.2%	72.5%	64.2%	65.8%	71.8%	baseline
15-19				77.1%		68.7%		
25-29	68.5%	56.2%	62.6%					
30-34	70.1%	56.8%	66.3%	75.4%		70.7%	73.5%	
35-39	71.1%	59.3%	66.7%				75.2%	
40-44	70.3%	57.9%	70.0%				74.3%	
45-49	71.8%	64.7%					75.1%	
50-54	70.4%							
55-59	70.3%							
60-64	74.8%	81.8%	75.5%	87.5%				
65-69			77.5%					

For other categories, there is not sufficient evidence to conclude that the success rate is different than the baseline total rate for students.

11

Withdrawal Summary

For the following category, the withdrawal rate is significantly higher than the baseline total rate for resident students in the given ethnic category:

	all	black	hisp	Asian	Am.Ind.	otherNW	white	
	21.2%	29.1%	24.1%	16.7%	24.9%	21.8%	20.2%	baseline
night	22.8%		26.6%			24.5%	21.8%	

For the following category, the withdrawal rate is significantly lower than the baseline total rate for resident students in the given ethnic category:

	all	black	hisp	Asian	Am.Ind.	otherNW	white	
	21.2%	29.1%	24.1%	16.7%	24.9%	21.8%	20.2%	baseline
day	20.7%		23.2%				19.5%	

For other categories, there is not sufficient evidence to conclude that the withdrawal rate is different than the baseline total rate for students.

Success Summary

For the following category, the success rate is significantly lower than the baseline total rate for resident students in the given ethnic category:

	all	black	hisp	Asian	Am.Ind.	otherNW	white	
	67.6%	54.3%	61.2%	72.5%	64.2%	65.8%	71.8%	baseline
night			60.2%				71.1%	

For the following category, the success rate is significantly higher than the baseline total rate for resident students in the given ethnic category:

	all	black	hisp	Asian	Am.Ind.	otherNW	white	
	67.6%	54.3%	61.2%	72.5%	64.2%	65.8%	71.8%	baseline
night		56.0%		73.4%				

For other categories, there is not sufficient evidence to conclude that the success rate is different than the baseline total rate for students.

Withdrawal Summary

For the following category, the withdrawal rate is significantly higher than the baseline total rate for resident students in the given ethnic category:

	all	black	hisp	Asian	Am.Ind.	otherNW	white	
	21.2%	29.1%	24.1%	16.7%	24.9%	21.8%	20.2%	baseline
resident	23.3%	29.6%		22.4%		22.6%	21.0%	

For each of the following categories, the withdrawal rate is significantly lower than the baseline total rate for resident students in the given ethnic category:

	all	black	hisp	Asian	Am.Ind.	otherNW	white	
	21.2%	29.1%	24.1%	16.7%	24.9%	21.8%	20.2%	baseline
non-resident	17.7%	13.3%			4.3%		17.3%	
F-1 visa	11.4%	5.7%	9.7%	11.9%		9.6%	9.9%	

For other categories, there is not sufficient evidence to conclude that the withdrawal rate is different than the baseline total rate for students.

Success Summary

For each of the following categories, the success rate is significantly lower than the baseline total rate for resident students in the given ethnic category:

	all	black	hisp	Asian	Am.Ind.	otherNW	white	
	67.6%	54.3%	61.2%	72.5%	64.2%	65.8%	71.8%	baseline
resident	65.3%	53.6%	60.7%	66.8%			70.9%	
non-resident				66.0%				

For each of the following categories, the success rate is significantly higher than the baseline total rate for resident students in the given ethnic category:

	all	black	hisp	Asian	Am.Ind.	otherNW	white	
	67.6%	54.3%	61.2%	72.5%	64.2%	65.8%	71.8%	baseline
non-resident	70.5%	69.7%						
F-1 visa	78.3%	85.9%	81.1%	77.1%		79.5%	82.9%	

For other categories, there is not sufficient evidence to conclude that the success rate is different than the baseline total rate for students.

13

Withdrawal Summary

For the following first language category, the withdrawal rate is significantly higher than the baseline total rate for resident students in the given ethnic category:

	all	black	hisp	Asian	Am.Ind.	otherNW	white	
	23.3%	29.6%	24.5%	22.4%	25.2%	22.6%	21.0%	baseline
English	24.3%		25.6%	23.5%		24.0%	21.8%	

For the following first language category, the withdrawal rate is significantly lower than the baseline total rate for resident students in the given ethnic category:

	all	black	hisp	Asian	Am.Ind.	otherNW	white	
	23.3%	29.6%	24.5%	22.4%	25.2%	22.6%	21.0%	baseline
non-English	21.2%	24.9%	23.4%	21.8%		20.5%	18.4%	

For other categories, there is not sufficient evidence to conclude that the withdrawal rate is different than the baseline total rate for students.

Success Summary

For the following first language category, the success rate is significantly lower than the baseline total rate for resident students in the given ethnic category:

	all	black	hisp	Asian	Am.Ind.	otherNW	white	
	65.3%	53.6%	60.7%	66.8%	64.0%	64.9%	70.9%	baseline
English	64.4%			65.2%		62.4%	70.2%	

For the following first language category, the success rate is significantly higher than the baseline total rate for resident students in the given ethnic category:

	all	black	hisp	Asian	Am.Ind.	otherNW	white	
	65.3%	53.6%	60.7%	66.8%	64.0%	64.9%	70.9%	baseline
non-English	67.2%	61.1%		67.8%		68.6%	73.1%	

For other categories, there is not sufficient evidence to conclude that the success rate is different than the baseline total rate for students.

Withdrawal Summary

For each of the following education level categories, the withdrawal rate is significantly higher than the baseline total rate for students in the given ethnic category:

	all	black	hisp	Asian	Am.Ind.	otherNW	white	
	21.2%	29.1%	24.1%	16.7%	24.9%	21.8%	20.2%	baseline

2.50-3.49 B	16.3%	21.3%	18.3%	12.9%	18.2%	15.1%	16.7%	
3.50-4.00 A	12.2%	20.1%	16.4%	9.1%	9.9%	15.4%	12.1%	

For other categories, there is not sufficient evidence to conclude that the withdrawal rate is different than the baseline total rate for students.

Success Summary

For each of the following grade point average categories, the success rate is significantly lower than the baseline total rate for students in the given ethnic category:

	all	black	hisp	Asian	Am.Ind.	otherNW	white	
	68.0%	54.7%	61.6%	72.5%	65.1%	65.5%	72.1%	baseline
0.00-0.49 F	22.3%	14.8%	21.7%	30.5%	12.0%	5.8%	22.8%	
0.50-1.49 D	29.6%	28.8%	31.0%	30.4%	31.8%	26.7%	28.6%	
1.50-2.49 C	57.9%	53.6%	57.4%	60.4%		59.0%	58.8%	

For each of the following grade point average categories, the success rate is significantly higher than the baseline total rate for students in the given ethnic category:

	all	black	hisp	Asian	Am.Ind.	otherNW	white	
	68.0%	54.7%	61.6%	72.5%	65.1%	65.5%	72.1%	baseline
2.50-3.49 B	78.5%	71.7%	75.5%	81.3%	76.4%	81.0%	79.1%	
3.50-4.00 A	86.7%	77.0%	82.0%	89.8%	87.5%	84.2%	87.1%	

For other categories, there is not sufficient evidence to conclude that the success rate is different than the baseline total rate for students.

28

Withdrawal Summary

For the following category, the withdrawal rate is significantly higher than the baseline total rate for resident students in the given ethnic category:

	all	black	hisp	Asian	Am.Ind.	otherNW	white	
	21.2%	29.1%	24.1%	16.7%	24.9%	21.8%	20.2%	baseline
part time	24.7%	32.3%	26.3%	21.6%		24.4%	22.9%	

For the following category, the withdrawal rate is significantly lower than the baseline total rate for resident students in the given ethnic category:

	all	black	hisp	Asian	Am.Ind.	otherNW	white	
	21.2%	29.1%	24.1%	16.7%	24.9%	21.8%	20.2%	baseline
full time	16.9%	24.6%	20.5%	13.7%		17.8%	16.0%	

For other categories, there is not sufficient evidence to conclude that the withdrawal rate is different than the baseline total rate for students.

Success Summary

For the following category, the success rate is significantly lower than the baseline total rate for resident students in the given ethnic category:

	all	black	hisp	Asian	Am.Ind.	otherNW	white	
	67.6%	54.3%	61.2%	72.5%	64.2%	65.8%	71.8%	baseline
part time	64.3%	51.9%	58.9%	67.6%		63.3%	69.2%	

For the following category, the success rate is significantly higher than the baseline total rate for resident students in the given ethnic category:

	all	black	hisp	Asian	Am.Ind.	otherNW	white	
	67.6%	54.3%	61.2%	72.5%	64.2%	65.8%	71.8%	baseline
full time	71.7%	57.7%	64.9%	75.4%	68.5%	69.8%	75.8%	

For other categories, there is not sufficient evidence to conclude that the success rate is different than the baseline total rate for students.

6?

CLASS SUCCESS AND WITHDRAWAL BY CUMULATIVE GRADE POINT AVERAGE
Winter 1994 through Fall 1995 (8 sessions)

Note 1: A zero GPA can indicate that the student has failed all his courses or that he has not completed any courses.
Note 2: The cumulative GPA values are cumulative for all sessions prior to the session under consideration

ALL STUDENTS

REPRODUCTION RELEASE
(Specific Document)

I. DOCUMENT IDENTIFICATION:

Title: CLASS SUCCESS - CLASS WITHDRAWAL

Author(s): PETER B. GELTNER

Corporate Source: SANTA MONICA COLLEGE

Publication Date: June 20, 1996

II. REPRODUCTION RELEASE:

In order to disseminate as widely as possible timely and significant materials of interest to the educational community, documents announced in the monthly abstract journal of the ERIC system, *Resources in Education* (RIE), are usually made available to users in microfiche, reproduced paper copy, and electronic/optical media, and sold through the ERIC Document Reproduction Service (EDRS) or other ERIC vendors. Credit is given to the source of each document, and, if reproduction release is granted, one of the following notices is affixed to the document.

If permission is granted to reproduce and disseminate the identified document, please CHECK ONE of the following two options and sign at the bottom of the page.

The sample sticker shown below will be affixed to all Level 1 documents

☒

Check here
For Level 1 Release:
Permitting reproduction in microfiche (4" x 6" film) or other ERIC archival media (e.g., electronic or optical) *and* paper copy.

PERMISSION TO REPRODUCE AND DISSEMINATE THIS MATERIAL HAS BEEN GRANTED BY

_____ Sample _____

TO THE EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC)

Level 1

The sample sticker shown below will be affixed to all Level 2 documents

PERMISSION TO REPRODUCE AND DISSEMINATE THIS MATERIAL IN OTHER THAN PAPER COPY HAS BEEN GRANTED BY

_____ Sample _____

TO THE EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC)

Level 2

☐

Check here
For Level 2 Release:
Permitting reproduction in microfiche (4" x 6" film) or other ERIC archival media (e.g., electronic or optical), but *not* in paper copy.

Documents will be processed as indicated provided reproduction quality permits. If permission to reproduce is granted, but neither box is checked, documents will be processed at **Level 1**.

"I hereby grant to the Educational Resources Information Center (ERIC) nonexclusive permission to reproduce and disseminate this document as indicated above. Reproduction from the ERIC microfiche or electronic/optical media by persons other than ERIC employees and its system contractors requires permission from the copyright holder. Exception is made for non-profit reproduction by libraries and other service agencies to satisfy information needs of educators in response to discrete inquiries."

III. DOCUMENT AVAILABILITY INFORMATION (FROM NON-ERIC SOURCE):

If permission to reproduce is not granted to ERIC, or, if you wish ERIC to cite the availability of the document from another source, please provide the following information regarding the availability of the document. (ERIC will not announce a document unless it is publicly available, and a dependable source can be specified. Contributors should also be aware that ERIC selection criteria are significantly more stringent for documents that cannot be made available through EDRS.)
