2. Continuum of Alternative Placements
- a. Each local school division shall ensure that a continuum of alternative placements is available to meet the needs of children with disabilities.
- (1) The continuum must include the alternative placements listed in the definition of special education (i.e., instruction in regular classes, special classes, special schools, home instruction, and instruction in hospitals and institutions). The continuum must make provision for supplementary services (such as resource room or itinerant instruction) to be provided in conjunction with regular class placement.

- (2) No single model for the delivery of services to any specific population or category of children with disabilities will be acceptable for meeting the requirement for a continuum of alternative placements (e.g., resource classes as the only option for children who need a self-contained placement or a separate facility as the only alternative placement for students with disabilities). All placement decisions must be based on the individual needs of each child.
- (3) LEAs shall document fully all alternatives considered and the rationale for choosing the selected placement.
- (4) Children with disabilities must be served in a program with age-appropriate peers (e.g., secondary age children shall be placed in a secondary school and elementary age children shall be placed in an elementary school), unless it can be shown that for a particular child with a disability the alternative placement is appropriate as documented by the IEP.

Appendix A

Idea Amendments Section 601

(c) Findings and (d) Purposes

APPENDIX A - IDEA AMENDMENTS SEC. 601. (c) FINDINGS AND (d) PURPOSES

(c) FINDINGS- The Congress finds the following:

(1) Disability is a natural part of the human experience and in no way diminishes the right of individuals to participate in or contribute to society. Improving educational results for children with disabilities is an essential element of our national policy of ensuring equality of opportunity, full participation, independent living, and economic self-sufficiency for individuals with disabilities.

(2) Before the date of the enactment of the Education for All Handicapped Children Act of 1975 (Public Law 94-142)--

(A) the special educational needs of children with disabilities were not being fully met;

(B) more than one-half of the children with disabilities in the United States did not receive appropriate educational services that would enable such children to have full equality of opportunity;

(C) 1,000,000 of the children with disabilities in the United States were excluded entirely from the public school system and did not go through the educational process with their peers;

(D) there were many children with disabilities throughout the United States participating in regular school programs whose disabilities prevented such children from having a successful educational experience because their disabilities were undetected; and

(E) because of the lack of adequate services within the public school system, families were often forced to find

services outside the public school system, often at great distance from their residence and at their own expense.

(3) Since the enactment and implementation of the Education for All Handicapped Children Act of 1975, this Act has been successful in ensuring children with disabilities and the families of such children access to a free appropriate public education and in improving educational results for children with disabilities.

(4) However, the implementation of this Act has been impeded by low expectations, and an insufficient focus on applying replicable research on proven methods of teaching and learning for children with disabilities.

(5) Over 20 years of research and experience has demonstrated that the education of children with disabilities can be made more effective by--

(A) having high expectations for such children and ensuring their access in the general curriculum to the maximum extent possible;

(B) strengthening the role of parents and ensuring that families of such children have meaningful opportunities to participate in the education of their children at school and at home;

(C) coordinating this Act with other local, educational service agency, State, and Federal school improvement efforts in order to ensure that such children benefit from such efforts and that special education can become a service for such children rather than a place where they are sent;

- '(D) providing appropriate special education and related services and aids and supports in the regular classroom to such children, whenever appropriate;
- '(E) supporting high-quality, intensive professional development for all personnel who work with such children in order to ensure that they have the skills and knowledge necessary to enable them--
 - '(i) to meet developmental goals and, to the maximum extent possible, those challenging expectations that have been established for all children; and
 - '(ii) to be prepared to lead productive, independent, adult lives, to the maximum extent possible;
- '(F) providing incentives for whole-school approaches and pre-referral intervention to reduce the need to label children as disabled in order to address their learning needs; and
- '(G) focusing resources on teaching and learning while reducing paperwork and requirements that do not assist in improving educational results.
- '(6) While States, local educational agencies, and educational service agencies are responsible for providing an education for all children with disabilities, it is in the national interest that the Federal Government have a role in assisting State and local efforts to educate children with disabilities in order to improve results for such children and to ensure equal protection of the law.
- '(7)(A) The Federal Government must be responsive to the growing needs of an increasingly more diverse society. A more equitable allocation of resources is essential for the Federal Government to meet its responsibility to provide an equal educational opportunity for all individuals.

'(B) America's racial profile is rapidly changing. Between 1980 and 1990, the rate of increase in the population for white Americans was 6 percent, while the rate of increase for racial and ethnic minorities was much higher: 53 percent for Hispanics, 13.2 percent for African-Americans, and 107.8 percent for Asians.

'(C) By the year 2000, this Nation will have 275,000,000 people, nearly one of every three of whom will be either African-American, Hispanic, Asian-American, or American Indian.

'(D) Taken together as a group, minority children are comprising an ever larger percentage of public school students. Large-city school populations are overwhelmingly minority, for example: for fall 1993, the figure for Miami was 84 percent; Chicago, 89 percent; Philadelphia, 78 percent; Baltimore, 84 percent; Houston, 88 percent; and Los Angeles, 88 percent.

'(E) Recruitment efforts within special education must focus on bringing larger numbers of minorities into the profession in order to provide appropriate practitioner knowledge, role models, and sufficient manpower to address the clearly changing demography of special education.

'(F) The limited English proficient population is the fastest growing in our Nation, and the growth is occurring in many parts of our Nation. In the Nation's 2 largest school districts, limited English proficient students make up almost half of all students initially entering school at the kindergarten level. Studies have documented apparent discrepancies in the levels of referral and placement of limited English proficient children in special education. The Department of Education has found that services provided to limited English proficient students often do not respond primarily to the pupil's academic needs. These trends pose special challenges for special education in the referral, assessment, and services for our Nation's students from

non-English language backgrounds.

(8)(A) Greater efforts are needed to prevent the intensification of problems connected with mislabeling and high dropout rates among minority children with disabilities.

(B) More minority children continue to be served in special education than would be expected from the percentage of minority students in the general school population.

(C) Poor African-American children are 2.3 times more likely to be identified by their teacher as having mental retardation than their white counterpart.

(D) Although African-Americans represent 16 percent of elementary and secondary enrollments, they constitute 21 percent of total enrollments in special education.

(E) The drop-out rate is 68 percent higher for minorities than for whites.

(F) More than 50 percent of minority students in large cities drop out of school.

(9)(A) The opportunity for full participation in awards for grants and contracts; boards of organizations receiving funds under this Act; and peer review panels; and training of professionals in the area of special education by minority individuals, organizations, and historically black colleges and universities is essential if we are to obtain greater success in the education of minority children with disabilities.

(B) In 1993, of the 915,000 college and university professors, 4.9 percent were African-American and 2.4 percent were Hispanic. Of the 2,940,000 teachers, prekindergarten through high school, 6.8 percent were African-American and 4.1 percent were Hispanic.

(C) Students from minority groups comprise more than 50 percent of K-12 public school enrollment in seven States yet minority enrollment in teacher training programs is less than 15 percent in all but six States.

(D) As the number of African-American and Hispanic students in special education increases, the number of minority teachers and related service personnel produced in our colleges and universities continues to decrease.

(E) Ten years ago, 12 percent of the United States teaching force in public elementary and secondary schools were members of a minority group. Minorities comprised 21 percent of the national population at that time and were clearly underrepresented then among employed teachers. Today, the elementary and secondary teaching force is 13 percent minority, while one-third of the students in public schools are minority children.

(F) As recently as 1991, historically black colleges and universities enrolled 44 percent of the African-American teacher trainees in the Nation. However, in 1993, historically black colleges and universities received only 4 percent of the discretionary funds for special education and related services personnel training under this Act.

(G) While African-American students constitute 28 percent of total enrollment in special education, only 11.2 percent of individuals enrolled in preservice training programs for special education are African-American.

(H) In 1986-87, of the degrees conferred in education at the B.A., M.A., and Ph.D. levels, only 6, 8, and 8 percent, respectively, were awarded to African-American or Hispanic students.

(10) Minorities and underserved persons are socially disadvantaged because of the lack of opportunities in training and educational programs, undergirded by the practices in the private sector that impede their full participation in the mainstream of society.

(d) PURPOSES- The purposes of this title are--

(1)(A) to ensure that all children with disabilities have available to them a free appropriate public education that emphasizes special education and related services designed to meet their unique needs and prepare them for employment and independent living;

(B) to ensure that the rights of children with disabilities and parents of such children are protected; and

(C) to assist States, localities, educational service agencies, and Federal agencies to provide for the education of all children with disabilities;

(2) to assist States in the implementation of a statewide, comprehensive, coordinated, multidisciplinary, interagency system of early intervention services for infants and toddlers with disabilities and their families;

(3) to ensure that educators and parents have the necessary tools to improve educational results for children with disabilities by supporting systemic-change activities; coordinated research and personnel preparation; coordinated technical assistance, dissemination, and support; and technology development and media services; and

(4) to assess, and ensure the effectiveness of, efforts to educate children with disabilities.

Idea Amendments Section 612

State Eligibility

**APPENDIX B: IDEA AMENDMENTS
SEC. 612. STATE ELIGIBILITY.**

'(a) IN GENERAL- A State is eligible for assistance under this part for a fiscal year if the State demonstrates to the satisfaction of the Secretary that the State has in effect policies and procedures to ensure that it meets each of the following conditions:

'(1) FREE APPROPRIATE PUBLIC EDUCATION-

'(A) IN GENERAL- A free appropriate public education is available to all children with disabilities residing in the State between the ages of 3 and 21, inclusive, including children with disabilities who have been suspended or expelled from school.

'(B) LIMITATION- The obligation to make a free appropriate public education available to all children with disabilities does not apply with respect to children:

'(i) aged 3 through 5 and 18 through 21 in a State to the extent that its application to those children would be inconsistent with State law or practice, or the order of any court, respecting the provision of public education to children in those age ranges; and

'(ii) aged 18 through 21 to the extent that State law does not require that special education and related services under this part be provided to children with disabilities who, in the educational placement prior to their incarceration in an adult correctional facility:

'(1) were not actually identified as being a child with a disability under section 602(3) of this Act; or

'(11) did not have an individualized education program under this part.

'(2) FULL EDUCATIONAL OPPORTUNITY GOAL- The State has established a goal of providing full educational opportunity to all children with disabilities and a detailed timetable for accomplishing that goal.

'(3) CHILD FIND-

'(A) IN GENERAL- All children with disabilities residing in the State, including children with disabilities attending private schools, regardless of the severity of their disabilities, and who are in need of special education and related services, are identified, located, and evaluated and a practical method is developed and implemented to determine which children with disabilities are currently receiving needed special education and related services.

'(B) CONSTRUCTION- Nothing in this Act requires that children be classified by their disability so long as each child who has a disability listed in section 602 and who, by reason of that disability, needs special education and related services is regarded as a child with a disability under this part.

'(4) INDIVIDUALIZED EDUCATION PROGRAM- An individualized education program, or an individualized family service plan that meets the requirements of section 636(d), is developed, reviewed, and revised for each child with a disability in accordance with section 614(d).

'(5) LEAST RESTRICTIVE ENVIRONMENT-

'(A) IN GENERAL- To the maximum extent appropriate, children with disabilities, including children in public or private institutions or other care facilities, are educated

with children who are not disabled, and special classes, separate schooling, or other removal of children with disabilities from the regular educational environment occurs only when the nature or severity of the disability of a child is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily.

(B) ADDITIONAL REQUIREMENT-

(i) IN GENERAL- If the State uses a funding mechanism by which the State distributes State funds on the basis of the type of setting in which a child is served, the funding mechanism does not result in placements that violate the requirements of subparagraph (A).

(ii) ASSURANCE- If the State does not have policies and procedures to ensure compliance with clause (i), the State shall provide the Secretary an assurance that it will revise the funding mechanism as soon as feasible to ensure that such mechanism does not result in such placements.

(6) PROCEDURAL SAFEGUARDS-

(A) IN GENERAL- Children with disabilities and their parents are afforded the procedural safeguards required by section 615.

(B) ADDITIONAL PROCEDURAL SAFEGUARDS- Procedures to ensure that testing and evaluation materials and procedures utilized for the purposes of evaluation and placement of children with disabilities will be selected and administered so as not to be racially or culturally discriminatory. Such materials or procedures shall be provided and administered in the child's native language or mode of communication, unless it clearly is not feasible to

do so, and no single procedure shall be the sole criterion for determining an appropriate educational program for a child.

(7) EVALUATION- Children with disabilities are evaluated in accordance with subsections (a) through (c) of section 614.

(8) CONFIDENTIALITY- Agencies in the State comply with section 617(c) (relating to the confidentiality of records and information).

(9) TRANSITION FROM PART C TO PRESCHOOL PROGRAMS- Children participating in early-intervention programs assisted under part C, and who will participate in preschool programs assisted under this part, experience a smooth and effective transition to those preschool programs in a manner consistent with section 637(a)(8). By the third birthday of such a child, an individualized education program or, if consistent with sections 614(d)(2)(B) and 636(d), an individualized family service plan, has been developed and is being implemented for the child. The local educational agency will participate in transition planning conferences arranged by the designated lead agency under section 637(a)(8).

(10) CHILDREN IN PRIVATE SCHOOLS-

(A) CHILDREN ENROLLED IN PRIVATE SCHOOLS BY THEIR PARENTS-

(i) IN GENERAL- To the extent consistent with the number and location of children with disabilities in the State who are enrolled by their parents in private elementary and secondary schools, provision is made for the participation of those children in the program assisted or carried out under this part by providing for such children special education and related services in accordance with the following requirements, unless the Secretary has arranged for services to those

children under subsection (f):

(I) Amounts expended for the provision of those services by a local educational agency shall be equal to a proportionate amount of Federal funds made available under this part.

(II) Such services may be provided to children with disabilities on the premises of private, including parochial, schools, to the extent consistent with law.

(ii) CHILD-FIND REQUIREMENT- The requirements of paragraph (3) of this subsection (relating to child find) shall apply with respect to children with disabilities in the State who are enrolled in private, including parochial, elementary and secondary schools.

(B) CHILDREN PLACED IN, OR REFERRED TO, PRIVATE SCHOOLS BY PUBLIC AGENCIES-

(i) IN GENERAL- Children with disabilities in private schools and facilities are provided special education and related services, in accordance with an individualized education program, at no cost to their parents, if such children are placed in, or referred to, such schools or facilities by the State or appropriate local educational agency as the means of carrying out the requirements of this part or any other applicable law requiring the provision of special education and related services to all children with disabilities within such State.

(ii) STANDARDS- In all cases described in clause (i), the State educational agency shall determine whether such schools and facilities meet standards that apply to State and local educational agencies and that children so served have all the rights they would have if served by such agencies.

(C) PAYMENT FOR EDUCATION OF CHILDREN ENROLLED IN PRIVATE SCHOOLS WITHOUT CONSENT OF OR REFERRAL BY THE PUBLIC AGENCY-

(i) IN GENERAL- Subject to subparagraph (A), this part does not require a local educational agency to pay for the cost of education, including special education and related services, of a child with a disability at a private school or facility if that agency made a free appropriate public education available to the child and the parents elected to place the child in such private school or facility.

(ii) REIMBURSEMENT FOR PRIVATE SCHOOL PLACEMENT- If the parents of a child with a disability, who previously received special education and related services under the authority of a public agency, enroll the child in a private elementary or secondary school without the consent of or referral by the public agency, a court or a hearing officer may require the agency to reimburse the parents for the cost of that enrollment if the court or hearing officer finds that the agency had not made a free appropriate public education available to the child in a timely manner prior to that enrollment.

(iii) LIMITATION ON REIMBURSEMENT- The cost of reimbursement described in clause (ii) may be reduced or denied--

(I) if--

(aa) at the most recent IEP meeting that the parents attended prior to removal of the child from the public school, the parents did not inform the IEP Team that they were rejecting the placement proposed by the public agency to provide a free appropriate public education to their child, including stating their concerns and their intent to enroll their child in a private school at public

expense; or

(bb) 10 business days (including any holidays that occur on a business day) prior to the removal of the child from the public school, the parents did not give written notice to the public agency of the information described in division (aa);

(II) if, prior to the parents' removal of the child from the public school, the public agency informed the parents, through the notice requirements described in section 615(b)(7), of its intent to evaluate the child (including a statement of the purpose of the evaluation that was appropriate and reasonable), but the parents did not make the child available for such evaluation; or

(III) upon a judicial finding of unreasonableness with respect to actions taken by the parents.

(iv) EXCEPTION- Notwithstanding the notice requirement in clause (iii)(I), the cost of reimbursement may not be reduced or denied for failure to provide such notice if--

(I) the parent is illiterate and cannot write in English;

(II) compliance with clause (iii)(I) would likely result in physical or serious emotional harm to the child;

(III) the school prevented the parent from providing such notice; or

(IV) the parents had not received notice, pursuant to section 615, of the notice requirement in clause (iii)(I).

(11) STATE EDUCATIONAL AGENCY RESPONSIBLE FOR GENERAL SUPERVISION-

(A) IN GENERAL- The State educational agency is responsible for ensuring that--

(i) the requirements of this part are met; and

(ii) all educational programs for children with disabilities in the State, including all such programs administered by any other State or local agency--

(I) are under the general supervision of individuals in the State who are responsible for educational programs for children with disabilities; and

(II) meet the educational standards of the State educational agency.

(B) LIMITATION- Subparagraph (A) shall not limit the responsibility of agencies in the State other than the State educational agency to provide, or pay for some or all of the costs of, a free appropriate public education for any child with a disability in the State.

(C) EXCEPTION- Notwithstanding subparagraphs (A) and (B), the Governor (or another individual pursuant to State law), consistent with State law, may assign to any public agency in the State the responsibility of ensuring that the requirements of this part are met with respect to children with disabilities who are convicted as adults under State law and incarcerated in adult prisons.

(12) OBLIGATIONS RELATED TO AND METHODS OF ENSURING SERVICES-

(A) ESTABLISHING RESPONSIBILITY FOR SERVICES- The Chief Executive Officer or designee of the officer shall ensure that an interagency agreement or other mechanism for interagency coordination is in effect between each public agency described in subparagraph (B) and the State educational agency, in order to ensure that all services described in subparagraph (B)(i) that are needed to ensure a free appropriate public education are provided, including the provision of such services during the pendency of any dispute under clause (iii). Such agreement or mechanism shall include the following:

(i) AGENCY FINANCIAL RESPONSIBILITY- An identification of, or a method for defining, the financial responsibility of each agency for providing services described in subparagraph (B)(i) to ensure a free appropriate public education to children with disabilities, provided that the financial responsibility of each public agency described in subparagraph (B), including the State Medicaid agency and other public insurers of children with disabilities, shall precede the financial responsibility of the local educational agency (or the State agency responsible for developing the child's IEP).

(ii) CONDITIONS AND TERMS OF REIMBURSEMENT- The conditions, terms, and procedures under which a local educational agency shall be reimbursed by other agencies.

(iii) INTERAGENCY DISPUTES- Procedures for resolving interagency disputes (including procedures under which local educational agencies may initiate proceedings) under the agreement or other mechanism to secure reimbursement from other agencies or otherwise implement the provisions of the agreement or mechanism.

(iv) COORDINATION OF SERVICES PROCEDURES- Policies and procedures for agencies to determine and identify the interagency coordination responsibilities of each agency to promote the coordination and timely and appropriate delivery of services described in subparagraph (B)(i).

(B) OBLIGATION OF PUBLIC AGENCY-

(i) IN GENERAL- If any public agency other than an educational agency is otherwise obligated under Federal or State law, or assigned responsibility under State policy or pursuant to subparagraph (A), to provide or pay for any services that are also considered special education or related services (such as, but not limited to, services described in sections 602(1) relating to assistive technology devices, 602(2) relating to assistive technology services, 602(22) relating to related services, 602(29) relating to supplementary aids and services, and 602(30) relating to transition services) that are necessary for ensuring a free appropriate public education to children with disabilities within the State, such public agency shall fulfill that obligation or responsibility, either directly or through contract or other arrangement.

(ii) REIMBURSEMENT FOR SERVICES BY PUBLIC AGENCY- If a public agency other than an educational agency fails to provide or pay for the special education and related services described in clause (i), the local educational agency (or State agency responsible for developing the child's IEP) shall provide or pay for such services to the child. Such local educational agency or State agency may then claim reimbursement for the services from the public agency that failed to provide or pay for such services and such public agency shall reimburse the local educational agency or State agency pursuant to the terms of the interagency agreement or

other mechanism described in subparagraph (A)(i) according to the procedures established in such agreement pursuant to subparagraph (A)(ii).

(C) SPECIAL RULE- The requirements of subparagraph (A) may be met through--

- (i) state statute or regulation;
- (ii) signed agreements between respective agency officials that clearly identify the responsibilities of each agency relating to the provision of services; or
- (iii) other appropriate written methods as determined by the Chief Executive Officer of the State or designee of the officer.

(13) PROCEDURAL REQUIREMENTS RELATING TO LOCAL EDUCATIONAL AGENCY ELIGIBILITY- The State educational agency will not make a final determination that a local educational agency is not eligible for assistance under this part without first affording that agency reasonable notice and an opportunity for a hearing.

(14) COMPREHENSIVE SYSTEM OF PERSONNEL DEVELOPMENT- The State has in effect, consistent with the purposes of this Act and with section 635(a)(8), a comprehensive system of personnel development that is designed to ensure an adequate supply of qualified special education, regular education, and related services personnel that meets the requirements for a State improvement plan relating to personnel development in subsections (b)(2)(B) and (c)(3)(D) of section 653.

(15) PERSONNEL STANDARDS-

(A) IN GENERAL- The State educational agency has established and maintains standards to ensure that personnel necessary to carry out this part are appropriately and adequately prepared and trained.

153

(B) STANDARDS DESCRIBED- Such standards shall--

(i) be consistent with any State-approved or State-recognized certification, licensing, registration, or other comparable requirements that apply to the professional discipline in which those personnel are providing special education or related services;

(ii) to the extent the standards described in subparagraph (A) are not based on the highest requirements in the State applicable to a specific profession or discipline, the State is taking steps to require retraining or hiring of personnel that meet appropriate professional requirements in the State; and

(iii) allow paraprofessionals and assistants who are appropriately trained and supervised, in accordance with State law, regulations, or written policy, in meeting the requirements of this part to be used to assist in the provision of special education and related services to children with disabilities under this part.

(C) POLICY- In implementing this paragraph, a State may adopt a policy that includes a requirement that local educational agencies in the State make an ongoing good-faith effort to recruit and hire appropriately and adequately trained personnel to provide special education and related services to children with disabilities, including, in a geographic area of the State where there is a shortage of such personnel, the most qualified individuals available who are making satisfactory progress toward completing applicable course work necessary to meet the standards described in subparagraph (B)(i), consistent with State law, and the steps described in subparagraph (B)(ii) within three years.

(16) PERFORMANCE GOALS AND INDICATORS- The State--

(A) has established goals for the performance of children with disabilities in the State that--

(i) will promote the purposes of this Act, as stated in section 601(d); and

(ii) are consistent, to the maximum extent appropriate, with other goals and standards for children established by the State;

(B) has established performance indicators the State will use to assess progress toward achieving those goals that, at a minimum, address the performance of children with disabilities on assessments, drop-out rates, and graduation rates;

(C) will, every two years, report to the Secretary and the public on the progress of the State, and of children with disabilities in the State, toward meeting the goals established under subparagraph (A); and

(D) based on its assessment of that progress, will revise its State improvement plan under subpart 1 of part D as may be needed to improve its performance, if the State receives assistance under that subpart.

(17) PARTICIPATION IN ASSESSMENTS-

(A) IN GENERAL- Children with disabilities are included in general State and district-wide assessment programs, with appropriate accommodations, where necessary. As appropriate, the State or local educational agency--

(i) develops guidelines for the participation of children with disabilities in alternate assessments for those children who cannot participate in State and

district-wide assessment programs; and

(ii) develops and, beginning not later than July 1, 2000, conducts those alternate assessments.

(B) REPORTS- The State educational agency makes available to the public, and reports to the public with the same frequency and in the same detail as it reports on the assessment of nondisabled children, the following:

(i) The number of children with disabilities participating in regular assessments.

(ii) The number of those children participating in alternate assessments.

(iii)(I) The performance of those children on regular assessments (beginning not later than July 1, 1998) and on alternate assessments (not later than July 1, 2000), if doing so would be statistically sound and would not result in the disclosure of performance results identifiable to individual children.

(II) Data relating to the performance of children described under subclause (I) shall be disaggregated--

(aa) for assessments conducted after July 1, 1998; and

(bb) for assessments conducted before July 1, 1998, if the State is required to disaggregate such data prior to July 1, 1998.

(18) SUPPLEMENTATION OF STATE, LOCAL, AND OTHER FEDERAL FUNDS-

(A) EXPENDITURES- Funds paid to a State under this part will be expended in accordance with all the provisions of this part.

'(B) PROHIBITION AGAINST COMMINGLING- Funds paid to a State under this part will not be commingled with State funds.

'(C) PROHIBITION AGAINST SUPPLANTATION AND CONDITIONS FOR WAIVER BY SECRETARY- Except as provided in section 613, funds paid to a State under this part will be used to supplement the level of Federal, State, and local funds (including funds that are not under the direct control of State or local educational agencies) expended for special education and related services provided to children with disabilities under this part and in no case to supplant such Federal, State, and local funds, except that, where the State provides clear and convincing evidence that all children with disabilities have available to them a free appropriate public education, the Secretary may waive, in whole or in part, the requirements of this subparagraph if the Secretary concurs with the evidence provided by the State.

'(19) MAINTENANCE OF STATE FINANCIAL SUPPORT-

'(A) IN GENERAL- The State does not reduce the amount of State financial support for special education and related services for children with disabilities, or otherwise made available because of the excess costs of educating those children, below the amount of that support for the preceding fiscal year.

'(B) REDUCTION OF FUNDS FOR FAILURE TO MAINTAIN SUPPORT- The Secretary shall reduce the allocation of funds under section 611 for any fiscal year following the fiscal year in which the State fails to comply with the requirement of subparagraph (A) by the same amount by which the State fails to meet the requirement.

'(C) WAIVERS FOR EXCEPTIONAL OR UNCONTROLLABLE CIRCUMSTANCES- The Secretary may waive the requirement of subparagraph (A) for a State, for one fiscal year at a time, if the Secretary determines that--

'(i) granting a waiver would be equitable due to exceptional or uncontrollable circumstances such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the State; or

'(ii) the State meets the standard in paragraph (18)(C) of this section for a waiver of the requirement to supplement, and not to supplant, funds received under this part.

'(D) SUBSEQUENT YEARS- If, for any year, a State fails to meet the requirement of subparagraph (A), including any year for which the State is granted a waiver under subparagraph (C), the financial support required of the State in future years under subparagraph (A) shall be the amount that would have been required in the absence of that failure and not the reduced level of the State's support.

'(E) REGULATIONS-

'(i) The Secretary shall, by regulation, establish procedures (including objective criteria and consideration of the results of compliance reviews of the State conducted by the Secretary) for determining whether to grant a waiver under subparagraph (C)(ii).

'(ii) The Secretary shall publish proposed regulations under clause (i) not later than 6 months after the date of the enactment of the Individuals with Disabilities Education Act Amendments of 1997, and shall issue final regulations under clause (i) not later than 1 year after such date of enactment.

'(20) PUBLIC PARTICIPATION- Prior to the adoption of any policies and procedures needed to comply with this section (including any amendments to such policies and procedures), the State ensures that there are public hearings, adequate notice of the hearings, and an opportunity for comment available to the general public, including individuals with disabilities and parents of children with disabilities.

'(21) STATE ADVISORY PANEL-

'(A) IN GENERAL- The State has established and maintains an advisory panel for the purpose of providing policy guidance with respect to special education and related services for children with disabilities in the State.

'(B) MEMBERSHIP- Such advisory panel shall consist of members appointed by the Governor, or any other official authorized under State law to make such appointments, that is representative of the State population and that is composed of individuals involved in, or concerned with, the education of children with disabilities, including--

- '(i) parents of children with disabilities;
- '(ii) individuals with disabilities;
- '(iii) teachers;
- '(iv) representatives of institutions of higher education that prepare special education and related services personnel;
- '(v) State and local education officials;
- '(vi) administrators of programs for children with disabilities;

'(vii) representatives of other State agencies involved in the financing or delivery of related services to children with disabilities;

'(viii) representatives of private schools and public charter schools;

'(ix) at least one representative of a vocational, community, or business organization concerned with the provision of transition services to children with disabilities; and

'(x) representatives from the State juvenile and adult corrections agencies.

'(C) SPECIAL RULE- A majority of the members of the panel shall be individuals with disabilities or parents of children with disabilities.

'(D) DUTIES- The advisory panel shall--

- '(i) advise the State educational agency of unmet needs within the State in the education of children with disabilities;
- '(ii) comment publicly on any rules or regulations proposed by the State regarding the education of children with disabilities;
- '(iii) advise the State educational agency in developing evaluations and reporting on data to the Secretary under section 618;
- '(iv) advise the State educational agency in developing corrective action plans to address findings identified in Federal monitoring reports under this part; and

(v) advise the State educational agency in developing and implementing policies relating to the coordination of services for children with disabilities.

(22) SUSPENSION AND EXPULSION RATES-

(A) IN GENERAL- The State educational agency examines data to determine if significant discrepancies are occurring in the rate of long-term suspensions and expulsions of children with disabilities--

- (i) among local educational agencies in the State; or
- (ii) compared to such rates for nondisabled children within such agencies.

(B) REVIEW AND REVISION OF POLICIES- If such discrepancies are occurring, the State educational agency reviews and, if appropriate, revises (or requires the affected State or local educational agency to revise) its policies, procedures, and practices relating to the development and implementation of IEPs, the use of behavioral interventions, and procedural safeguards, to ensure that such policies, procedures, and practices comply with this Act.

(b) STATE EDUCATIONAL AGENCY AS PROVIDER OF FREE APPROPRIATE PUBLIC EDUCATION OR DIRECT SERVICES- If the State educational agency provides free appropriate public education to children with disabilities, or provides direct services to such children, such agency--

(1) shall comply with any additional requirements of section 613(a), as if such agency were a local educational agency; and

(2) may use amounts that are otherwise available to such agency under this part to serve those children without regard to section 613(a)(2)(A)(i) (relating to excess costs).

(c) EXCEPTION FOR PRIOR STATE PLANS-

(1) IN GENERAL- If a State has on file with the Secretary policies and procedures that demonstrate that such State meets any requirement of subsection (a), including any policies and procedures filed under this part as in effect before the effective date of the Individuals with Disabilities Education Act Amendments of 1997, the Secretary shall consider such State to have met such requirement for purposes of receiving a grant under this part.

(2) MODIFICATIONS MADE BY STATE- Subject to paragraph (3), an application submitted by a State in accordance with this section shall remain in effect until the State submits to the Secretary such modifications as the State deems necessary. This section shall apply to a modification to an application to the same extent and in the same manner as this section applies to the original plan.

(3) MODIFICATIONS REQUIRED BY THE SECRETARY- If, after the effective date of the Individuals with Disabilities Education Act Amendments of 1997, the provisions of this Act are amended (or the regulations developed to carry out this Act are amended), or there is a new interpretation of this Act by a Federal court or a State's highest court, or there is an official finding of noncompliance with Federal law or regulations, the Secretary may require a State to modify its application only to the extent necessary to ensure the State's compliance with this part.

(d) APPROVAL BY THE SECRETARY-

(1) IN GENERAL- If the Secretary determines that a State is eligible to receive a grant under this part, the Secretary shall notify the State of that determination.

(2) NOTICE AND HEARING- The Secretary shall not make a final determination that a State is not eligible to receive a grant under this part until after providing the State--

(A) with reasonable notice; and

(B) with an opportunity for a hearing.

(c) ASSISTANCE UNDER OTHER FEDERAL PROGRAMS- Nothing in this title permits a State to reduce medical and other assistance available, or to alter eligibility, under titles V and XIX of the Social Security Act with respect to the provision of a free appropriate public education for children with disabilities in the State.

(D) BY-PASS FOR CHILDREN IN PRIVATE SCHOOLS-

(1) IN GENERAL- If, on the date of enactment of the Educational of the Handicapped Act Amendments of 1983, a State educational agency is prohibited by law from providing for the participation in special programs of children with disabilities enrolled in private elementary and secondary schools as required by subsection (a)(10)(A), the Secretary shall, notwithstanding such provision of law, arrange for the provision of services to such children through arrangements which shall be subject to the requirements of such subsection.

(2) PAYMENTS-

(A) DETERMINATION OF AMOUNTS- If the Secretary arranges for services pursuant to this subsection, the Secretary, after consultation with the appropriate public and private school officials, shall pay to the provider of such services for a fiscal year an amount per child that does not exceed the amount determined by dividing--

(i) the total amount received by the State under this part for such fiscal year; by

(ii) the number of children with disabilities served in the prior year, as reported to the Secretary by the State under section 618.

(B) WITHHOLDING OF CERTAIN AMOUNTS- Pending final resolution of any investigation or complaint that could result in a determination under this subsection, the Secretary may withhold from the allocation of the affected State educational agency the amount the Secretary estimates would be necessary to pay the cost of services described in subparagraph (A).

(C) PERIOD OF PAYMENTS- The period under which payments are made under subparagraph (A) shall continue until the Secretary determines that there will no longer be any failure or inability on the part of the State educational agency to meet the requirements of subsection (a)(10)(A).

(3) NOTICE AND HEARING-

(A) IN GENERAL- The Secretary shall not take any final action under this subsection until the State educational agency affected by such action has had an opportunity, for at least 45 days after receiving written notice thereof, to submit written objections and to appear before the Secretary or the Secretary's designee to show cause why such action should not be taken.

(B) REVIEW OF ACTION- If a State educational agency is dissatisfied with the Secretary's final action after a proceeding under subparagraph (A), such agency may, not later than 60 days after notice of such action, file with the United States court of appeals for the circuit in which such State is located a petition for review of that action. A copy of the petition shall be forthwith transmitted by the clerk of the court to the Secretary. The Secretary thereupon shall file in the court the record of the proceedings on which the Secretary based the Secretary's

action, as provided in section 2112 of title 28, United States Code.

(C) REVIEW OF FINDINGS OF FACT- The findings of fact by the Secretary, if supported by substantial evidence, shall be conclusive, but the court, for good cause shown, may remand the case to the Secretary to take further evidence, and the Secretary may thereupon make new or modified findings of fact and may modify the Secretary's previous action, and shall file in the court the record of the further proceedings. Such new or modified findings of fact shall likewise be conclusive if supported by substantial evidence.

(D) JURISDICTION OF COURT OF APPEALS; REVIEW BY UNITED STATES SUPREME COURT- Upon the filing of a petition under subparagraph (B), the United States court of appeals shall have jurisdiction to affirm the action of the Secretary or to set it aside, in whole or in part. The judgment of the court shall be subject to review by the Supreme Court of the United States upon certiorari or certification as provided in section 1254 of title 28, United States Code.

Section 613**

Local Educational Agency Eligibility

APPENDIX C - IDEA AMENDMENTS
SEC. 613. LOCAL EDUCATIONAL AGENCY ELIGIBILITY.

(a) IN GENERAL- A local educational agency is eligible for assistance under this part for a fiscal year if such agency demonstrates to the satisfaction of the State educational agency that it meets each of the following conditions:

(1) CONSISTENCY WITH STATE POLICIES- The local educational agency, in providing for the education of children with disabilities within its jurisdiction, has in effect policies, procedures, and programs that are consistent with the State policies and procedures established under section 612.

(2) USE OF AMOUNTS-

(A) IN GENERAL- Amounts provided to the local educational agency under this part shall be expended in accordance with the applicable provisions of this part and--

(i) shall be used only to pay the excess costs of providing special education and related services to children with disabilities;

(ii) shall be used to supplement State, local, and other Federal funds and not to supplant such funds; and

(iii) shall not be used, except as provided in subparagraphs (B) and (C), to reduce the level of expenditures for the education of children with disabilities made by the local educational agency from local funds below the level of those expenditures for the preceding fiscal year.

(B) EXCEPTION- Notwithstanding the restriction in subparagraph (A)(iii), a local educational agency may reduce the level of expenditures where such reduction is

attributable to--

(i) the voluntary departure, by retirement or otherwise, or departure for just cause, of special education personnel;

(ii) a decrease in the enrollment of children with disabilities;

(iii) the termination of the obligation of the agency, consistent with this part, to provide a program of special education to a particular child with a disability that is an exceptionally costly program, as determined by the State educational agency, because the child--

(I) has left the jurisdiction of the agency;

(II) has reached the age at which the obligation of the agency to provide a free appropriate public education to the child has terminated; or

(III) no longer needs such program of special education; or

(iv) the termination of costly expenditures for long-term purchases, such as the acquisition of equipment or the construction of school facilities.

(C) TREATMENT OF FEDERAL FUNDS IN CERTAIN FISCAL YEARS-

(i) Notwithstanding clauses (ii) and (iii) of subparagraph (A), for any fiscal year for which amounts appropriated to carry out section 611 exceeds \$4,100,000,000, a local educational agency may treat as local funds, for the purpose of such clauses, up to 20 percent of the amount of funds it receives under this part that exceeds the amount it received under this

part for the previous fiscal year.

'(ii) Notwithstanding clause (i), if a State educational agency determines that a local educational agency is not meeting the requirements of this part, the State educational agency may prohibit the local educational agency from treating funds received under this part as local funds under clause (i) for any fiscal year, only if it is authorized to do so by the State constitution or a State statute.

'(D) SCHOOLWIDE PROGRAMS UNDER TITLE I OF THE ESEA- Notwithstanding subparagraph (A) or any other provision of this part, a local educational agency may use funds received under this part for any fiscal year to carry out a schoolwide program under section 1114 of the Elementary and Secondary Education Act of 1965, except that the amount so used in any such program shall not exceed--

'(i) the number of children with disabilities participating in the schoolwide program; multiplied by

'(ii)(I) the amount received by the local educational agency under this part for that fiscal year; divided by

'(ii)(II) the number of children with disabilities in the jurisdiction of that agency.

'(3) PERSONNEL DEVELOPMENT- The local educational agency--

'(A) shall ensure that all personnel necessary to carry out this part are appropriately and adequately prepared, consistent with the requirements of section 653(c)(3)(D); and

163

'(4) PERMISSIVE USE OF FUNDS- Notwithstanding paragraph (2)(A) or section 612(a)(18)(B) (relating to commingled funds), funds provided to the local educational agency under this part may be used for the following activities:

'(A) SERVICES AND AIDS THAT ALSO BENEFIT NONDISABLED CHILDREN- For the costs of special education and related services and supplementary aids and services provided in a regular class or other education-related setting to a child with a disability in accordance with the individualized education program of the child, even if one or more nondisabled children benefit from such services.

'(B) INTEGRATED AND COORDINATED SERVICES SYSTEM- To develop and implement a fully integrated and coordinated services system in accordance with subsection (f).

'(5) TREATMENT OF CHARTER SCHOOLS AND THEIR STUDENTS- In carrying out this part with respect to charter schools that are public schools of the local educational agency, the local educational agency--

'(A) serves children with disabilities attending those schools in the same manner as it serves children with disabilities in its other schools; and

'(B) provides funds under this part to those schools in the same manner as it provides those funds to its other schools.

'(6) INFORMATION FOR STATE EDUCATIONAL AGENCY- The local educational agency shall provide the State educational agency with information necessary to enable the State educational agency to carry out its duties under this part, including, with respect to paragraphs (16) and (17) of section 612(a), information relating to the performance of children with disabilities participating in programs carried out under this part.

(7) PUBLIC INFORMATION - The local educational agency shall make available to parents of children with disabilities and to the general public all documents relating to the eligibility of such agency under this part.

(b) EXCEPTION FOR PRIOR LOCAL PLANS-

(1) IN GENERAL- If a local educational agency or State agency has on file with the State educational agency policies and procedures that demonstrate that such local educational agency, or such State agency, as the case may be, meets any requirement of subsection (a), including any policies and procedures filed under this part as in effect before the effective date of the Individuals with Disabilities Education Act Amendments of 1997, the State educational agency shall consider such local educational agency or State agency, as the case may be, to have met such requirement for purposes of receiving assistance under this part.

(2) MODIFICATION MADE BY LOCAL EDUCATIONAL AGENCY - Subject to paragraph (3), an application submitted by a local educational agency in accordance with this section shall remain in effect until it submits to the State educational agency such modifications as the local educational agency deems necessary.

(3) MODIFICATIONS REQUIRED BY STATE EDUCATIONAL AGENCY - If, after the effective date of the Individuals with Disabilities Education Act Amendments of 1997, the provisions of this Act are amended (or the regulations developed to carry out this Act are amended), or there is a new interpretation of this Act by Federal or State courts, or there is an official finding of noncompliance with Federal or State law or regulations, the State educational agency may require a local educational agency to modify its application only to the extent necessary to ensure the local educational agency's compliance with this part or State law.

(c) NOTIFICATION OF LOCAL EDUCATIONAL AGENCY OR STATE AGENCY IN CASE OF INELIGIBILITY - If the State educational agency determines that a local educational agency or State agency is not eligible under this section, the State educational agency shall notify the local educational agency or State agency, as the case may be, of that determination and shall provide such local educational agency or State agency with reasonable notice and an opportunity for a hearing.

(d) LOCAL EDUCATIONAL AGENCY COMPLIANCE-

(1) IN GENERAL- If the State educational agency, after reasonable notice and an opportunity for a hearing, finds that a local educational agency or State agency that has been determined to be eligible under this section is failing to comply with any requirement described in subsection (a), the State educational agency shall reduce or shall not provide any further payments to the local educational agency or State agency until the State educational agency is satisfied that the local educational agency or State agency, as the case may be, is complying with that requirement.

(2) ADDITIONAL REQUIREMENT - Any State agency or local educational agency in receipt of a notice described in paragraph (1) shall, by means of public notice, take such measures as may be necessary to bring the pendency of an action pursuant to this subsection to the attention of the public within the jurisdiction of such agency.

(3) CONSIDERATION - In carrying out its responsibilities under paragraph (1), the State educational agency shall consider any decision made in a hearing held under section 615 that is adverse to the local educational agency or State agency involved in that decision.

(e) JOINT ESTABLISHMENT OF ELIGIBILITY-

(1) JOINT ESTABLISHMENT-

(A) IN GENERAL- A State educational agency may require a local educational agency to establish its eligibility jointly with another local educational agency if the State educational agency determines that the local educational agency would be ineligible under this section because the local educational agency would not be able to establish and maintain programs of sufficient size and scope to effectively meet the needs of children with disabilities.

(B) CHARTER SCHOOL EXCEPTION- A State educational agency may not require a charter school that is a local educational agency to jointly establish its eligibility under subparagraph (A) unless it is explicitly permitted to do so under the State's charter school statute.

(2) AMOUNT OF PAYMENTS- If a State educational agency requires the joint establishment of eligibility under paragraph (1), the total amount of funds made available to the affected local educational agencies shall be equal to the sum of the payments that each such local educational agency would have received under section 611(g) if such agencies were eligible for such payments.

(ii) be carried out only by that educational service agency.

(B) ADDITIONAL REQUIREMENT- Notwithstanding any other provision of this subsection, an educational service agency shall provide for the education of children with disabilities in the least restrictive environment, as required by section 612(a)(5).

(f) COORDINATED SERVICES SYSTEM-

(1) IN GENERAL- A local educational agency may not use more than 5 percent of the amount such agency receives under this part for any fiscal year, in combination with other amounts (which shall include amounts other than education funds), to develop and implement a coordinated services system designed to improve results for children and families, including children with disabilities and their families.

(2) ACTIVITIES- In implementing a coordinated services system under this subsection, a local educational agency may carry out activities that include--

(B) RESPONSIBILITY OF LOCAL EDUCATIONAL AGENCY- If a State educational agency grants the authority described in subparagraph (A), a local educational agency that is granted such authority shall have the sole responsibility of oversight of all activities relating to the design, implementation, and evaluation of any school-based improvement plan that a public school is permitted to design under this subsection.

(3) PLAN REQUIREMENTS- A school-based improvement plan described in paragraph (1) shall--

(A) be designed to be consistent with the purposes described in section 651(b) and to improve educational and transitional results for all children with disabilities and, as appropriate, for other children consistent with subparagraphs (A) and (B) of subsection (a)(4), who attend the school for which the plan is designed and implemented;

(II) special education and general education teachers of such public school;

(F) establish procedures for approval by such local educational agency of a school-based improvement plan designed under this subsection.

(5) LIMITATION- A school-based improvement plan described in paragraph (1) may be submitted to a local educational agency for approval only if a consensus with respect to any matter relating to the design, implementation, or evaluation of the goals of such plan is reached by the school-based standing panel that designed such plan.

(6) ADDITIONAL REQUIREMENTS-

(h) DIRECT SERVICES BY THE STATE EDUCATIONAL AGENCY-

(1) IN GENERAL- A State educational agency shall use the payments that would otherwise have been available to a local educational agency or to a State agency to provide special education and related services directly to children with

disabilities residing in the area served by that local agency, or for whom that State agency is responsible, if the State educational agency determines that the local education agency or State agency, as the case may be--

(2) the agency meets such other conditions of this section as the Secretary determines to be appropriate.

(j) **DISCIPLINARY INFORMATION-** The State may require that a local educational agency include in the records of a child with a disability a statement of any current or previous disciplinary action that has been taken against the child and transmit such statement to the same extent that such disciplinary information is included in, and transmitted with, the student records of nondisabled children. The statement may include a description of any behavior engaged in by the child that required disciplinary action, a description of the disciplinary action taken, and any other information that is relevant to the safety of the child and other individuals involved with the child. If the State adopts such a policy, and the child transfers from one school to another, the transmission of any of the child's records must include both the child's current individualized education program and any such statement of current or previous disciplinary action that has been taken against the child.
