Introduction

With the passage of P.L. 94-142, the Education for All Handicapped Children Act of 1975, now the Individuals with Disabilities Education Act (IDEA), and subsequent amendments, states and jurisdictions have made great strides in the provision of services to young children, ages 3 through 5 years, with disabilities. As of Fall 2005, America's schools were serving 704,087 preschool children with a free appropriate public education.

This 15th edition of the *Profile* describes services provided under the Preschool Grants Program (Section 619 of Part B) of IDEA. The *Profile* presents current and/or historical information for all 50 states, the District of Columbia and Puerto Rico, which are eligible to receive IDEA Part B, Section 619 funds. Eight other jurisdictions, including American Samoa, the Bureau of Indian Education, the Federated States of Micronesia, Guam, Northern Mariana Islands, Palau, the Republic of the Marshall Islands, and Virgin Islands are not eligible to receive 619 funds. Therefore, information on their current policies and services for children with disabilities is not included in the *Profile*. At times, however, historical information for these entities is included.

The state and jurisdictional Section 619 Coordinators from 39 states provided updated information for this edition, although not all respondents updated every question. Additionally, coordinators responded to new questions. For those states and jurisdictions that did not participate, information from other sources is at times included. Participating states included: AR, AZ, CA, CO, CT, DE, FL, GA, HI, IA, IL, IN, KS, KY, LA, MA, MD, ME, MI, MN, MT, NC, ND, NE, NH, NJ, NV, NY, OH, OK, OR, RI, SC, TN, VA, VT, WI, WV, and WY.

The topics covered in the *Profile* have been modified over the years to improve clarity and compatibility of data across the states. Coordinators have been contacted when necessary to clarify their responses; however, there has been no attempt to verify independently the data on every item presented herein, and data are subject to change. The information presented in this edition of the *Profile* has been gathered and updated through May 2007. Throughout this document, the word "state" refers to all types of contributing jurisdictions. Wherever appropriate, states that have information available to share are noted.

Finally, contact information for the state Section 619 Coordinators and preschool program contacts for outlying jurisdictions are included. This information is also maintained on the NECTAC Web site: <http://www.nectac.org/contact/contact.asp>.

We extend our appreciation to all Section 619 Coordinators for their contributions and to our colleagues at OSEP, Peggy Cvach, our Contracting Officer's Representative, and Nancy Treusch, the Preschool Grants coordinator, for their wisdom and guidance throughout the development of this *Profile*.

It is our hope that this resource will assist states in enhancing the quality of services for preschool children with special needs and their families.

Selected pieces of the *Profile* are maintained on the NECTAC Web site at <http://www.nectac.org/>.

Section I

Section 619 Coordinators' Profile Updates Resources

Administration	3
Funding	5
Interagency Coordination.....	9
Personnel.....	21
Transition	24
Accreditation and Monitoring.....	26
Use of IEPs and IFSPs	29
Family-Centered Services	30
Standards and Outcome Measures	31

Initiatives for Special Populations	33

Administration

1. SEAs administer preschool special education through the following administrative agency or unit:

Administrative Unit	n	States
State Education Agency (SEA) Special Education Unit	24	AR, CA, DE, FL, GA, HI, IA, IN, KS, ME, MT, ND, NE, NH, NJ, NY, OK, RI, SC, TN, VA, VT, WI, WV
Early Childhood Unit (not within Special Education)	8	AZ, CO, CT, IL, LA, MI, MN, OH
Shared responsibility: Special Education and Early Childhood	3	KY, MA, NC
SEA / Special Education / EI and/or ECSE unit	2	MD, OR
SEA Office of Special Education, Elementary and Secondary Education, and School Improvement	1	NV
Shared responsibility: Division of Developmental Disabilities of the Department of Health, under direct supervision of Department of Education	1	WY

Comments added by states:

1. AZ — We collaborate closely with our SEA Special Education Unit.
2. NC — The Office of School Readiness was moved to the Department of Public Instruction in July 2006.

2. SEAs' preschool policies and procedures differ from those for school-age children in the following areas:

Policies and Procedures	n	States
Program Standards	31	AR, AZ, CA, CO, DE, GA, HI, IA, IL, IN, KY, MA, ME, MI, MN, MT, NC, ND, NE, NJ, NY, OH, OK, RI, SC, TN, VA, VT, WI, WV, WY
Personnel Standards	30	AR, CA, CO, DE, FL, GA, IA, IL, IN, KS, KY, MA, MD, ME, MI, NC, ND, NE, NV, OH, OK, OR, RI, SC, TN, VA, VT, WI, WV, WY
Assessment/Evaluation Policies	27	AR, AZ, CO, DE, FL, GA, HI, IA, IL, IN, KY, LA, ME, MI, MT, NC, NE, NJ, NV, NY, OH, RI, SC, TN, VT, WI, WY
Guidelines	27	AR, CO, DE, GA, HI, IA, IN, KS, KY, LA, MA, ME, MI, MN, MT, NC, NV, NY, OH, OK, OR, RI, SC, TN, VT, WI, WV
Curriculum Standards	27	AR, AZ, CO, CT, DE, FL, GA, HI, IL, KS, KY, ME, MI, MN, NC, NJ, NV, OH, OR, RI, SC, TN, VA, VT, WI, WV, WY
Inclusion Policy/Guidelines	18	CO, GA, HI, IA, IL, IN, KY, MD, MI, NC, ND, NJ, NY, SC, TN, VA, WI, WV
Monitoring Strategies/Forms	13	AR, AZ, CA, CO, DE, HI, MA, ME, MI, NY, OH, TN, WV
Transportation Policies	13	CO, DE, FL, HI, IA, KY, MI, MN, NC, NE, NY, TN, WI
IEP Forms	5	CO, LA, ND, OR, TN
Program Approval Process	9	AR, KY, LA, ME, NY, OH, RI, TN, VT

Comments added by states:

1. OH — Preschool special education will follow the Early Learning Program Guidelines beginning 7/1/07 for consistency across ODE funded programs.
2. TN — All of these policies and procedures are consistent with SEA school-age children, but may require some preschool specific clarification and/or implementation.

3. For the SPP/APR indicators shown, SEAs involve the listed agencies in their SPP/APR goals & objectives and targets for improvement activities:

Agency Involved In SPP/APR goals, objectives, targets for improvement	n	States
Part B Indicator 6: Percent of preschool children with IEPs who received special education and related services in settings with typically developing peers.		
Head Start	23	AZ, CO, DE, GA, HI, IA, IL, IN, KS, LA, MN, MT, NC, NE, NH, NJ, OH, OR, SC, TN, VA, WI, WV
State Pre-K	21	CO, CT, DE, FL, GA, HI, IA, IL, KS, LA, MI, MN, NC, NE, NJ, OH, SC, TN, VA, WI, WV
Early Education	18	CO, CT, DE, HI, IA, IL, KS, LA, MA, MI, MN, NC, NE, SC, TN, VA, WI, WV
Part C Lead Agency	17	CT, DE, IL, IN, KS, LA, ME, MN, ND, NE, NJ, OH, SC, TN, VA, WI, WV
Other Early Childhood Projects	15	AR, AZ, DE, FL, HI, IA, IL, KS, NC, NE, NH, OH, TN, VA, WI
Child Development	11	CO, CT, DE, IL, IN, NC, NE, NH, TN, WI, WV
Part B Indicator 7: Percent of preschool children with IEPS who demonstrate improved: A. Positive social-emotional skills; B. Early language/communication, early literacy; and C. Use of appropriate behaviors to meet their needs.		
Part C Lead Agency	20	AR, CO, CT, DE, FL, IL, KS, LA, MA, MD, MI, MN, NC, ND, NE, NJ, TN, VA, WI, WV
Head Start	20	AZ, CO, DE, GA, HI, IA, IL, KS, LA, MA, MD, MI, NC, NE, OR, SC, TN, VA, WI, WV
State Pre-K	20	CO, CT, DE, GA, HI, IA, IL, KS, LA, MA, MD, MI, NC, NE, OH, SC, TN, VA, WI, WV
Early Education	14	CO, CT, IA, KS, MA, MD, MI, NC, NE, SC, TN, VA, WI, WV
Other Early Childhood Projects	13	AZ, FL, IA, IL, KS, MA, MI, NC, NE, OH, TN, VA, WI
Child Development	10	CO, CT, LA, MI, NC, NE, TN, VA, WI, WV
Part B Indicator 12: Percent of children referred by Part C prior to age 3, who are found eligible for Part B, and who have an IEP developed and implemented by their third birthdays.		
Part C Lead Agency	31	AR, AZ, CT, DE, FL, GA, HI, IL, IN, KS, KY, LA, MA, MD, MI, MN, MT, NC, ND, NE, NH, NJ, OH, OK, OR, SC, TN, VA, VT, WI, WV
Early Education	9	CT, HI, IA, LA, MA, MI, NC, TN, WV
State Pre-K	8	CT, IL, LA, MA, NC, NJ, TN, WV
Other Early Childhood Projects	6	FL, HI, KS, MI, NC, TN
Head Start	6	HI, LA, NC, NJ, TN, WV
Child Development	5	CT, MI, NC, TN, WV

Comments added by states:

1. CT — For the 3 early childhood indicators, CT included PTI and other parent organizations, state DEC and NAEYC.
2. NE — The Nebraska Dept. of Education is co-lead agency for Part C with HHS, and eligibility criteria for children B-5 is identical for Part C and Part B.
3. NH — Part B Indicator 7 is new so activities have not yet been developed.
4. OH — Head Start Collaboration Office Director is in the same office.
5. OR — In Oregon Part C and Part B Section 619 are both administered by the same agency (ODE) in order to create a seamless system of services.

Funding

4. SEAs distribute Section 619 flow through funds to the following eligible agencies for preschool services:

Entity	n	States
Local Education Agencies (LEAs) only	32	AZ, CA, CO, CT, DE, FL, GA, HI, IN, KS, KY, LA, MA, MD, ME, MN, MT, NC, ND, NE, NH, NJ, NV, NY, OH, OK, RI, SC, TN, VA, VT, WI
State School(s) for the Deaf and Blind	22	AZ, CA, CO, FL, GA, HI, IL, IN, LA, MD, MI, MN, MT, ND, NY, OH, RI, SC, TN, VA, WI, WV
Charter school(s) that function as an LEA	11	CO, DE, GA, LA, MA, MN, NJ, OH, SC, TN, WI
LEAs and Education Service Agencies (ESAs)	9	AR, CA, CO, GA, IL, NY, WI, WV, WY
Other agencies which function as LEAs or ESAs	5	GA, OH, SC, VA, WI
ESAs only	2	IA, MI
State supported agencies	2	OR, VA
SEA and Local Education Agency (LEA) are the same	1	HI

Comments added by states:

1. OH — By Ohio law, Charter schools serve children beginning at age 5.

5. Unique features of states' preschool special education funding procedures are:

Unique Funding Feature	n	States
Child count	29	AR, AZ, CO, GA, HI, IA, IL, IN, KY, LA, MA, MD, ME, MI, MN, NC, ND, NH, NV, OH, OK, OR, RI, SC, TN, VA, VT, WI, WY
Weighted formula	14	AZ, DE, FL, HI, IA, KY, MA, MI, ND, NH, SC, VA, VT, WV
Other	6	CA, MD, NC, NE, NJ, SC
Block grants	3	DE, MT, VT
Contact time	3	CO, MI, MN
Cost reimbursement	4	MN, NE, NY, VT
Birth rate	0	

Comments added by states:

1. CT — Use the federally required variables: base allocation, enrollment, poverty.

6. SEAs use the following funding sources to support the provision of special education and related services for preschool children with disabilities:

Funding Source	Ranking			Contributing	Don't Use
	1st	2nd	3rd		
619 Funds	8	9	13	6	
611 (VI - B) Funds	3	6	9	10	3
Medicaid			1	20	6
State Funds: Preschool Special Education	7	3		2	12
Local/County Funds	4	7	2	12	4
State Special Education	7	5	4	5	7
State General Education	5	2		6	7
State Early Childhood	2	1		10	8
Title I Disadvantaged			1	8	9
Title I Even Start				6	11
Private insurance				3	14
Developmental Disabilities			1	2	14
Part C Funds		1	1	2	15
Child Care Development Block Grant				5	12
HeadStart				14	8

Comments added by states:

1. CT — State education dollars include those for both regular and special education. State education dollars to municipalities are based upon a weighted formula.
2. TN — Some children attend programs like Head Start and Title I pre-kindergarten, but IEP services are funded by the LEA.
3. VA — Special education funds are not separated out at the state level.

7. SEAs support preschool programs and activities with Section 611 funds in the following ways:

Funds Used For	n	States
State-level administration of Section 619 (for monitoring, enforcement, and complaint investigation, to establish and implement the mediation process, including providing or the cost of mediators and support personnel)	26	AZ, CA, CO, FL, GA, HI, IA, IL, IN, KS, LA, MD, MI, MN, NC, NE, NH, NJ, NY, OH, OR, SC, TN, WI, WV, WY
Accountability and outcomes activities	25	CO, FL, GA, HI, IA, IL, IN, KS, LA, MD, MI, MN, NC, NE, NH, NJ, NY, OH, OR, SC, TN, VA, WI, WV, WY
Statewide preschool coordinated services systems	10	CO, FL, GA, KS, MN, NE, NJ, TN, WV, WY
LEAs are directed to use a portion of 611 funds for preschool	8	CO, HI, MI, NC, NY, TN, VA, WI
Direct services to preschoolers with disabilities	8	AZ, CO, GA, HI, IL, NC, ND, TN

Comments added by states:

1. KY — Local option to use 611 funds for preschool services.

8. SEAs using Section 619 funds to administer Part C:

n	States
3	MD, ME, TN

9. SEAs use the following percentage of FY 2006 maximum set-aside amount of Section 619 funds for administration:

Percentage	n	States
0% to 4%	16	AR, CA, CO, CT, FL, GA, IN, MI, MT, ND, NH, NJ, OH, OK, OR, SC
5% to 9%	14	DE, IA, IL, KS, KY, LA, MA, MD, ME, NC, NE, RI, TN, WI
10% to 14%	1	AZ
15% to 20%	8	HI, MN, NV, NY, VA, VT, WV, WY

Comments added by states:

1. NH — 100% of maximum is used.

10. SEAs use the following percentages of FY 2006 maximum set-aside amount of Section 619 funds for other state level activities:

Percentage	n	States
0% to 19%	31	AR, AZ, CA, CO, CT, FL, GA, HI, IA, IN, KY, LA, ME, MI, MN, MT, NC, ND, NE, NH, NJ, NV, OH, OK, OR, RI, SC, TN, WI, WV, WY
20% to 39%	4	IL, KS, MA, MD
40% to 59%	0	
60% to 79%	1	VA
80% to 100%	3	DE, NY, VT

11. SEAs support the following activities with Section 619 set-aside funds:

Activities	n	States
Activities at state and local levels to meet the state established performance goals/targets	32	AZ, CA, CO, DE, GA, HI, IA, IL, KS, KY, LA, MA, MD, MI, MN, NC, ND, NE, NH, NJ, NV, NY, OH, OK, OR, RI, TN, VA, VT, WI, WV, WY
State Improvement Plan (SIP) activities	31	AZ, CA, CO, DE, FL, GA, HI, IA, IL, KS, KY, LA, MA, MD, MI, MN, NC, ND, NE, NH, NJ, NV, NY, OH, OR, RI, TN, VA, WI, WV, WY
Activities related to the statewide coordinated service delivery program	28	CA, CO, DE, FL, GA, HI, IA, IL, KS, KY, LA, MA, MN, NC, ND, NE, NH, NJ, NY, OH, OR, RI, TN, VA, VT, WI, WV, WY
Support Services	15	AR, CO, CT, GA, HI, KY, LA, MA, MN, NC, NE, RI, TN, WI, WV
Direct Services	9	GA, IN, ME, NH, OH, RI, SC, TN, WI
General Supervision Enhancement Grants (GSEG)	6	CO, DE, GA, KY, NC, WI
Monitoring activities including Part B Annual Performance Report (APR)	1	HI

Comments added by states:

1. CT — Support services focus on professional development, training and technical assistance.
2. NE — Our GSEG grant supports 619 activities, not the other way around.

12. SEAs use the following poverty criteria for the determination of the Section 619 flow-through formula:

Criteria	n	States
Number of students participating in the National School Lunch Act Program	31	AR, AZ, CA, CO, FL, GA, IA, IN, KS, KY, LA, MA, MD, ME, MI, MN, MT, NC, ND, NE, NH, NJ, NV, NY, OK, RI, SC, TN, VA, WV, WY
Title I	2	HI, WI
Poverty rate from U.S. Census Bureau	3	DE, OH, OR
State data on children receiving Temporary Assistance to Needy Families (TANF)	1	CT
U.S. low income count	1	IL

Comments added by states:

1. SC — Head Start programs applying for 619 funds are funded based on a different formula.

13. SEAs have established or are in the process of establishing a per-child cost for early childhood special education (ECSE) services.

Per Child Cost	n	States
Have established	4	AZ, IA, KY, OR
In process	5	AR, MN, OH, RI, WY
Not at this time	28	CA, CO, DE, FL, GA, HI, IL, IN, KS, LA, MA, MD, ME, MI, NC, ND, NE, NH, NJ, NV, NY, OK, SC, TN, VA, VT, WI, WV

Comments added by states:

1. OH — Investigating the possibility and potential outcomes.

Interagency Coordination

14. In the following states the age focus of the Part C State Interagency Coordinating Council (SICC) is:

Age Focus of SICC	n	States
Birth through 2	22	AR, AZ, CA, CO, CT, DE, FL, GA, IA, IN, LA, MA, ND, NJ, NV, NY, OK, RI, SC, VA, VI, WI
Birth through 5	15	IL, KS, KY, MD, MI, MN, NC, NE, NH, OH, OR, TN, VT, WV, WY
Birth to 12	1	MT
Birth through 20	1	ME

15. SEA representatives on state Part C SICCs include the following positions:

Position	n	States
Early Childhood Special Education Coordinator	21	AR, AZ, IA, IN, LA, MA, MD, ME, MT, NC, NH, NJ, NV, OK, SC, TN, VA, VT, WI, WV, WY
Special Education Director, Assistant/Associate Special Education Director	14	DE, FL, GA, IA, KS, KY, MN, ND, OR, RI, SC, TN, VI, VT
Section/Bureau Chief	8	CA, CT, IA, MD, MI, NY, RI, WY
Preschool Director/Assistant Director	7	KY, MI, NC, NE, NH, OH, WY
Other: Supervisor of Early Childhood and Family Initiatives	6	CO, IA, MA, MN, NE, WY
Superintendent/Commissioner	3	IL, KS, SC
Assistant Superintendent/Assistant Commissioner	3	MD, MI, TN
Other: Preschool special education teacher	3	MN, NH, WY
Other: Monitoring specialist from State Department of Education	1	WY

Comments added by states:

1. NC — District level Special Education Directors or Preschool Coordinators represent the preschool program on the ICC.

16. The following SEAs have a representative of their state's Part C Program on the Part B State Special Education Advisory Panel or Preschool Advisory Council:

Representation	n	States
Yes	32	AR, AZ, CO, CT, DE, FL, GA, IA, IL, IN, KS, KY, LA, MA, ME, MT, ND, NE, NJ, NV, NY, OH, OK, OR, SC, TN, VA, VI, VT, WI, WV, WY
No	6	CA, MD, MI, MN, NC, NH

17. Local/regional ICCs within states address the following age ranges and are supported by SEAs in the following ways:

Age Focus	n	States
Birth though 5	15	AR, CO, CT, KS, KY, MI, MN, NC, NE, OH, OR, TN, WI, WV, WY
Birth though 2	14	AZ, CA, GA, IA, IN, LA, MA, ND, NJ, NY, OK, SC, VA, VT
3 though 5	1	VI
Varies within state	2	IL, MD

Types of Support	n	States
Provides TA to ICCs	24	AZ, GA, IA, IL, KS, KY, LA, MA, MI, MN, NC, ND, NE, NJ, NY, OH, OK, SC, TN, VA, VT, WI, WV, WY
SPR/APR related work (e.g., shared B & C data systems, stakeholder involvement, transition)	12	AR, IA, IN, KS, MA, MN, NJ, RI, SC, VA, VT, WI
Provides Fiscal/Staff Support	11	IA, KY, MA, MI, MN, NC, NE, TN, VA, WI, WY
Requires Preschool ICCs	2	NE, WY

Comments added by states:

1. MA — We only have a statewide ICC, and provide these supports to statewide ICC.
2. NH — NH does not have local/regional ICCs.
3. VA — Fiscal and staff support for ICC state wide activities that include ECSE staff.

18. The following SEAs play an active role in developing their state's Temporary Assistance for Needy Families (TANF) block grant plan under the 1996 Welfare Act:

	n	States
Yes	14	CO, GA, IA, IL, KY, LA, MA, ME, NE, NJ, OH, SC, WI, WY
Not Known	4	DE, NC, ND, RI

Comments added by states:

1. MA — This work is done through an ISA with Early Education and Care.

19. The following SEAs actively link preschool special education with the State Children's Health Insurance Plan (SCHIP):

Link	n	States
Yes	20	AR, CO, GA, IA, IL, KS, LA, MA, MD, MN, NC, NE, NJ, OH, OK, SC, VA, WI, WV, WY
If yes, these states have special SCHIP provisions for preschool age children and their families	6	AR, KS, MA, NC, SC, WI
Not Known	3	CA, DE, ND

20. SEAs have interagency agreements with the following state agencies, tribal entities and Head Start:

State Agency	n	States
Head Start (Federal)	37	AR, CA, CO, CT, DE, FL, GA, HI, IA, IL, IN, KS, KY, LA, MA, MD, ME, MI, MN, MT, NC, ND, NE, NH, NJ, NY, OH, OK, OR, RI, SC, TN, VA, VT, WI, WV, WY
Department of Health	28	CA, CO, FL, GA, HI, IA, IL, IN, KS, KY, LA, MA, MD, MN, NC, ND, NJ, NY, OH, OK, OR, RI, SC, TN, VA, VT, WV, WY
Human/Social Services	26	AR, CA, CO, HI, IA, IL, IN, KS, KY, LA, MA, MD, ME, MI, MN, NC, ND, NJ, NY, OH, OK, OR, RI, TN, VA, VT
Health and Human Services	20	AR, AZ, DE, GA, IL, KY, MA, ME, NC, NE, NH, NV, OK, OR, RI, SC, TN, VT, WI, WV
Developmental Disabilities	20	AR, CA, CO, DE, IL, KY, ME, MI, NC, ND, NH, NJ, OK, OR, RI, SC, TN, VT, WI, WY
Mental Health	16	AR, CA, DE, HI, IL, MD, MI, NC, NY, OK, OR, RI, SC, TN, VA, VT
Department of Corrections	11	FL, GA, ME, MI, MN, MT, NH, RI, SC, TN, VA
Rehabilitation Services	10	CA, GA, IL, IN, MI, RI, SC, TN, VA, WV
State Operated Programs	9	AR, AZ, CO, GA, NC, RI, SC, VA, WI
Mental Retardation	6	MA, ME, NY, OR, TN, VA
Department of Public Health and Human Services	6	DE, MT, NC, OR, VA, VT
Tribal Entities	5	AZ, MI, NC, WI, WY
Department of Public Welfare	2	OR, VT
Department of Health and Welfare	1	OR

21. SEAs engage in the following activities with Head Start:

Activity	n	States
LEA/ESAs have local interagency agreements with Head Start	39	AR, AZ, CA, CO, CT, DE, FL, GA, HI, IA, IL, IN, KS, KY, LA, MA, MD, ME, MI, MN, MT, NC, ND, NE, NH, NJ, NV, NY, OH, OK, OR, RI, SC, TN, VA, VT, WI, WV, WY
SEA requires LEA/ESAs to keep data on number of eligible 3	22	AR, AZ, CA, CO, FL, GA, HI, IL, KY, LA, MA, ME, MI, NE, NY, OH, OR, RI, SC, TN, WI, WV
SEAs have a Head Start representative on State Part B though 5 year olds enrolled in Head Start Advisory Panel or Preschool Advisory Council	12	AZ, DE, IL, KS, KY, ME, NH, OR, SC, TN, VA, WY

Comments added by states:

1. OH — Head Start Collaboration Office Director in same office for joint endeavors.

22. SEAs report that their Section 619 Programs are engaged in the following initiatives that support comprehensive services for all young children and their families:

States	Initiatives That Support Comprehensive Services
AR	The Arkansas Department of Education, the Arkansas Department of Higher Education, the DHS Division of Child Care and Early Childhood Education, and the Head Start Collaboration Project joined together to develop a training program that addresses the issue of pre-literacy skills. What emerged was the Pre-K Early Learning Literacy in Arkansas Initiative (Pre-K ELLA). This is a comprehensive, five-day training designed for all early education settings, including center-based care, family child care homes, and professionals working with parents in the Home Instruction for Parents of Pre-school Youngsters (HIPPY) program. The joint efforts of all concerned resulted in this 30 hour comprehensive training through use of CCDF quality funds which assures the training is delivered free of charge all across the state, in Arkansas universities, community colleges and technical institutes. The training includes the following components: Social and Emotional Development related to Literacy Creating Learning Environments that are Literacy Rich and Guide Behavior Overview of Language Development-Language Arts Promoting Language and Literacy -The Role of Play -Dramatic Play, Drama and Play Acting -Read Aloud -Storytelling -Poetry, Nursery Rhymes, Finger Plays, Songs Reading Experiences-Shared Reading Learning about Letters, Sounds and Words Environmental Print Writing in the Pre-K Balanced Literacy Program Assessment, Observation, and Portfolio Fostering Children's Emergent Literacy Development through the Family Learning Environments and modifications/adaptations for children with special needs This collaboration also produced a comprehensive evaluation that studied the comparison of teacher behavior and classroom environment in pre- and post- training settings. The data from this evaluation will be available in July 2003, and will be used to refine any elements of the training that is deemed necessary. During the first year of implementation, over 1200 early care professional caregivers participated in the comprehensive early literacy training. The training efforts will continue over the next two years.
AZ	Collaboration activities through Head Start Association meetings; AZ School Readiness Board committee representation; Blending of funding with Even Start/Family Literacy, Migrant Education and State Block Grant and development of a state Early Childhood Education unit; collaboration with other agencies through professional development activities focusing on preschool least restrictive environment options, pre-literacy, screening and evaluation of preschoolers; collaborative efforts with Growing in Beauty on the Navajo Reservation; collaboration with Part C and technical assistance to Leas regarding transition to public school; agency representative on ICC & other committees as needed.
CA	Development of early childhood standards, a system for assessment, and performance indicators and measures. Development of a statewide School Readiness Network for all preschool programs including preschool special education programs with the Sea's Child Development Division.
CT	Collaboration through the state's early intervention system; state-funded pre-k initiative called "school readiness"; collaboration with child care; family resource centers; Head Start; collaboration with state child welfare/child protection agency; statewide collaboration focused on statewide 'child and parent support services'; training/TA initiatives with other state partners; collaborative training/conferences with state agency partners.
DE	Through our state SPDG, we are working with the early care and education community to develop and further enhance the early literacy instructional capacity of these programs. The SEA is also working with the state's early childhood resource and referral agency to enhance the capacity of the state's early care and education system to be inclusive for all children.
FL	Florida has funded a state technical assistance system for preschool programs for children with disabilities through the University of Central Florida; work on an interagency basis with Department of Health, lead agency for Part C and with the DOE/AWI Offices of Early Learning; on the local level, some school districts involved with Early Learning Coalitions.
GA	Title I, Even Start, Head Start, GA Assoc. Educating Young Children (GAYC), Parent Mentor Program, Part C to Part B Transition with Babies Can't Wait Early Intervention Program, Working Together for Young Children Preschool Inclusion Project, GSEG w/Part C, DECAL/Bright from the Start Standards training
HI	Transition system development focuses on all children and involves multiple agency committees. Planning collaboratively with Title 1 under the requirements of Title 1 school wide program requirements.

IA	Iowa received a state improvement grant to improve the quality of early childhood programs in order to increase the percent of children with Imps served in these settings; Developed and implemented Quality Preschool Program Standards for early childhood programs serving children 3 - 5 years of age (http://www.iowa.gov/educate/content/view/681/805/); Serve on state technical assistance team for Community Empowerment to promote partnerships in communities serving young children and families (www.empowerment.state.ia.us); Coordinate the initiatives Natural Allies and Iowa Supporting Changes and Reform in Interprofessional Preserve Training (Iowa SCRIPT) to enhance early intervention and early childhood systems for families and children, birth to 8 years of age; Revising the guidelines on placing and supporting preschool children with disabilities in the Least Restrictive Environment (http://www.iowa.gov/educate/content/view/775/1090/); Implementing statewide literacy initiative to build capacity of early care and education personnel, community, school personnel, and college/university faculty with a focus on children, 3 to 5 years of age (http://www.iowa.gov/educate/index.php?option=com_content&task=view&id=637&Itemid=602); Participating in Iowa's early care, health and education system development initiative with broad stakeholder representation (http://www.state.ia.us/earlychildhood/eci/index.html); Providing co-leadership with the Iowa Department of Human Services to implement the Early Learning Standards. (http://www.iowa.gov/educate/content/view/681/805/1/2/)
IL	Collaborative statewide training and TA system and statewide preschool inclusion project; Head Start Collaboration grant; collaborative statewide conference.
IN	Indiana has established a state level transition team to address issues related to transition for all young children (birth to third grade) and their families. State level participants include parent representatives and representatives from Head Start, Department of Education, Department of Health, First Steps, Riley Hospital, Indiana Association of Child Care Resource and Referral, and the Transition Coordinator. First Steps (Part C) and the Division of Exceptional Learners provide financial support through the Unified Training System Family Involvement fund for family members of children with disabilities to participate in conferences and training events.
KS	Early Literacy, School Readiness, Title I preschools, state-funded 4-year-old at-risk preschools, Even Start, Migrant Even Start, Head Start, Early Head Start, Parents as Teachers; state/regional Child Care Resource and Referral Agencies; collaboration around development of Early Learning Standards for 0-5 consistent with K-12 standards.
KY	KIDS NOW is the Governor's Early Childhood Initiative (HB 706) with a goal that all young children in Kentucky are healthy and safe and possess the foundation that will enable school and personal success. Included in the initiative: Folic Acid Campaign, Healthy Babies Workgroup, Substance Abuse Treatment Program for Pregnant and Post-partum Women, Universal Newborn Hearing Screening, Eye Examinations Prior to School Entry and many others. Preschool and primary continue to work in the areas of transition, curriculum alignment and the measurement of authentic, appropriate child progress. The Kentucky Early Childhood Standards, The Continuous Assessment Guide and the Quality Self Study for Center Based Programs (Building A Strong Foundation Series) have been published and disseminated throughout the state at trainings that include personnel from state-funded preschool programs, Head Start, child care, early intervention, and universities. A family friendly edition of the standards has been developed and is available to all families of children birth through four years of age in English and Spanish. All publications in the Building A Strong Foundation series are available for download on the KDE website.
LA	The Louisiana 619 Coordinator is part of the Elementary Standards section of the Division of Student and School Performance and Assessment and not part of Special Populations. 619 personnel serve on all SEA early childhood task forces, committees, etc.
MA	MA- EEC oversees all aspects of early childhood, including child care, public school preschool, Parent Child Home Program, Head Start state funds, family support programs, and collaborates with other programs, such as Community Partnerships for Children, Title 1, Head Start, and early literacy.
MD	Ongoing participation in the Maryland Model of School Readiness (MMSR), which focuses on the coordination and establishment of a comprehensive system of services for all young children, birth to 9, and their families.
ME	Early Reading First Initiative
MI	Coordination is done at a local level and may vary in each ISD.

MN	ECSE is now part of the Division of Early Learning Services within the MN Department of Education which facilitates ongoing coordination with all early childhood programs. Joint professional development activities are a major component of those collaborative efforts.
MT	Montana's 619 program collaborates effectively with the Part C early intervention program at the state level. The 619 program participates with the State ICC, known as the Family Support Services Advisory Council and with the Head Start Collaboration Council. Both of these councils interact and articulate with Montana's few other early childhood initiatives. Montana has no statewide, public-school-focused, early intervention initiatives, though some local initiatives are forming. Child Care initiatives are essentially independent of public schools. The critical components of collaboration occur at the local level, intensively in some communities, sporadically in others. Montana's 619 program collaborates with the Governor's School Readiness Task Force; however, no other initiatives for early childhood are currently active, except the Legislature's discussion of full-time kindergarten.
NC	Preschool Disabilities is now also with the Office of School Readiness and this includes More at Four, Title I and Even Start so we will be doing most staff development together. We also do joint public service announcements, joint guidelines for all early childhood programs, joint task forces on personnel development, joint newsletter for early childhood and jointly funded classrooms for children with and without disabilities. We work with Early Reading First and do many activities with Part C. We also have jointly funded initiatives with Smart Start.
ND	The Section 619 Coordinator is a member of the Head Start Collaboration Office Advisory Board. She is also a member of the ND School for the Deaf, ND Vision Services/School for the Blind and Deaf/Blind Services Project advisory boards. These agencies provide services for ages 0-21. The NDDPI and Dept. of Human Services - Part C, Head Start Collaboration Office and Child Care - are working together to develop statewide Early Learning Guidelines.
NE	Participant in statewide early literacy federal grant (Nebraska Early Language & Literacy Learning Connection). State participant in Natural Allies project of national significance for community college personnel preparation in serving all young children in inclusive community settings. State Board-approved Unified endorsement criteria for teachers of children birth through 3rd grade. In conjunction with Nebraska Part C, funding and coordination of Nebraska SCRIPT grants (Supporting Change and Reform in Interdisciplinary Preservice Training) to five institutions of higher education within the state to prepare competent professionals across all disciplines to work effectively in inclusive settings, and provide family-centered, culturally and developmentally-appropriate services. Member of Governor's Early Childhood Interagency Team to develop state agency mission & action plan for comprehensive early childhood services statewide. Member of MAP to Inclusive Child Care state team & strategic action plan. Member of Nebraska Framework for Early Childhood Professional Development, coordinated by the SEA and developed by representatives from Nebraska's early childhood care & education workforce and providers of professional development. Co-sponsor of comprehensive state early childhood conference, along with other state agencies, programs, and EC & ECSE professional organizations in Nebraska. In partnership with the National Head Start Association and Head Start-State Collaboration Office, the SEA co-sponsors the Heads Up! Reading program on the Heads Up! Network with NHSA in Washington, DC. Partners with statewide "First Connections" infant-toddler web-based training curriculum for early care & education providers.
NJ	Joint training on transition was provided through the Department of Health & Social Services (DHSS) early intervention system and the Department of Education's 619 Program. A parent booklet on transition was developed jointly. Joint child find materials were developed and disseminated. Joint technical assistance was provided with DHSS early intervention specific to autism spectrum disorders. Head Start Agreement is in the process of revision. The 619 Program collaborates with the Maps for Inclusive Child Care Program. The 619 program provided training on including children with disabilities in thirty districts with a mandate to provide early childhood education to all three and four year olds. Implementation of State Improvement Grant activities and the General Supervision Enhancement Grant activity are in process. Committee input includes ECCS.
NV	Information and referral service; statewide resource library; joint training with Part C regarding transition. The NV Dept. of Education actively promotes the use of the state adopted EC standards for use in ECSE programs across the state.

NY	Section 619 staff work collaboratively with staff of the SEA Office of Early Childhood and Reading Initiatives in a number of areas including the revision of the State Board of Regents' Early Childhood Policy, assessment of young children, identification of outcome measures, early literacy and inclusion of preschool students with disabilities in the state's Universal Pre-kindergarten program. The SEA also administers the Early Childhood Direction Centers (information and referral for children with disabilities, birth to 5).
OH	State Board of Education's School Readiness Solutions Group dealing with birth to a five system across all state agencies; Early Learning Initiative for part- and full-day early care and education requiring implementation of the Early Learning Content Standards, the Early Learning Program Guidelines and a minimum of an associate degree for teachers; Head Start Collaboration Office Director co-located in same office; Head Start Disabilities Agreement; support for migrant Head Start program; National Readiness Indicators initiatives to identify a core set of readiness indicators (Ohio has organized into 5 categories: ready child, ready families, ready schools, ready communities and ready systems); BUILD Ohio; Ohio Family and Children First in each county; Special Education Regional Resource Centers have an early childhood coordinator to provide integrated TA and PD for FAPE in the LRE;
OR	We are working with a number of other agencies on developing comprehensive services at the local level for young children and their families. Some of these agencies include Head Start, Healthy Start, Commission on Children and Families, Adult and Family Services, Even Start, and the Health Department.
RI	At the local level, several districts use their 619 funds to support these activities.
SC	Head Start; Technical Assistance project for personnel who work with preschool children who have disabilities and who are at risk for or who have problem behaviors in community-based programs; courses in working with young children with challenging behaviors and including children with disabilities in early
TN	Comprehensive services including early literacy are supported through: TN SIG grant GSEG - supporting electronic data gathering systems anticipate GSEG for Early Childhood Outcomes activities
VA	*GSEG grant to develop child outcomes and track the data related to these outcomes with Part C and Dept of Health *State directed project with Part C, state technical assistance centers, VDOE Early Childhood Programs, Day care and home child care, Head Start, Higher Education, homeless education to develop state guidelines for preschool curriculum related to the child outcomes being developed, to develop staff development opportunities for supporting inclusive settings for all children, to develop other staff development opportunities based on a statewide survey of early childhood needs(behavior and social/emotional development, transition), and an annual state level conference for all early childhood educators, families, related service providers to children from birth to kindergarten entrance. *Participation in the Virginia Early Childhood Comprehensive Systems Grant as a member of the strategic planning committee.
VT	Early Learning Standards, Early Literacy, Family Literacy, Title 1, Building Bright Futures (state initiative, AHS Children's Integrated Services
WI	Discretionary funds used for Early Childhood Community Councils and committees at the local level. Also, regional discretionary grants support professional development activities that facilitate joint planning and training of school staff, parents, and other community preschool providers. A number of activities related to the Wisconsin Model Early Learning Standards are supported by Section 619 involvement. This includes training, planning, and implementing the outcome system and supporting local activities.
WV	Training and professional development for early childhood professionals is delivered jointly as often as possible. Conferences and training opportunities are open to child care, Head Start, Title I, Birth to Three etc. WV has started several pilot projects for early literacy and Positive Behavioral Supports for young children.
WY	Local 619 Programs participate in the Raising Readers project; many are participating in early literacy projects.

23. The State Maternal and Child Health Early Childhood Comprehensive System (SECCS) Grant Program is to help States plan and implement collaborations and partnerships to support families and communities to raise children who are healthy and ready to learn at school entry. See http://www.nectac.org/~pdfs/contact/seccs_7_04.pdf for state contacts.) State Section 619 programs are involved in this federal grant program in the following ways:

States	Initiatives That Support Comprehensive Services
AR	I serve as the co-chair for the Early Care and Early Education subcommittee for this grant. The state is ensuring that all children in our state are being addressed through this grant initiative.
AZ	Section 619 Program is represented on the Arizona School Readiness Board and its subcommittees. The Arizona School Readiness Board is the main collaborator with the Arizona Department of Health Services on the SECCS Grant.
CO	This grant has been used to fund activities and a staff position for our early childhood state systems design work.
CT	Not involved
DE	The 619 Office has not been actively involved in this initiative. The Delaware Department of Education has been involved with the state grant activities, focusing on general health, family and mental health issues of children.
FL	I am aware of their work and have been sent email updates of their activities. Florida has an "Expanding Opportunities" and there is representation.
HI	Not involved.
IA	State staff from the Part C and Section 619 team provide leadership for component work groups and participate in other work groups. http://www.state.ia.us/earlychildhood/eci/index.html
IL	Collaboration with state TA system.
IN	The 619 Coordinator serves on the Core Partner Steering Committee and participates in developing the strategic implementation plan.
KS	Member of the Early Learning Coordinating Council, a steering committee for the development and updating of the Kansas Early Childhood Comprehensive Systems Plan. Plan can be accessed at http://www2.ku.edu/~eccs/keccsgraphic.pdf .
KY	The Early Childhood Development Authority is the overarching body for leadership in our state and is administered by the Division of Early Childhood Development in the Department of Education. 619 interests and issues are presented to the Early Childhood Development Authority by the consultant from our division assigned to the Authority.
LA	Not involved
MA	MA- EEC now convenes the MECCS steering committee, comprised of the Commissioners from each of the participating agencies. In addition, staff from EEC actively participate in subcommittee work.
ME	Task Force on Services to children ages 3-8
MI	Representatives of the 619 program participated in the SECCS plan, development, and implementation.
MN	619 is only indirectly involved in that members the early learning services division within the MN Dept. of Education serve on the MECCS workgroup.
MT	Montana's Office of Public Instruction's Special Education Division supports the 619 Coordinator's participation in the SECCS Grant Program activities. These activities are, in the main, planning activities and coordination efforts.
NC	The 619 Coordinator served on the task force for this planning grant. In collaboration with the Office of School Readiness we are involved in using the shared indicators for school readiness across systems.
ND	The Section 619 Coordinator is a member the Healthy ND Early Childhood Alliance. This is an Early Childhood Comprehensive Systems Planning Grant through Health Resources and Services Administration.
NJ	The 619 coordinator is a member of the ECCS steering committee.
NV	NV's Section 619 Coordinator is a member of the ECCS coordinating committee and is involved in the ongoing activities of the grant.

NY	Section 619 staff participated on an inter-agency workgroup that was charged with the task of establishing a statewide plan for an Early Childhood Comprehensive System to support families and communities to raise children who are healthy and ready to learn at school entry. After finalization of the plan, Section 619 staff will continue to participate in the workgroup to implement the activities specified in the plan. In addition to Section 619 staff, SEA staff of the Office of Early Childhood and Reading Initiatives are participating in the leadership group that oversees the implementation of the state plan.
OH	Ongoing communication and dialogue
OR	N/A
RI	An EC staff member serves on several of these committees focusing on the health and well-being of all children.
SC	The Section 619 Coordinator is a member of the SECCS advisory team.
TN	The Office of Early Childhood is represented on the planning committee.
VA	We are a part of the strategic planning committee, have attended the planning meetings, and completed services surveys.
VT	Building Bright Futures (state initiative)
WI	The Wisconsin Early Childhood Collaborating Partners has been redesigned to incorporate the areas of WI Early Childhood Comprehensive Systems. We have partnerships in providing regional assistance (Community Collaboration Coaches) and a variety of activities related to professional development.
WV	This is linked with our state early childhood advisory council called Partners Implementing Early Care and Education (PIECES). This area is addressed under the Child Well Committee. Health surveys and profiles have been completed and recommendation generated. WV is moving towards a coordinated system for screenings.
WY	No formal collaborations at this time.

24. Section 619 Programs collaborative with the Child Care and Development Fund (CCDF) the planning activities in their states in the following ways:

States	Initiatives That Support Comprehensive Services
AR	Same as above
AZ	The 619 Program is asked to annually contribute to the development of the CCDF State Plan. All early childhood state specialists are involved in initiatives that are components of the governor's School Readiness Board (which is funded through CCDF). CCDF required the development and utilization of state Early Learning Standards in all early childhood settings throughout the state. The 619 Program was very involved in the development of the early learning standards.
CA	Development of early childhood standards, a system for assessment, and performance indicators and measures. Development of a statewide School Readiness Network for all preschool programs including preschool special education programs with the SEA's Child Development Division.
CO	Extensive systems planning; 2.5 FTE SEA staff jointly funded; multiple conferences and training opportunities jointly funded.
CT	Working with state Child Care partners to ensure inclusion; joint training and TA on IDEA, ADA, 504, accommodations; additional subsidies for children with disabilities attending state-funded child care.
DE	Involved as a representative of State's Early Childhood Leadership Team. Included in the professional development planning activities. Included is a specific section addressing professional development of early care and education providers to work with young children with disabilities.
FL	This activity is now assigned to the DOE Office of Early Learning and Section 619 is not engaged with this activity.
HI	There is collaboration on planning of state and national conferences and trainings.
IA	Provide technical assistance to Community Empowerment Areas utilizing TANF funds and state funds to enhance early care and education for families and children (0-5 years). Provide co-leadership with the Iowa Department of Human Services to implement the Early Learning Standards(http://www.iowa.gov/educate/content/view/681/805/1/2/). Include the preschool programs, including ECSE and EC Settings operated by school districts, in Iowa's Quality Rating System (http://www.dhs.state.ia.us/iqrs/).

IL	Collaborative training and technical assistance.
IN	The Section 619 Coordinator has jointly participated with representatives of the Bureau of Child Care Services in speaking to a number of groups about their Paths to Quality Initiative. One of the important features of Paths to Quality Criteria is use of the Indiana Foundations to the Indiana Academic Standards for Young Children from Birth to Age Five in the levels of quality.
KS	Helped in development of 2-tiered system of reimbursement for subsidized child care for children with special needs. Worked with interagency group to support requirement for the Kansas Department of Social and Rehabilitation Services CCDF State Plan to have Early Learning Standards. This interagency group is made up of Kansas State Department of Education and Health & Environment, Head Start/Early Head Start/Head Start Collaboration Office, Kansas DEC, and Kansas AEYC. Rather than individual programs or agencies developing Early Learning Standards for 0-5, we all agreed that working together for a common set of standards would be more effective.
KY	All early childhood state specialists are involved in initiatives that are components of the KIDS NOW initiative. The Building A Strong Foundation series that is utilized in all early childhood settings throughout the state (Standards, Assessment and Quality Self Study) were developed through collaboration with early childhood specialists in all partnership agencies throughout the state (child care, Head Start, early intervention, state funded preschool, higher education, etc.). The family guides for the Kentucky Early Childhood Standards were also developed in collaboration with all partners and are available for all families of children birth through four years of age (English and Spanish). Professional development opportunities and training occur throughout the state through collaborative planning and are supported by our system of early childhood regional training centers and the child care resource and referral system.
LA	The 619 Program Coordinators jointly create and support a variety of initiatives to improve outcomes for young children with disabilities in inclusive Child Care settings. The 619 Program Coordinators attend meetings of the MAP to Inclusive Child Care Project.
MA	We are trying to develop a single licensing, reporting and monitoring system.
ME	Child Care Advisory Committee
MN	Ensuring inclusion, training and TA, additional subsidies for children with disabilities.
MT	No formal link between SEA Section 619 and CCDF has been forged at this time, though Section 619 and CCDF program actively co-participate in the Family Support Services Advisory Council (state ICC) and CCDF-related Councils. Montana's Office of Public Instruction's Special Education Division supports state- and regional-Comprehensive System of Personnel Development (CSPD) Councils to organize and deliver professional development activities. Early childhood activities are a significant part of both state-and regional-CSPD activities, and recently an Early Childhood Partnerships for Professional Development committee emerged to coordinate these activities throughout the state.
NC	We hold meetings and participate on the state level; access child care block grant funds for parents who pay a fee for typically developing children for our inclusive classrooms; and jointly funded staff development committee and statewide contracts for early childhood inclusion.
NE	Implementing SpecialCare training statewide for early care & education providers to promote support of young children in inclusive community programs & settings. Co-funding five pilot projects in the state to support full-time EC staff development position in five multi-district regions of the state.
NH	Section 619 participates in Child Care Advisory Committee; provides planning and support for statewide professional development and TA initiatives for young children; works together on systems of care and education; and, supports and helps develop Infant Mental Health teams.
NJ	Recommendations are provided through the 619 program as requested during joint planning meetings.
NV	Participation of early childhood special education coordinator in planning meeting, ongoing collaboration in recommended use of funds.
NY	The State Education Department and the Office of Children and Family Services are working collaboratively to integrate child care programs with preschool special education programs and to coordinate inclusive programs for children with disabilities.
OH	We are involved in the development of the state plan required in order to receive funds, provide professional development funds for the Child Care community working with children with disabilities.
OR	Participation on the advisory board, work on subcommittee for children with disabilities, work on Oregon Early Childhood Foundations.

RI	RI Dept. of Ed. and Dept. of Human Services have cooperative agreements in which DHS fiscally supports the professional development activities and implementation of the RI Early Learning Standards Project.
SC	Providing input on issues and sharing information about upcoming training.
VA	Part of the Governor's Early Childhood Initiative Alignment Committee. Purpose of the committee is to develop Milestones of Development, Competencies for Child Care Providers, Education Competencies Lattice, and a Quality Rating System for all programs (community, school, home care) that serve all children from birth to Kindergarten entrance.
VT	Joint funding of training and support services, discussions about technical assistance system for disabled children in child care.
WI	We work together on common goals through the "Wisconsin Early Childhood Collaborating Partners." See our Web site for more information: www.collaboratingpartners.com .
WV	In WV, child care, Part C, Head Start Collaboration Grant and Section 619 developed a neutral entity to coordinate and implement training and professional development activities. Activities are open to all early childhood professionals. It blends funding and resources in a variety of ways.
WY	Regional Preschool staff attend joint statewide trainings and participate with the child care agencies at the local levels.

25. SEAs offer the following considerations for children with disabilities in their CCDF programs:

Consideration	n	States
Enhanced or differential rates paid to providers of children with special needs	22	CA, CT, DE, FL, IA, IL, IN, KS, MA, MD, MN, MT, NC, NE, NH, NJ, NV, NY, OH, OR, VT, WV
Priority for children with special needs in child care subsidies	21	AZ, CO, FL, HI, IA, IL, IN, KY, LA, MA, ME, MN, NC, NE, NY, OH, OR, RI, SC, VT, WV
Model demonstration, training TA to providers	17	AZ, FL, IL, IN, MA, ME, MI, MN, MT, NC, NE, NH, NJ, NY, OH, SC, VT
Special emphasis on children with disabilities including policy statements or task forces deployed	14	CO, CT, HI, IL, IN, LA, MA, MN, MT, NC, NJ, NY, OH, VT
In-home care an option for health or other special needs	13	IA, IL, KY, LA, MA, MN, NC, NE, NH, NY, OH, OR, WV
Extension of age of eligibility for children with special needs	10	FL, HI, IA, IL, IN, MA, MN, NH, NY, OH
Income requirements adjusted for families with children with documented needs	6	HI, LA, MA, MN, NC, VT
Incentives other than per-child rate	3	DE, MA, SC

Comments added by states:

1. AR — Our state is in the process of looking at differential rates paid to providers with special needs.
2. NH — NH does not have a waiting list and so does not prioritize children with special needs.

26. SEAs engage in collaborative training activities with the following early childhood programs:

State	Head Start	Child Care Lead Agency	Part C	General Early Childhood Agency
AR	Yes	Yes	Yes	Yes
AZ			Yes	
CA		Yes	Yes	
CO		Yes		
CT	No	Yes	Yes	Yes
DE	Yes	Yes	Yes	Yes
FL			Yes	Yes
GA		Yes	Yes	Yes
HI	Yes	Yes	Yes	Yes
IA	Yes	Yes	Yes	Yes
IL	Yes	Yes	Yes	Yes

Personnel

27. SEAs have the following certification/licensure requirements, covering the ages/grades noted, for preschool special education staff:

State	General Early Childhood Certification (includes Special Ed. requirements)	General Early Childhood Certification + Preschool Special Ed. Add-on/Endorsement	General Early Childhood Certification (no Special Ed. requirements)	ECSE Certification	Special Ed. + Preschool Special Ed. Add-on/Endorsement	Special Ed. Certification
AR		3 to 8	Birth to 5			
AZ				3 to 5		
CA				Birth to 4		
CO				Birth to 8		
CT			3 to 8	3 to 5	Birth to 5	3 to 21
DE				Other		Birth to 21
FL	Birth to 5	Birth to 5	Birth to 5		3 to 21	3 to 21
HI						3 to 21
IA	Birth to Gr. 3			Birth to 6		
IL		Birth to K			Birth to K	
IN				3 to 5		
KS	Birth to Gr. 3					
LA	Birth to 5	3 to 5	5 to 8	3 to 5	3 to 5	Birth to 21
MD					3 to 8	
ME			Other	Other		Birth to 5
MI						
MN				Birth to 7		
MT						3 to 21
NC	Birth to 5	3 to 5			3 to 5	
NE	Birth to 8			Birth to 8	Birth to 5	
NH			Birth to Gr. 3	Birth to Gr. 3		5 to 21
NJ		3 to 5				3 to 21
NV		Birth to 8		Birth to 7	Birth to 7	
NY						Other
OH		3 to 8	3 to 8	3 to 8	3 to 21	5 to 21
OK						Other
OR					Birth to 5	Birth to 5

VA					Birth to 6	
VT		Birth to 8	Birth to 8	3 to 6	3 to 21	
WV				Birth to 5		3 to 5

Comments added by states:

1. AR — Teacher licensure has changed, for Early Childhood. We now have P-4 with an endorsement in Special Education. This will cover ages birth to five or three to grade 4. Also a teacher may come in with a teacher certification and add the preschool special education

endorsement.

2. AZ — Our state has adopted an Early Childhood Certificate for birth to age 8 and by July 1, 2009 this certificate will be required for birth through kindergarten and optional for first through third grade. We are currently moving in a direction to potentially change the Early Childhood Special Education certificate into an endorsement that would go along with the Early Childhood Certificate. Currently, the Early Childhood Special Education Certificate is required if teaching students with special needs ages 3-5.
3. CO — Anticipate changes.
4. CT — Regular/Special Education Early Childhood endorsements
5. FL — A preschool handicapped endorsement may be added to any of the certificates, but is not required. In addition, teachers with existing certificates in early childhood, primary, or preschool education may teach pre-kindergarten children with disabilities.
6. IL — Special Education or EC certification + Preschool Handicapped endorsement
7. KY — Early Childhood plus Early Childhood Special Education
8. MA — Regular/Special Education Early Childhood Pre-K to Grade 2
9. MI — Special Education Certification + General Early Childhood Add-on/Endorsement
10. NC — The Preschool Add-on is special education/regular education and is only available for teachers who already have child development, special education or elementary education certification.
11. ND — Certificate in elementary or kindergarten education with a Special Education credential (usually Masters Level) in Early Childhood Special Education Ages 3-6.
12. NE — Early childhood education UNIFIED undergraduate endorsement birth-third grade. ECSE graduate endorsement birth-third grade.
13. NJ — Early Childhood endorsement is available. A preschool special education teacher is required to have a Teacher of the Student with Disabilities certificate.
14. OH — Endorsement: Early Education of the Handicapped or Pre-Kindergarten Special Needs. Licensure: Early Childhood Intervention Specialist. Preschool certification plus Special Education endorsement. Visually or Hearing Impaired services may be provided by K-12 personnel for preschool.
15. OK — Certified in 2 areas of special education or early childhood plus special education degree. Do not have ECSE degree.
16. OR — Special Ed. Certification is an authorization from the Oregon Dept. of Education. Special Ed. + Preschool Special Ed. add-on/endorsement is a Teachers Standards Practices Commission (TSPC) licensure.
17. SC — Early childhood certification with the next six hours renewal credit in special education; or, certification in the area of SPED, including speech-language impaired, with the next six hours renewal credit in ECSPED; or, certification in speech-language or state license.
18. VT — VT DOE is currently in the rule making process of expanding the ECSE certification to include birth to 3.
19. WV — WV does not require the individual to be dually certified, either a Special Education or Early Childhood certification is acceptable.

28. SEAs' support for the use of paraprofessionals includes:

Support	n	States
Defining Personnel Standards	31	AR, AZ, CO, CT, DE, GA, HI, IA, IL, KS, KY, LA, MA, MD, ME, MI, MN, NC, ND, NE, NH, NV, NY, OH, OK, OR, RI, SC, TN, VT, WV
Providing Training Program	28	AR, AZ, CO, FL, GA, HI, IA, IL, IN, KS, KY, LA, MA, ME, MN, MT, NC, ND, NE, NH, NJ, OK, RI, SC, VA, VT, WV, WY
Providing Training to Administrators	23	AR, AZ, CO, CT, HI, IA, IL, KS, KY, LA, MA, ME, MN, MT, NC, ND, NH, OR, RI, SC, VA, VT, WV

Comments added by states:

1. ME — Maine has authorization (term used instead of certification) for Educational Technicians (paraprofessionals) at three levels. Requirements are: level I, high school graduation through 60 hours of college credits; level II, 60 to 90 hours of college credits; and, level III, 90-plus hours of college credits.
2. TN — Trainings are offered to assistants and administrators, but not mandated.

Transition

29. SEAs allow Section 619 funds to provide FAPE to children *before* their third birthday.

Policy	n	States
Yes	23	AZ, CO, CT, DE, FL, GA, HI, IL, IN, KS, LA, MA, MI, MN, NC, ND, NE, NY, OH, RI, SC, VA, WV
No	14	AR, CA, IA, KY, MD, ME, MT, NH, NV, OK, OR, TN, VT, WY

Comments added by states:

1. NC — LEAs now responsible for transition evaluations for two year olds.
2. VA — Child must be 2 by September 30 of school year, localities have the option of doing rolling admissions for two year olds but may not use federal or state funds.

30. The following states have a policy that allows for the use of Part C funds, to provide FAPE, for children *past* their third birthday.

Policy	n	States
Yes	8	CA, DE, KS, MD, MI, MN, NE, NY
No	29	AR, AZ, CO, FL, GA, HI, IA, IL, IN, KY, LA, MA, ME, MT, NC, ND, NH, NJ, NV, OH, OK, OR, RI, SC, TN, VA, VT, WV, WY

Comments added by states:

1. NE — Through August 31st of the year the child turns three

31. States have developed agreements for transition from preschool to kindergarten/first grade:

Agreement	n	States
Yes	8	AR, HI, KY, ME, NC, VT, WV, WY
No	30	AZ, CA, CO, DE, FL, GA, IA, IL, IN, KS, LA, MA, MD, ME, MI, MN, MT, ND, NE, NH, NJ, NV, NY, OH, OK, OR, RI, SC, TN, VA

Comments added by states:

1. WV — Transition procedures into and out of preschool is required as part of our Pre-k policy.

32. States have indicated the status of their data collection systems between Part C and Part B to aid in transition and to provide data for Part C and Part B Annual Performance Reports.

Status of Data Collection System	n	States
Being developed	24	AR, AZ, CA, DE, GA, IL, KY, LA, MA, MD, MI, MN, MT, NC, ND, NH, NJ, NV, OH, RI, SC, TN, VA, WY
In place	20	AZ, CT, FL, HI, IA, IN, KS, ME, MN, NE, NH, NV, OH, OK, OR, RI, VA, VT, WV, WY
Not currently working on	7	AZ, CO, MN, NH, OH, RI, WY

Comments added by states:

1. MN — MN administers a single data system for Birth through 21. We are currently working to capture additional data elements necessary to document transition through this system.
2. OH — Mechanism by which children are identified using the same unique identifier.
3. SC — The system developed was found not to provide accurate data and is being revised.
4. VA — Discussing how to align systems in place.
5. VT — Systems are separate but we work closely to analyze data.

Accreditation and Monitoring

33. States support program accreditation in the following manner:

State	NAEYC	ECERS	State-Developed Process	Other	Comments
AR	Yes	Yes	Yes		The Early Care and Early Education State Wide Committee is and has been in the process of developing a five Star quality program. This quality approval system is on a volunteer basis except for the State Arkansas Better Chance Program for School Success. ECERS is only one portion of the approval process.
AZ					Programs can also be accredited through other accreditation organizations.
CO	Yes	Yes	Yes		
CT	Yes	Yes	Yes		
FL	See comment	See comment			NAEYC accreditation is one of several accreditations that is voluntary and available to child care programs seeking the state's Gold Seal accreditation. Decisions and resource commitment regarding this is made on a local level. ECERS - We support a technical assistance system that includes staff trained in ECERS. School districts can access this training; but not required.
GA	Yes	Yes			
HI	Considering	Considering	No	No	
IA	Yes	Yes	Yes		
IL	Yes	Yes	Considering		
IN		Yes			Accreditation is voluntary.
KS					State Child Care R&R supports NAEYC accreditation. Child Care Licensing supports ECERS. State-developed process is the Quality Standards for Early Childhood Education in Kansas (0-8) used voluntarily by programs, but not for accreditation. Available at www.kskits.org .
KY					Local district programs may "choose" accreditation activities - the state does not endorse one particular process, nor is funding allocated for accreditation.
LA	No	Yes	Yes		
MA	Yes	Yes	No	No	
MD	Yes	No	Yes	No	
MI	Yes				
MN	No	No	No	No	

MT			Yes		
NC	See comment	See comment	Considering	No	The Division of Child Development pays for the ECERS if the public school preschool class is working on status beyond the one star in their system of star rating. It is not done by DPI.
NE	Yes	Yes	No	No	
NH	No	No	No	No	
NJ	Yes	Yes			
NV	No	No	No	No	
NY					There is a program approval process.
OH	Yes	Yes			The Ohio Dept. of Jobs and Family Services is implementing tiered licensing (Step Up to Quality) for child care and utilizes the ECERS.
OR	Considering	Considering	Considering		
RI	Yes	Yes	Yes	No	Supports programs (early care and education, preschool special education and K) with NAEYC accreditation through a state-developed process.
SC	See comment	See comment			LEAs are encouraged to voluntarily follow an accreditation process. The state does not endorse or require program accreditation.
TN	Yes	Yes			
VA	Considering				
VA		Considering	Considering		
VT	Yes				
WV	Yes	Yes			All early preschool programs are required to conduct an ECERS self assessment beginning this year.

KY	Preschool programs are included in the collaborative model of monitoring that's in place as part of the Exceptional Children process for local district monitoring.
MA	EEC participates in the SEA's monitoring efforts.
MD	We have established joint monitoring procedures with Part C around Transition At Age 3.
NC	Preschool monitoring is a component of the Part B monitoring process. Part C community monitoring does involve the public schools in the area of transition.
NE	No, we do not do collaborative preschool monitoring with other agencies.
NJ	The Office of Special Education (Section 619-Preschool Staff) work collaboratively with the Office of Early Childhood as validators in the Self Assessment Validation System developed for districts providing early childhood programs.
NY	Municipalities participate or comment on reviews or preschool special education programs as in NY municipalities pay for part of the cost of preschool special education
OH	Internal agency collaboration with the Office for Exceptional Children (school-age population) for focused monitoring and with the Office for Federal Programs coordinating the Comprehensive Continuous Improvement Planning. Joint technical assistance/monitoring of complaints regarding transition with the Ohio Dept Health. Joint monitoring of the Early Learning Initiative programs with the Ohio Dept of Job and Family Services.
OR	Part C and Section 619 are monitored together.
RI	This is done in conjunction with RI's School Support System (state monitoring process).
SC	Preschool is being monitored as part of the larger system which includes a self-assessment. The 619 representative from Part B is part of the monitoring team for Part C.
VT	Done in collaboration with general Part B special education monitoring.
WV	Preschool services are incorporated in monitoring process for all services. Currently, we are not looking at collaborative monitoring; it has been discussed in the past but never implemented. Our state improvement plan was developed jointly, too.
WY	The Wyoming Developmental Disabilities Division (DDD) performs the monitoring of the Developmental Preschools with collaboration through contracted services with MPRRC for focus group monitors to conduct focus groups with families, staff and local Board and Intercommunity Council (ICC) members. The DDD also invites the Wyoming Department of Education to attend any and all monitoring. Full monitoring reports are shared with the Department of Education and the ICC focus group monitoring Reports are shared with the State Early Intervention Council (EIC) for them to report back to the Governor.

Use of IEPs and IFSPs

35. SEAs have developed, or are developing, preschool specific policies and strategies to enhance the involvement of parents in their child's IEP (or IFSP if used):

Policy/Strategy	n	States
Have developed	21	AR, AZ, CA, CO, CT, GA, HI, KY, LA, ME, MN, NC, NE, NY, OH, OK, OR, RI, VT, WV, WY
Under development	5	IA, ND, NJ, NV, TN

Comments added by states:

1. ME — In regulations.

36. SEAs use, or are considering using, IFSPs for preschool services:

IFSP Use	n	States
Allow local discretion in using IFSPs	16	AZ, CO, FL, GA, HI, IL, KS, MA, ME, NC, ND, NH, RI, TN, VA, WV
Are collecting data for future decision making	3	NE, VT, WY
Use IFSPs as a result of statewide policy for all preschool services	1	OR
Use Interagency Plan for ages 3-21	1	MN

Comments added by states:

1. AR — We do not allow IFSPs for preschool special education services.

Family-Centered Services

37. SEAs work with the Parent Training and Information Center(s) (PTIs) in their state in the following ways:

Activity	n	States
Provision of technical assistance	35	AR, AZ, CA, CO, CT, DE, FL, GA, HI, IL, IN, KS, LA, MA, MD, ME, MI, MN, MT, NC, ND, NE, NH, NJ, NV, OH, OK, OR, RI, SC, TN, VA, VT, WV, WY
Special projects	34	AR, AZ, CA, CO, CT, DE, FL, HI, IA, IL, IN, KS, KY, LA, MA, MD, ME, MI, MN, MT, NC, ND, NE, NH, NV, NY, OH, OR, RI, SC, TN, VA, VT, WV
Shared resources	28	AR, AZ, CA, CO, DE, HI, IL, IN, KS, KY, LA, MD, ME, MI, MN, NC, NE, NH, NJ, NV, OH, OR, RI, SC, TN, VA, VT, WV
Joint conferences	23	AZ, CO, CT, DE, HI, IL, IN, KS, KY, LA, MN, NC, ND, NH, NV, OH, OR, RI, SC, TN, VA, VT, WY
Other	14	AR, CA, CO, CT, HI, IL, KS, LA, MI, NC, OH, SC, TN, VT

38. SEAs support the provision of service coordination to eligible children, 3 through 5 years of age, in the following ways:

SEA Support	n	States
Training/technical assistance	23	AR, AZ, CO, GA, HI, KS, LA, MA, ME, MI, MN, NC, ND, NE, NH, OH, OK, OR, RI, VA, VT, WV, WY
State regulation or policy	14	AR, AZ, CO, GA, HI, MA, ME, MN, ND, NJ, OK, OR, VT, WY
Funding	11	AR, AZ, GA, HI, MA, ME, MN, ND, VT, WV, WY

Standards and Outcomes Measures

39. SEAs have early learning standards that apply:

Standards Apply	n	States
To all children, including children with disabilities	36	AR, AZ, CO, CT, DE, FL, GA, HI, IA, IL, IN, KS, KY, LA, MA, MD, ME, MI, MN, MT, NC, NE, NH, NJ, NV, NY, OH, OK, OR, RI, SC, TN, VA, VT, WV, WY
State does not have early learning standards	1	ND
State has early learning standards that do not include children with disabilities	0	
State has early learning standards that apply only to children with disabilities	0	

Comments added by states:

1. KY — http://www.education.ky.gov/NR/rdonlyres/E479F0D8-7278-4CD3-BF8C-75813E08E71C/0/FinalFullVersionKYECS_1_13_06.pdf
2. MA — <http://www.eec.state.ma.us/docs/TAGuidelinesForPreschoolLearningExperiences.pdf>
3. MN — <http://education.state.mn.us/mdeprod/groups/EarlyLearning/documents/Publication/009530.pdf>
4. NJ — <http://www.nj.gov/education/ece/code/expectations>

40. Status of SEA evaluation of the outcomes of early childhood programs supported with Section 619 funds:

Program Outcomes	n	States
Have program performance goals and outcomes	13	AR, CO, GA, HI, LA, MD, MN, NE, NY, OH, TN, WV, WY
Efficacy/outcome/longitudinal study for program performance goals is planned/underway	15	AR, AZ, CA, CO, GA, KY, ME, NE, NJ, NV, NY, OH, OR, TN, VT
Program outcome data is available	7	CA, CO, IA, MN, NC, NE, NY
Child Outcomes		
Have child performance goals and outcomes	23	AR, CO, DE, GA, HI, IL, IN, KS, MD, ME, MI, MN, NE, NH, NJ, NY, OH, OK, OR, RI, SC, TN, WV
Efficacy/outcome/longitudinal study for child performance goals is planned/underway	22	AR, AZ, CO, CT, FL, IA, IL, KS, KY, LA, MI, MN, NC, NE, NH, NJ, OH, OR, RI, TN, VA, VT
Child outcome data is available	13	AR, CO, DE, GA, IA, KS, MA, MI, MN, NE, OH, TN, WV

Comments added by states:

1. AR — Baseline data is available as reported on the APR.
2. OH — Program Outcomes are defined by performance measures in the SPP as well as the Early Learning Program Guidelines.
3. RI — Entry data has been completed.

Pre-Kindergarten Initiatives

41. States have the following general education pre-kindergarten services:

Service	n	States
State Funded Pre-K for At Risk	31	AR, AZ, CA, CO, CT, DE, FL, GA, IA, IL, KS, KY, LA, MA, MD, ME, MI, MN, NC, NE, NJ, NV, NY, OH, OK, OR, SC, TN, VA, VT, WV
Title 1 Pre-K	24	AR, AZ, CO, CT, FL, GA, IA, IL, IN, KS, LA, MI, MN, NC, NE, NH, NJ, OH, OR, SC, TN, VA, VT, WV
Locally Funded Pre-K	23	AR, AZ, CA, CO, CT, IL, IN, KS, LA, MA, ME, MI, MN, NC, NE, NJ, NY, OH, OR, SC, TN, VA, VT
State Head Start	21	AR, AZ, CT, GA, IL, KS, LA, MA, ME, MI, MN, NC, NJ, NY, OK, RI, SC, TN, VA, VT, WV
Pre-K Early Reading	17	GA, HI, IL, IN, KS, LA, MI, MN, MT, NC, NH, NY, OR, SC, TN, VA, VT

Comments added by states:

1. OH — Title I preschools are a local service delivery option.

Initiatives for Special Populations

42. SEAs have the following initiatives for childhood special needs/populations:

Special Need	n	States
Autism	31	AR, AZ, CA, CO, CT, DE, FL, GA, HI, IA, IL, KS, LA, MD, ME, MI, MN, NC, ND, NE, NH, NJ, NV, NY, OH, OR, RI, SC, TN, VA, VT
Challenging behavior	28	AR, AZ, CO, CT, DE, FL, GA, HI, IA, IL, IN, KS, KY, LA, MA, MN, MT, NC, ND, NH, NJ, OR, SC, TN, VA, VT, WV, WY
Assistive technology	25	AR, AZ, CA, CO, CT, FL, GA, HI, IA, IL, KS, LA, MD, MI, MN, NC, NE, NJ, OH, OR, RI, SC, TN, VA, WV
Mental health needs	25	AR, AZ, CT, DE, GA, HI, IA, IL, KS, LA, MA, MD, MI, MN, NC, NE, NH, OH, OR, RI, SC, TN, VA, VT, WY
Deaf/Blind	22	AR, CO, DE, FL, GA, HI, IA, IL, KS, LA, MD, MI, MN, NC, ND, NE, NJ, OH, SC, TN, VA, WV
Deaf	20	AR, CO, DE, FL, GA, HI, IA, LA, MI, MN, NC, NE, NJ, OH, RI, SC, TN, VA, WV, WY
Blind	17	AR, CO, DE, FL, GA, IA, KS, LA, MI, NE, NJ, OH, SC, TN, VA, WV, WY
Traumatic brain injury	10	AR, AZ, HI, LA, NY, OH, SC, TN, VA, WV
Migrant	7	AR, LA, MI, OH, OR, TN, VA
Homeless	5	IL, LA, MD, TN, VA
Fetal Alcohol Effects/Syndrome	3	MN, NH, OH

Comments added by states:

1. FL — Initiatives are not exclusively preschool, preschool is included.
 2. OH — Funds to the Head Start Migrant Council for collaboration with districts and service delivery.
-

Section II

Section 619 Program Implementation Resources

Special Education Mandates and Legislation	37
Section 619 - Federal Appropriations and National Child Count, 1977-2006	39

Preschoolers with Disabilities: Characteristics, Services, and Results, Wave 1 Overview Report by Markowitz, J., Carlson, E., Frey, W., Riley, J., Shimshak, A., Heinzen, H., Strohl, J., Klein, S., Lee, H., & Rosenquist, C. (PEELS, August 2006).....	65
Progress Notes 1: Preschoolers with Disabilities: A Look at School Readiness (PEELS, August 2006)	71
Measuring Child Outcomes: Section 619 State Activities by Kahn, L. & Rooney, R. (ECO, January 2007).	73

Special Education Mandates and Legislation

The chart below indicates the age at which children with disabilities are eligible under state policy to receive a free appropriate public education (FAPE).

Birth	Age 2	Age 3	
American Samoa	Virginia	Alabama	Nevada
Commonwealth of Northern Mariana Islands		Alaska	New Hampshire
Federated States of Micronesia		Arizona	New Jersey
Guam		Arkansas	New Mexico
Iowa		California	New York
Maryland		Colorado	North Carolina
Michigan		Connecticut	North Dakota
Minnesota		Delaware	Ohio
Nebraska		District of Columbia	Oklahoma
Palau		Florida	Oregon
Puerto Rico		Georgia	Pennsylvania
		Hawai'i	Rhode Island
		Idaho	South Carolina
		Illinois	South Dakota
		Indiana	Tennessee
		Kansas	Texas
		Kentucky	Utah
		Louisiana	Vermont
		Maine	Virgin Islands
		Marshall Islands	Washington
		Massachusetts	West Virginia
		Mississippi	Wisconsin
		Missouri	Wyoming
		Montana	

Special Education Mandates and Legislation, continued

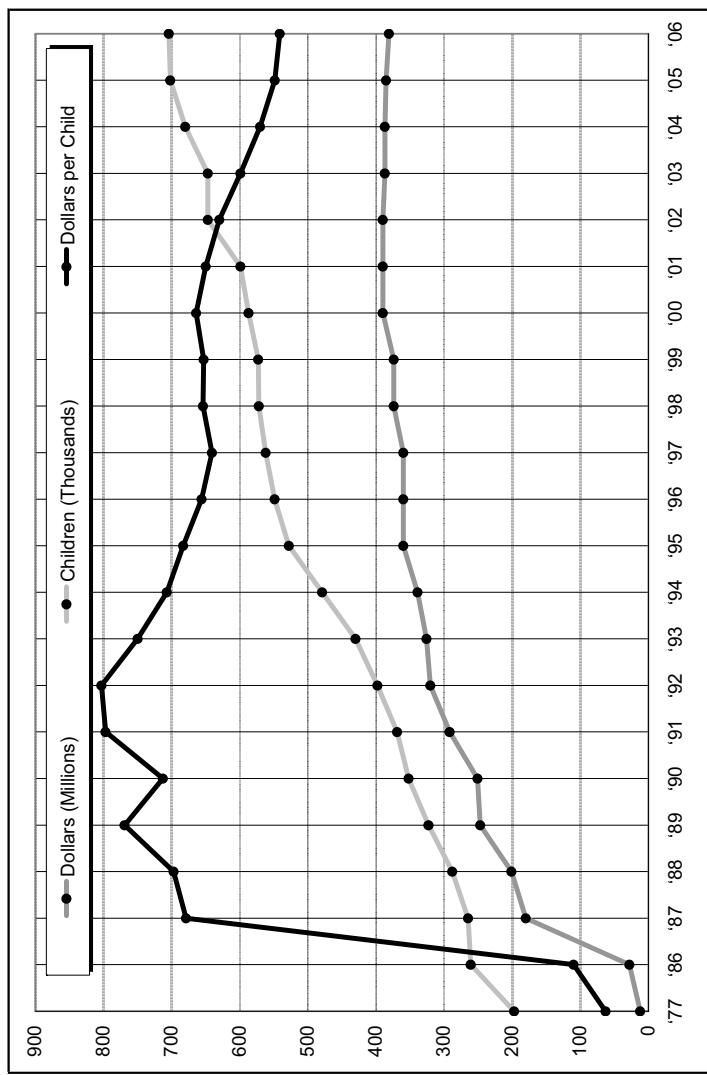

The chart below indicates the school year in which states ensured FAPE for all children with disabilities, beginning at 3 years of age. (*Refer to the chart on the previous page for the 12 states which assure FAPE below age 3.*)

1973-1974	Illinois Michigan Wisconsin	1989-1990	Idaho Palau
1974-1975	Alaska Texas	1990-1991	Montana Nevada Northern Mariana Islands Wyoming
1975-1976	Iowa Virginia	1991-1992	Alabama Arizona Arkansas California Colorado Connecticut Delaware Florida Georgia Indiana Kansas Kentucky Maine Marshall Islands Mississippi Missouri New Mexico New York North Carolina Ohio Oklahoma Pennsylvania South Carolina Tennessee Vermont West Virginia
1976-1977	Massachusetts Rhode Island South Dakota		
1977-1978	American Samoa Louisiana New Hampshire		
1978-1979	Maryland		
1979-1980	Nebraska		
1980-1981	Hawai'i		
1981-1982	Guam Virgin Islands		
1983-1984	District of Columbia New Jersey		
1985-1986	North Dakota Puerto Rico Washington		
1986-1987	Minnesota	1992-1993	Oregon
1987-1988	Bureau of Indian Affairs ¹	1993-1994	Department of Defense (overseas) Federated States of Micronesia
1988-1989	Utah		

¹ BIA is no longer responsible for assuring FAPE for preschool children with disabilities.

Section 619 - Preschool Program Federal Appropriations and National Child Count, 1977 – 2006

	FFY:	'77	'86	'87	'88	'89	'90	'91	'92	'93	'94	'95	'96	'97	'98	'99	'00	'01	'02	'03	'04	'05	'06

Key

- Dollars (Millions) appropriated for distribution to states
- Children (Thousands) receiving FAPE in the Fall of each federal fiscal year, U.S. & Outlying Areas.
- Dollars per Child allocation of Section 619 dollars

FFY (Federal Fiscal Year): For example, in FFY 1986, 261,000 children were reported to be receiving services as of December 1, 1985.

Sources: www.ideadata.org (Fall 2005 child count data updated July 17, 2006, and downloaded March 8, 2007) and http://www.ed.gov/about/overview/budget/budget07/07action.pdf
Note: The number represents US and outlying areas.

State Child Count Data 1986-2006

Number of children, 3 through 5 years old, served under Part B of IDEA at the Fall Child Count for the federal fiscal year:¹

Eligibility Policies and Practices for Young Children Under Part B of IDEA

by Joan Danaher

Introduction

The identification of young children in need of special education and related services has been an issue with advocates, service providers, parents, researchers, and policy makers for years. The enactment in 1975 of the Education for All Handicapped Children Act (P. L. 94-142) required states and jurisdictions to provide special education and related services to children identified by the disability categories enumerated in the law (hereinafter referred to as Part B categories). This hard-won legislation was deemed an important civil rights act for children with disabilities, and it was important to specify just who was protected by this law.

As implementation of this legislation continued throughout the late 1970s and into the 1980s, concerns were raised in some quarters about how applicable and appropriate some of the disability categories are for very young children. The research community was, and remains, concerned that in young children, some developmental domains are so interrelated — e.g., cognition and language — that the underlying disability may not be readily determined. The emphasis on assignment of a disability category in order to provide access to services may result in inappropriate diagnoses and services. Some advocates maintain that labeling children with some disabling conditions in their early years creates a self-fulfilling prophecy and unfairly stigmatizes children who, with early intervention, may not continue to need special education.

Continued...

In response to these concerns and to support states that had begun using non-categorical eligibility criteria for preschoolers, Congress incorporated several revisions addressing eligibility for preschoolers in subsequent reauthorizations of the law. In 1986, P. L. 99-457 encouraged states to serve all eligible children with disabilities from age 3 — relieved states of reporting to the U. S. Department of Education the numbers of 3-through 5-year-olds served by disability category. In 1991, P. L. 102-119 amended the law, by then renamed the Individuals with Disabilities Education Act (IDEA), to allow states, at their option, to incorporate an additional disability category for children, ages 3 through 5 years, who are experiencing developmental delays. The IDEA Amendments of 1997, P. L. 105-17, expanded the options that state and local education agencies (LEAs) have to identify

Table 1
Part B Disability Categories Under IDEA

SEC.602. DEFINITIONS

Except as otherwise provided, in this title:

(3) Child with a disability

(A) In general — The term "child with a disability" means a child—

(i) with mental retardation, hearing impairments (including deafness), speech or language impairments, visual impairments (including blindness), serious emotional disturbance (referred to in this title as "emotional disturbance"), orthopedic impairments, autism, traumatic brain injury, other health impairments, or specific learning disabilities; and

(ii) who, by reason thereof, needs special education and related services.

(B) Child aged 3 through 9 — The term "child with a disability" for a child aged 3 through 9 (or any subset of that age range, including ages 3 though 5), may, at the discretion of the State and the local educational agency, include a child—

(i) experiencing developmental delays, as defined by the State and as measured by appropriate diagnostic instruments and procedures, in one or more of the following areas: physical development, cognitive development, communication development, social or emotional development, or adaptive development; and

(ii) who, by reason thereof, needs special education and related services.

Individuals with Disabilities Education Improvement Act of 2004.

young children with disabilities. States and LEAs could apply the term developmental delay, or a term defined by the state to include children experiencing developmental delay, to 3- through 9-year-olds. The regulations for P. L. 105-17 charged the states with defining developmental delay, the age range to which it applies, and the diagnostic instruments and procedures that will be used to determine delay in the developmental areas. If the state has such a definition, LEAs may choose to use the state term, applying it to the age range specified by the state, but they may not use a locally defined term. P.L. 105-17 also reinstated a reporting requirement that children ages three through five served under Part B of IDEA be counted by disability category. The IDEA Improvement Act of 2004, P.L. 108-446, clarified that the age range for developmental delay is ages 3 through 9, or any subset of that range, including ages 3 through 5. The most recent regulations reaffirmed the states' role in deciding whether to use a developmental delay category, defining it, and assigning an age range. LEAs may use developmental delay only if they use the states' definition and age range. The Part B disability categories currently included in IDEA are presented in Table 1. Table 2 presents the Part B regulations for developmental delay.

In response to states' interest in whether or how other states are using developmental delay or other eligibility category specific to 3- through 9-year-olds, the author reviewed the current eligibility classifications and criteria as retrieved from states' Web sites, the National State Policy Database (2007) and/or provided by the coordinators of the state Part B-Section 619 programs, including the District of Columbia. Periodically data presented in this report are sent to the coordinators for their review. The author has incorporated their corrections and clarifications into this report. The results of

Table 2

**IDEA Regulations Related to Developmental Delay
for Children Ages 3 Through 9 Years**

§300.8 Child with a disability.

(a) General. (1) Child with a disability means a child evaluated in accordance with Sec. Sec. 300.304 through 300.311 as having mental retardation, a hearing impairment (including deafness), a speech or language impairment, a visual impairment (including blindness), a serious emotional disturbance (referred to in this part as "emotional disturbance"), an orthopedic impairment, autism, traumatic brain injury, an other health impairment, a specific learning disability, deaf-blindness, or multiple disabilities, and who, by reason thereof, needs special education and related services.

(2)(i) Subject to paragraph (a)(2)(ii) of this section, if it is determined, through an appropriate evaluation under Sec. Sec. 300.304 through 300.311, that a child has one of the disabilities identified in paragraph (a)(1) of this section, but only needs a related service and not special education, the child is not a child with a disability under this part.

(ii) If, consistent with Sec. 300.39(a)(2), the related service required by the child is considered special education rather than a related service under State standards, the child would be determined to be a child with a disability under paragraph (a)(1) of this section.

(b) Children aged three through nine experiencing developmental delays. Child with a disability for children aged three through nine (or any subset of that age range, including ages three through five), may, subject to the conditions described in Sec. 300.111(b), include a child--

(1) Who is experiencing developmental delays, as defined by the State and as measured by appropriate diagnostic instruments and procedures, in one or more of the following areas: physical development, cognitive development, communication development, social or emotional development, or adaptive development; and

(2) Who, by reason thereof, needs special education and related services.

[Note: (c) (1-13) includes definitions of other terms used in the definition of a child with a disability]

Assistance to States for the Education of Children with Disabilities and Preschool Grants for Children with Disabilities; Final Rule (August 14, 2006).

§ 300.111(b) Children experiencing developmental delays.

(b) Use of term developmental delay. The following provisions apply with respect to implementing the child find requirements of this section:

(1) A State that adopts a definition of developmental delay under Sec. 300.8(b) determines whether the term applies to children aged three through nine, or to a subset of that age range (e.g., ages three through five).

(2) A State may not require an LEA to adopt and use the term developmental delay for any children within its jurisdiction.

(3) If an LEA uses the term developmental delay for children described in Sec. 300.8(b), the LEA must conform to both the State's definition of that term and to the age range that has been adopted by the State.

(4) If a State does not adopt the term developmental delay, an LEA may not independently use that term as a basis for establishing a child's eligibility under this part.

(c) Other children in child find. Child find also must include-- (1) Children who are suspected of being a child with a disability under Sec. 300.8 and in need of special education, even though they are advancing from grade to grade; and

(2) Highly mobile children, including migrant children.

(d) Construction. Nothing in the Act requires that children be classified by their disability so long as each child who has a disability that is listed in Sec. 300.8 and who, by reason of that disability, needs special education and related services is regarded as a child with a disability under Part B of the Act.

(Authority: 20 U.S.C. 1401(3); 1412(a)(3))

the analysis are discussed below and are summarized in Table 3. Table 4 details each state's chosen disability term(s) for early childhood, the age range to which it applies, criteria for eligibility under that term, restrictions on use of developmental delay/other early childhood disability category, and other comments. These data are maintained by the author at <http://www.nectac.org/~pdfs/pubs/nnotes24.pdf>.

Findings

The analysis revealed variations among state policies in terminology, age range assigned to the category, eligibility criteria, and restrictions on its use.

Disability Terminology Used for Young Children

State eligibility policies for young children under Part B of IDEA have evolved to reflect best practice and to respond to changes in the federal law. Fifty of the fifty-one jurisdictions included in this analysis include a disability category unique to young children. Two states offer LEAs the option of a non-categorical approach to identification of eligible children of all ages. Thirty-seven (37) states have chosen to use the term "developmental delay" or a variant such as "significant developmental delay" as a disability category for eligible young children. For many years before the addition of developmental delay as a disability category under Part B, some states chose to use more generic descriptors of disability for young children or may even have adopted non-categorical eligibility policies for all ages. Terms such as "early childhood disability" and "preschool special needs," among others, were adopted by states to more appropriately address the unique developmental status of young children and to avoid premature and self-fulfilling labeling. Seventeen states use terms other than developmental delay for disability in young children.

Age Ranges Used by States for Developmental Delay

IDEA '97 provided for the extension of developmental delay by allowing states to adopt the term for the age range 3 through 9, or any subset of that age range. Twenty-three (23) states extend the age range for developmental delay beyond age five: two through age 6; five through age 7; eight through age 8; and eight through age 9. Two other states, Iowa and Idaho, permit LEAs to use a non-categorical approach for all ages. Two states have proposed rule changes that would increase the upper age limit for developmental delay. One currently uses an age range of three through seven and would extend to three through eight. The other would extend the age range from three through five to three through nine.

Relationship Between Developmental Delay and Other Part B Categories

Two (2) states have policies that allow LEAs to use developmental delay or another early childhood disability category for preschool aged children while maintaining local discretion to use them for an extended age range. See Kansas and Nebraska in Table 4.

Eleven (11) states limit the use of developmental delay to those children who do not qualify for one of the other disability categories.

Eligibility Criteria for Developmental Delay

The criteria for developmental delay vary across states. Forty-four (44) states use quantitative criteria such as scores on developmental tests. Thirty-six (36) of the thirty-nine (39) using norm referenced criteria use 2.0 standard deviations (SD) below the mean in one developmental area and/or 1.5 SD below the mean in two or more developmental areas. The range is 1.0 SD in one area to 3.0 SD in one area. Eighteen (18) states define delay in

percentages. Sixteen (16) of them specify a delay in the range of 20 to 33 percent in one or two developmental areas. For example, a 36-month-old child functioning at a 27-month developmental level would be said to have a 25 percent delay.

States do not rely exclusively on quantitative criteria for developmental delay, however. Fourteen (14) states permit informed team consensus, professional judgment, or informed clinical opinion in lieu of test scores to determine eligibility. Nine (9) states allow eligibility based on a diagnosis of a condition associated with delay or deviation in development. Eight (8) states do not specify quantitative criteria, but may provide guidance, and/or permit LEAs to set the criteria.

Eligibility Policies and Transition

Five states have eligibility policies that may improve transition from Part C early intervention to Part B preschool special education. Vermont children who receive special instruction, developmental therapy services, or speech services through an IFSP and Minnesota children served under Part C retain eligibility as they transition to Part B at age three. They are reevaluated no more than 3 years after eligibility under Part C was determined. Florida has a temporary assignment policy. With parental permission, a child previously enrolled in early intervention may be assigned temporarily to preschool special education for a six month period during which eligibility for permanent assignment will be determined through evaluation. Colorado encourages Part C and Part B dual eligibility determination for two-year-old children, so that children, their families, and agencies are not burdened by repeated evaluations. Alabama regulations state that evaluations done within one year of the date of the initial eligibility determination meeting are considered valid for determining initial eligibility for special education services.

Thus, a child evaluated for Part C eligibility around age two would have valid evaluation data for a Part B eligibility determination.

Conclusion

States have exhibited a strong interest in using the option of a developmental delay eligibility category for young children served by IDEA, and in extending the age range to which it applies. They use a variety of assessment procedures. States have begun to address the local option provision in the law to encourage the continued use of developmental delay. And, they are beginning to address policy provision that might ease transition from Part C to Part B.

NECTAC maintains information on states' early intervention and special education eligibility policies for young children on our web site. Please address your updates, questions, or clarifications to the author at NECTAC.

Table 3
**Summary of State Eligibility Classifications and Criteria
for Young Children Under Part B of IDEA**

Disability Terms Used

“Developmental delay” or a variant such as “Significant Developmental Delay” is used by 37 states: AL, AK, CT, DE, DC, FL, GA, HI, ID, IL, IN, KS, KY, LA, ME, MD, MA, MI, MN, MS, MO, NE, NV, NH, NM, NC, OK, OR, PA, RI, SD, TN, UT, VT, VA, WA, and WI.

Other disability terms are used by 17 states for some or all of the age range 3 through 9.

AZ	Preschool moderate delay, preschool severe delay, preschool speech/language delay
AR	Non-categorical
CA	Individual with exceptional needs
CO	Preschool child with a disability
DE	Preschool speech delay (in addition to DD)
ID, IA	Non-categorical permitted for all ages
KS	Early childhood disability (ages 3 through 5, use DD for ages 3 through 9)
MT	Child with disabilities (ages 3 through 5)
NJ	Preschool disabled
NY	Preschool student with a disability
ND	Non-categorical delay
OH, SC	Preschool child with a disability
TX	Non-categorical early childhood
WV	Preschool special needs
WY	Developmental disability

Age Ranges for Developmental Delay, Other Early Childhood Disability Categories and Non-categorical Policies

Birth	through 5	(1) MS
	through 8	(1) NE
Ages 2	through 8	(1) VA
Age 3	only	(1) DE (developmental delay)
Ages 3	through 4	(1) DE (preschool speech delay)
	through 5	(26) AZ, AR, CA, CO, CT, FL, IL, IN, KS (early childhood disability), ME, MO, MT, NV, NJ, NY, OH, OR, PA, RI, SC, SD, TX, VT, WV, WI, and WY*
	through 6	(2) DC, MN
	through 7	(5) GA, MI, NC, OK**, and UT
	through 8	(6) AL, AK, HI, KY, LA, and WA (**OK, proposed)
	through 9	(8) ID, KS, MD, MA, NH, NM, ND, and TN (*WY, proposed)
All ages		(2) ID, IA (permit LEAs to use non-categorical for all ages)

Relationship Between Developmental Delay and Other Part B Categories

Eleven (11) states use developmental delay, or other disability term, for the age range to which it applies, *only after considering* other disability categories.

AZ, CO, DC, ID, MI, NM, ND, TN, UT, WI, and WY

Two (2) states have policies that separate preschool developmental delay from their extended age range, thus permitting LEAs to use developmental delay for preschool children and not for school age children.

KS, NE

Eligibility Criteria

Forty-four (44) states use quantitative criteria for determining developmental delay or state-designated early childhood disability category.

Thirty-six of the thirty-nine (36 of 39) states that use standard deviations use 2.0 SD below the mean in one developmental area and/or 1.5 SD below the mean in 2 developmental areas. (Range 1.0 SD – 3.0 SD in one area).

Sixteen of the eighteen (16 of 18) states that use percent delay specify criteria within the range of 20 - 33% delay in one or two developmental areas. (Range 10-50% delay in one area)

A total of twenty-eight (28) states permit eligibility based on other than quantitative scores, including team consensus, diagnosed conditions, and/or locally determined criteria.

Fourteen (14) states specify quantitative criteria but expressly permit informed team consensus, professional judgment or informed clinical opinion in lieu of quantitative criteria.

CO, CT, DE, FL, HI, ID, KY, MD, MN, MO, NE, NM, NC, and ND

Nine (9) states expressly permit early childhood eligibility based on the diagnosis of a condition associated with a disability. Note that eligibility criteria for other categories such as mental disability or other health impaired may include diagnosed conditions.

CA, CO, MD, MN, MS, NE, ND, RI, and VT

Eight (8) states do not specify quantitative criteria, but may provide guidance, and/or permit LEAs to set criteria.

CA, IL, IA, KS, MA, NH, TX, and VA

Eligibility Policies and Transition

Five (5) states have eligibility policies that may improve transition from Part C to Part B

VT Eligibility is extended for three years from initial Part C eligibility if a child received special instruction, developmental therapy services or speech services on an IFSP under Part C.

MN Children served under Part C retain eligibility as they transition to Part B at age three. They are re-evaluated no more than 3 years after eligibility under Part C is determined.

FL A child previously enrolled in early intervention may be assigned temporarily to preschool special education for a six-month period during which eligibility for permanent assignment will be determined through evaluation.

CO Part C and Part B dual eligibility determination for 2-year-old children is encouraged.

AL Evaluations done within one year of the date of the initial eligibility determination meeting are considered valid for determining initial eligibility for special education services

Table 4

**Summary Table of Early Childhood Special Education Eligibility Criteria
in the States, and District of Columbia, as of May 2007**

How to Read This Table

Column 1 – State abbreviation, alphabetized by complete name

Column 2 – Developmental Delay or Early Childhood-Specific Category/Classification and Criteria

- Contains the state's term(s) in quotation marks for disability category used only for young children, typically in the age range 3 through 9 or a subset thereof
- Contains the eligibility criteria or said term(s)
- Criteria for early-childhood-specific eligibility categories typically reference a child's status in one or more developmental areas. The term "area" in this column refers to developmental area. Although states vary somewhat, most list five areas (or some variation thereof): cognitive, language, physical, psychosocial and self-help. SD refers to standard deviations below the mean on a norm-referenced standardized instrument. The number of developmental areas in which a delay is required is the minimum. For example 2 SD below the mean in one area means *at least* one developmental area.

Column 3 – Age Range for Developmental Delay or Early Childhood-Specific Category - the age range to which the category in column 2 applies

Column 4 – Notes

- “Restriction” indicates whether the state policy is to use developmental delay, or other disability term specific to early childhood, only if the child is not eligible under another category but meets the criteria for developmental delay, or other term
- “Transition” notes describe features of state eligibility policies that may ease transition, for eligible children, from Part C to Part B

Column 5 – Source and Date. State policies used in the analysis were current at the time of analysis. The sources included:

- Rules or regulations
- Guidance document such as Guidelines, Handbook
- State statute, code
- Departmental correspondence, bulletin, memo distributed within the state on implementing eligibility policy
- State's plan and procedures for implementing IDEA submitted to OSEP
- Personal communication from Section 619 Coordinator or other state official
 - Date on the source document, date effective, or most recent date acknowledged. For example, some state documents on-line may show the most recent date that volume of regulations was updated. It may not mean that the regulations for special education changed on that date. The National State Policy Database (<http://www.rifcnetwork.org/NSPD>) and state Web sites were sources of the policies. Where proposed regulations were available those were also reviewed and their dates are cited.

State	Developmental Delay (DD) or Early Childhood-Specific Category/Classification and Criteria	Age Range for DD or Early Childhood-Specific Category	Notes		Source and Date
			Restriction on DD/EC Category	Transition from Part C to Part B	
AL	<p>“Developmental delay”: 2 SD in one area 1.5 SD in two areas</p> <p><i>plus</i></p> <p>Supporting evidence on criterion-referenced or other norm-referenced instrument and evidence delay adversely affects performance of age appropriate activities. In rare circumstances age-equivalent scores from criterion-referenced test may be used to determine the percent of delay.</p>	3 through 8	<p><i>Transition:</i> Any evaluation conducted within one year prior to the date of the initial eligibility determination meeting is considered valid for determining initial eligibility for special education services.</p>	Transition from Part C to Part B	Regulations 9/05
AK	<p>“Early childhood developmentally delayed”: 2 SD or 25% delay in one area 1.7 SD or 20% delay in two areas</p>	3 through 8			Regulations 9/05
AZ	<p>“Preschool moderately delayed”: 1.5 SD in two areas</p> <p>“Preschool severely delayed”: More than 3 SD in one area</p> <p>“Preschool speech/language delayed”: 1.5 SD and assessment indicates child not eligible under a different category</p> <p><i>plus</i></p> <p>Parent input, comprehensive developmental assessment and preponderance of information</p>	3 to “required age for kindergarten” (LEA may admit child within 90 days of third birthday but receives no state or federal funds until date of third birthday)	<p><i>Restriction:</i> Preschool speech/language delayed used only if child is not eligible under a different category</p>		Statute 1/07
AR	<p>“Noncategorical”: Means a condition of developmental delay which impairs a child's functioning</p> <p>2 SD in one area 1.5 SD in two areas</p> <p>Delays in self-help and motor skills (gross and fine) can be expressed in months, %ile, or age equivalents using criterion-referenced tests:</p> <p>3 years: 11 months, <3%ile, 2 yr 1 mo or less-one area 8 months, <7%ile, 2 yr 4 mo or less-two areas</p> <p>4 years: 14 months, <3%ile, 2 yr 10 mo or less-one area 11 months, <7%ile, 3 yr 1 mo or less-two areas</p> <p>5 years: 18 months, <3%ile, 3 yr 6 mo or less-one area 14 months, <7%ile, 3 yr 10 mo or less-two areas</p>	3 through 5			Regulations 6/00

State	Developmental Delay (DD) or Early Childhood-Specific Category/Classification and Criteria	Age Range for DD or Early Childhood-Specific Category	Notes Restriction on DD/EC Category Transition from Part C to Part B	Source and Date
CA	"Individual with exceptional needs" has one of the other disabling conditions, or an "established medical disability" – a disabling medical condition or congenital syndrome...high predictability of requiring special education and services	3 through 5		Statute 2005
CO	"Preschool child with a disability": 1.5 SD in one area or %ile or standard score of 76 <i>or</i> Has identifiable condition known through empirical data to be associated with significant delays in development <i>or</i> Informed opinion of assessment team including the parent(s) with documentation of the rationale for the inability to obtain a standardized score	3 (by the end of the first semester) through 5	<i>Restriction:</i> Child for whom appropriate category can not be determined <i>Transition:</i> Part C and Part B dual eligibility determination is encouraged for two year old children	Regulations 11/06
CT	"Developmental delay": 2 SD in one area 1.5 SD in two areas <i>or</i> Informed clinical opinion of multidisciplinary team, with written documentation when standardized instrument is not appropriate <i>and/or</i> child requires significant adaptation to perform on a standardized instrument	3 through 5		Guidance 8/05
DE	"Developmental delay" — 3-year-olds only (categorical for 4-year-olds): 2 SD in one area 1.5 SD in two areas <i>or</i> Professional judgment of IEP team based on multiple sources of information and written justification including documentation of a significant (25% delay) difference between the child's chronological age and current functioning.	3 only		Regulations 2004
	"Preschool speech delay"--Significant delay in one or more areas: articulation, conversational speech, oral motor involvement, speech fluency, voice quality	3 through 4		

State	Developmental Delay (DD) or Early Childhood-Specific Category/Classification and Criteria	Age Range for DD or Early Childhood-Specific Category	Notes	Source and Date
		Restriction on DD/EC Category	Transition from Part C to Part B	
DC	"Developmental Delay": Child... experiences severe developmental delays of at least two years below his or her chronological age <i>and/or</i> 2 SD in one area	3 through 7	<i>Restriction:</i> No child may be classified as having Developmental Delay based solely on deficits in the area of social and/or emotional development.	Regulations 2/03
FL	"Developmentally delayed": 2 SD or 25% delay in one area 1.5 SD or 20% delay in two areas <i>or</i> Informed clinical opinion	3 through 5	<i>Transition:</i> Temporary assignment up to 6 months for children previously enrolled in early intervention, pending evaluation for eligibility.	Regulations 2/06 TA Paper 7/03
GA	"Significant developmental delay": 2 SD in one area 1.5 SD in two areas	3 through 7		Regulations 8/01
HI	"Developmental delay": 1.5 SD in one area, except if the area is cognitive, then adaptive development must also be 1.5 SD below the mean (3 through 5) 1.5 SD in 3 areas (6 through 8) <i>or</i> Team, including parent, determines that patterns of learning deviate from age expectations across settings and provides the basis and method used in determining eligibility	3 through 8	Note: Different criteria for 6 through 8	Regulations 6/00

State	Developmental Delay (DD) or Early Childhood-Specific Category/Classification and Criteria	Age Range for DD or Early Childhood-Specific Category	Notes Restriction on DD/EC Category Transition from Part C to Part B	Source and Date

The National Landscape of Early Childhood Special Education (ECSE) in Personnel Preparation Standards under 619 of the Individuals with Disabilities Education Act (IDEA)

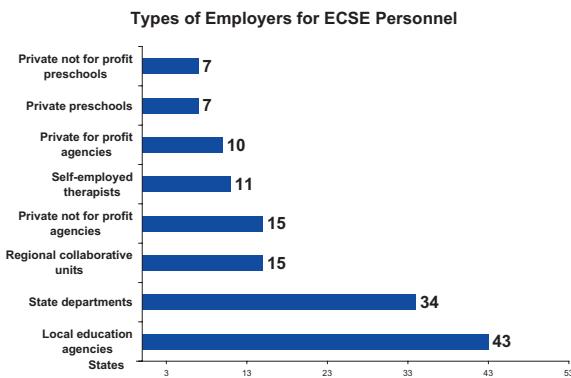

This study examined the personnel preparation systems for Preschool Special Education across the country. The 619 Coordinators from each state, District of Columbia, and the territories of Puerto Rico and the Virgin Islands were invited to complete the survey consisting of 42 multiple choice and open-ended questions. Forty-eight respondents completed the survey. The survey explored issues related to organizational structures of 619 programs, personnel preparation and supply, and state requirements for personnel.¹ Results from this study will contribute to a better understanding of 619 system organizations, personnel preparation opportunities, and ways to obtain qualified personnel.

Personnel Preparation and Requirements

- 97.9% reported they have higher education programs specific to ECSE.
- 56.3% of respondents reported making modifications to existing personnel requirements for teachers. For example, some states have increased training hours in reading instruction.

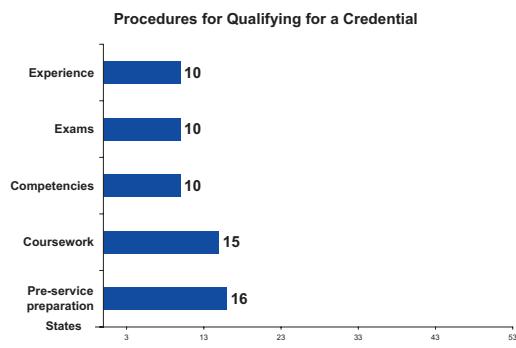

State 619 Organizational Structure

- 81.3% of respondents perceived their 619 organizational structures as being stable in their state.
- 43.5% of respondents reported that their funding was stable.
- ECSE personnel are employed by a variety of different entities, the majority being local education agencies.

ECSE Credentials

- 62.6% of respondents indicated that their state has developed credentials specifically for ECSE teachers.
- The most common procedures for qualifying for a credential are:

The Center To Inform *Personnel Preparation Policy And Practice* In Early Intervention & Preschool Education

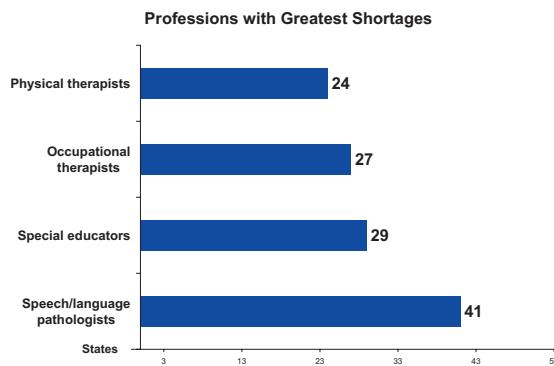

Fact Sheet

No.2 April 2006

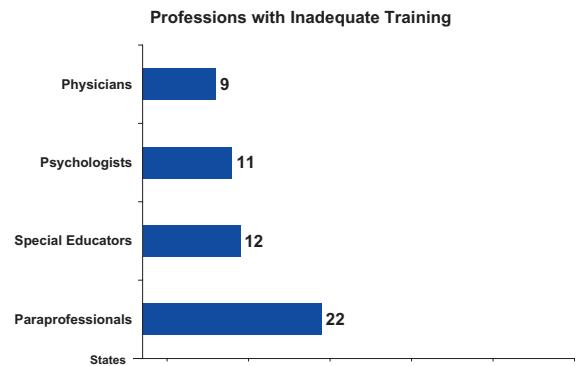

Adequacy of Supply

- Considerable shortages were reported across the disciplines. The greatest shortages were reported in the following areas:

Adequacy of Training

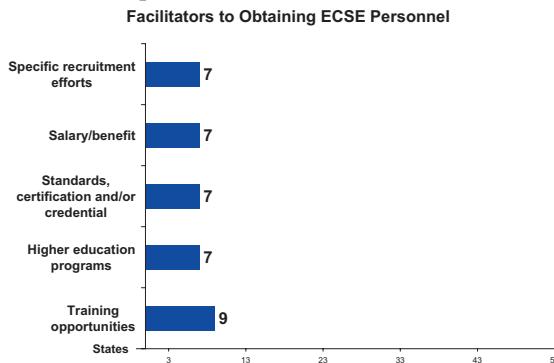

- Concerns were expressed about the training of personnel in all disciplines. The greatest number of respondents expressed concerns for:

Obtaining Qualified Personnel in EI

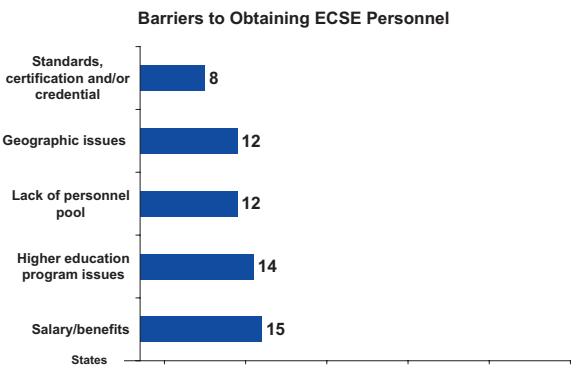

• Facilitators

The most frequently identified factors that facilitate obtaining personnel qualified to deliver ECSE services across disciplines are:

• Barriers

The following factors were the most frequently identified barriers to obtaining qualified ECSE personnel:

1 Staff at each of the three research sites reviewed 20% of all telephone survey data for accuracy of interpretations and data entry. An inter-rater reliability of 90.9% was obtained.

Executive Summary

The Pre-Elementary Education Longitudinal Study, commonly referred to as the PEELS study, is funded by the U.S. Department of Education's National Center for Special Education Research (NCSER). It will follow a nationally representative sample of children with disabilities ages 3–5 for a period of six years. This study is designed to describe the characteristics of children receiving preschool special education, their educational programs and services, and their transitions from preschool programs to elementary schools. The study will examine the achievement of students with disabilities in preschool, kindergarten, and elementary school and determine the factors associated with this achievement.

In its first year of data collection (2003–2004), information on 2,906 children with disabilities and their families was gathered through parent/guardian interviews, child assessments, and teacher and service provider questionnaires. In addition, information was collected through mail questionnaires from each child's preschool program director or school principal, local educational agency (LEA), and state educational agency (SEA). PEELS data collection will continue through 2009. PEELS data are weighted to generate national estimates; therefore, the results can be generalized to the entire U.S. population of children with disabilities ages 3–5.¹

This overview report combines Wave 1 data from all of the PEELS instruments. It includes data on the following:

- Characteristics of children and their families;
- Characteristics of educational services and providers;
- Transitions from early intervention to preschool, and preschool to elementary school; and
- School-related readiness and behavior.

Characteristics of Children and Their Families

- Preschoolers identified with disabilities were disproportionately male, 70 percent versus 30 percent female. Two-thirds (67%) were White, 22 percent Hispanic, and 11 percent Black.²
- More than one-quarter (27%) of children with disabilities ages 3–5 were from households with income levels of \$20,000 or less, and more than one-third (34%) were from households with incomes of more than \$50,000. Black children were significantly more likely to be from low-income households than higher income households.
- Twenty-one percent of fathers and 29 percent of mothers had some college education, while an additional 21 percent of mothers and fathers had a 4-year college degree or higher. Nineteen percent of fathers and mothers had less than a high school diploma or GED.

¹ A small supplemental sample of LEAs and children will be added to PEELS in Wave 2 to account for undercoverage in one region of the country. Wave 1 sampling weights will be adjusted at the conclusion of Wave 2 data collection.

² Because of small sample sizes, data could not be analyzed by race for Asian, Native Hawaiian or other Pacific Islanders or for Native American or Alaska Natives. For reporting purposes, Hispanics of all races are included in the Hispanic group.

- Two-thirds of children with disabilities ages 3–5 (67%) lived with both biological parents. Another 5 percent lived with one biological parent and his/her spouse or partner, and 21 percent lived with one biological parent only. While 73 percent of White children lived with both biological parents, that was true for only 30 percent of Black children.
- For nearly one-third of preschoolers with disabilities (31%), concerns were raised about their health or development between the ages of 24 and 35 months. For 11 percent, concerns arose during pregnancy or within the first month after birth, and for 10 percent concerns arose in the first year.
- Twenty-four percent of preschoolers with disabilities were born three or more weeks prematurely. The mean birth weight for preschoolers with disabilities was 6.9 pounds. Children less than 5.5 pounds at birth are typically considered low birth weight. Of children born prematurely, Black children were born significantly earlier than White children, and Black children had significantly lower birth weights than Hispanic children and White children.
- Nearly half (46%) of preschoolers with disabilities were identified as having a speech or language impairment as their primary disability, and 28 percent were identified as having a developmental delay as their primary disability. Fewer than 10 percent of preschool children were identified as having other disabilities as primary. A significantly higher percentage of White children than Black or Hispanic children were identified as having a speech or language impairment as their primary disability.

Characteristics of Educational Services and Providers

- On average, preschoolers with disabilities were nearly 3 years old when they started receiving special education or therapy services from a professional. Children identified as having an orthopedic impairment, mental retardation, or an other health impairment typically began receiving services at significantly younger ages than children identified as having other disabilities.
- The vast majority of children with disabilities ages 3–5 who received special education services received speech or language therapy (93%). Other common services included special education in school (42%), occupational therapy (34%), physical therapy (21%), and tutoring for learning problems (19%). There were some significant variations across racial/ethnic groups, household income groups, and disability categories.
- To support social interactions between children with and without disabilities, 89 percent of children's teachers reported that they provided structured play and task situations that required such interactions. More than three-quarters (77%) of the teachers reported that they prompted and reinforced children with disabilities to initiate and maintain interactions with children without disabilities, and 76 percent of the teachers said they prompted and reinforced children without disabilities to initiate and maintain interactions with children with disabilities. A majority of parents (86%) thought their children spent the right amount of time with typically developing children.
- More than half (55%) of children with disabilities ages 3–5 had a teacher with a graduate degree; 38 percent had a teacher with a bachelor's degree. When teachers were asked to report up to four areas of licensure, the most common were special education (36%), early childhood special education (31%), and elementary/secondary education (31%). There were

some significant differences across racial/ethnic groups, household income groups, and disability categories.

Transitions From Early Intervention to Preschool and Preschool to Elementary School

- Of the children with disabilities ages 3–5 who had an individualized family service plan (IFSP) before age 3, nearly one-third (31%) had a gap between the end of services received through the Individuals with Disabilities Education Act (IDEA), Part C and the beginning of preschool services. One-third of all parents believed it took them *some or a lot of effort* to find out where to get preschool special education services through the school system.
- More than 75 percent of children with disabilities ages 3–5 who moved from one program to another in the preceding year had teachers who said they encouraged parents or guardians to meet with staff before the children entered the new school, program, or classroom; had children and families visit the new school, program, or classroom; provided parents with written information; had new staff members participate in children’s IEP development; or called the children’s parents.
- The majority of children’s teachers (57%) reported that children and their families had *extremely adequate* transition support. More than half (54%) of teachers of kindergarteners with disabilities reported the students had *very easy* transitions; however, 15 percent had *somewhat* or *very difficult* transitions.

School-Related Readiness and Behavior

- Overall, preschoolers with disabilities who participated in the direct assessment performed close to the population mean on the Woodcock-Johnson III: Letter-Word Identification. Children identified as having autism, a speech or language impairment, or an other health impairment had scores above the population mean. These results varied significantly by age, with older children performing significantly higher than younger children. They also varied by race/ethnicity, with White children scoring higher than Black or Hispanic children. Children in the lowest household income group (\$20,000 or less) scored significantly lower than children in all other income groups.
- Overall, preschoolers with disabilities who participated in the direct assessment performed within one standard deviation of the population mean on the Peabody Picture Vocabulary Test (PPVT), with a mean score of 90.1. However, mean scores ranged from a low of 69.9 for children identified as having mental retardation to a high of 94.6 for children identified as having an emotional disturbance. Significant differences also occurred by race/ethnicity and income.
- The mean performance of 90.3 for preschoolers with disabilities on the Woodcock-Johnson III: Applied Problems test was within a standard deviation of the population mean. That was the case for children identified as having a speech or language impairment ($M = 96.4$), an emotional disturbance ($M = 94.9$), or an orthopedic impairment ($M = 91.1$). Children identified as having mental retardation had a mean score more than two standard deviations below the population mean ($M = 60.6$). Scores for Black and Hispanic children were more than one standard deviation below the population mean; that was also the case for children in the lowest income group.

- Children with disabilities in age Cohort C had a mean score of 91.2 on the Woodcock-Johnson III: Quantitative Concepts subtest. This subtest was given to children in Cohort C only, because norms are only available for children 5 and older. Scores ranged from a low of 78.5 for children identified as having mental retardation to a high of 95.6 for children identified as having a speech or language impairment. Children in all racial/ethnic and income groups scored within one standard deviation of the population mean.
- Teacher ratings on the Preschool and Kindergarten Behavior Scales (PKBS-2) – Social Skills scale suggested that the social skills of children with disabilities fell well within one standard deviation of the population mean; however, older children scored significantly higher than younger children. Mean scores for children identified as having autism and children identified as having mental retardation were significantly lower than mean scores for children identified as having other disabilities. Females had significantly higher social skill scores than males. Significant differences also occurred by race/ethnicity.
- Teacher ratings on the PKBS-2 – Problem Behaviors scale revealed that, overall, children with disabilities performed within one standard deviation of the population mean on problem behavior. Ratings for children identified as having an emotional disturbance or autism were high, indicating many problem behaviors; ratings for children identified as having an orthopedic impairment or a speech or language impairment were low, indicating fewer problem behaviors. Males had significantly more problem behavior than females, and Black children had higher ratings than Hispanic or White children. Differences by income group were also significant.
- The mean rating for kindergarteners with disabilities in Cohort C on the Adaptive Behavior Assessment System II (ABAS-II) Self-Care scale, which measures each child's basic personal care skills, was 8.1, which fell in the lower half of a 20-point scale. Children with disabilities in Cohorts A and B, who were in early childhood programs (not yet in kindergarten), had a mean rating of 8.6. Children identified as having an orthopedic impairment had a mean of 5.2; children identified as having a speech or language impairment had a mean of 10.0.
- The mean rating for kindergarteners with disabilities in Cohort C on the ABAS-II Self-Direction scale, which assesses each child's skills in self-control and personal responsibility, was 8.2. Ratings across disability categories ranged from a mean of 7.0 for children identified as having autism to 10.5 for children identified as having a speech or language impairment. Ratings for White preschoolers were significantly higher than those for Black children. Significant differences also occurred by income group.
- Overall, children with disabilities had a mean score of 94.3 on the Motor Skills subscale of the Vineland Adaptive Behavior Scales. Mean scores for children identified as having an orthopedic impairment (72.5), an other health impairment (76.0), a low-incidence disability (81.0; e.g., visual impairment or traumatic brain injury), or mental retardation (68.0) were more than one standard deviation below the mean.

PEELS PROGRESS Notes

AUGUST 2006

Preschoolers with Disabilities: A Look at School Readiness Skills

FINDINGS...

In general, preschoolers with disabilities scored within one standard deviation of the population mean on standardized assessments of school readiness.

Children identified as having mental retardation scored lowest on several verbal readiness measures.

Children identified as having autism scored within one standard deviation of the mean on emerging literacy skills, but had social skills and behavior problems outside that range.

The Pre-Elementary Education Longitudinal Study (PEELS) is examining the preschool and early elementary school experiences of three-, four-, and five-year-old children with disabilities and the early academic and social-behavioral skills they exhibit. The study will follow a nationally representative sample of more than 3,000 children through 2009. This *PEELS Progress Notes* presents a profile of standardized assessment scores for preschoolers with disabilities nationwide in the areas of emerging literacy, pre-math, and social-behavior skills. The findings in this document are highlights from *Preschoolers with Disabilities, Characteristics, Services, and Outcomes*, available at www.peels.org.

Assessments

Preschoolers with disabilities participated in a series of assessments to determine school readiness¹. The majority of these children (84 percent) completed the following assessments:

- **Literacy: Letter and Word Identification**—These skills were assessed using the Woodcock-Johnson III, Letter-Word Identification subtest (Woodcock, McGrew, and Mather 2001).
- **Literacy: Vocabulary**—Receptive vocabulary was assessed using an adapted version of the Peabody Picture Vocabulary test (PPVT) (Dunn and Dunn 1997).
- **Math: Applied Problems**—The ability to analyze and solve practical math problems was assessed using the Applied Problems subtest (Woodcock, McGrew, and Mather 2001).

Seventy-five percent of children received teacher rating scores on the following:

- **Social Skills and Problem Behaviors**—Social skills and problematic behaviors were assessed using the Preschool and Kindergarten Behavior Scales (Merrell 2002).

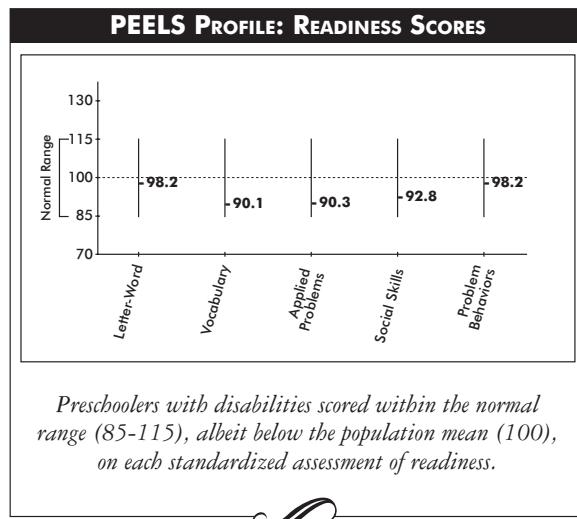

For each of the assessments, scores were totaled and converted to a norm-referenced scale with a mean of 100 and a standard deviation of 15. In a general population, 68 percent of children would be expected to have scores within one standard deviation of the mean.

Findings

As a group, preschoolers with disabilities had standard scores averaging 2 to 10 points below those of their non-disabled peers, except on problems behaviors, where their scores were better than those of children in the general population. [See the exhibit, *PEELS Profile: Readiness Scores*.] Group differences were tested for statistical significance using analysis of variance at the .05 level, showing that some groups performed better than others.

DISABILITY PROFILE OF CHILDREN AGES 3-5

Disability	%
Speech or Language Impairment	49.2
Developmental Delay	26.8
Autism	7.0
Low Incidence	5.7
Mental Retardation	3.7
Learning Disability	2.4
Other Health Impairment	2.4
Orthopedic Impairment	1.8
Emotional Disturbance	1.0
Total	100.0

EMERGING LITERACY

On letter and word identification skills, the overall performance of preschoolers with disabilities averaged 98.2, with a median of 98.0 and standard errors of 0.8 and 0.7, respectively. The 95 percent confidence interval was 96.7 to 99.7 for the mean and 96.5 to 99.3 for the median. This is very close to the population mean. However, the following differences were observed:

- Children identified as having autism ($M = 108.8$, S.E. = 6.4), speech or language impairments ($M = 100.1$, S.E. = 0.8), or other health impairments ($M = 98.2$, S.E. = 4.6) had scores near or above the population mean. Children identified as having mental retardation ($M = 85.5$, S.E. = 5.1) had scores one standard deviation below the population mean.
- Children identified as having autism ($M = 108.8$, S.E. = 6.4) scored significantly higher than children identified as having developmental delays ($M = 93.0$, S.E. = 1.3), learning disabilities ($M = 93.2$, S.E. = 3.1), mental retardation ($M = 85.5$, S.E. = 5.1), or other health impairments ($M = 98.2$, S.E. = 4.6).

On vocabulary, the overall performance of preschoolers with disabilities averaged 90.1, with a slightly higher median of 91.4 and standard errors of 0.6 and 0.9, respectively. Preschoolers in all of the disability categories except mental retardation performed within one standard deviation of the population mean. The mean vocabulary performance for children

with mental retardation was 69.9 (S.E. = 4.1), more than two standard deviations below the population mean.

EARLY MATH PROFICIENCY

Overall performance of preschoolers with disabilities averaged 90.3, with a slightly higher median of 93.2. Performance varied across disability categories as follows:

- Children identified as having developmental delays ($M = 82.7$, S.E. = 1.4), other health impairments ($M = 84.2$, S.E. = 5.7), or autism ($M = 80.7$, S.E. = 6.9) performed more than one standard deviation below the mean for the norm population.
- Children identified as having mental retardation ($M = 60.6$, S.E. = 4.0) performed more than two standard deviations below the population on early math skills.

SOCIAL SKILLS AND PROBLEM BEHAVIORS

Overall teacher ratings suggest that the social skills of preschoolers with disabilities fall well within one standard deviation of the population mean. In general, the five-year-olds ($M = 96.2$, S.E. = 1.4) did better than the three-year-olds ($M = 85.2$, S.E. = 1.2). Children in three disability groups, low incidence ($M = 84.3$, S.E. = 3.9), autism ($M = 73.2$, S.E. = 3.4), and mental retardation ($M = 73.2$, S.E. = 3.4) received social skills ratings more than one standard deviation below the mean for the norm population.

On teacher ratings of problem behavior, overall, preschoolers with disabilities perform within one standard deviation of the population mean. However, ratings vary across disability groups, with six categories—children identified as having autism ($M = 109.5$, S.E. = 1.5), developmental delay ($M = 102.9$, S.E. = 1.0), emotional disturbance ($M = 111.3$, S.E. = 4.3), learning disability ($M = 102.6$, S.E. = 2.4), mental retardation ($M = 105.0$, S.E. = 2.2), and other health impairment ($M = 101.7$, S.E. = 5.1), showing average ratings above the population mean of 100. [Note: A higher rating on this measure indicates a higher level of problem behavior.] Children identified as having an orthopedic impairment ($M = 93.7$, S.E. = 3.0), speech or language impairment ($M = 93.1$, S.E. = 0.7), or low incidence disability ($M = 95.9$, S.E. = 2.6) had fewer problems than the general population.

¹ Scores for children with disabilities were included in these analyses, regardless of whether test accommodations were used. In all, 359 children used accommodations. For more information, see *Preschoolers with Disabilities, Characteristics, Services, and Results*, available at www.peels.org.

Measuring Child Outcomes: Section 619 State Activities

**Lynne Kahn
Robin Rooney**
Early Childhood Outcomes Center

**Demonstrating Results for
Infants, Toddlers and Preschoolers with Disabilities and Their Families**

* * * * *

The Early Childhood Outcomes (ECO) Center for Infants, Toddlers, and Preschoolers with Disabilities is a project being conducted by SRI International under cooperative agreement H324L030002 with the Office of Special Education Programs (OSEP) of the U.S. Department of Education. The Center is a collaborative effort of SRI International, the Frank Porter Graham Child Development Institute at the University of North Carolina Chapel Hill, the Juniper Gardens Children's Project at the University of Kansas, the University of Connecticut, and the National Association of State Directors of Special Education. The contents of this report were developed under the auspices of this cooperative agreement. However, the contents do not necessarily represent the policy of the Department of Education, and their endorsement by the federal government should not be assumed.

Measuring Child Outcomes
State Section 619 Activities
As of January 2007

States' plans for meeting OSEP reporting requirements on child outcomes were originally gathered during the NECTAC National TA Meeting on *Measuring Child and Family Outcomes* held in Albuquerque, NM on April 25-27, 2006. Additional updates were added by state Section 619 Coordinators in November of 2006. This information is maintained at <http://www.fpg.unc.edu/~eco/whatstates.cfm#whatstates>. State Section 619 Coordinators are requested to please send updates to Robin Rooney: robin_rooney@unc.edu.

Part B INDICATOR #7. Percent of preschoolers with IEPs who demonstrate improved:
A) Positive social-emotional skills (including social relationships); B) Acquisition and use of knowledge and skills (including early language/communication and early literacy); and C) Use of appropriate behaviors to meet their needs

State or Jurisdiction	Specific Assessment Instruments	When Child Data Will Be Collected	Summary Method (If using Multiple Sources)
Alabama	State tool: Early Learning Progress Profile (ELLP)	Entry, prior to each annual IEP review date, and exit	Rating scale-considering ECO Child Outcomes Summary Form
Alaska	Teacher survey		ECO Child Outcomes Summary Form
Am. Samoa	American Samoa Special Education Assessment Tool; will identify additional tools	Entry and exit	MDT Report and ECO Child Outcomes Summary Form
Arizona	Child Observation Record (COR);Creative Curriculum Developmental Continuum Assessment System; Galileo Plus; Work Sampling System	2 or 3x/year, based on publishers' recommendations	State developed web-based online data reporting system
Arkansas	To be determined: criterion or norm referenced assessment	At entry and annually in March, or close to exit for children exiting earlier in the school year	State will develop
California	State developed assessment-Desired Results Developmental Profile, with accommodations and adaptations ('DRDP Access')	Assessed 2x/year, (fall and spring) - but reporting entry and exit data only	State developed, based on Desired Results Developmental Profile indicators

State or Jurisdiction	Specific Assessment Instruments	When Child Data Will Be Collected	Summary Method (If using Multiple Sources)
Colorado	Birth-3 and 3-5, Creative Curriculum, High Scope COR, Work Sampling - The Ounce Scale (For children with significant disabilities- AEPS)	2 or 3x/year, based on publishers' recommendations	Multiple sources feed body of evidence/documentation for developmental profile rating. OSEP ratings calculated automatically
CNMI	Creative Curriculum	At entry and near transition	Considering use of ECO Summary Form
Connecticut	Brigance	Entry - within first 4 weeks of attendance Exit - at exit or prior to entering K	
Delaware	Focus on performance-based assessment process. Three primary instruments: Carolina (Preschoolers and Infant/Toddler); Creative Curriculum Continuum (Preschoolers/Infant/Toddlers); Desired Results Children with preschool speech delays: primary speech/language assessments plus either the Ages and Stages, or Vineland, or ABAS, or Child Development Inventory	Collect entry data within first 60 days. Will establish a time period [March-June] - annually, to collect progress data. Will collect at exit	ECO Child Outcomes Summary Form
DC	ECSE committee will identify appropriate tool		
FSM	Micronesian Inventory of Development (MID); considering other instruments	Entry and exit	
Florida	BDI-2 (Piloting)	Entry (will use Part C exit as 619 entry where possible) and exit	
Georgia	BDI, Vineland, Developmental Profile II, DAYC, Behavior Assessment System for Children (BASC), Preschool Language Scale (PLS)	Entry- within 6 wks of entry Exit- within 6 wks of exit	ECO Child Outcomes Summary Form
Guam	Creative Curriculum	Entry- Within 30 days of initial placement Exit- 3-6 months prior to exit	

State or Jurisdiction	Specific Assessment Instruments	When Child Data Will Be Collected	Summary Method (If using Multiple Sources)
Hawaii	Early Brigance plus an alternative method for children for whom Early Brigance may not be appropriate (<1%)	Entry and exit	ECO Child Outcomes Summary Form
Idaho	Any from the ECO list of crosswalks	Entry- with initial IEP development, within 30 days of entry. Exit from C can also be used as entry. Exit- Within 30 days of exit from program or within 30 days of legal kindergarten age (5 by Sept 1st)	ECO Child Outcomes Summary Form
Illinois	State approved list of assessment instruments	Entry - at initial IEP development, and exit	ECO Child Outcomes Summary Form
Indiana	Indiana Standards Tool for Alternate Reporting (ISTAR)	Entry, annually at birth date, and exit	ISTAR
Iowa	Allowing IEP Teams to choose assessment instruments that meet the requirements established in Iowa Administrative Rules for Special Education	At initial IEP, annual IEP reviews, and prior to entering Kindergarten	ECO Child Outcomes Summary Form
Kansas	8 curriculum based assessments birth- 5 year, COR, IGDI, Creative Curriculum, Work Sampling System, AEPS, Carolina, & TPBA	Entry - within 30 days of eligibility determination. Use Part C exit as Part B entry data Exit- permanent exit from Part B or Part C as defined in online data dictionary	Web outcomes system integrated database. ECO Child Outcomes Summary Form
Kentucky	11 Criterion Based Assessments: Birth -5 years, Creative Curriculum, COR, AEPS, Ounce, WSS, TPBA ,CCI TSN/ CCPSN, HELP, E-LAP, LAP-3, & Brigance	Assessments are completed 2 or 3x/year, as per publishers' recommendations. Scores nearest entry and exit analyzed for OSEP outcomes	State developed method, may include summaries produced by assessment publishers
Louisiana	AEPS Research model	Entry and exit	
Maine	Work group will review possible tools. Not currently mandating use of any specific tool but evaluating data from all currently in use.	Entry at initial assessment, annually prior to IEP renewal, and/or near exit	Piloting the ECO Child Outcomes Summary Form

State or Jurisdiction	Specific Assessment Instruments	When Child Data Will Be Collected	Summary Method (If using Multiple Sources)
Maryland	Work Sampling System; if local school system has an established district-wide EC assessment system, may continue to use, but must be aligned with WSS	Entry and exit	
Massachusetts	State is developing a Kindergarten Readiness assessment system, and is exploring other alternatives	Within 6 weeks of starting a program and at the end of each school year	
Michigan	Developing a short list of tools: COR, Creative Curriculum, LAP-3, Battelle, AEPS, Carolina, Brigance. LEAs not using these tests will demonstrate to SEA how their selected tool meets requirements and aligns with state created on-line data collection system and early learning standards.	Minimum of Entry and exit points within 30 days of placement or exist from program.	Creating Michigan Summary form. Will have a five point scale to correspond with the levels of progress defined by OSEP.
Minnesota	List of selection criteria established for tools. (Various tools are being rated for approval against criteria)	Entry - within 30 days of eligibility determination or on 3rd birthday if transitioning from Part C. Exit - final progress reporting prior to Kindergarten transition, or at exit from service for other reason at any time.	Piloting ECO Child Outcomes Summary Form
Mississippi	MS Pre-K Curriculum Assessment (state developed)	Entry and at exit or other naturally occurring point near exit, e.g. IEP review	
Missouri	Dial, Brigance, ASQ, High Scope COR, HELP	Entry - within 30 days of eligibility determination, and exit	Piloting ECO Child Outcomes Summary Form and an adaptation of the ECO COSF
Montana	Currently used data collection instruments	Entry, IEP annual reviews, and exit	State developed process
Nebraska	AEPS, High Scope COR, Creative Curriculum	Entry and exit	We are using the web-based online data reporting systems from each of the publishers that we have selected:

State or Jurisdiction	Specific Assessment Instruments	When Child Data Will Be Collected	Summary Method (If using Multiple Sources)
			HighScope COR, Creative Curriculum and AEPS. We will be receiving the aggregated child outcome data from each of these publishers and will be reporting it to OSEP per requirements of Indicator 7.
Nevada	Task force will make recommendations	Entry and exit	
New Hampshire	AEPS, Brigance, Creative Curriculum	On entry or within 6 weeks of receiving special education (depending on tool), then annually; using last annual assessment prior to exit for exit data	Web-based data management systems for each tool
New Jersey	BDI-2	Entry and exit	
New Mexico	Brigance, Present Assessment Tool	Entry and exit	ECO Child Outcomes Summary Form
New York	28 assessment instruments suggested, not mandated, for statewide use	At entry and at exit from program, within last 6 months of eligibility; at annual review, completion of program, and/or upon transition to school-age programs and services	ECO Child Outcomes Summary Form
North Carolina	Will be using criterion referenced and curriculum based assessments	Entry, during the first 60 days of enrollment, and exit	ECO Child Outcomes Summary Form
North Dakota	ND Early Childhood Outcomes Workgroup reviewed possible tools using state and OSEP criteria. Currently pilot project sites are using possible tools to determine state Anchor Tools.	Entry - at initial IEP, at subsequent IEP reviews as determined by IEP team, and/or at exit	Piloting the ECO Child Outcomes Summary Form

State or Jurisdiction	Specific Assessment Instruments	When Child Data Will Be Collected	Summary Method (If using Multiple Sources)
Ohio	Statutory regulation in Ohio to use common instrument: Ages & States Questionnaire, Get, It, Got it, Go; Kindergarten Readiness Assessment-Literacy (KRA-L)	Assessments conducted twice annually during Spring and Fall. Will use assessments closest to entry into preschool services and closest to exit (exiting program or transition to Kindergarten)	Not summary, but developmental norms, based on Get, It, Got it, Go; Kindergarten Readiness Assessment- Literacy (KRA-L), is planned/ TBD. ECO summary form presented for use as part of local ongoing assess system but not reported to state.
Oklahoma	Criterion or norm referenced assessment	Entry and exit	Child Outcomes Summary Form
Oregon	Oregon Early Childhood Assessment (state developed assessment aligned to OR's Early Childhood Foundations)	Entry and exit	
Palau	Creative Curriculum	Entry- within 45 days of enrollment Exit- at or near exit of program	
Pennsylvania	<p>State approved list of tools that will be narrowed to only 3 tools by July 1, 2008. The tools include:</p> <ul style="list-style-type: none"> ▪ Battelle Developmental Inventory (BDI or BDI II) (approved only through June 2008) ▪ Developmental Assessment of Young Children (DAYC) (approved only through June 2008) ▪ Hawaii Early Learning Profile (HELP) (approved only through June 2008) ▪ High Scope Child Observation Record (preschool and infant/toddler versions) ▪ Learning Accomplishment Profile (LAP-3) and the Early Learning Accomplishment Profile (ELAP) (approved only through June 2008) ▪ Developmental 	<p>Entry and Exit data will be collected. Data at entry will be collected within 60 days of the child's determination of eligibility. Data at exit will be gathered at most 60 days from the child's anticipated exit from early intervention.</p> <p>Starting in July 2008, data will be collected annually</p>	Child Outcome Summary Form will be completed at both exit and entry from early intervention

State or Jurisdiction	Specific Assessment Instruments	When Child Data Will Be Collected	Summary Method (If using Multiple Sources)
	Observation Checklist System (DOCS) (approved only through June 2008) <ul style="list-style-type: none"> ▪ Creative Curriculum Developmental Continuum Assessment (preschool and infant/toddler versions) ▪ Work Sampling System (preschool) and the Ounce Scale (infant/toddler) 		
Puerto Rico	To be determined		
Rhode Island	Creative Curriculum -under consideration	Within 6 months of entry, annually at IEP reviews, and at exit	State developed summary tool
South Carolina	State will recommend progress monitoring assessments	Entry - within 2 months of program entry Exit - prior to 6th birthday	ECO Child Outcomes Summary Form
South Dakota	BDI recommended	Entry- either using Part C exit as Part B entry, or assessing within 25 days of entry and exit	
Tennessee	No specific assessment. AEPS being piloted	At initial IEP, annual IEPs and IEP closest to exit (at age 6) within a time frame TBD. May use exit data from Part C at entry	ECO Child Outcomes Summary Form
Texas	To be determined	To be determined	ECO Child Outcomes Summary Form
Utah	CDI; ABILITIES; Bracken; BDI; Peabody	Entry and exit	
Vermont	No specific assessment required. Programs Use: BDI, Preschool Language Scale, Mullen Scales, Carolina, and others	Entry at initial evaluation, annual reviews, and exit	ECO Child Outcomes Summary Form
Virgin Islands	High Scope COR	Curriculum referenced assessment is reported 3 times per year	

State or Jurisdiction	Specific Assessment Instruments	When Child Data Will Be Collected	Summary Method (If using Multiple Sources)
Virginia	What the LEAs are presently using	Entry - Initial eligibility (share info from Part C) Exit/dismissal from ECSE or transition to Kindergarten	ECO summary form (probably with some modification) paired w/ eligibility summary or present level of performance on IEP
Washington	No specific assessment-recommending crosswalked assessments	At least at entry and exit; recommend periodically throughout year	ECO Child Outcomes Summary Form
West Virginia	Creative Curriculum, High Scope, COR, Step by Step	Ongoing assessments 3 times a year, and exit tied to Creative Curriculum	Using the ECO Child Outcomes Summary Form for counties not using Creative Curriculum
Wisconsin	State will recommended 3 instruments, based on pilot	Entry- within 45 days after initially receiving SPED services, and annually in March	ECO Child Outcomes Summary Form
Wyoming	BDI; Brigance; Creative Curriculum; Other tools approved by DDD	Entry and annually	ECO Child Outcomes Summary Form

Section IV

Section 619 Program Data

from www.idealidata.org

Section 619 Data Profiles from the OSEP-funded Technical Assistance in Data Collection, Analysis, and Report Preparation Project (Westat, October 2006)

Percentage of Children Ages 3 through 5 Served Under IDEA, Part B (-Based on Population), 2005.....	95
Percentage of Children Ages 3-5 Served Under IDEA, Part B, in a Regular Early Childhood Setting, 2005	96
Percentage of Children Ages 3- 5 Served Under IDEA, Part B, in an Early Childhood Special Education Setting, 2005.....	97
Percentage of Children Ages 3-5 Served Under IDEA, Part B, in a Part-Time Early Childhood/Part-Time Early Childhood Special Education Setting, 2005	98
Children ages 3 through 5 served under IDEA, Part B, by educational environment and state: Fall 2005	99
Likelihood of Children Ages 3-5 Being Served under IDEA, Part B, by Race/Ethnicity and State: Fall 2005.....	101
Children Ages 3-5 Served Under IDEA, Part B, Number and Percentage of Population, by Age and Race/Ethnicity: Fall 2001-Fall 2005.....	104
Children ages 3-5 Served Under IDEA, Part B, by Educational Environment and Disability Category: Fall 2005	106
Children ages 3-5 Served Under IDEA, Part B, by Educational Environment: Fall 2001-2005	108
Child Count (2005)	
Number of Children Ages 3-5 Served Under IDEA, Part B by Disability Category and State, 2005	110
https://www.idealidata.org/tables29th%5Car_1-2.htm	
Number of Children Served Under IDEA, Part B by Age and Disability Category, 2005.....	113
https://www.idealidata.org/tables29th%5Car_1-7.htm	
Number of Children Served Under IDEA, Part B by Age and State, 2005, All Disabilities	114
https://www.idealidata.org/tables29th%5Car_1-8.htm	
Number of Children Ages 3-5 Served Under IDEA by Disability, 1996 Through 2005	116
https://www.idealidata.org/tables29th%5Car_1-9.htm	
Percentage (Based on 2004 Population Estimates) of Children Ages 3-5 Served Under IDEA, Part B, By State, 2005	117
https://www.idealidata.org/tables29th%5Car_1-10.htm	
Percentage (Based on 2004 Population Estimates) of Children Ages 3-5 Served Under IDEA, Part B, By State and Disability Category, 2005	118
https://www.idealidata.org/tables29th%5Car_1-11.htm	
Racial/Ethnic Composition (Numbers and Percentages) of Students Ages 3-5 Served Under IDEA, Part B by Disability, and State, 2005	120
https://www.idealidata.org/tables29th%5Car_1-15.htm	
Percentage of Racial/Ethnic Group (Based on 2005 Population Estimates) Ages 3-5 Served Under IDEA, Part B, By Disability and State, 2005	148
https://www.idealidata.org/tables29th%5Car_1-17.htm	

Educational Environment (2005)

Number and Percentage of Children Ages 3-5 Served in Different Educational Environments Under IDEA, Part B by Disability, 2005.....	158
https://www.ideaadata.org/tables29th%5Car_2-1.htm	
Number of Children Ages 3-5 Served in Different Educational Environments Under IDEA, Part B, 1995 Through 2005	215
https://www.ideaadata.org/tables29th%5Car_2-4.htm	
Numbers and Percentages of Children Ages 3-5 Served in Different Educational Environments Under IDEA, Part B by Race/Ethnicity, and State, 2005.....	216
https://www.ideaadata.org/tables29th%5Car_2-6.html	

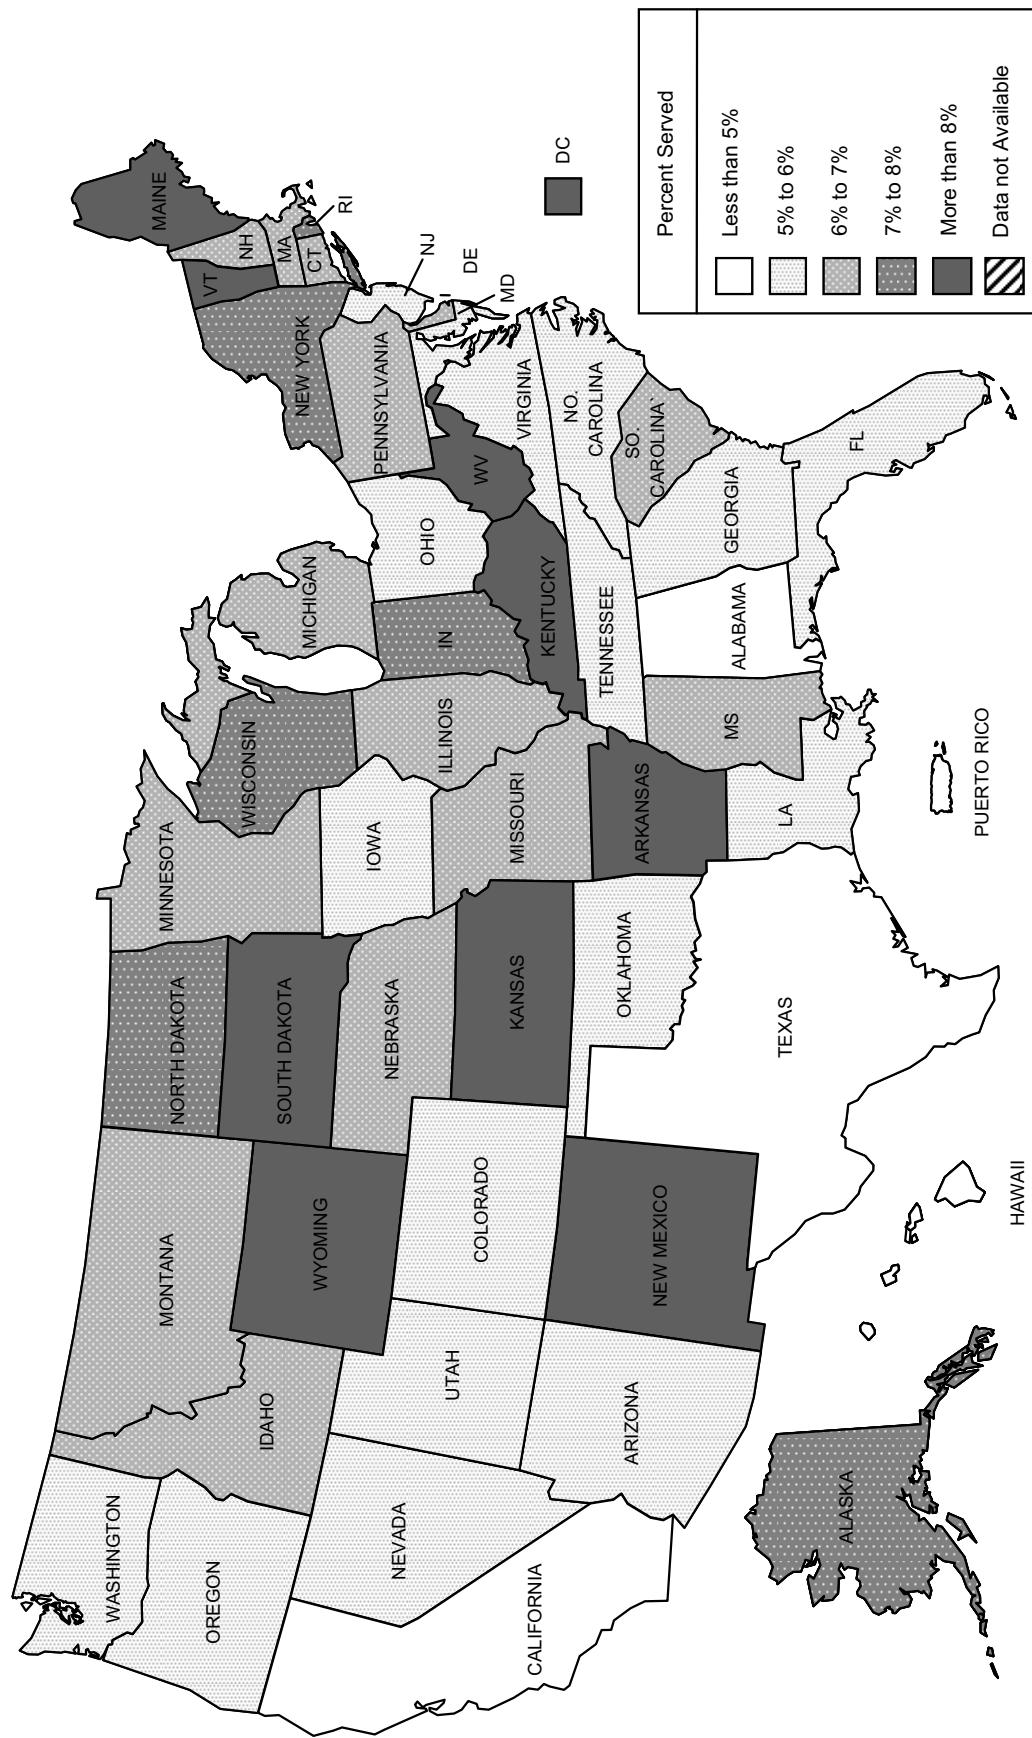

Personnel (2005)

Total Number of Teachers Employed (in Full-Time Equivalency) To Provide Special Education and Related Services for Children and Youth Ages 3-5 with Disabilities, 2004.....	236
https://www.ideaadata.org/tables29th%5Car_3-1.htm	

Part B and Part C State Grants

State Grant Awards Under Parts B and C of IDEA, Federal Fiscal Year 2006.....	237
https://www.ideaadata.org/tables29th%5Car_F-1.htm	

Percentage of Children Ages 3 through 5 Served Under IDEA, Part B (Based on Population), 2005

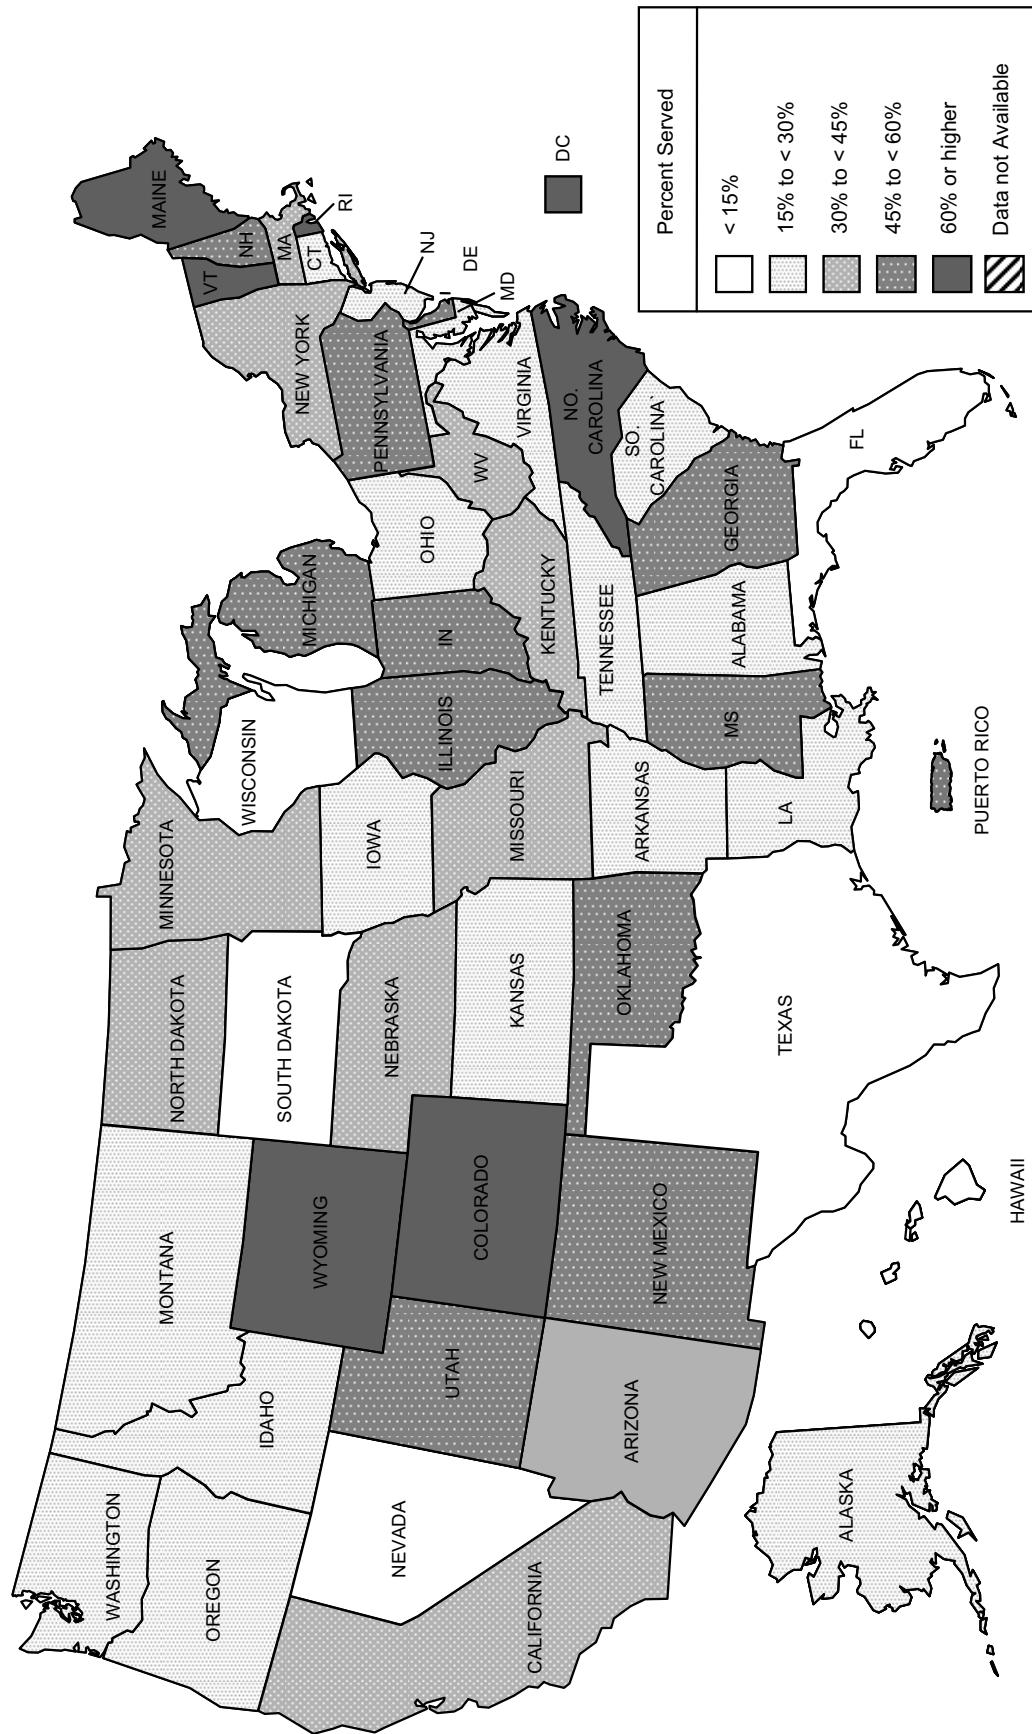

Sources: U.S. Department of Education, Office of Special Education Programs, Data Analysis System (DANS), OMB #1820-0043; "Report of children with disabilities receiving special education under Part B of the Individuals with Disabilities Education Act," 2005. Data updated as of July 17, 2006.

U.S. Bureau of the Census. Population data for 2005 accessed August 2006 from http://www.census.gov/popest/states/asrh/files/sc_est2005_alldata6.csv

Note: Percentage of population is calculated by dividing the number of children ages 3 through 5 receiving services under IDEA, Part B, by the population of children in this age range for that state and year. The result was multiplied by 100 to produce a percentage.

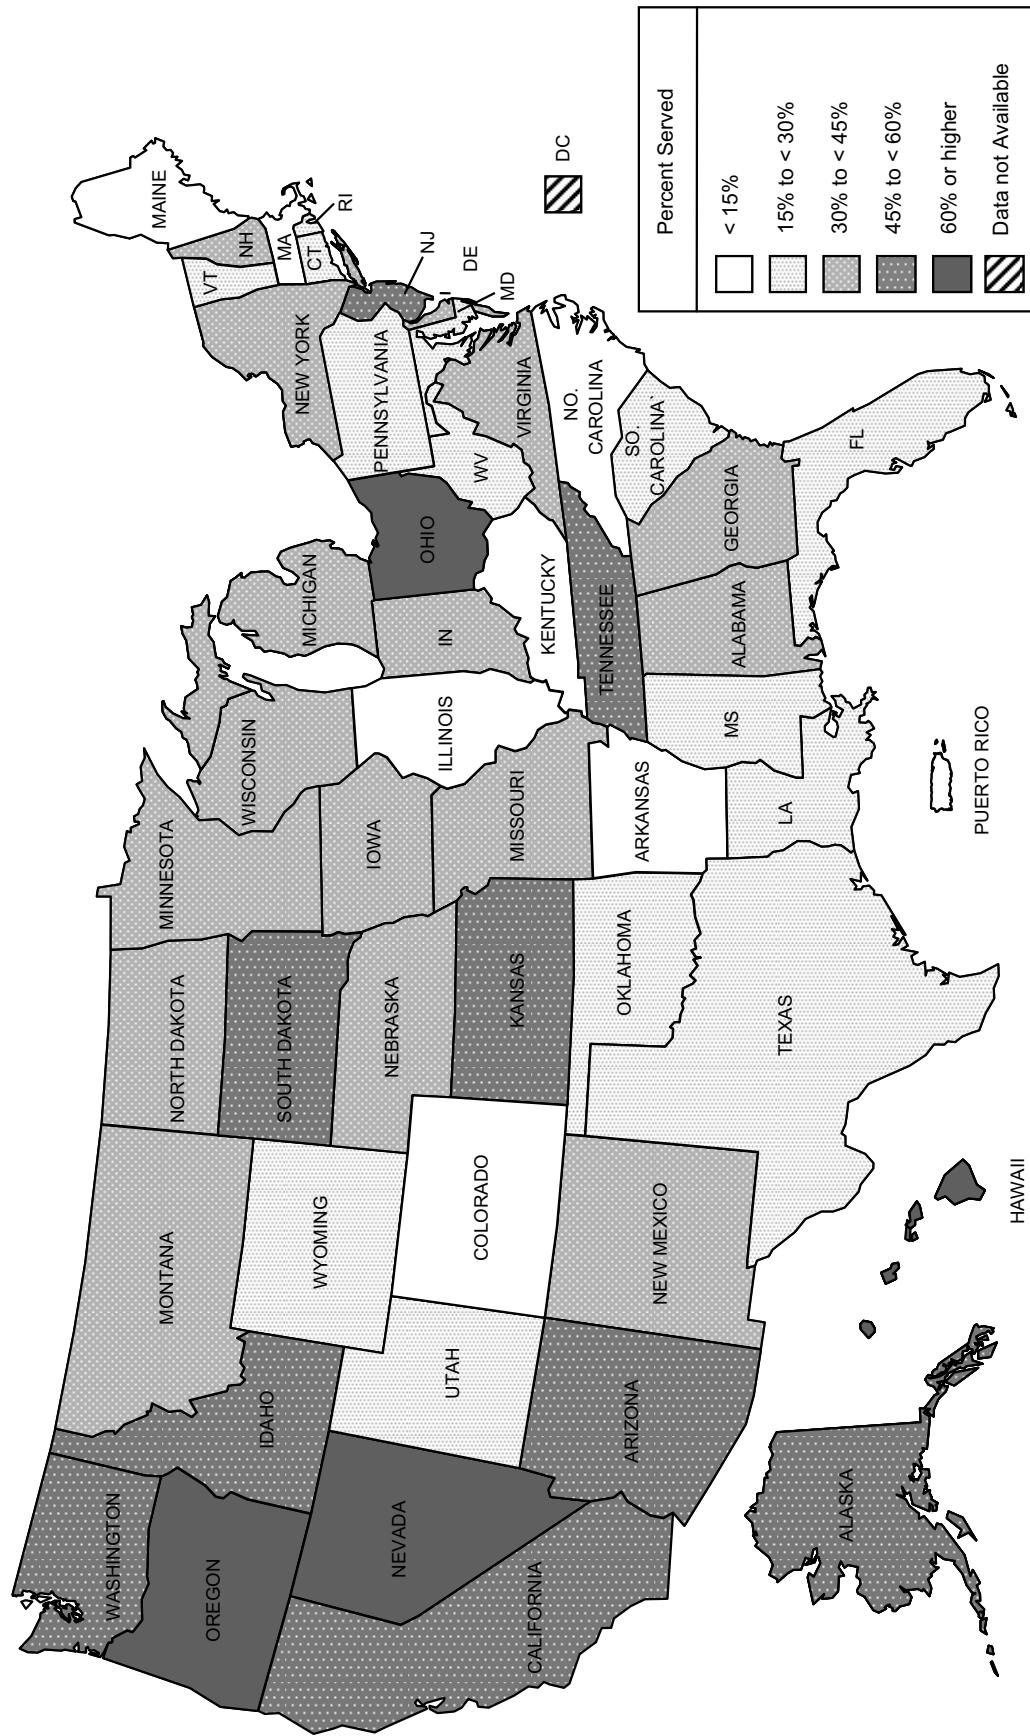

Developed by the Technical Assistance in Data Collection, Analysis, and Report Preparation Project, ED01CO0082-0008, (Westat, October 2006).

Percentage of Children Ages 3 through 5 Served Under IDEA, Part B, in a Regular Early Childhood Setting, 2005

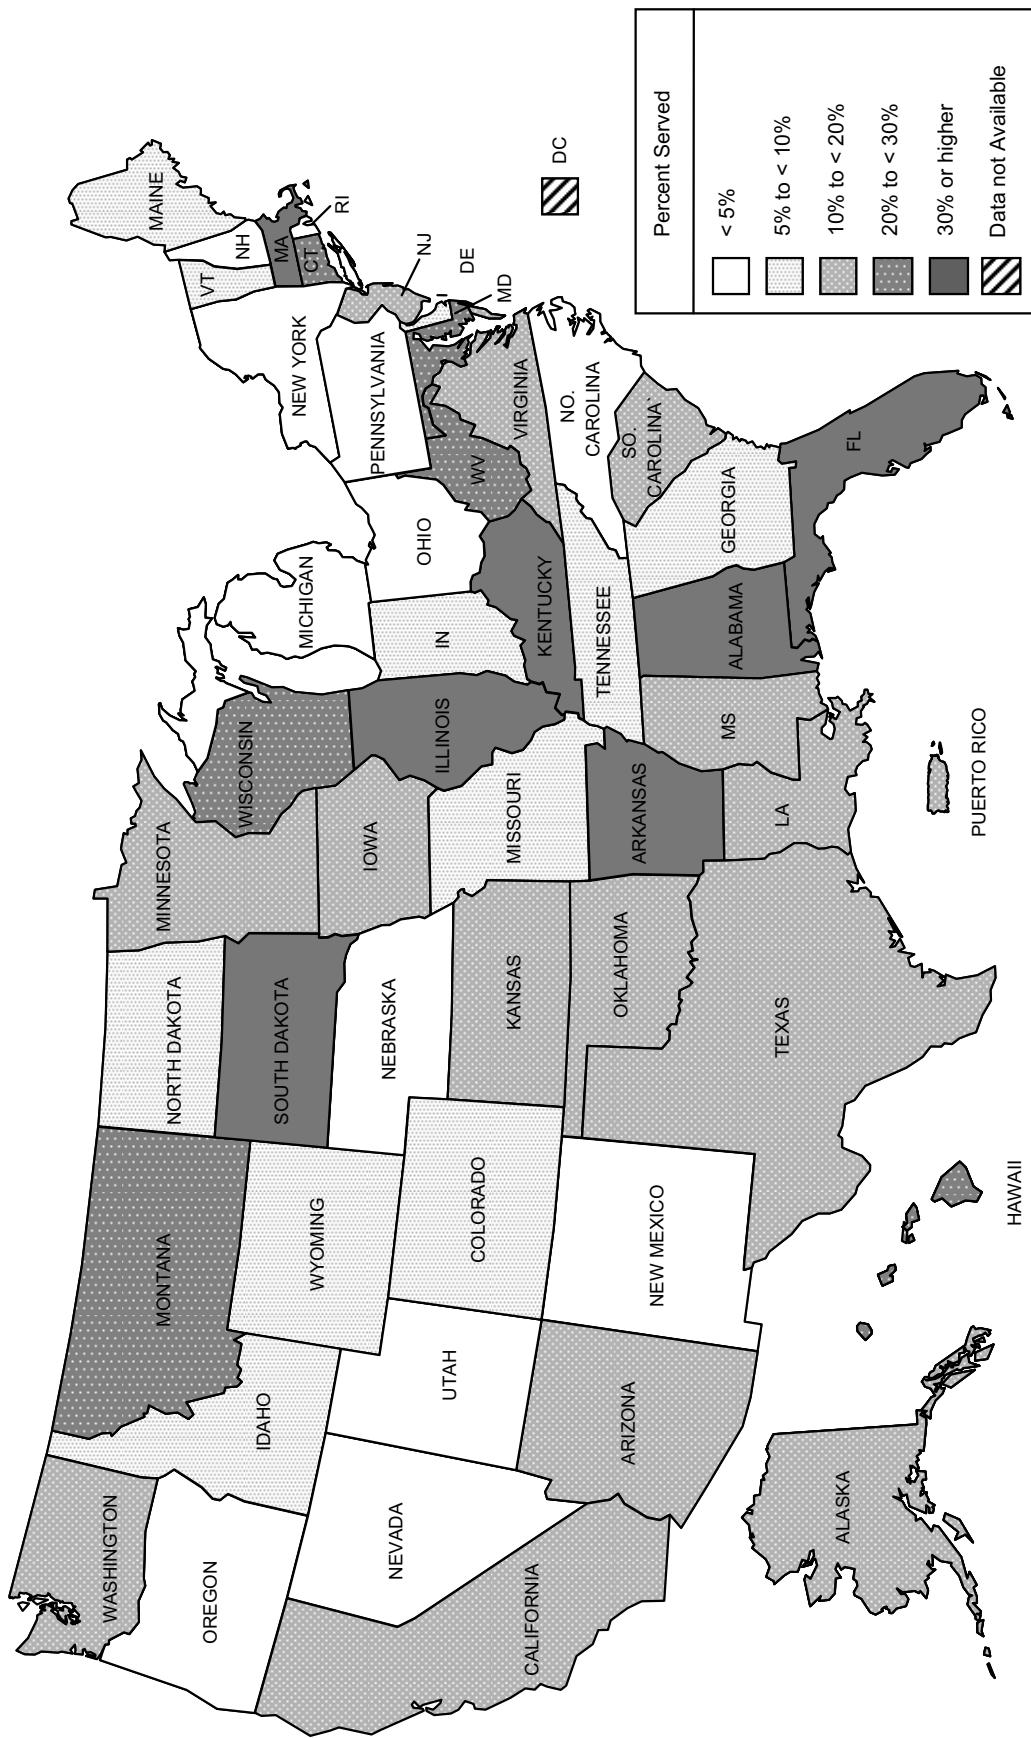

Source: U.S. Department of Education, Office of Special Education Programs, Data Analysis System (DANS), OMB #1820-0517: "Part B, Individuals with Disabilities Education Act, Implementation of FAPE Requirements," 2005. Data updated as of July 17, 2006, table 2-1 in vol. 2. Data are for the 50 states, the District of Columbia, and Puerto Rico.
 Note: Percent = Number of children in the educational environment column divided by the number in all environments multiplied by 100.
 Developed by the Technical Assistance in Data Collection, Analysis, and Report Preparation Project, ED01CO0082-0008, (Westat, October 2006).

Percentage of Children Ages 3 through 5 Served Under IDEA, Part B, in an Early Childhood Special Education Setting, 2005

Source: U.S. Department of Education, Office of Special Education Programs, Data Analysis System (DANS), OMB# 1820-0517: "Children with disabilities receiving special education under Part B of the Individuals with Disabilities Education Act," 2005. Data updated as of July 17, 2006.

U.S. Bureau of the Census. Population data for 2005 accessed August 2006 from http://www.census.gov/popest/states/files/SC-EST2005-AGESEX_RES.csv. The population includes only the 50 states and DC.

Note: See Part B Child Count Data Notes in appendix A for an explanation of individual state differences.

^a Risk ratio=percentage of children in the race/ethnicity category divided by the percentage of children not in the race/ethnicity category.

^b Weighted risk ratio=national proportion or children not in the race/ethnicity category multiplied by state-level percentage of children in the race/ethnicity category, divided by the summation of the national proportion of children in the other race/ethnicity categories multiplied by the state-level percentage of children in the other race/ethnicity categories. Weighted risk ratios are used to compare risk ratios across states because they adjust for differences in state demographics. Unweighted risk ratios are not appropriate for comparing states because if the state demographics are different the same percentage of children in a racial/ethnic group receiving special education services may not yield the same risk ratio. See the technical assistance document *Methods for Assessing Racial/Ethnic Disproportionality in Special Education: A Technical Assistance Guide* on the IDEadata.org website for more information about how weighted risk ratios are calculated (<https://www.ideadata.org/docs/Disproportionality%20Technical%20Assistance%20Guide.pdf>)

^c Includes child count for BIA schools.

x Data suppressed.

. Ratio cannot be calculated.

¹ 2000 was the first year that disability was collected for children ages 3 through 5.

² Beginning in 1997, states had the option of reporting children ages 3 through 9 in the developmental delay category.

Source: U.S. Department of Education, Office of Special Education Programs, Data Analysis System (DANS), OMB# 1820-0043: "Children with Disabilities Receiving Special Education Under Part B of the Individuals with Disabilities Education Act," 2005. Data updated as of July 17, 2006.

Notes: See Part B child count data notes for an explanation of individual state differences.

Percent = Number of children ages 3 through 5 served under IDEA, Part B, divided by the number of children age 3 through 5 in the population multiplied by 100. See https://www.ideaadata.org/tables29th%5Car_1-2.htm and https://www.ideaadata.org/tables29th%5Car_C-3.htm for the denominator.

The sum of the percentages for individual disabilities may not equal the percentage of all disabilities because of rounding.

= Percentage cannot be calculated.

¹ Developmental delay is applicable only to children 3 through 9. https://www.ideaadata.org/tables29th%5Car_1-11.htm

Source: U.S. Department of Education, Office of Special Education Programs, Data Analysis System (DANS), OMB# 1820-0043: "Children with Disabilities Receiving Special Education Under Part B of the Individuals with Disabilities Education Act," 2005. Data updated as of July 17, 2006.

Note: See Part B child count data notes for an explanation of individual state differences.

Percent = Number of students in the race/ethnicity column divided by the race/ethnicity total multiplied by 100.

¹ Discrepancies arise when there are differences between a state's reported child count total and the state's reported breakout by race/ethnicity.
x = Data Suppressed.

= Percentage cannot be calculated (division by zero).

The sum of the race/ethnicity percentages may not equal 100 percent because of rounding.

Source: U.S. Department of Education, Office of Special Education Programs, Data Analysis System (DANS), OMB# 1820-0043: "Children with Disabilities Receiving Special Education Under Part B of the Individuals with Disabilities Education Act," 2005. Data updated as of July 17, 2006.

Note: See Part B child count data notes for an explanation of individual state differences.

Percent = Number of students in the race/ethnicity column divided by the race/ethnicity total multiplied by 100.

i Discrepancies arise when there are differences between a state's reported child count total and the state's reported breakout by race/ethnicity.

x = Data Suppressed.

= Percentage cannot be calculated (division by zero).

The sum of the race/ethnicity percentages may not equal 100 percent because of rounding.

Source: U.S. Department of Education, Office of Special Education Programs, Data Analysis System (DANS), OMB# 1820-0043: "Children with Disabilities Receiving Special Education Under Part B of the Individuals with Disabilities Education Act," 2005. Data updated as of July 17, 2006.

Note: See Part B child count data notes for an explanation of individual state differences.

n= Developmental delay is applicable only to children ages 3 through 9.

Percent = Number of Black children ages 3 through 5 served under IDEA, Part B, divided by the number of Black children ages 3 through 5 in the population multiplied by 100.

See https://www.idea-data.org/tables/29th%5Car_C-7.htm for the numerator and https://www.idea-data.org/tables/29th%5Car_1-15.htm for the denominator.

The sum of the percentages of individual disabilities may not equal the percentage of all disabilities because of rounding.
= Percentage cannot be calculated.

https://www.idea-data.org/tables/29th%5Car_1-17.htm

**Percentage of Racial/Ethnic Group (Based on 2005 Population Estimates) Ages 3-5
Served Under IDEA, Part B, 2005. Hispanic**

Source: U.S. Department of Education, Office of Special Education Programs, Data Analysis System (DANS), OMB# 1820-0043; "Children with Disabilities Receiving Special Education Under Part B of the Individuals with Disabilities Education Act," 2005. Data updated as of July 17, 2006.

Note: See Part B child count data notes for an explanation of individual state differences.

Developmental delay is applicable only to children ages 3 through 9.

Percent = Number of White children ages 3 through 5 served under IDEA, Part B, divided by the number of White children ages 3 through 5 in the population multiplied by 100. See https://www.ideaadata.org/tables29th%5Car_1-15.htm for the numerator and https://www.ideaadata.org/tables29th%5Car_C-7.htm for the denominator.

The sum of the percentages of individual disabilities may not equal the percentage of all disabilities because of rounding.
= Percentage cannot be calculated.

Source: U.S. Department of Education, Office of Special Education Programs, Data Analysis System (DANS), OMB# 1820-0043: "Children with Disabilities Receiving Special Education Under Part B of the Individuals with Disabilities Education Act," 2005. Data updated as of July 17, 2006.

Notes: See Part B educational environments data notes for an explanation of individual state differences.

EC = early childhood; Spec Ed = special education; PT = part-time. Itinerant services outside the home and reverse mainstream are optional reporting categories.

For children under age 6, these are the environments where the children receive their special education and related services.

Percent = Number of children in the educational environment column divided by the number in all environments multiplied by 100.

= Percentage cannot be calculated (division by zero).

Source: U.S. Department of Education, Office of Special Education Programs, Data Analysis System (DANS), OMB# 1820-0043: "Children with Disabilities Receiving Special Education Under Part B of the Individuals with Disabilities Education Act," 2005. Data updated as of July 17, 2006.

Notes: See Part B educational environments data notes for an explanation of individual state differences.

EC = early childhood; Spec Ed = special education; PT = part-time. Itinerant services outside the home and reverse mainstream are optional reporting categories.

¹For children under age 6, these are the environments where the children receive their special education and related services.

Percent = Number of children in the educational environment column divided by the number in all environments multiplied by 100.

²= Percentage cannot be calculated (division by zero).

Source: U.S. Department of Education, Office of Special Education Programs, Data Analysis System (DANS), OMB# 1820-0043: "Children with Disabilities Receiving Special Education Under Part B of the Individuals with Disabilities Education Act," 2005. Data updated as of July 17, 2006.

Notes: See Part B educational environments data notes for an explanation of individual state differences.

EC = early childhood; Spec Ed = special education; PT = part-time. Itinerant services outside the home and reverse mainstream are optional reporting categories.

¹For children under age 6, these are the environments where the children receive their special education and related services.

Percent = Number of children in the educational environment column divided by the number in all environments multiplied by 100.

The sum of the environment percentages may not equal 100 percent because of rounding.

= Percentage cannot be calculated (division by zero).

Source: U.S. Department of Education, Office of Special Education Programs, Data Analysis System (DANS), OMB# 1820-0043: "Children with Disabilities Receiving Special Education Under Part B of the Individuals with Disabilities Education Act," 2005. Data updated as of July 17, 2006.

Notes: See Part B educational environments data notes for an explanation of individual state differences.

EC = early childhood; Spec Ed = special education; PT = part-time. Itinerant services outside the home and reverse mainstream are optional reporting categories.

¹For children under age 6, these are the environments where the children receive their special education and related services.

Percent = Number of children in the educational environment column divided by the number in all environments multiplied by 100.

The sum of the environment percentages may not equal 100 percent because of rounding.

= Percentage cannot be calculated (division by zero).

Notes: See Part B educational environments data notes for an explanation of individual state differences.

EC = early childhood; Spec Ed = special education; PT = part-time. Itinerant services outside the home and reverse mainstream are optional reporting categories.

¹For children under age 6, these are the environments where the children receive their special education and related services.

²Developmental delay is applicable only to children 3 through 9.

Percent = Number of children in the educational environment column divided by the number in all environments multiplied by 100.

The sum of the environment percentages may not equal 100 percent because of rounding.

= Percentage cannot be calculated (division by zero).

Source: U.S. Department of Education, Office of Special Education Programs, Data Analysis System (DANS), OMB# 1820-0043: "Children with Disabilities Receiving Special Education Under Part B of the Individuals with Disabilities Education Act," 2005. Data updated as of July 17, 2006.

Notes: See Part B educational environments data notes for an explanation of individual state differences.

Itinerant services outside the home and reverse mainstream are optional reporting categories.

Prior to 1998, the educational environments of children ages 3-5 were collected using categories not comparable to the categories currently in use. Therefore, these data were excluded.

¹ For children under age 6, these are the environments where the children receive their special education and related services.

² California did not report the count of children ages 3-5 by educational environment for 1998.

Source: U.S. Department of Education, Office of Special Education Programs, Data Analysis System (DANS), OMB# 1820-0043: "Children with Disabilities Receiving Special Education Under Part B of the Individuals with Disabilities Education Act," 2005. Data updated as of July 17, 2006.

Notes: See Part B educational environments data notes for an explanation of individual state differences.

EC = early childhood; Spec Ed = special education; PT = part-time. Itinerant services outside the home and reverse mainstream are optional reporting categories.

For children under age 6, these are the environments where the children receive their special education and related services.
*The educational environments total may differ from the race/ethnicity count in Child Count data. This table does not include children with an unreported educational environment.

= Percentage cannot be calculated (division by zero).

Source: U.S. Department of Education, Office of Special Education Programs, Data Analysis System (DANS), OMB# 1820-0043; "Children with Disabilities Receiving Special Education Under Part B of the Individuals with Disabilities Education Act," 2005. Data updated as of July 17, 2006.

Notes: See Part B educational environments data notes for an explanation of individual state differences.

EC = early childhood; Spec Ed = special education; PT = part-time. Itinerant services outside the home and reverse mainstream are optional reporting categories.

If for children under age 6, these are the environments where the children receive their special education and related services.

The educational environments total may differ from the race/ethnicity count in Child Count data. This table does not include children with an unreported educational environment.

= Percentage cannot be calculated (division by zero).

Source: U.S. Department of Education, Office of Special Education Programs, Data Analysis System (DANS), OMB# 1820-0043: "Children with Disabilities Receiving Special Education Under Part B of the Individuals with Disabilities Education Act," 2005. Data updated as of July 17, 2006.

Notes: See Part B personnel data notes for an explanation of individual state differences.

Because the personnel data are collected using full-time equivalency (FTE) fractions, and this table shows only the rounded values, the Total employed column may not equal the sum of the Fully certified and Not fully certified columns. The total FTE for the U.S. and outlying areas and the 50 states and DC (including BIA schools) may not equal the sum of the individual states and outlying areas because of rounding.
