ABSTRACT

This workbook for the orientation for the Student Assessment Committee at Christopher Newport University begins with the agenda for the committee meeting. The first section contains the three column model of assessment and evaluation and sample assessment records using the university's theater arts program and the university counseling center as examples. The second section contains the Assessment Committee working materials, with the assessment timetable and sample schedules and checklists for the assessment process. The final section contains a list of five selected readings on the topic of assessment. (Additional Student Assessment Committee worksheets and evaluation forms are attached.) (SLD)

Theatre Arts	B. F. A.	
(Instructional Degree Program)	(Degree Level)	
September 1996 - August 1998	September 15, 1999	
(Assessment Period Covered)	(Date Submitted)	

Intended Educational (Student) Outcome:

NOTE: There should be one form C for each intended outcome listed on form B. Intended outcome should be restated in the box immediately below and the intended outcome number entered in the blank spaces.

1. Students should attain sufficient knowledge of theatre history, literature and theory to facilitate successful interpretation of dramatic material.

First Means of Assessment for Outcome Identified Above:

1. a. Means of Program Assessment & Criteria for Success:

A comprehensive examination consisting of 15 objective questions in the areas of theatre history and of theatre literature/theory, 25 objective questions in the student's area of craft expertise, and 5 objective questions in the area of professional theatre organization and structure.

l. a. Description of Data Collection & Assessment Results:

The test was administered for the first time in April, 1998 and was taken by four students, with results as shown below.

	Student 1	Student 2	Student 3	Student 4	Average
History	53%	53%	60%	60%	56%
Lit/Theory	60%	60%	40%	67%	55%
Craft	92%	80%	84%	84%	85%,
Prof.	80%	80%	100%	100%	90%
Total	71%	68%	71%	78%	71%

1. a. Use of Results to Improve Instructional Program:

The content of Thea 323/324 (Modern American Drama) has been revised to put more emphasis on the relationship of dramatic theory to specific plays. We have also added a new course, Thea 320 (Theory and Practice of Drama) to provide more in-depth treatment of theory. We are not making any major changes in Thea 321 (Theatre History), though the test results in that area were not satisfactory. We feel the test questions may have been too much focused on recall of isolated facts and did not do a fair job of testing general knowledge of broad trends and movements. The test questions have been revised for next year and we will see if the results are any different. We were satisfied with the results of the test as regards knowledge of individual craft areas.

Form C

Theatre Arts
(Instructional Degree Program)

Intended Educational (Student) Outcome:

NOTE: There should be one form C for each intended outcome listed on form B. Intended outcome should be restated in the box immediately below and the intended outcome number entered in the blank spaces.

2. Students should attain professional competence in the craft skills appropriate to their areas sufficient to insure competitiveness in professional theatre.

First Means of Assessment for Outcome Identified Above:

2. a. Means of Program Assessment & Criteria for Success:

A comprehensive examination consisting of 15 objective questions in the areas of theatre history and of theatre literature/theory, 25 objective questions in the student's area of craft expertise, and 5 objective questions in the area of professional theatre organization and structure.

2. a. Description of Data Collection & Assessment Results:

The test was administered for the first time in April, 1998 and was taken by four students, with results as shown below.

•	Student 1	Student 2	Student 3	Student 4	Average
History	53%	53%	60%	60%	56%
Lit/Theory	60%	60%	40%	67%	55%
Craft	92%	80%	84%	84%	85%
Prof.	80%	80%	100%	100%	90%
Total	71%	68%	71%	78%	71%

2. a. Use of Results to Improve Instructional Program:

The test indicated that students are capable of demonstrating knowledge of their craft areas.

Second Means of Assessment for Outcome Identified Above:

2. b. Means of Program Assessment & Criteria for Success:

Upper division students are evaluated by the appropriate segments of the faculty for each audition, performance, or realized design project on the basis of artistic effectiveness. There were no realized design projects during the evaluation period. The department expects that 70% of the students will average 30 points on a scale of 50 for these evaluations.

2. b. Description of Data Collection & Assessment Results:

As the attached sheets show, 13 students were evaluated for auditions; 5 achieved the desired score of 30. Ten students were evaluated for performances; 7 achieved the desired score of 30.

Form C

2. b. Use of Results to Improve Instructional Program:

The department was satisfied with the results of the performance evaluations, but not with the audition evaluations. We have revised the content of the lower division acting courses. Thea 110, 111, 210, 211 to place stronger emphasis on audition and rehearsal techniques. We have also added a course, Thea 220 (Business and Employment Practices in Professional Theatre) that will specifically address audition preparation and interview technique. This course is now required in our BFA curriculum.

Intended Educational (Student) Outcome:

NOTE: There should be one form C for each intended outcome listed on form B. Intended outcome should be restated in the box immediately below and the intended outcome number entered in the blank spaces.

3. Students should achieve an understanding of the practical structure and process of professional theatre.

First Means of Assessment for Outcome Identified Above:

3. a. Means of Program Assessment & Criteria for Success:

A comprehensive examination consisting of 15 objective questions in the areas of theatre history and of theatre literature/theory, 25 objective questions in the student's area of craft expertise, and 5 objective questions in the area of professional theatre organization and structure.

3. a. Description of Data Collection & Assessment Results:

The test was administered for the first time in April, 1998 and was taken by four students, with results as shown below.

History	Student 1 53%	Student 2 53%	Student 3	Student 4	Average	
•	_	2370	60%	60%	56%	
Lit/Theory	60%	60%	40%	67%	55%	
Craft	92%	80%	84%	84%	85%	
Prof.	80%	80%	100%	100%	90%	
Total	71%	68%	71%	78%	71%	

3. a. Use of Results to Improve Instructional Program:

The test results in the area of understanding the structure and practices of professional theatre were very good, but we feel that there were too few questions in this category to provide an accurate picture of the depth and breadth of the student's understanding. We plan to expand this section in next year's test to the same number of questions included in the lit/theory and history sections.

Second Means of Assessment for Outcome Identified Above:

3. b. Means of Program Assessment & Criteria for Success:

The department feels that 70% of students who complete the BFA degree and seek employment in professional theatre should be successful.

Form C

3.b. Description of Data Collection & Assessment Results:

Two students completed the BFA program in 1996, 3 in 1997 and 4 in 1998. One of the students who finished in 1998 is pursuing additional training in stage combat. One has elected not to seek theatre employment. Two are seeking acting work but have not yet been employed. All 5 of the students who finished in 1996 and 1997 are currently working as actors.

3. b. Use of Results to Improve Instructional Program:

The program has met its target goals.

	ve listed on form B. Intended unit objective should be ve number entered in the blank spaces.		

First Means of Assessment for Objective Identified Above:

1 a. Means of Unit Assessment & Criteria for Success:

Client satisfaction forms will be given to each client at the end of treatment period to assess satisfaction with services. Three critical areas on the satisfaction form will be targeted for assessment. Those three areas being 1) Overall Impression, 2) Willingness to return and 3) Courteous and Caring attitude. In area 1, clients are asked to rate one of five choices ranging from "Excellent" to "Poor" with Excellent = 5 and Poor = 0, in area 2 clients choose either yes, no or unsure and in area three clients are asked to assign a rating of A, B, C, D or F as a rating of their level of satisfaction with A = 4 and F = 0. Acceptable ratings in area 1 will an average rating of "above average" or 4 for those surveyed, ratings in area 2 will show an answer of "yes" from 60% of those surveyed, in area 3, it is our expectation that each area will receive a rating of at least "B" from those surveys returned.

1 a. Description of Data Collection & Assessment Results:

Questionnaire forms were given out to clients after three or more visits. Results from area 1 indicated an average of 3.89 or slightly lower than the "B" expected of those surveyed. Results in area 2 indicated "yes" answers from 76% of those surveyed. Results from area 3 indicated an average 3.67. As a result of the scores in area 1, the staff reviewed the written comments and noted that clients suggested that hours be extended.

1 a. Use of Results to Improve Unit Services:

The hours of the center were extended to more effectively meet the needs of our clients. These three critical areas of satisfaction will continue to be monitored and assessment results will be reported in the next assessment period.

Intended Administrative or Educational Support Objective:

NOTE: There should be one form C for each intended objective listed on form B. Intended unit objective should be restated in the box immediately below and the intended objective number entered in the blank spaces.

_3. The UCC will provide excellent consultation services to help other professionals.

First Means of Assessment for Objective Identified Above:

a. Means of Unit Assessment & Criteria for Success: Satisfaction forms are given to those professionals who use the consultation services of the UCC. These professionals are asked to rate the level of satisfaction with the service provided. The ratings are A, B, C, D or F with A = 4 and F = 0 with an average rating of "B" or 3 being the minimum acceptable rating.

3 a. Description of Data Collection & Assessment Results:

Surveys were given to the agencies that use our consultation services. The results of the survey showed an average overall rating of 3.9.

3 a. Use of Results to Improve Unit Services:

To help maintain the high level of satisfaction among the professionals using the consultation services, an ongoing log of consultation services provided by the UCC was developed and is filled out weekly by the staff who provide the service so that regular follow-up calls might be made. The intent is to maintain a closer relationship with those professionals requesting consultation services.

Second Means of Assessment for Objective Identified Above:

3 b. Means of Unit Assessment & Criteria for Success:

A satisfaction form will be given to those professional agencies directly involved in the crisis intervention process. These professionals will be asked to rate the level of satisfaction with the crisis intervention services provided. The ratings are A, B, C, D or F where A = 4 and F = 0 with an average overall rating of "B" of 4 being the minimum acceptable rating.

3 b. Description of Data Collection & Assessment Results:

Surveys were given to the agencies that are a part of our crisis intervention services. The overall rating of the results of the survey was 3.25.

3 b. Use of Results to Improve Unit Services:

In order to continue to maintain positive relationships with the professional agencies directly involved with crisis intervention, meetings were arranged each semester to meet face to face with them.

Assessment Glossary

Accountability is the responsibility to governing bodies and constituents (the public) for resources used and goods/services produced.

Accreditation is the designation that an institution functions appropriately in higher education with respect to its resources, programs, and services; and maintains educational objectives consistent with its purpose, mission, and goals (SACS, 2000).

Assessment is the objective evaluation of (a) whether an intended outcome has been achieved and to what degree and (b) the differences between the expected and actual outcomes that indicate opportunities for improvement.

Assessment Plan is the original written assessment document of the purpose, mission, goals, and objectives of the institution, the outcomes to be assessed, and the assessment strategy.

Benchmark is the absolute standard against which observed measurements are evaluated in an institutional effectiveness assessment.

Change (or lack of change) is important for reaching conclusions about the effectiveness of an institution, but data must be kept over extended periods for change to be useful.

Competency is a discrete unit of learning (a unit measure) resulting from the influence of educational experiences and mastered by an individual student. Collections of competencies form modules, courses, programs, and curricula and may be accounted for quantitatively and measured in institutional effectiveness student assessment.

Criterion-referenced tests provide information about a student's level of proficiency in (or mastery of) some skill or set of skills by comparing the student's performance to a standard of mastery called a criterion. The test results tell whether a student needs more or less work on some skills or sub skills but says nothing about the student's performance relative to other students.

Direct Measures of Student Learning are assessment instruments and techniques that estimate levels of academic achievement.

Effectiveness is how well an institution succeeds in accomplishing its mission, and it is best determined by the accomplishment (or no accomplishment or accomplishment somewhat) of explicit objectives within a given time.

Efficiency is how well an institution uses its resources in production: unit cost = total cost / units produced.

Evaluation is determining the value of an instructional program, student outcome, or educational support/administrative service.

Excellence is a proven performance of exceptional high quality and productivity.

Formative Assessments are conducted during an educational process for guidance and improvement.

Goal is a major and general subdivision of the institutional mission statement that defines fixed areas of production and their attainment that should be addressed by specific objectives.

Indirect Measures of Student Learning are assessment instruments and techniques that supplement direct measures of academic achievement.

Institutional Effectiveness is the condition of demonstrating consistent institutional (instructional and educational support) goal achievement. An analysis of IE data measures (i.e., effectiveness, efficiency, and excellence) via student outcomes assessment allows identification of opportunities for improvement.

CNU Assessment: Glossary of Assessment Terms

Intended Educational Outcome is the aim (what faculty members decide students will be able to think, know, or do because of their CNU educational experiences) that serves as a guideline for attaining University goals during a particular assessment period.

Means of Assessment are the measures (surveys, exams, portfolios, etc.) that are used to collect data for assessing the achievement of intended outcomes.

Measure is the agreed upon kind and value of a data set used to evaluate a specific objective (i.e., the instrument for determining size, extent, or amount of something).

Mission is the internally defined statement that documents the vision of the institution. It defines in general and philosophic conditions all of the production areas of the institution and is subdivided into operational goals and specific objectives.

Norm-referenced tests yield information regarding student performance in comparison to a norm or average of performance by similar students. Norms are statistics that describe the test performance of a well-defined population.

Objectives are the written, active, and operational subdivisions of a goal that are well defined and measurable in their accomplishment. An objective should be specific to what will be done, who will do it, when it will be completed, and how it will be evaluated (as well as by what measure). An objective is comprised of similar outcomes.

Outcomes are the subdivisions of specific objectives that are the products of an institution.

Process is the measure of productivity as inputs are converted to outputs in the educational system. Institutional effectiveness assessment focuses not on the process but on the product.

Quality is the degree of excellence that customers require when they pay for products.

Standard is the benchmark quantity against which a specific objective's data are measured.

Student Outcomes are the results (student accomplishments e.g., knowledge, aptitudes, and attitudes—what students will think, know, or do) of educational experiences that are assessed for identifying improvement opportunities.

Summative Assessments are conducted after an educational process is complete for judging success and assessing outcomes.

Use of Results is how the instructional and educational support departments will use assessment results (the differences or similarities between intended and actual outcomes) to improve programs and services.

Value-added is adding new usable knowledge and additional tangible skills to what students possess when they go to college. Providing the most cost effective means to give the student what the student requires, evaluating levels of mastery in courses, evaluating the effectiveness of work by the progress of the student, and providing the most immediate, efficient (also meaning low-cost) and trouble free administrative services to students and faculty are examples of adding value to an education:

Christopher Newport University

Values

We will always put students first!

We will remain committed to liberal learning.

We will provide access and opportunity to a diverse community.

We will be actively engaged in shaping the economic, civic and cultural life of this community.

We will always offer outstanding teaching.

Mission Statement

The Mission of Christopher Newport University is to provide educational and cultural opportunities that benefit CNU students, the residents of the Commonwealth of Virginia, and the nation. CNU provides outstanding academic programs, encourages service and leadership within the community, and provides opportunities for student involvement in nationally and regionally recognized research and arts programs.

Our primary focus is excellence in teaching, inspired by sound scholarship. At CNU, personal attention in small classes creates a student-centered environment where creativity and excellence can flourish. Our primary emphasis is to provide outstanding undergraduate education. We also serve the Commonwealth with Master's degree programs that provide intellectual and professional development for graduate level students.

We are committed to providing a liberal arts education that stimulates intellectual inquiry and fosters social and civic values. CNU students acquire the qualities of mind and spirit that prepare them to lead lives with meaning and purpose. As a state university, we are committed to service that shapes the economic, civic, and cultural life of our community and Commonwealth.

Goals

- Provide high quality, liberal arts-oriented undergraduate programs while pursuing graduate studies appropriate to the needs of the CNU community.
- Expose students to an excellent faculty who offer dynamic and personal learning experiences.
- Support student development and success by providing comprehensive student support services.
- Provide educational programs that prepare students for career opportunities and for further education, including graduate and professional studies.
- Provide educational opportunities to address the needs created by societal and technological changes.
- Support faculty and student scholarship and research.
- Serve as a resource to the community and the Commonwealth to identify and address economic, educational, environmental, and social concerns.
- Provide a campus environment that recognizes, affirms and appreciates ethnic and cultural diversity while striving for unity.
- Create a climate that fosters learning and sharing among all students.
- Provide opportunities for cultural enrichment.
- Provide and support a well-qualified, professional staff to enhance the learning environment through service to the CNU community.
- Provide the financial and physical resources necessary to maintain and develop quality programs.
- Maintain the vitality and effectiveness of the University through assessment, program review, and strategic planning.

CNU Student Assessment Committee

Before accessing the Checklist & Narrative Review for the 2001-02 Assessment Plan, please be certain that you have your notes on each Assessment Plan in front of you. The Checklist & Narrative Review asks for "yes/no" answers as well as answers in text boxes, so it might be helpful to print the form from the web and use it as you review each Assessment Plan.

Please review each Assessment Plan that was assigned to you. All of the items on the Review form are required, so you must answer all of the items to successfully submit your responses to the data file.

Thank you for your time and assistance with assessment at CNU!

Questions? Noel: 4-7392 or nwomack@cnu.edu

Outcomes Assessment Program Fall 2001 Orientation October 1, 2001

1998 v. 2001 SACS Accreditation Standards

1998 Criteria for Accreditation Section 3.2 Planning & Evaluation: Administrative and Educational Support Services

Institution **must** demonstrate planning and evaluation in administrative/educational support departments

Each administrative/educational support department **must**:

- Establish purpose which supports institution's purpose & goals
- Formulate goals which support the purpose of the department
- Develop/implement procedures to evaluate the achievement of goals
- Use evaluation results to improve services

2001 Accreditation Standards Section III.

Institutional Effectiveness

Core Requirement:

- Engage in ongoing, integrated, and institution-wide planning, evaluation, and research processes that incorporate systematic review of programs and services that:
- results in continuing improvement
- demonstrates that the institution is effectively accomplishing its mission.

Comprehensive Standard:

- Identify expected outcomes for educational programs & administrative/educational support services
- Assess achievement of outcomes
- Provide evidence of improvement based on analysis of results

ERIC Full Text Provided by ERIC

Requirements of Assessment Records

- Portion of CNU's mission statement
- 2. CNU goal supported
- 3 expected student outcomes to assess during the year
- 2 measures per outcome that you will use to determine achievement of outcomes (e.g., test, performance appraisal, or survey)

ASSESSMENT PLAN FOR AY 2001-02 ACTIVITIES

- 1 YOUR COLLEGE/SCHOOL:
- 2 DEPARTMENT COVERED BY THIS PLAN:
- $3\,\%$ of your faculty members who contributed to the development of this plan: %

Instructions for Completing 2001-02 Assessment Plan

- 1. the VP/Dean you report to at CNU
- 2. the degree program covered by this plan
- 3. the percentage of people in your department who had a role in developing this plan
- 4. the **name** of the person in your department who will facilitate your department's assessment activities
- 5. the date you completed the plan
- 6. the section of the CNU mission that your department supports back
- 7. the specific CNU Goal that your department supports back
- 8. the 3 Intended Student Learning Outcomes that your department will examine this year to determine if your degree program is "doing what you say it's doing" (e.g., developing students' knowledge, skills, and abilities in a particular subject) back
- 9. The **First Means of Assessment** is the primary method you will use to determine if the objective was achieved during the year. The **First Means** comprises some sort of measurement tool (a standardized exam, a local test, a survey, an exit interview, an inventory, etc.) and the quantitative criteria by which you will judge whether the **Intended Outcome** was achieved. back
- 10. The Second Means of Assessment is a secondary method you use to validate the results of your First Means. It also comprises a measurement tool and a quantitative expectation about outcome achievement. The Second Means is necessary because national assessment experts advocate validating all assessment results before using valuable time and energy to make teaching/curricular changes, which might be unnecessary. back

Benefits of Assessment Record

Tells SACS what they want to know

- Simple format
- Assessment & Evaluation and Department have identical copies of Assessment Record Book – standard CNU reporting format
- Asks for a portion of CNU's mission statement and the CNU goal that the degree program supports
- Only reports results of 3 student outcomes per year
- Members of Assessment Committee can review the Records to make suggestions for improvement

ASSESSMENT PLAN FOR AY 2001-02 ACTIVITIES

Please submit 1 of these documents for each of your degree programs.

- 1. YOUR COLLEGE/SCHOOL:
- 2. DEGREE PROGRAM COVERED BY THIS PLAN:
- 3. % OF YOUR FACULTY MEMBERS WHO CONTRIBUTED TO THE DEVELOPMENT OF THIS PLAN:
- 4. NAME OF YOUR DEPARTMENT'S ASSESSMENT REPRESENTATIVE:
- 5. TODAY'S DATE (FOR TRACKING):

proposals for national conferences.

- 6. <u>INSTITUTIONAL MISSION REFERENCE</u>: Our primary focus is excellence in teaching, inspired by sound scholarship.
- 7. <u>CNU GOAL SUPPORTED BY YOUR DEPARTMENT</u>: Provide high quality, liberal artsoriented undergraduate programs while pursuing graduate studies appropriate to the needs of the CNU community.

8.	Knowledge - Students will identify fundamental physical principles.				
9.	Standardized exam - On the standardized exam, 88% of students will correctly				
	identify the following physical principles:				
10.	identify the following physical principles:, and, and, and				
	subsection.				
8.	Comprehension - Students will distinguish the contemporary physics concepts.				
9. Local exam - On the department's locally developed exam, 63% of students will correctl distinguish the following concepts:					
10.	10. Senior research project - In the paper presentations, a faculty panel will find that 50% of stude appropriately distinguished physics concepts.				
8.	Application - Students will utilize contemporary concepts.				
9.	External evaluation – Journal reviewers will find at least 63% of seniors' articles acceptable for publication.				
10.	External evaluation – Professional associations will accept at least 75% of seniors' presentation
