

State-Level School Health Policies and Practices

A State-by-State Summary from the School Health Policies and Programs Study 2006

This publication was prepared by the Centers for Disease Control and Prevention (CDC). It summarizes state-level data collected from the 50 states and the District of Columbia as part of the School Health Policies and Programs Study (SHPPS) 2006. SHPPS 2006 is the most comprehensive study of school health policies and programs ever conducted in the United States. SHPPS is conducted periodically to monitor the extent to which school health policies and practices are addressing the leading causes of death, illness, and social problems among young people and adults.

Table 7.2 States That Require Districts or Schools to Provide Funding for or Offer Health Screenings to School Faculty and Staff, by Type of Screening..... 213

Table 7.3	States That Require Districts or Schools to Provide Funding for or Offer Health-Related Activities to School Faculty and Staff, by Type of Activity	215
Table 7.4	States That Require Districts or Schools to Provide Funding for or Offer Health-Related Services to School Faculty and Staff, by Type of Service	217
Table 7.5	States That Require Districts or Schools to Provide Funding for or Offer Specific Programs for Faculty and Staff and States That Require Districts or Schools to Make School Physical Activity Facilities Available for Faculty and Staff to Use.....	219
Table 7.6	States That Require Faculty and Staff to Receive Health Screenings Prior to and During Employment, by Type of Screening	221
Table 7.7	States That Offer Types of Health Insurance Coverage to Faculty and Staff or That Require Districts to Offer Types of Health Insurance Coverage to Faculty and Staff, by Type of Coverage.....	223

Introduction

The Centers for Disease Control and Prevention (CDC) conducts the School Health Policies and Programs Study (SHPPS) periodically to monitor the extent to which school health policies and practices are addressing the leading causes of death, illness, and social problems among young people and adults. SHPPS 2006 assessed the characteristics of school health policies and programs at the state, district, school, and classroom levels nationwide. This report summarizes state-level responses only.

The CDC conducted SHPPS 2006 between January and October 2006. To collect state-level data, the CDC conducted computer-assisted telephone interviews with state education agency personnel, although 16% of state-level questionnaires were completed as paper questionnaires and returned via mail. All 50 states and the District of Columbia participated. (For details about how the district-, school-, and classroom-level data were collected, see www.cdc.gov/shpps.) After states completed their interviews in 2006 and a draft of this report was compiled in 2007, each state was asked to update, verify, and correct the original data. This new information was added to this report but not to the original SHPPS 2006 data files. As a result, the data in this document might vary slightly from the data reported in other SHPPS 2006 publications.

In this report, the SHPPS findings are presented in 94 tables organized into seven sections. These sections correspond to seven of the eight components described in Allensworth and Kolbe's model of school health programs.ⁱ

- Health education.
- Physical education and activity.
- Health services.
- Mental health and social services.
- Healthy and safe school environment.
- Nutrition services.
- Faculty and staff health promotion.

The eighth component, family and community involvement, was not assessed at the state level and therefore is not included.

Each table contains state-by-state information in an easy-to-read format. For most tables, a simple yes/no format—using circle symbols—indicates whether a state has a particular policy or practice. In some tables, these circle symbols are used to indicate whether states require or recommend certain policies or procedures. In other tables, the symbols indicate other types of responses (e.g., education level). Thus, the meaning of these symbols is not uniform across tables. Each table also contains footnotes that give the exact wording of the questions that states were asked.

We hope that you find this information useful. Additional information about SHPPS can be found in a special issue of the *Journal of School Health*ⁱⁱ and at the SHPPS website at www.cdc.gov/shpps.

- Neither Requires nor Recommends

¹ Junk foods are defined as foods or beverages that have low nutrient density, that is, they provide calories primarily through fats or added sugars and have minimal amounts of vitamins and minerals.

² "Does your state require or recommend that schools restrict the times during the day that soda pop, sports drinks, or fruit drinks that are not 100% juice can be sold in any venue?" (State Food Service Questionnaire, Item 31)

³ "Does your state require or recommend that schools restrict the times during the day that junk foods can be sold in any venue?" (State Food Service Questionnaire, Item 32)

⁴ "Does your state require or recommend that schools prohibit junk foods from being sold for fundraising purposes?" (State Food Service Questionnaire, Item 33)

⁵ "Does your state require or recommend that schools prohibit advertising for candy, fast food restaurants, or soft drinks on school property?" (State Food Service Questionnaire, Item 35)

¹ "Does that policy specifically prohibit cigarette smoking by students in the following locations: (a) in school buildings and (b) outside on school grounds, including parking lots and playing fields?" (State Environment Questionnaire, Items 17a and 17b)

"Does that policy specifically prohibit smokeless tobacco use by students in the following locations: (a) in school buildings and (b) outside on school grounds, including parking lots and playing fields?" (State Environment Questionnaire, Items 20a and 20b)

² "Does that policy specifically prohibit cigarette smoking by students in the following locations: (c) on school buses or other vehicles used to transport students and (d) at off-campus, school-sponsored events?" (State Environment Questionnaire, Items 17c and 17d)

"Does that policy specifically prohibit smokeless tobacco use by students in the following locations: (c) on school buses or other vehicles used to transport students and (d) at off-campus, school-sponsored events?" (State Environment Questionnaire, Items 20c and 20d)

³ "Does that policy specifically prohibit cigarette smoking by faculty and staff in the following locations: (a) in school buildings and (b) outside on school grounds, including parking lots and playing fields?" (State Environment Questionnaire, Items 25a and 25b)

"Does that policy specifically prohibit smokeless tobacco use by faculty and staff in the following locations: (a) in school buildings and (b) outside on school grounds, including parking lots and playing fields?" (State Environment Questionnaire, Items 28a and 28b)

⁴ "Does that policy specifically prohibit cigarette smoking by faculty and staff in the following locations: (c) on school buses or other vehicles used to transport students and (d) at off-campus, school-sponsored events?" (State Environment Questionnaire, Items 25c and 25d)

"Does that policy specifically prohibit smokeless tobacco use by faculty and staff in the following locations: (c) on school buses or other vehicles used to transport students and (d) at off-campus, school-sponsored events?" (State Environment Questionnaire, Items 28c and 28d)

⁵ "Does that policy specifically prohibit cigarette smoking by school visitors in the following locations: (a) in school buildings and (b) outside on school grounds, including parking lots and playing fields?" (State Environment Questionnaire, Items 30a and 30b)

"Does that policy specifically prohibit smokeless tobacco use by school visitors in the following locations: (a) in school buildings and (b) outside on school grounds, including parking lots and playing fields?" (State Environment Questionnaire, Items 33a and 33b)

⁶ "Does that policy specifically prohibit cigarette smoking by school visitors in the following locations: (c) on school buses or other vehicles used to transport students and (d) at off-campus, school-sponsored events?" (State Environment Questionnaire, Items 30c and 30d)

"Does that policy specifically prohibit smokeless tobacco use by school visitors in the following locations: (c) on school buses or other vehicles used to transport students and (d) at off-campus, school-sponsored events?" (State Environment Questionnaire, Items 33c and 33d)

⁷ State prohibits all types of tobacco use in all locations if it has adopted policies prohibiting all of the following:

- Cigarette smoking and smokeless tobacco use by students in school buildings and outside on school grounds, including parking lots and playing fields (State Environment Questionnaire, Items 16, 17a, 17b, 19, 20a, and 20b); and
- Cigarette smoking and smokeless tobacco use by students on school buses or other vehicles used to transport students and at off-campus, school-sponsored events (State Environment Questionnaire, Items 16, 17c, 17d, 19, 20c, and 20d); and
- Cigarette smoking and smokeless tobacco use by faculty and staff during any school-related activity in school buildings and outside on school grounds, including parking lots and playing fields (State Environment Questionnaire, Items 24, 25a, 25b, 27, 28a, and 28b); and
- Cigarette smoking and smokeless tobacco use by faculty and staff during any school-related activity on school buses or other vehicles used to transport students and at off-campus, school-sponsored events (State Environment Questionnaire, Items 24, 25c, 25d, 27, 28c, and 28d); and
- Cigarette smoking and smokeless tobacco use by school visitors in school buildings and outside on school grounds, including parking lots and playing fields (State Environment Questionnaire, Items 29, 30a, 30b, 32, 33a, and 33b); and
- Cigarette smoking and smokeless tobacco use by school visitors on school buses or other vehicles used to transport students and at off-campus, school-sponsored events (State Environment Questionnaire, Items 29, 30c, 30d, 32, 33c, and 33d); and
- Cigar or pipe smoking by students, faculty and staff during any school-related activity, and school visitors. (State Environment Questionnaire, Items 18, 26, and 31).

¹ “Has your state adopted a policy stating that districts or schools will provide funding for or offer an Employee Assistance Program, or EAP, for school faculty and staff? EAPs provide services designed to assist employees experiencing personal or social problems that can impact work performance, physical health, or overall well-being.” (State Faculty and Staff Health Promotion Questionnaire, Item 17)

² “Has your state adopted a policy stating that districts or schools will provide funding for or offer health risk appraisals for faculty and staff?” (State Faculty and Staff Health Promotion Questionnaire, Item 18)

³ “Has your state adopted a policy stating that districts or schools will provide funding for or offer any physical activity programs for faculty and staff, such as aerobics classes, basketball leagues, or walking or jogging clubs?” (State Faculty and Staff Health Promotion Questionnaire, Item 15)

⁴ “Has your state adopted a policy stating that indoor or outdoor school facilities or equipment that could be used for physical activity will be made available for faculty and staff to use? This would include any school facilities or equipment such as gyms, cafeterias, swimming pools, weight-lifting equipment, or cardiovascular exercise equipment. Facilities or equipment that are available to all residents of a community are not considered.” (State Faculty and Staff Health Promotion Questionnaire, Item 16)

¹ "Required of some faculty and staff" indicates one of the following responses: "depending on the position the person will have/has at the school" or "depending on something other than the person's position." For TB testing, "something other than the person's position" is defined as "only those faculty and staff meeting certain risk criteria, for example those born or recently living in other countries."

² "Which of the following statements best describes the requirements for (a) physical health examinations, (b) Tuberculosis (TB) testing, and (c) illegal drug use screening of faculty and staff in your state prior to employment?
 (1) Required of all faculty and staff prior to employment.
 (2) Required depending on the position the person will have.
 (3) Required depending on something other than the person's position.
 (4) Not required of any faculty or staff prior to employment." (State Faculty and Staff Health Promotion Questionnaire, Items 5–7)

³ "Which of the following statements best describes the requirements for (a) physical health examinations, (b) Tuberculosis (TB) testing, and (c) illegal drug use screening of faculty and staff while they are employed?
 (1) Required periodically of all school faculty and staff while employed.
 (2) Required periodically depending on the person's position.
 (3) Required periodically depending on something other than the person's position.
 (4) Not required of any school faculty or staff while employed." (State Faculty and Staff Health Promotion Questionnaire, Items 8–10)
