ABSTRACT

The Baccalaureate and Beyond Longitudinal Study (B&B) tracks the experiences of a cohort of college graduates who received their baccalaureate degrees during the 1992-93 academic year and who were first interviewed as part of the National Postsecondary Student Aid Study. The experiences of this group in the areas of academic enrollment, degree completion, employment, public service, and other adult decisions will be followed for about 12 years. The B&B 1993/97 survey is the second in a series of four planned followup interviews of students from this cohort. Data were collected from 11,192 individuals in 1997 through telephone and field interviews. This report describes the study methodology. The first chapter provides an overview of the B&B study. Chapter 2 describes the B&B sample design for the initial, first followup, and second followup studies. Chapter 3 describes the preparation for the data collection process, and chapter 4 details the data collection process. Response rates are discussed in chapter 5, and chapter 6 evaluates the interview instrument. Chapter 7 considers study weights and design effects development. As the B&B study unfolds, it will provide information on: (1) educational attainment and outcome; (2) access to graduate and professional schools; (3) rate of return on educational investment; and (4) patterns of preparation for, and engagement in, teaching. Appendixes comprising almost 90% of the document include a list of technical review panel members, list of variables, survey instruments, and other support material. (Contains 36 tables and 4 figures). (SLD)

The National Center for Education Statistics (NCES) is the primary federal entity for collecting, analyzing, and reporting data related to education in the United States and other nations. It fulfills a congressional mandate to collect, collate, analyze, and report full and complete statistics on the condition of education in the United States; conduct and publish reports and specialized analyses of the meaning and significance of such statistics; assist state and local education agencies in improving their statistical systems; and review and report on education activities in foreign countries.

NCES activities are designed to address high priority education data needs; provide consistent, reliable, complete, and accurate indicators of education status and trends; and report timely, useful, and high quality data to the U.S. Department of Education, the Congress, the states, other education policymakers, practitioners, data users, and the general public.

We strive to make our products available in a variety of formats and in language that is appropriate to a variety of audiences. You, as our customer, are the best judge of our success in communicating information effectively. If you have any comments or suggestions about this or any other NCES product or report, we would like to hear from you. Please direct your comments to:

Acknowledgments

The Baccalaureate and Beyond:93/97 (B&B:93/97) Methodology Report could not be completed without the assistance of staff from the National Center for Education Statistics and Office of Educational Research and Improvement. Paula R. Knepper, Senior Technical Officer and C. Dennis Carroll, Associate Commissioner of NCES, in particular were extremely helpful in the preparation of the report and in providing support throughout the data collection. We would also like to thank the reviewers at NCES for their thoughtful suggestions and comments and the many insights which they provided.

The success of the B&B:93/97 survey is largely attributable to the hard work and dedication of many staff at NORC. The authors would like to acknowledge the specific contributions of certain members in particular: Jamie Friedman (task leader for telephone data collection), Linda Wiedmer (task leader for field data collection), and Jim Rogers (Project manager for Computing Systems).

The authors would like to thank Norman Bradburn, members of the technical review panel, and Alex McCormick and Robin Henke at MPR Associates, Inc. for their guidance in the development of the survey design and their assistance in developing the study instruments. Finally, we extend thanks to the willing participants in the B&B study who devoted their time and were forthcoming with the information that is the basis of this report.

1. An Overview of the Baccalaureate and Beyond Study

1.1 Purpose of the Study

The Baccalaureate and Beyond Longitudinal Study (B&B:93) tracks the experiences of a cohort of college graduates who received their baccalaureate degree during the 1992-93 academic year and were first interviewed as part of the National Postsecondary Student Aid Study. This group's experiences in the areas of academic enrollments, degree completions, employment, public service, and other adult decisions will be followed for about twelve years. Ultimately, B&B will provide data to assess the outcomes of postsecondary education, graduate and professional program access, and rates of return on investment in education.

The National Center for Education Statistics (NCES) of the Office of Educational Research and Improvement (OERI), U.S. Department of Education, is conducting B&B to comply, in part, with its mandate in Section 404(a) of the National Education Statistics Act of 1994, Title IV of the Improving America's Schools Act of 1994, P.L. 103-382, which states:

The duties of the Center are to collect, analyze, and disseminate statistics and other information related to education in the United States and in other nations, including (1) collecting, acquiring, compiling ..., and disseminating full and complete statistics on the condition and progress of education at the pre-school, elementary, secondary, and postsecondary levels in the United States, including data on ...

- *student achievement at all levels of education; ...*
- *educational access to and opportunity for postsecondary education, including data on financial aid to postsecondary students;*
- *teaching, including data on course-taking, instruction, the conditions of the education workplace, and the supply of, and demand for, teachers, which may include data on the proportions of women and men, cross-tabulated by race or ethnicity, teaching in subjects in which such individuals have been historically underrepresented;*
- *the learning and teaching environment;...*
- *the financing and management of education, including data on revenues and expenditures; and ...*

conducting longitudinal studies as well as regular and special surveys and data collections, necessary to report on the condition and progress of education; . . .

1.2 Analytic Objectives

As the 1992-93 cohort of college and university graduates advances through adulthood, the effects of undergraduate education will become increasingly important. These include the effects of attending different types of colleges and universities (comprising different undergraduate programs, curricula and levels of academic achievement) on outcomes such as access to jobs, enrollment in graduate and professional programs, and the rates of return for the individual and society from investments in postsecondary education.

The B&B study provides data to address issues in four major areas of educational policy: educational attainment and outcome; access to graduate and professional schools; rate of return on educational investment; and patterns of preparation for, and engagement in, teaching.

1) **Educational attainment and outcome.** Continuing education, further degree completion, and entry into the work force are central to attainment and outcome assessment. Questions in this area include:

- After completing a degree, how long does it take to enter the work force or the next level of postsecondary study? How many degree recipients find work immediately that requires that level of education?
- How long does it typically take to obtain a position related to the major field of study? Does the required time differ by degree attained? Does it differ by field?
- How often and for how long are people who completed a baccalaureate degree unemployed? Is unemployment related to field of study?
- How does the level of educational debt incurred for the completion of undergraduate work affect decisions concerning graduate school, employment, and family formation?

2) **Graduate and professional program access.** When graduates decide to enter into graduate or professional school after completing the bachelor's degree, they encounter many of the same access and choice questions they faced when they initially entered into postsecondary education. In many areas, people must complete the graduate program to fully participate in the field. In other areas, graduate education enhances the ability to advance in the area, but is not required. The concern, of course, is that those who wish to continue their education beyond the baccalaureate level have the opportunity to do so. Questions to be addressed in this area include:

- What are the rates of graduate school application, retention and completion?
- Are people who want to enter graduate school immediately after completing the bachelor's degree able to do so? Why do some graduates delay entry into graduate or professional study? Do these persons persist in seeking to enter and do they succeed in entering later?
- Are those who want to enter graduate school after gaining some work experience able to do so when they planned, or are they further delayed? Do they carry out their original plan or later decide against graduate school? How long do they delay entry?
- What proportion of students who have no plans for graduate school at the time they complete the bachelor's degree later change their minds and attempt to enter graduate school? Do these persons have the access they would have had if they had attempted to enter graduate school immediately after completing the bachelor's degree?
- How long does it take to complete a graduate degree program? What is the level and amount of graduate debt incurred and how does this differ by type and level of degree obtained?

3) Rate of return. Rate of return refers to the financial payoff or other value of the bachelor's degree relative to the expense in time and money of obtaining the degree. B&B examines the rates of return from postsecondary education from the perspectives of both the individual and society. From the perspective of the individual, the rate of return can be measured in terms of monetary reward and personal satisfaction. From the perspective of society, rate of return can be measured in terms of the contribution a student makes to the nation's productivity as well as through community involvement and public service. From the perspective of *both* the individual and society, rate of return can be gauged by the adequacy of the individual's preparation for entry into work and community service and by the individual's acquired ability to gain from and contribute to that experience. Specific questions include:

- How does employment status and salary differ over time by major field of study and level of degree obtained?
- How many enter the work force full time in the area for which they are qualified? How long do they remain in that profession? Does this vary by level of degree?
- Do those who enter public service positions advance in their jobs at the same rate as those in other areas? Does this vary by level of degree?
- How frequently do degree completers change jobs or careers? Does this vary by level of degree? Does this vary by time since degree completion?
- Does the degree to which people volunteer vary by degree completed? Does it vary by length of time since degree completion?
- What proportion of bachelor's degree recipients are able to work effectively and advance in their work without additional schooling? What obstacles are encountered that can only be overcome by additional education?

4) Patterns of teaching. Another important feature of the B&B project is that the sample has been designed to facilitate the study of elementary and secondary school teaching careers. Data will be used to monitor the supply and demand characteristics of the labor market, and career patterns, of teachers, including movements into and away from this profession over time. Many of the same issues discussed earlier, concerning initial aspirations and expectations versus ultimate decisions, will be examined. Additional considerations include measuring quality, noting comparative values, and measuring monetary returns to teaching. Specific questions include:

- What proportion of college graduates will become teachers, continue to teach, stay in an education-related field, or pursue other careers?
- What distinguishes college graduates who enter the teaching profession as their first career from those who are attracted to it later in life?
- What is the rate at which teachers change careers, and how does it compare to career-changing patterns of other professionals? How satisfied are teachers in their careers versus those who are employed in other occupations?
- What are the potential sources for new teachers, that is, where do those who enter teaching come from (and, of those who left it, where do they go)?

- How do teachers compare with non-teachers along the lines of gender, race-ethnicity, and socioeconomic backgrounds?

In summary, B&B will contribute to a comprehensive statistical investigation of educational policy issues and help to fulfill NCES's mission, to report on the condition and progress of American education in all its aspects. In recognition of its broad mandate, NCES has expanded its data collection program to investigate educational experiences beyond the traditional span of postsecondary education. *Baccalaureate and Beyond*, with its wealth of data on the consequences of postsecondary education, will contribute to the study of education as a lifelong process.

1.3 Study Design

The B&B:93/97 survey is the second in a series of four planned follow-up interviews of persons who received a bachelor's degree in the 1992-1993 academic year. Baseline data for the B&B cohort were collected as part of the National Postsecondary Student Aid Study (NPSAS:93). The first follow-up interview (B&B:93/94) collected information from respondents one year after they received their bachelor's degree; the second follow-up (B&B:93/97) collected data four years after bachelor's degree receipt. The next interview is planned for nine years after graduation. By the time of the final interview, most students who attend graduate or professional schools should have completed, or nearly completed, their education and be established in their careers.

Data collection for the second follow-up of *Baccalaureate and Beyond* took place from April through December of 1997. The B&B cohort was comprised of 11,192 individuals who were determined eligible for follow-up in 1997. Respondents were interviewed using one of two computer-assisted-interviewing (CAI) systems. The majority of interviews were conducted by telephone interviewers located at a central facility using a computer-assisted telephone interviewing (CATI) system. These interviews were completed between April and July of 1997. The remaining cases were completed by field interviewers using a computer-assisted personal interviewing (CAPI) and case management system (CMS) that was loaded into their individual laptop computers. Most of these interviews were also conducted by telephone but some were administered in person. These cases were completed between July and December of 1997.

2. B&B Sample Design

The B&B sample design represents all postsecondary students in the United States who completed a bachelor's degree in the academic year 1992-93 (AY 93). The B&B:93/94 sample was a subsample of the students selected for the 1993 National Postsecondary Student Aid Study sample, a nationally representative sample of all postsecondary students. The B&B:93/94 sample of baccalaureate degree graduates includes those students in the NPSAS:93 sample who were identified by the institution or during the student interview as having completed a bachelor's degree in the 1992-93 academic year (July 1, 1992 through June 30, 1993). All NPSAS:93 sample persons who satisfied the subsample requirements were included in the B&B:93/94 sample irrespective of whether these persons were respondents or nonrespondents in NPSAS:93.

2.1 Original NPSAS:93 Sample Design

The NPSAS:93 survey employed a stratified two-stage sample design with postsecondary institutions as the first-stage unit and students within schools as the second stage. To be eligible for inclusion in the sample, an institution was required to satisfy all of the following conditions:

- offer an educational program designed for persons who have completed secondary education;
- offer an academic, occupational, or vocational program of study;
- offer access to persons other than those employed by the institution;
- offer more than just correspondence courses;
- offer at least one program requiring at least three months or 300 clock hours of instruction; and
- be located in the 50 states, the District of Columbia, or Puerto Rico.

A total of 1,386 postsecondary institutions were sampled for NPSAS:93; 143 were deemed ineligible based on the criteria outlined above. Of the 1,243 eligible institutions, 88 percent participated by submitting lists of students for selection into the NPSAS:93 sample. Within participating institutions, students eligible for selection into NPSAS:93 were those who were attending the sampled institution and were enrolled either in courses for credit toward a degree or formal award, or in a degree, occupational, or vocation program of at least three months' duration. A total of 82,016 students were selected for the NPSAS:93 sample, with a final eligible sample size of 79,269.

In addition, NPSAS:93 included students in each institution who received a baccalaureate degree between July 1, 1992 and June 30, 1993. (Students who had completed degree requirements prior to July 1, 1992 but had not attended classes after that date were also eligible.) For more details on the original NPSAS:93 sample design, please see the *Methodology Report for the National Postsecondary Student Aid Study, 1992-93* (Loft, et.al., 1995).

2.2 B&B First Follow-up Student Sample

From the NPSAS:93 sample design, 16,316 baccalaureate degree recipients were identified. These students were identified using institutionally provided lists of students who filed for graduation or who indicated having graduated in the 1992-93 academic year during the CATI interview. All 11,810 of the identified students who completed the NPSAS interview were retained for B&B. Student nonrespondents for which NPSAS parent data were available were also retained (372 cases). A ten percent subsample of the remaining eligible cases with at least some data (either data from the institution or partial CATI data) were also retained, for a total of 12,731 eligible cases.

During the data collection period, it became clear that many of the NPSAS nonrespondents retained for B&B were ineligible for the study. Due to the costs involved in contacting ineligible respondents, it was decided to select only a subsample of the NPSAS nonrespondents as potential members of the final B&B sample. All finalized cases and those with pending interviews were excluded from subsampling. Of the remaining 453 cases, a random selection of 200 cases were kept. This sub-sampling process decreased the B&B sample size to 12,478.

After data collection for the first follow-up was complete for both the interview and transcript components, additional cases in the initial sample were found to be ineligible for B&B. More details on how transcript and CATI eligibility were determined can be found in chapter 6 of the *Baccalaureate and Beyond Longitudinal Study: 1993/94 First Follow-up Methodology Report* (Green et al., 1996). People were retained for follow-up in later rounds if they were found to be eligible in either the CATI or the transcript component. Therefore, 10,080 CATI-eligible cases were retained for follow-up plus an additional 1,094 transcript-eligible cases. In addition, 18 cases for which eligibility was unknown for both components were retained. Below, table 2.1 shows the eligibility status for each person according to the transcript and B&B:93/94 CATI components (separately). All together, 11,192 cases were retained for future rounds, including the second follow-up.

Table 2.1.--Transcript and CATI eligibility of those retained for follow-up after B&B:93/94

	B&B:93/94 CATI eligible	B&B:93/94 CATI ineligible	B&B:93/94 CATI non-interview (Eligibility unknown)
Dispositions			
Total	10,080	267	845
Transcript eligible	9,876	267	827
Transcript ineligible	44	--	--
Transcript nonresponse (Eligibility unknown)	160	--	18

SOURCE: U.S. Department of Education, National Center for Education Statistics, *Baccalaureate and Beyond Longitudinal Study: 1993/94 First Follow-up Methodology Report* (NCES 96-149).

2.3 B&B Second Follow-up Student Sample

For the second follow-up, the number of interviews completed was 10,093--more than were completed in the first follow-up, despite the fact that 23 of the first follow-up respondents had since died.

Table 2.2 below shows the full response patterns for all 11,192 B&B sample members. This table describes each type of response combination to the three rounds of the survey (starting with NPSAS:93) and provides frequencies for each description. As shown, a full 83 percent of the sample responded to all three rounds; these 9,274 respondents are classified as the B&B panel. (The description of the weighting procedures for the panel weight is included in chapter 7.)

Table 2.2.--Response patterns for B&B sample

Description	Response status, by study			Frequency	Percent
	NPSAS:93	B&B:93/94	B&B:93/97		
Total	--	--	--	11,192	100.0
Respondents to all three rounds	Yes	Yes	Yes	9,274	82.9
NPSAS:93 and B&B:93/94 only	Yes	Yes	No	436	3.9
NPSAS:93 and B&B:93/97 only	Yes	No	Yes	468	4.2
B&B:93/94 and B&B:93/97 only	No	Yes	Yes	318	2.8
NPSAS:93 only	Yes	No	No	565	5.0
B&B:93/94 only	No	Yes	No	29	0.3
B&B:93/97 only	No	No	Yes	33	0.3
B&B:93/97 deceased* (B&B:93/94 respondents)	Yes	Yes	--	23	0.2
B&B:93/97 deceased* (B&B:93/94 nonrespondents)	Yes	No	--	7	0.1
Nonrespondents to all three rounds	No	No	No	39	0.3

*B&B:93/97 discovered 29 deceased eligibles, and one ineligible previously undiscovered.

NOTE: Due to rounding, details may not add up to 100 percent.

SOURCE: U.S. Department of Education, National Center for Education Statistics, *Baccalaureate and Beyond Longitudinal Study: 1993/94 First Follow-up Methodology Report* (NCES 96-149); Baccalaureate and Beyond:93/97.

Table 2-3 below shows the response patterns by institution type for all 11,192 B&B eligibles. This table is similar to table 2.2 from the first follow-up methodology report, which showed the NPSAS:93

response rates by institution type. However, this table has two differences. First, due to the very small number of private, for-profit school students, these students are not shown separately from the private, non-profit school students. Second, the private schools with first-professional students are separated from those private schools with only doctoral students and below.

Table 2.3.--B&B cohort response patterns, by institution type

Type of student	B&B eligibles	NPSAS93 completes	B&B:93/94 completes	B&B:93/94 transcript completes	B&B:93/97 completes	Panel* completes

3. Data Collection: Preparation

3.1 Instrument Development

Technical Review Panel. The Technical Review Panel Meeting (TRP) for the Baccalaureate and Beyond Longitudinal Study: Second Follow-up (B&B:93/97) was held on November 6 and 7, 1996 in Washington, D.C. Twenty-three people participated in the meeting, including NCES, NORC, and MPR staff members. A list of panel members is included in appendix A.

Panel members focused on considerably shortening and revising the instrument based upon the results of the B&B:93/97 Field Test. Items were dropped mainly for lack of reliability or usefulness. Topics for descriptive reports were identified and then used as a guide to determine which questionnaire items could be dropped and which should be retained, revised or clarified.

Most of the items excluded from the second follow-up main study instrument were from the demographic section. These included questions about high school grades, income of other household members, other sources of household income, respondent's access to computers and their driver's license number. A few items were also eliminated from other sections, such as questions about tuition and fees for schools attended after baccalaureate degree receipt from the sample school.

The most extensively revised portion of the instrument was the teaching section. A new definition of what constitutes the 'teacher pipeline' was used to redesign the initial filter questions for this section. Additionally, the teaching section was moved to precede the employment section so that data about teaching jobs were collected before data about other (non-teaching) jobs. The intended effect was to reduce respondent burden from the earlier round, when data were first collected about all jobs, and then again about teaching jobs. Other revisions to this section included focusing on the most recent spring term (as opposed to academic year) in which the respondent taught, and adding specific items about itinerant and "support" teaching positions.¹

Some items in other sections were also targeted for revision or clarification. Instead of asking for the respondent's first and second choice graduate schools, the second follow-up instrument gathered more general data about graduate applications and types of programs to which the respondent applied. Based on the assumption that a larger proportion of sample members would be attending post-baccalaureate school, items were added to gather data on the respondent's status in graduate or professional programs.

Suggestions arising from the TRP meeting were utilized in making revisions to the instrument. During this period, several meetings were also held with staff from NCES, MPR, and NORC to review and test the instrument. The final instrument was completed on March 14, 1997, with minor modifications made after supervisor training on March 27. Improved coding programs for industry, occupation, and major field of study were provided by NCES and integrated into the instrument in early April. A copy of the final instrument used in B&B:93/97 is contained in appendix H.

¹ For purposes of the B&B:93/97 study, a "support" teacher was defined as one who works with other teachers to develop curricula or teaching materials, but does not necessarily teach students.

NORC also revised the question-by-question specifications to assist interviewers in administering the survey. These question-by-question specifications were incorporated into the electronic instrument upon approval by NCES.

On-line coding systems. The B&B:93/97 instrument was designed to use five on-line coding systems developed by NCES. These coding systems enabled interviewers to code responses during the interview; they also guided interviewers' probes of any unclear or incomplete answers. These systems were used to code 1) occupation, 2) industry, 3) major fields of study, 4) postsecondary schools attended, and for teachers, 5) the elementary and secondary schools where they taught.

The specialized coding systems for industry, occupation, and major operated in a similar manner. The interviewer would enter a short verbatim text reflecting the respondent's answer to the question. The system would then offer the interviewer a choice of code categories which it had selected by matching the verbatim text with text in the database. The interviewer could select one of the suggested categories, or choose to manually scroll through the response categories to select an appropriate code. Both the verbatim response and the interviewer's coded selection were saved so that the system could be improved for later rounds. (Section 6.2 provides a discussion of interviewer coding accuracy.)

The on-line coding systems for elementary and secondary schools, and postsecondary institutions, worked somewhat differently. Rather than entering verbatim responses, interviewers would instead select the appropriate state and then the city in which the school was located from lists appearing on the screen. The system then displayed all of the schools located in that city. To code the response, the interviewer used the cursor to highlight the school the respondent named. A confirmation screen appeared to verify that the correct school was chosen.

3.2 CATI Interviewer Training

One hundred and two interviewers were selected for B&B:93/97 CATI interviewing (field interviewer training is discussed in section 4.5). All interviewers had received eight hours of general training prior to working on their first NORC project. The general training consisted of standard NORC interviewing practices and general telephone center policies.

Ninety-seven interviewers attended the three day training conducted between April 3 and April 6, 1997. Similar to the B&B:93/94 interviewer training, this training contained modules consisting of lecture, demonstration, and hands-on experience in using CATI, on-line coding, and the TNMS (telephone number management system). The modules included the following:

- Overview of B&B:93/97 Project
- Confidentiality Procedures
- Conversational Interviewing Techniques
- Gaining Cooperation
- Statistical Quality Control
- TNMS
- On-line coding of industry and occupation, postsecondary institutions (IPEDS), major field of study, and elementary/secondary schools (ELSEC)

Interviewers also participated in two group-led CATI mock interviews and two duo-mock interviews. This provided interviewers with hands-on practice with the questionnaire and CATI prior to actual interviewing. Interviewers also received homework assignments dealing with the materials covered each day.

After project training, all interviewers went through a project certification process. Each interviewer completed a check-out mock interview with a supervisor who evaluated the interviewer's knowledge and skills in CATI, gaining cooperation, TNMS, the five on-line coding programs, conversational interviewing, and how to probe unclear responses. Some interviewers required additional practice in specific skills before passing certification.

3.3 Prefield Locating Procedures

The B&B:93/97 field test experience was that more than half, rather than the expected third, of sample members had required locating. Therefore, the following locating procedures were instituted prior to data collection in an attempt to alleviate this problem for the main survey.

Credit Bureau Address Updates. The multiple changes in employment, marital status and place of residence that characterize much of the B&B sample can result in the need for address updates from one or more of the three national credit bureaus (Experian, Trans Union, Equifax). Activities such as the following can generate address updates: extension of credit; application for employment; application for apartment rental or lease; start-up or change of a utility provider (e.g. water, gas, electric, cable); application for insurance; a bank or loan company attempting to collect a debt. Therefore, credit bureau databases can be a very helpful locating resource as they provide the address, and sometimes the phone number, at which someone was living when any of these activities occurred.

In early March, immediately prior to the start of CATI data collection, all respondent social security numbers, names, phone numbers and addresses were sent to Experian, one of the three large credit bureau database services, to obtain updated addresses and phone numbers. Experian was able to provide us with address changes or verifications for 6,101 sample members (54.5 percent of the initial sample). The updated addresses were loaded into the case management system (CMS) as the best address and used to generate the advance letter mail-out.

The names and addresses of the 23,469 parents and contacts identified by B&B respondents when last interviewed were also updated through Experian. NORC obtained address changes or verifications for 47.6 percent (11,463) of these contacts. The updated addresses were again loaded into the CMS as an updated resource for any of these cases that would require locating.

U.S. Post Office Address Corrections. A week before interviewing began, NORC sent an advance mailing packet to the respondents' updated addresses. The envelopes were stamped with "Forwarding and Address Corrections Requested." This stamp ensured that mailings would not only be forwarded to respondents who had moved but that NORC would also receive the corrected addresses from the U.S. Post Office. The Post Office returned 980 corrected addresses (8.8 percent of the initial sample).

Respondent-Generated Updates. The advance packets included a letter which asked respondents to notify NORC of any changes in their phone numbers or addresses since they were last

interviewed. A toll-free phone number for NORC's telephone center, as well as a direct phone number to the NORC project director, was provided. NORC also provided a B&B-specific E-mail address in the letter, as an additional venue for respondents to use to update their phone numbers and addresses. (The phone numbers and E-mail address were also included in an enclosed leaflet that described the project in more detail.) NORC received E-mails from approximately one percent (75), and phone calls from about 5.5 percent (619), of the sample members. When NORC received an E-mail or letter from a B&B sample member indicating that his/her phone number had changed, the new phone number was entered directly into the TNMS by a supervisor.

4. Data Collection: Process

Overview. An advance mailing containing a letter and informational leaflet was sent to all 11,192 B&B:93/97 sample members in the spring of 1997 inviting them to participate in the study. The letter, appendix B, provided a summary of the survey objectives, an introduction to NCES and NORC, and a promise of strict adherence to the privacy protection laws. The leaflet, appendix C, highlighted key findings from the first follow-up. Sample members were also given a toll-free 800 number and an E-mail address through which they could obtain further information, schedule an interview, or provide an updated phone number.

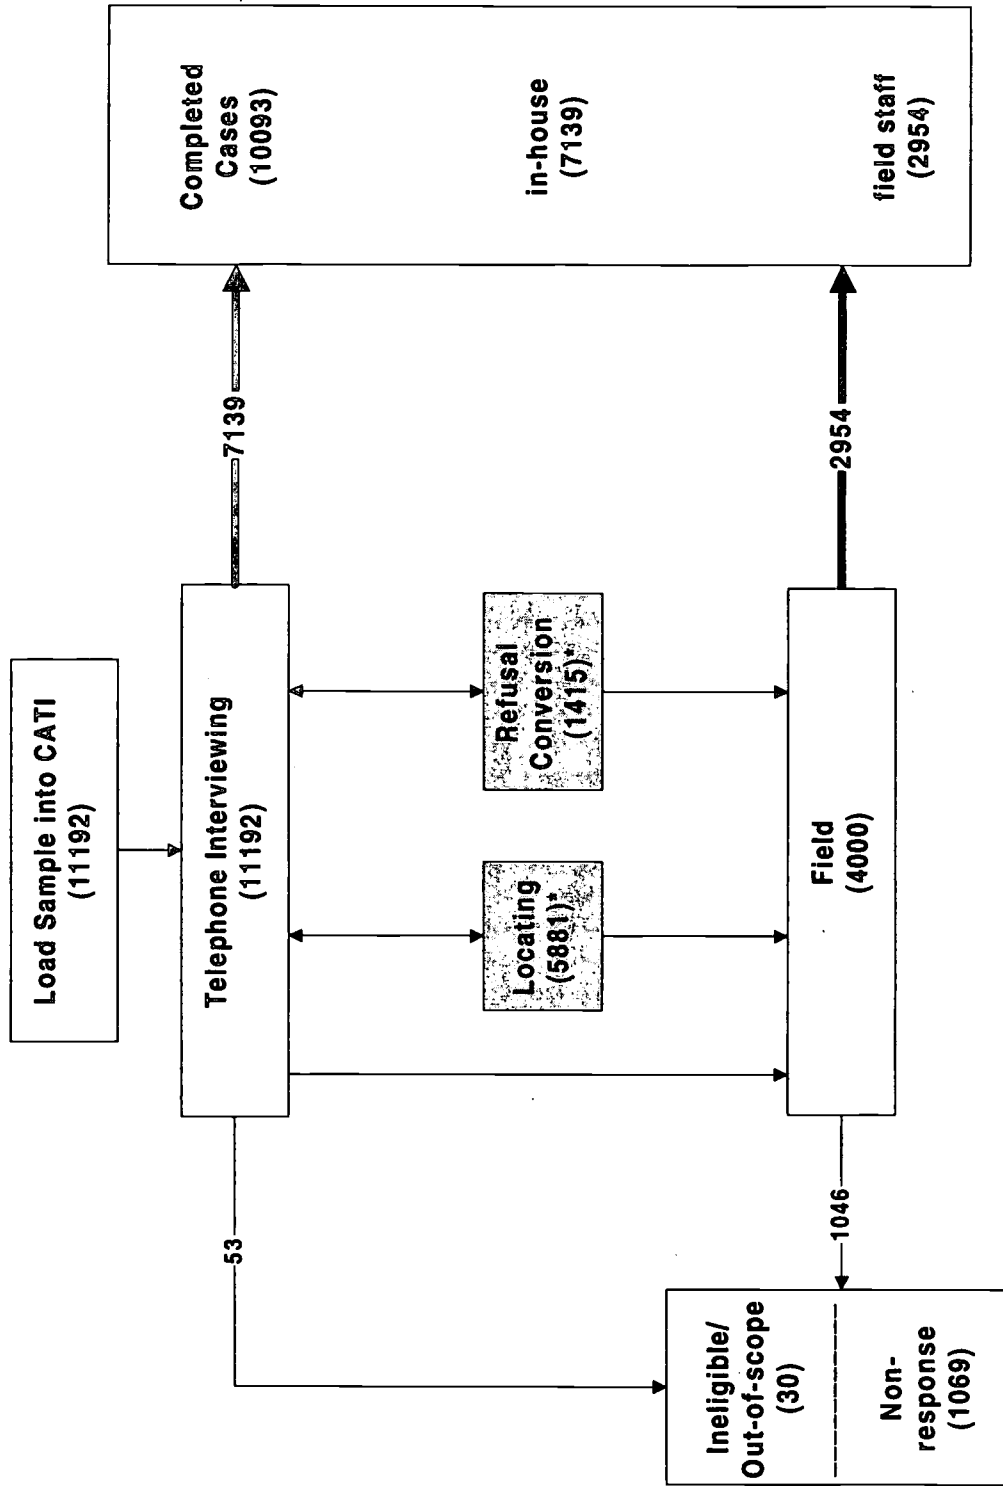

Interviewing began on April 8, 1997, approximately one week after the advance letter mailing. Telephone interviewing continued until July 25, 1997, a period of 16 weeks. Cases that were pending at the end of this time were sent to field interviewers and worked from July through December 31, 1997, a field period of 23 weeks.²

Figure 4.1 summarizes the flow of cases through the major activities--interviewing, locating, refusal conversion--in the B&B:93/97 survey. As shown, case records for the sample were loaded into the CATI telephone number management system (TNMS) and delivered to interviewers. Cases were delivered initially during peak contacting periods which included Monday through Thursday evenings, Saturday mornings, and late afternoon and evening hours on Sunday. A total of 7,139 cases (64 percent of the 11,162 eligible cases) were completed in the telephone center. An analysis of the case delivery management is presented in section 4.1; CATI production is described in section 4.2.

Locating problems were associated with a majority of the cases. Prior to being loaded into the TNMS, all cases had been sent to a credit bureau database service to obtain updated phone and address information about each sample member. Cases for whom no number was available, either through this process or from an earlier interview, and cases whose updated phone number was subsequently identified as being incorrect, were sent to locating specialists. As Figure 4.1 indicates, 5,881 cases, (53 percent of the initial sample) required this intensive locating while in NORC's centralized telephone facility. About half of these cases were eventually completed in the telephone center; the other half were sent to the field, where 429 additional locating problem cases were identified. Only 2.7 percent of these cases (1.5% of all cases) remained unlocatable; interviews were eventually completed with 86 percent of these sample members. The locating process and results are discussed in more detail in section 4.3.

² In actuality, field work began on a small number of cases in mid-June, when the telephone center began transferring hard refusal and unlocatable cases to the field, once all telephone efforts had been exhausted.

Figure 4.1.--Paths toward case completion

*Cases could be designated as locating or refusal problems, or both.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Baccalaureate and Beyond:93/97.

Sample members refusing to participate in the B&B:93/97 study presented less of a problem than had been experienced in the first follow-up but conversion remained difficult. Fifteen percent (1,679) of eligible sample members refused to participate at some time during this survey, compared to 20 percent in B&B:93/94. The majority of these cases (1,415) were first identified as refusals in the telephone center.

CATI refusal conversion specialists were able to complete interviews with about one quarter of these sample members; three quarters of these cases (1,050) had to be sent to the field where interviewers could contact sample members in-person if necessary. Field interviewers were able to convert an additional 782 reluctant sample members, producing a final response rate of 67 percent among those who had ever refused to participate. More information about the refusal conversion effort is presented in section 4.4.

After telephone interviewing was halted in early July, field interviewers were sent 4,000 cases, a little more than one third (36 percent) of the initial sample. The vast majority of these cases required locating or refusal conversion. Overall, the field staff completed 2,954 cases increasing the final response rate for B&B:93/97 to 90 percent. Field activities are described in section 4.5.

4.1 Telephone Interviewing Case Management

The CATI telephone number management system (TNMS) is NORC's standard call scheduling and telephone number delivery system. The system is responsible for routing cases to interviewers at the most opportune times for telephone contact. Interviewers record the call-outcomes for each attempted contact with each case in the TNMS. The system then chooses the next appropriate action for that case, determined by a combination of the last outcome with it's history of outcomes.

The TNMS tracks and categorizes the status of cases by using a location flag attached to each case. For B&B:93/97, the TNMS used seven different locations:

1. General Interviewing
2. Refusal Conversion
3. Locating
4. Max Calls
5. Field
6. B&B:93/94 Refusals
7. Holding Tank

Cases which were in the general interviewing location were automatically delivered to interviewers at appropriate times by the case delivery module of the system. Cases in all other locations (such as refusals or locating problems) were managed and accessed directly by the appropriate staff group. The system automatically updated the location flag of each case depending on the outcome codes provided by the interviewer. For example, respondents who refused to complete the interview were coded as refusals by the interviewer and automatically routed by the system to location two, refusal conversion. After a short cooling down period, the case was worked by a refusal convertor. If the respondent could not be converted, the case was filed to location five, field, and sent to a field interviewer. Similarly, when a case was identified as temporarily unlocatable, the system automatically routed it to location three, locating. Each night the system automatically scanned new cases put into location three and loaded them into the Case Management System (CMS) locating database, which then made these cases accessible to locating specialists.

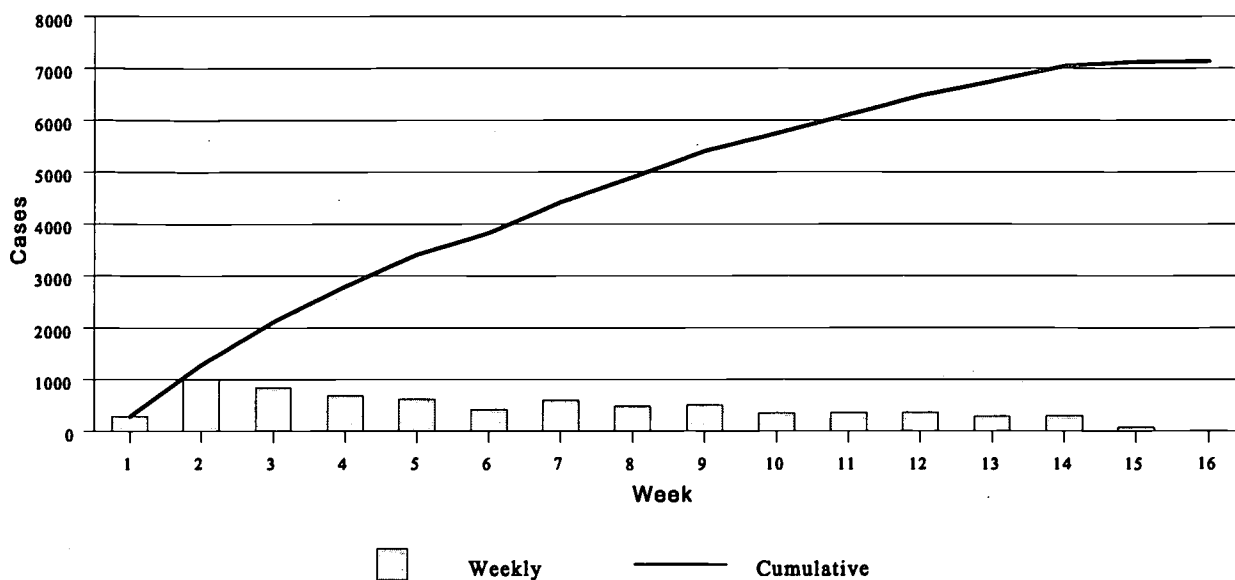

Calling algorithms. The calling times and case routing schedule set up for the B&B:93/97 sample was based on our field test experiences which suggested that the best times to reach sample members would be Sunday through Thursday evenings and Saturday mornings. Initial calls were not scheduled for Fridays, late Saturday afternoons and evenings, or early during the day on Sundays. However, interviewers worked these hours to service any appointments set up by respondents during these times. The telephone center was in operation from 8:00 a.m. - 11:00 p.m. on Monday through Thursday, 8:00 a.m. - 9:00 p.m. on Friday, 8:00 a.m. - 7:00 p.m. on Saturday and 11:00 a.m. - 11:00 p.m. on Sunday.

Cases were delivered to interviewers by the TNMS initially up to 13 times before being filed to Location 4, max calls, which indicates difficult-to-reach respondents whose phone numbers have been called several times with no contact made. The weekly calling algorithm reflected the above preference for Monday through Thursday evenings, Saturday mornings, and Sunday evenings. Cases were delivered twice during each evening Monday through Thursday (8), once on a weekday morning (1), once on a weekday afternoon (1), once on Saturday morning (1), and once on Sunday evening (1). If no contact had been made with the respondent after the twelfth call had been made (indicating that the entire algorithm cycle had been covered), the case was reviewed by a supervisor. The supervisor would decide either to send the case back to the floor to be called during an off-cycle period, or to send the case to a locating specialist. The calling delivery cycle was stopped as soon as an appointment was set to call the respondent. From that point forward, appointments determined when the respondent was called.

4.2 CATI Production

Data collection began on April 8, 1997. Week-by-week production and cumulative completes are diagramed in figure 4.2. Week two was not only the first full week of production but also the highest week of production, with almost 1,000 interviews completed during that week. While production remained high through week five, averaging more than 700 completed cases per week, by week six the rapidly increasing number of cases requiring the attention of locating specialists was adversely affecting the rate of interviewing production (down to 418). This was due to the need to shift telephone center resources from interviewing to locating activities, and also reflected the additional calls necessary to complete a case since a greater percentage of the remaining numbers were discovered to be either incorrect numbers, refusals, or very busy sample members who were rarely home. By week seven, however, the release of newly located sample members increased production; which remained fairly steady, averaging 525 completed cases per week for the next three weeks, decreasing to an average of 329 completed cases for weeks ten through fourteen before dropping considerably the last two weeks, during which time cases were being transferred to the field (primarily hard refusal cases and locating problem cases which required locally-based or in-person locating efforts or conversion activities).

Figure 4.2.--CATI production rates, by week

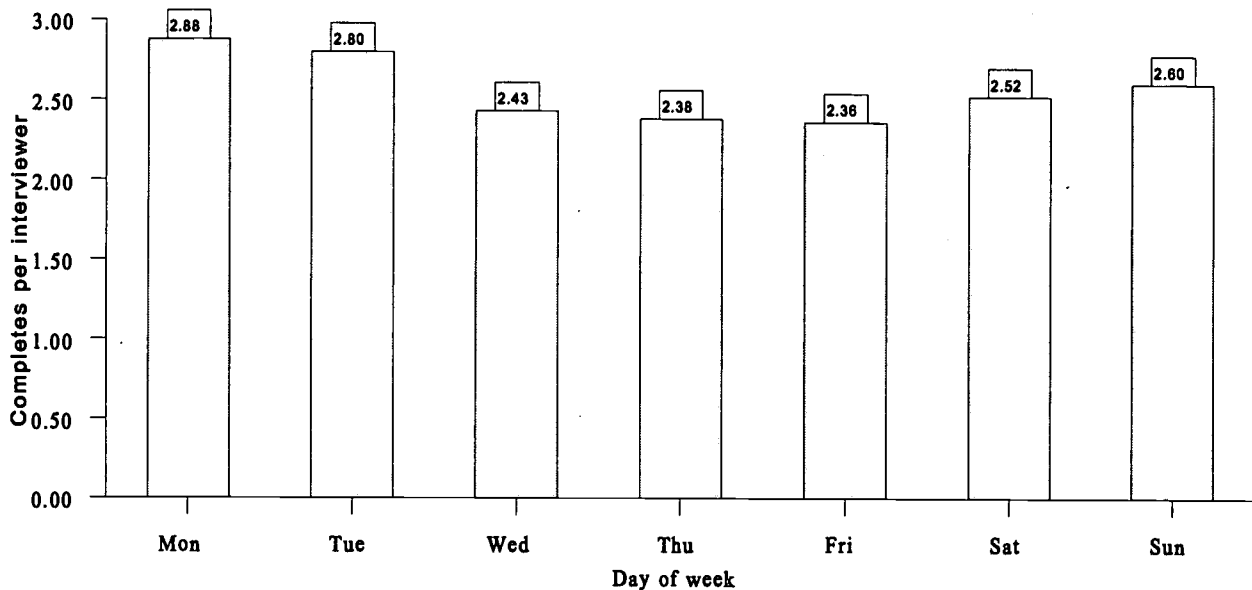

SOURCE: U.S. Department of Education, National Center for Education Statistics, Baccalaureate and Beyond:93/97

The number of calls per completed case is the best indicator of the level of effort required in the interviewing task. The TNMS tracks every call; writing to a log file the outcome of the call and the date and time of the attempt. The data in the log file can then be used to calculate the level of effort (number of calls) necessary to complete a telephone interview. The average number of calls made in the TNMS to complete a case averaged 18.5 for the B&B:93/97 sample compared to an average of 13.4 calls for the cases completed in the telephone center for the B&B:93/94 sample. These data indicate that a much higher level of effort was required to complete cases in 1997. This was largely due to the much higher number of locating problems encountered (interviewers were much less likely to locate sample members at their preloaded phone numbers or still residing with their parents as had been the case in 1994) and also reflects the busier lifestyles of the majority of sample members who may have more career and family responsibilities than they had three years ago.

Figure 4.3 presents data on case completion per interviewer by day of the week. Weekends, and especially evenings in the early part of the week (Mondays and Tuesdays) were found to be particularly effective days to call respondents.

Figure 4.3.--CATI production rates per interviewer, by day of week

SOURCE: U.S. Department of Education, National Center for Education Statistics, Baccalaureate and Beyond:93/97.

4.3 Respondent Locating

Cases requiring locating were an extensive problem for B&B:93/97. It had been expected that approximately one third of the sample members would require locating; in reality, more than one half of the initial sample (6,300 cases) eventually required some kind of locating effort during the production period.

This locating was in addition to the prefield locating activities explained in detail in section 3.3. However, telephone center and field locators were very successful and ultimately located all but 1.5 percent of the net sample.

Protocol used for locating. Cases were loaded into the TNMS with the "best" telephone number for reaching the respondent based on the information obtained through the prefield locating efforts. (In chronological order of receipt, this could be the phone number provided by 1) the respondent when last interviewed for B&B:93/94 in 1994 or NPSAS in 1993; 2) the NCOA/Telematch update service NORC had used for all main survey respondent data in February, 1996, prior to the start of the field test; 3) the credit bureau database update service NORC used to update all main survey respondents and contacts in March, 1997 immediately prior to starting production). The "best" phone number was assumed to be the number most recently obtained.

About half of the B&B:93/97 interviewers (48) were cross trained as locators, each attending one of several two-day training sessions held. Training focused on 1) locating protocols including ordered usage of the primary locating resources available for most sample members; 2) use of NORC's CMS Locating System to access and record case-specific locating information and track all locating efforts; 3) gaining cooperation of informants; 4) mock locating phone calls and exercises; and 5) a check-out exercise necessary to be certified as a locating specialist.

Locators used the CMS Locating System to both guide and track their efforts. The CMS contained the following preloaded locating data for each case: all available respondent and parent/contact phone

numbers and addresses; respondent social security and driver's license numbers; undergraduate school (and graduate school, if applicable) attended by the sample member. The system also contained all locator-entered records that indicated which resources had already been used and the results of that usage, including any updated phone and address information obtained for respondents or their parents or contacts. Locating specialists were instructed to use the following resources in the order they appear since the order correlated to their past proven utility in locating field test sample members: 1) all respondent-generated information (E-mails, address corrections from the U.S. post office, any previously-acquired respondent phone numbers); 2) last known telephone number of the parent(s); 2) last known telephone number of other contacts; 3) graduate schools (if applicable); 4) undergraduate institutions/alumna associations; 5) the other two credit bureau updating services; 6) military locating service if applicable; and 6) the Department of Motor Vehicles in the state which issued the respondent's last known driver's license.

Some cases remained unlocatable at the close of telephone operations. A record of all locating activities engaged in by the telephone center locating specialists as well as any updated address information acquired for each of their assigned cases was accessible to the field interviewers through the CMS loaded into their computers. Upon review of the CMS call records for their cases, field interviewers could use the resources listed above that had not yet been accessed or could use additional resources because of their regional knowledge not available to the telephone center locators (such as voter registration offices, utility companies, tax assessors offices, churches).

Final completion status by locating problem status. Following the protocols discussed above, CATI interviewers were able to find and complete interviews with about half (2,885) of the 5,881 cases identified as locating problems in the telephone center. Ten cases were identified as deceased, fifteen finalized as hostile refusals, and the remainder (2,971) were sent to the field. An additional 429 cases were subsequently identified with locating problems by field staff. Field interviewers eventually located 95 percent of these sample members (3,232 of the 3,400 field locating problem cases) and completed interviews with 75 percent (2,531) of them.

Table 4.1 compares the final completion status of cases ever identified as a locating problem versus those for whom locating was unnecessary. Of the 6,300 cases ever identified with locating problems, 86 percent (5,416) were successfully traced and interviewed compared to a 96 percent response rate for those sample members never identified as locating problems. Thus, while locating cases were more difficult to complete than those which did not require this extensive effort, NORC was quite successful in locating and completing interviews with these respondents. The refusal rate for locating problem cases was twice as high as it was for cases never identified as a locating problem suggesting that some locating problems were actually hidden refusals.

Table 4.1.--Final completion status, by whether or not locating needed

	Complete	Final refusal	Unlocated	Other non-response	Subtotal
Total	90.4% 10,093	2.6% 287	1.5% 168	5.5% 614	100% 11,162

SOURCE: U.S. Department of Education, National Center for Education Statistics, Baccalaureate and Beyond:93/97.

4.4 Refusal Conversion

A total of 1,679 respondents (15 percent of the total eligible sample) refused to complete the interview at some point in the interviewing process. The majority of these cases (1,415 or 84 percent of all refusal cases) were first identified as such in the telephone center. Sample members who initially refused were given a two week 'cooling off' period. These cases were then made available to one of several B&B:93/97 trained interviewers who were experienced at refusal conversion. Each of them had also attended a briefing that included a review of project-specific types of refusals and a round robin practice of exercises in gaining their cooperation.

The CATI refusal converters were able to convert and complete 335 of the refusal cases (24 percent of the cases identified as refusals in the telephone center). Thirty cases were finalized as hostile refusals and the remainder (1,050) sent to the field. An additional 264 cases were subsequently identified as refusals by field staff. Field interviewers were eventually able to complete interviews with 60 percent of these sample members (782 of the 1,314 refusal cases sent to, or identified in, the field), obtaining an overall response rate of 67 percent for all cases who had ever refused. Appendix D contains a

sample of the conversion letters and data usage document that were used by NORC staff to persuade reluctant sample member to participate in B&B:93/97.

Table 4.2 compares the final completion status of those cases who had never refused to those who had initially refused. It is evident that converting those who refused was a difficult task. While NORC interviewers obtained a response rate of 95 percent among those who never refused, they were able to complete interviews with only 67 percent of those who had refused at some point in the production period. While an initial refusal rate of 15 percent for the second follow-up compares favorably to the 20 percent initial refusal rate experienced in B&B: 93/94, the response rate for refusal cases was lower in 1997 than it was for the first-follow-up (67 percent versus 74 percent). This might seem to suggest that the hard-to-persuade are becoming more intransigent; however, only 39 B&B:93/97 sample members have been non-respondents to all three waves of data collection (NPSAS, B&B:93/94, B&B:93/97). In fact, NORC successfully interviewed 501 cases that had been nonrespondents in the first follow-up, and 351 sample members who had been nonrespondents for NPSAS. (See section 2.3 for a detailed discussion about, and table displaying, the combined response rates to the three waves of B&B data collection).

Table 4.2.--Final completion status, by initial refusal status

	Complete	Final refusal	Unlocated	Other non-response	Subtotal
Total	90.4% 10,093	2.6% 287	1.5% 168	5.5% 614	100% 11,162
Ever refused:	66.5% 1,117	17.1% 287	2.1% 35	14.3% 240	100% 1,679
Phone	20.0% 335	1.8% 30	0.0% 0	0.0% 0	21.7% 365
Field	46.6% 782	15.3% 257	2.1% 35	14.3% 240	78.3% 1,314

4.5 Field Operations

In mid-July, the telephone center ceased work on B&B:93/97 and all pending cases were transferred to NORC's field staff. All were cases the telephone center had been unable to complete because the respondent refused, was evasive, or had not yet been located. (Field staff actually began working a small number of cases in June, as the telephone center began filtering hard refusal and locating problem cases to the field). Field staff received and worked their cases using a laptop computer on which the CAI (computer-assisted interviewing) instrument had been loaded as well as the electronic case management system (CMS).

The CMS contained all the locating information and call records associated with each case that a field interviewer was assigned as well as information about the current status of each case. Field managers were able to access and review all of the cases assigned to all of the interviewers they were supervising.

Field staff. A field project manager, assisted by a district field manager, provided overall task management for this component. Twelve field managers (FMs) were hired to initially supervise fifty-eight *telephone field interviewers*. Each manager was responsible for a specific geographic region of the United States. *In-person field interviewers* were later recruited and hired as needed contingent upon the location of cases, and need for locally-based locating work or in-person contact. A total of 112 in-person field interviewers were hired on this as-needed basis for B&B:93/97.

Training. In mid-June the twelve field managers attended a four-day training and then began working hard refusal and locating problem cases in preparation for their involvement in the training and management of the field interviewers. In mid-July, the central office and field management staff conducted a four-day training for the fifty-eight initial field interviewers. These four-day training sessions consisted of relevant modules from the CATI and locator trainings, with additional emphasis on case analysis, field-specific locating resources and procedures, refusal conversion, CMS usage, and field-specific administrative procedures. The field managers then conducted a final mock interview and telephone review with each of the field interviewers assigned to them to ascertain their readiness to begin working their cases.

Field production. A total of 4,000 cases (36 percent of the total sample) were sent to the field. The cases were grouped by most-current respondent zip code and then distributed to the geographically-appropriate field manager. Materials made available for each case included a face sheet with respondent demographic and most-recent locating information, a call history report with notes made by telephone center interviewers and locators describing each contact made with the respondent or locating resource, and a listing of all of the locating resources used and/or available for the case. The cases were then reviewed by the FMs before being assigned to a field interviewer. The cases sent to the field were the most difficult: approximately one-third were refusals, and two-thirds were respondents who were difficult to locate or evasive (cases where the respondent was never available or where gatekeepers kept the telephone interviewer from reaching the respondent).

Figure 4.4 shows the weekly and cumulative production rates for the field data collection. The initial completed cases identified for the first week of field production are actually an accumulation of cases completed by the field managers in the month preceding the field interviewer training in Mid-July. The second week is really the first full week of field production. The graph indicates that production rates increased steadily during the first four weeks of full field production as interviewers familiarized themselves with their cases and became increasingly successful at locating, or converting, these problem

cases. Production reached a high of 225 completes per week for week five. The completion rate decreased in the following weeks, averaging 159 interviews per week for weeks six through ten, then decreasing to a low of 73 completed cases for week twelve (early October).

Locating problems were the most significant deterrent to field production. Therefore, in early October, project management decided to reconfigure the field structure into task-specific groups to more efficiently handle the problems encountered. Three groups were formed, each headed by a separate Field Project Manager (FPM) who was responsible for staffing, training, and supervising that particular group: 1) a locating group, comprised of field managers and interviewers specializing in locating procedures; 2) an in-person field interviewer group for those geographically-scattered cases that required on-site visits; and 3) a reduced telephone field interviewer group, each receiving a larger case workload to increase efficiency.

The FPM for this latter group was also responsible for overall production monitoring and interfacing with the other two groups. The remaining weeks of production (thirteen through twenty-three) reflect the success of this restructuring with an average of about 100 interviews per week thereafter. The field staff were able to complete 2,954 (74 percent) of their total case workload, bringing the final B&B:93/97 response rate to 90 percent.

4.6 Quality Assurance

To ensure data quality, NORC used the following procedures and reports throughout the data collection phase:

- CATI interviewers were monitored on a random basis. During each monitoring session, the supervisor noted any deviations or errors in interviewing, locating, or gaining cooperation. Reports were generated showing overall error rates as well as errors by question number. Interviewer feedback sessions were conducted on a weekly basis. During these meetings, interviewers received feedback about the group's performance, and were given the opportunity to ask questions or comment on the instrument.
- Coding accuracy was verified by having a sample of entries from each of the coding programs recoded by expert coders. A program then compared the expert coders recoded entries with the interviewers original entries and generated a report on error rates for coding. (See section 6.2.)
- Production statistics, for both the phone center (CATI) and field data collection phases, were produced and reviewed on a daily basis. Efficiency ratios such as calls made per completed case, or interviewer hours spent per completed case, were analyzed to track, and correct for, trends that affected the efficiency of the data collection effort.
- Frequencies and time stamps were reviewed daily during the first week of production, and on a periodic basis thereafter. Frequencies and time stamps were exported daily and placed in the password protected B&B:93/97 Web-site so that they would be available for immediate review had any concerns arisen.
- A validation process was used to monitor the quality of interviews completed by field interviewers. Cases were randomly selected for each interviewer. Respondents were recontacted and briefly questioned to ensure that the interviewer actually completed the interview and that the interviewer administered the questionnaire appropriately and professionally.

Production reports. Daily automated production reports, which contained statistics on the number of cases completed and/or located and the inputs required to attain completion (e.g., effort, labor, and time) were used to measure and monitor both telephone center and field productivity. These data allowed the B&B:93/97 staff to pinpoint productivity problems with both the interviewing and locating efforts, and to correct for any problems demanding attention. These production reports were generated nightly and automatically updated on the project Web-site, which enabled timely client access to all data.

CATI interviewer monitoring. CATI interviewers were carefully monitored by supervisors to ensure consistent high-quality data throughout the field period. NORC's online monitoring system allowed monitors to simultaneously listen to an interviewer, observe the interviewer's computer screen, and record any errors or comments into the monitoring system database. Supervisors conducted all monitoring activity from the monitoring room just off the interviewing area in order not to disturb the actual interviewer.

All in-use work stations were randomly selected at 15 minute intervals for monitoring by a supervisor according to pre-scheduled monitoring sessions. Using an on-line data capture program equipped with audio and visual capabilities, supervisors responded directly to ongoing interviews by entering evaluation data directly onto data capture screens. The monitor assigned performance ratings to various

skills on a 0-5 scale where "0" indicates the skill was not observed, and ratings of 1-5 correspond to increasingly higher level of skill mastery and acceptability. The data capture screen also allowed supervisors to log question numbers associated with errors and general comments pertaining to these errors. Another data capture screen collected very general information and commentary on non-interviewing activities such as refusal conversion.

Consistent with the daily production reports generated for system monitoring, statistics were reported daily for interviewers' sessions. Daily statistics are presented in table 4.3. Control charts were utilized to track the average number of errors associated with each minute of observed interviewing. Error rates for project staff stayed within the predetermined limits set for the phone center. In addition, Pareto analysis was utilized to identify the most frequently observed errors encountered in a monitoring session. Taken together, these quality control measures ensured the integrity of the data gathered during data collection.

Table 4.3--Total monitored interviewing time and error rates

Date	Total monitoring time	Total errors	Total monitored interviewing time	Interviewer error rate

5. Response Rates

Table 5.1 presents information on the final disposition by mode of interview for all cases that were initially included in the sample. Of the 11,192 cases identified as eligible B&B sample members (through either the interviewing or transcript component of B&B:93/94), 30 were subsequently found to be out of scope or ineligible. The 29 out-of-scope cases were sample members who have died since 1993; one case was identified as ineligible when it was determined that the respondent had never received a baccalaureate degree.

Interviews were completed with 10,093 of the 11,162 eligible B&B:93/97 cases, for a final unweighted response rate of 90.4 percent. The majority of interviews, 63.9 percent, were conducted by telephone interviewers located at a central facility using a computer-assisted telephone interviewing system. Less than one percent of cases were finalized in the phone center as non-respondents; these cases were hostile refusals, primarily classified as such due to their threats of taking legal action should they be contacted again.

The remaining 4,000 cases (35.8 percent) were then sent to field interviewers who were geographically dispersed across the country. The vast majority of these fielded cases were sample members whom the telephone center was either unable to locate or unable to convert their initial refusals to participate. Field interviewers also used a computer-assisted interviewing system. The system and their assigned cases were loaded into their individual laptop computers; interviews were primarily conducted by telephone but some were completed in-person. Field interviewers completed an additional 2,954 cases, 73.8 percent of all fielded cases, contributing 26.5 percent to the final response rate of 90.4 percent.

An examination of the final non-respondents indicates the success of NORC staff's locating and refusal conversion efforts. Just 1.5 percent of the sample--2.7 percent of the locating problem cases--were finalized as unlocatable while only 2.6 percent of the sample were finalized as refusals, compared to 5.8 percent in B&B:93/94. Much of the remaining 5.5 percent non-response is attributable to sample members who were either out of the country or not available at any time during the time frame of the survey.

Table 5.2 presents more detailed information on respondents and non-respondents by age (calculated as of 7/1/97), gender, and race. While response rates are similar across many of these demographic subgroups, some distinctive differences exist. Response rates decrease slightly with age (93.1 percent of those under 26 compared to 90.4 percent of those over 30 participated) but participation among males and females is approximately equal. Response rates are also similar among whites, blacks, and American Indians (ranging from 89.5 percent to 91.6 percent) but are substantially lower for Asians/Pacific Islanders (only 82.2 percent) and those identifying themselves as "other" (73.8 percent).

Table 5.1.--Response rates, by mode of interview

B&B:93/97 sample		Phone	Field	Total
Total		7,192	4,000	11,192
Ineligible		23	7	30
Eligible		64.2%	35.8%	100.0%

6. Evaluation of Instrument

One can look at several factors in assessing the efficacy of the survey instrument. Three which will be discussed here are the interview length, the accuracy of interviewer coding when using on-line coding utilities, and the level of individual item nonresponse. Readers may refer to appendix H for a copy of the computer-assisted interview instrument. Appendix E lists all of the items (variables) collected in the B&B:93/97 study, as well as computed variables derived from these data.

6.1 Length of Interview

The computer-assisted interview instrument used in this study included several "time stamps" which provide data on the average amount of time taken by the respondent to complete each section. Table 6.1 shows the average length of a completed interview for B&B:93/97 at almost 33 minutes (only one minute longer than the average administration time in the first follow-up). When looking at administration time by section, clearly the longest section was that which collected data about employment since the last interview date, with an average time of 11.5 minutes. The next highest administration time (7.5 minutes) was for the final section, but this is partially due to the fact that this final section was the longest in terms of number of questions. A little over six minutes were spent collecting information about post-baccalaureate education and internships, and an average of about two minutes were spent gathering data on respondents' teaching experiences. Not counting the locating section, which gathered address and telephone numbers for the respondent, parents, and other contacts, the average interviewing time was almost 28 minutes.

Table 6.1.--Interview administration time, by section
(Average number of minutes respondents spent answering questions)

Section Name	Minutes
Total	32.8
Post-baccalaureate education section	6.4
Teaching section	2.4
Employment section	11.5
Final section: demographic, civic participation, household, debt information	7.5
Locating (address and contact) section	5.1

NOTE: Due to rounding, details may not add up to total.

6.2 Evaluation of On-line Coding Accuracy

The B&B:93/97 computer-assisted interview instrument made use of five coding programs developed by NCES. These programs were used to code postsecondary institutions (IPEDS), elementary and secondary schools (ELSEC), major field of study, industry, and occupation. The coding programs for industry, occupation, and major required interviewers to enter the brief "verbatim" text supplied by the

respondent. The coding program then suggested several possible codes and the interviewer was to select the most appropriate code. Using the IPEDS and ELSEC coding programs to code postsecondary institutions and elementary/secondary schools involved searching through a multi-level database of states, cities within states, and finally, schools within the selected city.

To judge the quality of the coding being done by the interviewers, NORC performed an export of ten percent of each week's completed cases. The original input and coding results for these cases were loaded into a computer-assisted instrument which was used by specially trained coders. For these programs, the coders were asked to use the verbatim text entered by the interviewer and select an appropriate code. If the code selected disagreed from that originally chosen by the interviewer, the coder was shown the interviewer-selected code and was asked to judge if that code was reasonable or not. The results of this verification process are displayed in table 6.2.

Interviewers did a fairly good job in using the coding programs and the differences in coding accuracy between the programs is relatively small. In assessing the major coding, the reasons for the relatively large percentage of "reasonable but different" codes, and the smaller percentage of these cases where sufficient text was entered to allow verification, are probably the same. In conducting the survey, interviewers were more cognizant of reducing respondent burden rather than fully documenting a verbatim string. Interviewers had the luxury of being able to verify with the respondent if a question arose about the correct major category, while coders only had the verbatim string from which to work. Additionally, while the industry and occupation coding programs had been greatly enhanced (with more examples for the user, more concise categories, and a more extensive look-up dictionary), the major coding program was still relatively complex. For example, interviewers (and coders) had a choice of 18 different majors grouped under the broad category of "Health." So a broad entry of "medicine" or "nursing" could bring up as host of possible categories, which the interviewer could select by talking with the respondent.

To examine the accuracy of school coding, coders were given the text entered by interviewers when the school named by the respondent could not be found in the coding program. In these cases, coders were asked to judge the completeness of the information entered by the interviewer: was the name, city and state information sufficiently complete so that it can be coded later? Interviewers performed differently depending on whether they used the IPEDS or ELSEC programs. About 94 percent provided sufficient information to allow a later determination of the correct IPEDS code for postsecondary institutions, while only 76 percent provided that level of information in the ELSEC program.

Upon further examination of the verbatim text from the ELSEC program, it was discovered that 18 percent of the inadequately documented cases were actually cases in which the respondent either refused to provide, or did not remember, the name of the school. Furthermore, a significant portion of the remaining uncodable cases were due to the fact that the program inserted the text "**UNKNOWN" if the interviewer was unable to select the city.

Table 6.2--Reliability of interviewer coding using on-line coding programs

Coding program	Percent of cases where sufficient text was entered to allow verification	Percent coder and interviewer agreement	Verified cases	
			Percent coder and interviewer disagreement:	
			Interviewer code reasonable	Interviewer code incorrect
Major	86.3	81.7	12.8	5.5
Industry	97.2	91.8	5.6	2.7
Occupation	95.8	93.3	4.1	2.6
Postsecondary institution	94.2	--	--	--
Elementary/secondary school	76.4	--	--	--

NOTE: Due to rounding, details may not equal 100 percent.

6.3 Nonresponse by Item

One of the goals of B&B:93/97 was to reduce the item non-response, which results from respondents declining to answer the question, or responding that they could not give an accurate answer. NORC accomplished this goal by using a variety of innovative techniques to build respondent rapport, including the use of conversational interviewing. Nevertheless, there were still some items, particularly those requiring the collection of specific numeric figures (e.g., test scores and dates; income figures), that were answered by less than 90 percent of respondents who were asked. These items are displayed in table 6.3.³

Of the approximately 1,800 variables included in the final data set, there were almost 50 items with nonresponse rates over ten percent. Almost half of these items, however, are accounted for by the fact that only five or fewer respondents were asked the question; many of these are the third or fourth iterations of a looped question. Items involving knowledge of specific dates, such as those for emigration, employment, and school attendance were found to have substantial rates of nonresponse; the largest type of nonresponse for these items are the "don't know" responses. In most instances, "don't know" signifies that the respondent

³ This list does not include items that were pre-loaded using B&B:93/94 data, or other items that were designed as components of composite variables.

had difficulty recalling the information requested and could not provide a number. High levels of "don't know" responses are also evident in the items regarding the respondent's education loans and loans of the respondent's spouse.

Refusal to answer income and salary questions continued, as in the first follow-up (and in other similar surveys), to be among a significant proportion of the nonresponse items. More specifically, these items included questions concerning academic year base salary of teaching jobs, as well as income from jobs and other sources. These items had a high percentage of refusal responses. Items involving spouse's income, in addition to high refusal responses, had a moderate percentage of "don't know" responses. "Don't know" responses also accounted for the majority of the nonresponse in items concerning spousal education debt, reflecting what seems to be an overall lack of respondent knowledge of spouse or partner income and debt.

In comparison to the findings of nonresponse in the first follow-up, there has been a reduction in the number of items with significant nonresponse. Although still high, the refusal rate of income and salary items has decreased from the first follow-up. This could be explained by the fact that NORC has established enough of a rapport with respondents (the majority of whom have participated in the first round of the survey) to be able to elicit their confidence in answering these types of questions.

Table 6.3.--Item nonresponse for items with over ten percent nonresponse

Variable name	Variable label	Number asked	Percent don't know	Percent refused	Percent combined nonresponse
B2FEMIG	Year father emigrated to US	1,077	9.6%	1.4%	11.0%

7. Weights and Design Effects Development

B&B:93/97 final weights were calculated by making a nonresponse adjustment to the baseline B&B weight calculated for B&B:93/94. This baseline B&B weight is an adjustment of the baseline National Postsecondary Student Aid Survey (NPSAS:93) weight. NPSAS:93 sample development and weights calculation documentation can be found in the *Sampling Design and Weighting Report for the 1993 National Postsecondary Student Aid Study* (Whitmore, Traccarella, and Iannacchione, 1995). More details than are given below on the development of weights during B&B:93/94 can be found in *Baccalaureate and Beyond Longitudinal Study: 1993/94 First Follow-Up Methodology Report* (Green et al., 1996). The B&B:93/94 weights adjustment started with the NPSAS:93 base weight calculated for all B&B eligible sample members. A summary of the interim weight components and final B&B weight distribution can be summarized as follows:

Variables defined in the weight development process:

- B₀:** B&B:93/94 base weight (NPSAS:93 base weight post-stratified to baccalaureate degree control totals, by institution stratum)
- B₁:** B&B:93/94 final weight adjusted for nonresponse (non-respondents are assigned a value = 0)
- B₂:** B&B:93/97 final weight adjusted for nonresponse (non-respondents are assigned a value = 0)
- P₂:** Panel weight for all three surveys: NPSAS:93, B&B:93/94, and B&B:93/97 (non-zero only for respondents to all three)
- B&BSTRAT:** Adjusted institution stratum for B&B weighting
- B&BTYPE:** Adjusted student type for B&B weighting

The final distributions for B₀, B₁, B₂ and P₂ are listed in table 7.1.

Table 7.1.-- Final weight distributions

Variable	Sum of weights*	Number of non-zero observations	Number of zero observations	Mean based on non-zero weight	Standard Deviation	Minimum	Maximum
B ₀	1,184,758.02	11,192	0	105.86	86.15	1.52	2,446.50
B ₁	1,184,758.04	10,080	1,112	117.54	95.57	1.56	3,149.07
B ₂	1,181,375.58	10,093	1,099	117.05	95.54	1.61	3,182.02
P ₂	1,181,375.58	9,274	1,918	127.39	102.15	1.77	3,357.67

* B₂ and P₂ have a smaller sum of weights because of 30 B&B:93/97 ineligible (29 deceased).

7.1 B&B:93/97 Weights Development Procedure

The B&B base weight (B_0) was calculated for B&B:93/94. To create B_0 , two modifications were made to the NPSAS:93 weight for the 11,192 B&B eligibles (also determined for B&B:93/94):

1. Twenty-three cases without NPSAS:93 weights had their weights imputed by using the average across all non-zero weights within the same institution, and
2. These NPSAS:93 weights were post-stratified to the number of baccalaureate degrees awarded for the 1992-93 academic year, by institution type (B&BSTRAT).

The resulting B&B base weight (B_0) will be used as the basis for all future B&B weights.

Step 1. Adjust B_0 for non-response and calculate final B&B:93/97 weight

The non-response adjustment to B_0 for the B&B:93/97 weight was calculated using the following process:

1. Non-response adjustment cells were created by cross-classifying cases by two variables: institution stratum and student type.
2. Each cell was checked to see that it met two conditions:
 - i) the cell contained at least 15 students, and
 - ii) the weighted response rate for the cell was at least two-thirds (67%) of the overall weighted response rate.
3. Any cells that did not meet both conditions were combined into larger cells. This was done by combining student types 3 and 4 within the same institutional stratum. If this larger cell did not meet the criteria specified above, all student types from that institutional stratum were combined.
4. Once all cells were defined, the B&B weight variable was multiplied by the inverse of the weighted response rate for the cell.

In more formal terms, if we define the indicator $I_{hbi} = 1$ if surveyed B&B sample member i in student stratum b and institutional stratum h responded to the survey, and let $I_{hbi} = 0$ if the sample member did not respond to the survey, then the response rate for sample members in institutional stratum h and student stratum b , R_{hb} , is

$$R_{hb} = \left(\sum_{i=1}^{n_{hb}} B_{0,i} I_{hbi} \right) / \left(\sum_{i=1}^{n_{hb}} B_{0,i} \right)$$

where n_{hb} is the number of sampled students in student stratum b and institutional stratum h . The final B&B:93/94 weight adjusted for nonresponse, B_2 , is

$$B_2 = B_0/R_{hb}.$$

Final weighted (by B_0) B&B:93/97 response rates for each stratum are presented in table 7.2.

Step 2. Adjust B_0 for non-response and calculate final B&B:93/97 panel weight

The non-response adjustment to B_0 for the B&B:93/97 panel weight was calculated using the same process used in Step 1 above, with only the definition of a respondent changing. In calculating the panel weight, we defined the indicator $I_{hbi} = 1$ if surveyed B&B sample member i in student stratum b and institutional stratum h responded to all three of the B&B surveys (NPSAS:93, B&B:93/94, and B&B:93/97), and let $I_{hbi} = 0$ if the sample member did not respond to all three surveys. Final weighted (by B_0) panel response rates for each stratum are presented in table 7.3.

7.2 Design Effects

The design effect is defined as the ratio of the variance, corrected for the sampling design, to the variance based on a simple random sample. Most complex multi-stage sampling designs result in a design effect greater than one, that is, the variance of an estimate is actually larger than the variance would be had the data been based on a simple random sample (SRS). To estimate the variance using information about the sample design, it is necessary to use statistical procedures such as Taylor Series approximations, Balanced Repeated Replication, or Jackknife Repeated Replication. For B&B:93/97, NORC used the Taylor Series procedure to calculate the standard errors.

The impact of departures from simple random sampling on the precision of sample estimates is often measured by the design effect (designated as DEFF), the ratio of the design-corrected variance to the variance based on SRS assumptions. The square root of the design effect (also called the root design effect, and designated as DEFT) is also useful. The following formulas defined the design effects and root design effects for this section:

$$\text{DEFF} = \frac{(\text{DESIGN-SE})^2}{(\text{SRS-SE})^2}$$

$$\text{DEFT} = \frac{(\text{DESIGN-SE})}{(\text{SRS-SE})}$$

where DESIGN-SE designates the standard error of an estimate calculated by taking into account the complex nature of the survey design, and SRS-SE designates the standard error of the same estimate calculated as if the survey design was a simple random sample.

Standard errors for thirty proportions based on B&B:93/97 data were calculated, both for B&B:93/97 respondents, and for B&B panel respondents (respondents to all three B&B surveys: NPSAS:93, B&B:93/94, and B&B:93/97). Tables 7.4 through 7.12 present estimates of the design effects for these variables for various subgroups of the B&B:93/97 population. The design effects presented in table 7.4 are based on the entire population; later tables present estimates for subgroups by sex, race, and type of school attended. Tables 7.13 through 7.21 present a similar set of tables of design effect estimates for these same 30 variables for various subgroups of the B&B panel respondents. For each variable and group, the table contains the percent estimate, the design-corrected standard error, the standard error for the same percent estimate based on SRS assumptions, the unweighted n , the root design effect, and the design effect.

Researchers who use the Data Analysis System prepared for use with B&B:93/97 will find that the program automatically produces design-corrected standard errors. Researchers using the restricted use files are cautioned to use a package (such as SUDAAN or OSIRIS) which can produce the design-corrected standard errors, or to adjust the standard errors computed under simple random sample assumptions, as produced by typical packages such as SPSS or SAS, by multiplying them by the mean root design effect for that subgroup.

Table 7.4.--Design effects for all respondents - B&B:93/97

Variables	Percent estimate	Design SE	SRS-SE	N	DEFT	DEFF
Took state/professional licensing exams	17.68	0.52	0.38	10,087	1.37	1.87
Attended school since graduation	40.88	0.74	0.49	10,089	1.52	2.30

Finally, table 7.22 below compares the three sets of B&B design effects by comparing the means, minimums, and maximum design effects (DEFFs) and root design effects (DEFTs) for B&B:93/94, B&B:93/97, and the panel (respondents to all three of NPSAS:93, B&B:93/94, and B&B:93/97). These comparisons are made for the overall population, as well as the eight subgroups for which design effects were calculated. The panel respondents tend to have the lowest design effects, while the mean design effects tend to be highest for B&B:93/94. These are only slight differences, however, since the three sets of design effects are very similar.

7.3 Nonresponse Bias Analysis

To assess whether there are differences between groups in the frequency of refusing to answer particular questions, a subset of variables used in the examination of design effects was used in a nonresponse bias analysis. The selected variables are typical of the items found in the data file and are characterized by an overall low rate of nonresponse since this was a computer-assisted interview. Only variables that correspond to direct questions asked of respondents are analyzed here; variables that are constructed or derived are excluded from this analysis.

A case is classified as "valid" if the respondent provided an answer; a case is classified as "missing" if the respondent refused or said he or she didn't know. Percentages are based on the total number of cases to which the question applied.

Three sets of comparisons are presented, analyzing nonresponse based on gender, date of interview, and race/ethnicity. The results are shown in tables 7.23 through 7.25 below. The tables present the distribution of valid responses among subgroups, the distribution of missing responses among subgroups, and the standard errors of the proportions are shown in parentheses. T-tests between the percent valid and the percent missing for each subgroup were conducted and significant differences are denoted in *bold italics*.

No significant differences based on gender are evident. Males and females have approximately equal levels of missing data on the items included in this analysis.

Significant differences based on date of interview are present for 21 of the 25 variables examined. Cases that were completed during the first three months of data collection have a higher proportion of valid than missing responses to twenty-one items. Differences between the percent valid and missing are also present for cases completed between July and September (significant differences are present for 12 of 25 variables), and those complete from October through December (significant differences are present 14 of 25 variables).

Note that the April-June period coincides with the CATI data collection period. Cases that were completed during the July-December CAPI field period had higher levels of missing data than those completed during the telephone interviewing period. While it is possible that this represents a mode effect, it seems likely that it is the result of the fact that difficult cases were completed during the CAPI field period, including respondents who had refused to complete an interview over the phone.

The analysis based on race and ethnicity also shows some small level of nonresponse bias. In conducting t-tests between the percent valid and percent missing among white respondents, 13 of the 25 comparisons are significant. For all of these items, whites had high levels of valid data in comparison to missing data. Missing responses seem to be distributed more heavily among non-white than white cases.

Again, it should be repeated that the overall level of nonresponse is very low in this data file. The use of CATI and CAPI technology eliminates the respondent error due to incorrect branching that is often found in self-administered questionnaires, and also provides the opportunity for prompting respondents who are initially reluctant to answer a question. The response bias noted here is not sufficiently grave to have a major impact on most analysis. However, it is important to note so that improvements might be made for the next round of data collection.

Table 7.23.--Respondents with "valid" or "missing" responses, by gender

Variable	Total	Male	Female
Took state/professional licensing exams

APPENDIX B

LETTER TO B&B:93/97 SAMPLE MEMBERS

[DATE]

[NAME]

[ADDRESS]

[CITY, STATE, ZIP]

Dear [NAME]:

In a few days, an interviewer from the National Opinion Research Center (NORC) at the University of Chicago will contact you by telephone to interview you. We would like to talk to you as part of the Baccalaureate and Beyond Study (B&B), sponsored by the U.S. Department of Education. As you may recall, you were interviewed for this study three years ago, as part of a sample of recent college graduates. The Department of Education is continuing this study in an effort to learn more about the choices college graduates make concerning work and the pursuit of further study.

During the interview, we will ask you about some of the jobs you have held since your last interview, and any educational programs you have enrolled in since that time. The data we collect about your experiences in these areas are extremely valuable and influence the formation of education policy in the United States.

Researchers, authorized by the National Center for Education Statistics (NCES), will combine your data with that of all others interviewed in this study to produce statistical reports for Congress and others. No data that can be used to identify individuals is reported. Please see the back of this letter for information about our uncompromising pledge of confidentiality protection. Federal laws provide stiff fines and prison sentences for the disclosure of your identity or the misuse of information you provide.

Our records indicate that your telephone number is [PHONE NUMBER]. To update this information, or if you would like to arrange an interview at a time of your convenience, please call NORC toll-free (800/241-7357) or send E-mail (B&B2@norcmail.uchicago.edu). You may also contact the NORC Project Director, Dr. Patricia Green (773/256-6277) with specific questions you have about the study or your interview. The enclosed leaflet contains more general information about the B&B study. Anyone wanting more information about NCES and the range of studies it conducts can access the NCES homepage on the Internet (<http://www.ed.gov/NCES>).

We thank you for your continuing participation and look forward to talking with you.

Sincerely,

Paula R. Knepper, Ph.D.
Project Officer
Postsecondary Longitudinal Studies

Encl.
[AQ_ID]

CONFIDENTIALITY PLEDGE

As a matter of policy, the National Opinion Research Center (NORC) and the National Center for Education Statistics (NCES), of the U.S. Department of Education, are concerned with protecting the privacy of individuals who participate in voluntary surveys. We want to let you know that:

1. The collection of information in this survey is authorized by Public Law 100-297 and continued under the auspices of Section 404(a) of the National Education Statistics Act of 1994, Title IV of the Improving America's Schools Act of 1994, Public Law 103-382.
2. We are asking these questions in order to gather information about the experiences of college graduates after they leave college and move on to graduate or professional education, work, or other activities.
3. Participation is voluntary. You may skip questions you do not wish to answer; however, we hope that you will answer as many questions as you can.
4. No information collected under this authority may be used for any purpose other than the purpose for which it was supplied. Information will be protected from disclosure by federal statute (42 US Code 242m, section 308d). NCES may authorize only a limited number of researchers to have access to information which may identify individuals. They may use the data only for statistical purposes and are subject to fines and imprisonment for misuse. Data will be combined to produce statistical reports for Congress and others. No individual data that links your name, address, telephone number, or student identification number with your responses will be reported.
5. All identifying information will be electronically separated from the survey data. Security provisions have been made for the storage of this information. Locator information will be supplied to NCES at completion of the survey for use in future follow-ups.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 1850-0729. The time required to complete this information collection is estimated to average 40 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collected. If you have any comments concerning the accuracy of the time estimate or suggestions for improving the survey instrument, please write to: U.S. Department of Education, Washington, D.C. 20202-4651. If you have comments or concerns regarding the status of your individual response to this survey, write directly to: National Center for Education Statistics, 555 New Jersey Avenue, N.W., Washington, D.C. 20208.

APPENDIX C
INFORMATIONAL LEAFLET FOR B&B:93/97

e second follow up interview, B&B:93/97, will select information from participants approximately 10 years after receipt of their bachelor's degree. Interviewers from the National Opinion Research Center will start calling B&B sample members this spring. Participants will be asked to provide information about their educational and employment experiences since their last interview.

Analyses and reports from B&B:93/97 will be available to researchers in 1998.

Protecting Privacy

Strict confidentiality of all information obtained from the Baccalaureate and Beyond survey (B&B) study is ensured by federal laws and regulations. These include the Privacy Act of 1974, the Family Educational Rights and Privacy Act, the General Education Provisions Act as amended by the Hawkins-Stafford Amendments of 1988, and the NCES Standard for Maintaining Confidentiality. Under these laws and regulations:

All information which would permit identification of individuals will be regarded as strictly confidential. Information obtained in the B&B survey will be used only for statistical purposes.

Any person who misuses or attempts to disclose individual information is subject to strict fines and prison terms. The B&B study is authorized by Public Law 100-297 and continued under the auspices of Section 404(a) of the National Education Statistics Act of 1994, Title IV of the Improving America's Schools Act of 1994, Public Law 103-382). Participation in the study is voluntary.

National Opinion Research Center

The National Opinion Research Center (NORC) at the University of Chicago has a long and distinguished history in social science research. During its fifty-six year history, NORC has

preserved the confidentiality of survey respondents. Extraordinary procedures have been implemented in B&B to ensure the confidentiality and privacy of survey respondents. Specifically:

- All staff with access to study data have taken an oath of nondisclosure which subjects them to possible fines and imprisonment for any disclosure of individual responses.
- All electronic data are maintained in secure and protected data files; all personally identifying data is maintained in files separate from files containing descriptive information.
- Any data released to the general public will be tailored so that it is not possible to identify specific individuals or institutions.

For Further Information

If you have any questions about the B&B survey, please contact NORC by E-mail on the Internet: **B&B2@norcmail.uchicago.edu**, or by calling B&B's toll-free number: **800-241-7357**.

You may also call (collect) any of the study directors:

NORC Project Director:

Dr. Patricia Green 773-256-6277

NORC Associate Project Directors:

Ms. Cynthia Veldman 773-256-6105

Ms. Sharon Myers 773-256-6087

The NCES Project Monitor:

Dr. Paula R. Knepper 202- 219-1914

NCES also has publications and survey information available on the Internet at: <http://www.ed.gov/NCES>

B&B

**Baccalaureate and Beyond
Longitudinal Study**

**National Center for Education Statistics
U.S. Department of Education
Spring 1997**

Baccalaureate and Beyond (B&B) is a longitudinal study designed to collect information about students who graduated from four-year colleges and universities in the academic year 1992-1993. The study provides data about the career experiences and educational achievements of bachelor's degree recipients. B&B is conducted by the National Opinion Research Center (NORC) at the University of Chicago, under contract with the Department of Education.

What have we learned?

Following are examples of what we have already learned from B&B data.

Employment

April 1994 Employment Status

Nearly three-quarters of graduates were employed full-time one year after graduation. Approximately four percent were unemployed.

Salary

Average salaries for recent graduates varied by major, from \$19,000 to over \$30,000.

Average annual salary for 1992-93 bachelor's degree recipients employed full time in April 1994, by bachelor's degree major

Bachelor's degree major	Salary
Baccalaureate degree major	\$26,029
Professional fields	\$27,069
Business and management	\$19,280
Education	\$30,948
Engineering	\$31,302
Health professions	\$22,042
Public affairs/social services	\$22,160
Arts and sciences	\$22,763
Biological sciences	\$25,414
Mathematics and other sciences	\$22,082
Social science	\$21,047
History	\$21,307
Humanities	\$19,463
Psychology	\$21,619
Other	

Further Education

In 1994, 27 percent of the 1992-93 college graduates were pursuing some kind of further education. Approximately 17 percent were enrolled in graduate or professional programs; 4 percent were pursuing a second bachelor's degree, associate's degree or vocational certificate/license; and about 6 percent had taken courses outside of a formal degree program.

Educational Debt

About one-half (49 percent) of 1992-93 college graduates had borrowed for their undergraduate education, and among those who did, the average total amount borrowed was about \$10,000. One year after graduation, the average amount they still owed on the debt was about \$9,000.

Teaching

Twenty-six percent of 1992-93 graduates had either considered teaching, prepared to teach or had taught since graduation. Eight percent (one third of the 26 percent) were teachers in 1994.

What do we hope to learn?

Future rounds of data collection will help answer more questions on these topics. For example:

How does the level of undergraduate education debt affect decisions concerning graduate school, employment, and family formation?

How many who enter graduate school persist to completion? How long does it take to complete a graduate degree program?

How do salaries differ over time between those who enter the work force directly after receiving their bachelor's degree and those who complete graduate school?

How many will become teachers, continue to teach, stay in an education-related field, or pursue other careers?

More information is available in two reports from the National Center for Education Studies, U.S. Department of Education:

A Descriptive Summary of 1992-93 Bachelor's Degree Recipients 1 Year Later. Alexander McCormick and Laura Horn.

Out of the Lecture Hall and Into the Classroom: 1992-93 College Graduates and Elementary/Secondary School Teaching. Robin Henke, Sonya Geis, and Jennifer Giambiattista.

Participants and Schedule

B&B involves about 12,000 bachelor degree recipients who will be interviewed periodically during the twelve-year period following graduation. Each B&B respondent contributes significantly to the development of education policy in the United States by providing important, ongoing, information about their careers and education in the critical years following their college graduation.

APPENDIX D

REFUSAL CONVERSION LETTER AND DATA USAGE DOCUMENT

[DATE]

[NAME]
[ADDRESS]
[CITY, STATE, ZIP]

Dear [NAME]:

An interviewer from our staff (National Opinion Research at the University of Chicago) has attempted to reach you recently on behalf of the National Center for Education Statistics (NCES). S/he has [reached your answering machine/not found you at home] at the times s/he tried. Because you cannot be replaced with someone else, it is urgent that we speak to you regarding your participation in the Baccalaureate and Beyond Longitudinal Study (B&B).

We know that you are busy but we are asking for a minimal amount of time, 20-40 minutes on average, to do an interview by phone. We are merely updating some of the information that you provided when you were last interviewed.

Because B&B is a longitudinal study, it is particularly important that you continue your participation. The result of this study will help to provide Congress and the educators who recommend government policy with the information they need to decide on improvements in the quality of education in America. By providing information on your experiences and plans, both in the work force and/or in continuing education, you will have a direct impact on how federal programs might better be targeted to improve access and reduce burden to both the undergraduate and graduate students.

Without speaking to you directly, we are unable to ascertain if we are calling the right number, or if you have concerns about participating in the study, and what those concerns might be. Our interviewer is well equipped to answer any questions you might have. We would appreciate a few minutes of your time to explain the study and to arrange for an interview at your convenience.

I sincerely hope that we have stressed the importance of your contribution to this study. Please call the B&B Project if you have any questions or if you can give us a time that would be best to call. Please leave your name and your current phone number or a number where we can reach you. The number is 800/241-7357 or send an E-mail to B&B2@norcmail.uchicago.edu.

We thank you for your continuing participation and look forward to hearing from you soon. The enclosure contains more information about the B&B study.

Sincerely,

[YOUR NAME], Field Manager

<http://www.norc.uchicago.edu/homepage.htm>

B&B DATA USAGE

What Was Learned from B&B1?

About the Financial and Time Costs of a Baccalaureate Education?

- Total undergraduate debt among borrowers: \$10, 167
- Total undergraduate debt by major: Highest debt-->Health professions
Lowest debt--->History
- Time taken to obtain degree: 43% completed their degree within four years
57% took more than four years to complete their degree

About the Short-term Returns of a Baccalaureate Education?

Average Salary for 1992-93 Bachelor's Degree Recipients Employed Full Time in April 1994

- Average overall salary: \$24,195
- Average salary by major: Below \$20,000: Education \$19,280
Psychology \$19,430
\$20,000 to \$24,999: History \$21,047
Humanities \$21,307
Other \$21,619
Public affairs/social services \$22,042
Social Science \$22,082
Biological Science \$22,763
\$25,000 to \$29,999 Mathematics/other sciences \$25,414
Business/management \$27,069
\$30,000+ Engineering \$30,948
Health Professions \$31,302

About Teachers?

- 8% of 1992-93 graduates were teachers in 1994. Of those who applied for teaching positions, 72% were offered positions; 90% of those positions were accepted.
- These teachers comprised 1/3 of the 26% of graduates who had ever considered teaching, prepared to teach or had taught since graduation
- Approximately 10% of the 1992-93 bachelor's degree recipients who were new teachers taught a subject they were not prepared to teach

About Gender Differences?

◦ In average annual salary?		Males	Females
		\$26,440	\$22,286
◦ In choice of baccalaureate degree major?		Males	Females
Majors with largest gender discrepancies:	Engineering	86.3%	13.7%
	Education	21.4%	78.6%
Majors with smallest gender discrepancies:	Biological sciences	51.9%	48.1%
	Social Science	49.1%	50.9%

Who Uses this Information and for What Purpose?

B&B data is used by--

Federal policy makers to restructure Financial Aid programs for post-secondary education

College administrators to better target loans and grants to both graduate and undergraduate students

Career and education counselors to guide individuals as they determine their career interests, apply for jobs, decide what type and level of degree to obtain, and which major field of study to pursue

Educational, business, and government institutions to develop programs and policies to more effectively link education and employment

Teachers Associations and Education Departments to determine who prepares for and goes into teaching, and how one is best prepared to teach

Organizations interested in developing programs and policies that would promote gender equity

What Additional Questions will B&B2 (and future rounds of B&B) be able to answer?

- *How does the level of educational debt incurred for the completion of undergraduate work affect decisions concerning graduate school, employment, and family formation?*
- *Graduates from which areas of study are in most demand in the labor market?*
- *Is there a long-term difference in starting salary between those who complete graduate school and those who enter directly into the work force after receiving their bachelor's degree?*
- *Do people who entered graduate school immediately after they completed a baccalaureate degree continue to progress and complete advanced degrees as originally expected?*
- *Do students who had no plans for graduate school when they completed the bachelor's degree later change their minds and attempt to enter?*
- *How many enter the work force full time in the field for which they are qualified? How long do they remain in that profession?*
- *Do those who enter public service positions, such as teaching, advance in their jobs at the same rate as those in other areas? Does this vary by time since degree completion?*

607

APPENDIX E

LIST OF VARIABLES IN B&B:93/97 ECB

Var_name	Prefix	Var_label
ACCEPT	Grad application	Number of schools accepted
ACCNTDT	Test date	Date took accounting exam
ACCNTPAS	Test score	Accounting exam score type
ACCNTSCR	Test score	Score of accounting exam
ACCNTST	Test state	State took accounting exam
ACCOFFER	Teach	Did R accept teaching job offers?
ACTDATE	UG admission test	Date took ACT
ACTQRTL	UG admission test	ACT test quartile
ACTRANGE	UG admission test	ACT score interval
ACTSCORE	UG admission test	ACT score from CATI
ACTSCORR	UG admission test	ACT score
ACTSRANG	UG admission test	ACT score range
ADGREDAT	Test date	Date took adv. GRE
ADJUST	Teach job info	School helped w/ environment
AFFIL	UG ed info	Affiliation
AFILTER	Job, primary 94	Primary 94 job same as April 94 job
AGEATBA	Student	Age when received BA
AGECOLL	Student	Age at college entry
AIDAPP	Financial aid	Applied for financial aid in 1992-93
AIDELIG	Student	Eligibility for school aid as noncitizen
AINDVERB	Job April 94	April job industry
AJBEN01	Job, April 94	Benefits, Apr job: Health insurance
AJBEN02	Job, April 94	Benefits, Apr job: Retirement benefits
AJBEN03	Job, April 94	Benefits, Apr job: Paid vacation
AJBEN04	Job, April 94	Benefits, Apr job: Paid sick leave
AJBEN05	Job, April 94	Benefits, Apr job: Tuition reimburse
AJBEN06	Job, April 94	Benefits, Apr job: Family-related
AJBOBT01	Job found	Found April job through referrals
AJBOBT02	Job found	Found April job through want ad
AJBOBT03	Job found	Found April job through placement off.
AJBOBT04	Job found	Found April job through interview
AJBOBT05	Job found	Found April job through headhunter
AJBOBT06	Job found	Found April job through advancement
AJBOBT07	Job found	Found April job through volunteer work
AJBOBT08	Job found	Found April job through resume
AJBOBT09	Job found	Found April job through recruiting fair
AJBOBT10	Job found	Found April job through trade journal
AJBOBT11	Job found	Found April job through unemploy. off.
AJBOBT12	Job found	Found April job through prof meeting
AJBOBT13	Job found	Found April job through R^s want ad
AJBOBT14	Job found	Found April job through other
AJOB CAMP	Job, April 94	April job on or off campus
AJOBDEGR	Job, April 94	April job required college degree?
AJOBEMPL	Job, April 94	Name of main employer in April 1994
AJOBENDT	Job, April 94	Date ended April job
AJOBHRR	Job, April 94	Ave. num hours/week-April job (max 60)
AJOBHRS	Job, April 94	Average no. of hours per week at Apr job
AJOBIND	Job, April 94	April job industry code
AJOBNUM	Job, April 94	Number of jobs in April 1994
AJOB OCC	Job, April 94	April occupation code
AJOB OFFR	Job, April 94	Other similar job offered - April job
AJOB OFSH	Job, April 94	Number other job offers - April job
AJOB POTN	Job, April 94	Degree of career potential at April job
AJOB REAS	Job, April 94	Main reason for taking April job
AJOB RELT	Job, April 94	Relationship between Apr job and degree

B32G	UG enrollment	Other school #2-control
B32K	UG enrollment	Other school #3-control
B32O	UG enrollment	Other school #4-control
B32S	UG enrollment	Other school #5-control
B4DEGREE	Teach	Teaching jobs before degree?
BA29	UG enrollment	Attend other school #2 prior to 7/1/92
BABDISP	Sample	Overall B&B disposition
BAMAJOR	UG ed major	Bachelor^s degree field recoded
BARDATE	Test date	Date took bar exam
BARPASS	Test score	Bar exam score type
BARSCORE	Test score	Score of bar exam
BARSTATE	Test state	State took bar exam
BATIME1	UG ed info	Number of months from HS grad to BA

Var_name	Prefix	Var_label
BATIME2	UG ed info	Num. of mos. between coll entry & BA
BB29	UG enrollment	Attend other school #3 prior to 7/1/92
BC29	UG enrollment	Attend other school #4 prior to 7/1/92
BD29	UG enrollment	Attend other school #5 prior to 7/1/92
BECMAUTH	Future	Become authority in given field
BENEFITE	Unemployment	Unemployment benefits received
BESTQUAL	Teach field	Field best qualified to teach
BETTRJOB	Grad why select	Better chance to get job at school
BNBINTDT	Sample	Date of B&B interview
BNBSTRAT	Sample	Adjusted institution stratum
BNBTYPE	Sample	Adjusted student type
BNBWT0	Weight	B&B base weight
BNBWT1	Weight	B&B93/94 nonresponse adjusted weight
BROTHER	Family members	Num. of brothers living w/R
B_AAPA	EFC	FAFNAR: Parent contrib/assets
B_AAST	EFC	FAFNAR: Student contrib/assets

LEISURE	Future	Have leisure time to enjoy own interest
LENGTH	Teach job info	Length of contract
LENGTHH	Job training emp	Hours spent in training last year
LENGTHTP	Job training emp	Hours spent in training per ?
LENGTHWK	Job training emp	Hours spent in training - range
LEVEL	Institution	Institution level
LEVEL01	Teach cert level	Certified to teach prekindergarten
LEVEL02	Teach cert level	Certified to teach kindergarten
LEVEL03	Teach cert level	Certified to teach lower elementary
LEVEL04	Teach cert level	Certified to teach upper elementary
LEVEL05	Teach cert level	Certified to teach junior high
LEVEL06	Teach cert level	Certified to teach high school
LEVEL3	Institution	Latest institution level
LEVEL6A	Institution	Institution type of degree offered
LEVSPOUS	Partner	Spouse^s level of courses taking current
LIVCLOSE	Future	Live close to parents and relatives
LIVEHOME	Grad why select	Select grad school-could live at home
LN01DUDT	Debt-ed loan status	Date first payment due on loan (1)
LN01PYDT	Debt-ed loan status	Date of last payment on loan (1)
LN02DUDT	Debt-ed loan status	Date first payment due on loan (2)
LN02PYDT	Debt-ed loan status	Date of last payment on loan (2)
LN03DUDT	Debt-ed loan status	Date first payment due on loan (3)
LN03PYDT	Debt-ed loan status	Date of last payment on loan (3)
LN04DUDT	Debt-ed loan status	Date first payment due on loan (4)
LN04PYDT	Debt-ed loan status	Date of last payment on loan (4)
LN05DUDT	Debt-ed loan status	Date first payment due on loan (5)
LN05PYDT	Debt-ed loan status	Date of last payment on loan (5)
LN06DUDT	Debt-ed loan status	Date first payment due on loan (6)
LN06PYDT	Debt-ed loan status	Date of last payment on loan (6)
LN07DUDT	Debt-ed loan status	Date first payment due on loan (7)
LN07PYDT	Debt-ed loan status	Date of last payment on loan (7)
LNFORGIV	Debt	Amount of undergraduate debt forgiven
LOCALIMP	Student	Imputed local residence
LOCATION	Grad why select	Select grad school-other location reasom
LSATDATE	Test date	Date took LSAT
LSATQRTL	Test score	LSAT test quartile
MAINCRT	Teach cert field	Field of main certification
MAINFLD	Teach field	Main field of teaching if multiple
MAJCODE1	UG ed major	Field-of-study code for BA, first major
MAJCODE2	UG ed major	Field-of-study code for BA, second major
MAJCODEA	UG ed major	Field-of-study for BA, 1st major (CIP)
MAJCODEB	UG ed major	Field-of-study for BA, 2nd major (CIP)
MAJORCOD	Future	Code- major field of study expected
MAJTEXT1	UG ed major	Field-of-study verbatim for first major
MAJTEXT2	UG ed major	Field-of-study verbatim for second major

Var_name	Prefix	Var_label
MALEGUAR	Family members	Male guardian lives w/R
MARCHANG	Student	Marital status change
MARICH01	Student	Marital status change (1)
MARICH02	Student	Marital status change (2)
MARICH03	Student	Marital status change (3)
MARSTAT	Student	Marital status as of April 1994
MATDATE	Test date	Date took MAT
MATHCERT	Teach cert field	Certified in math, computer sci.
MCATDATE	Test date	Date took MCAT
MCATQRTL	Test score	MCAT test quartile
MEDLEVL	Parent	Mother's education level
MINCODE1	UG ed major	Field-of-study code for BA, first minor
MINCODE2	UG ed major	Field-of-study code for BA, second minor
MINCODEA	UG ed major	Field-of-study for BA, 1st minor (CIP)
MINCODEB	UG ed major	Field-of-study for BA, 2nd minor (CIP)
MINTEXT1	UG ed major	Field-of-study verbatim for first minor
MINTEXT2	UG ed major	Field-of-study verbatim for second minor
MJRVERB	Future	Verbatim major field expected
MODE	Sample	Mode of administration
MON1	Enrollment	Monthly enrollment indicator 1
MON10	Enrollment	Monthly enrollment indicator 10
MON11	Enrollment	Monthly enrollment indicator 11
MON12	Enrollment	Monthly enrollment indicator 12
MON13	Enrollment	Monthly enrollment indicator 13
MON14	Enrollment	Monthly enrollment indicator 14
MON2	Enrollment	Monthly enrollment indicator 2
MON3	Enrollment	Monthly enrollment indicator 3
MON4	Enrollment	Monthly enrollment indicator 4
MON5	Enrollment	Monthly enrollment indicator 5
MON6	Enrollment	Monthly enrollment indicator 6
MON7	Enrollment	Monthly enrollment indicator 7
MON8	Enrollment	Monthly enrollment indicator 8
MON9	Enrollment	Monthly enrollment indicator 9

M_C9_6	Credits	Credits enrolled in during term 6
M_C9_7	Credits	Credits enrolled in during term 7
M_C9_8	Credits	Credits enrolled in during term 8
M_C9_9	Credits	Credits enrolled in during term 9
M_D1	Aid undergrad	Was student awarded financial aid 92/93
M_D2	Aid undergrad	Did student apply for any financial aid?
M_D3	Federal aid	Student received aid 92-93
M_D4	State aid	Awarded any state aid
M_D5	Institution aid	Aid awarded by institution during 92-93
M_D6	Veteran aid	Any VA/DOD aid 1992-93
M_D7	Other aid	Awarded other aid
M_STACT	UG admission test	Student composite ACT score
M_STACTY	UG admission test	Year took ACT
M_STDBD	Student	Student's date of birth - day
M_STDBM	Student	Student's date of birth - month
M_STDBY	Student	Student's date of birth - year
M_STGEN	Student	Gender
M_STOATS	UG admission test	Score of the other admission test
M_STOATY	UG admission test	Year took other admission test
M_STSATM	UG admission test	Student's SAT math score
M_STSATV	UG admission test	Student's SAT verbal score

Var_name	Prefix	Var_label
M_STSATY	UG admission test	Year took SAT
M_STTSTO	UG admission test	SAT scores available
M_USED	Aid undergrad	Financial aid form primarily used
NEVAPP01	Teach no apply	Never applied-had teaching job
NEVAPP02	Teach no apply	Never applied-not interested in teaching
NEVAPP03	Teach no apply	Never applied-needed more education
NEVAPP04	Teach no apply	Never applied-not ready to apply
NEVAPP05	Teach no apply	Never applied-teaching jobs hard to get
NEVAPP06	Teach no apply	Never applied-discouraged by teaching
NEVAPP07	Teach no apply	Never applied-more money in another job
NEVAPP08	Teach no apply	Never applied-more prestige in other job
NEVAPP09	Teach no apply	Never applied-wanted other occupation
NEVAPP10	Teach no apply	Never applied-of low pay
NEVAPP11	Teach no apply	Never applied-poor teaching conditions
NEVAPP12	Teach no apply	Never applied-haven't taken/passed test
NEVAPP13	Teach no apply	Never applied-other reason
NEWEND	Unemployment	Looking for work since graduating
NHHOLD	Family	Number of persons in household
NOACPT01	Teach no accept	No accept-accepted another job
NOACPT02	Teach no accept	No accept-inadequate pay
NOACPT03	Teach no accept	No accept-offer too far from home
NOACPT04	Teach no accept	No accept-offer in dangerous school
NOACPT05	Teach no accept	No accept-unqualified in area
NOACPT06	Teach no accept	No accept-other job interesting
NOACPT07	Teach no accept	No accept-other reason
NONREL	Family members	Num. of non-relatives living w/R
NOPREP01	Teach field	Unprepared in accounting
NOPREP02	Teach field	Unprepared in agriculture
NOPREP03	Teach field	Unprepared in business, marketing
NOPREP04	Teach field	Unprepared in health occupations
NOPREP05	Teach field	Unprepared in home economics
NOPREP06	Teach field	Unprepared in industrial arts
NOPREP07	Teach field	Unprepared in military science
NOPREP08	Teach field	Unprepared in technical
NOPREP09	Teach field	Unprepared in trade and industry
NOPREP10	Teach field	Unprepared in other vocational educ.
NOPREP11	Teach field	Unprepared in biology/life science
NOPREP12	Teach field	Unprepared in chemistry
NOPREP13	Teach field	Unprepared in geology/earth science
NOPREP14	Teach field	Unprepared in physics
NOPREP15	Teach field	Unprepared in computer science
NOPREP16	Teach field	Unprepared in mathematics
NOPREP17	Teach field	Unprepared in general/other science
NOPREP18	Teach field	Unprepared in bilingual education
NOPREP19	Teach field	Unprepared in French
NOPREP20	Teach field	Unprepared in German
NOPREP21	Teach field	Unprepared in Latin
NOPREP22	Teach field	Unprepared in Russian
NOPREP23	Teach field	Unprepared in Spanish
NOPREP24	Teach field	Unprepared in other foreign lang.
NOPREP25	Teach field	Unprepared in basic skills/rem. ed
NOPREP26	Teach field	Unprepared in educ for deaf
NOPREP27	Teach field	Unprepared in emotion disturbed
NOPREP28	Teach field	Unprepared in gifted educ
NOPREP29	Teach field	Unprepared in mentally retarded

Var_name	Prefix	Var_label
NOPREP30	Teach field	Unprepared in mildly handicapped
NOPREP31	Teach field	Unprepared in orthoped handicap
NOPREP32	Teach field	Unprepared in severely handicap
NOPREP33	Teach field	Unprepared in specific learning dis
NOPREP34	Teach field	Unprepared in speech impaired
NOPREP35	Teach field	Unprepared in visual handicap
NOPREP36	Teach field	Unprepared in general special ed.
NOPREP37	Teach field	Unprepared in other special ed.
NOPREP38	Teach field	Unprepared in English as second lang
NOPREP39	Teach field	Unprepared in English lang. arts
NOPREP40	Teach field	Unprepared in journalism
NOPREP41	Teach field	Unprepared in reading
NOPREP42	Teach field	Unprepared in Amer. Indian studies
NOPREP43	Teach field	Unprepared in philosophy
NOPREP44	Teach field	Unprepared in religion
NOPREP45	Teach field	Unprepared in social studies
NOPREP46	Teach field	Unprepared in art
NOPREP47	Teach field	Unprepared in dance
NOPREP48	Teach field	Unprepared in drama
NOPREP49	Teach field	Unprepared in music
NOPREP50	Teach field	Unprepared in physical education
NOPREP51	Teach field	Unprepared in general elementary
NOPREP52	Teach field	Unprepared in kindergarten
NOPREP53	Teach field	Unprepared in prekindergarten
NOPREP54	Teach field	Unprepared in all other educ.
NORMCRED	UG ed info	Normalized semester creds at sample schl
NORMEXAM	UG ed info	Normalized exam credits
NORMEXZ	UG ed info	Normalized exam credits at school
NORMGPA	UG ed grades	Normalized GPA on a 4.0 scale
NORMGRAD	Grading	Normalized nominal grade
NORMRATE	Status	Required # of normalized credits for BA
NOTAPP	Term dates	Terms standard or student-specific
NOTPREP	Teach field	Felt unprepared to teach a field?
NP93ID	Sample	NPSAS_93 identification # of student
NPPRIME	Institution	Separate summer aid awards
NQPOINTS	Grading	Normal. qual. pts for grade on 4.0 scale
NSCICERT	Teach cert field	Certified in natural sciences
NTEDATE	Test date	Date took NTE
NUMAPP	Grad application	Number grad schls applied
NUMCHIL	Family	Number of children
NUMCOURS	UG ed info	Num. of courses completed at sample schl
NUMEXAM	UG ed info	Number of exam courses completed at schl
NUMINST	UG ed info	Total num. postsecondary inst. attended
NUMLOANS	Debt-ed loan status	Number of undergraduate loans
NUMOTHSC	UG ed info	Number of other undergrad schools
NUMREC	UG ed info	Number of course records
NUMTRTRN	UG ed info	Number of transcripts entered
NURSDATE	Test date	Date took nursing exam
OBERGEG	UG ed info	OBE region code
OCCIN2YR	Future	Code- occupation expected in two years
OCCUVERB	Future	Text- occupation expected in two years
OCCVERB	Future	Text- long term occupation
ODEGSCH1	UG program	School ID of schl granting 1st other deg
ODEGSCH2	UG program	School ID of schl granting 2nd other deg
ODEGSCH3	UG program	School ID of schl granting 3rd other deg

Var_name	Prefix	Var_label
OEXPLONG	Future	Long term occupation change
OFFERS	Teach	How many teaching job offers
ORTHDIS	Disability	Orthopedic disability
OTHCERT	Teach cert field	Certified in other subject
OTHCERTR	Teach cert field	Certified in other field
OTHCON01	Job training other	Courses covered executive development
OTHCON02	Job training other	Courses covered supervision
OTHCON03	Job training other	Courses covered professional develop
OTHCON04	Job training other	Courses covered wp/other software
OTHCON05	Job training other	Courses covered technical skills
OTHCON06	Job training other	Courses covered job safety
OTHCON07	Job training other	Courses covered quality control
OTHCON08	Job training other	Courses sales or marketing
OTHCON09	Job training other	Courses covered other
OTHDEBP	Debt	Monthly payment on other debt
OTHDEBT	Debt	Any other debt
OTHDEGC1	UG program	Type of other degree awarded, first
OTHDEGC2	UG program	Type of other degree awarded, second
OTHDEGC3	UG program	Type of other degree awarded, third
OTHDGNUM	UG ed info	Number of other degrees earned
OTHDGR01	UG program	Type of other degree (1)
OTHDGR02	UG program	Type of other degree (2)
OTHDGR03	UG program	Type of other degree (3)
OTHDGR04	UG program	Type of other degree (4)
OTHDGR05	UG program	Type of other degree (5)
OTHDGR06	UG program	Type of other degree (6)
OTHDGREE	UG ed info	Any other degrees earned prior to BA?
OTHDISB	Disability	Other disability
OTHEXAM	Test	Took additional grad/prof exam
OTHEXAMS	Test	Specify other grad/prof exams taken
OTHOWE	Debt	Total noneducational debt
OTHRCERT	Teach cert	Non-state certification
OTHREASN	Grad why select	Other cost related reason
OTHREL	Family members	Num. of other relatives w/R
OTHREQ	Job training other	Courses required for employment?
OTHTRAIN	Job training other	Resp personally paid for other courses?
OTHTRH	Job training other	Hours spent in other courses last year
OTHTRREQ	Job training other	Courses required for advancement?
OTHTRTP	Job training other	Hours spent in other courses per?
OTHTRWK	Job training other	Hours spent in other courses range
OWNBUSIN	Future	Owning own business

TCHCRT03	Teach cert	Highest teacher certification type (3)
TCHCRT04	Teach cert	Highest teacher certification type (4)
TCHCRT05	Teach cert	Highest teacher certification type (5)
TCHENTRY	Teach	When first taught
TCHLNGTM	Teach	R expects to be teaching in long term
TCHSCHL	Teach job info	Code of school taught at
TCHTRAIN	Teach job info	Teacher induction training
TCHTRN1	Teach	Took student teaching
TCHTRN2	Teach	Took student teaching #2
TCRED01	Subject_level Credit	Total credits humanities
TCRED01Z	Subject_level Credit	Credits for humanities
TCRED02	Subject_level Credit	Total credits social science
TCRED02Z	Subject_level Credit	Avg. num. hours\week prim job (max 60)
TCRED03	Subject_level Credit	Total credits science/engineering
TCRED03Z	Subject_level Credit	Credits for science/engineering
TCRED04	Subject_level Credit	Total credits business
TCRED04Z	Subject_level Credit	Credits for business
TCRED05	Subject_level Credit	Total credits personal development
TCRED05Z	Subject_level Credit	Credits for personal development
TCRED06	Subject_level Credit	Total credits remedial english
TCRED06Z	Subject_level Credit	Credits for remedial english
TCRED07	Subject_level Credit	Total credits education
TCRED07Z	Subject_level Credit	Credits for education
TCRED08	Subject_level Credit	Total credits pre-collegiate math
TCRED08Z	Subject_level Credit	Credits for pre-collegiate math
TCRED09	Subject_level Credit	Total credits collegiate math
TCRED09Z	Subject_level Credit	Credits for college math
TCRED10	Subject_level Credit	Total credits calculus/advanced math
TCRED10Z	Subject_level Credit	Transferred, propor. credits elsewhere
TCRED11	Subject_level Credit	Total credits all math
TCRED11Z	Subject_level Credit	Credits for all math
TCRED12	Subject_level Credit	Total credits computer science
TCRED12Z	Subject_level Credit	Credits for computer science
TCRED13	Subject_level Credit	Total credits statistics
TCRED13Z	Subject_level Credit	Credits for statistics
TCRED14	Subject_level Credit	Total credits intro/inter foreign lang.
TCRED14Z	Subject_level Credit	Credits for intro/inter foreign language
TCRED15	Subject_level Credit	Total credits advanced foreign lang.
TCRED15Z	Subject_level Credit	Credits for advanced foreign language

Var_name	Prefix	Var_label
TCRED16	Subject_level Credit	Total credits all foreign language
TCRED16Z	Subject_level Credit	Credits for all foreign language
TEAASST	Aid 93-94 grad study	Got teaching assistantship 93-94
TEACH	Teach	Ever taught or considered teaching
TEACHTRN	Subject_level Credit	Has student teaching credit
TEACHUNV	Teach	Teaching exp before BA
TGPA01	Subject_level GPA	GPA in humanities
TGPA02	Subject_level GPA	GPA in social science
TGPA03	Subject_level GPA	GPA in science/engineering
TGPA04	Subject_level GPA	GPA in business
TGPA05	Subject_level GPA	GPA in personal development
TGPA06	Subject_level GPA	GPA in remedial english
TGPA07	Subject_level GPA	GPA in education
TGPA08	Subject_level GPA	GPA in pre-collegiate math
TGPA09	Subject_level GPA	GPA in collegiate math
TGPA10	Subject_level GPA	GPA in calculus and advanced math
TGPA11	Subject_level GPA	GPA in all math
TGPA12	Subject_level GPA	GPA in computer science
TGPA13	Subject_level GPA	GPA in statistics
TGPA14	Subject_level GPA	GPA in intro/inter. foreign language
TGPA15	Subject_level GPA	GPA in advanced foreign lang.
TGPA16	Subject_level GPA	GPA in all foreign language
TJOB	Teach	Teaching jobs since getting degree?
TOOKACT	UG admission test	Took ACT
TOOKSAT	UG admission test	Took SAT
TOTAID	AidTot	Total aid amount (MISSING EMPLOYER AID)
TOTALBAL	Debt	Spouse's loans still owed
TOTALGRE	Test score	Total GRE score
TOTCRED	UG ed info	Normalized total credits on transcript
TOTDEBT	Debt	Total undergraduate debt
TOTEMPTN	Job training emp	Hours spent in training - total
TOTINCM	Income	Respondent income, all source estimate
TOTINCOM	Income	Respondent income, all sources
TOTINCS	Income	Spouse income, all source estimate
TOTINCSP	Income	Spouse income, all sources
TOTLOANS	Debt	Spouse - amt borrowed for education
TOTMONPY	Debt	Total of all monthly undergraduate loans
TOTNUMDP	Family	Total dependents in 1993
TOTOTHRC	Cost grad	Total other post-BA costs
TOTOTHTR	Job training other	Hours spent in other courses - total
TOTTUITN	Cost grad	Total post-BA tuition costs
TRANDISP	Sample	B&B transcript disposition
TRANSFER	Attendance status	Transfer to sample school in 1992-93
TRMDATE	Institution	Date of term for this course
TRMNAME	Institution	Name of term for this course
TRMTYPE	Institution	Type of term
TRNBEGDT	UG ed info	Date of first course on any transcript
TRNCON01	Job training emp	Training covered executive development
TRNCON02	Job training emp	Training covered supervision
TRNCON03	Job training emp	Training covered professional develop
TRNCON04	Job training emp	Training covered wp/other software
TRNCON05	Job training emp	Training covered technical skills
TRNCON06	Job training emp	Training covered job safety
TRNCON07	Job training emp	Training covered quality control
TRNCON08	Job training emp	Training sales or marketing

Var_name	Prefix	Var_label
TRNCON09	Job training emp	Training covered other
TRNSSCHL	Institution	School where course record was recorded
TUITLESS	Grad why select	Tuition & other expenses were less
TUITRED	Aid 93-94 grad study	Got tuition reduction 93-94
TYPLON01	Debt-ed loan status	Type of loan (1)
TYPLON02	Debt-ed loan status	Type of loan (2)
TYPLON03	Debt-ed loan status	Type of loan (3)
TYPLON04	Debt-ed loan status	Type of loan (4)
TYPLON05	Debt-ed loan status	Type of loan (5)
TYPLON06	Debt-ed loan status	Type of loan (6)
TYPLON07	Debt-ed loan status	Type of loan (7)
U88A	Teach cert field	Eligible to teach-none certified
U88B	Teach cert field	Eligible to teach-general elementary
U88C	Teach cert field	Eligible to teach-fine or performing art
U88D	Teach cert field	Eligible to teach-basic skills,remedial
U88E	Teach cert field	Eligible to teach-bilingual education
U88F	Teach cert field	Eligible to teach-English 2nd lang.(ESL)
U88G	Teach cert field	Eligible to teach-biological,life scienc
U88H	Teach cert field	Eligible to teach-business
U88I	Teach cert field	Eligible to teach-computer science
U88J	Teach cert field	Eligible to teach-English language arts
U88K	Teach cert field	Eligible to teach-foreign languages
U88L	Teach cert field	Eligible to teach-gifted and talented
U88M	Teach cert field	Eligible to teach-health
U88N	Teach cert field	Eligible to teach-home economics
U88O	Teach cert field	Eligible to teach-industrial arts
U88P	Teach cert field	Eligible to teach-mathematics
U88Q	Teach cert field	Eligible to teach-music
U88R	Teach cert field	Eligible to teach-general sciences
U88S	Teach cert field	Eligible to teach-chemistry
U88T	Teach cert field	Eligible to teach-geology/earth sciences
U88U	Teach cert field	Eligible to teach-physics
U88V	Teach cert field	Eligible to teach-other physical science
U88W	Teach cert field	Eligible to teach-physical education
U88X	Teach cert field	Eligible to teach-pre-elementary educat.
U88Y	Teach cert field	Eligible to teach-reading
U88Z	Teach cert field	Eligible to teach-religion/philosophy
UGMAJOR	UG ed major	Respondent undergrad major verbatim
UGMJCODE	UG ed major	Undergraduate major code
UNDEREMP	Job, April 94	Underemployment indicated, April 1994
UNDGROWE	Debt	Amount of undergraduate debt still owed
UNEMPL01	Unemployment	Unemployment benefits before job 1
UNEMPL02	Unemployment	Unemployment benefits before job 2
UNEMPL03	Unemp	Unemployment benefits before job 3
UNEMPL04	Unemployment	Unemployment benefits before job 4
UNEMPL05	Unemployment	Unemployment benefits before job 5
UNEMPL06	Unemployment	Unemployment benefits before job 6
UNEMPL07	Unemployment	Unemployment benefits before job 7
UNEMPL08	Unemployment	Unemployment benefits before job 8
UNEMPLSP	Unemployment	Number of unemployment spells
UNEMPMOS	Unemployment	Longest period of continuous unempl.
UNEMPPRD	Unemployment	Total number of month unemployed
UNEMPRES	Unemployment	Main reason for not working since grad
UNEMRS01	Unemployment	Main reason for not working before job 1
UNEMRS02	Unemployment	Main reason for not working before job 2

Var_name	Prefix	Var_label
UNEMRS03	Unemployment	Main reason for not working before job 3
UNEMRS04	Unemp	Main reason for not working before job 4
UNEMRS05	Unemployment	Main reason for not working before job 5
UNEMRS06	Unemployment	Main reason for not working before job 6
UNEMRS07	Unemployment	Main reason for not working before job 7
V88A	Teach cert field	Eligible to teach-social sciences/studys
V88B	Teach cert field	Eligible to teach-mentally retarded
V88C	Teach cert field	Eligible to teach-hearing impaired, deaf
V88D	Teach cert field	Eligible to teach-speech impaired
V88E	Teach cert field	Eligible to teach-emotionally disturbed
V88F	Teach cert field	Eligible to teach-specific learn. disbl
V88G	Teach cert field	Eligible to teach-general certificate
V88H	Teach cert field	Eligible to teach-other special ed
V88I	Teach cert field	Eligible to teach-vocational education
V88J	Teach cert field	Eligible to teach-some other field
VISIOND	Disability	Vision disability
VOCCERT	Teach cert field	Certified in voc. ed.
VOLWORK	Community service	Resp. performed any volunteer work?
VOTEPRES	Community vote	Voted in 1992 presidential election
VTDATE	Test date	Date took VCAT
WANTAPP	Grad application	Considered attending grad school
WELLOFF	Future	Being very well off financially
WHERELIV	Student	Where was respondent living April 1
WHNAID01	Aid no apply	No aid apply-could afford
WHNAID02	Aid no apply	No aid apply-no debt desired
WHNAID03	Aid no apply	No aid apply-income too high
WHNAID04	Aid no apply	No aid apply-grades/scores too low
WHNAID05	Aid no apply	No aid apply-too hard
WHNAID06	Aid no apply	No aid apply-financial disclosure
WHNAID07	Aid no apply	No aid apply-part time
WHNAID08	Aid no apply	No aid apply-no aid available
WHNAID09	Aid no apply	No aid apply-missed deadline
WHNAID10	Aid no apply	No aid apply-other
WHOLIVE	Family	Does anyone live with respondent?
WHYFORGV	Debt	Why has undergraduate debt been forgiven
WORKLK01	Unemployment	Looking for work between grad and job 1
WORKLK02	Unemployment	Looking for work between job 1 and 2
WORKLK03	Unemployment	Looking for work between job 2 and 3
WORKLK04	Unemp	Looking for work between job 3 and 4
WORKLK05	Unemployment	Looking for work between job 4 and 5
WORKLK06	Unemployment	Looking for work between job 5 and 6
WORKLK07	Unemployment	Looking for work between job 6 and 7
WORKLK08	Unemployment	Looking for work between job 7 and 8
WORKTIME	Future	Plan to work FT/PT in next 12 months
WRKFUT1	Future work	1st Factor for future work
WRKFUT2	Future work	2nd Factor for future work
WRKFUT3	Future work	3rd Factor for future work
WRKSTDY	Aid 93-94 grad study	Got work-study 93-94
XFERALL	Transfer	Total creds accepted from transfer schl
XFERCR10	Transfer	Credits accepted from 10th transfer schl
XFERCRE1	Transfer	Credits accepted from 1st transfer schl
XFERCRE2	Transfer	Credits accepted from 2nd transfer schl
XFERCRE3	Transfer	Credits accepted from 3rd transfer schl
XFERCRE4	Transfer	Credits accepted from 4th transfer schl

ACT	Test	ACT composite score
ACTVDUTY	Student	Active duty in U.S. military
ADMREQ1	IPEDS	Require HS diploma/equivalent (IPEDS)
ADMREQ10	IPEDS	Require TOEFL or equivalent (IPEDS)
ADMREQ2	IPEDS	Require HS class standing (IPEDS)
ADMREQ3	IPEDS	Require Test scores (IPEDS)
ADMREQ4	IPEDS	Require SAT (IPEDS)
ADMREQ5	IPEDS	Require ACT (IPEDS)
ADMREQ6	IPEDS	Require other test (IPEDS)
ADMREQ7	IPEDS	Require residence (IPEDS)
ADMREQ8	IPEDS	Require ability to benefit (IPEDS)
ADMREQ9	IPEDS	Require age (IPEDS)
ADVAN	Student, education	Student has advanced (postbacc) degree
ADVAN2	Student, education	Other degree-advanced (postbacc) degree
AFFILTN	Institution	Affiliation
AGE	Student	Age as of 12/31/92
AIDCST2	Ratio	Ratio of aid to stdnt-reported cost-adj.
AIDCST4	Ratio	Ratio of total aid to student budget-adj
AIDCST4R	Ratio	Ratio tot aid to studnt budgt-comp NP:96
AIDCTRL	Institution	Control (with multiple)
AIDLEVL	Institution	Institution level (with multiple)
AIDPACK	Funds, aid package	Package by type of aid (grt/Ins/wrk)
AIDSCR1	Funds, aid package	Package with Title IV aid by source
AIDSCR2	Funds, aid package	Package by source of aid (fed./st./inst)
AIDSECT	Institution	Institution type (with multiple)
AIDSTAT	Student	Aid receipt by dependency status
ANYFIN	Financial aid	Received any financial aid in 1992-93
ANYHILVL	Student, education	Highest level of education ever expect
ANYNEED	Financial aid	Received any need-based aid in 1992-93
ANYREM	Remedial	Any remedial courses taken?
APPPFORM	Financial aid	Application form used (primary)
APPRTSHP	Program	Apprenticeship in 1992-93
ASSOC	Student, education	Student has an associate^s degree
ASSOC2	Student, education	Other degree - Associate^s degree
ASTAMT	AidInst	Total amount received for assistantships
ATTEND	Attendance status	Attendance, intensity-fall 1992

Var_name	Prefix	Var_label
ATTEND2	Attendance status	Attendance, intensity-1st term 1992-93
ATTENST	Attendance status	Percentage of months enrolled full-time
ATTNST8	Attendance status	Attendance pattern (comp to NPSAS:96)
ATTNSTAT	Attendance status	Attendance pattern
B2TO3	Parent, education	Both parents have 2-3 years of PSE
BABR	B&B, eligible	Eligible for B and B cohort in NPSAS:93
BACC	Student, education	Student has a Bachelor's degree
BACC2	Student, education	Other degree - Bachelor's degree
BASSOC	Parent, education	Both parents have an Associate's
BAYR	Student, education	Year student received BA degree
BBA	Parent, education	Both parents have a Bachelor's
BBAPLUS	Parent, education	Both parents have a BA or higher
BEGINYR	Student, education	Year student began graduate study
BFED	Borrowed	Borrowed undergraduate federal loans
BGED	Parent, education	Both parents have a GED
BHSG	Parent, education	Both parents have a high school diploma
BLTHS	Parent, education	Both parents have less than HS education
BMAPLUS	Parent, education	Both parents have a Master's degree +
BONDPROG	Parent savings	US Education Savings Bonds
BOOKS	Cost1, reported	Cost of books and supplies
BOR1	Borrowed	Borrowed for undergraduate education
BOR2	Borrowed	Borrowed for graduate of first profesnl
BOR3	Borrowed	Borrowed for undergraduate or graduate
BORAMT1	Borrowed	Amt student borrowed for ugrad ecuc
BORAMT2	Borrowed	Amount student borrowed-graduate
BORAMT3	Borrowed	Total amount borrowed for education
BORFED	Borrowed	Amount of federal loans borrowed by stud
BORFEDR	Borrowed	Cumulative federal loans borrowed 92-93
BORROW	Fund source, parent	Borrow money for educational expenses
BSMPSE	Parent, education	Both parents have some PSE, lt 2 years
BUDGETAJ	Cost4, adjusted budget	Student budget total (attendance adj)
BUDGETAR	Cost4, adjusted budget	Student budget (comp to NPSAS:96)
BUDGETFT	Cost3, FTFY budget	Total costs-FT/FY
BUSFARM	Family assets	Family business or farm owned-dep. based
BUSFMVAL	Family assets	Farm or business net value-dep. based
CAGI	Family income	AGI combined (continuous)
CAGICAT	Family income	AGI combined (categorical)
CAI	Program	Coop ed, internship, apprentice 1992-93
CAMPAMT	AidFed	Campus-based (Perkins, SEOG, CWS)
CAREPARE	Dependents	Does student support parent(s)?
CARNEGIE	Institution	Carnegie code
CENRACE	Student	Race of student (Census categories)
CHKDGT	Sample	Check digit
CINCOME	Family income	Total income (parents and ind. students)
CMPC	EFC	CM Parental contribution for depndnt stu
CMSC	EFC	CM dependent student contribution
CNSLD89	NSLDS	Consolidated loans-1989-90 and earlier
CNSLD90	NSLDS	Consolidated loans-1990-91
CNSLD91	NSLDS	Consolidated loans-1991-92
CNSLD92	NSLDS	Consolidated loans-1992-93
CNSLD93	NSLDS	Consolidated loans-1993-94
CNSLD94	NSLDS	Consolidated loans-1994-95
CNSLD95	NSLDS	Consolidated loans-1995-96
CNSLDCUM	NSLDS	Consolidated loans-cumulative thru 1996
COMMLOAN	Borrowed, loan type	Take out a commercial loan

Var_name	Prefix	Var_label
COMPLPGM	Student, education	Degree program completed in 1992-93
COMPTYPE	Employment	Type of organization that student worked
COMSERHR	Community service	Student's hours/week doing community svc
COMSERV1	Community service	Student ever done any community service
COOPPROG	Program	Cooperative education in 1992-93
COUNTRY	Student	Student's native country
CREDHRS	Attendance status	Number of credit hours in the 1992-93
CREDHRS2	Enrollment	Number of hours enrolled 1992-93 (rev.)
CREDLOAN	Borrowed, loan type	Obtained a line of credit
CURINC	Fund source, parent	Use income from regular job for educ
CWSPERND	AidFedwork	Federal work-study amount earned
DADEDUC	Parent, education	Father's highest education (recoded)
DADOC	Parents	Father's occupation
DATASRC	Sources	Data collection sources
DEAFNESS	Disability	Hearing impaired or deaf
DELAYENR	Student	Delayed enrollment into PSE
DEP0_5	Dependents	Number of dependents 5 or younger
DEP13	Dependents	Number of dependents, 13 or older
DEP6_12	Dependents	Number of dependents, 6 to 12
DEPEND	Student	Dependency status
DEPEND2	Student	Dependency status for financial aid
DEPEND4	Student	Dependency status for financial aid-incl
DEPINC	Family income	Income of dependent student's parents
DISABLT	Disability	Student have any disabilities
DISLOCPL	Family	Dislocated worker or displaced homemaker
E2TO3	Parent, education	Either parent has 2-3 years of PSE
EASSOC	Parent, education	Either parent has an Associate's
EBA	Parent, education	Either parent has a Bachelor's
EBA1	Parent, education	Parents Bachelor's degree status
EBAPLUS	Parent, education	Either parent has a BA or higher
EDCOST	Cost1, reported	Other direct cost of attendance
EDSAVING	Fund source, parent	Use money fm. savings, money markets
EDTRUST	Parent savings	Used money from trust fund
EFC1	EFC	CM expected family contribution as recrd
EFC2	EFC	CM expected family contrib. calculated
EFC3	EFC	CM expected family contrib. estimated
EFC4	EFC	Composite expected family contribution
EFCAID1	Need	Amount of federal aid subj to EFC limits
EFCAID2	Need	Amount of total aid subject to EFC limit
EFCNEED	Financial aid	Received federal aid subject to EFC limit
EFCPCT1	Need	Ratio, EFC to total student budget FTFY
EFCPCT2	Need	Ratio, EFC to total student budget-adj
EGED	Parent, education	Either parent has a GED
EHSG	Parent, education	Either parent has a high school diploma
ELTHS	Parent, education	Either parent has less than HS education
EM2ENRL	Employment	Ratio employed during month enrolled
EMAPLUS	Parent, education	Either parent has a Master's degree or +
EMPLAMTR	AidTot	Total employer aid amount
EMPLYAMT	AidTot	Total employer aid amount (MISSING SOME)
EMWKHR2	Employment	Average hours worked/week 07/92-06/93
EMWKHR3	Employment	Average hours worked/week when enrolled
EMWKHR4	Employment	Average hours work/week while enrolled
ENDCAT	Institution	Endowment to Full-time enrlnmt ratio amt
ENLEN	Attendance status	Number of months enrolled in 1992-93
ENRCOMBO	Student	Nontraditional enrollment combinations

Var_name	Prefix	Var_label
ENREMP	Enrollment/employment	Pct. months employed and enrolled, 92/3
ENRL9192	Student, education	Enrolled in postsec. inst. in 91-92 yr.
ENRLCATB	Institution	Control and size (total enrollment)
ENROLL92	Institution	Enrollment in 1992
ESMPSE	Parent, education	Either parent has some PSE, lt 2 years
EVERVOTE	Vote	Ever voted in any election
FAMNUM	Family	Household size (dependency based)
FAMPAY	Reason no apply	Family/student could pay
FATHEDUC	Parent, education	Father's highest level of education
FCONREL	Fund source, student	Amount others paid for 1992-93 costs
FEDFIN	Financial aid	Received federal financial aid in 92-93
FEDPACK	Funds, aid package	Package with federal aid (Pell,Stafford)
FEDPCT	Ratio	Ratio of federal aid to total aid
FEDTAXES	Family income	Federal taxes paid (dependency based)
FELLAMT	AidInst	Amount received for fellowships
FILTER1	Pedar Filters	Work, borrow, pt attendnce-global filter
FILTER2	PEDAR filters	Borrowing status for pub, 2-year inst.
FILTER3	PEDAR FILTERS	Borrowing status for pub, 4-year inst.
FILTER4	Pedar Filters	Borrowings tatus for priv, nfp, 4-year
FILTER5	PEDAR filters	Borrowing status for priv, fp inst.
FILTER6	PEDAR filters	Institution filter
FILTER7	PEDAR filters	Employment filter
FIPS2	Institution	Institution state
FOODSTMP	Family income	Student or parents receive food stamps
FTNEED1	Need	Student budget FTFY minus tot EFC
FTNEED2	Need	Student budget (FT) minus aid subj-EFC
FTNEED3	Need	Student budget (FT) minus EFC
FTNEED4	Need	Student budget (FT) minus EFC and aid
FTNEED5	Need	Student budget FT - EFC + total aid
FUTRCARE	Community service	Current community service
FUTRPLAN	Student, education	What does student plan to be doing next
GENDER	Student	Gender of student
GPA	Student, education	Grade point average (cumulative)
GRTCSTR	Ratio	Ratio grants to stdnt budgt-comp NP:96
GRTLOAN	Ratio	Ratio of grants to total loans
GRTPCT	Ratio	Ratio grants to total aid (missing some)
GRTRATIO	Ratio	Ratio of grants to grants and loans
HARDAPP	Reason no apply	Too hard to apply for aid
HEALTOTH	Disability	Other health related disability
HIINCOME	Reason no apply	Family income too high
HOMELANG	Student	Language most often spoken in the home
HOMELOAN	Borrowed, loan type	Obtained a home equity loan
HOMEQ	Family assets	Home equity (based on dependency status)
HOMEQ2	Borrow	Take out home equity or refinance
HRSPERWK	Attendance status	Clock hours required per week
HSDEG	Student, education	High school degree/equivalent
HSGRADYY	Student, education	High school graduation year
HSTYPE	Student, education	Type of high school graduated from
INATHAMT	AidInst	Athletic scholarship amount
INCOME	Family income	Income and dependency level-categorical
INDEPINC	Family income	Independent student's income
INGRTAMT	AidInst	Institutional grant total
INJURIS	Cost, tuition	Jurisdiction for tuition
INKIND	Parental support	Value of income-in-kind contributions
INLNAMT	AidInst	Institutional loan total

Var_name	Prefix	Var_label
INOTHAMT	AidInst	Inst. other aid includes assistantships
INSTAMT	AidInst	Institutional total aid amount
INSTCWS	AidInst	Work-study amount
INSTNEED	AidInst	Inst. need-based grants and scholarship
INSTNOND	AidInst	Institutional non-need-based grants
INSTPACK	Funds, aid package	Type of institutional and fed aid pkg
INSTPCT	Ratio	Ratio of institution aid to total aid
INSTREQ	IPEDS	Did the inst require either ACT or SAT
INTRNSHP	Program	Internship/practicum in 1992-93
JBMAJREL	Employment	How close job related to major
JOBLOCAT	Employment	Job on or off campus
JOBLOOK	Employment	Availability for student employment stat
JOBMAJOR	Employment	Job related to current major
LEARNDIS	Disability	Learning disability
LENGTHCL	Attendance status	Length of program (clock-hour students)
LIFELOAN	Borrowed, loan type	Obtained loan against life insurance
LIVEXPAJ	Cost2, reported	Attendance-adjusted household expenses
LIVEXPUN	Cost1, reported	Household expenses while enrolled-unadj.
LNFLTR1	Borrowed	Filter for Stafford loans
LOANCSTR	Ratio	Ratio loans to stdnt budgt-comp NP:96
LOANFLT	Borrowed	Respondent in default on a federal stdnt
LOANPCT	Ratio	Ratio of loans to total aid
LOCRES2	Student	Local residence (housing)
LOWGRADE	Reason no apply	Grades/test scores too low
MAJORS	Student, education	Major field of study
MAJORS3	Student, education	Major field of study (12 categories)
MAJORS4	Student, education	Graduate major
MAYR	Student, education	Year student received Master^s degree
MEMP	Employment	Number of months employed 1992-93
MENEMP	Enrollment/employment	Number of months employe/enrolled 92/3
MENR	Attendance Status	Number of months enrolled 1992-93
MERITAD	AidTot	Total merit-only grants and scholarship
MFT	Attendance status	Number of months attended full-time
MHT	Attendance status	Number of months attended half-time
MISDLINE	Reason no apply	Missed application deadline
MOMEDUC	Parent, education	Mother^s highest education (recoded)
MOMGTDAD	Parent, education	Mother had more education than father
MOMOC	Parents	Mother^s occupation
MOREHRS	Fund source, parent	Work more hrs/week at job for ed. exps.
MOREJOBS	Fund source, parent	Take extra job to help w/ education exp
MOSTEMPL	Employment	Number of months longest job held for
MOTHEDUC	Parent, education	Highest level mother completed
MPT	Attendance status	Number of months attended part-time
NEEDAID	AidTot	Total need-based aid

PLUSAMT	AidFedother	PLUS loan amount
PMARITAL	Parents	Parents marital status
PMONEY	Family assets	Parent cash and savings
PNOAPP1	Reason no apply	Reason not apply for aid-(P) 1st resp
PNOAPP2	Reason no apply	Reason didn't apply for aid (P)-2nd resp
POSTED	Family	Number in postsecondary education
PPARLOAN	Parental support	Amt of parent loans to student (parent)
PPARSPRT	Parental support	Direct contribution from parent
PPOSTED	Family	Number in college parent's family
PREPAY	Parent savings	Used tuition prepayment plan
PRESVOTE	Vote	Vote in the 1992 presidential election
PRIORAID	Financial aid	Received any financial aid in 1991-92
PRIVFP	Institution	Private for-profit (NPSAS institution)
PRKCUM89	NSLDS	Perkins loans-cumulative through 1990
PRKCUM92	NSLDS	Perkins loans-cumulative through 1993
PRKCUM95	NSLDS	Perkins loans-cumulative through 1996
PSTSECYR	Student, education	Year first enrolled in PSE
RACE	Student	Race/ethnicity of student
RACEDINC	Student	Race-ethnicity, dependency stat & income
RACESEX	Student	Race/ethnicity & gender
RATECRIM	Institution choice	Consider campus crime rate in decision
RATED	Institution choice	Number of rating criteria considered
RATEGRAD	Institution choice	Consider graduation rate in decision
RATEPLAC	Institution choice	Consider job placement rate in deciding
RDEPENDS	Family	Number of dependents (student only)
REALESTA	Fund source, parent	Take out a secnd mortge/refin real est
REGVOTE	Vote	Registered to vote in the US
REMED1	Remedial	Taken any remedial courses during PSE
REMED2	Remedial	Took remedial reading, writing, or math
REMMATH	Remedial	Remedial math
REMREAD	Remedial	Remedial reading
REMSTSK	Remedial	Remedial study skills
REMWRITE	Remedial	Remedial writing
RESAMT	AidInst	Amount received as research asst.
RETFUNDS	Fund source, parent	Use retirement funds for ed.expenses
RETRLOAN	Borrowed, loan type	Take out a loan against retirement fund
RISKINDX	Student	Sum of seven risk factor indices
RISKNDX2	Student	Sum of 7 risk factors, comp to NP:87/90
RMBD	Cost1, reported	Room and board expenses
RPAR	Parents	Referent parent
R_WKINC2	Family income	Student earnings, total academic year 92
SAGICAT	Family income	Independent student AGI (categorical)
SAMEREGN	Student, education	Student attend institution in own region
SAMESTAT	Student, education	Student attend institution in own state
SAMHILVL	Student, education	Highest level of ed to complete
SATM	Test	SAT score-math score
SATTOTAL	Test	SAT score-composite score
SATV	Test	SAT score-verbal score
SAVBONDS	Fund source, student	Savings Bonds (US)
SAVESCHL	Fund source, student	Amount from own savings

Var_name	Prefix	Var_label
SBNONTAR	Cost4, adjusted budget	Total non-tuition costs (comp to NP:96)
SBNONTUN	Cost3, FTFY budget	Total non-tuition costs FTFY
SBNONTUR	Cost3, FTFY budget	Total non-tuition costs (comp to NP:96)
SBNTADJ1	Cost4, adjusted budget	Total budget non-tuition costs (adj.)
SCHLLOAN	Borrowed, loan type	Take out a school-sponsored parent loan
SCUMGR89	NSLDS	Cum Staff/SLS in grad lvl yrs to 89-90
SCUMGR92	NSLDS	Cum Staff/SLS in grad lvl yrs to 92-93

B2SNM02	Teach job info	Name of school at teaching job 2
B2SNM03	Teach job info	Name of school at teaching job 3
B2SNM04	Teach job info	Name of school at teaching job 4
B2SNM05	Teach job info	Name of school at teaching job 5
B2SPCHD	Disability	Speech disability
B2SPOUSE	Family	Spouse/partner lives w/R
B2SST01	Teach job info	State of school for teaching job 1
B2SST02	Teach job info	State of school for teaching job 2
B2SST03	Teach job info	State of school for teaching job 3
B2SST04	Teach job info	State of school for teaching job 4
B2SST05	Teach job info	State of school for teaching job 5
B2STATE	Sample	State where R located in BB93/97
B2STLIE	Test	State/professional licensing exams taken
B2SUBTCH	Teach jobs sub	Accepted sub job to get regular job
B2SUBTER	Teach jobs sub	Held long-term sub position
B2SUBYRS	Teach jobs sub	Number of years substitute teacher
B2SUP01	Teach jobs support	Support tch actv-professional dev. prog
B2SUP02	Teach jobs support	Support tch actv-develop curric material
B2SUP03	Teach jobs support	Support tch actv-provide techncl assist
B2SUP04	Teach jobs support	Support tch actv-other activities
B2SUPLOC	Teach jobs support	Place support teacher worked
B2SUPPYR	Teach jobs support	Number of years support teacher
B2TCH01	Teach	Taught last intv-el/sec schl teacher
B2TCH02	Teach	Taught last intv-substitute teacher
B2TCH03	Teach	Taught last intv-teacher's aide
B2TCH04	Teach	Taught last intv-itinerant teacher
B2TCH05	Teach	Taught last intv-support teacher
B2TCH06	Teach	Not taught since last interview
B2TCH3YR	Teach	R expects to be teaching in 3 years
B2TCHCNS	Teach	Ever considered teaching
B2TCHCR	Teach cert	Ever taken courses toward certificate
B2TCHCRT	Teach	R certified in main field teaching
B2TCHEV	Teach	Ever worked as a teacher
B2TCHG00	Teach grade	Grades taught-kindergarten
B2TCHG01	Teach grade	Grades taught-first
B2TCHG02	Teach grade	Grades taught-second
B2TCHG03	Teach grade	Grades taught-third
B2TCHG04	Teach grade	Grades taught-fourth
B2TCHG05	Teach grade	Grades taught-fifth
B2TCHG06	Teach grade	Grades taught-sixth

B2TCHG08	Teach grade	Grades taught-eighth
B2TCHG09	Teach grade	Grades taught-ninth
B2TCHG10	Teach grade	Grades taught-tenth
B2TCHG11	Teach grade	Grades taught-eleventh
B2TCHG12	Teach grade	Grades taught-twelfth
B2TCHLNG	Teach	R expects to be teaching in long term
B2TCHTRN	Teach	Took student teaching
B2TE01DT	Test date	Date took state teaching exam 1
B2TE01ST	Test state	State took state teaching exam 1
B2TE02DT	Test date	Date took state teaching exam 2
B2TE02ST	Test state	State took state teaching exam 2
B2TEAAST	Aid grad	Got teaching assistantship for grad stdy
B2TEAMTC	Teach class	Taught classes with another teacher
B2TFLD01	Teach field	Taught general elementary

Var_name	Prefix	Var_label
B2TFLD02	Teach field	Taught accounting
B2TFLD03	Teach field	Taught agriculture
B2TFLD04	Teach field	Taught business, marketing
B2TFLD05	Teach field	Taught health occupations
B2TFLD06	Teach field	Taught home economics
B2TFLD07	Teach field	Taught industrial arts
B2TFLD08	Teach field	Taught military science
B2TFLD09	Teach field	Taught technical skills
B2TFLD10	Teach field	Taught trade and industry
B2TFLD11	Teach field	Taught other vocational educ.
B2TFLD12	Teach field	Taught biology/life science
B2TFLD13	Teach field	Taught chemistry
B2TFLD14	Teach field	Taught geology/earth science/space sci
B2TFLD15	Teach field	Taught physics
B2TFLD16	Teach field	Taught computer science
B2TFLD17	Teach field	Taught physical science
B2TFLD18	Teach field	Taught mathematics
B2TFLD19	Teach field	Taught general/other science
B2TFLD21	Teach field	Taught French
B2TFLD22	Teach field	Taught German
B2TFLD23	Teach field	Taught Latin
B2TFLD24	Teach field	Taught Russian
B2TFLD25	Teach field	Taught Spanish
B2TFLD26	Teach field	Taught other foreign lang.
B2TFLD27	Teach field	Taught basic skills/remedial ed
B2TFLD28	Teach field	Taught educ for deaf
B2TFLD29	Teach field	Taught educ for emotion disturbed
B2TFLD31	Teach field	Taught educ for mentally retarded
B2TFLD32	Teach field	Taught educ for mildly handicapped
B2TFLD33	Teach field	Taught educ for orthoped handicap
B2TFLD34	Teach field	Taught educ for severely handicap
B2TFLD35	Teach field	Taught educ-specific learning dis
B2TFLD36	Teach field	Taught educ for speech impaired
B2TFLD37	Teach field	Taught educ. for visual handicap
B2TFLD38	Teach field	Taught general special ed.
B2TFLD39	Teach field	Taught other special ed.
B2TFLD40	Teach field	Taught English as second language
B2TFLD41	Teach field	Taught English language arts
B2TFLD42	Teach field	Taught journalism
B2TFLD43	Teach field	Taught reading
B2TFLD44	Teach field	Taught American Indian studies
B2TFLD45	Teach field	Taught philosophy
B2TFLD46	Teach field	Taught religion
B2TFLD47	Teach field	Taught social studies
B2TFLD48	Teach field	Taught art
B2TFLD49	Teach field	Taught dance
B2TFLD50	Teach field	Taught drama
B2TFLD51	Teach field	Taught music
B2TFLD52	Teach field	Taught physical education/health
B2TFLD53	Teach field	Taught all others
B2TINCSP	Income	Spouse^s income from all sources
B2TINRSP	Income	Estimated spouse income from all sources
B2TJACCP	Teach	Accepted teaching job offers
B2TJAPPL	Teach	Num. of teaching applications
B2TJOFFR	Teach	Number of teaching job offers received

Var_name	Prefix	Var_label
B2TOTALD	Aid grad	Total aid received for grad school
B2TOTALJ	Job	Total number of jobs since BB1
B2TOTBAL	Debt	Spouse's loans still owed
B2TOTDEP	Family	Total dependents in 1997
B2TOTINC	Income	Respondent income from all sources
B2TOTINR	Income	Estimated income from all sources
B2TOTLIV	Family	Total number in R's household
B2TOTLNS	Debt	Amnt spouse borrowed for education
B2TOTSC	Enrollment	Total schools attended after bachelors
B2TOTUDB	Debt	Total undergrad debt from BB1
B2TRCK01	Teach class	Class track-academic or college prep
B2TRCK02	Teach class	Class track-advanced placement
B2TRCK03	Teach class	Class track-honors
B2TRCK04	Teach class	Class track-bilingual or ESL
B2TRCK05	Teach class	Class track-gifted
B2TRCK06	Teach class	Class track-remedial
B2TRCK07	Teach class	Class track-none of the above types
B2TRCN01	Job training emp	Training covered executive development
B2TRCN02	Job training emp	Training covered supervision
B2TRCN03	Job training emp.	Training covered professional develop
B2TRCN04	Job training emp	Training covered soft/hardware, equip.
B2TRCN05	Job training emp	Training covered job safety
B2TRCN06	Job training emp	Training covered quality control
B2TRCN07	Job training emp	Training sales or marketing
B2TRCN08	Job training emp	Training covered cultural sensitivity
B2TRCN09	Job training emp	Training covered other
B2TSAT01	Teach	Satisfaction with student learning
B2TSAT02	Teach	Satisfaction with school environment
B2TSAT03	Teach	Satisfaction with discipline
B2TSAT04	Teach	Satisfaction with class size
B2TSAT05	Teach	Satisfaction with parent support
B2TSAT06	Teach	Satisfaction with societal views
B2TUIRED	Aid grad	Got tuition reduction for grad stdy
B2UNEM01	Unemp	Unemployment benefits before job 1
B2UNEM02	Unemp	Unemployment benefits before job 2
B2UNEM03	Unemp	Unemployment benefits before job 3
B2UNEM04	Unemp	Unemployment benefits before job 4
B2UNEM05	Unemp	Unemployment benefits before job 5
B2UNEM06	Unemp	Unemployment benefits before job 6
B2UNEM07	Unemp	Unemployment benefits before job 7
B2UNEM08	Unemp	Unemployment benefits before job 8
B2UNEM09	Unemp	Unemployment benefits before job 9
B2UNEMOS	Employment	Longest period of continuous unempl.
B2UNEMPD	Employment	Total number of month unemployed
B2UNEMPL	Unemp	Unemployment benefits received
B2UNEMPR	Unemp	Main reason not working since last job
B2UNEMSP	Employment	Number of unemployment spells
B2VISND	Disability	Vision impairment
B2VMATDT	Test date	Date took VMAT
B2VOLFRQ	Community	Frequency of volunteer work
B2VOLWRK	Community	Resp. performed any volunteer work?
B2VOTE	Community vote	Voting in state/local elections
B2VOTPRE	Community vote	Voted in 1996 presidential election
B2WHERLI	Family	Where was respondent living April 1
B2WNAD01	Reason no apply	No aid apply-could afford

Var_name	Prefix	Var_label
B2WNAD02	Reason no apply	No aid apply-no debt desired
B2WNAD03	Reason no apply	No aid apply-employer reimbursement
B2WNAD04	Reason no apply	No aid apply-income too high
B2WNAD05	Reason no apply	No aid apply-grades/scores too low
B2WNAD06	Reason no apply	No aid apply-too hard
B2WNAD07	Reason no apply	No aid apply-financial disclosure
B2WNAD08	Reason no apply	No aid apply-part time
B2WNAD09	Reason no apply	No aid apply-no aid available
B2WNAD10	Reason no apply	No aid apply-missed deadline
B2WNAD11	Reason no apply	No aid apply-other
B2WORKLK	Unemp	Looking for work since last job
B2WRKSTY	Aid grad	Got work-study for grad study
B2YOTD01	UG ed program	Year earned other degree 1
B2YOTD02	UG ed program	Year earned other degree 2
B2YOTD03	UG ed program	Year earned other degree 3
B2YOTD04	UG ed program	Year earned other degree 4
BNBPANEL	Weight	Panel weight for NPSAS and B&B
BNBTRNWT	Weight	Transcript weight for B&B93/94
BNBWT2	Weight	B&B93/97 nonresponse adjusted weight
NPSASID	Sample	NPSAS ID
NPSASWT0	Weight	NPSAS93 baseline weight
NPSASWT1	Weight	NPSAS93 imputed weight
SAMPST	Sample	State of NPSAS sample school

APPENDIX F
NPSAS:93 INSTRUMENT

STUDENT QUESTIONNAIRE
 Revised April 14, 1994
 Based on NPSAS - Final CATI

SECTION A: SCHOOL ENROLLMENT

school" on NPSAS PRELOAD DATE.

A215/A315=COMPLETED REQUIREMENTS
FOR BA

HS_GRAD_YR
AQ number: 147

When did you get your high school diploma or certificate?

SAMPLE: ASK IF MISSING FROM NPSAS

ITERS:

RANGE: 1/12, 10/92

QXQ: Certificate refers to GED - General Education
Development Certification.

Persons without a high school diploma may take an
examination to obtain a GED, allowing them to
pursue postsecondary education (without actually
having their high school diploma). This may also
be accomplished by similar types of certificates
that vary state.

SKIP:

INSTRUCTIONS: Date entered must be less than
DATE_RECVD_BA

DATE_BEGAN_COLL
AQ number: 149

After high school, when did you first enroll in a course offered by a college or
other postsecondary institution?

SAMPLE: ASK IF MISSING FROM NPSAS

ITERS:

RANGE: 1/12, 10/93

QXQ: "Enroll in a course" means when did R begin the
course and not when did the course actually begin
meeting. If R began a course in October and the
course began meeting in September, enter October
for the month of enrollment.

SKIP:

INSTRUCTIONS: Date entered must be less than

AQ number: 710

you . . .

- 1 Married
- 2 Divorced
- 3 Separated
- 4 Widowed
- 5 Never been married
- 6 Living together in a marriage like relationship

SKIP:

ITERS:

RANGE:

QXQ: Choose actual living arrangement for living together in a marriage like relationship. For example, if divorced and living together in a marriage like relationship with another person, choose living together. Separated is a step towards ending or considering ending a marriage. Married R's temporarily separated due to a job situation should be considered as married. Probe if R says Single. Single does not necessarily mean Never been married. Divorced, separated, and widowed individuals often consider themselves "single."

INSTRUCTIONS: IF NPSAS NOT COMPLETED LET

"INSERT" = "In December of 1993".
IF COMPLETED LET "INSERT" = "At that time. on".
ITEMS 750-758 SHOULD BE SET IN A MATRIX SCREEN.

MARSTAT AQ number 712

SAMPLE:

Has there been any change in your marital status since (DECEMBER 1993/NPSAS DATE)?
(If never been married) for example, have you gotten married or begun living with someone in a marriage like relationship?

- 1 YES
- 2 NO

SKIP: IS MARSTAT = 2 THEN GOTO CHILDREN

ITERS:
