ABSTRACT

This Kids Count report examines regional differences in the well being of Tennessee's children. The statistical portrait is based on 16 health, social, and economic indicators of child well being: (1) percent of population enrolled in TennCare, state health insurance program; (2) percent of births lacking adequate prenatal care; (3) percent of low birthweight births; (4) infant mortality rate; (5) child death rate; (6) teen violent death rate; (7) teen pregnancy rate; (8) percent of students receiving special education; (9) percent of high school dropouts; (10) child abuse and neglect rate; (11) percent of children referred to juvenile court; (12) child state care rate; (13) per capita income; (14) percent of children receiving Aid to Families with Dependent Children; (15) percent of population receiving food stamps; and (16) percent of students participating in Free and Reduced Lunch Program. Following an overview, the bulk of the report contains statistical profiles for each of nine regions in Tennessee. Information on each region includes historical background, demographic information, history of the relevant regional council on children and youth, comparison of the region to the rest of the state on the indicators of well being, and tables detailing the indicators in 1996 and 1992. Information on definitions and data sources and four appendices containing data tables complete the report. (KB)

TENNESSEE COMMISSION ON CHILDREN AND YOUTH

The Tennessee Commission on Children and Youth (TCCY), an independent state agency, advocates for improvement in the quality of life of children and families. To fulfill this mission, TCCY collects and disseminates information on children and families for the planning and coordination of policies, programs and services, administers and distributes funding for teen pregnancy prevention programs and for improvements in juvenile justice, and evaluates the delivery of services to children in state custody.

FORWARD

The Tennessee Kids Count Regional Report is the most comprehensive regional report on the health, education, social, and economic indicators of child well-being in the state. The Tennessee Kids Count Project is part of a national and state-by-state effort tracking the status of children in the United States. By providing policy makers and citizens with benchmarks of child well-being, Kids Count seeks to enrich local, state, and national discussions concerning ways to secure better futures for all children.

The Tennessee Kids Count Project is administered by the Tennessee Commission on Children and Youth (TCCY), an independent state agency created by the Tennessee General Assembly. The primary mission of TCCY is advocacy for improvements in the quality of life for Tennessee children and families. TCCY staff members gather, analyze, report, and disseminate information on children and families for the planning and coordination of policies, programs, and services. Other duties of TCCY are to administer and distribute funding for teen pregnancy prevention programs and improvements in juvenile justice and to evaluate programs for children in state care or receiving state-funded services.

TCCY has a mandate to staff and coordinate nine regional councils that address local needs of children and families and provide input for the Commission. Regional council members include social workers, educators, counselors, health professionals, therapists, attorneys, physicians, foster parents, parents, administrators, child care professionals, and a variety of people who are simply concerned with the needs of and challenges facing our children, youth, and families.

Tennessee is one of 49 states to receive a Kids Count grant. The grant program is funded by The Annie E. Casey Foundation, the nation's largest philanthropy devoted exclusively to disadvantaged children. Based in Baltimore, Maryland, the foundation was established by the founders of United Parcel Service to improve family and community environments that shape young people's health, development, education, opportunities, and aspirations.

At the national level, the principal activity of the initiative is the publication of the annual Kids Count Data Book, which uses the best available data to measure the educational, social, economic, and physical well-being of children. The Casey Foundation sponsors the state-level Kids Count Projects to provide a more detailed, community-by-community picture of the condition of children.

Through the Kids Count Project, timely and reliable information about the well-being of children is gathered and disseminated to citizens, advocates, policy makers, and political leaders. Updated information from state department sources is included.

LETTER FROM THE EXECUTIVE DIRECTOR

Dear Reader,

It has been said that Kids Count is both a road map and a compass. It shows us where we are on indicators of the well-being of children, and it points us in the direction of improved outcomes. One way this is achieved is to make comparisons to where we are and where we want to go. *The Regional Report* ranks Tennessee's nine regions on 16 statistical indicators of child well-being. A composite ranking for each region has also been calculated. The formula for the composite ranking is in the glossary.

Ranking for most indicators ranges from "1" or "best" for the region with the lowest rate on an indicator to a "9" for the "worst" ranking for the region with the highest rate. The exception is the ranking on per capita income. Ranking of "1" on per capita income shows the region with the highest per capita income. Clearly, ranking "1" on per capita income is "best." However, a region's high per capita income can disguise disproportionate wealth and poverty. Some counties are virtually two-class societies: rich and poor. There is no question that the lower the rate for births lacking adequate prenatal care, low-birth-weight births, infant and child deaths, teen violent deaths, and teen pregnancy, the better for Tennessee children.

At first glance, low rates on other indicators such as high school dropouts, indicated child abuse and neglect cases, juvenile court referrals, and children in state custody would be more desirable. However, the rates for these indicators are confounded by the interaction with the service delivery system and raise the following questions.

- ✓ Is the reduced high school dropout rate due to students dropping out before they reach high school?
- ✓ Is the low child abuse and neglect rate due to incidents not being reported, or reports that are inadequately investigated?
- ✓ Is the low juvenile court referral rate due to unreported child abuse and neglect cases, inadequate investigations, or failure to hold children accountable for their actions?
- ✓ Is the low rate of children in state custody influenced by the problems discussed above regarding child abuse and neglect and juvenile court referrals?

BEST COPY AVAILABLE

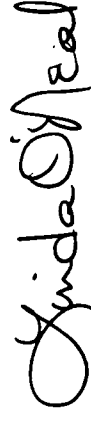

For the other five indicators, it is not apparent whether the lowest or highest rate is really "best" or "worst." These indicators are based on eligibility and are service-oriented and include TennCare participation, students receiving special education, children receiving AFDC, Food Stamp Program participation, and students participating in the free and reduced-price school lunch program. However, due to interaction with the service delivery system, it is difficult to determine the impact of these rates. Studying these rates raise the following questions.

- ✓ Does increased TennCare participation mean better prenatal care for pregnant women and preventive care including immunizations for children?
- ✓ Since more students receive special education, are more special needs students being helped with individualized educational programs and services?
- ✓ If fewer children receive AFCD (now Families First), are fewer impoverished children getting minimal financial assistance?
- ✓ Does declining Food Stamp Program participation mean poorer nutrition, especially for pregnant women and young children?
- ✓ Since more students get free/reduced-price school lunches, are more hungry or malnourished children being fed enabling them to have increased potential for learning?

Whether regions score "best" or "worst" on individual or composite rankings, all need to work toward improvements. As previously discussed, "worst" rankings on a number of indicators are not necessarily a bad thing. Even in a region ranked "best," there are still too many teens getting pregnant, babies dying before their first birthday, or teens dying violent deaths.

Though Tennessee has made much progress, much remains to be done. Together, we can all improve outcomes for Tennessee children and their families.

Sincerely,

Linda O'Neal
Executive Director

OVERVIEW

Tennessee is divided by both natural and political boundaries into three distinct regions, known as the three grand divisions - East, Middle, and West. Within the three grand divisions, there are nine regions - Northeast, East, Upper Cumberland, Mid-Cumberland, South Central, Southeast, Southwest, Northwest, and Memphis Delta or Memphis/Shelby County. The Regional Report will provide detailed information about the children in Tennessee to show regional differences and similarities.

Tennessee is a state of contrasts: urban and rural - wealthy and poor. The state's population is 60.9 percent urban and 39.1 percent rural, according to the 1990 census. The wealth and poverty are seen in the disparity in Tennessee's 1994 per capita personal income, which ranges from \$10,625 in Hancock County to \$28,992 in Williamson County.

Rural Tennessee covers 11,731,386 acres of farmland with 79,711 farms, 90 percent of which are family owned. The rural population is 1,907,237, according to the 1990 census. Urban Tennessee is composed of five metropolitan areas - Nashville, Memphis, Knoxville, Chattanooga, and the Johnson City-Kingsport-Bristol tri-cities area. The 1996 urban population is estimated at 2,778,591, according to the U.S. Bureau of the Census. Tennessee's urban population is concentrated in five regions.

- The Mid-Cumberland (MC) Region is the most heavily populated, with a total population of 1,214,641. The Nashville-Davidson County metropolitan area is in this region. The other 12 counties are Cheatham, Dickson, Houston, Humphreys, Montgomery, Robertson, Rutherford, Stewart, Sumner, Trousdale, Williamson, and Wilson.
- The East (E) Tennessee Region has the second highest population - 912,210. The Knoxville metropolitan area of Knox County is in this region. The other 15 counties are Anderson, Blount, Campbell, Claiborne, Cocke, Grainger, Hamblen, Jefferson, Loudon, Monroe, Morgan, Roane, Scott, Sevier, and Union.
- Memphis/Shelby County (MSC) has the third highest population. Shelby County, which includes Memphis, has a total population of 846,584.
- The Southeast (SE) Region ranks fourth highest in population - 505,551. Chattanooga in Hamilton County is in this region. The other nine counties are Bledsoe, Bradley, Grundy, McMinn, Marion, Meigs, Polk, Rhea, and Sequatchie.
- The Northeast (NE) Region has the fifth highest population - 425,467. This region includes the tri-city area of Johnson City, in Washington County, and Kingsport and Bristol, both in Sullivan County. The other six counties in this region are Carter, Greene, Hancock, Hawkins, Johnson, and Unicoi.

The other four Tennessee regions are less densely populated. These regions are listed according to their populations.

- The South Central (SC) Region ranks sixth with a total population of 333,036. The 13 counties in this region are Bedford, Coffee, Franklin, Giles, Hickman, Lawrence, Lewis, Lincoln, Marshall, Maury, Moore, Perry, and Wayne.
- The Southwest (SW) Region ranks seventh with a total population of 301,401. The 11 counties in this region are Chester, Decatur, Fayette, Hardeman, Hardin, Haywood, Henderson, Lauderdale, McNairy, Madison, and Tipton.
- The Upper Cumberland (UC) Region ranks eighth with a total population of 259,201. The 14 counties in this region are Cannon, Clay, Cumberland, DeKalb, Fentress, Jackson, Macon, Overton, Pickett, Putnam, Smith, Van Buren, Warren, and White.
- The Northwest (NW) Region ranks ninth with a total population of 231,473. The nine counties in this region are Benton, Carroll, Crockett, Dyer, Gibson, Henry, Lake, Obion, and Weakley.

Demographics

In every region, the percent of the child population that is minority is higher than the corresponding percent of the adult population, according to 1995 U.S. Census figures. Conversely, the percent of the child population that is white is lower than the percent of the adult population that is white in every region.

Tennessee's minority child population will continue to grow, according to data from the Population Reference Bureau. Within the next ten years, the largest increase - 42 percent - will be in the Asian and Pacific Islander child population. This population is expected to increase from 12,700 in 1995 to 18,000 in 2005. The second largest increase will be in the Hispanic child population - 35 percent. This population is projected to increase from 14,400 in 1995 to 19,400 in 2005. The third largest increase - 23 percent - is projected in the Native American child population. It is estimated to increase from 2,600 in 1995 to 3,200 in 2005.

Demographic Change Among Children in Tennessee 1995-2005

	1995	2005	% CHANGE
White	1,003,700	1,057,300	5%
Black	276,900	309,600	12%
Hispanic	14,400	19,400	35%
Asian and Pacific Islander	12,700	18,000	42%
Native American	2,600	3,200	23%

Regional Councils On Children And Youth

In each of Tennessee's nine regions, the Tennessee Commission on Children and Youth has organized and staffed a regional council on children and youth, fulfilling its statutory mandate. TCCY's nine regional councils provide a broad-based advocacy forum for children's issues. The councils, through their affiliation with TCCY, have extensive access to data and information on juvenile justice, child welfare, child health, and other issues affecting Tennessee's children. Council members are provided with a wealth of information on current legislation being considered at the state and federal level, including analyses of proposed bills, to make tracking legislation much easier.

TCCY's legislative mandate establishes the regional councils as the ongoing communication link between TCCY and the regional and local areas in Tennessee. It requires TCCY to develop guidelines for the composition and operation of the regional councils. TCCY provides one locally based staff person to assist each regional council in performing the following five duties, according to Tennessee Code Annotated 37-3-106:

1. Provide for mutual exchange of information and networking among service providers, advocates, and elected officials;
2. Educate members, officials, others involved in children's services, and the general public concerning the needs and problems of children and youth in the region and the state;

3. Coordinate regional and local efforts between public and private service providers to enhance services for children and youth;
4. Advocate for legislation, policies, and programs at the local and regional level to promote and protect the health, well being, and development of children and youth; and
5. Collect, compile, and distribute data; and to make recommendations on the needs and problems of children and youth.

The councils work cooperatively with the Commission to address issues related to children and youth. Concerns regarding legislation and policy changes affecting children and their families are reported to the Commission. The councils report gaps in services for children and youth.

Activities sponsored by the councils are as diverse as the councils themselves. The council membership and influence has grown over the years. With the Juvenile Justice Delinquency Prevention federal formula grants, the Tennessee Kids Count Project, training opportunities, workshops, and networking meetings, the councils directly link more than 2,010 members.

Other benefits of council membership are:

- ✓ Council members, through their cooperative efforts, help improve the quality of life for children and their families.
- ✓ Through council programs, conferences, and events, members become better informed on children's issues and receive updates on changes at the local, state, and national levels.
- ✓ Members learn about local, state, and national programs and strategies to implement or replicate them.
- ✓ Technical assistance is provided, ranging from the referral process to grant-writing training; and
- ✓ An abundance of information on children, including national and state Kids Count publications, findings from the Children's Program Outcome Review Team, *The Legislative Summary*, *The Legislative Report*, *The Compilation of Select Laws*, and other special reports and publications, are disseminated through the council.

Regional Coordinators

TCCY provides one locally based staff person for each of the regional councils on children and youth. In addition to providing staff support and coordination of all their respective councils' activities, the day-to-day responsibilities of the nine coordinators include:

Monitoring: Monitor jails, police departments, lock-ups, detention centers, and temporary holding resources to ensure compliance with the mandates of the Juvenile Justice and Delinquency Prevention Act. Also monitor recipients of grants administered by the Tennessee Commission on Children and Youth.

Information Dissemination and Oral Presentations: Help collect and compile data. Distribute the national and state Kids Count publications, and other information on TCCY and councils at workshops and council meetings. Prepare displays of information at conferences and community gatherings for public awareness, advocacy, and promotion of TCCY and the regional councils. Make presentations to organizations, workshops, local schools, churches, college classes, and conferences.

Liaison: Serve as a liaison among groups on the local, regional and state levels.

State and Local Initiatives: Serve on the Governor's Prevention Initiative, the Adolescent Pregnancy Initiative, the Regional Resource Management Groups, and many other initiatives.

Planning: Participate in local, regional, and state planning as it relates to identifying emerging issues and improving the delivery and quality of children's services.

Leadership: Provide leadership on boards to advise service providers, state departments, and agencies on the needs of children and families. Several regional coordinators also serve on the Appeals Committee that resolves disputes between the Department of Children's Services and provider agencies regarding the placement of children in state custody.

Collaborative Efforts: Provide leadership to other local or regional groups to meet common community goals. Because the regional coordinators serve their communities as advocates for children, they are asked to become involved in many community projects.

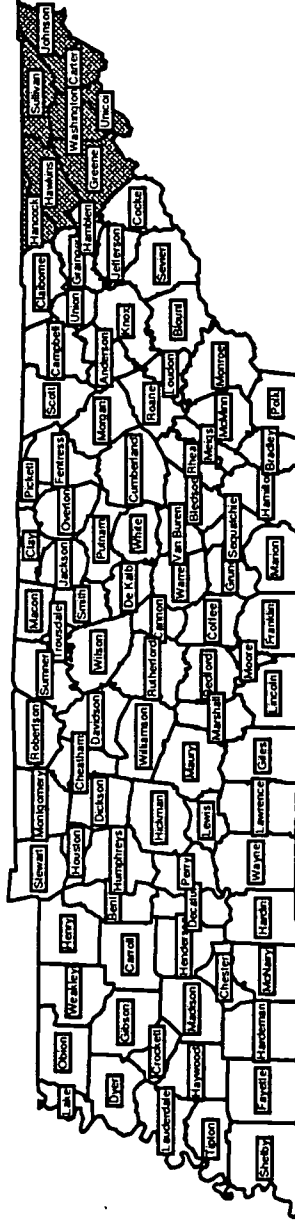

Advocacy: Provide leadership for local, regional, and state groups at meetings, conferences, and other activities.

Children's Plan Outcome Review Team Reviews (C-PORT): Participate as case reviewers in the C-PORT evaluation. This project collects, analyzes, and reports essential information about the population of children in state custody, the needs of the children and their families, and the system's ability to adequately perform or function to meet the needs of the children and families it serves.

Reports: Write reports and recommendations to the regional councils, the councils' Executive Committees, and/or the Commission as required.

THE NORTHEAST TENNESSEE COUNCIL ON CHILDREN AND YOUTH

Northeast Tennessee borders Southwest Virginia and Western North Carolina. The beautiful mountains and valleys in the region cut through the southern Appalachian range with 232,778 acres of national forest. Lakes cover more than 49,000 acres. Carter, Greene, Hancock, Hawkins, Johnson, Sullivan, Unicoi, and Washington Counties make up the region.

Northeast Tennessee is steeped in American history. Adventurous explorers and mountaineers expanding the nation enriched its history. In 1772, the first majority-rule system of American democratic government, the Watauga Association, was established in Carter County. This was the first permanent American settlement outside the original 13 colonies.

Jonesborough in Washington County is Tennessee's oldest town. Jonesborough was host to many statesmen and is the site of the founding of the "Lost State of Franklin." 1997 marked the 25th year for the National Storytelling Festival in Jonesborough.

The total regional population is 425,467, according to 1995 population estimates by the University of Tennessee. The population by race is 414,080 white (97.3 percent), 8,871 African American (2.1 percent), and 2,516 other races (0.6 percent). The regional population less than 18 years is 93,941. The population under 18 years by race is 90,597 white (96.5 percent), 2,565 African American (2.7 percent), and 779 other races (0.8 percent).

The region offers higher education opportunities, with six colleges, one university, and the Quillen College of Medicine. The five largest employers are Eastman Chemical Company, Quebecor, Columbia-HCA

Health Care Corp., Five Rivers Manufacturing, LLC, and Johnson City Medical Center.

Council History

The council was organized in 1983, by service providers who were interested in networking and having grassroots influence on decisions affecting children and families. The following accomplishments reflect continuing support for developing programs that assure better quality of life for our children and youth.

- 1983 Established the Upper East Tennessee Children's Services Council.
- 1984 Held a child sexual abuse forum, "Our Children - Your Children."
- 1985 Formed a clearinghouse committee to develop ways to better coordinate services for hard-to-place children.
- 1986 Began the annual breakfast for regional legislators.
- 1986 Began co-sponsorship of the Greene County Health Fair for fourth graders.
- 1987 Developed a resource manual for developmentally delayed children.
- Hosted the Joint Select Committee on Children and Youth.
- Developed a Speaker's Bureau Booklet on Teen Pregnancy Prevention.
- 1989 Sponsored Greene County Health and Safety Fair.
- 1990 Sponsored Greene County Health and Safety Fair.
- 1991 Held brunch to honor Region I state legislators.

- 1992 Co-sponsored the "1992 Showcase of Model Programs on Teen Pregnancy and School Dropout."
- 1993 Began annual breakfast for regional legislators. Held Federal Formula Grant Training. Hosted "Meet Your Candidates Brunch."
- 1995 Presented the first Northeast Council Child Advocacy Award. Sponsored seminar on adolescent sexual assault. Hosted annual breakfast for regional legislators. Sponsored seminar on "Gangs, Drugs and Related Criminal Activity."
- Presented the workshop on "Anger Management in Children." Sponsored Health and Safety Fair for fifth graders in Johnson City.
- Sponsored Washington County Child Abuse Prevention Poster Contest in fifth grade classes in the region with the theme "Hands Are For Helping."
- 1997 Hosted "Meet Your Candidates Brunch." Sponsored seminar, "Total Teen Wellness." Sponsored seminar, "Building Self-Esteem in Children." Hosted annual breakfast for regional legislators. Sponsored seminar "The Great Denial: Substance Abuse in Our Communities."

Council Structure

More than 200 individuals are members of the council and are drawn from the eight-county region.

The council structure is based on bylaws that may be amended by the general membership. Council activities are guided by the Executive Board - the president, vice president, president elect, past president, secretary, treasurer, and chairs of standing committees. The officers are elected by the general membership. The president appoints the chair of each standing committee.

The committees include Juvenile Justice, Child Abuse and Neglect, Legislative, Coalition for the Preschooler, Coalition for the Young Child, Adolescent Health, Membership and Nominating, and Hospitality and Public Relations.

Council Awards

The Northeast Council presents the Child Advocacy Award each May to a council member. Nominations are accepted from council members only. The nomination must include documentation on the nominee's commitment to children. The recipient of the Northeast Council's Child Advocacy Award is also nominated for the statewide Jim Pryor Advocacy Award presented annually by TCCY.

Council Budget

The council receives an annual allocation from the TCCY budget. The annual membership fee is \$5.00 and is supplemented by minimal conference fees.

Northeast Regional Data Summary

Composite Ranking - 3rd

For the Northeast Region, two out of seven health indicators are higher than the state average.

- Higher percent of total population enrolled in TennCare in the Northeast Region during 1996 - 24 percent in the region compared to the state average of 22.7 percent.
- Higher percent of births lacking adequate prenatal care in the Northeast Region during 1995 - 37 percent in the region compared to the state average of 27.3 percent.

The other five health indicators in the Northeast Region are lower than the state average.

- Lower percent of low birth weight babies born in 1995 - 7.4 percent in the region compared to the state average of 8.7 percent.
- Lower infant mortality rate - 6.1 per 1,000 live births in the region compared to the state average of 9.3 per 1,000.
- Lower child death rate - 23.6 per 100,000 children ages 1-14 compared to the state average of 32.7 per 100,000.
- Lower teen violent death rate - 52.4 per 100,000 teens ages 15-19 compared to the state average of 91.8 per 100,000.

- Lower teen pregnancy rate - 41 per 1,000 females ages 15-17 compared to 55.8 per 1,000.

Three out of five social indicators in the Northeast Region are higher than the state average.

- Higher percent of students receiving special education in 1995 - 21.7 percent in the region compared to the state average of 18.3 percent.
- Higher percent of juvenile court referrals in 1995 - 6.3 percent in the region compared to the state average of 5.1 percent.
- Higher rate of children in state care in FY 1995-96 - 10.3 per 1,000 in the region compared to the state average of 9.0 per 1,000.

The other two social indicators are lower than the state average.

- Lower percent of high school (grades 9-12) dropouts in the Northeast Region in school year 1995-96 - 3.6 percent compared to the state average of 4.5 percent.
- Lower indicated child abuse and neglect rate in 1995 - 8.2 per 1,000 in the region compared to the state average of 9.6 per 1,000.

Only one economic indicator in the Northeast Region is higher than the state average.

- Higher percent of the population receiving food stamps in 1996 - 13.2 percent in the region compared to the state average of 12.5 percent.

The other three economic indicators are lower in the Northeast Region than the state average.

- Lower per capita income in 1994 - \$16,843 in the region compared to the state average of \$19,450.
- Lower percent of children who received AFDC in FY 1995-96 - 10.5 percent in the region compared to the state average of 13.5 percent.
- Lower percent of students participating in the free and reduced-price school lunch program in school year 1995-96 - 33.9 percent in the region compared to the state average of 35 percent.

The East Tennessee Regional Council on Children and Youth

The East Tennessee Region is primarily rural, with the exception of Knoxville/Knox County, and culturally has a strong Appalachian flavor. The region is composed of Anderson, Blount, Campbell, Claiborne, Cocke, Grainger, Hamblen, Jefferson, Knox, Loudon, Monroe, Morgan, Roane, Scott, Sevier, and Union counties. This region is located in the valley of the Tennessee River, bordered to the north by Kentucky, to the south by the Smoky Mountains, to the east on the line from Claiborne to Cocke County, and to the west by the Cumberland Plateau.

The region's population is 912,201, according to 1995 population estimates by the University of Tennessee. The population by race is 857,764 white (94 percent), 45,245 African American (5 percent), and 9,210 other races (1 percent). The regional population less than 18 years is 215,046. The population under 18 years by race is 198,383 (92.2 percent) white, 13,949 (6.5 percent) African American, and 2,714 (1.3 percent) other races.

Council History

The East Tennessee Council on Children and Youth was organized in the early 1980s to work in coordination with the Tennessee Children's Services Commission and to promote community education and awareness of issues affecting children and their families. The East Tennessee Council has provided a forum for children's services professionals, state agencies, special interest groups, parents, and concerned citizens to interact and network to better service provision.

The East Tennessee Council on Children and Youth has had three regional coordinators, Dr. Mary (Mame) MacIllwain, Mrs. Julie Burnette, and Mr. Robert E. Smith, since its inception.

Council Structure

The East Tennessee Council on Children and Youth operates under a set of bylaws developed by the council's general membership. This document is reviewed regularly and updated as needed.

The four committees that serve The East Tennessee Council are listed below:

- ✓ The **Executive Committee** is the governing body of the East Tennessee Council. The four elected officers (president, president elect, secretary, and treasurer), the immediate past president, and the chairpersons of the four standing committees make up this body. The four elected officers are elected by the general membership, while the chairpersons of the four standing committees are selected by the respective committee.
- ✓ The **Nominating Committee** identifies and recruits members to serve the East Tennessee Council as officers for the upcoming year. This committee presents a slate of candidates for each office to the general membership. The new officers are installed at the annual **Business Meeting**, traditionally held on the first Wednesday in May.

✓ **The Membership/Public Relations Committee** plans strategies, as needed, to recruit new members from the 16-county region of East Tennessee. In addition, this committee assists other standing committees and special task forces in publicizing programs and special events.

✓ **The Legislative/Public Policy Committee** tracks local, state, and federal legislation concerning or having an effect on children, youth, and families. It prepares and disseminates positions on such public policy issues and actively advocates for the best interest of children and youth.

✓ **The Juvenile Justice/Community Education Committee** plans and organizes professional and community education programs on various issues relating to children and youth including juvenile justice, adolescent pregnancy, early intervention, child abuse prevention, and how to be an effective advocate.

In recent years, the membership of the East Tennessee Council has risen from an average of 190 individuals and agency representatives to a current total of 374 members.

Council Awards

In 1992, the East Tennessee Council on Children and Youth renamed its annual award, The Dr. Mary (Mame) MacIllwain Advocate of the

Year Award, in honor of the long-time East Tennessee regional coordinator who retired at that time.

The recipient of this award must be a member in good standing with the council (i.e., have paid dues and have been active in the council), and be actively involved in advocacy for children and their families above and beyond regular professional or personal requirements.

Nominations for this award must be received prior to March 15 for presentation to the general membership and are voted on at the April meeting of the council. The award is presented at the annual Business Meeting in May.

Council Budget

The East Tennessee Council on Children and Youth charges minimal membership fees of \$2.00 for students, \$5.00 for individuals, and \$20.00 for agencies enrolling up to five members.

In addition, some funds are raised via registration fees at council special events and seminars, but these funds are minimal due to the council's desire to provide educational opportunities at or near cost. Finally, the council receives an allocation of funds in the TCCY budget.

East Tennessee Regional Data Summary

Composite Ranking - 2nd

Two out of seven health indicators are higher in the East Tennessee Region compared to the state as a whole.

- Higher percent of the total population enrolled in TennCare in 1995 - 23.9 percent in the region compared to the state average of 22.7 percent.
- Higher teen violent death rate in 1995 - 94.7 per 100,000 teens ages 15-19 in the region compared to the state average of 91.8 per 100,000.

The other five health indicators in the East Tennessee Region are lower than the state average.

- Lower percent of births lacking adequate prenatal care in 1995 - 17.5 percent in the region compared to the state average of 27.3 percent.
- Lower percent of low-birth-weight babies born in 1995 - 8.1 percent in the region compared to the state average of 8.7 percent.
- Lower infant mortality rate in 1995 - 8.2 per 1,000 live births in the region compared to the state average of 9.3 per 1,000 live births.

- Lower child death rate in 1995 - 27.8 per 100,000 children ages 1-14 compared to the state average of 32.7 per 100,000.

- Lower teen pregnancy rate in 1995 - 48 per 1,000 females ages 15-17 compared to the state average of 55.8 per 1,000.

Two of the five social indicators in the East Tennessee Region are higher than the state average.

- Percent of students receiving special education in 1995 - 20.1 percent in the region compared to the state average of 18.3 percent.
- Indicated child abuse and neglect rate in 1995 - 9.7 per 1,000 in the region compared to the state average of 9.6 per 1,000.

Three of the five social indicators in the East Tennessee Region are lower than the state average.

- Lower percent of high school dropouts in school year 1995-96 - 4 percent in the region compared to the state average of 4.5 percent.
- Lower percent of children under 18 referred to juvenile court in 1996 - 3.9 percent in the region compared to the state average of 5.1 percent.

- Lower rate of children in state care in FY 1995-96 - 8.4 per 1,000 in the region compared to 9.0 - the state average.

Three of the four economic indicators are lower in the East Tennessee Region than the state average.

- Lower per capita income in 1994 - \$18,224 in the region compared to \$19,450 - the state average.
- Lower percent of children getting AFDC in FY 1995-96 - 11.7 percent in the region compared the state average of 13.5 percent.

- Lower percent of students participating in the free or reduced-price lunches in school year 1995-96 - 33 percent in the region compared to the state average of 35 percent.

One economic indicator is higher than the state average.

- Higher percent of population receiving food stamps in 1996 - 12.8 percent in the region compared to the state average of 12.5 percent.

THE SOUTHEAST TENNESSEE COUNCIL ON CHILDREN AND YOUTH

Ten counties make up the Southeast region that borders Georgia, Alabama, and North Carolina. The counties are Bledsoe, Bradley, Grundy, Hamilton, Marion, McMinn, Meigs, Polk, Rhea, and Sequatchie. Chattanooga, the state's fourth largest city, sits along the bank of the Tennessee River in the southeastern corner of the state.

The region's total population is 505,551, according to 1995 population estimates by the University of Tennessee. The total population by race is 438,144 (86.7 percent) white, 62,183 (12.3 percent) African American, and 5,224 (1 percent) other races. For children under 18 years, the population is 122,995. The population of children under 18 by race is 101,100 (82.2 percent) white, 20,268 (16.5 percent) African American, and 1,627 (1.3 percent) other races.

The Southeast Tennessee Council on Children and Youth works with other regional advocacy groups, such as the local Association on the Education of Young Children, the Southeast Tennessee Association on Child Care, and the Southeast Tennessee Conference on Social Welfare. Many of the members in the Southeast Council are members of all or some of the other groups. This strengthens the Southeast's advocacy efforts.

Council History

The Southeast Tennessee Council on Children and Youth has its roots in the Office of Child Development and the International Year of the Child. The regional council started in the Southeast in 1978 with the Tennessee Children's Services Commission. The council has a history

of legislative advocacy. In the beginning, the Legislative Committee met every week during the legislative session and provided advocacy training.

Early childhood issues were the focus of the council's initial activities. In 1978, juvenile justice issues became a part of the council's work when the Tennessee Children's Services Commission and the Juvenile Justice Commission were merged into TCCY.

Council membership and influence have grown over the years. With the Juvenile Justice Delinquency Prevention grants, Kids Count Project publications, training opportunities, workshops, and networking meetings, the council touches hundreds of people throughout the region.

The council's activities and accomplishments include:

- 1989 Attended the first annual Children's Advocacy Day in Nashville.
- 1993 Sponsored/participated in local events during the Select Committee on Children and Youth's Chattanooga visit. Hearings and visits on early childhood initiatives were among the activities.
- Held a truancy prevention forum.
- Held a forum for the region's rural counties.
- 1994 Provided the Department of Human Services' Policy and Procedure Manual to Foster Care Association members. Included foster parents in leadership and legislative meetings.

- 1995 Developed an information and referral resource directory to be updated yearly for legislators, media, and advocates. Provided funds for Dream Houses to be built for children at four sites.
- 1996 Co-sponsored a "Children and Families First Forum" with the Tennessee Conference on Social Welfare, United Way, Invest in Children, The Department of Human Service, Chattanooga's Metropolitan Council, and Family and Children's Services. Presentations were made by Commissioners from the Departments of Children's Services, Education, and Human Services.
- Co-Sponsored with the Upper Cumberland Council on Children and Youth a one-day forum, "Youth with Serious Emotional Disorders - A Different Approach."
- 1997 Held a legislative reception and open house with legislators from four rural counties, other elected officials, and educational personnel.
- Tommy Perkins of Chattanooga received the Second Annual Jim Pryor Child Advocacy Award from TCCY.
- Hosted the Disproportionate Minority Confinement Task Force's public hearing on "Minority Juveniles in Confinement."
- Sponsored a presentation on the southeast regional family resource centers. Seven family resource center directors discussed their centers and related efforts.
- 1998 Participated in TCCY's Children's Advocacy Day with 23 advocates from Chattanooga to bring issues of concern before the legislative delegation.
- Sponsored a joint training meeting on gang violence with the Southeast Tennessee Association on Child Care.
- Hosted the second Disproportionate Minority Confinement Task Force's public hearing on "Solutions: Highlights of Prevention, Intervention and Diversion Programs."
- Council Structure**
- The Southeast Council is has developed by laws that provide structure for the council. Council officers and committee chairs and co-chairs are elected by the general membership. The committees of the councils are listed below:
- ✓ The Executive Committee made up of four elected officers (the president, vice president, secretary, and treasurer) and the chairs and co-chairs of the Legislative, Public Relations, Hospitality, and Membership and Nominations/Awards committees. Terms are usually for two years.
 - ✓ The Legislative Committee tracks legislation and public policy about children, youth, and families. The committee develops positions on bills and other policies and articulates the council's positions and concerns to the general membership, members of the legislature, and other policy-making bodies.
 - ✓ The Juvenile Justice/Youth Issues Committee promotes and encourages initiatives and programs, provides training on issues, and disseminates current and relevant information.
 - ✓ The Membership Committee works to increase council membership through publicizing events, awards, and purpose of the council.

- ✓ **The Public Relations Committee** provides hospitality and refreshments at all council and Commission events.
- ✓ **The Hospitality Committee** works with the Public Relations Committee by providing hospitality and refreshments at council and Commission events. This committee, also, provides these activities at many other collaborative events in the community.
- ✓ **The Nominations/Awards Committee** prepares and presents the slate of officers and committee chairs for election. This committee also coordinates councils' awards program that promotes recognition of outstanding individuals in the council.

The Hiwassee Council on Children and Youth

The **Hiwassee Council on Children and Youth**, a sub-regional council, covers the five northeastern counties, Bradley, McMinn, Polk, Meigs, and Rhea. The council has separate meetings in Bradley County and participates in the Southeast Council's meetings.

The president of the Hiwassee Council is a member of the Southeast Council's Executive Committee. The Hiwassee Council's committees function similarly to those of the Southeast Council.

The executive committee of the Hiwassee Council has three officers (president, vice president and secretary) and four committee chairs (Legislative, Public Relations, Membership, and Nominations/Awards).

Council Awards

The **Outstanding Service Award** is presented annually by the Southeast Tennessee Council on Children and Youth and the Hiwassee Council on Children and Youth to recognize a member from each council for outstanding service. A nominee must be an active member of either council; have worked more than 10 years in the social services or education field; and have served beyond the regular call of duty. The recipient is honored in May at the end of the council year.

The **Child Advocacy Award** is presented to recognize an individual's years of advocacy efforts for children, youth, and families. The Executive Committees of the Southeast Council and the Hiwassee Council occasionally collaborate to honor an individual.

Council Budget

The council receives membership fees of \$10 for individuals; \$20, agencies, which are allowed two voting members; \$5, students; and \$100, corporate organizations, which are allowed two voting members and unlimited attendance. The council also receives an annual allocation from the legislature through the TCCY budget.

The Hiwassee Council's budget is operated through the Southeast Council's treasury. Membership fees are paid to the Southeast Council. Any member or agency that resides in or provides services to the five-county Hiwassee area automatically is included in the Hiwassee Council.

Southeast Regional Data Summary

Composite Ranking - 7th

Three of the seven health indicators in the Southeast Region are higher than the state average.

- Higher percent of births lacking adequate prenatal care in 1995 - 31.6 percent in the region compared to the state average of 27.3 percent.
- Higher child death rate in 1995 - 35.7 per 100,000 children ages 1-14 in the region compared to the state average of 32.7 per 100,000.
- Higher teen pregnancy rate in 1995 - 56.9 per 1,000 females ages 15-17 in the region compared to the state average of 55.8 per 1,000 females.

One health indicator is the same as the state average. The percent of the population enrolled in TennCare in 1996 in the region and the state average was 22.7 percent.

The other three health indicators were lower in the Southeast Region compared to the state average.

- Lower percent of low-birth-weight babies born in 1995 - 8.4 percent in the region compared to the state average of 8.7 percent.

- Lower infant mortality rate in 1995 - 9.2 per 1,000 live births compared to the state average of 9.3 per 1,000 live births.
- Lower teen violent death rate in 1995 - 53.7 per 100,000 teens ages 15-19 compared to the state average of 91.8.

Four of the five social indicators in Southeast Tennessee are higher than the state average.

- Higher percent of students receiving special education in 1995 - 19.6 percent in the region compared to the state average of 18.3 percent.
- Higher percent of high school (grades 9-12) dropouts in school year 1995-96 - 5 percent in the region compared to the state average of 4.5 percent.
- Higher indicated child abuse and neglect rate in 1995 - 11.5 per 1,000 in the region compared to the state average of 9.6 per 1,000.
- Higher rate of children in state care in FY 1995-96 - 11.8 per 1,000 in the region compared to the state average of 9 per 1,000.

Only one social indicator is lower in the Southeast Region than the state average.

- Lower percent of children under 18 referred to juvenile court in 1995 - 4.3 percent in the region compared to the state average of 5.1 percent.

Two out of four economic indicators in the Southeast Region were higher than the state average.

- Slightly higher per capita income in 1994 - \$19,492 in the region compared to the state average of \$19,450.

- Higher percent of the population receiving food stamps in 1996 - 13.5 percent in the region compared to the state average of 12.5 percent.

The other two economic indicators are lower in the Southeast Region than the state as a whole.

- Slightly lower percent of children under 18 who received AFDC in FY 1995-96 - 13 percent in the region compared to the state average of 13.5 percent.
- Lower percent of students participating in the free and reduced-price school lunch program in school year 1995-96 - 33.6 percent in the region compared to the state average of 35 percent.

THE UPPER CUMBERLAND COUNCIL ON CHILDREN AND YOUTH

The Upper Cumberland region is composed of 14 counties in the northeastern portion of Middle Tennessee. The region covers 5,093 square miles and has a total population of approximately 280,000. All 14 counties in the region have been officially designated Appalachian by the Appalachian Regional Act of 1965 and subsequent amendments. The counties in the region include Cannon, Clay, Cumberland, DeKalb, Fentress, Jackson, Macon, Overton, Pickett, Putnam, Smith, Van Buren, Warren, and White.

The region's total population is 259,510, according to 1995 population estimates by the University of Tennessee. The total population by race is 253,510 (97.8 percent) white, 3,753 (1.4 percent) African American, and 1,938 (0.8 percent) other races. The population for children under 18 is 61,512. The region's population under 18 years by race is 60,055 white (97.6 percent), 963 (1.6 percent) African American, and 494 (0.8 percent) other races.

Council History

The Upper Cumberland Regional Council on Children and Youth was organized in response to the Child Development Act of 1974. It is an independent, incorporated, voluntary association of advocates for children and families. Membership includes service providers from state departments, private agencies, and local governments, and other interested individuals from the 14-county Upper Cumberland Region.

The council, which meets regularly to provide an opportunity for information sharing and networking, has initiated parenting education projects, health fairs, public awareness campaigns, and forums on a variety of issues, including child abuse prevention, juvenile court issues, health and safety, early childhood issues, education issues, and legislative advocacy. Specific accomplishments include:

- 1985 Coordinated a seven-week course in "Parenting of Teens and Toddlers" with the assistance of 26 community volunteers and resource people.
- 1986 Sponsored the "Hunt for Health," a family health fair and screening with over 500 participants.
- 1987 Sponsored a series of classes for child care workers and parents of young children in conjunction with the Week of the Young Child.
- 1988 Sponsored a series of teacher in-service trainings on children in foster care.
- 1988 Co-Sponsored a Child Abuse Prevention Public Awareness Campaign.
- 1989 Sponsored the Kimberley Project to visit three schools.
- 1993 Sponsored a conference on "School Dropout Prevention and Education Reform."
- 1995 Sponsored the Juvenile Justice Truancy Forum.
- 1995 Sponsored Advocacy Training Workshop and, in June, a "Battle of the Bands" teen awareness event.
- 1997 Initiated annual Upper Cumberland Networking Conference on "The State of the Child in the Upper Cumberland."

Council Structure

Approximately 150 council members represent agencies, government, and providers from the 14 counties in the region.

The council works through its Executive Committee and standing committees. Membership on standing committees is open to any interested council member. Chairpersons are appointed annually by the Executive Committee. The committees are as follows:

- ✓ The **Executive Committee** is composed of the council officers and appointed standing committee chairpersons. The immediate past president of the council is a voting member of this committee. The Executive Committee acts on all matters arising in the interval between regular council meetings and reports its actions at the next council meeting. The budget is planned and approved by this committee annually. The Executive Committee plans, advises, and organizes the activities of the council for the year.

- ✓ The **Program Committee** identifies topics of interest to the council and recruits presenters for monthly forums September through May each year. This committee also coordinates and plans special projects of the council with the appropriate standing committee. The Executive Committee currently performs the duties of this committee.

- ✓ The **Membership Committee** is responsible for the development of membership and hospitality at meetings. This committee provides new member orientation and promotes the council throughout the 14-county region.

- ✓ The **Nominating Committee** presents a slate of suggested officers for the following year and is in charge of the annual awards nomination and presentation. The outgoing immediate past president appoints this committee at the April meeting.

- ✓ The **Legislative Committee** establishes a line of communication with area legislators in a variety of ways, including planning and hosting legislative receptions, coordinating a legislative alert telephone network, and coordinating Children's Advocacy Day participation.

- ✓ The **Youth Issues Committee** plans and coordinates training and special events that promote the welfare of youth in the community.

Council Awards

Each year the council gives members an opportunity to recognize an individual who has demonstrated outstanding service to children and families in the region. These individuals have made a difference in improving or expanding services to children and youth. The nominator must be a member of the council, but the nominee does not. Nominees must have lived in the region at least one year.

Criteria for selection include length of service, scope of service, and impact. Certificates of recognition are presented to all nominees. The award and certificates are presented at the annual May meeting.

Council Budget

The Executive Committee plans the council's budget annually. The council receives an annual allocation from the TCCY budget. The

committee determines how to spend the state allocation and establishes the amount of dues. Dues are currently \$10.00 for an individual membership and \$50 for an agency with five to 10 voting members.

Upper Cumberland Regional Data Summary

Composite Ranking - 5th

- Three of the seven health indicators in the Upper Cumberland Region are higher than the state average.
 - Higher percent of total population enrolled in TennCare in 1995 - 26.9 percent in the region compared to the state average of 22.7 percent.
 - Higher child death rate in 1995 - 38 per 100,000 children ages 1-14 in the region compared to the state average of 32.7 per 100,000.
 - Higher teen violent death rate in 1995 - 96.9 per 100,000 in the region compared to the state average of 91.8 per 100,000.
- The other four health indicators are lower in the Upper Cumberland Region than the state average.
 - Lower percent of births lacking adequate prenatal care in 1995 - 26.5 percent in the region compared to the state average of 27.3 percent.
 - Lower percent of low-birth-weight babies born in 1995 - 7 percent in the region compared to the state average of 8.7 percent.
- Lower infant mortality rate in 1995 - 5.6 per 1,000 live births in the region compared to the state average of 9.3 per 1,000.
- Lower teen pregnancy rate in 1995 - 46.3 per 1,000 females ages 15-17 in the region compared to the state average of 55.8 per 1,000.
- Two out of five social indicators are higher in the Upper Cumberland Region than the state average.
 - Slightly higher indicated child abuse and neglect rate in 1995 - 9.8 per 1,000 in the region compared to the state average of 9.6 per 1,000.
 - Higher rate of children in state care in FY 1995-96 - 10.2 per 1,000 in the region compared to the state average of 9 per 1,000.
- The other three social indicators are lower in the Upper Cumberland Region than the state average.
 - Lower percent of students receiving special education in 1995 - 17.8 percent in the region compared to the state average of 18.3 percent.

- Lower percent of high school (grades 9-12) dropouts in school year 1995-96 - 2.6 percent in the region compared to the state average of 4.5 percent.

- Lower percent of children referred to juvenile court in 1995 - 5 percent in the region compared to the state average of 5.1 percent.

Only one out of four economic indicators in the Upper Cumberland Region is higher than the state average.

- Higher percent of students participating in free and reduced-price school lunch program in school year 1995-96 - 36.4 percent in the region compared to the state average of 35 percent.

The other three economic indicators are lower in the Upper Cumberland Region than the state average.

- Lower per capita income in 1994 - \$15,457 in the region compared to the state average of \$19,450.
- Lower percent of children under 18 who received AFDC in FY 1995-96 - 8.9 percent in the region compared to the state average of 13.5 percent.
- Slightly lower percent of the population receiving food stamps in 1996 - 12.4 percent in the region compared to the state average of 12.5 percent.

The Mid-Cumberland Council on Children and Youth

Tennessee's Mid-Cumberland region has rolling hills, flat land, high cliffs, caves, dense forests, rivers and several large lakes. The region is composed of 13 counties, Cheatham, Davidson, Dickson, Houston, Montgomery, Robertson, Rutherford, Stewart, Sumner, Trousdale, Williamson, and Wilson.

The state capital, Nashville, is a vital transportation, business, and tourism center for North America. In the state's center, the Nashville Metropolitan Statistical Area (MSA) comprises eight counties with over one million in population, almost one-fifth of the total state population. The Nashville MSA is within 600 miles of half the nation's population and three-quarters of the country's major markets. All or part of 27 states is within this 600-mile radius.

The region's robust broad-based economy has produced consistent growth for several decades. From this broad base, several business sectors stand out - the region's interrelated tourism, music, and entertainment industries, publishing, health care management, and transportation-equipment manufacturing. Top employers in the Mid-Cumberland region, excluding government agencies, are Vanderbilt University, Columbia/HCA Healthcare Corporation, Saturn Corp., Opryland USA (Gaylord Entertainment), and Nissan Motor Manufacturing Corp. USA.

Vigorous population growth characterizes this region. Rutherford and Williamson Counties rank among the 50 fastest growing counties in the United States, each county expanding its population by 50 percent within just 12 years after 1980. Rutherford and Williamson Counties are each expected to have population growth rates of about

31 percent between 1990 and 2000. Cheatham County may have an increase of about 28 percent in the same period, and all counties adjacent to Nashville are projected to grow 12 percent or more by 2000.

Nashville-Davidson County's growth is strong for an urbanized area. However, growth in the next decade is expected to be greatest in nearby counties. Reasons for growth in nearby counties are business relocation and expansion and greater opportunities for growth, according to the Nashville Chamber of Commerce.

The total regional population is 1,214,641, according to 1995 population estimates by the University of Tennessee. The population by race is 1,008,163 white (83 percent), 186,554 African American (15.4 percent), and 19,924 other races (1.6 percent). The population less than 18 years is 314,928. The youth population by race is 248,460 white (78.9 percent), 60,184 African American (19.1 percent), and 6,284 other races (2 percent).

Council History

In 1982, the Commission on Children and Youth established the Mid-Cumberland Council. Accomplishments of the council include:

- 1983 Sponsored legislative training featuring Senator Douglas Henry.
- 1987 Hosted a community meeting on teen pregnancy and parenting.

- 1988 Held membership meeting to increase public awareness of council activities.
Presented a workshop on "Working Together for Tennessee's Children."
Held public forums on welfare reform.
Presented a program on the Department of Youth Development.
- 1989 Sponsored a conference on the Middle Tennessee Model Teen Pregnancy Program.
Held training on the foster care review system.
Held a council meeting on the Children's Plan
- 1993 Presented a program on "Grassroots Advocacy."
Presented a program on "The Legislative Forecast for Our Children."
- 1994 Held a program on "TennCare and the Kids in Care."
- 1995 Sponsored a program on Family Resource and Child Advocacy Centers.
Held a council meeting on "The Federal Crime Bill and its Effect on Tennessee's Justice System."
Held the first Legislative Training Breakfast.
Held a council meeting with presentations by representatives of the Department of Children's Services and TennCare Partners.
- 1997 Sponsored a juvenile justice forum on Disproportionate Minority Confinement.
Hosted the Mid-Cumberland Networking Conference.
Held the Legislative Training Breakfast with opening remarks by Martha Sundquist, Governor Don Sundquist's wife.
Published the first issue of the Mid-Cumberland Outlook newsletter.

Council Structure

The Mid-Cumberland Council on Children and Youth has more than 400 members drawn from the 13 counties in the region.

The council structure is based on the bylaws, which can be amended by the general membership. The council's committees are listed below:

- ✓ The Executive Committee is the governing body of the council. The committee four elected officers (president, vice president, secretary, and treasurer). This committee develops policies and guidelines for the council and works with the regional coordinator to identify and address needs of children and families in the region.
- ✓ The Legislative Committee monitors legislation and public policy related to children and youth and coordinates the council's advocacy efforts.
- ✓ The Public Relations Committee assists in publicizing council activities and promotes and implements the membership drive annually.
- ✓ The Juvenile Justice Committee provides a forum for people involved with the juvenile justice system to identify, examine, and address issues of concern and facilitates the provision of training to support continued improvement in the juvenile justice system.

✓ **The Child Welfare Committee** examines and assesses the system as it impacts families and children that are in state custody or at imminent risk of such and makes recommendations for improvement of the foster care system in the region.

✓ **The Child and Adolescent Health Committee** assesses and examines the health needs of children and youth; identifies gaps and barriers within health service delivery models; and makes recommendations for health service in the region.

Council Awards

The Mid-Cumberland Council presents the Child Advocacy Award annually year at the Legislative Breakfast. Nominations are accepted

from council members only. The 1996-97 Mid-Cumberland Council Child Advocate of the year award winner was Pam Stanley, executive director of TRAC, Inc., a residential treatment center.

Council Budget

The council receives an annual allocation from the TCCY budget and also receives membership dues. The membership fee is \$10.00 for an individual membership. Agency memberships are as follows: \$25.00 for an agency of 25 employees or less (purchases three memberships); \$50.00 for an agency of 25-75 employees (purchases six memberships), and \$75.00 for an agency of 75 or more employees (purchases eight memberships).

Mid-Cumberland Regional Data Summary

Composite Ranking - 1st

- All seven health indicators are lower in the Mid-Cumberland Region than the state average.
- Lower percent of the total population enrolled in TennCare in 1995 - 17 percent in the region compared to the state average of 22.7 percent.
 - Lower percent of births lacking adequate prenatal care in 1995 - 21.1 percent in the region compared to the state average of 27.3 percent.
 - Slightly lower percent of low-birth-weight babies born in 1995 - 8.3 percent in the region compared to the state average of 8.7 percent.
 - Lower infant mortality rate in 1995 - 7.7 per 1,000 live births in the region compared to the state average of 9.3 per 1,000.
 - Lower child death rate in 1995 - 28.4 per 100,000 children ages 1-14 in the region compared to the state average of 32.7 per 100,000.
 - Slightly lower teen violent death rate in 1995 - 90.2 per 100,000 teens ages 15-19 in the region compared to the state average of 91.8 per 100,000.
 - Lower teen pregnancy rate in 1995 - 50.7 per 1,000 females ages 15-17 in the region compared to the state average of 55.8 per 1,000.
- Two of five social indicators in the Mid-Cumberland Region are higher than the state average.
- Slightly higher percent of children under 18 referred to juvenile court in 1995 - 5.3 percent in the region compared to the state average of 5.1 percent.
 - Slightly higher percent of high school dropouts in school year 1995-96 - 4.8 percent in the region compared to the state average of 4.5 percent.
- The other three social indicators are lower than the state average.
- Lower percent of students receiving special education in 1995 - 17 percent in the region compared to the state average of 18.3 percent.
 - Lower indicated child abuse and neglect rate in 1995 - 8.8 per 1,000 compared to the state average of 9.6 per 1,000.
 - Lower rate of children in state care in FY 1995-96 - 7.8 per 1,000 children compared to the state average of 9 per 1,000.

One of four economic indicators is higher in the Mid-Cumberland Region than the state was a whole.

- Higher per capita income in 1994 - \$22,015 in the region compared to the state average of \$19,450.

The other three economic indicators are lower in the Mid-Cumberland Region than the state average.

- Lower percent of children under 18 who received AFDC in FY 1995-96 - 10.3 percent in the region compared to the state average of 13.5 percent.

- Lower percent of the population to received food stamps in 1996 - 8.8 percent in the region compared to the state average of 12.5 percent.

- Lower percent of students participating in the free and reduced-price school lunch program - 26.4 percent in the region in school year 1995-96 compared to the state average of 35 percent.

THE SOUTH CENTRAL TENNESSEE COUNCIL ON CHILDREN AND YOUTH

The South Central Tennessee region is composed of 13 counties: Bedford, Coffee, Franklin, Giles, Hickman, Lawrence, Lewis, Lincoln, Marshall, Maury, Moore, Perry, and Wayne. The South Central Tennessee Council on Children and Youth and the TCCY coordinator work with representatives from each of the 13 counties. They also coordinate with representatives from other regions as in the case of Franklin County, which is served by both the South Central and the Southeast regions.

The region's land mass covers 6,415 square miles, making it the state's second largest district. The total regional population is 333,036, according to 1995 population estimates by the University of Tennessee. The total regional population by race is 305,865 white (91.8 percent), 25,190 African American (7.6 percent), and 1,981 other races (0.6 percent). There are 85,261 children in the region under 18 years. By race, the regional child population is 77,076 white (90.4 percent), 7,555 African American (8.9 percent), and 630 other races (0.7 percent).

Council History

The South Central Tennessee Council on Children and Youth grew out of the Children's Agencies, Resources, Etc. or CARE committee formed in the mid-1980's by the Tennessee Children's Services Commission. In 1983, child advocates from Bedford County formed a small group to improve the quality of life for children and their families within the county using local resources. This group first expanded into Franklin. Individuals from other counties soon joined

until the South Central Tennessee Children's Services Council was formed.

In 1993, The Reality Project, a nationally recognized drug awareness program, was initiated. The program has had over 2,000 youth participants in all the counties of this region. Since the program began in 1993, the recidivism rate of youth who return to court for violation of Tennessee's Drug Free Youth Act has been reduced 10 percent.

A brief history of the council includes:

- 1984 CARE Committee held the first preschool screening for at-risk children at the Bedford County Health Fair.
- Developed a *Guide to Community Services for Children*.
- 1985 Refined and developed the screening tool for at-risk children.
- Presented a child abuse prevention workshop, featuring Dr. Phil Quinn, author of *Cry Out*.
- 1986 Formed Franklin County CARE Committee.
- Held preschool screenings in Bedford and Franklin counties.
- 1987 CARE Committees organized to form South Central Tennessee Children's Services Council.
- Conducted the first regional priority issues survey
- Held various events on legislation, mental retardation, prevention programs, and juvenile justice.
- Held the Child Protection Day project with more than 10 agencies.

- 1988 Renamed the council the South Central Council on Children and Youth. Collaborated on a statewide inventory of children's services agencies.
Held legislative training and participated in TCCY's first Children's Advocacy Day.
- 1990 Held training on grant writing and legislative advocacy.
Sponsored the first regional conference, "A Call to Action."
Participated in statewide priority setting survey.
Developed position papers on dropouts and teen pregnancy.
Established a teen pregnancy task force.
- 1991 Adopted the council's bylaws and policy statement.
Developed and implemented a long-range plan for the council.
Completed the Profile of Students in Maury County project.
Held "Caring for Children" conference.
Council produced and distributed a preschool services directory.
- 1992 Hosted the Regional Interagency Council Meeting and Breakfast.
Conducted a juvenile justice forum.
Held a regional conference introducing "Building Positive Assets."
- 1993 Held regional grant-writing training.
Sponsored mini-workshops on drug prevention.
Held a conference on family resource centers and Home Ties programs.
Began The *Reality* Program.
- 1994 Hosted a juvenile justice forum.
- 1995 Conducted a Profile of Students in Coffee County project.
Presented workshop on the Disproportionate Minority Confinement.
- 1996 Introduced various programs into all the region's counties including Communities that Care: Healthy Communities - Healthy Children; Success is a Thinking Skill; and Building Positive Assets in Children and Youth.
Conducted the Summer Fun Festival showcasing resources for children and their families.
- 1997 Coordinated/co-sponsored Teen Summit '97 and Mini-Teen Institute.
- Council Structure**
- The council now has over 250 members. It also includes members from other counties who serve the children of this area or are interested in the work of the council. The committees of the South Central Tennessee Council on Children and Youth and their purposes are listed below:
- ✓ The **Executive Committee**, chaired by the council president, is the governing body of the council that plans the programs and carries out a minimum of four quarterly meetings per year.
 - ✓ The **Legislative Committee** keeps the council and area members informed on legislative issues, prepares and presents position papers, contacts legislators on behalf of the council, participates in Children's Advocacy Day, and performs other legislative functions.
 - ✓ The **Juvenile Justice Committee** keeps the council and other child advocates informed on all juvenile justice issues, provides technical assistance, special programs, workshops, and assists

TCCY in complying with the mandates of the Juvenile Justice and Delinquency Prevention Act.

- ✓ The **Nominating Committee** assists the Executive Committee in maintaining a slate of officers.
- ✓ The **Membership Committee** assists in identifying and recruiting key people from each of the counties.
- ✓ The **CARE Committee** works on special projects dealing with youth issues, especially in the area of prevention.

Council Awards

An award for Child Advocate of the Year is presented each year. To be considered for selection, a council member should have been in

good standing for a minimum of two years, support the goals and activities of the council, serve in a leadership capacity in the council, and be involved in community service beyond the scope of a professional position.

Another award is the Children's Service Award. To be considered for this award, a council member must be in good standing for a minimum of two years, support the goals and activities of the council, and be involved in community service beyond the scope of a professional position.

Council Budget

Council funds are generated through membership dues of \$10.00 per individual, an annual allocation in the TCCY budget, and conference fees.

South Central Regional Data Summary

Composite Ranking - 6th

- Two of the seven health indicators are higher in the South Central Region than the state as a whole.
 - Lower infant mortality rate in 1995 - 7.6 per 1,000 live births in the region compared to the state average of 9.3 per 1,000 live births.
 - Lower teen pregnancy rate in 1995 - 49.1 per 1,000 females ages 15-17 in the region compared to the state average of 55.8 per 1,000.

- Higher child death rate in 1995 - 45.2 per 100,000 children ages 1-14 in the region compared to the state average of 32.7 per 100,000.
- Higher teen violent death rate in 1995 - 127.8 per 100,000 teens ages 15-19 in the region compared to the state average of 91.8 per 100,000.

Three out of five social indicators are higher in the South Central Region than the state as a whole.

- The other five health indicators are lower in the South Central Region than the state as a whole.
 - Higher percent of students receiving special education in school year 1995-96 - 19.3 percent in the region compared to the state average of 18.3 percent.

- Lower percent of the total population enrolled in TennCare in 1995 - 21.7 percent in the region compared to the state average of 22.7 percent.

- Higher indicated child abuse and neglect rate in 1995 - 10.1 per 1,000 in the region compared to the state average of 9.6 per 1,000.

- Slightly lower percent of births lacking adequate prenatal care in 1995 - 27.1 percent in the region compared to the state average of 27.3 percent.

- Higher rate of children in state care in FY 1995-96 - 10 per 1,000 in the region compared to the state average of 9 per 1,000.

- Slightly lower percent of low-birth-weight babies born in 1995 - 8.2 percent in the region compared to the state average of 8.7 percent.

Two of the five social indicators are lower in the South Central Region than the state average.

- Slightly lower percent of high school (grades 9-12) dropouts in school year 1995-96 - 4.3 percent in the region compared to the state average of 4.5 percent.
- Slightly lower percent of children under 18 referred to juvenile court in 1995 - 5 percent in the region compared to the state average of 5.1 percent.

All four economic indicators in the South Central Region are lower than the state average.

- Lower per capita income in 1994 - \$16,914 in the region compared to the state average of \$19,450.

- Lower percent of children under 18 who received AFDC in FY 1995-96 - 9 percent in the region compared to the state average of 13.5 percent.
- Lower percent of the population receiving food stamps in 1996 - 11.2 percent in the region compared to the state average of 12.5 percent.
- Lower percent of students participating in the free and reduced-price school lunch program in school year 1995-96 - 30.8 percent in the region compared to the state average of 35 percent.

THE NORTHWEST COUNCIL ON CHILDREN AND YOUTH

Tennessee's northwestern counties of Benton, Carroll, Crockett, Dyer, Gibson, Henry, Lake, Obion, and Weakley form the Northwest Tennessee region. The most outstanding features of this nine-county region are its water-related resources. A unique natural feature of Northwest Tennessee is Reelfoot Lake, which was formed by an earthquake in 1811. The region also boasts of two other outstanding features - what is believed to be the world's largest pecan tree is located in Carroll County, and the largest known cypress tree, more than 1,300 years old, is located in Weakley County.

The nine-county region is predominantly rural, with a total population of 231,473, according to 1995 population estimates by the University of Tennessee. The regional population by race is 201,439 white (87 percent), 28,867 African American (12.5 percent) and 1,167 other races (0.5 percent). The regional population less than 18 years is 55,291. The regional population under 18 by race is 45,809 (82.8 percent) white, 9,170 (16.6 percent) African American, and 312 (0.6 percent) other races.

The manufacturing industry employs the largest number of people in the region. The service sector employs the second largest group of individuals; this includes tourist-related facilities.

Council History

The Northwest Council on Children and Youth was organized in 1982. The council was formed to work with the Tennessee Children's Service Commission. Over the years the council has worked to increase community awareness of children's issues, provide local

education and training, and advocate for policies and programs to promote the overall well-being of children and youth.

Some of the council's activities and accomplishments include:

- 1989 Council members attended the first annual Children's Advocacy Days in Nashville.
- 1992 Sponsored the first annual juvenile justice forum on "The Changing Needs In The Juvenile Justice System."
- 1993 Sponsored the first Children and Youth Spring Conference, including workshops for 150 students who were selected by local school officials to attend.
- Sponsored Truancy Prevention Training.
- Hosted Outstanding Advocate of the Year Awards Luncheon.
- Sponsored the first two-day Annual Fall Conference.
- 1994 Sponsored Legislative Forum and hosted the first Legislative Luncheon.
- Sponsored workshops, "New Approaches to Education, Youth Violence Conference" and "Secure Detention Facility Training."
- Sponsored the first joint conference with the Tennessee Conference on Social Welfare.
- Council hosted Outstanding Advocate of the Year Awards Luncheon.
- 1995 Sponsored workshops on "Preventing Violence in the Classroom," "Serious Juvenile Offenders," and "Legislative Training."
- Sponsored "Gangs In Our Communities Juvenile Justice Forum."

- 1996 Hosted Outstanding Advocate of the Year Awards Luncheon. Sponsored workshops on "Welfare Reform," "Teen Suicide," and "Grant Writing Training."
- Hosted Outstanding Advocate of the Year Awards Luncheon. Co-sponsored first joint Youth Conference with Southwest Council on Children and Youth.
- 1997 Sponsored the first annual Juvenile Justice and Legislative Mini-conference.
- Hosted Outstanding Advocate of the Year Awards Luncheon.
- Sponsored workshops on "Department of Children's Services Transition Update," "Using Volunteers and Developing Mentoring Programs," and "Grant-Writing Training."

Council Structure

The council's current membership of 198 persons represents the entire Northwest Region.

The council has bylaws that are amended when necessary by the general membership. Council officers are elected by the general membership. Committee chairpersons are selected by the Executive Committee.

The committees of the Northwest Council on Children and Youth are listed below:

- ✓ The **Executive Committee** is composed of four elected officers (president, vice president, secretary, and treasurer), the past president, and the five committee chairpersons.

- ✓ The **Legislative Committee** coordinates all legislative activities, forums, and telephone trees; works with the Executive Committee and regional coordinator to implement the council's legislative position.

- ✓ The **Membership Committee** works to increase council awareness through public relations activities with the emphasis on recruitment of new members.

- ✓ The **Juvenile Justice Committee** plans and implements special programs and projects to increase the awareness of delinquency problems and possible solutions.

- ✓ The **Prevention/Education Committee** plans and implements region-specific projects and plans programs to meet region-specific needs for information and training.

- ✓ The **Program Committee** plans program topics, speakers, and special events calendar for council activities.

Council Awards

The Northwest Council on Children and Youth sponsors an annual Outstanding Advocate of the Year Awards Luncheon. In addition to the Outstanding Advocate Award, an Outstanding Professional Advocate Award is presented. The Executive Committee also recognizes an outstanding group that provided exceptional services to children and youth throughout the year.

To be nominated for this award, the nominee must be a council member in good standing, be involved in community service work, and demonstrate outstanding advocacy efforts. The nominations are due by May 31st, and the Awards Luncheon is held in June.

150

Council Budget

The council's annual membership fee is \$7.00. The council also receives a nominal annual allocation in the TCCY state budget. Funds are also generated from conference fees and special events.

Northwest Regional Data Summary

Composite Ranking -4th

Four of the seven indicators are higher in the Northwest Region than the state as a whole.

- Higher percent of total population enrolled in TennCare in 1995 - 23.7 percent in the region compared to the state average of 22.7 percent.
- Higher percent of births lacking adequate prenatal care in 1995 - 33.7 percent in the region compared to the state average of 27.3 percent.
- Higher percent of low birth weight babies in 1995 - 9 percent in the region compared to the state average of 8.7 percent.
- Higher child death rate in 1995 - 35.2 per 100,000 children ages 1-14 in the region compared to the state average of 32.7 per 100,000.

Three of the seven health indicators in the Northwest Region are lower than the state average.

- Lower infant mortality rate in 1995 - 7 per 1,000 live births in the region compared to the state average of 9.3 per 1,000 live births.

- Lower teen pregnancy rate in 1995 - 55.6 per 1,000 females ages 15-17 in the region compared to the state average of 55.8 per 1,000.

- Lower teen violent death rate in 1995 - 85.1 per 100,000 teens ages 15-19 in the region compared to the state average of 91.8 per 100,000.

One of the five social indicators is higher in the Northwest Region than the state as a whole.

- Indicated child abuse and neglect rate in 1995 - 10.1 per 1,000 in the region compared to the state average of 9.6 per 1,000.

Four of the five social indicators are lower in the Northwest Region than the state as a whole.

- Lower percent of students receiving special education in 1995 - 17.2 percent in the region compared to the state average of 18.3 percent.
- Lower percent of high school (grades 9-12) dropouts in school year 1995-96 - 2.8 percent in the region compared to the state average of 4.5 percent.

- Lower percent of children under 18 referred to juvenile court in 1995 - 4.2 percent in the region compared to the state average of 5.1 percent.
- Lower rate of children in state care in FY 1995-96 - 6.8 per 1,000 in the region compared to the state average of 9 per 1,000.

Two of four economic indicators in the Northwest Region are slightly higher than the state average.

- Slightly higher percent of population receiving food stamps in 1996 - 12.9 percent in the region compared to the state average of 12.5 percent.

THE SOUTHWEST TENNESSEE COUNCIL ON CHILDREN AND YOUTH

Southwest Tennessee is an 11-county region located in the southern part of West Tennessee and including Chester, Decatur, Fayette, Hardeman, Hardin, Haywood, Henderson, Lauderdale, McNairy, Madison, and Tipton counties. The center of the region is approximately one and a half hours from Memphis, the state's largest city, and two and one half hours from Nashville, the state's capital. Aside from Jackson, the only metropolitan center, the region is characterized by an abundance of prime farmland, forest areas, rivers, and streams dotted with dozens of small rural incorporated and unincorporated communities.

The total regional population is 301,401, according to the 1995 population estimates by the University of Tennessee. The total population by race is 224,227 white (74.4 percent), 75,687 African American (25.1 percent), and 1,487 other races (0.5 percent). The regional population less than 18 years is 81,443. The regional population under 18 years by race is 54,694 white (67.1 percent), 26,281 African American (32.3 percent), and 468 other races (0.6 percent).

Historically the region's economy has been largely agricultural, with a number of major manufacturing employers in each county. The area economy is changing and becoming more diversified, with jobs in wholesale, retail, and service.

Council History

The Southwest Tennessee Council on Children and Youth was organized in 1987. Since that time, the council has been instrumental not only in increasing community awareness of children's issues but also in having a positive influence on the children's services delivery system. The council has a laudable history of accomplishments.

- 1987 Hosted "Youth At Risk" Agency Fair in regional mall.
- 1988 Lobbied for School Health Nurse bill and hosted "Caring for Kids" Agency Fair.
- 1989 Members attended first Children's Advocacy Day in Nashville.
- Hosted statewide Showcase of Model Teen Pregnancy Prevention Programs.
- 1990 Hosted regional Teen Pregnancy Prevention Conference.
- Co-sponsored with Jackson-Madison County General Hospital "Accent on You" self-esteem building teen conference.
- Co-sponsored with Hospital Corporation of America "Children Having Children" conference.
- Developed a report card insert to promote positive reinforcement and discourage corporal punishment used in Jackson-Madison County Schools.
- 1991 Hosted mini-conference on Teen Parenting.
- Co-sponsored with Tennessee Conference on Social Welfare and Northwest Council on Children and Youth the Middle West Annual Regional Conference.
- 1992 Sponsored annual Legislator's Lunch Forum.

Sponsored a conference, Bridging the Gap, on substance abuse prevention.

1993 Co-sponsored Family Focus Conference with UT Extension Service.

Sponsored a juvenile justice forum on school violence.

1994 Hosted workshop for parents on inhalant abuse.

1995 Sponsored Gangs and Gang Involvement Juvenile Justice Forum.

1996 Co-sponsored the "Save Our Children" conference with the Northwest Council on Children and Youth.

1997 Co-sponsored "Preparing For the 21st Century" conference with the West Grand Division Tennessee Juvenile Court Services Association.

Hosted the "Teenage Violence and Crime" Juvenile Justice Forum.

Council Structure

The council has 194 members drawn largely from child-serving organizations in the 11-county Southwest region. The Council has bylaws that are amended, whenever necessary, by the general membership. The committees of the council are as follows:

- ✓ The **Executive Board** is composed of the four elected officers (chairperson, vice chairperson, secretary, and treasurer), committee chairpersons, and Commission members. Council officers are elected by the general membership, and committee chairpersons are elected/selected by the Council chairperson and Executive Board members.

- ✓ The **Bylaws Committee** informs the council of current bylaws and recommends necessary changes to Executive Board.

- ✓ The **Juvenile Justice Committee** identifies regional juvenile justice issues and gaps in services to this population and informs local, state, and national leaders of those needs.

- ✓ The **Legislative Committee** informs the council about legislation affecting children and families and represents the council's interests on issues to the legislature and Southwest community.

- ✓ The **Membership Committee** recruits members from a broad spectrum of individuals and agencies in Southwest Tennessee to advocate for children and youth.

- ✓ The **Public Relations Committee** informs media of council's events and critical children and youth issues.

Council Awards

The Southwest Tennessee Council on Children and Youth established an annual **Most Outstanding Children's Advocate** award in 1990. Council members in good standing nominate candidates for the award.

The candidates must demonstrate leadership and personal commitment to advocacy efforts for children and youth. They must also be involved in advocacy for children and youth beyond their regular professional duties.

The announcement of the winner is made annually at a quarterly council meeting. The winner is nominated for the statewide Jim Pryor Advocacy Award presented by TCCY.

Council Budget

The Council receives membership fees of \$10 for individual memberships and \$25 for agency memberships (up to four members). The council also receives a nominal annual allocation in the TCCY state budget.

Southwest Regional Data Summary

Composite Ranking - 9th

Six of the seven health indicators in the Southwest Region are higher than the state average. The remaining health indicator is equal to the state average.

- Higher percent of total population enrolled in TennCare in 1995 - 27.7 percent in the region compared to the state average of 22.7 percent.
- Higher percent of births lacking adequate prenatal care in 1995 - 37.2 percent in the region compared to the state average of 27.3 percent.
- Higher infant mortality rate in 1995 - 10.4 per 1,000 live births in the region compared to the state average 9.3 per 1,000 live births.
- Higher child death rate in 1995 - 42.5 per 100,000 children ages 1-14 in the region compared to the state average of 32.7 per 100,000.
- Higher teen violent death rate in 1995 - 125.7 per 100,000 teens ages 15-19 in the region compared to the state average of 91.8 per 100,000.
- Higher teen pregnancy rate in 1995 - 68.7 per 1,000 females ages 15-17 compared to the state average of 55.8 per 1,000.

- Percent of low birth weight babies in 1995 in the region is the same as the state average - 8.7 percent.

Four of the five social indicators are higher in the Southwest Region than the state as the whole. The fifth indicator, children referred to juvenile court, is equal to the state average - 5.1 percent.

- Higher percent of students receiving special education in 1995 - 18.9 percent in the region compared to the state average of 18.3 percent.
- Higher percent of high school (grades 9-12) dropouts in school year 1995-96 - 4.7 percent in the region compared to the state average of 4.5 percent
- Higher indicated child abuse and neglect rate in 1995 - 10.4 per 1,000 in the region compared to the state average of 9.6 per 1,000.
- Higher rate of children in state care in FY 1995-96 - 12.3 per 1,000 in the region compared to the state average of 9 per 1,000.

One of four economic indicators in the Southwest Region is lower than the state average.

- Lower per capita income in 1994 - \$16,077 in the region compared to the state average of \$19,450.

The other three economic indicators are higher in the Southwest Region than the state average.

- Higher percent of children who received AFDC in FY 1995-96 - 15.1 percent in the region compared to the state average of 13.5 percent.

- Higher percent of population receiving food stamps in 1996 - 16.7 percent in the region compared to the state average of 12.5 percent.

- Higher percent of students participating in the free and reduced-price school lunch program in school year 1995-96 - 48.4 percent in the region compared to the state average of 35 percent.

THE MEMPHIS/SHELBY COUNTY CHILDREN AND YOUTH COUNCIL

Memphis, in Shelby County, sits on the Mississippi River in the westernmost part of the state. It is as close to northern Mississippi and eastern Arkansas as it is to other parts of Tennessee. Memphis' cultural climate and, to some extent, its political philosophy, is influenced by this geographical placement.

Shelby County has a total population of 846,584, according to 1995 population estimates by the University of Tennessee. The county's population by race is 455,743 (53.8 percent) white, 379,093 (44.8 percent) African American, and 11,748 (1.4 percent) other races. The county's population less than 18 years is 239,296. The population under 18 years by race is 104,582 (43.7) white, 131,089 (54.8 percent) African American, and 3,625 (1.5 percent) other races.

The five largest employers in Memphis are Federal Express, Memphis City Schools, Memphis City Government, Baptist Memorial Hospital, and Shelby County Government.

Council History

The Memphis/Shelby County Children and Youth Council was organized in 1982 when a group of children's service providers formed the council so that it could work with the Tennessee Children's Services Commission. Since that time the council has been instrumental, not only in increasing community awareness of children's issues but also in having a positive influence on the children's services delivery system.

The council has a laudable history of accomplishments, including:

- 1983 Initiated annual developmental screening program for preschool children.
- 1984 Initiated an annual planning conference.
- 1985 Laid the groundwork for a teenage pregnancy prevention initiative by sponsoring a community meeting on *Life Planning*, a curriculum developed by the Center for Population Options to help teenagers learn to plan for parenthood and employment.
- 1986 Issued a policy paper advocating for an alternative school for pregnant teenagers.
- 1987 Memphis Tech High School became an alternative school for problem children, including pregnant teenagers.
- 1988 Hosted a reception for the Select Committee on Children and Youth during a meeting in Memphis.
- 1989 Sponsored the first annual Teen Conference for teens in state custody.
- Council and council coordinator received the Community Service Award for outstanding work in children and youth services at the St. Joseph Hospital 9th Annual Fall Conference.
- Members traveled to Nashville for the first annual Children's Advocacy Days.
- Sponsored Health Awareness Day at Dave Wells Community Center.

- 1990 Sponsored "Building Partnerships-Phase I: Facilitating Collaboration for Children With Special Needs in the Memphis/Delta District."
Sponsored a Legislative Reception for Shelby County Delegation.
Sponsored an Interagency Sharing Fair.
Developed a School Readiness Development Checklist that was printed in the Memphis City Schools' *Report To Parents*.
Sponsored the first annual Spring Training Conference. Developed and distributed a brochure, *1992 Campaign and Children's Issues- Where Do The Candidates Stand?*
Sponsored the first annual juvenile justice forum on School Violence.
Participated in National Civil Rights Museum Conference on Freedom, "It's the 21st Century - Do We Know Where Our Children Are?"
Sponsored the Immunization Workshop.
Sponsored workshops, "Recognizing Multiple Disabilities and Low Incidence Vision Impairments In Young Children" and "Recognizing Low Incidence Handicaps and Behavioral Problems In Children."
Hosted Suanne Brooks, regional administrator for Department of Health and Human Services, Office of Children and Families, at fourth annual spring conference.
Council sponsored the first annual Legislative Reception and Christmas Party.
Developed and distributed brochure *Children's Issues and the 1996 Election- Where Do The Candidates Stand?*
Council sponsored Legislative Advocacy Training.
- 1991 Hosted Charles Ballard, president and founder of the Institute for Responsible Fatherhood and Family Revitalization, at the sixth annual spring conference.
Sponsored workshop, "Fetal Alcohol Syndrome: A Plea For Prevention."
Established the annual Mary F. Todd Advocacy Award.
- Council Structure**
- The council has 240 members drawn largely from child-serving organizations in the Memphis area.
- The council has bylaws that are amended, whenever necessary, by the general membership. It is governed by an Executive Committee. Council officers are elected by the general members; committee chairpersons are selected by committee members; and at-large members are selected by the president and the coordinator.
- The committees of the Memphis/Shelby Children and Youth Council follow:
- ✓ The **Executive Committee** is composed of the four elected officers (president, president elect, secretary, and treasurer), the past president, four committee chairpersons, five at-large members, and one Commission member.
 - ✓ The **Prevention Committee** addresses the issues of parenting, child abuse, early childhood education, child care, infant mortality, and other issues relevant to the care and development of children from birth through age 12.

- ✓ **The Legislative Committee** tracks legislation and public policy about children- and youth-related issues. The committee develops positions on bills and other policies and articulates the council's positions and concerns to the members of the legislature and other policy-making bodies.
- ✓ **The Youth and Juvenile Justice Issues Committee** promotes and encourages initiatives and programs that address adolescent health, adolescent pregnancy, education, employment, social development, and delinquency prevention.
- ✓ **The Public Relations Committee** develops a plan to promote the purpose of the council, assists in publicizing council activities, and reviews all council printed material.

Council Awards

The Memphis/Shelby County Children and Youth Council established the *Mary F. Todd Advocacy Award* in 1997. It was named for a council member who is a past chairperson of the Legislative Committee. She was director of the University of Tennessee Clinic

for Exceptional Children for 25 years, from 1972 until her retirement in 1997.

To be selected for the award, the nominee must have been a council member for at least three years, must be involved in community service beyond the job, and must be a council member in good standing (i.e., attend meetings, pay dues, and support the goals and activities of the council).

Nominations are due by January 31, and the announcement of the winner is made at the February quarterly council meeting. The winner of the regional award is nominated for the statewide Jim Pryor Advocacy Award presented by TCCY.

Council Budget

The Council receives membership fees of \$10 for individual members, and agency memberships are \$30 (one to five members); \$60 (five to 10 members); and \$100 (11 or more members). The council also receives a nominal annual allocation in the TCCY state budget. Funds are also generated from conference fees.

The Memphis/Shelby County Regional Data Summary

Composite Ranking - Ranks 8th

All seven health indicators are higher in the Memphis/Shelby County Region than the state as a whole.

- Higher percent of total population enrolled in TennCare in 1995 - 25.6 percent in the region compared to the state average of 22.7 percent.
- Higher percent of births lacking adequate prenatal care in 1995 - 33.4 percent in the region compared to the state average of 27.3 percent.
- Higher percent of low birth weight babies in 1995 - 11 percent in the region compared to the state average of 8.7 percent.
- Higher infant mortality rate in 1995 - 14.8 per 1,000 live births compared to the state average of 9.3 per 1,000 live births.
- Higher child death rate in 1995 - 34.8 per 100,000 children ages 1-14 in the region compared to the state average of 32.7 per 100,000.
- Teen violent death rate in 1995 - 104.7 per 100,000 teens ages 15-19 in the region compared to the state average of 91.8 per 100,000.
- Teen pregnancy rate in 1995 - 77.8 per 1,000 females ages 15-17 in the region compared to the state average of 55.8 per 1,000.

Three of five social indicators are lower in the Memphis/Shelby County Region than the state average.

- Lower percent of students receiving special education in school year 1995-96 - 15.4 percent in the region compared to the state average of 18.3 percent.
 - Lower indicated child abuse and neglect rate in 1995 - 9.4 per 1,000 in the region compared to the state average of 9.6 per 1,000.
 - Lower rate of children in state care in FY 1995-96 - 7.6 per 1,000 in the region compared to the state average of 9 per 1,000.
- Two out of five social indicators are higher in the Memphis/Shelby County Region than the state average.
- Higher percent of high school dropouts in school year 1995-96 - 5.9 percent in the region compared to the state average of 4.5 percent.
 - Higher percent of children referred to juvenile court in 1995 - 6.1 percent in the region compared to the state average of 5.1 percent.

All four economic indicators are higher in the Memphis/Shelby County region than the state as a whole.

- Higher per capita income in 1994 - \$22,592 in the region compared to the state average of \$19,450.
- Higher percent of children who received AFDC in FY 1995-96 - 23.4 percent in the region compared to the state average of 13.5 percent.
- Higher percent of population receiving food stamps in 1996 - 15.7 percent in the region compared to the state average of 12.5 percent.
- Higher percent of students participating in the free and reduced-price school lunch program in school year 1995-96 - 45.3 percent in the region compared to the state average of 35 percent.

Definitions and Data Sources

Births Lacking Adequate Prenatal Care indicator reports the percent of births that have inadequate or intermediate prenatal care as measured by the Kessner Index. The Kessner Index is a scale of adequacy of prenatal care based on standards of the American College of Obstetricians and Gynecologists. This index of adequacy of prenatal care is based on the number of prenatal visits adjusted for gestational age. The data compared in this report are from 1990 and 1995. The source was the Tennessee Department of Health.

Child Abuse and Neglect Rate is the number of cases per 1,000 children under 18 years old in which someone causes foreseeable and avoidable injury or impairment to a child or contributes to the unreasonable prolonging or worsening of an existing injury or impairment in a child. The data compared in this report are from fiscal year 1991-92 and calendar year 1995. The source was the Tennessee Department of Human Services.

Child Death Rate is the number of deaths per 100,000 children aged 1-14 from all causes. The data are reported by residence. (This rate may appear excessively high in counties with small populations although few child deaths occurred.) The data compared in this report are from 1990 and 1995. The source was the Tennessee Department of Health.

Children in State Care are committed to state custody by a court order or a juvenile court commitment order issued by a juvenile court judge or referee. Children in state care are in the legal custody of the Tennessee Department of Children's Services. The data compared in this report are from July 31, 1991, and FY 1995-96. The data source for the 1991 data was the Tennessee Commission on Children and Youth's Baseline Survey for Tennessee Children's Plan. The data source for the FY 1995-96 statistics was the Tennessee Department of Children's Services.

Children Receiving AFDC indicator reports the percent of children under 18-years old who received financial support from Aid to Families with Dependent Children (AFDC) which provides subsistence-level income for children and families. The data compared in this report are from January 1992 and fiscal year 1995-96. The source was the Tennessee Department of Human Services.

Children Referred to Juvenile Courts indicator reports the percent of children under 18 years old who are referred to a juvenile court. There are three categories of reasons for referrals: one, offenses against persons, offenses against property, illegal conduct, violation proceedings, and status offenses; two, issues affecting the safety and well-being of the referred child such as abuse, dependency, neglect, or termination of parental rights; and three, judicial actions taken on behalf of the child or upon request of the child and parent or guardian. The data compared in this report are from calendar year 1991 and calendar year 1995. The source was Tennessee Council of Juvenile and Family Court Judges.

Composite Rank for each region was obtained by converting each of the indicators into standard scores, summing those standard scores to create a total standard score for each region and ranking regions on the basis of their total standard score in order from highest (1) to lowest (9). Standard scores are derived by subtracting the mean score for all regions from each region's score, and dividing the amount by the standard deviation for that distribution of scores. All measures were given the same weight in calculating the overall standard score. No attempt was made to judge the relative importance of each indicator.

Food Stamp Population is the percent of Tennessee's population that is eligible to receive food coupons from the federally funded Food Stamp Program. Data compared in this report are from 1992 and 1996. The data source was the Tennessee Department of Human Services.

High School (Grade 9-12) Dropouts indicator reports the number of dropouts per 100 students in grades 9-12 in a calendar year from June to June (the school year and preceding summer) divided by net enrollment at the end of school year. The number of dropouts is collected and reported by school systems using the Tennessee School Register (TSR). The data compared in this report are from 1990-92 and 1995-96. The source was the Tennessee Department of Education.

Infant Mortality Rate is the number of deaths of per 1,000 live births of infants under one year of age. The data are reported by residence. The data compared in this report are from 1990 and 1995. The source was the Tennessee Department of Health.

Low-Birth-Weight Babies indicator reports the percent of live births recorded as low-birth-weight babies who weigh under 2,500 grams (5.5 pounds) at birth. The data compared in this report are from 1990 and 1995. The source was the Tennessee Department of Health.

Per Capita Income by County is the per capita personal income for a county. The data included in this report are from 1990 and 1994. The source was the Center of Business and Economic Research, College of Business Administration, the University of Tennessee, Knoxville.

Students Participating in Free and Reduced-Lunch Program is the percent of students who received free or reduced-price lunches because their family incomes met certain criteria based on U.S. poverty levels.

Students in Special Education indicator reports the percent of students in Tennessee school systems who received special education services. This group includes gifted children and those with disabling conditions including learning disabilities, mentally retarded, speech or language impaired, emotionally disturbed, autistic, health impaired, physically impaired, deaf, hearing impaired, visually impaired, deaf/blind, multi-handicapped, functionally retarded, developmentally delayed, or traumatic brain injury. The data compared in this report are from 1990-91 and June 1995. The source was the Tennessee Department of Education.

Teen Pregnancy Rate is the number of live births, reported fetal deaths, and induced terminations of pregnancy per 1,000 women aged 15-17. The data compared in this report are from 1990 and 1995. The source was the Tennessee Department of Health.

Teen Violent Death Rate is the number of deaths per 100,000 teens ages 15-19 from homicide, suicide, and accidents. The data compared in this report are from 1990 and 1995. The source was the Tennessee Department of Health.

TennCare Data indicator reports the percent of the total population who received health care coverage for persons who were eligible for Medicaid who were uninsured or uninsurable and applied and were approved for TennCare. The data compared in this report were from October 1994 and November 1996.
