ABSTRACT

Helping new career aspirants to develop the skills and strategies necessary to launch their careers is the purpose of this resource compendium. Skills for the workplace, job search skills, self-assessment, and planning are covered, as well as information about careers and occupations. This "agency version" is intended for use by career counselors and consultants and includes material on career management and career development. This edition contains revised sections on "Self-Assessment," "Career Exploration," "Education and Training," and "Job Search and Career Management." "The Holland Theory" is explained, and a new "Career Key" (L. K. Jones) is included. A new website is announced, the resource section has been updated, and a section on "National Career Development Guidelines" has been added. (EMK)

## State Occupational Information Coordinating Committee

October, 1998

Dear Colleagues,

Enclosed you will find the new and updated pages of the User's Guide for "Career Choices in North Carolina." Please add these to last years Guide and discard only the pages we have replaced. Although we are no longer publishing the User's Guide in its entirety, some complete Guides can be requested through your state office.

This year we have revised the Self-Assessment section with the suggestions from a Focus Group of your colleagues. The *Career Key*, by Lawrence K. Jones, Ph.D., is included for your use. This interest inventory may be duplicated for use with your clients and/or students. You will also notice updated materials, including the Resource Section.

Thank you for your suggestions and evaluations of both *Career Choices in North Carolina* and the *User's Guide*. We appreciate your comments and count on receiving your suggestions, so we can better meet the needs of your programs and your customers.

Be sure to visit our "new" home page (<http://www.soicc.state.nc.us/soicc/>)! You will find selections from these publications, including the Career Briefs, a listing of all our resources, training schedules, and a new Daily News feature. We look forward to hearing from you.

Sincerely,

  
Nancy H. MacCormac  
Executive Director

## INTRODUCTION

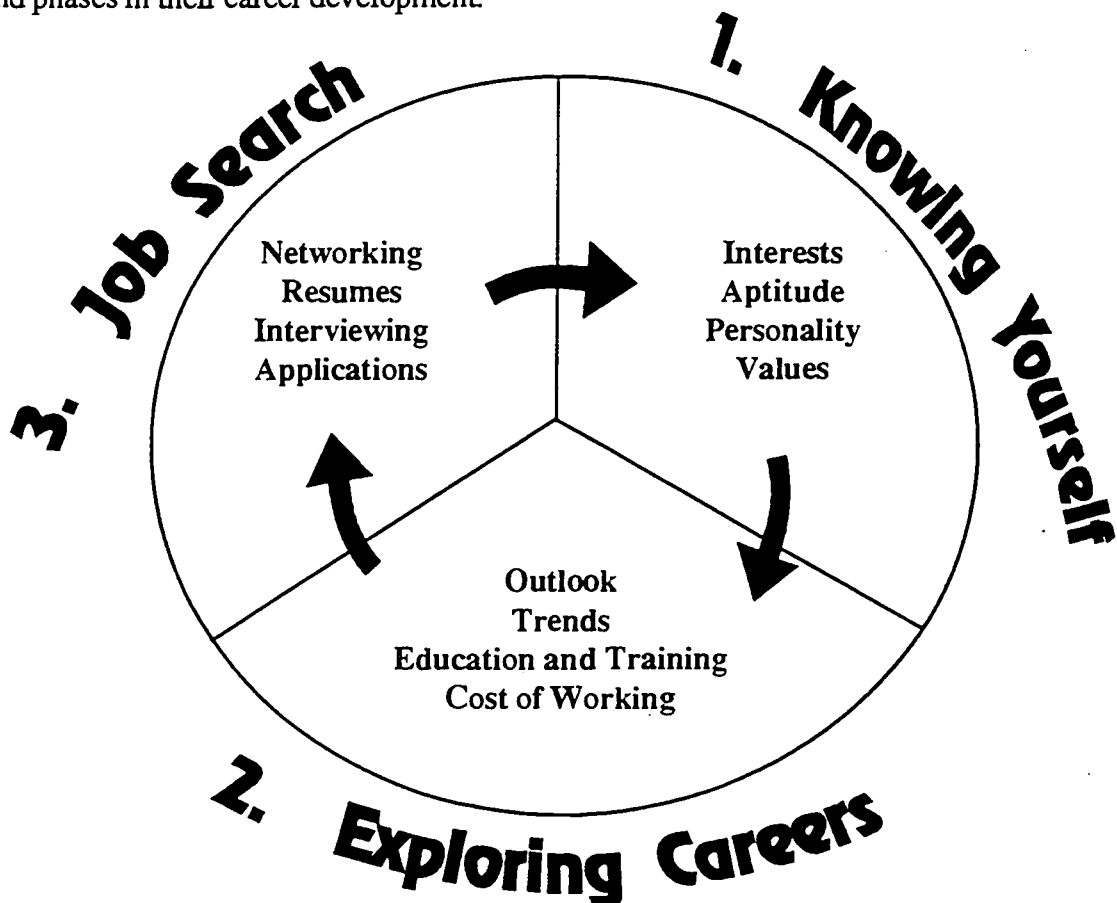

Career planning is a “do it yourself project”. Schools, agencies and their respective personnel can only place programs, assessments, activities or resources in front of students and clients. The work, in order to be long lasting and effective can only be accomplished by the individual.

Career planning is a developmental process. For the young and older adult population, it is important for them to assess where they are if they are to meet their needs and turn their dreams into reality. The unemployed and unskilled worker in transition with little experience in the workforce has different needs from the young adult student looking to launch a first time professional or technical career. The older adult, who has been recently affected by an employer’s reorganization, faces a different set of issues. All populations can benefit from the career planning process of self-assessment, exploring career opportunities in the world of work and learning assertive job search strategies that produce results.

### Career Planning Process

The Career Planning process is a continuous cycle divided into three parts. The picture below illustrates the process with a circle and three arrows. By starting at # 1, Knowing Yourself, we learn about our personal qualities and characteristics. The next step, #2, is to explore the world of work and assess that information with the previous knowledge about ourselves. The next step, #3, is to learn job search strategies to locate opportunities in the careers we have found interesting to us. The process and cycle continues as we grow and develop through choice or circumstance to move to other occupations throughout our life time.

Career Choices’ User’s Guide, Agency and Community College Edition, includes career planning activities for employment counselors, case workers and social workers to support their programs. Along with the annual publication, *Career Choices in North Carolina*, it is written for a variety of individuals in different places and phases in their career development.

**SELF**

**ASSESSMENT**

## SELF ASSESSMENT

Self assessment is the process of “knowing oneself”. It is taking an inventory of someone’s likes, dislikes, skills, abilities, personal characteristics, values, wants and needs. It is the first part of the career planning process. Before clients/students can determine what it is they would like to do in their career, they first need to discover who they are. People change, grow and develop. Therefore it is necessary for everyone to re- assess themselves periodically.

Self assessment includes evaluating one’s:

- interests
- skills/abilities
- personality
- values
- lifestyle and financial goals

Self assessment evaluation can be either formal or informal. **Informal**-assessment is through counseling, activities and worksheets found in career publications, or workshops and seminars. **Formal** assessment is in the form of standardized instruments or tests used by qualified counselors that have been researched and tested for reliability and validity.

The following pages discuss Uses of Assessments and Holland Theory information and handouts. The latter may be used as an informal activity. The following assessment and assessment-related activities were designed to compliment the career planning and self assessment sections in *Career Choices*.

**Activity 1a- The Career Key** -a formal assessment developed by Lawrence K. Jones, Ph.D. Copies may be made for non profit, public use provided that the notice of copyright is affixed to each copy. *The Career Key* is based on the Holland Theory and organized by RIASEC codes.

**Activity 1b** is a selection of **College Majors** arranged by Holland Code. This informal assessment can assist students to see what categories their interests tend to represent. Often students or perspective students are able to think in terms of majors rather than occupations for short-term goals.

**Activity 1c - Functional Skills** is useful to determine transferable skills from previous employment or education to new opportunities. Also organized by Holland Code, the student/client will be able to research occupations by Holland Code, which best match their present skills.

**Activity 1d -Self Evaluation of Work Values** is an informal assessment of one’s work values. It can be administered in group or individual sessions and give both the client/student and counselor pertinent information about motivation and job satisfaction and further insight about the client/student.

**Activity 2- Lifestyle and Financial Considerations** provides the client/student a format to assess their present financial situation and a projected needs. This is recommended for students/clients as they consider re-training, education or changing occupations.

**Activity 3- Family tree** provides a way for the student/client to think about their family history of jobs/careers and how this might affect their career choices.

## USE OF ASSESSMENTS IN CAREER COUNSELING

“The greater the self understanding an individual has, it is assumed, the more likely that person is to make realistic, satisfying educational and career choices.”

Assessments provide a vehicle to identify talent and to assist persons with self-understanding. Utilized with the counseling process, a counselor can interpret the results from the assessment along with information gathered from the student/client from previous sessions. The student/client affirms or denies whether the results give an accurate picture of themselves or not.

Assessment is concerned with the **content** of choices to be made as well as the **readiness** for choices the student/client possess.

Four major uses of assessments:

1. **Prediction:** used to foretell, estimate or foresee a future performance based on present data. Aptitude tests are used to predict future performance either in an educational setting or in an occupation. It has been stated that aptitude tests predict school performance and success in training better than they do performance in an occupation. Examples of assessments used for prediction are- DAT, GATB, ASVAB, and CAPS.
  2. **Discrimination:** used to distinguish among various groups of occupations, which group an individual mostly likely resembles. Interest measurement is the most common application of discrimination analysis in career guidance. Although it is possible to use interest inventories for prediction, it is not viewed by career development experts as their primary value. Examples of interest inventory are- Self-Directed Search, Campbell Skill and Interest Inventory, Strong Interest Inventory, and COPS.
  3. **Monitoring** used to assess the stage of career development or the career maturity of an individual or group. It can tell us about the individual's readiness for choice rather than the content of choice. Monitoring informs us of such work-related factors such as work values, job satisfaction, and a wide variety of other measurable variables pertinent to work life. Examples of career maturity assessments are- Career Development Inventory (CDI), Career Maturity Inventory (formerly the Vocational Development Inventory) and the Cognitive Vocational Maturity Test.
- Another type of monitoring instrument that is useful is work values. The values that one holds are clearly a determinant of career choice. An objective measure of the hierarchical structure of those values, therefore, provides an individual with important data for career decision making. Examples of values monitoring assessments are- Life Values Inventory (LVI), Work Values Inventory (WVI), and the Career Orientation Placement and Evaluation Survey (COPES).
4. **Evaluation:** is a systematic approach in which one looks for a relationship between career guidance processes and behavioral outcomes. Evaluation is a series of activities designed to determine how well goals have been achieved. To evaluate a program, one must formulate broad goals of a program, classify the goals to determine what action can be achieved, define objectives in measurable terms, select appraisal techniques such as questionnaire, standardized tests, etc., then gather and interpret performance data and compare data with the stated behavioral objectives.

## THE HOLLAND THEORY

Career development theorists, John Holland, Ph.D., developed a theory of career choice based on the following premises:

1. The six types or themes people and work environments, within which all jobs can be classified.
2. The six themes are Realistic, Investigative, Artistic, Social, Enterprising and Conventional.
3. Career satisfaction depends on the compatibility between one's personality and one's work environment.
4. If personality and the work environment "fit", that is if one's personality is congruent with one's work environment, the person mostly likely will enjoy their work, develop and grow in this career.

Formal assessments based on the Holland theory include the Strong Interest Inventory, the Self Directed Search and the Career Key (available in this User's Guide). Some informal assessments have also been developed around the Holland theory including, "The Party Game" from Bolles, "What Color is Your Parachute," and "Let's Make a Deal" from "Real People, Real Jobs" by Montross, Liebowitz and Shinkman.

As a counselor or a career development specialist you can listen to your clients/students describe their interests, personality, and skills, and determine which occupational theme or themes sounds the most consistent with their personality. You can utilize the formal assessments, informal assessments and the interview process to begin to organize your clients/students self-assessment and career exploration. It is important to note that everyone fits to some degree in more than one occupational theme. Therefore, it is important to look at which theme is the highest, the second and then the third. These three themes make up what is called the Holland Code. Take the first letter in the highest of the occupational themes (R-Realistic, I-Investigative, and so on) which best describes one's personality, then the second and then the third. In this order, one can derive their three-letter code. It is important to change the order of the three letters to look at all occupational possibilities. The *Dictionary of Holland Occupational Codes* provides a listing of hundreds of occupations by the Holland Code and would be an excellent reference book for counselors and specialists.

The following pages were designed to provide handouts for counselors/specialists to use with their students/clients. When looking through the lists of careers by Holland Theme, you may or may not find what your client/student wants. However, encourage them to look at what the group of occupations has in common. What is the main focus of the groups, working with people, data, things or ideas? Copy and give the pages which best represent the client/student's personality to them. Encourage them to research, conduct information interviews and explore these and other comparable occupations. You may also take two very opposing Holland Themes such as Artistic and Conventional and discuss with your client/student what makes these two themes so different. Which one best describes you? Which one do you not wish to work in? Holland says that workers are not passive victims of their environments but actively seek potentially compatible work environments. The Holland Theory can be a useful tool in your career counseling repertoire of skills.

## Activity 1a. The Career Key

**The Career Key** is designed to assist students to select possible career choices by matching their needs, values, abilities, skills, interest and aspirations to an occupation's demands and its potential to satisfy their needs. The information the student gathers is organized by the Holland Orientation Theory.

After administering The Career Key, explain to the student the six orientations according to the Holland Theory. They can then search in the following pages or in Career Choices for additional occupations that match their codes. Also available for students' use is, "Holland Personality Types and Work Environments and College Majors" in the User's Guide. Schools and agencies are allowed to copy The Career Key. See the copyright information at the bottom of The Career Key.

# The Career Key

*Measure your interests and learn which jobs fit you best.*

By Lawrence K. Jones, Ph.D, NCC

Choosing an occupation or a job is a matching process:

The *Career Key* unlocks the mystery of this matching process. It will show you how to identify the jobs most likely to satisfy you.

# How You See Yourself

---

Read each statement below and decide how much it describes you. If the statement is very true of you, write a "2" on the line next to it. If the statement is mostly true of you, write in a "1". If the statement does not describe you, write in a "0".

## R

- \_\_\_\_\_ I like to work with animals, tools, or machines.
- \_\_\_\_\_ Compared to others my age, I have good skills in working with tools, mechanical drawings, machines, or animals.
- \_\_\_\_\_ I value practical things you can see or touch like plants and animals you can grow, or things you can build or make better.
- \_\_\_\_\_ I am practical, mechanical, and realistic.

## A

- \_\_\_\_\_ I like to do creative activities like art, drama, crafts, dance, music, or creative writing.
- \_\_\_\_\_ Compared to others my age, I have good artistic abilities -- in creative writing, drama, crafts, music, or art.
- \_\_\_\_\_ I value the creative arts -- like drama, music, art, or the works of creative writers.
- \_\_\_\_\_ I am artistic, imaginative, original, and independent.

## E

- \_\_\_\_\_ I like to lead and persuade people, and to sell things or ideas.
- \_\_\_\_\_ Compared to persons my age, I am good at leading people and selling things or ideas.
- \_\_\_\_\_ I value success in politics, leadership, or business.
- \_\_\_\_\_ I am energetic, ambitious, and sociable.

## I

- \_\_\_\_\_ I like to study and solve math or science problems.
- \_\_\_\_\_ I am good at understanding and solving science and math problems, compared to others my age.
- \_\_\_\_\_ I value science.
- \_\_\_\_\_ I am precise, scientific, and intellectual.

## S

- \_\_\_\_\_ I like to do things where I can help people: like teaching, first aid, or giving information.
- \_\_\_\_\_ Compared to persons my age, I am good at teaching, counseling, nursing, or giving information.
- \_\_\_\_\_ I value helping people and solving social problems.
- \_\_\_\_\_ I am helpful, friendly, and trustworthy.

## C

- \_\_\_\_\_ I like to work with numbers, records, or machines in a set, orderly way.
- \_\_\_\_\_ Compared to persons my age, I am good at working with written records and numbers in a systematic, orderly way.
- \_\_\_\_\_ I value success in business.
- \_\_\_\_\_ I am orderly, and good at following a set plan.

Now, add the number of points you have for the R statements. Write that sum on *Line 1* on the next page. Then, do the same for the other letters -- I, A, S, E, and C.

# Appealing Occupations

For the jobs listed below, write a "2" next to those that *definitely interest or attract you in some way*. Write in a "1" for those that *might interest you*. And, write in a "0" for any that you are undecided about, that do not sound interesting, or that you would dislike.

- |                          |                             |                             |
|--------------------------|-----------------------------|-----------------------------|
| R ___ Bus Driver         | R ___ Truck Mechanic        | R ___ Carpenter             |
| S ___ Physical Therapist | S ___ Counselor             | S ___ Social Worker         |
| R ___ Fish & Game Warden | R ___ Airplane Pilot        | R ___ Mechanical Engineer   |
| S ___ Librarian          | S ___ Speech Therapist      | S ___ Teacher               |
| R ___ Farmer             | C ___ Bank Examiner         | C ___ Tax Expert            |
| S ___ Nurse              | A ___ Actor/Actress         | A ___ Novelist              |
| C ___ Insurance Clerk    | C ___ Bookkeeper            | C ___ Business Teacher      |
| A ___ Clothes Designer   | A ___ Artist                | A ___ Singer                |
| C ___ Court Stenographer | E ___ Sales Manager         | E ___ Salesperson           |
| A ___ Dancer             | I ___ Chemist               | I ___ Electrical Engineer   |
| C ___ Bank Teller        | E ___ Apartment Manager     | E ___ Restaurant Manager    |
| A ___ Musician           | I ___ Astronomer            | I ___ Chemical Technician   |
| I ___ Biologist          | E ___ Radio/TV Announcer    | E ___ Insurance Sales Agent |
| E ___ Lawyer             | I ___ Laboratory Technician | I ___ Research Scientist    |

To the left of each job title you see a letter, an **R, I, A, S, E,** or **C**. Carefully add the number of points that you have for the seven **R** jobs, and write that sum in the space below on *Line 2*. Do the same for the other letters: **I, A, S, E,** and **C**.

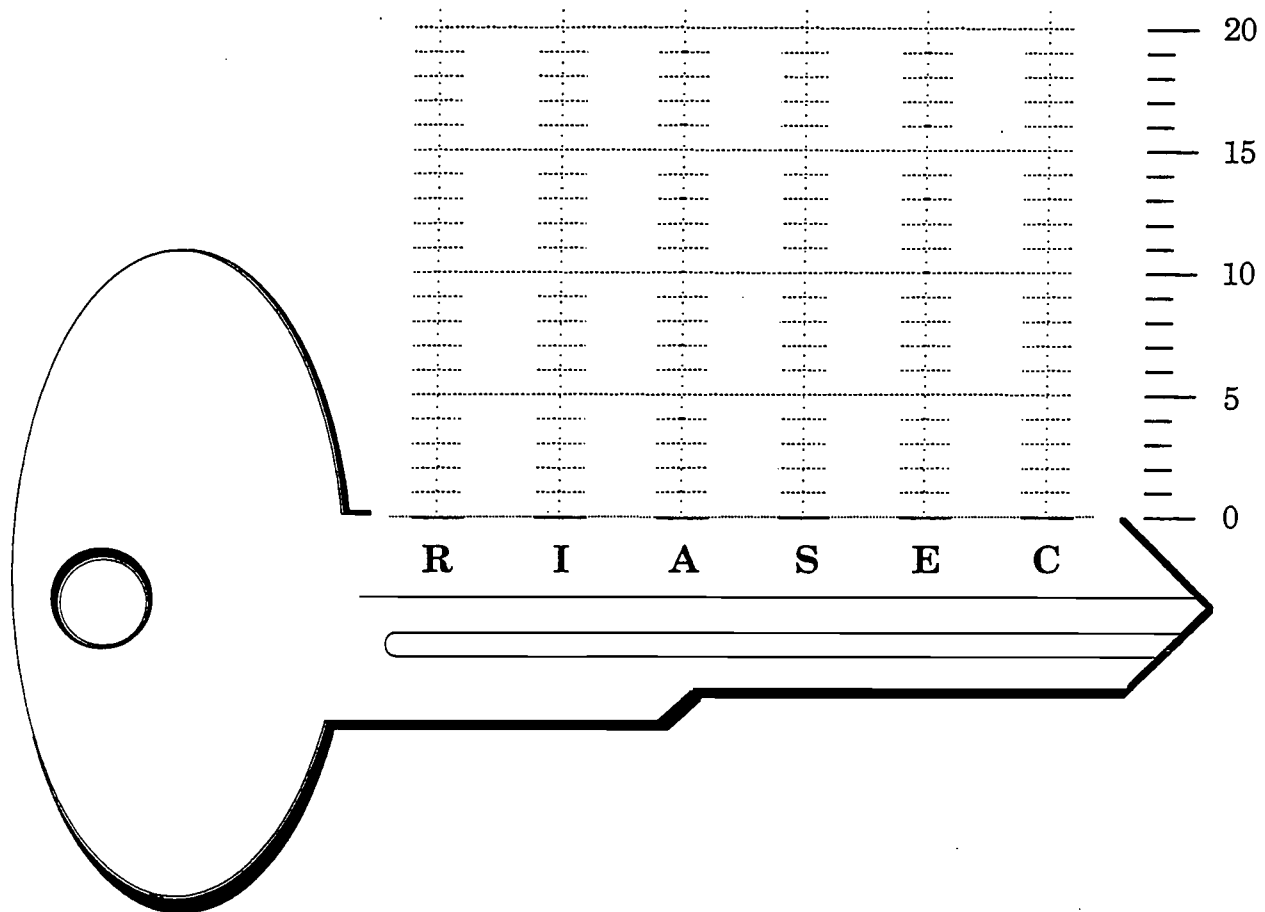

Now, add *lines 1* and *2* and put your answer on *Line 3* to get your total score.

<i>Line 1:</i>	_____	_____	_____	_____	_____	_____	
	<b>R</b>	<b>I</b>	<b>A</b>	<b>S</b>	<b>E</b>	<b>C</b>	
	+						
<i>Line 2:</i>	_____	_____	_____	_____	_____	_____	
	<b>R</b>	<b>I</b>	<b>A</b>	<b>S</b>	<b>E</b>	<b>C</b>	
<b>Total:</b>	<i>Line 3:</i>	_____	_____	_____	_____	_____	
		<b>R</b>	<b>I</b>	<b>A</b>	<b>S</b>	<b>E</b>	<b>C</b>

You will use your total scores on *Line 3* to make your Career Key on the next page.

# Your Career Key

Now you are ready to construct your Career Key. Begin with the total number points you have for **R** from *Line 3* of the previous page. Make a small "x" on the graph below, above the **R** for that number. Do the same for the remaining letters: **I, A, S, E, and C**. Once you have done this, draw a line connecting your "x's" to complete the key. This is your Career Key.

According to Dr. John Holland, there are six types of people -- Realistic, Investigative, Artistic, Social, Enterprising, and Conventional. The highest scores on your Career Key are the personality types that you are most like.

On the next few pages, many jobs are listed. They are grouped in two ways:

1. The jobs are grouped according to the six personality types -- Realistic, Investigative, Artistic, Social, Enterprising, and Conventional.
2. Then, under each of the six types, the jobs are grouped into *work groups*. For example, see "Engineering [05.01]", on the next page. The workers in these groups of jobs have similar traits -- interests, skills, abilities, and level of training.

Read over the jobs listed for the two or three personality types that are highest on your Career Key. Place a checkmark ( ✓ ) next to those that interest you, or those you would like to know more about.

## Further Career Exploration

---

Now, learn more about the jobs you checked. If you live in the U.S., look in the *Guide for Occupational Exploration*. The four-digit numbers (e.g., [11.10]) will help you get information about these jobs and additional ones like them. The *Occupational Outlook Handbook* is another excellent book. Look at a recent edition in your local library. You can also see it on the Internet at "<http://www.bls.gov/ocohome.htm>". Be sure to also visit the Career Key Web site at "<http://www.ncsu.edu/careerkey>".

Interviewing people in the work you are considering is another good strategy. Do volunteer work or take a part-time job in your area of interest. Talk with a career counselor.

Career exploration pays off. You will develop a clearer view of yourself and the jobs that best fit you.

# CAREER EXPLORATION

After assessing one's self, the second step in the career planning process is to locate information about careers. Career information is everywhere. You need to know where resources are located and the kind of information they provide. Careers are rapidly changing and career information needs to stay current with these changes.

### Local Publications and Resources

- Classified ads in newspapers
- Job advertisements on TV and radio stations
- Advertisements on neighborhood bulletin boards
- Newspaper articles to discover new and expanding companies in your area
- Yellow pages in telephone directory (group companies together according to what they do or make to match your skills and interests)
- Trade and professional journals
- Books in the careers section of your local library
- Internet

Career Choices in North Carolina, an annual tabloid designed to provide occupational and career information in a useful, readable format. Distribution is primarily through the public schools, SOICC agencies, and other programs. A User's Guide of activities for the tabloid is produced to support its classroom or group use.

Getting Started: North Carolina Jobs and Careers, a paperback resource for teachers, counselors and job placement professionals. It contains occupational profiles on 234 N.C. occupations, a section on labor market trends, one on job seeking skills, and a resources section. It is updated every three years.

North Carolina Careers, a micro computer based career exploration system, providing information on over 400 N.C. occupations and 171 N.C. educational training sites. The system helps individuals: explore careers by relating their personal characteristics to compatible job or career possibilities; find and compare information on specific occupations; and locate and learn about N.C. education and training programs.

Micro Occupational Information System (OIS), North Carolina's micro computerized data base and delivery system of occupational and labor market information for state and local planners, administrators and job developers. The Micro OIS provides information on current and projected worker demand by occupations; supply of school and training program completers; wages and occupational characteristics; post-secondary education institutions and training programs; the distribution of occupations by industry; and a supplemental directory listing N.C. employers.

N.C. Career Explorer is an on-line school wide career development service for educators, counselors and students. The goal is to provide relevant, current information to help students research and explore career options, and to provide a dynamic resource for school professionals. Career Explorer offers a wealth of resources for career and library resource centers, in the classroom, or for personal or professional development. They help you identify career opportunities, enhance vital life skills, encourage self-development, prepare and deliver instructional or training materials, and participate in a discussion. Career Explorer On-line publishes five articles five days a week. A 1997-98 state-wide pilot of the program is available by subscription through the NC SOICC.

# SCANS SKILLS DEFINITIONS

SCANS is an acronym that stands for the Secretary's Commission on Achieving Necessary Skills. SCANS is the study of the skills now needed in the contemporary and future American workplace. The SCANS competencies span the chasm between the worlds of the school and the workplace. Because they are needed in workplaces dedicated to excellence, they are the hallmark of today's expert worker. They lie behind every product and service offered in today's marketplace.

There are 27 SCANS skills divided into two categories:

**Foundation Skills** - skills people bring to a job; and

**Functional Skills** - skills specific to the functions workers perform doing their job

Definitions of the specific skills are listed below.

## FOUNDATION SKILLS

### I. BASIC SKILLS

1. **Reading** - locates, understands, and interprets written information in prose and documents including manuals, graphs, and schedules to perform tasks; learns from text by determining the main idea or essential message.
2. **Writing** - communicates thoughts, ideas, information and messages in writing; composes and creates documents such as letters, directions, manuals, reports, proposals, graphs, flow charts with language, style, organization and format appropriate to the subject matter, purpose and audience.
3. **Arithmetic** - performs basic computations, uses basic numerical concepts such as whole numbers and percentages in practical situations, uses tables, graphs, diagrams, and charts to obtain or convey quantitative information.
4. **Speaking** - organizes ideas and communicates oral messages appropriate to listeners and situations, participates in conversation, discussion and group presentations, speaks clearly.
5. **Listening** - listens carefully, understands and responds to listener feedback. Receives, interprets and responds to verbal messages and other cues such as body language.

### II. THINKING SKILLS

6. **Creative thinking** - uses imagination freely, combines ideas or information in new ways, makes connections between seemingly unrelated ideas, and reshapes goals in ways that reveal new possibilities.
7. **Decision-making** - specifies goals and constraints, generates alternatives, considers risks, and evaluates and chooses best alternative.
8. **Problem-solving** - recognizes that a problem exists; identifies possible reasons for the differences and creates and implements a plan of action to resolve them. Evaluates and monitor progress and revises plan as indicated by findings.
9. **Knowing How to Learn** - can adapt and apply new knowledge and skills to both familiar and changing situations. Is able to use ways of learning such as notetaking and organizing information. Becomes aware of false assumptions that may lead to wrong conclusions.

### III. PERSONAL QUALITIES

10. **Responsibility** - exerts effort and perseverance toward goal attainment; works to become excellent at doing tasks by setting high standards, paying attention to details, working well even when assigned an unpleasant task and displaying a high level of concentration.
11. **Social skills** - demonstrates understanding, friendliness, adaptability, empathy and politeness in new and ongoing group settings. Asserts self in familiar and unfamiliar social situations; relates well to others; responds appropriately; takes an interest in what others say and do.
12. **Self-management** - assesses own knowledge, skills and abilities accurately; sets well-defined and realistic personal goals; monitors progress toward goal attainment and motivates self through goal achievement; exhibits self control and responds to feedback unemotionally and non-defensively; a "self starter".
13. **Integrity/honesty** - can be trusted; recognizes when faced with making a decision or acting in ways that may break with commonly held personal or societal values; understands the impact of violating these beliefs and codes in respect to an organization, self, or others; chooses an ethical course of action.

### FUNCTIONAL SKILLS

#### IV. RESOURCES

14. **Manages time** - selects important, goal-related activities, ranks them in order of importance, allocates time to activities, and understands, prepares and follows schedules.
15. **Manages money** - uses or prepare budgets, including making cost and revenue forecasts; keeps detailed records to track budget performance and makes appropriate adjustments.
16. **Manages material and facility resources** - acquire, stores, and distributes materials, supplies, parts, equipment, space or final products in order to make the best use of them.
17. **Manages human resources** - assesses peoples' knowledge, skills, abilities, and potential; identifies present and future workload; makes effective matches between individual talents and workload; monitors performance and provides feedback.

#### V. SYSTEMS AND TECHNOLOGY

18. **Understands systems** - knows how social, organizational and technological systems work and operates effectively within them; makes suggestions to modify systems to improve products or services, and develops new or alternative systems maintenance and quality control.
19. **Uses technology** - judges which set of procedures, tools or machines will produce the desired results; understands the overall intent and the proper procedures for setting up and operating machines, including computers and their programming systems; prevents, identifies or solves problems in machines, computers and other technology.

## VI. INFORMATIONAL SKILLS

20. **Acquires and evaluates information** - identifies need for data; obtains it from existing sources or creates it and evaluates its relevance and accuracy.
21. **Organizes and maintains information** - organizes, processes and maintains written or computerized records and other forms of information in a systematic fashion.
22. **Interprets and communicates information** - selects and analyzes information and communicates the results to others using oral, written, graphic, pictorial or multimedia methods.

## VII. INTERPERSONAL SKILLS

23. **Participates as a member of a team** - works cooperatively with others and contributes to group effort with ideas, suggestions, and effort; resolves differences for the benefit of the team and takes personal responsibility for accomplishing goals.
24. **Teaches others** - helps others learn needed knowledge and skills; identifies training needs and supplies job information to help others see its use and relevance to tasks.
25. **Serves clients, customers** - works and communicates with clients and customers to satisfy their expectations; actively listens to customers to avoid misunderstandings and identify needs; communicates in a positive manner, especially when handling complaints or conflict.
26. **Exercises leadership** - communicates thoughts, feeling and ideas to justify a position, encourage, persuade, convince or otherwise motivate an individual or groups, including responsibly challenges existing procedures and policies.
27. **Works with cultural diversity** - works well with men and women and with a variety of ethnic, social or educational background; bases impressions on individual performance not on stereotypes.

**Directions:** Use to assess students/clients on SCANS Skills as related to the occupational choices they may be considering. Remember the more SCANS Skills they can master, the more likely they are to remain employed.

## CAREER INFORMATION INTERVIEWING

Once your clients/students have researched their career options they will have narrowed their focus to the few occupations that really interest them. In order for them to truly understand the characteristics of a job and the work environment it will be necessary for them to talk with people who are working in the field.

Encourage them to develop a list of people who work in the occupations they are exploring. Let them know that it is OK to call people they don't know, or to call organizations and ask for the names of people in the career they are researching. If they are hesitant to make contacts and conduct an interview, talk to them about people who have had successful experiences with interviews. Suggest a practice interview first. Having the client/student talk with someone he/she is comfortable with will lessen the anxiety and afford the opportunity to become comfortable with the process. The only condition for the information interview is that the interviewee must currently be employed.

Once you have collected enough information about your field of interest, feel knowledgeable and are still interested enough to continue your research, the next step is to talk with people who are working in the occupations you are interested in. This is accomplished through an information interview. The purpose of this type of interview is to obtain information, advice and referrals (additional people who can talk with you about your career choices).

**Directions:** Review the following information before making contacts with people to interview. A list of suggested questions is in the next activity.

**Benefits of information interviews:**

- It gives you first hand information, a realistic view of the field, and an opportunity to hear how others have developed their career paths. You will learn about factors never covered elsewhere. If the interview is carried out at the worksite (the preferred place), you can observe the work environment as well.
- It helps build contacts with people who may be helpful in the future. The person being interviewed may give you referrals to others in the field. This will enlarge your network of helpful people.
- It is a great opportunity to practice interviewing without the stress associated with the “real thing”. Most people are happy to talk about their jobs, making these interviews easy to set up and conduct.

**Guidelines for Information Interviews:**

1. Keep in mind that you are only seeking information, not a job.
2. Do not limit your contacts to potential employers, anyone working in an occupation that interests you can give you the information you are looking for.
3. Develop names of people to interview, starting with family, friends and acquaintances.
4. Broadcast your career interest and ask for names of people they know. It will give you a whole new level of contacts.
5. Read the business sections of the newspaper and research companies.
6. Make contact or set up an appointment in one of the following ways:  
Write a letter and follow-up with a telephone call  
OR  
Contact by phone only
7. Avoid walking in to someone’s work place unannounced during a busy day.
8. When you do contact the individual, state your purpose and ask for a brief amount of time - fifteen to twenty minutes.
9. Have your list of questions ready beforehand.

10. When asking your list of questions, remember:

- ◆ Take a real interest in what they are saying - LISTEN!
- ◆ Get the full name of the person you talked to.
- ◆ Be sure to thank that person for spending time with you.  
(whether it was on the phone or in person).
- ◆ Send a thank you note to follow-up.
- ◆ Make a good impression, the same people you interview for career advice may be able to help you with your job search later on.

*If you have to make calls to talk with someone you don't know you may start by saying something like this:*

“Hi, my name is Debbie Brown. I'm interested in a career in Medical Technology and would like to speak with one of your technologists on staff about their job. I am looking for some information to help me make my career decision and talking with someone in the field would be very helpful. Could you give me the name of someone I might be able to contact”?

**Directions:** Select an occupation and find someone in that occupation to interview. Spend at least 20 minutes talking with the individual and gathering information about his/her occupation. Suggested questions are listed below. You may add questions relating to your interests and concerns.

1. How long have you worked in this occupation?
2. What other occupations have you worked in previously?
3. Do you primarily work with people, data, things or ideas?
4. What do you like most about your job?
5. How did you get started in this line of work?
6. What personal qualities do you feel are needed to succeed in this line of work?
7. What type of training is needed for this occupation today?
8. What changes in your occupation have you seen occur?
9. What are the most frequently recurring problems on your job?
10. Do you have any other long term career goals?
11. Does this job require primarily independent activity or is there a lot of team work?
12. Who evaluates your performance? How is it done?
13. Can experience be substituted for formal education credentials?
14. What are the rewards of your position?
15. What hours do individuals in this job usually work? Is there much flexibility?
16. Are there opportunities for growth and advancement in this field?

## Activity 7. Job Outlook

**Directions:** Discuss the following concepts concerning employment projections.

- The labor market is the interaction of people competing for jobs and employers competing for workers.

Employers hire to either:

- 1. Replace a worker, or  
2. Fill a newly created job

- Most openings occur due to the first example - replacing workers as people leave a job, return to school, retire or die.

- When looking at occupational trend data, it is important to distinguish between occupations with most openings vs. fastest growing occupations.

- Which category produces the most actual job openings? It depends on the total number of employees in that particular occupation.

- A small occupation may be growing rapidly but requires only a few new workers each year. A large occupation may be growing slowly or not at all, but may require a large number of workers annually to replace retiring employees.

JOB OUTLOOK - Career Briefs in Career Choices

<b>Employment Projections for N.C. 1994-2005</b>	
<b>Growth Rate</b>	
<b><u>If the statement reads...</u></b>	<b><u>Employment is projected to ...</u></b>
<b>Above Average</b>	<b>Increase over 2.0% per year</b>
<b>Average</b>	<b>Increase .6% to 2.0% per year</b>
<b>Below Average</b>	<b>Increase less than .6% per year</b>

North Carolina's fastest growing jobs include many "technology oriented" and service occupations. Many of these will be newly created jobs resulting from increased demand for related goods and services. Although experiencing a high RATE of growth the actual number of employees needed in these occupations may be relatively small.

## NON-TRADITIONAL CAREERS

Definition: Department of Labor defines non-traditional as jobs in which fewer than 25% of the people in these occupations are held by one gender. For example carpenter, electrician, brick mason, auto mechanic are **non-traditional** for women.

### FACTS ABOUT NON-TRADITIONAL CAREERS FOR WOMEN

- Fastest growing and highest paying areas of future employment for women.
- Often difficult choice for women due to lack of role models, and to traditional family, social, and personal values that deter women from considering such occupations.
- Available in high school vocational education programs, community colleges, and apprenticeship programs in industry.
- Organizations such as Society for Women Engineers, Women in Construction, Professional Women Accountants, Executive Women International promote women entering non-traditional careers.

### AGENCY ACCESS TO NON-TRADITIONAL PROGRAMS

**Job Training Partnership Act (JTPA)** - Department of Employment and Training, Frankie Pickard (919) 733-6383

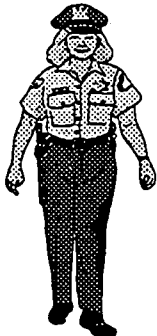

**Community College System**- Coordinator of Sex Equity, Doris Jacobs (919) 733-7051

**Department of Public Instruction**- Gender Equity Program, Sarah Hawes (919) 715- 1649

**Department of Labor**- Training Initiatives, Vonna Viglioni (919) 715-0346

**Department of Transportation**- Civil Rights Office has on-the-job training funds to pay for the training of women to work on highway construction jobs. For further information contact Marvin Butler, 919-733-2300.

**Activity 9.****Match Your Homemaking Skills**

**Directions:** Match your homemaking skills in left column to job possibilities in right column.

<b>Homemaking Skills</b>	<b>Job Possibilities</b>
Cooking	Chef, private catering
Driving	Route delivery, courier, bus or cab driver
Decorating	Interior design, party planning
Sewing	Retail fashion sales, tailoring, Seamstress
Gardening- indoor/outdoor	Landscaper, florist sales, garden/nursery shop sales
Caring for sick family members	Home health aid, adult day care, geriatric care
Typing/ computer skills	Office & clerical worker, free lance typist
Repair appliances	Electrician
Planning menus	Dietitian
Purchasing goods/services	Supply clerk, buyer
Household budgeting	Bookkeeper, accountant
Scheduling family appointments	Receptionist, dispatcher, travel agents
Writing personal letters, newsletters	Writer, editor
Teaching children	Child care worker, teacher, teacher assistant
Mediating family problems	Counselor, crisis intervention
Telephone campaigning for causes	Sales representative, research survey, telemarketing

**Directions:** Test your entrepreneurial quotient by circling the letter of the phrase that best describes you.

1. **Are you a self-starter?**
  - a. I do things my own way. Nobody has to tell me to get going.
  - b. If someone gets me started, I keep going all right.
  - c. Easy does it, I don't put myself out until I have to.
2. **How do you feel about other people?**
  - a. I like people. I can get along with just about anybody.
  - b. I have plenty of friends—I don't need anyone else.
  - c. Most people bug me.
3. **Can you lead others?**
  - a. I can give most people to go along when I start something.
  - b. I can give the orders if someone tells me what we should do.
  - c. I let someone else get things moving. Then I go along if I feel like it.
4. **Can you take responsibility?**
  - a. I like to take charge of things and see them through.
  - b. I'll take over if I have to, but I'd rather let someone else be responsible.
  - c. There's always some eager beaver around wanting to show how smart he is. I say let him.
5. **Are you a good organizer?**
  - a. I like to have a plan before I start. I'm usually the one to get things lined up when the gang wants to do something.
  - b. I do all right unless things get goofed up. Then I cop out.
  - c. You get all set and then something comes along and blows the whole bag. So just take things as they come.
6. **Are you a good worker?**
  - a. I can keep going as long as I need to. I don't mind working hard for something I want.
  - b. I'll work hard for a while, but when I've had enough, that's it, man!
  - c. I can't see that hard work gets you anywhere.
7. **Can you make decisions?**
  - a. I can make up my mind in a hurry if I have to. It usually turns out okay, too.
  - b. I can if I have plenty of time. If I have to make up my mind fast, I think later I should have decided the other way.
  - c. I don't like to be the one who has to decide things. I'd probably blow it.
8. **Can people trust what you say?**
  - a. You bet they can. I don't say things I don't mean.
  - b. I try to be on the level most of the time, but sometimes I just say what's easiest.
  - c. What's the sweat if the other person doesn't know the difference?
9. **Can you stick with it?**
  - a. If I make up my mind to do something, I don't let anything stop me.
  - b. I usually finish what I start—if it doesn't get fouled up.
  - c. If it doesn't go right to start with, I turn off. Why beat your brains out?
10. **How good is your health?**
  - a. I never run down.
  - b. I have enough energy for most things I do.
  - c. I run out of gas sooner than most of my friends.

Now tally your answers. If you circled mostly "a" responses, you probably have what it takes to run a business. If not, you're likely to have more trouble than you can handle by yourself. You'd better find a partner who is strong in your weak areas. If most of your responses were "c," not even a partner will be able to shore you up.

**SELF-ASSESSMENT + OCCUPATIONAL EXPLORATION: IS THERE A FIT?**

Putting together the information gathered about yourself and a number of occupations is the next step. This will help you focus on an occupation and analyze it in terms of things that are important to you. It will help point out what kind of training is necessary and whether the occupation fits in with the kind of lifestyle desired. The following activity has 2 parts. (Be sure each part is completed before moving on to goal setting and decision making.)

**Directions: A.** Complete the following chart to further help you determine if there is a fit between who you are and what you would like to do. Refer to your self assessment summary for the Self Assessment Information column, and Career Briefs, for the Occupational Information Column.

Self-Assessment Information	Occupational Exploration Information	Is There A Fit?
Interests (e.g. Holland Code)	Occupation' Code (Holland)	
Skills: Technical Functional Self-Management	Job Duties, Tasks, Responsibilities	
Personality (Holland Code)		
Aptitude	Job Requirements	
Work Values	Working Conditions, Schedule, etc.	
Physical Capacities or Limitations	Physical requirements Workplace adaptations required	
Education and Training	Educational Requirements	
Past Experience	Experience or Background Required	
Budget/Financial Needs	Salary/Benefits	
Personal Image	Image Required	
Preferred Work Environment	Work Environment	
Lifestyle Considerations	Working Conditions, Environment, Schedule, Location, Salary, etc.	

**Directions: B.** After the chart has been completed discuss the results with your counselor or caseworker. Process the comparison. Ask yourself the following questions before going on to finalize the decision making and goal setting process.

1. Do you have enough information to make a decision?
2. What additional information do you need to collect? (e.g. schools that offer the appropriate training program; costs and sources of financial aid; employers who have a need for this expertise.)
3. What is the next step? (e.g. Upgrade or add new skills. Attend to self-development needs, etc.)
4. What support do you have in place? What type of support do you need to find? (Personal Realities)

## MYTHS ABOUT CAREER DECISION MAKING

**MYTH:** *There is one right job for me.*

On the contrary, you are a multi-potential individual. There are numerous occupations in which your talents can be equally applied and the nature of these possibilities will expand as your work experiences accumulate.

**MYTH:** *You must have experience to find a job.*

Often you are hired primarily for your aptitude or your potential to learn and advance within an organization rather than for your existing work capabilities or experiences.

**MYTH:** *Most people start their career at 21 and proceed in a straight line toward their career goals.*

Not very likely. Maybe a few people have experienced such direction, however, the career paths of most people are filled with zigs and zags and changes in direction.

**MYTH:** *Career planning is an irreversible process.*

Not so. You can change career directions whenever your talents, needs and resources dictate and/or allow.

**MYTH:** *There is a particular set of job responsibilities for every occupation.*

On the contrary, people in positions having the same title are very often performing different tasks. The varying duties are due to the individual's interests and capabilities along with varying needs from employer to employer.

## FACTS ABOUT CAREER DECISION MAKING

- Career decision making is a process.
- Do not expect to make a final decision all at once.
- Career decision making is a skill that can and should be taught to students and clients.
- The goal of career decision making is to help students/clients organize their thinking about topics important in choosing a career.
- It is important to assess one's style of decision making to help overcome obstacles that inhibit the process.

## **MAKING DECISIONS & GOAL SETTING**

Determining what one hopes to accomplish now or in the future is goal setting. Once you have identified and evaluated possible careers or jobs and explored the alternatives, you must choose the most feasible option. It is essential to consider the long term as well as the short term when deciding on goals. Long term goals are usually big and central to one's life. The steps taken to reach long term goals are short term goals and are usually accomplished in stages.

**Directions:** Review the following guidelines for effective goal setting and discuss.

- Goals should be realistic and attainable.
- Goals are concrete and measurable.
- Goals are expressed in specific and realistic time frames.
- Goals allow for some flexibility.
- Goals are expressed in quantitative terms.

In addition to the guidelines above, keep in mind the following questions when weighing the positives and negatives of the goals you have set.

1. Is the goal worthwhile? Is the goal consistent with my overall plans?
2. Am I ready to make a specific public commitment to the goal now?
3. Am I willing to commit myself to specific timetable to measure my progress and commitment to this goal?
4. Have I really thought through the consequences of setting this goal? What are some of the barriers I may face? How will I handle the barriers? Am I willing to make certain sacrifices?
5. Does this goal arise out of the values that I have clarified and been willing to act on in the past?
6. Can I visualize this goal clearly and see myself at the endpoint it represents?
7. Does commitment to this goal assume high priority in my life right now? Am I willing to sacrifice other activities or downgrade other priorities in my life?
8. Am I excited and eager to begin work on this goal now?

### **Activity 13. The Seven Steps to Decision Making**

1. **IDENTIFY THE DECISION TO BE MADE** - (What shall I wear today?)
2. **GATHER THE INFORMATION** - (What is the weather going to be like? What will I be doing. What is cleaned and pressed?)
3. **IDENTIFY THE ALTERNATIVES** - (Either my blue suit, gray pants or blue jeans and a t-shirt)
4. **WEIGH THE EVIDENCE** - (Blue suit is right for today's weather, but too dressy for my activities. I feel like wearing jeans and a t-shirt, but I have an appointment later and that would not be appropriate dress. My gray pants are a good compromise, must find a matching shirt.)
5. **CHOOSE AMONG THE ALTERNATIVES** - (gray pants and white shirt)
6. **TAKE ACTION** - (press clothes and get dressed)
7. **REVIEW AND EVALUATE THE DECISION** - (look in the mirror, decide it looks OK, but need to change shoes)

### **APPLY THE DECISION MAKING STEPS TO CAREER PLANNING**

1. **IDENTIFY THE DECISION TO BE MADE** - (college, 2 year, 4 year; where; what major; military, and/or work)
2. **GATHER INFORMATION** - (facts about myself - interests, abilities, values; facts about career options - salary, work setting, amount of education/training required; where can I get further information)
3. **IDENTIFY ALTERNATIVES** - (what career options suit me best)
4. **WEIGH THE EVIDENCE** - (consider the pros and cons; what are the short and long term outcomes; recognize obstacles; what resources are available to me to meet my goals)
5. **CHOOSE AMONG THE ALTERNATIVES** - (from the above information generate a list of possible career/college choices)
6. **TAKE ACTION** - (make a plan of action - visit the work environment, visit schools, talk to college representatives)
7. **REVIEW AND EVALUATE THE DECISION** - (Did I consider all the important factors? Are there new alternatives I need to consider?)

**Directions:** Using the seven steps to decision making, fill in the spaces with responses that apply to your situation.

<p>1. IDENTIFY A DECISION WHICH IS IN THE MAKING FOR YOU NOW: _____</p> <p>_____</p> <p>_____</p>

## **DEVELOPING AN ACTION PLAN** *(for counselors, social workers, facilitators)*

The goals set in the previous section are the basis for developing an action plan. Goals could be to:

- Further explore a career possibility.
- Look into a program for training or further education.
- Explore ways to attain a high school diploma or GED.
- Enter school or training program.
- Look for a job.

Regardless of the kind of goal the client or student has established, assisting them in developing an action plan (what needs to be done to reach the goal) often will make the difference between forward momentum and inactivity. After reviewing the following guidelines and sample Time Table, help the clients/students to complete their Action Plan, and fill in the Time Table.

### **GUIDELINES**

**Develop action steps to reach the goal.** The action steps should be small, short term activities the client/student can achieve. They also should be placed within a time frame with dates for completion.

**Build in support and accountability.** Clients/students need encouragement and support as they work toward goals and complete their action steps. Supporting clients as they achieve the small steps and assisting them to find other sources of support in their lives will help them to keep up the momentum of moving toward their goals. Contracting with others (accountability) will also help. If a client/student can tell others involved in a job search or the career development process about a step that will be accomplished by a certain time, he or she will be more likely to complete that step. Progress unnoticed often turns into stagnation.

**Build in rewards.** Goal attainment is more likely to be successful if some sort of rewards are built in for the steps that are accomplished and for completed action plans. People lose motivation without ongoing and long term rewards. Rewards are unique and therefore should be identified by the individual. One person's reward might be another person's punishment.

**Activity 15. Developing An Action Plan**

**CAREER PLANNING/CAREER RESEARCH ACTION PLAN**

**Directions (A):** After setting your goals, (whether more exploration, training or job search), you will want to develop a plan for taking action. Evaluate all the items. What things have you already accomplished? Which do you need to do?

## ASSESSING YOUR DESIRE FOR FURTHER EDUCATION

Education is now life long. Employers are looking for updated skills and a work force that can quickly adjust to new technology, new management styles and a new way of doing business. To increase your skills you have many options-workshops sponsored by your employer, short term courses offered in your community, and colleges to receive an associates or bachelors degree.

What is your main reason for going back to school?

- Wanting to make a career change?
- Wanting to move into higher-salaried jobs or careers?
- Wanting to earn a degree, certificate, license?
- Wanting to explore an area of interest?
- Needing retraining for future employment opportunities?
- Needing to update skills for a new workplace?
- Other? \_\_\_\_\_

Whatever is your reason, know it and own it. Be proud of your new venture. Revisit your list of reasons often to motivate yourself through times of self-doubt. Going back to school, especially if you are working full time, part time or raising a family requires you to balance all your roles. **YOU** are the key to making this balancing act work. Develop a sense of well-being through good habits, good health, a positive self-image, and a feeling of control. Know what you have control of and realize many things are out of your control. Take care of yourself--you can not afford it any other way.

- Be realistic**-Perfection is neither attainable nor required for success. Strive for excellence instead.
- Don't expect too much of yourself**-You do not have to be the best in every or any aspect of your life.
- Set short term goals**-They are less overwhelming than long term goals.
- Don't compare yourself with others**-You and your life is unique. No one has the identical set of circumstances in their life as you do.
- Expect to have an adjustment period**-It's normal.
- Pay attention to signs that you are wearing down**-Act on them quickly. When you are feeling overwhelmed, take time out to reevaluate, regroup, and reenergize. Then get back in the game.
- Ask for and accept help and support**-You need not travel this road alone.
- Keep your sense of humor**-Laughter is therapeutic and energizing.
- Don't push too hard**-Burnout, illness and losing interest may be the result.
- Don't apologize over what you don't get done**-Praise yourself for your accomplishments-one at a time.
- BELIEVE IN YOURSELF**-You can do it!

## Career Planning, Education and Training to achieve Economic Independence

Charting a career path that includes additional education and skill training while working is imperative in economic literacy programs. Managing money and dissolving bad debts should be combined with a strategic plan to increase earnings and enhance employment stability.

Asset-building strategies, such as Individual Development Accounts \*, should include establishing a career path to help the individual move beyond their current wages and provide economic security. Whether the individual is a teenager just entering the labor market, a person moving off of public assistance in entry-level employment or other long-term employees earning low wages, a **PLAN** to improve income levels need to be created. Economic self-sufficiency means moving up the pay scale and receiving employee-paid benefits, which allows a person to have an open-mind about **savings** to use in the future.

One realistic way of achieving *economic independence* is to become employed in an entry-level occupation having good earning potential, e.g. laborer, helper or other beginning positions requiring some skill or technical knowledge. Companies that have a “career ladder” system of upgrading employees after first being hired at the entry-level should be explored, along with those that provide on-the-job training and educational options for further training. **Much of this training can take place on the job or in night classes.**

For women who are considered “working poor” or are striving to leave public assistance, non-traditional occupations may be a strategy to secure a higher-wage job. A somewhat different career planning path may be needed for women. Since many women do not “**automatically**” think of pursuing non-traditional careers, programs must be designed to help women identify hidden interests and aptitudes that are not obvious to them. When exploring new occupations, women benefit from **trying out a variety of new work possibilities**, e.g. “*job shadowing*”, *Work Experience Training*, *informational interviews (discussions with employers about the job and work requirements)* and “*lab*” *experiences in high school or community college*. # EDUCATION AND TRAINING CHOICES AFTER HIGH SCHOOL

## ON-THE JOB

Go to work for a company or business which will train you as you work on the job. Ask about their programs for on-going employee training.

## APPRENTICESHIP

A 3-4 year training program that combines on-the-job training with related technical and education instruction for skilled occupations. Supervision by a master in the craft, trade, or relevant occupational area.

The many apprenticable occupations in North Carolina are registered with the Division of Apprenticeship, North Carolina Department of Labor. ([www.dol.state.nc.us/DOL](http://www.dol.state.nc.us/DOL) or [www.doleta.gov/bat/](http://www.doleta.gov/bat/))

## PRIVATE BUSINESS OR TRADE SCHOOL

Short-term training (1 month - 1 year) for some occupations ranging from cosmetology to truck driving. Usually there are no special entrance requirements. Check on costs and length of program. The purchase of special tools may be extra.

## COMMUNITY COLLEGE

Considering possible technical programs? The North Carolina Community College System offers a variety of vocational and technical programs (one semester to two years) which lead to certificates, diplomas or associate degrees.

They also offer two-year transfer programs and specialized training for industry. There are open admissions, with remedial and pre-tech courses available. Entrance requirements depend on the program. ([www.bull.ncdccc.cc.nc.us](http://www.bull.ncdccc.cc.nc.us))

## 4 YEAR COLLEGE

There are many public and private colleges and universities in North Carolina. Your local library, school counseling office or career center will have college information for you.

You can also write directly to the colleges you are considering. Entrance requirements are based primarily on high school grades and college test scores. ([www.ga.unc.edu](http://www.ga.unc.edu))

## MILITARY

Work for Uncle Sam and get training, pay, room and board and benefits. Ask your military recruiter about the type of training available, qualifications for training, length of time commitment required, pay, and benefits. High School graduation is required.

## AGENCY REFERRAL AND SUPPORT

Many of the state agencies have job preparation, search, training and retraining programs. These agencies listed in Career Choices, work with clients with special needs and qualifications for training programs. Contact the nearest office to your location of the various agencies or call the number listed.

## Activity 16. Choosing a College

### I. Survey the Possibilities

BEGIN your search with a survey of colleges located in the geographic area of your choice -- Home, State, West Coast, New England, etc.

Resources which may help you are:

1. The College Handbook
2. Lovejoy's College Guide
3. Barron's Profiles of American Colleges
4. Barron's Guide to Two-Year Colleges
5. Peterson's Guide to Four-Year Colleges
6. Patterson's Schools Classifieds
7. A Comparative Guide to Colleges
8. The N.C. Community College System Guide
9. Computerized Career Information System
10. Barron's Guide to the Most Prestigious Colleges

Other Resources:

College Guides and Maps	Trade School Directories
College Catalogs	Occupational Outlook Handbooks
Financial Aid Forms	Encyclopedia of Careers
Armed Forces Brochures	Summer Educational Programs
Career Descriptions	Current Job Openings
	Admissions Test Applications

### II. Weigh the Differences

MAKE a comparison-study of the colleges in terms of:

1. Location and setting  
\_\_\_\_\_ *distance from home; city, small-town, or country setting*
2. Type and size of college  
\_\_\_\_\_ *co-ed, men's, women's, university, liberal arts, technical, junior, church-related, state-supported; enrollment, facilities*
3. Comprehensive cost  
\_\_\_\_\_ *tuition, room and board, extra fees, books, travel expenses, spending money, special clothing*
4. Financial Aid  
\_\_\_\_\_ *honor scholarships, grants-in-aid, loans, alternative work/study programs, campus jobs*
5. Special Curricula  
\_\_\_\_\_ *engineering, political science, computers, music, education, marine biology, business, etc.*
6. Admission requirements  
\_\_\_\_\_ *required subjects, test scores, grade point average, class rank, residency, special talents*
7. Kind of students who attend  
\_\_\_\_\_ *habits, interests, goals, ethnic and religious background*
8. Campus life  
\_\_\_\_\_ *cultural events, sports, clubs, fraternities and sororities, recreational facilities, rules and regulations, surroundings*
9. Time  
\_\_\_\_\_ *length of time to complete curricula. Is part-time possible?*

## Activity 16 (Cont). Choosing a College

### III. Narrow Your Choices

No college (nor type of college) is right for all students, but there are certain colleges that are right for you. Before narrowing your choices, you should answer some basic questions about yourself.

WHAT AM I ABLE TO DO?

---

---

---

WHAT DO I WANT OUT OF LIFE?

---

---

---

WHAT DO I NEED IN THE WAY OF TRAINING?

---

---

---

**NARROW** your choices to 10-15 colleges and write for catalogs. When you have selected 3-6 colleges and have the results of one college admissions examination, consult your counselor.

**LISTEN** for announcements regarding visits of college representatives to your school and arrange to talk with a few. Attend the annual post-secondary education opportunities day held at school and talk with admissions personnel representing the colleges you are considering.

**VISIT** colleges (with your parents) during the summer months or preferably in the Fall of your senior year to gather first-hand information. Call for appointments ahead of time.

**EVALUATE** the institution as a place where you might eat, sleep and study for the next four years. Tour the facilities and inquire about the extracurricular activities, the personal services, and the school regulations. If the college is in session, visit a class, talk to students, observe campus behavior, and eat a meal in the dining hall. You will know from your experience on the campus whether that college is right for you. No amount of reading or discussing will tell you this.

### SAMPLE LETTER TO COLLEGES

(your street address)  
(your city, state, zip code)  
(the date)

Director of Admissions  
(name of college)  
(address of college)

Dear Sir/Madam:

I am a junior (or senior) at \_\_\_\_\_ High School in Raleigh, North Carolina, and will be graduating in (month and year).

Please send me an application, a catalog, and other descriptive material that might help me in planning my future education. (mention your career interest if you have one)

I would appreciate receiving information and appropriate forms for scholarships and other types of financial aid. (use this sentence if you need help with college expenses)

Sincerely yours,

### CHECKLIST FOR MAKING PLANS

- Think about preliminary criteria and your priorities.
- Make a college list that includes "safeties", "possibilities", and "reaches"
- Star colleges where interviews are required or recommended
- Map out your itinerary.
- Check that the colleges are in session.
- Plan how and with whom you'll go.
- Keep college visits and school demands in balance.
- Arrange for high school absence and plan to make up missed work.
- Pack appropriate clothes for the interview.
- Write names and phone numbers of the college administrators you plan to see.
- Bring questions and be sure you have a pen and notebook with which to write important information.
- Take money for meals and any other expenses.
- Bring transcript in case admissions counselor requests it.

### College Vision

In 1996, the North Carolina General Assembly authorized the North Carolina State Education Assistance Authority to create and operate a parental savings trust fund. College Vision will allow parents to spread out over a period of years their payments for college. The parental savings trust fund is not a prepaid tuition plan, but rather a savings account with a loan option if educational costs exceed the accumulated savings plus interest earned. Families will be able to use the fund to pay for an education at any accredited public or private post-secondary institution inside North Carolina or outside of the state. Earnings on the savings accumulate free of taxes – when withdrawn, earnings are taxed for federal purposes at the beneficiary's rate, not the parents' rate. Earnings will never be taxed by the State of North Carolina. College Vision will be administered by College Foundation, Inc. For more information about this program, contact College Foundation, Inc. at (919) 834-2893 or 1-800-600-3453.

**JOB  
SEARCH**

# THE JOB SEARCH

## The Employer's Perspective

Today there are often more qualified candidates than there are job openings. Employers can afford to be selective and they are less willing to take a chance on an applicant that appears to be marginal. There are considerable costs associated with the recruiting, selecting, hiring and training of new employees. Therefore, employers are being more careful about hiring decisions, taking longer to evaluate applicants while looking for the maximum skills they can hire for the wage they have to pay. This means that today's job seeker needs the best preparation possible for the job search.

Prolonged unemployment as a result of an unsuccessful job search is most often caused for the following reasons:

- 80% cannot identify skills
- 90% cannot answer questions
- 40% have poor appearance
- 85% don't spend enough time on the job search

Careful review and implementation of the following steps will help clients and students avoid these problems and conduct an effective job search.

## Know the Product & Define Your Objective

- A job search is similar to a sales campaign only *you* are the product. Review your self-assessment summary and take stock of your strengths and weaknesses (preparing the resume will further your self-knowledge).
- Know what kind of work you want and will be most successful at doing - a targeted, focused job search will be more successful.

## Organize the Campaign

- Conduct research to find out where the *buyers* are (industries and companies). Find out what the buyer's needs are (job and employment requirements). Continue gathering information until you uncover buyers who have needs (job openings or potential openings) that match your career goals.
- Research some more. This is the most important aspect of the job search. It involves trips to the library and accessing other sources of occupational and labor market information. It also involves developing and/or expanding information networks.

## **Conduct the Campaign**

- Write an effective resume that highlights your qualifications and the type of work you want to do.
- Write cover letters for every resume sent out. Get the employer's attention by **individualizing** the letter to reflect their needs and how your qualifications meet those needs. Include knowledge of their company and why you would like to work there.
- Submit applications that have been filled out completely, neatly, thoroughly and by following the instructions exactly.
- Use a combination of job search methods; networking, direct application, want ads, private employment agencies, school placement office, employment service, on-line services, the internet, etc.
- Prepare your references. Call each person, ask them to be a reference for you and compile a list of contact information. Also include them in your network, ask them to keep you in mind if they should hear of any positions for you.
- Plan and practice job interviews. Review sample interview questions and prepare your answers. Practice your answers and model your nonverbal communication with a friend or counselor, videotaping is also an option.
- Interview. Be prepared, on time and dressed appropriately. Always carry an extra copy of your resume and a list of your references.
- Conduct follow-up. Write thank you notes to everyone you have interviewed with. Repeat the reasons you would like to work for the company and how they would benefit from having you as an employee.

## JOB MARKET RESEARCH

After you have determined what you want to do you must find out where you want to work and what organizations or companies hire in your chosen field. Assessing the job market to find out where job opportunities exist is an integral part of the job search process. Below are a list of commonly asked questions about the job market and a list of resources where the answers can be found.:

- What companies are hiring?
- What is the average salary for someone with similar skills and background in the field?
- What are the growth industries in the geographic area of choice?
- Which industries most need people with the client's/student's skills and experience
- What are the major companies and the fastest growing companies in the area?

### Resources:

**Networking** - Tell every one you know you're looking for a job. Ask about openings where your friends and relatives work. (see section on networking)

**Classified Ads** - Reviewing the classifieds, you can determine which companies are hiring salary ranges, and the types of jobs that are in highest demand

**Local Newspaper** - Read the business section on a regular basis for articles describing expansions, new product announcements, and companies relocating into the area.

**Chamber of Commerce** - The local Chamber publishes lists of the area's major companies, their addresses, telephone numbers, number of employees and products or services.

**Employment/Temporary Agencies.** Working as a "temp" will get you into different companies to see what they are like. Often people are offered permanent positions after a brief (or even lengthy) temporary assignment. In addition to for profit employment agencies, the **Employment Security Commission** has a job service with on-line listings of job openings.

**Job Hotlines and Electronic Bulletin Boards.** Many companies and government agencies have job hotlines. The number of on-line listings are increasing daily,(see the section on *Job Hunting on the Internet*, for more detailed information).

**Professional and Trade Associations** - The yellow pages and professional directories lists names and numbers of professional associations. Many hold regular meetings, list employment openings, and serve as excellent networking sources.

**Business Publications and Directories** - These resources can tell you a great deal about companies, industries, and the job market. You can find many of these resources in your local library, generally in the reference or business section. The reference or business reference librarian can provide you with assistance.

**Local Phone Book** - Check for listings of companies in your field, or any related organizations offering a product or service to those companies.

**Private Employers** - Contact employers directly to market your job talents. Talk to the person who would supervise you even if there are not jobs currently open (*see section on networking*).

**Federal, State and Local Government** - Look for personnel office lists of job opportunities. Check the government listings in your phone book.

**Apprenticeship Programs** - Ask for information on job opportunities. Contact the state apprenticeship division directly.

**Government Sponsored Training Programs** - Gain direct placement or short-term training and placement if you qualify. Check the yellow pages under Job Training Programs or Government Services.

**Community Colleges and Trade Schools** - Placement counselors have information about the demand for certain occupations and local job postings.

**Visit Your Local Public Libraries** - Check for directories of company listings and job announcements

**Take a Drive** - Whether you are relocating or remaining in the same geographic area, simply taking a short drive through nearby industrial parks, shopping centers and office complexes may yield useful information. Take note of company names and contact suitable companies at a later date.

## JOB SEARCH STRATEGIES

Using a combination of job search strategies is essential for a successful job search campaign, but some methods are more effective than others. The more effective methods should take up a larger percentage of the job seekers time. The following findings reported by the Department of Labor indicate the most effective methods:

**48%** of job holders found their jobs through friends or relatives

**24%** found their jobs through direct contact with employers - calling or going to them and applying for positions

**13%** used a combination or other methods

**6%** through school placement offices

**5%** through classified (help-wanted) ads

**4%** used public or private employment agencies

Experts in the field of employment and job placement find consistent evidence that networking is the most successful method of job seeking followed by direct contact with companies, employment agencies, and answering newspaper ads.

## NETWORKING

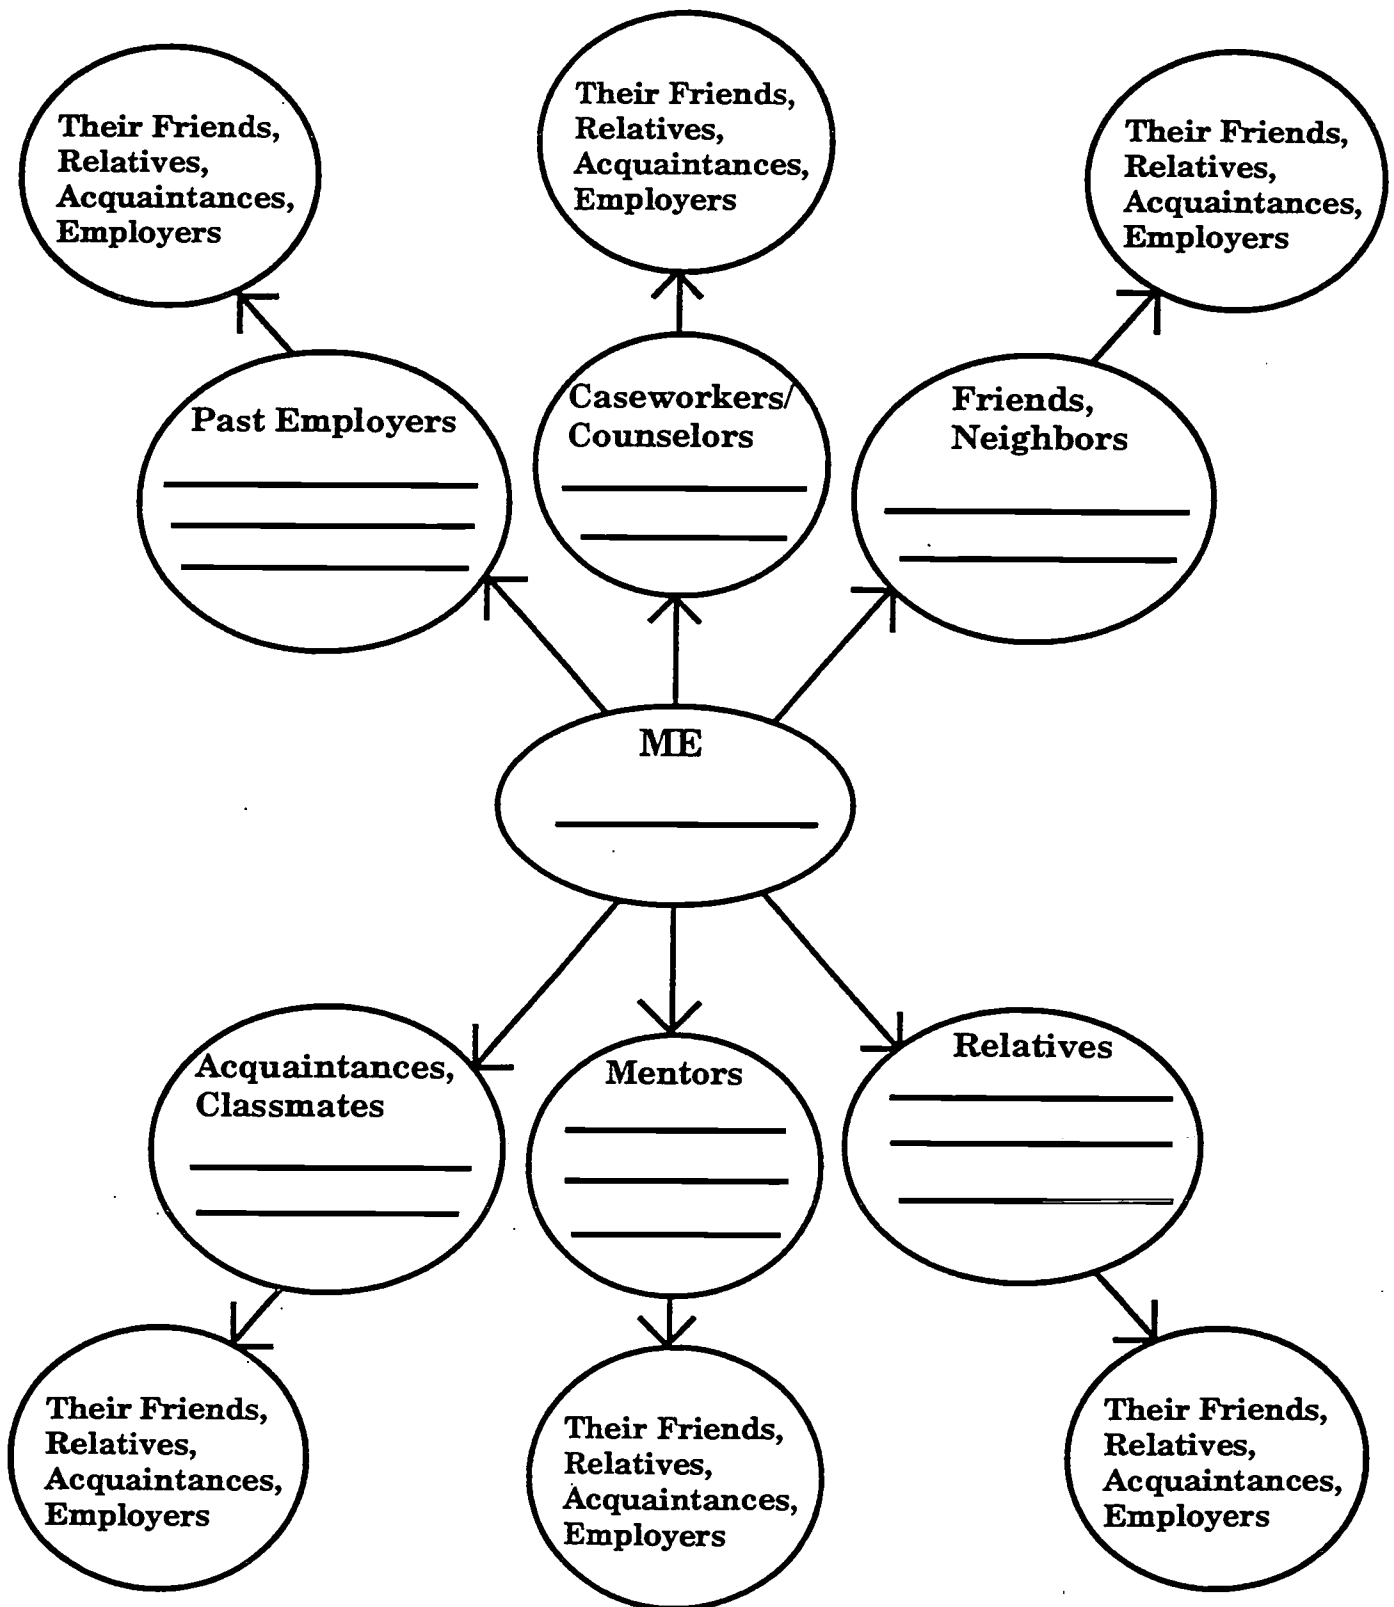

Networking is the most effective job search method, but it will require a lot of effort and time, (about 75% of your campaign) in order for you to reap any of its benefits. Networking is like planting a vegetable garden, first you must plant and cultivate before you can harvest.

- 1. Identify your network.** Use the networking map on the following page to list as many people you can. Don't forget neighbors, former employers, co-workers, classmates, religious affiliates, store clerks, etc.
- 2. Select the most promising contacts.** People in your network who can give you the information, resources and support you need to help you with your job search. Plan to call them (or write) to see if you can arrange a meeting. (Use the script in this section to help you prepare.) Specify that you will only need 15-20 minutes of their time. Ask them for information about:
  - Companies that employ people with your skills
  - Leads to any possible openings
  - Other people to contact that may have information, resources or support for you (your goal is to get 2-3 more names.)
- 3. Follow-up.** Keep careful records of all the people you contact and always send a thank you note acknowledging any information you have gotten. Contact every lead you are given and keep in touch with all your contacts periodically (once a month to inform them of your progress and keep you on their mind).
- 4. Expand your network.** Continue to generate a list of people who you can contact. Use meetings and conferences, professional associations and social gatherings to add people to your network map. You may need to directly contact people without a referral from someone in you existing network. If so, collect names from newspaper articles, company directories, phone books, trade journals and company brochures. Use the steps for conducting information interviews for these contacts. (See the section on interviewing.)

Activity 17.

Networking Map

Directions: Fill in the circles with names of friends, acquaintances and past employers in appropriate places. Start in the center with "ME".

**Directions:** Prepare a script for a networking call using the steps below.

Preparing for the networking call, using the steps below.

It is very important to be prepared for each contact that you make. Prepare a script that explains the purpose of your call and identifies your referral source. Practice it a few times prior to your actual phone call. This will ease your anxiety and increase your comfort level in talking to a variety of people. Some suggestions follow.

**STEP 1.** Make the phone call. Stand up and smile- your voice will carry stronger. Let the person know immediately who referred you to him/her. Use all positive words, such as "I hope this is a good time", Not "is this a bad time, are you too busy".

**STEP 2.** Present a 2 minute commercial about yourself. It should contain the following highlights:

- Your name- who you are
- Your career goal- occupational area you are interested in pursuing
- Your current situation- seeking employment, recent graduate in (state the program or certification)
- Your strengths, qualifications, special skills- I am very good with details, customer service, etc.

**Example:** Mr. Turner my name is \_\_\_\_\_, Jim Johnson with Federal Bank & Trust suggested that I call you. I hope I am reaching you at a good time. I have recently finished training and updating my skill through the community college programs in data entry, accounting software, and various other computer programs. I am looking for a full time job and could use some **ADVICE** in my job search.

**STEP 3.** Ask for an appointment. More will be gained if you can get a face to face networking interview.

**Example:** May I have about 20 minutes of your time later this week at your convenience? I would really appreciate it.

**STEP 4.** At the interview be sure you have prepared questions for the person. Be able to state your skills and abilities and ask for names of people (get at least 2-3 names) or companies that could use a person like you. Ask if he/she knows of any new industry, or an existing industry that is expanding and needing additional workers. Show the person your resume and ask his/her advice on the resume.

**STEP 5.** Thank the person at the end of the interview and also send a written thank-you note. Keep the person informed about any new possibilities and prospects in your job search.

Contacting a person without a referral from someone else may go something like this:

Hello, Mr. Rudolph, my name is Ed Smith. I noticed your promotion to regional manager for technical services mentioned in last weeks paper, congratulations. I thought you would be an excellent person to give me some advice. I just recently graduated with an Associates Degree in Electronics Engineering and I'm in the process of doing some research regarding the type of work I'd like to do. Would it be possible to have 15 minutes of your time so that I could ask you a few questions?.....

*These interviews are similar to those discussed in the section on Career Information Interviews. They can be arranged at your contact's place of work, during lunch, morning coffee or after work. If your contact seems hesitant to meet face to face, ask if they could spend a few minutes of time talking with you on the phone.*

## PEOPLE SKILLS NECESSARY FOR NETWORKING

**Assertiveness** - Take responsibility for getting what you want and not apologizing for asking for help. Remember, networking is a two way street of people sharing what they have to meet mutual goals.

**Excellent Listening Skills** - Most of your networking will require listening for information and answers. Good listeners have good connections.

**Asking Good Questions** - Good questions indicate good listening skills. They give people a clear understanding of what you want from them and demonstrate good thinking skills.

**Presenting Yourself Attractively** - Communicate confidence and self-assurance.

## ANSWERING HELP WANTED ADS

In responding to ads, consider the following:

Consistently check the Sunday classified section. But remember there are a number of other sources:

<b>daily newspapers</b>	<b>professional or trade publications</b>
<b>school/university job listings</b>	<b>community bulletin boards</b>
<b>government publications</b>	<b>business papers in your area</b>

Choose the right ad. Even if you are missing one qualification in an ad that interests you, apply anyway. You may possess the most critical qualification. But be close, it is a waste of time and money to apply for jobs you are not qualified for.

Follow-up. Whenever possible, follow-up with a phone call within a week. This follow-up reminds the hiring authority who you are and strengthens your interest.

### THE DIRECT APPROACH

This method is not to be confused with mass mailings. Instead you will be contacting companies that you have targeted as having a need for your qualifications.

1. Make a list of targeted companies. You will generate this list based on your job market research, companies you know about, and/or companies you have learned about through your network. Your targeted list should have 10-15 company names at all times.
2. Send a cover letter to the company. Address the letter to the department where your job target is located. Try to obtain the name of the person who makes hiring decisions.

In this strategy, you may be told there are no current openings. All is not lost, an opening may develop in the future. Keep in touch periodically. You should also ask if they know of any other companies that might be in need of your qualifications.

**Activity 19.****Reading the Classified (Want) Ads in a Newspaper**

**Directions:** Match the following abbreviations with the correct word it represents.

**ABBREVIATION****WORD**

Finding out about specific companies is important for finding job opportunities, but it is also important to become thoroughly acquainted with a company before submitting a cover letter, resume, application and especially before an interview.

A visit to one of the area's regional libraries and its reference librarian is the best method for locating most of the information you'll need. Another excellent research option is to contact a company directly, either the public relations, investor relations or public affairs departments and asking for any written materials they may have on the company.

# USING THE INTERNET IN YOUR JOB SEARCH

## WHY?

- There are hundreds of jobs “out there” that may or may not be listed elsewhere.
- Increases your “network” of people willing to give you leads and advise you in your job search.
- Ability to send your resume electronically - saves time, postage, etc.
- Ability to research potential employers and companies in order to be better prepared for interviews and determining companies for which to work.
- Obtain job hunting information and advice.

## WHAT DO I NEED?

Besides the obvious; computer, modem, and telephone line, you will need software to communicate with a remote computer system as well as an account consisting of a User ID and Password on the remote system.

## HOW?

There are several ways to connect to the Internet. Various commercial services, such as CompuServe, America On-Line, Prodigy and Genie provide Internet access. In addition, you can use an Internet Service Provider (ISP) such as MindSpring, InterPath, and AT&T. Commercial services charge a basic rate that includes some number of hours. You pay additional charges for any hours over what is included. Most ISP's offer plans that include unlimited access.

## WHERE SHOULD I LOOK?

The World Wide Web (WWW) is in practice, a vast collection of interconnected documents.

To access the web, you run a browser program. The browser reads documents, and can fetch documents from other sources. Information providers set up hypermedia servers which browsers can get documents from.

The browsers can, in addition, access files by FTP (File Transfer Protocol), NNTP (the Internet news protocol), gopher and an ever-increasing range of other methods. On top of these, if the server has search capabilities, the browsers will permit searches of documents and databases. One very popular Web site, Yahoo, ([www.yahoo.com](http://www.yahoo.com)) maintains links to thousands of sites and allows searching using a variety of search tools.

The documents that the browsers display are hypertext documents. Hypertext is text with pointers to other text. The advantage of hypertext is that in a hypertext document, if you want more information about a particular subject mentioned, you can usually “just click on it” with the pointers to read in further detail. In fact, documents can be and often are linked to other documents by completely different authors — much like footnoting, but you can get the referenced document instantly!

## JOB SEARCH ON THE INTERNET

Many sites offer job listings, career information and resume tips. Keep in mind that addresses change, so be flexible as you explore.

## RESUMES

A resume is one the most important tools in your job search. Its purpose is to entice the employer to call you in for an interview. Resumes are sent in response to classified ads, delivered to targeted employers, given to people in you network, submitted to employment agencies, and attached to your job applications. They often give the potential employer their first impression of you, so make it a good one!

### A Good Resume:

- Is perfect
- Is short, concise and specific
- Emphasizes accomplishments and achievements
- Highlights skill, strengths and background related to the job target
- Emphasizes results and benefits to the employer
- Lists your education, training, and work experience
- Is targeted to the type of position you are applying for

### GENERAL DO'S AND DON'TS

#### DO'S

Be concise, accurate, positive  
List your most recent job first  
Stress skills, accomplishments  
Use action verbs  
Make resume attractive and easy to read  
Have someone proofread before mailing  
Print on resume quality paper

#### DON'TS

Lie or exaggerate  
Include salary history  
Use pronouns, abbreviations  
Overdo use of bold & italics  
Use small type, overcrowd margins  
Include references  
Include personal information

References are usually left off resumes unless you are instructed to include them for a job fair.

Have references available on another typed sheet of paper for the interview- at least three people, not relatives, that have recognized your skills, accomplishments or personal qualities.

“References furnished upon request” is no longer necessary on bottom of resumes. It may be eliminated especially if space is needed for pertinent information.

There are different resume formats. Not one resume format or style is appropriate for all job seekers. Select the style and format which best markets and sells your skills and qualifications to the most employers.

Always include a cover letter (see pages to follow) with a resume.

## DEVELOPING A CAREER OBJECTIVE

“A resume without an objective is like a book without a title”, states Jay L. Stahl, managing director of Right Associates in Raleigh, NC.

By trying to keep many career options open and not using an objective, clients/students may give the message to employers that they are not focused, do not have any goals and diminish the possibility of being called for an interview.

Seniors attending job fairs or looking for full time employment need to design a resume, including a career objective, that is flexible to entice the varied employers who attend, while giving a statement of the strengths he/she has to offer. This can be done as follows:

### A CAREER OBJECTIVE HAS THREE KEY PARTS:

1. Level of position for which one is applying.  
For high school students this primarily will be “entry level positions”.  
Example: CAREER OBJECTIVE: Obtain an entry level position...
2. Type of business, industry or career area sought.  
Keep this generic, such as manufacturing, construction, health or human services, sales, etc.  
Example: CAREER OBJECTIVE: Obtain an entry level position in the hospitality industry....
3. State the major strengths you have to offer this employer.

Be sure there are examples of these strengths in the resume either as a volunteer, club activities, or work experience.

The career objective is the first part of the resume the interviewer will see. It can start the interview process with a focus.

### EXAMPLES OF CAREER OBJECTIVES FOR HIGH SCHOOL STUDENTS:

- Obtain an entry level position in a business or industry using my strengths in clerical procedures and customer contacts.
- Obtain an entry level position in an industrial or manufacturing environment using my excellent mechanical abilities and warehouse experience.
- Obtain an entry level position in a health or human services facility using my strengths with individual care and personal attention to needs of others.

## SUMMARY STATEMENTS

One very good way of getting an employer's attention when reviewing your resume is to include a summary statement. Summary statements follow the career objective and can be used with any resume format. It is an overview of what you have to offer. Like the objective it is optional, but strongly recommended. Summary statements contain the following.

- Years of experience (could include education/training experience)
- Type of environment worked in
- Areas of specialty(education or training can be substituted for lack of experience)
- Brief description of your most relevant business characteristics(self-management skills)

Here are some sample summary statements:

Two years experience in clerical support and data entry, with customer service division of a midsize employer. Dependable and conscientious with the ability to get the job done with minimal supervision. Committed to cooperative teamwork. Experience working with the public.

*A different format would be to simply list your qualifications:*

- Enjoy detailed work and exhibit initiative, creativity and resourcefulness.
- Able to utilize organizational and problem solving skills.
- Reliable, efficient and capable of completing a variety of tasks.
- Good team player, work well with all kinds of people.

**Note:** *Be sure to back up your statements with facts about your job responsibilities and accomplishments in the body of your resume.*

# THE CHRONOLOGICAL RESUME

The chronological resume emphasizes work experience. It is the preferred style of resumes by employers because it enables them to quickly match your previous work experience to their immediate needs. It can be used by recent graduates to show their part-time, co-op, and summer employment as relevant work experience.

## Writing a Chronological Resume:

- Use a career objective to market your strengths and skills without limiting your options. See p. xx for more information on career objectives.
- Use a summary statement, 3-4 statements about who you are, your experience and credentials.
- Start with your most recent position and work backward. Give the name of the company, city, state; job title, major duties and accomplishments.
- Keep your job objective in mind and emphasize the duties and accomplishments that publicizes your strengths and for which the employer is looking.
- Use action verbs to start each phrase or sentence.
- Use lists preceded with bullets for easier reading.
- If you have completed a relevant course or received a diploma/degree in the last five years, it should go at the top of the resume; otherwise education should be listed at the bottom. Keep the length of your resume to one page, two at the maximum. If you use a second page, be sure to type your name on the top of page 2.

## CHRONOLOGICAL FORMAT

**NAME** - State full name, type in bold and use a large type  
**STREET ADDRESS**  
**CITY, STATE, ZIP CODE**  
**(AREA CODE) TELEPHONE NUMBER**

**OBJECTIVE** - indicate the position or general type of job you are seeking.

**SUMMARY STATEMENT** -(optional)

**EDUCATION** - if you are a recent graduate, place your education here, list your diploma, degree, certificate, name of school and location, relevant courses (may be a separate section). GPA may be appropriate.

**WORK EXPERIENCE** - list each job separately starting with your present job or most recent job first, state your position, major responsibilities; duties and accomplishments

**SKILLS** - list relevant skills. Skills include the machines

you can operate, computer hardware, software in which you are competent. Examples: operate a cash register, copier, fax machines, IBM computer, Macintosh computer, Word Perfect.

**ACTIVITIES** - extra curricular activities, community activities are all appropriate if space permits and if relevant to your job objective.

See sample chronological resume.

# THE FUNCTIONAL RESUME

The functional resume organizes your experience by areas of skills, avoiding a strict reliance on chronology. Functional titles or skill clusters are used to organize your skills from various places of employment, volunteer or educational experiences. The functional resume is an excellent tool for career changers, job seekers re-entering the job market after a period of not working and for students finishing a degree or program area which qualifies them for work differing from their previous employment.

## Writing a Functional Resume:

- Determine the functional titles that best describe your skill area and are most closely related to your job target.
- Include summary statement.
- Within each functional area stress your accomplishments, results or abilities.
- Include all relevant accomplishments without identifying the place of employment or voluntary situation in which it took place.
- List your education, relevant courses or degree at the top of the resume if it was completed within the last five years.
- List work experience at the bottom, giving dates, company name and title.
- Keep length of resume to one page, two maximum. If using a second page, type your name only on upper corner of second page.

## FUNCTIONAL FORMAT

NAME- type full name in large type  
STREET ADDRESS  
CITY, STATE, ZIP CODE  
(AREA CODE) TELEPHONE NUMBER

OBJECTIVE - although optional, either career highlights or objective gives reader the messages of your career goals and your focus.

SUMMARY STATEMENT -(optional)

EDUCATION -if you are a recent graduate, place your education here, list your diploma, degree, certificate, name of school and location, relevant courses and GPA (optional).

FUNCTIONAL TITLE (S) - Select two or three skill areas in which you are interested.

Examples: Customer Service, Sales & Marketing, Office Technology, Graphics & Design, Medical Services, Food Service, Hospitality, Horticulture, etc. List them in order of your interest and skill level. State accomplishments or qualifications you have under each title.

### WORK EXPERIENCE

date job title company name, city, state

date job title company name, city, state

date job title company name, city, state

See sample Functional Resume.

## THE ELECTRONIC RESUME

The electronic resume will be read (scanned) by a computer and placed in a database. The format may be chronological or functional. It must contain keywords and a keyword summary. Keywords are **nouns** that state your job title, duties and accomplishments. The keyword summary should contain the **targeted** job title and alternative labels, as well as previous job titles, skills, software programs, and language known to the particular industry, profession or occupation. It is important to note the resume will be read by a computer first, and a human second. If it does not contain the "keywords" the employer has requested the computer to search, it will not be seen by a human hiring professional. See the following pages for sample keywords.

Writing an electronic resume:

- Choose the most likely keywords and arrange them in an appropriate order.
- Use the typeface most easily read by a computer: Helvetica, Times Courier and a font size between 10-14 points (name should be 14).
- Avoid italics, script, underlining, graphics, shading, boxing, vertical and horizontal lines, columns- the computer can difficulty reading these. Bold type and solid bullets are OK.
- Use smooth white paper (8 ½ x 11), black ink with laser quality print.
- Use abbreviations carefully.
- Avoid stapling or folding the resume and cover letter. Words in the fold may not be scanned correctly. Provide sufficient white space.

### ELECTRONIC FORMAT

**NAME-** Large print, bold without any fancy layouts

**STREET ADDRESS**

**CITY, STATE, ZIP CODE**

**AREA CODE TELEPHONE NUMBER-** To ensure separation of words and categories, leave plenty of white space instead of parentheses. Example: 919 772-5555.

**OBJECTIVE-** optional, unless applying for specific job title an employer is seeking

**KEYWORD SUMMARY-** approximately 25 words that best sell you stated in nouns. Include job title, duties, skills, and interpersonal traits.

**EDUCATION-** if you are a recent graduate, place your education here, list your diploma, degree, certificate, name of school and location, relevant courses. GPA is optional.

**SKILLS-** relevant to job objective not previously stated in Keyword Summary. May include transferable, technical and computer skills. Bulleted single column list scans the best.

**WORK EXPERIENCE-** list each job separately starting with your present job or most recent job first, state your position, major responsibilities, duties and accomplishments.

**ACTIVITIES, HONORS, AWARDS-** extra curricular activities, community activities, sports, etc. are appropriate if space permits and is relevant to your job objective.

## COVER LETTERS

A cover letter can sometimes be even more important than the resume. It will actually “sell” the reader on the idea of reading your resume. Cover letters should always accompany a resume and should always be individualized to the employer you are sending it to.

### An effective cover letter:

- Is tailored to a specific position in a specific organization (matches your qualifications with the requirements of the job).
- Shows the employer why they should read your resume.
- Demonstrates your knowledge of the hiring organization and the job.
- States how you heard about the opening, through a person, job listing, ad, etc.
- Is straightforward, businesslike, and positive.
- Is typed neatly, error free, and on good quality paper.
- Is no longer than one page.
- Is addressed to a specific person. Avoid using “Dear Sir/Madam”, or “To Whom it May Concern”.

*See samples on the following page.*

## SAMPLE COVER LETTER

June 8, 1997

Mr. Ben Stewart  
Regional Manager, First In Food, Inc.  
222 Peabody Industrial Park  
Raleigh, NC 26702

Dear Mr. Stewart,

I was excited to learn about your company's plans to open ten new stores in the Triangle area by the end of next year. Your restaurants have always been a favorite of mine.

Majorie Walters has let me know that you are interested in managers with proven organizational abilities, a willingness to learn new ways of doing things, and a high level of commitment to a company's goals.

With two years of experience working in fast food restaurant management, and a recent Associates Degree in Business Administration, I believe I have demonstrated the qualities you are looking for in your management personnel. As manager of Burger World, I led our team in winning "Restaurant of the Year" for two years in a row. The turnover rate of our employees was only 2%, and we increased sales by 25%. I achieved these accomplishments with my ability to understand the company's goals, a dedication to teamwork, and a focus on customer satisfaction. I have found that I work my best when I have a variety of tasks to manage simultaneously.

I would like to learn more about your new business ventures and what you look for in new members of your organization. I will call you at 9:00 am Tuesday morning, June 17<sup>th</sup> to arrange a time for us to speak further.

Thanks for your time and consideration.

Sincerely,

Mitch Stevens

## EFFECTIVE INTERVIEWING STRATEGIES

How an applicant performs in the interview is critical to getting the job. Often employers will hire a less experienced person who interviews well rather than a more experienced person who interview poorly. The following list is a compilation of what experts agree makes a difference between getting a job offer or a rejection.

### GETTING READY

- Improve interview appearance: clothing, hygiene and grooming
- Find out as much about the interviewer, the job and the hiring organization as possible
- Practice answering interview questions --- especially "difficult" ones
- Confirm the date, time, and place of the interview
- Get directions to the interview site; inquire about parking
- Ask if materials or work samples should be brought
- Get enough rest to be mentally alert for the interview
- Bring an extra resume and list of references
- Prepare questions to ask
- Come alone ---not with a relative or friend

### WAITING FOR THE INTERVIEW

- Arrive 10-15 minutes early
- Treat receptionists and secretaries politely --- their opinions count
- Review resume, list of abilities and strengths
- Use relaxation, visualization, and positive self-talk techniques

### IN THE INTERVIEW

- Express energy and enthusiasm
- Smile and offer a firm handshake
- Remember and correctly pronounce the name of the interviewer and others you may meet
- Remember goals for the interview and stay on track
- Sit up straight, maintain eye-contact
- Delay questions about pay and benefits until a job offer is made or the interviewer brings up the subject
- Listen to questions carefully and clarify any you don't understand
- Focus on your ability to do the job and don't volunteer other information such as personal problems, money matters, health problems
- Emphasize your qualifications, not your need for the job
- Speak positively about former employers and co-workers
- Eliminate distracting behaviors
- Ask your questions at an appropriate time

## **CLOSING THE INTERVIEW**

Indicate your interest in the job

Summarize your qualifications for the job

Thank the interviewer for the opportunity to interview

Find out when you can call back to check on the hiring opportunity

If offered the job, take time to think it over (24 hours is reasonable) before accepting or rejecting the offer

## **AFTER THE INTERVIEW**

Jot down your impressions of the job, the interviewer, the organization

Review your interview performance --- what you did well and what you would do differently next time

Put a reminder on your calendar for your follow up phone call

Write and mail a follow up letter

### Activity 23. Interview Practice Questions

**Directions:** Write a complete sentence for the following questions frequently asked during an interview.

1. What jobs, including summer and part-time, have interested you the most? Why?
2. How have your education and/or employment experiences prepared you for this job?
3. What are your career goals?
4. Where do you see yourself in five years?
5. Can you tell me about yourself and your background?
6. What do you consider your best qualities or strengths?
7. What do you consider your weaknesses?
8. What interests you about this job?
9. Why do you want to work for this company?
10. What did you like and dislike about your last job?
11. Which course(s) did you like best in school?
12. Last month, how many days of work or school did you miss?
13. Why should I hire you for this job?
14. How would your last supervisor or teacher describe you?
15. How would a friend describe you?
16. What motivates you to put forth your greatest effort?

Activity 24 a. A Job Interview Checklist

**Directions:** Use this to prepare for your interview. If you can answer "yes" to all the questions, you are ready. Refer to this list before every job interview.

**Activity 25. Follow Up Procedure**

Often your chances of employment can be increased by making another contact with the employer. This can be done by a telephone call or a thank-you letter. The thank-you letter is often the most common follow up method.

**FOLLOW UP LETTER: "Out of Sight - Out of Mind"**

A thank-you letter may be typed OR neatly handwritten on personal stationary.

The letter should be written soon after the company or job fair interview, the next day is best!

The letter should state your continued interest in the job and your appreciation of their time spent with you during the interview.

**Directions:** Write a thank-you note to an employer similar to the sample below.

## KEEPING A JOB

The first step to remaining successfully employed is to understand what employers want from their employees.

### What Do Employers Want?

- **Commitment to Life Long Learning**
  - Realizing its importance
  - Taking advantage of on the job training
  - Seeking additional education or training off the job
- **Reading, Writing and Computational Skills**
  - Critical to the ability to learn
- **Listening Skills & Communication Skills**
  - Ability to understand instructions
  - Ability to communicate with co-workers, supervisors and customers
- **Adaptability**
  - Ability to adapt to changes in technology, the marketplace and the job
  - Being a creative problem solver (using critical thinking skills)
- **Personal Management Skills**
  - Ability to set goals and motivate self
  - Taking charge of own personal and career management
  - Building one's self-esteem
- **Group Effectiveness**
  - Demonstrate effective team work skills
  - Working and negotiating with others
- **Influence**
  - Understanding the organizational structure and informal networks (politics)
  - Establishing a sphere of influence in which to contribute ideas (discovering where you will be heard and have the most influence)

The next step in keeping a job is to build a positive reputation. Below are the basics for success in the workplace.

### BASIC ELEMENTS OF JOB SUCCESS:

- **Dependability and Reliability**
  - Frequent absences create problems for employers and coworkers and are a cause for dismissal.
  - Reliability means following through on tasks without constant supervision.
- **Punctuality**
  - Being consistently late causes problems by delaying the work of others. Employers depend on employees to be on time to work, to meetings and from returning to work after breaks and lunch.

- **Quality of Work**  
Producing quality is critical to business survival. Employees must take care to produce the highest quality products and services possible.
- **Quantity of Work**  
Productivity is essential to success on the job. An effective employee produces enough work to justify the wages they earn.
- **Being a Valued Team Member**  
Today's workplace values team work. Important to being a successful team member includes: taking an interest in people personally and in the job they do; appreciating others' contributions by saying thank you and sharing the credit; dealing with conflict directly without complaining to others and staying out of others' battles; appreciating the different values and skills that others bring to the workplace, and developing tolerance for diverse ethnic and cultural backgrounds as well as ages and gender.
- **Creating and Maintaining a Positive Relationship with Supervisors and Managers**  
Supervisors and managers are allies and mentors not the enemy. They expect honesty, flexibility and initiative. Reporting on work results will help supervisors stay informed of performance and assist them at appraisal time. Knowing when to ask for help with problems and when problems can be solved alone is key to a successful employee/supervisor relationship.

## NEGOTIATION SKILLS

The workplace of today is streamlined. Less people are producing more goods and services than before. Also, input from all employees regardless of their position is considered part of a company's decision making process. This calls for increased attention to an individual employee's problem solving, interpersonal, communication and negotiating skills. You may not always get your way, but good negotiations bring the best results for the company. Be part of a "win-win" organization.

Your negotiation skills may have already been in use during the offer and acceptance part of getting your new job. You may have negotiated your employment start date, your working hours, or a menu of benefit plans. Negotiating is used in various places in and out of the workplace.

The following situations are often negotiable:

- Purchase price of a car
- Where to have lunch, dinner
- Selecting a Realtor to assist in finding a place to live
- Employee transfer date
- Project deadlines
- Vacation time including when vacations can be taken

LIST OTHER NEGOTIATING SITUATIONS IN WHICH YOU FIND YOURSELF AT THIS TIME:

---

---

---

---

Following is a brief summary of the six steps common to each negotiations. Keep these in mind before you start your next negotiation.

1. Plan to know the people involved in the situation. Keep the interaction friendly, relaxed and businesslike.
2. Share goals and objectives with the other party. Listen to their goals and objective. Have no hidden agendas.
3. Study all issues before the negotiations begin. Anticipate issues of concern for the other party and have prepared anticipated answers.
4. Identify immediate areas of disagreement or conflict.
5. Reassess position to determine level of compromise.
6. Affirm agreement goals to leave no room for misunderstanding. Mutual agreement is the ultimate objective.

## CAREER MANAGEMENT

To manage your career is to be in charge of your career decisions, your next move, and keeping your skills up to date. Career management does not encourage an individual to become a “job hopper.” By adhering to the following points, you will be in a good position if a planned or unplanned career move is in your future.

1. Establish positive work relationships with co-workers. A positive attitude is catchy. Find positive people to associate with.
2. Know your organization’s goals and purposes, so you can help to achieve them.
3. Build a relationship with your supervisor that is genuine and based on mutual interests, abilities and goals.
4. Establish a reputation for being reliable by completing work and assignments on time.
5. Work honestly. An employee that can be trusted and makes decisions based on strong personal values is an asset to an organization.
6. Turn problems into solutions. Be a problem-solver.
7. Learn new skills each year. It will be to your personal and professional advantage. Keep up with the new technology in your field.
8. Work collaboratively on a team. Recognize the contributions of all team members
9. Continue to build and maintain your career network.
10. Grow by setting measurable and attainable goals.

# CAREER TRANSITIONS

Life is marked with a variety of transitions. Personal transitions include changes in where we live, changes in relationships, and number of family members in a particular household. Work transitions include leaving our current job, either voluntarily or involuntarily, retirement or career change. Financial changes include an increase or decrease in your income or assuming additional financial commitments.

Everyone experiences life transitions. How we adapt to these changes and handle the transitions set us apart. Throughout transitional periods there are a number of things that can make the transition easier:

- a support system- family, friends, church, job search clubs
- permission to feel the effects of the transitions
- understanding transition time are temporary
- become goal directed

## Job Loss

The reactions you have to a job loss are similar to the reactions people face when they deal with other losses and trauma in their life such as a death, divorce, etc. It is normal to feel depressed, angry, fearful, relieved and excited and sometimes feeling several of these emotions at the same time. It takes a period of time to sort through these feelings.

Dr. Elizabeth Kubler-Ross explains grief and loss in stages or cycles. Job loss also requires a period of time to grieve. Dr. Kubler-Ross's stages of the "grief cycle" is very applicable.

The five stages of the Grief Cycle are:

1. **Denial/shock** - individual wants to put off job search; may also put off saying good-bye to co-workers or telling friends or relatives of the layoff.
2. **Anger**- individual becomes bitter and many are unable to express their anger; anger can be energizing, once expressed it can be channeled into positive directions like job search strategies.
3. **Bargaining**-attention is drawn to others and not the needs of the individual; job search is limited and often directed only in the direction of the previous employer. Individual looking for one more chance to prove him/herself at the same workplace.
4. **Depression**- characterized by low energy levels, altered patterns of eating and sleeping; feeling hurt and like a failure; ego hurt and feels shameful of letting significant others down.
5. **Acceptance**- final acceptance of the job loss without bitterness; individual sees the positive outcomes the trial has brought to their lives including closer family bonds, personal growth and new and more positive career directions.

*Recovery does not usually progress in a straight line. It's more like a roller coaster.*

adapted from, *Career Transitions Manual*, D. Haber, N. Heller, Britt Grant Associates, 1995

## STRESS MANAGEMENT...

### during the job seeking process

Losing a job is rated as one of the most stressful transitions individuals may face in their life time. Coping and stress reduction exercises may help to smooth the transition time for you and family members.

- 1. Watch your weight, diet and exercise at this time.** Often these items become low on one's priority list; however, a good exercise routine and improved diet can help to alleviate the stress. It may not be a good time to start a new plan, but routine walks, jogs and a balanced diet may help you feel better physically and emotionally.
- 2. Set realistic goals.** Do not expect to accomplish everything at once. Set time frames for when your resume will be completed, number of networking appointments to make per week, number of follow up calls to do per day. A balanced yet flexible schedule will be more productive than a full force effort for xxx amount of days to accomplishing nothing for xxx amount of time.
- 3. Join a job club or a job support group in your community.** Many communities and churches have offered job support groups to help people in transitions both cope with the job loss and actively pursue job leads in their community.
- 4. Seek counseling if needed.** Do not try to go through this process alone or with antiquated techniques.
- 5. Read recently published job search books** from the library or book store to learn the latest ways to find employment. Take time now to become updated with the latest job search strategies and techniques, especially if it has been a long time since you've been through a job search.

## Activity 26 Stress Reducers--What am I doing wrong?

Looking for work after a job loss or change can be stressful. A certain amount of stress makes life interesting and challenging. When there is too much or a person isn't managing stress well, illness can result. Below is a list of stress reducers.

**Directions:** Check the items below that describe you.

1. \_\_\_ I sleep seven to eight hours at least four nights a week.
2. \_\_\_ I have at least one relative or friend nearby on whom I can rely.
3. \_\_\_ I drink fewer than five alcoholic beverages per week.
4. \_\_\_ I give and receive affection regularly.
5. \_\_\_ I exercise at least three times per week.
6. \_\_\_ My income is adequate to meet my basic expenses.
7. \_\_\_ I have a network of friends and acquaintances.
8. \_\_\_ I am in good health (including eyesight, hearing, teeth).
9. \_\_\_ I am able to speak about my feeling when angry or worried.
10. \_\_\_ I have regular conversations with the people I live with about domestic problems, (chores, money, and daily living issues.)
11. \_\_\_ I regularly participate in social or other activities.
12. \_\_\_ I do something for fun at least once a week.
13. \_\_\_ I am able to manage my time well.
14. \_\_\_ I eat a well balance diet including adequate amounts of protein, fruits and vegetables.
15. \_\_\_ I am close to the appropriate weight for my height.
16. \_\_\_ I get strength from my beliefs.
17. \_\_\_ I drink less than four caffeinated beverages per day.
18. \_\_\_ I get an adequate amount of quiet time for myself during the day.
19. \_\_\_ I have one or more people to confide in about personal matters.
20. \_\_\_ I have a plan to better manage the stress in my life.

\_\_\_ Total number of checks.

Add up the number of checks above. If there are seven or less, you may not be doing all you can to reduce or manage stress in your life. Review the items above and identify one or two that you can do. For example, taking a long, vigorous walk three times a week could improve your health at stressful time in your life.

*Exploring Careers - A Young Person's Guide to over 300 Jobs*. (Compiled by the US Department of Labor Bureau of Labor Statistics, published by Lakeshore Lifeskills, 1993). This book features descriptive job summaries, 462 pages.

*Getting Started: North Carolina Jobs and Careers*. (NC State Occupational Information Coordinating Committee (NC-SOICC), 1997-2000). An excellent tool in classroom presentations, small groups or one-to-one career counseling. Book is free and classroom and agency copies available through public agencies. Phone (919) 733-6700, for information on ordering.

*(The Complete) Guide for Occupational Exploration (CGOE)*. (Compiled by the US Department of Labor). This 1994 JIST edition includes all 20,000 plus titles listed in the new Dictionary of Occupational Titles and the information is organized and designed with job seekers in mind. This book is more extensive than the enhanced GOE (EGOE).

*(The Enhanced) Guide for Occupational Exploration. (JIST: The Job Search People, 1991)*. The EGOE organizes job titles into major interest groups, work groups, and subgroups and includes the descriptions of basic duties and responsibilities for the 2,500 most important jobs that represent "access points" into the labor market.

*(The) Gorman Report-Undergraduate: A Rating of Undergraduate Programs in American and International Universities. Ninth Edition*. (National Education Standards). 1996. Reports the top undergraduate programs in more than 150 separate fields.

*Hidden Job Market 1997: 2,000 Fast Growing High-Technology Companies That are Hiring Now. Sixth Edition*. (Peterson's). 1996. Profiles 2,000 companies that added the most new employees to their payrolls in the past year.

*High Impact Resumes and Letters*. 3<sup>rd</sup> Edition (Impact Publications, 1993). Thirteen well-conceived chapters debunk resume myths and include necessary forms for producing and evaluating each resume section. The book promotes the larger career planning process of skills, objectives, research, networking, interviews, and negotiations, 363 pages.

*Hook up, Get Hired! Joyce Laine Kennedy*. (1995). Complete job-search book that advises the reader- whether a computer novice or an expert-on how to find current job posting on line; how to post a resume, how to electronically research a company and how to network with others who share your interest.

*(The) Janus Employability Skills Program*. (Fearon/Janus Education, 1993). Consists of seven books especially designed for students with special needs. Teacher Guide and Resource book also available.

- Jobs Rated Almanac: Third Edition.* Les Krantz. (Wiley). 1995. Ranks 250 jobs by more than a dozen vital factors, including salary, stress, benefits, and more.
- Joyce Lain Kennedy's Career Book.* 2<sup>nd</sup> Edition, (JIST - The Job Search People, 1992). The updated 2<sup>nd</sup> edition contains job-market trends, pay scales, career outlooks, educational options, college assessments, job-hunting tips, advice for minority students and information for people with disabilities. Self-evaluation tests and references point the way to more information in various fields, 480 pages.
- Network Your Way to Jobs and Career Success.* Ronald L. Kramnish, Ph.D., Caryl Rae Kramnish, Ph.D. (Impact Publications). Two leading employment experts provide practical guidance on how to organize effective job networks that lead to job interview and offers.
- Occupational Outlook Handbook.* (Superintendent of Documents, US Government Printing Office, 1996-97). The primary source for reliable occupational information since 1940. This handbook is updated every two years with a new edition. Orders to Government Printing Office must include payment. *Occupational Outlook Handbook* can be ordered (for a little less) from Careers, Largo, FL; and JIST Works on a regular school purchase order.
- Succeeding in the World of Work.* 5<sup>th</sup> Edition. (Glencoe/Macmillan/McGrawHill, 1994). A well-written textbook that provides classroom instruction with real-life applications presented in conversational style that helps students anticipate, understand and succeed in the world of work, 442 pages. Teacher edition text, students activity book, teacher resource binder, and test maker available.
- Technical Education That Works for America* (National Association of Trade and Technical Schools, 1995). Reference source for determining accreditation of trade and technical schools in every state. Any schooling beyond high school costs quite a bit these days. Accreditation is your assurance that a private career school has met national standards of educational performance which have been established by an impartial, non-government agency.
- Technical, Trade, ~ Business School Data Handbook.* 4<sup>th</sup> Edition. (Orchard House, Inc. 1991-93). Greetings:

The ERIC Clearinghouse on Counseling and Student Services would like to thank you for your prior submission(s) to the ERIC database. We are very interested in any projects that you have been involved in since our last contact, and invite you to submit new works for review and possible inclusion in the ERIC database. Documents represent a significant source of educational material for the ERIC system. We don't charge a fee for adding a document to the ERIC database, and authors keep the copyrights.

As you may know, ERIC is the largest and most searched education database in the world. Documents accepted by ERIC appear in the abstract journal Resources in Education (RIE) and are announced to several thousand organizations. The inclusion of your work makes it readily available to other researchers, counselors, and educators; provides a permanent archive; and enhances the quality of RIE. Your contribution will be accessible through the printed and electronic versions of RIE, through microfiche collections that are housed at libraries around the country and the world, and through the ERIC Document Reproduction Service (EDRS). By contributing your document to the ERIC system, you participate in building an international resource for educational information. In addition, your paper may listed for publication credit on your academic vita.

To submit your document to ERIC/CASS for review and possible inclusion in the ERIC database, please send the following to the address on this letterhead:

- (1) Two (2) laser print copies of the paper,
- (2) A signed reproduction release form (see back of letter), and
- (3) A 200-word abstract (optional)

Documents are reviewed for contribution to education, timeliness, relevance, methodology, effectiveness of presentation, and reproduction quality. Previously published materials in copyrighted journals or books are not usually accepted because of Copyright Law, but authors may later publish documents which have been acquired by ERIC. Finally, please feel free to copy the reproduction release for future or additional submissions.

Sincerely,

Jillian Barr Joncas
