

Facts to consider on your voyage...

- 🕒 Ninety percent of the fastest growing jobs require some kind of post-secondary education
 - ✦ From automotive repair to nursing, chances are you're going to need more than a high school education to find a well-paying career
- 🕒 Seventy-six percent of the fastest growing jobs require a college degree
 - ✦ Check out your nearest community college or university for details
- 🕒 Sixty-three percent of today's high-wage, high growth jobs require a bachelor's degree
 - ✦ This includes degrees in biology, accounting, and yes, even philosophy

Career Voyages was developed through a joint partnership between the U.S. Department of Labor and the U.S. Department of Education to provide Americans with the information and tools to build careers in high growth industries and in-demand occupations.

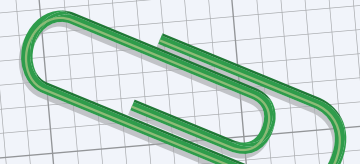

For more information, contact us at CareerVoyages@dol.gov or (202) 693-3624.

Career Voyages

ENVISION
YOUR
FUTURE

It's a big world out there. With so many options, how can anyone be sure they are choosing the right career? Career Voyages can help. For ideas on where to begin, where to go next or how to get there, start with Career Voyages.

students:

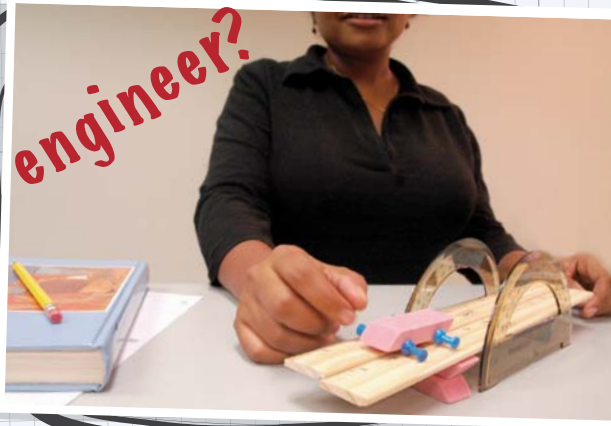

- Access info on today's most in-demand jobs nationally and in your state
- Get up to speed on the latest career options with detailed occupation reports including salaries, growth rates and educational requirements
- Get the facts on the value of on-the-job training, apprenticeships, certificate programs and two-year and four-year degrees

educators:

- Discover career resources to get students started on planning for their future
- Find answers to the question students often ask: "When am I ever going to use this?"
- Explore career options for students entering the workforce beyond high school, community college and university

parents:

- Find information to help your child decide what career path is best for them
- Helpful information on the value of an education – whether it's an apprenticeship, an associates degree, a bachelor's degree or even higher – and how to pay for it
- Utilize an innovative interface to engage your child and get them thinking about their future

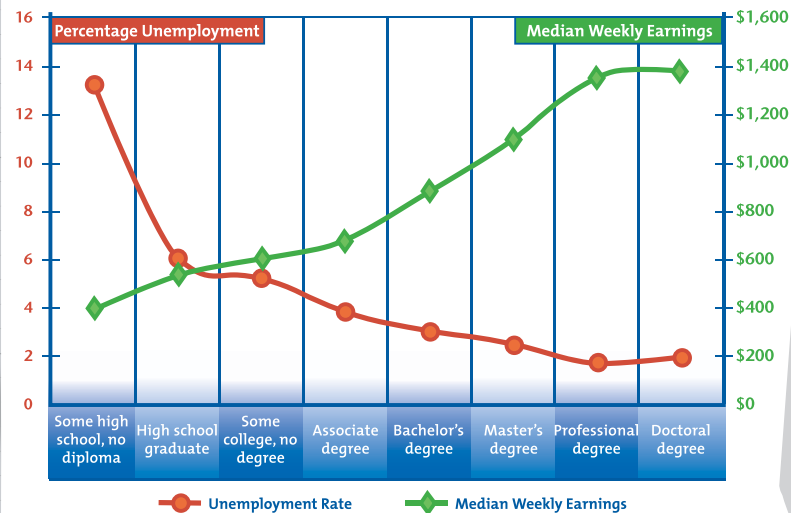

career-changers:

- Find the latest information on emerging industries and new career opportunities in your state
- Explore opportunities in high growth industries such as biotechnology, nanotechnology, health care and transportation
- Learn about educational opportunities to get ahead in your career or earn a degree
