ABSTRACT

This report organizes the information provided by 71 individuals in finance-related occupations in 11 states into skills inventories for persons in these jobs. The skills inventories contain the following sections: (1) occupation-specific knowledge (communication, mathematics, science); (2) workplace behaviors (work ethics, interpersonal relationships, teamwork, solving problems and critical thinking); (3) technical skills--core skills (planning and organizing, verifying and maintaining records, performing clerical duties, using software applications, accounting functions, banking operations, loan activities, communications); and (4) technical skills--occupation-specific (accounting and tax preparation, tax preparers, banking operations, investment activities, loan procedures). The guide also contains a skill standards matrix and appendixes that provide survey results, an equipment and software list, and a management occupations matrix. (KC)

Several individuals employed in business finance occupations shared their expertise by serving as policy advisors, technical experts, and reviewers during the completion of this product. Those individuals or companies are as follows:

Policy Advisory Committee

Mr. Chip Hancock
Vice President
Republic Bank
Louisville, KY

Mr. Buddy Babb
Babb & Associates
Sarasota, FL

Ms. Darlysis Harmon-Vaught
Hilliard Lyons, Inc.
Louisville, KY

Securities Sales Representative
Edward Jones Company
Elizabethtown, KY

Customer Service Representative
First Federal Savings Bank
Elizabethtown, KY

Ms. Sharon Kauka
H & R Block
Louisville, KY

Tax Preparer
Holland Tax Service
Elizabethtown, KY

Bank Tellers
Sun Trust Bank
Atlanta, GA

Account Clerk
Richardson & Trevathan
Murray, KY

Bank Teller
Central Bank & Trust Co.
Lexington, KY

Acknowledgments

Project Staff

All projects require the assistance of several special individuals. These individuals do much of the unseen work which results in the final product. The following individuals deserve special acknowledgment for the efforts given in the completion of this product:

Mr. Lee Cantrel, Writer
Louisville, KY

Mrs. Liz Young, Writer
Elizabethtown, KY

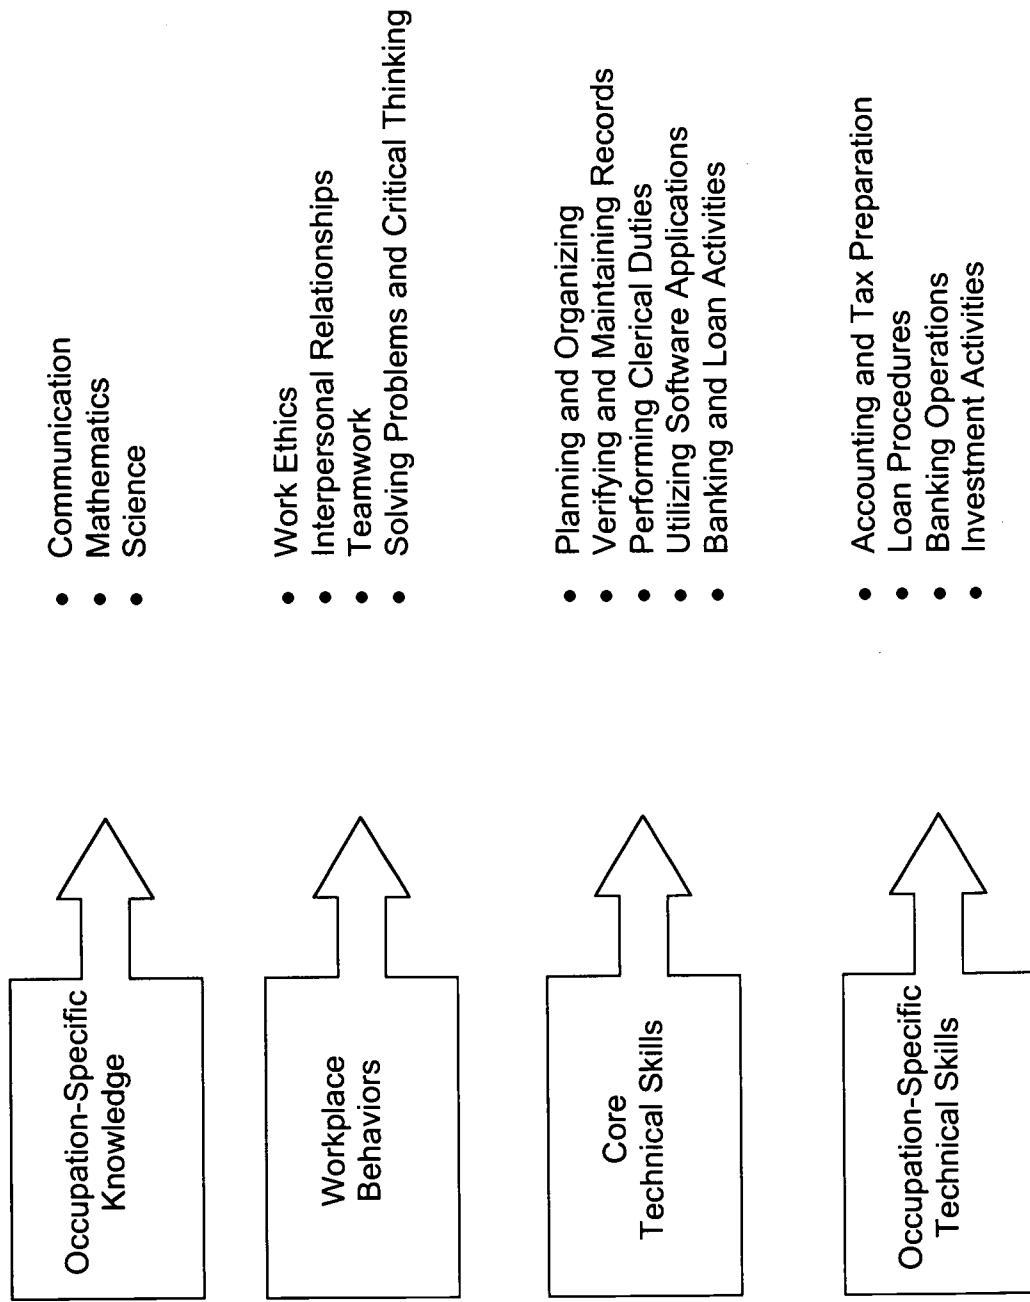

Mrs. Lynda Cantrel, Editor
Louisville, KY

Ms. Sarah Jackson, Writer
Florence, KY

Appreciation must also be given to Ron McCage, Brenda Hattaway, Sandi Davison, and Robyn Marshall in the V-TECS Central Office, who provided assistance and support throughout the development of the project.

Melissa Briscoe
Project Director

Organization of Skills for Business Financial Occupations

The purpose of this document is to assist individuals, training providers, employers, financial personnel, and members of professional organizations who are interested in matching knowledge, abilities, and interests to the knowledge and skills required for success in financial careers. This document establishes a clear set of performance expectations based on current practices in business finance occupations.

For this document, skill standards are defined as the body of knowledge, the technical skills, and the workplace behaviors required of productive, successful finance personnel. These are divided into three separate areas: Occupation-Specific Knowledge, Technical Skills, and Workplace Behaviors.

Description of the Process

The first step in the developmental process was to identify and review the numerous lists of tasks and performance objectives previously developed by V-TECS and other curricular organizations and agencies. The first objective was to compile a master task list for all finance occupations. These tasks were then considered to be the skills needed by most individuals employed in these jobs.

The core skill list was presented to a team of technical experts who are currently employed in various financial occupations. This team included representatives from financial departments in various companies and from companies that provide financial services to the public.

One hundred and seventy-four persons received the survey of skills. Seventy-one participants from 11 states returned completed surveys. The tabulated results of this survey are included in Appendix A of this document.

Introduction

The core skills listed in the Business Financial Occupations Matrix in Appendix B were compiled from the survey responses of individuals employed in the following occupations: accountants and account clerks, bank clerks and managers, investment brokers, loan officers, and tax preparers. This matrix identifies those core skills by occupational specialty. This survey information assisted the advisory team in identifying the core of skills that are common to all occupations and those that relate to a specific industry.

After the core and specific skills lists were finalized, the technical experts on the team either wrote performance objectives and steps to accomplish each skill or reviewed and revised existing performance objectives for a skill. Upon completion of the initial development and revision of performance objectives and steps, the team divided into groups and reviewed the work of their co-team members.

After completion of the performance objectives and steps, educators were added to the team to assist in the identification of related academic skills that applied to each task. The *Basic/Essential Skills Taxonomy* from V-TECS was used for the identification of academic skills.

Finally, members of the development team and project staff grouped and organized the tasks and standards by skill, thereby arriving at the skill standards that are detailed in the following pages.

Summary of Survey Results

As indicated by responses on the V-TECS Occupational Inventory of Skills for Business Financial Related Occupations, the occupational area includes a variety of occupational titles in the fields of banking, insurance, and finance. The typical respondent to this survey meets the following general characteristics:

- Has been employed in a business finance position for 6 to 15 years
- Works for a company with 500 or fewer employees
- Supervises from 6 to 20 employees on a daily basis
- Has an educational level of Associate Degree or beyond
- Receives a salary in the range of \$25,001 to \$40,000
- Does not use a second language on the job

V-TECS personnel sent the Occupational Inventory of Skills for Business Financial Related Occupations to 170 individuals in finance-related occupations in 11 states. This was done with the assistance of technical coordinators who work with V-TECS at the state level. Seventy-four employees returned the surveys; seventy-one were useable. These employees represent a variety of job titles, which will be summarized in the Summary of General Background Information that follows.

In addition to gathering general background information of the respondents, the survey contained a Technical Skill List for Business Financial Occupations that was divided into 11 specific duty areas. Respondents indicated by checking yes or no whether or not they perform each task within the duty area in their current business finance-related position. The survey also included Workplace Skills and an Equipment and

Software List to which the participants were asked to respond. This report summarizes the information provided by the respondents.

SUMMARY OF GENERAL BACKGROUND INFORMATION

Present Job Title

The open-ended question, "What is your present job title?" elicited a large variety of responses. The most frequently listed job title (27 percent) was accountant, bookkeeper, and payroll clerk, followed closely by loan officer/credit counselor (24 percent) and investment broker (23 percent). Less frequently mentioned were the following: vice president, bank or financial institutions (11 percent); bank teller/ATM coordinator (8 percent); financial consultant (4 percent); and insurance broker (2 percent).

Length of Employment

Another open-ended question, "How long have you been employed in some type of business financial position?" revealed a lengthy tenure by most respondents, with 87 percent having been employed between 6 and 20 years. Complete statistics are shown on the following chart:

Nature of the Business

To the question that asked the respondents to designate the type of business in which they are currently employed, 60 employees (84.5 percent) checked Banking/Insurance/Finance. The remaining 15.5 percent of respondents checked Service, describing their businesses as tax preparation specialty companies and businesses that prepare payrolls and taxes for other companies.

The sizes of the businesses for which the respondents work vary greatly. The largest number, 47.9 percent, work at businesses with 51 to 499 employees. Companies with 500 to 1999 workers employ 12.7 percent of the respondents, while 23.9 percent of the respondents work in companies with 2,000 or more employees. Smaller companies, with 50 employees or fewer, employ 15.5 percent of the respondents.

Number of Employees Supervised

The largest number of respondents (28.2 percent) supervises fewer than five employees, while only 4.2 percent supervise more than one hundred. Responses to the open-ended question, "How many employees do you supervise on a regular basis?" are indicated on the chart shown in next column.

Education

Educational attainment of the respondents varies from a high school diploma or its equivalent (11.3 percent) through 15.5 percent having education above a bachelors degree. Eighty-eight percent had participated in some college training. On the checklist of the highest level of education completed, the respondents provided the following information:

Salary Range

Respondents were given a list of salary ranges and asked to check their present range, excluding overtime. The range most frequently checked was \$25,001 to \$40,000; 43.7% of the respondents are in that category. Only 5.6% checked the ranges above \$100,000. The responses were as follows:

Less than \$25,000	12.7%
\$25,001 to \$40,000	43.7%
\$40,001 to \$55,000	14.0%
\$55,001 to \$75,000	08.5%
\$75,001 to \$100,000	15.5%
\$100,001 to \$125,000	02.8%
\$125,001 to \$150,000	01.4%
Over \$150,000	01.4%

Second Language

Twenty-eight percent of the respondents checked "YES" to the question, "Do you have a second language?" However, only 12.6 percent of those respondents indicated that they use the second language on the job.

SUMMARY OF TECHNICAL SKILLS LIST

The Occupational Inventory of Skills for Business Financial Related Occupations was developed using current V-TECS research and interviews with persons employed in financial occupations such as banking, insurance, and finance. Part II of the Inventory, Technical Skills List for Business Financial Related Occupations, directed survey respondents to check YES or NO to indicate whether or not they perform specific tasks in their current financial occupation. These tasks were listed under specific Duty Areas. The respondents did not indicate the frequency with which they perform a task, but simply whether they do or do not perform the tasks as a part of their employment.

The complete Technical Skills List showing the percentage of respondents checking yes or no for each task is shown in Appendix A.

As could be noted in the Summary of Background Information, the Occupational Inventory respondents represented a variety of occupations

that relate to the business financial field, such as loan officers, investment brokers, accountants, etc. As a result, there was a large disparity in the percentage of responses in each Duty Area, with many of the tasks receiving a very low percentage of positive responses. For example, investment brokers did not perform most of the accounting tasks.

Therefore, we have identified a **Core Skills List for Business Financial Related Occupations**, which shows the skills that are common across the cluster of financial occupations—core skills that most respondents perform. This Core Skills List includes the common skills that at least 50 percent of the respondents perform within a Duty Area. Some duties such as Duty I: Tax Operations and Duty J: Investment Activities are highly specialized and are not included in the Core Skills List. They are, however, included in the section of this report entitled "Occupational-specific skills."

SUMMARY OF CORE SKILLS LIST FOR BUSINESS FINANCIAL OCCUPATIONS

Duty A: Planning and Organizing

Planning and organizing is an important duty area for most financial occupation respondents, with eight of the eleven skills being included on the Core Skills List. Ninety-nine percent of the respondents indicate that they assign work to others, while 96 percent schedule work priorities, and 80 percent train or assist others in performing job operations. Budgeting is an important area of planning, as 76 percent plan for budgetary needs and 72 percent establish complete budget figures for the planned year. See the Core Skills List for the complete list.

Duty B: Verifying and Maintaining Records

Only about one third of the 27 skills in this duty area are included on the Core Skills List, and of those, only one skill—process special transactions of customer accounts—was performed by a high percentage (72 percent) of respondents. Maintaining a log (56 percent) and maintaining a file of suppliers' names and addresses (58 percent) were other core skills, along with verifying the amounts of savings withdrawals (56 percent) and savings deposits (53 percent).

Duty C: Performing Clerical Duties

Apparently, most employees in financial occupations perform clerical duties, as 14 of the 18 skills in this duty area are included in the Core Skills List. One hundred percent of the respondents maintain a calendar of appointments; utilize office equipment; create business letters, memoranda, reports, and tables; and create, edit, save, and open word processing files. Other clerical duties include using reference books (92 percent), preparing an agenda for a meeting (87 percent), process documents and packages through courier services (80 percent), utilize electronic mail services (73 percent), and prepare business reports (72 percent).

Duty D: Utilizing Software Applications

The use of computer technology is highly involved in most financial occupations, all of the 14 skills in this duty area were included in the Core Skills List. One frequently cited task (85 percent) is to produce documents integrating word processing, database, and spreadsheet files. The software applications are most frequently used for the following: preparing an outline for presentation (88 percent); creating reports and labels (80 percent); creating worksheets (76 percent); and solving business/financial problems utilizing spreadsheet functions (62 percent). Most functions of software applications are utilized.

Duty E: Accounting Functions

Only three of the skills relating to Accounting Functions received sufficient positive responses to be considered as core skills. Interpret financial statements such as balance sheet, income statement, cash flow projects, and summary of sales and cash receipts (61 percent) and evaluate expenditures and bills for approval (56 percent) were two of the skills most frequently receiving YES responses. The remaining skills that relate to accounting functions are more specialized and are performed most frequently by respondents employed in accounting-related occupations. They performed all of the skills listed. Respondents who work in tax-related occupations also utilize many of the accounting skills.

Duty F: Banking Operations

Banking operations is another very specialized area. Only 13 of the 67 skills received enough positive responses to be included in the Core Skills List. Four of those are basic skills for maintaining a bank account—endorsing checks and preparing a deposit slip (72 percent), completing a check stub and writing a check (68 percent), reconciling a bank statement (61 percent), and recording the entry for service charges (62 percent). The following three tasks are general and could apply to several financial occupations—follow procedures for conduct during a robbery (63 percent), follow procedures for conduct after a robbery (64 percent), and adhere to procedures for the safekeeping of money (61 percent). However, respondents in banking-related occupations perform almost all of the skills in Duty F. Respondents in loan-related occupations also utilize several of these skills.

Duty G: Loan Activities

Only 3 of the 14 skills in this duty area were checked by at least 50 percent of the respondents. Loan activities relate to at least two of the financial occupations—loan officer and banking professional. The three skills are these: receive loan applications from customers (53 percent), explain various payment amounts on different terms (52 percent), and negotiate terms of loan transaction (53 percent). Respondents in the loan-related occupations perform all of the 14 tasks in this duty area, and employees in banking occupations routinely perform 4 additional skills from Duty G

Duty H: Communications

As anticipated, communications skills are an essential element for all respondents. The most frequently-cited communication skills are the following: outline and deliver an oral presentation (96 percent), consult with customers/clients (96 percent), follow oral and written instructions (95 percent), handle telephone calls (95 percent), send messages electronically (95 percent), compose and key correspondence, forms, reports (92 percent),

and interpret nonverbal communication (92 percent). Other communication skills such as greeting customers, and resolving office problems also received high priority.

SUMMARY OF OCCUPATIONAL-SPECIFIC SKILLS

The Core Skills List identifies occupational skills that are common across most of the business financial occupations represented by the survey respondents. Many of the other duties and skills are considered to be “occupational-specific skills”; that is, they are very important skills for specific financial-related occupations but are not common to most. Therefore, they were checked by only a small percentage of the respondents.

Occupational-specific skills have been identified for the five primary financial-related occupational areas represented by our survey respondents. Appendix B is a matrix showing the skills for each of the five occupational areas as indicated by the respondents. Summarized below are the occupational specific skills for each area.

Loan Officer Skills

The loan officers in the survey group responded positively to almost every skill in Duty G Loan Activities. Two skills—analyze applicant’s financial status, credit, and property evaluation, and counsel clients on establishing and maintaining credit history—were cited by every loan officer. Other frequently cited skills were the following: prepare folder for all mortgage loan applications, and collect on past-due mortgage and loan accounts. In addition, they perform several skills from Duty F: Banking Operations and one each from Duty B: Verifying and Maintaining Records and Duty E: Accounting Functions.

Banking-Related Occupations Skills

The respondents in this occupational category included bank tellers, ATM Coordinators, and bank officers. All except six of the skills in Duty F: Banking Operations are included on either the Core Skills List or on the Banking Occupation Specific List. Some of the most often cited skills are the following: Open and close teller terminal, examine currency for

counterfeit bills, examine deposit slips for acceptability, accept installment loan payments, and issue cashier checks and certificates of deposit. In addition to the banking operations skills, nine skills in Duty B are on the banking skills list; these relate primarily to verifying records such as amounts of cash in and cash out, check deposits, and numbers on internal transactions. Bank employees also frequently cited four skills in Duty G: Loan Activities that were not on the Core Skills List.

Investment Broker Skills

While none of the skills in Duty J: Investment Activities are listed on the Core Skills List, the respondents who work in the investment occupations cited 17 of the 18 skills as important. Those skills most often cited were the following: Compile news on companies, sell stocks and bonds for clients, recommend specific mutual funds, and analyze customer’s market position. Additionally, one skill from Duty B: Verifying and Maintaining Records and one from Duty E: Accounting Functions were on this occupational-specific skill list.

Accounting-Related Occupations Skills

The survey respondents in this occupational area included accountants, bookkeepers, and account clerks. In addition to the two skills in Duty E: Accounting Functions that were on the Core Skills List, a majority of the accounting-related respondents perform all the skills listed in that duty area. Most frequently cited skills were the following: Journalize and post bank credit card sales, sales returns and allowances, purchases, and purchase returns and allowances; and complete payroll time cards. These respondents, particularly those who are accountants, also utilize most of the skills in Duty I: Tax Operations. They also selected additional skills in Duty A: Planning and Organizing; in Duty B: Verifying and Maintaining Records; and in Duty C: Performing Clerical Duties.

Tax and Payroll Preparation Skills

This occupational area includes respondents who work in tax preparation offices and in company payroll offices. Almost 100 percent of them perform most of the tasks in Duty I: Tax Operations. They cite the following skills most often: Identify filing status of client; research specific client questions/situations; prepare worksheets prior to completing tax

forms; and file federal and state tax returns. Most of the respondents utilize computer program to prepare tax returns. In addition, many of these employees cite eight skills in Duty E: Accounting Functions that they utilize, such as: Complete payroll time cards; prepare a payroll register and record the entry to the employee's earning record; and compute, journalize and post payroll entries to include employee's payroll taxes. Three skills in Duty B: Verifying and Maintaining Records are also included among the skills they utilize.

SUMMARY OF WORKPLACE SKILLS

Duty L in the Technical Skills List for Business Financial Occupations requested the survey respondents to check the Workplace Skills that they utilize as part of their employment. The Workplace Skills duty area is divided into four sections, as follows:

- o Work Ethics
- o Interpersonal Relationships
- o Teamwork
- o Solving Problems and Critical Thinking

All of the Workplace Skills are considered core skills needed by all employees in business financial occupations included in the survey. One hundred percent of the respondents perform 27 of the 35 skills included as Workplace Skills. Most respondents also perform the other eight skills. Duty L: Workplace Skills is included in the survey in Appendix A.

EQUIPMENT AND SOFTWARE LIST

Part III of the Occupational Inventory of Skills for Business Financial Occupations requested the survey respondents to check those items of equipment and software that they use in their current job. Responses are summarized below. The complete list is in Appendix B.

Equipment Description

The equipment list contains twenty-two items that typically would be located in a business office. Of those, nine items were checked by at least 90 percent of the respondents. Those nine are the following: File cabinets;

storage cabinets; calculator, computer terminal connected to mainframe or minicomputer; computer, PC with CPU, monitor, keyboard; FAX system; modem; photocopier; and printer (laser, dot matrix, or inkjet). Surprisingly, only 89 percent use a telephone as part of their employment. The least-used equipment items (8 percent each) were dictating/transcribing equipment and voice recognition input devices.

Software Description

Of the 16 items of software on the description list, only 7 received a response of at least 50 percent. This is probably because of the disparity of financial occupations included among the respondents. As might be expected, the most common software (85 percent) cited was word processing. In descending order, the other six types of software were as follows: Electronic communication (72 percent), network (69 percent), database (67 percent), spreadsheet (63 percent), customized software (61 percent), and graphics (52 percent). Although used by most respondents in the accounting-related occupations, accounting/payroll software was selected by only 32 percent of total respondents. Internet access is used by only 44 percent of the respondents.

Occupation-Specific Knowledge

To merely possess basic reading, writing, and arithmetic skills in a business financial specialist's world is not enough—financial personnel must apply this knowledge everyday.

Occupation-Specific Knowledge is familiarity, awareness, or understanding that forms the foundation to develop the more advanced knowledge and skills required in the workplace. Occupation-Specific Knowledge was categorized according to communication, mathematics, and science in this study.

Communication

- o The Business Financial Specialist comprehends, evaluates, and makes inferences from written information as well as charts, tables, and graphs to update knowledge and interpret federal, state, and local regulations that affect financial documents.
- o The Business Finance Specialist demonstrates competence in speaking to provide customers or clients information concerning interpretations of federal, state, and local regulations that affect financial documents.
- o The Business Financial Specialist demonstrates competence in writing, editing, and using correct grammar, spelling, and punctuation when providing a customer or client an error-free explanation of federal, state, and local regulations that affect financial documents.
- o The Business Financial Specialist demonstrates competence in using various information sources, including knowledge-based and technical

texts, in predicting outcomes, and in evaluating and organizing information in order to develop a training program.

- o The Business Financial Specialist applies the reading process and strategies to directions or tasks in following company policies when completing such tasks as comparing a check for payment with a receipt or remittance stub, maintaining a log, maintaining a file of suppliers' names and addresses, processing special transactions for customer accounts, backing up computer data, and verifying amounts of savings withdrawals/deposits.
- o The Business Financial Specialist applies appropriate strategies to read and comprehend directions to utilize office equipment (computer, copier, calculator, etc.).
- o The Business Financial Specialist determines purpose, adapts appropriate style, and edits for correct grammar, spelling, and punctuation when creating business letters and memoranda.
- o The Business Financial Specialist demonstrates competence in using and comprehending reference materials to retrieve information from a hard copy.
- o The Business Financial Specialist composes and edits an agenda for a meeting, using correct spelling, grammar, and punctuation.
- o The Business Financial Specialist comprehends and evaluates various information sources when researching and preparing content for business reports.

- The Business Financial Specialist determines purpose, adapts appropriate style, and edits for correct grammar, spelling, and punctuation to prepare business reports.
- The Business Financial Specialist is competent in using various information sources, including knowledge-based and technical texts, when producing documents which integrate word processing, database, and spreadsheet files and which integrate graphic files with other applications software.
- The Business Financial Specialist competently utilizes various information sources, including knowledge-based and technical texts, when creating worksheets using spreadsheet commands, functions, and formulas; worksheets requiring the copying of formulas using absolute, mixed, and relative cell references; and worksheets requiring the inserting, deleting, moving, and copying of columns and rows.
- The Business Financial Specialist comprehends and evaluates information to predict outcomes and solutions in order to create worksheets to solve business/financial problems utilizing spreadsheet functions.
- The Business Financial Specialist shows competence in writing, editing, and using correct grammar, spelling and punctuation to prepare an error-free outline for a presentation as well as to create a presentation using graphics, various fonts, line shading, shadowing, etc.
- The Business Financial Specialist composes and edits for correct grammar, spelling, and punctuation when providing a written justification for changes from previous budgets and a written explanation of any abnormal gains and losses indicated in a financial statement.
- The Business Financial Specialist applies the reading process and strategies to follow directions and complete tasks that are relatively short, with limited categories of information, directions, concepts, and vocabulary, in order to follow company procedures for conduct during and after a robbery, for safekeeping of money, and for giving a customer account information.

- The Business Financial Specialist demonstrates competence in using various information sources, including knowledge-based and technical texts to make title changes on customer accounts, to place holds on customer accounts, and to place stop-payment notations on checks.
- The Business Financial Specialist demonstrates competence in speaking to provide information when explaining to a customer the procedures for completing signature cards.
- The Business Financial Specialist demonstrates competence in speaking to provide, distribute, or find information to complete a customer's loan application, to explain loan payment amounts, charges, and terms to the customer, and to negotiate the terms of a loan transaction.
- The Business Financial Specialist adapts listening strategies to utilize both verbal and nonverbal content of the communication when completing a customer's loan application, explaining various payment amounts on different terms, and negotiating the terms of a loan transaction.
- The Business Financial Specialist adapts appropriate strategy and demonstrates competence in speaking to provide and distribute information, to cross-sell a product to a customer, and to answer a customer's questions or concerns.
- The Business Financial Specialist demonstrates competence in speaking to provide, distribute, or locate information when processing incoming telephone calls and meeting and greeting customers.
- The Business Financial Specialist composes and edits paragraphs which are accurate in content, are appropriate in purpose and in style, and are free from spelling, grammar, and punctuation errors to document findings and recommended actions involving an employee problem.
- The Business Financial Specialist understands the importance of audience and purpose to determine and utilize an appropriate manner in conveying to an employee the findings and recommendations for resolving the employee's problem.

- The Business Financial Specialist adapts listening strategies to utilize both the verbal and nonverbal content of the communication process when interpreting the nonverbal communication of a customer.
- The Business Financial Specialist demonstrates competence in making oral formal presentations, including selecting and using media, to prepare and deliver an oral presentation.
- The Business Financial Specialist applies reading process and strategies to follow oral and written instructions.
- The Business Financial Specialist demonstrates competence in writing, editing, and using correct grammar, spelling, and punctuation when utilizing electronic mail services.

Mathematics

- The Business Financial Specialist adds, subtracts, multiplies, and divides whole numbers to schedule and assign work and to organize workstations and space.
- The Business Financial Specialist adds, subtracts, multiplies, and divides whole numbers, mixed numbers, fractions, and decimals when processing special transactions for customer accounts and verifying amounts of savings withdrawals/deposits.
- The Business Financial Specialist adds, subtracts, divides, and multiplies whole numbers, mixed numbers, fractions, and decimals to maintain an accurate calendar.
- The Business Financial Specialist adds, subtracts, multiplies, and divides mixed numbers, fractions, and decimals when creating worksheets that use spreadsheet commands, functions, and formulas; worksheets that require copying formulas that use absolute, mixed, and relative cell references; and worksheets that require inserting, deleting, moving, and/or copying columns and rows.
- The Business Financial Specialist uses a calculator to add, subtract, multiply, and divide whole numbers, mixed numbers, and decimals, as well as to calculate percentages, ratios, and square roots when

evaluating expenditures and bills for approval, establishing complete budget figures for a planned year, and interpreting various financial statements and reports.

- The Business Financial Specialist uses a calculator to add, subtract, multiply, and divide whole numbers, mixed numbers, and decimals and to calculate percentages and ratios to explain loan payment amounts and charges and to negotiate the terms of a loan transaction.

Science

- The Business Financial Specialist utilizes the computer in the performance of office tasks that include data analysis, accounting and financial functions and projections, word processing, and data processing.
- The Business Financial Specialist utilizes office equipment to receive and send or copy information required in the performance of managerial duties.

Workplace Behaviors

- Participate in meetings in a positive and constructive manner
- Maintain state-of-the-art skills through participation in in-service or other training
- Participate in continuing education

Interpersonal Relationships

- Respect individual diversity
- Respond to praise or criticism
- Provide constructive criticism or praise
- Channel and control emotional reactions
- Resolve conflicts
- Display a positive attitude

Teamwork

- Understand interactive relationships required for effective teamwork
- Understand team's operating procedures

Work Ethics

- Implement responsibility of job position including exhibiting dependability and meeting organizationally-defined expectations
- Adhere to company rules, regulations, and policies as established
- Understand and practice cost effectiveness
- Practice time management and follow work schedule
- Assume responsibility for own decisions and actions
- Exhibit pride in job
- Display initiative in undertaking new tasks
- Show assertiveness appropriate to the situation
- Seek work challenges
- Understand and apply ethical principles to decision making
- Exhibit ability to handle stress
- Understand the importance of providing good customer service (internal and external)

- Adapt as necessary to complete the team task
- Evaluate outcomes

Solving Problems and Critical Thinking

- Employ appropriate skills for gathering and retaining information
- Interpret written, graphic, and oral instructions
- Identify problems
- Clarify individual and company purposes and goals
- Identify available solutions and their impact including evaluating credibility of information, and locating information
- Evaluate options
- Set priorities
- Select/implement options/decisions including predicting results of proposed action
- Organize personal workloads
- Participate in brainstorming sessions to generate new ideas and solve problems

Technical Skills: Core

Planning and Organizing

- Update knowledge and interpret federal, state, and local regulations that affect financial documents
- Schedule and assign work
- Organize work stations and space
- Train or assist others in performing job operations

Verifying and Maintaining Records

- Compare a check for payment with a receipt or remittance stub
- Correct errors in a computerized or manually maintained accounts payable record
- Prepare accounting data for computer processing
- Maintain a log
- Maintain a file of suppliers' names and addresses
- Process special transactions for customer accounts

- Back up computer data

- Verify amount of savings withdrawals/deposits

Performing Clerical Duties

- Maintain a calendar of appointments
- Maintain customers'/clients' files
- Utilize office equipment (fax, computer, copier, calculator, etc.)
- Create business letters, memoranda, reports, and tables
- Edit documents
- Utilize reference books
- Prepare an agenda for a meeting
- Mail literature, documents, and packages to customers and prospects
- Prepare business reports

Utilizing Software Applications

- Produce documents integrating word processing, database, and spreadsheet files
- Produce documents integrating graphic files with other application software
- Prepare an outline for a presentation
- Use presentation software to create projects using graphics, fonts, line shading, shadowing, etc.
- Create worksheets using spreadsheet commands, functions, and formulas
- Create worksheets requiring the copying of formulas using absolute, mixed, and relative cell references
- Create worksheets requiring the inserting, deleting, moving, and copying of columns and rows
- Create bar, line, and pie graphs with titles and legends
- Create, update, sort, query, edit, and print from data files
- Create reports and labels
- Create and enter data into database files
- Query databases for specific data
- Print worksheets with headers and/or footers
- Create worksheets to solve business/financial problems utilizing spreadsheet functions

Accounting Functions

- Evaluate expenditures and bills for approval
- Establish complete budget figures for planned year
- Classify accounts as to assets, liabilities, and capital
- Interpret financial statements such as balance sheet, income statement, cash flow projects, and summary of sales and cash receipts

Banking Operations

- Endorse checks and prepare a deposit slip
- Complete a check stub and write a check
- Reconcile a bank statement
- Record the entry for a service charge, credit fees, or dishonored check
- Follow procedures for conduct during a robbery
- Follow procedures for conduct after a robbery
- Adhere to procedures for the safekeeping of money
- Give customer account information
- Make title changes on customer accounts
- Review signature cards
- Place hold on customer accounts
- Place stop payment on checks
- Verify customer's checking/savings account

Loan Activities

- Receive loan applications from customers
- Explain various payment amounts on different terms
- Negotiate terms of loan transaction

Communications

- Cross-sell financial institution's other products to customers
- Consult with customers/clients
- Handle telephone calls
- Greet and dismiss customers
- Provide notary services
- Resolve employee problems
- Interpret nonverbal communications
- Outline and deliver an oral presentation
- Follow oral and written instructions
- Utilize electronic mail services

Technical Skills: Occupation Specific

Accounting and Tax Preparation

- Forecast financial growth for month/year
- Order and maintain inventory of forms and supplies
- Purchase equipment and furniture
- Plan for budgetary needs
- Verify the total amount on a sales invoice
- Review petty cash vouchers
- Compare a purchase invoice with a receiving report
- Proofread an accounting document
- Verify data on tax forms and determine type(s) of errors
- Maintain a file of purchase invoices
- Verify account number on internal transactions
- Verify amount of credit and/or memorandum
- Prepare a purchase order

- Prepare an accounts payable invoice
- Record entries in a journal from an invoice
- Prepare a beginning balance sheet
- Open accounts in general ledger, accounts receivable ledger, and accounts payable ledger
- Journalize transactions in a general journal and/or cash journal
- Post from the journal to the general, accounts receivable, and accounts payable ledgers
- Prepare a schedule of accounts receivable and a schedule of accounts payable
- Journalize transactions in special journals (cash receipts, cash payments, purchases, sales, and general)
- Journalize and post bank credit card sales, sales returns and allowances, purchases, and purchase returns and allowances
- Compute, journalize, and post sales taxes, sales discounts, and purchase discounts
- Journalize and post entries for uncollectable accounts using direct write-off and allowance methods

- Prepare and update plant asset records
- Compute, journalize, and post depreciation on plant assets using straight line, sum-of-years digits, declining balance, and modified accelerated cost recovery system methods
- Prove and rule special journals
- Complete a worksheet with adjustments
- Prepare a trial balance
- Prepare end-of-fiscal period financial statements
- Journalize and post adjusting and closing entries
- Close the general ledger
- Prepare a post-closing trial balance
- Complete a withholding allowance form
- Complete payroll records such as time cards, payroll register, earnings records, and journal entries
- Compute, journalize, and post accrued salaries
- Journalize and post entries for payment of tax liability
- Journalize and post entries to form a partnership
- Journalize and post entries to distribute partnership earnings by fixed ratio, percentage of total equity, and salary allowances
- Journalize and post entries for issuing capital stock and for purchasing and selling treasury stock
- Prepare a worksheet with departmental margin statements
- Prepare a cost sheet
- Compute and journalize entries for direct and indirect expenses
- Retrieve data from tax rate schedules
- Identify filing status of client
- Prepare worksheets prior to completing tax forms

Tax Preparers

- Proofread an accounting document
- Verify data on tax forms and determine type(s) of errors
- Complete a worksheet with adjustments
- Complete a withholding allowance form
- Complete payroll records such as time cards, payroll register, earnings records, and journal entries
- Journalize and post entries for payment of tax liability
- Journalize and post entries to form a partnership
- Retrieve data from tax rate schedules
- Identify filing status of client
- Prepare worksheets prior to completing tax forms
- Prepare tax returns for individuals
- Prepare tax returns for businesses
- Utilize computer program to prepare tax returns

- File federal tax returns (manually/electronically)
 - File state tax returns (manually/electronically)
 - Process income tax returns (print, copy, assemble, attach forms)
 - Advise clients as to future tax decisions
 - Research specific client questions/situations
- Banking Operations**
- Verify total amount of all money orders made, paid, or deposited
 - Verify amount of customer deposit in treasury bills
 - Verify amount of customer deposit with cash, personal check, payroll check, or business check
 - Verify account number on internal transactions
 - Verify amount of credit and/or memorandum
 - Open and close teller terminal
 - Inspect for mutilated and badly worn coins and currency
 - Examine currency for counterfeit bills
 - Examine deposit slips for acceptability
 - Sort, count, stack, and strap loose and strapped currency
 - Sort, count, and stack loose, rolled, and boxed coins
 - Process excess currency
 - Process mutilated and badly worn currency
 - Process counterfeit currency
 - Sell cash to other tellers
 - Prepare customer correction for mailing
 - Prepare municipal and treasury coupons for collection
 - Post collection item to customer's account
 - Reconcile outgoing cash letter adjustments
 - Reconcile demand deposit account to general ledger
 - Reconcile missing customer check
 - Reconcile official checks
 - Reconcile personal money orders made
 - Prepare teller's daily reports
 - Balance teller transfers
 - Balance cash summary
 - Balance customer money
 - Admit customers to safe boxes
 - Order personalized checks
 - Complete safe deposit rental statement and accept rental fees
 - Issue traveler's checks, money orders, and cashiers checks
 - Issue Certificates of Deposit
 - Accept and process food coupons

- Accept Christmas Club payments
 - Enter amount of interest in saving passbooks
 - Advance cash on bank credit cards
 - Accept installment loan payments
 - Process bonds
 - Accept and process tax deposits
 - Prepare cash-in and cash-out tickets
 - Process cash and checks for deposits
 - Process check with cash return for deposit
 - Fill change requests
 - Fill payroll requests
 - Cash checks
 - Complete a collection receipt
- Investment Activities**
- Prepare customer's statement of account
 - Prepare a beginning balance sheet
 - Prepare investment materials for customers
 - Record and report on investments for customers
 - Assist in the development of portfolio analysis reports
 - Compile information about stock transfers

- Possess knowledge of all securities sold
- Complete updates on mergers and/or splits
- Compile news on companies
- Buy stocks/bonds/mutual funds for clients
- Trade stocks/bonds/mutual funds for clients
- Sell stocks/bonds/mutual funds for clients
- Process customer securities—enter into computer, etc.
- Provide customers with receipts for their securities
- Obtain stock quotes for clients
- Recommend specific levels of stocks, bonds, mutual funds, and cash positions
- Analyze customer's market position
- Direct clients to appropriate brokers

Loan Procedures

- Post collection item to customer's account
- Reconcile missing customer check
- Reconcile reserve-for-loan losses
- Issue cashier's checks
- Verify and accept installment loan payments
- Prepare file for all mortgage loan applications

- Prepare mortgage loans for closing
- Order appraisals
- Analyze applicant's financial status, credit, and property evaluation
- Counsel clients on establishing and maintaining credit history
- Perform renewal activities at maturity for in-house loans
- Collect on past due mortgage and loan accounts
- Handle foreclosure proceedings
- Forecast loan delinquency for closing period

Skill Standards Matrix

Technical Skills: Core

PLANNING AND ORGANIZING SKILL	STANDARDS
<p>Update knowledge and interpret federal, state, and local regulations that affect financial documents</p>	<p>Given copies of federal, state, and local laws and regulations that affect financial documents, analyze and interpret any unfamiliar parts. Analysis and interpretation must be documented as required by licensing agencies, company procedures, and/or federal, state, and local government regulations. Convey oral and written interpretations to customers or clients with 100% accuracy.</p>
<p>Schedule and assign work</p>	<p>Given a list of requested work activities, schedule and assign the work requests to ensure that they are:</p> <ol style="list-style-type: none"> 1. processed in an organized manner with minimal interruption. 2. arranged in the order of their submission, importance, and urgency. 3. processed in accordance with long-term goals and objectives. 4. assigned completion dates that are mutually determined based on timing of the tasks. 5. assigned to appropriate staff as determined by workload, job description, and competence.
<p>Organize work stations and space</p>	<p>Given the following, organize a plan for the physical layout of a business: an equipment list and information regarding facilities, types of storage required, safety regulations, inventory of materials and supplies, and the work flow.</p> <p>Organize the physical layout of the business so that it provides sufficient space to facilitate a flow of work and accommodate supplies, equipment, materials, employee workstations, and clients. The layout must fully utilize existing space, comply with safety considerations, and have an attractive appearance.</p>

PLANNING AND ORGANIZING	STANDARDS
<p>SKILL</p> <p>Train or assist others in performing job operations</p>	<p>Given a list of potential employee training needs, company goals and procedures, the scope of the business, and details of organization and operations of the business, develop one training program. The training program must:</p> <ol style="list-style-type: none"> 1. identify objectives to be accomplished. 2. relate to job responsibilities of participants. 3. comply with any company personnel policies, procedures, or regulations. 4. identify any technical or safety requirements. 5. include a plan and an agenda that utilizes the most efficient training method to meet the specific need. 6. provide for employee feedback that demonstrates safe and acceptable procedures in performing job as per instructions.

VERIFYING AND MAINTAINING RECORDS

SKILL

STANDARDS

<p>Compare a check for payment with a receipt or remittance stub</p>	<p>Given a cash drawer, date stamp, teller's stamp, receipt or remittance stub, and a check for payment, process check for payment. Payment must be verified for proper account number and amount with the receipt or remittance stub. Verification of identification must be recorded according to company policy. All questionable checks must be verified with a supervisor. The date and teller's stamp must be affixed according to company policy.</p>
<p>Correct errors in a computerized or manually maintained accounts payable record</p>	<p>Given copies of accounts payable records, proof and correct any errors in the records. All errors will be identified and corrected in a way that is compatible with the procedure for maintaining accounts payable records (computerized or manual).</p>
<p>Prepare accounting data for computer processing</p>	<p>Given accounting software and bank records, accounts payable and receivable records, and/or payroll information, enter accounting data into the computer. All records must be entered in the appropriate categories and the data must balance with any manual records.</p>
<p>Maintain a log</p>	<p>Given a logbook and daily records for multiple customers or clients, maintain a log of items received. Collect, categorize, and log items in and out according to established company procedures. Record information with 100 percent accuracy.</p>
<p>Maintain a file of suppliers' names and addresses</p>	<p>Given files, a computer, software, and a list of names and addresses of suppliers, record and maintain a file of suppliers' names and addresses. The records of each supplier must be recorded, cross-referenced, filed correctly, and accessible immediately upon request.</p>
<p>Process special transactions for customer accounts</p>	<p>Given situations and the necessary forms and supplies needed for handling special transactions such as cash advance on bank credit card, issuing cashier's, certified, or travelers' checks, process a special transaction for a customer's account. The transaction must verify the customer's identification, obtain any required authorization, and prepare requested items—such as travelers' checks or cashier's checks—according to company policies. Copies or items must be delivered to customer with 100% accuracy.</p>
<p>Back up computer data</p>	<p>Given company procedures for backing up data, a list of daily transactions, and a computer with disk, tapes or other media, create a backup of the day's transactions. Backup disks/tapes must contain files to be backed-up with all disks/tapes labeled and stored in a secured location.</p>

VERIFYING AND MAINTAINING RECORDS

SKILL

Verify amount of savings withdrawals/deposits

STANDARDS

Provided with deposit and withdrawal forms for a savings account, verify the amount of the deposit or withdrawal. The proof machine or computerized record must display the proper account number, accept the entry, and result in a balanced transaction. The amount of the depositor withdrawal must be 100% accurate.

PERFORMING CLERICAL DUTIES

SKILL

STANDARDS

<p>Maintain a calendar of appointments</p>	<p>Maintain current, complete, and accurate calendar manually or electronically so that it:</p> <ol style="list-style-type: none"> 1. contains complete, accurate information as to time, place, and nature of the appointment. 2. provides sufficient time for each appointment without overlapping other appointments. 3. contains ongoing communication concerning cancellations, additions, or changes. 4. confirms appointments with other parties.
<p>Maintain customers'/clients' files</p>	<p>Provided the appropriate information concerning customers, clients, vendors, suppliers, or other contacts and information or documents related to each of these, maintain files. Files must be appropriately labeled and must include the current name, address, telephone number, fax number, e-mail address, and voice mail address for each contact. Files must be stored securely and must contain all correspondence, documents, and other personal materials. Access may be given only to those persons authorized by company policy. One hundred percent confidentiality must be maintained by all persons with access to the information contained in the files.</p>
<p>Utilize office equipment (fax, computer, copier, calculator, etc.)</p>	<p>Given equipment, documents, and instructions for handling the documents, utilize appropriate equipment to process the document as directed. The equipment will be operated correctly, safely, and according to job instructions and without assistance.</p>
<p>Create business letters, memoranda, reports, and tables</p>	<p>Given computer equipment, word processing software, and information for composing a business letter or memorandum, produce correspondence that:</p> <ol style="list-style-type: none"> 1. communicates the intended message. 2. is clear, concise, and courteous. 3. is 100% accurate and mailable. 4. is correctly formatted according to company procedures. 5. is completed within the allotted time. 6. is saved on a specified drive, in appropriate directory/subdirectory, and under a specified file name for easy retrieval.

PERFORMING CLERICAL DUTIES

SKILL

STANDARDS

<p>Edit documents</p>	<p>Given a document to be revised, a computer, word processor, or terminal, and word processing software, edit a document using the necessary functions. The revised document should:</p> <ol style="list-style-type: none"> 1. incorporate all desired revisions. 2. be 100% accurate. 3. be completed within the allotted time. 4. be modified according to software parameters, if applicable. 5. incorporate the use of the word processing software's search/replace, spell check, Thesaurus, and/or grammar check features, if available and applicable. 6. include any requested use of format features such as bold, underline, italics, headers, or footers. 7. be saved on a specified drive, in an appropriate directory/subdirectory, and under a specified file name.
<p>Utilize reference books</p>	<p>Given current trade and financial publications, professional reference books, and other business-related publications, utilize the reference materials to respond to questions or to provide correct, up-to-date information as requested. Locate the information requested to answer inquiries within five minutes and with 100 percent accuracy.</p>
<p>Prepare an agenda for a meeting</p>	<p>Given appropriate information about a proposed meeting that includes time, place, participants to be involved, agenda items, reference material, and handouts, prepare an agenda for a meeting. The agenda:</p> <ol style="list-style-type: none"> 1. is received by participants at least five working days prior to the meeting or within the length of time designated by supervisor. 2. is error-free. 3. is prepared in the standard or a specified format. 4. provides details as specified in draft information.

PERFORMING CLERICAL DUTIES

SKILL

STANDARDS

Mail literature, documents, and packages to customers and prospects

Provided with appropriate materials and equipment, process mail, packages, and other documents to customers or appropriate recipients. All outgoing mail:

1. is legibly addressed with no errors.
2. is processed in accordance with organizational procedures and postal regulations.
3. is sorted by size or weight and posted accordingly.
4. is sent by the most efficient courier within the required time frame.
5. is enclosed in the proper envelope or meets shipping and wrapping requirements of the courier.
6. is accompanied by customer papers if the destination is international.
7. is documented for follow-up of any special handling requirements.

Prepare business reports

Given directions, company procedures, and appropriate equipment and software, prepare a business report. The report must:

1. include information that has been researched and compiled.
2. communicate the intended message.
3. be 100 percent accurate.
4. conform to standard rules of formatting, grammar, spelling, and punctuation.
5. ensure that data used for charts and graphs are imported and manipulated correctly.
6. have graphics inserted correctly and in the appropriate size and location in the document.
7. be saved for easy retrieval.
8. be completed within the allotted time.

UTILIZING SOFTWARE APPLICATIONS

SKILL

STANDARDS

<p>Produce documents integrating word processing, database, and spreadsheet files</p>	<p>Given a computer, software which will integrate word processing, database, and spreadsheet files, and information for a document, produce a document integrating the three files: word processing, database, and spreadsheet. The document will:</p> <ol style="list-style-type: none"> 1. utilize the word processing software correctly. 2. utilize the database software correctly. 3. utilize the spreadsheet software correctly. 4. contain all three files. 5. be integrated correctly. 6. be keyed with 100 percent accuracy. 7. utilize correct formatting during the integration process.
<p>Produce documents integrating graphic files with other applications software</p>	<p>Given a computer, word processing software, and a draft of a document, produce a word processing document that integrates a graphic within the document. The document will:</p> <ol style="list-style-type: none"> 1. utilize the word processing software correctly. 2. utilize the integration of a graphic file correctly. 3. be keyed with 100 percent accuracy. 4. have graphic placed correctly within the text.
<p>Prepare an outline for a presentation</p>	<p>Given a computer, word processing software, and information to be used for a presentation, produce an outline for a presentation. The document will:</p> <ol style="list-style-type: none"> 1. utilize the word processing software correctly. 2. be keyed using correct formatting. 3. be keyed with 100 percent accuracy.
<p>Use presentation software to create projects using graphics, fonts, line shading, shadowing, etc.</p>	<p>Given a computer, presentation software and information about a presentation to be made, create a presentation using graphics, various fonts, line shading, shadowing, etc. The document will:</p> <ol style="list-style-type: none"> 1. utilize the presentation software correctly. 2. use a variety of fonts. 3. use various line shadings. 4. use shadowing techniques. 5. integrate various graphics. 6. be keyed with 100 percent accuracy. 7. utilize appropriate and attractive layout/designs.

UTILIZING SOFTWARE APPLICATIONS

SKILL

STANDARDS

<p>Create worksheets using spreadsheet commands, functions, and formulas</p>	<p>Given a computer, spreadsheet software, and data to use in a spreadsheet, produce a spreadsheet using various spreadsheet functions, commands, and formulas. The document will:</p> <ol style="list-style-type: none"> 1. utilize the spreadsheet software correctly. 2. utilize various functions within the spreadsheet software. 3. utilize a variety of commands within the spreadsheet software. 4. utilize formulas. 5. be keyed with 100 percent accuracy. 6. be keyed with correct formatting (i.e., money will be in currency format). 7. contain formulas in specific cell addresses.
<p>Create worksheets requiring the copying of formulas using absolute, mixed, and relative cell references</p>	<p>Given a computer, spreadsheet software, and data for a spreadsheet, produce a spreadsheet document that requires the copying of formulas using absolute, mixed, and relative cell references. The document will:</p> <ol style="list-style-type: none"> 1. utilize the spreadsheet software correctly. 2. utilize the copying of formulas using absolute values. 3. utilize the copying of formulas using mixed values. 4. utilize the copying of relative cell references. 5. be keyed with 100 percent accuracy. 6. be keyed with correct formatting. 7. contain formulas in specific cell addresses.
<p>Create worksheets requiring the inserting, deleting, moving, and copying of columns and rows</p>	<p>Given a computer, spreadsheet software, and data for use in a spreadsheet, produce a spreadsheet document that requires inserting, deleting, moving, and copying of columns and rows. The document will:</p> <ol style="list-style-type: none"> 1. utilize the spreadsheet software correctly. 2. utilize the insert function/command. 3. utilize the delete function/command. 4. utilize the moving function/command. 5. utilize the copying function/command. 6. have correct information in all columns and rows. 7. have columns and rows in correct order. 8. be keyed with 100 per cent accuracy. 9. be formatted correctly.

UTILIZING SOFTWARE APPLICATIONS

SKILL

STANDARDS

<p>Create bar, line, and pie graphs with titles and legends</p>	<p>Given a computer, spreadsheet software, and data for a spreadsheet, produce the following graphs: line graph, bar graph, and pie graph. Each graph should contain appropriate titles and legends. This procedure will:</p> <ol style="list-style-type: none"> 1. utilize the spreadsheet software correctly. 2. utilize the integration of graphs correctly. 3. produce a spreadsheet with appropriate information. 4. produce a bar graph with appropriate titles and legends. 5. produce a line graph with appropriate titles and legends. 6. produce a pie graph with appropriate titles and legends. 7. be keyed with 100 percent accuracy. 8. be formatted correctly.
<p>Create, update, sort, query, edit, and print from data files</p>	<p>Given a computer, a printer, database software, and data to be keyed, create a database. Upon completion, update the database, sort, query, edit, and print from the database files. The document will:</p> <ol style="list-style-type: none"> 1. utilize the database software correctly. 2. contain a completed database with proper updates. 3. be sorted appropriately using correct sort commands. 4. be queried using correct query functions. 5. be edited using correct editing functions. 6. be printed using correct printing procedures. 7. be keyed with 100 percent accuracy. 8. be formatted correctly.
<p>Create reports and labels</p>	<p>Given information for a report, computer, and database software, create reports and labels. The document will:</p> <ol style="list-style-type: none"> 1. utilize the database software correctly. 2. create reports using specific fields. 3. utilize the label function using specific fields. 4. have fields located in correct position on reports and labels. 5. be keyed with 100 percent accuracy. 6. be formatted correctly.

UTILIZING SOFTWARE APPLICATIONS

SKILL

STANDARDS

<p>Create and enter data into database fields</p>	<p>Given data, a computer, and database software, create and enter data into a database. The document will:</p> <ol style="list-style-type: none"> 1. utilize the database software correctly. 2. be structured in a logical sequence. 3. have appropriate fields in the database. 4. have appropriate widths and lengths. 5. have appropriate information entered onto each record. 6. be keyed with 100 percent accuracy. 7. be keyed using correct format.
<p>Query databases for specific data</p>	<p>Given a computer, database software, a database, and a request for information, query a database for specific data. The document will:</p> <ol style="list-style-type: none"> 1. utilize the database software correctly. 2. utilize the query function of the database software correctly. 3. query the correct information.
<p>Print worksheets with headers and/or footers</p>	<p>Given a computer, spreadsheet software, and a draft copy of a spreadsheet, print a spreadsheet with a header and footers. The document will:</p> <ol style="list-style-type: none"> 1. utilize spreadsheet software correctly. 2. utilize the header function correctly. 3. utilize the footer function correctly. 4. be keyed with 100 percent accuracy. 5. utilize the appropriate print functions. 6. be formatted appropriately, making certain that headers and footers are positioned correctly.
<p>Create worksheets to solve business/financial problems utilizing spreadsheet functions</p>	<p>Given a computer, spreadsheet software, and data for a spreadsheet, create a spreadsheet to solve business/financial problems using various spreadsheet functions. The document will:</p> <ol style="list-style-type: none"> 1. utilize the spreadsheet software correctly. 2. utilize appropriate functions (i.e., @ function) in order to calculate and predict in a more effective and efficient manner. 3. utilize copy functions when appropriate. 4. utilize formulas when appropriate. 5. be keyed with 100 percent accuracy. 6. be formatted correctly.

ACCOUNTING FUNCTIONS

SKILL

STANDARDS

<p>Evaluate expenditures and bills for approval</p>	<p>Using data provided on purchase requisition, purchase order, bill of lading, and/or invoice received, approve the expenditure and invoice for payment, as follows:</p> <ol style="list-style-type: none"> 1. Determine specific department and budget to be charged, review justification for expenditures, and process for approval. 2. Verify that merchandise or services received are as requested and satisfactory. 3. Verify that amount is correct, with any discounts and terms of payment as noted. 4. Note and resolve any errors or changes, if different from original purchase order or requisition. 5. If required, complete vouchers with correct date, number, calculations, and noted errors. 6. Obtain approval signatures and route the invoice to proper office for payment. 7. Make payment in a timely fashion to take advantage of discounts.
<p>Establish complete budget figures for planned year</p>	<p>Given all projected costs and estimated revenue for a business, prepare a budget that meets the following criteria.</p> <ol style="list-style-type: none"> 1. Reflects the current costs for personnel, provides for future salary increases, and provides for additional personnel as needed 2. Identifies costs for the supplies, materials, and equipment necessary to provide services or products, and projects costs for replacement of equipment or for expansion of business activities 3. Identifies and provides written justification for changes from previous budgets 4. Is calculated accurately 5. Is presented in a logical, understandable format, which includes the use of appropriate charts, tables, and graphs 6. Provides for cash flow and profit margin
<p>Classify accounts as to assets, liabilities and capital</p>	<p>Given a list of company assets, liabilities and capital items, identify the correct classification of each item on the list. All assets, liabilities, and capital will be classified with 100% accuracy.</p>

ACCOUNTING FUNCTIONS

SKILL

Interpret financial statements such as balance sheet, income statement, cash flow projects, and summary of sales and cash receipts

STANDARDS

Given various financial reports such as a balance sheet, income statement, cash flow activities, and summary of sales and cash receipts, interpret the financial statements. The analysis must:

1. show evidence that financial statements and transactions have been analyzed and interpreted.
2. indicate the financial health of the enterprise and its ability to continue and progress as a viable operation.
3. identify problems or areas of concern.
4. explain reasons for abnormal gains or losses.

BANKING OPERATIONS	
SKILL	STANDARDS
Endorse checks and prepare a deposit slip	<p>Given a bank deposit, checks, cash, and coins to deposit, endorse checks and prepare a deposit slip. Bank deposits must have:</p> <ol style="list-style-type: none"> 1. a correctly totaled deposit slip that lists all checks, cash, and coins. 2. totals on deposit slip that correspond with correct amount of cash, coins, and checks to be deposited. 3. properly endorsed checks.
Complete a check stub and write a check	<p>Provided blank checks and a checkbook, check stub, or check register, write a check. The check must:</p> <ol style="list-style-type: none"> 1. be written to the proper payee. 2. have the correct date. 3. have the correct amount in both numerals and in writing. 4. be signed correctly. 5. have a check stub or register completed with check number, date, payee, and correct amount.
Reconcile a bank statement	<p>Compare data on bank statement, canceled checks, deposit slips, and in checkbook to reconcile the bank statement with the checkbook. Upon completion of the process:</p> <ol style="list-style-type: none"> 1. bank statement and checking account balance will agree. 2. list of outstanding checks and deposits will be provided. 3. if necessary, notations will be made for any differences.
Record the entry for a service charge, credit fees, or dishonored check	<p>Given a journal, ledger, or other appropriate record and an entry to be debited to a customers record or account, record the entry for a service charge, credit fees, or dishonored check in a customer's account. The amount of the charge, fee, or check must be recorded as a debit to the customer's account and subtracted from the account balance. The record should include the date, the amount of the charge, and the new balance.</p>
Follow procedures for conduct during a robbery	<p>Given a robbery alarm system, marked money, and a robbery situation, follow procedures for the proper conduct during a robbery. Conduct must follow company procedures 100%. They may include the following:</p> <ol style="list-style-type: none"> 1. Activating the robbery alarm system and surveillance system if it can be accomplished safely 2. Observing the robber's physical features, voice, accent, mannerisms, dress, kind of weapon he/she carries, and other characteristics that would be useful for identification purposes 3. Retaining any evidence such as a note

BANKING OPERATIONS	SKILL	STANDARDS
Follow procedures for conduct after a robbery		<p>Given a telephone and note paper, follow procedures for conduct after a robbery. Conduct must follow company procedures 100%. They may include the following.</p> <ol style="list-style-type: none"> 1. Observe the escape route of the robbers and the description and license plate number of the vehicle used, if any. 2. Telephone the local police, if they have not already arrived. Give your address and the name of the bank, and inform them there has been a holdup. Keep the line open to the police department so additional information can be furnished as it is requested. 3. If the robber leaves before police arrive, be sure that an officer or an employee waits outside the office to inform the police that the robber has left. 4. Record the observations of the robber's features, the direction of the escape, and the description of the vehicle. (Refrain from discussing details of the robbery with others before recording these observations.)
Adhere to procedures for the safekeeping of money		<p>Given a cash drawer and money, adhere to procedures for the safekeeping of money. All precautions for safekeeping of money according to company policy must be demonstrated. Insure that money is out of customer's reach, cash drawer is locked when not open for transactions, and currency and coins are immediately placed in cash drawer upon receipt.</p>
Give customer account information		<p>Given a situation and customer's files or records, give customer account information. Prior to giving information, account number must be obtained and identity of person making the request must be verified as specified by company policy. Customer must be provided with account information that is 100% accurate.</p>
Make title changes on customer accounts		<p>Provided with blank account information report forms and requests for account changes, make title changes on customer accounts. All sections of the account information report must be completed accurately. Data must be input into customer's records without error, deleting old information and replacing it with new information.</p>
Review signature cards		<p>Given customers' files and signature cards, review signature cards prior to making transaction. Customer's signature must be included on signature card on file. Any missing signature cards must be noted with customer's name and account number. Procedures for completing signature cards must be explained to customer prior to completing the transaction if there is no signature card on file for signer.</p>

BANKING OPERATIONS	
SKILL	STANDARDS
Place hold on customer accounts	Provided with a blank hold form, customer account information, and hold requests, place hold on customer's accounts. Hold form must be completed with 100% accuracy, with date of transaction, account number, amount, check number, bank codes, and date to be released. Hold form must be forwarded to bookkeeping department or other company designated department.
Place stop payment on checks	Given blank stop payment forms and request for stop payment, place stop payment on check. Stop payment forms must be completed correctly and signed by the drawer of the check. Copies of stop payment forms are distributed to other tellers and the bookkeeping department.
Verify customer's checking/savings account	Given computer file or other records, verify customer's checking/savings account. Customer's checking/savings account must be verified by entering the customer's account number in the terminal, entering account security or access codes, and verifying amount on screen.

LOAN ACTIVITIES	
SKILL	STANDARDS
Receive loan applications from customers	Given a blank loan application, obtain information from customer. Loan application must be completed with 100% accuracy and signed by the customer. Loan application is sent to the designated department or employee for processing.
Explain various payment amounts on different terms	Given financial data on various available payment options, explain loan payment amounts, charges, and terms to customer. Explanation must be 100% accurate, in accordance with company policies, and must be understandable by customer.
Negotiate terms of loan transaction	Given company loan policies and a customer's request for a loan, negotiate terms of loan transaction. The customer's request must be handled in a polite and courteous manner, and terms must be negotiated within the guidelines of company loan policies.

COMMUNICATIONS

SKILL

STANDARDS

<p>Cross-sell financial institution's other products to customers</p>	<p>Given information about the financial institution's products and a customer, cross-sell product to customer. Customer will understand the use and advantages of the product. Purchaser will provide any necessary information required to obtain the product. All forms or applications will be completed with 100% accuracy and signed by the purchaser.</p>
<p>Consult with customers/clients</p>	<p>Given a customer with a question or concern, consult with customers/clients. Customer inquiries must be addressed in a polite and courteous manner and must be answered with information that reflects company policy and is 100% accurate.</p>
<p>Handle telephone calls</p>	<p>Provided appropriate telephone equipment, supplies, instructions, and codes, communicate by using the telephone. The following criteria should be applied.</p> <ol style="list-style-type: none"> 1. Company policy is followed when answering incoming calls. 2. Correct telephone techniques are used in placing or returning telephone calls. 3. Conversations are conducted and concluded in a professional and courteous manner. 4. Appropriate information or requested assistance is given to the caller, or the call is referred to the appropriate individual. 5. Messages are recorded completely and with 100 percent accuracy. 6. Calls are documented according to company guidelines. 7. Voice mail messages are accessed as directed and referred to the appropriate person for response.
<p>Greet and dismiss customers</p>	<p>Given a situation when a visitor or client visits the financial business, greet and dismiss the customer by:</p> <ol style="list-style-type: none"> 1. cordially and professionally welcoming them. 2. providing them with necessary information as appropriate. 3. directing them to the appropriate person or office. 4. treating them in an efficient, timely, and courteous manner.
<p>Provide notary services</p>	<p>Given a document to be notarized, provide notary services. The notary process must include the following.</p> <ol style="list-style-type: none"> 1. Signatory signs document in presence of notary 2. Notary Public verifies execution of the document by proper person 3. Verification that the proper blanks in the notary section of the document are completed with the correct data and signatures 4. Confirmation that the date of expiration of the notary commission is shown and that the seal or stamp is affixed as required by local law

SKILL

STANDARDS

Resolve employee problems

Given a situation that provides information about an employee problem, describe the steps to be taken to resolve this problem. The recommendation must:

1. comply with company policies and procedures.
2. reflect evaluation of the situation and provide documentation of findings.
3. include findings and actions and be communicated both orally and in writing to the employee, with employee's acknowledgement of this communication.
4. comply with state and federal legislation.
5. include any necessary recommendations for changes in the personnel policies and procedures.

Interpret nonverbal communications

Given a situation with a customer, interpret the nonverbal communications. The interpretation must include:

1. identification of the five uses of body language in the communication situation, including facial and body gestures.
2. an explanation of the message that is being communicated by the nonverbal communication.

Outline and deliver an oral presentation

Given a topic or information about a topic, prepare and present an oral presentation. The presentation must meet the following criteria.

1. Content is accurate and organized in a logical sequence.
2. Purpose is determined for appropriateness of audience.
3. Central idea or theme is clearly communicated.
4. Appropriate diction, voice quality, and delivery style are used.
5. Appropriate visuals and handout materials are used.
6. Best media (i.e., teleconference, computer, live audience) for communication are selected.
7. Questions/answers or other feedback from the audience is invited.

Follow oral and written instructions

Given oral instructions to complete one activity and written instructions to complete another one, follow the directions for both. Observation of the tasks will verify that all instructions were followed and completed without error.

Utilize electronic mail services

Given a message or messages to be answered, choose the most appropriate method for replying. The communication should adhere to company policy, use correct techniques for the selected communication tool, and provide appropriate information or requested assistance in the most expedient manner that meets the requester's timeline. The communication must be complete and legible.
