of Learned Societies

ANNUAL REPORT

for the years

2006-2007 and 2005-2006

The American Council of Learned Societies is a private non-profit federation of national scholarly organizations. The Council consists of a 15-member Board of Directors and one Delegate from each constituent society. The principal administrative officer of each society participates in the Conference of Administrative Officers (CAO).

A MESSAGE FROM THE PRESIDENT

“What the humanities are concerned with is keeping alive our heritage, re-examining and re-interpreting it so that it remains a living heritage, seeking to understand human nature through its past experience and achievements, and seeking to enhance our capacity to understand and enjoy the work of the wisest and most imaginative of mankind thus far.” ACLS President Frederick H. Burkhardt spoke those words when testifying before Congress in favor of creating the National Endowment for the Humanities in 1965. Not only did he help establish the NEH; Fred had essentially re-founded ACLS when he became the Council’s first president in 1957 and rescued it from insolvency. ACLS has achieved much since, and we therefore pay just tribute to Fred Burkhardt, who died in September 2007 at the age of 95. We dedicate this first of a new series of annual reports to his memory.

Supporting the exemplary work of dedicated researchers is one way by which ACLS carries out its mission of advancing humanistic studies. In 2006 and 2007, ACLS awarded \$17.78 million in fellowships and grants to 512 scholars. This demonstrates the progress of the Fellowship Development Campaign, begun in 1997 to increase the size and scope of our fellowship offerings. Those offerings include both our endowed fellowships and programs targeting sequential career stages. In 2006, with a major grant from The Andrew W. Mellon Foundation, ACLS initiated the Early Career Fellowships, which aid rising scholars as they complete their dissertations and transition to research careers.

ACLS President Pauline Yu

Our international programs, by awarding fellowships through transnational peer-review structures, support both individual scholars and scholarly communities. The Humanities Program in Belarus, Russia and Ukraine has catalyzed a new association of humanities scholars—a new learned society—in that region. In 2005, ACLS and the Henry Luce Foundation began a joint initiative to strengthen the study of East and Southeast Asian archaeology and early history on both sides of the Pacific, with ACLS awarding fellowships to individuals and the Luce Foundation making grants to institutions.

Communities depend upon communication, and communication is evermore digital. In 2006, the ACLS Commission on Cyberinfrastructure in the Humanities and Social Sciences issued *Our Cultural Commonwealth*, a report that provides a framework for investments in new technologies that produce new knowledge. Our own experiment with new forms of scholarly communication has proven successful; in 2007, the ACLS History E-Book Project expanded into the Humanities E-Book collection. ACLS fellowships incubate advances in this area. In 1965, ACLS funded scholars whose projects experimented with “computer-aided research in the humanities.” Today, a generous grant from the Mellon Foundation allows ACLS to offer Digital Innovation Fellowships.

This report can provide only the briefest summaries of activities and the essential lists of scholars we have honored with fellowships; individuals and organizations who have honored ACLS with their generosity; our financial statements; and rosters of our member societies, board members, and staff. Fuller information is available at www.acls.org. I particularly encourage you to read the descriptions of ACLS Fellows’ projects and publications; their work is the best indicator of the vibrancy of the humanities as a living heritage.

Reports to the Council,

INTRODUCTION

ACLS provides the humanities and related social sciences with leadership, opportunities for innovation, and national and international representation. The American Council of Learned Societies was created in 1919 to represent the United States in the Union Académique Internationale. Its mission is “the advancement of humanistic studies in all fields of the humanities and social sciences and the maintenance and strengthening of national societies dedicated to those studies.”

AIDING RESEARCH

ACLS offers fellowships and grants in more than a dozen programs for research in the humanities and related social sciences at the doctoral and postdoctoral levels. In 2008, the Council will provide more than \$9 million in fellowship stipends and other awards, supporting scholars at all stages of their careers. In the 2006–07 competition year, ACLS introduced the Mellon/ACLS Early Career Fellowship Program, designed to provide support for young scholars to complete their dissertation, and, later, to advance their research after being awarded the Ph.D. The first Dissertation Completion Fellowships were awarded to 65 doctoral candidates in 2007.

ACLS programs include:

ACLS Fellowships, our central program, supporting research for completion of a major piece of scholarly work;

Charles A. Ryskamp Research Fellowships, for advanced assistant professors;

Frederick Burkhardt Residential Fellowships for Recently Tenured Scholars, supporting recently tenured scholars to work on a long-term, unusually ambitious projects at a national research center; and

ACLS Digital Innovation Fellowships, supporting work on a major scholarly project that takes a digital form.

For more information on ACLS Fellowships and Grants, see www.acls.org/fellowships.

STRENGTHENING RELATIONS AMONG SOCIETIES

The 69 member learned societies of ACLS are national or international organizations in the humanities and related social sciences. The Conference of Administrative Officers (CAO) serves as the primary vehicle for maintaining and enhancing relationships among the societies and between the societies and ACLS. The CAO convenes twice each year to address concerns common to the community of humanistic scholars, particularly issues related to maintaining and improving conditions for research, education, and communication among scholars. The 2006 CAO meeting was held in Kansas City; the 2005 meeting, in San Jose.

For more information on ACLS member societies, affiliates, and associates, see www.acls.org/membership.

INTERNATIONAL SCHOLARSHIP

ACLS was founded in 1919 to represent the United States in the Union Académique Internationale and continues to promote international scholarship. The Humanities Program in Belarus, Russia, and Ukraine distributes grants to individual scholars to sustain individuals doing exemplary work so as to ensure future leadership in the humanities. Other programs offering aid to international scholars include Chinese Fellowships for Scholarly Development, Luce/ACLS Grants to Individuals in East and Southeast Asian Archaeology and History, and New Perspectives on Chinese Culture and Society. The Center for Educational Exchange with Vietnam, a subsidiary organization, administers and supports educational and academic exchanges between Vietnam and the United States.

SCHOLARLY COMMUNICATION

ACLS has a continuing interest in the problems of scholarly publication. The ACLS Commission on Cyberinfrastructure in the Humanities and Social Sciences released *Our Cultural Commonwealth* in fall 2006, a final report on its investigation into technology and humanistic research. It is a call to develop the cyberinfrastructure necessary for scholarship in the humanities and social sciences. Another initiative, the Social Science Translation Project, brought together a group of translators, editors, and social scientists to discuss problems arising from the translation of a variety of texts that employ social-scientific concepts. It produced *Guidelines for the Translation of Social Science Texts*, which was published in eight languages in 2006. In 2007, the History E-Book Project was renamed Humanities E-Book. The collection now consists of over 1,700 full-text titles offered by ACLS in collaboration with 12 learned societies and nearly 95 contributing publishers.

ACLS programs and initiatives,

The Conference of Administrative Officers in Montreal

ANNUAL MEETING

The annual meeting of the American Council of Learned Societies brings together delegates and administrative officers of our member societies, representatives of institutional associates and affiliates, and friends of ACLS from foundations, from government agencies, and from across the academic and public humanities. The 2007 annual meeting was held in Montreal, where Linda Nochlin delivered the 2007 Charles Homer Haskins Prize Lecture on “A Life of Learning.” The 2006 lecture was delivered by Martin E. Marty at the annual meeting in Philadelphia. Both lectures are available in the ACLS *Occasional Paper* series. The 2006 annual meeting included the ACLS/ Association of American Universities Humanities Convocation, which focused on the AAU’s report, *Reinvigorating the Humanities: Enhancing Research and Education on Campus and Beyond*.

For more information on ACLS annual meetings, see www.acls.org/annual_meeting.

FUNDING

ACLS is funded by public and private grants, endowment income, annual subscriptions from university and college associates, dues from constituent societies and affiliates, government contracts, and individual gifts. Launched in 1997, the Fellowship Development Campaign seeks contributions to enlarge the ACLS endowment devoted to fellowships and thereby to raise significantly fellowship stipends. In addition to the fellowship campaign, ACLS gratefully accepts contributions to funds that honor specific individuals whose work has advanced humanistic scholarship. Recent initiatives are the ACLS/Frederic E. Wakeman, Jr. Fellowship Fund for fellowships in Chinese history that, when fully endowed, will support a postdoctoral fellow of any rank in his honor; and contributions in memory of Frederick H. Burkhardt, president emeritus of ACLS, in support of *The Correspondence of Charles Darwin*.

INDIVIDUAL GIVING TO ACLS

ACLS gratefully acknowledges donations from the individuals listed below. If not otherwise designated, contributions go to the Fellowship Development Campaign. Stipends now range from \$30,000 to \$60,000, up from \$20,000 for all ranks in 1997 when the campaign was launched. Grants from the Mellon, Ford, Rockefeller, Hewlett, and other foundations; contributions from institutional associates; and gifts from ACLS fellows and other individuals continue to be critical to this campaign. These contributions helped us award fellowships totaling almost \$8.4 million to 232 United States scholars in 2007, with significant awards made to scholars abroad as well.

ACLS also gratefully accepts contributions to the following funds that honor specific individuals whose work has advanced humanistic scholarship:

- ACLS/John H. D'Arms Fund, for support of the ACLS Fellowship Program and initiatives identified with D'Arms's leadership in the humanities;
- ACLS/Oscar Handlin Fellowship in American History Fund, for support of a fellowship in American history;
- ACLS/Frederic E. Wakeman, Jr. Fellowship Fund, for support, when fully endowed, of a fellowship in Chinese history; and
- Fund in memory of Frederick H. Burkhardt, president emeritus of ACLS, for *The Correspondence of Charles Darwin*.

INDEPENDENT AUDITORS' REPORT

Board of Directors
American Council of Learned Societies
New York, New York

We have audited the accompanying statements of financial position of the American Council of Learned Societies (the "Council") as of September 30, 2007 and 2006, and the related statements of activities, functional expenses, and cash flows for the years then ended. These financial statements are the responsibility of the Council's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements enumerated above present fairly, in all material respects, the financial position of the American Council of Learned Societies as of September 30, 2007 and 2006, and the changes in its net assets and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

NOTES TO FINANCIAL STATEMENTS

American Council of Learned Societies, September 30, 2007 and 2006

NOTE A – ORGANIZATION AND ITS SIGNIFICANT ACCOUNTING POLICIES

1. Organization:

The American Council of Learned Societies (the "Council") is a private, not-for-profit federation of national scholarly organizations, funded largely by grants from private foundations and corporations and by federal grants (principally from the National Endowment for the Humanities and the U.S. Department of State). The purpose of the Council is the advancement of humanistic studies in all fields of learning and the maintenance and strengthening of relations among the national societies devoted to such studies.

The Council is exempt from federal income taxes under Section 501(c)(3) of the U.S. Internal Revenue Code, and from state and local taxes under comparable laws.

2. Basis of accounting:

The accompanying financial statements of the Council have been prepared using the accrual basis of accounting and conform to accounting principles generally accepted in the United States of America, as applicable to not-for-profit entities.

3. Use of estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets, liabilities, revenues and expenses, as well as the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

4. Functional allocation of expenses:

The cost of providing the various programs and supporting services has been summarized on a functional basis in the accompanying statements of activities. Accordingly, expenses have been allocated among the programs and supporting services using appropriate measurement methodologies developed by management.

5. Cash and cash equivalents:

For financial-reporting purposes, the Council considers short-term investments with a remaining maturity at the date of purchase of three months or less to be cash equivalents, except for that portion of cash held as part of the investment portfolio.

6. Grants and accounts receivable:

Grants and accounts receivable are due within one year and are expected to be fully collectible based on management's past experience.

7. Investments:

Investments in equity securities with readily determinable fair values and all investments in debt securities are reported at their fair values, with realized and unrealized gains and losses included in the accompanying statements of activities. Mutual funds, consisting of bond and equity funds, are reported at their fair values, as determined by the related investment manager or advisor.

Limited partnerships and the private equity investment, which are forms of alternative investments, are not readily marketable and are carried at estimated fair values as provided by the respective investment managers. The Council's management reviews and evaluates the values provided

by the investment managers to determine the reasonableness of the valuation methods and assumptions used in determining fair value. These estimated fair values may differ significantly from the values that would have been used had a ready market for these investments existed.

Contributions of marketable securities are recorded at their fair values at the dates of donation. Investment income is shown net of investment expenses.

8. Property and equipment:

Property and equipment are stated at their costs at the dates of acquisition. Building improvements are also capitalized, whereas costs of repairs and maintenance are expensed as incurred. Depreciation is provided using the straight-line method over the estimated useful lives of the respective assets, which range from 5 to 30 years.

9. Deferred debt issuance costs:

The cost associated with the issuance of New York City Industrial Development Agency Bonds has been capitalized and is being amortized over the life of the bonds on a straight-line basis. Amortization of deferred debt issuance costs for each year ended September 30, 2007 and 2006 was \$11,677.

10. Accrued vacation:

Based on their tenure, employees are entitled to be paid for unused vacation time if they leave the Council. The accrued vacation obligation was approximately \$157,000 and \$152,000 for 2007 and 2006, respectively, and was reported as part of accrued expenses in the accompanying statements of financial position.

11. Net assets:

The accompanying statements of activities present the changes in the various classifications of net assets for the respective fiscal years. The Council's net assets and the changes therein are classified based on donor-imposed restrictions and are reported as follows:

(i) Unrestricted:

Unrestricted net assets represent those resources not subject to donor-imposed restrictions. Substantially all of the Council's unrestricted net assets, exclusive of the amounts representing the property and equipment, have been allocated by formal resolution of the Board of Directors to board-designated endowment, the unrestricted earnings of which will be applied to future support of its central fellowship program and to program administrative expenses. Annually, any amount up to, but not greater than, the excess of its unrestricted revenue over expenses, including unrealized gains or losses on its entire investment portfolio, may be so designated.

(ii) Temporarily restricted:

Temporarily restricted net assets represent those resources that have been restricted by donors to specific purposes. They consist mostly of grants, primarily from governmental and private-sector sources, that are available for the support of specific program activities as stipulated in the grantor agreements. Net assets released from restrictions represent the satisfaction of the restricted purposes specified.

(iii) Permanently restricted:

Permanently restricted net assets represent the corpus of gifts and grants accepted with the stipulation that the principal be maintained in perpetuity, but that earnings from investments and net investment gains thereof be available for the Council's general purposes.

NOTES TO FINANCIAL STATEMENTS CONTINUED

American Council of Learned Societies, September 30, 2007 and 2006

12. Reclassifications:

Certain amounts in the accompanying fiscal-year 2006 financial statements have been restated from their original presentations to conform to the fiscal-year 2007 presentations.

13. Revenue recognition:

- (a) Restricted revenue received from U.S. government agencies, foundations and corporations is initially recorded as temporarily restricted upon the receipt of cash or unconditional obligations to give. As the restrictions are met, the support is reclassified as unrestricted. Restrictions are generally met when program and administration expenses relating to the designated purpose of the particular contract, grant or award are incurred.
- (b) The Council receives dues from its members. Dues applicable to a current year are recognized as revenue in that year. Dues received for a future year's membership are deferred and recognized on a pro rata basis over the period of membership.
- (c) Based on its prior experience with grantors, management expects all receivables to be fully collectible. Accordingly, no allowance for doubtful accounts has been provided.

NOTE B – INVESTMENTS

At each fiscal year-end, investments in marketable securities consisted of the following:

American Council of Learned Societies	September 30, 2007		September 30, 2006	
	Fair Value	Cost	Fair Value	Cost
Money-market funds	\$ 27,415,745	\$27,415,745	\$19,123,228	\$19,123,228
Equity securities	37,215,619	33,088,165	34,672,401	28,041,552
Mutual funds	24,115,412	17,438,635	23,653,807	18,280,045
Private equity investment	4,046,336	1,500,000	2,620,803	1,500,000
Limited partnerships	20,973,712	15,030,477	12,747,637	9,793,683
	\$113,766,824	\$94,473,022	\$92,817,876	\$76,738,508

The Council owns shares of a privately held offshore company, the sole purpose of which is to be a limited partner in a limited-partnership investment vehicle. The investment was valued at \$4,046,336 and \$2,620,803 at September 30, 2007 and 2006, respectively. The Council's percentage of ownership of this investment does not warrant consolidation of the financial statements of the privately held company.

The Council has an unpaid capital commitment of \$374,000 at September 30, 2007, relating to its limited-partnership investments.

For each fiscal year, investment income consisted of the following:

American Council of Learned Societies	Year Ended September 30, 2007	Year Ended September 30, 2006
Interest and dividends	\$ 3,590,798	\$2,495,498
Net realized gains	6,247,684	1,834,202
Net unrealized gains	3,214,434	3,767,124
Investment expenses	(321,700)	(260,434)
	\$12,731,216	\$7,836,390

NOTE C – PROPERTY AND EQUIPMENT

At each fiscal year-end, property and equipment consisted of the following:

American Council of Learned Societies	September 30, 2007	September 30, 2006
Building and improvements	\$ 4,716,861	\$ 4,716,861
Equipment	587,284	558,272
Furniture and fixtures	232,382	232,382
	5,536,527	5,507,515
Less: accumulated depreciation	(1,371,313)	(1,115,686)
	\$ 4,165,214	\$ 4,391,829

Depreciation expense for fiscal-years 2007 and 2006 was \$255,627 and \$253,441, respectively.

NOTE D – FELLOWSHIPS PAYABLE

Fellowships and stipends are awarded to institutions and individuals for the advancement of humanistic studies in all fields of learning. It is the Council's policy, in conjunction with grant agreements, to allow recipients to choose when payments of awards are to be received. Fellowships and stipends are usually paid over a period of one to three years.

The Council records the expense and commitment of these fellowships and stipends when the awards are approved by the Council and accepted by the recipient. Fellowships and stipends are estimated to be paid as follows:

Year Ending September 30,	Amount
2008	\$2,578,393
2009	240,500
2010	1,965,333
	\$4,784,226

During fiscal-years 2007 and 2006, the Council awarded fellowships and stipends of \$10,465,136 and \$7,320,916, respectively.

NOTE E – NEW YORK CITY INDUSTRIAL DEVELOPMENT AGENCY BONDS

To finance the acquisition of office space to be used as the Council's place of operations, in August 2002, the Council borrowed \$5,000,000 through the issuance by the New York City Industrial Development Agency ("IDA") of Civic Facility Revenue Bonds, Series 2002 (the "Bonds"). The Series 2002 bonds, in an aggregate original face amount of \$5,000,000, mature on July 1, 2027 and bear interest at 5.250%. The bonds may be redeemed by IDA or the Council at any time after July 1, 2012. The bond indenture

NOTES TO FINANCIAL STATEMENTS CONTINUED

American Council of Learned Societies, September 30, 2007 and 2006

requires the Council to make annual sinking fund payments in amounts sufficient to permit the redemption of principal upon maturity. Sinking fund payments began on July 1, 2003 and are required every July 1 thereafter until July 1, 2027, as summarized below:

Year Ending September 30,	Amount
2008	\$ 131,250
2009	137,500
2010	146,250
2011	152,500
2012	162,500
Thereafter	3,702,500
	<u>\$4,432,500</u>

In connection with the issuance of the Bonds, the Council leased its properties to the IDA for the duration of the debt, for a nominal rental, and concurrently leased the property back from IDA for the same period at a rental equal to annual debt service. The Council guarantees payment of rent under the lease agreement. Pursuant to the lease, the Council is required to maintain a Debt Service Reserve Fund. As of September 30, 2007, \$567,500 had been paid to the Debt Service Reserve Fund.

NOTE F – TEMPORARILY RESTRICTED NET ASSETS

During each fiscal year, the changes in temporarily restricted net assets were as follows:

NOTE H – RETIREMENT PLAN

For its eligible employees, the Council provides retirement benefits under a defined-contribution pension plan with the Teachers Insurance and Annuity Association of America. The Council contributes a minimum of 5% of each eligible employee's salary, as well as matches employee contributions up to a maximum of 5% of each eligible employee's salary. Contributions for fiscal-years 2007 and 2006 were \$179,314 and \$171,290, respectively.

NOTE I – POSTRETIREMENT MEDICAL BENEFIT PLAN

The Council sponsors an unfunded, non-contributory defined-benefit postretirement medical plan that covers employees hired prior to February 1, 1995.

Effective for fiscal-year 2007, the Council has adopted the provisions of the Financial Accounting Standards Board's Statement on Financial Accounting Standards (SFAS) No. 158 "Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans," an amendment of previously issued authoritative employee-benefit accounting pronouncements. SFAS No. 158 requires the recognition of an asset or liability for the "funded status" of the plan, measured as the difference between the projected benefit obligation and the fair value of the plan's assets.

NOTES TO FINANCIAL STATEMENTS CONTINUED

American Council of Learned Societies, September 30, 2007 and 2006

The following sets forth the plan's funded status as of each fiscal year-end, reconciled with amounts reported in the Council's financial statements:

American Council of Learned Societies	September 30, 2007	September 30, 2006
Actuarial present value of benefit obligations:		
Expected benefit obligation	\$1,196,646	\$ 948,728
Accumulated postretirement benefit obligation	\$1,120,452	\$ 871,108
Plan assets		
Accumulated benefit obligation in excess of plan assets	1,120,452	871,108
Unrecognized transition amount	(201,142)	(226,284)
Unrecognized net loss	(385,521)	(193,799)
Accrued postretirement benefit cost	\$ 533,789	\$ 451,025
Net periodic postretirement medical benefit costs included the following components:		
Service cost	\$ 12,603	\$ 11,070
Interest cost	66,059	49,557
Transition obligation amortization	25,142	25,142
Net loss amortization	47,942	14,899
Net periodic postretirement benefit cost	\$ 151,746	\$ 100,668

The discount rate used to measure the accumulated postretirement benefit obligation was 6.25% and 6.0% for fiscal-years 2007 and 2006, respectively. The medical cost-trend rate was approximately 5.0% and 5.5% for fiscal-years 2007 and 2006, respectively, which will decrease to a rate in 2012 of approximately 5.0%.

A one percentage-point increase in the assumed health-care cost-trend rates for each year would have resulted in an increase in the accumulated postretirement benefit obligation as of September 30, 2007 of \$75,469 and an increase in the aggregate cost components of net period postretirement benefit cost of \$6,278.

Employer contributions and benefits paid were \$68,982 and \$64,416 for fiscal-years 2007 and 2006, respectively. The estimated amount of the Council's contributions for fiscal-year 2008 is \$88,900.

The following table illustrates the benefit distributions that would be paid over the next 10 fiscal years:

Year Ended September 30,	Expected Benefit Distributions
2008	\$ 88,900
2009	91,000
2010	95,800
2011	95,200
2012	89,000
2013–2017	446,900

NOTE J – CONCENTRATION OF CREDIT RISK

The Council places its temporary cash investments with high-credit-quality financial institutions in amounts which, at times, may exceed federally insured limits. Management believes that the Council is not subject to a significant risk of loss relating to the failure of these institutions.

NOTE K – CONTINGENCY

U.S. government grants are subject to audit in the future by governmental authorities. Accordingly, the Council could be required to fund any disallowed costs for its own federally supported programs, as well as for the Council for the International Exchange of Scholars during the period of the Council's stewardship. In management's opinion, any such audits would not result in disallowed costs in amounts that would be significant to the Council's operations.

The Council is subject to litigation in the routine course of conducting business. In management's opinion, however, there is no current litigation, the outcome of which would have a material adverse impact on the Council's financial position.
