ABSTRACT

This report provides state summary tables and district reports of graduation rates, dropout rates, and expulsion rates in Colorado. The graduation rate is a cumulative or longitudinal rate that calculates the number of students who actually graduate as a percent of those who were in membership and could have graduated. The dropout rate is an annual rate reflecting the percentage of all students enrolled in grades 7 through 12 who leave school during the reporting period and are not known to transfer to other public or private schools. For school districts with alternative schools for those who have dropped out or are at risk, the district graduation rate, a completer rate, and a dropout rate are calculated with and without the alternative schools. The Colorado graduation rate for the class of 1997 is 78.5%, an increase of 0.8 percentage points from the rate reported for the class of 1996. Thirty-five percent of all Colorado schools had a graduation rate at or above 90%. The 1996-97 school year dropout rate was 3.6%, a decrease of 0.4% from 1995-96. About one-third of the 1995-96 dropouts returned to school the following year. In all, in 1996-97, 48,165 students were suspended for a suspension rate of 7.3%. Nearly 73% of those suspended were male, and 58.1% were white. A total of 1,959 students were expelled, for a rate of 0.3%. Data on graduations, dropouts, suspensions, and expulsions are reported in 14 tables. Information about these statistics is summarized in question and answer form. (SLD)

INTRODUCTION

This report provides state summary tables and district reports of graduation rates, dropout rates, suspension and expulsion rates.

A graduate is a student who completed locally-defined requirements for graduation from high school. If a student is not considered a graduate by the local board of education, then he/she is not included in the graduation rate calculation.

The graduation rate is a cumulative or longitudinal rate which calculates the number of students who actually graduate as a percent of those who were in membership and could have graduated over a four-year period (i.e., from grades 9-12). However, it may also include students, under age 21, who completed high school in three years, four years, or longer.

During the fall of 1988, a task force comprised of school district and Colorado Department of Education personnel recommended that the graduation rate calculation be based on information reported for the dropout data collection system. The dropout data collection system, implemented in the 1987-88 school year, provides pupil membership and transfer data by grade, school, and district. Schools with grades 7-12 are required to complete an end-of-year report which provides counts of students entering and withdrawing during the 12 month period July 1 through June 30.

The dropout rate is an annual rate reflecting the percentage of all students enrolled in grades 7-12 who leave school during the reporting period and are not known to transfer to other public or private schools. In accordance with a 1993 legislative mandate, beginning with the 1993-94 school year, the dropout rate calculation excludes expelled students.

The 1997 graduation rate is a four-year rate based on students reported by school districts who began 9th grade in the 1993-94 school year. The membership base used to calculate a high school's graduation rate includes students who transfer into the Class of 1997 and excludes students who transfer out of the Class of 1997. In addition, high schools can adjust their membership base for a student reported as a dropout during a previous school year if the high school has documentation that the student returned or transferred to another educational program.

Although the Department is able to report graduation rates for the Class of 1997 and for future graduating classes, it is not currently possible to track students who drop out from their graduating class but complete their education several years later.

Several school districts have initiated alternative education programs for students who have dropped out or are at risk of dropping out. For those districts that have alternative schools, a district graduation rate, completer rate, and dropout rate is calculated including and excluding the alternative school. This comparison enables the reader to evaluate the rates of the traditional school program apart from the total district rates.

GRADUATION RATES

The 1997 graduation rate is a four-year rate based on students reported by school districts who began 9th grade in the 1993-94 school year. The membership base used to calculate a high school's graduation rate includes students who transfer into the Class of 1997 and excludes students who transfer out of the Class of 1997. In addition, high schools can adjust their membership base for a student reported as a dropout during a previous school year if the high school has documentation that the student returned or transferred to another educational program.

- The Colorado graduation rate for the Class of 1997 is 78.5 percent. This is an increase of 0.8 percentage points from rate reported for the Class of 1996. The Class of 1994 had a 78.8 percent graduation rate.
- The graduation rate of 78.5 percent represents all Colorado public schools, including alternative schools. There are 58 alternative and second chance high schools in the state that address the educational needs of students who previously dropped out or are at risk of dropping out of school. These alternative schools not only impact districts' graduation rates but also the overall state graduation rate since they are serving more and more students. The number of graduates from alternative schools in 1994 was 1,223 students and in 1997 there were 1,232 graduates.
- Sixty-two school districts or 35 percent of all Colorado school districts had a graduation rate at or above 90 percent in 1997. This was lower than the Class of 1994 when seventy-four school districts (42 percent) had a graduation rate at or above 90 percent.

COMPLETER RATES

The Completer Rate is also a cumulative or longitudinal rate which calculates the number of students who graduate, receive certificates or other designations of high school completion. It is also calculated as a percent of those who were in membership and could have graduated or completed over a four-year period (i.e., from Grades 9-12).

- The completer rate for the Class of 1997 is 79.8 percent. Completers include graduates and students receiving other certificates or designations of completion from a Colorado public high school.

GED COMPLETERS

- According to information collected by the Adult Basic Education/GED (General Education Development) Office from GED testing centers, 8,131 students (62 percent of the test takers) received a GED during 1997.
- Of the 8,131 students receiving a GED, 4,376 (58.2 percent) were under 21 years of age; 2,052 (25.2 percent) were between 21 - 29; 966 (11.9 percent) were 30 - 39; 297 (3.7 percent) were 40 - 49 and 80 (1.0 percent) were age 50 or older.

ADULT COMPLETERS

- During the 1996-97 school year 14 school districts reported 427 adult completers (students over age 21) from their educational programs. Adults receiving a high school diploma numbered 125; other certificates of completion 1; and GEDs 301.

Total	31,867	78.8%	32,408	77.4%	32,608	77.7%	34,231	78.5%
Male	15,694	76.4%	15,765	74.7%	15,749	74.8%	16,739	75.3%
Female	16,173	81.1%	16,643	80.2%	16,859	80.6%	17,492	81.9%
American Indian	215	53.3%	244	49.2%	237	46.2%	238	52.8%
Asian	988	82.8%	990	79.6%	981	80.8%	1,006	82.6%
Black	1,346	67.5%	1,396	66.7%	1,364	65.1%	1,557	68.2%
Hispanic	4,186	63.3%	4,195	60.0%	4,109	59.6%	4,433	61.9%
White	25,132	83.1%	25,583	82.5%	25,917	82.9%	26,997	83.1%

- The graduation rate for Class of 1997 is 78.5 percent, an increase of 0.8 percentage points from the 1996 rate of 77.7 percent and a decrease of 0.3 percentage points from the Class of 1994 graduation rate of 78.8 percent.
- The graduation rate of 78.5 percent represents all Colorado public schools including 56 alternative schools. The number of graduates from alternative schools has increased 0.7 percent, from 1,223 students in 1994 to 1,232 students in 1997.
- Female students continue to exhibit a higher graduation rate than male students. The rate for both gender groups showed a slight increase from 1996 - 0.5 percentage point for male students and 1.3 percentage points for female students. The 1997 graduation rate of 81.9 percent for female students is 0.8 percentage points higher than the 1994 rate of 81.1 percent. For male students the 1997 rate of 75.3 percent is 1.1 percentage points lower than the 1994 rate of 76.4 percent.
- Graduation rates for Black students showed a slight increase, remained the same for White students, and showed a slight decrease for American Indian, Asian and Hispanic students from 1994:

	1994	1997	Difference
American Indian	53.3	52.8	- 0.5
Asian	82.8	82.6	- 0.2
Black	67.5	68.2	+ 0.7
Hispanic	63.3	61.9	- 1.4
White	83.1	83.1	- 0.0

White	25,424	84.0%	25,933	83.8%	26,284	84.1%	27,329	84.1%

- The completer rate is also a cumulative or longitudinal rate which calculates the number of students who graduate and students who receive certificates or other designations of high school completion as a percent of those students under age 21 who were in membership in a Colorado school district program and could have graduated or completed.
- The completer rate of 79.8 percent for the Class of 1997 is 1.3 percentage points higher than the graduation rate.
- Completer rates are higher than graduation rates for all ethnic/racial groups; 2.2 percentage points for American Indian students, 0.8 for Asian students, 2.4 for Black students, 2.4 for Hispanic students, and 1.0 for White students.
- Completers for the Class of 1997 include: 34,231 who completed local board-defined requirements for graduation and received a high school diploma from a Colorado school district, 365 who received a G.E.D. (General Education Development) certificate after completing a program of studies in a Colorado school district, and 188 students who received certificates or other designations of high school completion, attendance or training from a Colorado school district.

DROPOUT RATES

The dropout rate is an annual rate reflecting the percentage of all students enrolled in grades 7-12 who leave school during the reporting period and are not known to transfer to other public or private schools. In accordance with a 1993 legislative mandate, beginning with the 1993-94 school year, the dropout rate calculation excludes expelled students.

- Colorado's dropout rate for the 1996-97 school year was 3.6 percent, a decrease of 0.4 percent from 1995-96.
- The total membership base for grades 7-12 was 336,397 and 11,967 students dropped out resulting in the rate of 3.6 percent.
- Of the 12,949 students reported as dropouts and the 1,197 students reported as expulsions at the end of the 1995-96 school year, 3,997 were reported as retrievals during the 1996-97 school year. This represents approximately one-third (28.2 percent) of the 1995-96 dropouts/expulsions returning to school the following year.

TABLE 8

SUSPENSIONS AND EXPULSIONS

Colorado Law (22-33-106 C.R.S.) defines grounds for the suspension and/or expulsion of students from public schools. These include but are not limited to carrying, bringing, using or possession of a deadly weapon, sale of drugs or controlled substance; commission of an act which if committed by an adult would be robbery or assault; habitually disruptive student; disobedience or open and persistent defiance of proper authority; willful destruction or defacing of school property; behavior on or off school property detrimental to the welfare or safety of other pupils or school personnel; and repeated interference with a school's ability to provide educational opportunities to other students.

The 1995-96 school year was the first year information from all public schools was collected in a standard reporting format. School districts were requested to report number of students suspended and total occurrences of suspensions. A student suspended more than once during the school year is counted only once in the student count but each occurrence is included in the suspension count.

TABLE 13A

Total	68,135	76,362	8,227	12.1%	72,815	-3,547	-4.6%		

- During the 1996-97 school year, Colorado public schools reported 72,815 separate occurrences of out-of-school suspensions involving 48,165 students.
- The number of suspensions for possession of drugs increased during 1996-97 and declined for detrimental behavior; possession of weapons; and other reasons.
- The highest number of suspensions (47,614) 65.3 percent occurred due to detrimental behavior followed by 25.3 percent (18,436) for other reasons; 7.7 percent (5,571) for drugs or controlled substances; and 1.6 percent (1,194) for weapons.
- Ninety-six percent of the suspensions were for five days or less and four percent were for more than five days.

Definitions: Number of Pupils - Unduplicated count of pupils suspended during the school year.

Percent of Pupils Suspended - Number of pupils suspended by gender or ethnic/racial group divided by the total number of pupils suspended.

Rate of Pupils Suspended - Number of pupils suspended during the school year divided by the total number of pupils in membership at the end of the school year.

Count of Suspensions - Number of actual suspensions occurring during the school year.

TABLE 13B

Total	1,661	212	12.8%	1,873	212	12.8%	1,959	86	4.6%

• During 1996-97 the number of expulsions for possession of weapons decreased while expulsions for possession of drugs increased.

• Thirty-eight percent (737) of the expulsions reported for 1996-97 were due to detrimental behavior; 27 percent (529) due to drugs or controlled substances; 24 percent (475) due to possession of weapons; and 11 percent (218) for other reasons as defined by the local district.

Definitions: **Number of Pupils** - Unduplicated count of pupils expelled during the school year.
Percent of Pupils Expelled - Number of pupils expelled by gender or ethnic/racial group divided by the total number of pupils expelled.
Rate of Pupils Expelled - Number of pupils expelled during the school year divided by the total number of pupils in membership at the end of the school year.

QUESTIONS AND ANSWERS ABOUT COLORADO DROPOUT RATES

Who Is Considered a Colorado Dropout? By Colorado law, a dropout is a "person who leaves school for any reason, except death, before completion of a high school diploma or its equivalent, and who does not transfer to another public or private school or enroll in an approved home study program." A student is not a dropout if he/she transfers to an educational program recognized by the district, completes a G.E.D. or registers in a program leading to a G.E.D., is committed to an institution that maintains educational programs, or is so ill that he/she is unable to participate in a homebound or special therapy program.

Who Is a Transfer? A student is considered a transfer to another district or educational program if the receiving school or program sends for the student's records, or if the sending district can document that the parent or legal guardian has provided information regarding the school or education program into which the student is transferring. This definition of a transfer is in accordance with the Public School Finance Act of 1988, 22-53-207(3), C.R.S.

What If a Student Just Disappears? A student who disappears from school is considered a dropout unless the student transferred to another educational program.

What Is the Dropout Rate? The Colorado dropout rate is an annual rate, reflecting the percentage of all students enrolled in grades 7-12 who leave school during a single school year. It is calculated by dividing the number of dropouts by a membership base which includes all students who were in membership any time during the year. In accordance with a 1993 legislative mandate, beginning with the 1993-94 school year, the dropout rate calculation excludes expelled students.

Can the Dropout Rate Be Multiplied by Four to Find Out How Many Students Drop Out Over the Four Years of High School? No. The dropout rate is an annual rate only. It is not statistically valid to simply multiply the annual rate by four to find out how many students dropped out during high school. The graduation rate, however, provides a measure of how many students completed graduation requirements.

Can a Student Drop Out More Than Once? How Does That Affect the Annual Dropout Rate? Some students have a pattern of dropping out and returning to school several times before they either graduate or drop out and do not return. In the state reporting system, a student is counted as a dropout only once within a given reporting period (i.e., from July 1 through June 30). However, if a student drops out during one school year, then returns to school the following year and drops out again, he/she will be counted in the dropout rate two years in a row.

How Valid Are Colorado's Dropout Rates? The Colorado Department of Education provides definitions, guidelines, and training regarding the proper procedures for identifying and reporting dropout statistics. The data are edited and screened upon receipt and a turnaround document with the calculated rates is returned to the district for verification. In submitting the data to the state, each superintendent signs an assurance that the district has followed the required procedures.

How Are Dropout Data Reported? Dropout data are reported annually to the Department by Colorado school districts. Dropout data are collected for grades 7-12, by school building and by district. Data are reported separately by sex, ethnicity/race, and grade level of students.

QUESTIONS AND ANSWERS ABOUT COLORADO GRADUATION RATES AND COMPLETER RATES

Who Is a Graduate? In Colorado, local school boards are responsible for establishing the requirements for high school graduation. There is no statewide definition.

Do All Colorado School Districts Have the Same Requirements For Graduation? No. Each local school board defines graduation requirements for its district. These vary from district to district. The state considers a graduate to be any student who has met the graduation requirements of his or her local school district.

Are There Students Who Complete 12 Years of School and Do Not Graduate? Yes. Some districts award certificates or other designations of high school completion or attendance to students who do not complete the standard high school graduation requirements. Also, some students who do not complete the traditional high school graduation requirements do successfully achieve a general equivalency certificate (GED).

Who Will Be Included in the Calculation of Graduation Rate? Two types of rates are calculated by the Department for school districts and for the state: Graduation Rates and Completer Rates.

Graduation Rates. Graduation rates are calculated based on high school graduates only. A graduate is a student who completed locally-defined requirements for graduation. If a student is not considered a graduate by the local board of education, then he/she is not included in the graduation rate calculation.

Completer Rates. Completer rates are calculated based on all students who are graduates, plus those who are not considered graduates but receive another certificate or designation of high school completion.

What Happens to Students Who Graduate in the Summer? Summer graduates are included in the graduation rate calculation of the current graduating class, or in the following year's graduation rate calculation, based on a district's reporting practice.

What Happens if a Student Was Reported as a Dropout at Some Point During His or Her High School Years and the School Subsequently Receives Information that the Student Transferred into Another Educational Program? Does That Student Affect the Graduation Rate For the Class of Which He/She Was Originally a Member? No. If the high school has documentation of the student's transfer into another educational program or completion of an educational program, then an adjustment may be made to the membership base used to calculate the graduation rate. These students are not reported as completers from the district, they are taken out of the membership base of the school and treated as if they transferred from the school. However, the dropout rate for the year in which they were reported as a dropout remains unchanged.

What Is the Graduation Rate? The graduation rate is a cumulative or longitudinal rate which calculates the number of students who actually graduate as a percent of those who were in membership and could have graduated over a four-year period (i.e., from Grades 9-12).

A graduation rate will be reported for each graduating class (i.e., the Class of 1997). The rate is calculated by dividing the number of graduates by the membership base. The membership base is derived from end-of-year count of eighth graders four years earlier (i.e., in the spring of 1993), and adjusted for the number of students who have transferred into or out of the district during the years covering grades 9 through 12.

What Is the Completer Rate? The Completer Rate is also a cumulative or longitudinal rate which calculates the number of students who graduate, receive certificates or other designations of high school completion. It is also calculated as a percent of those who were in membership and could have graduated or completed over a four-year period (i.e., from Grades 9-12).

Information needed to calculate graduation and completer rates is available from the dropout data collection system initiated in the 1987-88 school year.

What Is Meant By the "Class of 1997"? Graduation rates and completer rates will be reported for a particular class. The Class of 1997 includes students who graduated in the spring and summer of 1997 and may include some students who graduated during the summer of 1996. It may include students who completed high school in three years, four years or longer.

SOURCE OF INFORMATION

Data published in this report were obtained from all Colorado public schools on CDE Form 2, End of Year Pupil Membership, Dropouts and Graduates Report. Data collected on these forms were then summarized for reporting in the various formats.

Data for alternative schools in some tables are reported separately. This provides additional information for those districts' schools that are established to give students who are dropouts or potential dropouts an alternative to the traditional program. The alternative schools' data also includes those Second Chance Programs operated by districts and Boards of Cooperative Services. However, it does not include any educational programs for dropouts that are incorporated as part of the traditional high school program.
