PREFACE

The University of North Carolina presents the thirty-ninth annual *Statistical Abstract of Higher Education in North Carolina*. This abstract covers the breadth of higher education activities in the State in their quantitative aspect, from simple counts of enrollment and degrees conferred to complex analyses of the flow of student transfers among institutions. This wide range of information, collected and published annually, should be useful to members of the public and to planners and educators in educational institutions and government agencies. It is hoped that the information will aid in the more effective use of resources allocated to higher education.

The data for the abstract were assembled by the Institutional Research and Analysis, Academic Affairs Division of the General Administration of the University of North Carolina from information supplied by the colleges and universities. I especially wish to acknowledge the work of Dr. Xiaoyun Yang and other staff of the Institutional Research and Analysis for generating data and for their meticulous care in assembling and editing the abstract. Acknowledgement is also due to assisting officials at the institutions, public and private, for their continuing and wholehearted cooperation. To all, I express my sincere appreciation.

Alan Mabe
Vice President, Division of Academic Affairs

INTRODUCTION

The *Statistical Abstract of Higher Education in North Carolina, 2006-07* has been compiled to give a detailed statistical view of higher education in North Carolina. This abstract presents both past and current (2006-07 academic year) information. It is designed to provide legislators, educators, and other interested citizens of North Carolina with a statistical account of higher education in this State. From this abstract, the reader can gain some knowledge about who is being educated, where they are being educated, and the resources supporting their education.

The data reported herein were compiled from online forms from the individual institutions by the Institutional Research and Analysis, Academic Affairs Division of the General Administration of the University of North Carolina in the summer and fall of 2006 for processing during the 2006-2007 academic year. The forms are designed to satisfy both Federal and State data requests (see Appendix A).

The staff of the Institutional Research and Analysis makes every effort to verify the validity and reliability of the data reported by the institutions. The ultimate responsibility for the accuracy of the data, of course, lies with the individual institutions since they originate the reports on which this abstract is based. In certain instances discrepancies may appear to be present, when in reality the data reported may reflect different interpretations of definitions by respondents in different institutions. Wherever possible, these apparent discrepancies are explained by footnotes. For example, because of its unique student body, which consists of both college and high school students, data for North Carolina School of the Arts may not be directly comparable to other institutions in some tables in which they are presented. If a comparison or a trend study is conducted, please notice that East Coast Bible College was closed on August 31, 1999. Anson Community College changed its name to South Piedmont Community College in the fall of 1999. Beginning in 2000 and 2001, University of North Carolina and private institutions enrollment data combine both resident and extension credit respectively. Cabarrus College of Health Sciences has begun offering baccalaureate degrees and has been moved from the "Junior Colleges" category to the "Senior Colleges and Universities" category.

SECTION II

ENROLLMENT TRENDS

UNC institutions include extension credit beginning in 1999. Private institutions include extension credit beginning in 2001. Campbell University included extension credit prior to Fall 1991. Mount Olive College and Montreat College also include an off-campus site in their degree credit enrollment. Barber-Scotia College stopped providing data in fall 2004. Southeastern Baptist Theological Seminary stopped submitting data in fall 2005.

Community colleges include only college transfer students (AA, AFA, AS).

SECTION IV

DEGREES CONFERRED

The U.S. Department of Education's National Center for Education Statistics (NCES) developed the Classification of Instructional Programs (CIP) in 1980. The purpose of the CIP is to provide a taxonomic scheme that will support the accurate tracking, assessment, and reporting of fields of study and program completions activity. CIP revisions occurred in 1985, 1990, and 2000. The 1990 edition of CIP (CIP-1990) was implemented in 1992. The 2000 edition of the CIP (CIP-2000) was adopted in 2002.

Therefore, the CIP-1990 was used to track degrees conferred in North Carolina colleges and universities before 2002. The CIP-2000 has been used since 2002-2003 academic year.

Note: The College Board has advised colleges and universities to report median and quartile scores in addition to simple averages. The top quartile is the SAT score in which 25% of students score that high or higher. The median is the SAT score in which 50% of students score that high or higher. The last quartile is the SAT score in which 75% of students score that high or higher. The total scores may not match those in BOG report for some institutions due to roundings.

Note: The College Board has advised colleges and universities to report median and quartile scores in addition to simple averages. The top quartile is the SAT score in which 25% of students score that high or higher. The median is the SAT score in which 50% of students score that high or higher. The last quartile is the SAT score in which 75% of students score that high or higher.

SECTION IX
STUDENT FINANCIAL AID

This year is the 7th year that tables on student financial aid received by students attending North Carolina colleges and universities have been displayed in revised form. The revisions are made possible by a new data collection system, which was implemented for the first time in 1998-99. Data in Table 65 show the basic format for collecting and summarizing the data. The unduplicated counts of recipients in this table include all students who received financial aid of a given form (grants/scholarships, loans, scholarship/loans, jobs, all forms combined) during the 2005-06 academic year or during the summer sessions of 2006.

In these years of the new system, several institutions were not able to report all of the requested data. In the few such instances where this occurred, data tables show "DNA" in cells where data are not available. Even with these occasional gaps in data, it is believed that the new data are more accurate and more useful to the reader.

An important change in reporting data in this section is the shift to reporting aid received by undergraduates, graduates and first professional students in separate tables. The new system provides a breakdown by degree level, which makes this level of detail possible.

*The allocations above were made under the North Carolina Legislative Tuition Grant (NCLTG) program which is administered by the North Carolina State Education Assistance Authority. NCLTG awards are paid to Institutions for and on behalf of eligible students each term as defined under NCLTG Regulations.

**The allocations above were made under the State Contractual Scholarship Fund (SCSF) program to North Carolina resident undergraduate students attending private colleges and universities in North Carolina. The funds were then granted by the Institutions to their North Carolina undergraduate students on the basis of financial need.

***Barber Scotia College is no longer eligible to participate in the NCLTG and SCSF programs.

APPENDIX B

DEFINITIONS OF TERMS

The definitions below are intended to facilitate the better understanding of information presented in this report. These are selected from the University of North Carolina's reporting forms and the US Department of Education's Integrated Postsecondary Education Data System forms.

1. ENROLLMENT for UNC and private institutions refers to the headcount degree-credit enrollment. The degree-credit enrollment includes full-time and part-time students enrolled in courses basic to or creditable to a bachelor's or higher degree including extension courses but excluding students in correspondence, adult education, audited courses, short courses, and those enrolled for individual lessons only.

Undergraduate includes students who have not completed a full four-year program or its equivalent and also students in a five-year bachelor's program. This classification includes students in junior and community colleges in programs transferable to four-year institutions.

First Professional includes students who are in a professional school or program (law, medicine, dentistry, pharmacy, veterinary medicine, and theology) which requires at least two or more years of previous college work for entrance.

Graduate includes students who have attained at least one standard bachelor's degree or first professional degree and who are or might be candidates for a master's or doctorate degree.

First-Time Freshman includes new students who have not attended college prior to the immediately previous summer sessions. Also includes students who entered with advanced standing (college credits earned before graduation from high school).

Special/Unclassified includes students who are not candidates for a degree, diploma, certificate, or equivalent award, although taking courses in regular classes with other students.

Full-Time Student includes students registered for 12 or more semester credit hours as undergraduate or 9 or more semester credit hours as graduate or first professional students.

Part-Time Student includes students registered for less semester credit hours than a full-time load.

FTE (Full-Time Equivalent) of Part-Time Students

Undergraduates

12 or more semesters credit hours = 1
9 to 12 semester credit hours = 3/4
6 to 9 semester credit hours = 1/2
Less than 6 semester credit hours = 1/4

Graduates

9 or more semester credit hours = 1
6 to 9 semester credit hours = 3/4
3 to 6 semester credit hours = 1/2
Less than 3 semester credit hours = 1/4

In-State Students are those whose legal residence, as determined at the institution, is in North Carolina.

Out-of-State Students are those whose legal residence, as determined at the institution, is in a state other than North Carolina or in a foreign country.

2. TRANSFER refers to students transferring to North Carolina institutions who have college credits from other institutions in a previous regular session(s). A former student transferring back to his original institution after attendance at another institution is not classified as a transfer.

3. DEGREES in this report refer to earned degrees conferred (not honorary). Specifically, the following degrees are included:

Bachelor's Degree requires successful completion of at least four but not more than five years of academic work.

First Professional Degree signifies the completion of the academic requirements for a selected profession, which is based on an educational program requiring at least two academic years of previous college work for entrance and which requires a total of at least six academic years of college work for completion. Examples of first professional degrees are the Doctor of Jurisprudence (J.D.) and Bachelor of Laws (LL.B.), Doctor of Dental Surgery (D.D.S.), Doctor of Pharmacy (Pharm.D.), and Doctor of Medicine (M.D.) degrees.

Master's Degree is customarily granted upon successful completion of one (sometimes two) academic years of work beyond the bachelor's degree.

Doctorate Degree includes such degrees as Doctor of Education, Doctor of Juridical Science (S.J.D.), Doctor of Public Health, and the Doctor of Philosophy in any field.

4. FACULTY refers to the professional personnel employed in colleges and universities who are primarily assigned to resident instruction and departmental or organized research. This does not include other professional personnel in library, auxiliary enterprises, and public service activities.

5. EXTENSION ACTIVITY is defined in this report as any on- or off-campus instructional, research application, or public service activity sponsored by the reporting institution which is in addition to the regular on-campus instructional and research activities provided for the regularly enrolled, on-campus, degree candidate.
