ABSTRACT

This statistical document from the University of Alaska Anchorage provides charts and graphs regarding students and student activities at the college in the fall of 2000. Included is information on student headcount and credit hours, majors by specific college within the university and at the branch campuses, credit hours by discipline, and student head counts and majors at their branch campuses. Overall, at the main campus enrollment was down by 2% in fall 2000 from the previous fall, while at all of the branch campuses enrollment had increased over the previous year. The main campus had a total student head count of 12,857. Of the full-time students on the main campus, females slightly outnumbered males, while of the part-time students, females outnumbered males by almost two to one. The main campus and all of the branch campuses were predominately white, with white students making up 76% of the population. The largest minority group was Alaskan natives at 6% followed by Pacific Islanders/Asians at 4%, African American at 4%, Hispanics at 4% and American Indians at 1%. On the main campus a large number of students considered themselves undeclared and were not associated with one of the schools or colleges. Of those students who were declared, the largest number had majors in the college of arts and science, followed by the college of health, education and social welfare.

NOTES:

1. *Total UAA* includes Anchorage, Kenai, Kodiak, Mat-Su, Military Programs, UALC (RD), and PWSCC.
2. Military Programs does not include Elmendorf AFB or Ft. Richardson.
3. Headcount includes students enrolled in credit courses at the 050 level and above, including auditors.
4. Percentages may not add to 100 due to rounding.
5. For this table, and all tables which include class standing, the following definition was used for *first-time freshman* : Student admitted with an admit code of "FT" (first-time admitted), and having a student type of "F" (first-time enrolling), or a student type of "C" (continuing enrollment)--for those continuing to Fall from Summer. The current semester is the first time the student has ever attended an institution of higher education. Except, the student could have been first-time in Summer semester and continued into Fall, and still be a first-time freshman. The current definition does not include students who could be first-time freshmen if they are current high school graduates, even though they may have taken courses for credit previously. A process for identifying these students has begun and future reports should include this sub-group as well.
6. For this table, and all tables which include *Alaska Region of Origin* , the following definition was used: Alaska Region of Origin determined by using the origin at entry (OE) address given by students at the time of enrollment. For students who did not provide an OE address, the mailing address was used to determine origin at entry.

NOTES:

1. Total UAA includes Anchorage, Kenai, Kodiak, Mat-Su, Military Programs, UALC (RD), and PWSCC.
2. Military Programs does not include Elmendorf AFB or Ft. Richardson.
3. Headcount includes students enrolled in credit courses at the 050 level and above, with auditors.
4. For this table, and all tables which include class standing, the following definition was used for *first-time freshman*: Student admitted with an admit code of "FT" (first-time admitted), and having a student type of "F" (first-time enrolling), or a student type of "C" (continuing enrollment)--for those continuing to Fall from Summer. The current semester is the first time the student has ever attended an institution of higher education. Except, the student could have been first-time in Summer semester and continued into Fall, and still be a first-time freshman. The current definition does not include students who could be first-time freshmen if they are current high school graduates, even though they may have taken courses for credit previously. A process for identifying these students has begun and future reports should include this sub-group as well.
5. For this table, and all tables which include *Alaska Region of Origin*, the following definition was used: Alaska Region of Origin determined by using the origin at entry (OE) address given by students at the time of enrollment. For students who did not provide an OE address, the mailing address was used to determine origin at entry.

Other Programs by MAU and Campus:

(These are students from other units who take courses at the Anchorage Campus. Historically, they were Special Undergraduates, or non-degree seekers, since they are not enrolled in Anchorage degree programs. With the Banner system, they can now be identified with the program/site on which they are declared students.)

NOTE: "Other Programs" includes students from one MAU who are taking courses at another unit or MAU. Historically, they were Special Undergraduates, or non-degree seekers, since they are not enrolled in a degree program where they are taking their courses. With the Banner system, they can now be identified with the program of the unit, or MAU, where they are declared students.

NOTE: "Other Programs" includes students from one of or MAU who are taking courses at another unit or MAU. Historically, they were Special Undergraduates, or non-degree seekers, since they are not enrolled in a degree program where they are taking their courses. With the Banner system, they can now be identified with the program of the unit, or MAU, where they are declared students.
