DESCRIPTORS Elementary Secondary Education; *Enrollment Projections; *Enrollment Rate; Private Schools; Public Schools; *School Statistics; Tables (Data)

IDENTIFIERS Department of Education; *Indicators; *National Center for Education Statistics; Office of Educational Research and Improvement

ABSTRACT

Past trends and projected future changes in the composition of enrollment across levels of education and regions of the country, as well as between public and private schools, indicate the amount of resources the nation's schools will require. This report issued by the National Center for Education Statistics indicates that total (public and private) elementary and secondary school enrollment increased during the late 1980s and 1990s, reaching an all-time high of 52.7 million in 1998. This increase followed declining total enrollment in elementary and secondary schools during the 1970s and early 1980s (from 51.3 million in 1971 to 44.9 million in 1984). Total elementary and secondary school enrollment is estimated to increase by 3 percent to 54.3 million between 1998 and 2008. Secondary school enrollments are projected to increase by 11 percent for both public and private schools between 1998 and 2008, while enrollment in prekindergarten through grade 8 is projected to decrease slightly. Total public school enrollment is estimated to increase in the South and West by 4 and 11 percent, respectively, but to decrease in the Northeast and Midwest by 1 and 3 percent, respectively, between 1998 and 2008. **Elementary and secondary
school enrollment**

May 2000

School enrollment is one measure of the size of the educational system and of the demand for teachers, buildings, and educational resources. Past trends and projected future changes in the composition of enrollment across levels of education and regions of the country, as well as between public and private schools, indicate the amount of resources the Nation requires.

- Total (public and private) elementary and secondary school enrollment increased considerably during the late 1980s and 1990s, reaching an all-time high of 52.7 million in 1998. This increase followed declining total enrollment in elementary and secondary schools during the 1970s and early 1980s (from 51.3 million in 1971 to 44.9 million in 1984).
- Total elementary and secondary school enrollment is projected to increase by 3 percent (to 54.3 million) between 1998 and 2008.
- Secondary school enrollments (grades 9–12) are projected to increase by 11 percent for both public and private schools between 1998 and 2008, while enrollment in prekindergarten through grade 8 is projected to decrease slightly.
- Total public school enrollment is projected to increase in the South and West (by 4 and 11 percent, respectively) but to decrease in the Northeast and Midwest (by 1 and 3 percent, respectively) between 1998 and 2008.

Elementary and secondary school enrollment (in thousands), by control and grade level of school, with projections: Fall 1970–2008

Year/period	Public schools			Private schools ¹		
	Grades PreK–12	Grades PreK–8	Grades 9–12	Grades PreK–12	Grades PreK–8	Grades 9–12
1970	45,894	32,558	13,336	5,363	4,052	1,311
1988	40,189	28,501	11,687	5,241	4,036	1,206
1998	46,792	33,522	13,270	5,927	4,588	1,339

Reproduction Basis

This document is covered by a signed "Reproduction Release (Blanket)" form (on file within the ERIC system), encompassing all or classes of documents from its source organization and, therefore, does not require a "Specific Document" Release form.

This document is Federally-funded, or carries its own permission to reproduce, or is otherwise in the public domain and, therefore, may be reproduced by ERIC without a signed Reproduction Release form (either "Specific Document" or "Blanket").

SPECIAL PROCESSING INSTRUCTIONS:

EA 030403

— See over for general FAST TRACK instructions —

Fast Track Instructions

Fast Track documents require expedited processing. All Fast Track documents should be processed *promptly*, i.e., placed first in line amongst the next documents to be processed.

Special Instructions for Fast Track Documents Designated PRIORITY:

Fast Track documents assigned PRIORITY status must be processed in time to make the next possible monthly database update. PRIORITY documents are given a **due date** by which they (and their completed resumes) must be returned.

When returning PRIORITY documents:

- ① use a separate log sheet (to be faxed to Facility);
- ② mail the document individually (not in the regular weekly batch);
- ③ transmit the bibliographic data as a separate file (not as an item in the regular weekly batch).

(Other Fast Track documents, not designated PRIORITY, may be included in the regular weekly shipments and transmissions).

If a Fast Track Document is Rejected:

Fast Track documents have been carefully examined by either the ERIC Program Office staff or the Facility and determined to be appropriate for the ERIC database. Fast Track documents may normally not be rejected (unless physically incomplete). If for any reason, this document is not selected by the Clearinghouse to which it has been assigned, the ERIC Facility should be notified (telephone, e-mail, FAX) and the document subsequently returned to the ERIC Facility with the reason for its rejection provided (e.g., document is incomplete — pages/parts missing; document cannot be microfiched adequately, etc.).

Reason for Rejection: _____

Note on Reproduction Release Forms:

Note that Federally-funded documents (e.g., Agency, Congressional, White House, etc.) do **not** require an ERIC Reproduction Release form. Normally, documents requiring a signed Reproduction Release form, and not already having one attached, will not be designated PRIORITY because of the delay inherent in the permissions process.
