ABSTRACT

This is a report on the 2000-2001 community college courses offered in conjunction with high schools in the state of Arizona. The purpose of the partnership between the two types of institutions is to offer community college instruction to high school students. The students must be admitted to the community college in order to enroll in the courses, which may be taught at the high school or the community college. The courses are taught by community college faculty and use college textbooks, syllabi, and grading scales. Report highlights include: (1) 1,357 community college courses were offered in conjunction with high schools in Fiscal Year 2000-2001; (2) 15,208 students enrolled in the courses, which was slightly lower than the previous academic year; (3) most community colleges offered courses in mathematics, English, and other general education requirements; and (4) vocational and technical courses were offered by some community colleges. The report provides statistics for each community college district in Arizona, as well as for the individual community colleges. Descriptions of the most frequently enrolled courses for each community college is provided, along with the total student headcount for all community college courses offered in conjunction with high schools. (MKF)

STATE BOARD OF DIRECTORS FOR COMMUNITY COLLEGES OF ARIZONA

2020 N. CENTRAL AVENUE, SUITE 570 PHOENIX, ARIZONA 85004
TEL (602) 255-4037 FAX (602) 279-3464

November 13, 2001

Ms. Karen F. Rizk, Chair
State Board of Directors for Community Colleges of Arizona
2020 North Central Avenue, Suite 570
Phoenix, AZ 85004

Dear Ms. Rizk:

It is my pleasure to present you with the *Report on Community College Classes Offered in Conjunction with High Schools, FY 2000-2001* as required by R7-1-709.

Very truly yours,

A handwritten signature in black ink that reads "Pete Gonzalez". The signature is fluid and cursive, with the first name "Pete" and last name "Gonzalez" clearly distinguishable.

Pete Gonzalez
Executive Director

R7-1-709. Community College Classes Offered in Conjunction with High Schools

With the approval of the District Governing Board, courses may be offered by community colleges in conjunction with high schools for the purpose of offering community college instruction to high school students under the following circumstances:

1. Students shall have been admitted to the community college under the provisions of R7-1-301 — Student Admissions and shall satisfy the prerequisites for the course as published in the college catalog.
2. Courses may be offered at the high school campus provided the courses have been evaluated and approved through the official college curriculum approval process.
3. Courses shall use college-approved textbooks, syllabuses, course outlines, and grading standards, all of which are applicable to the courses when taught at the community college campus.
4. Each faculty member shall have a valid community college teaching certificate in the field being taught and shall have been selected and evaluated by the college using the same procedure and criteria that are used at the community college campus.
5. Each college district shall annually, by September 1, provide a report to the State Board of community college courses offered in conjunction with high schools during the previous academic year. This report shall list the locations at which the courses were offered, the discipline areas of the courses, and the aggregate student enrollment.

Cochise College Course Descriptions – Top Ten Courses

MAT 187 Pre-Calculus

5 credits

Topics from college-level algebra and trigonometry essential to the study of calculus and analytic geometry. Includes algebraic, exponential, logarithmic, trigonometric, and inverse trigonometric functions, complex numbers, linear and nonlinear systems of equations and inequalities, and sequences and series. 5 hour lecture.

POS 110 American National Government

3 credits

A study of the political system of the United States. Emphasis on constitutional development, the political culture, voting, political parties, campaigns and elections, interest groups, public opinion, and the three branches of the national government. Designed to increase the student's awareness and understanding of the political arena. This course fulfills the Federal Constitution requirement for the Arizona Teaching Certificate. Prerequisite: None. 3 lecture.

CHM 151 General Chemistry I

4 credits

Introduction to the general principles of chemistry with emphasis on quantitative relationships including properties of matter, chemical bonding and structure, nomenclature, chemical equations, stoichiometry, thermochemistry, and states of matter. Prerequisite: MAT 122 or equivalent; also high school chemistry or CHM 100 with a grade of "C" or better. 3 lecture; 3 lab.

MAT 220 Calculus I**5 credits**

An integrated study in which analytic geometry is used to develop, understand, and apply calculus concepts. Includes absolute value and inequality, relations and functions, graphs, limits and continuity, definition and application of the derivative, antiderivative and definite integral. Prerequisite: Four years of high school mathematics or MAT 187 or MAT 151 and MAT 182 or permission of instructor. 5 lecture.

HIS 111 History of the United States Since 1877**3 credits**

A study of the social, economic, and political forces that moved the United States through changing times from the post-Reconstruction era to the present, focusing on both domestic and foreign affairs in the country's last century of development. Prerequisite: None. 3 lecture.

HIS 110 History of the United States 1607 – 1877**3 credits**

A study of development of American characteristics and nationality from colonial beginnings through the period of Reconstruction, emphasizing the factors and forces which produced the Revolution, the Constitution, westward expansion, sectionalism and the Civil War. 3 lecture.

POS 220 Federal and Arizona Constitution**3 credits**

A study of the governments of the United States and Arizona through the interpretation of the constitution of each political entity. Approved for teacher certification. Teachers needing only Arizona constitution should enroll in POS 221. 3 hour lecture.

CHM 152 General Chemistry II**4 credits**

Introduction to the general principles of chemistry with emphasis on quantitative relationships including acids and bases, equilibria, oxidation-reduction, kinetics, nuclear chemistry, electrochemistry, and aspects of organic and biochemistry. Prerequisite: CHM 151. 3 lecture; 3 lab.

MAT 151 College Algebra**4 credits**

A logical development of the real number system, field axioms as applied to algebra, sets and set notation, inequalities and absolute value, polynomial functions and their graphs, determinants and matrices, inverse functions, logarithmic and exponential functions, complex numbers, sequences, binomial theorem, and mathematical induction. Prerequisite: Two years of high school algebra, or MAT 122 with a grade of "C" or better. 4 lecture.

MAT 182 Plane Trigonometry**3 credits**

An analytical approach to trigonometry based upon the unit circle concept; trigonometric functions, identities, conditional equations, radian measure graphs, logarithms, solution of right and oblique triangles, inverse trigonometric functions and trigonometric form of complex numbers. Prerequisite: MAT 151 or approval of instructor. 3 lecture.

Coconino Community College Course Descriptions - Top Courses

ENG 101 College Composition I 3 credits
Extensive practice in critical reading, thinking, and writing, with emphasis on using the writing process to communicate in multiple formats, both formal and informal, and for multiple audiences and purposes. Includes documented research. Prerequisites: ENG 100 and ENG 031 and ENG 060 or placement. Three lecture.

ENG 102 College Composition II 3 credits
Continued development of ideas and strategies introduced in ENG 101. Extensive practice in critical thinking, reading, and writing with emphasis on composing analytical essays on literary topics and a documented research paper. Prerequisite: ENG 101. General Education: English Composition. Three lecture.

MAT 220 Calculus & Analytic Geometry I 5 credits
Limits, continuity, differential, and integral operations on algebraic and trigonometric functions and applications. Prerequisite: MAT 187 or placement. General Education: Mathematics. Five lecture.

SOC 101 Introduction to Sociology 3 credits
Concepts, theories and research methods, definitions and classifications of individuals and groups, concepts and theories of stratification, social institutions, modernization, and movements. General Education: Social and Behavioral Sciences. Three lecture.

Eastern Arizona College Course Descriptions – Top Ten Courses

CMP 110 Current Applications 2 credits
Provides individuals with the opportunity to specialize in specific current software applications for microcomputers. Recommend at least one introductory course or equivalent background.

CMP 114 Internet 2 credits
Introductory course using the Internet covering electronic mail and the general access of information and special features of the Internet. Students develop hands-on experience in the use of all current Internet resources/features and build a web-site.

ENG 101 Written Communications I 3 credits
Emphasizes clear and effective writing and critical reading. Students generate a minimum of 7,000 words including revision throughout the semester.

ENG 102 Written Communications II 3 credits
Continues development of skills and concepts taught in ENG 101. Emphasizes research and critical reading and writing. Students generate a minimum of 7,000 words including revision throughout the semester.

APA 101 Apache Language I 4 credits
Emphasizes speaking, writing, listening comprehension, and culture through a variety of approaches.

APA 102 Apache Language II 4 credits
Continued advancement in Apache studies. Recommend placement in APA 102 based on completion of APA 101 or equivalent native speaking skills.

ENG 110 Composition Skills I 1 credit
An open entry/open exit course. Intensive practice in grammar, mechanics, and usage. Emphasis on generative and evaluative writing skills. Lab is self-paced, focusing on individual needs.

MAT 154 College Algebra 3 credits
A review of polynomials, exponents, and radicals; solutions to equations and inequalities in one and two variables. Topics covered include exponential, logarithmic, and quadratic functions; roots of polynomials; graphs of various functions and conic sections; solutions of systems of linear equations. Recommend completion of two years of high school algebra.

ENG 111 Composition Skills II 1 credit
An open entry/open exit course. Intensive practice in grammar, mechanics, and usage. Emphasis on generative, evaluative, and research skills. Lab is self-paced, focusing on individual needs.

BUS 191 Applied Food Service Sanitation - Safe Food Handling 2 credits
Fundamentals of food and alcohol presentation, and responding to safety-related incidents in the food service industry.

Maricopa Community Colleges Course Descriptions - Top Ten Courses

- BPC 110 Computer Usage & Applications 3 credits**
Exploration of computer operations and uses. Specific applications to business-personal computers. Prerequisites: None.
- ENG 101 First-Year Composition 3 credits**
Standard English writing skills. Emphasis on expository composition. Prerequisites: Appropriate English placement test score; or "C" or better in ENG 071.
- ENG 102 First-Year Composition 3 credits**
Continued development of Standard English writing skills. Introduction to research, note taking, organization and documentation in the preparation and writing of a research paper. Prerequisites: ENG 101 with a grade of "C" or better.
- HCC 101 Health Care Today 0.5 credit**
Overview of current health care professions, including career and labor market information. Health care delivery system, third party payers, and facility ownership. Health organization structure, patient rights and quality of care. Prerequisites: None.
- HCC 103, 105, 107, 109, 140, 142, 151, 153**
- | | | |
|---------|---|-------------|
| HCC 103 | Workplace Behavior in Health Care | 0.5 credit |
| HCC 105 | Personal Wellness and Safety | 0.5 credit |
| HCC 107 | Communication & Team Work in the HC Organizations | 1.0 credit |

| HCC 151 | Legal & Ethical Issues in Health Care | 0.5 credit |
| HCC 153 | Decision Making in the Health Care Setting | 0.5 credit |
- MAT 187 Precalculus 5 credits**
A precalculus course combining topics from college algebra and trigonometry. Preparation for analytic geometry and calculus. May receive credit for only one of the following: MAT 150, MAT 151, MAT 152, or MAT 187. Prerequisites: Grade of "B" or better in MAT 120, or MAT 122, or equivalent, or satisfactory score on a placement test. Strongly recommended that students have some knowledge of trigonometry.
- OAS 101AA Computer Typing I: Keyboard Mastery 1 credit**
Incorporates correct touch typing principles. Prerequisites: None.
- OAS 101AB Computer Typing I: Letters, Tables & Reports 1 credit**
Letter, table, and report formatting. Prerequisites: OAS 101AA or permission of department/division.
- PSY 101 Introduction to Psychology 3 credits**
To acquaint the student with basic principles, methods and fields of psychology such as learning, memory, emotion, perception, physiological, developmental, intelligence, social and abnormal. Prerequisites: None.
- SPA 101 Elementary Spanish I 4 credits**
Basic grammar, pronunciation and vocabulary of the Spanish language. Includes the study of the Spanish-speaking cultures. Practice of listening, speaking, reading, and writing skills. Prerequisites: None.
- SPA 102 Elementary Spanish II 4 credits**
Continued study of grammar and vocabulary of the Spanish language and study of the Spanish-speaking cultures. Emphasis on speaking, reading, and writing skills. Prerequisites: SPA 101 or departmental approval.

Northland Pioneer College Course Descriptions – Top Ten Courses

OED 260 Desktop Publishing

3 credits

Students will learn the basics of desktop publishing using DTP software package. Skills developed will include page layout, graphics, manipulating text using various tools, scanned images and special effects. Students will produce various documents including business card, flier, newsletter, invitation, cards and book template. Prerequisite: AIS 142 or AIS 145. Two lecture; two labs.

CSC 230 Introduction to Microsoft Office**3 credits**

Students will learn the fundamentals of MS Office Suite. Programs include an overview of Windows, Office Managers, MS Word, Excel, Access, and PowerPoint. Students will apply problem solving techniques to complete home, office, and business projects. Combined with CIS235 this course prepares the student for Microsoft Office User Specialist (MOUS) Certification. Two lecture; two labs.

HOS 121 Foods I**3 credits**

This course will provide the student with an introduction to food service. The student will learn basic food service principles as they relate to the restaurant industry; nutritional concepts, kitchen tools and equipment, food preparation, herbs and spices, stocks and sauces, cookie varieties, and bread production. Three lecture.

INA 105 Woodworking I**3 credits**

Basic materials, tools, and techniques to produce wood projects. Topics include: shop safety, tool certification, use and care of hand tools/portable power tools/woodworking machinery, designing and drawing wood projects, common wood identification and selection, surfacing/jointing/cross cutting/ripping lumber, dado and rabbet techniques, fasteners, clamping, gluing, joinery, assembly, surface preparation and finishing. Two lecture; two labs

CSC 103 Introduction to Windows**1 credit**

In this introductory course students will learn the Windows operating environment on IBM compatible computers. Hardware, terminology, and working with icons, pull-down menus, dialog boxes and file management will be included. This course is not for CIS majors. One lecture; one lab.

OED 100 Keyboarding**1 credit**

Basic keyboard and keypad mastery using correct touch principles. Basic formatting techniques are introduced. 0.5 lecture; one lab.

MAT 189 Precalculus Algebra/Trigonometry**3 credits**

This course presents the concepts in algebra and trigonometry necessary to prepare for calculus. The approach is intuitive and interactive with an emphasis on real-life applications and the use of current technologies, particularly graphing calculators. Coursework includes trigonometric functions, analytic trigonometry, vectors and applications, systems of equations and inequalities, matrices and determinants, and analytic geometry. Prerequisites: Graphing calculator required. Grade of "C" or better in MAT 152. Three lecture.

OED 145 Microsoft Word for Windows**3 credits**

Mastery of Microsoft Word for Windows. Program commands needed to prepare reports, letters, memos and other business documents; macros, graphics and other office applications are included. Prerequisite: AID 110, CIS 103. Two lecture; two lab.

MAT 152 College Algebra**3 credits**

This course presents algebraic concepts at the college level. The approach is intuitive and interactive, with an emphasis on real-life applications and the use of current technologies, particularly graphing calculators. Coursework includes a review of basic algebra, then progresses to techniques for solving equations and inequalities both algebraically and graphically. Also covers polynomial, rational, radical, exponential and logarithmic functions and their graphs, as well as sequences, series, and combinatorics. Prerequisites: Graphing calculators required. Grade of 'C' or better in MAT 109/112 or MAT 121, or satisfactory placement. Three lecture.

OED 110 Basic Keyboarding and Formatting**3 credits**

Students learn touch method of alphanumeric symbol keyboard, accuracy/speed and document preparation. Two lecture; two lab.

Pima Community College Course Descriptions - Top Ten Courses

WRT 100 Writing Fundamentals 3 credits
Review of sentence structure, mechanics and usage. Includes review of the writing process, designing and writing effective paragraphs, and writing longer papers. Prerequisite(s): WRT 070 or satisfactory score on writing assessment test.

BIO 156IN Human Biology For Allied Health 4 credits
Introduction to biology for the health professions. Includes basic chemistry of life, cell and tissue structure and function, and patterns of inheritance.

PHY 121 Introduction to Physics I**4 credits**

Introduction to general physics for programs requiring a one-year, non-calculus based physics course. Includes mechanics and heat. prerequisite(s): High School algebra.

HUM 110 Humanities I**4 credits**

Introduction to major cultures from Sumer through the Reformation. Includes a focus on the general history of ideas, art, architecture, religion, philosophy, drama, music, and literature. Also includes readings from the Epic of Gilgamesh, Homer, Sophocles, Aristophanes, Plato, Aristotle, Virgil's Aeneid, the Hebrew and the Christian Scriptures, St. Augustine, heroic and religious works of the Middle Ages, Dante, Chaucer, Machiavelli, and Shakespeare.

HUM 111 Humanities II**4 credits**

Introduction to the culture of the modern western world from the Counter Reformation Baroque to the present. Includes a focus on the general history of ideas, art, architecture, religion, philosophy, drama, music and literature. Also includes readings from the Baroque philosophers, Cervantes, Voltaire, Rousseau, Goethe, Romantic, premodern and contemporary literature, poetry, and drama.

SPA 101 Elementary Spanish I**4 credits**

Introduction to Spanish. Includes basic oral and written forms, grammatical structures, interpersonal transactions, and geographical and cultural awareness. Information: SPA 101A, 101B, 101C, 101D together constitute SPA 101.

SPA 102 Elementary Spanish II**4 credits**

Continuation of SPA 101. Includes further development of oral and written forms, additional grammatical structures, interpersonal transactions, and geographical and cultural differences. Also includes an emphasis on balancing more complex structures with active communication. Prerequisite(s): SPA 101 or equivalent.

REL 130 Asian Religions**3 credits**

Religions of India and the Far East. Includes Hinduism, Buddhism, and East Asian religions.

HIS 142 History of the United States II**3 credits**

Survey of the major developments in American history from Era of Reconstruction to the present. Includes the actions and activities of the broad diversity of peoples who contributed to the evolution of American society during that time. Also includes the social, intellectual, and political aspects of early American life.

HIS 141 History of the United States I**3 credits**

Survey of the major developments in American history from the Columbian voyages to the Era of Reconstruction. Includes the actions and activities of the broad diversity of peoples who contributed to the evolution of American society during that time. Also includes the social, intellectual, and political aspects of early American life.

Santa Cruz Valley Union High School Eloy, AZ (1 course)	NUR 120 Nursing Assistant

Central Arizona College Course Descriptions – Top Courses

ENG 102 English Composition IV 3 credits
Further emphasis on critical reading and essay writing, with each student writing short essays as well as an extended research paper, engaging students in the reading, thinking, and writing processes central to academic research: paraphrase, summary, critical analysis, and synthesis.

ENG 101 English Composition III 3 credits
Development of ability to read and write academic, college-level essays with an emphasis on creating and developing ideas, and using a process of writing, revising, and editing to create organized, coherent, well-developed essays reflecting the conventions of English grammar, mechanics, and usage.

NUR 120 Nursing Assistant 7 credits
Entry-level nursing skills, supervised clinical experience, and basic anatomy, physiology, nutrition, and medical terminology pertinent to nursing assisting in nursing homes or hospitals. State Board of Nursing approved. A certificate of completion and eligibility to take Arizona State Board of Nursing written and manual exams for certification. A grade of "C" or better is required for taking certification exam. Potential students convicted of a felony may not apply for state certification or licensure until five years after the date of absolute discharge of sentence. (All court-ordered terms of probation or parole must be completed at least five years prior to the date of the application.)

SOC 100 Introduction to Sociology 3 credits
The systematic study of human behavior as shaped by group life, and the social systems and structures created by human beings.

PSY 101 Introduction to Psychology 3 credits
Principles and theories of human behavior: history of psychology, scientific discipline applied to psychology, physiological psychology, sensation and perception, human development, drives, motives, emotions, personality, adjustment, abnormality, therapeutic models, theories of attribution and attraction, group consciousness, learning, memory, intelligence, and measurement and testing of intelligence.

MAT 150 College Algebra with Review 5 credits
Accelerated algebra including topics such as equations, relations, functions, transformations, linear and quadratic functions and inequalities, systems of linear equations and inequalities, exponential and logarithmic functions, polynomials and rational functions, and imaginary and complex.

MAT 121 Intermediate Algebra Standard 4 credits
Development of computational and manipulative skills in working with algebraic expressions and equations necessary for success in MAT 151.

MAT 187 Pre-Calculus 5 credits
Coordination of topics from MAT 150 and MAT 181 to reinforce.

CHM 130 Fundamentals of Chemistry 4 credits
The basic aspects of such topics as matter, energy, measurement, atoms, molecules, ions, chemical bonding, chemical arithmetic, and nuclear reactions.

CHM 151 General Chemistry I 4 credits
Topics such as matter, energy, measurement, atoms, ions, molecules, chemical equilibrium, precipitation reactions, acid and base equilibria, complexions, oxidation-reduction reactions, nuclear reactions, and introduction to organic chemistry are covered.

MAT 182 Trigonometry 3 credits
A study of trigonometric equations, identities, solutions of right and oblique triangles, and inverse functions.

Yavapai College Course Descriptions - Top Courses

MTH 131 College Algebra 3 credits
Relations and functions, determinants, matrices, complex numbers, math induction, sequences and series, binomial theorem, theory of equations.

ENG 101 College Composition I 3 credits
Extensive practice in composing essays. Emphasis on processes of writing, reading, and critical thinking. Introduction to library skills.

MTH 151 Calculus and Analytic Geometry I 5 credits
Elementary functions and the fundamental principles and formulas of differentiation and integration with applications to geometry and mechanics.

MTH 135 Pre-Calculus 5 credits
Topics from college algebra and trigonometry essential to the study of calculus and analytic geometry. Algebraic, exponential, logarithmic, trigonometric, and inverse trigonometric functions, complex numbers, linear and nonlinear systems of equations and inequalities, and sequences and series.

MTH 132 Trigonometry 2 credits
Trigonometric functions, logarithms, radian, right and oblique triangle solutions, trigonometric identities and equations, and inverse trigonometric functions.

ENG 102 College Composition II 3 credits
Extensive practice in critical reading and writing about literature, with emphasis on fluency in critical writing. Includes additional library skills and writing a critical, documented essay.

HIS 132 United States History II 3 credits
Survey of American nation from time of Reconstruction to present.

REPRODUCTION RELEASE

(Specific Document)

I. DOCUMENT IDENTIFICATION:

Title: Report on Community College Classes Offered in Conjunction with High Schools FY 2000-2001	
Author(s):	
Corporate Source: State Board of Directors for Community Colleges of Arizona	Publication Date: Nov., 2001

II. REPRODUCTION RELEASE:

In order to disseminate as widely as possible timely and significant materials of interest to the educational community, documents announced in the monthly abstract journal of the ERIC system, *Resources in Education* (RIE), are usually made available to users in microfiche, reproduced paper copy, and electronic media, and sold through the ERIC Document Reproduction Service (EDRS). Credit is given to the source of each document, and, if reproduction release is granted, one of the following notices is affixed to the document.

If permission is granted to reproduce and disseminate the identified document, please CHECK ONE of the following three options and sign at the bottom of the page.

The sample sticker shown below will be affixed to all Level 1 documents

PERMISSION TO REPRODUCE AND DISSEMINATE THIS MATERIAL HAS BEEN GRANTED BY

Sample

TO THE EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC)

1

Level 1

Check here for Level 1 release, permitting reproduction and dissemination in microfiche or other ERIC archival media (e.g., electronic) and paper copy.

The sample sticker shown below will be affixed to all Level 2A documents

PERMISSION TO REPRODUCE AND DISSEMINATE THIS MATERIAL IN MICROFICHE, AND IN ELECTRONIC MEDIA FOR ERIC COLLECTION SUBSCRIBERS ONLY. HAS BEEN GRANTED BY

Sample

TO THE EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC)

2A

Level 2A

Check here for Level 2A release, permitting reproduction and dissemination in microfiche and in electronic media for ERIC archival collection subscribers only

The sample sticker shown below will be affixed to all Level 2B documents

PERMISSION TO REPRODUCE AND DISSEMINATE THIS MATERIAL IN MICROFICHE ONLY HAS BEEN GRANTED BY

Sample

TO THE EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC)

2B

Level 2B

Check here for Level 2B release, permitting reproduction and dissemination in microfiche only

Documents will be processed as indicated provided reproduction quality permits.
If permission to reproduce is granted, but no box is checked, documents will be processed at Level 1.

I hereby grant to the Educational Resources Information Center (ERIC) nonexclusive permission to reproduce and disseminate this document as indicated above. Reproduction from the ERIC microfiche or electronic media by persons other than ERIC employees and its system contractors requires permission from the copyright holder. Exception is made for non-profit reproduction by libraries and other service agencies to satisfy information needs of educators in response to discrete inquiries.
