#### ABSTRACT

This exit survey of students at Yavapai College (Arizona) is given to all students who are verifying with the Registrar that they have met the requirements for an Associate Degree or a Certificate of Achievement. This report summarizes the results from the survey of December 2001 and May 2002 students. The Exiting Student Survey was completed by 98 students out of a total of 258 graduates for both terms, for a response rate of 38%. Based on the most frequently listed responses, the survey found the statistically typical exiting student to be between 17 and 25 years old, female, white, non-Hispanic, and single. Highlights of the survey's findings include the following: (1) more than half of all exiting students plan to attend a fouryear college; (2) 75% of exiting students plan to work full- or part-time; (3) the average GPA for exiting students was 3.4; (4) 54% of respondents were full-time students; (5) 68% of respondents received financial aid; (6) 94% rated computer access as good or very good; (7) 92.7% rated quality of instruction as good or very good; (8) 89% rated overall satisfaction as good or very good; (9) 92% would recommend the College to friends or family. Research instrument appended. (Contains 22 tables.) (NB)

#### I. Introduction

Students expecting to receive an Associate Degree or a Certificate of Achievement must request a record review with the Registrar to verify that all requirements have been met. At that time, students are given the Exiting Student Survey to solicit feedback on their Yavapai College education.

The following report summarizes the results from the survey of the December 2001 and May 2002 students. The Exiting Student Survey was completed by 98 students. College records indicated there were 258 graduates in December 2001 and May 2002 collectively, representing a 38 percent response rate.

Another study, which follows the exiting students survey, is the graduate follow-up survey administered to students after graduation. The graduate follow-up survey measures students' attitudes and perceptions after they leave Yavapai College and have had time to either work or attend another college. A comparison of the two surveys confirms the findings of the exiting student survey. In both surveys, more than eight out of ten Yavapai College exiting students/graduates were satisfied with their academic program.

#### II. Summary Highlights

#### Future Plans of Exiting Students

More than half of all exiting students planned to attend a 4-year college.

More than one out of two exiting students planned on attending a 4-year college and the most frequently mentioned 4-year college or university was Northern Arizona University (46 percent). Fifteen percent planned to continue attending Yavapai College.

• Three-fourths of the exiting students planned to work after graduation.

More than one-half of exiting students planned to work full-time and one-fifth planned to work part-time. Some had plans to look for a job (19.4 percent) or raise a family (20.4 percent).

#### **Background of Exiting Students**

• Based on the most frequently listed responses, the statistically typical exiting student was between 17 and 24 years of age, female, white, non-Hispanic, and single.

While the average age of the respondents was 30.3 years, a one-half were between 17 and 24 years of age. Three-fourths were female, white, non-Hispanic. More than 7 out of 10 listed being single.

• Most exiting students began their work toward their degree or certificate after 1998.

More than 8 out of 10 began their work toward a degree or certificate between 1998-2001.

• The Applied Science Degree was the most frequently received degree or certificate by exiting students followed by the Associate of Arts Degree.

The most frequently attained degree or certificate was the Applied Science Degree (42.7 percent) followed by the Associate of Arts Degree (30.7 percent) and Advance Certificate (14.7 percent).

• Three out of four exiting students had a cumulative grade point average (GPA) of 3.0 or greater.

The average GPA for all exiting students was 3.4. More than one-half of the students had a 3.4 GPA or higher.

• Most exiting students attended the Prescott Campus at some time during their studies with one-fifth attending the Verde Valley Center.

Seven out of ten reported attending the Prescott Campus at some time. Thirty percent attended the Verde Campus. Six percent have attended the Prescott Valley Center, 2 percent attended the Chino Valley Center, 12.2 percent attended the Sedona Center, and 7 percent listed other locations throughout the county.

Most exiting students were full-time students.

More than one-half of exiting students typically took 12 or more credit hours each semester. Forty percent took between 6 and 11 credit hours while only 6.1 percent took fewer than six credit hours.

• More than two-thirds of exiting students received financial aid.

One-third had children under age 18 living at home or were pregnant. Close to a third were considered dependents while attending college.

#### Satisfaction with Educational Programs and Support Services

• The business office was given the most favorable satisfaction ratings of either "good" or "very good" among the general services.

Nine out of ten exiting students rated their satisfaction of the business office as either "good" or "very good."

- One-third of exiting students rated their satisfaction of parking as "poor" or "very poor;" 7.4 percent considered this service "very poor."
- Seven out of ten exiting students considered all of the Campus Life services as either "good" or "very good."

Of the students who utilized campus life services, more than 70 percent rated the clubs and organizations and student activities as either "good" or "very good." Six out of ten rated student housing "good" or "very good."

• Counseling services was considered either "good" or "very good" by close to 8 out of 10 exiting students. The students' ombudsman service received this rating by nine out of ten respondents.

3

The Counseling Services of academic advising, career guidance, judicial coordinator, personal counseling, placement testing, and students' ombudsman were all considered "good" or "very good" by 80 percent of the respondents.

• Among Financial Aid services, application processing and veteran's benefits received satisfaction ratings of "good" or "very good" by over 80 percent of the responding students.

The Financial Aid services of application processing, employment referrals, financial aid advising, and veteran's benefits were all considered "good" or "very good" by at least 7 out of 10 respondents. Application processing receives this rating from 84.2 percent of the respondents.

• Eight out of ten considered the Learning Center services as "good" or "very good."

Among the Learning Center services, individualized classes received the most frequent ratings of "good" or "very good" (84.5 percent) from among the respondents followed by tutoring (83.3 percent). Out-of-class testing received favorable ratings from 76.0 percent.

• Among Registration Services, more than nine out of ten students considered in-person registration "good" or "very good."

From among exiting students, 96.9 percent considered in-person registration as "good" or "very good." The rating for phone-in registration was 88.2 percent and for on-line registration the response was 76.0 percent.

• Over 90 percent of exiting students rated the quality of instruction as "good" or "very good."

The quality of instruction received favorable responses from 92.7 percent of the exiting students; 7.3 percent rated it "fair." No one gave this service area "poor/very poor" marks.

• Among the other academic services, helpfulness of instructional support staff received the highest response of any academic service.

Student satisfaction ranged from a high of 94.4 percent "good/very good" ratings for helpfulness of instructional support staff to the lowest, class offerings, which received 77.1 percent "good/very good" ratings from exiting students.

Overall satisfaction with Yavapai College was high with all exiting students.

Close to 9 out of 10 exiting students considered their satisfaction with Yavapai College overall to be "good" or "very good." All graduates (100 percent) would recommend the college to family and friends, 91.6 percent without reservation.

#### III. Detailed Findings

#### **Future Plans**

Exiting students were asked to share their plans after graduation (Table 1). Over one-half of the graduates (51.0 percent) had plans to attend a 4-year college. More than half (53.1 percent) intended to work full-time after graduation while one-in-five (21.4 percent) planned to work part-time. Another 19.4 percent of respondents were looking for a job.

Plans for 15.3 percent of the students included continuing to attend Yavapai College. Twenty percent listed raising a family as being a part of their future plans.

Note: Percentages exceed 100 percent due to multiple-choice options.

Of the 50 respondents who stated that they intend to attend a 4-year college, 46.0 percent indicated a desire to attend Northern Arizona University. Arizona State University was selected by 22.0 percent of the respondents; the University of Arizona 4.0 percent. Other four-year colleges mentioned were Old Dominion University, University of Phoenix, and San Francisco University.

#### **Background**

When exiting students were asked when they started working toward a degree or certificate at Yavapai College, most stated that they began their work within the preceding five years (Table 2). Only two students began prior to 1990.

Note: Percentages exceed 100 percent due to multiple choice options.

Only the Prescott Campus and Verde Valley Campus had students who attended their facilities exclusively. In Prescott, 65 students (97 percent of Prescott) reported attending the Prescott Campus only. In the Verde Valley, 22 students (73 percent of Verde Valley) reported attending the Verde Valley Campus only. Exiting students who attended the Prescott Valley Center, Chino Valley Center, Sedona Center and other locations also attended either the Prescott Campus and/or Verde Valley Campus.

Table 9 summarizes additional family/financial factors. In response to being asked whether they have any children under the age of 18 currently living with them or whether they were pregnant, most (67.0 percent) said no. Two-thirds (68.2 percent) reported receiving financial aid while at Yavapai College. Most (68.2 percent) said that for tax purposes, they were not a dependent when attending Yavapai College.

When asked if they have any permanent physical disabilities, 11.3 percent indicated that they did. Nine percent indicated they had developmental challenges.

Responding to whether any language other than English is commonly spoken at home, 11 out of 98 stated that this is the case. Six mentioned Spanish, one indicated Navajo, one French, one Chinese, and one Persian (Farsi).

#### IV. Satisfaction with Educational Programs and Support Services

#### **Satisfaction with Support Services**

Exiting students were asked to rate their satisfaction with various college support services. They were asked to rate these services as either "very poor, poor, fair, good, very good, or not applicable."

#### **General Services**

Among general services, the business office received the most favorable rating (94.8 percent). The least favorable rating was received by parking (32.6 percent).

Of the students who reported using college support services, at least three out of four considered the business office, the mail center, campus security, and the class schedule as providing either "good" or "very good" service. Also, among all the services, business office and mail center did not receive any "poor" or "very poor" rating by any of the students.

#### **Comments from Exiting Students – Support Services**

Students responding to the exit survey were also asked to share any particularly positive or negative experiences they had with any of the support services. An electronic copy of all the comments is available to anyone who requests it. While the comments varied, the most frequently mentioned positive experiences were:

- The staff
- The Learning Center

The most frequently shared negative experiences were:

- The parking
- The staff (students reported both positive and negative experiences)

#### **Satisfaction with Academic Services**

Students were asked to rate their satisfaction with various academic services. They were asked to rate these items as either "very poor, poor, fair, good, very good, or not applicable."

Nine out of ten exiting students considered helpfulness of instructional support staff, computer access, quality of instruction, and library facilities as the most favorable of the academic services (Table 20).

Among the other listed academic services, at least three-fourths of the exiting students considered rating them as "good" or "very good." Fewer than five percent rated any of these as "poor" or "very poor."

#### **Comments from Students – Academic Services**

Students responding to the exit survey were asked to share any particularly positive or negative experiences they had with any of the academic services. The most frequently mentioned positive experiences were:

- The quality of instruction
- The library and staff

Many students shared their experiences with faculty and staff members who provided them with outstanding service. One student expressed a very positive experience from the mentoring program.

While the number of comments were not extremely high in number, the most frequently shared **negative** experiences involved:

- Availability of classes
- Condition of facilities/classrooms

#### Overall Satisfaction with Yavapai College

When asked how they would rate their overall satisfaction with Yavapai College, 98.6 percent rated the college as "good" or "very good" (Table 21.) Close to one-half rated the college as "very good." Only two respondents rated the college overall as "poor."

Rating	Respondents (N=97)	Percent
Very Poor	2	2.1
Poor	0	0
Fair	9	9.3
Good	40	41.2
Very Good	46	47.4

In response to the question "what do you like best about Yavapai College," close to one-fourth of the exiting students cited the "friendly/helpful environment."

#### **Recommendation to Friends and Family**

When asked if they would recommend Yavapai College to friends/family all responded (100 percent) yes (Table 22). Only 8 students said yes, with reservations.

### V. Concluding Statement

Yavapai College exiting graduates responding to the survey were positive in terms of overall satisfaction with the college, the academic services and the support services. Service areas with the highest percentage of satisfied respondents (90 percent or more) include:

- In-person registration 96.9 percent
- Business office 94.8 percent
- Helpfulness of instructional support staff 94.4 percent
- Student's ombudsman 93.8 percent
- Computer access 93.6 percent
- Library facilities 92.2 percent
- Quality of instruction 92.7 percent

Except for parking, the bookstore, and the cafeteria/snack bar; negative comments and unfavorable ratings (poor or very poor) were few in frequency. While not identified in the detailed comments, a number of faculty and staff were highly praised for their quality of instruction or service, their friendliness, and helpfulness. "Great," "family," and "friendly" were terms often used by exiting students to describe their Yavapai College experience.
