ARL Academic Health Sciences Library Statistics is published annually by

Association of Research Libraries
21 Dupont Circle, NW, Suite 800
Washington, D.C. 20036
Telephone: (202) 296-2296
FAX: (202) 872-0884
email: pubs@arl.org

The *ARL Academic Health Sciences Library Statistics* datafiles,
with accompanying documentation, are available at
<http://www.arl.org/stats/lawmed/> .

The tables presented in this publication are not indicative of performance and outcomes and should not be used as measures of library quality. In comparing any individual library to ARL medians or to other ARL members, one must be careful to make such comparisons within the context of differing institutional and local goals and characteristics.

HIGHLIGHTS
ARL ACADEMIC HEALTH SCIENCES LIBRARY STATISTICS, 2004-05

- Out of 113 ARL university libraries, 67 responded to this survey.¹
- Health Sciences libraries reported median values of 243,011 volumes held and 4,041 gross volumes added. The full-time equivalent of 2,537 staff were employed by these libraries during the year.
- Responding libraries reported total expenditures of \$229,669,155.² As seen in the graph below, library materials made up the largest portion of that total, with 44.95% of aggregated expenses falling under that category.
- Health sciences libraries reported a total of \$40,211,607 on electronic materials, or a median of 42.85% of their total materials budgets. This includes a total of \$36,656,698 on electronic serials.

Expenditures in ARL Health Sciences Libraries, 2004-05

¹ 70 university libraries reported a Health Sciences library on the 2004-05 *ARL Statistics*. British Columbia, Brown, Laval, Manitoba, Missouri, and Wayne State included Health Sciences library data with the *ARL Statistics*, but did not respond to this survey. Cornell and Indiana did not include a Health Sciences library on the *ARL Statistics*, but submitted a response to this survey.

² This figure includes Canadian universities, whose expenditures were converted to U.S. dollars at the rate of 1.24971 Can\$ = 1 US\$, the average monthly noon exchange rate published in the *Bank of Canada Review* for the period July 2004-June 2005.

ARL STATISTICS 2004-05

HEALTH SCIENCES LIBRARY WORKSHEET

This worksheet is designed to help you plan your submission for the 2004-05 *ARL Statistics*. Include **ONLY** those libraries which would appear in the *ARL Academic Health Sciences Library Statistics* publication.

Please respond to all questions. If an exact figure is unavailable, use "NA/UA". If the appropriate answer is zero or none, use "0."

Reporting Institution _____ Date Returned to ARL _____

Report Prepared by (name) _____

Title _____

Email address _____ Phone number _____

Contact person (if different) _____

Title _____

Email address _____ Phone number _____

PAGE ONE – VOLUMES

1. Volumes held June 30, 2005

1a. Volumes held June 30, 2004 (1.a) _____

1b. Volumes added during the year

(i) Volumes added – Gross (1.b.i) _____

(ii) Volumes withdrawn during year (1.b.ii) _____

(*Net Volumes Added: 1.b.i – 1.b.ii*) (1.b) _____

(*Volumes held June 30, 2005: 1.a + 1.b*) (1) _____

2. Number of monographic volumes purchased (2) _____

3. Basis of volume count is: (3) _____ Physical
_____ Bibliographic

PAGE TWO – OTHER COLLECTIONS

SERIALS

4. Total number of current serials received, including periodicals

4a. Number of current serials purchased (4a) _____

4b. Number of current serials received but not purchased (4b) _____
(Exchanges, gifts, deposits, etc. See instructions.)

(Total serials received: 4.a + 4.b) (4) _____

5. Government documents are included in count of Current Serials? (5) _____ Yes _____ No

OTHER LIBRARY MATERIALS

6. Microform units (6) _____

7. Government documents not counted elsewhere (7) _____

8. Computer files (8) _____

9. Manuscripts and archives (linear ft.) (9) _____

AUDIOVISUAL MATERIALS

10. Cartographic (10) _____

11. Graphic (11) _____

12. Audio (12) _____

13. Film and Video (13) _____

PAGE THREE – EXPENDITURES

- 14. Are the below figures reported in Canadian dollars?** (14) Yes
 No
- 15. Total Library Materials Expenditures**
- 15a. Monographs (15a) _____
- 15b. Current serials, including periodicals (15b) _____
- 15c. Other Library Materials (15c) _____
- 15d. Miscellaneous (15d) _____
- (Total library materials: 15.a + 15.b + 15.c + 15.d) (15) _____
- 16. Contract binding** (16) _____
- 17. Total Salaries and Wages**
- 17a. Professional staff (17a) _____
- 17b. Support staff (17b) _____
- 17c. Student assistants (17c) _____
- (Total salaries and wages: 17.a + 17.b + 17.c) (17) _____
- 18. Fringe benefits are included in expenditures for salaries and wages?** (18) Yes
 No
- 19. Other operating expenditures** (19) _____
- 20. Total library expenditures** (15 + 16 + 17 + 19) (20) _____

ELECTRONIC MATERIALS EXPENDITURES

- 21. Computer files (One-time/monographic purchases.)** (21) _____
- 22. Electronic serials** (22) _____
- 23. Bibliographic Utilities, Networks, and Consortia**
- 23a. From internal library sources (23a) _____
- 23b. From external sources (23b) _____
- 24. Computer hardware and software** (24) _____
- 25. Document Delivery/Interlibrary Loan** (25) _____

PAGE FOUR – PERSONNEL AND PUBLIC SERVICES

PERSONNEL (Round figures to nearest whole number.)

26. Total Staff FTE

26a. Professional staff (26a) _____

26b. Support staff 26b) _____

26c. Student assistants (26c) _____

(Total staff FTE: 26.a + 26.b + 26.c) (26) _____

STAFFED SERVICE POINTS AND HOURS

27. Number of staffed library service points (27) _____

28. Number of weekly public service hours (28) _____

INSTRUCTION

29. Number of library presentations to groups (29) _____

29a. Figure based on sampling? (29a) _____ Yes _____ No

30. Number of total participants in group presentations reported in line 29
(30) _____

30a. Figure based on sampling? (30a) _____ Yes _____ No

REFERENCE

31. Number of reference transactions (31) _____

31a. Figure based on sampling? (31a) _____ Yes _____ No

PAGE FIVE – PUBLIC SERVICES AND LOCAL CHARACTERISTICS

CIRCULATION

- 32. Number of initial circulations (excluding reserves) (32) _____
- 33. Total circulations (initial and renewals, excluding reserves) (33) _____

INTERLIBRARY LOANS

- 34. Total number of filled requests provided to other libraries (34) _____
- 35. Total number of filled requests received from other libraries or providers (35) _____

Ph.D. DEGREES AND FACULTY

- 36. Number of Ph.D.s awarded in FY2004-05 (36) _____
- 37. Number of fields in which Ph.D.s can be awarded (37) _____
- 38. Number of full-time instructional faculty in FY2004-05 (38) _____

ENROLLMENT – FALL 2004

(Line numbers refer to IPEDS survey form.)

- 39. Full-time students, undergraduate and graduate (39) _____
(Add line 8, columns 15 & 16, and line 14, columns 15 & 16.)
- 40. Part-time students, undergraduate and graduate (40) _____
(Add line 22, columns 15 & 16, and line 28, columns 15 & 16.)
- 41. Full-time graduate students *(Line 14, columns 15 & 16.)* (41) _____
- 42. Part-time graduate students *(Line 28, columns 15 & 16.)* (42) _____

FOOTNOTES

On the web form, you will be able to add footnotes to individual questions, as well as footnotes that apply to your entire institution. Please provide any information which would clarify the figures submitted, e.g., the inclusion of branch campus libraries or any special projects which might cause radical increases or decreases from the 2003-04 data. **The form will not be able to provide your institution’s 2003-04 footnotes.** Please make an effort to word your footnotes in a manner consistent with notes appearing in the published report, so that the ARL Office can interpret your footnotes correctly.

Submit the completed questionnaire by **December 20, 2005**

For assistance, please e-mail Martha Kyrillidou (martha@arl.org) or Mark Young (stats-ra@arl.org)
Tel. (202) 296-2296.

ARL STATISTICS QUESTIONNAIRE, 2004-05

INSTRUCTIONS FOR COMPLETING THE QUESTIONNAIRE

General Instructions

Definitions of statistical categories can be found in NISO Z39.7-2004, *Information Services and Use: Metrics & statistics for libraries and information providers--Data Dictionary* (<http://www.niso.org/emetrics/current/index.html>). ARL has been modifying the interpretation of the standard definitions to address questions posed by the library staff at various member institutions that complete the survey and with feedback from the ARL Statistics and Assessment Committee (<http://www.arl.org/stats/program/meeting.html>).

Please do not use decimals. All figures should be rounded to the nearest whole number.

Please respond to every question. If an exact figure cannot be provided, use NA/UA to indicate that the figure is either unavailable or not applicable. If the appropriate answer is zero or none, use **0**.

Although the form allows for data to be entered from both main and branch campuses, an effort should be made to report figures for the main campus only. (The U.S. National Center for Education Statistics, Integrated Postsecondary Education Data System (IPEDS) defines a **branch institution** as “a campus or site of an educational institution that is not temporary, is located in a community beyond a reasonable commuting distance from its parent institution, and offers organized programs of study, not just courses.”) If figures for libraries located at branch campuses are reported, please specify which branch libraries are included and which ones are excluded in the notes below.

A **branch library** is defined as an auxiliary library service outlet with quarters separate from the central library of an institution, which has a basic collection of books and other materials, a regular staffing level, and an established schedule. A branch library is administered either by the central library or (as in the case of some law and medical libraries) through the administrative structure of other units within the university. Departmental study/reading rooms are not included.

The questionnaire assumes a fiscal year ending **June 30, 2005**. If your fiscal year is different, please indicate this in the notes below by adjusting the reporting period.

Footnotes. Explanatory footnotes will be included with the published statistics. Provide any notes you may have in the footnotes area at the end of the survey. Reporting libraries are urged to record there any information that would clarify the figures submitted in that line, e.g., the inclusion and exclusion of branch campus libraries. Please make an effort to word your footnotes in a manner consistent with notes appearing in the published report, so that the ARL Office can interpret your footnotes correctly.

Specific Instructions

Question 1. Volumes in Library. Use the ANSI/NISO Z39.7-2004 definition for **volume** as follows:

a single physical unit of any printed, typewritten, handwritten, mimeographed, or processed work, distinguished from other units by a separate binding, encasement, portfolio, or other clear distinction, which has been cataloged, classified, and made ready for use, and which is typically the unit used to charge circulation transactions. Either a serial volume is bound, or it comprises the serial issues that would be bound together if the library bound all serials.

Include duplicates and bound volumes of periodicals. For purposes of this questionnaire, unclassified bound serials arranged in alphabetical order are considered classified. Exclude microforms, maps, nonprint materials, and uncataloged items. If any of these items cannot be excluded, please provide an explanatory footnote

Include government document volumes that are accessible through the library's catalogs regardless of whether they are separately shelved. "Classified" includes documents arranged by Superintendent of Documents, CODOC, or similar numbers. "Cataloged" includes documents for which records are provided by the library or downloaded from other sources into the library's card or online catalogs. Documents should, to the extent possible, be counted as they would if they were in bound volumes (e.g., 12 issues of an annual serial would be one or two volumes). Title and piece counts should not be considered the same as volume counts. If a volume count has not been kept, it may be estimated through sampling a representative group of title records and determining the corresponding number of volumes, then extrapolating to the rest of the collection. As an alternative, an estimate may be made using the following formulae:

$$\begin{aligned} &52 \text{ documents pieces per foot} \\ &10 \text{ "traditional" volumes per foot} \\ &5.2 \text{ documents pieces per volume} \end{aligned}$$

Include e-book units, as long as these e-books have been purchased and are owned by your library. If you have access to netLibrary titles as a result of participating in various consortia, **do not** report these e-books as your library's property unless the e-books actually belong to your library. If the books were purchased by a consortium, they may belong to the consortium itself and not to the participating libraries. Report only the number of e-books that belong to your library and are cataloged, classified and made ready for use. Provide a footnote explaining how many e-books you are reporting, preferably by specifying the products and the number of titles in a note.

For information on how to count items housed in remote storage, see the Interim Guidelines for Counting Materials Housed in Library Storage Centers, at <http://www.arl.org/stats/arlstat/storage.html> .

If either formulas or sampling are used for deriving your count, please indicate in a footnote.

Question 1b. Volumes Added. Include only volumes cataloged, classified, and made ready for use. Include government documents if they have been included in the count of volumes on line 1a. Do not include as part of Volumes Added Gross any government documents or other collections (large gift collections or e-book packages) that were added to the collection as the result of a one time download or addition to the OPAC. Include these items in Volumes Held of the previous year (Line 1a) and provide a footnote explaining the revision of Line 1a.

Include e-book units, as long as these e-books have been purchased and are owned by your library. If you have access to netLibrary titles as a result of participating in various consortia, **do not** report these e-books as your library's property unless the e-books actually belong to your library. If the books were purchased by a consortium, they may belong to the consortium itself and not to the participating libraries. Report only the number of e-books that belong to your library and are cataloged, classified and made ready for use. Provide a footnote explaining how many e-books you are reporting, preferably by specifying the products and the number of titles in a note.

Question 2. Monographic Volumes Purchased. Report number of volumes purchased; do not include volumes received or cataloged. Include all volumes for which an expenditure was made during 2004-05, including volumes paid for in advance but not received during the fiscal year. Include monographs in series and continuations. Include e-books that fit the netLibrary model, i.e., electronic manifestations of physical entities and/or units; provide a footnote explaining how many e-books you are reporting, preferably by specifying the products and the number of titles. If only number of titles purchased can be reported, please report the data and provide an explanatory footnote.

Question 3: Basis of Volume Count. A physical count is a piece count; a bibliographic count is a catalog record count.

Questions 4-5. Serials. Report the total number of subscriptions, not titles. Include duplicate subscriptions and, to the extent possible, all government document serials even if housed in a separate documents collection. Verify the

inclusion or exclusion of document serials in Question 5. Exclude unnumbered monographic and publishers' series. Electronic serials acquired as part of an aggregated package (e.g., Project MUSE, BioOne, ScienceDirect) should be counted by title. A **serial** is

a publication in any medium issued in successive parts bearing numerical or chronological designations and intended to be continued indefinitely. This definition includes periodicals, newspapers, and annuals (reports, yearbooks, etc.); the journals, memoirs, proceedings, transactions, etc. of societies; and numbered monographic series.

In the case of consortial agreements, count under Q4a only those subscriptions to titles for which the library pays directly from its budgeted expenditures reported under Q15b (expenditures for serials). Count under Q4a only those titles and subscriptions for which your library pays. Report other subscriptions that your library receives and does not pay for directly under Q4b (serials received and not purchased). If a purchased subscription includes electronic access to the title, count that subscription twice: once for the print version and once for the electronic version. If serials have been purchased through a consortium whose budget is centrally funded and independent from the library's budget, these serials should be reported under Q4b.

Do not include the full-text serials from such indexing/abstracting products as Wilson Social Sciences Abstracts Full Text, Lexis-Nexis, ABI/INFORM, and other indexes with access to the full text of articles. These full-text titles are counted in in the ARL Supplementary Statistics.

Question 4b. Serials: Not Purchased. Record those serials whose subscriptions were received without purchase for whatever reason. If separate counts of nonpurchased and purchased serials are not available, report only the total number of current serials received on line 4, and report U/A for lines 4a and 4b.

Question 6. Microforms. Report the total number of physical units: reels of microfilm, microcards, and microprint and microfiche sheets. Include all government documents in microform; provide a footnote if documents are excluded.

Question 7. Government documents. Report the total number of physical units (pieces) of government documents in paper format that have not been counted elsewhere. Include local, state, national, and international documents; include documents purchased from a commercial source if shelved with separate documents collections and not counted above. Include serials and monographs. To estimate pieces from a measurement of linear feet, use the formula $1 \text{ foot} = 52 \text{ pieces}$ and indicate in a footnote that the count is based on this estimate. Exclude microforms and nonprint formats such as maps or CD-ROMs. Adjust line 1a, i.e., last year's Volumes Held, and provide a footnote if you are adding records to the OPAC for government documents previously held but not counted as part of Volumes Held (line 1a).

Question 8. Computer files. Include the number of pieces of computer-readable disks, tapes, CD-ROMs, and similar machine-readable files comprising data or programs that are locally held as part of the library's collections available to library clients. Examples are U.S. Census data tapes, sample research software, locally-mounted databases, and reference tools on CD-ROM, tape or disk. Exclude bibliographic records used to manage the collection (i.e., the library's own catalog in machine-readable form), library system software, and microcomputer software used only by the library staff.

Question 9. Manuscripts and archives. Include both manuscripts and archives measured in linear feet.

Question 10. Cartographic materials. Include the numbers of pieces of two- and three-dimensional maps and globes. Include satellite and aerial photographs and images.

Question 11. Graphic materials. Include the number of pieces of prints, pictures, photographs, postcards, slides, transparencies, film strips, and the like.

Question 12. Audio materials. Include the number of pieces of audiocassettes, phonodiscs, audio compact discs, reel-to-reel tapes, and other sound recordings.

Question 13. Film and video materials. Include the number of pieces of motion pictures, videocassettes, video laser discs, and similar visual materials.

Questions 14-20. Expenditures. Report all expenditures of funds that come to the library from the regular institutional budget, and from sources such as research grants, special projects, gifts and endowments, and fees for service. (For question 17, include non-library funds; see instruction Q17.) Do not report encumbrances of funds that have not yet been expended. **Canadian libraries should report expenditures in Canadian dollars.** (For your information, if interested in determining figures in U.S. dollars, divide Canadian dollar amounts by 1.24971, the average monthly noon exchange rate published in the Bank of Canada *Review* for the period July 2004-June 2005.) **Please round figures to the nearest dollar.**

Question 15a. Monographs. Report expenditures for volumes counted on line 2.

Question 15b. Current Serials. Report expenditures for serials counted on line 4a. Exclude unnumbered monographic and publishers' series, and encumbrances.

Question 15c. Other library materials. Include expenditures for all materials not reported in Questions 15a and 15b, e.g., backfiles of serials, charts and maps, audiovisual materials, manuscripts, etc. If expenditures for these materials are included in lines 15a and/or 15b and cannot be disaggregated, please report U/A and provide a footnote. Do not include encumbrances.

Question 15d. Miscellaneous expenditures. Include any other **materials funds expenditures** not included in questions 15a-c, e.g., expenditures for bibliographic utilities, literature searching, security devices, memberships for the purposes of publications, etc. Please list categories, with amounts, in a footnote. **Note:** If your library does not use materials funds for non-materials expenditures—i.e., such expenditures are included in “Other Operating Expenditures”—**report 0, not U/A**, on line 15d.

Question 16. Contract Binding. Include only contract expenditures for binding done outside the library. If all binding is done in-house, state this fact and give in-house expenditures in a footnote; do not include personnel expenditures. (This figure should also be reported in the 2004-05 ARL Preservation Survey, question 7b.)

Questions 17. Salaries and wages. Exclude fringe benefits. If professional and support staff salaries cannot be separated, enter U/A, on lines 17a and 17b and enter total staff on line 17.

Question 17c. Salaries and wages: Student Assistants. Report 100% of student wages regardless of budgetary source of funds. Include federal and local funds for work study students.

Question 19. Other operating expenditures. Exclude expenditures for buildings, maintenance, and fringe benefits.

*Questions 21-25. Electronic materials expenditures. These items are intended to indicate what portion of your institution's total library expenditures are dedicated to electronic resources and services. Please use the Footnotes to indicate any electronic materials expenditures you believe not to be covered by these questions. **Many expenditures recorded in these questions should have been included in Question 20, total library expenditures.***

Question 21. Computer files. Report expenditures that are not current serials (i.e. are non-subscription, one-time, or monographic in nature) for software and machine-readable materials considered part of the collections. Examples include periodical backfiles, literature collections, one-time costs for JSTOR membership, etc. Expenditures reported here may be derived from any of the following categories: Monographs (Q15a), Other Library Materials (Q15c), Miscellaneous (Q15d), or Other Operating Expenditures (Q19).

Question 22. Electronic Serials. Report subscription expenditures (or those which are expected to be ongoing commitments) for serial publications whose primary format is electronic and for online searches of remote databases such as OCLC FirstSearch, DIALOG, Lexis-Nexis, etc. Examples include paid subscriptions for electronic journals and indexes/abstracts available via the Internet, CD-ROM serials, and annual access fees for resources purchased on a “one-time” basis, such as literature collections, JSTOR membership, etc. Not all items whose expenditures are counted here will be included in Total Current Serials (Question 4) or Current Serial Expenditures (Question 15b).

Q23. Bibliographic Utilities, Networks, and Consortia. Because it is increasingly common for ARL Libraries to enter into consortial arrangements to purchase access to electronic resources, both “Library” and “External” expenditure blanks and instructions are provided. Please use a footnote to describe expenditures that you believe are not covered by the question, or situations that do not seem to fit the instructions.

Q23a. From internal library sources. Report expenditures paid by the Library for services provided by national, regional, and local bibliographic utilities, networks, and consortia, such as OCLC and RLG, unless for user database access and subscriptions, which should be reported in Questions 21 or 22. Include only expenditures that are part of Other Operating Expenditures (Q19).

Q23b. From external sources. If your library receives access to computer files, electronic serials or search services through one or more centrally-funded system or consortial arrangements for which it does not pay fully and/or directly (for example, funding is provided by the state on behalf of all members), enter the amount paid by external bodies on its behalf. If the specific dollar amount is not known, but the total student FTE for the consortium and amount spent for the academic members are known, divide the overall amount spent by your institution’s share of the total student FTE.

Q24. Computer hardware and software. Report expenditures from the library budget for computer hardware and software used to support library operations, whether purchased or leased, mainframe or microcomputer, and whether for staff or public use. Include expenditures for: maintenance; equipment used to run information service products when those expenditures can be separated from the price of the product; telecommunications infrastructure costs, such as wiring, hubs, routers, etc. Include only expenditures that are part of Other Operating Expenditures (Q19).

Q25. Document Delivery/Interlibrary Loan. Report expenditures for document delivery and interlibrary loan services (both borrowing and lending). Include fees paid for photocopies, costs of telefacsimile transmission, royalties and access fees paid to provide document delivery or interlibrary loan. Include fees paid to bibliographic utilities if the portion paid for interlibrary loan can be separately counted. Include only expenditures that are part of Miscellaneous Materials Expenditures (Q15d) or Other Operating Expenditures (Q19), and only for those ILL/DD programs with data recorded in Questions 34-35.

Questions 26. Personnel. Report the number of staff in filled positions, or positions that are only temporarily vacant. ARL defines temporarily vacant positions as positions that were vacated during the fiscal year for which ARL data were submitted, for which there is a firm intent to refill, and for which there are expenditures for salaries reported on line 17.

Include cost recovery positions and staff hired for special projects and grants, but provide an explanatory footnote indicating the number of such staff. If such staff cannot be included, provide a footnote. To compute full-time equivalents of part-time employees and student assistants, take the total number of hours per week (or year) worked by part-time employees in each category and divide it by the number of hours considered by the reporting library to be a full-time work week (or year). **Round figures to the nearest whole numbers.**

Question 26a. Professional Staff. Since the criteria for determining professional status vary among libraries, there is no attempt to define the term “professional.” Each library should report those staff members it considers professional, including, when appropriate, staff who are not librarians in the strict sense of the term, for example computer experts, systems analysts, or budget officers.

Question 26c. Student Assistants. Report the total FTE (see instruction Q26) of student assistants employed on an hourly basis whose wages are paid from funds under library control or from a budget other than the library’s, including federal work-study programs. Exclude maintenance and custodial staff.

Question 27. Number of staffed library service points. Count the number of staffed public service points in the main library and in all branch libraries reported in this inventory, including reference desks, information desks, circulation, current periodicals, reserve rooms, reprographic services (if staffed as a public facility), etc. Report the number of designated locations, not the number of staff.

Question 28. Number of weekly public service hours. Report an unduplicated count of the total public service hours per typical full-service week (i.e., no holidays or other special accommodations) across both main library and branches using the following method (corresponds to IPEDS): If a library is open from 9:00 a.m. to 5:00 p.m. Monday through Friday, it should report 40 hours per week. If several of its branches are also open during these hours, the figure remains 40 hours per week. Should Branch A also be open one evening from 7:00 p.m. to 9:00 p.m., the total hours during which users can find service somewhere within the system becomes 42 hours per week. If Branch B is open the same hours on the same evening, the count is still 42, but if Branch B is open two hours on another evening, or remains open two hours later, the total is then 44 hours per week. **Exclude 24-hour unstaffed reserve or similar reading rooms.** The maximum total is 168 (i.e., a staffed reading room open 7 days per week, 24 hours per day).

Questions 29-30. Instruction. Sampling based on a typical week may be used to extrapolate TO A FULL YEAR for Questions 29 and 30. Please indicate if responses are based on sampling.

Question 29. Presentations to Groups. Report the total number of sessions during the year of presentations made as part of formal bibliographic instruction programs and through other planned class presentations, orientation sessions, and tours. If the library sponsors multi-session or credit courses that meet several times over the course of a semester, each session should be counted. Presentations to groups may be for either bibliographic instruction, cultural, recreational, or educational purposes. Presentations both on and off the premises should be included as long as they are sponsored by the library. Do not include meetings sponsored by other groups using library meeting rooms. Do not include training for library staff; the purpose of this question is to capture information about the services the library provides for its clientele. Please indicate if the figure is based on sampling.

Question 30. Participants in Group Presentations. Report the total number of participants in the presentations reported on line 29. For multi-session classes with a constant enrollment, count each person only once. Personal, one-to-one instruction in the use of sources should be counted as reference transactions on line 31. Please indicate if the figure is based on sampling. Use a footnote to describe any special situations.

Question 31. Reference Transactions. Report the total number of reference transactions. A **reference transaction** is

an information contact that involves the knowledge, use, recommendations, interpretation, or instruction in the use of one or more information sources by a member of the library staff. The term includes information and referral service. Information sources include (a) printed and nonprinted material; (b) machine-readable databases (including computer-assisted instruction); (c) the library's own catalogs and other holdings records; (d) other libraries and institutions through communication or referral; and (e) persons both inside and outside the library. When a staff member uses information gained from previous use of information sources to answer a question, the transaction is reported as a reference transaction even if the source is not consulted again.

If a contact includes both reference and directional services, it should be reported as one reference transaction. Duration should not be an element in determining whether a transaction is a reference transaction. Sampling based on a typical week may be used to extrapolate TO A FULL YEAR for Question 31. Please indicate if the figure is based on sampling.

EXCLUDE SIMPLE DIRECTIONAL QUESTIONS. A directional transaction is an information contact that facilitates the logistical use of the library and that does not involve the knowledge, use, recommendations, interpretation, or instruction in the use of any information sources other than those that describe the library, such as schedules, floor plans, and handbooks.

Questions 32-33. Circulation. For Question 32, count the number of initial circulations during the fiscal year from the general collection for use usually (although not always) outside the library. Do not count renewals. Include circulations to and from remote storage facilities for library users (i.e., do not include transactions reflecting transfers or stages of technical processing). Count the total number of items lent, not the number of borrowers. For

Question 33, report total circulation for the fiscal year including initial transactions reported on line 32 and renewal transactions. Exclude reserve circulations; these are no longer reported.

Questions 34-35. Interlibrary Loans. Report the number of requests for material (both returnables and non-returnables) provided to other libraries on line 34 and the number of filled requests received from other libraries or providers on line 35. On both lines, include originals, photocopies, and materials sent by telefacsimile or other forms of electronic transmission. Include patron-initiated transactions. Exclude requests for materials locally owned and available on the shelves or electronically. Do not include transactions between libraries covered by this questionnaire.

Questions 36. Ph.D. Degrees. Report the number awarded during the 2004-05 fiscal year. Please note that only the number of Ph.D. degrees are to be counted. Statistics on all other advanced degrees (e.g., D.Ed., D.P.A., M.D., J.D.) should not be reported in this survey. If you are unable to provide a figure for Ph.D.s only, please add a footnote.

Question 37. Ph.D. Fields. For the purposes of this report, Ph.D. fields are defined as the specific discipline specialties enumerated in the U.S. Department of Education's Integrated Postsecondary Education Data System (IPEDS) "Completions" Survey. Although the IPEDS form requests figures for all doctoral degrees, only fields in which Ph.D.s are awarded should be reported on the ARL questionnaire. Any exceptions should be footnoted.

Question 38. Instructional Faculty. Instructional faculty are defined by the U.S. Dept. of Education as

members of the instruction/research staff who are employed full-time as defined by the institution, including faculty with released time for research and faculty on sabbatical leave.

Full-time counts generally exclude faculty who are employed to teach fewer than two semesters, three quarters, two trimesters, or two four-month sessions; replacements for faculty on sabbatical leave or leave without pay; faculty for preclinical and clinical medicine; faculty who are donating their services; faculty who are members of military organizations and paid on a different pay scale from civilian employees; academic officers, whose primary duties are administrative; and graduate students who assist in the instruction of courses. Please be sure the number reported, and the basis for counting, are consistent with those for 2003-04 (unless in previous years faculty were counted who should have been excluded according to the above definition). Please footnote any discrepancies.

Questions 39-42. Enrollment. U.S. libraries should use the Fall 2004 enrollment figures reported to the Department of Education on the Integrated Postsecondary Education Data System survey. Please check these figures against the enrollment figures reported to ARL last year to ensure consistency and accuracy. **Note:** In the past, the number of part-time students reported was FTE; the number now reported to IPEDS is a head count of part-time students. Canadian libraries should note that the category "graduate students" as reported here includes all post-baccalaureate students.

FOOTNOTES

Please consult the printed copy of the *ARL Statistics 2003-04* for a copy of last year's footnotes. A pdf version is available at: <http://www.arl.org/stats/arlstat/>. Explanatory footnotes will be included with the published statistics. Reporting libraries are urged to record in the footnote section any information that would clarify the figures submitted, e.g., the inclusion and exclusion of branch campus libraries (see the "General Instructions" for definition of branch campus libraries). Please make an effort to word your footnotes in a manner consistent with notes appearing in the published report, so that the ARL Office can interpret your footnotes correctly.

Submit the completed questionnaire
by **December 20, 2005.**

For assistance, please e-mail Martha Kyrillidou (martha@arl.org) or Mark Young (stats-ra@arl.org)
TEL. (202) 296-2296.

FOOTNOTES TO THE ARL ACADEMIC HEALTH SCIENCES LIBRARY STATISTICS 2004-05

Footnotes may also include errata and corrections to data not previously reported from prior years. Numbers in parentheses refer to columns in Library Data Tables and to Questionnaire numbers.

QUESTION NUMBER NOTES

ALABAMA

All figures are as of September 30, 2005.

- 15.c The library does not separate expenditures for audiovisual materials.
- 19 Includes bibliographic utilities and literature searching.

ALBERTA

All figures are as of March 31, 2005.

- 1 Includes 284 e-books.
- 2 Precise number of monographs purchased from 2000-01 onward is unavailable; all monographs purchased are included in gross volumes added (1.b.i.)
- 4, 8: John W. Scott Health Sciences Library is part of the larger University library system which is constantly moving towards central purchasing and consortia purchase agreements for the whole Library System. Individual numbers for JWS Health Sciences Library are not available.
- 6 Microform units figure remains the same, as no microform units were purchased in 2004-05.
- 8 John W. Scott Health Sciences Library is part of the larger University library system which is constantly moving towards central purchasing and consortia purchase agreements for the whole Library System. Individual numbers for JWS Health Sciences Library are not available.
- 15-25 Expenditures as reported in Canadian dollars: (15a) \$293,522; (15b) \$544,909; (15c) \$0; (15d) \$0; (15) \$838,431; (16) \$19,022; (17a) \$496,493; (17b) \$367,042; (17c) \$38,142; (17) \$901,677; (19) UA/NA; (20) \$1,759,130; (21) \$85,720; (22) \$339,878; (23a) UA/NA; (23b) UA/NA; (24) UA/NA; (25) UA/NA.
- 19, 20 Figures for other operating expenses for the J.W. Scott Health Sciences Library are not available because they are included as part of the larger University Library System.
- 26 Excludes 1 recurring term person who is .33 FTE.
- 26.c Figure of zero is a result of the library system's move to integration, and the pooling of staff across the system.
- 29-31 Instruction statistics are not available for 2004-05 due to inconsistent methods of recording data. Statistics will be reported for 2005-06 and they will be based on sampling.
- 33 Decrease due to more and more journals and books becoming available electronically.
- 34, 35 This statistic is kept for the University of Alberta Library system as a whole, and, due to use of Relais for collecting statistics, all requests funnel through one search queue, which makes it difficult to provide a break-down by unit library.

ARIZONA

- 27 Includes IS desk, Loan desk, CTS, LRC.
- 32, 33 Decrease due to previously *not* subtracting reserve and non-collection items.

CALIFORNIA, DAVIS

- 1.b The Health Sciences Library canceled a number of titles which effectively reduced the number of volumes added to the collection.
- 2 There was an increase in the number of monographic sets received for the Health Sciences Library.
- 15.b The Library prepaid serials for the Health Sciences in the amount of \$539,058 in 2003-04. Actual costs for this item for

QUESTION

NUMBER NOTES

2004-05 were \$959,045.

- 16 The Health Sciences Library is now processing a larger number of items in-house. This allows items to be bound and made available to patrons in a timely manner.
- 32, 33 As the number of items available to patrons online increases, the circulation of printed material is experiencing a decline.

CALIFORNIA, SAN DIEGO

Unless otherwise noted, all figures include both Biomedical Library and Medical Center Library.

- 15.b Includes monographic and publishers series. Includes all formats. Includes electronic databases subscribed to annually.
- 31 The Biomedical Library closed for construction in December 2004 and moved part of their main collection and service points into the main library. Usage fell during this relocation period.

CASE WESTERN RESERVE

- 4.b Includes in-scope electronic journals also reported in the Main Library statistics.
- 15.d Figure reflects database expenditures (OhioLINK warchest group; Current Contents; MDConsult; Journal Citation Reports; eMedicine).

CHICAGO

Data for the ARL survey are matched as closely as possible to data compiled and reported for the Association of Academic Health Sciences Libraries' (AAHSL) Annual Statistics of Medical School Libraries in the United States and Canada.

- 1.b Figure is the result of a decrease in periodical binding.
- 15b, 15c Print and electronic continuing expenditures are reported in (15b). One-time electronic purchases are reported in (15c). In FY 2003-04, one-time and continuing electronic expenditures were included in (15c).
- 15.c Print and electronic continuing expenditures are reported in 15b. In (15c) one-time electronic purchases are reported. In 2003-04, (15c) included one-time and continuing electronic expenditures.
- 31 2003-04 figure included directional questions; the corrected total is 3,685. Reference transactions include in-person, e-mail and written correspondence.

CINCINNATI

- 4.a Decrease due to a high number of OhioLINK journals credited to the medical library last year. With the current submission model, it is not possible to credit the medical library with its access to OhioLINK journals separately. The OhioLINK component, therefore, is counted in the raw data only once, under the main library stats. That figure in 2004-05 is 4,663.
- 17a, 26a Professional IT personnel not included in 2003-04 are now included.

CORNELL

Excludes the Medical College Library in New York, NY.

DARTMOUTH

- 2 Figure is an estimate based on number of payments lines in 2004-05; includes serial backfiles.
- 4.a Only electronic journals purchased individually by the Biomedical library are counted here. Electronic journal titles purchased in packages appear only in Main library count.
- 17 2003-04 figures revised to: (17a) \$580,429; (17b) \$375,262; (17c) \$49,767; (17) \$1,005,458.

EMORY

All figures are as of August 31, 2005.

QUESTION
NUMBER NOTES

FLORIDA

- 26.a Includes two grant-supported positions.

FLORIDA STATE

Volumes held June 30, 2004 revised to 8,145.

GEORGE WASHINGTON

- 13 Includes MEDLINE, AMED, CINAHL, 4 EBM files, Hapi, Sportsoiseus, Up-to-Date, MDCONSULT, FIRST CONSULT, eMEDICINE., AFRICAL Health Line, OSH-ROM, Global Health, iMacW-MD.
- 15-25 Includes all of the above except MDCONSULT, First Consult, UP-to-Date, and eMEDICINE.

GEORGETOWN

Volumes held June 30, 2004 revised to 140,741.

HARVARD

- 1, 15, 21 Decreases reflect a collections policy change.
- 15 Reductions in expenditures for monographs and serials as well as increases in the "other" category reflect an emphasis on digital resources. See footnote 1.
- 17, 20, 26 The Countway Library of Medicine underwent a transition in leadership which resulted in organizational change.
- 24 Increased expenditures for information technology are attributable to the emphasis on digital resources.
- 25 Decrease reflects fewer transactions, and also a change in accounting systems.
- 33 Decrease in circulation of physical volumes reflects the emphasis on digital resources in medicine.
- 34, 35 Increased availability of digital resources reduces the demand for interlibrary loans.

ILLINOIS, CHICAGO

Volumes held June 30, 2004 revised to 703,120.

- 12 The Library of the Health Sciences withdrew most of its AV collection in 2004-05.
- 17 Library of the Health Sciences information included in all Daley salary and wage figures. Breakdown of data for both locations is unavailable.

IOWA

- 1.b.i Government Publications print is now included here.
- 1.b.ii Government Publications print withdrawn.
- 4 Figures reflect better counting methods.
- 7 Print items not counted in volumes added.
- 24 Unable to separate figure from computer purchases for the Libraries.
- 25 2003-04 included all postage and freight as it could not be separated by unit. In 2004-05 the charges could be separated.

KANSAS

Excludes University of Kansas School of Medicine, Farha Library, in Wichita, KS.

- 1.b.ii, 1.b Changes due to Medical Center library project of thinning collections in 2003-04.
- 4 2004-05 figures reflect the titles added to the system by using the Serials Solutions service for cataloging. It greatly facilitated adding many new titles from packages.

QUESTION**NUMBER NOTES**

- 15.a Some materials money was shifted from books to journals to cover the ongoing costs of journals.
- 15.c This is a reallocation of acquisitions money. The AV collection was moved into the main Dykes Library, and some supplementing was done.
- 17, 26a Additional professional positions were added, and some positions that had been open for some time were filled.
- 26.a Added some additional professional positions.
- 31 Activity at the public service has declined.

MCGILL

All figures are as of April 30, 2005.

Volumes held June 30, 2004 revised to 343,077.

- 15-25 Expenditures as reported in Canadian dollars: (15a) \$201,462; (15b) \$1,150,614; (15c) \$155,159; (15d) \$44,997; (15) \$1,552,232; (16) \$34,014; (17a) \$490,835; (17b) \$527,634; (17c) \$49,837; (17) \$1,068,306; (19) \$283,163; (20) \$2,937,715; (21) \$139,012; (22) \$780,124; (23a) UA/NA; (23b) \$0; (24) \$102,925; (25) \$24,437.

McMASTER

All figures are as of April 30, 2005.

- 15-25 Expenditures as reported in Canadian dollars: (15a) \$239,594; (15b) \$1,111,307; (15c) \$16,882; (15d) \$40,886; (15) \$1,408,669; (16) \$30,228; (17a) \$525,253; (17b) \$678,150; (17c) \$50,239; (17) \$1,253,642; (19) \$184,058; (20) \$2,876,597; (21) \$12,445; (22) \$893,928; (23a) \$16,885; (23b) \$0; (24) \$47,193; (25) \$49,461.

MIAMI

All figures are as of May 31, 2005.

- 4, 15 Includes print serials only.
- 8, 13 Computer files (8) and all audiovisual materials [(10) through (13)] are included in the figure for (13).
- 15.c Includes expenditures for electronic serials.
- 17.a Excludes medical library director's salary.
- 29, 30 In 2004 the medical library included both individual consultations and group presentations; in 2005 (as in years prior to 2004) only group presentations are included.

MINNESOTA

- 11-13 Aggregated data unavailable. Total audiovisual count for BioMedical Library is 1,622.
- 15, 22 Figures do not reflect expenses paid from non-Health Sciences Library budgets.
- 15.c Figure reflects increased expenditure on serial backfiles.
- 24 Decrease due to change in replacement cycle for equipment.

MONTREAL

All figures are as of May 31, 2005.

Volumes held June 30, 2004 revised to 327,352 due to a recounting operation of serials.

- 15-25 Expenditures as reported in Canadian dollars: (15a) \$179,642; (15b) \$1,969,427; (15c) \$0; (15d) \$0; (15) \$2,149,069; (16) \$37,737; (17a) \$675,116; (17b) \$1,139,068; (17c) \$0; (17) \$1,814,184; (19) \$19,869; (20) \$4,020,859; (21) UA/NA; (22) \$1,619,404; (23a) UA/NA; (23b) UA/NA; (24) UA/NA; (25) UA/NA.

NEW MEXICO

- 4.a Total represents the number of monographic titles.
- 8 Increase due to cataloging educational software on public workstations.

QUESTION
NUMBER NOTES

23.a Includes back costs owed Illiad service. Figure does not include OPAC maintenance.

27 Includes one computer technical support desk.

NEW YORK

All figures are as of August 31, 2005.

NORTHWESTERN

All figures are as of August 31, 2005.

OHIO STATE

Volumes held June 30, 2004 revised to 291,189.

23.b Funds are provided for the entire university and not broken down by individual libraries.

OKLAHOMA STATE

4.a Print and e-journals received, less aggregator packages such as LexisNexis, EBSCO, Proquest, etc.

PENNSYLVANIA

Volumes held June 30, 2004 revised to 196,474.

QUEEN'S

All figures are as of April 30, 2005.

15-25 Expenditures as reported in Canadian dollars: (15a) \$175,803; (15b) \$1,432,861; (15c) UA/NA; (15d) UA/NA; (15) \$1,608,664; (16) \$14,731; (17a) \$263,235; (17b) \$422,896; (17c) \$45,389; (17) \$731,520; (19) \$341,730; (20) \$2,696,645; (21) UA/NA; (22) \$1,103,296; (23a) UA/NA; (23b) UA/NA; (24) UA/NA; (25) UA/NA.

ROCHESTER

Includes the Edward G Miner Library of the School of Medicine and Dentistry.

SASKATCHEWAN

All figures are as of April 30, 2005.

4 2,635 current serials received were included in figure for Main Library.

15-25 Expenditures as reported in Canadian dollars: (15a) \$133,646; (15b) \$923,355; (15c) UA/NA; (15d) UA/NA; (15) \$1,057,001; (16) \$16,818; (17a) \$259,370; (17b) \$230,155; (17c) \$49,271; (17) \$538,796; (19) UA/NA; (20) \$1,612,615; (21) UA/NA; (22) UA/NA; (23a) UA/NA; (23b) UA/NA; (24) UA/NA; (25) UA/NA.

15.b Includes \$217,960 provincial funding.

17.a Includes \$60,986 in provincial government funding.

26.a Includes 2 positions funded by provincial grant.

SUNY-BUFFALO

15.b Decrease from 2003-04 due to money being moved from the HSL budget to the Main Libraries, to fund a portion of a consortial agreement for Science Direct.

TEMPLE

Volumes held June 30, 2004 revised to 133,207.

19 Ovid and ScienceDirect expenditures were previously reported here, rather than with serials expenditures (15b).

TENNESSEE

Includes the Preston Medical Center Library and the University of Tennessee at Memphis.

Volumes held June 30, 2004 revised to 208,587.

QUESTION
NUMBER NOTES

TEXAS TECH

All figures are as of August 31, 2005.

- 4.a New software system allows for a more accurate count.
- 15.d Includes: Computer Equipment (\$2,537); AMIGOS OCLC (\$22,430); AMIGOS E-Reserve (\$5,535); AMIGOS First Search (\$678); Cybertools (\$26,340); Exam Master (\$2,250); First Consult (\$20,000); Gold Rush (\$3,600); Images MD (\$2,583); Info POEMS (\$5,846); Journal Citation Reports (\$3,932); MD Consult (\$85,120); Micro Medex (\$34,457); Natural Medicines (\$1,494); Natural Medicine Comprehensive Database (\$1,416); Occupational Therapy (\$795); OVID (\$39,679); RefWorks (\$2,550); TexShare (\$2,500).
- 20 Includes Harrington Library of the Health Sciences, TTUHSC/Amarill; Montes-Gallo Library of the Health Sciences, TTUHSC/El Paso; Library of the Health Sciences, TTUHSC/Odessa.

TULANE

Due to damage inflicted by Hurricane Katrina, Tulane University was unable to submit data for the 2004-05 ARL Statistics. The 2003-04 data have been used instead, with the library's permission.

UTAH

- 19 The Health Sciences Library has several subcontracts within the Regional Medical Library contract. Each year the subcontract payments make up a large portion of grants and contracts expenditures. Please note that \$776,925 represents subcontract payments for 2004-05.
- 24 Two Big Buy computer purchases were made during 2003-04; no Big Buy computer purchase was made during 2004-05.

WASHINGTON U.-ST. LOUIS

- 11 Figure reflects the total number of slide sets. Although in the past these were reported as individual items to maintain consistency, the slide set count is more appropriate and will be used as the count going forward.
- 19 Includes \$1,047,315 in fringes.

YALE

Volumes held June 30, 2004 revised to 444,498.

- 4 The figure of 9,272 total serials includes 2,029 print and 7,243 electronic subscriptions.

APPENDIX: ARL MEMBER LIBRARIES AS OF JUNE 1, 2006

<u>Institution</u>	<u>Category</u>	<u>Full Name of Institution</u>	<u>Location</u>
Alabama	S	University of Alabama	Tuscaloosa, Alabama
