## ABSTRACT

This research brief examines the destination of Miami-Dade County public high school graduates the year following their graduation. For 1998-99, 58% continued into public postsecondary education, with 37% (375) enrolling at Miami-Dade Community College (M-DCC) (Florida), 9.6% at Florida International University (FIU), and 10.4% at other colleges or universities. The actual number of public high school graduates enrolling at M-DCC increased to 4,932 in 1998-99 (+32 students compared to 1997-98). The number enrolling at FIU increased to 1,283 (+331 students), while other colleges/universities attracted 1,367 students (+182). The overall proportion of graduates continuing into public postsecondary education has increased to 58%, which represents 465 more graduates continuing in 1998-99. For 1998-99, M-DCC's draw from the North, Homestead, and magnet recruiting schools is below the threshold of 35%. FIU's draw is above 10% for the Kendall, InterAmerican, and magnet schools. Other colleges and universities also drew more than 10% of graduates from the Kendall and magnet recruiting schools.

## Destination of Miami-Dade County Public High School Graduates The Year Following Their Graduation

### Introduction and Summary

*This capsule examines the destination of public high school graduates the year following their graduation. For 1998-99, 58.4% continued into public postsecondary education, with 37% enrolling at Miami-Dade, 9.6% at FIU, and 10.4% at other colleges/universities. The actual number of public high school graduates enrolling at M-DCC increased to 4,932 in 1998-99 (+32 students compared to 1997-98). The number enrolling at FIU increased to 1,283 (+331 students), while other colleges/universities attracted 1,367 students (+182).*

### Summary Data

Table 1 presents data on the destination of Miami-Dade County public high school graduates during the year following graduation.

"PERMISSION TO REPRODUCE THIS MATERIAL HAS BEEN GRANTED BY

TO THE EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC)."

U.S. DEPARTMENT OF EDUCATION  
Office of Educational Research and Improvement  
EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC)

This document has been reproduced as received from the person or organization originating it.

Minor changes have been made to improve reproduction quality.

Points of view or opinions stated in this document do not necessarily represent official OERI position or policy.

- For 1998-99, 37% of these students enrolled at M-DCC, and 1.4% enrolled at Broward Community College (BCC).
- FIU and other colleges/universities got 20% of the prior year graduates, compared to 16.1% in 1997-98.

The overall proportion of graduates continuing into public postsecondary education has increased to 58%, which represents 465 more graduates continuing in 1998-99. Where did they go?

- Miami-Dade Community College attracted 24 more graduates, while BCC lost 72
- FIU gained 331
- Other colleges and universities gained 182.

Clearly the improvement in public college-going rate comes from university gains.

The remainder of the Table groups data by campus recruiting schools. Shaded areas indicate 'thresholds' whose values are noted at the bottom of the Table.

- For 1998-99, M-DCC's draw from the North, Homestead, and Magnet recruiting schools is below the threshold of 35%.
- FIU's draw is above 10% for the Kendall, InterAmerican, and Magnet schools.
- Other colleges and universities also drew more than 10% of graduates from the Kendall and Magnet recruiting schools.

IC010418

**Data by  
High School**

Table 2 presents the same information by individual high school. Among the **North Campus** recruiting schools:

- Carol City, Central, and Norland have low continuation rates into public postsecondary education.
- Not surprisingly, the M-DCC draw from these schools is also low (below 35%) but the draw to other colleges and universities is above 10%.
- BCC is attracting students (more than 5%) from American and North Miami Beach.
- FIU has more than a 10% draw from Barbara Goleman and North Miami Beach.

Among the **Kendall Campus** recruiting schools:

- The continuation rate to public postsecondary education is high for all schools.
- M-DCC draw is below 35% for Palmetto, where FIU and other colleges/universities drew 40.9% of the students in 1998-99.
- FIU has more than a 10% draw from all of the Kendall schools except South Miami.
- Killian has 38.1% of its students attending FIU and other colleges/universities in 1998-99, compared to 37.2% at M-DCC.

For the **Wolfson Campus** recruiting schools:

- Edison, Jackson, and Northwestern have low continuation rates into public postsecondary education.
- M-DCC draw is below 35% for Edison and Northwestern in 1998-99. Other colleges/universities recruited 17% of the Northwestern students.
- FIU and other colleges/universities recruited 26.5% of the Coral Gables students.
- For the Magnet Schools (Wolfson/IAC), M-DCC's best draw is from the Design & Architecture Magnet (34.1%).

For the two **InterAmerican Campus** recruiting schools:

- Continuation rates into public postsecondary education are high.
- M-DCC draw is also high (64.1%).
- FIU recruited 15.3% of the Coral Park students in 1998-99.

Among the **Homestead Campus** recruiting schools:

- The continuation rate to public postsecondary education is below 50% at Homestead high school.
- M-DCC draw is below 35% for Homestead and Southridge high schools, but no other public postsecondary institutions are drawing students above the thresholds noted in the Table.
- Other colleges/universities drew 13.1% of South Dade students in 1998-99.

These data are taken from the Florida Department of Education (FDOE) Readiness for College reports. Prior to 1998-99, the data were taken from college and university files using high school codes and graduation dates. FDOE changed the methodology for the

**Methodology  
Note**

1998-99 data and matched a state file of public high school graduates to college and university files using social security numbers. Examination of the data showed that too few students were found at M-DCC. Because of this, the current capsule uses M-DCC enrollment numbers from our local High School Draw Report (RR#99-08R). The number continuing to postsecondary education was also adjusted upward to include the additional students at M-DCC. The Division of Community Colleges is investigating the FDOE data problem using samples of student data sent by Institutional Research.
