IDENTIFIERS *Texas

ABSTRACT

This Legislative Appropriation Request (LAR) requests a total of \$46,325,825 for the Texas Commission for the Blind for Fiscal Year 2000 and \$46,934,426 for Fiscal Year 2001. Funds are designed to meet three major goals: (1) assist Texans who are blind or visually impaired in achieving independent living goals by providing a program of developing independent living skills and increasing the number of children who achieve their habilitative goals by providing habilitative services to children with blindness and visual impairments; (2) assist clients to secure or maintain employment by providing vocational rehabilitation services to consumers and providing employment opportunities in the food service industry; and (3) provide appropriate funds for indirect administration of the program, information resources, and other support services. Charts detail the funding requests for individual line items. (CR)

Administrator's Statement

The main reason this Commission exists is that our society has been and still is designed primarily by sighted people for sighted people. This unfortunate fact places people who cannot see at a tremendous disadvantage in gaining access to all that their communities have to offer. The agency works in close partnership with Texans who have little or no vision as they learn ways to work and live independently within a world that requires them to make countless adaptations. As skills develop, so does self-confidence, which results in these Texans becoming more convincing competitors for jobs that will support them and their families. The Commission has witnessed the successful integration of thousands of Texans who are blind into the workplace during its long history, a rewarding legacy; however, there is still much to do.

The Board of the Texas Commission for the Blind developed and submits this Legislative Appropriations Request (LAR) in compliance with the directives received by all state agencies. The Commission considers two of its exceptional request items as highest priorities. Additional funding is necessary for strategy 01-01-01, Independent Living, and 01-02-01, Habilitative Services to Blind Children. The agency will be unable to keep pace with the needs of these Texans without additional resources.

Texas is growing very rapidly. With growth comes a corresponding increase in the number of citizens who are blind or who have severe visual impairments. The number of Texans who are older and blind, however, is increasing at an even faster rate and is also the most under served group of blind people in the state. Children with correctable visual losses need restoration services as early as possible to avoid developmental delays. When blindness will be a fact of a child's life, early services to encourage adaptive skills development are essential. Otherwise, the child is at greater risk of underachieving and needing more extensive services from the state as an adult.

The LAR includes other items of importance to the agency. The salary of the Executive Director limits the ability to hire and retain the caliber of staff necessary to serve people who are blind. Attachment I, page 89, contains the Commission's proposed adjustment. Rider A-II concerns the sale of apartments purchased with Vocational Rehabilitation funds several years ago to serve as a training site for blind adults. The Commission is proposing the sale of the property and the use of the funds in a joint program with the Texas School for the Blind and Visually Impaired. Page 25 contains the proposal.

Rider B-II relates to the Commission's Business Enterprises Fund. The agency has worked with the Legislative Budget Board on both riders and believes they will enhance the Commission's ability to fully use its resources in delivering services to Texans who are blind.

Development of this LAR was guided by the input of people who are blind in the agency's strategic planning process. The document reflects their views of the priorities for service. In addition, the Commission's Board believes the priorities address the long-range interests of the state.

Agency Code: 318	Agency Name: Texas Commission for the Blind	Prepared By: Barbara J. Martinez	Statewide Goal/ Benchmark Code: 03-07	Strategy Code: 01-01-01
----------------------------	---	--	---	-----------------------------------

Code	Part I: Strategy Request	Expended 1998	Estimated 1998	Budgeted 1999	Requested	
					2000	2001

Strategy Description and Justification: The Human Resources Code, Title 5, Chapter 91, and 29 U.S.C., 701 et seq. (the Rehabilitation Act of 1973, as amended), establish the agency's authority and responsibility for services to Texans who are blind or severely visually impaired. This strategy directs resources to help people of all ages who are blind to live independently. A unique in home, itinerant approach addresses the immediate and essential concerns of the consumer who is newly blinded or has experienced serious visual loss about self-care (e.g., traveling independently, preparing meals, identifying money, etc.). Individuals are taught adaptive techniques to perform these critical tasks, rather than a "caretaker" model. Acquiring these skills is critical for individuals to be self-sufficient and can be pivotal in allowing the individual to remain in their own home, or be as independent as possible if residing with others. This independence promotes participation in the community, minimizes public assistance, and facilitates the economic productivity of family members.

This strategy is related to agency strategies 01-02-01 (Habilitative Services for Children) and 02-01-01 (Vocational Rehabilitation) as independent living skills are essential for success in school and employment. Dependency on public assistance is reduced to the extent Texans who are blind or visually impaired are independent within their homes and communities (benchmark 03-07). The itinerant model offers an effective system that promotes the health, responsibility and self-sufficiency of individuals and their families (statewide goal 03).

Base level funding introduces three caseworkers in 2000, an additional worker in 2001, and related support staff. New caseworkers are targeted in areas with the largest current caseloads. An Independent Living Consultant is also introduced in SFY 2000 to add support to staff providing direct services through this strategy. Emphasis will be on maximizing the number of individuals who realize their independent living goals out of the population we are able to serve. However, due to constraints on the baseline request, funds for purchased services utilized in SFY 98 will no longer be available, resulting in a significant decrease in the number of consumers served.

External/Internal Factors Impacting Strategy: The disparity between demand and available resources for addressing the independent living needs of individuals with vision loss will continue to grow as the population ages. This gap is further influenced by a federal environment where limited funding is directed to this strategy. Reauthorization of enabling legislation is underway and this trend is expected to continue. Many forces continue to compete for limited public funds.

Independent Living Centers have traditionally promoted information, referral, advocacy, and peer counseling services but not direct skills training. Few have historically provided adaptive training to assist individuals in being self-sufficient with reduced or no vision. This approach, however, is changing as agency staff work closely with the Independent Living Centers to address the in home skills training needs of Texans who are blind or visually impaired.

Internally, our intent is to focus on strengthening staff expertise and service delivery in a "back to basics" approach that concentrates on the core skills essential to function with confidence in a sighted world. Texans who are blind or visually impaired must travel independently, have effective communication techniques for acquiring and recording information, etc., in order to fully participate in their communities and be as self-sufficient as possible.

Other internal changes include data system changes to maximize time available for staff in working with consumers and their families.

Agency Code: 318	Agency Name: Texas Commission for the Blind	Prepared By: Barbara J. Martinez	Statewide Goal/ Benchmark Code: 03-07	Strategy Code: 01-02-01
Part I: Strategy Request				
Code	Expended 1997	Estimated 1996	Budgeted 1999	Requested
			2000	2001
<p>Strategy Description and Justification: The agency is authorized in the Human Resources Code, Section 91.028, to provide services needed by children who are blind to achieve "financial self-sufficiency and a fuller and richer life." This strategy is unique in that caseworkers provide in home individualized services to the child and family to meet the distinct needs of children who are permanently severely visually impaired. This strategy is related to strategies 01-01 (Independent Living Skills) and 02-01-01 (Vocational Rehabilitation) as the focus is on acquisition of skills that are the foundation to success as an adult, namely independent living, independent travel, communication, career awareness, and community involvement. The strategy also offers coordination with community resources, particularly for the prevention of blindness.</p> <p>This request includes the addition of two caseworkers and related support staff, increasing agency resources directed toward assisting children with vision loss to achieve their habilitative goals in order to live as independently as possible consistent with their capabilities. Continued emphasis on service early in a child's life avoids greater expense as an adult by making the developmental years more productive. The resulting increase in the percent of people with disabilities living independently is consistent with the Health and Human Services priority to reduce dependence on public assistance (statewide goal 03, benchmark 03-07).</p> <p>External/Internal Factors Impacting Strategy: The number of children with severe visual impairments is expected to increase due to:</p> <ul style="list-style-type: none"> • the general population growth • increased survival rates for children born prematurely, or with multiple disabilities • Texas' national reputation for exceptional services to children with visual impairments. <p>Implementation of the new Texas Children's Health Insurance Program (Title XXI) and the Texas Healthy Kids Corporation may result in reduced numbers of children receiving purchased prevention of blindness services through this strategy.</p> <p>Also, there is a national movement to bring about lasting and effective education reform through the School to Work initiatives, and federal legislation (Goals 2000 and the Individuals with Disabilities Education Act). If these education reforms result in local education agencies shifting from pure academic instruction to include more functional skills, consumers will have stronger independent living skills, travel skills, and braille skills. In essence, they will be better prepared for the transition to work and independence.</p> <p>Major revisions in the program's operational manual will be introduced in the beginning of SFY 99, with streamlined internal procedures to maximize caseworker time to work with children and their families. The introduction of personal computers, including LAN/WAN systems, will continue to enhance staff proficiency and information access.</p>

Strategy Request (Continued)

Agency Code: 318	Agency Name: Texas Commission for the Blind	Prepared By: Barbara J. Martinez	Statewide Goal/ Benchmark Code: 03-06	Strategy Code: 02-01-01
Code		Part I: Strategy Request	Estimated 1998	Budgeted 1999
		Expended 1997	2000	Requested 2001
<p>Strategy Description and Justification: The Human Resources Code, Section 91.052 and 29 U.S.C., 701 et seq. (The Rehabilitation Act of 1973, as amended), provide the agency's authority and responsibility to provide vocational rehabilitation services to people who are blind and visually impaired. This strategy is designed to provide services leading to employment consistent with consumer skills, abilities, and interests. Services focus on addressing how each consumer's vision affects their success at getting or keeping a job. Essential aspects involve development/enhancement of skills so that each person is confident in work, home and community responsibilities. Depending on individual concerns, services might include: (1) orientation and mobility, (2) vocational counseling and guidance, (3) adaptive skills, (4) career preparation, (5) technology, (6) job seeking and retention, or (6) braille skills.</p> <p>The agency's goal of assisting people who are blind or visually impaired secure or maintain their desired employment is achieved through this strategy which is interrelated with 01-01-01 (Independent Living Skills), 01-02-01 (Habilitative Services for Children), and 02-01-02 (Business Enterprises Program). This strategy supports the reduction of dependence on public assistance (statewide goal 03) by promoting economic self-sufficiency (benchmark 03-06) and independence (benchmark 03-07).</p> <p>Decreased base funding will result in a decrease in number of consumers served. Resources are directed to systematic approaches to expand the service provider network available to consumers, increase staff expertise with technology, and enhance monitoring of the quality of services provided.</p> <p>External/Internal Factors Impacting Strategy: The number of Texans who may need these services is expected to increase due to:</p> <ul style="list-style-type: none"> • the population growth, especially in the Hispanic sector where diabetes is a prevalent threat to vision • general aging of Texans • changes in federal policies emphasizing services directed to "career advancement" and "upward mobility" • implementation of work requirements related to changing public benefit programs. <p>Employment opportunities and access to them continue to present challenges. The general public often lacks an understanding of the capabilities of individuals with vision loss. These individuals will be successful in employment to the extent that adaptive technology products that allow speech, large print or braille readings and output are available in conjunction with computer systems. We will continue to address the gap between available adaptive products and current market software systems.</p> <p>Internally, challenges continue to exist in meeting the increasing demands for program related support functions, e.g., emphasis on contract management, interagency agreements with local entities, requests for information from legislative and oversight agencies, interagency initiatives, etc.</p> <p>Strategies to maximize employment for agency consumers will focus on:</p> <ul style="list-style-type: none"> • a "back to basics" initiative directed to building/enhancing consumer skills (independent travel, written communication techniques, etc.) so they will be confident to function successfully in a sighted world • increased support related to adaptive technology • implementation of initiatives with community organizations to expand or improve services to Texans who are blind or visually impaired using innovative approaches.

Agency Code:	318	Agency Name:	Texas Commission for the Blind	Prepared By:	Michael Hooks	Statewide Goal/ Benchmark Code:	03-06	Strategy Code:	02-01-02
Code	Part I: Strategy Request								
				Expended 1997	Estimated 1996	Budgeted 1999	Requested 2000	Requested 2001	
<p>Strategy Description and Justification: The Commission has been designated as the state licensing agency to administer the federal Randolph/Sheppard Act. (20 U.S.C. Chapter 6A) in Texas. The Statue, in concert with state law (Human Resources Code Title 5, Chapter 94), provides the agency with the statutory authorization to provide training and employment opportunities in the food service industry for Texans who are blind or visually impaired. These efforts contribute directly to the statewide agency goals of fostering the development of productive, responsible and self sufficient citizens and to assist people with disabilities to maintain their independence (benchmarks 03-07 and 03-08). This strategy is an integral component of the agency's Vocational Rehabilitation efforts with regard to our goal to assist Texans who are blind or visually impaired to secure or maintain employment in careers consistent with their skills, abilities and interests (strategy 02-01-01).</p> <p>External/Internal Factors Impacting Strategy: Although marketing efforts and enforcement of the federal and state preferences given to the blind in business enterprises can influence the availability of new opportunities, growth in the Federal, State and private sectors is the primary factor affecting new facility development. In recent years, we have seen the rate of growth slow as resources tighten in the public and private sectors traditional to the expansion of the program. Effort must be placed in marketing the services of the program in non-traditional areas of the private sector while maintaining our presence in established locations. Another key issue is the amount of capital investment this strategy must make in order to provide customers with professional quality service and consumers with earnings commensurate with similar employment opportunities. This issue becomes more challenging within the context that without any direct general revenue, this strategy's operations are financed primarily through program generated funding sources.</p>

2	11-11	<p>Central Supply Revolving Fund. The Commission for the Blind may, under such rules and regulations as deemed necessary, maintain and operate on a reimbursable basis a Central Supply Revolving Fund in order to contribute to the efficiency and economy of the Commission under its control and management. The Central Supply Revolving Fund may be established and operated from funds appropriated to the Commission in such amounts as shall be necessary. All receipts deposited to this Fund are appropriated for the purchase of necessary operating supplies and materials for the biennium ending August 31, <u>2001</u> 4999. To reimburse the funds from which expenditures are made, the Commission may make fund transfers from the appropriations which receive the supplies, or may submit purchase vouchers through the office of the State Comptroller.</p> <p><i>Changed dates to reflect the appropriate biennium.</i></p>
6	11-12	<p>Funds Transfer. The Texas Commission for the Deaf and Hard of Hearing (TCDHH) and the Texas Commission for the Blind (TCB) shall develop and interagency contract for the provision of administrative services to the TCDHH by TCB. General revenue funds in the amount of \$70,000 in FY <u>2000</u> 4999 and \$70,000 in FY <u>2001</u> 4999 shall be transferred from TCDHH to TCB in accordance with the interagency contract.</p> <p><i>Changed dates to reflect the appropriate biennium.</i></p>
8	11-12	<p>Appropriations Limited to Revenue Collections. It is the intent of the Legislature that fees, fines, and other miscellaneous revenues as authorized and generated by the agency cover, at a minimum, the cost of the appropriations made above for strategy item B-1.2., Employment Opportunities, as well as the other direct and indirect costs associated with this strategy, appropriated elsewhere in this Act. Other direct and indirect costs for strategy item B-1.2., Employment Opportunities, are estimated to be \$445,699 for fiscal year 1999 and \$445,944 for fiscal year 1999. In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Legislative Budget Board may direct that the Comptroller of Public Accounts reduce the appropriation authority provided above to be within the amount of revenue accepted to be available.</p> <p><i>Refer to Rider B, which replaces this rider.</i></p>
9	11-12	<p>Appropriation of Balances: Endowment Fund. Any unobligated balances in the Commission for the Blind Endowment Fund Account No. 493 as of August 31, 1999 4997 and any revenue and receipts deposited to the Endowment Fund are hereby appropriated to the Commission for the Blind for the 2000-01 4998-99 biennium. Such amounts are estimated to be \$165,000 in 1999 and \$19,000 in 1999. Additional federal matching funds of \$640,500 and \$70,300 are estimated for 1999 and 1999, respectively.</p> <p><i>Changed dates to reflect current biennium.</i></p>

		Prepared By:	Ernest Periera
		Date:	08/14/98
		Request Level:	Exceptional
Current Rider Number	B	Proposed Rider Language	
	II	<p><u>Business Enterprises Fund.</u> There is hereby appropriated to the Commission for the Blind, for the biennium beginning September 1, 1999, any balance on hand in the Business Enterprises Fund Account No. 493 (GR - Dedicated) as of August 31, 1999, and any revenue and receipts deposited to the Business Enterprises Fund for the 2000-01 biennium. These Funds are appropriated to carry out the provisions of Chapter 94 of the Texas Human Resources Code.</p> <p><i>Justification: This rider existed prior to the 1995-1996 biennium. We are requesting that it be restored. The Business Enterprises Fund was consolidated into General Revenue in 1995; however, the account retains its dedication (see Notice to State Agencies 96-59). This rider will give us appropriation authority for all available revenue, thereby allowing the program to grow at the rate justified by its revenue collections and program needs.</i></p>	

Exceptional Item Request Schedule

Agency Code: 318	Agency Name: Texas Commission for the Blind	Prepared By: Barbara J. Martinez	Date: 8/14/98
Item Name: Essential Independent Living Services		Item Priority: 2	
This Item Includes Funding for the Following Strategy or Strategies: 01-01-01, To provide a program of developing independent living skills			
Code	Total Exceptional Item Request	2000	Requested 2001
3000	Objects of Expense: Client Services	\$494,857	\$558,025
0001	Total, Objects of Expense	\$494,857	\$558,025
	Method of Financing: General Revenue		
	Total, Method of Finance	0	0
Number of Full-time Equivalent Positions (FTE):			
<p>Description & Justification: The Human Resources Code, Title 5, chapter 91, and 29 U.S.C., 701 et seq. (the Rehabilitation Act of 1973, as amended), establish the agency's authority and responsibility for services to Texans who are blind or severely visually impaired. This strategy directs resources to help people of all ages who are blind to live independently. Because lack of transportation is a challenge, unique in home, itinerant approach addresses the immediate and essential concerns of the consumer who is newly blinded or has experienced serious visual loss about self-care (e.g., traveling independently, preparing meals, identifying money, etc.). Individuals are taught adaptive techniques to perform these critical tasks, rather than a "caretaker" model. Acquiring these skills is critical for individuals to be self-sufficient and can be pivotal in allowing the individual to remain in their own home, or be as independent as possible if residing with others. This independence promotes participation in the community, minimizes public assistance, and facilitates the economic productivity of family members.</p> <p>This strategy is related to agency strategies 01-02-01 (Habilitative Services for Children) and 02-01-01 (Vocational Rehabilitation) as independent living skills are essential for success in school and employment. Dependency on public assistance is reduced to the extent Texans who are blind or visually impaired are independent within their homes and communities (benchmark 03-07). The itinerant model offers an effective system that promotes the health, responsibility and self-sufficiency of individuals and their families (statewide goal 03).</p> <p>Exceptional level funding involves case services allowing the Commission to increase purchased services. Funds would be directed for services such as orientation and mobility, diabetes self-management, adaptive products, and adaptive skills training. Emphasis will be on the maximizing the number of individuals who realize their independent living goals out of the population we are able to serve.</p>			

Exceptional Item Request Schedule (Continued)

Agency Code: 318	Agency Name: Texas Commission for the Blind	Prepared By: Barbara J. Martinez	Date: 8/14/98
<p>External/Internal Factors: The disparity between demand and available resources for addressing the independent living needs of individuals with vision loss will continue to grow as the population ages. This gap is further influenced by an uncertain federal environment where reauthorization of enabling legislation is underway. Many forces continue to compete for public funds.</p> <p>Independent Living Centers have traditionally promoted information, referral, advocacy, and peer counseling services but not direct skills training. Few have historically provided adaptive training to assist individuals in being self-sufficient with reduced or no vision. This approach, however, is changing as agency staff work closely with the Independent Living Centers to address the in home skills training needs of Texans who are blind or visually impaired.</p> <p>Internally, our intent is to focus on strengthening staff expertise and service delivery in a "back to basics" approach that concentrates on the core skills essential to function with confidence in a sighted world. Texans who are blind or visually impaired must travel independently, have effective communication techniques for acquiring and recording information, etc., in order to fully participate in their communities and be as self-sufficient as possible.</p> <p><u>Other internal changes include data system changes to maximize time available for staff in working with consumers and their families.</u></p>			

Exceptional Item Request Schedule (Continued)

Agency Code: 318	Agency Name: Texas Commission for the Blind	Prepared By: Barbara J. Martinez	Date: 8/14/98
Item Name: Essential services for Blind and Visually Impaired Children		Item Priority: 1	
This Item Includes Funding for the Following Strategy or Strategies: 01-02-01, To provide habilitative services to blind and visually impaired children			
Code	Total Exceptional Item Request	2000	Requested 2001
3000	Objects of Expense: Client Services Total, Objects of Expense	\$375,143	\$449,074
0001	Method of Financing: General Revenue Total, Method of Finance	\$375,143	\$449,074
Number of Full-time Equivalent Positions (FTE):			
		0	0
<p>Description & Justification: The agency is authorized in the Human Resources Code Section 91.028, to provide services needed by children who are blind to achieve "financial self-sufficiency and a fuller and richer life." This strategy is unique in that caseworkers provide individualized services to the child and family to meet the distinct needs of children who are permanently severely visually impaired. This strategy is related to strategies 01-01-01 (Independent Living Skills) and 02-01-01 (Vocational Rehabilitation) as the focus is on acquisition of skills that are the foundation to success as an adult, namely independent living, independent travel, communication, career awareness, and community involvement. The strategy also offers coordination with community resources, particularly for the prevention of blindness.</p> <p>Additional case services funds will make services possible to 4,515 additional children over the biennium, including 1,400 children with permanent and severe visual impairments. Agency will be involved in the national education and health care reforms in order to devote maximum resources to children with the most severe disabilities.</p>			

Exceptional Item Request Schedule (Continued)

Agency Code: 318	Agency Name: Texas Commission for the Blind	Prepared By: Barbara J. Martinez	Date: 8/14/98
<p>External/Internal Factors: The number of children with severe visual impairments is expected to increase based on: (1) the general population growth, (2) increased survival rates for children born prematurely, or with multiple disabilities, and (3) Texas' national reputation for exceptional services to children with visual impairments.</p> <p>Implementation of the new Texas Children's Health Insurance Program (Title XXI) and the Texas Healthy Kids Corporation may result in reduced numbers of children receiving purchased prevention of blindness services through this strategy.</p> <p>Also, there is a national movement to bring about lasting and effective education reform through the School to Work initiatives, and federal legislation (Goals 2000, and the Individuals with Disabilities Education Act). If these education reforms result in local education agencies shifting from pure academic instruction to include more functional skills, consumers will have stronger independent living skills, travel skills, and braille skills.</p> <p>Major revisions in the program's operational manual will be introduced in the beginning of SFY 99, with streamlined internal procedures to maximize caseworker time to work with children and their families. The introduction of personal computers, including LAN/WAN systems, will enhance staff proficiency and information access.</p>

Exceptional Item Request Schedule (Continued)

Agency Code: 318	Agency Name: Texas Commission for the Blind	Prepared By: Barbara J. Martinez	Date: 8/14/98
----------------------------	---	--	-------------------------

Description & Justification: The Human Resources Code, section 91.052 and 29 U.S.C., 701 et seq. (The Rehabilitation Act of 1973, as amended), provide the agency's authority and responsibility to provide vocational rehabilitation services to people who are blind and visually impaired. This strategy is designed to provide services leading to employment consistent with consumer skills, abilities, and interests. Services focus on addressing how each consumer's vision affects their success at getting or keeping a job. Essential aspects involve development/enhancement of skills so that each person is confident in work, home and community responsibilities. Depending on individual concerns, services might include: (1) orientation and mobility, (2) vocational counseling and guidance, (3) adaptive skills, (4) career preparation, (5) technology, (6) job seeking and retention, or (6) Braille skills.

The agency's goal of increased employment of people who are blind in competitive employment is achieved through this strategy which is interrelated with 01-01-01 (Independent Living Skills), 01-02-01 (Habilitative Services for Children), and 02-01-02 (Business Enterprises Program). This strategy supports the reduction of dependence on public assistance (statewide goal 03) by promoting economic self-sufficiency (benchmark 03-06) and independence (benchmark 03-07).

Exceptional level funding involves case services allowing the Commission to serve 797 consumers over the biennium, including 158 who are permanently and severely disabled.

External/Internal Factors: The number of Texans who may need these services is expected to increase due to:

- the population growth, especially in the Hispanic sector where diabetes is a prevalent threat to vision
- general aging of Texans
- changes in federal policies emphasizing services directed to "career advancement" and "upward mobility"
- implementation of work requirements related to changing public benefit programs.

Employment opportunities and access to them continue to present challenges. The general public often lacks an understanding of the capabilities of individuals with vision loss. These individuals will be successful in employment to the extent that adaptive technology products that allow speech, large print or braille readings and output are available in conjunction with computer systems. We will continue to address the gap between available adaptive products and current market software systems.

Internally, challenges continue to exist in meeting the increasing demands for program related support functions, e.g., emphasis on contract management, interagency agreements with local entities, requests for information from legislative and oversight agencies, interagency initiatives, etc.

Strategies to maximize employment for agency consumers will focus on:

- a "back to basics" initiative directed to building/enhancing consumer skills (independent travel, written communication techniques, etc.) so they will be confident to function successfully in a sighted world
- increased support related to adaptive technology
- implementation of initiatives with community organizations to expand or improve services to Texans who are blind or visually impaired using innovative approaches.

Exceptional Item Request Schedule (Continued)

Agency Code: 318	Agency Name: Texas Commission for the Blind	Prepared By: Mike Hooks	Date: 8/14/98
Item Name: BEP Rider Request		Item Priority: 4	
This Item Includes Funding for the Following Strategy or Strategies: 02-01-02 Provide employment opportunities in the food service industry			
Code	Total Exceptional Item Request	2000	Requested 2001
Objects of Expense:			
Total, Objects of Expense			
0			
Method of Financing:

Number of Full-time Equivalent Positions (FTE):			
0			
<p>Description & Justification: The Commission has been designated as the state licensing agency to administer the federal Randolph/Sheppard Act. (20 U.S.C. Chapter 6A) in Texas. The Statute, in concert with state law (Human Resources Code Title 5, Chapter 94), provides the agency with the statutory authorization to provide training and employment opportunities in the food service industry for Texans who are blind or visually impaired. These efforts contribute directly to the statewide agency goals of fostering the development of productive, responsible and self sufficient citizens and to assist people with disabilities to maintain their independence (benchmarks 03-07 and 03-08). This strategy is an integral component of the agency's Vocational Rehabilitation efforts with regard to our goal to assist Texans who are blind or visually impaired to secure or maintain employment in careers consistent with their skills, abilities and interests (strategy 02-01-01).</p> <p>The exceptional item request will give the Commission authority to fund the program more fully from program revenue, thereby allowing the program to grow at the rate justified by its revenue collections and program needs. It will also allow the Commission to keep CFDA #84.126, Vocational Rehabilitation Basic Support, funds in Strategy 02-01-01, Vocational Rehabilitation thus allowing the Commission to serve more consumers.</p>			

Exceptional Item Request Schedule (Continued)

Agency Code: 318	Agency Name: Texas Commission for the Blind	Prepared By: Mike Hooks	Date: 8/14/98
<p>External/Internal Factors: Although marketing efforts and enforcement of the federal and state preferences given to the blind in business enterprises can influence the availability of new opportunities, growth in the Federal, State and private sectors is the primary factor affecting new facility development. In recent years, we have seen the rate of growth slow as resources tighten in the public and private sectors traditional to the expansion of the program. Effort must be placed in marketing the services of the program in non-traditional areas of the private sector while maintaining our presence in established locations. Another key issue is the amount of capital investment this strategy must make in order to provide customers with professional quality service and consumers with earnings commensurate with similar employment opportunities. This issue becomes more challenging within the context that without any direct general revenue, this strategy's operations are financed primarily through program generated funding sources.</p>

Federal Funds Supporting Schedule

Agency Code 318	Agency Name: Texas Commission for the Blind	Prepared By: Ernie Pereyra	Date: 8/14/98
--------------------	--	-------------------------------	------------------

Assumptions and Methodology:

State Match required to obtain funds may come from general revenue appropriations and general revenue used for employee benefits. In addition, CFDA No. 84.126 may utilize match provided by the Business Enterprises Program account 492 (GR-Dedicated), endowment, appropriated receipts, interagency contracts, earned federal funds, the Commission's portion of the Statewide Cost Allocation Plan (SWCAP) and interagency billings from the Office of the Attorney General, the State Auditor's Office and the Health and Human Services Commission.

Formula Grants:

For CFDA No. 84.126, Basic Support, we anticipate a 5 % increase in funding. The federal/state matching ratio is 78.7 / 21.3. The maintenance of effort requirement is equal to the second preceding fiscal year. Match and Maintenance of Effort is based on a federal fiscal year.

For CFDA No. 84.169, Independent Living - Part B, we estimate a 1.3% increase in funding. The federal/state matching ratio is 90/10. Match is based on a federal fiscal year.

For CFDA No. 84.187, Supported Employment, we estimate a 1.2% increase in funding. There is no state match requirement on this grant.

Discretionary Grants:

For CFDA No. 84.128, Migratory/Seasonal Farmworker, we estimate no increase in funding; for CFDA No. 84.177, Independent Living - Older Blind, we estimate a 3% increase in funding, and for CFDA No. 84.265, In-Service Training, we estimate a 14.2% increase. The federal/state matching ratio is 90/10 and is based on a federal fiscal year.

Reimbursement Programs:

For CFDA No. 93.778, Medicaid Targeted Case Management, we estimate only a slight increase. The current federal/state matching ratio is 62.29%/37.71%. TCB submits a bill for the full amount and is reimbursed for the federal financial participation. TCB certifies the state matching share through NHIC.

For CFDA No.96.000.003, Social Security Administration - Vocational Rehabilitation Reimbursement, we estimate no increase in funding. This is not a grant so there is no match requirement.

Potential Loss of Federal Funds:

None

Estimated Revenue Collections Supporting Schedule

Agency Code: 318	Agency Name: Texas Commission for the Blind	Prepared By: Mike Hooks	Date: 8/14/98
Fund/Account	Actual 1997	Estimated 1998	Estimated 2000
		Estimated 1999	Estimated 2001

Revenue Assumptions: Set-aside fees are based on the assumption of a 4% annual increase in average earnings on existing facilities plus the addition of seven new facilities each year producing an average of \$25,000 annual income per new facility. Projections assume the currently approved set-aside fee schedule is applied to earnings (set-aside fees are based on a percent of earnings).

Vending revenue is based on the assumption that seven unmanned vending locations will be converted to manned facilities in 1999 and two will be converted in 2000 (none are projected to be converted in 2001). Projections assume a yearly increase of 10% in unmanned vending income (net of conversions).

Other Revenue projections are based on historical levels. Interest projections are based on projected fund balances.

Ending Fund / Account Balance		0	0	0	0	0
<p>Revenue Assumptions: Appropriated receipts generated by the Texas Commission for the Blind are attributable to the collection of local funds to provide the required matching funds for federal expenditures specified by the federal award program. The local programs received establishment grants from the Texas Commission for the Blind to create programs or expand programs that are used the consumers/clients of the Commission. The amount of appropriated receipts estimated can be higher than we actually collect because we cannot control the amount of federal funds we are awarded. If we have insufficient General Revenue available to match the federal funds awarded we must look toward local sources for match.</p>

Agency Code: 318	Agency Name: Texas Commission for the Blind	Prepared By: Ed Kunz/John Williams	Date: 8/14/98
Catg. & Proj. No. 5003/001			
Category and Project Name: Repairs or Rehabilitation/Paint & Remodel selected areas of Criss Cole Rehabilitation Center			
<p>1. Project Description: (a) General Info.</p> <p>Painting and remodeling the rehabilitation facility clearly supports the agency's objectives of increasing the number of consumers who achieve their independent living goals and the number of successfully employed consumers who are visually impaired by providing a safe and healthy environment for consumers living in this residential rehabilitation center. The facility is 29 years old and we anticipate additional needs to include repair/replacement of fixtures (tubs, lavatories, etc.) in resident living quarters. We would also like to increase the number of rooms accessible by persons with orthopedic impairments. Additionally, isolated ground electrical circuits will be added to residential rooms allowing computer access. Consumers reside in the facility 24 hours a day, seven days a week. Delaying this project will promote additional deterioration, increase cost for the project and reduce electrical availability for consumer technology use.</p>			
(b) Number of Units/Average Unit Cost N/A, Total cost = \$235,000 (\$180,000 in 2000 and \$55,000 in 2001)			
(c) Estimated Completion Date/ Additional Capital Expenditure Amounts Required			
Estimated Completion Date		2002	2003

Agency Code: 318	Agency Name: Texas Commission for the Blind	Prepared By: Bob Packard	Date: 8/14/98
Catg. & Proj. No. 5005/008			
Category and Project Name: Acquisition of Information Resources Technologies / Braille Embosser			
<p>1. Project Description: (a) General Info.</p> <p>The braille embosser supports the agency's objectives of increasing the number of consumers who achieve their independent living goals and the number of successfully employed consumers who are visually impaired. Reading material created by braille embossers is a primary means by which agency employees who are blind receive information, including procedures for providing services to consumers. The braille embosser is also used in communicating with the agency's governing Board members, some consumers, and people who are blind who request information from the agency. The agency must have one primary and one lower-cost backup embosser to insure its ability at all times to communicate with braille users when repairs are necessary to one machine. The machine being replaced will be more than 10 years old in 2001 and will be an unreliable backup to the agency's high-speed braille embosser. Postponing the purchase of the embosser will result in probable high repair costs and may put the agency at risk of being able to communicate in a timely manner with braille users.</p>

Agency Code: 318	Agency Name: Texas Commission for the Blind	Prepared By: John Williams	Date: 8/14/98
Catg. & Proj. No. 5005/009			
Category and Project Name: Acquisition of Information Resources Technologies/Upgrade Telephone System			
<p>1. Project Description: (a) General Info.</p> <p>This request is to replace the current NEC PBX system's digital telephones, digital telephone cards, call accounting software, system operating software and add additional operating cards while retaining the systems analog cards and telephones.</p> <p>Eighty-two digital telephones and associated telephone cards will be replaced with up-to-date models. The current digital equipment models are outdated and the system has reached capacity. The current digital equipment is no longer manufactured by NEC. To repair/replace these phones requires the use of remanufactured phones. The system is at capacity and additional line cards must be added to increase the number of telephones connected to the system.</p> <p>The system's switch software is outdated and will not work with any of the current business features provided by Southwestern Bell such as Integrated Services Digital Network (ISDN) or Common Channel Inter-Office Signaling (CCIS) and the addition of a voice mail system is not possible without upgrading the system software. Furthermore, the system's maintenance software as well as the system's call accounting software is not expected to work upon the calendar year 2000 change.</p> <p>Postponement of the project will result in more costly repairs in the future, as well as, the agency inability to effectively communicate as employees will be without telephones. This request supports the agency's objectives of increasing the number of consumers who achieve their independent living goals and the number of successfully employed consumers who are visually impaired. Without effective communication these goals will be difficult to reach.</p>

Agency Code: 318	Agency Name: Texas Commission for the Blind	Prepared By: Mike Hooks	Date: 8/14/98
Catg. & Proj. No. 5005/011			
Category and Project Name: Acquisition of Information Resources Technologies/Automate BEP Facilities			
<p>1. Project Description: (a) General Info.</p> <p>This request is for the purchase of 88 computers for use in BEP cafeterias and snack bars. The computers are needed to provide financial information for use of BEP Managers who are blind or visually impaired and agency staff in a medium that is accessible to both parties. The computers' time saving attributes will allow BEP Managers to concentrate more energy on the dining and sales areas of their businesses as opposed to time invested in office work. The computers will allow Managers to personally complete duties that are presently being contracted to bookkeepers. This purchase request is consistent with the agency's goals to assist Texans who are blind or visually impaired to secure or maintain employment in careers consistent with their skills, abilities, and interests and to assist Texans who are blind or visually impaired to live as independently as possible consistent with their capabilities. Denial of this request will hinder efforts to improve the primitive manual accounting system now in use by Managers in full service facilities.</p>

Agency Code: 318	Agency Name: Texas Commission for the Blind	Prepared By: Vikki Meeker	Date: 8/14/98										
Catg. & Proj. No: 5005/012													
Category and Project Name: Acquisition of Information Resources Technologies/Purchasing Software													
<p>1. Project Description: (a) General Info.</p> <p>This request is to upgrade the agency's purchasing system with a module which will allow departments to enter requisitions and receiving reports on-line, as well as, allowing departments access to information regarding the status of an order. This upgrade supports the agency's objectives of increasing the number of consumers who achieve their independent living goals and the number of successfully employed consumers who are visually impaired. The acquisition of this additional module will enhance the efficiency and effectiveness of all purchasing aspects within the agency and will allow the Agency to acquire goods and services for consumers to meet their vocational and independent living goals in a more cost effective and efficient manner. The purchase of the module will result in the delivery of goods to consumers in a more timely manner, as well as, a reduction in average cost per consumer served. Postponement of the project will result in continuing the more costly manual typing and mailing of requisitions and receiving reports.</p>

Agency Code: 318	Agency Name: Texas Commission for the Blind	Prepared By: Doris Jungmann	Date: 8/14/98
Catg. & Proj. No. 5005/013			
1. Project Description: (a) General Info.			
<p>This request is to replace personal computers that were purchase in August 1994. The computers being replaced consist of 386 and 486 machines.</p> <p>The agency cannot advance to newer operating systems and application software because of these machines' slow internal speeds and hardware limitations. Blind and Visually Impaired staff use additional hardware and software to make information accessible with speech and braille output. These products are often not effective with older machines.</p> <p>Postponement of this project will result in increased maintenance and support costs as maintaining these obsolete machines will become increasingly difficult and expensive as manufacturers discontinue parts and software. Additionally, staff productivity will go down as software limitations will result in staff using incompatible products and thus being unable to share files. This request supports the agency's objectives of increasing the number of consumers who achieve their independent living goals and the number of successfully employed consumers who are blind or visually impaired. Without effective information technology staff goals will be difficult to reach.</p> <p>2000 = 223; 2001 = 167 with an average unit cost of \$2,052</p>

Catg. & Proj. No. 5005/014			
Category and Project Name: Information Resource Technologies / Printer Replacements			
<p>1. Project Description: (a) General Info.</p> <p>This request is to replace printers the agency purchased in 1994.</p> <p>These printers are small personal computer machines purchased prior to the installation of the Wide Area Network. The agency has since installed a Wide Area Network which allows staff to share machines and reduce overall cost to the agency. The existing machines are not industrial strength and cannot handle the increased workload. Additionally, the agency is moving print to the remote offices to speed up the availability of information thus further increasing demand on these small inefficient printers.</p> <p>Postponement of this project will increase the cost of owning these machines. Maintenance and support of machines will be increasingly difficult and expensive as manufacturers discontinue parts. This request supports the agency's objectives of increasing the number of consumers who achieve their independent living goals and the number of successfully employed consumers who are blind or visually impaired. Without appropriate technology to support staff, these goals will be difficult to reach.</p> <p>2000 = 44; 2001 = 42 with an average unit cost of \$1,247</p>

Catg. & Proj. No. 5005/015			
Category and Project Name: Information Resource Technologies / A-14 Enterprise Server Software Re-Licensing			
<p>1. Project Description: (a) General Info.</p> <p>The agency operates an enterprise server that maintains the agency's consumer and operating data. The software has been licensed on a three-year cycle since the purchase of the enterprise server in 1995.</p> <p>The re-license agreement for all software ensures the agency can legally operate the A-14 which stores our Legacy database. The consumer data for each program is used for case management, case recording, and external reporting to federal and state strategic partners. The license includes the operating system and the development software used to build and maintain agency applications.</p> <p>Postponement of this project will result in the agency having to return the software to the vendor and the need to re-build data collection systems to replace production systems. This would interrupt service delivery case recording and management tracking, thus making the agency's objectives of increasing the number of consumers who achieve their independent living goals and the number of successfully employed consumers who are blind or visually impaired very difficult to reach.</p>

Catg. & Proj. No. 5005/016			
1. Project Description: (a) General Info.			
<p>This request is to upgrade some agency Hub's purchased in 1994 to 10/100 MB switches and to expand existing Hub's in offices where the limit of ports has been reached.</p> <p>These Hub's were installed along with the network. The implementation of an executive management system requires moving large amounts of data from the enterprise server to an NT server. This data is then used to produce reports from Personal computers using tools at the workstation. The existing Hub's are 10 MB speeds and this replacement would allow for 10/100 switched speeds.</p> <p>Postponement of this project will increase the time required to present the data to management for analysis and increase the time to respond to information requests. Additionally, personal computers for new staff will not be networked due to port having reached maximum capacity. This request supports the agency's objectives of increasing the number of consumers who achieve their independent living goals and the number of successfully employed consumers who are blind or visually impaired. Without effective management tools to monitor progress on these goals the goals will be difficult to reach.</p>

Agency Code: 318	Agency Name: Texas Commission for the Blind	Prepared By: Donis Jungmann	Date: 8/14/98
Catg. & Proj. No. 5005/017			
Category and Project Name: Information Resource Technologies / Graphical User Interface Software			
<p>1. Project Description: (a) General Info.</p> <p>This request is for the purchase of Graphical User Interface (GUI) software which will be used for connectivity of all agency workstations to the enterprise server.</p> <p>The agency installed a Wide Area Network to increase information sharing with the use of E-mail and word processing. The terminal network continued to support the legacy database. The GUI software will allow the de-implementation of the terminal network and reduce telecommunications charges from the terminal network. This software would allow staff to have access on a need to know bases.</p> <p>Postponement of this project will cause the agency to continue to pay for telecommunications phone lines that support terminal access. This request supports the agency's objectives of increasing the number of consumers who achieve their independent living goals and the number of successfully employed consumers who are blind or visually impaired. Without access to information on consumers these goals will be difficult to reach.</p> <p>2000 = 58; 2001 = 116 with an average unit cost of \$362</p>

Agency Code: 318	Agency Name: Texas Commission for the Blind	Prepared By: Doris Jungmann	Date: 8/14/98
Catg. & Proj. No. 5005/018			
Category and Project Name: Information Resource Technologies / Uninterrupted Power Supply Replacement			
<p>1. Project Description: (a) General Info.</p> <p>This request is for the purchase a replacement Uninterrupted Power Supply (UPS) for the computer room. All of the agency computers located in the computer room are protected with an UPS.</p> <p>The agency existing UPS was purchased in 1987. The battery backup feature of the existing UPS allows seven minutes before power goes out. The batteries are expensive replacement items because of the age of the machine.</p> <p>Postponement of this project will cause the agency to expend funds for maintenance of this equipment when the cost of a new unit with less expensive maintenance would be a better long-term business decision. This request supports the agency's objectives of increasing the number of consumers who achieve their independent living goals and the number of successfully employed consumers who are blind or visually impaired. This cost avoidance would allow dollars to be spent on direct service delivery.</p>

Agency Code: 318	Agency Name: Texas Commission for the Blind	Prepared By: Doris Jungmann	Date: 8/14/98
Catg. & Proj. No. 5005/019			
Category and Project Name: Information Resource Technologies / Software			
<p>1. Project Description: (a) General Info.</p> <p>This request is for the purchase of various software products.</p> <p>The agency will continue to purchase adaptive software to improve blind and visually impaired staffs' access to information. These adaptive software packages range from braille output, speech and large print. Risk management software for identifying where the agency might be at risk and, therefore, could plan to reduce the risk consequences is included in this request. Operating system software for the Wide Area Network and application development software for the enterprise server will also be upgraded. These software purchases will be used to support the agencies data system with current tools to be used to support staff in service delivery.</p> <p>Postponement of this project will cause the agency to limit tools the staff uses for maintenance and development of applications to support service delivery. Additionally, staff productivity will go down as software limitations will result in staff using incompatible products thus being unable to share files. Adaptive software assists blind or visually impaired staff to be as independent in performing their duties. This request supports the agency's objectives of increasing the number of consumers who achieve their independent living goals and the number of successfully employed consumers who are blind or visually impaired.</p> <p>N/A; 2000= 132,728, 2001 = \$2,795</p>

Agency Code: 318	Agency Name: Texas Commission for the Blind	Prepared By: Ed Kunz/John Williams/Mike Hooks	Date: 8/14/98
Catg. & Proj. No. 5006/020			
Category and Project Name: Transportation Items/Vehicles			
<p>1. Project Description: (a) General Info.</p> <p>The request for 11 new vehicles consists of: (1) Four passenger vans (replacements). These vans will be used by Criss Cole Rehabilitation Center (CCRC) for the transportation of consumers to and from appointments and classes; (2) Four replacement vans to be used in our Business Enterprises Program(BEP). These vans are used by Supervising Business Consultants in Austin, Ft Worth, El Paso and San Antonio to travel to BEP facilities and for the transportation of light equipment and supplies; (3) Two pickup trucks with Tommy lifts (one new and one replacement) to be used in the Central Supply warehouse. One will be used by the BEP program to transport heavy equipment and supplies. The second will be used to deliver heavy equipment and supplies from TCB's Distribution Center to Austin area BEP facilities, Criss Cole Rehabilitation Center, the Central Office and District Offices; and (4) One mini van to be used by the Central Office for various purposes including general transportation to meetings, hearing, etc., daily runs to the Comptroller's Office and for the pickup of printing materials from State print shops. Delaying the purchase of these vehicles would reduce or eliminate the opportunity for CCRC consumers to achieve their living goals as passenger vans are needed to facilitate consumer training activities, and would increase cost in the delivery of equipment, supplies and general transportation.</p>

Catg. & Proj. No. 5007/021			
Category and Project Name: Acquisition of Capital Equipment and Items/Establish and Refurbish Food Service Facilities			
<p>1. Project Description: (a) General Info. Amounts listed include the establishment and renovation of food service facilities that are anticipated to exceed \$25,000. New facilities are needed to continue the mission of the Business Enterprises Program to provide employment opportunities for consumers. These expenditures are consistent with the agency's goal of assisting Texans who are blind or visually impaired in securing or maintaining employment in careers consistent with their skills, abilities and interests. Denial of this request would eliminate expansion of the program and the resulting employment opportunities.</p>

Catg. & Proj. No. 5007/023			
Category and Project Name: Acquisition of Capital Equipment and Items/Modular Furniture for Accounting Department			
<p>1. Project Description: (a) General Info. Existing furniture does not provide enough work space, storage, and appropriate lighting to allow employees to perform assigned tasks in a more efficient manner. New modular furniture will improve employees' productivity and morale. As a result, accounting will be able to more efficiently provide timely and accurate information to management thus facilitating completion of all TCB strategic objectives.</p>

Catg. & Proj. No. 5007/024													
Category and Project Name: Acquisition of Capital Equipment and Items/Functional Furniture for Criss Cole Rehabilitation Center													
<p>1. Project Description: (a) General Info.</p> <p>Functional furniture for Criss Cole Rehabilitation Center is needed to provide accommodations in work and training areas for staff and consumers. Due to the quantity and size of adaptive equipment used by consumers and staff, this furniture will allow for increased productivity in both settings. The removal of architectural, programmatic and attitudinal barriers limiting equal opportunities for persons who are blind or visually impaired is consistent with the agency's goal to provide or enhance equal opportunities for persons who are blind or visually impaired. Postponement of this project will result in reduced accessibility for classrooms and offices that are also used in consumer training.</p>

Total, Method of Financing	20,179	24,657	26,267	26,342
Meetings Per Fiscal Year	4	4	4	4
Description/Justification for Continuance/Consequences of Abolishing Advisory Committee: This Council was established to jointly develop, submit and monitor implementation of the State Plan for Independent Living in conjunction with Texas Commission for the Blind and Texas Rehabilitation Commission.				
The Council shall be comprised of members who provide statewide representation, who represent a broad range of individuals with disabilities, who are knowledgeable about centers for independent living and independent living services, and a majority of whom are persons who are individuals with disabilities as described in the Rehabilitation Act. Members may not be employed by any state agency or center for independent living.				
The State Independent Living Council is statutorily required under Section 704 of the Rehabilitation Act of 1973, as amended. If the Council were not continued the agency would be out of compliance with the Rehabilitation Act of 1973, as amended, resulting in the loss of federal funds to provide independent living services to Texans who are blind.				
The Council is included in this section for informational purposes but is not operationally an advisory council.				
Other Agency Advisory Committees that Should be Abolished:

**Attachment I
Exempt Salaries**

The proposed salaries for the Texas Commission for the Blind:

Fiscal Year	2000	2001
Executive Director	\$84,000	\$84,000
Deputy Director(s)	\$77,000	\$77,000

The Texas Commission for the Blind has more FTEs than the Texas Commission on Alcohol & Drug Abuse (TCADA), but is requesting an Executive Director Salary lower than TCADA's.

Executive Director's Salary	1998-99
Department of Health	\$148,683
Dept of Mental Health/Mental Retardation	\$135,000
Department of Human Services	\$105,000
Rehabilitation Commission	\$95,000
Youth Commission	\$90,000
Commission on Alcohol & Drug Abuse	\$85,000

Based upon Fiscal Year 1999 data the Texas Commission for the Blind ranks 21st in FTEs and 27th in budget. The requested salary is well below the 30th highest Executive Director Salary.

	Agency Number	Executive Director's Salary	1998-99
1	454	Department of Insurance	\$157,500
2	701	Texas Education Agency	\$157,500
3	529	Health and Human Services Commission	\$157,500
4	501	Department of Health	\$148,683
5	655	Dept. of Mental Health/Mental Retardation	\$135,000
6	696	Department of Criminal Justice	\$127,000
7	320	Workforce Commission	\$125,000
8	301	Governor's Office	\$115,345
9	582	Natural Resource Conservation Commission	\$115,000
10	601	Department of Transportation	\$115,000
11	307	Secretary of State	\$110,000
12	362	Lottery Commission	\$110,000
13	332	Department of Housing and Community Affairs	\$110,000
14	802	Parks & Wildlife Department	\$105,000
15	324	Department of Human Services	\$105,000
16	367	Telecommunications Infrastructure Fund Board	\$100,000

	Agency Number	Executive Director's Salary	1998-99
17	451	Department of Banking	\$97,072
18	453	Workers' Compensation Commission	\$95,000
19	330	Rehabilitation Commission	\$95,000
20	551	Department of Agriculture	\$92,217
21	305	General Land Office	\$92,217
22	304	Comptroller of Public Accounts	\$92,217
23	302	Office of the Attorney General	\$92,217
24	455	Railroad Commission	\$92,217
25	212	Office of Court Administration	\$92,217
26	473	Public Utility Commission	\$90,071

REPRODUCTION RELEASE

(Specific Document)

I. DOCUMENT IDENTIFICATION:

Title: <i>Legislative Appropriations Request SFY 2000-2001</i>	
Author(s): <i>Texas Commission for the Blind</i>	
Corporate Source:	Publication Date: <i>August 14, 1998</i>

II. REPRODUCTION RELEASE:

In order to disseminate as widely as possible timely and significant materials of interest to the educational community, documents announced in the monthly abstract journal of the ERIC system, *Resources in Education* (RIE), are usually made available to users in microfiche, reproduced paper copy, and electronic media, and sold through the ERIC Document Reproduction Service (EDRS). Credit is given to the source of each document, and, if reproduction release is granted, one of the following notices is affixed to the document.

If permission is granted to reproduce and disseminate the identified document, please CHECK ONE of the following three options and sign at the bottom of the page.

The sample sticker shown below will be affixed to all Level 1 documents

The sample sticker shown below will be affixed to all Level 2A documents

The sample sticker shown below will be affixed to all Level 2B documents

Level 2A

Level 2B

Check here for Level 1 release, permitting reproduction and dissemination in microfiche or other ERIC archival media (e.g., electronic) and paper copy.

Check here for Level 2A release, permitting reproduction and dissemination in microfiche and in electronic media for ERIC archival collection subscribers only

Check here for Level 2B release, permitting reproduction and dissemination in microfiche only

Documents will be processed as indicated provided reproduction quality permits. If permission to reproduce is granted, but no box is checked, documents will be processed at Level 1.

I hereby grant to the Educational Resources Information Center (ERIC) nonexclusive permission to reproduce and disseminate this document as indicated above. Reproduction from the ERIC microfiche or electronic media by persons other than ERIC employees and its system contractors requires permission from the copyright holder. Exception is made for non-profit reproduction by libraries and other service agencies to satisfy information needs of educators in response to discrete inquiries.

III. DOCUMENT AVAILABILITY INFORMATION (FROM NON-ERIC SOURCE):

If permission to reproduce is not granted to ERIC, or, if you wish ERIC to cite the availability of the document from another source, please provide the following information regarding the availability of the document. (ERIC will not announce a document unless it is publicly available, and a dependable source can be specified. Contributors should also be aware that ERIC selection criteria are significantly more stringent for documents that cannot be made available through EDRS.)
