

2009 Science Assessment Content

Guided by a new framework, the NAEP science assessment was updated in 2009 to keep the content current with key developments in science, curriculum standards, assessments, and research. The 2009 framework organizes science content into three broad content areas.

Physical science includes concepts related to properties and changes of matter, forms of energy, energy transfer and conservation, position and motion of objects, and forces affecting motion.

Life science includes concepts related to organization and development, matter and energy transformations, interdependence, heredity and reproduction, and evolution and diversity.

Earth and space sciences includes concepts related to objects in the universe, the history of the Earth, properties of Earth materials, tectonics, energy in Earth systems, climate and weather, and biogeochemical cycles.

The 2009 science assessment was composed of 143 questions at grade 4, 162 at grade 8, and 179 at grade 12. Students responded to only a portion of the questions, which included both multiple-choice questions and questions that required a written response.

Compare the Average Score in 2009 to Other States/Jurisdictions

¹ Department of Defense Education Activity (overseas and domestic schools).

In 2009, the average score in **Utah** was

- lower than those in 11 states/jurisdictions
- higher than those in 22 states/jurisdictions
- not significantly different from those in 13 states/jurisdictions
- 5 states/jurisdictions did not participate

Overall Results

- In 2009, the average score of fourth-grade students in Utah was 154. This was higher than the average score of 149 for public school students in the nation.
- The percentage of students in Utah who performed at or above the NAEP *Proficient* level was 38 percent in 2009. This percentage was greater than the nation (32 percent).
- The percentage of students in Utah who performed at or above the NAEP *Basic* level was 77 percent in 2009. This percentage was greater than the nation (71 percent).

Achievement-Level Percentages and Average Score Results

* Significantly different ($p < .05$) from Utah. Significance tests were performed using unrounded numbers.

NOTE: Detail may not sum to totals because of rounding.

Results for Student Groups in 2009

Reporting Groups	Percent of students	Avg. score	Percentages at or above		Percent at Advanced
			Basic	Proficient	
Gender					
Male	51	155	78	39	1
Female	49	153	76	36	1
Race/Ethnicity					
White	77	161	84	45	1
Black	2	‡	‡	‡	‡
Hispanic	16	129	50	12	#
Asian/Pacific Islander	4	147	70	28	1
American Indian/Alaska Native	1	124	36	9	#
National School Lunch Program					
Eligible	35	139	61	22	#
Not eligible	61	162	86	46	1

Rounds to zero.

‡ Reporting standards not met.

NOTE: Detail may not sum to totals because of rounding, and because the "Information not available" category for the National School Lunch Program, which provides free/reduced-price lunches, and the "Unclassified" category for race/ethnicity are not displayed.

Score Gaps for Student Groups

- In 2009, male students in Utah had an average score that was not significantly different from female students.
- Data are not reported for Black students in Utah, because reporting standards were not met.
- In 2009, Hispanic students had an average score that was 32 points lower than White students. This performance gap was not significantly different from the nation (32 points).
- In 2009, students who were eligible for free/reduced-price school lunch, an indicator of low family income, had an average score that was 23 points lower than students who were not eligible for free/reduced-price school lunch. This performance gap was narrower than the nation (29 points).

NOTE: Statistical comparisons are calculated on the basis of unrounded scale scores or percentages.
