ABSTRACT
        The 2000-2001 Kentucky Community and Technical College
System (KCTCS) Profile outlines institutional characteristics and facts. It
includes strategic plans, goals, history, enrollment rates, KCTCS districts
and colleges by district, and information about the Board of Regents and
Foundation. Profile highlights include: (1) fall 1999 credit enrollment was
45,988; (2) 94,074 students and 2,404 companies were served by KCTCS'
workforce training and continuing education programs; (3) 60,061 students and
1,091 agencies were served by KCTCS' fire and rescue training program; (4)
the average age of the technical college student was 28; (5) the average age
of the community college student was 27; (6) KCTCS employs 3,600 full-time
faculty, staff and administrators; (7) the 2000-2001 budget was $374 million;
(8) 3,138 associate degrees were granted in 1998-99; and (9) the largest
enrollment in the system came from Jefferson Community College, with a fall
1999 headcount of 8,398. (JA)

## Table of Contents

## Message from President McCall

Thank you for taking this opportunity to learn more about the Kentucky Community and Technical College System. As the founding president of KCTCS, I would like to share with you some information about our system.

KCTCS was created by the Kentucky Postsecondary Education Improvement Act of 1997. KCTCS blends two education systems with long histories of service to Kentucky: 13 community colleges and 15 technical colleges. In this powerful new alliance, KCTCS provides accessible and affordable education and training through:

- Academic and technical associate degrees.

- Diploma and certificate programs in occupational fields.

- Pre-baccalaureate education.

- Adult, continuing and remedial education.

- Customized training for business and industry.

- Distance learning opportunities.

Our colleges also sponsor an array of fine-arts programs that enrich their communities.

KCTCS institutions offer federal financial aid. Credits from our institutions transfer within the system and to four-year universities. All coursework taken within the general education block leading to the associate in arts or associate in science degree can be transferred to all public universities in Kentucky.

To find out more about KCTCS, call the system office at 1-877-528-2748 (246-3146 in Lexington), or contact the campus nearest you.

*Michael B. McCall*

ERIC

# Strategic Plan

## Vision

To create, by the year 2020, a comprehensive community and technical college system recognized as the nation's best.

## Mission

The mission of the Kentucky Community and Technical College System is to improve the quality of life and employability of the citizens of the Commonwealth by serving as the primary provider of the following postsecondary education programs, training and services:

- Certificate, diploma, technical degree, associate degree, and transfer programs

- Workforce training to meet the needs of existing and new businesses and industries

- Remedial and continuing education

- Short-term, customized training for business and industry

- Adult education

- Associated services

## Values

- Mission-driven goals

- Quality programs and excellence in teaching

- Student success and lifelong learning

- Open access with responsive delivery

- Positive culture with trust, respect and open communication

3

# Core Functions of KCTCS

The General Assembly declares on behalf of the people of the Commonwealth the following goal to be achieved by the year 2020 ... a comprehensive community and technical college system that ensures reasonable access throughout the Commonwealth to:

1. A two-year course of general studies designed for transfer to a baccalaureate program.

2. The training necessary to develop a workforce with the skills to meet the needs of existing companies and to attract new and expanding businesses and industries.

3. Remedial and continuing education to improve the quality of life and employability of the citizens of the Commonwealth.

*— Excerpt from the Kentucky Postsecondary Education Improvement Act of 1997 (House Bill 1)*

In House Bill 1, Governor Paul E. Patton and the General Assembly established an ambitious agenda that calls for Kentucky to reach the national average in quality of life by the year 2020.

If Kentucky is to attain that goal, KCTCS must play a major role. According to Governor Patton's Education Pays campaign, a person who receives an associate degree will earn, on average, a half-million dollars more in his or her lifetime than a high school dropout.

To serve the needs of employers and to change the lives of students, KCTCS focuses on providing education and training to support economic development through the following types of programs:

- **Academic and technical courses for credit-seeking students.** KCTCS colleges offer a variety of credentials -- certificates, diplomas and associate degrees -- in more

than 80 general areas. Approval of new programs has greatly accelerated since KCTCS was established. Since January 1998, the KCTCS Board of Regents has approved more than 130 new programs.

Programs are expanding rapidly into a new area -- distance learning. We now offer a totally on-line associate in arts degree. KCTCS has developed a statewide partnership with the Kentucky Virtual University.

KCTCS colleges are recognizing the accomplishments of another kind of student -- we call them ELMS, or Early Leavers with Marketable Skills. Many students enroll in programs only long enough to secure the skills they need, and then go directly into the workforce.

- **Workforce training/economic development.** KCTCS has been at the forefront of education and training projects that have benefited major employers such as UPS, SHPS and BellSouth. We serve many smaller employers as well.

The KY WINS (Workforce Investment Network System) serves employers while providing employees with world-class transferable skills.

- **Non-credit continuing education and community development.** Continuing education programs at colleges offer a wide range of courses – from computers to home and garden to career development to communication to arts and leisure.

One significant piece of KCTCS' continuing education focus is fire and rescue training. The 2000 General Assembly transferred the Kentucky Fire Commission to KCTCS, combining the agencies that train firefighters and certify fire and rescue education.

KCTCS colleges continue to fill their longstanding role of providing arts programs that entertain and enlighten their communities. Our colleges are leaders in their towns.

# Foundation Information

The KCTCS Foundation, Inc. was established on August 9, 1999, as the non-profit fund-raising arm of the Kentucky Community and Technical College System (KCTCS). Under the leadership of an independent Board of Directors, the primary purposes of the KCTCS Foundation, Inc. include:

* Advancing the vision, mission, goals and objectives of KCTCS

* Serving as a catalyst for and providing leadership and coordination for the private-sector resource development programs and activities of KCTCS

* Raising private funds for system-wide initiatives and needs

* Seeking support from state, regional, and national corporations and foundations

* Providing oversight and guidance for the management and investment of private funds

* Providing a cooperative and supportive resource for college foundations

* Serving as a friend-raiser and advocate for the system

* Serving as counselor and advisor to KCTCS President

# Instructional Programs

At KCTCS community colleges, all coursework within the associate in arts or associate in science degree can be transferred toward a bachelor's degree at any public university in Kentucky. Here are other programs in which KCTCS community and technical colleges offer certificates, diplomas and/or associate degrees:

Accounting & Finance Technology
Agricultural Technology
Air Conditioning Technology
Applied Process Technology
Apprenticeship Studies
Auto Body Repair
Automated Systems Technology
Automotive Technology
Aviation Maintenance Technology
Barbering
Biomedical Equipment Technology
Business Technology
Carpentry
Child Care
Cosmetology
Clinical Laboratory Technician
Commercial Art Technology
Computer-Aided Drafting
Computer Applications Technology
Computer Information Systems
Construction Technology
Culinary Arts
Dental Hygiene
Dental Technology
Diagnostic Medical Sonography
Diesel Technology

18

# Instructional Programs (continued)

Early Childhood Education
Electrical Technology
Electronics Technology
Emergency Medical Technology
Engineering Technology
Environmental Technology
Fire & Rescue Training
Forest & Wood Technology
Graphic Communication Technology
Health Sciences
Heavy Equipment Operation
Horticulture
Human Services
Industrial Automation Technology
Industrial Chemical Technology
Industrial & Engineering Technology
Industrial Maintenance Technology
Industrial Plastics Technology
Information Technology
Interior Design
Law Enforcement Technology
Legal Office Technology
Machine Tool Technology
Major Appliance Technology
Manufacturing Systems Technology
Masonry
Medicaid Nurse Aide
Medical Administrative Services
Medical Assisting
Medical Laboratory Technology
Medical Office Technology
Medication Aide
