CHAPTER 1 - GENERAL PROVISIONS

SUBCHAPTER 1A - ORGANIZATION

.0101 DEFINITIONS

The following terms shall have the following meanings throughout this Title unless the context of a specific rule requires a different interpretation:

- (1) Credit Hours:
 - (a) Credit of one semester hour is awarded for each 16 hours of "class work." Class work is lecture and other classroom instruction. Class work is under the supervision of an instructor.
 - (b) Credit of one semester hour is awarded for each 32 hours of "experiential laboratory work." Experiential laboratory work means instruction given to a student by an instructor to increase the student's knowledge and skills without immediate student application.
 - (c) Credit of one semester hour is awarded for each 48 hours of "faculty directed laboratory work." Faculty directed laboratory involves structured and coordinated demonstration by an instructor with immediate student application.
 - (d) Credit of one semester hour is awarded for each 48 hours of "clinical practice." Clinical practice is a structured, faculty-directed learning experience in a health sciences program which develops job proficiency. Clinical practice requires significant preparation, coordination, and scheduling by the faculty and is under the supervision of an instructor or preceptor who is qualified for the particular program.
 - (e) Credit of one semester hour is awarded for each 160 hours of "work experience" such as cooperative education, practicums, and internships. Work experience involves the development of job skills by providing the student with employment that is directly related to, and coordinated with, the educational program. Student activity in work experience is planned and coordinated by a college representative, and the employer is responsible for the control and supervision of the student on the job.

- (2) Full-time Student means a student enrolled in 12 or more credit hours. For the summer session, Full-time Student means a student enrolled in nine or more credit hours.
- (3) Part-time Student means a student enrolled in less than 12 credit hours.
- (4) FTE means one full-time equivalent (FTE) student or 256 student membership hours per semester (based on a typical semester of 16 weeks x 16 student membership hours per week).
- (5) Student Membership Hour means one hour of scheduled class or laboratory for which the student is enrolled. A college shall provide a minimum of 50 minutes of instruction for each scheduled class hour.
- (6) Annual Curriculum FTE means the total of the student hours in membership for fall and spring semesters divided by 512 (256 student hours per semester x 2).
- (7) Annual Continuing Education (non-credit) FTE means the total of the student hours in membership for the three reporting periods divided by 688 (based on two typical semesters of 16 weeks and a typical summer term of 11 weeks). The three reporting periods are fall semester, spring semester, and the summer term.
- (8) Budget Full-time Equivalent (B/FTE). B/FTE means the number of FTE which determines a college's operating budget.
- (9) College means any institution established pursuant to G.S. 115D except for the N. C. Center for Textile Technology.

.0105 ESTABLISHING COLLEGES

A new college operating under Chapter 115D will be called a community college. An application for a new college must come from the county commissioners in the proposed administrative area. The application shall be sent to the state board which may direct the department to cooperate with the applicants in making a survey to determine the following:

- (1) Do the educational needs of the area justify the educational services proposed?
- (2) Can the existing public and private post-secondary institutions in the area meet the needs demonstrated?
- (3) If unmet educational needs exist that could be met by the proposed institution, will the projected student enrollment justify the proposed institution? As a standard, the projected enrollment should be a minimum of 400 full-time equivalent students in curriculum programs within three years after establishment.
- (4) Can adequate local current and capital expense funds be supplied? As a standard, the level of local current operating fund support should be equal to the existing median support for the institutions in the community college system.
- (5) Will the local public school tax support be affected adversely by the local support required for the proposed institution?
- (6) Do the boards of commissioners and boards of education in the area support the application?
- (7) Are the facilities proposed to house the new institution adequate?

- (8) Does the application fit the policy of reasonable geographic distribution in order to meet statewide needs? As a standard, no new institution shall be established within 25 miles of an existing institution within the community college system, except where urban population density or natural barriers become overriding considerations.
- (9) Will adequate state funds become available to support the proposed new institution?
- (10) Can the immediate needs of an area best be served by an extension unit operating under contract with an existing institution?

When the survey is completed, the Department will report to the state board and make its recommendation(s). Representatives of the college and board(s) of county commissioners may appear before the State Board and make a presentation at the meeting that the Department's recommendation is considered. The State Board shall make its recommendation(s) for the establishment of a new college to the General Assembly, including a request for additional funds if needed.

The home college by written agreement may contract with another college within the community college system to provide any additional educational services which may be required by the military installation located in the home college's area. Priority will be given to adjacent colleges to the military installation to be served.

The initial assignment of service areas to colleges shall take into account the past and present patterns of providing services, including existing agreements between colleges. The State Board may reassign a service area upon the recommendation of the System President. The recommendation shall be based upon an analysis of the service areas involved, including consultation with the presidents of the colleges and the county commissioners of the county(ies) that are affected.

A college may offer education and training in an area assigned to another college only by written agreement between the colleges. This written agreement is to be filed with the System President. A board of trustees may delegate to its president authority to enter into short-term written agreements. Agreements beyond one year in length shall be approved by the boards of trustees of the colleges involved and filed with the System President.

Upon request for certified copies of rules within this Section, only the correct rule will be certified and, in order to insure clarification, all related materials and forms will be attached.

SECTION .0100 - SALARIES**.0101 ESTABLISHING PAY RATES**

(a) The monthly and annual salaries or hourly rates of pay from state funds for full-time and part-time personnel in community colleges shall be established by the president of the college with the approval of the board of trustees within the budget approved for the college by the State Board and in accordance with the regulations approved by the State Board, except that the state-funded portion of the salary of the president of a college shall be approved by the System President in accordance with the state salary schedule for presidents. Salary increases shall be granted annually or upon promotion to a higher position. Legislative increases shall be granted according to requirements set forth by the General Assembly. The State Board shall adopt a minimum and maximum amount of state funds which may be paid to any individual working in a college. Individuals shall be paid between the minimum and maximum amounts at a level determined by the salary approving authority at the college.

(b) All hourly, monthly, and annual salaries for full-time or part-time personnel shall be certified by the president of the college and reported to the Department.

(c) The State Board shall adopt a state salary schedule for presidents in the system. The System President shall determine the proper placement of a newly-hired president on the state salary schedule based on the size of the college and the individual's years of experience as a college president in accordance with the following provisions:

- (1) College size as determined by the total FTE served and reported in the enrollment reports furnished the Department.
- (2) Number of years of experience as a college president:
 - (A) Initial placement will allow credit for only 10 years of experience; and
 - (B) Progression from the minimum or "0" step to the midpoint or step "10" shall be based on additional years of experience;
 - (C) Advancement toward grade maximum after attaining the midpoint of the grade shall be based on merit increases as recommended by the local boards and within state allocations available;

- (D) Newly-hired presidents will not receive salary increments for any years in which a salary freeze was in effect for community college presidents;
- (3) Changes in grade levels:
- (A) Presidents with 0 to 10 years of presidential experience moving to another grade shall be placed in the new grade's range at the current experience level; and
- (B) Presidents with greater than 10 years of experience moving to another grade will receive a salary adjustment only if the current salary exceeds the new salary grade's maximum salary limit, in which case, the salary will be adjusted to the maximum of the new grade;
- (4) Total salary compensation from all sources shall not exceed the maximum for the salary grade as determined by the college's size. Salary compensation is defined as those monies paid from whatever source for which no documentation or expense is required, or which is treated as salary for retirement benefit purposes;
- (5) An interim president's salary will be set at the step of the salary grade for the respective college. Years of presidential experience will be awarded up to 10 years for placement on the appropriate step;
- (6) Presidential salary grades shall reflect the following:
- | FTE | Minimum | Midpoint | Maximum |
|-----|---------|----------|---------|
| | | | |
- These data shall be increased annually based on legislative action and reviewed no less than every three years to assure their continued national competitiveness.

.0109 LONGEVITY PAY PLAN FOR COLLEGE PERSONNEL

(a) Employees of institutions in the community college system assigned to permanent full-time or permanent part-time positions shall receive longevity pay if the employees meet the requirements of total qualifying service set forth in this Rule.

(b) Total service for the longevity pay plan is based on a month-for-month computation of permanent full-time and permanent part-time (20 hours or more, but less than full-time) employment with:

- (1) an institution in the community college system or a school administrative unit regardless of the source of salary and including state, local or other paid employment.
 - (A) Employment for a school year is equivalent to one full calendar year (credit for a partial year is given on a month-for-month basis).
 - (B) In no event will an employee earn more than a year of total service credit in a 12-month period.
 - (C) If an employee is in pay status (working, exhausting vacation or sick leave, or when on workers' compensation leave or is on authorized military leave) for one-half or more of the regularly scheduled workdays in a month, credit shall be given for the entire month.
- (2) departments, agencies, and institutions of the State of North Carolina, (e.g., State Department of Administration, State Revenue Department, University of North Carolina, State Department of Community Colleges, State Department of Public Instruction).
- (3) other governmental units which are now agencies of the State of North Carolina (e.g., county highway maintenance forces, War Manpower Commission, judicial system).
- (4) county agricultural extension service.
- (5) local mental health, public health, social services or civil preparedness agencies in North Carolina, if such employment is subject to the State Personnel Act.
- (6) authorized military leave.
 - (A) Credit for military leave is granted only for persons who were employees of the State of North Carolina or other agencies listed in Paragraph (b) of this Rule who were granted leave without pay:

- (i) for a period of involuntary service plus 90 days or for a period of voluntary enlistment for up to four years, plus 90 days, so long as they returned to employment in a covered agency within the 90 days; or
- (ii) for a period of active duty for service, alerts, or required annual training while in the National Guard or in a military reserve program.
- (B) Employees who enlist for more than four years or who re-enlist shall not be eligible for military leave.
- (C) Employees hospitalized for a service-connected disability or injury shall be granted additional leave without pay for the period of hospitalization plus 90 days or for 12 months, whichever is shorter. The hospitalization must commence before reinstatement into qualifying service for the provisions of this part to apply.
- (c) Total service for the longevity pay plan does not include:
 - (1) Temporary service, that is, service by an employee who works in a temporary position, or who is working temporarily in the absence of a permanent employee on leave of absence, except that temporary service of employees of the General Assembly will be counted and the full legislative terms of the members. Service of legislative interns and pages will not be counted.
 - (2) Periods of out-of-state employment with other states, schools, colleges or universities.
 - (3) Periods of employment with agencies of the federal government.
 - (4) Periods of military service other than those categories described in Subparagraph (b) (6) of this Rule.
 - (5) Periods of employment for employers other than the State of North Carolina even though credit in the North Carolina retirement system has been purchased for such employment.
- (d) An employee assigned to a permanent full-time or permanent part-time position is eligible for longevity pay only after the date the employee has completed ten years of total service with a community college, a school administrative unit or an agency.
- (e) Annual longevity pay amounts are based on the length of total service to agencies, community colleges, and school administrative units as designated in Paragraph (b) of this Rule and a percentage of the employee's annual rate of pay on the date of eligibility.
 - (1) Longevity pay amounts are computed by multiplying the employee's annual base or contract salary rate as of the eligibility date by the appropriate percentage, rounded to the nearest dollar, in accordance with the following table:

Years of Total State Service	Longevity Pay Rate
10 but less than 15 years	1.50%
15 but less than 20 years	2.25%
20 but less than 25 years	3.25%
25 or more years	4.50%

- (2) Longevity pay is not considered a part of annual base or contract pay nor is it to be represented in personnel and payroll records as a part of annual base or contract salary. (Salary increases effective on the same date as the longevity eligibility date shall be incorporated in the base pay before computing longevity).
- (f) The payment of longevity pay to eligible employees is automatic. Payment shall be made in a lump sum, subject to all statutory deductions, during the monthly pay period in which the employee has satisfied all eligibility requirements.
 - (1) Eligible employees on worker's compensation leave shall receive longevity payment in the same manner as if they were working.
 - (2) If an employee retires, resigns, dies, or is otherwise separated on or after the date of becoming eligible for a longevity payment, the full payment shall be made to the employee or to the estate of the employee in case of death.
 - (3) If, on the effective date of this policy, an employee has completed the qualifying length of service but is between eligibility dates, longevity payment will be made on the next longevity anniversary date.
 - (4) If the employee has worked part but not all of one year since qualifying for longevity payment, the employee shall receive a pro-rata payment in the event of:
 - (A) separation from the institution;
 - (B) change in employment status to temporary part-time, or to a position not covered in this policy.

- (5) If an employee separates from a community college and receives a partial longevity payment and is employed by another community college, school administrative unit, or state agency, the balance of the longevity payment shall be made upon completion of additional service totaling 12 months for an employee having a 12-month period of employment, or upon completion of a lesser term for an eligible employee on less than a 12-month period of employment. The balance due is computed on the annual or contract salary being paid at the completion of the requirement.
- (6) If an eligible employee at the time of separation has a fraction of a year toward the next higher percentage rate, payment shall be based on the higher rate; however, the basic eligibility for longevity requirement must have been satisfied before this provision can apply.
- (7) Leave without pay in excess of one-half the work days in a month (with the exception of authorized military leave and worker's compensation leave) will delay the longevity anniversary date on a month-for-month basis.
- (g) Longevity pay shall be made from the same source of funds and in the same pro-rata amounts from which the employee's regular annual salary is paid (e.g. state, federal, local funds).
- (1) Local trustees may provide longevity payments to employees from other than state allotted funds.
 - (2) Only personnel employed in positions allotted by the formula in Rule 2D .0301(d) of this Subchapter shall receive longevity pay from the longevity reserve. An additional allocation will be made for this purpose.
 - (3) Employees in state-allotted positions paid with state-allotted funds other than regular formula allotments shall receive longevity pay from the same source of funds as their salary payment.
 - (4) Employees paid with the following specified funds shall receive longevity pay from these respective sources:
 - (A) Adult basic education funds,
 - (B) Human resource development funds,
 - (C) New industry funds,
 - (D) JTPA funds,
 - (E) Special allotment funds,
 - (F) Federal vocational educational funds, and
 - (G) Local funds.
- (h) The president of each community college shall:
- (1) Determine the quantity of qualifying service and the longevity anniversary date for each eligible employee.
 - (2) Furnish to the state board, on forms prescribed by the Department, data necessary for a determination of the cost of the longevity pay plan from state funds.
- (i) The President of the Community College System shall determine the total cost of the longevity pay plan from data submitted by each community college. If funds are not adequate to pay longevity rates established under this Rule, the President of the Community College System shall submit a budget revision to the State Budget Officer requesting additional funds from other available sources within State Aid.

SECTION .0200 - STANDARD STUDENT FEES

.0201 AUTHORITY TO ESTABLISH TUITION AND FEES

(a) Authority to Charge. All tuition and registration fees charged to students for applying to or attending any college of the system shall be approved by the State Board. No tuition rate or fee schedule shall be charged without resolution of the State Board specifying the purpose for which the fee is charged.

(b) Time Due and Deferred Payment. Tuition, registration fees and required academic fees are due and payable at the time of the student's registration. The college shall, with approval of the board of trustees, prescribe written procedures to permit short-term deferred payment or payment in installments; provided, however, that no student shall be permitted to

graduate or to register for a new semester unless payment of such outstanding balance has been guaranteed in writing by a financially responsible person or organization. Colleges are authorized to withhold transcripts of grades pending resolution of the outstanding obligations. This statement shall not be construed to prohibit a college's local governing board from adding more stringent provisions.

(c) Establishing Additional Fees:

- (1) **Generic Fees.** Generic fees are fees charged to a group of students, such as students in a specific program or to all students, e.g., lab fees, computer usage fees, publications fees, equipment use fees, etc. Activity and parking fees are discussed in Rule .0202(d) of this Section.

(A) In the event that the president and the governing board of a college determine that the college needs to charge a generic student fee other than the fees already authorized by state statute or State Board rule the president of the college shall file with the State Board through the System President, a request for authorization which shall include the following documentation:

- (i) a resolution of the local governing board requesting authorization of the fee, stating the exact rate of payment proposed; and
(ii) a brief explanation and justification stating the purpose of the fee.

(B) A generic fee requires both local and State Board approval.

(C) Any additional fee established by a college which is approved by the State Board is considered a separate charge to curriculum students and shall not be credited as part payment of tuition.

(D) Receipts collected from any special student fee shall be deposited as State Board regulation shall direct, consistent with state law.

(E) Nothing in any rule shall be construed to condone or to authorize any practice of depositing receipts from any student tuition or student fees in a special fund account at a college, except the student activity fee receipt.

(F) Generic fees shall not be used for any purpose other than that for which the fee was approved, e.g., computer equipment could not be purchased for staff members using generic fee receipts.

- (2) **Specific Fees.** Specific fees are those fees charged to students for items required for specific courses which are considered to be in addition to the normal supplies and materials the college would provide. Examples of supplies and materials required which the college would not normally be expected to provide would include tools, uniforms, insurance, and certification fees.

(A) Specific fees shall be approved by the college Board of Trustees. Such fees shall reflect the actual cost of items received by the student.

(B) All fees shall be deposited into a proper college account and all disbursements shall be made by the college business office.

(C) In the event that there is any question as to whether a fee is generic or specific, the guidelines for generic fees, which require both local and state board approval, are applicable.

- (3) Students shall be informed of all approximate fees for a course at the time they enroll. Such fees shall be kept to a minimum consistent with the State Board philosophy to keep student costs as low as possible.

(d) **Family Relocation Tuition.** Community Colleges may charge in-state tuition to certain out-of-state students who are members of families that were transferred to this state by businesses, industries, or civilian families transferred by the military, for employment. Prior to enrollment, the student shall fulfill the following conditions:

(1) Demonstrate that his or her family moved to this state within the preceding 12 months;

(2) Present a letter to the institution from the employer on corporate letterhead stating that the employee, through which the student claims this benefit, relocated to this state for employment with that business, industry, or military establishment;

(3) Present proof of his or her familial relationship with the employee unless the student is the employee;

(4) Live in the same house with the employee unless the student is the employee;

(5) Present evidence that he or she is financially dependent on the employee through which he or she claims this benefit unless the student is the employee; and

(6) Comply with the requirements of the Selective Service System, if applicable.

The number of students eligible for in-state tuition under this rule at a college shall not exceed one percent of the average number of out-of-state students, rounded up to the next whole number, at the college in the academic year immediately preceding enrollment. Eligible students shall be granted this benefit on a first-come, first-serve basis.

.0202 TUITION AND FEES FOR CURRICULUM PROGRAMS

(a) Tuition:

- (1) Student Residence Classification. The classification of students for tuition purposes shall be made pursuant to G.S. 116-143.1.
 - (2) Tuition Rates In-State:
 - (A) A general and uniform tuition rate is established by the State Board as set by the Legislature for full-time curriculum students per semester for North Carolina residents.
 - (B) A North Carolina resident who is a part-time student shall pay a per credit hour rate for curriculum instruction, as established by the State Board, for such tuition in any semester as set by the Legislature.
 - (3) Learning Laboratory. No tuition fees charged.
 - (4) Tuition Creditable Upon Transfer of Student. When a student has paid the required tuition at a college and is given permission to transfer to another college within the system during the academic semester for which the tuition was paid, the college from which the student transfers shall issue to him a statement certifying the amounts of tuition that have been paid, and the college to which he is transferring shall accept such certificate in lieu of requiring payment again. [Also, see 23 NCAC 2D.0323(b)(2) which provides information regarding reporting student hours in membership.]
 - (5) Tuition Student Enrolled in More Than One College. Where a student desires to enroll for the same semester at two or more colleges of the system, the total amount of tuition and fees may be paid to the student's "home" college. "Home" college is defined as the college which the student initially registers for classes. The home college shall, in that case, assume responsibility for arranging with the other college or colleges for enrolling the student in appropriate classes without further charge. Such arrangement shall be made by exchange of letters between the colleges involved. Student membership hours for instruction received shall, in any event, be reported by the college in which the respective instruction occurred.
 - (6) Tuition Rates Out-of-State:
 - (A) Any full-time curriculum student who is an out-of-state resident shall pay tuition fees as established by the State Board for each semester as set by the Legislature.
 - (B) An out-of-state resident who is a part-time student shall pay a per credit hour rate for curriculum instruction as established by the State Board as set by the Legislature.
 - (7) Tuition Exemptions:
 - (A) Individuals taking courses in the categories set forth in G.S. 115D-5(b) shall be exempt from tuition.
 - (B) College Staff Members. Full-time college staff members may enroll in one curriculum or extension course per semester, as well as the summer academic period, in the system without payment of tuition or registration fee.
 - (C) Basic Law Enforcement Training Program (BLET) for law enforcement officers. All law enforcement officers employed by a municipal, county, state, or federal law enforcement agency when taking courses in a state-mandated BLET training program, are exempt from tuition payment. Also, trainees may be exempt from BLET class tuition if a letter of sponsorship from an appropriate law enforcement agency is on file at the college.
- (b) Pre-Enrollment Deposit. When a prospective student has made application for admission and has been accepted, the student may be required to pay an advance deposit up to a maximum of fifteen dollars (\$15.00). This advance payment is not refundable unless the class(es) fails to materialize. This advance payment shall be deposited to the State Treasurer and credited against the full tuition due from the student during the regular registration period.
- (c) Late Enrollment Fee. A late enrollment fee up to five dollars (\$5.00) may be charged curriculum students registering after the specific closing date of registration, with such fees becoming state funds.
- (d) Student Activity Fee. Colleges may establish a student activity fee which may include a parking fee or a scheduled vehicle registration fee for those students who require parking facilities. The maximum amount that may be charged for the student activity fee shall not exceed thirty-eight dollars (\$38.00) per student per fiscal year. Students may be assessed

a parking fee, vehicle registration fee, or similar fee separate from the student activity fee; however, when such a fee is added to the student activity fee, the sum shall not exceed thirty-eight (\$38.00) per student per fiscal year. Funds derived from collection of a student activity fee shall be accounted for and expended under standing procedures and regulations adopted by the local governing board of the college. Any expenditure from the fund must directly benefit students.

(e) Tuition Refunds.

- (1) A refund shall not be made except under the following circumstances:
 - (A) A 100 percent refund shall be made if the student officially withdraws prior to the first day of class(es) of the academic semester as noted in the college calendar. Also, a student is eligible for a 100 percent refund if the class in which the student is officially registered fails to "make" due to insufficient enrollment.
 - (B) A 75 percent refund shall be made if the student officially withdraws from the class(es) prior to or on the official 10 percent point of the semester.
 - (C) For classes beginning at times other than the first week (seven calendar days) of the semester a 100 percent refund shall be made if the student officially withdraws from the class prior to the first class meeting. A 75 percent refund shall be made if the student officially withdraws from the class prior to or on the 10 percent point of the class.
 - (D) For contact hour classes, apply as Part (e)(1) of this Rule except use 10 calendar days from the first day of the class(es) as the determination date.
- (2) To comply with applicable federal regulations regarding refunds, federal regulations will supersede the state refund regulations stated in this Rule.
- (3) Where a student, having paid the required tuition for a semester, dies during that semester (prior to or on the last day of examinations of the college the student was attending), all tuition and fees for that semester may be refunded to the estate of the deceased.
- (4) For a class(es) which the college collects receipts which are not required to be deposited into the State Treasury account, the college shall adopt appropriate local refund policies.

.0203 FEES FOR EXTENSION PROGRAMS

(a) Registration fees for Non-Curriculum Extension Instruction. For purposes of administration of this Rule, non-curriculum extension instruction means all instruction organized, supervised, or delivered outside the regular curriculum programs offered by the college.

- (1) A registration fee, as established by the State Board, as set by the Legislature shall be charged for each occupational extension class.
 - (2) Each local board shall establish registration fees for Community Service Programs.
 - (3) All recreational courses shall be self-supporting. Colleges shall collect and deposit to a local account fees and other contributions to support entirely the costs of all recreational extension courses taught. Also note Paragraph (e) of Rule .0325 of this Subchapter regarding the reporting of student membership hours for this area.
 - (4) A registration fee shall be charged for each extension class of 21 weeks or less. A registration fee shall be charged each 16 weeks for extension classes lasting longer than 21 weeks.
 - (5) Registration Fee Exemptions:
 - (A) Special Extension Training Programs. No registration fees shall be charged students enrolling for special extension training programs that directly relate to job performance set forth in G.S. 115D-5(b).
 - (B) College Staff Members. Full-time college staff members may enroll in one extension or curriculum course per semester in the system without registration fee or tuition charges.
- (b) Self-Supported Classes. A college may sponsor self-supporting classes, [see 23 NCAC 2E .0101], deposit income (if any) to a local account, and pay all expenses from such local account. Each student is required to pay a pro-rata share

of the cost of a self-supporting class. Since the pro-rata share assumed is not considered a registration fee, no individual or group is exempt under G.S. 115D-5(b) from paying a proportional share of the identified cost of the class.

(c) Driver Education. Colleges shall collect a student fee as established by the local board of trustees for the adult driver education training course offered through the community service program.

(d) Registration Fee Refunds. A refund shall not be made except under the following circumstances:

- (1) A student who officially withdraws from an extension class(es) prior to the first class meeting shall be eligible for a 100 percent refund. Also, a student is eligible for a 100 percent refund if an applicable class fails to "make" due to insufficient enrollment.
- (2) After the respective class begins, a 75 percent refund shall be made upon the request of the student if the student officially withdraws from the class prior to or on the 10 percent point of the scheduled hours of the class.
Note: This Rule is applicable regardless of the number of times the class meets or the number of hours the class is scheduled to meet.
- (3) For contact hour classes, apply Subparagraphs (d)(1) and (d)(2) of this Rule except use 10 calendar days from the first day of the class(es) as the determination date.
- (4) For a class(es) which the college collects receipts which are not required to be deposited into the State Treasury account, the college shall adopt appropriate local refund policies.
- (5) If a student, having paid the required registration fee for a semester, dies during that semester (prior to or on the last day of examinations of the college the student was attending), all registration fees for that semester may be refunded to the estate of the deceased.

.0204 OTHER FEES

(a) Equipment Fees. A local equipment fee may be established, not to exceed the fee charged high school students, in cases where high school buildings and equipment are being used; such fees shall be deposited in the college's local account and paid to the local school unit.

(b) Damage or Breakage Fees. Colleges shall charge no breakage fees, property-damage fee, or laboratory fee to students, except in the case of breakage or damage due to gross negligence or maliciousness. Credit may be withheld until proper payment is made.

(c) Library Fines. All library fines, except book-replacement fines, shall become local funds and be used for improvement of the library.

(d) General Educational Development (GED) Fee. All applicants who take the GED test at official GED Testing Centers in the system are required to pay a seven dollar and fifty cent (\$7.50) fee. SECTION .0300 - BUDGETING: ACCOUNTING: FISCAL MANAGEMENT

.0301 OPERATING BUDGET REQUESTS: DISTRIBUTION OF FUNDS

- (a) Projections of full-time equivalent (FTE) students shall be based on the following:
- (1) Curriculum FTE projections shall be based on the academic year (fall and spring semesters).
 - (2) Continuing education FTE projections shall be based on the latest spring, summer, and fall FTE figures. Annual continuing education FTE is determined by totaling the student hours in membership for the three reporting periods and dividing by 688. Note definition of annual continuing education FTE in 23 NCAC 1A .0101(8).
 - (3) Projections shall be made, program by program, as stated in Subparagraphs (a)(1) and (2) of this Rule. If the actual FTE for the semesters needed are not available, the latest actual semester FTE shall be multiplied by the latest five-year retention ratio to determine the appropriate estimates. Retention ratios are FTE comparisons between Fall Semester and the Spring Semester which are used to predict FTE totals when actual figures are not available.
 - (4) The State Board may adjust the projections based on additional factors brought to its attention.
 - (5) The State Board shall adopt an official projection of FTE.
- (b) Appropriation Requests:
- (1) Continuation Budget Requests. The continuation budget request shall be based on the number of FTE and amount per FTE currently appropriated and increases in the continuation budget as directed by the Office of State Budget and Management. Also included in the continuation budget requests shall be continuing categorical programs. Categorical programs are educational programs funded for specific purposes such as new and expanding industry as opposed to general formula programs such as occupational extension.
 - (2) Expansion Budget Requests. The expansion budget request shall consist of at least the following items:
 - (A) an adjustment in the number of FTEs in existing programs based on the difference between the official FTE projections of the State Board and the existing level of FTEs requested in the continuation budget;
 - (B) an adjustment in expenditure per FTE;
 - (C) additional funding for new and special programs of instruction.
- (c) State Board Reserve. A reserve shall be requested from the General Assembly and shall be retained by the State Board for the purpose of making later allocations for feasibility studies, pilot projects, innovative ideas, and start-up of new programs or as otherwise directed by the General Assembly.
- (d) Formula distribution of funds for the current operation budget. Funds appropriated to the State Board for current operation shall be allocated to the system colleges as directed by the General Assembly.
- (e) JTPA Administrative Allotment. Student class hours for class size projects funded by the Job Training Partnership Act (JTPA) shall not be included in the full-time equivalent (FTE) formula for earning budget/FTE. Administrative funds for operating these class size projects shall be allocated on the same basis as all other administrative formula funds.

.0304 EXPENDITURES OF STATE FUNDS: ACCREDITATION EXPENSES & DUES

(a) Accreditation expenses relative to Southern Association of Colleges and Schools may be paid from state funds within the institution's current allotment. These expenses shall be limited to payment of travel, subsistence, lodging, and honorarium incurred by members of visiting committees, other bona fide representatives, and members of the staff of accrediting organizations. This Rule permits payment of only those expenses for which an institution is customarily invoiced by an accrediting organization following a visit.

(b) The institution may pay from state funds the required annual dues of the Southern Association of Colleges and Schools, and such institutional association membership dues as the board of trustees deems to benefit the institution. Regarding membership dues in the Southern Association, this Rule applies to annual dues of correspondents and candidates for membership, as well as accredited members.

(c) The institution may also pay from state funds the fees for accrediting individual programs offered by the institution where such an accreditation is an official prerequisite for the licensing of graduates of such programs by legally designated professional or occupational licensing boards or agencies in the State of North Carolina. State funds may not be used to pay the accreditation costs of any other organizations or agencies.

.0310 LIVE PROJECTS

- (a) Live projects are defined as:
- (1) educational programs in which students, as part of their educational experiences, repair or remodel equipment not owned by the college; or
 - (2) educational programs that produce goods that are sold or services for which charges are made, such goods or services being the normal and necessary product of learning activities of students.
- (b) In the case of (a)(1) of this Rule, the owner of the equipment must supply or pay for all parts required. In the case of (a)(2) of this Rule, the following regulations apply:
- (1) Where federal programs are involved, rules do not permit goods to be sold. In such programs, goods produced may be used for the benefit of the college or donated to another non-profit charitable or educational agency or institution.
 - (2) For live projects that involve the purchase of equipment from the state or federal surplus property agency, the repair of this equipment and its sale as surplus under the rules of the State Division of Purchase and Contract, the proceeds of such sales shall be deposited with the State Board and credited to the equipment budget of the college.
 - (3) In other programs that fall under the above definition of live projects:
 - (A) The local board of trustees shall approve rules, consistent with state laws and rules, covering the disposal of goods and services, charges made, etc.
 - (B) The local board of trustees shall provide that the receipts be deposited to the State Treasurer (unless a "special local" fund account arrangement has been worked out in keeping with rules of the department). Receipts deposited to the State Treasurer under this provision shall be allotted back to the college for expenditures during the same fiscal year.
 - (C) Where a "special local" fund arrangement is set up as provided in (b)(3)(B) of this Rule, all costs made necessary because goods or services are produced and then sold shall be paid from the "special local" account that receives the income. This includes materials used in producing the goods and services, extra personnel required to serve customers, specialized equipment that would not otherwise be required for instruction alone, and other costs directly related to a live project as distinguished from an instructional program that does not produce income. Detailed records must be maintained on the special local fund account in order that periodic financial statements may be prepared and a complete audit of the account made after the close of the fiscal year.
 - (D) Where a "special local" fund arrangement is set up as provided in Part (b)(3)(B) of this Rule, the local board of trustees shall adopt regulations which set forth the purposes for which funds from the special local fund [in excess of those required under Part (b)(3)(C) of this Rule] may be used. Such funds shall not be used to supplement regular salaries of permanent employees whose base salaries are paid from state or local appropriations.
 - (E) Approval as a Special Fund. If a project is expected to continue over an extended period of time or if the cost of providing the goods or services is difficult to trace to a particular patron, the project may be

accounted for as a "special fund". Expenses of these projects may be paid out of receipts. The approval of the Department will be required to set up projects as special funds.

(c) The clientele served in providing clinical experience for students by carrying on live projects shall be limited to students and employees in the system so far as possible. Where, however, outside clients become necessary in order to provide enough experience to carry out educational programs, clients shall be selected from the general public on the basis of standing criteria adopted and published by the college, not inconsistent with State Board rules.

(d) The above rules, except those under Subparagraph (b)(2) of this Rule, do not apply to the disposal of any state owned equipment, which must be declared surplus and sold by the State Board.

.0311 HANDLING OVERHEAD RECEIPTS AND ALLOWANCES

Funds accruing to an institution as federal allowances, including overhead allowances on federal grant projects, veteran student processing per capita allowances work study processing allowances, and similar items and similar allowances derived from private grant projects, shall be deposited in a special local fund to be used by the institution to fund special projects proposed by the institution and approved by the State President consistent with provisions set forth in the Accounting Procedures Manual.

.0313 ACQUISITION OF AUTOMATED DATA PROCESSING (ADP) RESOURCES

All requests to purchase, lease, or rent automated data processing resources (hardware, software, or services) from any public funds shall be submitted to the Department for approval.

- (1) In submitting a request, the institution shall:
 - (a) anticipate and document through planning the need for ADP resources;
 - (b) prepare specification and an evaluation plan for procurement selection; and
 - (c) evaluate proposals and bids.
- (2) During the initial phase of the approval process, the institution shall contact the department and arrange a conference in order to obtain detailed instructions which must be followed through the acquisition process.
- (3) In addition the conference may also include representatives of the MIS Division of the department of Administration, the Division of Purchase and Contract, and the State Auditor. In some cases, when the acquisition cost is relatively low and/or replacements are being requested the conference may be waived at the department's option.

.0314 DISTRIBUTION OF FEDERAL VOCATIONAL EDUCATION FUNDS

Federal funds allocated to the state from the Carl D. Perkins Vocational and Applied Technology Education Act shall be distributed one-third to the community college system and two-thirds to the public school system and in accordance with the approved State Plan. In the event that the community college system or the public school system is unable to use the federal funds as provided for in this Rule as determined by the System President and the State Superintendent, the excess funds may be used by the other system as needed.

Editor's Note: As mentioned in the Editor's Note at the beginning of this Subchapter, numbering errors have been discovered in rules filed in 1976 and 1977. In particular, 23 NCAC 2D .0315 and .0316 appear to have been repealed on November 4, 1976 due to miscommunication between our office and the Department of Public Education. These Rules have been treated by the agency as still in effect since that date as evidenced by amendments as noted in the history file. Though our

office will certify these Rules as repealed, such certification will include all related materials and forms and an affidavit by the Attorney General that the rules were repealed due to administrative error rather than agency intent.

.0319 ALLOTMENT PROCEDURES FOR THE HUMAN RESOURCES DEVELOPMENT

(a) The appropriation provided by the General Assembly for the support of the HRD program shall be divided into three separate and equal funds.

- (1) One-third of the appropriation shall be designated the "Program Maintenance Fund." Each continuing HRD program shall receive annually one equal share of the Program Maintenance Fund.
- (2) One-third of the appropriation shall be designated the "FTE Fund." Each continuing HRD program shall receive annually from this fund an amount proportionate to its share of the total HRD FTE accumulated by all participating institutions.

- (3) One-third of the appropriation shall be designated the "Performance Fund." Each continuing HRD program shall receive annually from this fund an amount proportionate to its share of the sum of all positive earnback indexes accumulated by all participating institutions. Programs generating a negative earnback index shall receive no portion of the performance funds.
- (b) An earnback index for each HRD program shall be computed in accordance with the following formula:

$$\frac{[\text{Aggregate Post-Training-3X Income}] \times [\text{Aggregate Post-Training Public Assistance}]}{[\text{Aggregate Post-Training-3X Income}] \times [\text{Aggregate Post-Training Public Assistance}] + [\text{Aggregate Pre-Training-3X Income}] \times [\text{Aggregate Pre-Training Public Assistance}]}$$

Aggregate Training Costs

(c) No continuing HRD program shall receive a funding increase or decrease of more than twenty thousand dollars (\$20,000) from one year to the next. Any funds which might be earned by a program in excess of the permissible increase shall be reverted to the Performance Fund for redistribution; sufficient funds shall be added to the allotment of any program from the Performance Fund to prevent an impermissible decrease in funding.

(d) No HRD program which generates a negative earnback index for two consecutive fiscal years shall receive funding for the next year without special approval of the State Board (Refer to the HRD Program Procedures Manual available after August, 1981 for additional specific information regarding earnback and other pertinent areas).

.0321 PAYROLL DEDUCTIONS

Colleges are authorized to establish voluntary payroll deduction plans for the following:

- (1) premiums for any type of group insurance established and authorized by the laws of the state;
- (2) amounts authorized by members of the State Employee's Credit Union and local teacher's credit union to be deposited with such organizations;
- (3) loans made to employees by credit unions;
- (4) charitable organizations as defined in Section 501(c) (3) of the Internal Revenue Code approved by the local board of trustees subject to rules and regulations adopted by the director of budget; and
- (5) Payroll Savings Plan for United States Savings Bonds as authorized in G.S. 143-304.

The college's finance officer is also authorized to enter into annual contracts, with employees of the college, which authorize the reduction of salaries to provide for the purchase of annuity or retirement income contracts provided that such action has been approved by the board of trustees and otherwise conforms to the provisions of G.S. 115D-25.

Editor's Note: Upon researching the records supporting this Section as adopted in the former 16 NCAC 4D .0300 and transferred into the existing 23 NCAC 2D .0300, the editor has determined that the rules formerly codified in 16 NCAC 4D .0315 and .0316 were inadvertently repealed as mentioned in the Editor's Notes preceding this Subchapter and preceding Rules .0315 and .0316. Due to subsequent action of the agency, it appears that in amending a repealed rule, the agency

intended to retain the repealed provisions. As an administrative action, we are determining that the subsequent actions were as a matter of fact an adoption. Since the supporting documents speak only to amendment, any request for certification will include the Editor's Notes included in this Section as well as all other filed history records.

.0323 REPORTING OF STUDENT HOURS IN MEMBERSHIP FOR CURRICULUM CLASSES

(a) **Academic Semester.** The academic semester for all credit courses shall be designed so that all classes may be scheduled to include the number of instructional hours shown in the college catalog and the approved curriculum program of study compliance document and reported for FTE purposes (see Paragraph (a) of 23 NCAC 2E.0201 and Subparagraph (a)(3) of Rule .0301 of this Subchapter). Instructional hours include scheduled class and laboratory sessions as well as examination sessions. Length of semesters or courses may vary as long as credit hours are assigned consistent with 23 NCAC 1A.0101 and as long as membership hours are reported consistent with the other provisions of this Rule. Also, note 23 NCAC 2D .0327 which identifies the reporting periods for submission of Institution Class Reports.

(b) **Regularly-Scheduled Classes.**

- (1) A class is regularly scheduled if it meets all of the following criteria:
 - (A) assigned definite beginning and ending time;
 - (B) specific days the class meets is predetermined;
 - (C) specific schedule included on the Institution Master Schedule or other official college documents;
 - (D) class hours assigned consistent with college catalog and curriculum standard requirements;
 - (E) identified class time and dates the same for all students registered for the class excluding clinical or cooperative;
 - (i) Classes which have a regularly scheduled lecture section and a non-regularly scheduled laboratory section will satisfy this criteria. The census date (10% point) must be determined from the regularly scheduled portion of the class. Verification of student participation in the laboratory section of the class must be available for review.
 - (ii) A student is considered absent if that student did not attend during the specified times or days the class was scheduled to meet.
- (2) A student is considered to be in class membership when the student meets all the following criteria:
 - (A) enrolled as evidenced by payment of the applicable tuition and fees, or obtained a waiver as defined in G.S. 115D-5(b);
 - (B) attended one or more classes prior to or on the 10 percent point in the class;
 - (C) has not withdrawn or dropped the class prior to or on the 10 percent point.
- (3) **Student Membership Hour.** A student membership hour is one hour of scheduled class or laboratory for which the student is enrolled. A college shall provide a minimum of 50 minutes of instruction for each scheduled class hour. A college must provide sufficient time between classes to accommodate students

changing classes. A college may not report more hours per student than the number of class hours scheduled in the approved curriculum program of study compliance document.

- (4) Calculation of Student Membership Hours for Regularly Scheduled Classes. Student membership hours are obtained by multiplying the number of students in membership at the 10 percent point in the class by the total number of hours the class is scheduled to meet for the semester as stated in the college catalog and the approved curriculum program of study compliance document (see Subdivision (4) of 23 NCAC 2E.0204).
 - (5) Maintenance of Records of Student Membership Hours. Accurate attendance records shall be maintained for each class through the 10 percent point of the class. Colleges are encouraged to maintain attendance records for the duration of all classes. Attendance records shall be signed by the instructor or lead instructor, verifying their accuracy, and shall be maintained by the college until released from all audits (see the Public Records Retention & Disposition Schedule for Institutions in the Community College System). Student membership hours shall be summarized in the Institution's Class Report and certified by the president or designee. For classes identified as non-traditional delivery (see Subparagraph (e)(1) of this Rule), documentation of student contact prior to the 10 percent point shall be maintained in the same manner as the attendance records mentioned in this Rule.
- (c) Non-Regularly Scheduled Classes.
- (1) A non-regularly scheduled class may include any or all of the following:
 - (A) a class where a definitive beginning and ending time is not determined;
 - (B) a class offered in a learning laboratory type setting (see Subparagraph (b)(6) of Rule .0324 of this Subchapter for definition of learning laboratory);
 - (C) a class self-paced in that the student progresses through the instructional materials at the student's own pace, and can complete the courses as soon as the student has successfully met the educational objectives. Classes offered as independent study are generally offered in this manner;
 - (D) a class in which a student may enroll during the initial college registration period or in which the student may be permitted to enroll at any time during the semester;
 - (E) any class not meeting all criteria for a regularly scheduled class, as shown in Subparagraph (b)(1) of this Rule, is considered to be a non-regularly scheduled class for reporting purposes. Note classes defined as non-traditional (see Paragraph (e) of this Rule) which are identified as a separate student hour reporting category and are not subject to the above provisions in Paragraph (c).
 - (2) Definition of Student Membership. A student is considered to be in class membership when the student meets the following criteria:
 - (A) enrolled as evidenced by payment of the applicable tuition and fees, or obtained a waiver as defined in Paragraph (a) of Rule .0202 of this Subchapter; and
 - (B) attended one or more classes.
 - (3) Definition of a Student Contact Hour. For non-regularly scheduled classes, student contact hours are defined as actual hours of student attendance in a class or lab. Sixty minutes shall constitute an hour.
 - (4) Calculation of Student Contact Hours for Non-Regularly Scheduled Classes. For these classes, actual time of class attendance for each student determined to be in membership shall be reported. Student contact hours for these classes are the sum of all the hours of actual student attendance in a class in a given semester.
 - (5) Maintenance of Records of Student Contact Hours. Accurate attendance records shall be maintained for each class of the nature described in this Rule through the entire semester. Attendance records shall be signed by the instructor or lead instructor, verifying their accuracy, and shall be maintained by the college until released from all audits (see the Public Records Retention & Disposition Schedule for Institutions in the Community College System). Student contact hours shall be summarized in the Institution's Class Report and certified by the president or designee.
- (d) Skills Laboratory or Computer Tutorial Laboratory. Individualized instructional laboratories are similar to learning laboratories (see Subparagraph (b)(6) of Rule .0324 of this Subchapter) except the participants are curriculum students. Skills labs or computer tutorial labs are remedial or developmental in nature and intended for students who are experiencing academic difficulty in a particular curriculum course. A skills laboratory instructor shall be qualified in the single-subject area of the skills laboratory. A computer tutorial laboratory coordinator need not be qualified in any of the subject area(s) provided in a computer tutorial laboratory. Student contact hours may be reported for budget/FTE when students are required by their instructor to attend either of the laboratories for remedial or developmental work and when the skills laboratory instructors or computer tutorial coordinators are paid with curriculum instructional funds.
- (1) Documentation of instructor referral shall be maintained for auditing purposes. Maintain documentation until

released by audit.

- (2) Homework assignments shall not be reported for budget/FTE. Note 23 NCAC 2D .0325(a).
- (3) Calculation of Student Contact Hours for Skills Laboratory or Computer Tutorial Laboratory. For these classes, actual time of class attendance shall be reported; 60 minutes shall constitute an hour. Student hours generated for these types of classes are the sum of all the hours of actual student attendance in a class in a given semester.

(e) Classes Identified as Curriculum Non-Traditional Delivery.

- (1) Definition. Due to the methodology by which instruction is delivered, non-traditional delivery classes are not consistent with the definitions of regularly scheduled or non-regularly scheduled classes described in this Rule. Non-traditional delivery classes are defined as those classes which are offered through media such as radio, television, and other media as well as through correspondence or newspapers. The instruction delivered is pre-structured into identifiable units. Non-traditional delivery classes do not include classes identified as independent study which are not media based or are not correspondence or newspaper based.
- (2) For those classes identified as non-traditional delivery, student attendance in class or in an orientation session, submission of a written assignment or submission of an examination, is the basis for the determination of class membership at the 10 percent point of the class. Student membership hours earned in non-traditional delivery classes shall be calculated by multiplying the number of students in membership, as defined in the prior sentence, times the number of hours assigned to the class in official college documents. For these classes, the number of hours assigned shall be consistent with the credit hours assigned according to 23 NCAC 1A.0101, as well as the appropriate curriculum standard.
- (3) Rule 23 NCAC 2E.0604 specifies that if two or more colleges jointly offer credit courses or programs, the colleges shall enter into a written collaborative agreement. Individual courses developed by a college or jointly by colleges and delivered via media are not subject to this rule (Collaborative Agreements) as long as a degree, diploma, or a certificate is not awarded. In this situation, the sending college shall have an approved curriculum standard and an approved Program of Study. The receiving college may offer the course by virtue of the sending college's approval.
- (4) Service area agreement requirements, as set forth in Rule 23 NCAC 2C.0107, shall be adhered to when a class meets physically as a group supervised by faculty or staff outside the sending college's service area.
- (5) Sharing FTE's for Non-traditional Courses Jointly Offered by Colleges:

Definitions

- (A) Sending college--The college that designs, develops, and delivers the course and makes it available to students on any one or several media. Instructional cost incurred by a college for courses delivered in a non-traditional format is eligible to generate budget/FTE. Instructional cost includes salaries, fringe benefits, supplies, materials, access fees, license fees, broadcast and other directly related production costs. Students who register through the sending college are included in the college's student hour reports which generate FTE.
- (B) Receiving college--The college providing physical facilities or services for students enrolled in courses originating from the sending college. The college incurs a lesser instructional cost than the sending college and is eligible to report 50 percent of the FTE generated by the students who register through the receiving college. The remaining FTE of the students registered through the receiving college may be reported by the sending college unless otherwise agreed.
- (C) In situations where there are multiple sending colleges or multiple receiving colleges or both, the FTE split noted in Subdivision (e)(5)(B) of this Rule is applied.

(f) Curriculum Student Work Experience and Clinical Practice. The following criteria apply to the reporting guidelines for students enrolled in curriculum work experience and clinical practice courses, exclusive of in-plant training as specified in 23 NCAC 2E .0402. Examples of student work experience include cooperative education, practicums, and internships. Clinical practice refers to work experience in health occupation programs.

- (1) Student membership hours for student work experience and clinical practice shall not generate budget/FTE without prior approval by the System Office of such activities through the appropriate curriculum standard.
- (2) Work Experience. Work experience for curriculum courses shall earn budget/FTE at the 100 percent rate of assigned work experience hours and shall not exceed a maximum of 320 membership hours per student per semester.
 - (A) These classes shall be coordinated by college personnel paid with college instructional funds and may be located in one or more sites.

- (B) These classes shall be specified in the approved curriculum of the college consistent with the applicable curriculum standard (see Paragraph (a) and Subdivision (3)(D) of 23 NCAC 2E.0204).
- (C) Formal or informal apprenticeship on-the-job training activities of a cooperative skill training program funded under a special project allocation shall not earn budget/FTE. Classroom instruction funded with college regular budget instructional dollars for related or supplemental instruction as required by formal or informal apprenticeship programs shall earn budget/FTE.
- (3) Clinical Practice. Curriculum clinical practice, as defined in 23 NCAC 1A.0101, refers to clinical experience in health occupation programs which shall earn budget/FTE at the 100 percent rate for student membership hours. The applicable classes shall be consistent with the curriculum standards policy as noted in Paragraph (a) of 23 NCAC 2E.0204. The maximum membership hours in a clinical experience which may be reported per student in a given semester is 640. These classes shall be supervised by college instructors who are qualified to teach in the particular program and are paid with college instructional funds. These classes may be located in one or more sites.

.0324 REPORTING OF STUDENT HOURS IN MEMBERSHIP FOR EXTENSION (NON-CREDIT) CLASSES

(a) Regularly Scheduled Classes.

- (1) Definition of Regularly Scheduled Class. A class is considered to be regularly scheduled if it meets all of the following criteria:
 - (A) assigned definite beginning and ending time;
 - (B) specific predetermined days and time the class meets;
 - (C) specific schedule included on the Institution Master Schedule or other official college documents;
 - (D) class hours assigned consistent with official college documents;
 - (E) identified class time and dates the same for all students registered for the class excluding clinical or work experience:
 - (i) Classes which have a regularly scheduled lecture section and a non-regularly scheduled laboratory section will satisfy the criteria. The census date (10% point) shall be determined from the regularly scheduled portion of the class. Verification of student participation in the laboratory section of the class shall be available for review.
 - (ii) A student is considered absent if that student did not attend during the specified times or days the class was scheduled to meet.
- (2) Definition of Student Membership. A student is considered to be in class membership when the student meets all the following criteria:
 - (A) enrolled as evidenced by payment of the applicable registration fees, or obtained a waiver as defined in Paragraph (a) of Rule .0203 of this Subchapter;
 - (B) attended one or more classes held prior to or on the 10 percent point in the class; and
 - (C) has not withdrawn or dropped the class prior to or on the 10 percent point of the class.
- (3) Student Membership Hour. A student membership hour is one hour of scheduled class or laboratory for which the student is enrolled. A college shall provide a minimum of 50 minutes of instruction for each scheduled class hour. A college shall not report more hours per student than the number of class hours scheduled in official college documents. Colleges shall not report more hours per student, excluding non-traditional classes, than the number of hours specified in the instructor's contract.
- (4) Calculation of Student Membership Hours for Regularly Scheduled Classes. Student membership hours are obtained by multiplying the number of students in membership at the 10 percent point in the class by the total number of hours the class is scheduled to meet for the semester as stated in official college documents.

- (5) Maintenance of Records of Student Membership Hours. Accurate attendance records shall be maintained for each class throughout the entire class or semester. Attendance records shall be signed by the instructor or lead instructor, verifying their accuracy, and shall be maintained by the college until released from all audits as provided in the Public Records Retention & Disposition Schedule for Institutions in the Community College System. Student membership hours shall be summarized in the Institution's Class Report and certified by the president or designee. For classes identified as non-traditional delivery, (see Paragraph (c) of this Rule) documentation of student contact hours prior to the 10 percent point shall be maintained in the same manner as the attendance records mentioned in this Rule.
- (b) Non-Regularly Scheduled Classes.
- (1) Definition of Non-Regularly Scheduled Class. A non-regularly scheduled class may include any or all of the following:
- (A) a class where a definitive beginning and ending time is not determined;
 - (B) a class offered in a learning laboratory type setting (see Subparagraph (b)(6) of this Rule for definition of learning laboratory);
 - (C) a class is self-paced in that the student progresses through the instructional materials at the student's own pace, and can complete the courses as soon as the student has successfully met the educational objectives. Classes offered as independent study are generally offered in this manner;
 - (D) a class in which a student may enroll during the initial college registration period or in which a student may be permitted to enroll at any time during the semester; or
 - (E) any class not meeting all criteria for a regularly scheduled class as shown in Subparagraph (a)(1) of this Rule, is considered to be a non-regularly scheduled class for reporting purposes. Note classes defined as non-traditional (see Paragraph (c) of this Rule) which are identified as a separate student hour reporting category and are not subject to the provisions in Paragraph (b) of this Rule.
- (2) Definition of Student Membership. A student is considered to be in class membership when the student meets the following criteria:
- (A) enrolled as evidenced by payment of the applicable registration fees, or obtained a waiver as defined in Paragraph (a) of Rule .0203 of this Subchapter; and
 - (B) attended one or more classes.
- (3) Definition of Student Contact Hour. A student contact hour is one hour of student attendance in a class for which the student is in membership as defined in Subparagraph (b)(2) of this Rule. Sixty minutes shall constitute an hour.
- (4) Calculation of Student Contact Hours for Non-Regularly Scheduled Classes. For these classes, actual time of class attendance for each student determined to be in membership shall be reported. Sixty minutes shall constitute an hour. Student contact hours for these classes are the sum of all the hours of actual student attendance in a class in a given semester.
- (5) Maintenance of Records of Student Contact Hours. Accurate attendance records shall be maintained for each class throughout the entire class or semester. Attendance records shall be signed by the instructor or lead instructor, verifying their accuracy, and shall be maintained by the college until released from all audits as provided in the Public Records Retention and Disposition Schedule for Institutions in the Community College System. Student membership hours shall be summarized in the Institution's Class Report and certified by the president or designee. For classes identified as non-traditional delivery, (see Paragraph (c) of this Rule), documentation of student contact hours prior to the 10 percent point shall be maintained in the same manner as the attendance records mentioned in this Rule.
- (6) Learning Laboratory. Learning laboratory programs consist of self-instruction using programmed text, audio-visual equipment, and other self-instructional materials. A learning laboratory coordinator has the function of bringing the instructional media and the student together on the basis of objective and subjective evaluation and of counseling, supervising, and encouraging persons working in the laboratory. Contact hours shall be calculated as noted in Subparagraph (b)(4) of this Rule.
- (c) Classes Identified as Extension Non-Traditional Delivery.
- (1) Definition. Due to the methodology by which instruction is delivered, non-traditional delivery classes are not consistent with the definitions of regularly scheduled or non-regularly scheduled classes described in this Rule. Non-traditional delivery classes are defined as those classes which are offered through media such as radio, television and other media as well as through correspondence or newspapers. The instruction delivered is pre-structured into identifiable units. Non-traditional delivery classes do not include classes identified as

- independent study which are not media based or are not correspondence or newspaper based.
- (2) For those classes identified as non-traditional delivery, student attendance in class or in an orientation session, submission of a written assignment or a submission of examination is the basis for the determination of class membership at the 10 percent point of the class. Student membership hours in such classes shall be calculated by multiplying the number of students in membership, as defined in the prior sentence, times the number of instructional hours delivered which is determined as follows:
 - (A) determine the number of hours of instruction delivered via non-traditional delivery; and
 - (B) add the number of hours of class meetings, review sessions;
 - (C) For those non-traditional continuing education classes which are approved by a local college staff review committee and the Director of Continuing Education Services for the System Office additional hours above the level noted in Subparagraphs (c)(2)(A) and (B) in this Rule may be approved commensurate with course content.
 - (3) Individual non-traditional classes which may be developed by a college or jointly by colleges and sent via media are subject to service area agreement requirements as set forth in Rule 23 NCAC 2C.0107 when the class meets physically as a group and is supervised by faculty or staff, outside the sending college's service area.
 - (4) Sharing FTE's for Non-traditional Classes Jointly Offered by Colleges

Definitions

 - (A) Sending college--The college that designs, develops, and delivers the course and makes it available to students on any one or several media. Instructional cost incurred by a college for courses delivered in a non-traditional format is eligible to generate budget/FTE. Instructional cost includes salaries, fringe benefits, supplies, materials, access fees, license fees, broadcast and other directly related production costs. Students who register through the sending college shall be included in that college's student hour reports which generate FTE.
 - (B) Receiving college--The college offering physical facilities or services for students enrolled in courses originating from the sending college. This college incurs a lesser instructional cost than the sending college and is eligible to report 50 percent of the FTE generated by the students who register through the receiving college. The remaining FTE of the students registered through the receiving college may be reported by the sending college unless otherwise agreed upon.
 - (C) In situations where there are multiple sending colleges or multiple receiving colleges or both, the FTE split noted in Subparagraph (c)(4)(B) of this Rule is applied.

(d) Extension Student Work Experience and Clinical Practice. The following criteria apply to the reporting guidelines for students enrolled in extension work experience and clinical practice courses, exclusive of in-plant training as specified in 23 NCAC 2E .0402. To be eligible for approval, these work experience or clinical practice courses shall be required by a licensing agency or accrediting body. Examples of student work experience include cooperative education, practicums, and internships.

 - (1) Student membership hours for student work experience and clinical practice shall not generate budget FTE without prior approval of such activities by the System Office. Approval of student work experience and clinical practice approved prior to November 1, 1983 by the System Office shall be resubmitted for reapproval. When the number of approved student work experience membership hours increases by more than 30 percent per course, a new request for approval shall be submitted.
 - (2) Work Experience. Work experience for extension courses shall earn budget/FTE at the 100 percent rate for student membership hours, as required by a licensing agency or accrediting body, and shall not exceed a maximum of 320 membership hours per student per semester. A maximum of 320 hours may be reported per student per year for a given licensing or accrediting requirement.
 - (A) These classes shall be coordinated by college personnel paid with college instructional funds and may be located in one or more sites.
 - (B) Formal or informal apprenticeship on-the-job training activities of a cooperative skill training program funded under a special project allocation shall not earn budget/FTE. Classroom instruction funded with regular budget instructional dollars for related or supplemental instruction as required by formal or informal apprenticeship programs shall earn budget/FTE.
 - (3) Clinical Practice. Clinical practice, as defined in 23 NCAC 1A.0101, refers to clinical experience in health occupation courses which shall earn budget/FTE at the 100 percent rate for student membership hours, as defined in Subparagraph (a)(3) of this Rule, and shall not exceed a maximum of 320 membership hours per

student per semester unless North Carolina licensure or program accreditation standards require additional hours. In such cases, work activity hours shall earn budget/FTE at the 100 percent rate in accordance with licensure or program accreditation standards up to a maximum of 640 membership hours per student per semester. These classes shall be supervised by college instructors who are qualified to teach in the particular program and who are paid with college instructional funds. These classes may be located in one or more sites.

- (e) The Adult High School Diploma work experience shall not exceed 160 hours per student.

.0325 LIMITATION IN REPORTING STUDENT MEMBERSHIP HOURS

- (a) Student hours shall not be reported for budget/FTE which result from:

- (1) Conferences or visits. General types of meetings usually of one or more day's duration, attended by a fairly large number of people. A conference or visit may have a central theme, but is loosely structured to cover a wide range of topics. The emphasis is on prepared presentations by authoritative speakers, although division into small group sessions for discussion purposes is often a related activity.
- (2) Seminars or Meetings. A small group of people meeting primarily for discussion under the direction of a leader or resource person or persons. Seminars and meetings are generally one-time offerings even though they may continue for more than one day.
- (3) Programs of a service nature rather than instructional classes.
- (4) Enrollment of high school students not in compliance with 23 NCAC 2C.0301 and 2C.0305.
- (5) Unsupervised classes.
- (6) Proficiency or challenge exams except that the actual time required to take the exam may be counted in membership; students shall be registered in the class consistent with Paragraph (a) of Rules .0202 and .0203 of this Subchapter.
- (7) Homework assignments.
- (8) Inter-institutional or intramural sports activities including those of prison inmates.
- (9) Effective July 1, 1993, no budget/FTE shall be generated by occupational extension students after their first repetition of an occupational extension course. Students who take an occupational extension course more than twice within a five-year period shall pay their cost for the course based on the amount of funds generated by a student membership hour for occupational extension multiplied by the number of actual hours the class is to be taught. These students shall not generate budget/FTE. The funds collected from these students shall be used by the colleges to offer additional educational courses. This Subparagraph does not apply to fire, rescue, or law enforcement training courses taken by fire, rescue, or law enforcement personnel.

(b) A statement on occupational extension course repetitions consistent with the requirements of this rule shall be included in college advertisements, schedules and catalogs. Students shall be notified during registration that they will be charged the full cost of courses which they have taken twice within a five-year period and in which they wish to enroll. Students shall be primarily responsible for monitoring course repetitions; however, the colleges shall review records and charge students full cost for courses taken more than twice.

(c) Senior citizens who are legal residents of North Carolina and who wish to enroll in an occupational extension course, shall not be required to pay for taking the course twice. Senior citizens who take an occupational extension course more than twice within a five-year period shall pay their cost for the course based on the amount of funds generated by a student membership hour for occupational extension multiplied by the number of actual hours the class is to be taught. These senior citizens shall not generate budget/FTE. The funds collected from these senior citizens shall be used by the colleges to offer additional educational courses.

(d) Students may repeat occupational extension courses more than once if the repetitions are required for certification, licensure, or recertification. The colleges shall submit annual reports to the State Board of Community Colleges naming the students and the certification, licensure or recertification requirements that necessitated the repetition.

(e) Self-supporting classes shall not be reported for regular budget purposes (those classes supported by student fees or a class in which instruction is provided gratis); all recreational extension classes fall in this category.

(f) Occupational extension instruction shall not be offered in sheltered workshops and adult developmental activity centers (ADAP) except sheltered workshops and ADAP centers may contract with the community college to provide occupational extension courses on a self-supporting basis.

(g) Educational programs offered in a correctional department setting shall report full-time equivalent (FTE) student hours on the basis of contact hours.

.0326 BUDGET FTE FUNDING

(a) All student membership hours generated by the college for a given class shall be counted for budget FTE purposes provided 100 percent of the instructional cost is paid from college funds (funds budgeted through the college's budget including State Current, County Current, or College Funds). These provisions apply to all instructional contracts which generate budget FTE including Basic Skills classes. For purpose of this Rule, instructional cost includes the salary of the instructor(s) as well as fringe benefits, supplies, materials, travel, etc. paid from college funds. College-sponsored instruction shall not supplant existing training which may take place without the college's involvement. Following are Rule applications:

- (1) A company or entity may reimburse the college for a given class up to 50 percent of the instructional cost and the student hours in membership generated in the class may be reported for budget FTE. If the college is reimbursed for more than 50 percent of the instructional cost for a given class, student hours in membership reported for the class shall be prorated in the same proportion as the college funding. If the college is reimbursed for 100 percent of the instructional cost, the class would be gratis [see Paragraph (b) of this Rule] and no budget FTE would be generated.
- (2) In cases where a company or entity donates funds to a college with no expectation for instruction in return, these funds shall be treated as college funds and may be used to generate budget FTE.
- (3) The community college shall not contract with a company/entity to provide training to its current employees except as provided by provisions set forth in 23 NCAC 2E .0402.

Note: Contracted training does not have to be defined as in-plant in order for 23 NCAC 2E .0402(c) to apply for reimbursement purposes.

(b) Any class for which the instructor's services are provided at no cost or for which the instructional cost is paid totally and directly by an external agency is a "gratis" class. In this situation, the class is reported as self-supporting, and does not generate budget/FTE. If a portion of the class is gratis, student hours shall be prorated accordingly.

(c) Categorical state allotments to colleges (except literacy) such as Human Resources Development, Small Business, Focused Industrial Training, Community Service Block Grants, etc., do not earn budget/FTE and are not subject to the provisions of this Rule. Regular budget extension funds excluding adult high school may be used in human resources development programs when the special allocations for these purposes are obligated and, in this event, shall earn budget FTE.

(d) Student class hours for class-size projects in which instructional salaries are funded by Title II of the Job Training Partnership Act (JTPA) shall not receive full FTE funding, but shall receive administrative cost reimbursement.

 - (B) all reports received by September 4 shall be designated Period 2; and
 - (C) all reports received by January 21 shall be designated Period 3.

Also, note Paragraphs (b) and (c) of Rule .0323 and Paragraphs (a) and (b) of Rule .0324 regarding calculation of student membership hours.

SUBCHAPTER 2E - EDUCATIONAL PROGRAMS**SECTION .0100 - PROGRAM CLASSIFICATION: DEGREES: DIPLOMAS AND CERTIFICATES****.0101 PROGRAM CLASSIFICATION**

The following criteria are used for classifying the programs offered in the North Carolina Community College System.

- (1) Curriculum Programs:
 - (a) A curriculum program is an organized sequence of courses leading to an associate degree, a diploma, or a certificate. All curriculum programs are designed to provide education, training, or retraining for the work force.
 - (i) Associate degree programs are planned programs of study culminating in an associate in applied science, associate in arts, associate in fine arts, associate in science, or associate in general education degree.
 - (A) The associate in applied science degree programs are designed to prepare individuals for employment. These programs involve the application of scientific principles in research, design, development, production, distribution, or service.
 - (B) The associate in arts, associate in science, and associate in fine arts degree programs are

- designed to prepare students for transfer at the junior level to institutions offering baccalaureate degrees.
- (C) The associate in general education degree programs are designed for students who desire a general liberal arts education.
- (ii) The diploma programs are designed to provide entry-level employment training. A diploma program may be a stand-alone curriculum program title, or a college may award a diploma under an approved associate in applied science degree curriculum program for a series of courses taken from the approved program of study and structured so that a student may complete additional non-duplicative coursework to receive an associate in applied science degree.
- (iii) The certificate programs are designed to lead to employment or to provide skills upgrading or retraining for individuals already in the workforce. A certificate program may be a stand-alone curriculum program title, or a college may award a certificate under an approved degree or diploma curriculum program for a series of courses taken from the approved program of study.
- (b) Developmental Education programs consist of courses and support services which include diagnostic assessment and placement, tutoring, advising, and writing assistance. These programs are designed to address academic preparedness, workforce retraining, development of general and discipline-specific learning strategies, and affective barriers to learning. Developmental courses do not earn credit toward a degree, diploma, or certificate.
- (2) Continuing Education Programs:
- (a) Occupational Extension courses consist of single courses, each complete in itself, designed for the specific purposes of training an individual for full- or part-time employment, upgrading the skills of persons presently employed, and retraining others for new employment in occupational fields.
- (b) Community Service:
- (i) Community Service courses consist of single courses, each complete in itself; that focus on an individual's personal or leisure needs rather than occupational or professional employment.
- (ii) The cultural and civic, and visiting artist component of this program meets community needs through lecture and concert series, art shows, the use of college facilities by community groups, providing speakers to community organizations, and providing visiting artist activities for college communities. Visiting artists may be provided an opportunity to work as artists in residence to enhance local arts resources and promote the various visual, performing and literary arts in communities throughout North Carolina.
- (c) Self-Supporting Programs:
- (i) A self-supporting course is not reported to the state for budget FTE since the cost of conducting the course is paid by students enrolled.
- (ii) Recreational programs are self-supporting courses which the college may provide at the request of the community but for which the college receives no budgetary credit. Funds appropriated as operating expenses for allocation to the colleges shall not be used to support recreation courses. The financing of these courses by a college shall be on a self-supporting basis, and membership hours produced from these activities shall not be counted when computing full-time equivalent students for use in budget-funding formulas at the state level.
- (d) Basic Skills Programs. The State Board and the community college system shall encourage persons to complete high school rather than seek testing for the High School Diploma Equivalency.
- (i) High School Equivalency programs consist of classroom instruction, learning laboratory courses, or a combination of activities designed to qualify a student for an adult high school diploma. An Agreement of Affiliation with a local public school system is required for minors sixteen or seventeen years old. No agreement is required for adults eighteen years old and older.
- (ii) General Educational Development (GED) testing programs consist of classroom instruction, or learning laboratory courses, or a combination of both designed to qualify a student to demonstrate competency on the General Educational Development (GED) tests and to receive a High School Diploma equivalency from the State Board. The State Board is responsible for the administration of the General Educational Development testing program in cooperation with the Office on Educational Credit of the American Council on Education. The procedures regulating the GED Testing Program set forth in the GED Examiner's Manual published by the General Educational Development Testing Service of the American Council on Education are hereby incorporated by reference. A copy of this manual is available for inspection in the Office of the System President,

Department of Community Colleges, 200 W. Jones Street, Raleigh NC 27603-1379. A copy of this manual may be obtained at a cost of ten dollars (\$10.00) from the GED Testing Service of the American Council on Education, One Dupont Circle NW, Washington, DC 20036-1163.

- (iii) The Adult Basic Education (ABE) program is designed for adults who are functioning at or below the eighth grade educational level. The major objectives of the program are to enable adults to acquire the basic educational skills necessary to be fully competent in our society, to improve their ability to benefit from occupational training and to have greater opportunities for more productive and profitable employment, and to meet their own objectives for enrolling in the program. Classes are offered and focus on fundamental skills such as reading, writing, speaking, computing, critical thinking, and problem solving.
- (iv) The English as a Second Language (ESL) program offers classes which accommodate the varied needs of the immigrant and refugee populations. Attention is given to both the cultural and linguistic needs as instruction is focused upon the formation of accurate, appropriate communication skills and upon the student's ability to function in the adult American community. Classes are offered at the beginning through the advanced levels of ESL. The curriculum is designed to develop the basic language skills of reading, writing, speaking, and listening. Instruction integrates the English language with topics that prepare students for everyday life, employment, and citizenship.
- (v) The Compensatory Education (CED) program is designed for adults with mental retardation. The program is highly individualized and fosters a maximum level of independent living commensurate with personal ability. Instruction is offered in math, language, social science, health, community living, consumer education and vocational education.
- (e) Business and Industrial Training.
 - (i) The Focused Industrial Training program addresses critical skills in existing industries. Based on assessments of need, these customized classes typically combine on-the-job training with classroom instruction to up-grade or train incumbent employees of manufacturing industries.
 - (ii) The New and Expanding Industry Training program offers customized, job-specific training to new or expanding companies creating new jobs in the state.
 - (iii) The Small Business Center program provides training, counseling and referral services especially designed in content and delivery modes for small businesses, both existing and prospective.
- (f) Special Instructional Programs:
 - (i) The Human Resources Development (HRD) program is an intensive program to recruit, train, and either place in employment or vocationally train chronically unemployed or underemployed adults. The primary objective of the training component is to help the jobless trainee orient himself or herself to the world of work, appreciate the effects of his or her behavior on others, and develop the basic academic and communication skills prerequisite to obtaining and maintaining employment.
 - (ii) The Job Training Partnership Act (JTPA) programs consist of occupational training and basic education for disadvantaged persons.
- (g) The Learning Laboratory programs consist of self-instruction using programmed texts, audio visual equipment, and other self-instructional materials. A learning laboratory coordinator has the function of bringing the instructional media and the student together on the basis of objective and subjective evaluation and of counseling, supervising, and encouraging persons working in the lab.

SECTION .0200 - CURRICULUM PROGRAMS

.0201 CURRICULUM PROGRAM APPROVALS AND TERMINATIONS

(a) Curriculum Program Approvals. Community colleges shall issue degrees, diplomas, and certificates to individuals who satisfactorily complete course and program requirements.

- (1) The approval of a college or of a group of colleges in a collaborative arrangement to award the associate degree, diploma, or certificate shall be by individual curriculum program title. Approval by the State Board shall be granted when the college has demonstrated an established need and has provided evidence to the State Board of sufficient instructional faculty, facilities, equipment, and materials required to meet the needs of the communities served without supplanting or duplicating existing programs.
- (2) The application shall be signed by the college president and the chairman of the college's board of trustees.
- (3) The System President shall recommend action on the college's curriculum program application to the State Board.
- (4) Approval to grant degrees, diplomas, and certificates shall be withdrawn if the State Board determines that a college is not maintaining approved programs or graduation requirements.

(b) Curriculum Program Terminations. The college shall terminate a curriculum program when there has been no enrollment for two years; a college may request a one-year extension of a curriculum program upon justification of the potential for employment opportunities and student enrollment. Curriculum programs shall be terminated by action of the State Board. Each college planning to terminate a curriculum program shall inform the System President by submitting a termination notice.

(c) The System President shall approve Associate in General Education and Associate in Applied Science General Occupational Technology curriculum programs for colleges in the system.

(d) On special approval by the State Board, a degree program title or a stand-alone diploma or certificate program title may exceed the maximum length of programs as set by the curriculum standards. Such an exception shall apply to all colleges approved to offer the curriculum program title. A two-thirds majority of colleges approved to offer the program shall agree with the conditions of the request for the exception. A request for an exception shall be justified based on one or more of the following criteria:

- (1) Additional time in the program is required by law.
- (2) Additional time in the program is required by an external regulatory, accrediting, or professional agency recognized by the State Board.
- (3) Additional time in the program is justified by documented extenuating circumstances such as the following:
 - (A) Documentation that equivalent programs in other states require additional hours of training to teach the competencies of the curriculum;
 - (B) Documentation that the program will not be viable without the exception; or
 - (C) Documentation that employers have certified the competencies required for the program and the length of time needed to teach those competencies.

 - (i) The college may add a fourth sentence to the course description to clarify content or instructional methodology.
 - (ii) A college may divide courses into incremental units for greater flexibility in providing instruction to part-time students or to provide shorter units of study for abbreviated calendars. The following criteria shall apply to courses divided into incremental units:
 - (A) A curriculum program course may be divided into two or three units, which are designated with an additional suffix following the course prefix and number.

.0402 PROVISION FOR OCCUPATIONAL EXTENSION IN-PLANT SKILL TRAINING

(a) Chapter 115D of the General Statutes of North Carolina authorizes the college to conduct in-plant courses to assist manufacturing, service, and/or governmental organizations with in-service training of their employees. The goal of in-plant training is the development of skilled workers, such that the people of the state may benefit in common by the attraction of more industries to the state and the maintenance of existing industries. An in-plant training course must provide a greater benefit to the public than it provides to the private company. In-plant training courses supported with public funds must meet the following conditions:

- (1) Training courses shall be available to all local companies, not just to a select few.
- (2) Training shall occur in the facilities or at the sites in which the company normally operates.
- (3) Enrollment shall be limited to the employees of the company in which the training occurs; trainees may be newly-hired employees who need entry level skills or existing employees who, due to documented changes in the job content, need up-grading.
- (4) Training shall be conducted at the employee's assigned work station during normal working hours.
- (5) Training shall be directly related to job skills. Skills taught in the course shall be transferable to work in other companies involved in the same or similar areas of industry, such that the benefit to the public is the development of a skilled workforce, and not merely the training of a private company's employees.
- (6) Training shall prepare new or current employees to apply new technology, new equipment, or new processes. Training shall not be used to refine skills already possessed.
- (7) Courses shall not subsidize private companies. A course in which a company is reimbursed for the cost of providing an employee to conduct the training constitutes a subsidy, and shall not be acceptable without a finding of special circumstances. Special circumstances consist of, but are not limited to the following:
 - (A) A qualified outside instructor is not available.
 - (B) The best qualified and most convenient instructor is an employee of the company.
 - (C) The company has processes about which it does not wish outsiders to obtain knowledge.

(b) Colleges are encouraged to offer in-plant courses in those situations where the development of job skills is dependent on equipment or processes in the work environment which cannot be duplicated in a college setting. The purpose of an in-plant course is to teach the fundamental skills of a particular job. The achievement of production or performance standards established by the employer is not a goal of in-plant courses. The instruction provided shall not duplicate or supplant existing training.

(c) A community college may offer in-plant training, as defined in this Rule, in the following ways:

- (1) The college may employ an instructor or enter into a third-party agreement. In this instance, the college will earn regular budget/FTE for the resulting student hours reported. Also, note 23 NCAC 2D .0326 for related information.
- (2) A college may contract with a company to provide the direct cost of replacement of an employee providing the actual training who is not hired by the company as a trainer, and who is released from regular work responsibilities during the time for which contracted to provide instruction. Replacement cost is defined as actual costs which were expended by the company to replace on a temporary basis the contracted employee from normal duties while providing instruction. In this situation the college may earn regular

budget/FTE.

- (3) A college may contract with a company to provide indirect replacement cost. The cost, if this option is applied, will be the salary loss of production time to the company for the individual contracted to deliver the instruction. This individual must not be a regular trainer or have instructional responsibilities as a part of the regular job requirement. In this situation the college may earn the actual cost of the contract by determining, for the employee who is actually doing the instruction, an hourly wage rate for the instructor's normal job times the actual hours of instruction. This will be the contract cost, and the college will be reimbursed this cost plus 25 percent of the cost for delivery of in-plant instruction when contracted through a company. If the college provides the supplies and materials, these costs may be added to the instructional cost as a part of the contract. Supplies and materials are not to be included in the instructional cost plus 25 percent calculation. Contracted instruction applying this option may neither exceed 240 hours nor be provided on a repetitive basis.

(d) Content of an in-plant course shall be based on an analysis of the job for which training is offered. The job analysis shall designate each separate task within a job and assign a number of hours required to teach each separate task. The college shall review each request for an in-plant training course and make a determination, using the conditions set forth in Paragraph (a) of this Rule, that the public's interest in providing the course to the company's employees is greater than the private benefit to the company. The course outline, the operating costs, and a written finding that this course's public interest is greater than the private benefit to the company shall be approved by the local board of trustees. This approved plan shall be forwarded to the Department for review and approval if consistent with all applicable State Board policies. The Department shall report on in-plant training on a quarterly basis to the State Board. If approval is not given by either the local board of trustees or the Department, no budget/FTE or contract reimbursement shall be reported for that course.

(e) An in-plant course may be offered up to 240 hours. No employee shall be trained for more than 440 hours during a 12-month period. (The 12-month period will begin at the start of the initial training. The application of this provision will begin on or after the first day of Fall Quarter, 1992.)

- (1) An in-plant course shall not be offered on a repetitive or recurring basis to the same employees within the same organization. An employee may not take a given course more than twice.
- (2) The college shall retain in its files a course outline and documentation substantiating each course.

(f) An instructor of an in-plant course, whether an employee of the organization in which the course is offered or an employee of the sponsoring college, shall not, during hours of instruction, be involved in any activity other than instruction. An instructor shall not engage in any administrative, supervisory, or operational functions of the organization in which a course is offered during those hours when he or she is partially or totally paid by the college. An appropriate official of the organization in which the course is offered shall agree in writing to these conditions.
