

2009 Science Assessment Content

Guided by a new framework, the NAEP science assessment was updated in 2009 to keep the content current with key developments in science, curriculum standards, assessments, and research. The 2009 framework organizes science content into three broad content areas.

Physical science includes concepts related to properties and changes of matter, forms of energy, energy transfer and conservation, position and motion of objects, and forces affecting motion.

Life science includes concepts related to organization and development, matter and energy transformations, interdependence, heredity and reproduction, and evolution and diversity.

Earth and space sciences includes concepts related to objects in the universe, the history of the Earth, properties of Earth materials, tectonics, energy in Earth systems, climate and weather, and biogeochemical cycles.

The 2009 science assessment was composed of 143 questions at grade 4, 162 at grade 8, and 179 at grade 12. Students responded to only a portion of the questions, which included both multiple-choice questions and questions that required a written response.

Compare the Average Score in 2009 to Other States/Jurisdictions

¹ Department of Defense Education Activity (overseas and domestic schools).

In 2009, the average score in **Texas** was

- lower than those in 23 states/jurisdictions
- higher than those in 16 states/jurisdictions
- not significantly different from those in 7 states/jurisdictions
- 5 states/jurisdictions did not participate

Overall Results

- In 2009, the average score of eighth-grade students in Texas was 150. This was not significantly different from the average score of 149 for public school students in the nation.
- The percentage of students in Texas who performed at or above the NAEP *Proficient* level was 29 percent in 2009. This percentage was not significantly different from the nation (29 percent).
- The percentage of students in Texas who performed at or above the NAEP *Basic* level was 64 percent in 2009. This percentage was not significantly different from the nation (62 percent).

Achievement-Level Percentages and Average Score Results

NOTE: Detail may not sum to totals because of rounding.

Results for Student Groups in 2009

Reporting Groups	Percent of students	Avg. score	Percentages at or above		Percent at Advanced
			Basic	Proficient	
Gender					
Male	50	152	67	32	2
Female	50	148	61	26	1
Race/Ethnicity					
White	37	167	83	47	3
Black	14	133	43	13	#
Hispanic	45	141	53	17	#
Asian/Pacific Islander	4	170	82	55	5
American Indian/Alaska Native	#	‡	‡	‡	‡
National School Lunch Program					
Eligible	52	140	52	17	#
Not eligible	47	162	77	43	3

Rounds to zero.

‡ Reporting standards not met.

NOTE: Detail may not sum to totals because of rounding, and because the "Information not available" category for the National School Lunch Program, which provides free/reduced-price lunches, and the "Unclassified" category for race/ethnicity are not displayed.

Score Gaps for Student Groups

- In 2009, male students in Texas had an average score that was higher than female students.
- In 2009, Black students had an average score that was 33 points lower than White students. This performance gap was not significantly different from the nation (36 points).
- In 2009, Hispanic students had an average score that was 26 points lower than White students. This performance gap was not significantly different from the nation (30 points).
- In 2009, students who were eligible for free/reduced-price school lunch, an indicator of low family income, had an average score that was 22 points lower than students who were not eligible for free/reduced-price school lunch. This performance gap was narrower than the nation (28 points).

NOTE: Statistical comparisons are calculated on the basis of unrounded scale scores or percentages.
