## ABSTRACT

This guide is designed to provide guidance to New York state school districts and teachers to help students achieve the music standards. Teachers throughout New York state met to compile these field-tested lesson plans, teaching strategies, assessments, and resources for teachers of students in pre-kindergarten through grade 12, in all areas of music instruction including band, chorus, orchestra, and general music. While not intended as a curriculum, the guide provides age-appropriate activities in a sequence that allows for continuous development in all areas of musical study. It has two sections: (1) encapsulated instructional ideas with assessment references for each performance indicator--additional instructional ideas are also included, although not developed; and (2) appendices that provide information to further assist teachers in preparing and developing their instructional programs. In section one, the references in each entry are abbreviated (Appendices contain complete bibliographic information). The first section is organized by grade level grouping: preK-2; 3-4; 5-6; 7-8; Commencement General Education and Commencement Major Sequence (9-12). Within each grade level grouping, standards and performance indicators in music are addressed by instructional ideas. Instructional ideas suitable for other performance indicators are identified, as is the appropriateness of the lesson for band, chorus, orchestra, and/or general music. In developing the guide, elementary performance indicators were used in creating instructional ideas for students in grades preK-4, intermediate performance indicators for students in grades 5-8, commencement/general education performance indicators for students in grades 9-12, and commencement/major sequence performance indicators for students pursuing a sequence in music. # Foreword

New York State has a long history of support for student learning and achievement in music. As *A Nation at Risk* encouraged our country to closely examine teaching and learning, New York State embarked on its own quest to raise student standards. New York chose to include music and the other arts in its graduation requirements for all children. As such, four of New York State's required learning standards are in the arts (dance, music, theatre, and visual arts). Two related and critical elements of New York State's effort to raise student learning are developing effective means of assessing student progress in meeting the standards and building the capacity of local schools to enable all students to meet the standards.

The New York State School Music Association (NYSSMA), the largest nationally affiliated state music education association, has worked collaboratively with the State Education Department (SED) over many years to ensure a quality music education for all students. Instrumental in developing the *Learning Standards for the Arts*, NYSSMA played a significant role in advocating for and developing a statewide arts assessment. When finalized, the music assessment will be a valuable tool for use by educators to assess their students' progress in meeting the standards.

Through the process of developing its strategic plan, the NYSSMA leadership came to realize that there was a great need for more instructional support for music educators in delivering the music standards to all students. In the fall of 2000, NYSSMA asked SED to collaborate in developing and disseminating a curriculum guide for standards-based instruction. With fiscal and human resource support from NYSSMA, SED agreed to share in this venture.

In November 2000, NYSSMA and SED solicited feedback on format, process, and potential writers from a representative body of the music education associations affiliated with NYSSMA (COME—Council of Music Education Associations). With a wealth of information from the November meeting, the NYSSMA Curriculum Committee met twice in the spring of 2001 to continue work on format and planning for the writing sessions. At meetings in June and September 2001, the Curriculum Committee and over 30 writers, representing the various music specialty areas and grade levels, completed a draft of the document. This document has been reviewed and edited by the NYSSMA Curriculum Committee and a selected list of specialists before being sent out as a draft version.

The completion of this document is a direct result of the contributions of many individuals, music education associations, and the New York State Education Department. They were encouraged and supported by you, the music teachers and administrators from across New York State. We hope that this publication will assist you in providing an excellent music education for our children.

# Acknowledgments

It is with gratitude and pride that the following individuals are recognized and appreciated for their tremendous contributions to *Music: A Resource Guide for Standards-Based Instruction*. They have tirelessly given of themselves for the greater good of the profession, and their expertise will resonate in music education classrooms throughout the State.

# Preface

In addition to providing the means for children to become productive citizens, public education needs to provide for the parts of a child's learning that help to make him or her a whole person. The arts serve this function, gradually building on all of the intelligences while developing intuition, reasoning, creativity, and dexterity. Most importantly, experiences with the arts allow a child the opportunity to interact with and contribute to our community's culture.

This publication, *Music: A Resource Guide for Standards-Based Instruction*, is designed to provide guidance to school districts and teachers in helping students achieve the music standards for New York State. Teachers from throughout New York met to compile these field-tested lesson plans, teaching strategies, assessments, and resources for teachers of students in prekindergarten through grade 12, and in all areas of music instruction including band, chorus, orchestra, and general music. While not intended as a curriculum, it does provide age-appropriate activities in a sequence that will allow for continuous development in all areas of musical study.

The New York State *Learning Standards for the Arts* document was published in April 1996 by the State Education Department. Approved by the Board of Regents, the arts standards provide a comprehensive set of learner expectations meant to ensure a quality education for all students in schools throughout the State. The intent of this resource guide is to provide educators with examples of instructional ideas by grade level that address each performance indicator delineated in the learning standards, and serve as a catalyst for teachers to develop further lessons as needed. The expectation is that teachers will read the lesson, gain greater insight into the intent of that performance indicator, and learn how to better implement instruction in the classroom or rehearsal room.

There is great diversity in students, schedules, teachers, resources, and the capacity of districts throughout New York State to deliver music instruction. This requires music teachers who use this resource guide to be willing to adapt the suggestions to fit the unique environment of their own particular classroom or rehearsal venue. Many of the suggestions, while offered by some of the State's finest teachers, may need personalized input and customizing to become suitable for each unique situation. Also, it is recommended that instrumental teachers peruse the ideas originally intended for general music teachers and vice versa, as some strategies fit the contexts of all musical experiences even though they are listed only in one area.

## How to Use This Guide

*Music: A Resource Guide for Standards-Based Instruction* has two sections. The first contains encapsulated instructional ideas with assessment references for each performance indicator. Additional instructional ideas are also included, although not developed. The references in each entry are abbreviated. For complete bibliographic information, see the appendices of this resource guide.

The first section is organized by grade level grouping: PreK–2; 3–4; 5–6; 7–8; Commencement General Education and Commencement Major Sequence (9–12). Within each grade level grouping, the standards and performance indicators in music are addressed by instructional ideas. Instructional ideas that are suitable for other performance indicators are identified, as is the appropriateness of the lesson for band, chorus, orchestra, and/or general music.

In developing this guide, elementary performance indicators were used in creating instructional ideas for students in grades PreK–4; intermediate performance indicators for students in grades 5–8; commencement/general education performance indicators for students in grades 9–12; and commencement/major sequence performance indicators for students pursuing a sequence in music.

The second section, the appendices, provides information to further assist teachers in preparing and developing their instructional program. Items included in this portion of the resource guide are: special learner considerations; an example of a fully developed learning experience gathered through the peer review process sponsored by the State Education Department; a repertoire resource list; other useful resources; and an index of materials found within the resource guide.

# New York State Learning Standards for the Arts

Excerpted from:  
*Learning Standards for the Arts*  
New York State Education Department, April 1996

Available online: [www.emsc.nysed.gov/ciai/arts/arts.html](http://www.emsc.nysed.gov/ciai/arts/arts.html)

## **STANDARD 1: Creating, Performing, and Participating in the Arts**

Students will actively engage in the processes that constitute creation and performance in the arts (dance, music, theatre, and visual arts) and participate in various roles in the arts.

## **STANDARD 2: Knowing and Using Arts Materials and Resources**

Students will be knowledgeable about and make use of the materials and resources available for participation in the arts in various roles.

## **STANDARD 3: Responding to and Analyzing Works of Art**

Students will respond critically to a variety of works in the arts, connecting the individual work to other works and to other aspects of human endeavor and thought.

## **STANDARD 4: Understanding the Cultural Dimensions and Contributions of the Arts**

Students will develop an understanding of the personal and cultural forces that shape artistic communication and how the arts in turn shape the diverse cultures of past and present society.

## Music

### **STANDARD 1: Creating, Performing, and Participating in the Arts**

Students will compose original music and perform music written by others. They will understand and use the basic elements of music in their performances and compositions. Students will engage in individual and group musical and music-related tasks, and will describe the various roles and means of creating, performing, recording, and producing music.

#### ELEMENTARY

##### **Students:**

- a. create short pieces consisting of sounds from a variety of traditional (e.g., tambourine, recorder, piano, voice), electronic (e.g., keyboard), and nontraditional sound sources (e.g., water-filled glasses)
- b. sing songs and play instruments, maintaining tone quality, pitch, rhythm, tempo, and dynamics; perform the music expressively; and sing or play simple repeated patterns (ostinatos) with familiar songs, rounds, partner songs, and harmonizing parts
- c. read simple standard notation in performance, and follow vocal or keyboard scores in listening
- d. in performing ensembles, read very easy/easy music (New York State School Music Association [NYSSMA] level I-II) and respond appropriately to the gestures of the conductor
- e. identify and use, in individual and group experiences, some of the roles, processes, and actions used in performing and composing music of their own and others.

2

## INTERMEDIATE

### Students:

- a. compose simple pieces that reflect a knowledge of melodic, rhythmic, harmonic, timbral, and dynamic elements
- b. sing and/or play, alone and in combination with other voice or instrument parts, a varied repertoire of folk, art, and contemporary songs, from notation, with a good tone, pitch, duration, and loudness
- c. improvise short musical compositions that exhibit cohesiveness and musical expression
- d. in performing ensembles, read moderately easy/moderately difficult music (NYSSMA level III-IV) and respond appropriately to the gestures of the conductor
- e. identify and use, in individual and group experiences, some of the roles, processes, and actions for performing and composing music of their own and others, and discuss ways to improve them.

## COMMENCEMENT—GENERAL EDUCATION

### Students:

- a. compose simple pieces for at least two mediums, including computers (MIDI) and other electronic instruments. (Pieces may combine music with other art forms such as dance, theatre, visual arts, or film/video.)
- b. sing and/or play recreational instruments accurately, expressively, and with good tone quality, pitch, duration, loudness, technique, and (singing) diction
- c. use common symbols (notation) to perform music on recreational instruments
- d. identify and describe the roles, processes, and actions needed to produce professional concerts and musical theatre productions
- e. explain the commercial-music roles of producer, recordist, public relations director, recording company executive, contractor, musicians, union officials, performers, etc.

## COMMENCEMENT—MAJOR SEQUENCE

### In addition to the General Education performance indicators, students:

- a. compose a collection of works for wind, string, percussion, vocal, keyboard, or electronic media that demonstrates an understanding and application of the musical elements and music-related technology
- b. monitor and adjust their performance and compositional techniques, identifying strengths and areas for improvement
- c. improvise and arrange extended musical compositions that exhibit cohesiveness and musical expression
- d. in choral and instrumental ensembles, read difficult/very difficult music (NYSSMA level V or VI); exhibit independent control over tone quality, intonation, rhythm, dynamics, balance, blend, expression, and articulation; and respond appropriately to the gestures of the conductor
- e. adopt at least two of the roles they identify as needed (composer, arranger, copyist, conductor, performer, announcer, instrument maker or provider, program annotator, recordist) to produce the performance of a musical composition in the classroom
- f. in performing groups, produce musical performances by peer-led small ensembles and sections of larger ensembles.

## **STANDARD 2: Knowing and Using Arts Materials and Resources**

Students will use traditional instruments, electronic instruments, and a variety of nontraditional sound sources to create and perform music. They will use various resources to expand their knowledge of listening experiences, performance opportunities, and/or information about music. Students will identify opportunities to contribute to their communities' music institutions, including those embedded in other institutions (church choirs, industrial music ensembles, etc.). Students will know the vocation and avocations available to them in music.

### **ELEMENTARY**

#### **Students:**

- a. use classroom and nontraditional instruments in performing and creating music
- b. construct instruments out of material not commonly used for musical instruments
- c. use current technology to manipulate sound
- d. identify the various settings in which they hear music and the various resources that are used to produce music during a typical week; explain why the particular type of music was used
- e. demonstrate appropriate audience behavior, including attentive listening, in a variety of musical settings in and out of school
- f. discuss ways that music is used by various members of the community.

### **INTERMEDIATE**

#### **Students:**

- a. use traditional or nontraditional sound sources, including electronic ones, in composing and performing simple pieces
- b. use school and community resources to develop information on music and musicians
- c. use current technology to create, produce, and record/playback music
- d. identify a community-based musical interest or role and explain the skills, knowledge, and resources necessary to pursue the interest or adopt the role
- e. demonstrate appropriate listening and other participatory responses to music of a variety of genres and cultures
- f. investigate some career options related to their musical interests.

### **COMMENCEMENT—GENERAL EDUCATION**

#### **Students:**

- a. use traditional, electronic, and nontraditional media for composing, arranging, and performing music
- b. describe and compare the various services provided by community organizations that promote music performance and listening
- c. use print and electronic media, including recordings, in school and community libraries to gather and report information on music and musicians
- d. identify and discuss the contributions of local experts in various aspects of music performance, production, and scholarship
- e. participate as a discriminating member of an audience when listening to performances from a variety of genres, forms, and styles
- f. understand a broad range of career opportunities in the field of music, including those involved with funding, producing, and marketing musical events.

## COMMENCEMENT—MAJOR SEQUENCE

**In addition to the General Education performance indicators, students:**

- a. develop a classified and annotated directory of nearby music-related establishments such as instrument and music retailers, instrument makers and repair persons, recording studios, union representatives, etc.
- b. identify ways that they have contributed to the support of the musical groups of which they are members
- c. explain opportunities available to them for further musical growth and professional development in higher education and community institutions.

## **STANDARD 3: Responding to and Analyzing Works of Art**

Students will demonstrate the capacity to listen to and comment on music. They will relate their critical assertions about music to its aesthetic, structural, acoustic, and psychological qualities. Students will use concepts based on the structure of music's content and context to relate music to other broad areas of knowledge. They will use concepts from other disciplines to enhance their understanding of music.

### ELEMENTARY

**Students:**

- a. through listening, identify the strengths and weaknesses of specific musical works and performances, including their own and others'
- b. describe the music in terms related to basic elements such as melody, rhythm, harmony, dynamics, timbre, form, style, etc.
- c. discuss the basic means by which the voice and instruments can alter pitch, loudness, duration, and timbre
- d. describe the music's context in terms related to its social and psychological functions and settings (e.g., roles of participants, effects of music, uses of music with other events or objects, etc.)
- e. describe their understandings of particular pieces of music and how they relate to their surroundings.

### INTERMEDIATE

**Students:**

- a. through listening, analyze and evaluate their own and others' performances, improvisations, and compositions by identifying and comparing them with similar works and events
- b. use appropriate terms to reflect a working knowledge of the musical elements
- c. demonstrate a basic awareness of the technical skills musicians must develop to produce an aesthetically acceptable performance
- d. use appropriate terms to reflect a working knowledge of social-musical functions and uses (appropriate choices of music for common ceremonies and other events)
- e. use basic scientific concepts to explain how music-related sound is produced, transmitted through air, and perceived
- f. use terminology from music and other arts to analyze and compare the structures of musical and other artistic and literary works.

## COMMENCEMENT—GENERAL EDUCATION

### Students:

- a. through listening, analyze and evaluate their own and others' performances, improvisations, and compositions and suggest improvements
- b. read and write critiques of music that display a broad knowledge of musical elements, genres, and styles
- c. use anatomical and other scientific terms to explain the musical effectiveness of various sound sources—traditional, nontraditional, and electronic
- d. use appropriate technical and socio-cultural terms to describe musical performances and compositions
- e. identify and describe the contributions of both locally and internationally known exemplars of high quality in the major musical genres
- f. explain how performers, composers, and arrangers make artistic decisions.

## COMMENCEMENT—MAJOR SEQUENCE

### In addition to the General Education performance indicators, students:

- a. assess, describe, and evaluate the development of their personal contributions to their own, their school's, and their community's musical life by appropriately using musical and socio-cultural terms and concepts (contributions and skills of musicians, functions of music in society, etc.)
- b. demonstrate a practical knowledge of sound production and architectural acoustics to predict the general effects on sound of room shapes, building construction practices, and common absorbers.

## **STANDARD 4: Understanding the Cultural Dimensions and Contributions of the Arts**

Students will develop a performing and listening repertoire of music of various genres, styles, and cultures that represent the peoples of the world and their manifestations in the United States. Students will recognize the cultural features of a variety of musical compositions and performances and understand the functions of music within the culture.

## ELEMENTARY

### Students:

- a. identify when listening, and perform from memory, a basic repertoire of folk songs/dances and composed songs from the basic cultures that represent the peoples of the world
- b. identify the titles and composers of well-known examples of classical concert music and blues/jazz selections
- c. identify the primary cultural, geographical, and historical settings for the music they listen to and perform.

## INTERMEDIATE

### Students:

- a. identify the cultural contexts of a performance or recording and perform (with movement, where culturally appropriate) a varied repertoire of folk, art, and contemporary selections from the basic cultures that represent the peoples of the world
- b. identify from a performance or recording the titles and composers of well-known examples of classical concert music and blues/jazz selections
- c. discuss the current and past cultural, social, and political uses for the music they listen to and perform
- d. in performing ensembles, read and perform repertoire in a culturally authentic manner.

## COMMENCEMENT—GENERAL EDUCATION

### Students:

- a. identify from performances or recordings the cultural contexts of a further varied repertoire of folk, art, and contemporary selections from the basic cultures that represent the peoples of the world
- b. identify from performances or recordings the titles and composers and discuss the cultural contexts of well-known examples of classical concert music and blues/jazz selections
- c. relate well-known musical examples from the 17th century onward with the dominant social and historical events.

## COMMENCEMENT—MAJOR SEQUENCE

### In addition to the General Education performance indicators, students:

- a. analyze music from various cultures on the basis of its functions, giving examples and describing uses to which music is put in those cultures
- b. in performing ensembles, read and perform repertoire in a culturally authentic manner and use culture-based criteria for assessing performances, their own and others'.

# Grades PreK – 2

## **Standard 1: Creating, Performing, and Participating**

Students will compose original music and perform music written by others. They will understand and use the basic elements of music in their performances and compositions. Students will engage in individual and group musical and music-related tasks, and will describe the various roles and means of creating, performing, recording, and producing music.

## **Standard 2: Knowing and Using Arts Materials and Resources**

Students will use traditional instruments, electronic instruments, and a variety of nontraditional sound sources to create and perform music. They will use various resources to expand their knowledge of listening experiences, performance opportunities, and/or information about music. Students will identify opportunities to contribute to their communities' music institutions, including those embedded in other institutions (church choirs, ensembles, etc.). Students will know the vocation and avocations available to them in music.

## **Standard 3: Responding to and Analyzing Works of Art**

Students will demonstrate the capacity to listen to and comment on music. They will relate their critical assertions about music to its aesthetic, structural, acoustic, and psychological qualities. Students will use concepts based on the structure of music's content and context to relate music to other broad areas of knowledge. They will use concepts from other disciplines to enhance their understanding of music.

## **Standard 4: Understanding the Cultural Dimensions and Contributions of the Arts**

Students will develop a performing and listening repertoire of music of various genres, styles, and cultures that represent the peoples of the world and their manifestations in the United States. Students will recognize the cultural features of a variety of musical compositions and performances and understand the functions of music within the culture.

BEST COPY AVAILABLE

9

## Standard 1: Creating, Performing, and Participating

PreK–2

### Performance Indicator 1a

Create short pieces consisting of sounds from a variety of traditional (e.g., tambourine, recorder, piano, voice), electronic (e.g., keyboard), and nontraditional sound sources (e.g., water-filled glasses).

#### Instructional Idea

##### Students improvise question/answer phrases.

- Students begin singing a song while patting the steady beat.
- Students pass a stuffed animal or object such as a yarn ball.
- As students become more familiar with the song, teacher varies the call through improvisation.
- Students are then encouraged to “change their notes” (to alter their responses and to create their own).

##### Suggested Assessment:

- ◇ Using a checklist, teacher records student's ability to match pitch in her/his response.
- ◇ Teacher records student's ability to imitate teacher's new improvisation.
- ◇ Teacher records student's ability to create his/her own answer to the call. See *Assessment in Classroom Music*, NYSSMA, for checklist examples.

**Note:** Has been used successfully in PreK–K; also meets Standard 1e.

#### References/Resources

*TIPS: Music Activities in Early Childhood*, MENC

*Prekindergarten Music Education Standards*, MENC

*TIPS: Teaching Music to Special Learners*, MENC

*Assessment in Classroom Music*, NYSSMA

#### Additional Instructional Ideas

- ♪ Create a short sound piece.
- ♪ Improvise four measure phrases in turn on pentatonic mallet instruments.
- ♪ Create body percussion composition.
- ♪ Create vocal exploration composition.
- ♪ Explore creative ways to make sounds on classroom instruments.
- ♪ Create sound pieces from nontraditional sound sources (e.g., juice boxes, film containers).
- ♪ Create an instrumental composition that contains two simultaneous parts.

## Standard 1: Creating, Performing, and Participating

PreK-2

### Performance Indicator 1a

Create short pieces consisting of sounds from a variety of traditional (e.g., tambourine, recorder, piano, voice), electronic (e.g., keyboard), and nontraditional sound sources (e.g., water-filled glasses).

Instructional Idea	References/Resources
<p><b>Students create vocal exploration composition.</b></p> <ul style="list-style-type: none"><li>• Teacher expressively reads a folktale that contains several examples of repetitive text (e.g., <i>Anansi and the Moss-Covered Rock</i>), adding props to enhance.</li><li>• Students name repeated phrases of text (e.g., “Isn’t this a strange moss-covered rock?”).</li><li>• Students (on their own) walk around the room and experiment vocally with melodies that fit the text. They regroup and share their melodies. Teacher notates melodies, using iconic notation that students can understand. (Generally the melodies will be pentatonic.)</li><li>• Students select and sing their favorite melodic composition for the text. Process is repeated for all text phrases in the story.</li><li>• Teacher writes out selected compositions in standard notation and students use these pieces in a performance retelling the story (after much practice).</li><li>• For PreK-K, suggested folktale is <i>The Lovely Princess</i>.</li></ul> <p><b>Suggested Assessment:</b></p> <ul style="list-style-type: none"><li>◇ Teacher uses an observational checklist to assess student abilities to create and sing the melodies:<ul style="list-style-type: none"><li>+ Student improvises/sings a melody that is phrase-like and can be easily repeated by self and others.</li><li>✓ Student improvises/sings a melody that uses the singing voice but may not be easily repeated.</li><li>- Student does not sing a melody but uses a speaking voice instead.</li></ul></li></ul> <p><b>Note:</b> Has been used successfully in grades 1 and 2; also addresses Standard 3a, ELA, and theatre standards.</p>	<p><i>Anansi and the Moss-Covered Rock</i>, Eric Kimmel</p> <p><i>The Lovely Princess</i>, Barbara Andress</p>

### Additional Instructional Ideas

- ♪ Improvise question/answer phrases (instrumental and vocal).
- ♪ Improvise four measure phrases in turn on mallet instruments.
- ♪ Create body percussion composition.
- ♪ Explore creative ways to make sounds on classroom instruments.
- ♪ Create sound pieces from traditional and nontraditional sources (e.g., juice boxes, film containers).
- ♪ Create an instrumental composition that contains two simultaneous parts.

## Standard 1: Creating, Performing, and Participating

PreK–2

### Performance Indicator 1b

Sing songs and play instruments, maintaining tone quality, pitch, rhythm, tempo, and dynamics; perform the music expressively; and sing or play simple repeated patterns (ostinatos) with familiar songs, rounds, partner songs, and harmonizing parts.

#### Instructional Idea

**Students perform a familiar song at a variety of dynamic levels and/or tempos.**

- Students sing within age-appropriate limited range, using a healthy head voice (*d-a*, and later *d-d'*).
- In grades 1 and 2, students learn "Paw Paw Patch," and in PreK-K they learn "Teddy Bear." Teacher addresses healthy posture, diction, and good breathing technique (calm, quiet, and open breath).
- Students play the game "Find the Key!" (Any object may be used.) One student leaves the room while another student hides the key. For grade 2 this might be anywhere in the room; for PreK–1 it might be behind a friend in the circle. Part of key must be visible.
- When student reenters, class sings the song at a variety of dynamic levels to help student find the key—loud if student is close to it, soft if student is far from it. Game continues until the key is found.

#### Suggested Assessment:

- ◇ Teacher uses a simple rubric to assess student ability to match pitch within the given song:
  - + Student matches pitch throughout most of the song.
  - ✓ Student uses a singing voice but does not match pitch consistently.
  - Student uses speaking voice.
- ◇ Students with special needs communicate understanding through nonverbal/visual cues.
- ◇ Teacher notes the student response to dynamic changes on a checklist.

**Note:** Has been used successfully in grade 2 and is adaptable for PreK–1; also addresses Standard 3b.

#### References/Resources

"Teddy Bear," *Musical Growth in the Elementary School*, 5th ed., Holt, Rinehart & Winston

"Paw Paw Patch," *Music for Fun, Music for Learning*, Lois Burkenshaw

#### Additional Instructional Ideas

- ♪ Demonstrate singing versus speaking voice.
- ♪ Perform music in a variety of meters.
- ♪ Perform an ostinato with a familiar song.
- ♪ Sing a simple two-part round.
- ♪ Demonstrate the ability to maintain a steady beat in a variety of locomotor and non-locomotor ways.

## Standard 1: Creating, Performing, and Participating

PreK-2

### Performance Indicator 1b

Sing songs and play instruments, maintaining tone quality, pitch, rhythm, tempo, and dynamics; perform the music expressively; and sing or play simple repeated patterns (ostinatos) with familiar songs, rounds, partner songs, and harmonizing parts.

#### Instructional Idea

**Students perform a familiar song in a variety of tempos and/or dynamic levels.**

- Teacher uses a song like Doug Nichol's "Fireman, Fireman" in a game format.
- Teacher divides the class into four teams (in columns), each with a leader who faces the group.
- Student groups sing the song together with the counting section performed as follows: Step on "1, 2, 3," pat on "4, 5, 6," clap on "7, 8, 9," snap on "10, 11, 12." Each group of three numbers is performed by different teams.
- Teacher changes tempo with a short interlude as teams rotate their leaders.
- Students perform song in the new tempo.
- Suggestions for extending the lesson include:
  - Highlight the climbing pitches of the counting section by placing each team at a different level (on floor, in chairs, standing, standing on boxes or chairs).
  - Substitute body percussion with four groups of classroom instruments, each set having higher pitches than the one before it.

#### Suggested Assessment:

- ◊ Using a checklist, teacher notes that:
  - + Student is consistently able to perform group's part at the correct time and tempo.
  - ✓ Student is usually able to perform group's part at the correct time and tempo.
  - Student is unable to perform group's part at the correct time and tempo.

**Note:** Has been used successfully in grade 1; is also appropriate with grade 2.

#### References/Resources

- ♪ Verbalize understanding of terms related to basic elements (*melody, harmony, rhythm, timbre, form, style, dynamics*).
- ♪ Name basic instruments of the orchestra and basic classroom instruments by sight and sound.

## Standard 3: Responding to and Analyzing Works of Art

PreK-2

### Performance Indicator 3c

Discuss the basic means by which the voice and instruments can alter pitch, loudness, duration, and timbre.

#### Instructional Idea

**Students predict high or low pitch on the basis of the size of various instruments' vibrating medium.**

- Having worked extensively with Orff instruments and hand drums in their music classes, students engage in a discussion about relative highness or lowness of pitch as it relates to the size of various similar instruments (i.e., comparing hand drum to hand drum and xylophone to xylophone, not hand drum to xylophone).
- Students are directed to explore highness and lowness of pitch on the following classroom instruments:
  - Soprano, alto, and bass xylophones
  - Finger cymbals, rhythm instrument cymbals, suspended cymbal from a drum set
  - Hand drums of various sizes
- After student exploration, teacher gathers students together and has students generate statement that describes how the size of the instrument relates to its pitch. Students will also be encouraged to note that on each of the xylophones they explored, the long bars produce low pitches; they should also note that the shorter the bar, the higher the pitch.
- After students agree that the larger the size of an instrument, the lower its pitch, teacher displays for them a set of recorders (garklein, sopranino, soprano, alto, and tenor).
- Ask students to predict which of these recorders will produce the highest and lowest pitches.
- Teacher demonstrates a familiar song on each of the recorders, using the same finger patterns. Have students assess the accuracy of their predictions.

#### Suggested Assessment:

- ◇ Students correctly predict the relative highness or lowness of pitches to be produced on the recorders displayed for them. Each student's progress will be noted on a checklist. See *NYSSMA Assessment in Classroom Music* for checklist examples.

**Note:** Has been used successfully in grades 1 and 2.

#### References/Resources

♪ Pair musical selections with appropriate settings or functions and discuss relevance in society.

## Standard 3: Responding to and Analyzing Works of Art

PreK–2

### Performance Indicator 3e

Describe their understandings of particular pieces of music and how they relate to their surroundings.

#### Instructional Idea

**Students describe how emotions can be reflected through their compositions as well as compositions of others.**

- Students name, discuss, and perhaps even share songs their parents and grandparents may have used to help them settle down and get ready to sleep at night. Teacher establishes that this type of song is called a lullaby and that families all over the world use their own culture's lullabies for the same reason—to help children settle down and go to sleep.
- As a class, students learn to sing "Hush, Little Baby," including the many verses as found in numerous sources. Students are encouraged to sing in a soft, gentle manner, and may pretend to rock or soothe a baby, a favorite toy, or a small pet, just as a parent/grandparent might have done as they sang to them.
- Teacher encourages a discussion of the types of emotions that parents and children may experience while a lullaby is being sung, and explains how the performance of the song itself mirrors and reflects these feelings.
- Teacher shares the picture book *Hush, Little Baby* and discusses how the artist's illustrations mirror emotions, too.
- On another day, teacher reviews the song and the general idea that lullabies are soft, soothing, gentle melodies used to put children to sleep. Students then listen to another version of the lullaby: "Hush" performed by Bobby McFerrin and Yo Yo Ma. They are encouraged to listen quietly.
- After repeated listening, teacher encourages students to express themselves creatively through selected means (perhaps movement) that will reflect how this music makes them feel. Discuss how the feelings and emotions in this performance differ from those in the way they sang it.

#### Suggested Assessment:

- ◊ Students articulate the differences in emotions produced in these two diverse presentations of the familiar lullaby. This articulation could take the form of gesturing, pointing, acting, verbalizing, etc.

**Note:** Has been used successfully with K and grade 1; also addresses Standard 4a.

#### References/Resources

<p><b>Students discuss, move, perform, and listen to classical music.</b></p> <ul style="list-style-type: none"><li>• Teacher introduces a piece of programmatic music.</li><li>• Students discuss the instruments heard.</li><li>• Students discuss why specific instruments were chosen for each character/animal/section.</li><li>• Teacher continues to expose students to listening examples and has students move expressively to represent each piece.</li></ul> <p><b>Examples:</b></p> <ul style="list-style-type: none"><li>• <i>Peter and the Wolf</i>—Teacher introduces short melodic motives to relate to each character. Motives may include name or sound of instrument that represents each character. While teacher reads a version of the story, students respond by singing the motive when the character is mentioned.</li><li>• <i>Carnival of the Animals</i>—Students create movements to express the animal they are hearing. Students should be encouraged to vary their body movements while listening to the same movement.</li><li>• “In the Hall of the Mountain King” from Grieg’s <i>Peer Gynt Suite</i>—Teacher chooses groups of students to represent the characters in the story (Peer Gynt, trolls, etc.). Use a very long, twisting, curving path of masking tape on which children enact the story. Students show the steady beat and changes in volume, tempo, and emotional content through body language.</li></ul> <p><b>Note:</b> Has been used successfully in PreK–2.</p>	<p><i>Peter and the Wolf</i>, Prokofiev</p> <p><i>Carnival of the Animals</i>, Saint Saens</p> <p><i>Peer Gynt Suite No. 1</i>, Grieg</p>

### Additional Instructional Ideas

- ♪ Use dramatization and creative movement to remember the titles of classical and jazz works.
- ♪ Use rhythmic speeches or simple songs to retain titles and composer names.

## Standard 4: Understanding the Cultural Dimensions and Contributions of the Arts

PreK–2

### Performance Indicator 4b

Identify the titles and composers of well-known examples of classical concert music and blues/jazz selections.

#### Instructional Idea

**Students discuss, move, perform, and listen to jazz music.**

- Students listen to portions of Ella Fitzgerald recordings of “Tisket, a Tasket” and “Old MacDoodle Had a Band.”
- Review with students the basic elements of jazz rhythms (accents, short vs. long, syncopation). Also review the various instruments used in jazz music.
- Listen for the jazz rhythms and instruments in the recording as you listen a second time.
- For grades 1 and 2, perform a small section of David Elliot’s arrangement of “Old MacDoodle Had a Band.”
- For PreK–K, perform “Old MacDonald Had a Farm” and switch the animals to instruments. Then, actually play the different instruments.

**Example:**

Old MacDonald had a band, e-i-e-i-o.  
And in his band he had a drum, e-i-e-i-o.  
With a (*tap, tap*) here and a (*tap, tap*) there.  
Here a (*tap*), there a (*tap*), everywhere a (*tap, tap*).  
Old MacDonald had a band, e-i-e-i-o.

- Students can also suggest instruments to sing and imitate, and then sing in a call-and-response format with teacher (teacher can add syncopation and accents as students improve).

**Suggested Assessment:**

- ◇ Students suggest appropriate jazz instruments.
- ◇ Students sing appropriate jazz style in call-and-response format.
- ◇ Students show rhythmic comprehension through correct singing and playing.

**Note:** Has been used successfully with grades 1 and 2, and can be adapted for PreK–K; also addresses Standard 1b.

#### References/Resources

- ♪ Use dramatization and creative movement to remember the titles of classical and jazz works.
- ♪ Use rhythmic speeches or simple songs to retain titles and composer names.

## Standard 4: Understanding the Cultural Dimensions and Contributions of the Arts

PreK–2

### Performance Indicator 4c

Identify the primary cultural, geographical, and historical settings for the music they listen to and perform.

#### Instructional Idea

**Students identify music that reflects specific geographic, historical, and cultural traditions.**

- Through singing and experiencing songs of diverse cultural backgrounds, students share geographic, historical, and cultural traditions.
- Students echo sing “Tongo” with their music teacher.
- Teacher shares the story of the fishing canoes and the Polynesian fishermen’s use of the song “Tongo” to hear the location of the other canoes (e.g., if the echo is loud, the canoe is close—watch out!).
- The canoe motions add an authentic feel to the rhythm and beat of the piece.
- Students can hold rhythm sticks to represent the paddles.
- Other students can wave scarves or large, sheet-size pieces of cloth to represent the water.

#### Suggested Assessment:

- ◇ Students describe their comprehension of the cultural context of “Tongo” through accurate movement, correct pronunciation, and verbal description.

**Note:** Has been used successfully with grade 2. Can be adapted to PreK–2.

*We Will Sing!*, Doreen Rao

#### Additional Instructional Ideas

- ♪ Use photographs, maps, drawings, and other media (Internet) to connect musical examples to diverse geographical and historical settings.
- ♪ Perform and listen to music indicative of various life celebrations from diverse cultures.

# Grades 3 – 4

## **Standard 1: Creating, Performing, and Participating**

Students will compose original music and perform music written by others. They will understand and use the basic elements of music in their performances and compositions. Students will engage in individual and group musical and music-related tasks, and will describe the various roles and means of creating, performing, recording, and producing music.

## **Standard 2: Knowing and Using Arts Materials and Resources**

Students will use traditional instruments, electronic instruments, and a variety of nontraditional sound sources to create and perform music. They will use various resources to expand their knowledge of listening experiences, performance opportunities, and/or information about music. Students will identify opportunities to contribute to their communities' music institutions, including those embedded in other institutions (church choirs, ensembles, etc.). Students will know the vocation and avocations available to them in music.

## **Standard 3: Responding to and Analyzing Works of Art**

Students will demonstrate the capacity to listen to and comment on music. They will relate their critical assertions about music to its aesthetic, structural, acoustic, and psychological qualities. Students will use concepts based on the structure of music's content and context to relate music to other broad areas of knowledge. They will use concepts from other disciplines to enhance their understanding of music.

## **Standard 4: Understanding the Cultural Dimensions and Contributions of the Arts**

Students will develop a performing and listening repertoire of music of various genres, styles, and cultures that represent the peoples of the world and their manifestations in the United States. Students will recognize the cultural features of a variety of musical compositions and performances and understand the functions of music within the culture.

# Grades 5 – 6

## **Standard 1: Creating, Performing, and Participating**

Students will compose original music and perform music written by others. They will understand and use the basic elements of music in their performances and compositions. Students will engage in individual and group musical and music-related tasks, and will describe the various roles and means of creating, performing, recording, and producing music.

## **Standard 2: Knowing and Using Arts Materials and Resources**

Students will use traditional instruments, electronic instruments, and a variety of nontraditional sound sources to create and perform music. They will use various resources to expand their knowledge of listening experiences, performance opportunities, and/or information about music. Students will identify opportunities to contribute to their communities' music institutions, including those embedded in other institutions (church choirs, ensembles, etc.). Students will know the vocation and avocations available to them in music.

## **Standard 3: Responding to and Analyzing Works of Art**

Students will demonstrate the capacity to listen to and comment on music. They will relate their critical assertions about music to its aesthetic, structural, acoustic, and psychological qualities. Students will use concepts based on the structure of music's content and context to relate music to other broad areas of knowledge. They will use concepts from other disciplines to enhance their understanding of music.

## **Standard 4: Understanding the Cultural Dimensions and Contributions of the Arts**

Students will develop a performing and listening repertoire of music of various genres, styles, and cultures that represent the peoples of the world and their manifestations in the United States. Students will recognize the cultural features of a variety of musical compositions and performances and understand the functions of music within the culture.

BEST COPY AVAILABLE

## Standard 1: Creating, Performing, and Participating

Grades 5–6

### Performance Indicator 1a

Compose simple pieces that reflect a knowledge of melodic, rhythmic, harmonic, timbral, and dynamic elements.

#### Instructional Idea

Students compose a simple melody; length (e.g., 2, 4, 8, 12 measures) is dependent on student ability.

(Band, Orchestra, General Music)

- Students write out the notes of a scale. These notes may be used in their melody.
- Time signature will be 3/4 or 4/4.
- Students must use at least three different rhythms.
- Melody must end on the first note of the selected scale (high or low).
- Music notation must be accurate. Teacher provides rules for music notation (teacher-generated sample sheet with examples of notes, stems, key signatures, etc.) and supplies other materials, such as staff paper and scale sheet.
- Each student performs his or her composition.

#### Suggested Assessment:

- ◊ Teacher uses score sheet/rubric, awarding points for proper execution of each of the above steps.

**Note:** Also addresses Standards and 1c.

#### References/Resources

*Activities in Musical Composition*, Carole M. Swope

*Music Connection, Grade 5*, Silver Burdett

#### Additional Instructional Ideas

- ♪ Demonstrate understanding of time signature and appropriate rhythms by composing simple rhythmic or sound compositions.
- ♪ Compose a melody for an age-appropriate poem, using standard notation.
- ♪ Create a simple melody over a melodic or rhythmic ostinato.

## Standard 1: Creating, Performing, and Participating

Grades 5–6

### Performance Indicator 1b

Sing and/or play, alone and in combination with other voice or instrument parts, a varied repertoire of folk, art, and contemporary songs, from notation, with a good tone, pitch, duration, and loudness.

#### Instructional Idea

**Students perform an unfamiliar melody from notation.**

(Band, Chorus, Orchestra)

- Students are given a level-appropriate eight bar melody suitable for their instrument or voice.
- Students make “mental notes” as the teacher, using guided questioning, draws attention to key signature and time signature.
- Students play the scale (or sing, using solfège) to establish tonality and familiarity with accidentals.
- Given the desired tempo of the piece, students may be directed to audiate (and/or finger or bow) challenging rhythmic or melodic spots.
- After a specified period of time, the student performs the piece, executing accurate notes, rhythms, articulation, and dynamics.
- Parts may be enhanced or simplified on the basis of student ability and/or needs.

#### Suggested Assessment:

- ◊ Teacher develops checklist/rubric with points designated for various levels of accuracy of notes, rhythms, articulation, and dynamics. (See resources for sample performance event assessments.)

**Note:** To adapt for classroom music, use an Orff orchestration. Also addresses Standard 3c.

#### References/Resources

#### Additional Instructional Ideas

- ♪ Perform a round or canon, using accurate notes, rhythms, articulation, and dynamics.
- ♪ Understand how to use a fingering chart and how to look up unfamiliar notes; apply the understanding to new music.
- ♪ Demonstrate good tone individually and in a group, using proper breathing, posture, and vowel production.
- ♪ Sing or play an ostinato as an accompaniment.
- ♪ Select appropriate classroom instruments and use them to accompany songs of various styles and genres.

## Standard 1: Creating, Performing, and Participating

Grades 5–6

### Performance Indicator 1c

Improvise short musical compositions that exhibit cohesiveness and musical expression.

#### Instructional Idea

Students improvise a four measure melody.

(Band, Chorus, Orchestra)

- Student selects and plays a major scale. Using familiar songs such as “Row, Row, Row Your Boat” and “Twinkle, Twinkle Little Star,” student identifies the use of scale steps one and five to establish tonality.
- Attention is drawn to ending the melody on scale step one.
- Teacher plays short melodic patterns or phrases to help students generate their own phrases. Similarly, rhythmic patterns are generated to help students stay within the four measures.

Variations:

- Teacher uses a pentatonic scale.
- Teacher sequences a simple ostinato pattern. Students take turns improvising over the ostinato (pentatonic, major, minor).
- Teacher sequences a four measure chord progression and plays a model melodic pattern or phrase. Improvisations may be as basic as rhythmic pattern on roots.
- Teacher records or sequences a four measure drum part over which a student improvises melody as above.

#### Suggested Assessment:

- ◊ Teacher designates the key. Student improvises a four measure melody.

Assessment/rubric may be based on the following criteria:

- Student uses the notes of the scale.
- Melody ends on first scale step (high or low).
- Melody is four measures long.
- Melody has four beats per measure.

**Note:** Also addresses Standards 1a, 1e, and 3a.

#### References/Resources

#### Additional Instructional Ideas

- ♪ Improvise two measure call-and-response patterns.
- ♪ Improvise a pentatonic melody four measures long.
- ♪ Improvise a B section to contrast with an A section, creating a simple ABA piece.
- ♪ All students play or sing A; groups or individuals improvise sections B, C, etc., alternating with A to create a rondo.

## Standard 1: Creating, Performing, and Participating

Grades 5–6

### Performance Indicator 1d

In performing ensembles, read moderately easy/moderately difficult music (NYSSMA level III-IV) and respond appropriately to the gestures of the conductor.

#### Instructional Idea

**Students understand and respond appropriately to the gestures and interpretation communicated by the conductor.**

(Band, Chorus, Orchestra)

- Students perform an appropriate chorale for warm-up.
  - Students disregard any expressive markings in the printed music.
  - Conductor makes many variations in tempo, dynamics, and style.
  - Students respond solely to gestures of conductor.
  - Chorale is repeated two or three times as conductor varies tempo, style, and dynamics.

Choral Adaptation:

- Teacher introduces a new piece of music, such as “Where Go the Boats.”
- Students determine the key and solfège syllables of the first section.
- They review as a group and mark it in their scores or on overhead.
- When given the key tonality and starting pitch, students sight-sing, using the solfège syllables. (This may be done in short segments over the course of several rehearsals.)
- Add text, phrasing, vowel formation.

**Suggested Assessment:**

- ◊ Teacher adapts NYSSMA major sheet for assessment purposes.

**Note:** Also addresses Standards 1b and 3c.

#### References/Resources

- ♪ Learn a new piece of choral music by sight-reading on solfège syllables.
- ♪ Read appropriate warm-up chorales for band or orchestra.
- ♪ Use student conductors to direct the ensemble.

BEST COPY AVAILABLE

53

## Standard 1: Creating, Performing, and Participating

Grades 5–6

### Performance Indicator 1e

Identify and use, in individual and group experiences, some of the roles, processes, and actions for performing and composing music of their own and others, and discuss ways to improve them.

#### Instructional Idea

**Students experience different roles in a small ensemble.**

(Band, Orchestra, General Music)

- Teacher introduces a level-appropriate chamber piece or rhythm composition score and assists students in learning their individual parts.
- Through guided questioning, students identify the roles that may be used in small ensemble performance.
- Students enact the roles (setting tempo, beginning piece, etc.) as they practice the piece and suggest strategies for improvement.
- Students videotape final performance.
- To adapt for students with special needs, parts may be highlighted or enlarged for easier reading.

#### Suggested Assessment:

- ◇ Teacher creates a checklist, set of multiple choice questions, or rubric addressing the proper execution of identified roles.
- ◇ Students select one of the many diverse roles associated with a professional orchestra and write an essay that includes discussion of educational background or training necessary for the role, obstacles and attributes of the role, and projection of the role's future.
- ◇ Students create a chart that identifies the many roles and functions of the individuals involved in the presentation of a concert. Chart may include: composer, performer, conductor, publisher, music librarian, soloist, stage manager, personnel manager, concertmaster, principal chairs, public relations personnel, sound engineer, recording engineer, general manager, administrators, music critic, instrument repair person, piano tuner, etc.

**Note:** Also addresses Standards 1b and 3c.

#### References/Resources

#### Additional Instructional Ideas

- ♪ Experience reading and performing a part in a small ensemble score.
- ♪ Perform in small chamber ensembles without the aid of the teacher/conductor.
- ♪ Critique music of one's own or of others, and offer suggestions.

## Standard 2: Knowing and Using Arts Materials and Resources

Grades 5–6

### Performance Indicator 2a

Use traditional or nontraditional sound sources, including electronic ones, in composing and performing simple pieces.

#### Instructional Idea

Students explore the timbres of instruments.

(General Music)

- Teacher introduces class to “Spring Song,” a four part round. Each phrase is taught, and then phrases are combined. Teacher divides the class into two or more groups.
- Once they are secure with the song, teacher introduces a simple chordal bordun on xylophones, metallaphones, electronic keyboards, or other available instruments.
- The accompaniment is combined with the round for performance.
- Students audiotape the performance.
- Teacher or students select a descriptive story or poem. Action words are identified and replaced with musical sounds, traditional and/or nontraditional, modeled by the teacher. Students create their own improvised sound for the word(s). The story is reread with the musical expression played after each word. The story is reread again with the musical expression played in place of the selected word(s).

#### Suggested Assessment:

- ◇ Teacher uses rubric reflecting the:
  - Selection and use of instruments to enhance the song, story, or word.
  - Appropriateness of musical expression or accompaniment.
  - Performance accuracy.
- ◇ Teacher uses observational checklist:
  - + Plays accurately with steady beat.
  - √ Either plays accurately or maintains a steady beat.
  - Unable to play accurately or maintain a steady beat.

**Note:** Also addresses Standards 1a, 1c, 2c, and 3a.

#### Additional Instructional Ideas

- ♪ Explore the timbres of traditional and/or nontraditional instruments to accompany songs.
- ♪ Explore and use sound sources to create or play sound or percussion pieces.
- ♪ Make judgments about appropriate or effective timbres by experimenting with accompaniments.

## Standard 2: Knowing and Using Arts Materials and Resources

Grades 5–6

### Performance Indicator 2b

Use school and community resources to develop information on music and musicians.

#### Instructional Idea

Students learn from, and interact/perform with, other musicians in the school and community.

(Band, Chorus, Orchestra)

- Teacher establishes student-to-student mentors for:
  - Practicing with buddies (before or after school once a week).
  - Rehearsing side-by-side.
  - Performing in chamber ensembles together.
  - Learning new styles of music such as jazz/improvisation.
  - Improving county solo audition practice.
  - Developing recruitment and retention programs.
- Fifth- and sixth-grade students can be paired to work with high school students as mentees or with younger students as mentors.
- Additional community resources include: Arts in Education programs, cultural institutions or organizations, staff members in your own school.

#### Suggested Assessment:

- ◇ Students perform at a school concert or other function (PTA or BOE meeting, etc.). (Performance may be joint or solo.)
- ◇ Students prepare a written reflection on the positive aspects or results of the mentorship, including suggestions for improving the mentorship.

**Note:** Also addresses Standards 1b and 1e.

- ♪ Videotape a local artist to introduce and understand new literature and performance style.
- ♪ Participate in a community-based choral/instrumental festival.
- ♪ Participate in an exchange concert with a similar ensemble in another school or system.

## Standard 2: Knowing and Using Arts Materials and Resources

Grades 5–6

### Performance Indicator 2c

Use current technology to create, produce, and record/playback music.

#### Instructional Idea

**Students use computer and/or synthesizer to create a 12 bar blues.**  
(Band, Chorus, Orchestra, General Music)

- Students improvise a melody over a prerecorded 12 bar blues progression.
- Depending on ability level and available equipment, students input or record (sequence or tape recording) a 12 bar blues progression.
- Students are given several notes (based on ability level) to use for the melody.
- Students practice and perform audiotaping, videotaping, or sequencing final melody.

#### Suggested Assessment:

- ◊ Teacher develops checklist for use in future assessments to determine if guidelines were met. Examples of checklist items include:
  - Were selected notes used?
  - Was the correct number of phrases used?
  - Was technology used properly?

**Note:** Also addresses Standards 1a and 1c.

## Standard 2: Knowing and Using Arts Materials and Resources

Grades 5–6

### Performance Indicator 2d

Identify a community-based musical interest or role and explain the skills, knowledge, and resources necessary to pursue the interest or adopt the role.

#### Instructional Idea

**Students explore music-related careers in their community.**

(Band, Chorus, Orchestra, General Music)

- Students invite a parent or community member who is involved in music to school (local radio personality, orchestra member, music minister, software designer, etc.). If the person is unavailable, they watch a video- or audiotape of an interview.
- Interview should address the following areas: personal qualifications, required knowledge or skill, recommended precollege education, recommended college education or training, other helpful experience or interests, future outlook of the career, and audition/interview process.

#### Suggested Assessment:

- ◊ Students present their information to the class (in ensembles, perhaps one every few days or week). A rubric or checklist may be used.

**Note:** To adapt for classroom music, students design a poster about another music-related career. Poster must include information about the career and may be decorated with magazine clippings or drawings. With access to the Internet, students can get ideas from *Careers in Music* on the MENC website. Also addresses Standards 2b and 2f.

#### References/Resources

Resources: Local musicians, songwriters, TV and/or radio personalities, orchestra members, etc.

"A Day in the Life of..."

#### Additional Instructional Ideas

- ♪ Explore music-related careers in the community by contacting local arts organizations.
- ♪ Develop an awareness of music-related fields by perusing music and media college websites.
- ♪ Use the Internet to access information on music-related careers.
- ♪ Develop an awareness of music in everyday life by keeping a journal of all music heard over a specified period of time.
- ♪ Research the local community-based children's chorus or youth orchestra and attend their concert.

## Standard 2: Knowing and Using Arts Materials and Resources

Grades 5–6

### Performance Indicator 2e

Demonstrate appropriate listening and other participatory responses to music of a variety of genres and cultures.

#### Instructional Idea

Students respond appropriately to music of various styles and cultures.

(Band, Chorus, Orchestra, General Music)

- A recording of a musical selection or excerpt is played. As students listen, they “think” the answer to questions such as: What ensemble or soloist do I hear? Are the sounds traditional or nontraditional? Is this music formal or informal? Is this music old or new? Where would this music be performed—concert hall, stage?
- Teacher asks what audience participation is appropriate for different kinds of music (e.g., Would you clap after hearing a jazz soloist? Would you remain quiet after hearing concert hall music?).

#### Suggested Assessment:

- ◇ Given three musical settings, students write a short constructed response explaining appropriate concert etiquette for each setting.

#### References/Resources

Concert etiquette guides published by local performing arts organizations

#### Additional Instructional Ideas

- ♪ Attend jazz concert given by local high school jazz band.
- ♪ Learn appropriate concert manners through discussion and participation in school and community concerts.
- ♪ Learn the dance steps and drumming patterns to music of different cultures.
- ♪ Compare and contrast the appropriate participatory responses to the same piece of music performed in different settings.

### Performance Indicator 2f

Investigate some career options related to their musical interests.

#### Instructional Idea

Students explore music-related careers. Teachers modify activity depending on resources available (e.g., one computer vs. computer lab, etc.).

(Band, Chorus, Orchestra, General Music)

- Using the New York Philharmonic Kidzone site, nyphilkids.org, students list as many jobs related to the New York Philharmonic as possible. If only one computer is available, teacher navigates through “Musicians’ Lounge,” “Composer’s Gallery,” “Instrument Storage Room,” etc. as students list the music-related jobs.

#### Suggested Assessment:

- ◇ Students write a short constructed response explaining three music-related careers.
- ◇ Students select one interesting music-related career and describe the characteristics that a person needs to be successful in that career.

#### References/Resources

Computer(s)  
Projection device if available

#### Additional Instructional Ideas

- ♪ Visit local recording studio.
- ♪ Interview a local music critic or composer.
- ♪ Commission an area composer (colleague, fellow teacher, talented student) to write a piece for your chorus.

59

## Standard 3: Responding to and Analyzing Works of Art Grades 5–6

### Performance Indicator 3a

Through listening, analyze and evaluate their own and others' performances, improvisations, and compositions by identifying and comparing them with similar works and events.

#### Instructional Idea

**Students listen and evaluate performances of professional ensembles as well as their own performances.**

(Band, Chorus, Orchestra)

- Students listen to a professional recording of one of their ensemble pieces.
- As they listen, students “finger,” “shadow bow,” or audiate their part.
- Students discuss musical elements they heard such as balance, blend, intonation, articulation, and dynamics.
- The ensemble then practices the piece and addresses the areas that need improvement.
- Students record the piece.

#### Suggested Assessment:

- ◊ Students listen to their ensemble recording and identify two areas needing improvement in their performance.
- ◊ Using NYSSMA Major Organization Evaluation sheets as a guide, teacher creates an evaluation form that focuses on one or two concepts. In written form students, individually or in small groups, complete and review the evaluations.

**Note:** Also addresses Standard 3b.

#### References/Resources

Any level-appropriate band piece that includes a recording such as “Imperium” by Michael Sweeney

“William Tell Overture,”  
*Essential Elements for Strings, Book I*  
“America, the Beautiful,”  
*Essential Elements for Strings, Book II*

Choral recording such as Toronto Children’s Chorus, Robert Shaw Chorale

*Assessment in Classroom Music, NYSSMA*

*Teaching Music Through Performance in Beginning Band, Robert Miles*

*Teaching Music Through Performance in Band, Robert Miles*

*Teaching Music Through Performance in Orchestra, David Littrell*

#### Additional Instructional Ideas

- ♪ Use appropriate music terminology to evaluate performance.
- ♪ Listen and analyze examples of a particular style.
- ♪ Develop a vocabulary to use in critiquing the music that students hear or compose.
- ♪ Compare and contrast musical examples of different styles or periods.
- ♪ Listen to and compare a variety of compositions on the basis of a single literary work, event, or idea.

## Standard 3: Responding to and Analyzing Works of Art Grades 5–6

### Performance Indicator 3b

Use appropriate terms to reflect a working knowledge of the musical elements.

#### Instructional Idea

**Students listen to a recording of their own ensemble performance and evaluate, using musical terms.**

(Band, Chorus, Orchestra, General Music)

- Teacher provides a list of the NYSSMA major organization evaluation grading categories.
- Through class discussion, guided questioning, and musical examples, students define the selected items.
- Students listen to a recording of their band, orchestra, or chorus.
- On a 3x5 card, students describe the performance, using basic music terminology from the NYSSMA rating sheets.
- For each piece, they list two positive musical qualities that they hear and suggest two ways that each piece may be improved.

#### Suggested Assessment:

- ◇ 3x5 cards are collected and rated according to the teacher's criteria or rubric.
- ◇ Teacher adapts Critical Listening Rubric or Learning Experience (see appendices).

**Note:** To adapt for classroom music, use any age-appropriate listening selection such as "In the Hall of the Mountain King." Describe the piece, using accurate and descriptive musical vocabulary. Also addresses Standards 1e, 2e, 3a, and 3f.

#### References/Resources

NYSSMA major organization evaluation form

*Arts Assessment Test Sampler*, New York State Education Department

Learning Experience, NYSATL (see page 133 of this guide or [www.nysatl.nysed.gov](http://www.nysatl.nysed.gov))

#### Additional Instructional Ideas

- ♪ Students demonstrate an understanding of music terminology by using it in classroom discussion and/or writing.
- ♪ Use appropriate music terminology to compare and contrast performances of the same or different pieces.
- ♪ Use knowledge of musical terms and vocabulary when listening to music.
- ♪ Critique a musical performance, using a prescribed set of musical terms and/or elements.

## Standard 3: Responding to and Analyzing Works of Art Grades 5–6

### Performance Indicator 3c

Demonstrate a basic awareness of the technical skills musicians must develop to produce an aesthetically acceptable performance.

#### Instructional Idea

**Students use proper posture to enhance performance and to improve tone, intonation, and performance technique.**  
(Band, Chorus, Orchestra)

- Students practice different techniques to improve posture and tone such as:
  - Stand with legs slightly touching the back of chair. Then sit as if balancing a cup of water on head.
  - Keep head and upper torso straight, as in walking.
  - Look forward.
  - Elbows should not rest on lap.
  - Feet should rest on floor.
- Videotape a performance.

#### Suggested Assessment:

- ◊ Teacher- or student-generated checklist of desired posture and performance categories is used. After a lesson or videotaped performance, students and/or teachers evaluate each category using the following scale:
  - 4 –consistently demonstrates
  - 3 –often demonstrates
  - 2 –sometimes demonstrates
  - 1 –rarely or never demonstrates
- ◊ NYSSMA's *Assessment in Classroom Music* rubric and checklist, pp. 94–99, may be used.

**Note:** Also addresses Standards 1b and 3e.

### Additional Instructional Ideas

- ♪ Create a musical diary recognizing the use of music in everyday life.
- ♪ Recognize the use of music in ceremonies (Bar/Bat Mitzvah, wedding, etc.), media, and public places.
- ♪ Learn a variety of patriotic songs and understand their historical significance.
- ♪ Analyze the significance and impact of music during war.

## Standard 3: Responding to and Analyzing Works of Art      Grades 5–6

### Performance Indicator 3e

Use basic scientific concepts to explain how music-related sound is produced, transmitted through air, and perceived.

#### Instructional Idea

**Students develop an understanding of sound production as it pertains to instruments and voices.**

(Orchestra, Chorus)

In Orchestra:

- Student plucks a string on any instrument and observes the vibration.
- Teacher draws attention to the width differences in the higher and lower pitched strings.
- Students can listen to the carrying quality (distance the sound travels) and observe the vibration of each frequency on a strobe.
- Teacher explains oscillation and the art of tone production involving bow weight, speed and placement of bow, and vibration of the wood.

In Chorus:

- Singers sing and sustain C' on a U vowel, staggering breathing.
- Students *mentally* send their tone to one spot in the room (they select individually).
- They repeat the process three times, sending the tone to three different spots in the room and listening for the changes in sound.
- Students send their tone to all three spots at the same time, again listening for the changes in acoustics.

#### Suggested Assessment:

- ◇ Teacher audiotapes a piece or song. Students listen to it and rate themselves in categories (e.g., clarity of tone, projection of tone) by answering questions such as the following: Did I play or sing with a projected tone:
  - Throughout the entire piece?
  - Throughout most of the piece?
  - Through very little of the piece?
- ◇ Teacher audiotapes the above vocal exercise and has students listen to the tape when they are not singing. Can they hear the difference in the sound?
- ◇ Teacher tapes a song in rehearsal. As students listen to playback, they rate themselves on each section. For example:  
We sang with focused tone:
  - 4 – Always
  - 3 – Most of the time
  - 2 – Some of the time
  - 1 – Never

**Note:** Also addresses Standards 1b, 1d, 2c, 3a, and 3c.

#### Additional Instructional Ideas

- ♪ Observe vibration to create musical tone and pitch.
- ♪ Explore aspects that affect tone quality in voices and instruments.
- ♪ Use voices to experiment with a room's acoustics.
- ♪ Create simple instruments to explore sound production and projection.

## Standard 3: Responding to and Analyzing Works of Art Grades 5–6

### Performance Indicator 3f

Use terminology from music and other arts to analyze and compare the structures of musical and other artistic and literary works.

#### Instructional Idea

**Students analyze and compare various forms in music and related arts.**

(Band, Chorus, Orchestra, General Music)

- Students compare two Impressionistic (or any other period of choice) works—one of music and one of visual art.
- The comparison discussion should include: form, timbre (color), harmony, and style.
- A graphic organizer may be used to document the similarities and differences between the two works of art.

#### Suggested Assessment:

- ◊ Students generate a list of the similarities and differences between two new works, or write a short essay. See scoring ideas in resources.
- ◊ Students listen to a new selection of music from the period explored, and they analyze a new art work.
- ◊ Students listen to and examine a musical piece. Given two or three works of art, students explain which work they believe most appropriately “matches” the musical example.

**Note:** Also addresses Standards 3a and 3b.

#### References/Resources

#### Additional Instructional Ideas

- ♪ Listen to theme and variations and recognize similar form in the visual arts.
- ♪ Compare the architectural symmetry of the Parthenon to the form of classical music.
- ♪ Compose a simple sound composition to “accompany” a modern painting or sculpture.

## Standard 4: Understanding the Cultural Dimensions and Contributions of the Arts Grades 5–6

### Performance Indicator 4a

Identify the cultural contexts of a performance or recording and perform (with movement, where culturally appropriate) a varied repertoire of folk, art, and contemporary selections from the basic cultures that represent the peoples of the world.

#### Instructional Idea

**Students explore different cultures through singing, dancing, and playing instruments.**

(Chorus, General Music)

- Students learn lyrics and melody of "African Gahu," arranged by Kathy Armstrong.
- Students learn percussion parts on congas, gongkogi, ahatches, or any available percussion instruments.
- Students learn dance movements in cooperation with dance teacher, if applicable.
- After all parts are learned, divide the chorus/class into groups and assign parts for performance.
- In cooperation with the art teacher, students may hand paint fabric to wear as ceremonial costumes for performance or to use in decorating drums.
- Performance is videotaped or recorded.

#### Suggested Assessment:

- ◊ Students view video- or audiotape and self-assess, using a teacher-developed checklist of culturally appropriate characteristics.

**Note:** Also addresses Standards 1b, 2a, 2c, and 4d.

#### References/Resources

*The Planet Musician*, Julie  
Lyonn Lieberman

#### Additional Instructional Ideas

- ♪ Sing in various languages.
- ♪ Perform a varied repertoire of world music.
- ♪ Identify stylistic characteristics in music of various cultures and periods.
- ♪ Imitate rhythmic and/or melodic elements of various styles and world cultures.
- ♪ Accompany music of various cultures with appropriate instruments and/or movement.

## Standard 4: Understanding the Cultural Dimensions and Contributions of the Arts Grades 5–6

### Performance Indicator 4b

Identify from a performance or recording the titles and composers of well-known examples of classical concert music and blues/jazz selections.

#### Instructional Idea

**Recognize and respond to various types and styles of music.**  
(Band, Chorus, Orchestra, General Music)

Listening Log:

- At the beginning of each class, students enter the room as a selected piece (or excerpt) of music is being played.
- Students document the date, title, composer, and category of the piece being played in their listening log folder.
- Selection should be between three and four minutes in length and can be related to another aspect of the lesson, a composer's birth or death, a particular period of music, etc. Specific information can be listed on the board or computer monitor.
- After selection is finished, teacher asks specific questions related to the piece, including questions about the instruments or voices, style, and period. Share any pertinent information on composer's life.
- Students write a complete sentence about the music in the log.

#### Suggested Assessment:

- ◊ Students maintain the listening log and use it to answer a brief selected response quiz.
- ◊ Students use the listening experiences and written information from the log to deduce the style, period, or composer of a new piece.

**Note:** Also addresses Standards 2e, 3a, 3b, and 3d.

#### References/Resources

Most music textbook series such as *World of Music*

*Rockin' Out with Blues Fiddle*, Julie Lyonn Lieberman

*Jazz Philharmonic*, Randy Sabien and Bob Phillips

#### Additional Instructional Ideas

- ♪ Aurally identify the instruments or ensembles.
- ♪ Become familiar with the style and works of a particular composer or performer (e.g., John Coltrane).
- ♪ Recognize the elements of a particular genre or style.
- ♪ Study various composers or artists and their famous works.

## Standard 4: Understanding the Cultural Dimensions and Contributions of the Arts      Grades 5–6

### Performance Indicator 4c

Discuss the current and past cultural, social, and political uses for the music they listen to and perform.

#### Instructional Idea

Students explore the many uses of music in society and culture today and in the past.

(Chorus, General Music)

- Students learn a spiritual such as “Ezekiel Saw the Wheel.” They discuss encrypted messages that may be hidden in the lyrics and the role of lyrics in the escape of slaves along the underground railroad.
- Students learn a work song such as “I’ve Been Working on the Railroad.” Through teacher-directed questions, they discuss the importance of work songs in our history and what their lyrics reveal about the life and times of our ancestors.

#### Suggested Assessment:

- ◇ Students compose a simple campaign song for use in school elections.
- ◇ Students compose (individually or in cooperative groups) a simple four phrase song related to a particular time or event such as the gold rush. This activity may be carried out in conjunction with a social studies unit.
- ◇ Students are given an unfamiliar spiritual. In groups or individually, they decode the encrypted message and learn the song.

**Note:** Also addresses Standards 1b, 2e, 3a, 3d, 4a, and 4d.

#### Additional Instructional Ideas

- ♪ Discuss the cultural, social, and political aspects of spirituals, particularly as related to the underground railroad.
- ♪ Listen to war songs for cultural, social, and political implications.
- ♪ Sing spirituals and/or war songs.
- ♪ Recognize the political aspects of songs utilized in political campaigns.
- ♪ Discuss the cultural, social, and political aspects of ceremonial music.
- ♪ Identify the cultural and social aspects of folk music prior to the age of radio and television.

## Standard 4: Understanding the Cultural Dimensions and Contributions of the Arts Grades 5–6

### Performance Indicator 4d

In performing ensembles, read and perform repertoire in a culturally authentic manner.

#### Instructional Idea

Students identify the techniques used in different styles and cultures and apply them to their music.

(Band, Chorus, Orchestra)

- Student learns to play (sing) a selected cultural tune.
- Teacher or visiting artist performs the piece (in absence of a performer, an authentic recording is used).
- Through guided questioning, students describe the special techniques used to perform the tune authentically (e.g., shuffle, grace notes, sliding, chunking, col legno, improvisation, jazz or swing style, calypso, theme and variation doodling, reinterpretation of printed notes such as dotted rhythms for eighth notes, delayed note playing, tags, drone).
- Students imitate and practice the special techniques identified and discussed.
- Pieces may be performed at an ethnic festival or interdisciplinary celebration or concert.
- Videotape the performance or practice to evaluate progress.

#### Suggested Assessment:

- ◇ Students use the videotape to compare their performance to that of the professional. An individual reflection or rubric may be used to measure the technique. Through teacher-guided questioning, students answer questions about their performance. For example:  
Did we swing the eighth notes:
  - Throughout the entire performance?
  - Throughout most of the performance?
  - Through very little of the performance?

See resources for teacher-developed rubric ideas.

- ♪ Listen, sing, or play a varied repertoire of music from world cultures.
- ♪ Study other cultures for authentic performance practice.
- ♪ Identify cultural music by the special techniques or style used and demonstrated on an instrument or voice.

# Grades 7 – 8

## **Standard 1: Creating, Performing, and Participating**

Students will compose original music and perform music written by others. They will understand and use the basic elements of music in their performances and compositions. Students will engage in individual and group musical and music-related tasks, and will describe the various roles and means of creating, performing, recording, and producing music.

## **Standard 2: Knowing and Using Arts Materials and Resources**

Students will use traditional instruments, electronic instruments, and a variety of nontraditional sound sources to create and perform music. They will use various resources to expand their knowledge of listening experiences, performance opportunities, and/or information about music. Students will identify opportunities to contribute to their communities' music institutions, including those embedded in other institutions (church choirs, ensembles, etc.). Students will know the vocation and avocations available to them in music.

## **Standard 3: Responding to and Analyzing Works of Art**

Students will demonstrate the capacity to listen to and comment on music. They will relate their critical assertions about music to its aesthetic, structural, acoustic, and psychological qualities. Students will use concepts based on the structure of music's content and context to relate music to other broad areas of knowledge. They will use concepts from other disciplines to enhance their understanding of music.

## **Standard 4: Understanding the Cultural Dimensions and Contributions of the Arts**

Students will develop a performing and listening repertoire of music of various genres, styles, and cultures that represent the peoples of the world and their manifestations in the United States. Students will recognize the cultural features of a variety of musical compositions and performances and understand the functions of music within the culture.

### Additional Instructional Ideas

- ♪ Perform (where appropriate) string ensembles, brass ensembles, woodwind ensembles, and harp ensembles from traditional and nontraditional notation.
- ♪ Use published song collections to sing/play a variety of compositions.
- ♪ Use folk instruments to accompany songs (dulcimer, autoharp, Orff instruments, etc.).
- ♪ Notate and perform original compositions, using traditional and nontraditional notations.
- ♪ Combine performing groups of various levels in concert.
- ♪ Perform fiddle music for violin, mandolin, and banjo players.
- ♪ Combine string or wind ensembles with percussion.

73

## Standard 1: Creating, Performing, and Participating

Grades 7–8

### Performance Indicator 1c

Improvise short musical compositions that exhibit cohesiveness and musical expression.

#### Instructional Idea

**Students improvise over the 12 bar blues chord progression.**  
(Band, Chorus, Orchestra, General Music)

- Students listen to 12 bar blues recordings (e.g., "Kansas City").
- Students move/clap to show chord changes and form of 12 bar blues.
- Students speak blues lyrics over 12 bar blues.
- Students echo short rhythm pattern, using instruments, body percussion, or scat syllables.
- Students improvise a one measure response to a rhythm pattern simultaneously and individually.
- Students improvise a one measure melody, using two different pitches; echo each other's patterns.
- Students echo a one to four measure teacher improvisation, using stepwise blues-scale notes.
- Students improvise a one to four measure response to a teacher pattern simultaneously and individually.
- Students play/sing the blues scale, altering the rhythm.
- Students perform 12 bar blues as a class; each student improvises 4 to 12 measures.

#### Suggested Assessment:

- ◊ Students make positive verbal comments on each other's improvisations.
- ◊ Students write self-reflection on overall activity.
- ◊ Teacher provides educational support to students with special needs by supplying them with teacher-made checklist.
- ◊ Teacher records improvisation session and assesses basic criteria: beat, form, cohesiveness, use of notes of blues scale.

**Note:** Also addresses Standards 1e and 4b.

### Performance Indicator 3d

Use appropriate terms to reflect a working knowledge of social-musical functions and uses (appropriate choices of music for common ceremonies and other events).

#### Instructional Idea

#### References/Resources

**Students compile a list of venues for music and compare appropriate choices of music for each.**

(Band, Chorus, Orchestra, General Music)

- Working in small groups, students brainstorm a list of musical venues.
- Teacher assigns a leader and a recorder for each of the groups.
- Teacher poses the question, How many occasions or places can you list in which music plays a role? Answers might include weddings, commercials, elevators, restaurants, toys, video games, stores.
- After brainstorming, students share ideas and categorize items by common factors or usage (e.g., entertainment, ceremonial, dancing).
- Students describe which style of music is appropriate/inappropriate for each.
- Students identify how styles may differ within each category.
- Students keep a log of venues where they hear music for one week.

**Additional activities:**

- Teacher plays a sampling of various styles of music and has students choose items from the venues list that match that piece.
- Students keep a running log of venues where they hear music.
- Teacher and students discuss future career options that might involve selecting appropriate music.
- Class discusses psychological effects of music by discussing how music would influence various school settings.

**Suggested Assessment:**

- ◊ After one week, teacher collects log of venues.
- ◊ Logs are evaluated using a teacher-developed rubric, measuring items such as style, purpose, appropriateness, etc.

**Note:** Also addresses Standards 2d, 2e, and 2f.

#### Additional Instructional Ideas

#### Additional Instructional Ideas

- ♪ Experiment with the variety of tone production techniques possible on instruments.
- ♪ Experiment with different types of vocal production (nasal, hooty, throaty, tight, relaxed).
- ♪ Demonstrate and compare the tone production of their instrument to that of an instrument in a different family.
- ♪ Find toys that will produce different pitches.

## Standard 3: Responding to and Analyzing Works of Art

Grades 7–8

### Performance Indicator 3f

Use terminology from music and other arts to analyze and compare the structures of musical and other artistic and literary works.

Instructional Idea	References/Resources
<p><b>Students demonstrate an understanding of form as it applies to music, architecture, and visual arts.</b> (Band, Chorus, Orchestra, General Music)</p> <ul style="list-style-type: none"><li>• Teacher identifies form in music, architecture, and visual arts.</li><li>• Teacher teaches or reviews selections that demonstrate simple musical forms. Teacher discusses the concepts of repetition and contrast, and teaches the names for the patterns of repetition and contrast:<ul style="list-style-type: none"><li>– strophic or verse - AA</li><li>– binary - AB</li><li>– ternary - ABA</li></ul></li><li>• Teacher shows pictures of famous structures that replicate those forms (United States Capitol, Washington - ternary; Sydney Opera House - strophic; UN headquarters, NYC - binary). Students identify selections in their repertoire that have similar forms.</li><li>• Teacher shows photographs or prints of art that illustrate these forms. Students identify songs with similar forms.</li></ul> <p><b>Suggested Assessment:</b></p> <ul style="list-style-type: none"><li>◇ Students photograph or sketch a building, or create a piece of art that demonstrates one of the forms taught, and they match it with a known musical selection of the same form. Students can identify strophic, binary, and ternary forms in musical selections, architectural structures, and visual arts.</li></ul> <p><b>Note:</b> Also addresses Standard 3b.</p>	<p><i>Strategies for Teaching Elementary and Middle-Level Chorus</i>, MENC</p> <p>Musical examples: “Great Gate of Kiev” from <i>Pictures at an Exhibition</i>, Mussorgski</p> <p><i>Erkönig, Op. 1</i>, Schubert</p> <p>“Scottish Songs of Robert Burns,” arr. by John Loesberg</p> <p>Architectural pictures or photographs</p> <p>Art prints or photographs</p>

### Additional Instructional Ideas

- ♪ Compare the function of Baroque ornamentation in music and architecture.
- ♪ Compare the structure of a poem to the structure of a piece of music based on that poem; e.g., compare Shakespeare’s *Romeo and Juliet* and Bernstein’s *Romeo and Juliet*.

## Standard 4: Understanding the Cultural Dimensions and Contributions of the Arts

Grades 7–8

### Performance Indicator 4a

Identify the cultural contexts of a performance or recording and perform (with movement, where culturally appropriate) a varied repertoire of folk, art, and contemporary selections from the basic cultures that represent the peoples of the world.

#### Instructional Idea

**Students listen to music from various cultures and research/explore historical and cultural influences.**

(Band, Chorus, Orchestra, General Music)

- Teacher and/or students select a culture to explore.
- Teacher and/or students find resources that have music examples and information on the culture chosen.
- As a musical example of the culture is playing, students are divided into five groups to examine the following:
  - Geographic information – What country? Location? Size? Uniqueness?
  - Cultures – What are some of the features that define this culture? Is this culture found in other places? What are some of the musical traditions of this culture?
  - Function of music – What function does the listening example have within the culture? Is there anything comparable in our culture? When and where was this example performed? What are the musical characteristics?
  - Instruments – What instruments are used? Which are unique to the culture?
  - Historical elements – What are the historical influences? What is the history of the listening example?
- Take notes and share information with the class.

#### Suggested Assessment:

- ◊ Students write one or two complete sentences about each of the attributes of the culture presented. (For an alternative assessment, teacher dictates the sentences.)

**Note:** Also addresses Standards 2b, 2e, and 3d.

# Commencement – General Education

## **Standard 1: Creating, Performing, and Participating**

Students will compose original music and perform music written by others. They will understand and use the basic elements of music in their performances and compositions. Students will engage in individual and group musical and music-related tasks, and will describe the various roles and means of creating, performing, recording, and producing music.

## **Standard 2: Knowing and Using Arts Materials and Resources**

Students will use traditional instruments, electronic instruments, and a variety of nontraditional sound sources to create and perform music. They will use various resources to expand their knowledge of listening experiences, performance opportunities, and/or information about music. Students will identify opportunities to contribute to their communities' music institutions, including those embedded in other institutions (church choirs, ensembles, etc.). Students will know the vocation and avocations available to them in music.

## **Standard 3: Responding to and Analyzing Works of Art**

Students will demonstrate the capacity to listen to and comment on music. They will relate their critical assertions about music to its aesthetic, structural, acoustic, and psychological qualities. Students will use concepts based on the structure of music's content and context to relate music to other broad areas of knowledge. They will use concepts from other disciplines to enhance their understanding of music.

## **Standard 4: Understanding the Cultural Dimensions and Contributions of the Arts**

Students will develop a performing and listening repertoire of music of various genres, styles, and cultures that represent the peoples of the world and their manifestations in the United States. Students will recognize the cultural features of a variety of musical compositions and performances and understand the functions of music within the culture.

#### Instructional Idea

**Students arrange a musical selection in a different style.**

- Students listen to recordings of music of various styles (jazz, rock, blues, chant, country, etc.) and identify the characteristic use of musical elements.
- Students choose a simple piece, such as a school alma mater, and sing it in a contrasting style.
- Teacher explains methods of converting concert pitch to written pitch and vice versa.
- Students create a piano score of the original tune.
- Students convert the piano score to a new arrangement by altering rhythms, mode, articulation, instrumentation, texture, etc.
- Students write out all parts for performance, utilizing notation software. They seek out the input of performers for appropriate range, voicing, etc.
- Students may experiment with alterations of instrumentation, using notation software.
- Students perform the arrangements.

#### Suggested Assessment:

- ◊ Teacher-generated rubric is used to assess notated composition and performance. Performances are recorded and recordings are included in student portfolios.

**Note:** Also addresses Standards 3b, 3d, and 3e.

## Standard 1: Creating, Performing, and Participating

## Commencement– Major Sequence

### Performance Indicator 1d

in choral and instrumental ensembles, read difficult/very difficult music (NYSSMA level V or VI); exhibit independent control over tone quality, intonation, rhythm, dynamics, balance, blend, expression, and articulation; and respond appropriately to the gestures of the conductor.

### Instructional Idea

### References/Resources

**Students in large ensembles prepare and perform level-appropriate literature.**

- Teacher selects level-appropriate concert program of quality music.
- Teacher and students rehearse selections in large ensemble, sectionals, and lessons, paying attention to rhythm, pitch, intonation, balance, blend, precision, dynamics, etc.
- The ensemble performs selections for school/community and the performance is recorded.
- Students and teacher review the performance tape. They discuss the positive aspects of the performance and areas in need of improvement, and suggest improvements for subsequent performances.

#### **Suggested Assessment:**

- ◊ Ensemble performs for trained adjudicator at NYSSMA major organization festival or comparable evaluative festival.
- ◊ Students and teacher review festival performance comments and compare to the school performance tape and comments.

**Note:** Also addresses Standards 3b, 3d, and 3e.

*NYSSMA Manual*

### Additional Instructional Ideas

- ♪ Appropriately adjust all elements of the performance within the ensemble setting.

## Standard 1: Creating, Performing, and Participating

## Commencement– Major Sequence

### Performance Indicator 1e

Adopt at least two of the roles they identify as needed (composer, arranger, copyist, conductor, performer, announcer, instrument maker or provider, program annotator, recordist) to produce the performance of a musical composition in the classroom.

### Instructional Ideas

#### Students conduct basic patterns and indicate dynamics.

- Teacher instructs students in the basic conducting patterns (two, three, and four).
- Students practice these patterns while doing nonmusical activities such as conversing, reading, drawing pictures, taking glasses on and off, drinking, etc.
- Teacher instructs students in basic preparatory beats, holds, cutoffs, and simple dynamics.
- Students conduct a piece from ensemble repertoire.

#### Suggested Assessment:

- ◊ A teacher-generated rubric addressing pattern, accuracy, clarity, dynamics, cues, etc. is used to critique the performance.

**Note:** *The Art of Conducting*, listed as a resource, contains numerous conductor evaluation forms that teachers can use.

#### Students produce a performance of original compositions for a musical recital.

- Students prepare one original piece of music for performance in a recital.
- Instructor provides list of production roles (arranger, copyist, announcer, etc.).
- Students research definitions of the listed production roles, creating outlines as a way of organizing the results of their research.
- Students assume at least two of the roles and work together to produce a musical composition recital.

#### Suggested Assessment:

- ◊ Teacher may assess composition, thoroughness of research, and execution of the production roles.

**Note:** Also addresses Standards 1a, 1b, 1f, and 2c.

In performing groups, produce musical performances by peer-led small ensembles and sections of larger ensembles.

#### Instructional Idea

Students perform a duet or small ensemble independent of the teacher.

- Teacher and students form small ensembles.
- Each group is given a choice of two or three pieces and recordings of these pieces.
- Students rehearse independently.
- Teacher works with one ensemble while the others watch, demonstrating what to listen for and work on (pitch, dynamics, rhythm, phrasing, musicianship, body language, eye contact, etc.).
- Teacher observes a few rehearsals, making suggestions when asked to or when needed.
- Students participate in a master class performance two weeks prior to the recital.
- Students complete a teacher-generated or NYSSMA evaluation sheet for each ensemble's performance.
- Students review the evaluation sheets with the teacher, using peer/teacher suggestions to improve their final performance.
- Students perform in a recital in a school/community environment.

#### Suggested Assessment:

- ◊ Teacher-generated rubrics, based on NYSSMA evaluation forms, are used to evaluate student rehearsal participation, accuracy and depth of performance evaluation sheets, and quality of recital performance. Student and teacher discuss and compare reactions to performance.

**Note:** Also addresses Standards 1b, 1d, and 2b.

## Commencement– Major Sequence

### Performance Indicator 2b

Identify ways that they have contributed to the support of the musical groups of which they are members.

#### Instructional Idea

#### References/Resources

Each student creates a list of his or her annual contributions to school and community music organizations, tracing participation in music activities from elementary school to the present.

- Students may make entries such as: helped with fundraising for the program; helped to set up the rehearsal room; handed out programs at a concert; participated as an officer for the ensemble; helped another student tune his/her instrument; served as a section leader; performed for elementary students.
- Log entries should include: school music performances; meetings of community groups and religious organizations; family gatherings; professional and amateur performances.
- Teacher may also write in the students' logs. An example of a teacher entry is: 1/12/01—I was really proud of you today when you helped Jenny get that rhythm she has been having trouble with. Thank you for making a difference.
- At the end of each year, teacher collects the logs to make general comments. The logs are returned at the beginning of the next year. Students can look back and see how much they have done over the year(s) to make the ensemble a success.

#### Suggested Assessment:

- ◇ Teacher checks during the year to see that the log is being kept (pass/fail grading is used). Evaluation will be made of log entries for quality and accuracy.

**Note:** Also addresses Standards 1b and 3a.

#### Additional Instructional Ideas

- ♪ Maintain a log of support services that students have provided for their ensemble.

## A: Students with Disabilities

The music educator has the responsibility for teaching and supervising a diverse group of students. This group includes those students with learning disabilities, speech or language impairments, hearing and visual impairments, including blindness and deafness, physical disabilities, health-related challenges, and cognitive, behavioral, and emotional disabilities. To help all students achieve to their potential, it is recommended that a multisensory/multimodal style of teaching be used.

A varied instructional approach is extremely helpful for learning to occur. Of our five senses—sight, hearing, touch, taste, smell—it is recommended that music educators design lessons that use a minimum of three senses, the audio-visual-tactile senses, to reach every student. All students can benefit from these varied approaches.

Students with disabilities must have access to and participate in music classes as determined by the school district's Committee on Special Education (CSE) and as indicated on their Individualized Education Program (IEP). Identified on the IEP are supports and services necessary to help students with disabilities learn such as supplementary aids and services, assistive technology and services, and program modifications and support. These services and supports will also assist the music teacher in making the accommodations to curriculum, instruction and assessment that are necessary for students with disabilities to achieve the music standards. For example, some students may benefit if musical notes are enlarged. Others may need tactile materials to accompany instruction. For some students, the music teacher may need to teach a skill by breaking it down into very small steps. Students may also use assistive technology services and devices, such as an auditory enhancement device or a voice-activated computer, with disabilities during music classes. Consultation from special educators and related service personnel is a support that will help the music teacher provide successful learning activities for students with disabilities.

The music teacher should expect students with disabilities to successfully reach the goals established for music class as well as those indicated on their IEPs. The music teacher, as well as the student's other regular education and special education teachers are a team that supports student success. Regular reporting of student progress by all the student's teachers on a formal and informal basis helps monitor student progress effectively. As questions or concerns arise about student behavior and achievement, teachers should contact parents and school personnel according to the policies established by the school. If it is necessary for the CSE to meet and determine if revisions need to be made to the IEP, observations and assessments of the student from the student's teachers are most helpful in determining what changes, if any, need to be made to the IEP. The music teacher's participation in the annual reviews of students with disabilities provides valuable information in determining appropriate programs and services.

All students must have equal opportunity and access to achieve the New York State learning standards. All students can benefit highly from the study of music in all of its modes—listening, performing, creating and knowing. The quality of the musical experience should not be compromised. A teacher who exudes positive thinking, commitment and accomplishment, along with meeting other teacher qualifications can assist students with disabilities in their study of music in all of its modes—listening, performing, creating, and knowing. Teaching consistently in an audio-visual-tactile mode and concentrating on process rather than product will help encourage and inspire students with disabilities to fully participate in the music curriculum and learning activities.

For more information on State regulations, policy and guidelines for students with disabilities contact the Office of Vocational and Educational Services for Individuals with Disabilities (VESID) via their website, [www.vesid.nysed.gov](http://www.vesid.nysed.gov) (518) 473-2878.

# B: Types of Assessment Tools and Tasks

Excerpted from:  
*Assessment in Classroom Music*  
Classroom Music Committee of the  
New York State School Music Association  
November 1997

Following are the types of tools and classroom opportunities covered in this publication. Teachers can use this list to inventory their current assessment practices, expand the types of assessment tools and tasks available to them, and evaluate the efficiency of their assessment program.

In general terms, *tools* are materials and *tasks* are actions.

## Assessment tools (materials)

Using the tools below in authentic music tasks better links the curriculum, instruction and assessment:

- Adjudication forms/templates adapted for classroom music
- Auditions (live or taped)
- Checklists
- Compositions, arrangements, transcriptions
- Conferences with students and/or parents
- Evaluation by self, peers, teacher
- Journals, repertoire lists, agenda books, graphic organizers<sup>2</sup>
- Learning contracts
- Multimedia devices (such as computers or karaoke equipment)
- Performance observations
- Photographs, collages, montages
- Portfolios<sup>3</sup>
- Recordings (audio and video tape)
- Reports, essays, reviews
- Rubrics
- Standardized music achievement tests<sup>4</sup>
- Teacher-made quizzes and tests

<sup>2</sup> Graphic organizer: a visual representation of organized data relating to a content area that integrates knowledge, fosters organization and links higher order thinking skills.

<sup>3</sup> Portfolio: an organized, systematic record of student work chosen by the student and teacher that documents growth in student learning. Portfolio types usually include process, product and cumulative portfolios.

<sup>4</sup> Iowa Tests of Music Literacy (ITML) (Gordon, 1971/1991); Music Achievement Tests (Colwell 1969/1986); Silver Burdett Music Competency Test (Colwell 1979); Watkins-Farnum Performance Scale (Watkins and Farnum 1954, 1969)

## Assessment tasks (actions)

Tasks that provide opportunities to use the tools listed are:

- Aural examinations
- Collages, montages (design and construction)
- Critiques (e.g., concert, classroom performance, video and audio tapes)
- Discussion/demonstration
- Graphic organizer (constructing and updating)
- Group presentation
- Group projects
- Interviews
- Learning contract development
- List construction and updates (repertoire, listening, etc.)
- Multimedia presentation
- Music analysis
- Music journals (writing entries and reflections)
- Original music composition or sound piece
- Paper/pencil objective tests
- Peer coaching and evaluation
- Performance production
- Problem solving
- Research local music resources (business, performers)
- Research reports, essays
- Student-created test questions
- Student notebooks
- Surveys
- Technology-generated products

## C: Critical Listening Rubric

## D: Learning Experience: Peer Review Process

### INTRODUCTION

The New York State Academy for Teaching and Learning (NYSATL) was established in 1996 by the State Education Department to acknowledge those teachers who submitted learning experiences for validation by their peers, through the peer review process. Over time, this process has become known as NYSATL's Statewide Peer Review. The process is an avenue for focusing professional development on standards-based classroom practice, as a means of enriching teachers' abilities to improve instruction for the purpose of higher student achievement. The process has yielded a rich collection of learning experiences that demonstrate how the New York State *Learning Standards for the Arts* are addressed in classroom practice.

The following lesson, **Patterns in Musical Composition, Intermediate-Level Young Composers Concert**, submitted by Julie Along Carr, has been accepted by the New York State Academy for Teaching and Learning. It has been included in this document as an example of how any of the instructional/assessment ideas included in the first section of the resource guide can be expanded into a detailed lesson plan and applied in the classroom with actual results.

You can view procedures for submitting materials and more lessons accepted by the academy by visiting <http://www.nysatl.nysed.gov>

BEST COPY AVAILABLE

# Patterns in Musical Composition, Intermediate-Level Young Composers Concert

by Julie Along Carr  
Cortland Enlarged City School District

## **Rationale:**

The 7th-grade teams were planning their second interdisciplinary unit dealing with patterns in the environment. This lesson is a continuation of the lessons in composition done the previous year. The focus this year was to provide an opportunity for the students to compose and perform their pieces, which were based on memorized pieces they learned last year.

## **Learning Context:**

*This activity corresponds to Arts Standard 1—Creating, Performing, and Participating in the Arts. Students will:*

- Compose simple pieces that reflect a knowledge of melodic, rhythmic, harmonic, timbral, and dynamic elements.
- Identify and use, in individual and group experiences, some of the roles, processes, and actions for performing and composing music of their own and others and discuss ways to improve them.

*This activity corresponds to Arts Standard 2—Knowing and Using Arts Materials and Resources. Students will:*

- Use traditional or nontraditional sound sources, including electronic ones, in composing and performing simple pieces.

*This activity corresponds to Arts Standard 3—Responding to and Analyzing Works of Art. Students will:*

- Through listening, analyze and evaluate their own and others' performances, improvisations, and compositions by identifying and comparing them with similar works and events.
- Use appropriate terms to reflect a working knowledge of the musical elements.

*This activity corresponds to English Language Arts Standard 3—Language for Critical Analysis and Evaluation: Students will read, write, listen, and speak for critical analysis and evaluation.*

Speaking and writing for critical analysis and evaluation requires presenting opinions and judgments on experiences, ideas, information, and issues clearly, logically, and persuasively with reference to specific criteria on which the opinion or judgment is based.

*Students will:*

- Present (in essays, position papers, speeches, and debates) clear analysis of issues, ideas, texts, and experiences, supporting their positions with well-developed arguments.

**Prerequisites include:**

- Basic understanding of music terminology including measure, bar line, note values of whole, half, quarter, eighth, key signature, time signature.
- Understanding of basic written notation.
- Understanding of the basic compositional techniques of transposition, inversion, rhythmic alteration, melodic alteration, and retrograde.

**Curriculum alignment:**

- This experience fits into our work with theme and variations. It is also a part of the 7th-grade interdisciplinary team unit on patterns.

**Procedure:****Preparation:**

- As preparation for the project, a review of basic compositional techniques was presented verbally and through demonstration, using familiar pieces such as "Hot Cross Buns," "Twinkle, Twinkle, Little Star," and "Mary Had a Little Lamb." The songs were familiar to the students because they had been performed at the final concert the previous spring by all of the string players. As a means of visual demonstration, a large transparency was used over a blank staff to illustrate the basic compositional techniques. The transparency could be flipped backwards, turned upside down, and flipped and turned to demonstrate retrograde, inversion, and retrograde inversion. Each student received a packet of songs to use for the project and a smaller staff-lined transparency.

1. Students were asked to break into groups of at least two but no more than four. They were asked to choose a song from the packet and to discuss ways they could alter the melody to create a variation. Specific instructions included the key, number of measures, clef used, and final form of the piece. (See Activity 1 below.)
2. Each group was given a piece of staff paper. Terminology was reviewed one more time. Each group was then asked to find a spot in the room and begin to experiment with their melodies. They were encouraged to choose a small part of their melody to put on the transparency and play with the various techniques to decide how they wanted their piece to sound. As they worked, they were to notate their work. Students were permitted to play their piece as they worked. Students were to indicate the compositional device(s) they used in their work. Pieces were turned in at the end of the class period to be reviewed by the teacher. (See Activity 2 and student samples.)
3. Copies of their variations were returned to the students to practice for the concert performance. Modifications of the variations were allowed, as some groups wanted their variation to be playable as a duet with the original composition.
4. The pieces were performed at the concert in November. An explanation of the project was included in the program and the principal introducing the concert made mention of the special project.
5. Students view the videotape of the concert and fill out their self-evaluation rubrics and peer evaluation rubrics for two other groups.

**Evaluation:**

The compositions are video- and audiotaped so that the students can hear their pieces. Each student is given a self-evaluation rubric and two peer evaluation rubrics to complete. The teacher completes the student evaluation rubric and shares it with the students individually.

**Instructional/Environmental Modifications:**

One inclusion student participated in the learning experience. No modifications were necessary for success of this student.

**Time Required:**

Teacher planning for the activity took approximately one 45-minute period to copy the packet of folk songs and prepare examples for demonstration. Another period was required to review and evaluate Activity 2. Copying the melodies for the students to use during the performance took an additional period. Final student evaluation will take one period and a short amount of time during lessons to discuss the evaluations with each student.

Implementation of the activity took less than half a rehearsal period except for Activity 5, which will take an entire class period.

**Resources:**

- Packet of folk songs
- Transparency sheet
- Composition terminology listed on large sheets of paper for posting
- Staff paper for each group

**Assessment Plan:**

Students continually assess their progress by listening to their compositions. The end activity requires a formal self-evaluation and two peer evaluations. The teacher evaluates each activity and conferences with the student at the conclusion of the activity. (See examples of evaluation rubrics and teacher combined rubric.)

The work of the seventh graders became a part of their "Patterns" portfolio. Work of all students became a part of their orchestra portfolio.

**Student work:**

Included below are samples of student work.

**Reflection:**

This activity was planned to create a logical approach to teaching composition during a rehearsal situation. The students enjoyed the activity and were pleased with the reaction of their parents to hearing the final product. Being able to recognize patterns has helped the students in practicing difficult sections of their music—it has given them another way to break a difficult passage down. An added benefit was that it was part of the interdisciplinary project and showed the students and teachers that music is an important part of the environment and the school atmosphere. Students enjoyed having their fellow orchestra members perform their compositions. Many of the students wanted to learn to input their compositions into the computer so that they could have a professional-looking final product.

**Patterns in Musical Composition**

**Activity 1:** (approximately 10 minutes)

1. Choose a group to work with. You must have at least two people per group and may not have more than four people.
2. Choose one of the memorized folk songs we performed last year. You may not use "Hot Cross Buns." You may use the harmony part as well as the melody.
3. Guidelines:
  - Keep the same key signature.
  - Your piece may end up longer than the original melody, but it may not be shorter.
  - You may use any clef you wish. If your group is a mixed instrument group, you may write your song in both clefs or have one instrument play the melody while the other plays the variation.
  - You need to use standard notation in your final copy that will be handed in to me.
4. Let me know who is in your group and what song you have decided to do.

**Activity 2:** (approximately 20 minutes during each of two class periods)

1. Use the staff paper that I gave each group to begin writing your variation.
2. Remember the ways you can alter a melody to form a variation. You will need to label the compositional techniques in your variation as part of your group's self-evaluation.

3. Be sure to follow the guidelines listed in Activity 1.
4. You will have 20 minutes of two class periods to work on your variation.
5. When you are done, please hand in your variation to me. I will return it to you so that you can practice it before the concert.

**Activity 3:** (approximately 15 minutes)

1. Practice your variation with the rest of your group.
2. If you need to make some corrections so that you can play it as a duet with the original melody, you may do so. Make sure you write legibly so that you can read it when you perform on Thursday.

**Activity 4:** (at the concert)

This is the big day—your performance. I know you will all do a great job!

**Activity 5:** (one class period)

1. Using the rubric (evaluation chart) I gave you, evaluate your own and two other groups' performances as you view the videotape.
2. Be honest about both types of evaluations. I will also be evaluating each group. The evaluations themselves are not a grade. You will be graded on how well you do the evaluations. Please write your comments in complete sentences with proper grammar, spelling, and punctuation!
3. I will go over the evaluations with you at your next lesson.

## Mary Had a Little Lamb - Theme

### Variation

### Rubric explanations:

#### Peer Evaluation:

- Each group evaluated one other group. They listened to the group and were given a copy of the group's work to use in their evaluation.
- The second part of this evaluation is an evaluation of the student's ability to distinguish the compositional devices used by each of the other groups.

#### Self Evaluation

- Each group evaluated their own performance.
- Each individual assessed his/her own understanding of the compositional concepts.
- Each individual assessed the project.

#### Teacher Evaluation

- The student evaluations were assessed based on their completeness and the thought put into the answers.
- The peer evaluations were assessed based on their completeness and the thought put into the answers.
- The two analyzation categories were assessed based on the work done in the student self and peer evaluations.
- The composition itself was evaluated based on the following of the guidelines only. No musical judgments were assessed. Performances were evaluated by peer groups as part of that evaluation.

Look at the packet of compositions. See if you can figure out which device each group used at the circled numbers in their pieces.

- Remember:
- Transposition: Starting the melody on a different note
  - Inversion: Changing the direction of the intervals
  - Rhythmic alteration: Changing the rhythm
  - Melodic alteration: Changing the melody by adding or taking away notes
  - Retrograde: Playing the whole song or a measure backwards

"Mary Had A Little Lamb" by Jay, Chris and Bryan  
 1 rythmic alteration (augmentation)

"Mary Had A Little Lamb" by Sarah, Hannah and Tari  
 2 transposition 4 transposition  
 3 rhythmic alteration 5 transposition inversion

"Twinkle" by Melissa, Rachel and Taylor  
 6 transposition inversion 11 retrograde  
 7 rhythmic alteration 12 change rhythmic alt.  
 8 rhythmic alteration 13 rhythmic alteration  
 9 transposition retrograde 14 rhythmic alteration  
 10 rhythmic alteration

"Waltz" by Emma, Kayla, Nikki and Christine  
 15 rhythmic alteration transposition

"Allegro" by Luke, Robert and Joey  
 16 retrograde inversion

"Frere Jacques" by John and Jake  
 17 inversion

"Allegro" by Allison, Tacie and Levi  
 18 inversion  
 19 rhythmic alt.

rhythmic alteration - change the rhythm  
 retrograde - play it backwards  
 inversion - play it upside down  
 transposition - starting on a different note

Name \_\_\_\_\_

Group I am evaluating \_\_\_\_\_

Use the copies of the other groups' compositions to do the guidelines section.

	4	3	2	1	0
Followed guidelines	Followed all four ✓ guidelines	Followed three guidelines	Followed two guidelines	Followed one guideline	Did not follow any guidelines
Performance-Intonation	The group played very well in tune	The group made only one or two intonation errors ✓	The group made three or four intonation errors	The group made five or six intonation errors	The group was not in tune very well
Performance-Ensemble	The group stayed perfectly together	The group was almost perfect ✓	The group fell apart, but was able to get back together	The group had trouble getting back together after it fell apart	The group had to start over
Performance-Tone quality	They sounded really strong and confident	They sounded pretty strong ✓	They were not very strong	They sounded weak and unsure of themselves	They sounded really weak and scared
Performance-Positions	All of them had great positions	One of the group members needed a better position ✓	Two of the group members needed better positions	They all needed to fix part of our positions	None of them had a very good position

Describe the overall performance They were pretty much together the whole time and played well in tune.

What did you like best? I liked how they altered the original song.

What could they have done better? They could have gotten into it a little more

# E: The Relationship Between the New York State Learning Standards for the Arts and the National Standards for Arts Education in Music

Excerpted from:  
*Learning Standards for the Arts*  
New York State Education Department, April 1996 and  
*National Standards for Arts Education*  
Music Educators National Conference, 1994

## BROAD RELATIONSHIP

### NATIONAL

(from *Summary Statement*, pp. 18-19)

- They (students) should be able to communicate at a basic level in the four arts disciplines - dance, music, theatre, and the visual arts.
- They (students) should be able to communicate proficiently in at least one art form.
- They should be able to develop and present basic analysis of works of arts.

### STATE

- Students should demonstrate elementary level achievement in the content standards for each of the four disciplines of dance, music, theatre, and visual arts.
- Students should demonstrate intermediate level achievement in the content standards for two of the four disciplines of dance, music, theatre, and visual arts.
- Students should demonstrate commencement level achievement in the content standards for one of the four disciplines of dance, music, theatre, and visual arts.

#### *Standard 1: Creating, performing, and participating in the arts*

Students will actively engage in the processes that constitute creation and performance in the arts (dance, music, theatre, and visual arts) and participate in various roles in the arts.

#### *Standard 2: Knowing and using arts materials and resources*

Students will be knowledgeable about and make use of the materials and resources available for participation in the arts in various roles.

#### *Standard 3: Responding to and analyzing works of art*

Students will respond critically to a variety of works in the arts, connecting the individual work to other works and to other aspects of human endeavor and thought.

142

- They should have an informed acquaintance with exemplary works of art from a variety of cultures and historical periods.
- They should be able to relate various types of arts knowledge and skills within and across the arts disciplines.

*Standard 4: Understanding the cultural dimensions and contributions of the arts*  
 Students will develop an understanding of the personal and cultural forces that shape artistic communication and how the arts in turn shape the diverse cultures of past and present society.

- All four learning standards.

## RELATIONSHIP BETWEEN STATE KEY IDEAS AND NATIONAL CONTENT STANDARDS IN MUSIC

### STATE

*Arts Standard 1: Creating, performing, and participating in the arts.*

**Music:** Students will compose original music and perform music written by others. They will understand and use the basic elements of music in their performances and compositions. Students will engage in individual and group musical and music-related tasks, and will describe the various roles and means of creating, performing, recording and producing music.

*Arts Standard 2: Knowing and using arts materials and resources.*

**Music:** Students will use traditional instruments, electronic instruments, and a variety of nontraditional sound sources to create and perform music. They will use various resources to expand their knowledge of listening experiences, performance opportunities, and/or information about music. Students will identify opportunities to contribute to their communities' music institutions, including those embedded in other institutions (church choirs, industrial music ensembles, etc.). Students will know the vocations and avocations available to them in music.

### NATIONAL

1. Singing, alone and with others, a varied repertoire of music.
2. Performing on instruments, alone and with others, a varied repertoire of music.
3. Improvising melodies, variations, and accompaniments.
4. Composing and arranging music within specified guidelines.
5. Reading and notating music.
2. Performing on instruments, alone and with others, a varied repertoire of music.
4. Composing and arranging music within specified guidelines.
8. Understanding relationships between music, the other arts, and disciplines outside the arts.
9. Understanding music in relation to history and culture.

**Arts Standard 3: Responding to and analyzing works of art.**

**Music:** Students will demonstrate the capacity to listen to and comment on music. They will relate their critical assertions about music to its aesthetic, structural, acoustic, and psychological qualities. Students will use concepts based on the structure of music's content and context to relate music to other broad areas of knowledge. They will use concepts from other disciplines to enhance their understanding of music.

6. Listening to, analyzing, and describing music.
7. Evaluating music and music performances.
8. Understanding relationships between music, the other arts, and disciplines outside the arts.
9. Understanding music in relation to history and culture.

**Arts Standard 4: Understanding the cultural dimensions and contributions of the arts.**

**Music:** Students will develop a performing and listening repertoire of music of various genres, styles, and cultures that represent the peoples of the world and their manifestations in the United States. Students will recognize the cultural features of a variety of musical compositions and performances and understand the functions of music within the culture.

9. Understanding music in relation to history and culture.
1. Singing, alone and with others, a varied repertoire of music.
2. Performing on instruments, alone and with others, a varied repertoire of music.
6. Listening to, analyzing, and describing music.

## RELATIONSHIP BETWEEN STATE PERFORMANCE INDICATORS AND NATIONAL ACHIEVEMENT STANDARDS IN MUSIC

### STATE

### NATIONAL

**Standard 1: Creating, performing, and participating in the arts.**

- Create/Compose
- Sing/Play
- Read/Improvise/Arrange
- In performing ensembles

- Describe music's relationship/context/ surroundings/roles

- 6 a,b,c,f; 7 a, b
- 6 a,c,d
- 7 a; 8 a,b,c,e; 9 a,b,c; 6 a

**Standard 4: Understanding the cultural dimensions and contributions of the arts.**

- Identify/perform/analyze repertoire
- Identify cultural, geographic, historical

- 9 a,b,c,e; 1 c; 2 c
- 6 b,d

# F: Repertoire List

Excerpted from: Music PreK–6 Syllabus/Guide Field Test Edition  
New York State Education Department

If the students are to value the musical art and be aware of the dimensions that have contributed to our common cultural experience, they need a knowledge of a body of music literature representing various styles, time periods, and cultures. To ensure this musical knowledge, a list of recommended singing and listening repertoire is provided.

This list should be considered as a means to enrich, rather than constrict, the students' music appreciation. Although songs and pieces are categorized to aid the teacher, they have not been selected on that basis. The categories, being somewhat arbitrary, only aid in illustrating the variety included. School districts may modify the list to best suit local needs. It is recommended that this list be used as a minimum list of selections for all students to know.

The repertoire list is provided by levels which are arranged sequentially, and merely suggestive of age and grade grouping. Any repertoire used should be cumulative; that is, repertoire presented at one level should be reexperienced at a higher level.

The coding for categories used in the Singing Repertoire is as follows:

AF	=	American Folk	M	=	Movement
AT	=	American Traditional	P	=	Patriotic
EC	=	Early Childhood	POP	=	Popular
EF	=	Ethnic Folk	R	=	Round
H	=	Holiday	S	=	Spiritual
L	=	Lullaby			

## Singing Repertoire

### Grades PreK–K

Selection	Category
Ach Du Lieber Augustine	EF
Bingo	M
Down by the Station	EC
Eency, Weency Spider (Itsey Bitsy)	EC
Here We Go, Looby Loo	EC
Hokey Pokey	M
Hot Cross Buns	EC
I'm a Little Teapot	EC
If You're Happy	M
It's Raining (It's Pouring)	EC
Jingle Bells	H
Little White Duck	EC
London Bridge	M
Muffin Man	EC
My Dreidl	H
Old MacDonald Had a Farm	AF
Row, Row, Row Your Boat	R
Six Little Ducks	EC
The Farmer in the Dell	M
The Wheels of the Bus	M

Three Blind Mice	R
Over the River and Through the Woods	H
Twinkle Twinkle (Baa Baa Black Sheep	
Where is Thumbkin?	M

Shalom Chaverim	R
Shenandoah	AT
Silent Night	H
Simple Gifts	AT
The Star Spangled Banner	P
This Land Is Your Land	AT
Tzena, Tzena	EF
We Gather Together	H
What Shall We Do With A Drunken Sailor?	AF
When Johnny Comes Marching Home	EF
White Christmas	H
You're a Grand Old Flag	P

# Listening Repertoire

## Grades PreK–K

Lullaby. Brahms  
The Flight of the Bumblebee. Rimsky-Korsakoff  
Tubby the Tuba

## Grades 3–4

Air on G String. Bach  
Barcarolle. Offenbach  
Children Corner Suite. Debussy  
Dance of the Comedians. Kabalevsky  
Grand Canyon Suite. Grofé  
Hansel and Gretel (Excerpts). Humperdinck  
In the Hall of the Mountain King. Grieg  
Morning (Peer Gynt Suite). Grieg  
Night on Bald Mountain. Mussorgsky  
Peter and the Wolf. Prokofiev  
Surprise Symphony. Haydn  
The Banshee. Cowell  
The Nutcracker (Excerpts). Tchaikovsky  
The Stars and Strips Forever. Sousa  
William Tell Overture. Rossini

## Grades 1–2

Ballet of the Unhatched Chicks (Pictures).  
Mussorgsky  
Carnival of the Animals. Saint Saens  
Golliwogs Cake Walk. Debussy  
Children's Symphony (Excerpts). McDonald  
Little Train of the Caipira. Villa-Lobos  
March of the Toys (Babes in Toyland). Herbert  
Pictures at an Exhibition (Excerpts). Mussorgsky

## Grades 5–6

Amahl and the Night Visitors. Menotti  
America (Variations). Ives  
Appalachian Spring (Excerpts). Copland  
Canon in D Major. Pachelbel  
Danse Macabre. Saint Saens  
1812 Overture. Tchaikovsky  
Eine Kleine Nachtmusik (Excerpts). Mozart  
Fanfare for the Common Man. Copland  
Fifth Symphony (Excerpts). Beethoven  
Jesu, Joy of Man's Desiring. Bach  
Little Fugue In G Minor. Bach  
Maple Leaf Rag. Joplin  
Moonlight Sonata. Beethoven  
Sorcerer's Apprentice. Dukas  
The Blue Danube. Strauss  
Water Music Suite (Excerpts). Handel  
Young Person's Guide to the Orchestra. Britten

# I: Index

## For Grades 3 through Commencement—General Education

### Band

Standard 1	.30, 31, 33, 34, 50, 51, 52, 53, 54, 72, 73, 74, 75, 76, 97, 98, 99, 100
Standard 2	.35, 37, 40, 56, 57, 58, 59, 78, 80, 82, 102, 103, 104, 105, 106
Standard 3	.41, 43, 60, 61, 62, 63, 65, 83, 84, 85, 86, 88, 107, 108, 109, 111
Standard 4	.45, 47, 67, 69, 89, 90, 93, 113, 114

### Chorus

Standard 1	.31, 33, 34, 51, 52, 53, 72, 74, 75, 76, 97, 98, 99, 100
Standard 2	.35, 37, 40, 56, 57, 58, 59, 78, 80, 81, 82, 102, 103, 104, 105, 106
Standard 3	.41, 60, 61, 62, 63, 64, 65, 83, 84, 85, 86, 88, 107, 108, 109, 111
Standard 4	.45, 47, 66, 67, 68, 69, 89, 90, 92, 93, 112, 113, 114

### Orchestra

Standard 1	.30, 31, 33, 34, 50, 51, 52, 53, 54, 72, 73, 74, 75, 76, 97, 98, 99, 100
Standard 2	.35, 37, 40, 56, 57, 58, 59, 78, 80, 81, 82, 102, 103, 104, 105, 106
Standard 3	.41, 43, 60, 61, 62, 63, 64, 65, 83, 84, 85, 86, 88, 107, 108, 109, 111
Standard 4	.45, 47, 67, 69, 89, 90, 93, 113, 114

### General Music

Standard 1	.30, 31, 32, 33, 34, 50, 54, 72, 73, 74, 75, 96, 98, 101
Standard 2	.35, 36, 37, 38, 39, 40, 55, 57, 58, 59, 77, 78, 79, 80, 81, 82, 104, 105, 106
Standard 3	.41, 42, 43, 44, 61, 63, 65, 83, 84, 85, 86, 87, 88, 111
Standard 4	.45, 46, 47, 66, 67, 68, 89, 90, 91, 92, 93, 112, 113, 114

**Note:** Major Sequence has not been included in this index. The lessons at that level are not as easily categorized and are suitable in a variety of applications. Teachers are encouraged to look at all instructional ideas included on pages 116–128 for appropriateness to their specific teaching situation.

Level 1

Check here for Level 1 release, permitting reproduction and dissemination in microfiche or other ERIC archival media (e.g., electronic) and paper copy.

Level 2A

Check here for Level 2A release, permitting reproduction and dissemination in microfiche and in electronic media for ERIC archival collection subscribers only

Level 2B

Check here for Level 2B release, permitting reproduction and dissemination in microfiche only

Documents will be processed as indicated provided reproduction quality permits.  
If permission to reproduce is granted, but no box is checked, documents will be processed at Level 1.

I hereby grant to the Educational Resources Information Center (ERIC) nonexclusive permission to reproduce and disseminate this document as indicated above. Reproduction from the ERIC microfiche or electronic media by persons other than ERIC employees and its system contractors requires permission from the copyright holder. Exception is made for non-profit reproduction by libraries and other service agencies to satisfy information needs of educators in response to discrete inquiries.

### III. DOCUMENT AVAILABILITY INFORMATION (FROM NON-ERIC SOURCE):

If permission to reproduce is not granted to ERIC, or, if you wish ERIC to cite the availability of the document from another source, please provide the following information regarding the availability of the document. (ERIC will not announce a document unless it is publicly available, and a dependable source can be specified. Contributors should also be aware that ERIC selection criteria are significantly more stringent for documents that cannot be made available through EDRS.)

Publisher/Distributor:
Address:
Price:

### IV. REFERRAL OF ERIC TO COPYRIGHT/REPRODUCTION RIGHTS HOLDER:

If the right to grant this reproduction release is held by someone other than the addressee, please provide the appropriate name and address:

Name:
Address:

### V. WHERE TO SEND THIS FORM:

Send this form to the following ERIC Clearinghouse:	<b>ERIC/CHESS</b> 2805 E. Tenth Street, #120 Bloomington, IN 47408
---	--

However, if solicited by the ERIC Facility, or if making an unsolicited contribution to ERIC, return this form (and the document being contributed) to:

**ERIC Processing and Reference Facility**  
4483-A Forbes Boulevard  
Lanham, Maryland 20706
