### ABSTRACT

Waukesha County Technical College (WCTC) is one of 16 institutions in the Wisconsin Technical College System. The college offers associate of applied science degree programs, technical diplomas and certificates, apprenticeship programs and other adult education services. This financial report covers fiscal year 1998 and is divided into four sections: introductory, financial, statistical, and single audit. The introductory section includes a letter of transmittal, an organizational... chart, 1997 and 1998 revenue and expenditure overview, and information on the WCTC Board and top administrators. The financial section includes general-purpose financial statements, notes to the financial statements, the combining, individual fund and account group financial statements and schedules, and the auditor's report on the statements and schedules. Total revenues for the college for 1998 were \$50.3 million, up from \$47.7 million the prior year. Expenditures were \$55.2 million for 1998, up from \$49.2 million. The statistical section includes selected financial and demographic information on governmental funds, tax levies, real property value, debt service, WCTC graduates, student enrollment and demographics, employees, and program offerings. WCTC is required to undergo a single annual audit according the single audit section conforms to the Single Audit Act of 1984 and its Amendments in 1996. The single audit section of this report contains information related to this audit, schedules of federal and state financial assistance, and the auditor's reports on the internal control structure and compliance with laws and regulations. President Richard T. Anderson, Ed.D.

October 2, 1998

Board of Directors Waukesha County Area Technical College District:

The Comprehensive Annual Financial Report of the Waukesha County Area Technical College District (also known as Waukesha County Technical College or WCTC) for the fiscal year ended June 30, 1998, is hereby submitted. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with WCTC. To the best of our knowledge and belief, the presented data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of WCTC. All disclosures necessary to enable the reader to gain an understanding of WCTC's financial activities have been included.

The Comprehensive Annual Financial Report is presented in four sections: introductory, financial, statistical, and single audit. The introductory section includes this transmittal letter, WCTC's organizational chart, and general information about the WCTC Board and key administrators. The financial section includes the general-purpose financial statements, notes to the financial statements, the combining, individual fund and account group financial statements and schedules, and the auditor's report on the financial statements and schedules. The statistical section includes selected financial and demographic information, which is generally presented on a multi-year basis.

WCTC is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984 and the Single Audit Act Amendments of 1996, the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and the State of Wisconsin Department of Administration publication, State Single Audit Guidelines. Information related to this single audit, including the schedules of federal and state financial assistance and the auditor's reports on the internal control structure and compliance with applicable laws and regulations, is included in the single audit section of this report.

This report includes all of the funds and account groups of WCTC. In addition to education, WCTC provides a full range of related services that include a bookstore; the Classic Room, a restaurant-type operation; and a child-parent center, which provides day care for children.

This report is consistent with legal reporting requirements of the State of Wisconsin. In addition to meeting legal reporting requirements, this report is intended to present a comprehensive summary of significant WCTC financial data to meet the varying needs of the citizens, taxpayers, students, employees, financial institutions, intergovernmental agencies, and the Wisconsin Technical College System.

### SERVICES AND ENVIRONMENT

For more than 75 years WCTC has been helping people acquire the knowledge and skills that will help prepare them for a rewarding future in business, industrial, health and service occupations. Our campuses have well-equipped educational laboratories, highly-experienced instructors concerned with student success and curricula kept continually up to date with assistance from volunteer advisors, who are leaders in their fields, ensuring that students learn the skills necessary to become knowledgeable and employable in today's competitive job market. WCTC's service commitment is stated as follows:

In a world economy, we will continuously improve our services to meet the technical and vocational training needs of our students, employers, and the community.

WCTC is one of 16 technical colleges in the Wisconsin Technical College System (WTCS). Vocational, technical, and adult education in Wisconsin began as the first comprehensive statewide continuation school system in the United States as the result of state legislation passed in 1911. The WTCS was developed and continues to be sustained by strong support from both labor and management in Wisconsin.

WCTC was organized as a city institution in 1923 and became a county area district in 1967. In July, 1987, WCTC underwent a name change from Waukesha County Technical Institute to Waukesha County Technical College in recognition of the post-secondary nature of its educational offerings.

Located in Pewaukee, Wisconsin, WCTC's main campus is 20 miles west of the City of Milwaukee and approximately 60 miles east of the State Capital in Madison. WCTC's boundary encompasses approximately 600 square miles in the southeastern corner of the state, serving 99% of Waukesha County, 9% of Jefferson County, 2% of Dodge County, 2% of Racine County, and the local municipalities (6 cities, 21 towns, and 19 villages) located therein. Annually more than 33,000 citizens take advantage of educational opportunities offered by WCTC.

WCTC offers associate of applied science degree programs, technical diploma programs, advanced technical certificates, apprenticeship programs and other adult education services. WCTC is accredited by the North Central Association of Colleges and Schools. Programs and courses are approved by the WTCS Board and endorsed by the Veterans Administration, the American Association of Community Colleges, and the Wisconsin Board of Nursing and Division of Nurses. The National League of Nursing and other professional organizations accredits selected programs.

### Vision

Because of the nature of its educational service environment, WCTC has integrated a business approach into its organizational design and educational process. This business approach strives to maximize output consistent with our educational mission while minimizing taxpayer financial support.

The WCTC Board of Directors developed a Vision Statement in order to position WCTC for the 21<sup>st</sup> century. The Vision Statement is a verbal picture of the core principles and values of an organization, its purpose, its target, and its strategies, all painted in clear, compelling language.

Vision: Waukesha County Technical College is the leader in workforce development in Waukesha County.

### WCTC Core Values and Principles:

- (Student and Other) Customer Focus: People are central to our mission. People learn best when they learn how to learn. We will meet or exceed student and other customer needs.
- Continuous Improvement: Lifelong learning is the key to occupational and personal growth. Ouality is achieved through continuous personal and process improvements.
- Personal Empowerment: People have the capacity to change and to improve the quality of their lives. People will be treated with dignity and respect. Empowered people accept personal responsibility and strive to do their best.

Purpose: Students will achieve occupational and personal success through lifelong learning at WCTC.

Target: All of our students and other customers will state that their experiences with WCTC were a wise use of their time and money.

### ENDS Statements:

- Occupational Competency: Students have skills needed to obtain entry-level jobs or have upgraded skills in their area.
- Critical Life Skills: Adults who are self-directed learners/workers and who possess communication, analytical, group effectiveness, and personal management skills.
- Educational Leadership: WCTC is a student learning-centered organization serving as a local, regional, national, and international educational resource and role model.
- Organizational Productivity: WCTC is a productive, humanistic, and improving organization.
- Economic Development: Economic development is possible through the collaborative efforts of WCTC along with other organizations.

The Statutory Mission is contained in WCTC's Strategic Plan; it describes the scope of activities which the College is legally authorized to provide.

### Economic Development

WCTC's economic development role includes providing customized courses and programs tailored to the specific needs of individual firms and organizations, providing technical assistance to area firms, providing instruction to retrain workers and upgrade skills, providing outplacement services for displaced workers, and acting as facilitator for community action groups and organizations to enhance local development efforts.

**BEST COPY AVAILABLE** 

WCTC has entered into educational partnerships to assist with the training of the workforces of Cooper Industries, Envirex, Waukesha Engine. Navistar, General Electric Medical Systems and other employers of our area who have publicly stated that a trained workforce and WCTC continue to be major factors in their decisions to move to or expand their operations in our community. Likewise, WCTC has entered into educational and operational partnerships to share common facilities and resources for mutual benefit with the school districts of Menomonee Falls and Elmbrook, the University of Wisconsin—Waukesha College, University of Wisconsin—Whitewater, Waukesha County, Memorial Hospital of Oconomowoc, and other schools, hospitals, churches, and agencies in the Waukesha County area. WCTC has entered into a joint venture with Gateway Technical College, Moraine Park Technical College, and Mid-State Technical College for the purchase and operation of an automated library system.

During the past few years WCTC has been working extensively with area high schools and various colleges and universities to get articulation agreements in place whereby a high school student can earn up to two years of college credit while still in high school, attend WCTC for two years, and attend a four-year college for another two years and receive his/her bachelor's degree.

In 1992 WCTC leased a new facility developed by the Hein-Werner Corporation, the world-leading manufacturer of automobile service and collision repair equipment, as part of its world headquarters. This innovative relationship continues to allow WCTC the free use of the most modern collision repair equipment and a unique instructional-employer joint venture that has resulted in a new version of auto collision repair curriculum.

In January, 1995, the WCTC Foundation opened the doors of the Workforce Development Center on the southeast corner of the Pewaukee Campus. The Center provides employment, job training, and career counseling services on a countywide basis. The participating agencies are WCTC; Waukesha County Economic Development Corporation; Waukesha, Ozaukee, Washington Private Industry Council: Wisconsin Job Service; Waukesha County Department of Health and Human Services; Wisconsin Unemployment Compensation Division; and Partners for Education. The Center was built by the WCTC Foundation and is leased to the participating agencies. This ongoing effort has been hailed as a new benchmark of governmental collaboration to provide customer service.

In 1996 fifteen of the sixteen technical college districts formed an insurance consortium for the purpose of reducing the cost of their risk insurance coverage while increasing their coverage. Effective July, 1997, new insurance policies were entered into under this consortium effort.

### Strategic Planning

The decade of the 1990's is characterizing technical education by limited resources, constantly changing enrollments stemming from demand for occupational retraining, an expanding workforce in service-related industries. fluctuating unemployment rates, high school populations which are increasing at a slower rate, demand for occupational training in advanced technology, significant outlays for high technology equipment and staff retraining, and a changing population which requires different instructional delivery systems. WCTC has responded to this challenge by developing a strategic planning process that is predicated on informed decision making and that fosters educational and fiscal accountability.

The strategic planning process includes the development of planning assumptions, planning guidelines, and ENDS Statements by the WCTC Board. These statements set the general framework within which the institution operates. WCTC's planning assumptions identify characteristics and trends. The planning guidelines identify the direction established by the WCTC Board. The ENDS Statements are the long-term goals to be achieved.

The second phase of the strategic planning process includes the development of operational plans by staff. The operational plans include short-range and long-range goals and objectives, key action priorities, and major changes from the previous year. These are tied to the WCTC Vision Statement.

Resource allocation, including economic, human, facilities, and equipment resources, is the third phase of the strategic planning process. The budget is one component of the resource allocation process. Budget development responds to the planning guidelines contained in WCTC's Vision Statement and Strategic Plan and includes the activities that meet WCTC's target and strategies. Budget hearings at both the administrative and board levels provide the scrutiny necessary to achieve fiscal accountability. In addition, a public hearing allows reaction from citizens regarding the proposed budget.

Other planning/evaluation mechanisms that are used by WCTC include:

- A Five-Year Program Development Plan that is reviewed and updated continuously to monitor changing business and industrial needs with extensive need surveys conducted to determine labor market changes.
- A Vocational Education Plan that is prepared yearly in conjunction with WCTC's application for vocational education funds.
- Annual follow-up studies, including six-month graduates, withdrawals, and employers, which allow WCTC to monitor changes in the labor market. In addition, longitudinal follow-up studies, conducted three and five years after students graduate, allow WCTC to determine the long-term benefit of occupational education.
- A Five-Year Program Evaluation Plan which assists WCTC in determining the relevance of program competencies and which identifies major evaluation efforts in educational offerings as well as in institutional services and activities.
- A Long-Range Facility Plan which addresses programmatic and support service facility needs.
- A Technology Plan which addresses administrative and instructional computing and other technology needs.
- A Multi-Year Capital Budget Plan which addresses WCTC's long-term capital needs.

### Goals and Accomplishments

WCTC's goals for the future are based on a foundation set during and before this year. Our focus continues to be on developing and evaluating educational programs, resource allocation, internal and external marketing, curriculum updates, up-to-date technology and our commitment to total quality management. WCTC is committed to excellence in serving our communities' needs in technical and adult education.

The following significant accomplishments occurred in 1997-98:

WCTC celebrated its 75<sup>th</sup> anniversary with a series of special events, publicity stories and a
published history of the College. Keynote speaker William F. Buckley, Jr., kicked off the
yearlong slate of events at the second annual Business and Industry Luncheon, which
attracted 350 community and business leaders.

- As part of the 75th anniversary activities, the WCTC Alumni Association hosted Children's Spring Fest, which brought over 800 children and parents on campus for Easter egg hunts, games and information booths sponsored by community groups. Many families mentioned it was their first time on campus.
- WCTC awarded 399 associate degrees, 417 technical diplomas, and 69 apprenticeship certificates to 1,034 students. Fourteen students completed more than one program.
- A total of 338 high school diplomas were awarded to students who prepared at WCTC. Sixty-five students earned a General Education Development (GED) certificate and 149 students, including 25 special needs students, earned a High School Equivalency Diploma. Sixty-two students graduated from the External Diploma Program and an additional 62 received an Adult High School Diploma.
- The fall, 1997, survey of our 1996-97 graduates indicated that nearly 97% of the graduates were satisfied with the educational training they received from WCTC. Among the 860 survey respondents who were in the labor market, 97% were employed and 80% of those employed were working in a field related to their training at WCTC.
- The fall, 1997, survey of employers indicated that 95% were satisfied or very satisfied with our graduates' technical education and 94% would hire another graduate. Over 90% of these employers said they would recommend our graduates to another employer.
- More than 100 students were elected or initiated into the scholastic honorary Phi Theta Kappa Society, Who's Who in American Junior Colleges, or the National Vocational-Technical Honor Society. Also, more than 60 students received awards from state and national competitions related to their training at WCTC.
- Twenty-one faculty participated in the Instructor Occupational Competency Program, which provides faculty the opportunity to work in business and industry in order to gain knowledge and skills that link classroom theory to the workplace.
- Governor Thompson visited the campus to show support for the College's faculty development efforts. His visit included a tour of the Teaching Innovation Center, which provides resources and assistance to instructors and staff to improve teaching and student learning through the use of technology.
- The Student Advising System was implemented for spring semester, 1998. Forty-one new advisors completed their first 16 hours of advisor training and provided advising services to over 500 students. An additional 40 advisors will be added for a total of 81 projected advisors serving over 1,000 students for fall, 1998.
- On-site program evaluations were conducted by teams of business representatives and
  educators for the Auto Body and Paint Technician, Quality Assurance Technician, Fashion
  Marketing, Retail Management. CIS-Microcomputer Specialist, Property Assessment and
  Appraisal, and Office Equipment Repair programs. The Automotive Servicing Toyota T-10,
  Culinary Management, and Medical Assistant programs also underwent in-depth reviews by
  professional accrediting agencies. This method of program review is conducted to ensure
  that programs remain aligned with employer training needs.
- Focus groups were conducted to assess program graduates' satisfaction with the Central Service Assistant program and to identify continuing education needs of the program graduates.

- On behalf of the Wisconsin Manufacturing Curriculum Consortium, WCTC received the second year approval and \$200,000 of the three-year \$700,000 grant from the National Science Foundation to fund manufacturing curriculum development and its dissemination through multi-media delivery formats for use by technical colleges, universities, and business and industry employers.
- Over two dozen Internet courses are now offered.
- A variety of courses were offered via videotape and public television on channel WMVT.
- WCTC conducted focus groups and an occupational analysis of network and telecommunications technicians with representatives from a variety of companies to develop a new Networking/Telecommunications associate degree program.
- Careers in Automotive—Reach for Success (CARS) was offered by the Women's Development Center. Twenty-nine women interested in the automotive industry explored career opportunities, learned basic automotive concepts and acquired skills necessary to be successful in a non-traditional career.
- Students will now be able to design their own associate degree program. The Individual Technical Studies program is intended for currently employed individuals who have a career objective which cannot be met by WCTC's existing programs. It enables students to combine courses from two or more major areas of study into a unique Associate of Applied Science degree. The Technical Studies—Journeyworker program provides an associate degree option for those who have already obtained a Journey-level Certificate from an apprenticeship program.
- Four new Advanced Technical Certificates were developed: Mold Design, Die Design, Intra/Internet Development, and Advanced Computer Aided Design.
- Labor market studies were initiated to assess the need for new programs in Carpentry, Bricklaying/Masonry, Physical Therapy and Sports Medicine Assistant, Physical Fitness and Exercise Science, and Circuit Board Design.
- Twenty-one percent of Waukesha County 1995 high school graduates attended WCTC within three years of graduating from high school. The number of high school graduates attending WCTC immediately upon graduation has increased over the past five years from approximately 7% to 13%.
- WCTC hosted ten foreign exchange students representing six different countries while 21 of our students went to four countries. In addition, an English-as-a-Second Language instructor exchanged places with an instructor from Argentina.
- The Women's Development Center hosted a Teen Single Parent Day for 51 area high school students and 12 teachers.
- More than 1,500 community residents and employers from 156 local businesses attended the Waukesha County Workforce Development Center annual Job Fair.

- In partnership with Hamilton Sussex High School and University of Wisconsin—Stout, WCTC developed a 2+2+2 Printing and Publishing program to train students in the printing and publishing field. Governor Thompson signed a major 2+2+2 transfer credit agreement for the program.
- WCTC signed a 2+2 agreement with Carroll College that ensures junior-level standing in their Computer Science program for graduates of WCTC's Microcomputer Specialist and Programmer/Analyst programs.
- Graduates of WCTC's Police Science, Dental Hygiene, and calculus-based Electronics Technology programs will now receive junior-level standing in Marquette University's corresponding bachelor degree programs of Criminology and Law Studies, Dental Hygiene, Electrical Engineering, and Mechanical Engineering.
- A 2+2 agreement was signed with Mount Mary College enabling students to transfer from WCTC Retail Management or Fashion Merchandising program into Mount Mary College's Merchandise Management Program.
- WCTC Foundation academic scholarships totaling nearly \$104,000 were awarded to 150 WCTC students to help finance their education at WCTC. An additional \$50,000 in scholarships received from business and industry and private donors were awarded to 45 students.
- For the eleventh year WCTC hosted Corporate Capers, which raised more than \$84,000 for Wisconsin Special Olympics.
- WCTC hosted the third annual "Chipping in for Scholarships" golf outing, which raised \$20,000 for the WCTC Foundation's Technical Excellence Scholarship Fund.
- For the sixth year WCTC hosted the TREK 100 bicycle ride. Over 1,200 riders participated in the event, which raised over \$250,000 for the Midwest Athletes Against Childhood Cancer Fund.
- The Helene Fuld Health Trust awarded WCTC a two-year grant for \$44,578 to provide community-based nursing experiences for students and faculty in collaboration with the Community Nursing Clinic.
- Business and Industry Services developed training contracts with 183 difference businesses and organizations. Over 700 classes were offered with a total of 9,421 student enrollments.
- A new workplace education site opened at PlastOcon in Oconomowoc.
- WCTC developed a caregiver training package specific to Alzheimer's disease through a \$93,000 grant from the Helen Bader Foundation and is currently providing training at over 30 community-based residential facilities.
- The Community Career Center's menu of services now includes Valpar's System 2000, a comprehensive computerized career exploration/assessment tool. Between September, 1997, and May, 1998, over 1,400 community residents completed career assessments.
- WCTC has been approved as a Community Training Center for the American Heart Association. The College provides CPR training for over 1,000 people each year.
- The Community Nursing Clinic and staff won a Community Service Award through the American Association of Critical Care Nurses Circle of Excellence.

- About 400 high school students and parents converged on WCTC for the Manufacturing Technology Career Night.
- Fifty-three boys and girls from junior and senior high schools participated in the 1998 Summer Tech Camp, which provided them with career information and hands-on experience in technical occupations.
- Thirty middle school and high school students from Waukesha and 45 middle school students from Milwaukee participated in the 1998 Career Quest in order to provide opportunities for minority youth to explore careers in a variety of occupations.
- As part of the sixth annual "Take Our Children to Work Day," a total of 37 daughters and 30 boys accompanied their parents, grandparents, or sponsors to work at WCTC.
- WCTC broke ground in May for the school's first baseball diamond.
- In May, 1998, over 100 visitors attended the Construction Technology Open House.
- The Fitness Center was renovated and reopened for students and staff with state-of-the-art sports equipment.
- WCTC now requires all associate degree and technical diploma applicants to undergo admissions assessment.

### Economic Condition and Outlook

Waukesha County sets the pace for growth in Wisconsin and the Midwest with demographics reflecting a large and vital Waukesha community. The County has been a leader in population and job growth in Wisconsin over the past 10 years. Waukesha County, the third largest county in the state, has a population of approximately 340,000 with over 1,000 manufacturers and 9,000 retail businesses. While the Wisconsin economy has outperformed the nation during the past several years, the Waukesha County economy has been stronger than the overall Wisconsin economy and is expected to continue this trend in the future.

Due to a dependable and talented workforce, a majority of the employment in Waukesha County is manufacturing, retail trade, and service-related businesses. Some of that workforce is in goods-producing industries such as agriculture, mining, construction, and manufacturing with the remaining employed in service industries such as transportation, trade, finance, insurance, real estate and government. It is expected that all service industries that are strongly dependent on transportation networks will continue to be very strong in Waukesha County with the advantageous position on the interstate highway system.

The low unemployment rate and the shortage of workers have reduced the number of residents available to attend WCTC on a full-time basis. This has resulted in a decrease in the full-time equivalent students that attended WCTC in 1997-98.

Current projections indicate that residential and industrial growth will continue into the foreseeable future. As the workforce ages and leaves the labor market and as businesses expand, local business and industry is finding it hard to find workers. WCTC has been called upon to provide trained replacements. In addition, in order to stay competitive in the world market, local business and industries will continue to work in partnership with WCTC to update and train their workforce.

### Critical Concerns

Although WCTC is in excellent financial condition, we have identified a number of critical concerns for WCTC's future that include:

- Changing technologies in business and industry necessitate ongoing updating of the knowledge and skills of our faculty and requirements to maintain and update our capital assets to provide state-of-the-art learning experiences for our students. This can be quite expensive to do as well as taking the faculty away from the classroom to learn the necessary skills.
- When they come to WCTC, many of our students lack the basic skills to be successful in an educational process; this is a critical concern and focus for WCTC. Therefore, it is rewarding, necessary, and very costly for WCTC to provide our students with needed basic skills and critical life skills so they learn how to be more independent and successful. As WCTC moves into its new matriculation process, more students will need to participate in this remedial training, which is a non-FTE-generating activity.
- The majority of our employees are unionized and our labor costs are increasing at a faster pace than most of our revenue sources and compared with many public and private sector labor rates.
- Our negotiated current and post-employment health insurance benefits exceed most similar benefits in the public and private sectors and are a major component of our overall costs.
- Changing labor market needs will require continuous improvement of existing programs and development of new programs for emerging occupations. With the restrictions the WCTC Board has placed on the increase to the tax rate, costs need to be absorbed within the existing funding base.
- Changing funding levels and unfunded initiatives of the state and federal government will continue to place ever-increasing demands on WCTC. It may result in decreases in service levels for some of these activities and/or a reallocation of local funds to cover the activity in other areas if the service is deemed critical enough. Many of these activities covered by external funds are non-FTE-generating.

### FINANCIAL CONDITION

Currently and on June 30, 1998, all funds and account groups remain financially sound. WCTC maintains a Aaa bond rating from Moody's Investor Service. Some excerpts from their last credit report are: "Moody's expects both commercial and residential development to continue as the district benefits from its prime location as a suburb of Milwaukee. The district's substantial and growing \$24 billion tax base has been spurred by its access to major highways and other transportation systems. High resident wealth levels and housing values reflect the district's attractiveness. County unemployment rates are well below the state average, underscoring the region's economic vitality. . . . district's financial position will remain strong due to demonstrated prudent management strategies and sizable General Fund balances. . . . combination of conservative budgeting and significant tax base growth has offset the district's lack of direct control over major revenue sources and enabled them to reduce the millage rate. . . . providing substantial flexibility. . . . believes the district's below average debt burden of 2.3% will remain manageable. . . . extremely rapid principal amortization of 100% in five years. . . . district's debt obligations are minimal, accounting for 2% of overall debt."

WCTC's fund balances and retained earnings at year end totaled \$18,394,112 (down \$1,172,250 from 1996-97). Excess unspent funds of \$3,221,026 from the general fund for 1996/97 were reappropriated. Some of these funds were used to transfer \$694,108 to other funds as well as to make a \$1,771,971 payment towards paying off the unfunded prior service liability with the Wisconsin Retirement System. In order to maintain proper fiscal responsibility with appropriate levels of working capital, potential reduction in services to the citizens, the WCTC Board and management is committed to maintaining adequate fund balances and to funding its postemployment liabilities.

WCTC has a diversified funding base composed of property taxes, state aid, student fees, federal grants, and institutionally-generated revenue. WCTC believes that this diversity, the strength of the local economy, and its fiscal management will continue to provide the resources necessary to fulfill its mission now and in the future. Actual governmental fund-type revenues and expenditures on a budgetary basis for fiscal years 1998 and 1997 are presented in the table below. For the purpose of this report, operational expenditures refer to expenditures of the general and special revenue funds.

|                           | 1998                | İ           | 1997                |                  |

### Governmental Funds

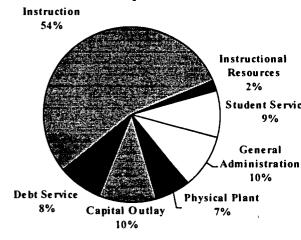

Approximately 90% of WCTC's revenues and expenditures are accounted for in governmental fund types (general, special revenue, capital projects, and debt service funds). In fiscal year 1998, on a budgetary basis, governmental fund revenues increased \$2,251,287 (4.8%) to \$49,057,056. Factors that caused the increase include:

- Property tax revenue increased \$1,135,308 (3.6%) for governmental funds. A 3.8% increase was planned for in the budget to meet continuing operational needs, debt service requirements, and the fiduciary fund needs. A number of tax incremental financing districts (TIF's) were liquidated during the 1997-98 fiscal year, resulting in tax revenues exceeding the budget. Due to actual levies received in both years exceeding the planned budget due to TIF funds received, the actual percentage change shown is different than the budget. In addition, although 3.8% was budgeted as a tax levy increase, a larger portion of this increase was placed in the fiduciary fund.
- State revenue increased by \$217,760 (3.9%). The increase was caused by an increase in state-sponsored activities.
- Federal revenue decreased by \$77,455 (4.6%). The decrease was due to decreased federal-sponsored activities.
- Tuition and fees increased by \$198,554 (3.9%). The increase was caused by a combination of a decrease in enrollments (28 FTE's) and an increase in tuition and fee rates.
- Institutional revenue, which includes contracted services for instructional and technical assistance to business and industry and investment income, increased by \$777,120 (26.0%). The increase was caused by an increase in contracted services for customized training.

### Where WCTC Obtained Its Funds

### Where WCTC Spent Its Funds

In 1997-98 governmental fund expenditures increased by \$9,583,669 (20.4%) to \$56,639,880. Factors that caused these changes include the following:

- Operational expenditures increased by \$5,817,853 (14.4%). The increase resulted from increased state-funded activities as well as inflationary increases for ongoing operations. In addition, the increase also included a lump-sum payment of \$1,771,971 that retired the unfunded prior service liability that existed with the Wisconsin Retirement System for pension benefits for employees. The district also reappropriated additional funds from the previous year to fund expenditures that could not be covered within the budget guidelines.
- Capital expenditures increased by \$1,365,826 (30.9%). WCTC is in the process of replacing its administrative computer systems, which resulted in this increase. Replacement of our legacy computer system was made in order to increase functionality as well as to make the District year 2000 compliant.
- Debt service expenditures increased by \$85,905 (18.0%). The increase was due to planned structuring of debt to fit the available funds and to keep a stable tax rate.

### Other Funds

WCTC also uses proprietary funds to account for enterprise (business-like) operations such as the bookstore, Classic Room, and the child-parent center and fiduciary funds to account for trust activities, such as student financial aid, student activities, and athletics.

Enterprise fund revenues decreased \$9,237 (0.04%) compared to expenses which increased \$51,430 (2.5%). Retained earnings decreased \$20,069 (2.4%) before any transfers in and out. A residual equity transfer of \$51,189 was made to the General Fund. During spring, 1997, WCTC began subcontracting on-campus food service. This activity had been treated as an enterprise operation prior to that time. During 1997-98 WCTC transferred the remaining funds from on-campus food service operations to the General Fund. The operation of the Classic Room, a restaurant-type operation run by students in the Hospitality and Culinary Arts program, remained in the enterprise fund; this had been a subset of the food service enterprise operation. The net result to fund balance was a decrease of \$92,500 (10.1%)

Fiduciary fund types, on a budgetary basis, had revenues of \$1,234,143 compared to expenditures of \$1,144,366, which increased reserved fund balance by \$89,777 to \$177,128. In addition, there was a \$35,000 transfer in which resulted in the fund balance increasing to \$212,128. All fund balances are legally restricted for use for student financial aid, student organizations, or athletics.

### General Fixed Assets

General fixed assets total \$33,857,552 based on a \$500 capitalization policy. Such assets do not include \$141,693 of equipment and \$488,446 of building in the enterprise fund, which has accumulated depreciation of \$143,781. Overall, WCTC's fixed assets are near the midpoint in their normal useful lives. WCTC is maintaining a fixed asset system to provide management information, provide a basis for federal reporting, and provide insurance information. WCTC has a multi-year capital budgeting program and a capital maintenance program designed to keep buildings and equipment current and functional. These programs include roofing, roadways, and the electromechanical systems. Continued implementation of these programs at the planned funding levels will result in optimizing the life cycle of the facilities, maintaining a quality educational environment and reducing to a minimum the need for deferring maintenance. At year end there were no significant maintenance backlogs.

The useful lives of general fixed assets for depreciation purposes are approximately as follows:

| • | Buildings (Bookstore only 25 years)    | 50 years   |
|---|--|------------|
| • | Improvements and fixed equipment       | 20 years   |
| • | Movable equipment (including software) | 3-15 years |

|                        | Original<br>Cost | Less Accumulated Net Depreciation Cost | Replacement<br>Cost |
|------------------------|------------------|--|---------------------|
| Land                   | \$ 591,345       | \$ 0 \$ 591,345                        | \$ 591,345          |
| Land improvements      | \$ 3,167,159     | \$1,368,592 \$ 655,193                 |                     |
| Buildings              | \$ 6,616,519     | \$ 2,987,132 \$ 3,629,387              |                     |
| Building improvements  | \$ 5,613,508     | \$ 1,596,347 \$ 4,017,161              |                     |
| Leasehold improvements | \$ 2,630         | \$ 0 \$ 2,630                          |                     |
| Movable equipment      | \$17,866,390     | \$ 9,782,880 \$ 8,083,510              | \$18,401,108        |
| Total                  | \$33,857,552     | \$15,734,971<br>\$16,979,22            | <u>\$71,211,771</u> |

### General Long-Term Debt

The WCTC Board has taxing powers and may incur long-term debt obligations. WCTC continues to meet all its debt service requirements when they become due.

WCTC will issue \$4,935,000 general obligation promissory notes in fiscal year 1999 which will be repaid over five years. The proceeds of these notes will be used to finance fiscal year 1999 capital improvement projects and capital equipment included in the approved fiscal year 1999 budget. In addition, WCTC is considering the possibility of a referendum in 1999.

### MANAGEMENT SYSTEMS AND CONTROLS

WCTC is committed to the development of good management systems and controls. Significant efforts are made to employ qualified personnel. Likewise, systems are conscientiously developed within which WCTC employees can function effectively and which provide appropriate levels of supervision and segregation of duties.

### Accounting Systems

In developing and modifying WCTC's accounting system, consideration is given to the adequacy of internal controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets.

The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived and the evaluation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above framework. We believe WCTC's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions. During 1996-97 through 1997-98 WCTC implemented a new computer software system, which has helped to improve its financial and reporting capabilities and functionality.

### Budgetary Systems

Budgetary responsibility is decentralized to managers of various cost centers. Review of budgets and budgeted activities are performed by the Administrative Budget Review Committee and the WCTC Board. Starting in December and ending in May, WCTC managers prepare, present and modify budget plans for the coming year. Between March and May, the WCTC Board reviews budget plans to ensure consistency with WCTC's visioning and strategic planning process and to provide further Board direction for WCTC's annual budget. A public hearing on the proposed budget is held annually in May. The actual property tax levy is set in October.

### Cash Management

Cash temporarily idle during the year was invested in daily repurchase agreements and treasury bills. The average yield on investments during the year was approximately 5.3% and the amount of interest earned was \$1,082,932, which was a decrease of \$88,309 from the previous year.

### Risk Management

WCTC maintains a risk management program which includes a risk manager, a comprehensive insurance program designed to meet WCTC's needs, active security and safety committees oriented to the identification and avoidance of risk, regular meetings with employees covering risk management, and an independent risk management and insurance consulting firm retained to assist in WCTC's risk management program.

### Independent Audit

An annual audit of the financial statements of WCTC by an independent certified public accountant is required by WCTC Board policy and state law. This requirement has been complied with and the auditor's opinion is included in this report. WCTC does not maintain an internal audit staff; however, it purchases internal audit and operation review services on an asneeded basis.

### FINANCIAL REPORTING CERTIFICATES

WCTC has been awarded the Certificate of Achievement for Excellence in Financial Reporting by the Government Finance Officers Association (GFOA), the Certificate of Excellence in Financial Reporting by the Association of School Business Officials (ASBO), and a Certificate of Commendation from the Governmental Reporting Awards Through Evaluation (GRATE) program for WCTC's Comprehensive Annual Financial Report for the fiscal year ended June 30, 1997. In order to be awarded these certificates, WCTC must publish an easily readable and effectively organized Comprehensive Annual Financial Report, including contents that conform to program standards. The report must satisfy both generally accepted accounting principles and applicable legal requirements. These certificates are valid for a period of one year. We believe that our 1998 Comprehensive Annual Financial Report continues to conform to the high standards of these certificate programs and we are planning to submit this report to GFOA, ASBO, and GRATE for their review.

### ACKNOWLEDGMENT

The preparation of this report on a timely basis was accomplished through the cooperative efforts of the Financial Accounting Services Office; KPMG Peat Marwick LLP, certified public accountants; the Planning and Research Department; Human Resource Services Department; the Marketing/Communications Services Department; and the Registration/Bursar Department. We express our appreciation to our dedicated staff and public accountants for their many long hours in the preparation of this report. In addition, we convey our appreciation to WCTC's Board of Directors for their interest and support in planning and conducting the financial operations of WCTC in a responsible and progressive manner.

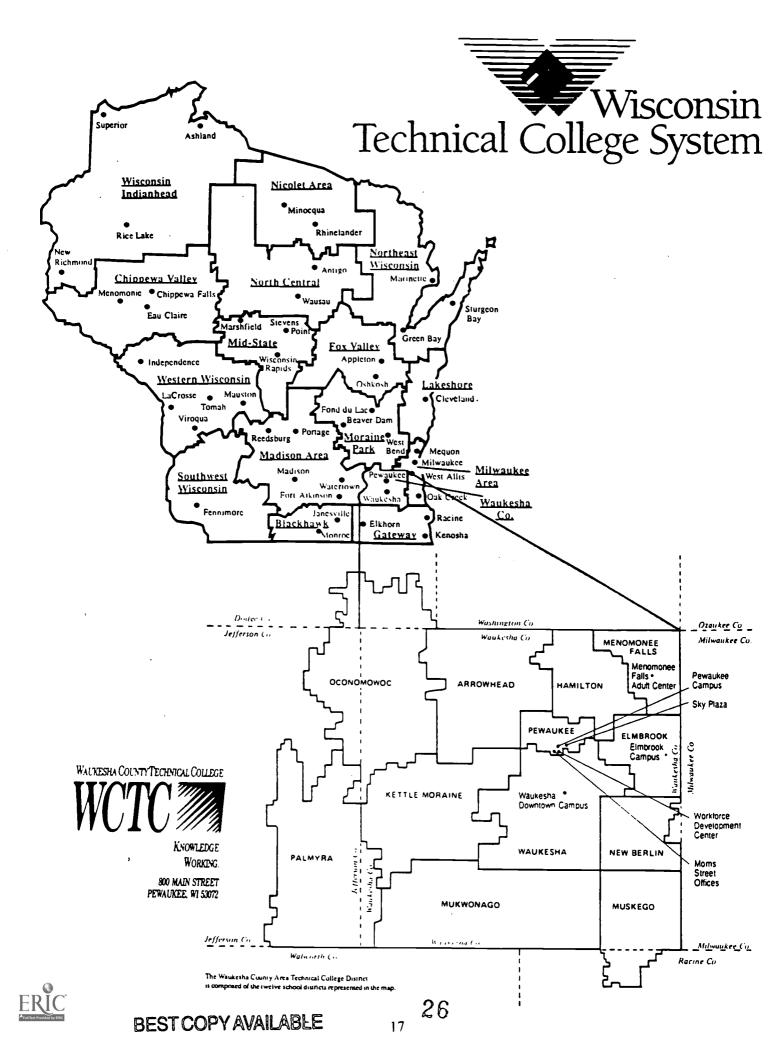

Respectfully submitted,

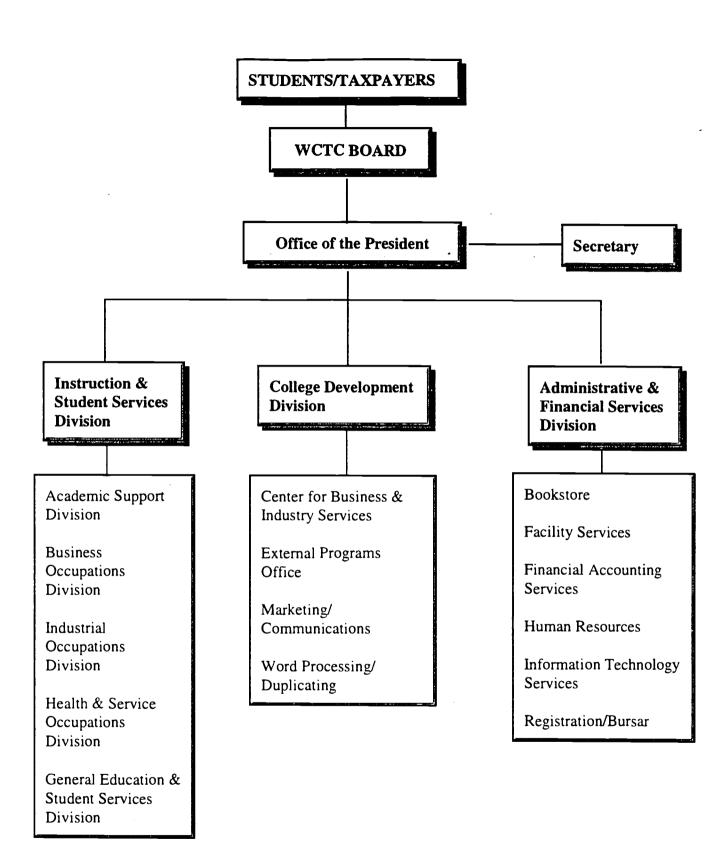

Richard T. Anderson, Ed.D.

### MANAGEMENT'S RESPONSIBILITY

Board of Directors
Waukesha County Area Technical College District:

The management of WCTC is responsible for the preparation and presentation of our financial statements in this report. This report has been prepared in accordance with generally accepted accounting principles based on our best judgments and giving due consideration to materiality.

WCTC has communicated the requirements for accurate records and accounting to appropriate employees and has developed a system of internal accounting controls designed to provide reasonable assurance for the safeguarding of assets and for the reliability of financial records. This system includes selection and training of qualified personnel, organizational arrangements to provide for an appropriate division of responsibility, communication of standard accounting and internal control policies, and regular meetings on accounting matters.

Annually an independent public accounting firm, which we retain to audit our financial statements, is responsible for expressing an opinion as to whether our financial statements present fairly the financial position, results of operations, and cashflows. Their audit includes a review of our internal control structure and a testing of the accounting procedures and financial records.

The Budget and Facilities Committee of the WCTC Board is composed of concerned and qualified citizens who meet regularly with the independent auditors and management. This Committee and the full WCTC Board review the audit scope, discuss financial and reporting subjects, and consider management action on these matters. There is full and free access to the Committee by the independent auditors.

We believe our policies, internal controls, and review process provide reasonable assurance that our financial information contains the integrity and objectivity necessary for properly reporting WCTC's transactions.

### **Independent Auditors' Report**

Board of Directors Waukesha County Area Technical College District:

We have audited the accompanying general purpose financial statements of the Waukesha County Area Technical College District (WCTC) as of and for the year ended June 30, 1998. These general purpose financial statements are the responsibility of the management of WCTC. Our responsibility is to express an opinion on these general purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of WCTC as of June 30, 1998, and the results of its operations and cash flows of its proprietary fund type for the year then ended in conformity with generally accepted accounting principles.

In accordance with Government Auditing Standards, we have also issued a report dated October 2, 1998 on our consideration of WCTC's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants.

Our audit was conducted for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The combining and individual fund and account group financial statements and schedules listed in the foregoing Table of Contents, which are also the responsibility of the management of WCTC, are presented for purposes of additional analysis and are not a required part of the general purpose financial statements of WCTC. Such additional information has been subjected to the auditing procedures applied in our audit of the general purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the general purpose financial statements taken as a whole.

KPMG Peat Marinich CLP

Notes to General Purpose Financial Statements

For the year ended June 30, 1998

# (1) Summary of Significant Operating and Accounting Policies

Waukesha County Technical College (WCTC) was organized in 1923. The programs of WCTC, between 1923 and 1963, served apprentices, adults, full-time compulsory-age students and employed part-time students attending school one day per week under a work permit. In 1967, WCTC dropped its status as a city institution and became a county area district. In 1973, WCTC officially became known as the Waukesha County Area Vocational, Technical and Adult Education District.

In 1987, the Waukesha County Area Vocational, Technical and Adult Education District became known as Waukesha County Technical College based on action taken by its board and the Wisconsin Technical College System Board (WTCS). WCTC's legal name was officially changed from Waukesha County Area Vocational, Technical and Adult Education District to Waukesha County Area Technical College District in 1994. The primary purpose for the name change was to communicate more clearly the post-secondary nature of its offerings. WCTC's mission and legislative authority have not changed. WCTC's legislative authority includes granting associate of applied science degrees, offering basic skills training, and granting vocational and external high school diplomas; WCTC does not have legislative authority to offer University of Wisconsin System college transfer credits.

WCTC is committed to continuously improving its services to meet the technical and vocational training needs of its students, employers, and the community.

WCTC and the WTCS maintain that districts within the Wisconsin Technical College System should follow generally accepted accounting principles (GAAP) for governmental units rather than GAAP for colleges and universities because the system's mission, taxing authority, political nature and legislative intent make GAAP for governmental units most appropriate for WCTC and the state WTCS system.

The reporting entity for WCTC is based upon criteria set forth by the Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*. The financial reporting entity consists of (a) organizations for which the standalone government is financially accountable and (b) the standalone government which is controlled by a separately elected governing body that is legally separate and is fiscally independent. All of the accounts of WCTC comprise the standalone government.

The WCTC Board is the governing authority of WCTC. By state statute, the county board chairpersons of Waukesha, Jefferson, Dodge and Racine Counties appoint WCTC Board members; however, these elected officials do not maintain a continuing relationship with the WCTC Board with respect to carrying out its important public functions, and the counties are not financially accountable for the operations of WCTC. As WCTC's governing authority, the powers of the WCTC Board include:

- Authority to borrow money and levy taxes;
- Budgetary authority; and
- Authority over other fiscal and general management of WCTC which includes, but is not limited to, the authority to execute contracts, to exercise control over facilities and properties, to determine the outcome or disposition of matters affecting the recipients of the services being provided and to approve the hiring or retention of key management personnel who implement Board policy and directives.

Notes to General Purpose Financial Statements

WCTC implemented a computerized library database through a joint venture with Gateway Technical College and Moraine Park Technical College by forming the Wisconsin Public Access Library System (WISPALS) in the fall of 1989. WISPALS is governed by the college presidents and librarians with each college having an equal vote. Through the joint venture, each college owns one-third of the computer hardware and software that comprises WISPALS; however, the computer hardware and software is permanently housed at WCTC's Pewaukee campus. Operating costs of WISPALS are also shared equally by the three colleges. WCTC's share of operating expenditures and the fixed assets are accounted for in the general fund and general fixed asset account group, respectively. The following is a summary of financial information for WISPALS as of June 30, 1998 (balance sheet date):

|                                   | Total<br>WISPALS    | WCTC's share     |
|-----------------------------------|---------------------|------------------|
| Total assets Total liabilities    | \$ 61,941<br>61,941 | 20,647<br>20,647 |
| Total requity                     | ,<br>_              | · <del>-</del>   |
| Total revenues Total expenditures | 220,952<br>197,352  | 73,651<br>65,784 |

As the operating costs of WISPALS are fully funded by the participating entities, there is no change in fund balance for the joint venture for the year ended June 30, 1998. WISPALS has no joint venture debt outstanding.

The WISPALS financial statements can be obtained through Gateway Technical College District, 3520 30th Avenue, Racine, Wisconsin 53144.

The accounting polices and practices of WCTC conform to GAAP as applicable to governments. The following is a summary of the more significant accounting policies as promulgated by GASB.

#### (a) Fund Accounting

The accounts of WCTC are organized on the basis of funds and account groups; each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds, based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped, in the financial statements in this report, into three broad fund categories and generic fund types, as follows:

#### **Governmental Funds**

Governmental funds are those through which most governmental functions of WCTC are financed. The acquisition, use and balances of WCTC's expendable financial resources and related liabilities (except those accounted for in proprietary and fiduciary funds) are accounted for through governmental funds. The measurement focus is based upon the determination of changes in financial position rather than upon net income determination. These funds are maintained on the modified accrual basis of accounting.

Notes to General Purpose Financial Statements

General Fund – The general fund is the principal operating fund of WCTC and accounts for all financial activities of WCTC not required to be accounted for in another fund.

Special Revenue Fund – The special revenue fund is used to account for the proceeds from specific revenue sources (other than trusts or capital projects) that are legally restricted to expenditures for specified purposes.

Capital Projects Funds – The capital projects fund accounts for financial resources used for the acquisition or construction of capital assets and remodeling (other than those financed by enterprise and trust funds).

**Debt Service Fund** – The debt service fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

#### **Proprietary Funds**

Proprietary funds are used to account for WCTC's ongoing activities which are similar to those often found in the private sector. The measurement focus is based upon the determination of net income. These funds are maintained on the accrual basis of accounting.

Enterprise Funds – The enterprise funds are used to record revenues and expenses related to rendering services for students, faculty, staff and the community. These funds are intended to be self-supporting and are operated in a manner similar to a private business where the intent of WCTC is that all costs (including depreciation expense) of providing certain goods and services to the students and other aforementioned parties is recovered primarily through user charges. WCTC's classic room, bookstore, child-parent center, and laser application resource center are accounted for in the enterprise funds because they are operated in a manner similar to a private business. These services complement the educational and general objectives of WCTC.

WCTC utilizes a portion of its child-parent center for educational purposes. Therefore, the general fund reimburses the child-parent center for its share of the operating expenses of these enterprises. This interfund transaction has been accounted for in the accompanying financial statements by recording a reduction for the reimbursement of educational-related expenses in the enterprise fund and including the related instructional expenditures in the general fund.

### **Fiduciary Funds**

Fiduciary funds are used to account for assets held by WCTC in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds. The measurement focus of the expendable trust funds is the same as governmental funds; therefore, expendable trust funds are maintained on the modified accrual basis of accounting. Agency funds are custodial in nature (assets equal liabilities), do not involve measurement of results of operations, and are maintained on the modified accrual basis of accounting.

Expendable Trust Funds – The expendable trust funds are used to account for assets held in trust by WCTC in a trustee capacity, primarily for student activities and financial aids. The student financial aid fund is used to account for those monies provided exclusively and specifically for financial aid to students other than those furnished by other funds; the fund accounts for, among other financial aid programs, the Federal Pell grant, Supplemental Educational Opportunity Grant and the Federal College Work Study Program.

Notes to General Purpose Financial Statements

Agency Fund – The agency fund is used to account for assets held in trust by WCTC as an agent for the Student Clubs, Volunteer Student Organization (VSO), and grantor agencies.

# (b) Fixed Assets and Long-Term Obligations

Fixed assets used in governmental fund type operations (general fixed assets) are accounted for in the general fixed assets account group rather than in governmental funds. No depreciation is required or has been provided on general fixed assets. Fixed assets acquired for enterprise operations are accounted for in the related fund and are depreciated.

Long-term obligations expected to be financed from governmental funds are accounted for in the general long-term obligations account group, not in the governmental funds. WCTC's general long-term obligations account group includes an accounting for all general indebtedness and the noncurrent portion of the post-employment benefits and sick pay liabilities of WCTC. Payments on general indebtedness are made from the debt service fund while payments for post-employment benefits and sick pay liabilities are made from the general fund.

These two account groups are not "funds." They are concerned only with the measurement of financial position. They are not involved with measurement of the results of operations.

#### (c) Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

The governmental, expendable trust and agency funds are accounted for on a modified accrual basis. Under the modified accrual basis of accounting, transactions are recorded in the following manner:

Revenues are recognized when they become both measurable and available (susceptible to accrual). All revenues are considered susceptible to accrual except summer school tuition and fees and the portion of the local tax levy not due until after June 30, which are recorded as deferred revenue.

Expenditures are recognized when the fund liability is incurred, except for interest and principal on general long-term obligation debt, which are recognized as expenditures when due. Expenditures for claims and judgments are recognized when it becomes probable that an asset has been impaired or a fund liability has been incurred.

Expenditures for compensated absences, including vacation and sick leave, are recognized when the fund liability is incurred for past services of an employee that vest and accumulate.

Fixed assets are recorded as capital outlays at the time of purchase.

Proceeds of long-term obligations are treated as a financing source when received.

The proprietary funds are accounted for on an accrual basis, whereby revenues are recognized when measurable and earned and expenses are recorded as liabilities when incurred, and, where applicable, depreciation expense is also included.

ERIC

Notes to General Purpose Financial Statements

Proprietary funds apply all GASB pronouncements, as well as the following pronouncements issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements: Statements and interpretations of the Financial Accounting Standards Board (FASB), Accounting Principles Board (APB) Opinions, and Accounting Research Bulletins (ARB's) on the Committee on Accounting Procedure.

# (d) Budgets and Budgetary Accounting

WCTC follows the procedures listed below in adopting the annual budget, which is legally required for all fund types, including proprietary and fiduciary funds. Budgets for all governmental fund types are reflected in the financial statements.

- (1) Public hearings are conducted on the proposed budget prior to WCTC Board approval.
- (2) Prior to July 1, the budget is legally enacted through approval by the WCTC Board.
- (3) The WCTC Board establishes the WCTC tax levy based on the adopted budget. Property taxes are then levied on the various taxing municipalities located primarily in Waukesha County. WCTC records as revenue its share of the local tax levied that is considered available during its fiscal year to finance its operations.
- (4) Budget amendments during the year are legally authorized. According to Wisconsin Statutes, budget transfers (between funds and functional areas within funds) and changes in budgeted expenditures (appropriations) require approval by a vote of two-thirds of the entire membership of the WCTC Board and require publishing a Class 1 public notice in the official newspaper designated by WCTC within 10 days. Management has the ability to modify the budget by expenditure category within function without WCTC Board approval.
- (5) Management exercises control over budgeted expenditures by fund and function (i.e., instruction, instructional resources, debt service, etc.), as presented in the accompanying financial statements. Expenditures may not legally exceed appropriations at the functional level unless authorized by a resolution adopted by a vote of two-thirds of the WCTC Board. Unused appropriations lapse at the end of each fiscal year.
- (6) Formal budgetary integration is employed as a planning device for all funds. WCTC adopts an annual operating budget which is prepared on substantially the same basis as the financial statements, which are prepared in accordance with GAAP, except budgetary expenditures include encumbrances, and budgetary revenues include all property taxes levied for the fiscal year. Expenditures (as reflected in the Statement of Revenues, Expenditures and Changes in Fund Balances Budget and Actual for the general fund, special revenue fund, and the capital projects fund) have been revised to include encumbrances. Revenues (as reflected in the Statement of Revenues, Expenditures, and Changes in Fund Balances Budget and Actual for the general fund and debt service fund) have been revised to include property tax revenues which have been deferred for GAAP reporting purposes (as such revenues are not considered available). Such adjustments have been made to present actual amounts on a budgetary basis which is consistent with the adopted budget. A comparison of budget and actual is included in the accompanying financial statements for governmental fund types based on budget amounts as originally adopted or amended by the WCTC Board. All individual amendments were legally authorized.

Notes to General Purpose Financial Statements

The following is a summary of modifications made to the resources and uses budgets for the year ended June 30, 1998 (in thousands):

|                       | Original budget  | Budget<br>modifications | Revised<br>budget |
|-----------------------|------------------|-------------------------|-------------------|
| <br>General fund      | \$<br>38,759,122 | 4,175,359               | 42,934,481        |
| Special revenue fund  | 6,540,250        | 724,338                 | 7,264,588         |
| Capital projects fund | 4,261,131        | 2,195,609               | 6,456,740         |
| Debt service fund     | 4,473,373        | 31,145                  | 4,504,518         |
| Proprietary fund      | 2,281,183        | 71,000                  | 2,352,183         |
| Fiduciary fund        | <br>3,483,001    | 115,000                 | 3,598,001         |

#### (e) Encumbrances

Encumbrance accounting (under which purchase orders, contracts, and other commitments for the expenditures of monies are recorded in order to reserve that portion of the applicable appropriation) is employed as an extension of formal budgetary integration in the general, special revenue, capital projects and expendable trust funds. Encumbrances outstanding at year-end are reported as reservations of fund balances since they do not constitute expenditures or liabilities.

# (f) Prepaid Expenditures

Prepaid expenditures represent payments made by WCTC for which benefits extend beyond June 30. A reserve for prepaid expenditures and inventories has been recognized to signify that a portion of fund balance is not available for other subsequent expenditures.

#### (g) Inventories

Inventories are valued at cost (for governmental fund inventories) or the lower of cost or market (enterprise funds) with cost determined on the first in, first out basis. The cost of inventory items in governmental and enterprise funds is recorded as an expenditure at the time of consumption.

# (h) Accumulated Unpaid Vacation, Sick Pay, Retirement Plan Amounts and Post-employment Benefits

Vacation – WCTC employees are granted vacation in varying amounts, based on length of service. Vacation earned is forfeited if not taken within twelve to fourteen months. Vacation pay is accrued as an expenditure in the governmental funds. The liability also includes salary-related payments, including social security taxes. Medicare taxes and pension plan contributions. The vested vacation pay liability at June 30, 1998, amounted to approximately \$334,879 plus related fringe benefits of \$62,455 for a total of \$397,334.

# **BEST COPY AVAILABLE**

Notes to General Purpose Financial Statements

Sick pay – As provided in the applicable negotiated contracts, sick leave is earned at the rate of one day per month with full-time instructors receiving two additional days at the beginning of each employees earn up to 14 sick days per year. Support staff employees earn up to 12 sick days per year. The unused portion of sick leave earned is allowed to accumulate up to 100 days except full-time instructors may accumulate up to 90 days. Upon retirement, resignation or death (and achieving fifteen years of service), employees receive a lump-sum payment for up to 36% of their unused sick leave at their current salary rate.

Costs related to employees' sick pay are accrued when the amounts are earned. At June 30, 1998, the total unused accumulated sick leave for all employees amounted to approximately \$6,516,339. However, only the probable amount of such sick leave compensation as of June 30 that ultimately will be paid, after taking into consideration a reduction in the amount for resignations or retirements, has been recorded in the accompanying financial statements. The liability also includes salary-related payments, including social security taxes, Medicare taxes and pension plan contributions. The current portion of this liability, \$618,412, plus related fringe benefits is recorded in the respective funds and the noncurrent portion of the liability, \$684,855, is recorded in the general long-term obligations account group.

Retirement Plans - WCTC employees participate in the Wisconsin Retirement System. All contributions made by WCTC on behalf of its employees are reported as expenditures when paid.

Post-employment Benefits - As provided in the applicable negotiated contracts, WCTC employees meeting a minimum age and length of service requirement may participate in WCTC's group health insurance plan until age 65 and in a Medicare supplement plan thereafter. WCTC bears the cost of the employee's participation up to the maximum amount it pays for active employees. Upon death of an employee and at the family's request, participation in WCTC's group health insurance plan may continue with WCTC paying the premiums for three months and the participant paying the premiums thereafter for a period equivalent to the employee's length of service. Substantially all full-time and certain part-time employees are eligible for this benefit. WCTC accounts for post-employment benefits by recording the portion related to expected payments to active plan participants (retired employees) as a liability in the general fund and by recording an estimated liability, based on an actuarial study completed in 1996, for the noncurrent portion related to retired employees in the long-term obligations account group. At June 30, 1998, there are 111 active plan participants and the benefits paid during the year ended June 30, 1998 aggregated approximately \$653,496. At June 30, 1998, WCTC has recorded the estimated noncurrent portion of the liability amounting to \$11,289,426 in the long-term obligations account group.

The actuarial study completed during 1998 also computed an estimated liability for active employees, as substantially all such employees are currently eligible for this benefit as noted previously. The liability amounted to approximately \$27,811,087 of which \$2,843,860 is for fully-eligible active employees. Such liability has not been recorded in the financial statements of WCTC as the provisions of SFAS No. 106 are not applicable to governmental entities such as WCTC and pending completion and issuance of a pronouncement by the GASB relating to accounting and reporting for post-employment benefits other than pensions.

Based on the actuarial study, the annual estimated cost per active employee is \$6,271 to cover the employee's post-employment benefits.

Notes to General Purpose Financial Statements

# (i) Land, Buildings, and Equipment

Costs incurred for the purchase or construction of general fixed assets are recorded as expenditures in the capital projects fund. All such costs which have a unit cost in excess of \$500 are capitalized in the general fixed assets account group. All fixed assets are valued at historical cost or estimated historical costs if actual historical cost is not available. Donated fixed assets are valued at their estimated fair market value on the date donated. Public domain (infrastructure) fixed assets have not been capitalized. Interest during construction of assets capitalized subsequent to July 1, 1980, is insignificant and has not been capitalized. Amounts expended for equipment in the enterprise funds are capitalized in the fixed asset accounts within each fund.

No depreciation is required or provided on the general fixed assets of WCTC. Depreciation on equipment and buildings are provided in the enterprise funds in amounts sufficient to relate the cost of the depreciable assets to operations over the estimated service lives on the straight-line basis. The enterprise fund's fixed assets are comprised of equipment with estimated service lives ranging from three to 20 years and the bookstore building with an estimated service life of 25 years.

# (j) Total Columns on General Purpose Financial Statements

Total columns on the financial statements are captioned "memorandum only" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations or cash flows in conformity with generally accepted accounting principles. Neither are such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of these data.

Comparative total data for the prior year have been presented in the accompanying financial statements in order to provide an understanding of changes in WCTC's financial position and operations. However, comparative data (by fund type) have not been presented in all statements because their inclusion would make certain statements unduly complex and difficult to understand.

# (k) Nature and Purpose of Reservations and Designations of Fund Balances

The reserves for encumbrances, prepaid expenditures and inventories are described in Note 1(e), 1(f) and 1(g), respectively. WCTC's reserve for student organizations and financial assistance represents a segregation of the fund balance which is reserved exclusively and specifically for financial aid to students and student organizations. The reserve for capital projects represents a segregation of fund balance designated by the WCTC Board for specifically planned capital outlays. WCTC's reserves for long-term post-employment benefits and sick pay liabilities represent segregations of fund balance for these respective noncurrent liabilities in accordance with the WTCS Financial Accounting Manual.

The amount designated for subsequent year budgeted expenditures represents a segregation of a portion of fund balance officially budgeted to be utilized to fund the projected excess of budgeted expenditures over revenues for the fiscal year ending June 30, 1998.

All year-end fund balance reservations and designations are formally approved by the WCTC Board.

ERIC Full Text Provided by ERIC

Notes to General Purpose Financial Statements

#### (l) State and Federal Revenues

WCTC receives state aid and funding from various federal contracts and grants. Some of these revenues are earned as expenditures are incurred. Such expenditures may be incurred during the grantor's fiscal period which may be different than that of WCTC's fiscal period and are subject to subsequent audit and adjustment by the appropriate governmental agencies. WCTC's management believes such adjustments, if any, would be immaterial.

# (m) Property Tax Levy and Taxes Receivable

Under Wisconsin law, personal property taxes and first installment real estate taxes are collected by city, village, and town treasurers or clerks who then make settlement with the county treasurer for certain purposes. Second and subsequent installment real estate taxes and delinquent taxes are collected by the county treasurer who then makes settlement with the city, village, and town treasurers before retaining any for county purposes. In practice, any delinquent real estate taxes are withheld from the county's share. Payments are due from the municipality by the 15th of the month following the due date based upon the municipality's payment plan. The first payment is due January 15 and the last payment is due August 15.

WCTC's property taxes are levied on or before October 31 on the equalized valuation as of the prior January 1. Property taxes are recognized as revenue in the fiscal year they are levied except for amounts relating to installments due after June 30, which are recognized as deferred revenue. As a result, a \$3,890,000 deferred tax revenue liability recorded as of June 30, 1998, will be available for use in 1998/99. GASB Interpretation No. 5 "Property Tax Revenue Recognition in Governmental Funds" was modified to no longer require deferral of property tax revenue by WCTC for the tax levies received after June 30. WCTC, along with the other 15 technical colleges, will be implementing this new regulation in the 1998/99 fiscal year. As a result, property taxes expected to be received within 60 days of June 30 will be recorded as revenue as opposed to deferred revenue. Historically, WCTC has received the majority of its property tax levy from municipalities by June 30 of the fiscal year for which the taxes were levied. However, a portion of property tax revenues is received after year-end because the final installments of real estate taxes and delinquent taxes can be paid by taxpayers after June 30. The county treasurers, acting as collection agents for WCTC, are required by law to settle all tax amounts due to WCTC on or before August 20, the tax lien date, following WCTC's year-end. Such settlement represents 100% of WCTC's tax levy and the counties assume the responsibility for any delinquent real estate taxes. WCTC is limited by state law to a property tax rate of \$1.50 per \$1,000 of equalized valuation (excluding tax incremental financing districts) for operations as determined by the State of Wisconsin Department of Revenue. WCTC's actual operational mill rate for the fiscal year ending June 30, 1998, was \$1.21. There is no cap on the debt service mill rate, however, there are state statutes limiting the amount of building construction a college can do without referendum. WCTC's actual debt service mill rate for the fiscal year ending June 30, 1998, was \$0.15.

Property taxes are recognized in the appropriate governmental funds as revenue in the year when they are available to finance District services. Property taxes levied by the District that are not expected to be collected before the related appropriations are to be funded are reflected as deferred revenues.

Based upon a unique state-approved agreement, Milwaukee Area Technical College levies property taxes on Ambrosia Chocolate, which is located within the WCTC district boundaries. A portion of these taxes are then forwarded to WCTC as its share based upon an agreement with the taxing districts. WCTC estimates this amount during its budgeting process. WCTC received \$10,417 for the year ended June 30, 1998.

Notes to General Purpose Financial Statements

# (2) WCTC Foundation, Inc.

WCTC is affiliated with WCTC Foundation, Inc. (Foundation) a not-for-profit corporation whose purpose is to solicit, hold, manage, invest and expend endowment funds and other gifts, grants, and bequests exclusively for the maintenance and benefit of WCTC.

# (3) Cash and Investments

WCTC maintains a cash pool available to the general, capital projects and debt service funds. Detailed records of each fund's balance are maintained and interest income is allocated based on each fund's relative balance. The student financial aid funds are maintained in a single bank account. Certain scholarship funds in the other expendable trust funds are maintained in a separate bank account.

To meet current obligations, the cash pool is maintained in overnight repurchase agreements and transferred to the master control bank account as needed. Excess funds of the overnight repurchase agreements are maintained in repurchase agreements and treasury bills.

State statutes authorize WCTC to invest in the following types of instruments: obligations of the U.S. Treasury and agencies; obligations of any Wisconsin county, city drainage district, WTCS district, village, town or school district; time deposits in any bank, trust company or savings and loan association which is authorized to transact business in this state, if the time deposits mature in not more than one year; State of Wisconsin Local Government Pooled Investment Fund (LGPIF); financial transactions (repurchase agreements) in which a public depository agrees to repay funds advanced to it by the local government plus interest, if the agreement is secured by bonds or securities issued or guaranteed as to principal and interest by the federal government; and any security which matures or which may be tendered for purchase at the option of the holder within not more than seven years of the date on which it is acquired, if that security is rated the highest or second highest rating category assigned by a nationally recognized rating agency.

WCTC has adopted an investment policy which restricts investments to time deposits that mature in not more than one year, U.S. Treasury obligations, repurchase agreements, LGPIF, Wisconsin School District Liquid Asset Fund, and other high grade securities, with prior approval of the Board and which comply with State Statute 66.04(a).

At June 30, 1998, and throughout the year all available funds of WCTC were insured or were fully collateralized by U.S. Treasury obligations held by WCTC's independent agent in WCTC's name. At June 30, 1998, the carrying value was (\$663,067) for bank deposits and related bank balances were \$24,054. As noted above, funds are swept from overnight repurchase agreements and transferred to the master control bank account as items are presented for payment.

Notes to General Purpose Financial Statements

WCTC's investments are categorized below to illustrate the level of credit risk assumed by WCTC at June 30, 1998. Category 1 includes deposits that are insured by federal depository insurance or registered, or securities held by WCTC or WCTC's agents in WCTC's name. Category 2 includes deposits that are uninsured and unregistered with securities held by the bank's trust departments or agents in WCTC's name. Category 3 includes deposits that are uninsured and unregistered with securities held by the bank or the bank's trust department or agent but not in WCTC's name.

|                                  | Cat           | egory |   |                    |               |
|----------------------------------|---------------|-------|---|--------------------|---------------|
|                                  | 1             | 2     | 3 | Carrying<br>Amount | Fair<br>Value |
| Investments: U.S. Treasury Bills | \$ 11,863,096 | _     | _ | 11,863,096         | 11,863,096    |
| Overnight repurchase agreements  | 6.022.076     |       | _ | 6.022,076          | 6,022,076     |
| Total investments                | \$ 17.885.162 | _     | _ | 17,885,162         | 17,885,162    |

During the year ended June 30, 1998, WCTC implemented GASB Statement No. 31 "Accounting and Financial Reporting for Certain Investments and External Investment Pools," which establishes accounting and financial reporting standards for investments held by governmental entities. There was no effect of this implementation upon beginning fund balances and retained earnings. Effective June 30, 1998, WCTC did not have any investments with maturities greater than three months, as a result, the investments were recorded at cost.

For purposes of the statements of cash flows, WCTC considers all investments with an original maturity of three months or less to be cash equivalents, which would include any investment balances allocated to the enterprise funds from the commingled investments of WCTC (no such amounts were allocated at June 30, 1998).

#### (4) Changes in Fixed Assets

The following is a summary of changes in general fixed assets for the year ended June 30, 1998:

|                        |    | Balance<br>July 1,<br>1997 | Additions | Disposals  | Balance<br>June 30,<br>1998 |
|------------------------|----|----------------------------|-----------|------------|-----------------------------|
| Land                   | \$ | 591.345                    | _         | _          | 591.345                     |
| Land improvements      | •  | 3,073,618                  | 93,542    | <u>-</u>   | 3,167,160                   |
| Buildings              |    | 7,109,304                  | _         | 492,785    | 6,616,519                   |
| Building improvements  |    | 5.420,029                  | 193,479   | ´ <b>-</b> | 5,613,508                   |
| Movable equipment      |    | 15,969,957                 | 3,011,935 | 1,115,502  | 17,866,390                  |
| Leasehold improvements |    | <u> </u>                   | 2,630     | <u> </u>   | 2.630                       |
|                        | \$ | 32.164.253                 | 3,301,586 | 1,608,287  | 33,857.552                  |

Notes to General Purpose Financial Statements

Proprietary fund type (enterprise) property, plant and equipment at June 30, 1998, consisted of a building at a cost of \$488,446 with accumulated depreciation \$70,011 and equipment at a cost of \$141,693 with accumulated depreciation of \$73,770 resulting in a net book value of \$486,358.

# (5) General Long-term Obligations

Outstanding general long-term obligations consisted of the following at June 30, 1998:

| 1989 general obligation promissory notes, with interest of 5.85% – 8%, \$50,000 due annually on December 1, final maturity in December 1999                  | (a)  | \$ | 100,000    |
|--|------|----|------------|
| 1993 general obligation promissory notes, with interest of 2.6% – 4.0%, varying amounts due annually on October 1, final                                     | (=)  | •  | ·          |
| maturity in October 2000<br>1993 general obligation promissory notes, with interest of   | (b)  |    | 660,000    |
| 3.1% – 3.5%, \$100.000 due annually on October 1, final maturity in October 1998   | (c)  |    | 100,000    |
| 1994 general obligation promissory notes, with interest of 3.6% – 4.45%, varying amounts due annually on April 1 and   | (d)  |    | 720,000    |
| October 1, final maturity in April 1999 1995 Public Trust Fund loan with interest of 5.5%, varying amounts due annually on March 15, final maturity in March | (u)  |    | 720,000    |
| 1999 1996 general obligation promissory notes with interest of 5.5% –  | (e)  |    | 135,906    |
| 4.7%, varying amounts due annually on October 1, final maturity October, 1999  | (f)  |    | 900,000    |
| 1997 general obligation promissory notes with interest of 4.55% – 4.75%, varying amounts due annually on May 1, final maturity May, 2000                     | (g)  |    | 465,000    |

Notes to General Purpose Financial Statements

- (a) The General Obligation Promissory Notes dated December 1, 1989, were issued for \$500,000 to finance continuing expenditures on equipment and construction, remodeling, and improvement projects. Semi-annual interest payments are to be made on June 1 and December 1 of each year. The notes are payable to Firstar Bank and F&M Bank.
- (b) The General Obligation Promissory Notes dated June 1, 1993, were issued for \$3,180,000 to advance refund \$2,515,000 of outstanding notes and \$665,000 to finance continuing expenditures on equipment and construction, remodeling, and improvement projects. Semi-annual interest payments are to be made on April 1 and October 1 of each year. The notes are payable to Firstar Bank.
- (c) The General Obligation Promissory Notes dated October 1, 1993, were issued for \$500,000 to finance continuing expenditures on equipment and remodeling projects. Semi-annual interest payments are made on April 1 and October 1 of each year. The notes are payable to Cede & Co.
- (d) The General Obligation Promissory Notes dated June 1, 1994, were issued for \$4,500,000 to finance continuing expenditures on equipment, remodeling, and improvement projects. Semi-annual interest payments are made on April 1 and October 1 of each year. The notes are payable to First Chicago.
- (e) The Public Trust Fund loan dated February 8, 1995, was issued for \$500,000 to finance continuing expenditures on remodeling projects. Annual interest payments are made on March 15 of each year. The loan is payable to the State of Wisconsin Board of Commissioners of Public Lands.
- (f) The General Obligation Promissory Notes dated October 1, 1996 were issued for \$2,700,000 to finance remodeling projects and capital equipment. Semi-annual interest payments are made on October 1 and April 1 of each year. The notes are payable to Piper Jaffrey, Inc.
- (g) The General Obligation Promissory Notes dated May 1, 1997 were issued for \$690,000 to finance remodeling and site improvement projects. Semi-annual interest payments are made on October 1 and April 1 of each year. The notes are payable to Piper Jaffrey, Inc.
- (h) The General Obligation Promissory Notes dated June 15, 1997 were issued for \$570,000 to finance remodeling and site improvement projects. Semi-annual interest payments are made on October 1 and April 1 of each year. The notes are payable to Robert W. Baird and Co., Inc.
- (i) The General Obligation Promissory Notes dated November 1, 1997 were issued for \$3,180,000 to finance capital equipment, remodeling, and site improvement projects. Semi-annual interest payments are made on October 1 and April 1 of each year. The notes are payable to Shockley Erley & Co.
- (j) The General Obligation Promissory Notes dated June 1, 1998, were issued for \$560,000 to finance remodeling and site improvement projects. Semi-annual interest payments are made on October 1 and April 1 of each year. The notes are payable to Banc One Capital Markets, Inc.

Notes to General Purpose Financial Statements

Aggregate maturities and interest of the general obligation debt is as follows:

|      |    | General Obligation Debt |          | Total        |  |
|------|----|-------------------------|----------|--------------|--|
|      |    | Principal               | Interest | requirements |  |
| 1999 | \$ | 3,455,906               | 303,923  | 3,759,829    |  |
| 2000 | •  | 3,105,000               | 154,016  | 3,259,016    |  |
| 2001 |    | 405,000                 | 22,611   | 427,611      |  |
| 2002 |    | 125,000                 | 5,562    | 130,562      |  |
|      | \$ | 7,090,906               | 486,112  | 7,577,018    |  |

Wisconsin Statutes limit the total debt of WCTC to 5% of equalized valuation of taxable property within WCTC's area and limit bonded indebtedness to 2% of equalized valuation. At June 30, 1998, WCTC's debt limit was \$1,193,040,656 and its bonded debt limit was \$477,216,262; WCTC could borrow an additional \$1,185,949,750 and \$470,143,306, respectively.

The following is a summary of the changes in long-term obligations for the year ended June 30, 1998:

| Balance, July 1, 1997 Debt payments – general obligation promissory notes Debt issuances Net increase in sick pay liability Payment – unfunded pension liability Net increase in post-employment liability | \$ 19,350,825<br>(4,118,821)<br>3,740,000<br>4,271<br>(1,771,971)<br>1,860,883 |

| Total assets             | 175             | 956,577   | 12,840                     | 35,953          | 100,426           | 1,105,971                    |

Notes to General Purpose Financial Statements

The Classic Room and Child-Parent Center have accumulated deficits of \$2,939 and \$15,283, respectively. They plan on doing more marketing of their programs to increase revenue as well as look at ways to reduce expense in order to reduce their deficits.

# (8) Retirement Plan

All eligible WCTC employees participate in the Wisconsin Retirement System (System), a cost-sharing multiple-employer defined benefit public employee retirement system (PERS). All permanent employees expected to work over 600 hours a year (440 for teachers) are eligible to participate in the System. Covered employees in the General/Teacher category are required by statute to contribute 6.4% of their salary to the plan. Employers may make these contributions to the plan on behalf of the employees. Employers are required to contribute an actuarially-determined amount necessary to fund the remaining projected cost of future benefits. The entire cost of the contribution is borne by WCTC according to negotiated labor agreements.

The payroll for WCTC employees covered by the system for the year ended December 31, 1997 was \$24,023,978; the employer's total payroll was \$26,354,802. The total required contribution for the year ended December 31, 1997, was \$3,002,997 which consisted of \$1,465,463 for the employer's share and \$1,537,535 for the employees' share; these contributions represented 6.1% and 6.4% of covered payroll, respectively. Total contributions for the years ending December 31, 1996 and 1995 were \$2,953,630 and \$2,534,203 respectively, equal to the required contributions for each year.

Employees who retire at or after age 65 are entitled to receive a retirement benefit. Employees may retire at age 55 and receive actuarially reduced benefits. Retirement benefits are calculated as 1.6% of final average earnings for each year of creditable service. Final average earnings is the average of the employee's three highest years' earnings. Employees terminating covered employment before becoming eligible for a retirement benefit may withdraw their contributions and, by doing so, forfeit all rights to any subsequent benefits. For employees beginning participation on or after January 1, 1990 and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998 are immediately vested.

The System also provides death and disability benefits for employees. Eligibility for and the amount of all benefits is determined under Chapter 40 of the Wisconsin State Statutes. The System issues an annual financial report which may be obtained by writing to the Department of Employee Trust Funds, P.O. Box 7931, Madison, WI 53707-7931.

The System utilizes the Entry Age Normal with Frozen Initial Liability actuarial method in establishing employer contribution rates. Under this method, the unfunded actuarial accrued liability is affected only by the monthly amortization payments, compound interest, the added liability created by new employer units, and any liabilities caused by changes in benefit provisions. All actuarial gains or losses arising from the difference between actual and assumed experience are reflected in the determination of the normal cost. The unfunded liability is being amortized over a 40-year period beginning January 1, 1990. Historical trend information showing the System's progress in accumulating sufficient assets to pay benefits is presented in the System's annual financial report. The unfunded liability, as determined by the System, for WCTC as of December 31, 1997, was \$(285,466) or (0.013%) of the total system liability of approximately \$2.14 billion.

Notes to General Purpose Financial Statements

During this fiscal year WCTC made a \$1,771,971 lump sum payment to reduce the unfunded liability to \$-0-. As a result, effective January 1, 1998, WCTC's required contribution decreased 1.1%.

# (9) Reconciliation of Actual-to-Budgetary Basis

The accompanying Combined Statement of Revenues, Expenditures and Changes in Fund Balances – Budget (Non-GAAP Budgetary Basis) and Actual – All Governmental Fund Types presents comparisons of the legally adopted budget (as described in note 1) with actual data on the budgetary basis. Because accounting principles applied for purposes of developing data on a budgetary basis differ significantly from those used to present financial statements in conformity with GAAP, a reconciliation of resultant basis and timing differences in the excess (deficiency) of revenues over expenditures for the year ended June 30, 1998, is presented below:

|  | (      | General<br>Fund           | Special<br>Revenue<br>Fund | Capital<br>Projects<br>Fund |
|--|--------|---------------------------|----------------------------|-----------------------------|
| Excess (deficiency) of revenues over expenditures (budgetary basis)                      | \$ (96 | 64,176)                   | (283,260)                  | (5,581,839)                 |
| Adjustments:  To adjust revenues for  property tax deferrals  To adjust for encumbrances |        | 47,000<br>01, <b>8</b> 40 | _<br>40,939                | _<br>1,686,329              |
| Excess (deficiency) of revenues over expenditures (GAAP basis)                           | \$ (1) | 15,336)                   | (242,321)                  | (3,895,510)                 |

## (10) Commitments and Contingencies

#### (a) Operating Leases

WCTC leases certain facilities from Judson and Associates, S.C. for use in the Auto Body and Paint Technician program. In addition, WCTC has entered into a lease with the WCTC Foundation to lease the Morris Street building, which houses the Child-Parent Center and other programs, and to lease space in the Workforce Development Center, which opened January 1, 1995.

Other operating leases include Menomonee Falls Campus and New Berlin Campus.

67

Notes to General Purpose Financial Statements

Total lease expenditures for the year ended June 30, 1998, amounted to \$275,269 plus operating costs. Total future minimum lease payments are as follows:

| Year ended June 30 | Amount     |
|--------------------|------------|
| 1999               | \$ 224,472 |
| 2000               | 182,591    |
| 2001               | 172,836    |
| 2002               | 149,825    |
| 2003               | 96,797     |
| Thereafter         | 69,125     |
|                    | \$ 895,646 |

#### (b) Arbitration

WCTC is currently in arbitration involving claims by the faculty association that certain faculty instructors were not compensated in accordance with the collective bargaining agreement. These claims cover multiple years and also have implications for current and future instructional costs. The issues are very complex involving a complicated compensation system and a long collective bargaining history dating back to 1969. At this point in time, management is unable to determine the outcome of the arbitration and the related financial ramifications.

# (c) Claims and Other Legal Proceedings

From time to time WCTC is party to various pending claims and legal proceedings. Although the outcome of such matters cannot be estimated with certainty, it is the opinion of management and appropriate legal counsel that the likelihood is remote that any such claims or proceedings will have a material adverse effect on WCTC's financial position or results of operations.

# (11) Risk Management

To manage the various risks, WCTC has purchased insurance policies for property, general liability, crime, professional liability, educators' legal liability, auto, excess liability, and workers' compensation. At June 30, 1998, WCTC was insured for the following loss limitations:

- Property Boiler and Machinery: \$522,441,509 blanket coverage all locations and contents, \$1,000 deductible property. \$5.000 deductible boiler and machinery
- General Liability: \$1,000,000 per occurrence. \$2,000,000 aggregate per location including Tiny Tech
- Professional Liability: \$1,000 deductible, \$3,000,000 aggregate, \$1,000,000 aggregate employee benefits liability
- Crime: \$1,000 deductible: \$750.000 employee dishonesty, computer fraud, forgery, and funds transfer fraud, \$500.000 theft, robbery, burglary
- Educators Legal Liability: \$5,000,000 per occurrence, directors, officers, and employees, \$25,000 deductible (\$15,000.000 per policy period)
- Auto: \$1,000,000 per accident, \$1,000 collision and comprehensive

Notes to General Purpose Financial Statements

- Excess Liability: \$50,000,000 excess over general liability, benefit, professional liability, product liability
- Workers' Compensation: Workers' compensation statutory

Settled claims did not exceed the insurance coverage during the policy period of July 1, 1997, through June 30, 1998, nor did claims exceed the insurance coverage during the prior two fiscal years. Governmental Accounting Standards Board Statement No. 10 requires a liability for claims be reported if information indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. WCTC has not recorded a liability because there are no known claims pending that are probable and can be reasonably estimated.

# (12) Year 2000 Issue (Unaudited)

The year 2000 issue is the result of shortcomings in many electronic data processing systems and other equipment that make operations beyond the year 1999 troublesome. For many years programmers eliminated the first two digits from a year when writing programs. Many programs, if not corrected, will not be able to distinguish between the year 2000 and the year 1900. This may cause the programs to process data incorrectly or to stop processing data altogether. In addition, some programs will be unable to detect the year 2000 as a leap year.

WCTC is aware of this issue. For the past three years WCTC has been migrating all of its administrative software systems to a purchased system in order to increase functionality as well as being year 2000 compliant. The software vendor claims this software is now year 2000 compliant. WCTC has spent more than \$2.000,000 over the past three years on this initiative. In addition, WCTC is reviewing all other systems and equipment as well as contacting its critical vendors to insure, to the best of its ability that WCTC will be year 2000 compliant. WCTC plans on having these initiatives completed by June, 1999.

69

Combining, Individual Fund and Account Group Financial Statements and Schedules

# **General Fund**

The general fund is the primary operating fund of WCTC and receives most of its revenue from local sources. It is used to account for all the financial resources except those required to be accounted for in another fund.

General Fund Balance Sheet

June 30, 1998

(with comparative totals for June 30, 1997)

## Proprietary Fund Type—Enterprise Funds

Enterprise funds are used to account for (1) operations that are financed and operated in a manner similar to a private business enterprise where the intent of WCTC is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges and (2) the WCTC Board has decided that periodic determination of revenues earned and expenses incurred is appropriate for management control and accountability. The following enterprise funds are used by WCTC:

Classic Room Fund—This fund is used to account for the operations of WCTC's Classic Room, an oncampus restaurant run by students.

Bookstore Fund—This fund is used to account for the operations of WCTC's bookstore.

Child-Parent Center Fund—This fund is used to account for the operations of WCTC's child care center.

Laser Center—This fund is used to account for the operations of WCTC's laser center.

Other Services—This fund is used to account for the operations of other enterprise activity such as customer assistance, auto body, dental hygiene, international videos and home furnishings.

## Note:

(a) The Wisconsin Technical College System's Financial Accounting Manual requires this schedule.

## **Fiduciary Fund Types**

Fiduciary funds are used to account for assets held by WCTC in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds. The measurement focus of the expendable trust funds is the same as governmental funds; therefore, expendable trust funds are maintained on the modified accrual basis of accounting. The nonexpendable trust funds are maintained on the accrual basis of accounting as the measurement focus of these funds is similar to proprietary funds. Agency funds are custodial in nature (assets equal liabilities), do not involve measurement of results of operations, and are maintained on the modified accrual basis of accounting.

Expendable Trust Funds—The expendable trust funds are used to account for assets held by WCTC in a trustee capacity, primarily for student financial aids and other student activities.

Agency Fund—The agency fund accounts for assets held in trust by WCTC as an agent for the Student Clubs, Volunteer Service Organization, and grantor agencies.

Note: (a) The Wisconsin Technical College System's Financial Accounting Manual requires this schedule.

## General Fixed Assets Account Group

General fixed assets are fixed assets of WCTC not used in proprietary fund operations or accounted for in trust funds. WCTC has elected not to provide depreciation on the assets included in the general fixed assets account group. All assets are included at historical cost, estimated historical cost or fair market value if donated.

Fixed Assets Account Group – Schedule of General Fixed Assets – By Sources

June 30, 1998

| General fixed assets (a):                               |               |
|---|---------------|
| Land  | \$ 591,345    |
| Land improvements                                       | 3,167,160     |
| Buildings   | 6,616,519     |
| Building improvements                                   | 5,613,508     |
| Leasehold improvements                                  | 2,630         |
| Equipment   | 17,866,390    |
| Total   | \$ 33,857,552 |
| Investment in fixed assets from: Capital projects fund: |               |
| Debt proceeds   | \$ 29,112,689 |
| Federal grants  | 212,857       |
| Investment income                                       | 2,792,297     |
| Property tax levy                                       | 510,278       |
| Donations   | 974,902       |
| State grants  | 254,529       |
| Total   | \$ 33,857,552 |

Note: (a) Because all of WCTC's general fixed assets are devoted to the activities related to providing vocational, technical, and adult education within WCTC, separate function and activity general fixed assets schedules have not been presented.

## **General Long-Term Obligations Account Group**

This account group is used to account for all general long-term obligations and indebtedness of WCTC. Payments on such general obligation indebtedness are made from the debt service fund.

## Notes:

(a) The operational funds include the general and special revenue funds.

(b) In 1989, WCTC changed its method of recognizing property tax revenue which resulted in the deferral of the entire 1989 debt service tax levy.

## Notes:

- (a) Student enrollment represents the unduplicated count of citizens enrolled in WCTC courses.
- (b) A full-time equivalent (FTE) is basically equal to 30 annual student credits based on a mathematical calculation which varies somewhat by program and which is subject to state approval and audit of student and course data.
- (c) In 1996 the state separated transcripted credits from other aid categories. The District receives no FTE's for transcripted credits. Transcripted credits are college credits high school students earn while still in high school.
- (d) Effective with school year 1997/1998, the state separated non-post secondary activity from vocational diploma activity.

## Notes:

- (a) Property taxes are levied by WCTC in governmental type funds (and expendable trust funds beginning in 1991).
- (b) Under Wisconsin law, personal property taxes and first installment real estate taxes are collected by city, village, and town treasurers or clerks, who then make settlement with the county treasurer for certain purposes. Second installment real estate taxes and delinquent taxes are collected by the county treasurer who then makes settlement with city, village, and town treasurers or clerks before retaining any for county purposes. In practice, any delinquent real estate taxes are withheld from the county's share. Therefore, WCTC receives 100% of its levy upon receipt of settlement from the County Treasurer, although the taxes collected as a percentage of total tax levy will vary in any given fiscal year due to timing of payments received from municipalities.

## Notes:

- (a) Due to varying assessment policies in the municipalities contained in the district, WCTC uses equalized value of taxable property, excluding tax incremental districts, for tax levy purposes. This equalized value of property approximates actual (full) value of taxable property in the State of Wisconsin.
- (b) Property tax rates are shown per \$1,000 of equalized value.

Property Tax Rates (a) – Direct and Overlapping Governments (Per \$1,000 of Equalized Value of Taxable Property) – Historical Comparisons

## Notes:

- (a) Source—Wisconsin Department of Revenue.
- (b) Includes general obligation promissory notes, which are included in WCTC's general obligation indebtedness.
- (c) Bonded indebtedness may not exceed 2% of equalized valuation. For fiscal 1997, the computation of legal debt margin is as follows:

| Equalized valuation  | \$<br>23,860,813,120<br>x 2% |
|--|------------------------------|
| Debt limit—2% of total equalized valuation   | 477,216,262                  |
| Gross bonded indebtedness applicable to debt limit (b) \$ 7,090,906 Less debt service fund assets available 17,950 |                              |
| Total amount of debt applicable to debt limit  | 7,072,956                    |
| Legal debt margin  | \$<br>470,143,306            |

- (d) Total debt may not exceed 5% of equalized valuation.
- (e) Debt service fund assets available and the net bonded debt statistics were significantly impacted by the 1991 change in accounting for property tax revenue recognition and a budgeted decrease in debt service fund balance. Historical comparisons for these statistics have not been retroactively adjusted.

## Notes:

- (a) Based on a survey of WCTC's graduates conducted approximately six months after graduation, therefore, 1997 statistics are not available. Statistics include graduates of WCTC's postsecondary vocational-technical programs. This data does not reflect the activities of students who complete only portions of their program.
- (b) Includes graduates of six apprenticeship programs.

**Student and Campus Statistics** 

## **Our Students**

Our students ranged in age from 12-98, with an average age of 37.3 years, and represented diverse socio-economic backgrounds. Approximately 68% of our former students live in our taxing district after graduation of which 53% are employed in our district. Of those 1997 graduates who are in the labor market, approximately 97% are employed; about 80% of our students are employed within the program area from which they graduated.

# **Our Campuses**

In addition to the main campus in Pewaukee, WCTC operates six other campuses where full-time staff are assigned. Campus locations and square footages are summarized as follows:

| Campus   | Location   | Square<br>Footage |
|--|--|-------------------|
| Main Campus  | 800 Main Street, Pewaukee                                | 381,038           |
| Waukesha Campus  | 327 E. Broadway, Waukesha                                | 25,098            |
| Menomonee Falls Campus   | N84W16579 Menomonee Avenue                               | •                 |
|  | Menomonee Falls  | 2,282             |
| Collision Technology Center/Sky Plaza                                | 2110 Pewaukee Road, Waukesha                             | 12,960            |
| Workforce Development Center<br>Morris Street/Tiny Tech Child-Parent | 892 Main Street, Pewaukee                                | 15,361            |
| Center New Berlin Campus   | 357 Morris Street, Pewaukee<br>16680 W. Cleveland Avenue | 10,500            |
|  | New Berlin, WI   | 1,600             |

WCTC also uses area schools, churches and hospitals to conduct classes.

**Employee Statistics** 

# Other Employees

WCTC utilizes qualified full-time and part-time employees to maintain its staffing flexibility and responsiveness. Likewise, part-time instructors, who are actively employed in the fields in which they teach, are an important factor in maintaining an educational environment consistent with current work environments. Employee head count, by type, is presented in the following tabulation:

|   | 1998(a) | 1997(a) |
|---|---------|---------|
| Full-time instructors                           | 155     | 148     |
| Part-time instructors                           | 701     | 666     |
| Counselors                                      | 10      | 10      |
| Full-time management and professional employees | 88      | 84      |
| Full-time classified employees                  | 159     | 152     |
| Student employees                               | 100     | 88      |
| Full-time limited-term employees                | 20      | 20      |
| Part-time limited-term employees                | 16      | 14      |
| Other (primarily part-time)                     | 124     | 139     |
| Total   | 1,373   | 1,321   |

# Note:

(a) Represents a headcount at June, 1998 and 1997.

Statutory Mission and Goals

WCTC is a post-secondary school which offers specific occupational training below the baccalaureate level. WCTC provides quality education to the Waukesha County area and is a regional, national and international resource.

WCTC is responsible for the initiation, development and maintenance of programs with specific occupational orientation, including technical associate degrees, training of apprentices, and adult education.

The following Ends Statements provide direction and focus for the activities of WCTC:

- Occupational Competency Students have skills needed to obtain entry-level jobs or have upgraded skills in their area.
- Critical Life Skills Adults who are self-directed learners/workers and who possess communication, analytical, group effectiveness, and personal management skills.
- Educational Leadership WCTC is a student learning-centered organization serving as a local, regional, national, and international educational resource and role model.
- Organizational Productivity WCTC is a productive, humanistic, and improving organization.
- Economic Development Economic development is possible through the collaborative efforts of WCTC along with other organizations.

Degree/Diploma Program Offerings

# **Our Offerings**

Our offerings cover a wide spectrum in postsecondary education from Adult Basic Education to Technical Associate Degree Programs and many areas in between. We offer the following degree and diploma programs:

# **Academic Support Division**

Custodial Services

## **Business Occupations Division**

- Accounting
- · Accounting Assistant
- Administrative Assistant Secretarial
- Computer Information Systems Microcomputer Specialist
- Computer Information Systems Programmer/Analyst
- Fashion Marketing
- Financial Planning Associate
- Insurance Services Associate
- International Trade Associate
- Marketing
- Mortgage Lending
- Property Appraisal/Assessment
- Property Management Associate
- Real Estate Brokerage
- Retail Management
- Supervisory Management

## **Industrial Occupations Division**

- Architectural Drafting/Construction Technology
- Auto Body and Paint Technician
- Automotive Maintenance Technician
- Automotive Technology (GM-ASEP)
- Electrical/Electronic Drafting and Design
- Electronic Servicing
- Electronics
- Industrial Engineering Technician
- Industrial Maintenance Mechanic
- · Industrial Supervision
- Machine Tool Operation
- Manufacturing Engineering Technician
- Materials Planning and Control Technician
- Mechanical Design and Computer Drafting
- Networking/Telecommunications

- · Custodial Services
- Office Equipment Repair
- Quality Assurance Technician
- Tool and Diemaking
- Welding

### **Service Occupations Division**

- Alcohol and Other Drug Abuse Associate
- Central Service Technician
- Child Care and Development
- Culinary Management
- Dental Hygienist
- Emergency Medical Technician (Basic and Intermediate)
- Fire Protection Technician (a)
- Food Service Production
- Health Unit Coordinator
- Hospitality and Tourism Management
- Instructional Assistant
- Interior Design
- Medical Assistant
- Medical Transcription
- Nursing Associate Degree
- Nursing Assistant
- Police Science Technology
- School Food Service Assistant
- · Surgical Technician

## **Advanced Technical Certificates**

- AS/400 Systems
- Desktop Publishing
- Die Design
- Importing
- Internet/Intranet Development
- Mold Design
- Networking
- Object Oriented Programming
- Quality Improvement Process Specialist
- Telecommunication

## Notes:

WCTC also offers many non-degree program courses and seminars to meet the needs of businesses and citizens in the WCTC taxing district.

(a) This program is offered by Fox Valley Technical College in our District through distance learning technology.

# WAUKESHA COUNTY TECHNICAL COLLEGE

# Single Audit Section

# **Single Audit Section**

The Single Audit Act Amendments of 1996 mandates independent financial and compliance audits of the federal financial assistance programs. The State of Wisconsin also stipulates that grantees who are required to have a federal single audit completed must include selected state financial assistance programs in the scope of the single audit. In addition to the required auditors' reports, the schedule of expenditures of federal and state awards and accompanying notes and schedule of findings and questioned costs are provided to support the requirements for compliance with OMB Circular A-133 and State of Wisconsin Single Audit Guidelines. The schedules provide more detailed financial information related to grant activity and other revenue. Because the State of Wisconsin has not adopted the provisions of the Single Audit Act Amendments of 1996, the Single Audit Section contains separate reports for federal and state awards.

777 East Wisconsin Avenue Milwaukee, WI 53202

# Independent Auditors' Report on Schedule of Expenditures of Federal and State Awards

Board of Directors Waukesha County Area Technical College District:

We have audited the general purpose financial statements of the Waukesha County Area Technical College District (WCTC) as of and for the year ended June 30, 1998, and have issued our report thereon dated October 2, 1998. These general purpose financial statements are the responsibility of the management of WCTC. Our responsibility is to express an opinion on these general purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the provisions of the State of Wisconsin *Single Audit Guidelines* issued by the Wisconsin Department of Administration. Those standards and provisions require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Our audit was made for the purpose of forming an opinion on the general purpose financial statements of WCTC taken as a whole. The accompanying schedule of expenditures of federal and state awards for the year ended June 30, 1998, which is also the responsibility of the management of WCTC, is presented for purposes of additional analysis and is not a required part of the general purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly stated in all material respects, in relation to the general purpose financial statements taken as a whole.

KPMG Peat Marinich CLP

(b) Program has not been assigned a CFDA or State Identification Number (c) Contract is sum sufficient.

Notes to Schedule of Expenditures of Federal and State Awards

June 30, 1998

# (1) Scope of Review

The Waukesha County Technical College District Board oversees the operation of Waukesha County Technical College (the College or the District) under the provisions of Chapter 38 of the Wisconsin Statutes. The District includes the majority of Waukesha County and portions of Jefferson, Dodge and Racine Counties and the local municipalities located therein. Activities of the District are subject to the audit requirements contained in the scope of the Office of Management and Budget Circular No. A-133 Audits of States, Local Governments, and Non-Profit Organizations.

# (a) Programs Subject to Single Audit

Federal awards received by the District (either directly from the federal government or passed through the State of Wisconsin) and awards received from the State of Wisconsin have been included in the schedule of expenditures of federal and state awards.

The following amounts were not included on the schedule of expenditures of federal and state awards as no monies were received or expended by WCTC. However, the program is included in the scope of the Single Audit within the Student Financial Assistance cluster:

| Program   | Payments    |
|---|-------------|
| Stafford Loans  | \$1,039,864 |
| Parental Loans for Undergraduate Students (WCTC Disbursements Only) | 3,840       |
| Total Federal Family Education Loan Program                         | \$1,043,704 |

# (2) Summary of Significant Accounting Policies

In the accompanying schedule of expenditures of federal and state awards, expenditures are presented in conformity with generally accepted accounting principles.

144

Notes to Schedule of Expenditures of Federal and State Awards

# (3) Schedule of Subrecipient Awards

The following schedule is a summary of federal and state awards which have been passed through to subrecipients:

|   | Federal<br>CFDA | State<br>Identification | Evnen                 | ditures |
|---|-----------------|-------------------------|-----------------------|---------|
| Program/Subrecipient                                      | Number          | Number                  | Federal               | State   |
| JTPA Title III High Wage Dislocated Workers               | 17.246          |                         |                       |         |
| Waukesha-Ozaukee-Washington                               |                 |                         | <b># 221 2</b> 21     |         |

Schedule of Findings and Questioned Costs

For the year ended June 30, 1998

### I. Summary of Auditors' Results

- The type of opinion issued on the general purpose financial statements of Waukesha County Technical College (WCTC): Unqualified.
- Reportable conditions in internal controls were disclosed by the audit of the general purpose B. financial statements. No. Material weaknesses: No.
- Noncompliance with laws, regulations and the provisions of contracts and grant agreements that is material to the general purpose financial statements: No.
- Reportable conditions in internal controls over major programs: No. Material weaknesses: D. No.
- E. The type of opinion issued on WCTC's compliance with the types of compliance requirements applicable to its major federal programs: Unqualified.
- The type of opinion issued on WCTC's compliance with the types of compliance requirements applicable to its major state programs: Unqualified.
- Instances of noncompliance which relate to federal awards that are required to be reported in accordance with Section .510 of OMB Circular No. A-133: None.
- H. Major federal programs for WCTC for the fiscal year ended June 30, 1998 are:

| Program Name  | CFDA # |
|---|--------|
| Employment and Training Assistance – Dislocated Workers (JTPA Title III)            | 17.246 |
| Adult Education State Grant Program   | 84.002 |
| Student Financial Assistance Cluster – Federal Supplemental Educational Opportunity |        |
| Grant Program   | 84.007 |
| Federal Family Education Loan Program   | 84.032 |
| Federal Work Study  | 84.033 |
| Federal Pell Grant Program  | 84.063 |
| School-to-Work Opportunities Act of 1994  | 84.278 |

| Program Name                             | State<br>Identification<br># |
|--|------------------------------|
| State Aids for Vocational, Technical and |                              |
| Adult Education                          | 292.105                      |
| State Incentive Grants                   | 292.112                      |
| Wisconsin Higher Education Aids Board    | 235.106                      |

Dollar threshold for determining Type A programs for WCTC: \$300,000.

WCTC qualified as a low risk auditee under Section .530 of OMB Circular No. A-133: Yes.

# Report on Compliance and on Internal Control Over Financial Reporting Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

Board of Directors Waukesha County Area Technical College District:

We have audited the general purpose financial statements of Waukesha County Area Technical College District (WCTC) as of and for the year ended June 30, 1998 and have issued our report thereon dated October 2, 1998. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether WCTC's general purpose financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under Government Auditing Standards.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered WCTC's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting that we have reported to management of WCTC in a separate letter dated October 2, 1998.

This report is intended for the information of management of WCTC and federal awarding agencies and pass-through entities. However, this report is a matter of public record and its distribution is not limited.

# Report on Compliance with Requirements Applicable to Each Major Program and Internal Control Over Compliance In Accordance with OMB Circular A-133

Board of Directors Waukesha County Area Technical College District:

Compliance

We have audited the compliance of the Waukesha County Area Technical College District (WCTC) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 1998. WCTC's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of WCTC's management. Our responsibility is to express an opinion on WCTC's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about WCTC's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on WCTC's compliance with those requirements.

In our opinion, WCTC complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 1998.

Internal Control Over Compliance

The management of WCTC is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered WCTC's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended for the information of management of WCTC and federal awarding agencies and pass-through entities. However, this report is a matter of public record and its distribution is not limited.

# Independent Auditors' Report on Internal Control Structure Used in Administering State Financial Assistance

Board of Directors Waukesha County Area Technical College District:

We have audited the general purpose financial statements of the Waukesha County Area Technical College District (WCTC) as of and for the year ended June 30, 1998, and have issued our report thereon dated October 2, 1998. We have also audited WCTC's compliance with requirements applicable to major state financial assistance programs and have issued our report thereon dated October 2, 1998.

We conducted our audits in accordance with generally accepted auditing standards, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the provisions of the State of Wisconsin Single Audit Guidelines issued by the Wisconsin Department of Administration. Those standards and provisions require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement and about whether WCTC complied with laws and regulations, non-compliance with which would be material to a major state financial assistance program.

In planning and performing our audits for the year ended June 30, 1998, we considered WCTC's internal control structure and assessed control risk in order to determine our auditing procedures for the purpose of expressing our opinions on WCTC's general purpose financial statements and on its compliance with specific requirements applicable to major state financial assistance programs and to report on the internal control structure. This report addresses our consideration of internal control structure policies and procedures relevant to compliance with requirements applicable to state financial assistance programs. We have addressed internal control structure policies and procedures relevant to our audit of the general purpose financial statements in a separate report dated October 2, 1998.

The management of WCTC is responsible for establishing and maintaining an internal control structure. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures. The objectives of an internal control structure are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of general purpose financial statements in accordance with generally accepted accounting principles, and that state financial assistance programs are managed in compliance with applicable laws and regulations. Because of inherent limitations in any internal control structure, errors, irregularities, or instances of noncompliance may nevertheless occur and not be detected. Also, projection of any evaluation of the structure to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the effectiveness of the design and operation of policies and procedures may deteriorate.

For the purpose of this report, we have classified the significant internal control structure policies and procedures used in administering state financial assistance programs in the following categories:

## **Accounting Cycles**

- Revenues/accounts receivable/cash receipts
- Purchases/accounts payable/cash disbursements
- Payroll
- Budget and financial reporting

# Specific Requirements

- Types of services allowed or unallowed
- Eligibility
- Matching
- Cost allocation
- Special reporting, as identified within the State of Wisconsin's State Single Audit Guidelines
- Special tests, as identified within the State of Wisconsin's State Single Audit Guidelines
- Monitoring subrecipients

## Claims for advances and reimbursements

## Amounts claimed or used for matching

For all of the internal control structure categories listed above, we obtained an understanding of the design of relevant policies and procedures and determined whether they have been placed in operation, and we assessed control risk.

During the year ended June 30, 1998, WCTC expended 96% of its total state financial assistance under major state financial assistance programs.

152

We performed tests of controls to evaluate the effectiveness of the design and operation of internal control structure policies and procedures that we considered relevant to preventing or detecting material noncompliance with specific requirements and requirements governing claims for advances and reimbursements and amounts claimed or used for matching that are applicable to each of WCTC's major state financial assistance programs, which are identified in the accompanying Schedule of Federal and State Financial Assistance. Our procedures were less in scope than would be necessary to render an opinion on these internal control structure policies and procedures. Accordingly, we do not express such an opinion.

Our consideration of the internal control structure policies and procedures used in administering state financial assistance would not necessarily disclose all matters in the internal control structure that might constitute material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of one or more of the internal control structure elements does not reduce to a relatively low level the risk that noncompliance with laws and regulations that would be material to a state financial assistance program may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control structure used in administering state financial assistance programs and their operations that we consider to be material weaknesses as defined above.

This report is intended for the information of the management of WCTC and officials of applicable state agencies. However, this report is a matter of public record and its distribution is not limited.

# Independent Auditors' Report on Compliance with Specific Requirements Applicable to Major State Financial Assistance Programs

Board of Directors Waukesha County Area Technical College District:

We have audited the general purpose financial statements of the Waukesha County Area Technical College District (WCTC) as of and for the year ended June 30, 1998, and have issued our report thereon dated October 2, 1998.

We have also audited WCTC's compliance with the following requirements applicable to each of its major state financial assistance programs, which are identified in the accompanying Schedule of Federal and State Financial Assistance for the year ended June 30, 1998:

- Types of services allowed or unallowed
- Eligibility
- Matching
- Cost allocation
- Special reporting, as identified within the State of Wisconsin's State Single Audit Guidelines
- Special tests, as identified within the State of Wisconsin's State Single Audit Guidelines
- Monitoring subrecipients
- Claims for advances and reimbursements
- Amounts claimed or used for matching

The management of WCTC is responsible for WCTC's compliance with those requirements. Our responsibility is to express an opinion on compliance with those requirements based on our audit.

We conducted our audit of compliance with these requirements in accordance with generally accepted auditing standards, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and the provisions of the State of Wisconsin Single Audit Guidelines issued by the Wisconsin Department of Administration. Those standards and provisions require that we plan and perform the audit to obtain reasonable assurance about whether material noncompliance with the requirements referred to above occurred. An audit includes examining, on a test basis, evidence about WCTC's compliance with those requirements. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, WCTC complied, in all material respects, with the requirements listed in the second paragraph of this report that are applicable to each of its major state financial assistance programs for the year ended June 30, 1998.

This report is intended for the information of the management of WCTC and officials of applicable state agencies. However, this report is a matter of public record and its distribution is not limited.
