ABSTRACT

To assist schools with the process of school planning, a project team convened by the Illinois State Board of Education has developed an integrated school-improvement planning framework. Through an integrated approach to school improvement, schools are better able to coordinate their programs, activities, and budgets and maximize their resources of time, talent, and funds. The guide outlines the components of the integrated planning process: shared vision, data collection, analysis and gap analysis, integrated action plan, reflection, evaluation, and refinement. A worksheet for data collection and analysis, a template for completing an action plan, and a budget worksheet are included. (DFR)

Reproductions supplied by EDRS are the best that can be made
from the original document.

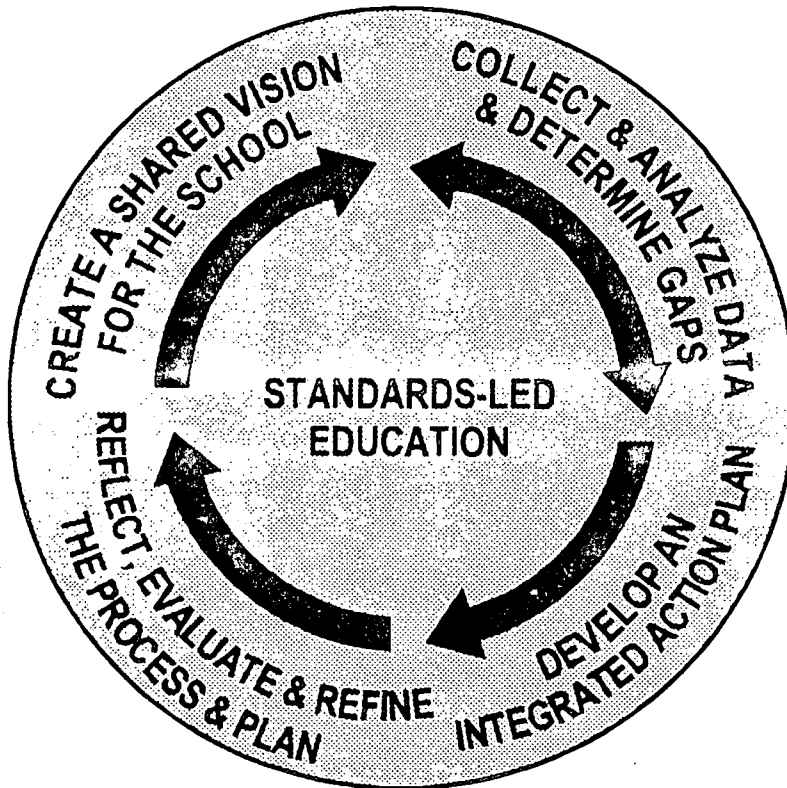

A Template for an Integrated School Improvement Plan

PERMISSION TO REPRODUCE AND DISSEMINATE THIS MATERIAL HAS BEEN GRANTED BY

Illinois State Board of Education

1999

This template outlines the main sections for an integrated school improvement plan:

- I. Demographics
- II. Data Collection, Data Analysis, and Gap Analysis
- III. Integrated Action Plan
- IV. Budget Summary
- V. Reflection, Evaluation, and Refinement

A companion document, *A Guide to an Integrated School Improvement Planning Framework*, provides further explanation of the process and products.

That document is available on the ISBE website:

www.isbe.state.il.us

or by request to Illinois State Board of Education, Information and Resource Center, 217/782-4321.

Region - County - District Code
□□ - □□□ - □□□□

An Integrated School Improvement Plan

For _____ School

School Year _____

[Personalize the plan by inserting the school's
vision, logo or other distinction.]

I. Demographics

Contents: Describe 1) students and information about attendance, truancy, mobility, retention, and expulsion rate and, for high schools, graduation and dropout rates; 2) information about the extent to which all students in the grade levels chosen by the district pursuant to Section 2-3.63 of the School Code are achieving in the fundamental learning areas.

Suggestions: Refer to the information compiled for the School Report Card to develop this section. Format this section in a narrative.

II. Data Collection and Analysis / Gap Analysis

Contents: Provide information on 1) the school's state assessment results and 2) an analysis, based on state and local assessment data and other available information, of factors which may be contributing to any areas of underachievement by students.

Suggestions: Divide this section into subheads of

- A. Data Collection
- B. Data Analysis
- C. Gap Analysis
- D. Priorities Based on Analysis

Use the Data Analysis sheets (pages 5-6) as the basis for writing this section. Rely on achievement data and non-achievement data, e.g., surveys, observations, interviews. Format this section in narrative with supporting graphs and charts.

III. Integrated Action Plan

Contents: Identify measurable goals for improving the school's programs and student performance in at least the areas of deficiency noted, including

- specific, measurable steps to be taken;
- a timeline for these activities; and
- a budget for these activities.

Also required: Include professional development activities for at least the staff providing services in the academic areas in which the school's performance has been deficient.

Suggestions: 1) Use either of the Integrated Action Plan templates (pages 7-8) according to the school's needs and preferences as an organizer for the required information. 2) Replicate the form as needed using a separate page for each goal. 3) Refer to the instructions and sample plan (pages 9-11) for completing the Integrated Action Plan. 4) Include professional development as part of the steps/activities/strategies of the action plan, rather than a separate section of the plan, to show that professional development has a direct relationship to the school improvement goals and Illinois Learning Standards. 5) Include a description of partnership activities with parents/families, businesses, and community organizations as part of the steps/activities/strategies of the action plan showing how such activities will help to accomplish school improvement goals.

IV. Budget Summary

Contents: Refer to Integrated Action Plan required contents (Section III) that require a budget for the activities.

Suggestions: Summarize the amounts for each funding source using this sample table. Set up an Excel spreadsheet to tabulate the funds. (See samples of possible column headings on pages 12-13.) Sketch out a preliminary budget prior to completing the designated budget columns on the Integrated Action Plan. (Refer to "Building a Budget" worksheet on page 14.)

V. Reflection, Evaluation, Refinement

Contents: Describe how the school improvement team makes time to review the plan, assess progress, and make course corrections as needed, or celebrate success, and communicate with the learning community. Indicate how partnership activities with parents/families, businesses, and community organization assist in this review, assessment, and corrective process.

Other Information

Developers of the Plan

Contents: List persons who actively contributed to the plan, e.g., school improvement team, internal review team, local board members, community members, parent/family members, representatives of businesses and community organizations, and other community members.

Informing the Public

Contents: Describe how the learning community will be kept informed about the progress of the plan (i.e., who will be informed and how will they be informed).

II. DATA COLLECTION AND ANALYSIS AND GAP ANALYSIS WORKSHEET

Duplicate additional pages as needed.

School Name: _____

Date: _____

School Improvement Team Members and Others Who Participated in the Data and Gap Analysis and Priority Setting

Check all the areas to which these data and gap analyses apply.

II-A-1: Data Collection <i>What data do we have to inform us?</i>	II-A-2: Source of Data <i>Where did we find these data?</i>	II-B: Findings/Analysis <i>What are these data telling us?</i>	II-C: Gap Analysis <i>What are the areas for improvement?</i>

II. DATA COLLECTION AND ANALYSIS AND GAP ANALYSIS WORKSHEET - page 2

II-D. Priorities Based on Gap Analysis: Given the results of the Data and Gap Analyses from Columns II-A, II-B, II-C on the prior page, please indicate in column II-D-1 the school's priority areas (i.e., goals) to be included in the integrated school improvement plan and aligned with the vision. In Column II-D-2, indicate the resources needed to support achievement of the goals. In the II-D-3 column, consider the priority needs and the resources to support the goals and rank-order each goal (i.e., 1, 2, 3 and so on, with "1" the Most Important, Next Most Important.) These prioritized areas are then written as measurable goals for the Integrated Action Plan.

II-D-1 Priority Area/Goal	II-D-2 Resources to Support Goal Achievement	II-D-3 Rank Order

DETAILED OBJECT DESCRIPTORS: 100-Salaries paid to permanent, temporary or substitute employees on the payroll for regular, temporary and overtime services; 200-Employee Benefits paid on behalf of employees over and above the gross salary, e.g., retirement, life, health and dental insurance, Medicare; 300-Purchased Services paid for personal services and other services rendered by personnel who are not on the payroll (e.g., professional services, operation and maintenance services, staff and student transportation, printing; 400-Supplies/Materials paid for items that are to be consumed, worn out, or deteriorated, e.g. supplies, textbooks, library books, periodicals,, computer software) and also capital outlay items costing less than \$500 per unit; 500-Capital Outlay expenses for acquiring fixed assets or additions, e.g., computers and other non-disposable equipment costing more than \$500 per unit; 600-Other Objects paid for goods and services not otherwise classified above, e.g., membership dues or professional association fees			

Steps for Completing the Action Plan Template

① Write in a **school improvement goal** identified from the gap analysis and discussion of priorities. The goal should be stated in **measurable terms**.

Hint: The plan should contain only 4-6 **priority goals** to increase chances for successful implementation.

Example (Refer to sample on page 11.)

Goal #1: Increase the number of students scoring at or above the national norms in reading.

(Note that the goal has a measurable outcome, i.e., "at or above national norms.")

② List the **Illinois Learning Standard(s)** related to this goal.

Example (Refer to sample on page 11.)

1B: Apply reading strategies to improve understanding and fluency.

4A: Listen effectively in formal and informal situations.

③ Indicate the **rationale** for the goal, i.e., why the goal is important to the school.

Example (Refer to sample on page 11.)

State assessment data revealed 60% of 3rd grade students and 62% of 6th grade students not meeting state reading goals. For last 5 years no student has exceeded reading goals (CAT/5).

④ Explain what **evaluation** will be used to measure the progress of the goal.

Example (Refer to sample on page 11.)

Informal teacher-made tests or observations. Compare results for current year in each grade level scoring about the 50th percentile on CAT and IGAP/ISAT during workshop.

For each activity:

⑤ Identify the **steps** to be taken to implement the goal, the **timelines** by which the activity will be completed, and the **person(s) responsible** to see that the step is accomplished (but not necessarily the person who will do all the activities). Describe how the **activity will be measured** for effectiveness and completion. Also indicate the

population served by this activity to promote equitable program participation for students, teachers and other beneficiaries with special needs.

Hint: Only major steps/events should be included. A detailed, tactical plan can be prepared by the persons responsible to guide implementation of the goal.

Example (Refer to sample on page 11.)

STEP (ACTIVITY)	TIMELINE	PERSON(S) RESPONSIBLE
<p><u>Activity 1:</u> Initiate uninterrupted reading time in the building for 20 min/day supported by a workshop on independent reading, reading in the content areas, and word walls.</p> <p><u>Measure for the Activity:</u> Improved reading scores on ISAT and CAT and student interest in reading from survey results and observation</p> <p><u>Population Served:</u> K-6 students</p>	Daily, beginning the 3 rd week of school	Teachers, Principal

① Provide a **detailed explanation of expenses.**

Example (Refer to sample on page 11.)

Stipends for 25 teachers x \$15/hr x 4 hrs
 Stipends for 5 teacher aides X \$10/hr x 4 hrs
 Janitorial services (use of meeting room on Saturday) \$50
 Food for parents/staff \$6 x 30 people
 Classroom libraries (\$110/each x 19 classrooms)

② Total up the amounts for the **budget** column based on the detailed expenses and also indicate the funding sources for the expenditures (using the codes.) The Sample B template (refer to page 8 of the template) provides references to the detailed object descriptors to categorize the expenses. (Refer to the *Illinois Program Accounting Manual* for additional information about expenditure account classification.)

Salaries/Stipends	\$1,500.00 (QA) 200.00 (T1)
Purchased Services	\$ 50.00 (QA)
Classroom Libraries	\$2,090.00 (SS)
Food /Refreshments	\$ 180.00 (QA)
Total for the activity:	\$4,020.00

Note: The parenthesis indicate the funding sources, e.g., Salaries/Stipends for teachers is from Quality Assurance (QA) and for teachers' aides from Title I (T1). System of Support will fund materials for the classroom libraries.
