2003 - 2004, 29th Edition

**The On-Line Version of the Arizona College and Career Guide is
available at: www.azhighered.org**

By picking up the *Arizona College and Career Guide*, you are taking the first step toward your postsecondary education. Your post-secondary education is one of the most important decisions of your life. It is the first step toward a new choice and a new future.

This resource guide is an alphabetical listing of information on Arizona's universities, colleges, and career schools. Each school is different in many ways. Each has unique admission guidelines, program requirements, and course offerings. It is up to you to get the information you need.

Once you have narrowed your choices to several institutions:

CALL

the schools you are interested in attending and request admission and financial aid applications and a college catalog. Ask any questions you may have. The catalog is the best source of information you can get from the school. Most catalogs list courses and their general descriptions along with basic requirements for the certificates or degrees the school offers.

VISIT

each school. See if you like the campus; talk to faculty, staff, and students; stop by the job placement or career services office and find out what companies recruit graduating students; inquire at the financial aid office about about grants, loans, and other forms of assistance.

THINK

about your education carefully. It is the foundation of your future career path.

The *Arizona Commission for Postsecondary Education* welcomes your feedback as to what you find useful and suggestions as to how we might improve our next edition. Call us and let us know what you think. Our number is (602) 258-2435 ext. 100 or E-mail the editor, Mike Smith at: msmith@azhighered.org.

ACCREDITATION

Accreditation is a voluntary process by which an institution volunteers to be evaluated by a specific, non-governmental accrediting body. The conferral of this accreditation indicates the institution has met pre-set standards of the accrediting body. It does not mean that all institutions with similar accreditation are the same; however, there is an implied assurance that a minimal level of quality is provided by an accredited institution. This method of industry self-regulation and quality control is fairly unique to the U.S. Accrediting bodies are recognized by both the U.S. Department of Education and Council for Higher Education Accreditation (CHEA). Two main categories of accreditation exist, and are outlined as follows:

INSTITUTIONAL ACCREDITATION

Institutional accreditation evaluates a entire institution (as opposed to just one program or college within a university). In addition to academics, this includes evaluation of governance and administration, financial stability, student services, resources (libraries, computer lab's), academic achievement of the student body, the institution's overall effectiveness in accomplishing their mission, and their relationships with constituencies outside their institution. The accreditation review teams are usually comprised of other accredited institutions.

Institutional accreditation in the United States fall into two categories: regional and national.

REGIONAL ACCREDITATION

Regional accreditation is granted through six regional bodies or agencies. As stated, these bodies are named after the geographic region which they serve. Some institutions are evaluated by more than one regional agency if their locations cross regional boundaries. To an institution which receives regional accreditation, it means recognition by their peers that they provide a quality education at the college level. Accreditation assures customers - students that the institution has met comparable standards of academic quality and fiscal soundness that is similar to other countries, although our system is voluntary. Schools at any level can gain regional accreditation: 2-year programs (community or junior colleges), 4-year bachelor programs (colleges), and those which also have graduate level programs (colleges and universities). In the U.S., the words "college", "academy", "institute" and "university" do not necessarily confirm the school is regionally accredited (thereby considered for acceptance into higher education institutions) is to check that the school's accreditation is one of the following seven agencies:

- Middle States Association of Colleges and Schools Commission on Higher Education
- New England Association of Schools and Colleges Commission on Institutions of Higher Education
- North Central Association of Colleges and Schools Commission on Institutions of Higher Education
- Northwest Association of Schools and Colleges Commission on Colleges
- Southern Association of Colleges and Schools Commission on Colleges
- Western Association of Schools and Colleges Accrediting Commission
- Community and Junior Colleges/Accrediting Commission for Senior Colleges and Universities

As many of these agencies also accredit secondary schools and technical institutes in their regions, it is important that the accreditation comes from the commissions listed above.

NATIONAL ACCREDITATION

Accreditation assures the student that the school is a legitimate institution, has a curriculum or training plan and holds classes, as national accrediting bodies also perform institutional evaluations; however, these agencies determine their membership by purpose rather than geographical region.

However, this coursework is not transferable to higher education institutions. Other regionally-accredited institutions, credits from nationally-accredited schools and colleges are generally not accepted in transfer toward degree programs. The reason is two-fold: the coursework offered will usually be intended to meet specific occupational markets, and courses/programs taught at nationally-accredited institutions usually do not meet the same academic standards as those taught at regionally-accredited institutions. To education customers, this means that the education received at nationally-accredited institutions performs an important role in providing religious and/or vocational training, however, it is not transferable by nature of the purpose of this education.

SPECIALIZED ACCREDITATION

Specialized accrediting bodies evaluate specific programs of study or colleges within an institution. Their membership is usually determined by field of study or profession. Therefore, an institution can hold regional accreditation institution-wide, and simultaneously hold specialized accreditation in specific disciplines such as architecture, business, engineering and nursing. Master students who plan to enter Doctoral programs should investigate that institution's program to insure graduate programs meet their entrance requirements.

ACCREDITING AGENCIES

REGIONAL INSTITUTIONAL ACCREDITING ASSOCIATIONS

MSA	Middle States Association of Colleges and Schools
NEASC	New England Association of Schools and Colleges
NCA	North Central Association of Colleges and Schools
NASC	Northwest Association of Schools and Colleges
SACS	Southern Association of Colleges and Schools
WASC	Western Association of Schools and Colleges

NATIONAL INSTITUTIONAL AND SPECIALIZED ACCREDITING BODIES

AABC	Accrediting Association of Bible Colleges, Commission on Accreditation
AACSB	American Assembly of Collegiate Schools of Business
AAFCS	American Association of Family and Consumer Sciences
AALE	American Academy for Liberal Education
AALR	American Association for Leisure and Recreation
AALS	Association of American Law Schools
AAMFT	American Association for Marriage and Family Therapy, Commission on Accreditation for Marriage and Family Therapy Education
AANA	American Council on Accreditation of Nurse Anesthesia Educational Programs
ABA	American Bar Association, Council of the Section of Legal Education and Admissions to the Bar
ABET	Accrediting Board for Engineering and Technology
ABFSE	American Board of Funeral Service Education, Committee on Accreditation
ABHES	Accrediting Bureau of Health Education Schools
ACAOM	Accreditation Commission for Acupuncture and Oriental Medicine
ACCE	American Council for Construction Education
ACCET	Accrediting Council for Continuing Education and Training
ACCSCCT	Accrediting Commission of Career Schools and Colleges of Technology
ACCS	Transnational Association of Christian Colleges and Schools, Accreditation Commission
ACEHSA	Accrediting Commission on Education for Health Services Administration
ACEJMC	Accrediting Council on Education in Journalism and Mass Communications
ACF	American Culinary Federation
ACICS	Accrediting Council for Independent Colleges and Schools
ACNM	American College of Nurse-Midwives, Division of Accreditation
ACPE	Association for Clinical Pastoral Education, Inc., Accreditation Commission
ACPE	American Council on Pharmaceutical Education
ADA	American Dental Association, Commission on Dental Accreditation
ADA	The American Dietetic Association, Commission on Accreditation for Dietetics Education
ALA	American Library Association Committee on Accreditation
AOA	American Optometric Association, Accreditation Council on Optometric Education
AOA	American Osteopathic Association, Bureau of Professional Education
AOTA	American Occupational Therapy Association, Accreditation Council for Occupational Therapy Education
APA	American Psychological Association, Committee on Accreditation
APMA	American Pediatric Medical Association, Council on Pediatric Medical Education
APTA	American Physical Therapy Association, Commission on Accreditation in Physical Therapy Education
ASHA	American Speech-Language-Hearing Association, Council on Academic Accreditation
ATS	Association of Theological Schools in the United States and Canada, Commission on Accrediting
AVMA	American Veterinary Medical Association, Council on Education
CAAHEP	Commission on Accreditation of Allied Health Education Programs
CACREP	Council for the Accreditation of Counseling and Related Educational Programs
CADE	Commission on Accreditation for Dietetics Education
CCE	The Council on Chiropractic Education, Commission on Accreditation
CCNE	Commission on Collegiate Nursing Education
CEPH	Council on Education for Public Health
CMTA	Commission on Massage Therapy Accreditation
CNME	Council on Naturopathic Medical Education
COA	Commission of Opticianary Accreditation
COE	Council on Occupational Education
CORE	Council on Rehabilitation Education
CSAC	Computer Science Accreditation Commission
CSWE	Council on Social Work Education
DETC	Distance Education and Training Council, Accrediting Commission
FIDER	Foundation for Interior Design Education and Research
IFSAC	International Fire Service Accreditation Congress
JRCERT	Joint Review Committee on Education in Radiologic Technology

NATIONAL INSTITUTIONAL AND SPECIALIZED ACCREDITING BODIES (continued)

JRCNMT	Joint Review Committee on Educational Programs in Nuclear Medicine Technology
LAAB	Landscape Architecture Accrediting Board
LCME	Liaison Committee on Medical Education
MACTE	Montessori Accreditation Council for Teacher Education, Commission on Accreditation
MEAC	Midwifery Education Accreditation Council
NAAB	National Architecture Accrediting Board
NAACLS	National Accrediting Agency for the Clinical Laboratory Sciences
NACCAS	National Accrediting Commission of Cosmetology Arts and Sciences
NAEP	Council on Accreditation of Nurse Anesthesia Educational Programs
NAIT	National Association of Industrial Technology
NASAD	National Association of Schools of Art and Design, Commission on Accreditation
NASD	National Association of Schools of Dance, Commission on Accreditation
NASM	National Association of Schools of Music, Commission on Accreditation, Commission on Non-Degree-Granting Accreditation, Commission on Community/Junior College Accreditation
NASPAA	National Association of Schools of Public Affairs and Administration
NAST	National Association of Schools of Theatre, Commission on Accreditation
NCATE	National Council for Accreditation of Teacher Education
NLN	National League for Nursing Accrediting Commission
NPWH	National Association of Nurse Practitioners in Women's Health, Council on Accreditation
NRPA	National Recreation and Park Association
PAB	Planning Accreditation Board
SAF	Society of American Foresters
TRACS	Transnational Association of Christian Colleges and Schools

GENERAL EDUCATION DEVELOPMENT

To enter most programs of study, a student must have a high school diploma or a General Education Development (GED) certificate. The GED is a national test accepted by most employers and postsecondary schools as an equivalent to a high school diploma. For more information on the GED and to find the test center closest to you, call the U.S. Department of Education at:

**1 (800) 62-MY-GED
1(800) 626-9433**

Additional GED information may be obtained by calling:

**Arizona Department of Education
(602) 542-5802**

STUDENT FINANCIAL AID

Recent studies show many high school students are not aware they are eligible for financial aid to attend college or vocational school. Unfortunately, many of the neediest students assume they cannot afford to enroll in studies past high school to continue their education. As a prospective college or vocational student, the federal government offers you three general types of financial aid:

- Grants, which are financial aid funds you do not have to pay back;
- Work-Study, which lets you work and earn money to help pay for school; and
- Loans, which are borrowed money you must repay with interest.

To find out more about the above student financial aid programs, write to request a free copy of the *Student Guide* from:

**Federal Student Aid Information Center
P.O. Box 84
Washington, DC 20044**

For answers to specific questions about federal student financial aid matters, you may call the number below at the Federal Student Aid Information Center between 8:00 a.m. and 7:00 p.m. (Central Time), Monday through Friday:

1 (800) 4-FED AID (1-800-433-3243) - The Information Center will:

- help you answer questions asked when you apply for aid;
- check whether a school takes part in federal student aid programs;
- explain student eligibility requirements; and
- explain the process to determine financial aid awards.

If you are hearing-impaired, you may call the toll-free TDD number, 1 (800) 730-8913, at the Information Center for assistance.

The following major student financial programs are available:

Federal Pell Grants

Federal Stafford Loan Program (Stafford)

Federal Direct Student Loans (at some schools)

Federal Work-Study (FWS)

Federal Perkins Loans

Federal Supplemental Educational Opportunity Grants (FSEOG)

Bureau of Indian Affairs Program (BIA)

Job Training Partnership Act (JTPA)

Federal Plus Loan Program (PLUS)

Leveraging Educational Assistance Partnership (LEAP) - formerly known as the State Student Incentive Grant (SSIG)

Additionally, each school may have institutional student aid available. For additional information about institutionally sponsored student financial aid, contact the financial aid administrator at the school you are considering. He or she can tell you what financial aid programs are available at that institution.

If you need financial aid for your postsecondary education, contact the financial aid officer at the institution you would like to attend and do it as early as you can.

NOTICE

The *Arizona College & Career Guide* is published for informational purposes only so that citizens of Arizona may be aware of the postsecondary educational opportunities available throughout the state. Every effort is made to contact organizations which claim status as an Arizona postsecondary institution. Omission of any postsecondary institution, financial assistance, or instructional program is unintentional, or due to the lack of response to the Commission survey. The course offerings, course length, and costs are those in effect at the time the Commission conducts its survey and subject to change throughout the academic year.

The Arizona Commission for Postsecondary Education makes no attempt to approve, recommend, rate, accredit, or otherwise endorse the institutions listed in this directory.

Prospective students should contact the institution of their choice to obtain the latest information.

Western Undergraduate Exchange (WUE) 2003 - 2004

What is WUE?

WUE is the Western Undergraduate Exchange, a program coordinated by the Western Interstate Commission for Higher Education (WICHE). Through WUE, students in western states may enroll in many two-year and four-year college programs at a reduced tuition level: 150 percent of the institution's regular resident tuition. In all cases, WUE tuition is considerably less than non-resident tuition.

Which States Participate?

For academic year 2003 - 2004, the fifteenth year of WUE's operation, resident students from the following states may participate if they meet eligibility requirements:

Alaska	Colorado	Montana	North Dakota	Utah
Arizona	Hawaii	Nevada	Oregon	Washington
California*	Idaho	New Mexico	South Dakota	Wyoming

NOTE: Residents of Hawaii may enroll as WUE students in four-year programs only.

*Although this state is a member of the WICHE Compact, it does not participate in WUE as a receiving state. Some states, however, will accept students from California. Please see each state's listing to determine if this applies. Visit our web site at: <http://www.wiche.edu/sep> for any changes throughout the year.

In addition, students from California are eligible for selected programs in Alaska, New Mexico, North Dakota, South Dakota, Washington, and Wyoming

Programs Available

Virtually all undergraduate fields are available to WUE students at the participating colleges and universities. Some institutions have opened their entire curriculum on a space-available or first-come, first-serve basis; others offer only designated programs.

WUE Bulletin

To learn of the wide array of programs available, consult the *WUE Bulletin*. For more detail, examine individual college and university catalogs. The *WUE Bulletin* is available from the WICHE WUE Contact Office in your state, high school counselors, and admissions offices in participating institutions. In response to the "Internet age" we have placed the *WUE Bulletin* on-line as part of our web site. Any portion or the entire document may be printed for fee. We have just a limited supply of hard copies available. Please check our web site at: www.wiche.edu/sep.

Eligibility

Many institutions require evidence of academic performance, such as ACT/SAT test scores or high school GPA, or place other limits on WUE enrollment. Consult your high school counselor or the the *WUE Bulletin* for details.

Application and Admission

The student obtains application materials from, and submits the application for admission to, the institution in which he/she desires to enroll. **The student must mark prominently on the application for admission that he/she seeks admission as a WUE student.**

Further Information

Further information about specific programs in WUE may be obtained from the admissions office of the participating institution. Information about student eligibility and the operation of the program in any state may be obtained from the home state WUE Contacting Offices.

General questions may be addressed to Student Exchange Programs, Western Interstate Commission for Higher Education, P.O. Box 9752, Boulder, Colorado 80301-9752; or call (303) 541-0214; Fax (303) 541-0291 or visit our web site at: <http://www.wiche.edu/sep>.

Institutions and Programs open to Eligible WUE Students on a Space Available Basis

ALASKA

Since many certificates and associate degree programs available to WUE students are provided in University of Alaska four-year institutions, students should review both this and the following section describing four-year institutions.

TWO-YEAR INSTITUTION

Prince William Sound Community College

- designated programs

FOUR-YEAR INSTITUTIONS

University of Alaska Anchorage

- designated programs

University of Alaska Fairbanks

- designated programs

University of Alaska Southeast

- open programs at three campus locations

ARIZONA

TWO-YEAR INSTITUTIONS

Arizona Western College

- all programs

Central Arizona College

- all programs

Chandler-Gilbert Community College

- all programs

Cochise College

- all programs

Coconino Community College

- all programs

Gateway Community College

- all programs

Glendale Community College

- all programs

Mesa Community College

- all programs

Mohave Community College

- all programs

Paradise Valley Community College

- all programs

Phoenix College

- all programs except Dental Hygiene and Nursing

Pima Community College

- all programs on space-available basis. Exceptions are selected Admissions programs such as health-related professions and aviation.

Rio Salado Community College

- designated programs

Scottsdale Community College

- designated programs

South Mountain Community College

- all programs

Yavapai College

- designated programs

FOUR-YEAR INSTITUTIONS

University of Arizona South

- all 3rd and 4th year programs except B.A., Elementary Education

Northern Arizona University

- designated programs

CALIFORNIA

FOUR-YEAR INSTITUTIONS

California Maritime Academy

- all programs

COLORADO

TWO-YEAR INSTITUTIONS

Aims Community College

- all programs except Radiologic Technology

Arapahoe Community College

- all programs

Colorado Northwestern Community College

- all programs except Dental Hygiene or any of the Criminal Justice Academies

Community College of Aurora

- all programs

Community College of Denver

- all programs

Front Range Community College

- all programs except Nursing

Lamar Community College

- all programs except Nursing

Morgan Community College

- all programs

Northeastern Junior College

- all programs except Nursing

Otero Junior College

- all programs except Nursing

Pikes Peak Community College

- all programs except Natural Resource Technology and Integrated Circuit Fabrication Technology

Pueblo Community College

- all programs

Trinidad State Junior College

- all programs except health-related programs

FOUR-YEAR INSTITUTIONS

Colorado State University

- all programs

Fort Lewis College

- limited to 100 students; not all classes may be open

Mesa State College

- designated programs

Metropolitan State College of Denver

- designated programs

University of Northern Colorado

- Child Health Associate and B.S. Nursing

University of Southern Colorado

- all programs

Western State College of Colorado

- designated programs

HAWAII

FOUR-YEAR INSTITUTIONS

University of Hawaii at Hilo

- all programs

University of Hawaii at Manoa

- designated programs

IDAHO

TWO-YEAR INSTITUTIONS

College of Southern Idaho

- all programs

North Idaho College

- all programs

FOUR-YEAR INSTITUTIONS

Boise State University

- over subscribed programs not available; because participation is limited, final selections are based on GPA, test scores and other criteria

Idaho State University

- over subscribed programs in pharmacy and most health professions not available; because participation is limited, final selections are based on GPA, test scores, and other criteria; students must complete Idaho State University application for admission by February 20.

Lewis-Clark State College

- over subscribed programs not available; early applicants given first consideration; high school or college GPA of 2.8 considered

University of Idaho

- all programs

MONTANA

TWO-YEAR INSTITUTIONS

Dawson Community College

- all programs

Flathead Valley Community College

- all programs

Helena College of Technology of the University of Montana

- designated programs; see *WUE Bulletin* for additional conditions

Montana Tech College of Technology

- all programs; see *WUE Bulletin* for additional conditions

FOUR-YEAR INSTITUTIONS

Montana State University - Billings

- all programs; see *WUE Bulletin* for additional conditions

Montana State University - Bozeman

- the *WUE* scholarship will not be tied to specific academic areas of study

Montana State University Northern

- all degree programs

Missoula College of Technology

- all programs

Montana Tech of the University of Montana

- all programs

The University of Montana

- all programs

Western Montana College of the University of Montana

- all programs

NEVADA

TWO-YEAR INSTITUTIONS

Community College of Southern Nevada

- all programs; only new students eligible

Great Basin College

- all programs; only new students eligible

Truckee Meadows Community College

- all programs; only new students eligible

Western Nevada Community College

- all programs; only new students eligible

FOUR-YEAR INSTITUTIONS

Nevada State & University of Nevada, Las Vegas

- all programs; only new students eligible

University of Nevada, Reno

- all programs; only new students eligible

NEW MEXICO

(New Mexico will accept students from all WICHE states including California)

TWO-YEAR INSTITUTIONS

Eastern New Mexico University

- designated programs at Roswell campus only

New Mexico Junior College

- all programs

Northern New Mexico Community College

- all programs

Santa Fe Community College

- Alternative Fuels and Hazardous & Materials Management

The University of New Mexico Gallup Campus

- all programs

FOUR-YEAR INSTITUTIONS

New Mexico Highlands University

- all undergraduate programs

New Mexico Institute of Mining and Technology

- designated programs; 10 most academically qualified students to be selected; students must apply by March 1 by indicating candidacy on top of Tech's Application for Undergraduate Admission and Scholarship

New Mexico State University

- one program (B.S., Surveying); and all programs for students meeting special GPA and test score requirements

The University of New Mexico

- All interested students MUST submit a completed UNM application and official to the UNM Office of Admissions before April 30, 2004. This requirement applies to first time freshman and transfer students.

NORTH DAKOTA

(North Dakota will accept students from all WICHE States.)

TWO-YEAR INSTITUTIONS

Bismark State College

- all programs

Lake Region State College

- all programs

Minot State University - Bottineau

- all programs

North Dakota State College of Science

- all programs except AS in Dental Hygiene

Williston State College

FOUR-YEAR INSTITUTIONS

Dickinson State University

- all programs except AS in Practical Nursing and the B.S. in Nursing Completion

Mayville State University

- all programs

Minot State University

- all programs

North Dakota State University

- all programs except upper division Architecture, Nursing, and Pharmacy. Lower division courses are open to WUE students

University of North Dakota

- designated programs

Valley City State University

- all programs

OREGON

FOUR-YEAR INSTITUTIONS

Oregon Institute of Technology

- designated programs

Oregon State University

- designated programs

Portland State University

- designated programs

Southern Oregon University

- designated programs

University of Oregon

- designated programs

Western Oregon University

- designated programs

SOUTH DAKOTA

(South Dakota will accept student from all WICHE States.)

Associate Degree Programs available at most South Dakota universities, are open to WUE students as are baccalaureate programs.

FOUR-YEAR INSTITUTIONS

Black Hills State University

- all programs

Dakota State University

- all programs

Northern State University

- all programs

South Dakota School of Mines and Technology

- all programs

University of South Dakota

- all programs

UTAH

All institutions will admit WUE students in programs currently under-enrolled. Students may apply for WUE consideration in any program offered unless otherwise noted.

TWO-YEAR INSTITUTIONS

College of Eastern Utah

- all programs except Nursing

Salt Lake Community College

- all programs except Dental Hygienist and Nursing

Snow College

- all programs

FOUR-YEAR INSTITUTIONS

Dixie College

- designated programs

Southern Utah University

- designated programs

The University of Utah

- designated programs

Utah State University

- all programs

Weber State University

- designated programs

WASHINGTON

(Washington will accept students from all WICHE States.)

FOUR-YEAR INSTITUTIONS

Central Washington University

- all programs

Eastern Washington University

- all programs

Washington State University

- all programs

WYOMING

(Wyoming will accept students from all WICHE States.)

TWO-YEAR INSTITUTIONS

Casper College

- all programs

Central Wyoming College

- all programs

Eastern Wyoming College

- all programs

Laramie County Community College

- all programs

Northwest College

- all programs

Sheridan College

- all programs

Western Wyoming Community College

- all programs

FOUR-YEAR INSTITUTION

University of Wyoming

- all programs

STATE UNIVERSITIES

The Arizona Board of Regents is the governing body of the three public universities. The Governor appoints nine members to the Board subject to Senate confirmation. Each regent serves an eight year term, with the exception of the student regent who serves a one-year term. The Governor and Superintendent of Public Instruction are voting ex-officio members. Board members elect their own officers to annual terms beginning July 1 of each year in accordance with seniority provisions detailed in the bylaws. The appointments are staggered allowing two new regents to be appointed every two years. Board members do not receive a salary for their service. Members of the Board of Regents are responsible for providing policy guidance to the universities. In doing so they oversee the following areas: administration, finance, capital development, student services, human resources, academic affairs, audit, strategic planning, public, and legal affairs.

The Arizona Board of Regents
2020 North Central Avenue, Suite 230, Phoenix, Arizona 85004-4593
(602) 229-2500

ARIZONA STATE UNIVERSITY

Main Campus, P.O. Box 2803, Tempe, AZ 85287-2803 (480) 965-9011 Fax (480) 965-1608 www.asu.edu

West Campus, 4701 West Thunderbird Road, P.O. Box 37100, Phoenix, AZ 85069-7100 (602) 543-5500

East Campus, 6001 South Power Road, Mesa, AZ 85206-0903 (480) 727-3278

Extended Campus, 502 East Monroe Street, Phoenix, AZ (480) 965-9696

Admissions 965-7788 Financial Aid - Pell, Direct Stafford Loans, PLUS Loans, Perkins, LEAP, SEOG, FWS, BIA, SA Trust/University Grants.

Financial Aid 965-3355 Accreditation -NCA For departmental and program accreditation refer to college catalog. ASU is a Research I University.

Enrollment Fall 2003- Main Campus - \$7,359. West Campus - \$6,630. East Campus - \$3,126. Extended Campus/Other - \$11,977

Admission Requirements - Please refer to the ASU General Catalog available in all high school and community college counselors' offices. Specific information about the university and its programs may be requested through Undergraduate Admissions.

Continuing Education - Over 670 off-campus courses are offered. Instructional Television Credit Courses - KAET Channel 8 and cable. Extended Education - (480) 965-9696.

PUBLIC COMMUNITY COLLEGES

The community college system makes up the largest segment of public higher education in Arizona. It was established in 1960 under the Arizona Revised Statutes, Title 15, Chapter, 6, now Title 15, Chapter 12. It consists of 10 districts each governed by a locally-elected board and located in 11 counties. The Maricopa Community College District is the largest of the community college districts with 12 of the 19 community colleges that operate on 34 campuses throughout the State. Because of geographical availability, tuition rates are generally lower than those of the universities and private postsecondary schools, and with the wide variety of degrees, certificates and programs of study offered, practically every resident of Arizona has easy and affordable access to educational services. The educational services provided by Arizona community colleges include:

- the first two years of university-level education—designed for transfer to any Arizona university;
- occupational training programs in technical, vocational and paraprofessional careers;
- general education opportunities;
- continuing education and job skill enhancement;
- academic counseling and job placement services; and
- cultural and community services programs for community enrichment.

Enrollment Requirements

As a prospective Arizona community college student, you must meet one of the follow criteria:

- be a graduate of an accredited high school;
- have successfully completed the General Education Development Certificate of High School Equivalency (GED);
- be an individual of 18 years of age who has not completed high school;

- be a high school student who wishes to take college courses.

Curriculum Matrix

This section includes a curriculum matrix which details the types of educational programs available, the colleges at which they are offered, and the types of degrees or certificates awarded.

Tuition and Fees

Tuition and fees for each college are listed under the individual college heading.

Financial Aid

Financial aid programs are available to qualifying students at each community college. Please see the individual college listing for program types and contact the financial aid office at the community college you wish to attend.

CURRICULA MATRIX FOR ARIZONA'S COMMUNITY COLLEGES FALL 2003 ~ SPRING 2004

The following curricula matrix includes all academic and vocational programs offered by Arizona's community colleges during the academic year 2003 - 2004. This matrix indicates the type of degree or certificate awarded at the completion of each program. The approximate length of time required to complete each certificate is also shown.

LEGEND

Degrees:	Certificates (Classified according to semester credit hours needed for completion):
Associate of Arts1	0-15 semester credit hours 6
Associate of Applied Arts.....2	16-30 semester credit hours..... 7
Associate of Business2A	31-45 semester credit hours..... 8
Associate of Science3	46-60 semester credit hours..... 9
Associate of Applied Science.....4	License position (no certificate)10
Associate of General Studies5	Skill Center Certificate11

DEGREES, CERTIFICATES OR LICENSES

Associate of Arts - This is a college transfer degree and is recommended for students who plan to complete the first two years of a baccalaureate program at the community college. Because the first two years of a baccalaureate program vary considerably among curriculums and institutions, it is usually necessary to design the course work for this degree to satisfy the curriculum outlined in the catalog of the university to which the student intends to transfer.

Associate of Applied Arts - This degree is awarded to students who complete requirements of a specified two-year program.

Associate of Business - This is a college transfer degree and is recommended for students who plan to complete the first two years of a baccalaureate program at the community college. Because the first two years of a baccalaureate program vary considerably among curriculums and institutions, it is usually necessary to design the course work for this degree to satisfy the curriculum outlined in the catalog of the university to which the student intends to transfer.

Associate of Science - This is a college degree and is similar to the Associate of Arts degree, except that the student's major emphasis is in science or engineering course work.

Associate of Applied Science - This degree is awarded to students who complete the requirements of a specified two-year program.

Associate of General Studies - This degree is awarded to students who complete an approved two-year program in general studies.

Certificate - A certificate is awarded to students who have completed an approved vocational program. The length of time necessary to complete certificate programs varies depending upon the achievement of the technical skills and competence necessary in a specific program.

License - A license is awarded to students who have completed a program of study approved by the licensing agency. These programs vary according to the specific licensure requirements.

Note: The Community College Matrix is not available in the on-line Arizona College & Career Guide, however by doing a search of the programs of study, the same results will be obtained. You may also view the community college of your choice and go to their individual web site to obtain course listings.

Graduate Admissions

- Applicants to the Master's Program must submit the following materials:

- A completed Application for Graduate Admissions.
- A short essay of 500 - 1,000 words on your career objectives and how this program will help you reach them.
- Either a sample of your work or documentation for a project you have completed.

In either case you should include a one-page description of what you are submitting.

Standards

- In order to be admitted, applicants must have:
 - Earned a bachelor's degree from a CHEA recognized accredited institution.
 - Completed their undergraduate program with a cumulative grade point average of at least 2.75/4.0.
 - Submitted the required materials.
 - Interviewed successfully with a graduate academic advisor.
 - Been approved by the Graduate Admissions Committee.

AVIATION SCHOOLS

Arizona aviation schools offer various courses to prepare students to qualify for pilot licenses in fixed wing aircraft, helicopters, gliders and air balloons. The requirements for these licenses are established by the Federal Aviation Administration (FAA). The FAA also approves schools which meet established standards of instruction in fixed and rotorcraft. Prospective students should obtain information concerning these requirements by contacting:

Federal Aviation Administration, Flight Standards District Office

The Enrollment Agreement obligates the student and the school for the entire program of instruction. Student's financial obligations will be calculated in accordance with the refund policy in the contract and the school catalog. The content and schedule for the programs and academic terms are described in the school's catalog.

All students will be charged a \$25 registration fee each term. Arrangements for payment of tuition and book charges (if applicable) must be made in advance of the first day of classes for each term in which the student is enrolled. The College charges the student's tuition account for tuition at the beginning of each term in which the student is enrolled.

Detailed below are other educational expenses considered in determining the student's cost of attendance and information on how those costs were arrived. These include personal, room and board, and transportation.

The amount of personal expenses allowed all students is \$190.00 per month. This figure was determined by a national average obtained from the Bureau of Labor Statistics.

Room and board cost are also obtained from the Bureau of Labor and Statistics. The allowable costs for students without dependents who live with their parents is \$303.00 per month. The allowable costs for students without dependents who do not live with their parents and students with dependents is \$602.00 per month.

Transportation costs are calculated by applying the formula stated below or by use of an average cost.

The calculation for determining transportation costs is the average number of one-way trips per week times the average number of miles one way times 4.33 weeks per month times \$32.5 cents per mile, which averages \$116.00 per month.

Information on how the average cost was arrived is available in the Student Finance Office.

COSMETOLOGY and BARBER SCHOOLS

COSMETOLOGY SCHOOLS:

All schools are licensed by the Arizona State Board of Cosmetology and accredited by NACCAS unless noted. All schools provide courses which prepare graduates to take the Arizona State Board of Cosmetology licensing examination in either cosmetology, manicuring or student instructor.

The standard enrollment requirements for:

Cosmetology or Manicuring — Two years of high school or GED;

Student Instructor — Current Arizona cosmetology license, one year of experience, high school graduate or GED.

Course length: Cosmetology - 1,600 hours, Manicuring - 300 hours, Student Instructor - 650 hours, Aesthetician - 600 hours.

The standard curriculum for each course may be obtained from the:

Arizona State Board of Cosmetology, 1721 E. Broadway, Tempe, AZ (480) 784-4539.

Arizona State Board of Barbers, 1400 West Washington, Suite 220, Phoenix, AZ 85007 (602) 542-4498

Refresher Courses for Cosmetologist

Most cosmetology schools offer brush-up and refresher courses for those with previous cosmetology training and experience. Contact the individual school for requirements and costs.

ARIZONA BARBER-STYLING COLLEGE (ABSC)

2842 West Van Buren Avenue, Phoenix, AZ 85009 (602) 484-7248

Financial Aid - None

Accreditation - None

General Enrollment Requirements: The requirements to enroll at ABSC are to be age 16 and up and have a high school diploma or GED or show proof of at least a 10th grade education, four wallet size pictures, \$150.00 registration fee (non-refundable) and \$500.00 down for barber-styling kit

which you keep when you finish the course. Total cost of the course is \$4,950; this amount includes your registration fee and kit. If you have some training in hairstyling or barbering, you need to bring that information with you when you enroll. Our school is self-paced; we have very flexible hours. ABSC is also a bilingual (Spanish) school. ABSC had been operating since May 1996.

Once a student completes the hours required (1500), and they feel competent to take the Arizona State Barber Board written and practical exam, and pass, they will receive a barber-styling license from the State Barber Board.

To be a barber-styling instructor, you need to have worked two years as a licensed barber-stylist and pass the instructor practical and written Arizona State Board examination.

Course length: 1500 hours, total of 8 months training are required by the Arizona State Board of Barbers.

DISTANCE EDUCATION

Distance Education is a formal educational process in which the majority of the instruction occurs when student and instructor are not in the same place. Distance education may employ correspondence study, or audio, video, or computer technologies. Listed below are educational institutions within the State of Arizona that deliver Distance Education opportunities. Please visit their respective Web Sites to access course catalogs for more information. For questions about licensure of a school within the State of Arizona, please contact the Arizona State Board for Private Postsecondary Education at (602) 542-5709.

ARIZONA INSTITUTE OF BUSINESS & TECHNOLOGY & STELLAR INTERNATIONAL INSTITUTE ON-LINE

Web Site: www.aibt.edu

Accreditation: ACICS

Please visit Web Site for more information on courses offered, financial aid, and the application process.

ARIZONA REGENTS UNIVERSITY (ARU) & ARIZONA DISTANCE LEARNING

Web Site: www.azdistancelearning.org

Accreditation: NCA

Arizona Distance Learning is a Web site that catalogs several hundred undergraduate and graduate courses available by distance-learning technology from the three state universities (Arizona State University, Northern Arizona University, and the University of Arizona). The courses are delivered via the Internet, CD-ROM, television and videotape, and by correspondence.

REAL ESTATE SCHOOLS

Arizona real estate schools present two basic categories: those which qualify students to meet the licensing requirements set forth by the Arizona Department of Real Estate, and other real estate related courses. The requirements for an Arizona real estate license are:

Real Estate Salesperson: 18 years of age, 90 hour course of instruction and passing school exam, 4 hour state exam, payment of necessary fees, fingerprinting and background check.

Real Estate Broker: 18 years of age, 36 months active, licensed, experience within the past five years, 90 hour course of instruction and passing school exam, 4 hour state exam, payment of necessary fees, fingerprinting and background check.

Professional Continuing Education: consists of 24 hours of classes in real estate related, professional subjects, completed every 2 years.

Before a real estate school can issue credit to meet the Department of Real Estate requirements, the school must receive a Certificate of Approval issued by the Department. Prospective students may obtain information on approved schools by contacting:

Arizona Department of Real Estate, 2910 North 44th Street, Suite 100, Phoenix, AZ 85018 (602) 468-1414, ext. 100.

TRAINING, EMPLOYMENT and SKILL CENTERS

There are a number of employment and training centers in Arizona providing counseling, training and educational services. Services provided vary, but generally include vocational counseling and training, job referral and placement, basic education and GED preparation, and English as a Second Language. A few employment and training centers offer on-site vocational skills training at no charge and these are noted. Others refer individual students elsewhere for training, depending upon the student's particular needs, with training fees paid by the referring agency. In either instance, training is generally open-entry and open-exit to allow students to enter class when there is an opening, to progress at their own pace, and to graduate upon attaining the required proficiencies. Interested students should contact the employment and training centers for specific information on the services they provide.

ADULT BASIC EDUCATION AND THE GED

The Arizona Department of Education sponsors programs that offer free classes to adults seeking to improve their communication, reading and math skills. The programs are available to individuals 16 years of age or older who are not currently enrolled in any school. Classes include Adult Basic Education, English for Speakers of Other Languages (ESOL), Citizenship and preparation for the General Educational Development (GED) test. The department also provides GED test sites in more than 120 locations and supports more than 1,000 instructional classes in various locations throughout the state. For additional information call: **(602) 542-5280**

ARIZONA'S WORKFORCE DEVELOPMENT SYSTEM

Arizona Department of Commerce, Office of Workforce Development, 3800 North Central Avenue, Suite 1500, Phoenix, AZ 85012 (602) 280-1300

Governor's Council on Workforce Policy (GCWP)

Workforce Policy develops policies and supports the implementation of a system to effectively and efficiently prepare Arizona workers for an ever-changing economy.

Workforce Policy provides staff support to the Governor's Council on Workforce Policy (State Council). The State Council is responsible for advising the Governor on issues related to the duties and responsibilities required by the federal Workforce Investment Act of 1998.

All members of the State Council are appointed by the Governor and represent the many facets of workforce development - business, labor, public education, higher education, economic development, youth activities, employment and training, as well as the Legislature.

The State Council meets quarterly, and the public is encouraged to attend the meetings. A "Call to the Public" is an agenda item at each State Council meeting. Decisions are reached through a collaborative process.

Arizona's Apprenticeship System

Registered apprenticeship is a training system that produces highly skilled workers that meet the demands of employers competing in a global economy. Apprenticeship is a proven strategy that combines on-the-job training with related theoretical and practical classroom instruction to prepare exceptional workers for Arizona's industry.

Private and public sectors - individual employers, employer associations or joint labor/management sponsors, operate registered apprenticeship programs. Program sponsors pay most of the training costs while also paying progressively increasing wages to apprentices as they gain skills. Registered apprenticeship programs can be competency based or time based depending on program sponsor needs.

Arizona currently has more than 120 registered apprenticeship programs in such industries as agriculture, forestry, and fishing; mining; construction; manufacturing; transportation, communications, electric, gas, and sanitary services; and public administration. More than 2,100 apprentices are currently in apprenticeship programs in Arizona.

Job Training

The Arizona Job Training Program supports the design and delivery of training plans that meet unique industry standards and challenges. Under the "Net New Hire" portion of the grant program, businesses can apply for grants that return up to 75% of the costs of training net new employees in jobs that meet wage criteria. The "Incumbent Worker" portion of the grant program will allow for training that upgrades the skills of existing employees. The Incumbent Program can reimburse employers up to a maximum of 50% of allowable training costs.

APPRENTICESHIP MATRIX

<u>OCCUPATION</u>	<u>NATURE OF WORK</u>	<u>ENTRANCE REQUIREMENTS</u>	<u>LENGTH</u>
Boilermaker	Lays out, fabricates and assembles a wide variety of products made of steel.	18 years of age. Willing to travel and perform high or hazardous work. Good mechanical aptitude and knowledge of mathematics.	4 years
Bricklayer	Constructs and repairs structures of masonry materials.	18 years of age.	3 years
Carpenter	Constructs, erects, installs and repairs structures and fixtures of wood, plywood and wallboard.	Minimum age 17. Able to do work involving precise measurements.	4 years
Construction Equipment Mechanic	Repairs, rebuilds and adjusts construction equipment except those systems which require diesel mechanics.	18 years of age.	3 years
Cook/Chef	Responsible for food preparation in restaurants.	18 years of age.	3 years
Driver	Operates 2 or 3 axle diesel trucks including dumps, mixer, flatrack and water truck.	18 years of age.	1 year
Drywall/Lather	Installs the support backings on which plaster, stucco, or concrete materials are applied.	18 years of age. Good vision and hand/eye coordination.	4 years
Drywall/Tape Finisher	Seals joints between plasterboard or other wallboards to prepare wall surface for painting or papering.	18 years of age.	2 years
Electric Relayman	Repairs defects in electric apparatus such as relays and crossbar switches, used in protection, communication and control devices.	18 years of age.	4 years
Electrician	Installs, tests, and repairs electrical systems and equipment.	18 years of age. One year algebra. Able to do work involving precise measurements. Good eyesight and color discrimination.	5 years
Engineer, Operating	Operates and maintains a wide variety of powered construction equipment.	18 years of age.	3 years
Glass Setter (Glazier)	Cuts, fits, and installs plate glass, mirrors and special items such as leaded glass pannels.	Minimum age 17.	4 years.
Insulation (Asbestos) worker.	Applies insulating material to exposed surfaces or equipment.	18 years of age.	4 years
Iron Worker	Raises, places and unites girders, columns and other structural steel members to form completed structures or structure frameworks.	18 years of age. No fear of heights and good mechanical aptitude.	3 years
Line Erector	Constructs and maintains the network of power lines which carry electricity from generating plants to consumers.	18 years of age. No fear of heights.	3-1/2 years
Machinist	Uses a variety of hand and power tools to shape metal parts to precise dimensions.	Minimum age 18. Good hand/eye coordination. Basic education in mathematics and science.	4 years
Mason (Cement)	Finishes surface of poured concrete floors, walls, sidewalks or curbs to specifications.	18 years of age. Good hand/eye coordination. Basic education in mathematics and science.	4 years
Mechanic Heavy Duty	Construction equipment mechanic. Repair, rebuilding and maintenance of diesel construction equipment.	18 years of age.	3 years

Mechanic, Welder	Analyzes malfunction and repairs, rebuilds or adjusts construction equipment except those systems which require diesel mechanics.	18 years of age.	3 years
Metal Fabricator	Uses a variety of hand and power tools to shape metal parts to precise dimensions.	18 years of age. Good mechanical	3 years
Millwright	Moves and installs heavy industrial machinery and equipment.	18 years of age. Good mechanical aptitude.	4 years
Painter	Prepares interior and exterior building surfaces and then applies paint and other preservative and decorative materials.	18 years of age. Normal color vision.	3 years
Pipe Fitter, Refrigeration	Installs, services and repairs air-conditioning units and commercial refrigeration equipment.	18 years of age. Able to do work	5 years
Plant Operator	Repairs, maintains and operates a wide variety of plant equipment and controls all components of plant operation, including the maintenance of records.	18 years of age.	5 years
Plasterer	Applies plaster to interior walls and ceilings to produce surface of desired texture for final finishing.	18 years of age.	3 years
Plumber	Lays out, installs, repairs and remodels, water , heating and air pipes and fixtures, wast disposal pipes and appliances.	18 years of age. Able to do work requiring precise standards.	5 years
Roofer	Applies composition roofing and other materials to the roofs of buildings and waterproofs other building surfaces.	18 years of age.	2 years
Sheet Metal Worker	Fabricates and installs a wide vaariety of products made from thin metal sheets including those used in air conditioning and heating systems, roofing, siding, partitions and store fronts.	18 years of age. Able to do work requiring precise standards. Good education in mathematics.	5 years
Steamfitter	Fabricates, assemblies, installs and maintains piping systems, fixtures and equipment for steam, hot water, heating, cooling lubricating and industrial systems.	18 years of age. Able to do work requiring precise standards.	5 years
Tool & Die Maker	Prepares layouts, machines, fits, assembles, and finishes metal parts to make and repair dies for diecasting of metal products and metal molds.	18 years of age. Working knowledge of mathematics and physics.	4 years

Workforce Investment Act of 1998

On August 8, 1998, President Clinton signed the Workforce Investment Act of 1998 (WIA), a comprehensive reform legislation that supersedes the Job Training Partnership Act (JTPA) and amends the Wagner-Peyser Act. WIA also contains the Adult Education and Family Literacy Act (Title II) and the Rehabilitation Act Amendments of 1998 (Title IV).

WIA reforms Federal job training programs and creates a new, comprehensive workforce investment system. The reformed system is "customer-focused," to help Americans access the tools they need to manage their careers through information and high quality of services and to help U.S. companies find skilled workers.

The purpose of the Federal WIA is to establish programs to prepare youth and adults to enter or re-enter the labor force and to afford job training to eligible adults that are facing serious barriers to employment and who are in need of such training to obtain productive employment and quality of life. WIA also provides basic readjustment and re-training services to eligible dislocated workers (individuals affected by a mass lay-off).

In consultation with local elected officials (e.g., Boards of Supervisors, City Council, and Tribal chief executive officers), former Arizona Governor Jane Dee Hull designated 16 local workforce investment areas (LWIAs) that oversee local One-Stop Career Centers and administer local WIA programs.

In Arizona, the Federal WIA funds are directed through the Governor's Council on Workforce Policy, which is staffed by the Office of Workforce Policy within the Arizona Department of Commerce and administered by the Workforce Development Administration within the Arizona department of Economic Security (DES). The DES then distributes the funds based on a formula to local Workforce Investment Areas (LWIAs) to provide the services to local residents through local One-Stop Career Centers.

Services under WIA

Adult, dislocated workers and youth services can be accessed through local One-Stop Career Centers. There are three levels/tiers of services:

Tier 1 - Core Services - through self-help or staff assistance: eligibility determination, intake, initial needs assessment, job search and placement, employment information, availability of support services;

Tier 2 - Intensive Services - for those who are not able to find employment through core services: Assessment of skills and service needs, individual employment plan, group and individual counseling, case management, and short term pre-vocational services;

Tier 3 - Training Services - for those adults and dislocated workers who have met eligibility requirements for intensive services: Occupational training, On-the-job training, programs that combine workplace training with related instruction, training programs operated by private sector, skill upgrading and retraining, job readiness training, adult education and literacy activities provided in combination with any of the Core and Intense services, and customized training conducted with a commitment by an employer or groups of employer to employ an individual upon successful completion of the training.

ARIZONA CAREER RESOURCE NETWORK (AzCRN)

1535 West Jefferson Street, #42, Phoenix, AZ 85007

www.ade.az.gov/cte/azcrn

Cost Information: Arizona Futures: FREE Career Information Delivery System on CD-ROM. Arizona Futures contains 13 different modules and 34 help screen documents designed to assist individuals with assessment and career exploration. Training is provided upon request. For more information, please call (602) 364-1525.

The purpose of the Arizona Career Resource Network (AzCRN) is to promote services and products that will improve career decision making among residents of the State of Arizona.

AzCRN is the successor to the Arizona State Occupational Information Coordinating Committee (ASOICC) which performed similar functions in the State of Arizona for many years. Many of the products and services of the ASOICC program will be continued by AzCRN as well as new updates to the program.

AzCRN receives Carl Perkins III funding at the national level from the Office of Vocational and Adult Education (OVAE) in the U.S. Department of Education. OVAE has assumed many of the responsibilities of the National Occupational Information Coordinating Committee (NOICC).

At the State level, AzCRN funds are administered by the Arizona Department of Education.

Networking goals of AzCRN:

- provide centralized clearinghouse of career resources
- bring better career resources to Arizona residents
- promote two way communication:
 - between agencies, among professionals, and with customers/students
- locate best sources for:
 - assessments, and career exploration

ARIZONA'S ONE-STOP CAREER CENTER'S

DES, One-Stop Career Center Project, P.O. Box 6123, Site Code 901A, Phoenix, AZ 85005 (602) 542-1250 Fax (602) 542-2273

One-Stop Centers are a single point-of-entry to a network of employment and educational programs and providers in each community. They help job seekers access the tools they need to manage their careers through high quality information and services and help employers find skilled workers. Information about job vacancies, career options, student financial aid, relevant employment trends, and instruction on how to conduct a job search, write a resume, or interview with an employer is available to anyone in the United States.

Each One-Stop Center integrates the services of the following federally-funded programs, through staff co-location, coordination of services, and integration activities:

- Programs authorized by Title 1 of the Workforce investment Act of 1998.
- Job Service
- Adult Education and Literacy
- Vocational Rehabilitation
- Welfare to Work
- Senior Community Service Employment Program
- Postsecondary Vocational Education
- North American Free Trade Agreement (NAFTA)/Transition Adjustment Assistance (TAA)
- Veterans' Employment & Training Services

ARIZONA'S ONE-STOP CAREER CENTER'S (continued)

- Employment and Training activities - Community Services Block Grant Act
- Employment and Training activities - Housing and Urban Development (HUD)
- Unemployment Insurance

ARIZONA TECH PREP

1535 West Jefferson, Phoenix, AZ 85007 (602) 542-5356 Fax (602) 5421849

www.aztechprep.org

Tech Prep is a National educational initiative that involves restructuring traditional curricula and introducing new teaching approaches at the secondary and postsecondary levels. Viewed as one of the most innovative and effective educational reform efforts in American history, Tech Prep connects learning to career pathways and provides students with the knowledge, skills and behaviors they need to compete successfully in the technologically advanced workplace of tomorrow.

Community colleges and high schools around the state have partnered to jointly design and implement coordinated sequences of instruction to link high school and postsecondary education. The state is divided into 12 consortia which are overseen by individual leadership teams and a local tech prep director. Tech Prep provides each student with:

- A career pathway with an identified sequence of courses which lead to employment.
- Employability and technological skills.
- Advanced occupational training identified in partnership with business and industry.
- Articulated programs leading to certification and/or a degree.
- A curriculum integrating academic and occupational learning and application.

Please call or visit our web site for more information.

CAREER AND TECHNICAL EDUCATION

Arizona Department of Education, 1535 West Jefferson Street, Phoenix, AZ 85007 (602) 542-5282 Fax (602) 542-1849

There are five categories that fall under the Career and Technical Education program of the Arizona Department of Education. They are:

- Accountability Programs Improvement
- Career Pathways
- Federal CTE Programs
- Grants and Services
- Workforce Development

Please call or visit our web site for more information.

EMPLOYMENT & TRAINING FOR OLDER WORKERS

DES, Aging and Adult Administration, P.O. Box 6123, Site Code 950A, Phoenix, AZ 85007 (602) 542-4446

The Arizona Aging & Adult Administration (A&AA) is responsible for the administration of a statewide system of social services and programs for the elderly. A&AA administers the Senior Community Service Employment Program which is funded through Title V of the Older Americans Act. It provides employment and training opportunities for persons over 55 years of age or older who have incomes at or below the federally established poverty level. Qualifying requirements are: Age 55 or older, Must be an Arizona resident, Current income does not exceed 125% of the federal Office of Management and Budget poverty level.

FRED G. ACOSTA JOB CORPS CENTER

901 S. Campbell, Tucson, AZ 85719 (520) 792-3015 Fax (520) 628-1552 In Arizona (800) 523-0746

www.acostajobcorps.com

The goal of the Fred G. Acosta Job Corps is twofold: To teach marketable skills in a safe and supportive setting, and to find meaningful employment for students when they leave the program. One of the things which separates Job Corps from other vocational training programs, is that preparation for employment includes academic skills and social skills training in addition to vocational training. Students complete that training at their own pace. Some spend as little as six months, while others spend as long as two years in order to complete the level of training which best meets their needs. Evaluations and staff monitoring assure that progress is being made. Job Corps eliminates the barriers to completing vocational training by providing housing, meals, and medical services. This allows students to concentrate on completing their training and getting a job.

Entry into the Job Corps is voluntary. A young person's choice to enroll in Job Corps for training is their first positive step in preparing for their future. There are many more choices for students to make. The staff at Fred G. Acosta Job Corps are well-trained, committed and highly motivated to provide the support and encouragement for students to make the best choices for maximizing their potential.

The safety of students leaves no room for choices. A policy of zero tolerance for current illegal drug use and violence on Center is strictly enforced. Students who choose not to comply with this policy are terminated from the program.

Job Corps works. We know it, former students know it, and employers know it. We want you to know it, too. We'd like to introduce you to the Fred G. Acosta Job Corps, its staff and its students. We want to pique your interest and hope you'll want to know more about this alternative educational opportunity available to young people 16-24. (This upper age limit does not apply to qualified applicants with disabilities.) You are invited to attend one of our weekly tours held every Tuesday at 8:00 a.m. and every Thursday at 1:00 p.m.

The Fred G. Acosta Job Corps is an equal opportunity program and is prohibited from discrimination on the basis of race, national origin, sex, religion, and disability. If you need a reasonable accommodation to complete the eligibility determination process, please contact the Career Services Manager at (520) 792-3015. Please let us know as soon as possible so that there is enough time to arrange the accommodation. Please call or visit our web site at: www.acostajobcorps.com for additional information.

HOMELESS PROGRAMS

DES, State Homeless Coordinator, P.O. Box 6123, Site Code 086Z, Phoenix, AZ 85005 (602) 542-6647

The Stewart B. McKinney Homeless Assistance Act provides programs to meet the needs of homeless people: Emergency Shelter & Food, Mental & Physical Health Care, Housing, Job Training & Other Services

JOB CORPS

Phoenix Job Corps, 518 South 3rd Street, Phoenix, AZ 85004 (602) 254-5921

www.phxjcc.org

Entrance Requirements: Must be 16-24 years of age, not attending school, underemployed or unemployed, and from low income households.

Our program offers cash bonuses for good performance, counseling and job placement after graduation. Job Corps is federally funded and is administered by the U.S. Department of Labor. Please call or visit web site for additional information.

JOB SERVICE

DES, Employment Security Administration, P.O.Box 6123, Site Code 910A, Phoenix, AZ 85005

www.de.state.az.us

The federal Wagner-Peyser Act provided for the establishment of the U.S. Employment Service with a system of public employment offices nationwide. Wagner-Peyser funds received by Arizona are used for many job related services including: job search/placement services, employment counseling services, recruitment services, occupational testing, layoff services, technical services for employers, occupational & labor market information, and assessment and referral to employers. Please call or visit our web site for additional information.

NATIVE AMERICAN EMPLOYMENT & TRAINING PROGRAMS

P.O. Box 6123, Site Code 901A, Phoenix, AZ 85005 (602) 542-1250 Fax (602) 542-2273

www.aspe.hhs.gov/cfda/

Objectives: To afford job training to Native Americans facing serious barriers to employment, who are in special need of such training to obtain productive employment. To reduce the economic disadvantages among Indians and others of Native American descent and to advance the economic and social development of such people.

PORTABLE PRACTICAL EDUCATIONAL PREPARATION (Project PPEP)

Portable Practical Educational Preparation (Project PPEP) operates the WIA, Section 167 program for Migrant and Seasonal Farm workers. Services are offered throughout the state at various community offices and include On-The Job training, Job Readiness, Commercial Drivers License, Apprenticeship, industry specific vocational training in various fields, and job placement assistance. PPEP also provides classes in English as a Second Language, Computers, Construction, GED preparation and some Adult Basic Education in various areas, along with other referral assistance.

www.de.state.az.us/rsa/

Our mission is to work with individuals with disabilities to achieve increase independence and/or gainful employment through the provision of comprehensive rehabilitative and employment support services in a partnership with all stakeholders. Please call or visit our web site for more information about the following programs offered:

- Vocational Rehabilitation (VR)
- Independent Living Rehabilitation (ILR)
- Employment Support Services (ESS)
- Arizona Industries for the Blind (AIB)
- Business Enterprise Program (BEP)

VETERANS PROGRAMS (Department of Veterans Affairs)

The Veterans Services Division provides a network of Veterans Benefits Counselors (VBC's) who give information, counsel and assistance to Veterans, their dependents and survivors in matters pertaining to federal and state benefits earned by honorable service in the armed forces of the United States. Veteran Benefits Counselors travel to all fifteen counties of the state. Division offices are located in Flagstaff, Lake Havasu City, Phoenix, Prescott, Sierra Vista, Tucson, and Yuma. For a schedule of the monthly itinerant travel to your area, please call 1-800-852-VETS (8387).

Veterans Benefits Counselors will help you: process compensation and pension applications; appeal VA decisions; file for survivors death benefits; apply for aid and attendance and housebound benefits; certification of claim documents; request for military service records; upgrade military discharges; apply for special Veteran license plates; provide information on general state benefits and assist with other questions about Veteran benefits and entitlements. Our Veterans Benefits Counselors are accredited by the U.S. Department of Veteran Affairs and certified proficient by the State of Arizona to assist the state's Veteran population.

Each State has a Veteran's State Approving Agency (SAA) for eligible schools programs for the education/training of Veterans. Congress has determined the each State should create an agency to approve the programs within their borders and to determine which programs were appropriate for Veterans to enroll in and to utilize their VA educational benefits.

As State entities acting on behalf of the Federal Government, the SAA's are an outstanding example of the workability of the State-Federal partnership, allowing Federal interests to be pursued at the local level while preserving the identity, interests and sovereignty of States' Rights in education.

The primary responsibility and focus of the SAA's continues to be the review, evaluation and approval of quality programs of education and training under State and Federal criteria. SAA's continue to conduct on-site supervisory visits to approved institutions and schools seeking approval. They continue to provide technical assistance to all interested parties and are engaged in outreach activities to foster the usage of the GI Bill. Further, they continue to act as state liaison in assisting military installations to provide base personnel with quality educational offerings.

The SAA's have grown with the changes in our society over the past fifty years. They have become advocates for quality education and training for Veterans and other eligible persons. They have become educational partners with the institutions themselves, facilitating even greater and more diverse educational opportunities for Veterans. They have become strong advocates for the usage of the GI Bill and have developed a working partnership with the Federal government.

The programs which can be approved are found in institutions of higher learning (colleges and universities), non-degree institutions (vocational and technical schools), apprenticeship programs other on-the-job training programs, and flight training schools. Each State reviews the appropriateness of each program as to its own standards and laws in addition to VA rules and regulations along with any other applicable laws and/or regulations. Then it is either approved or disapproved; continuous supervision is required of approved programs.

The Montgomery GI Bill (MGIB) program provides up to 36 months of education benefits. This benefit may be used for degree and certificate programs, flight training, apprenticeship/on-the-job training and correspondence courses. Remedial, deficiency, and refresher courses may be approved under certain circumstances. Generally, benefits are payable for 10 years following your release from active duty. This program is commonly known as Chapter 30.

On October 30, 2000, the President signed into law an amendment to the MGIB - Active Duty education program that permits VA to pay a Tuition Assistance Top-up benefit. The amount of the benefit can be equal to the difference between the total cost of a college course and the amount of Tuition Assistance that is paid by the military for the course.

Work Study Program: This program is available to any student receiving VA education benefits who is attending school three-quarter time or more. An individual working under this program may work at the school Veterans' office, VA Regional Office, VA Medical Facilities, or at approved State employment offices.

Work-study students are paid at either the State or Federal minimum wage, whichever is greater. If you have questions on this program contact our toll-free number at 1-888-442-4551. For further detailed information, please contact the agencies listed below:

VOCATIONAL TECHNOLOGICAL EDUCATION, CAREER AND TECHNICAL EDUCATION

Arizona Department of Education, 1535 West Jefferson, Phoenix, AZ 85007 (602) 542-5282

Arizona provides a comprehensive system of vocational technological education utilizing middle schools and high schools, vocational/technical centers, community colleges and community-based organizations. Vocational technological programs are designed to provide students with vocational exploration, core skill development and specific vocational preparation. Vocational technological programs provide students with a coherent sequence of instruction, integrate academic and technical skills, and assist students as they obtain employment and/or continue their education.

These programs are supported through a variety of state and local funding sources. Programs also receive financial support through various federal sources, including the Carl D. Perkins Act. The State Board of Vocational and Technological Education, in conjunction with the State Board of Directors for Community Colleges of Arizona, provides leadership and support for this system of vocational technological education.
