#### **2009 Science Assessment Content**

Guided by a new framework, the NAEP science assessment was updated in 2009 to keep the content current with key developments in science, curriculum standards, assessments, and research. The 2009 framework organizes science content into three broad content areas. **Physical science** includes concepts related to properties and

changes of matter, forms of energy, energy transfer and conservation, position and motion of objects, and forces affecting motion.

**Life science** includes concepts related to organization and development, matter and energy transformations, interdependence, heredity and reproduction, and evolution and diversity.

**Earth and space sciences** includes concepts related to objects in the universe, the history of the Earth, properties of Earth materials, tectonics, energy in Earth systems, climate and weather, and biogeochemical cycles.

The 2009 science assessment was composed of 143 questions at grade 4, 162 at grade 8, and 179 at grade 12. Students responded to only a portion of the questions, which included both multiple-choice questions and questions that required a written response.

### Compare the Average Score in 2009 to Other States/Jurisdictions

<sup>1</sup> Department of Defense Education Activity (overseas and domestic schools).

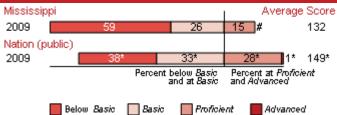

In 2009, the average score in Mississippi was

- lower than those in 46 states/jurisdictions
- higher than that in 0 states/jurisdictions
- not significantly different from those in 0 state/jurisdiction
- 5 states/jurisdictions did not participate

## **Overall Results**

- In 2009, the average score of eighth-grade students in Mississippi was 132. This was lower than the average score of 149 for public school students in the nation.
- The percentage of students in Mississippi who performed at or above the NAEP *Proficient* level was 15 percent in 2009. This percentage was smaller than the nation (29 percent).
- The percentage of students in Mississippi who performed at or above the NAEP Basic level was 41 percent in 2009. This percentage was smaller than the nation (62 percent).

# **Achievement-Level Percentages and Average Score Results**

- $^{*}$  Significantly different (p < .05) from Mississippi. Significance tests were performed using unrounded numbers.
- # Rounds to zero.

NOTE: The percentage at *Advanced* was higher in the Nation (1.40) than in Mississippi (0.25). Detail may not sum to totals because of rounding.

## **Results for Student Groups in 2009**

			Perce	entages at	
	Percent of	Avg.	or	above	Percent at
Reporting Groups	students	score	Basic	Proficient	Advanced
Gender					
Male	49	134	44	17	#
Female	51	130	39	13	#
Race/Ethnicity					
White	47	150	65	27	#
Black	50	114	19	3	#
Hispanic	2	‡	‡	‡	‡
Asian/Pacific Islander	1	‡	#	#	‡
American Indian/Alaska Native	e #	‡	‡	‡	‡
National School Lunch Program					
Eligible	67	122	29	7	#
Not eligible	33	152	66	30	1

# Rounds to zero.

‡ Reporting standards not met.

Danasantawas at

NOTE: Detail may not sum to totals because of rounding, and because the "Information not available" category for the National School Lunch Program, which provides free/reduced-price lunches, and the "Unclassified" category for race/ethnicity are not displayed.

# Score Gaps for Student Groups

- In 2009, male students in Mississippi had an average score that was not significantly different from female students.
- In 2009, Black students had an average score that was 36 points lower than White students. This performance gap was not significantly different from the nation (36 points).
- Data are not reported for Hispanic students in Mississippi, because reporting standards were not met.
- In 2009, students who were eligible for free/reduced-price school lunch, an indicator of low family income, had an average score that was 30 points lower than students who were not eligible for free/reduced-price school lunch. This performance gap was not significantly different from the nation (28 points).

NOTE: Statistical comparisons are calculated on the basis of unrounded scale scores or percentages.
