ABSTRACT

This 2002-2003 Fact Book for South Texas Community College (STCC) is divided into the following sections: (1) College Profile; (2) Access; (3) Completion; (4) Transfer Rate and Success; (5) Employment; (7) Student Development; (8) TASP (Texas Academic Skills Program) Test; (9) Academic Progress of All Students; (10) Stakeholder Satisfaction; (11) Finance; and (12) Facilities. STCC serves the populations of Starr and Hidalgo counties in Texas. Total student enrollment for the district in 2002 was 13,695. Of these students, 8% had limited English proficiency. The proportion of STCC students classified as economically disadvantaged (55%) exceeded the economically disadvantaged proportion of the population of Starr and Hidalgo counties (30%). At least 41% of students at STCC are academically disadvantaged, which is within 5% of their representation in the counties. Total student enrollment has increased an average of 9% per year and is distributed across the district in proportion to the population. The document cites student enrollment by ethnicity and gender according to department or program only. Thirteen percent of full-time, degree-seeking students completed their degree within 3 years. STCC faculty and staff are 50% female, while faculty alone are 44% female. Facilities Inventory by Campus by FTE Student is appended. A glossary of terms and an index are also included. (Contains over 125 tables and graphs.) (NB)

A Message from the President

I am pleased to introduce the 2002-2003 *Fact Book* published by the Office of Institutional Research & Effectiveness. This publication contains a wealth of information about South Texas Community College and the students we serve. It is a reference tool which will assist all of us associated with STCC in evaluating our performance, planning for the future, and continuously improving all that we do.

South Texas Community College has been called the fastest growing community college in Texas. We have grown from 1,000 students to over 14,400 students in just nine short years. Rapid growth means constant change and it is absolutely critical that we measure our many successes in order to maintain quality and to best customize our services to fit community needs.

The demand has been tremendous, and I am extremely proud that we are able to provide open access and an affordable opportunity for all who wish to pursue higher education and technical training.

Community colleges are recognized as premier teaching institutions because the very best teaching occurs in community colleges. STCC is truly a model of teaching excellence because the very best teaching, compassionate, and supportive environment so needed by all students.

I hope you will refer often to the *Fact Book* in your many future planning and goal setting activities at South Texas Community College.

Sincerely,

A handwritten signature in dark ink, reading "Shirley A. Reed". The signature is written in a cursive, flowing style.

Dr. Shirley A. Reed, M.B.A., Ed.D.
President

A Message from the Director of Institutional Research and Effectiveness

The entire STCC community has been very helpful in providing feedback about the Fact Book and the information you find here. I am immensely grateful for your support in this annual project and hope that each year's work provides a better product.

The Editor, Mrs. Jessie Garcia, continues the OIRE tradition of CQI in this year's Fact Book and I believe her work in providing more information, in clear and easy to use formats, and extending the reports on STCC's Institutional Performance Indicators is excellent. We hope you find this year's version of the Fact Book a convenient way to access this information. It is also available at the OIRE web site. Please suggest any further improvements for next year's publication to OIRE and we will give each suggestion our full attention.

In addition to the annual Fact Book, OIRE is pleased to bring you other reports and reference materials. Look for reports and source materials available from OIRE online at <http://www.stcc.cc.tx.us/~research/index.html>.

As always, your suggestions for continued improvement are welcomed,

A handwritten signature in cursive script, reading "Gail Dantzker".

Gail Dantzker, Ph.D.
Director

A Message from the Editor

I have really enjoyed assisting in the preparation of the 2002-2003 edition of the South Texas Community College Fact Book and would like to thank all who have contributed to its completion, especially the staff of the Office of Institutional Research and Effectiveness. Their commitment to collecting and accurately reporting various data have been invaluable to this year's edition of the Fact Book, as well as to the College in general.

Please feel free to contact me at 956-688-2354 or jgarcia@stcc.cc.tx.us if you have any questions or comments concerning the Fact Book. Suggestions for improvement will also be appreciated. I hope that you find the 2002-2003 edition of the Fact Book easy to understand and the data useful for many years to come.

Sincerely,

Jessie M. Garcia, B.A., A.A.
Editor/Administrative Assistant

A Historical Look at South Texas Community College

Before the South Texas Community College District began operations in 1993, the Hidalgo-Starr County area was the only area in the state of Texas with a population of nearly half a million people not served by a community college. South Texas Community College was created on September 1, 1993, by Texas Senate Bill 251 to serve Hidalgo and Starr Counties. It is the only community college in Texas to have been established by the Texas Legislature.

A confirmation election, held on August 12, 1995, established a taxing district for the College. Seven districts, based on population, were also approved for single-member representation on the Board of Trustees. A community leader from each of the seven districts was originally appointed by Governor Ann Richards to serve on the founding Board of Trustees. Since May 2000, elections have been held for all of the seats and all members have been elected.

From its inception, STCC was mandated by the State Legislature to provide service to residents of Starr and Hidalgo Counties. Meeting the population's need for postsecondary education - and the rapid institutional growth experienced by STCC in the process - has been an enormous but vital task. It is the one for which the College was founded and charged by the State Legislature, and it is one to which the College is committed.

The College is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award the Associate of Arts, the Associate of Science, and the Associate of Applied Science Degrees and Certificates. It is also approved for veteran's educational training in Certificate and Associate of Applied Science Degree programs by the Texas Education Agency.

Since its inception, STCC has always been committed to the planning process. STCC's initial planning efforts can be traced to December 1992, when the Steering Committee for the proposed South Texas Community College commissioned Dr. Alfredo G. de los Santos Jr. to prepare a proposal to the Texas Higher Education Coordinating Board for the creation of a community college in Hidalgo and Starr Counties. The proposal was submitted in April 1993.

In November 1993 STCC began its formal planning process with the establishment of a committee charged with developing a mission and purpose for the College. This committee was composed of STCC trustees, faculty, staff, and community members from both Hidalgo and Starr Counties. The committee met from February to March 1994 and developed a mission statement and purpose for the College which were presented to the Board of Trustees for approval on April 14, 1994.

Since that time STCC has continued the strategic planning process and has developed an institutional effectiveness cycle for each department. Ongoing planning efforts have included planning workshops and retreats and staff development across all areas of the college. The people of the district approved a bond issue of \$98.5M in September 2001 to support continued growth and service through enlarged and improved facilities. These processes incorporate planned enrollment and program growth.

STCC Carries Out Its Mission

The Mission of South Texas Community College is derived from the needs of the two-county district it serves. Educational training for good jobs and future employment opportunities in the two counties is critical to the economic development of the area. Accessible and economical routes to obtaining baccalaureate or professional degrees continue to be of key importance in transfer education programs. Improved employment and educational opportunities as a result of access to the community college are expected to yield economic and social benefits for many of the counties' residents and an improved quality of life for individuals and their communities across Hidalgo and Starr Counties.

The College Mission Statement clearly defines the focus of the College as serving the diverse educational and training needs of the people of Hidalgo and Starr Counties. This concept directs all planning and development activities at STCC. The College's current and projected educational development in Starr and Hidalgo Counties is based on the needs of, and opportunities available to, the community.

Accreditation

South Texas Community College is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, Georgia 30033; Telephone number 404-679-4500) to award the Associate of Applied Science, Associate of Arts and Associate of Sciences degrees. The College received official word of its ten-year reaffirmation in December of 2000, during the Delegate Assembly Meeting at the SACS Annual Meeting, which was held in Atlanta, Georgia.

Our Commitment to Hidalgo and Starr Counties

Vision

A better quality of life for our communities.

Mission

South Texas Community College (STCC) is a comprehensive public community college established to address the diverse educational and training needs of the people of Hidalgo and Starr counties by empowering a pluralistic society of learners with the knowledge and skills necessary to enhance the quality of their lives and to promote the development of their communities.

Core Values

Excellence
Integrity
Community
Student Success
Prosperity
Service
Access

Institutional Statement of Purpose

South Texas Community College seeks to achieve its institutional purpose by offering a variety of educational programs, services, and opportunities designed to:

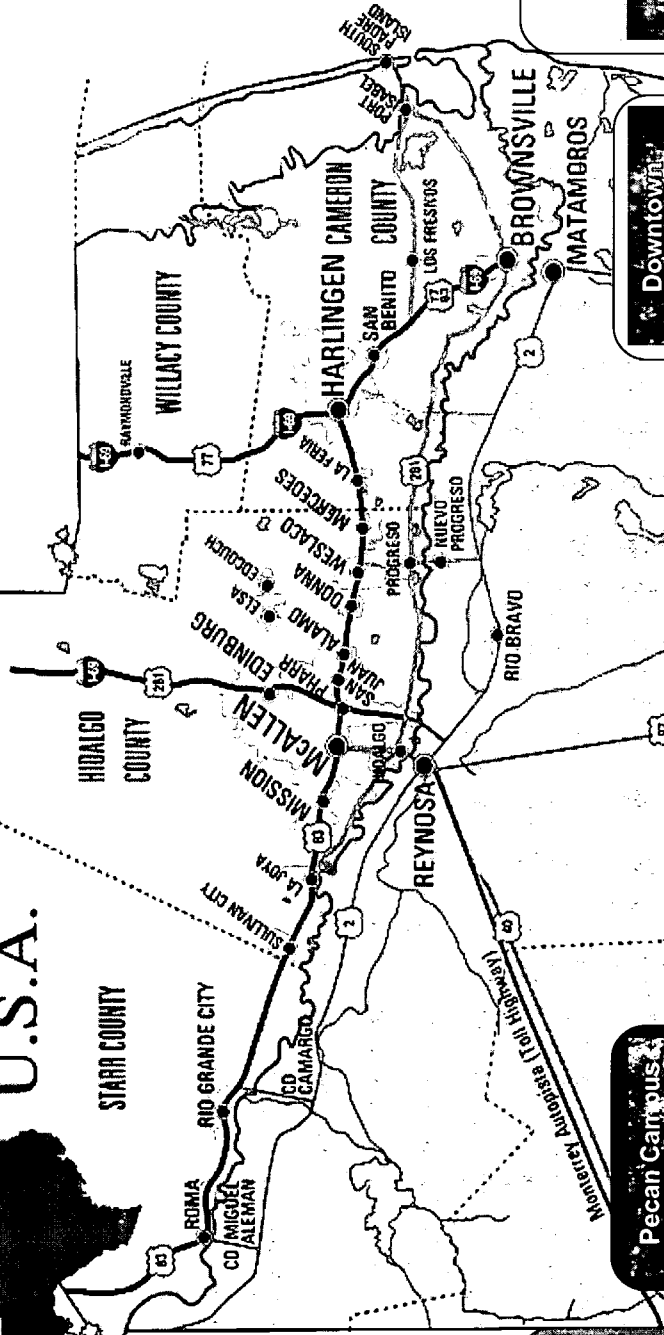

- ▶ ***Develop a Prepared Workforce*** by offering technical and vocational programs for those seeking direct career preparation and credentials suitable for employment in today's businesses and industries;
- ▶ ***Provide Quality Academic Education*** by offering freshman and sophomore college courses in the arts and sciences for those pursuing associate degrees or planning to transfer to a senior institution;
- ▶ ***Encourage Life-Long Learning*** by offering continuing education courses to those interested in changing careers, upgrading their skills, or seeking personal enrichment;
- ▶ ***Facilitate Student Success*** by providing individualized academic advisement, personal counseling, career guidance, and other support services and, also, by offering developmental and compensatory programs that assist those needing basic skills review and reinforcement.
- ▶ ***Provide effective developmental education*** by addressing the cognitive and affective growth of all postsecondary students in support of their lifelong learning. Developmental programs will be responsive to individual differences and special need among learners.

In the pursuit of its institutional purpose, South Texas Community College is committed to:

- ▶ ***Maintaining an Accessible and Effective Learning Environment*** by encouraging and facilitating enrollment, by employing the best of traditional and innovative educational delivery systems, and by providing facilities and resources conducive to successful teaching/learning endeavors;
- ▶ ***Fostering Leadership for Its Communities*** by providing individuals with curricular and extracurricular opportunities to develop leadership qualities and exercise leadership skills;
- ▶ ***Capitalizing on the Unique Strengths of a Multi-Cultural Environment*** by recognizing and taking advantage of the special capabilities, insights, and opportunities that exist in a region of international interaction;
- ▶ ***Promoting Regional Economic Growth and Prosperity*** by initiating and maintaining alliances with business and industry, educational institutions, government agencies, and community organizations, and by providing customized training in partnership and regional interests;
- ▶ ***Partnering with Business and Industry*** to provide close linkages in order to facilitate achievement of desired outcomes and to help secure resources;
- ▶ ***Creating a Supportive Collegial Work Environment*** which rewards excellence, provides opportunities for professional and personal growth, and encourages meaningful involvement in the decision-making process.

Community Demographics Reflected in STCC Fall 2002 Enrollment by Gender	95

Executive Summary

STCC is committed to providing access to opportunities through higher education for the people of Hidalgo and Starr Counties. The Access performance indicators present the following results:

- ✓ The proportion of STCC students classified as economically disadvantaged (55%) exceeded the economically disadvantaged proportion of the population of Starr and Hidalgo Counties (30%).
- ✓ The proportion of STCC students classified as academically disadvantaged (41%) was within five percent of their representation (45%) in Hidalgo and Starr Counties.
- ✓ The proportion of STCC students identified as having limited English proficiency (8%) was less than the proportion of the populations of Starr and Hidalgo Counties (12%) with similar limited English.

Executive Summary (continued)

- ✓ Total enrollment for the entire STCC district has average growth of 9% per year and is distributed across the district in proportion to the population.
- ✓ Seven of nineteen of STCC non-traditional degree programs (defined as technical programs in which the enrollment of a particular gender is less than or equal to 25% of the total program enrollment) have increased enrollment of the non-traditional gender at the rate of one percent a year.
- ✱ Enrollment of Hidalgo and Starr Counties' high school graduates from the top quartile rose from 16% in 2001 to 17% in 2003, still short of the targeted 20%.
- ✓ STCC enrolled students in concurrent/contract enrollment from 100% of public high schools in Hidalgo and Starr Counties during the 2002 academic year.
- ✓ Enrollment in continuing education and non-credit programs, which includes workforce development and customized training, rose from 2875 in 2001 to 6029 in 2002, a percentage exceeding that of growth in for-credit students.
- ✓ Community demographics reflected in enrollment showed that the populations of Starr and Hidalgo Counties were represented in the Community College District enrollment.

*Automotive and Diesel Technology are presented as a combined unit here due to curricular changes that resulted in many shared courses. The combination of the two departments makes historical comparisons clearer. OIRE has undertaken an extensive process to clean and clarify historical data, therefore numbers may not match prior FactBooks.

Completion

Graduate Awards Summary by Program	97
Graduates By Ethnicity and Gender	104
Graduation Rates	109
Licensure/Certification Exams	110
Course Completion and Grade Distributions	111
Developmental Math Sequence Completion	112
Developmental English Sequence Completion	113
Developmental Reading Sequence Completion	114
FTIC Student Progress Toward College Level Math After Two Years	115
FTIC Student Progress Toward College Level English After Two Years	116
FTIC Student Progress Toward College Level Reading After Two Years	117
Student Outcomes / Current Status	118

Additional information on graduates and their outcomes is available online at <http://www.stcc.cc.tx.us/~research/reports/reports.html>

Executive Summary

STCC encourages and supports students to fulfill their educational objectives, recognizing that those may not include degree completion for all students.

- 13% of full-time, degree-seeking students completed their degree within three years.
- ✓ The percentage of licensure or certification exams passed by STCC students (93%) exceeded the average among community college students (89%) in the 2002 academic year.
- ✓ The course completion rate for Fall 2001 term (87%) above the average (83%) for all Texas community colleges during the same term.
- ✓ Developmental Course sequence completion:
 - ✓ FTIC Developmental Math completion improved significantly (P .01) = 1998 10%, 1999 11%, 2000 17%.
 - FTIC Developmental English completion did not improve significantly = 1998 12%, 1999 10%, 2000 12%.
 - ✓ FTIC Developmental Reading completion improved significantly (P .01) = 1998 24%, 1999 23%, 2000 32%.
(It is not required for students to complete the sequence if they pass TASP before completing the sequence.)

Graduation Rates

Began Fall 1998: First-Time, Full-Time Students		Began Fall 1998: First-Time, Part-Time Students	
Fall 2002	Fall 2002	Fall 2002	Fall 2002
Still Enrolled	183	14%	82
Transferred	136	10%	69
Graduated	200	15%	41
Left in Good Standing	411	31%	141
Subtotal for Successful Outcomes	930	69%	333
None of the Above	415	31%	245
Total	1345	100%	578

*Since there are many possible successful outcomes for community college students, looking at just the graduates after three years gives an incomplete picture. Many transfer students do not intend to complete a degree at STCC, and - due to developmental course work - a good portion of non-transfer students take longer than three years to graduate. The tables above present the current outcome rates for the Fall 1998 first-time students along with students who left the College in good standing and are eligible to return. The Graduation Rate Survey is a report to the Department of Education that is required by the Student Right to Know (SRK) Act. This report shows the outcomes of the Fall 1998 entering cohort after three years.

Note: Transfers only include students who transferred to UT Pan American. Other transfer institutions could not be identified for this survey, so it is possible that some of the students who left in good standing have transferred to other universities.

Institutional Performance Indicator and Standard:

Indicator: "At least 30% of full-time, degree-seeking students will complete their degree within 3 years."

Of 819 full-time, degree-seeking students in the above cohort, 107 (or 13%) completed their degree within 3 years.

Licensure/Certification Exams

2000-2001 STCC Program	Licensure Exam Pass Rates as Measured by Program Standards**			THECB Standards* for Comparison	
	Tested	Passed	% Passed	State Average*** (not less than 5% below)	Perkins Standard - Passing Rate
Emergency Medical Technology	120	104	87%	89%	90%
Occupational Therapy Assistant	7	7	100%	83%***	90%
Patient Care	55	55	100%	83%	90%
Physical Therapist Assistant	9	9	100%	73%	90%
Radiologic Technology	11	11	100%	80%	90%
Vocational Nursing	48	46	96%	88%	90%
Associate Degree Nursing	56	53	95%	88%	90%
All Programs Combined	306	285	93%	89%	90%

* THECB = Texas Higher Education Coordinating Board. THECB Standard is that 90% of students tested on a specific licensure exam pass, or the percentage of students who take licensure exams and pass is not more than 5% below state average for last 3 years for the specific exam.

** The Division of Nursing and Allied Health calculates a rate that is consistent across programs, and is calculated by taking the unduplicated number of students who tested during the academic year, divided by the unduplicated number of students who passed during that same year.

*** The average national passing rate for Occupational Therapy Assistants administered by the National Board for Certification of Occupational Therapy.

Total Completed College Level																				

Note: FTIC cohorts used in this report include only FTIC students enrolled in one of the four levels of math their first term at STOC. Course completion was tracked for two years for each cohort. Students were counted as completing a course level if they completed the course by the end of the second year. Repeated courses were counted. Students passing TASP while enrolled in developmental work are encouraged, but not required, to complete the course. Successful includes grades of "C" or better.

Note: FTIC cohorts used in this report include only FTIC students enrolled in one of the four levels of English their first term at STCC. Course completion was tracked for two years for each cohort. Students were counted as completing a course level if they completed the course by the end of the second year. Repeated courses were counted. Students passing TASP while enrolled in developmental work are encouraged, but not required, to complete the course. Successful includes grades of "C" or better.

Academic Performance of STCC Students After Transfer	123

Executive Summary

STCC is determined to prepare students well who pursue baccalaureate degrees and to facilitate their successful transfer to institutions granting such degrees.

- ✓ Of the 232 Academic Majors that graduated in academic year 2000 - 2001, 59% transferred to UTPA, slightly lower than the 68% that transferred in academic year 1999 - 2000.
- Students transferring from STCC to UTPA in Fall 2001 earned, on average, a term GPA of 2.5, as compared with an overall term GPA of 2.6 for all UTPA students.

Employment

Graduates Employed in Field of Study	125
Salaries of Graduates	127
Employer Satisfaction with STCC Graduates	128
Student Satisfaction with Preparation for Work in Field	129

Various detailed reports on graduates and their outcomes can be found online at <http://www.stcc.cc.tx.us/~research/reports/reports.html>

Executive Summary

Employment following graduation from a technical program is an important measure of STCC's ability to contribute to an improved quality of life through educational opportunities.

- ✓ Within one year of graduation, 92% of all graduates were either employed in their field, continuing their education, or indicated they were not seeking employment, surpassing the 85% standard.
- ✓ 67% of reported graduates of technical programs exceeded the local entry-level salary in their field of preparation.
- ✓ Over 90% of employers of STCC graduates rated their level of satisfaction with graduates' preparation as either very satisfied or satisfied.
- ✓ 95% of students working or actively seeking work in their field reported having excellent or adequate level of training preparing them for work in their field.

Graduates Employed in Field of Study

Target: 85% will be employed in field, continuing their education, or not seeking employment within one year of graduation

Successful Outcomes: Continuing Education, employed in field, or not seeking employment *

Unsuccessful Outcomes: Not continuing education, not employed in field, or seeking employment **

Division	Successful Outcomes		Unsuccessful Outcomes		Total Count
	Count	%	Count	%**	
Business, Mathematics and Science	40	83%	8	17%	48
Liberal Arts and Social Sciences	40	95%	2	5%	42
Nursing and Allied Health	40	100%	0	0%	40
Technology	13	93%	1	7%	14
Total	133	92%	11	8%	144

Note: The THECB Standard of 85% differs from the above institutional target in that successful outcomes include those graduates who are employed *outside* of their field as well as those employed *in* their field. STCC has achieved 95% successful outcomes according to this standard.

* Based on results from 2002 Graduate Follow-Up Survey (totals may not equal 100% due to rounding).

** Percentages based on small numbers, such as these, can show large changes from measurement to measurement. A single outcome has a large impact.

Student Development

Student Suspension or Probation Status Change	131
Fall to Fall Student Retention: FTIC Cohorts	132
Fall to Fall Retention of All Academic and Technical Students	133
Fall to Fall Retention: Total Enrollment	134

Detailed information on student retention can be found online at <http://www.stcc.cc.tx.us/~research/reports/studflow/studflow.html>

Executive Summary

STCC is committed to assisting students with their academic and personal development.

Student Development presents the following outcomes:

- ✓ The proportion of the student body placed on suspension during the 2002 academic year declined from 10% in the fall to 9% in the spring.
- ✓ The proportion of the student body retained from fall to fall has remained stable each academic year.
- ✓ The proportion of students enrolled in academic programs retained from fall to fall has remained stable each academic year.
- ✓ The proportion of students enrolled in technical programs retained from fall to fall has remained stable each academic year.

TASP Gains: Students Enrolled in Developmental Math Fall 2001	137
TASP Gains: Students Enrolled in Developmental English Fall 2001	138
TASP Gains: Students Enrolled in Developmental Reading Fall 2001	139

Executive Summary

STCC supports the continued academic development of students who come to college not fully prepared to undertake college-level studies in all areas. The TASP is an indicator of achievement in the basic academic skills of writing, reading and mathematics.

- ✓ The percentage of students passing the Reading and Math portions of TASP have remained stable.
- The percentage of students passing the Writing portion of TASP has declined.

TASP Passage Rate

* STCC Enrolled Students includes only those students who were enrolled at some point during the academic year in which they tested for TASP.

** TASP Completers are those students completing the third and final section of TASP during this academic year regardless of which year they first took the TASP, including those who took all 3 sections in one sitting.

Notes: Initial TASP score range is based on the highest score a student had received prior to beginning the course reported above.
 *The retest period covers tests taken from October 15, 2001 through February 28, 2002 and uses the highest retest score from that period. Numbers in parentheses in the average gain columns indicate a decrease in the average score.
 ** There was no TASP score recorded prior to the first class day, therefore no gains could be measured.

Notes: Initial TASP score range is based on the highest score a student had received prior to beginning the course reported above.
 *The retest period covers tests taken from October 15, 2001 through February 28, 2002 and uses the highest retest score from that period. Numbers in parentheses in the average gain columns indicate a decrease in the average score.
 ** There was no TASP score recorded prior to the first class day, therefore no gains could be measured.

Academic Progress of All Students

Academic Success After Developmental Studies in Math.....	141
Academic Success After Developmental Studies in Reading.....	142
Academic Success After Developmental Studies in English.....	143
STCC Graduate Comparison of Students With vs. Without Developmental History.....	144
Comparison of Three-Year Completion Rates of First-Time in College Freshmen Cohorts: Developmental vs. Non-Developmental Students.....	145
Grades of "C" or Better in Developmental Courses.....	146

Executive Summary

- ✓ The pass rate in College Algebra, Math 1414, for former Developmental Math students is increasing faster and the withdrawal rate is decreasing more rapidly than students never required to be in Developmental Studies.
- The pass rate in English 1301 for former Developmental Reading students is decreasing faster and the withdrawal rate is decreasing slower than students never required to be in Developmental Studies.
- The pass rate in English 1301 for former Developmental English students is decreasing faster and the withdrawal rate is decreasing more rapidly than students never required to be in Developmental Studies
- 10% of Fall 1998 First-Time in College (FTIC) Freshmen Cohorts who took Developmental courses completed a degree or certificate by August 2001. 25% of FTIC students who did not take Developmental courses completed a degree or certificate during the same time period.
- 12% of Fall 1999 FTIC students who took Developmental courses completed a degree or certificate by August 2002. 26% of FTIC students who did not take Developmental courses completed a degree or certificate during the same time period.

Total Graduates		1,356	39%	2,109	61%	3,465	100%

Comparison of Three-Year Completion Rates of First-Time in College Freshmen Cohorts: Developmental vs. Non-Developmental Students

	Took Developmental Courses			Did Not Take Developmental Courses			Total
	#	%	#	%	#	%	
Fall 1998 First-Time in College Freshmen Cohort by Degree/Certificate Completion through August 2001 (3 years)	1,522			501			2,023
Completed Associate Degree	35	2.2%	43	6.3%	78	3.5%	
Completed Certificate	68	4.3%	33	4.8%	101	4.5%	
Completed Either Associate Degree or Certificate	102	6.5%	73	10.7%	175	7.8%	
Fall 1999 First-Time in College Freshmen Cohort by Degree/Certificate Completion through August 2002 (3 years)	1,566			681			2,247
Completed Associate Degree	34	2.2%	31	4.6%	65	2.9%	
Completed Certificate	55	3.5%	25	3.7%	80	3.6%	
Completed Either Associate Degree or Certificate	89	5.7%	55	8.1%	144	6.4%	

Note: Since students may have completed both an associate degree and a certificate, the number completed for "Either Associate Degree or Certificate" may not be equal to the sum of the Associate Degrees and the Certificates completed.

Fiscal Year 2001 Budget Allocations - Unrestricted Expenditures
STCC vs. State Community College Averages

Source: State Auditors Office, Texas Public Community College Database System

State Benchmarks, Selected Comparative Ratios from the Texas State Auditors Office

Ratio # 1	Net Total Current Fund Revenues to Total Current Fund Revenues																				
Objective:	This ratio indicates whether total current operations resulted in a surplus or a deficit. It answers the question "Did the reporting institution live within its means during the year?"																				
Formula:	Net Total Current Fund Revenues / Total Current Fund Revenues																				
Assessment Instructions:	A negative ratio indicates a deficit. Small deficits may be relatively unimportant if the institution is financially strong, but large deficits are almost always a bad sign, particularly if they occur in successive years. A positive ratio indicates a surplus. Generally speaking, the larger the surplus, the stronger the institution's financial position as a result of operations. The trend of this ratio should be analyzed closely. A large surplus or deficit will directly affect the size of expendable fund balances (see also ratio numbers 16 and 18).																				
Issue Areas:	This ratio can be used in assessing issues related to Sources of Funds and Uses of Funds.

Ratio # 11 Total Current Assets (Current Funds) to Total Current Liabilities (Current Funds)												
Objective:	This ratio demonstrates the relative liquidity of the organization by computing the ratio of current assets to current liabilities for all current funds.											
Formula:	Total Current Assets / Total Current Liabilities											
Assessment Instructions:	Ideally, this ratio should be 1:1 or greater. As the ratio value becomes significantly less than 1:1, it suggests that the institution may have trouble meeting its current liabilities.											
Issue Areas:	This ratio can be used in assessing issues related to Cash Management.

Ratio # 14		Available Assets to General Liabilities													
Objective:		This ratio is used to determine the impact of existing debt and debt coverage for future years. It answers the question "Can the institution repay the indebtedness it is assuming?"													
Formula:		Available Assets / General Liabilities													
Assessment Instructions:		Typically, standard covenants stipulate that as long as debt is outstanding, available assets must be at least twice as great as general liabilities, making 2:1 the minimum threshold for this ratio.													
Issue Areas:		This ratio can be used in assessing issues related to Debt Service.

Ratio # 16		Expendable Fund Balances to Total Expenditures and Mandatory Transfers													
Objective:		This ratio describes the institution's ability to support its current level of operations from all available expendable resources without considering revenues generated from operations. It is an important measure of financial strength relative to institutional operating size.													
Formula:		Expendable Fund Balances / Total Expenditures and Mandatory Transfers													
Assessment Instructions:		No absolute value that would indicate that an institution is clearly financially healthy has been identified for ratio number 16. Experience suggests, however, that a ratio of 0.3 or better would be required to significantly reinforce the ratio of expendable fund balances to plant debt (ratio number 18). The trend of this ratio is the most important concern.													
Issue Areas:		This ratio can be used in assessing issues related to Expendable Fund Balances, Uses of Funds, and Transfers (Mandatory).

Ratio # 20 Tuition and Fees (Unrestricted Funds) to Total Unrestricted Fund Expenditures and Mandatory Transfers															
Objective:	This ratio demonstrates the institution's dependence on tuition and fees as a source of financing operations.														
Formula:	Tuition and Fees (Unrestricted Funds) / Total Unrestricted Fund Expenditures and Mandatory Transfers														
Assessment Instructions:	Any trend in this ratio is most important because this revenue source is fully variable, meaning that the amount of this revenue changes proportionally with changes in semester hours enrolled by students. Institutions that are highly tuition-dependent are more susceptible to severe financial crisis should their enrollments decline significantly. Sufficient expendable fund balances (as depicted in ratio numbers 16 and 18) is essential to provide flexibility for these institutions.														
Issue Areas:	This ratio can be used in assessing issues related to Debt Service, Sources of Funds, Transfers (Mandatory), and Uses of Funds.

Ratio # 21	Total Federal Revenues to Total Expenditures and Mandatory Transfers (Current Funds excluding Auxiliary Enterprise Funds)														
Objective:	This ratio shows the institution's dependence on the federal government to support current year operations.														
Formula:	Total Federal Government Revenues / Total Expenditures and Mandatory Transfers (Current Funds excluding Auxiliary Funds)														
Assessment Instructions:	There is no absolute threshold for this ratio. A rising trend in this ratio may suggest that the institution's efforts to attract new federal funding are proving successful. A declining trend, on the other hand, may signal either that federal support for certain programs is waning or that the institution has been unable to attract sufficient funding in a competitive environment.														
Issue Areas:	This ratio can be used in assessing issues related to Sources of Funds, Transfers (Mandatory), and Uses of Funds.

Ratio # 24	Total Private Gifts, Grants and Contracts to Total Current Fund Expenditures and Mandatory Transfers														
Objective:	This ratio shows the institution's dependence on private gifts and grants to support current year expenditures.														
Formula:	Total Private Gifts, Grants and Contracts / Total Current Fund Expenditures and Mandatory Transfers														
Assessment Instructions:	There is no absolute threshold for this ratio. Public institutions have not relied significantly on this revenue source in the past, but recently many (especially four-year institutions) have begun to aggressively solicit private support. A downward trend in this ratio indicates that private support is declining, that Unrestricted expenditures are rising faster than this source of funding, or both. A decline in this ratio must be offset by increasing revenues elsewhere or by reducing expenditures.														
Issue Areas:	This ratio can be used in assessing issues related to Debt Service, Sources of Funds, Transfers (Mandatory), and Uses of Funds.														

State Benchmarks, Selected Comparative Ratios from the Texas State Auditors Office (continued)

Ratio # 25 Total Instruction Expenditures to Total Current Fund Revenues (excluding Auxiliary Enterprise Funds)

Objective: This ratio will indicate the portion of total revenues available (excluding auxiliary enterprises) used for instruction.

Formula: Total Instruction Expenditures / Total Current Fund Revenues (excluding Auxiliary Funds)

Assessment Instructions: There is no absolute threshold for this ratio. The trend of this ratio should be evaluated over time to determine whether instruction is obtaining a growing or dwindling share of total non-auxiliary revenues available.

Issue Areas: This ratio can be used in assessing issues related to Sources of Funds and Uses of Funds.

Campus Teaching Facility Inventory Totals		680,649	10,866	576.5

Note: Ware Road and Walnut Street square footage not included in calculations involving FTE students since instruction for credit does not generally occur at those locations. 1,243 FTE students were not included since the instruction takes place at locations other than STCC Campus facilities. Non-credit FTE (contact hours divided by 120) was not included in prior year Fact Books, but is included this year due to increased emphasis in non-credit workforce training.

Appendix

South Texas Community College Institutional Performance Indicators 181

South Texas Community College Institutional Performance Indicators

Purpose: In an effort to assess the success and effectiveness of STCC as it fulfills its responsibility to serve the people of Hidalgo and Starr Counties, the College must establish the indicators by which its performance will be assessed.

Following are the ten categories in which we measure our success at STCC. These, and the specific Performance Indicators for each, are very similar to those faculty and staff identified as being important to the success of our students, the instructional divisions, and the overall future development of STCC. The Board of Trustees approved these Performance Indicators in June 1999 and anticipates future annual reports about our success in achieving high standards in each June of every academic year. STCC's annual Fact Book serves as a report of actual institutional outcomes for the year for each of these indicators/standards.

ACCESS

Performance Indicators:

- Economically disadvantaged enrollment

The proportion of STCC students classified as economically disadvantaged will equal or exceed the proportion of the populations of Starr and Hidalgo Counties classified as economically disadvantaged (at or under the federal poverty level) eligible for public assistance.

- Academically disadvantaged enrollment

The proportion of STCC students classified as academically disadvantaged will not be more than 5% below their representation in Hidalgo and Starr Counties, or will show improvement compared to overall college enrollment.

- Special population enrollment

The proportion of STCC students classified as being a member of a special population will equal or exceed the proportion of the populations of Starr and Hidalgo Counties sharing those characteristics.

South Texas Community College Institutional Performance Indicators (continued)

- Campus/center enrollment

Total enrollment for the entire STCC District will equal or exceed by no more than 10% the targeted enrollment for every academic year and will be distributed across the District in proportion to population.

- Program enrollment

Number of students enrolled in specific degree/certificate programs will be sufficient to maintain program visibility.

- Gender enrollment in non-traditional programs

The proportion of enrollment in each program, by gender, will approximate that of the entire Student body.

- Enrollment of high school graduates from top quartile

Among students from Hidalgo and Starr Counties who enter college no later than the Fall after high school graduation, STCC will enroll at least 20% of the top quartile.

- Concurrent/contract enrollment of high school students

STCC will enroll students in concurrent/contract enrollment from at least 75% of public high schools in Hidalgo and Starr Counties during any academic year.

- Enrollment in continuing education and non-credit programs

Percentage of growth in enrollment in continuing education and non-credit programs will equal or exceed that of growth in enrollment in certificate- and degree-seeking students across the Community College District.

South Texas Community College Institutional Performance Indicators (continued)

- Participation in workforce development and customized training

Percentage of growth in enrollment in workforce development and customized training programs will equal or exceed that of growth in enrollment in certificate- and degree-seeking students across the Community College District.

- Community demographics reflected in enrollment

The characteristics of the population of Starr and Hidalgo Counties (e.g. race/ethnicity, gender, income, high school attended, hometown, etc.) will be proportionately represented in the Community College District enrollment.

- ▣ Availability of Technology Resources
- ▣ Use of Technology Resources
- ▣ Distance Learning enrollment
- ▣ Computer-based training enrollment

COMPLETION

Performance Indicators:

- Certificates awarded

At least 30% of full-time, certificate-seeking students will complete their certificate within 1.5 times the length of their certificate program.

South Texas Community College Institutional Performance Indicators (continued)

- Associate degrees awarded

At least 30% of full-time, degree-seeking students will complete their degree within 3 years.

- Licensure/Certification exams passed

The percentage of licensure or certification exams passed in every area where they are required will equal or exceed the state average among community college students each academic year.

- Workforce training participation

80% of participants in workforce training will complete the program.

- Core curriculum completion

Ascertain the number of students who complete the core curriculum.

- Course completion

The course completion rate for each Fall term will equal or exceed the average for all Texas community colleges for those terms, as calculated from the THECB's Educational Data Center.

- Hours completed compared to hours attempted by semester

The ratio of hours completed to hours attempted will be stable or increase.

- Developmental sequence completion

The number of students who complete and pass all courses in math, reading, or writing in the developmental course sequence.

South Texas Community College Institutional Performance Indicators (continued)

- Personal objectives completion

The number of non-degree seeking students who confirm personal objectives have been met.

- Continuing education course completion

Completion rates of courses in continuing education will exceed that of the College as a whole.

- Distance Learning course completion
- Computer-based training completion

TRANSFER RATE AND SUCCESS

Performance Indicators:

- Number of students who transfer to four-year institutions

The number of students transferring from STCC to a four-year institution calculated in each Fall Term, using the CB's definition, will be a constant or increasing proportion of those completing a degree, or the core curriculum at STCC.

- Academic performance of students upon transfer to four-year institutions

The term GPA of students attempting 15 hours or more at STCC prior to transferring to a four-year public Texas institution will equal or exceed the term GPA of students at that institution with no history at STCC.

South Texas Community College Institutional Performance Indicators (continued)

EMPLOYMENT

Performance Indicators:

- Employment of graduates in field of study

Within one year of graduation, 85% or more of all graduates will either be employed in their field, continuing their education, or indicate they are not seeking employment.

- Salaries of graduates

Graduates of technical programs will exceed the local entry-level salary in their field of preparation, based on industry estimates of median salary.

- Employer satisfaction with graduates

Employers of STCC graduates will rate their level of satisfaction as above average or greater.

- Student satisfaction with training for employment

Students working or actively seeking work in their field will express high levels of satisfaction with their degree training that prepared them for employment in their chosen field.

STUDENT DEVELOPMENT

Performance Indicators:

- Number of students placed on suspension/probation

The proportion of the student body placed on suspension/probation during any academic year will remain stable or decline.

South Texas Community College Institutional Performance Indicators (continued)

- Number of students removed from suspension/probation

The proportion of the student body removed from suspension/probation during any academic year will remain stable or increase.

- Fall to Fall student retention

The proportion of the student body retained from Fall to Fall will remain stable or increase each academic year.

- Academic program student retention

The proportion of students enrolled in academic programs retained from term to term or from Fall to Fall will remain stable or increase each academic year.

- Technical program student retention

The proportion of students enrolled in technical programs retained from term to term or from Fall to Fall will remain stable or increase each academic year.

- ▣ Availability of On-line Learning Resources
- ▣ Use of On-line Learning Resources
- ▣ Availability of On-Line Student Services
- ▣ Use of On-line Student Services

South Texas Community College Institutional Performance Indicators (continued)

TASP TEST

Performance Indicators:

- TASP passage rate

The number of students who pass the individual sections of TASP: reading, writing, and math as well as all three sections.

ACADEMIC PROGRESS OF ALL STUDENTS

Performance Indicators:

- Academic success after completing developmental studies

Students completing developmental studies will have about the same course completion rates, GPAs, and degree completion rates, as students never required to be in developmental studies.

- Gains measured by pre- and post-testing in developmental studies

Students testing at or above minimum identified competency levels at each level of developmental studies, on the pre-test, who score sufficiently high enough on the post-test to meet or exceed the minimum competency levels for the next higher course in the same area.

- Gains measured by pre-and post-testing in selected academic courses

Students testing at or above minimum identified competency levels on the pre-test, will score sufficiently high enough on the post-test to meet or exceed the minimum competency levels for the next higher course in pilot tested areas.

South Texas Community College Institutional Performance Indicators (continued)

- Performance on common assessment measures as determined by program/discipline

A report on the results of the common assessment measures used within each discipline/program will be submitted by Chairs.

- Performance in subsequent courses

Student performance in pre-requisite or other clearly defined sequential courses, as measured by course grade, will be a good predictor for success in the next higher course.

- Performance of Distance Learning students on uniform assessment measures
- Gains measured by pre- and post-testing in Distance Learning courses

STAKEHOLDER SATISFACTION

Performance Indicators:

- Quality of customer service

The quality of customer service will continuously improve.

- Level of student satisfaction

The overall level of student satisfaction will continuously improve.

- Level of community satisfaction

The overall level of community satisfaction will continuously improve.

South Texas Community College Institutional Performance Indicators (continued)

- Level of STCC faculty/staff satisfaction

The overall levels of satisfaction of STCC's faculty and staff will continuously improve.

- ▣ Work/Service Order Benchmarks
- ▣ Faculty and Staff IT Training
- ▣ Faculty Electronic Distance Learning Training and Support
- ▣ Faculty and Staff Web/Portal Utilization
- ▣ Technology Hardware and Software Upgrade and Replacement

FINANCE

Performance Indicators:

- State benchmarks

Use selected State Auditors Office ratios to compare with other institutions, and be within an acceptable range.

- Fund balance

Fund balance is no less than 10% of annual operating expenditures.

- Expenditures per full-time student equivalent

Ratio of operating expenditures per full-time equivalent students will be within state averages.

South Texas Community College Institutional Performance Indicators (continued)

- Revenue per full-time student equivalent

Ratio of operating revenues per full-time equivalent students will be within state averages.

- Dunn and Bradstreet Credit Rating

The Dunn and Bradstreet Credit Rating will continuously improve.

- Budgeted/Actual – Expenditure/Revenues

Annual expenditures and revenues will be within a two percent range of budgeted expenditures and revenues.

- Student Receivables delinquency

The rate of student receivables delinquency will be less than two percent of revenue collected annually from tuition and fees.

- Budget allocations per NACUBO Guidelines

Annual budget allocations will be within NACUBO guidelines for each function and classification.

- Ratio of Expenditures to Revenues

Annual revenues will be greater than expenditures.

- ▣ Community College IT Benchmarks

- ▣ IT Support and Investment Ratios

South Texas Community College Institutional Performance Indicators (continued)**FACILITIES**

Performance Indicators:

- Teaching stations per campus/center

Teaching stations at each campus/center are adequate to meet enrollment needs.

- Classroom utilization per campus/center

Classrooms will be in use a minimum of 60% of each day.

- Square feet per campus/center per full-time student equivalent

The square feet per full-time student equivalent will increase at each site.

- Square feet leased/owned

The ratio of leased square footage in comparison to owned square footage space will be reduced.

- Adequacy of specialized facilities

The adequacy of space for special functions such as advising, counseling, student success centers, library, and student activities will continue to improve.

- Facility needs assessment

The annual facility needs assessment will result in continuous improvement of existing facilities and planning for new facilities.

South Texas Community College Institutional Performance Indicators (continued)

- ▣ Technology-enhanced Teaching Stations per campus/center
- ▣ Computing Stations per campus/center
- ▣ Adequacy of Network Technology Infrastructure
- ▣ Adequacy of Telecommunications Technology Infrastructure

Glossary of Terms

Academic Progress of All Students - Academic progress indicates if and how well students achieve their academic goals. Measures in this category include continued success by students in consecutive or subsequent courses, student progress through the developmental studies sequence, and other measures. This is one of the institutional performance indicators STCC uses to evaluate how well it accomplishes its mission.

Access - Whether the college and its services are widely available to the residents of the College District service area. All public colleges are required by the Texas Higher Education Coordinating Board to ensure equity of access by gender, ethnicity and similar characteristics that have historically been subject to bias in higher education.

Accreditation - Process of certification by some external agency. Accreditation may be institutional (e.g. SACS) or programmatic. In either case, the purpose of accreditation is establishment and monitoring of minimum levels of acceptability and recognition of excellence.

ACTSOS - The ACT Student Opinion Survey (SOS) is a student opinion survey widely used by two-year colleges. The survey results are used at STCC as an assessment of effectiveness in meeting student needs and the college's mission through annual administration to a randomly selected group of classes across the STCC District.

Articulation Agreements - Contractual agreements negotiated between institutions of higher education that enable students to transfer credit from specified courses to receiving institutions, minimizing the loss of credit hours when a student transfers.

Benchmarks - Quantifiable standards against which achievement of a goal, objective or strategy can be measured. They are also used to gauge "added value" for the client or improved progress.

Campus - Principal locations where STCC courses are taught: Pecan Campus (3201 W. Pecan, McAllen); the Ramiro R. Casso, M.D. - Nursing and Allied Health Campus (NAHC, 1101 E. Vermont, McAllen); the Center for Advanced and Applied Technology (CAAT, 3700 W. Military Hwy., McAllen); the Downtown Center (1001 S. 16th Street, McAllen); the Mid-Valley Campus (Huisache and Border Ave., Weslaco); and the Starr County Campus (142 FM 3167, Rio Grande City). Many courses are offered in temporary locations to serve the needs of the people in Hidalgo and Starr Counties. The reports in the Fact Book group these in presenting information about courses offerings and enrollment by campus. All teaching sites in the Mid-Valley region (i.e. Knapp Medical Center, Donna H.S., Weslaco H.S., Med High, Science Academy, physical education facilities, et al) are grouped with the Mid-Valley Campus. All teaching sites in Starr County (i.e.

Glossary of Terms (continued)

Roma H.S., Starr County Memorial Hospital, et al) are grouped with the Starr County Campus. Since these two campuses serve distinctive regions they serve as a hub for the temporary teaching sites by providing student services, faculty office space, learning resource centers, student success centers and other services. The two satellite facilities close to the Pecan Campus (Ware Road and Pecan Plaza) are grouped with the Pecan Campus. All other temporary teaching sites (those generally in the McAllen, Edinburg, Mission, Pharr-San Juan-Alamo area not associated with a regular campus) are grouped in a category labeled "Other" in most reports.

Cohort - Group of individuals entering an institution or process at the same time and level. Cohort tracking is a useful tool for identifying progress and comparing groups.

College Profile - The College Profile is an overview of STCC, which provides general information about the College and its service area.

Completion - Finishing a course, degree, or certificate program. This may be measured more broadly to include completion of an individual student's educational objective.

Concurrent Enrollment - Students enrolled both at a high school and a college, taking college level courses that fulfill college and high school degree requirements.

Contact Hours (CH) - Lecture and laboratory hours in which a student has contact with an instructor. Since this represents the actual instructional time spent by faculty and students, the state uses contact hours to compute reimbursement to the College.

Contract Enrollment - Workforce development instruction to high school students that allows them to enroll in technical courses.

Course Completion - Students finishing a course with a letter grade or Pass/No Pass grade. Course completion does not include those who withdraw from a course, which results in a grade of W.

Data - Facts or figures on which analyses can be made and from which conclusions may be drawn; plural "datum."

Declared Majors - A student's declared and recorded program of study. A student's declared major should represent the curriculum that they are following, however, many students will not adhere completely to their major degree plan or will begin taking courses for another major before officially changing their declared major.

Glossary of Terms (continued)

Delinquency - Amount of student tuition and fees that are past due.

Demographics - Characteristics of persons (students, staff, etc.) that are used to categorize those persons as members of identifiable groups (e.g. by age, ethnicity, and gender).

Developmental Sequence - Arrangement of courses in a specific developmental studies discipline (reading, writing, or math) that prepares students for college-level courses. One of the performance indicators measures student progress through their developmental courses to summarize how many students are successful at developing college-level skills.

Duplicated Headcount - Students enrolled in more than one place, department, program, major, or belonging in more than one demographic classification are counted for each category, yielding “duplicated” headcount. Duplicated headcount is greater than simple (unduplicated) headcount.

Economically Disadvantaged - Special populations category for low-income persons, defined by the THECB as those whose annual income is at or below the federal poverty line or who are eligible to participate in one of several needs-based public assistance programs (e.g. WIC, TANF, Pell, WIA, et al).

Employment - Title of one of the ten categories of Institutional Performance Indicators (related to STCC’s impact on the preparedness of students seeking a job that pays wages or a salary. Indicators in this group include: Number of graduates employed in their field of study, employer satisfaction with STCC graduates, and graduate satisfaction with their preparation for work.

Facilities - Structures and grounds used by the College; one of the ten categories used to group the Institutional Performance Indicators. The indicators in this category address the adequacy of STCC physical facilities to meet the needs of various constituent groups. Indicators in this category include the number of teaching stations (classrooms) per campus, campus square footage per student FTE, square footage of leased and owned facilities, an assessment of facility needs, and other measures.

Finance - Title of one of the ten categories used to group the Institutional Performance Indicators; the indicators in this area cover issues of fiscal accountability and solvency. Some indicators in this category include performance on state financial benchmarks, expenditures per student FTE, revenue per student FTE, student receivables delinquency rate, and the ratio of expenditures to revenues.

Glossary of Terms (continued)

FTE - Full-Time Equivalent refers to the approximate number of full-time persons (students, faculty, employees, etc.) that would equal the combined full-time and part-time persons. Although there are many different formulas used to determine an FTE, the Fact Book uses 12 semester credit hours (SCH) per long semester for one credit FTE student. There is also an annual measure of FTE that is equal to 30 SCH for the whole year (this assumes 12 hours in fall, 12 hours in spring, and 6 hours in the summer). FTE for non-credit students is calculated by dividing the number of contact hours per quarter by 120 since STCC's non-credit instruction is operated on the quarter system.

FTIC - First-Time in College (FTIC) refers to students new to STCC who have no prior college experience. The FTIC Cohorts used in the Fact Book also include high school students taking concurrent enrollment classes for the first time.

Fund Balance - Uncommitted Funds.

Graduation Rate - Proportion of a given group of students (cohort) who graduate within a specified period. The standard used for the federal (Department of Education) definition is the number of students from a first-time in college cohort who complete their program within one and one-half the program length, or three years to complete a two-year program and one and one-half years to complete a one-year program.

Headcount - Total number of students enrolled.

Median - Mid-point in a series of numbers (i.e. half of the numbers in a series are below the median value and half are above the median value). The median is often used as a method of expressing average (besides the arithmetic mean) when the series of numbers is heavily skewed by large or small numbers.

NACUBO - The National Association of College and University Business Officers (NACUBO), a professional organization representing chief administrative and financial officers at more than 2,100 colleges and universities nationwide. NACUBO's mission is to promote sound management and financial practices at colleges and universities. NACUBO has been instrumental in developing financial benchmarks for colleges and universities.

Non-Traditional Gender Enrollment - Minority gender (thus "non-traditional") in programs in which the other gender represents 75% or more of all students enrolled. A woman enrolled in Automotive Technology is often an example of a non-traditional gender enrollment.

Glossary of Terms (continued)

Performance Indicators - Specific measures that are used to assess whether a particular intended outcome has been met. The Institutional Performance Indicators are grouped into ten broad categories.

Public Magnet Schools - Public high schools focusing on a specialized curriculum and serving students from multiple independent school districts. The magnet schools within the STCC District are all part of the South Texas Independent School District and include the Teacher Academy (Edinburg), the Science Academy (Mercedes), and the High School for the Health Professions (Mercedes).

Quartile - A range that represents 25%. The top quartile of a graduating class of seniors would be those students graduating in the top 25%.

Receivable - Student tuition and fees that have not been paid.

Retention - Continued student enrollment at the College, often measured from the fall semester to the spring semester and from one fall semester to the fall semester of the following years. These retention rates provide a standard measure to compare to benchmarks and give an indication of the number of students making progress towards completing a degree or certificate.

SCH - Semester Credit Hour.

Service Area - Hidalgo and Starr Counties, designated as the geographical region served by STCC and the taxing district for the STCC District.

Special Populations - One of a number of categories (academically disadvantaged, economically disadvantaged, individuals with disabilities, limited English proficiency, non-traditional program enrollment, displaced homemakers, and single parents) of specific student populations that have been either historically underserved by higher education or that represent students "at risk" of not succeeding. The College is required to evaluate the access and equity of services offered to these populations. The College is also evaluated on the outcomes of these student groups and must ensure that they perform as well as all other students.

Stakeholder Satisfaction - Degree to which individuals and groups with an interest in the College, its work, and the outcomes of that work are satisfied.

Glossary of Terms (continued)

Student Development - Students' growth in learning skills essential to the achievement of educational goals, as well as the cultural, social, moral, intellectual, and physical development. Student Development is one of the ten categories used to group the Institutional Performance Indicators.

Student Flow Model - Overview of the various outcomes (continued enrollment, transfer, and graduation) of specific groups of students (cohorts). The first-time in college (FTIC) student flow model can be used to compare the retention, transfer, and graduation rates of the defined cohorts of first-time in college students. These comparisons help departments to understand how many students are making progress towards transfer or graduation and how quickly they are moving through their programs.

Surveys - Research method for collecting data from individuals about themselves, their households, or other large social units.

Suspension - Denial of fall or spring enrollment to students previously placed on Academic Probation, when cumulative GPA and current semester GPA is below 2.00. Students placed on academic suspension may enroll for summer sessions for the purpose of raising their cumulative GPA to the level required for good standing.

TASP - The Texas Academic Skills Program (TASP), mandated in Spring 1987 by House Bill 2182, assesses students' skills in reading, writing, and math necessary for success in college-level courses and ensures assistance to those who need it.

THECB - Texas Higher Education Coordinating Board is a state agency that oversees all public postsecondary education in Texas.

Transfer - Leaving one educational institution to enroll in another. Transfer may be in-transfer (entering STCC) or out-transfer (leaving STCC).

Transfer Rate - Number of students leaving STCC to enroll in other institutions.

Transfer Success - Academic success of students following transfer.

Workforce Development - Development of entry-level knowledge, skills and abilities needed by students for successful entry into local employment.
