The National Center for Education Statistics (NCES) is the primary federal entity for collecting, analyzing, and reporting data related to education in the United States and other nations. It fulfills a congressional mandate to collect, collate, analyze, and report full and complete statistics on the condition of education in the United States; conduct and publish reports and specialized analyses of the meaning and significance of such statistics; assist state and local education agencies in improving their statistical systems; and review and report on education activities in foreign countries.

NCES activities are designed to address high-priority education data needs; provide consistent, reliable, complete, and accurate indicators of education status and trends; and report timely, useful, and high-quality data to the U.S. Department of Education, the Congress, the states, other education policymakers, practitioners, data users, and the general public. Unless specifically noted, all information contained herein is in the public domain.

We strive to make our products available in a variety of formats and in language that is appropriate to a variety of audiences. You, as our customer, are the best judge of our success in communicating information effectively. If you have any comments or suggestions about this or any other NCES product or report, we would like to hear from you. Please direct your comments to

# FOREWORD

The 2010 edition of the *Digest of Education Statistics* is the 46th in a series of publications initiated in 1962. The *Digest* has been issued annually except for combined editions for the years 1977–78, 1983–84, and 1985–86. Its primary purpose is to provide a compilation of statistical information covering the broad field of American education from prekindergarten through graduate school. The *Digest* includes a selection of data from many sources, both government and private, and draws especially on the results of surveys and activities carried out by the National Center for Education Statistics (NCES). To qualify for inclusion in the *Digest*, material must be nationwide in scope and of current interest and value. The publication contains information on a variety of subjects in the field of education statistics, including the number of schools and colleges, teachers, enrollments, and graduates, in addition to data on educational attainment, finances, federal funds for education, libraries, and international comparisons. Supplemental information on population trends, attitudes on education, education characteristics of the labor force, government finances, and economic trends provides background for evaluating education data. Although the *Digest* contains important information on federal education funding, more detailed information on federal activities is available from federal education program offices.

The *Digest* contains seven chapters: All Levels of Education, Elementary and Secondary Education, Postsecondary Education, Federal Programs for Education and Related Activities, Outcomes of Education, International Comparisons of Education, and Libraries and Adult Education. Preceding these chapters is an Introduction that provides a brief overview of current trends in American education, which supplements the tabular materials in chapters 1 through 7. The *Digest* concludes with three appendixes. The first appendix, Guide to Sources, provides a brief synopsis of the

surveys used to generate the *Digest* tables; the second, Definitions, is included to help readers understand terms used in the *Digest*; and the third, Index of Table Numbers, allows readers to quickly locate tables on specific topics.

In addition to updating many of the statistics that have appeared in previous years, this edition contains new material, including

- children’s reading, mathematics, and fine motor scale scores at kindergarten entry, by age of child and selected characteristics (table 121);
- average number of Carnegie units earned by high school graduates in advanced mathematics and advanced science and engineering courses, and percentage distribution of graduates by number of units earned, by selected student and school characteristics (table 160);
- total fall enrollment in private for-profit degree-granting institutions, by attendance status, sex, and state or jurisdiction (table 222);
- retention of first-time degree-seeking undergraduates at degree-granting institutions, by attendance status, control, and type of institution (table 342);
- percentage of the population 25 to 64 years old who completed high school, by age group and country (table 420); and
- percentage of the population 25 to 64 years old who attained selected levels of postsecondary education, by age group and country (table 421).

The *Digest* can be accessed from <http://nces.ed.gov/programs/digest>.

## List of Figures

Figure	Page
1. The structure of education in the United States . . . . .	11
2. Enrollment, total expenditures in constant dollars, and expenditures as a percentage of the gross domestic product (GDP), by level of education: Selected years, 1965–66 through 2009–10 . . . . .	12
3. Percentage of persons 25 years old and over, by highest level of educational attainment: Selected years, 1940 through 2010. . . . .	13
4. Percentage of persons 25 through 29 years old, by highest level of educational attainment: Selected years, 1940 through 2010. . . . .	13
5. Highest level of education attained by persons 25 years old and over: March 2010. . . . .	14
6. Enrollment, number of teachers, pupil/teacher ratio, and expenditures in public schools: 1960–61 through 2008–09. . . . .	65
7. Total and full-day preprimary enrollment of 3- to 5-year-olds: October 1970 through October 2009 . . . . .	66
8. Percentage change in public elementary and secondary enrollment, by state: Fall 2003 to fall 2008 . . . . .	66
9. Percentage of revenue for public elementary and secondary schools, by source of funds: 1970–71 through 2007–08. . . . .	67
10. Current expenditure per pupil in fall enrollment in public elementary and secondary schools: 1970–71 through 2007–08. . . . .	67
11. Enrollment, degrees conferred, and expenditures in degree-granting institutions: Fall 1960 through fall 2009 and 1960–61 through 2009–10. . . . .	285
12. Percentage change in total enrollment in degree-granting institutions, by state: Fall 2003 to fall 2008 . . . . .	286
13. Enrollment in degree-granting institutions, by age: Fall 1970 through fall 2019. . . . .	286
14. Ratio of full-time-equivalent (FTE) students to total FTE staff and to FTE faculty, by control of institution: 1999 and 2009. . . . .	287
15. Bachelor's degrees conferred by degree-granting institutions in selected fields of study: 1998–99, 2003–04, and 2008–09. . . . .	287
16. Percentage distribution of total revenues of public degree-granting institutions, by source of funds: 2008–09. . . . .	288
17. Revenue per full-time-equivalent (FTE) student at private not-for-profit degree-granting institutions, by source of funds: 1999–2000 and 2008–09 . . . . .	288
18. Federal on-budget funds for education, by level or other educational purpose: Selected years, 1965 through 2010 . . . . .	545
19. Percentage of federal on-budget funds for education, by agency: Fiscal year 2009. . . . .	546
20. Percentage of U.S. Department of Education outlays, by type of recipient: Fiscal year 2010 . . . . .	546
21. Labor force participation rate of persons 20 to 64 years old, by age group and highest level of educational attainment: 2009 . . . . .	564
22. Unemployment rates of persons 25 years old and over, by highest level of educational attainment: 2009 . . . . .	565
23. Labor force status of 2008–09 high school dropouts and completers not enrolled in college: October 2009. . . . .	565
24. Median annual earnings of full-time year-round workers 25 years old and over, by highest level of educational attainment and sex: 2009 . . . . .	566
25. Average salaries of bachelor's degree recipients 1 year after graduation, by field: 1981, 1991, and 2001 . . . . .	566
26. Percentage change in enrollment, by major areas of the world and level of education: 2000 to 2008. . . . .	590
27. Bachelor's degree recipients as a percentage of the population of the typical ages of graduation, by country: 2007. . . . .	591
28. Public direct expenditures on education as a percentage of the gross domestic product (GDP), by country: 2007 . . . . .	591

## List of Text Tables

<b>Table</b>	<b>Page</b>
A. Total elementary and secondary school enrollment, by overall trends: Selected years, 1949–50 to fall 2009 . . . . .	10
B. Number of public school staff, by selected categories: 1969–70, 1980, and 2008 . . . . .	60
C. Postsecondary students denied access to Title IV financial aid because eligibility was suspended due to a drug-related conviction: 2009–10. . . . .	284
D. Federal on-budget funding for education, by category: Selected fiscal years, 1965 through 2009 . . . . .	537
E. Median annual earnings of full-time year-round workers 25 years old and over, by selected levels of educational attainment and sex: Selected years, 1995 through 2009 . . . . .	564
F. Population and enrollment at different levels in major areas of the world: 2000 and 2008 . . . . .	588

## List of Reference Tables

### Chapter 1. All Levels of Education

#### *Enrollment, Teachers, and Schools*

Table	Page
1. Projected number of participants in educational institutions by level and control of institution: Fall 2010 . . . . .	15
2. Enrollment in educational institutions, by level and control of institution: Selected years, fall 1980 through fall 2010 . . . . .	15
3. Enrollment in educational institutions, by level and control of institution: Selected years, 1869–70 through fall 2019 . . . . .	16
4. Number of teachers in elementary and secondary schools, and instructional staff in postsecondary degree-granting institutions, by control of institution: Selected years, fall 1970 through fall 2019. . . . .	18
5. Number of educational institutions, by level and control of institution: Selected years, 1980–81 through 2008–09 . . . . .	19

#### *Enrollment Rates*

6. Percentage of the population 3 to 34 years old enrolled in school, by sex, race/ethnicity, and age: Selected years, 1980 through 2009 . . . . .	20
7. Percentage of the population 3 to 34 years old enrolled in school, by age group: Selected years, 1940 through 2009 . . . . .	22

#### *Educational Attainment*

8. Percentage of persons age 25 and over and 25 to 29, by race/ethnicity, years of school completed, and sex: Selected years, 1910 through 2010 . . . . .	24
9. Number of persons age 18 and over, by highest level of education attained, age, sex, and race/ethnicity: 2010 . . . . .	26
10. Persons age 18 and over who hold at least a bachelor's degree in specific fields of study, by sex, race/ethnicity, and age: 2001 . . . . .	28
11. Educational attainment of persons 18 years old and over, by state: 2000 and 2006–08. . . . .	29
12. Educational attainment of persons 25 years old and over, by race/ethnicity and state: 2006–08 . . . . .	30
13. Educational attainment of persons 25 years old and over, by sex and state: 2006–08 . . . . .	32
14. Educational attainment of persons 25 years old and over for metropolitan areas with more than 1 million persons, by sex: 2010 . . . . .	33

#### *Computer and Internet Use*

15. Use of the Internet by persons 3 years old and over, by type of use and selected characteristics of students and other users: 2003 . . . . .	34
16. Number and percentage of persons 3 years old and over using the Internet and percentage distribution by means of internet access from home and main reason for not having high-speed access, by selected characteristics of students and other users: 2009 . . . . .	36
17. Number and percentage of home computer users, by type of application and selected characteristics: 1997 and 2003 . . . . .	38
18. Number and percentage of student home computer users, by type of application and selected characteristics: 2003 . . . . .	39
19. Student use of computers, by level of enrollment, age, and student and school characteristics: 1993, 1997, and 2003 . . . . .	40

**Population**

20. Estimates of resident population, by age group: 1970 through 2010 . . . . .	42
21. Estimates of resident population, by race/ethnicity and age group: Selected years, 1980 through 2010 . . . . .	43
22. Estimated total and school-age resident populations, by state: Selected years, 1970 through 2009 . . . . .	44

**Characteristics of Families With Children**

23. Number and percentage distribution of family households, by family structure and presence of own children under 18: Selected years, 1970 through 2009 . . . . .	45
24. Number and percentage of family households with own children under 18, by age and number of children, race/ethnicity, and family structure: 2009 . . . . .	46
25. Median household income, by state: Selected years, 1990 through 2009 . . . . .	47
26. Poverty rates for all persons and poverty status of 5- to 17-year-olds, by state: Selected years, 1990 through 2009 . . . . .	48
27. Poverty status of all persons, persons in families, and related children under age 18, by race/ethnicity: Selected years, 1959 through 2009 . . . . .	49

**Finances**

28. Expenditures of educational institutions related to the gross domestic product, by level of institution: Selected years, 1929–30 through 2009–10 . . . . .	52
29. Expenditures of educational institutions, by level and control of institution: Selected years, 1899–1900 through 2009–10 . . . . .	53
30. Amount and percentage distribution of direct general expenditures of state and local governments, by function: Selected years, 1970–71 through 2007–08 . . . . .	54
31. Direct general expenditures of state and local governments for all functions and for education, by level of education and state: 2006–07 and 2007–08 . . . . .	55
32. Direct general expenditures per capita of state and local governments for all functions and for education, by level of education and state: 2006–07 and 2007–08 . . . . .	56
33. Gross domestic product, state and local expenditures, personal income, disposable personal income, median family income, and population: Selected years, 1929 through 2009 . . . . .	57
34. Gross domestic product price index, Consumer Price Index, education price indexes, and federal budget composite deflator: Selected years, 1919 through 2009 . . . . .	58

**Chapter 2. Elementary and Secondary Education****Enrollment**

35. Historical summary of public elementary and secondary school statistics: Selected years, 1869–70 through 2007–08 . . . . .	68
36. Enrollment in public elementary and secondary schools, by state or jurisdiction: Selected years, fall 1990 through fall 2010 . . . . .	70
37. Enrollment in public elementary and secondary schools, by level, grade, and state or jurisdiction: Fall 2008 . . . . .	72
38. Enrollment in public elementary and secondary schools, by level, grade, and state or jurisdiction: Fall 2007 . . . . .	74
39. Enrollment in public elementary and secondary schools, by level and grade: Selected years, fall 1980 through fall 2008 . . . . .	76
40. Number and percentage of homeschooled students ages 5 through 17 with a grade equivalent of kindergarten through 12th grade, by selected child, parent, and household characteristics: 1999, 2003, and 2007 . . . . .	77

41.	Percentage distribution of students ages 5 through 17 attending kindergarten through 12th grade, by school type or participation in homeschooling and selected child, parent, and household characteristics: 1999, 2003, and 2007 . . . . .	78
42.	Average daily attendance in public elementary and secondary schools, by state or jurisdiction: Selected years, 1969–70 through 2007–08 . . . . .	79
43.	Percentage distribution of enrollment in public elementary and secondary schools, by race/ethnicity and state or jurisdiction: Fall 1998 and fall 2008 . . . . .	80
44.	Number and percentage of public school students eligible for free or reduced-price lunch, by state: Selected years, 2000–01 through 2008–09 . . . . .	81
45.	Children 3 to 21 years old served under Individuals with Disabilities Education Act, Part B, by type of disability: Selected years, 1976–77 through 2008–09 . . . . .	82
46.	Percentage distribution of students 6 to 21 years old served under Individuals with Disabilities Education Act, Part B, by educational environment and type of disability: Selected years, fall 1989 through fall 2008 . . . . .	83
47.	Number and percentage of children served under Individuals with Disabilities Education Act, Part B, by age group and state or jurisdiction: Selected years, 1990–91 through 2008–09 . . . . .	84
48.	Number of gifted and talented students in public elementary and secondary schools, by sex, race/ethnicity, and state: 2004 and 2006 . . . . .	85
49.	Percentage of gifted and talented students in public elementary and secondary schools, by sex, race/ethnicity, and state: 2004 and 2006 . . . . .	86
50.	Enrollment in grades 9 through 12 in public and private schools compared with population 14 to 17 years of age: Selected years, 1889–90 through fall 2010 . . . . .	87
51.	Enrollment in foreign language courses compared with enrollment in grades 9 through 12 in public secondary schools: Selected years, fall 1948 through fall 2000 . . . . .	88

***Enrollment Status and Child Care Arrangements of Young Children***

52.	Enrollment of 3-, 4-, and 5-year-old children in preprimary programs, by level of program, control of program, and attendance status: Selected years, 1965 through 2009 . . . . .	89
53.	Number of children under 6 years old and not yet enrolled in kindergarten, percentage in center-based programs, average weekly hours in nonparental care, and percentage in various types of primary care arrangements, by selected child and family characteristics: 2005 . . . . .	90
54.	Child care arrangements of 3- to 5-year-old children who are not yet in kindergarten, by age and race/ethnicity: Various years, 1991 through 2005 . . . . .	91
55.	Percentage distribution of children at about 2 and 4 years of age, by type of child care arrangement and selected child and family characteristics: 2003–04 and 2005–06 . . . . .	92
56.	Percentage distribution of quality rating of child care arrangements of children at about 4 years of age, by type of arrangement and selected child and family characteristics: 2005–06 . . . . .	93
57.	Children of prekindergarten through second-grade age, by enrollment status, selected maternal characteristics, and household income: 1995, 2001, and 2005 . . . . .	94

***Parent Involvement in Education***

58.	Number of 3- to 5-year-olds not yet enrolled in kindergarten and percentage participating in home literacy activities with a family member, by type and frequency of activity and selected child and family characteristics: 1993, 2001, and 2007 . . . . .	95
59.	Percentage of kindergartners through fifth-graders whose parents reported doing education-related activities with their children in the past month, by selected child, parent, and school characteristics: 1999, 2003, and 2007 . . . . .	96
60.	Percentage of kindergartners through fifth-graders whose parents reported doing education-related activities with their children in the past week, by selected child, parent, and school characteristics: 1999, 2003, and 2007 . . . . .	97
61.	Percentage of elementary and secondary school children whose parents were involved in school activities, by selected child, parent, and school characteristics: 1999, 2003, and 2007 . . . . .	98

**Private Elementary and Secondary Schools**

62.	Number and percentage distribution of private elementary and secondary students, teachers, and schools, by orientation of school and selected school and student characteristics: Fall 2007. . . .	99
63.	Private elementary and secondary enrollment, number of schools, and average tuition, by school level, orientation, and tuition: 1999–2000, 2003–04, and 2007–08 . . . . .	100
64.	Private elementary and secondary school full-time-equivalent staff and student to full-time-equivalent staff ratios, by orientation of school, school level, and type of staff: 2007–08 . . . . .	101
65.	Enrollment and instructional staff in Catholic elementary and secondary schools, by level: Selected years, 1919–20 through 2009–10 . . . . .	103
66.	Private elementary and secondary schools, enrollment, teachers, and high school graduates, by state: Selected years, 1997 through 2007 . . . . .	104

**Teachers and Other Staff**

67.	Public elementary and secondary pupil/teacher ratios, by school size, type, percentage of students eligible for free or reduced-price lunch, locale, and level of school: Fall 1988 through fall 2008. . .	105
68.	Public and private elementary and secondary teachers, enrollment, and pupil/teacher ratios: Selected years, fall 1955 through fall 2019 . . . . .	107
69.	Public elementary and secondary teachers, by level and state or jurisdiction: Selected years, fall 2000 through fall 2008 . . . . .	108
70.	Teachers, enrollment, and pupil/teacher ratios in public elementary and secondary schools, by state or jurisdiction: Selected years, fall 2000 through fall 2008 . . . . .	109
71.	Highest degree earned, years of full-time teaching experience, and average class size for teachers in public elementary and secondary schools, by state: 2007–08. . . . .	110
72.	Highest degree earned and years of full-time teaching experience for teachers in public and private elementary and secondary schools, by selected teacher characteristics: 1999–2000, 2003–04, and 2007–08 . . . . .	111
73.	Selected characteristics of public school teachers: Selected years, spring 1961 through spring 2006 . .	113
74.	Percentage of public school teachers of grades 9 through 12, by field of main teaching assignment and selected demographic and educational characteristics: 2007–08. . . . .	114
75.	Percentage of teachers indicating that certain issues are serious problems in their schools and that certain problems occur daily, by level and control of school: Selected years 1987–88 through 2007–08 . . . . .	115
76.	Teachers' perceptions about teaching and school conditions, by control and level of school: Selected years, 1993–94 through 2007–08. . . . .	116
77.	Mobility of public and private elementary and secondary teachers, by selected teacher and school characteristics: Selected years, 1987–88 through 2008–09 . . . . .	117
78.	Average base salary for full-time teachers in public elementary and secondary schools, by highest degree earned and years of full-time teaching: Selected years, 1990–91 through 2007–08. . . .	118
79.	Average salaries for full-time teachers in public and private elementary and secondary schools, by selected characteristics: 2007–08 . . . . .	120
80.	Average base salary for full-time public elementary and secondary school teachers with a bachelor's degree as their highest degree, by years of full-time teaching experience and state: 1993–94, 1999–2000, 2003–04, and 2007–08 . . . . .	122
81.	Average base salary for full-time public elementary and secondary school teachers with a master's degree as their highest degree, by years of full-time teaching experience and state: 1993–94, 1999–2000, 2003–04, and 2007–08 . . . . .	123
82.	Estimated average annual salary of teachers in public elementary and secondary schools: Selected years, 1959–60 through 2009–10. . . . .	124
83.	Estimated average annual salary of teachers in public elementary and secondary schools, by state or jurisdiction: Selected years, 1969–70 through 2009–10 . . . . .	125
84.	Staff employed in public elementary and secondary school systems, by functional area: Selected years, 1949–50 through fall 2008 . . . . .	126

85.	Staff employed in public elementary and secondary school systems, by type of assignment and state or jurisdiction: Fall 2008 . . . . .	127
86.	Staff employed in public elementary and secondary school systems, by type of assignment and state or jurisdiction: Fall 2007 . . . . .	128
87.	Staff and teachers in public elementary and secondary school systems, by state or jurisdiction: Fall 2000 through fall 2008 . . . . .	129
88.	Staff, enrollment, and pupil/staff ratios in public elementary and secondary school systems, by state or jurisdiction: Selected years, Fall 2000 through fall 2008. . . . .	130
89.	Number, highest degree, experience, and salaries of principals in public and private elementary and secondary schools, by selected characteristics: 1993–94, 2003–04, and 2007–08 . . . . .	131

**Schools and School Districts**

90.	Number of public school districts and public and private elementary and secondary schools: Selected years, 1869–70 through 2008–09 . . . . .	132
91.	Number and enrollment of regular public school districts, by enrollment size of district: Selected years, 1979–80 through 2008–09 . . . . .	133
92.	Number of public elementary and secondary education agencies, by type of agency and state or jurisdiction: 2007–08 and 2008–09 . . . . .	134
93.	Public elementary and secondary students, schools, pupil/teacher ratios, and finances, by type of locale: 2007–08 and 2008–09 . . . . .	135
94.	Selected statistics on enrollment, teachers, dropouts, and graduates in public school districts enrolling more than 15,000 students: 1990, 2000, 2006–07, and 2008. . . . .	137
95.	Revenues, expenditures, poverty rate, and Title I allocations of public school districts enrolling more than 15,000 students: 2007–08 and fiscal year 2010 . . . . .	148
96.	Enrollment, poverty, and federal funds for the 100 largest school districts, by enrollment size in 2008: Fall 2008, 2007–08, and federal fiscal year 2010 . . . . .	159
97.	Public elementary and secondary schools, by type of school: Selected years, 1967–68 through 2008–09 . . . . .	162
98.	Number and percentage distribution of public elementary and secondary schools and enrollment, by type and enrollment size of school: 2006–07, 2007–08, and 2008–09 . . . . .	163
99.	Average enrollment and percentage distribution of public elementary and secondary schools, by type and size: Selected years, 1982–83 through 2008–09 . . . . .	164
100.	Number and enrollment of public elementary and secondary schools, by school type, level, and charter and magnet status: Selected years, 1990–91 through 2008–09 . . . . .	165
101.	Public elementary and secondary school students, by racial/ethnic enrollment concentration of school: Fall 1995, fall 2000, and fall 2008 . . . . .	166
102.	Public elementary and secondary schools, by type and state or jurisdiction: 1990–91, 2000–01, and 2008–09 . . . . .	167
103.	Public elementary schools, by grade span, average school size, and state or jurisdiction: 2008–09 . . . . .	168
104.	Public secondary schools, by grade span, average school size, and state or jurisdiction: 2008–09 . . . . .	169
105.	Number and enrollment of traditional public and public charter elementary and secondary schools and percentages of students, teachers, and schools, by selected characteristics: 2007–08. . . . .	170
106.	Percentage of public schools with permanent and portable (temporary) buildings and with environmental factors that interfere with instruction in classrooms, by selected school characteristics, type of factor, and extent of interference: 2005 . . . . .	172
107.	Percentage of public schools with enrollment under, at, or over capacity, by selected school characteristics: 1999 and 2005 . . . . .	172

**Computers and Technology**

- |      |  |     |
|------|--|-----|
| 108. | Number and internet access of instructional computers and rooms in public schools, by selected school characteristics: Selected years, 1995 through 2008. . . . .  | 173 |
| 109. | Percentage of public school districts and schools with students enrolled in technology-based distance education courses and number of enrollments in such courses, by instructional level and district characteristics: 2002–03 and 2004–05. . . . . | 174 |

**High School Completers and Dropouts**

- |      |   |     |
|------|---|-----|
| 110. | High school graduates, by sex and control of school: Selected years, 1869–70 through 2019–20 . . .  | 175 |
| 111. | Public high school graduates, by state or jurisdiction: Selected years, 1980–81 through 2008–09 . . .   | 176 |
| 112. | Averaged freshman graduation rates for public secondary schools, by state or jurisdiction: Selected years, 1990–91 through 2007–08. . . . .   | 177 |
| 113. | Public high school graduates and dropouts, by race/ethnicity and state or jurisdiction: 2007–08 . .   | 178 |
| 114. | General Educational Development (GED) test takers and test passers, by age: 1971 through 2009 .   | 179 |
| 115. | Percentage of high school dropouts among persons 16 through 24 years old (status dropout rate), by sex and race/ethnicity: Selected years, 1960 through 2009 . . . . .  | 180 |
| 116. | Percentage of high school dropouts among persons 16 through 24 years old (status dropout rate), by income level, and percentage distribution of status dropouts, by labor force status and educational attainment: 1970 through 2009. . . . .     | 181 |
| 117. | Number of 14- through 21-year-old students served under Individuals with Disabilities Education Act, Part B, who exited school, by exit reason, age, and type of disability: United States and other jurisdictions, 2006–07 and 2007–08 . . . . . | 182 |

**Educational Achievement**

- |      |   |     |
|------|---|-----|
| 118. | Percentage of children demonstrating specific cognitive and motor skills at about 9 months of age, by child's age and selected characteristics: 2001–02 . . . . .   | 183 |
| 119. | Percentage of children demonstrating specific cognitive skills, motor skills, and secure emotional attachment to parents at about 2 years of age, by selected characteristics: 2003–04 . . . . .  | 185 |
| 120. | Children's reading, language, mathematics, color knowledge, and fine motor skills at about 4 years of age, by age of child and selected characteristics: 2005–06 . . . . .  | 187 |
| 121. | Children's reading, mathematics, and fine motor scale scores at kindergarten entry, by age of child and selected characteristics: 2006–07 and 2007–08. . . . .  | 188 |
| 122. | Mean reading scale scores and specific reading skills of fall 1998 first-time kindergartners, by time of assessment and selected characteristics: Selected years, fall 1998 through spring 2007 . . . .   | 189 |
| 123. | Mean mathematics and science scale scores and specific mathematics skills of fall 1998 first-time kindergartners, by time of assessment and selected characteristics: Selected years, fall 1998 through spring 2007. . . . .                          | 190 |
| 124. | Average reading scale score, by age and selected student and school characteristics: Selected years, 1971 through 2008 . . . . .  | 191 |
| 125. | Average reading scale score and standard deviation, by sex, grade, race/ethnicity, and percentile: Selected years, 1992 through 2009. . . . .   | 192 |
| 126. | Average reading scale score, by grade and selected student and school characteristics: Selected years, 1992 through 2009 . . . . .  | 193 |
| 127. | Average reading scale scores and percentage distribution of 9-, 13-, and 17-year-olds, by amount of reading for school, frequency of reading for fun, and time spent doing homework and watching TV/video: Selected years, 1984 through 2008. . . . . | 194 |
| 128. | Percentage of students at or above selected reading score levels, by age, sex, and race/ethnicity: Selected years, 1971 through 2008. . . . .   | 195 |
| 129. | Average reading scale score and percentage of 4th-graders in public schools attaining reading achievement levels, by race/ethnicity and state or jurisdiction: Selected years, 1992 through 2009 . .  | 196 |
| 130. | Average reading scale score and percentage of 8th-graders in public schools attaining reading achievement levels, by locale and state or jurisdiction: Selected years, 2003 through 2009 . . . .  | 198 |

131.	Average reading scale scores of 4th- and 8th-grade public school students and percentage at or above selected reading achievement levels, by race/ethnicity and jurisdiction or specific urban district: 2007 and 2009 . . . . .	199
132.	Average reading scale scores of 4th- and 8th-graders in public schools and percentage scoring at or above selected reading achievement levels, by English language learner (ELL) status and state or jurisdiction: 2009 . . . . .	200
133.	Average writing scale score and percentage of students attaining writing achievement levels, by selected student characteristics and grade level: 2002 and 2007 . . . . .	201
134.	Average arts scale score of 8th-graders, percentage distribution by frequency of instruction, and percentage participating in selected activities, by subject and selected student and school characteristics: 2008 . . . . .	202
135.	Percentage of students attaining U.S. history achievement levels, by grade level and selected student characteristics: 2001 and 2006 . . . . .	203
136.	Average U.S. history scale score, by grade level and selected student characteristics, and percentage distribution of 12th-graders, by selected student characteristics: 1994, 2001, and 2006 . . . . .	204
137.	Average civics scale score and percentage of students attaining civics achievement levels, by grade level and selected student characteristics: 1998 and 2006 . . . . .	205
138.	Average economics scale score of 12th-graders, percentage attaining economics achievement levels, and percentage with different levels of economics coursework, by selected student and school characteristics: 2006 . . . . .	206
139.	Percentage of students attaining geography achievement levels, by grade level and selected student characteristics: 2001 . . . . .	207
140.	Average mathematics scale score, by age and selected student and school characteristics: Selected years, 1973 through 2008 . . . . .	208
141.	Percentage of students at or above selected mathematics proficiency levels, by age, sex, and race/ethnicity: Selected years, 1978 through 2008 . . . . .	209
142.	Mathematics performance of 17-year-olds, by highest mathematics course taken, sex, and race/ethnicity: Selected years, 1978 through 2008 . . . . .	210
143.	Average mathematics scale score of 4th-grade public school students and percentages attaining mathematics achievement levels and having 5 or more hours of mathematics instruction per week, by state or jurisdiction: Selected years, 1992 through 2009 . . . . .	211
144.	Average mathematics scale score of 8th-grade public school students and percentage attaining mathematics achievement levels, by level of parental education and state or jurisdiction: Selected years, 1990 through 2009 . . . . .	212
145.	Average mathematics scale scores of 4th- and 8th-grade public school students and percentage at or above selected mathematics achievement levels, by race/ethnicity and jurisdiction or specific urban district: 2007 and 2009 . . . . .	214
146.	Average mathematics scale scores of 4th-, 8th-, and 12th-graders, by selected student and school characteristics: Selected years, 1990 through 2009 . . . . .	215
147.	Average mathematics scale score of 8th-graders and percentage reporting various attitudes toward mathematics work, by frequency of attitude and selected student and school characteristics: 2009 . . . . .	216
148.	Average science scale scores and percentage of 4th-, 8th-, and 12th-graders attaining science achievement levels, by selected student characteristics and percentile: 1996, 2000, and 2005 . . . . .	217
149.	Average science scale score for 8th-graders in public schools, by selected student characteristics and state or jurisdiction: 1996, 2000, and 2005 . . . . .	218
150.	Average science scale score of 12th-graders and percentage reporting various attitudes toward science, by selected student and school characteristics: 2005 . . . . .	220
151.	SAT mean scores of college-bound seniors, by race/ethnicity: Selected years, 1986–87 through 2009–10 . . . . .	221
152.	SAT mean scores of college-bound seniors, by sex: 1966–67 through 2009–10 . . . . .	222
153.	SAT mean scores of college-bound seniors, by selected student characteristics: Selected years, 1995–96 through 2009–10 . . . . .	223

154.	SAT mean scores of college-bound seniors and percentage of graduates taking SAT, by state or jurisdiction: Selected years, 1995–96 through 2009–10 . . . . .	225
155.	ACT score averages and standard deviations, by sex and race/ethnicity, and percentage of ACT test takers, by selected composite score ranges and planned fields of study: Selected years, 1995 through 2010. . . . .	226
156.	Percentage distribution of elementary and secondary school children, by average grades and selected child and school characteristics: 1996, 2003, and 2007 . . . . .	227

### ***Course-taking***

157.	Average number of Carnegie units earned by public high school graduates in various subject fields, by selected student characteristics: Selected years, 1982 through 2005 . . . . .	228
158.	Average number of Carnegie units earned by public high school graduates in career/technical education courses, by selected student characteristics: Selected years, 1982 through 2005. . . .	231
159.	Percentage of public and private high school graduates taking selected mathematics and science courses in high school, by sex and race/ethnicity: Selected years, 1982 through 2005 . . . . .	234
160.	Average number of Carnegie units and percentage distribution of high school graduates by number of units earned in advanced mathematics and advanced science and engineering courses, by selected student and school characteristics: 1990, 2000, and 2005 . . . . .	235
161.	Percentage of public and private high school graduates earning minimum credits in selected combinations of academic courses, by sex and race/ethnicity: Selected years, 1982 through 2005. .	236
162.	Public high schools that offered and students enrolled in dual credit, Advanced Placement, and International Baccalaureate courses, by school characteristics: 2003. . . . .	237

### ***Student Activities and Behavior***

163.	Percentage of high school seniors who say they engage in various activities, by selected student and school characteristics: 1992 and 2004 . . . . .	238
164.	Percentage of high school seniors who participate in various school-sponsored extracurricular activities, by selected student characteristics: 1994 and 2004 . . . . .	239
165.	Percentage of elementary and secondary school students who do homework outside of school, whose parents check that homework is done, and whose parents help with homework, by frequency and selected student and school characteristics: 2003 and 2007. . . . .	240
166.	Tenth-graders' attendance patterns, by selected student and school characteristics: 1990 and 2002. . . . .	242
167.	Percentage of schools with various security measures, by school control and selected characteristics: 2007–08 . . . . .	243
168.	Number and percentage of public schools reporting crime incidents, and number and rate of incidents, by school characteristics and type of incident: 1999–2000, 2005–06, and 2007–08. . .	244
169.	Number of students suspended and expelled from public elementary and secondary schools, by sex, race/ethnicity, and state: 2006 . . . . .	248
170.	Percentage of students suspended and expelled from public elementary and secondary schools, by sex, race/ethnicity, and state: 2006. . . . .	250
171.	Percentage of students in grades 9 through 12 who reported experience with drugs and violence on school property, by race/ethnicity, grade, and sex: Selected years, 1997 through 2009 . . . .	251
172.	Percentage of 12- to 17-year-olds reporting use of illicit drugs, alcohol, and cigarettes during the past 30 days and the past year, by substance used, sex, and race/ethnicity: Selected years, 1985 through 2008 . . . . .	252
173.	Percentage of high school seniors reporting drug use, by type of drug and reporting period: Selected years, 1975 through 2009. . . . .	253

**State Regulations**

174.	Age range for compulsory school attendance and special education services, and policies on year-round schools and kindergarten programs, by state: Selected years, 2000 through 2010 . . . . .	254
175.	Minimum amount of instructional time per year and policy on textbook selection, by state: 2000, 2006, 2008, and 2010 . . . . .	255
176.	Credit requirements and exit exam requirements for a standard high school diploma and the use of other high school completion credentials, by state: 2008 and 2010 . . . . .	256
177.	States that use criterion-referenced tests (CRTs) aligned to state standards, by subject area and level: 2006–07 . . . . .	257
178.	States using minimum-competency testing, by grade levels assessed, expected uses of standards, and state or jurisdiction: 2001–02 . . . . .	258
179.	States requiring testing for initial certification of elementary and secondary teachers, by skills or knowledge assessment and state: 2009 and 2010 . . . . .	259

**Revenues and Expenditures**

180.	Revenues for public elementary and secondary schools, by source of funds: Selected years, 1919–20 through 2007–08. . . . .	260
181.	Revenues for public elementary and secondary schools, by source and state or jurisdiction: 2007–08. . . . .	261
182.	Revenues for public elementary and secondary schools, by source and state or jurisdiction: 2006–07 . . . . .	262
183.	Summary of expenditures for public elementary and secondary education, by purpose: Selected years, 1919–20 through 2007–08 . . . . .	263
184.	Students transported at public expense and current expenditures for transportation: Selected years, 1929–30 through 2007–08 . . . . .	264
185.	Current expenditures for public elementary and secondary education, by state or jurisdiction: Selected years, 1969–70 through 2007–08 . . . . .	265
186.	Total expenditures for public elementary and secondary education, by function and state or jurisdiction: 2007–08 . . . . .	267
187.	Total expenditures for public elementary and secondary education, by function and state or jurisdiction: 2006–07 . . . . .	269
188.	Total expenditures for public elementary and secondary education, by function and subfunction: Selected years, 1990–91 through 2007–08 . . . . .	271
189.	Expenditures for instruction in public elementary and secondary schools, by subfunction and state or jurisdiction: 2006–07 and 2007–08 . . . . .	273
190.	Total and current expenditures per pupil in public elementary and secondary schools: Selected years, 1919–20 through 2007–08 . . . . .	274
191.	Total and current expenditures per pupil in fall enrollment in public elementary and secondary education, by function and state or jurisdiction: 2007–08 . . . . .	275
192.	Total and current expenditures per pupil in fall enrollment in public elementary and secondary education, by function and state or jurisdiction: 2006–07 . . . . .	276
193.	Current expenditure per pupil in fall enrollment in public elementary and secondary schools, by state or jurisdiction: Selected years, 1969–70 through 2007–08 . . . . .	277
194.	Current expenditure per pupil in average daily attendance in public elementary and secondary schools, by state or jurisdiction: Selected years, 1959–60 through 2007–08 . . . . .	279

**Chapter 3. Postsecondary Education****Enrollment**

195.	Enrollment, staff, and degrees conferred in postsecondary institutions participating in Title IV programs, by type and control of institution, sex of student, type of staff, and type of degree: Fall 2008, fall 2009, and 2008–09 . . . . .	289
196.	Historical summary of faculty, students, degrees, and finances in degree-granting institutions: Selected years, 1869–70 through 2008–09 . . . . .	290
197.	Total fall enrollment in degree-granting institutions, by attendance status, sex of student, and control of institution: Selected years, 1947 through 2009 . . . . .	291
198.	Total fall enrollment in degree-granting institutions, by control and type of institution: 1963 through 2009 . . . . .	292
199.	Total fall enrollment in degree-granting institutions, by sex, age, and attendance status: Selected years, 1970 through 2019 . . . . .	293
200.	Total fall enrollment in degree-granting institutions, by level of enrollment, sex, age, and attendance status of student: 2007 and 2009 . . . . .	294
201.	Total fall enrollment in degree-granting institutions, by control and type of institution, age, and attendance status of student: 2009 . . . . .	295
202.	Total fall enrollment in degree-granting institutions, by level of enrollment, sex, attendance status, and type and control of institution: 2009 . . . . .	296
203.	Total fall enrollment in degree-granting institutions, by level of enrollment, sex, attendance status, and type and control of institution: 2008 . . . . .	297
204.	Total fall enrollment in degree-granting institutions, by attendance status, sex of student, and type and control of institution: Selected years, 1970 through 2009 . . . . .	298
205.	Fall enrollment and number of degree-granting institutions, by control and affiliation of institution: Selected years, 1980 through 2009 . . . . .	299
206.	Total first-time freshmen fall enrollment in degree-granting institutions, by attendance status, sex of student, and type and control of institution: 1955 through 2009 . . . . .	301
207.	Total first-time freshmen fall enrollment in degree-granting institutions, by attendance status, sex, control of institution, and state or jurisdiction: Selected years, 2000 through 2009 . . . . .	302
208.	Recent high school completers and their enrollment in college, by sex: 1960 through 2009 . . . . .	303
209.	Recent high school completers and their enrollment in college, by race/ethnicity: 1960 through 2009 . . . . .	304
210.	Graduation rates of previous year's 12th-graders and college attendance rates of those who graduated, by selected high school characteristics: 1999–2000, 2003–04, and 2007–08 . . . . .	306
211.	Estimated rate of 2007–08 high school graduates attending degree-granting institutions, by state: 2008 . . . . .	307
212.	Enrollment rates of 18- to 24-year-olds in degree-granting institutions, by type of institution and sex and race/ethnicity of student: 1967 through 2009 . . . . .	308
213.	Total undergraduate fall enrollment in degree-granting institutions, by attendance status, sex of student, and control of institution: 1967 through 2009 . . . . .	309
214.	Total postbaccalaureate fall enrollment in degree-granting institutions, by attendance status, sex of student, and control of institution: 1967 through 2009 . . . . .	310
215.	Total fall enrollment in degree-granting institutions, by state or jurisdiction: Selected years, 1970 through 2008 . . . . .	311
216.	Total fall enrollment in public degree-granting institutions, by state or jurisdiction: Selected years, 1970 through 2008 . . . . .	312
217.	Total fall enrollment in private degree-granting institutions, by state or jurisdiction: Selected years, 1970 through 2008 . . . . .	313
218.	Total fall enrollment in degree-granting institutions, by attendance status, sex, and state or jurisdiction: 2007 and 2008 . . . . .	314
219.	Total fall enrollment in public degree-granting institutions, by attendance status, sex, and state or jurisdiction: 2007 and 2008 . . . . .	315

220.	Total fall enrollment in private degree-granting institutions, by attendance status, sex, and state or jurisdiction: 2007 and 2008 . . . . .	316
221.	Total fall enrollment in private not-for-profit degree-granting institutions, by attendance status, sex, and state or jurisdiction: 2007 and 2008 . . . . .	317
222.	Total fall enrollment in private for-profit degree-granting institutions, by attendance status, sex, and state or jurisdiction: 2007 and 2008 . . . . .	318
223.	Total fall enrollment in degree-granting institutions, by control and type of institution and state or jurisdiction: 2007 and 2008 . . . . .	319
224.	Total fall enrollment in degree-granting institutions, by level of enrollment and state or jurisdiction: Selected years, 2000 through 2008 . . . . .	320
225.	Total fall enrollment in degree-granting institutions, by control, level of enrollment, type of institution, and state or jurisdiction: 2008 . . . . .	321
226.	Full-time-equivalent fall enrollment in degree-granting institutions, by control and type of institution: 1967 through 2009 . . . . .	322
227.	Full-time-equivalent fall enrollment in degree-granting institutions, by control and type of institution and state or jurisdiction: 2000, 2007, and 2008 . . . . .	323
228.	Full-time-equivalent fall enrollment in degree-granting institutions, by control and state or jurisdiction: 2000, 2007, and 2008 . . . . .	324
229.	Total 12-month enrollment in degree-granting institutions, by control and type of institution and state or jurisdiction: 2007–08 and 2008–09 . . . . .	325
230.	Residence and migration of all freshmen students in degree-granting institutions, by state or jurisdiction: Fall 2008 . . . . .	326
231.	Residence and migration of all freshmen students in degree-granting institutions who graduated from high school in the previous 12 months, by state or jurisdiction: Fall 2008 . . . . .	327
232.	Residence and migration of all freshmen students in 4-year degree-granting institutions who graduated from high school in the previous 12 months, by state or jurisdiction: Fall 2008 . . . . .	328
233.	Number of U.S. students studying abroad and percentage distribution, by sex, race/ethnicity, academic level, host region, and duration of stay: 1996–97 through 2007–08 . . . . .	329
234.	Foreign students enrolled in institutions of higher education in the United States, by continent, region, and selected countries of origin: Selected years, 1980–81 through 2008–09 . . . . .	330
235.	Total fall enrollment in degree-granting institutions, by race/ethnicity, sex, attendance status, and level of student: Selected years, 1976 through 2009 . . . . .	331
236.	Total fall enrollment in degree-granting institutions, by race/ethnicity of student and type and control of institution: Selected years, 1976 through 2009 . . . . .	333
237.	Fall enrollment in degree-granting institutions, by race/ethnicity of student and state or jurisdiction: 2009 . . . . .	335
238.	Fall enrollment in degree-granting institutions, by race/ethnicity of student and by state or jurisdiction: 2008 . . . . .	337
239.	Fall enrollment of specific racial/ethnic groups in degree-granting institutions, by type and control of institution and percentage of students in the same racial/ethnic group: 2009 . . . . .	339
240.	Number and percentage distribution of students enrolled in postsecondary institutions, by level, disability status, and selected student characteristics: 2003–04 and 2007–08 . . . . .	341
241.	Percentage of first-year undergraduate students who took remedial education courses, by selected characteristics: 2003–04 and 2007–08 . . . . .	342
242.	Enrollment in postsecondary education, by student level, type of institution, age, and major field of study: 2007–08 . . . . .	343
243.	Graduate enrollment in science and engineering programs in degree-granting institutions, by discipline division: Fall 1996 through fall 2008 . . . . .	344
244.	Number of degree-granting institutions and enrollment in these institutions, by size, type, and control of institution: Fall 2009 . . . . .	345
245.	Selected statistics for degree-granting institutions enrolling more than 15,000 students in 2009: Selected years, 1990 through 2008–09 . . . . .	346

246.	Enrollment of the 120 largest degree-granting college and university campuses, by selected characteristics and institution: Fall 2009 . . . . .	356
247.	Enrollment and degrees conferred in degree-granting women's colleges, by selected characteristics and institution: Fall 2009 and 2008–09 . . . . .	357
248.	Enrollment and degrees conferred in degree-granting institutions that serve large proportions of Hispanic undergraduate students, by selected characteristics and institution: Fall 2009 and 2008–09 . . . . .	358
249.	Fall enrollment and degrees conferred in degree-granting tribally controlled institutions, by institution: Selected years, fall 2000 through fall 2009, and 2007–08 and 2008–09 . . . . .	367
250.	Fall enrollment, degrees conferred, and expenditures in degree-granting historically Black colleges and universities, by institution: 2008, 2009, and 2008–09 . . . . .	368
251.	Selected statistics on degree-granting historically Black colleges and universities, by control and type of institution: Selected years, 1990 through 2009 . . . . .	370
252.	Fall enrollment in degree-granting historically Black colleges and universities, by type and control of institution: Selected years, 1976 through 2009 . . . . .	371

### **Staff**

253.	Employees in degree-granting institutions, by sex, employment status, control and type of institution, and primary occupation: Selected years, fall 1989 through fall 2009 . . . . .	372
254.	Total and full-time-equivalent staff in degree-granting institutions, by employment status, control of institution, and occupation: Fall 1976, fall 1999, and fall 2009 . . . . .	373
255.	Employees in degree-granting institutions, by employment status, sex, control and type of institution, and primary occupation: Fall 2009 . . . . .	374
256.	Employees in degree-granting institutions, by race/ethnicity, sex, employment status, control and type of institution, and primary occupation: Fall 2009 . . . . .	376
257.	Number of full-time-equivalent (FTE) staff and faculty, and FTE staff and faculty/FTE student ratios in public degree-granting institutions, by type of institution and state or jurisdiction: Fall 2009 . . . . .	377
258.	Number of full-time-equivalent (FTE) staff and faculty, and FTE staff and faculty/FTE student ratios in private degree-granting institutions, by type of institution and state or jurisdiction: Fall 2009 . . . . .	378
259.	Number of instructional faculty in degree-granting institutions, by employment status, sex, control, and type of institution: Selected years, fall 1970 through fall 2009 . . . . .	379
260.	Full-time instructional faculty in degree-granting institutions, by race/ethnicity, sex, and academic rank: Fall 2005, fall 2007, and fall 2009 . . . . .	380
261.	Percentage distribution of full-time faculty and instructional staff in degree-granting institutions, by type and control of institution, selected instruction activities, and number of classes taught for credit: Fall 2003 . . . . .	381
262.	Percentage distribution of part-time faculty and instructional staff in degree-granting institutions, by type and control of institution, selected instruction activities, and number of classes taught for credit: Fall 2003 . . . . .	383
263.	Full-time and part-time faculty and instructional staff in degree-granting institutions, by type and control of institution and selected characteristics: Fall 1992, fall 1998, and fall 2003 . . . . .	385
264.	Full-time and part-time faculty and instructional staff in degree-granting institutions, by race/ethnicity, sex, and selected characteristics: Fall 2003 . . . . .	387
265.	Full-time and part-time faculty and instructional staff in degree-granting institutions, by field and faculty characteristics: Fall 1992, fall 1998, and fall 2003 . . . . .	389
266.	Full-time and part-time faculty and instructional staff in degree-granting institutions, by race/ethnicity, sex, and program area: Fall 1998 and fall 2003 . . . . .	391
267.	Average salary of full-time instructional faculty on 9-month contracts in degree-granting institutions, by academic rank, control and type of institution, and sex: Selected years, 1970–71 through 2009–10 . . . . .	393
268.	Average salary of full-time instructional faculty on 9-month contracts in degree-granting institutions, by sex, academic rank, and control and type of institution: Selected years, 1999–2000 through 2009–10 . . . . .	396

269.	Average salary of full-time instructional faculty on 9-month contracts in degree-granting institutions, by control and type of institution and state or jurisdiction: 2009–10 . . . . .	397
270.	Average salary of full-time instructional faculty on 9-month contracts in degree-granting institutions, by control and type of institution and state or jurisdiction: 2008–09 . . . . .	398
271.	Average salary of full-time instructional faculty on 9-month contracts in 4-year degree-granting institutions, by type and control of institution, rank of faculty, and state or jurisdiction: 2009–10 . . . . .	399
272.	Average salary of full-time instructional faculty on 9-month contracts in 4-year degree-granting institutions, by type and control of institution, rank of faculty, and state or jurisdiction: 2008–09 . . . . .	400
273.	Average benefit expenditure for full-time instructional faculty on 9-month contracts in degree-granting institutions, by type of benefit and control of institution: Selected years, 1977–78 through 2009–10. . . . .	401
274.	Percentage of full-time instructional staff with tenure for degree-granting institutions with a tenure system, by academic rank, sex, and control and type of institution: Selected years, 1993–94 through 2009–10 . . . . .	403

### ***Institutions***

275.	Degree-granting institutions, by control and type of institution: Selected years, 1949–50 through 2009–10 . . . . .	404
276.	Degree-granting institutions and branches, by type and control of institution and state or jurisdiction: 2009–10 . . . . .	405
277.	Number of non-degree-granting Title IV institutions offering postsecondary education, by control and state or jurisdiction: Selected years, 2000–01 through 2009–10 . . . . .	407
278.	Degree-granting institutions that have closed their doors, by control and type of institution: 1969–70 through 2009–10. . . . .	408

### ***Degrees***

279.	Degrees conferred by degree-granting institutions, by level of degree and sex of student: Selected years, 1869–70 through 2019–20 . . . . .	409
280.	Associate's degrees conferred by degree-granting institutions, by discipline division: 1997–98 through 2008–09. . . . .	410
281.	Associate's degrees and other subbaccalaureate awards conferred by degree-granting institutions, by length of curriculum, sex of student, and discipline division: 2008–09. . . . .	411
282.	Bachelor's degrees conferred by degree-granting institutions, by field of study: Selected years, 1970–71 through 2008–09. . . . .	412
283.	Master's degrees conferred by degree-granting institutions, by field of study: Selected years, 1970–71 through 2008–09. . . . .	413
284.	Doctor's degrees conferred by degree-granting institutions, by field of study: Selected years, 1970–71 through 2008–09. . . . .	414
285.	Bachelor's, master's, and doctor's degrees conferred by degree-granting institutions, by field of study and year: Selected years, 1970–71 through 2008–09 . . . . .	415
286.	Bachelor's, master's, and doctor's degrees conferred by degree-granting institutions, by sex of student and discipline division: 2008–09 . . . . .	416
287.	Degrees conferred by degree-granting institutions, by control of institution and level of degree: 1969–70 through 2008–09. . . . .	431
288.	Degrees conferred by degree-granting institutions, by control of institution, level of degree, and field of study: 2008–09. . . . .	432
289.	Number of degree-granting institutions conferring degrees, by control, level of degree, and field of study: 2008–09 . . . . .	433
290.	Number of institutions and first-professional degrees conferred by degree-granting institutions in dentistry, medicine, and law, by sex of student: Selected years, 1949–50 through 2008–09 . . . . .	434
291.	First-professional degrees conferred by degree-granting institutions, by sex of student, control of institution, and field of study: Selected years, 1985–86 through 2008–09. . . . .	435

292.	Certificates conferred by postsecondary institutions participating in Title IV programs, by race/ethnicity and sex of student: 1998–99 through 2008–09 . . . . .	436
293.	Associate’s degrees conferred by degree-granting institutions, by race/ethnicity and sex of student: Selected years, 1976–77 through 2008–09 . . . . .	437
294.	Associate’s degrees conferred by degree-granting institutions, by sex, race/ethnicity, and field of study: 2008–09 . . . . .	438
295.	Associate’s degrees conferred by degree-granting institutions, by sex, race/ethnicity, and field of study: 2007–08 . . . . .	439
296.	Bachelor’s degrees conferred by degree-granting institutions, by race/ethnicity and sex of student: Selected years, 1976–77 through 2008–09 . . . . .	440
297.	Bachelor’s degrees conferred by degree-granting institutions, by sex, race/ethnicity, and field of study: 2008–09 . . . . .	441
298.	Bachelor’s degrees conferred by degree-granting institutions, by sex, race/ethnicity, and field of study: 2007–08 . . . . .	442
299.	Master’s degrees conferred by degree-granting institutions, by race/ethnicity and sex of student: Selected years, 1976–77 through 2008–09 . . . . .	443
300.	Master’s degrees conferred by degree-granting institutions, by sex, race/ethnicity, and field of study: 2008–09 . . . . .	444
301.	Master’s degrees conferred by degree-granting institutions, by sex, race/ethnicity, and field of study: 2007–08 . . . . .	445
302.	Doctor’s degrees conferred by degree-granting institutions, by race/ethnicity and sex of student: Selected years, 1976–77 through 2008–09 . . . . .	446
303.	Doctor’s degrees conferred by degree-granting institutions, by sex, race/ethnicity, and field of study: 2008–09 . . . . .	447
304.	Doctor’s degrees conferred by degree-granting institutions, by sex, race/ethnicity, and field of study: 2007–08 . . . . .	448
305.	First-professional degrees conferred by degree-granting institutions, by race/ethnicity and sex of student: Selected years, 1976–77 through 2008–09 . . . . .	449
306.	First-professional degrees conferred by degree-granting institutions, by sex, race/ethnicity, and field of study: 2008–09 . . . . .	450
307.	First-professional degrees conferred by degree-granting institutions, by sex, race/ethnicity, and field of study: 2007–08 . . . . .	450
308.	Degrees in agriculture and natural resources conferred by degree-granting institutions, by level of degree and sex of student: 1970–71 through 2008–09 . . . . .	451
309.	Degrees in architecture and related services conferred by degree-granting institutions, by level of degree and sex of student: Selected years, 1949–50 through 2008–09 . . . . .	452
310.	Degrees in the biological and biomedical sciences conferred by degree-granting institutions, by level of degree and sex of student: Selected years, 1951–52 through 2008–09 . . . . .	453
311.	Degrees in biology, microbiology, and zoology conferred by degree-granting institutions, by level of degree: 1970–71 through 2008–09 . . . . .	454
312.	Degrees in business conferred by degree-granting institutions, by level of degree and sex of student: Selected years, 1955–56 through 2008–09 . . . . .	455
313.	Degrees in communication, journalism, and related programs and in communications technologies conferred by degree-granting institutions, by level of degree and sex of student: 1970–71 through 2008–09 . . . . .	456
314.	Degrees in computer and information sciences conferred by degree-granting institutions, by level of degree and sex of student: 1970–71 through 2008–09 . . . . .	457
315.	Degrees in education conferred by degree-granting institutions, by level of degree and sex of student: Selected years, 1949–50 through 2008–09 . . . . .	458
316.	Degrees in engineering and engineering technologies conferred by degree-granting institutions, by level of degree and sex of student: Selected years, 1949–50 through 2008–09 . . . . .	459

317.	Degrees in chemical, civil, electrical, and mechanical engineering conferred by degree-granting institutions, by level of degree: 1970–71 through 2008–09 . . . . .	460
318.	Degrees in English language and literature/letters conferred by degree-granting institutions, by level of degree and sex of student: Selected years, 1949–50 through 2008–09 . . . . .	461
319.	Degrees in modern foreign languages and literatures conferred by degree-granting institutions, by level of degree and sex of student: Selected years, 1949–50 through 2008–09 . . . . .	462
320.	Degrees in French, German, Italian, and Spanish conferred by degree-granting institutions, by level of degree: Selected years, 1949–50 through 2008–09 . . . . .	463
321.	Degrees in Arabic, Chinese, Korean, and Russian conferred by degree-granting institutions, by level of degree: 1969–70 through 2008–09 . . . . .	464
322.	Degrees in the health professions and related sciences conferred by degree-granting institutions, by level of degree and sex of student: 1970–71 through 2008–09 . . . . .	465
323.	Degrees in mathematics and statistics conferred by degree-granting institutions, by level of degree and sex of student: Selected years, 1949–50 through 2008–09 . . . . .	466
324.	Degrees in the physical sciences and science technologies conferred by degree-granting institutions, by level of degree and sex of student: Selected years, 1959–60 through 2008–09 . . . . .	467
325.	Degrees in chemistry, geology and earth science, and physics conferred by degree-granting institutions, by level of degree: 1970–71 through 2008–09 . . . . .	468
326.	Degrees in psychology conferred by degree-granting institutions, by level of degree and sex of student: Selected years, 1949–50 through 2008–09 . . . . .	469
327.	Degrees in public administration and social services conferred by degree-granting institutions, by level of degree and sex of student: 1970–71 through 2008–09 . . . . .	470
328.	Degrees in the social sciences and history conferred by degree-granting institutions, by level of degree and sex of student: 1970–71 through 2008–09 . . . . .	471
329.	Degrees in economics, history, political science and government, and sociology conferred by degree-granting institutions, by level of degree: Selected years, 1949–50 through 2008–09 . . . . .	472
330.	Degrees in visual and performing arts conferred by degree-granting institutions, by level of degree and sex of student: 1970–71 through 2008–09 . . . . .	473
331.	Statistical profile of persons receiving doctor's degrees, by field of study and selected characteristics: 2006–07 and 2007–08 . . . . .	474
332.	Degrees conferred by degree-granting institutions, by control, level of degree, and state or jurisdiction: 2008–09 . . . . .	475
333.	Bachelor's degrees conferred by degree-granting institutions, by field of study and state or jurisdiction: 2008–09 . . . . .	476
334.	Master's degrees conferred by degree-granting institutions, by field of study and state or jurisdiction: 2008–09 . . . . .	477
335.	Degrees conferred by degree-granting institutions, by level of degree and state or jurisdiction: 2007–08 and 2008–09 . . . . .	478
336.	Doctor's degrees conferred by the 60 institutions conferring the most doctor's degrees: 1999–2000 through 2008–09 . . . . .	479

### **Outcomes**

337.	Percentage distribution of 1990 high school sophomores, by highest level of education completed through 2000 and selected student characteristics: 2000 . . . . .	480
338.	Number and percentage of degree-granting institutions with first-year undergraduates using various selection criteria for admission, by type and control of institution: Selected years, 2000–01 through 2009–10 . . . . .	481
339.	Number of applications, admissions, and enrollees; their distribution across institutions accepting various percentages of applications; and SAT and ACT scores of enrollees, by type and control of institution: 2009–10 . . . . .	482

340.	Percentage of degree-granting institutions offering remedial services, by control and type of institution: 1989–90 through 2009–10 . . . . .	483
341.	Graduation rates of first-time postsecondary students who started as full-time degree-seeking students, by sex, race/ethnicity, time between starting and graduating, and level and control of institution where student started: Selected cohort entry years, 1996 through 2005 . . . . .	484
342.	Retention of first-time degree-seeking undergraduates at degree-granting institutions, by attendance status, control and type of institution, and percentage of applications accepted: 2006 to 2008 . . . .	488
343.	Percentage distribution of enrollment and completion status of first-time postsecondary students starting during the 1995–96 academic year, by type of institution and other student characteristics: 2001 . . . . .	489
344.	Average scores on Graduate Record Examination (GRE) general and subject tests: 1965 through 2009 . . . . .	491

### ***Student Charges and Student Financial Assistance***

345.	Average undergraduate tuition and fees and room and board rates charged for full-time students in degree-granting institutions, by type and control of institution: 1964–65 through 2009–10 . . . .	493
346.	Average undergraduate tuition and fees and room and board rates charged for full-time students in degree-granting institutions, by type and control of institution and state or jurisdiction: 2008–09 and 2009–10 . . . . .	496
347.	Undergraduate tuition and fees and room and board rates for full-time students in degree-granting institutions, by percentile of charges and control and type of institution: Selected years, 2000–01 through 2009–10 . . . . .	497
348.	Average graduate and first-professional tuition and required fees in degree-granting institutions, by first-professional field of study and control of institution: 1988–89 through 2009–10 . . . . .	498
349.	Percentage of undergraduates receiving aid, by type and source of aid and selected student characteristics: 2007–08 . . . . .	499
350.	Full-time, first-time degree/certificate-seeking undergraduate students enrolled in degree-granting institutions, by participation and average amount awarded in financial aid programs, and type and control of institution: 2000–01 through 2008–09 . . . . .	500
351.	Average amount of financial aid awarded to full-time, full-year undergraduates, by type and source of aid and selected student characteristics: 2007–08 . . . . .	501
352.	Average amount of financial aid awarded to part-time or part-year undergraduates, by type and source of aid and selected student characteristics: 2007–08 . . . . .	502
353.	Amount borrowed, aid status, and sources of aid for full-time and part-time undergraduates, by control and type of institution: 2003–04 and 2007–08 . . . . .	503
354.	Percentage of full-time, full-year undergraduates receiving aid, by type and source of aid and control and type of institution: Selected years, 1992–93 through 2007–08 . . . . .	504
355.	Average amount of financial aid awarded to full-time, full-year undergraduates, by type and source of aid and control and type of institution: Selected years, 1992–93 through 2007–08 . . . . .	505
356.	Percentage of part-time or part-year undergraduates receiving aid, by type and source of aid and control and type of institution: Selected years, 1992–93 through 2007–08 . . . . .	507
357.	Percentage of full-time and part-time undergraduates receiving federal aid, by aid program and control and type of institution: 2003–04 and 2007–08 . . . . .	508
358.	Amount borrowed, aid status, and sources of aid for full-time, full-year postbaccalaureate students, by level of study and control and type of institution: Selected years, 1992–93 through 2007–08 . .	509
359.	Amount borrowed, aid status, and sources of aid for part-time or part-year postbaccalaureate students, by level of study and control and type of institution: Selected years, 1992–93 through 2007–08 . . . . .	510
360.	Percentage of full-time, full-year postbaccalaureate students receiving aid, by type of aid, level of study, and control and type of institution: Selected years, 1992–93 through 2007–08 . . . . .	511
361.	Percentage of part-time or part-year postbaccalaureate students receiving aid, by type of aid, level of study, and control and type of institution: Selected years, 1992–93 through 2007–08 . . . . .	512

**Revenue**

362.	Revenues of public degree-granting institutions, by source of revenue and type of institution: 2005–06 through 2008–09 . . . . .	513
363.	Revenues of public degree-granting institutions, by source of revenue and state or jurisdiction: 2007–08 . . . . .	515
364.	Revenues of public degree-granting institutions, by source of revenue and state or jurisdiction: 2008–09 . . . . .	516
365.	Appropriations from state and local governments for public degree-granting institutions, by state or jurisdiction: Selected years, 1990–91 through 2008–09 . . . . .	517
366.	Total revenue of private not-for-profit degree-granting institutions, by source of funds and type of institution: 1999–2000 through 2008–09 . . . . .	518
367.	Total revenue of private not-for-profit degree-granting institutions, by source of funds and type of institution: 2008–09 . . . . .	520
368.	Total revenue of private for-profit degree-granting institutions, by source of funds and type of institution: Selected years, 1999–2000 through 2008–09 . . . . .	521
369.	Total revenue of private for-profit degree-granting institutions, by source of funds and type of institution: 2008–09 . . . . .	522
370.	Revenue received from the federal government by the 120 degree-granting institutions receiving the largest amounts, by control and rank order: 2008–09 . . . . .	523
371.	Voluntary support for degree-granting institutions, by source and purpose of support: Selected years, 1959–60 through 2008–09 . . . . .	524
372.	Endowment funds of the 120 colleges and universities with the largest endowments, by rank order: 2008 and 2009 . . . . .	525

**Expenditures**

373.	Expenditures of public degree-granting institutions, by purpose of expenditure and type of institution: 2003–04 through 2008–09 . . . . .	526
374.	Expenditures of public degree-granting institutions, by type of institution, purpose of expenditure, and state or jurisdiction: 2006–07, 2007–08, and 2008–09 . . . . .	528
375.	Total expenditures of private not-for-profit degree-granting institutions, by purpose and type of institution: 1998–99 through 2008–09 . . . . .	529
376.	Total expenditures of private not-for-profit degree-granting institutions, by purpose and type of institution: 2008–09 . . . . .	531
377.	Total expenditures of private for-profit degree-granting institutions, by purpose and type of institution: 1999–2000 through 2008–09 . . . . .	532
378.	Total expenditures of private for-profit degree-granting institutions, by purpose and type of institution: 2008–09 . . . . .	534
379.	Total expenditures of private not-for-profit and for-profit degree-granting institutions, by level and state or jurisdiction: Selected years, 1999–2000 through 2008–09 . . . . .	535

**Chapter 4. Federal Programs for Education and Related Activities**

380.	Federal support and estimated federal tax expenditures for education, by category: Selected fiscal years, 1965 through 2010 . . . . .	547
381.	Federal on-budget funds for education, by agency: Selected fiscal years, 1970 through 2009. . . .	549
382.	Federal on-budget funds for education, by level/educational purpose, agency, and program: Selected fiscal years, 1970 through 2010 . . . . .	550
383.	Estimated federal support for education, by type of ultimate recipient and agency: Fiscal year 2009 . .	556
384.	U.S. Department of Education outlays, by type of recipient and level of education: Selected fiscal years, 1980 through 2010 . . . . .	557
385.	U.S. Department of Education appropriations for major programs, by state or jurisdiction: Fiscal year 2009 . . . . .	558
386.	Appropriations for Title I and selected other programs under the No Child Left Behind Act of 2001, by program and state or jurisdiction: Fiscal years 2009 and 2010. . . . .	559
387.	Federal obligations for research, development, and R&D plant, by category of obligation, performers, and fields of science: Fiscal years 2001 through 2009. . . . .	560

**Chapter 5. Outcomes of Education*****Educational Characteristics of the Workforce***

388.	Labor force participation rates and employment to population ratios of persons 16 to 64 years old, by educational attainment, age, sex, and race/ethnicity: 2009 . . . . .	567
389.	Unemployment rate of persons 16 years old and over, by age, sex, race/ethnicity, and educational attainment: 2007, 2008, and 2009 . . . . .	568
390.	Occupation of employed persons 25 years old and over, by educational attainment and sex: 2009 . .	569
391.	Median annual earnings of year-round, full-time workers 25 years old and over, by highest level of educational attainment and sex: 1990 through 2009 . . . . .	570
392.	Distribution of earnings and median earnings of persons 25 years old and over, by highest level of educational attainment and sex: 2009 . . . . .	574
393.	Literacy skills of adults, by type of literacy, proficiency levels, and selected characteristics: 1992 and 2003 . . . . .	576
394.	Percentage of 12th-graders working different numbers of hours per week, by selected student characteristics and school locale type: 1992 and 2004 . . . . .	577

***Recent High School and College Graduates***

395.	Labor force status of 2007, 2008, and 2009 high school completers, by sex, race/ethnicity, and college enrollment status: 2007, 2008, and 2009 . . . . .	578
396.	Labor force status of high school dropouts, by sex and race/ethnicity: Selected years, 1980 through 2009 . . . . .	580
397.	Among special education students out of high school up to 8 years, percentage attending and completing postsecondary education, living independently, and working competitively, by type of disability: 2007 and 2009 . . . . .	581
398.	Percentage distribution of 1999–2000 bachelor’s degree recipients 1 year after graduation, by field of study, time to completion, enrollment status, employment status, occupational area, job characteristics, and annual salaries: 2001. . . . .	582
399.	Percentage of bachelor’s degree recipients employed full time 1 year after graduation and average annual salary, by field of study: Selected years, 1976 through 2001. . . . .	583
400.	Percentage of 18- to 25-year-olds reporting use of illicit drugs, alcohol, and cigarettes during the past 30 days and the past year, by substance used: Selected years, 1982 through 2008 . . . . .	584

- |      |   |     |
|------|---|-----|
| 401. | Percentage of 18- to 25-year-olds reporting use of illicit drugs, alcohol, and cigarettes during the past 30 days and the past year, by substance used and selected characteristics: 2003 and 2008. . . . . | 585 |
| 402. | Percentage of 1972 high school seniors, 1992 high school seniors, and 2004 high school seniors who felt that certain life values were “very important,” by sex: Selected years, 1972 through 2004 . . . . . | 586 |

## **Chapter 6. International Comparisons of Education**

### ***Population, Enrollment, and Teachers***

- |      |   |     |
|------|---|-----|
| 403. | Population, school enrollment, and teachers, by major areas of the world: Selected years, 1980 through 2008 . . . . .   | 592 |
| 404. | Selected population and enrollment statistics for countries with populations over 10 million in 2008, by continent: Selected years, 1990 through 2008 . . . . . | 593 |
| 405. | School-age populations as a percentage of total population, by age group and country: Selected years, 1985 through 2007 . . . . .                               | 595 |
| 406. | Percentage of population enrolled in secondary and postsecondary education, by age group and country: Selected years, 1985 through 2007 . . . . .               | 596 |
| 407. | Pupils per teacher in public and private elementary and secondary schools, by level of education and country: Selected years, 1985 through 2008 . . . . .       | 597 |

### ***Achievement, Instruction, and Student Activities***

- |      |   |     |
|------|---|-----|
| 408. | Average reading literacy, mathematics literacy, and science literacy scores of 15-year-old students, by sex and country: 2009 . . . . .   | 598 |
| 409. | Mean scores and percentage distribution of 15-year-old students scoring at each reading literacy proficiency level, by country: 2009 . . . . .  | 599 |
| 410. | Mean scores and percentage distribution of 15-year-old students scoring at each mathematics literacy proficiency level, by country: 2009 . . . . .  | 601 |
| 411. | Mean scores and percentage distribution of 15-year-old students scoring at each science literacy proficiency level, by country: 2009 . . . . .  | 603 |
| 412. | Average fourth-grade mathematics scores, by content and cognitive domain, index of time spent doing mathematics homework, and country: 2007 . . . . .   | 605 |
| 413. | Average eighth-grade mathematics scores overall and in content and cognitive domains, by country: 2007 . . . . .  | 606 |
| 414. | Percentage distribution of mathematics lesson time spent by eighth-grade students on various activities in a typical week, by country: 2007 . . . . .   | 607 |
| 415. | Mathematics class sizes and average scores of eighth-grade students, yearly mathematics instructional time, and mathematics instructional time as a percentage of total instructional time, by country: 2007 . . . . .      | 608 |
| 416. | Average mathematics scores and percentage distribution of eighth-graders, by index of self-confidence in learning mathematics, index of time spent doing mathematics homework, and country: 2007 . . . . .                  | 609 |
| 417. | Average fourth-grade science scores overall and in content and cognitive domains, yearly science instructional time, and science instructional time as a percentage of total instructional time, by country: 2007 . . . . . | 610 |
| 418. | Average eighth-grade science scores overall and in content and cognitive domains, by country: 2007 . . . . .  | 611 |
| 419. | Percentage distribution of science lesson time spent by eighth-grade students on various activities in a typical week, by country: 2007 . . . . .   | 612 |

**Attainment and Degrees**

420.	Percentage of the population 25 to 64 years old who completed high school, by age group and country: 2001, 2005, and 2008 . . . . .	613
421.	Percentage of the population 25 to 64 years old who attained selected levels of postsecondary education, by age group and country: 2001 and 2008. . . . .	614
422.	Number of bachelor's degree recipients per 100 persons of the typical age of graduation, by sex and country: 2002 through 2007 . . . . .	615
423.	Percentage of bachelor's degrees awarded in mathematics and science, by field and country: Selected years, 1990 through 2007 . . . . .	616
424.	Percentage of graduate degrees awarded in mathematics and science, by field and country: Selected years, 1990 through 2007 . . . . .	617

**Finances**

425.	Public and private education expenditures per student, by level of education and country: Selected years, 2000 through 2007 . . . . .	618
426.	Public and private direct expenditures on education as a percentage of the gross domestic product, by level of education and country: Selected years, 1995 through 2007 . . . . .	619

**Chapter 7. Libraries and Adult Education****Libraries**

427.	Selected statistics on public school libraries/media centers, by level of school: 1999–2000, 2003–04, and 2007–08 . . . . .	622
428.	Selected statistics on public school libraries/media centers, by level and enrollment size of school: 2007–08. . . . .	623
429.	Selected statistics on public school libraries/media centers, by state: 2007–08 . . . . .	624
430.	Collections, staff, and operating expenditures of degree-granting institution libraries: Selected years, 1976–77 through 2007–08 . . . . .	625
431.	Collections, staff, and operating expenditures of the 60 largest college and university libraries: Fiscal year 2008. . . . .	626
432.	Public libraries, books and serial volumes, library visits, circulation, and reference transactions, by state: Fiscal years 2007 and 2008 . . . . .	627

**Adult Education**

433.	Participants in state-administered adult basic education, secondary education, and English as a second language programs, by type of program and state or jurisdiction: Selected fiscal years, 1990 through 2008. . . . .	628
434.	Participation of employed persons, 17 years old and over, in career-related adult education during the previous 12 months, by selected characteristics of participants: 1995, 1999, and 2005 . . . . .	629
435.	Participation rate of persons, 17 years old and over, in adult education during the previous 12 months, by selected characteristics of participants: Selected years, 1991 through 2005 . . . . .	632

**Appendix A. Guide to Sources**

A-1.	Respondent counts for selected High School and Beyond surveys: 1982, 1984, and 1986 . . . . .	673
A-2.	Design effects (DEFF) and root design effects (DEFT) for selected High School and Beyond surveys and subsamples: 1984 and 1986 . . . . .	674
A-3.	Respondent counts of full-time workers from the Recent College Graduates survey, by field of study: Selected years, 1976 to 1991 . . . . .	674
A-4.	Minimum differences required for significance (90 percent confidence level) between sample subgroups from the “Status of the American Public School Teacher” survey: 2005–06 . . . . .	674

# INTRODUCTION

In fall 2010, about 75.9 million people were enrolled in American schools and colleges (table 1). About 4.6 million people were employed as elementary and secondary school teachers or as college faculty, in full-time equivalents (FTE). Other professional, administrative, and support staff at educational institutions totaled 5.4 million. All data for 2010 in this Introduction are projected. Some data for other years are projected or estimated as noted. In discussions of historical trends, different time periods and specific years are cited, depending on the timing of important changes as well as the availability of relevant data.

## Elementary/Secondary Education

### *Enrollment*

A pattern of annual increases in total public elementary and secondary school enrollment began in 1985 (table 3). Between 1985 and 2010, public school enrollment rose 25 percent, from 39.4 million to 49.4 million (table 2). Private school enrollment grew more slowly than public school enrollment during this period, rising 7 percent, from 5.6 million to 6.0 million. As a result, the percentage of elementary and secondary students enrolled in private schools declined from 12.4 percent in 1985 to 10.8 percent in 2010.

In public schools between 1985 and 2010, there was a 28 percent increase in elementary enrollment (prekindergarten through grade 8), compared with an 18 percent increase in secondary enrollment. Part of the relatively fast growth in public elementary school enrollment resulted from the expansion of prekindergarten enrollment (table 39). Between 1985 and 2008, enrollment in prekindergarten increased 679 percent, while enrollment in other elementary grades (including kindergarten through grade 8 plus ungraded elementary programs) increased 23 percent. The number of children enrolled in prekindergarten increased from 0.2 million in 1985 to 1.2 million in 2008, and the number enrolled in other elementary grades increased from 26.9 million to 33.1 million. Public secondary school enrollment declined 8 percent from 1985 to 1990, but then started increasing. For most of the period after 1992, secondary enrollment increased more rapidly than elementary enrollment, leading to relatively large secondary enrollment gains in recent years. For example, between 2000 and 2010, public secondary school enrollment rose 8 percent, compared with 3 percent for public elementary school enrollment (table 2).

Overall, public school enrollment rose 5 percent between 2000 and 2010.

Since the enrollment rates of 5- and 6-year-olds, 7- to 13-year-olds, and 14- to 17-year-olds changed by about 2 or fewer percentage points between 1985 and 2009, increases in public and private elementary and secondary school enrollment have been driven primarily by increases in the number of children in these age groups (tables 7 and 20). Increases in the enrollment rate of 3- and 4-year-old children (from 39 percent in 1985 to 52 percent in 2009) and the number of children in this age group (from 7.1 million to 8.4 million) also contributed to overall enrollment increases.

The National Center for Education Statistics (NCES) forecasts record levels of total elementary and secondary enrollment through at least 2019, reflecting expected increases in the size of the school-age population. For public schools, the projected fall 2010 enrollment is expected to be a new record, and new records are expected every year through 2019, the last year for which NCES enrollment projections have been developed (table 3). Public elementary school enrollment (prekindergarten through grade 8) is projected to increase by 7 percent between 2010 and 2019. Public secondary school enrollment (grades 9 through 12) is expected to increase 4 percent between 2010 and 2019. Overall, total public school enrollment is expected to increase 6 percent between 2010 and 2019.

### *Teachers*

A projected 3.6 million full-time-equivalent (FTE) elementary and secondary school teachers were engaged in classroom instruction in fall 2010 (table 4). This number has risen 8 percent since 2000. The 2010 projected number of FTE teachers includes 3.2 million public school teachers and 0.5 million private school teachers.

The number of public school teachers has increased by a larger percentage than the number of public school students over the past 10 years, resulting in declines in the pupil/teacher ratio (table 68). In the fall of 2010, there were a projected 15.6 public school pupils per teacher, compared with 16.0 public school pupils per teacher 10 years earlier.

The average salary for public school teachers in 2009–10 was \$55,350, about 3 percent higher than in 1990–91, after adjustment for inflation (table 82). The salaries of public school teachers have generally maintained pace with inflation since 1990–91.

## Student Performance

Most of the student performance data in the *Digest* are drawn from the National Assessment of Educational Progress (NAEP). The NAEP assessments have been conducted using three basic designs: the national main NAEP, state NAEP, and long-term trend NAEP. The national main NAEP and state NAEP provide current information about student performance in a variety of subjects, while long-term trend NAEP provides information on performance since the early 1970s in reading and mathematics only. Results from long-term trend NAEP are included in the discussion in chapter 2 of the *Digest*, while the information in this Introduction includes only results from the national main and state NAEP.

The main NAEP reports current information for the nation and specific geographic regions of the country. The assessment program includes students drawn from both public and nonpublic schools and reports results for student achievement at grades 4, 8, and 12. The main NAEP assessments follow the frameworks developed by the National Assessment Governing Board and use the latest advances in assessment methodology. The state NAEP is identical in content to the national main NAEP, but the state NAEP reports information only for public school students. Chapter 2 presents more information on the NAEP designs and methodology, and additional details appear in Appendix A: Guide to Sources.

### Reading

The main NAEP assessment data are reported on a scale of 0 to 500. From 2007 to 2009, there were no measurable changes in average reading scores for 4th-grade males and females or for 4th-grade students from any of the five racial/ethnic groups (table 125). From 1992 to 2009, male 4th-graders' average reading scores increased from 213 to 218 and female 4th-graders' scores increased from 221 to 224 (table 126). At grade 4, the average reading scores in 2009 for White, Black, Hispanic, Asian/Pacific Islander, and American Indian/Alaska Native students were not measurably different from their scores in 2007 (table 125). The 2009 reading scores for White, Black, and Hispanic students did, however, remain higher than scores from assessment years prior to 2007. The 2009 average NAEP reading scale score for 8th-graders was 1 point higher than the 2007 score and 4 points higher than the 1992 score, but the 2009 score was not always measurably different from the scores on the assessments given between 1994 and 2005. For 12th-graders, the 2009 average reading score was 4 points lower than the score in 1992 but 2 points higher than the score in 2005 (12th-graders were not assessed in 2007).

The 2009 main NAEP reading assessment of states found that the average reading proficiency of public school 4th- and 8th-graders varied across participating jurisdictions (the 50 states, the Department of Defense overseas and domestic schools, and the District of Columbia). For 4th-graders in public schools, the U.S. average score was 220, with average scores in participating jurisdictions ranging from 202 in the District of Columbia to 234 in Massachusetts (table 129).

For 8th-graders in public schools, the U.S. average score was 262, with average scores in participating jurisdictions ranging from 242 in the District of Columbia to 274 in Massachusetts (table 130).

### Mathematics

From 2007 to 2009, gains in average NAEP mathematics scores seen in earlier years continued at grade 8 but not at grade 4. At grade 8, the average NAEP mathematics score (reported on a scale of 0 to 500) increased 2 points from 2007 to 2009 and was higher in 2009 than in any previous assessment year (table 146). At grade 4, the average score in 2009 was unchanged from the score in 2007 but still higher than the scores in the six assessment years from 1990 to 2005. From 2007 to 2009, no significant score changes occurred at grade 4 for males or females or for any of the racial/ethnic groups. At grade 8, average scores increased from 2007 to 2009 for both male and female students as well as for White, Black, Hispanic, and Asian/Pacific Islander students. For American Indian/Alaska Native 8th-graders, no measurable differences were detected in average scores over the assessment years. Because of major changes to the grade 12 mathematics assessment, results from 2005 and 2009 cannot be compared with results from earlier assessment years. For 12th-graders, the average mathematics score (reported on a scale of 0 to 300) was 3 points higher in 2009 than in 2005. Average scores increased from 2005 to 2009 for both male and female 12th-graders as well as for 12th-graders from all the racial/ethnic groups.

The 2009 main NAEP assessment of states found that the average mathematics proficiency of public school 4th- and 8th-graders varied across participating jurisdictions (the 50 states, the Department of Defense overseas and domestic schools, and the District of Columbia). For 4th-graders in public schools, the U.S. average score was 239, with average scores in participating jurisdictions ranging from 219 in the District of Columbia to 251 in New Hampshire and 252 in Massachusetts (table 143). For 8th-graders in public schools, the U.S. average score was 282, with average scores in participating jurisdictions ranging from 254 in the District of Columbia to 299 in Massachusetts (table 144).

### Science

NAEP has assessed the science abilities of students in grades 4, 8, and 12 in both public and private schools since 1996, using a separate scale of 0 to 300 for each grade. The national average 4th-grade science score increased from 147 in 1996 to 151 in 2005; there was no measurable change in the 8th-grade score; and the 12th-grade score decreased from 150 in 1996 to 147 in 2005 (table 148). Certain subgroups outperformed others in science in 2005. For example, males outperformed females at all three grades. Male 4th-graders had a higher average score in 2005 than in 1996, and both male and female 12th-graders had lower scores in 2005 than in 1996. White students scored higher, on average, than Black and Hispanic students at all three grades in 2005. At grade 4, average scores were higher for White, Black,

Hispanic, and Asian/Pacific Islander students in 2005 than in 1996. At grade 8, the average score for Black students was higher in 2005 than in 1996, but the scores did not measurably change for other racial/ethnic groups. At grade 12, there were no measurable changes between the 2005 and 1996 average scores for any racial/ethnic group.

### International Comparisons

The 2007 Trends in International Mathematics and Science Study (TIMSS) assessed students' mathematics and science performance at grade 4 in 36 countries and at grade 8 in 48 countries. The assessment is curriculum based and measures what students have actually learned against the subject matter that is expected to be taught in the participating countries by the end of grades 4 and 8. At both grades, TIMSS scores are reported on a scale of 0 to 1,000, with the scale average fixed at 500. In 2007, the average mathematics scores of U.S. 4th-graders (529) and 8th-graders (508) were higher than the scale average (tables 412 and 413). U.S. 4th-graders scored higher in mathematics, on average, than their counterparts in 23 countries and lower than those in 8 countries (table 412). Average mathematics scores in the other 4 countries were not measurably different from the U.S. average. At grade 8, the average U.S. mathematics score was higher than the average scores of students in 37 countries in 2007 and below the average scores of students in 5 countries (table 413). Average 8th-grade mathematics scores in the other 5 countries were not measurably different from the U.S. average. The average science scores of both U.S. 4th-graders (539) and U.S. eighth-graders (520) were higher than the fixed TIMSS scale average of 500 in 2007 (tables 417 and 418). The average U.S. 4th-grade science score was higher than the average scores of students in 25 countries, lower than those of students in 4 countries, and not measurably different from those in the remaining 6 countries (table 417). At grade 8, the average U.S. science score was higher than the average scores of students in 35 of the 47 other countries, lower than those in 9 countries, and not measurably different from those in the other 3 countries (table 418).

The 2009 Program for International Student Assessment (PISA) assessed 15-year-olds' reading, mathematics, and science literacy in 34 countries that are members of the Organization for Economic Cooperation and Development (OECD) and in 31 non-OECD jurisdictions. PISA scores are reported on a scale of 0 to 1,000. In reading literacy, the average score of 15-year-olds in the United States was 500, which was not measurably different from the OECD average of 493 (table 408). The average reading literacy score in the United States was lower than the average score in 6 of the 33 other OECD countries that participated in the 2009 assessment, higher than the average score in 13 of the other OECD countries, and not measurably different from the average score in 14 of the OECD countries. Three of the 31 participating non-OECD jurisdictions had higher average reading literacy scores than the United States. In mathematics literacy, U.S. 15-year-olds' average score of 487 on the 2009 PISA was lower than the OECD average score of 496.

The average mathematics literacy score in the United States was lower than the average score in 17 OECD countries, higher than the average score in 5 OECD countries, and not measurably different from the average score in 11 OECD countries. Six of the non-OECD jurisdictions had higher average mathematics literacy scores than the United States. In science literacy, the average score of 15-year-olds in the United States was not measurably different from the OECD average score. The U.S. average science literacy score was lower than the average score in 12 OECD countries, higher than the average score in 9 OECD countries, and not measurably different from the average score in 12 OECD countries. Six of the non-OECD jurisdictions had higher science literacy scores than the United States.

### High School Graduates and Dropouts

About 3,252,000 high school students are expected to graduate during the 2010–11 school year (table 110), including about 2,937,000 public school graduates and 315,000 private school graduates. High school graduates include only recipients of diplomas, not recipients of equivalency credentials. The number of high school graduates projected for 2010–11 is lower than the record-high projection for 2008–09, but exceeds the high point during the baby boom era in 1975–76, when 3,142,000 students earned diplomas. In 2007–08, an estimated 74.7 percent of public high school students graduated on time—that is, received a diploma 4 years after beginning their freshman year (table 112).

The number of General Educational Development (GED) credentials issued by the states to GED test passers rose from 330,000 in 1977 to 487,000 in 2000 (table 114). A record number of 648,000 GED credentials were issued in 2001. In 2002, there were revisions to the GED test and to the data reporting procedures. In 2001, test takers were required to successfully complete all five components of the GED or else begin the five-part series again with the new test that was introduced in 2002. Prior to 2002, reporting was based on summary data from the states on the number of GED credentials issued. As of 2002, reporting has been based on individual GED candidate- and test-level records collected by the GED Testing Service. In 2009, about 448,000 passed the GED tests, up from 330,000 in 2002, the first year of the new test series.<sup>1</sup>

The percentage of dropouts among 16- to 24-year-olds has shown some decreases over the past 20 years. This percentage, known as the status dropout rate, includes all people in the 16- to 24-year-old age group who are not enrolled in school and who have not completed a high school program, regardless of when they left school. (People who left school but went on to receive a GED credential are not treated as dropouts in this measure.) Between 1989 and 2009, the status dropout rate declined from 12.6 percent to

<sup>1</sup> Information on changes in GED test series and reporting is based on the 2003 edition of *Who Passed the GED Tests?*, by the GED Testing Service of the American Council on Education, as well as communication with staff of the GED Testing Service.

8.1 percent (table 115). Although the status dropout rate declined for both Blacks and Hispanics during this period, their rates in 2009 (9.3 and 17.6 percent, respectively) remained higher than the rate for Whites (5.2 percent). This measure is based on the civilian noninstitutionalized population, which excludes people in prisons, people in the military, and other people not living in households.

### **Educational Technology**

The number of computers used for instruction in public elementary and secondary schools has increased. In 2008, the average public school contained 189 instructional computers, compared to 110 in 2000 (table 108). Most of these computers (98 percent) had internet access in 2008, up from 77 percent in 2000. There were 3 students per computer with internet access in 2008, compared to 7 students per computer with internet access in 2000.

## **Postsecondary Education**

### **College Enrollment**

College enrollment was a projected 20.6 million in fall 2010, higher than in any previous year (table 3). College enrollment is expected to continue setting new records from fall 2011 through fall 2019. Between fall 2010 and fall 2019, enrollment is expected to increase by 14 percent. Despite decreases in the size of the traditional college-age population (18 to 24 years old) during the late 1980s and early 1990s, total enrollment increased during this period (tables 20 and 197). The traditional college-age population rose 14 percent between 1999 and 2009, and total college enrollment increased 38 percent during the same period. Between 1999 and 2009, the number of full-time students increased by 45 percent, compared to a 28 percent increase in part-time students (table 197). During the same time period, the number of males enrolled increased 35 percent, while the number of females enrolled increased 40 percent.

### **Faculty**

In fall 2009, degree-granting institutions—defined as postsecondary institutions that grant an associate’s or higher degree and are eligible for Title IV federal financial aid programs—employed 1.4 million faculty members, including 0.7 million full-time and 0.7 million part-time faculty (table 255). In addition, degree-granting institutions employed 0.3 million graduate assistants.

### **Postsecondary Degrees**

During the 2010–11 academic year, postsecondary degrees are projected to number 818,000 associate’s degrees; 1,696,000 bachelor’s degrees; 687,000 master’s degrees; 100,700 first-professional degrees; and 71,700 doctor’s degrees (table 279). Between 1998–99 and 2008–09 (the last year of actual data), the number of degrees conferred rose at all levels. The number of associate’s degrees was 41 percent

higher in 2008–09 than in 1998–99, the number of bachelor’s degrees was 33 percent higher, the number of master’s degrees was 49 percent higher, the number of first-professional degrees was 17 percent higher, and the number of doctor’s degrees was 54 percent higher.

Between 1998–99 and 2008–09, the number of bachelor’s degrees awarded to males increased 32 percent, while the number awarded to females increased 34 percent. Females earned 57 percent of all bachelor’s degrees in 2008–09, similar to the percentage for 1998–99. Between 1998–99 and 2008–09, the number of White students earning bachelor’s degrees increased 26 percent, compared with the larger increases of 53 percent for Black students, 85 percent for Hispanic students, 52 percent for Asian/Pacific Islander students, and 45 percent for American Indian/Alaska Native students (table 296). In 2008–09, White students earned 71 percent of all bachelor’s degrees awarded (vs. 76 percent in 1998–99), Black students earned 10 percent (vs. 9 percent in 1998–99), Hispanic students earned 8 percent (vs. 6 percent in 1998–99), and Asian/Pacific Islander students earned 7 percent (vs. 6 percent in 1998–99). American Indian/Alaska Native students earned about 1 percent of the degrees in both years.

### **Undergraduate Prices**

For the 2009–10 academic year, annual prices for undergraduate tuition, room, and board were estimated to be \$12,804 at public institutions and \$32,184 at private institutions (table 345). Between 1999–2000 and 2009–10, prices for undergraduate tuition, room, and board at public institutions rose 37 percent, and prices at private institutions rose 25 percent, after adjustment for inflation.

## **Educational Attainment**

The U.S. Census Bureau collects annual statistics on the educational attainment of the population. Between 2000 and 2010, the percentage of the adult population 25 years of age and over who had completed high school rose from 84 percent to 87 percent, and the percentage of adults with a bachelor’s degree increased from 26 percent to 30 percent (table 8). High school completers include those people who graduated from high school with a diploma, as well as those who completed high school through equivalency programs. The percentage of young adults (25- to 29-year-olds) who had completed high school in 2010 was about the same as it was in 2000 (89 and 88 percent, respectively). The percentage of young adults who had completed a bachelor’s degree increased from 29 percent in 2000 to 32 percent in 2010.

## **Education Expenditures**

Expenditures for public and private education, from pre-kindergarten through graduate school (excluding postsecondary schools not awarding associate’s or higher degrees), are estimated at \$1.1 trillion for 2009–10 (table 28). Expenditures of elementary and secondary schools are expected to

total \$650 billion, while those of degree-granting postsecondary institutions are expected to total \$461 billion. Total expenditures for education are expected to amount to 7.9 percent of the gross domestic product in 2009–10, about 0.9 percentage points higher than in 1999–2000.

## Interpreting Statistics

Readers should be aware of the limitations of statistics. These limitations vary with the exact nature of a particular survey. For example, estimates based on a sample of institutions will differ somewhat from the figures that would have been obtained if a complete census had been taken using the same survey instrument. Standard errors are available for sample survey data appearing in this report. In most cases, standard errors for all items appear in the printed table. In some cases, only standard errors for key items appear in the printed table. Standard errors that do not appear in the tables are available from NCES upon request. Although some of the surveys conducted by NCES are census or universe surveys (which attempt to collect information from all potential respondents), all surveys are subject to design, reporting, and processing errors and errors due to nonresponse. Differences in sampling, data collection procedures, coverage of target population, timing, phrasing of questions, scope of nonresponse, interviewer training, data processing, coding, and so forth mean that the results from the different sources may not be strictly comparable. More information on survey methodologies can be found in Appendix A: Guide to Sources.

Estimates presented in the text and figures are rounded from original estimates, not from a series of roundings. Percentages in the text are rounded to whole numbers, while ratios and percentage distributions are normally presented to one decimal place, where applicable.

Unless otherwise noted, all data in this report are for the 50 states and the District of Columbia. Unless otherwise noted, all financial data are in current dollars, meaning not adjusted for changes in the purchasing power of the dollar

due to inflation. Price indexes for inflation adjustments can be found in table 34.

Common data elements are collected in different ways in different surveys. Since the *Digest* relies on a number of data sources, there are discrepancies in definitions and data across tables in the volume. For example, several different surveys collect data on public school enrollment, and while similar, the estimates are not identical. The definitions of racial/ethnic groups also differ across surveys, particularly with respect to whether racial groups include Hispanics or Hispanics are reported separately as an ethnic group regardless of race. Individual tables note the definitions used in the given studies.

All statements cited in the text about differences between two or more groups or changes over time were tested for statistical significance and are statistically significant at the .05 level, using a two-tailed test. Various test procedures were used, depending on the nature of the statement tested. The most commonly used test procedures were *t* tests, equivalence tests, and linear trend tests. Equivalence tests were used to determine whether two statistics are substantively equivalent or substantively different. This was accomplished by using a hypothesis test to determine whether the confidence interval of the difference between sample estimates is substantively significant (i.e., greater or less than a preset substantively important difference). In most cases involving percentages, a difference of 3.0 was used to determine substantive equivalence or difference. In some comparisons involving only small percentages, a lower difference was used. In cases involving only relatively large values, a larger difference was used, such as \$1,000 in the case of annual salaries. Linear trend tests were conducted by evaluating the significance of the slope of a simple regression of the data over time, and a *t* test comparing the end points. For comparisons of data over time based on universe surveys, a linear trend test was conducted by evaluating the significance of the slope of a simple regression of the data over time and comparing the value of the end points.

# GUIDE TO TABULAR PRESENTATION

This section is intended to assist the reader in following the basic structure of the *Digest* tables and to provide a legend for some of the common symbols and indexes used throughout the book. Unless otherwise noted, all data are for the 50 states and the District of Columbia. Changes in survey instruments sometimes mean that data for specific categories are not available in a consistent manner over the entire reporting period. Because of these survey limitations, data for these specific categories may be noted as included with other categories where applicable.

The tables in this edition of the *Digest* include the most recent data available at the time the report was prepared. If no new data were available for a particular table, the table may be repeated without change from the previous edition.

## Table Components

**Title** Describes the table content concisely. (Tables may not include data for all years implied in table titles. When this is the case, the title will include the term “Selected years.”)

**Unit indicator** Informs the reader of the measurement unit in the table—“In thousands,” “In millions of dollars,” etc. Noted below the title unless several units are used, in which case the unit indicators are generally given in the spanner or individual column heads.

**Spanner** Describes a group of two or more columns.

**Column head** Describes a specific column.

**Stub** Describes a row or a group of rows. Each stub row is followed by a number of dots (leaders).

**Field** The area of the table which contains the data elements.

## Example of Table Structure

**Table Number and Title** { Table 0. Projected number of participants in educational institutions, by level and control of institution: Fall 2006

**Unit Indicator** → [In millions]

Participants	All levels (elementary, secondary, and postsecondary degree-granting)	Elementary and secondary schools ← <b>Spanner</b>		
		Total	Public	Private
1	2	3	4	5
<b>Total</b> .....	<b>82.2</b>	<b>62.0</b>	<b>55.0</b>	<b>6.8</b>
Enrollment .....	72.7	55.1	48.9	6.1
Teachers and faculty .....	4.5	3.6	3.2	0.5
Other professional, administrative, and support staff .....	5.0	3.2	2.9	0.3 <sup>1</sup>

**Field** {

**Footnote** → <sup>1</sup>Reference (numbered) notes refer to specific parts of the table.

**Note** → NOTE: Includes enrollments in local public school systems and in most private schools (religiously affiliated and nonsectarian). Excludes federal schools. Excludes private preprimary enrollment in schools that do not offer kindergarten or above. Degree-granting institutions grant associate's or higher degrees and participate in Title IV federal financial aid programs. Data for teachers and other staff in public and private elementary and secondary schools and colleges and universities are reported in terms of full-time equivalents. Detail may not sum to totals because of rounding.

**Source** → SOURCE: U.S. Department of Education, National Center for Education Statistics, *Projections of Education Statistics to 2015*; and unpublished projections and estimates. (This table was prepared September 2006.)

**Special notes** Symbols used to indicate why data do not appear in designated cell.

- Not available.
- † Not applicable.
- # Rounds to zero.
- ! Interpret data with caution.
- ‡ Reporting standards not met.

**Footnote** Describes a unique circumstance relating to a specific item within the table. Following are two typical examples:

**Estimated** Based on available information from a subset of the population of interest.

**Projected** Calculated from a forecasting model based on historical information.

**Note** Furnishes general information that relates to the entire table.

**Source** The document or reference from which the data are drawn. This note may also include the organizational unit responsible for preparing the data.

## Descriptive Terms

**Measures of central tendency** A number that is used to represent the “typical value” of a group of numbers. It is regarded as a measure of “location” or “central tendency” of a group of numbers.

**Arithmetic mean (average)** is the most commonly used measure of central tendency. It is derived by summing the individual item values of a particular group and dividing that sum by the number of items. This value is often referred to simply as the “mean” or “average.”

**Median** is the measure of central tendency that occupies the middle position in a rank order of values. It generally has the same number of items above it as below it. If there is an even number of items in the group, the median is the average of the middle two items.

**Average per capita,** or per person, figure represents an average computed for every person in a specified group, or population. It is derived by dividing the total for an item (such as income or expenditures) by the number of persons in the specified population.

**Index number** A value that provides a means of measuring, summarizing, and communicating the nature of changes that

occur from time to time or from place to place. An index is used to express changes in prices over periods of time, but may also be used to express differences between related subjects at a single point in time.

The *Digest* most often uses the Consumer Price Index to compare purchasing power over time.

To compute a price index, a base year or period is selected. The base-year price is then designated as the base or reference price to which the prices for other years or periods are related.

A method of expressing the price relationship is:

Index number =

$$\frac{\text{Price of a set of one or more items for related year}}{\text{Price of the same set of items for base year}} \times 100$$

When 100 is subtracted from the index number, the result equals the percent change in price from the base year.

**Current and constant dollars** are used in a number of tables to express finance data. Unless otherwise noted, all figures are in current dollars, not adjusted for inflation. Constant dollars provide a measure of the impact of inflation on the current dollars.

**Current dollar** figures reflect actual prices or costs prevailing during the specified year(s).

**Constant dollar** figures attempt to remove the effects of price changes (inflation) from statistical series reported in dollar terms.

The constant dollar value for an item is derived by dividing the base-year price index (for example, the Consumer Price Index for 1999) by the price index for the year of data to be adjusted and multiplying by the price of item to be adjusted. The result is an adjusted dollar value as it would presumably exist if prices were the same as the base year—in other words, as if the dollar had constant purchasing power. Any changes in the constant dollar amounts would reflect only changes in the real values.

In the 2010 edition of the *Digest*, the following 23 tables include finance data that are adjusted to school year 2008–09 dollars: tables 29, 35, 78, 82, 83, 89, 180, 183, 184, 190, 193, 194, 267, 273, 345, 348, 362, 366, 368, 373, 375, 377, and 430. Data adjusted to calendar year 2009 dollars appear in tables 25, 391, 399, and 425. Table 380 includes adjustments to fiscal year (FY) 2010 dollars.

## CHAPTER 1

# All Levels of Education

This chapter provides a broad overview of education in the United States. It brings together material from preprimary, elementary, secondary, and postsecondary education, as well as from the general population, to present a composite picture of the American educational system. Tables feature data on the total number of people enrolled in school, the number of teachers, the number of schools, and total expenditures for education at all levels. This chapter also includes statistics on education-related topics such as educational attainment, computer and internet usage, family characteristics, and population. Economic indicators and price indexes have been added to facilitate analyses.

The U.S. system of education can be described as having three levels of formal education (elementary, secondary, and postsecondary) (figure 1). Students may spend 1 to 3 years in preprimary programs (prekindergarten and kindergarten), which may be offered either in separate schools or in elementary schools that also offer higher grades. (In *Digest of Education Statistics* tables, prekindergarten and kindergarten are generally defined as a part of elementary education.) Following kindergarten, students ordinarily spend from 6 to 8 years in elementary school. The elementary school program is followed by a 4- to 6-year program in secondary school. Students normally complete the entire program through grade 12 by age 18. Education at the elementary and secondary levels is provided in a range of institutional settings—including elementary schools (preprimary schools, middle schools, and schools offering broader ranges of elementary grades); secondary schools (junior high schools, high schools, and senior high schools); and combined elementary/secondary schools—that vary in structure from locality to locality.

High school graduates who decide to continue their education may enter a technical or vocational institution, a 2-year community or junior college, or a 4-year college or university. A 2-year college normally offers the first 2 years of a standard 4-year college curriculum and a selection of terminal career and technical education programs. Academic courses completed at a 2-year college are usually transferable for credit at a 4-year college or university. A technical

or vocational institution offers postsecondary technical training leading to a specific career.

An associate's degree requires at least 2 years of college-level coursework, and a bachelor's degree normally requires 4 years of college-level coursework. At least 1 year of coursework beyond the bachelor's is necessary for a master's degree, while a doctor's degree usually requires a minimum of 3 or 4 years beyond the bachelor's.

Professional schools differ widely in admission requirements and program length. Medical students, for example, generally complete a bachelor's program of premedical studies at a college or university before they can enter the 4-year program at a medical school. Law programs normally require 3 years of coursework beyond the bachelor's degree level.

Many of the statistics in this chapter are derived from the statistical activities of the National Center for Education Statistics (NCES). In addition, substantial contributions have been drawn from the work of other groups, both governmental and nongovernmental, as shown in the source notes of the tables. Information on survey methodologies is contained in Appendix A: Guide to Sources and in the publications cited in the table source notes.

## Enrollment

Total enrollment in public and private elementary and secondary schools (prekindergarten through grade 12) grew rapidly during the 1950s and 1960s, reaching a peak year in 1971 (table A, table 3, and figure 2). This enrollment rise was caused by what is known as the "baby boom," a dramatic increase in births following World War II. From 1971 to 1984, total elementary and secondary school enrollment decreased every year, reflecting the decline in the size of the school-age population over that period. After these years of decline, enrollment in elementary and secondary schools started increasing in fall 1985, began hitting new record levels in the mid-1990s, and continued to reach new record levels every year through 2006. Enrollment in fall 2008 (55.2 million) was slightly lower than in fall 2006 (55.3 million); however, enrollment in fall 2008 was higher than in fall 2007, and enrollments are projected to continue rising.

**Table A. Total elementary and secondary school enrollment, by overall trends: Selected years, 1949–50 to fall 2009**

Trend and year	Number of students (in millions)
<b>"Baby boom" increases</b>	
1949–50 school year .....	28.5
Fall 1959 .....	40.9
Fall 1969 .....	51.1
Fall 1971 (peak) .....	51.3
<b>13 years with annual declines</b>	
Fall 1972 (first year of decline) .....	50.7
Fall 1984 (final year of decline) .....	44.9
<b>Annual increases from 1985 to 2006</b>	
Fall 1985 .....	45.0
Fall 1996 (new record highs begin) .....	51.5
Fall 2006 (final year of record highs) .....	55.3
<b>Slight decline followed by increases</b>	
Fall 2007 .....	55.2
Fall 2008 .....	55.2
Fall 2009 .....	55.3

SOURCE: U.S. Department of Education, National Center for Education Statistics, *Biennial Survey of Education in the United States, 1949–50*; *Statistics of Public Elementary and Secondary School Systems, 1959 through 1972*; Common Core of Data (CCD), 1984 through 2008; Private School Universe Survey (PSS), 1997–98 through 2007–08; and *Projections of Education Statistics to 2019*.

From 1985 to 2009, total public and private school enrollment rates changed by 2 percentage points or less for 5- and 6-year-olds (96 percent in 1985 vs. 94 percent in 2009), 7- to 13-year-olds (99 percent in 1985 vs. 98 percent in 2009), and 14- to 17-year-olds (95 percent in 1985 vs. 96 percent in 2009) (table 7). Since these enrollment rates remained relatively steady between 1985 and 2009, increases in public and private elementary and secondary school enrollment have been driven primarily by increases in the number of children in these age groups. Between 1985 and 2009, the number of 5- and 6-year-olds increased by 20 percent, the number of 7- to 13-year-olds increased by 23 percent, and the number of 14- to 17-year-olds increased by 13 percent (table 20). Increases in the enrollment rate of prekindergarten age children (ages 3 and 4) from 39 percent in 1985 to 52 percent in 2009 (table 7) and in the number of 3- and 4-year-olds from 7.1 million to 8.4 million (table 20) also contributed to overall prekindergarten through grade 12 enrollment increases.

Public school enrollment at the elementary level (prekindergarten through grade 8) rose from 29.9 million in fall 1990 to 34.2 million in fall 2003 (table 3). After a decrease of less than 1 percent between fall 2003 and fall 2004, elementary enrollment generally increased to a projected total of 34.7 million for fall 2010. Public elementary enrollment is projected to continue a pattern of annual increases through 2019 (the last year for which NCES has projected school enrollment). Public school enrollment at the secondary level (grades 9 through 12) rose from 11.3 million in 1990 to 15.0 million in 2008, with a projected enrollment of 14.7 million for 2010. Public secondary enrollment is projected to show a decrease of 3 percent between 2008 and 2011, and then increase again through 2019. Public secondary school enrollment in 2019 is expected to be about 4 percent higher than in 2010. Total public elementary and secondary

enrollment is projected to set new records every year from 2010 to 2019.

The percentage of students in private elementary and secondary schools declined from 11.4 percent in fall 1998 to 10.8 percent in fall 2008 (table 3). In fall 2010, a projected 6.0 million students were enrolled in private schools at the elementary and secondary levels.

Total public and private college and university enrollment reached 14.5 million in fall 1992 and decreased to 14.3 million in fall 1995 (table 3). Total college and university enrollment increased 43 percent between 1995 and 2009 (to 20.4 million), and a further increase of 15 percent is expected between fall 2009 and fall 2019. The percentage of college and university students who attended private colleges and universities rose from 24 to 27 percent between 1999 and 2009. In fall 2009, about 5.6 million students attended private colleges and universities, with about 3.8 million in not-for-profit institutions and 1.9 million in for-profit institutions (table 197). Enrollment increases in colleges and universities have been driven by both increases in population and increases in enrollment rates. For example, the percentage of 18- and 19-year-olds enrolled in colleges and universities rose from 44 to 50 percent between 1999 and 2009, while the enrollment rate of 20- to 24-year-olds rose from 33 percent to 39 percent (table 7). During the same period, the number of 18- and 19-year-olds rose 10 percent, and the number of 20- to 24-year-olds rose 16 percent (table 20).

## Educational Attainment

The percentages of adults 25 years old and over completing high school and higher education have been rising. In 2010, some 87 percent of the population 25 years old and over had completed at least high school, and 30 percent had completed a bachelor's or higher degree (table 8 and figure 3). These percentages are higher than in 2000, when 84 percent had completed at least high school and 26 percent had completed a bachelor's or higher degree. In 2010, about 8 percent of people 25 years old or over held a master's degree as their highest degree, 2 percent held a professional degree (e.g., medicine or law), and 1 percent held a doctor's degree (table 9 and figure 5).

## Teachers and Faculty

A projected 3.6 million elementary and secondary school full-time-equivalent (FTE) teachers were engaged in classroom instruction in the fall of 2010 (table 4), an increase of about 8 percent over 2000. The number of FTE public school teachers in 2010 was about 3.2 million, and the number of FTE private school teachers was about 0.5 million. FTE faculty at postsecondary degree-granting institutions totaled a projected 1.0 million in 2010, including 0.6 million at public institutions and 0.3 million at private institutions (table 1).

## Expenditures

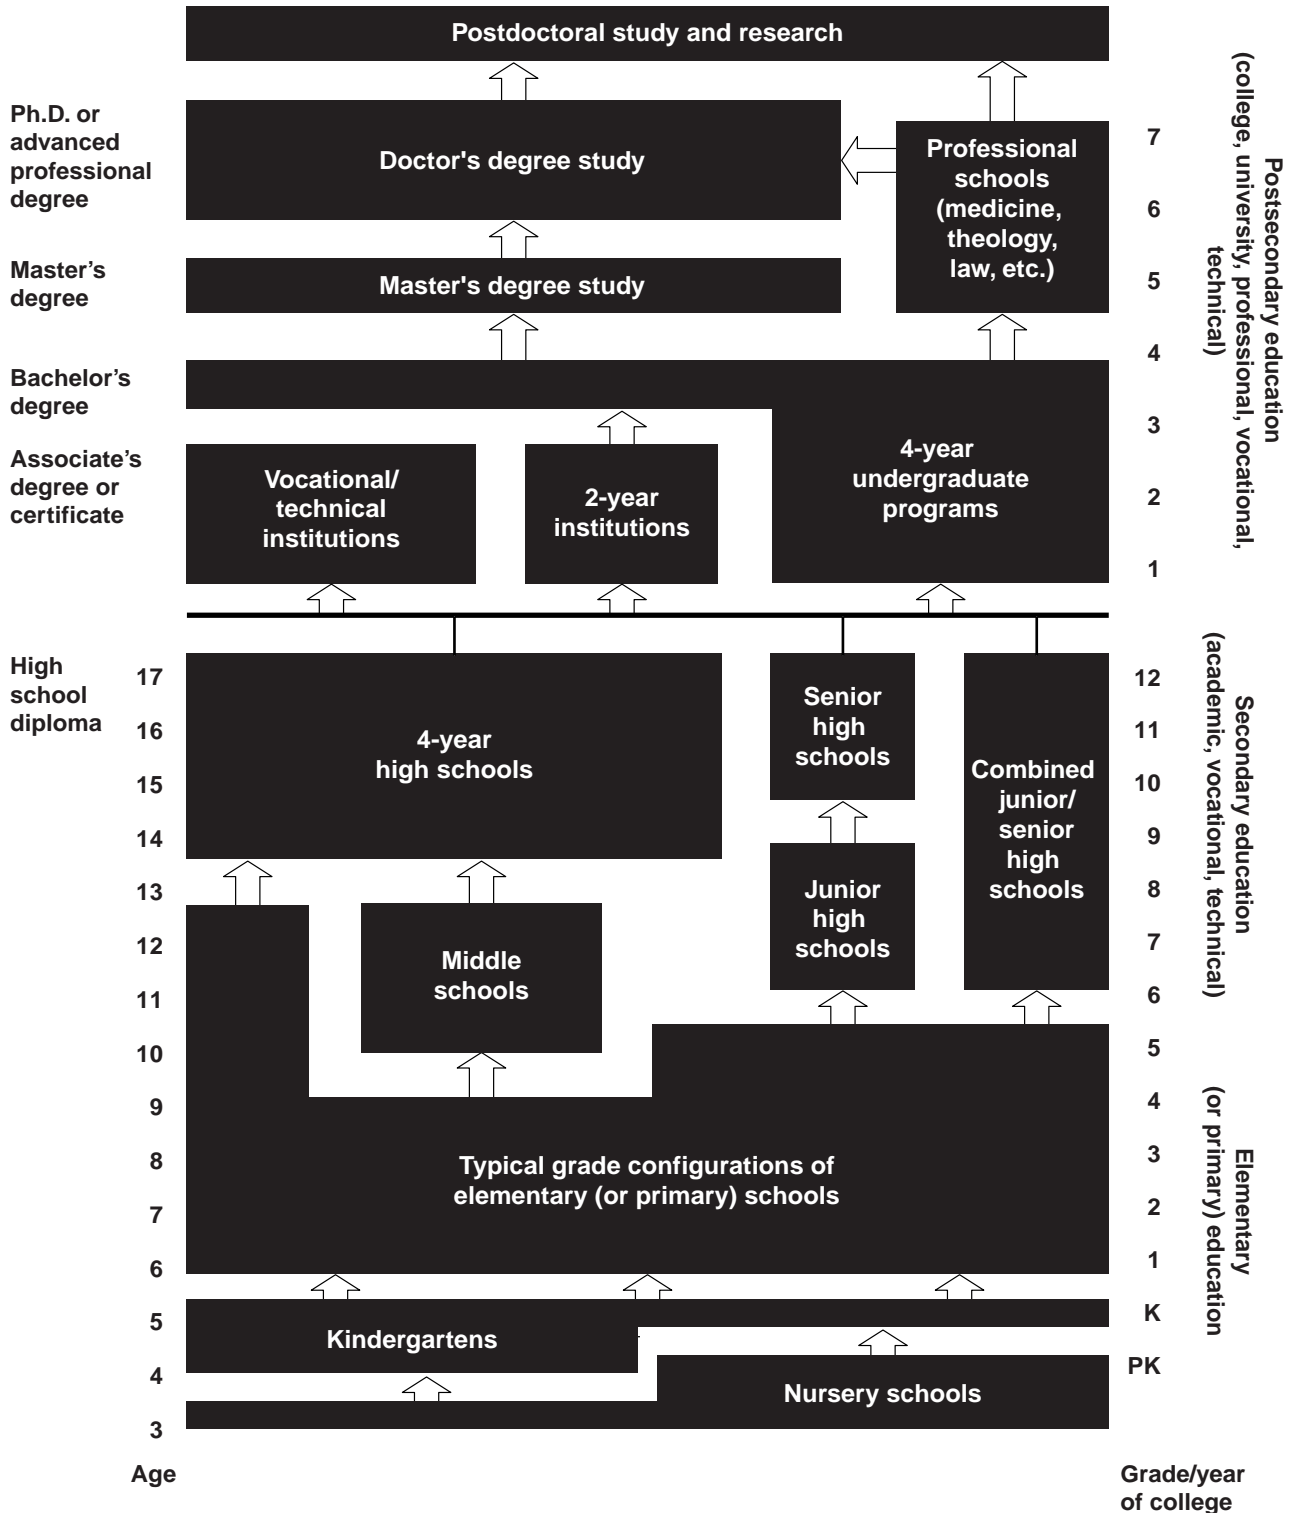

Expenditures of educational institutions rose to an estimated \$1.1 trillion for the 2009–10 school year (table 29). Elementary

and secondary schools spent about 59 percent of this total (\$650 billion), and colleges and universities spent the remaining 41 percent (\$461 billion). After adjustment for inflation, total expenditures of all educational institutions rose by an estimated 34 percent between 1999–2000 and 2009–10. Inflation-

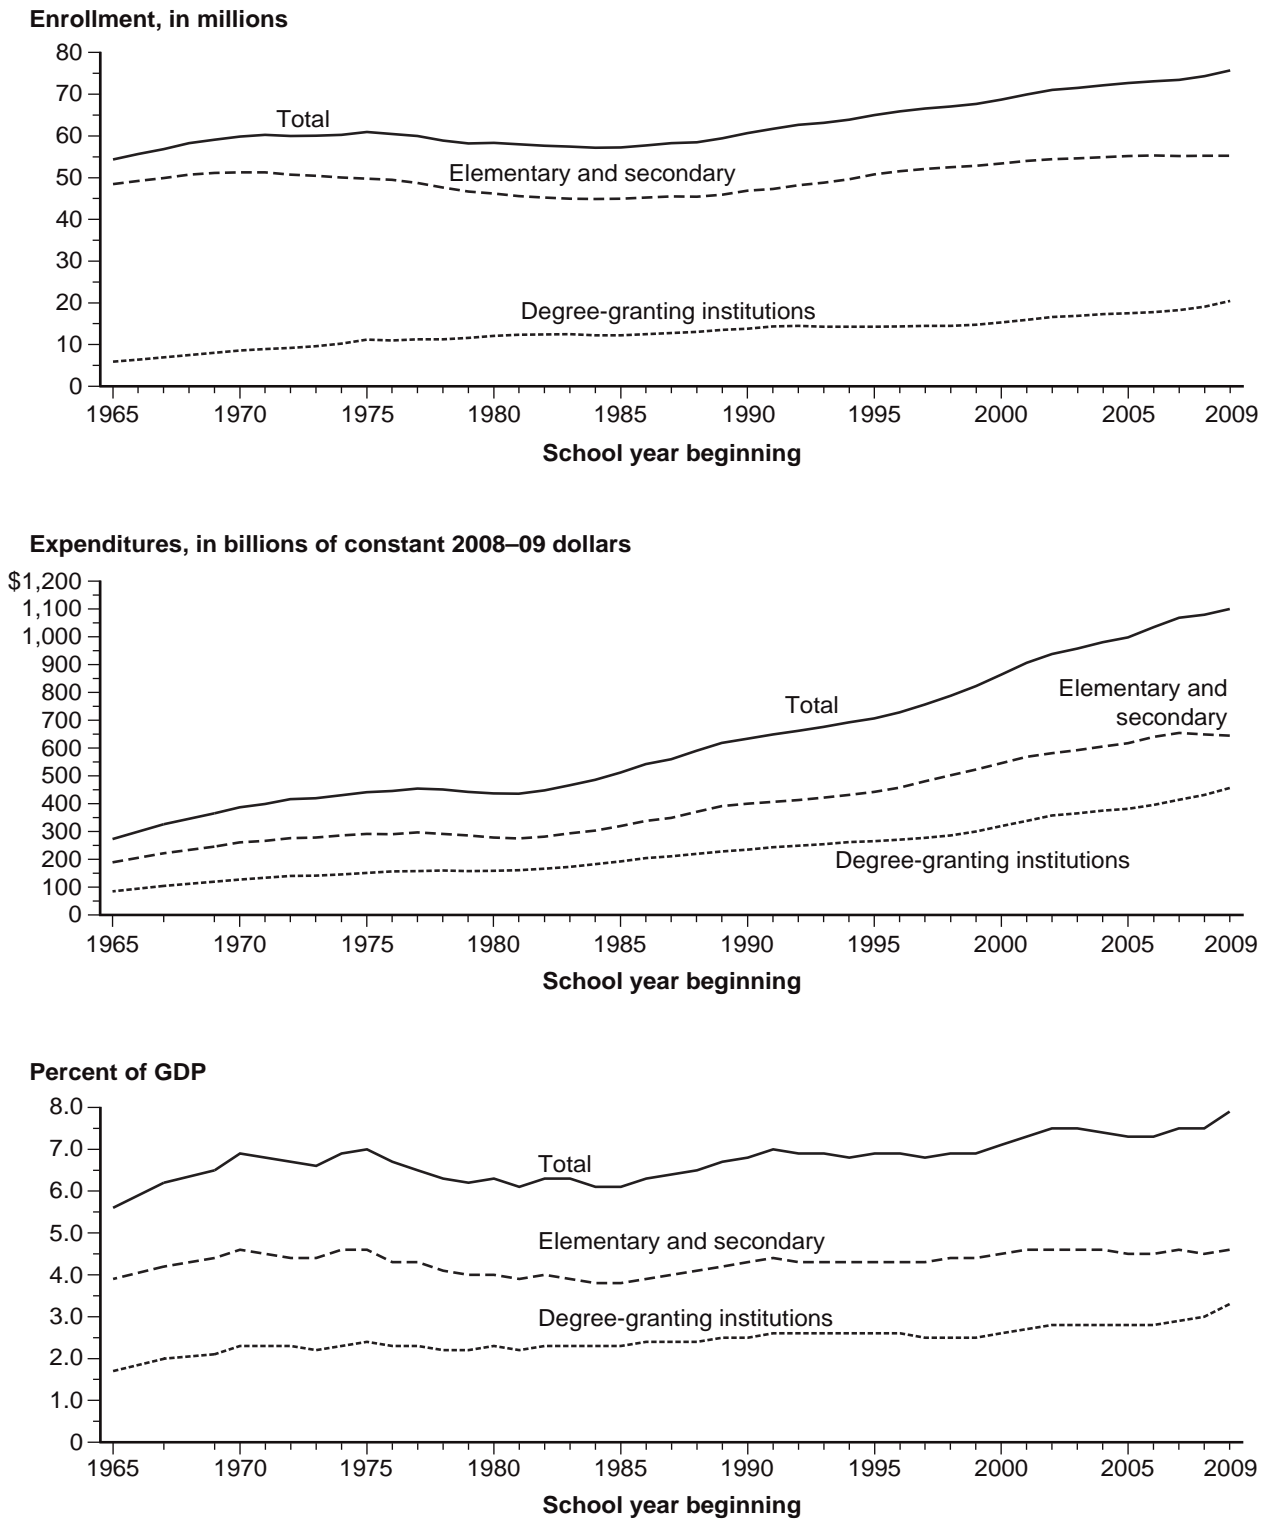

adjusted expenditures of elementary and secondary schools rose by an estimated 23 percent during this period, while those of colleges and universities rose by an estimated 52 percent. In 2009–10, expenditures of educational institutions were an estimated 7.9 percent of the gross domestic product (table 28).

**Figure 1. The structure of education in the United States**

NOTE: Figure is not intended to show relative number of institutions nor relative size of enrollment for the different levels of education. Figure reflects typical patterns of progression rather than all possible variations. Adult education programs, while not separately delineated above, may provide instruction at the adult basic, adult secondary, or postsecondary education levels. SOURCE: U.S. Department of Education, National Center for Education Statistics, Annual Reports Program.

**Figure 2. Enrollment, total expenditures in constant dollars, and expenditures as a percentage of the gross domestic product (GDP), by level of education: Selected years, 1965–66 through 2009–10**

NOTE: Expenditure data for school years 2008 and 2009 (2008–09 and 2009–10) are estimated. Enrollment data for school year 2009 (2009–10) for elementary and secondary are projected. **Table 1. Projected number of participants in educational institutions, by level and control of institution: Fall 2010**  
[In millions]

Participants	All levels (elementary, secondary, and postsecondary degree-granting)	Elementary and secondary schools			Postsecondary degree-granting institutions		
		Total	Public	Private	Total	Public	Private
1	2	3	4	5	6	7	8
<b>Total.....</b>	<b>85.9</b>	<b>62.4</b>	<b>55.6</b>	<b>6.8</b>	<b>23.5</b>	<b>16.8</b>	<b>6.7</b>
Enrollment .....	75.9	55.4	49.4	6.0	20.6	14.9	5.7
Teachers and faculty .....	4.6	3.6	3.2	0.5	1.0	0.6	0.3
Other professional, administrative, and support staff .....	5.4	3.4	3.1	0.4	1.9	1.3	0.7

NOTE: Includes enrollments in local public school systems and in most private schools (religiously affiliated and nonsectarian). Excludes federal schools. Excludes private preprimary enrollment in schools that do not offer kindergarten or above. Degree-granting institutions grant associate's or higher degrees and participate in Title IV federal financial aid programs. Data for teachers and other staff in public and private elementary and secondary

schools and colleges and universities are reported in terms of full-time equivalents. Detail may not sum to totals because of rounding.

<sup>1</sup>Includes enrollments in local public school systems and in most private schools (religiously affiliated and nonsectarian). Excludes homeschooled children who were not also enrolled in public and private schools. Based on the National Household Education Survey, the homeschooled children numbered approximately 1.5 million in 2007. Private elementary enrollment includes preprimary students in schools offering kindergarten or higher grades.

<sup>2</sup>Estimated.  
<sup>3</sup>Data are actual.

NOTE: Data through 1995 are for institutions of higher education, while later data are for degree-granting institutions. Degree-granting institutions grant associate's or higher degrees and participate in Title IV federal financial aid programs. The degree-granting classification is very similar to the earlier higher education classification, but it includes more 2-year colleges and excludes a few higher education institutions that did not grant degrees.

(See Appendix A: Guide to Sources for details.) Detail may not sum to totals because of rounding. Some data have been revised from previously published figures.

—Not available.

<sup>1</sup>Beginning in fall 1980, data include estimates for an expanded universe of private schools. Therefore, direct comparisons with earlier years should be avoided.

<sup>2</sup>Data for 1869–70 through 1949–50 include resident degree-credit students enrolled at any time during the academic year. Beginning in 1959, data include all resident and extension students enrolled at the beginning of the fall term.

<sup>3</sup>Estimated.

<sup>4</sup>Projected from *Projections of Education Statistics to 2019*. Fall 2009 data for degree-granting institutions are actual.

NOTE: Data for 1869–70 through 1949–50 reflect enrollment for the entire school year. Elementary and secondary enrollment includes students in local public school systems and in most private schools (religiously affiliated and nonsectarian), but generally excludes homeschooled children and students in subcollegiate departments of colleges and in federal schools. Based on the National Household Education Survey, the homeschooled children numbered approximately 1.5 million in 2007. Excludes preprimary pupils in private schools that do not offer kindergarten or above. Postsecondary data through 1995 are for institutions of higher education, while later data are for degree-granting institutions. Degree-granting institutions grant associate's or higher degrees and

participate in Title IV federal financial aid programs. The degree-granting classification is very similar to the earlier higher education classification, but it includes more 2-year colleges and excludes a few higher education institutions that did not grant degrees. (See Appendix A: Guide to Sources for details.) Some data have been revised from previously published figures. Detail may not sum to totals because of rounding.

—Not available.

<sup>1</sup>Includes teachers in local public school systems and in most private schools (religiously affiliated and nonsectarian). Teachers are reported in terms of full-time equivalents.

<sup>2</sup>Data through 1995 are for institutions of higher education, while later data are for degree-granting institutions. Degree-granting institutions grant associate's or higher degrees and participate in Title IV federal financial aid programs. The degree-granting classification is very similar to the earlier higher education classification, but it includes more 2-year colleges and excludes a few higher education institutions that did not grant degrees. (See Appendix A: Guide to Sources for details.) Includes full-time and part-time faculty with the rank of instructor or above in colleges, universities, professional schools, and 2-year colleges. Excludes teaching assistants.

<sup>3</sup>Estimated.

<sup>4</sup>Inclusion of institutions is not consistent with surveys for 1987 and later years.

<sup>5</sup>Data for elementary and secondary schools are projected. Data for degree-granting institutions are actual.

<sup>6</sup>Projected.

NOTE: Detail may not sum to totals because of rounding. Some data have been revised from previously published figures. Headcounts are used to report data for degree-granting institutions instructional staff.

—Not available.

†Not applicable.

<sup>1</sup>Includes special education, alternative, and other schools not classified by grade span. Because of changes in survey definitions, figures for "other" schools are not comparable from year to year.

<sup>2</sup>Data for 1980–81 and 1990–91 include schools with first or higher grades. Data for 1997–98 and later years include schools with kindergarten or higher grades.

<sup>3</sup>Included in the elementary, secondary, and combined categories.

NOTE: Postsecondary data for 1980–81 and 1990–91 are for institutions of higher education, while later data are for Title IV degree-granting and non-degree-granting institutions. Degree-granting institutions grant associate's or higher degrees and participate in Title IV federal financial aid programs. The degree-granting classification is very similar to the earlier higher education classification, but it includes more 2-year colleges and excludes a few higher edu-

cation institutions that did not grant degrees. (See Appendix A: Guide to Sources for details.) Some data have been revised from previously published figures. Detail may not sum to totals because of rounding.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Common Core of Data (CCD), "Public Elementary/Secondary School Universe Survey," 1989–90 through 2008–09; *Private Schools in American Education*; *Statistics of Public Elementary and Secondary Day Schools, 1980–81*; Schools and Staffing Survey (SASS), "Private School Data File," 1990–91; Private School Universe Survey (PSS), 1995–96 through 2007–08; Higher Education General Information Survey (HEGIS), "Institutional Characteristics of Colleges and Universities" survey, 1980–81; and 1990–91 through 2008–09 Integrated Postsecondary Education Data System (IPEDS), "Institutional Characteristics Survey" (IPEDS-IC:90–99), and Fall 2001 through Fall 2008. (This table was prepared November 2010.)

<sup>1</sup>Beginning in 1994, preprimary enrollment was collected using new procedures and may not be comparable to figures for earlier years.

NOTE: Includes enrollment in any type of graded public, parochial, or other private schools. Includes nursery schools, kindergartens, elementary schools, high schools, colleges, universities, and professional schools. Attendance may be on either a full-time or part-time basis and during the day or night. Enrollments in "special" schools, such as trade schools, business col-

leges, or correspondence schools, are not included. Total includes persons from other racial/ethnic groups not shown separately. Race categories exclude persons of Hispanic ethnicity. Standard errors appear in parentheses.

SOURCE: U.S. Department of Commerce, Census Bureau, Current Population Survey (CPS), October, selected years, 1980 through 2009. (This table was prepared July 2010.)

**Table 7. Percentage of the population 3 to 34 years old enrolled in school, by age group: Selected years, 1940 through 2009**

Year	Total, 3 to 34 years old	3 and 4 years old	5 and 6 years old	7 to 13 years old	14 to 17 years old			18 and 19 years old			20 to 24 years old			25 to 29 years old	30 to 34 years old

—Not available.  
†Not applicable.

†Preprimary enrollment collected using new procedures. Data may not be comparable to figures for earlier years.  
NOTE: Data for 1940 are for April. Data for all other years are as of October. Includes enrollment in any type of graded public, parochial, or other private schools. Includes nursery schools, kindergartens, elementary schools, high schools, colleges, universities, and professional schools. Attendance may be on either a full-time or part-time basis and during the day or night.

Enrollments in "special" schools, such as trade schools, business colleges, or correspondence schools, are not included. Standard errors appear in parentheses.

—Not available.

†Not applicable.

<sup>1</sup>Includes persons of Hispanic ethnicity for years prior to 1980.

<sup>2</sup>Includes Pacific Islanders for years prior to 2003.

<sup>3</sup>Data for years prior to 1993 are for persons with 4 or more years of high school. Data for later years are for high school completers—i.e., those persons who graduated from high school with a diploma, as well as those who completed high school through equivalency programs, such as a GED program.

<sup>4</sup>Data for years prior to 1993 are for persons with 4 or more years of college.

<sup>5</sup>Estimates based on Census Bureau reverse projection of 1940 census data on education by age.

NOTE: Totals include other racial/ethnic groups not separately shown. Race categories exclude persons of Hispanic ethnicity except where otherwise noted. Standard errors appear in parentheses.

‡Interpret data with caution.

‡Reporting standards not met.

NOTE: Total includes other racial/ethnic groups not shown separately. Although cells with fewer than 75,000 weighted persons are subject to relatively wide sampling variation, they are included in the table to permit various types of aggrega-

tions. Race categories exclude persons of Hispanic ethnicity. Detail may not sum to totals because of rounding. Standard errors appear in parentheses.

#Rounds to zero.

<sup>1</sup>High school completers include diploma recipients and those completing through alternative credentials, such as a GED.

<sup>2</sup>Use of a 3-year average increases the sample size, thereby reducing the size of sampling errors and producing more stable estimates.

NOTE: Detail may not sum to totals because of rounding. Standard errors appear in parentheses.

<sup>1</sup>Information on metropolitan status was suppressed for a small portion of sample observations. As a result, population estimates for these areas may be slightly underestimated.  
NOTE: CSA = Combined Statistical Area; CBSA = Core Based Statistical Area. Detail may not sum to totals because of rounding. Standard errors appear in parentheses.

—Not available.

†Not applicable.

‡Reporting standards not met.

<sup>1</sup>Individuals may be counted in more than one internet activity.

<sup>2</sup>Data are for persons 12 years old and over.

<sup>3</sup>Data are for persons 15 years old and over.

<sup>4</sup>Includes online banking and stock and securities transactions.

<sup>5</sup>Excludes persons whose income data were not available.

<sup>6</sup>Includes prekindergarten through grade 12.

NOTE: Data are based on a sample survey of households and are subject to sampling and nonsampling error. Race categories exclude persons of Hispanic ethnicity. Detail may not sum to totals because of rounding. Standard errors appear in parentheses. SOURCE: U.S. Department of Commerce, Census Bureau, Current Population Survey (CPS), October 2003, unpublished tabulations. (This table was prepared May 2005.)

**Table 16. Number and percentage of persons 3 years old and over using the Internet and percentage distribution by means of internet access from home and main reason for not having high-speed access, by selected characteristics of students and other users: 2009**

Selected characteristic	Total population age 3 and over (in thousands)	Persons using the Internet anywhere		Among internet users, percent using the Internet from home	Percentage distribution of home internet users, by means of access from home			Percentage distribution of persons with no internet access at home or no high-speed access at home, by main reason for not having high-speed access

†Not applicable.

!Interpret data with caution.

‡Reporting standards not met.

<sup>1</sup>Includes DSL, cable, modem, satellite, wireless, mobile phone or PDA, fiber optics or other broadband, and other.

<sup>2</sup>Includes prekindergarten through grade 12.

NOTE: Data are based on a sample survey of households and are subject to sampling and nonsampling error. Race categories exclude persons of Hispanic ethnicity. Detail may not sum to totals because of rounding. Standard errors appear in parentheses. SOURCE: U.S. Department of Commerce, Census Bureau, Current Population Survey (CPS), October 2009. (This table was prepared November 2010.)

<sup>1</sup>Includes students enrolled in prekindergarten through grade 12, ages 3 and above.

<sup>2</sup>Includes students enrolled at the undergraduate and postbaccalaureate levels.

<sup>3</sup>Excludes persons whose income data were not available.

NOTE: Data are based on a sample survey of households and are subject to sampling and nonsampling error. Race categories exclude persons of Hispanic ethnicity. Standard errors appear in parentheses.

—Not available.

<sup>1</sup>Included under Asian.

<sup>2</sup>Data on persons of two or more races were collected beginning in 2000. Direct comparability of the data (other than Hispanic) prior to 2000 with the data for 2000 and later years is limited by the extent to which people reporting more than one race in later years had been reported in specific race groups in earlier years.

NOTE: Resident population includes civilian population and armed forces personnel residing within the United States; it excludes armed forces personnel residing overseas. Race categories exclude persons of Hispanic ethnicity. Detail may not sum to totals because of rounding. Some data have been revised from previously published figures. Estimates as of July 1. SOURCE: U.S. Department of Commerce, Census Bureau, Population Estimates, retrieved September 10, 20

<sup>1</sup>As of April 1.

<sup>2</sup>Estimates as of July 1.

NOTE: Resident population includes civilian population and armed forces personnel residing within the United States and within each state; it excludes armed forces personnel residing overseas. Some data have been revised from previously published figures. Detail may not sum to totals because of rounding.

SOURCE: U.S. Department of Commerce, Census Bureau, *Current Population Reports*, Series P-25, No. 1095; CPH-L-74 (1990 data); and 2000 through 2009 Population Estimates, retrieved September 10, 2010, from <http://www.census.gov/popest/datasets.html>. (This table was prepared September 2010.)

†Not applicable.

‡Reporting standards not met.

<sup>1</sup>Related children in a family include own children and all other children in the household who are related to the householder by birth, marriage, or adoption.

<sup>2</sup>Based on 1989 incomes collected in the 1990 census. Data may differ from figures derived from the Current Population Survey.

<sup>3</sup>Based on 1999 incomes collected in the 2000 census. Data may differ from figures derived from the Current Population Survey.

NOTE: Detail may not sum to totals because of rounding. Standard errors appear in parentheses. SOURCE: U.S. Department of Commerce, Census Bureau, 1990 Summary Tape File 3 (STF 3), "Median Household Income in 1989" and "Poverty Status in 1989 by Family Type and Age,"

—Not available.

<sup>1</sup>Estimated.

NOTE: Total expenditures for public elementary and secondary schools include current expenditures, interest on school debt, and capital outlay. Data for private elementary and secondary schools are estimated. Expenditures for colleges and universities in 1929–30 and 1939–40 include current-fund expenditures and additions to plant value. Public and private degree-granting institutions data for 1949–50 through 1995–96 are for current-fund expenditures. Data for private degree-granting institutions for 1996–97 and later years are for total expenditures. Data for public degree-granting institutions for 1996–97 through 2000–01 are for current expenditures; data for later years are for total expenditures. Data through 1995–96 are for institutions of higher education, while later data are for degree-granting institutions. Degree-granting institutions grant associate's or higher degrees and participate in Title IV federal financial aid programs. The degree-granting classification is very similar to the earlier higher education classification, but it includes more 2-year colleges and excludes a few higher education institutions that did not grant degrees. (See

Appendix A: Guide to Sources for details.) Some data have been revised from previously published figures. Detail may not sum to totals because of rounding.

—Not available.

<sup>1</sup>Constant dollars based on the Consumer Price Index, prepared by the Bureau of Labor Statistics, U.S. Department of Labor, adjusted to a school-year basis.

<sup>2</sup>Estimated.

<sup>3</sup>Data include current-fund expenditures and additions to plant value.

NOTE: Total expenditures for public elementary and secondary schools include current expenditures, interest on school debt, and capital outlay. Public and private degree-granting institutions data for 1929–30 through 1995–96 are for current-fund expenditures, except where noted. Data for private degree-granting institutions for 1996–97 and later years are for total expenditures. Data for public degree-granting institutions for 1996–97 through 2000–01 are for current expenditures; data for later years are for total expenditures. Postsecondary data through 1995–96 are for institutions of higher education, while later data are for degree-granting institutions. Degree-granting institutions grant associate's or higher degrees and participate in Title IV federal financial aid programs. The degree-granting classification is very similar to the earlier higher education classification, but it

includes more 2-year colleges and excludes a few higher education institutions that did not grant degrees. (See Appendix A: Guide to Sources for details.) Some data have been revised from previously published figures. Detail may not sum to totals because of rounding.

#Rounds to zero.

<sup>1</sup>Includes state and local government expenditures for education services, social services and income maintenance, transportation, public safety, environment and housing, governmental administration, interest on general debt, and other general expenditures.

<sup>2</sup>Includes assistance and subsidies to individuals, private elementary and secondary schools, and private colleges and universities, as well as miscellaneous education expenditures.

NOTE: Current expenditure data in this table differ from figures appearing in other tables because of slightly varying definitions used in the Governmental Finances and Common Core of Data surveys. Standard errors appear in parentheses. In 2006–07, a census of state and local governments was conducted; therefore, standard errors are not applicable. Detail may not sum to totals because of rounding.

<sup>1</sup>Includes state and local government expenditures for education services, social services and income maintenance, transportation, public safety, environment and housing, governmental administration, interest on general debt, and other general expenditures.

<sup>2</sup>Includes assistance and subsidies to individuals, private elementary and secondary schools, and private colleges and universities, as well as miscellaneous education expenditures.

NOTE: Per capita amounts are based on population figures as of July 2008. Detail may not sum to totals because of rounding.

—Not available.

<sup>1</sup>Data for years prior to 1963 include expenditures for government fiscal years ending during that particular calendar year. Data for 1963 and later years are the aggregations of expenditures for government fiscal years that ended on June 30 of the stated year. General expenditures exclude expenditures of publicly owned utilities and liquor stores, and of insurance-trust activities. Intergovernmental payments between state and local governments are excluded. Payments to the federal government are included.

<sup>2</sup>Constant dollars based on a chain-price index, which uses the geometric mean of output weights of adjacent time periods compiled over a time series. Chain-price indexes reflect changes in prices, while implicit price deflators reflect both changes in prices and in the composition of output.

<sup>3</sup>Population of the United States including armed forces overseas. Includes Alaska and Hawaii beginning in 1960.

<sup>4</sup>Resident population of the United States. Includes Alaska and Hawaii beginning in 1958. Data for 1990 and later years include revisions based on the 2000 census. Excludes overseas armed personnel.

NOTE: Gross domestic product (GDP) data are adjusted by the GDP chained weight price deflator. Personal income data are adjusted by the personal consumption deflator. Some data have been revised from previously published figures.

## CHAPTER 2

# Elementary and Secondary Education

This chapter contains a variety of statistics on public and private elementary and secondary education. Data are presented for enrollments, teachers and other school staff, schools, dropouts, achievement, school violence, and revenues and expenditures. These data are derived from surveys, censuses, and administrative data collections conducted by the National Center for Education Statistics (NCES) and other public and private organizations. The information ranges from counts of students and schools to state graduation requirements.

### Enrollments

Public elementary and secondary school enrollment rose from 48.5 million in 2003 to 49.3 million in 2008 (an increase of 1 percent), but enrollment at the elementary and secondary levels increased at different rates (table 39 and figure 6). Public elementary enrollment (prekindergarten through grade 8) was 0.2 percent higher in 2008 (34.3 million) than in 2003 (34.2 million), while public secondary enrollment was 4 percent higher in 2008 (15.0 million) than in 2003 (14.3 million). Enrollments in private elementary and secondary schools decreased by an estimated 2 percent between 2003 and 2008, from 6.1 million to 6.0 million (table 3).

In 2009, about 63 percent of 3- to 5-year-olds were enrolled in preprimary education (nursery school and kindergarten), similar to the proportion in 2000 (table 52 and figure 7). However, the percentage of children in full-day programs increased from 2000 to 2009. In 2009, about 61 percent of the children enrolled in preprimary education attended a full-day preprimary program, compared with 53 percent in 2000.

A higher percentage of 4-year-old children (57 percent) were cared for primarily in center-based programs during the day in 2005–06 than were cared for in home-based settings by their parents (20 percent), in home-based settings by relatives (13 percent), or in home-based settings by nonrelatives (8 percent) (table 55). There were differences in the average quality of care children received in these settings. A higher

percentage of children in Head Start and other center-based programs (35 percent) received high-quality care than those in home-based relative and nonrelative care (9 percent), according to the ratings of trained observers (table 56).

The Individuals with Disabilities Education Act (IDEA), enacted in 1975, mandates that children and youth ages 3–21 with disabilities be provided a free and appropriate public school education. The percentage of total public school enrollment that represents children served by federally supported special education programs increased from 8.3 percent to 13.2 percent between 1976–77 and 2008–09 (table 45). Much of this overall increase can be attributed to a rise in the percentage of students identified as having specific learning disabilities from 1976–77 (1.8 percent) to 1990–91 (5.2 percent). The overall percentage of students being served in programs for those with disabilities decreased between 2003–04 (13.7 percent) and 2008–09 (13.2 percent). However, there were different patterns of change in the percentages served with some specific conditions between 2003–04 and 2008–09. The percentage of children identified as having other health impairments (limited strength, vitality, or alertness due to chronic or acute health problems such as a heart condition, tuberculosis, rheumatic fever, nephritis, asthma, sickle cell anemia, hemophilia, epilepsy, lead poisoning, leukemia, or diabetes) rose from 1.0 to 1.3 percent of total public school enrollment; the percentage with autism rose from 0.3 to 0.7 percent; and the percentage with developmental delays rose from 0.6 to 0.7 percent. The percentage of children with specific learning disabilities declined from 5.8 percent to 5.0 percent of total public school enrollment during this period. In fall 2008, some 95 percent of 6- to 21-year-old students with disabilities were served in regular schools; 3 percent were served in a separate school for students with disabilities; 1 percent were placed in regular private schools by their parents; and less than 1 percent each were served in one of the following environments: in a separate residential facility, homebound or in a hospital, or in a correctional facility (table 46).

## Teachers and Other School Staff

During the 1970s and early 1980s, public school enrollment decreased, while the number of teachers generally increased. For public schools, the number of pupils per teacher—that is, the pupil/teacher ratio<sup>1</sup>—declined from 22.3 in 1970 to 17.9 in 1985 (table 68 and figure 6). After 1985, the public school pupil/teacher ratio continued to decline, reaching 17.2 in 1989. After a period of relative stability during the late 1980s through the mid-1990s, the ratio declined from 17.3 in 1995 to 16.0 in 2000. Decreases have continued since then, and the public school pupil/teacher ratio was 15.3 in 2008. By comparison, the pupil/teacher ratio for private schools was estimated at 13.1 in 2008. The average class size in 2007–08 was 20.0 pupils for public elementary schools and 23.4 pupils for public secondary schools (table 71).

In 2007–08, some 76 percent of public school teachers were female, 44 percent were under age 40, and 52 percent had a master’s or higher degree (table 72). Compared with public school teachers, a lower percentage of private school teachers were female (74 percent), were under age 40 (39 percent), and had a master’s or higher degree (38 percent).

Public school principals tend to be older and have more advanced credentials than public school teachers. In 2007–08, some 19 percent of public school principals were under age 40, and 99 percent of public school principals had a master’s or higher degree (table 89). A lower percentage of principals than of teachers were female: about 50 percent of public school principals were female, compared with 76 percent of teachers.

From 1969–70 to 1980, there was an 8 percent increase in the number of public school teachers, compared with a 48 percent increase in the number of all other public school staff<sup>2</sup> (table B and table 84). Consequently, the percentage of staff who were teachers declined from 60 percent in 1969–70 to 52 percent in 1980. From 1980 to 2008, the number of teachers and the number of all other staff grew at more similar rates (47 and 56 percent, respectively) than they did in the 1970s. As a result, the proportion of teachers among total staff was 1 percentage point lower in 2008 than in 1980, in contrast to the decrease of 8 percentage points during the 1970s. Two staff categories increased more than 100 percent between 1980 and 2008—instructional aides, which rose 125 percent, and instructional coordinators, which rose 257 percent. Taken together, the percentage of

<sup>1</sup> The pupil/teacher ratio is based on all teachers—including teachers for students with disabilities and other special teachers—and all students enrolled in the fall of the school year. Unlike the pupil/teacher ratio, the average class size excludes students and teachers in classes that are exclusively for special education students. Class size averages are based on surveys of teachers reporting on the counts of students in their classes.

<sup>2</sup> “All other public school staff” includes administrative staff, principals, librarians, guidance counselors, secretaries, custodial staff, food service workers, school bus drivers, and other professional and nonprofessional staff.

staff with some instructional responsibilities (teachers and instructional aides) increased from 60 to 63 percent between 1980 and 2008. In 2008, there were 8 pupils per staff member (total staff) at public schools, compared with 10 pupils per staff member in 1980. At private schools in 2007, by comparison, the number of pupils per staff member was 7 (table 64).

**Table B. Number of public school staff, by selected categories: 1969–70, 1980, and 2008**

## Schools

During most of the last century, the trend to consolidate small schools brought declines in the total number of public schools in the United States. In 1929–30, there were approximately 248,000 public schools, compared with about 99,000 in 2008–09 (table 90). But this number has increased over the past 10 years: between 1998–99 and 2008–09, there was an increase of approximately 7,800 schools. Since the early 1970s, public school systems have been shifting away from junior high schools (schools consisting of either grades 7 and 8 or grades 7 to 9) and toward middle schools (a subset of elementary schools beginning with grade 4, 5, or 6 and ending with grade 6, 7, or 8) (table 97). Although the number of all elementary schools (schools beginning with grade 6 or below and having no grade higher than 8) was 1 percent lower in 1998–99 than in 1970–71 (63,500 vs. 64,000), the number of middle schools was 439 percent higher in 1998–99 than in 1970–71 (11,200 vs. 2,100). During the same period, the number of junior high schools declined by 53 percent (from 7,800 in 1970–71 to 3,600 in 1998–99). Between 1998–99 and 2008–09, the number of all elementary schools rose by 6 percent to 67,100, while the subset of middle schools rose by 17 percent to 13,100. During the same period, the number of junior high schools declined by 16 percent to 3,000.

The average number of students in public elementary schools declined from 478 students in 1998–99 to 470 students in 2008–09 (table 99). The average enrollment size of public secondary schools increased from 707 students in 1998–99 to 722 in 2003–04, but then decreased to an average of 704 students in 2008–09. The average size of regular public secondary schools, which exclude alternative, special education, and vocational education schools, rose from 786 students to 807 between 1998–99 and 2008–09.

## High School Graduates and Dropouts

About 3,252,000 high school students are expected to graduate during the 2010–11 school year (table 110), including 2,937,000 public school graduates and 315,000 private school graduates. High school graduates include only recipients of diplomas, not recipients of equivalency credentials. The 2010–11 projection of high school graduates is lower than the record-high projection of 3,319,000 graduates for 2008–09, but exceeds the high point during the baby boom era in 1975–76, when 3,142,000 students earned diplomas. In 2007–08, an estimated 74.7 percent of public high school students graduated on time—that is, received a diploma 4 years after beginning their freshman year (table 112).

The number of General Educational Development (GED) credentials issued by the states to GED test passers rose from 330,000 in 1977 to 487,000 in 2000 (table 114). A record number of 648,000 GED credentials were issued in 2001. In 2002, there were revisions to the GED test and to the data reporting procedures. In 2001, test takers were required to successfully complete all five components of the GED or else begin the five-part series again with the new test that was introduced in 2002. Prior to 2002, reporting was based on summary data from the states on the number of GED credentials issued. As of 2002, reporting has been based on individual GED candidate- and test-level records collected by the GED Testing Service. In 2009, some 448,000 passed the GED tests, up from 330,000 in 2002, the first year of the new test series.<sup>3</sup>

The percentage of dropouts among 16- to 24-year-olds has shown some decreases over the past 20 years. This percentage, known as the status dropout rate, includes all people in the 16- to 24-year-old age group who are not enrolled in school and who have not completed a high school program, regardless of when they left school. (People who left school but went on to receive a GED credential are not treated as dropouts.) Between 1989 and 2009, the status dropout rate declined from 12.6 to 8.1 percent (table 115). Although the status dropout rate declined for both Blacks and Hispanics during this period, their rates (9.3 and 17.6 percent, respectively) remained higher than the rate for Whites (5.2 percent) in 2009. This measure is based on the civilian noninstitutionalized population, which excludes people in prisons, people in the military, and other people not living in households.

## Achievement

Most of the student performance data in the *Digest* are drawn from the National Assessment of Educational Progress (NAEP). The NAEP assessments have been conducted

using three basic designs: the national main NAEP, state NAEP, and long-term trend NAEP. The main NAEP reports current information for the nation and specific geographic regions of the country. The assessment program includes students drawn from both public and nonpublic schools and reports results for student achievement at grades 4, 8, and 12. The main NAEP assessments follow the frameworks developed by the National Assessment Governing Board and use the latest advances in assessment methodology. Because the assessment items reflect curricula associated with specific grade levels, the main NAEP uses samples of students at those grade levels.

Since 1990, NAEP assessments have also been conducted at the state level. Each participating state receives assessment results that report on the performance of students in that state. In its content, the state assessment is identical to the assessment conducted nationally. From 1990 through 2001, the national sample was a subset of the combined sample of students assessed in each participating state along with an additional sample from the states that did not participate in the state assessment. For mathematics and reading assessments since 2002, a combined sample of public schools has been selected for both 4th- and 8th-grade state and national NAEP.

NAEP long-term trend assessments are designed to give information on the changes in the basic achievement level of America's youth since the early 1970s. They are administered nationally and report student performance in reading and mathematics at ages 9, 13, and 17. Measuring long-term trends of student achievement requires the precise replication of past procedures. For example, students of specific ages are sampled in order to maintain consistency with the original sample design. Similarly, the long-term trend instrument does not evolve based on changes in curricula or in educational practices. The differences in procedures between the main NAEP and the long-term trend NAEP mean that their results cannot be compared directly.

## Reading

Reported on a scale of 0 to 500, NAEP long-term trend results in reading are available for 12 assessment years going back to the first in 1971. The average reading score for 9-year-olds was higher in 2008 than in all previous assessment years, increasing 4 points since 2004 and 12 points in comparison to 1971 (table 124). While the average score for 13-year-olds in 2008 was higher than in both 2004 and 1971, it was not significantly different from the scores in some assessment years in between. The average reading score for 17-year-olds was higher in 2008 than in 2004 but was not significantly different from the score in 1971.

White, Black, and Hispanic 9-, 13-, and 17-year-olds all had higher average reading scores in 2008 than they did in the first assessment year (which is 1975 for Hispanic students because separate data for Hispanics were not collected in 1971). At age 9, White, Black, and Hispanic students scored higher in 2008, on average, than in any previous assessment

<sup>3</sup> Information on changes in GED test series and reporting is based on the 2003 edition of *Who Passed the GED Tests?*, by the GED Testing Service of the American Council on Education, as well as communication with staff of the GED Testing Service.

year. In comparison to 2004, average reading scores were higher in 2008 for White students at all three ages, for Black students at ages 9 and 13, and for Hispanic students at age 9. Reading results for 2008 continued to show gaps in scores between White and Black students (ranging from 21 to 29 points, depending on age) and between White and Hispanic students (ranging from 21 to 26 points). From 2004 to 2008, no significant changes were seen in these reading score gaps. However, the White-Black reading gap was smaller in 2008 than in 1971 at all three ages, and the White-Hispanic reading gap narrowed at ages 9 and 17 in comparison to 1975.

In 2008, female students continued to have higher average reading scores than male students at all three ages. The gap between male and female 9-year-olds was 7 points in 2008; this was not significantly different from the gap in 2004 but was narrower than the gap in 1971. The 8-point gender gap for 13-year-olds in 2008 was not significantly different from the gaps in either 2004 or 1971. At age 17, the 11-point gap between males and females in 2008 was not significantly different from the gaps in any of the previous assessment years.

The main NAEP assessment data were first collected in 1992 and are reported on a scale of 0 to 500. From 2007 to 2009, there were no measurable changes in average reading scores for 4th-grade males and females or for 4th-grade students from any of the five racial/ethnic groups (table 125). From 1992 to 2009, male 4th-graders' average reading scores increased from 213 to 218 and female 4th-graders' scores increased from 221 to 224 (table 126). At grade 4, the average reading scores in 2009 for White, Black, Hispanic, Asian/Pacific Islander, and American Indian/Alaska Native students were not measurably different from their scores in 2007 (table 125). The 2009 reading scores for White, Black, and Hispanic students did, however, remain higher than scores from assessment years prior to 2007. The 2009 average NAEP reading scale score for 8th-graders was 1 point higher than the 2007 score and 4 points higher than the 1992 score, but the 2009 score was not always measurably different from the scores on the assessments given between 1994 and 2005. For 12th-graders, the 2009 average reading score was 4 points lower than the score in 1992 but 2 points higher than the score in 2005 (12th-graders were not assessed in 2007).

The 2009 main NAEP reading assessment of states found that the average reading proficiency of public school 4th- and 8th-graders varied across participating jurisdictions (the 50 states, the Department of Defense overseas and domestic schools, and the District of Columbia). For 4th-graders in public schools, the U.S. average score was 220, with average scores in participating jurisdictions ranging from 202 in the District of Columbia to 234 in Massachusetts (table 129). For 8th-graders in public schools, the U.S. average score was 262, with average scores in participating jurisdictions ranging from 242 in the District of Columbia to 274 in Massachusetts (table 130).

## Mathematics

NAEP long-term trend mathematics results, reported on a scale of 0 to 500, are available for 11 assessment years, going back to the first in 1973. Average mathematics scores for 9- and 13-year-olds were higher in 2008 than in all previous assessment years (table 140). The average score for 9-year-olds in 2008 was 4 points higher than in 2004 and 24 points higher than in 1973. For 13-year-olds, the average score in 2008 was 3 points higher than in 2004 (based on unrounded scores) and 15 points higher than in 1973. In contrast, the average score for 17-year-olds in 2008 was not significantly different from the scores in 2004 and 1973.

White, Black, and Hispanic 9-, 13-, and 17-year-olds all had higher average mathematics scores in 2008 than in 1973. In comparison to 2004, average mathematics scores were higher in 2008 for White students at age 9. From 2004 to 2008, there were no significant changes in scores for 9-, 13-, and 17-year-old Black and Hispanic students or for 13- and 17-year-old White students. Mathematics results for 2008 continued to show score gaps between White and Hispanic students (ranging from 16 to 23 points, depending on age) and between White and Black students (ranging from 26 to 28 points). Across all three age groups, neither the White-Black gap nor the White-Hispanic gap in mathematics scores changed significantly from 2004 to 2008, but both were smaller in 2008 than in 1973.

While there was no significant difference between the average mathematics scores of male and female 9-year-olds in 2008, male students did score higher than female students at ages 13 and 17. At age 13, the 4-point gap between males and females in 2008 was not significantly different when compared to the gap in 2004, but it was larger than the gap in 1973. At age 17, the 5-point gender score gap in 2008 was not significantly different from the gaps in previous assessment years.

On the main NAEP mathematics assessment, gains in average scores seen in earlier years continued from 2007 to 2009 at grade 8 but not at grade 4. At grade 8, the average NAEP mathematics score (reported on a scale of 0 to 500) increased 2 points from 2007 to 2009 and was higher in 2009 than in any previous assessment year (table 146). At grade 4, the average score in 2009 was unchanged from the score in 2007 but still higher than the scores in the six assessment years from 1990 to 2005. From 2007 to 2009, no significant score changes occurred at grade 4 for males or females or for any of the racial/ethnic groups. At grade 8, average scores increased from 2007 to 2009 for both male and female students as well as for White, Black, Hispanic, and Asian/Pacific Islander students. For American Indian/Alaska Native 8th-graders, no measurable differences were detected in average scores over the assessment years. Because of major changes to the grade 12 mathematics assessment, results from 2005 and 2009 cannot be compared with results from earlier assessment years. For 12th-graders, the average mathematics score (reported on a scale of 0 to 300) was 3 points higher in 2009 than in 2005. Average

scores increased from 2005 to 2009 for both male and female 12th-graders as well as for 12th-graders from all the racial/ethnic groups.

The 2009 main NAEP assessment of states found that the average mathematics proficiency of public school 4th- and 8th-graders varied across participating jurisdictions (the 50 states, the Department of Defense overseas and domestic schools, and the District of Columbia). For 4th-graders in public schools, the U.S. average score was 239, with average scores in participating jurisdictions ranging from 219 in the District of Columbia to 251 in New Hampshire and 252 in Massachusetts (table 143). For 8th-graders in public schools, the U.S. average score was 282, with average scores in participating jurisdictions ranging from 254 in the District of Columbia to 299 in Massachusetts (table 144).

## Science

NAEP has assessed the science abilities of students in grades 4, 8, and 12 since 1996, using a separate scale of 0 to 300 for each grade. From 1996 to 2005, the national average 4th-grade science score increased from 147 to 151, there was no measurable change in the 8th-grade score, and the 12th-grade score decreased from 150 to 147 (table 148). Certain subgroups outperformed others in science in 2005. For example, males outperformed females at all three grades. White students scored higher, on average, than Black and Hispanic students at all three grades in 2005. At 4th grade, average scores were higher for White, Black, Hispanic, and Asian/Pacific Islander students in 2005 than in 1996. At 8th grade, the average score for Black students was higher in 2005 than in 1996, but no measurable increases occurred for other racial/ethnic groups from 1996 to 2005. At 12th grade, there were no measurable changes in average scores for any racial/ethnic group when comparing results from 2005 with those from 1996. Asian/Pacific Islander 4th-graders' results from 2000 are not included because reporting standards were not met.

## Skills of Young Children

In addition to student performance data available through NAEP, the *Digest* presents data from other surveys to provide additional perspectives on student achievement. Differences among demographic groups in the acquisition of cognitive skills have been demonstrated at relatively early ages in the Early Childhood Longitudinal Survey, Birth Cohort (ECLS-B) (tables 119, 120, and 121).

In 2003–04, about 64 percent of 2-year-olds demonstrated proficiency in expressive vocabulary, which measured toddlers' ability to communicate using gestures, words, and sentences (table 119). The percentage of 2-year-olds demonstrating expressive vocabulary was higher for females (69 percent) than for males (59 percent). Also, a higher percentage of White (71 percent) and Asian (62 percent) 2-year-olds demonstrated expressive vocabulary than of Black, Hispanic, or American Indian/Alaska Native 2-year-olds (56, 54, and 50 percent, respectively). The percentage

of 2-year-olds from families with high socioeconomic status (SES) who demonstrated expressive vocabulary (75 percent) was higher than the percentage of children from low-SES families who did so (52 percent).

Patterns of differences were also observed by race/ethnicity and SES for children at about 4 years of age (48 to 57 months old) and at kindergarten entry. Average early reading scores were higher for White (27.4) and Asian (30.5) 48- to 57-month-old children than for Black (22.9), Hispanic (21.2), and American Indian/Alaska Native (20.1) children (table 120). Also, high-SES children (32.7) had higher average early reading scores than low-SES children (19.3) at this age. These same patterns were observed among 48- to 57-month-old children with respect to average mathematics scores. White (31.6) and Asian (34.7) 48- to 57-month-old children had higher mathematics scores than Black (26.9), Hispanic (26.2), and American Indian/Alaska Native children (23.2). High-SES 48- to 57-month-old children (36.2) had higher average mathematics scores than low-SES children (23.6). Similarly, among 5- and 6-year-olds entering kindergarten, average mathematics scores were higher for high-SES children (49.5) than for low-SES children (37.7) (table 121). White (45.5) and Asian (48.2) 5- and 6-year-olds entering kindergarten had higher mathematics scores than Black (39.8), Hispanic (39.6), and American Indian/Alaska Native (36.2) children. Similar patterns were observed for early reading skills among children entering kindergarten. White (45.1) and Asian (51.4) children had higher early reading scores at kindergarten entry than Black (40.2), Hispanic (38.4), and American Indian/Alaska Native (36.2) children. High-SES children (51.2) had higher average early reading scores than low-SES children (35.0).

## SAT Scores of College-Bound Seniors

The SAT (formerly known as the Scholastic Assessment Test and the Scholastic Aptitude Test) is not designed as an indicator of student achievement, but rather as an aid for predicting how well students will do in college. Between 1998–99 and 2004–05, the mathematics SAT average score increased by 9 points, but it declined by 4 points between 2004–05 and 2009–10 (table 152). The critical reading average score in 2009–10 (501) was 4 points lower than in 1998–99.

## Coursetaking in High School

The average number of science and mathematics courses completed by public high school graduates increased between 1982 and 2005. The average number of mathematics courses (Carnegie units) completed in high school rose from 2.6 in 1982 to 3.7 in 2005, and the number of science courses rose from 2.2 to 3.3 (table 157). The average number of courses in career/technical areas completed by all high school graduates was lower in 2005 (4.0 units) than in 1982 (4.6 units). As a result of the increased academic course load, the percentage of students completing the 1983 National

Commission on Excellence recommendations for college-bound students (4 units of English, 3 units of social studies, 3 units of science, 3 units of mathematics, 2 units of foreign language, and .5 units of computer science) rose from 2 percent in 1982 to 36 percent in 2005 (table 161).

## School Violence

In 2007–08, about 85 percent of public schools had a criminal incident, which is defined as a serious violent crime or a less serious crime such as a fight without weapons, theft, or vandalism (table 168). The percentage of schools having a criminal incident in 2007–08 was about the same as the percentage in 1999–2000 (86 percent). In 2007–08, some 75 percent of schools reported one or more violent incidents, 47 percent of schools reported one or more thefts/larcenies, and 67 percent reported other types of incidents. Overall, there were 4 criminal incidents reported per 100 students.

## Revenues and Expenditures

The state share of revenues for public elementary and secondary schools generally grew from the 1930s through the mid-1980s, while the local share declined during the same time period (table 180 and figure 9). However, this pattern changed in the late 1980s, when the local share began to increase at the same time the state share decreased. Between 1986–87 and 1993–94, the state share declined from

49.7 percent to 45.2 percent, while the local share rose from 43.9 percent to 47.8 percent. Between 1993–94 and 2000–01, the state share rose again to 49.7 percent, the highest share since 1986–87, but declined every school year thereafter until 2005–06, when the state share was 46.5 percent. Between 1995–96 and 2005–06, the federal share of revenues rose from 6.6 to 9.1 percent. The local share declined from 45.9 percent in 1995–96 to 42.8 in 2002–03 and then increased each year, reaching 44.4 percent in 2005–06. Between 2005–06 and 2007–08, these patterns shifted. The federal percentage declined from 9.1 to 8.2 percent and the local percentage declined from 44.4 to 43.5 percent. In contrast, the state percentage rose from 46.5 to 48.3 percent.

After adjustment for inflation, current expenditures per student in fall enrollment at public schools rose during the 1980s, remained stable during the first part of the 1990s, and rose again after 1992–93 (table 190 and figure 10). There was an increase of 37 percent from 1980–81 to 1990–91; a change of less than 1 percent from 1990–91 to 1994–95 (which resulted from small decreases at the beginning of this period, followed by small increases after 1992–93); and an increase of 32 percent from 1994–95 to 2007–08. In 2007–08, current expenditures per student in fall enrollment were \$10,297 in unadjusted dollars. In 2007–08, some 55 percent of students in public schools were transported at public expense at a cost of \$854 per pupil transported, also in unadjusted dollars (table 184).

—Not available.

<sup>1</sup>Data on population and labor force are from the Census Bureau, and data on personal income and national income are from the Bureau of Economic Analysis, U.S. Department of Commerce. Population data through 1900 are based on total population from the decennial census. From 1909–10 to 1959–60, population data are total population, including armed forces overseas, as of July 1. Data for later years are for resident population that excludes armed forces overseas.

<sup>2</sup>Data for 1869–70 through 1959–60 are school year enrollment. Data for later years are fall enrollment.

<sup>3</sup>Data for 1870–71.

<sup>4</sup>Estimated by the National Center for Education Statistics.

<sup>5</sup>Prior to 1919–20, data are for the number of different persons employed rather than number of positions.

<sup>6</sup>Prior to 1919–20, includes interest on school debt.

<sup>7</sup>Because of the modification of the scope of "current expenditures for elementary and secondary schools," data for 1959–60 and later years are not entirely comparable with prior years.

<sup>8</sup>Beginning in 1969–70, includes capital outlay by state and local school building authorities.

<sup>9</sup>Includes summer schools, community colleges, and adult education. Beginning in 1959–60, also includes community services, formerly classified with "current expenditures for elementary and secondary schools."

<sup>10</sup>Excludes community colleges and adult education.

<sup>11</sup>Prior to 1959–60, average includes supervisors, principals, teachers, and other nonsupervisory instructional staff. Data for 1959–60 and later years are estimated by the National Education Association.

<sup>12</sup>Excludes current expenditures not allocable to pupil costs.

<sup>13</sup>"ADA" means average daily attendance in elementary and secondary schools.

<sup>14</sup>Expenditure figure is the sum of current expenditures allocable to pupil costs, capital outlay, and interest on school debt.

<sup>15</sup>Per-day rates derived by dividing annual rates by average length of term.

<sup>16</sup>Constant dollars based on the Consumer Price Index, prepared by the Bureau of Labor Statistics, U.S. Department of Labor, adjusted to a school-year basis.

NOTE: Some data have been revised from previously published figures. Beginning in 1959–60, data include Alaska and Hawaii. Detail may not sum to totals because of rounding.

#Rounds to zero.

!Interpret data with caution.

<sup>1</sup>Refers to all students in public and private schools and homeschooled students.

<sup>2</sup>Students whose grade equivalent was "ungraded" were excluded from the grade analysis. The percentage of students with an "ungraded" grade equivalent was 0.03 percent in 1999 and 0.02 percent in 2003 and 2007.

NOTE: The number and percentage of homeschoolers exclude students who were enrolled in school for more than 25 hours a week; also excluded in 1999 and 2003 are students who were homeschooled only due to a temporary illness and, in 2007, students who were homeschooled primarily due to a temporary illness. Detail may not sum to totals because of rounding. Some data have been revised from previously published figures. Race categories exclude persons of Hispanic ethnicity. Standard errors appear in parentheses.

<sup>1</sup>Data for California for 1989–90 and earlier years are not strictly comparable with those for other states because California's attendance figures included excused absences.

NOTE: Some data have been revised from previously published figures.

SOURCE: U.S. Department of Education, National Center for Education Statistics, *Statistics of State School Systems, 1969–70; Revenues and Expenditures for Public Elementary and Secondary Education, 1979–80*; and Common Core of Data (CCD), "National Public Education Financial Survey," 1989–90 through 2007–08. (This table was prepared November 2010.)

**Table 43. Percentage distribution of enrollment in public elementary and secondary schools, by race/ethnicity and state or jurisdiction: Fall 1998 and fall 2008**

State or jurisdiction	Percentage distribution, fall 1998						Percentage distribution, fall 2008

#Rounds to zero.

<sup>1</sup>Includes data for states reporting students of two or more races.

NOTE: Percentage distribution based on students for whom race/ethnicity was reported, which may be less than the total number of students in the state. Race categories exclude

persons of Hispanic ethnicity. DoD = Department of Defense. Detail may not sum to totals because of rounding.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Common Core of Data (CCD), "State Nonfiscal Survey of Public Elementary/Secondary Education," 1998–99 and 2008–09. (This table was prepared November 2010.)

#Rounds to zero.

<sup>1</sup>Data do not include Vermont, for which 2007–08 and 2008–09 data were not available. In 2006–07, the total number of 3- to 21-year-olds served in Vermont was 14,010.

<sup>2</sup>Other health impairments include having limited strength, vitality, or alertness due to chronic or acute health problems such as a heart condition, tuberculosis, rheumatic fever, nephritis, asthma, sickle cell anemia, hemophilia, epilepsy, lead poisoning, leukemia, or diabetes.

<sup>3</sup>Prior to 1990–91 and after 1999–2000, preschool children are included in the counts by disability condition. For other years, preschool children are not included in the counts by disability condition, but are separately reported.

<sup>4</sup>Based on the total enrollment in public schools, prekindergarten through 12th grade.

NOTE: Prior to October 1994, children and youth with disabilities were served under Chapter 1 of the Elementary and Secondary Education Act as well as under the Individuals with Disabilities

Education Act (IDEA), Part B. Data reported in this table for years prior to 1994–95 include children ages 0–21 served under Chapter 1. Data are for the 50 states and the District of Columbia only. Increases since 1987–88 are due in part to new legislation enacted in fall 1986, which added a mandate for public school special education services for 3- to 5-year-old disabled children. Some data have been revised from previously published figures. Detail may not sum to totals because of rounding.

#Rounds to zero.

<sup>1</sup>Percentage of students with disabilities is based on the total enrollment in public schools, pre-kindergarten through 12th grade.

NOTE: Prior to October 1994, children and youth with disabilities were served under Chapter 1 of the Elementary and Secondary Education Act as well as under the Individuals with Disabilities Education Act (IDEA), Part B. Data reported in this table for 1990–91 include children ages 0–21

served under Chapter 1. Some data have been revised from previously published figures. U.S. totals for 2007–08 and 2008–09 do not include data for Vermont.

SOURCE: U.S. Department of Education, Office of Special Education Programs, *Annual Report to Congress on the Implementation of the Individuals with Disabilities Education Act*, selected years, 1992 through 2006, and Individuals with Disabilities Education Act (IDEA) database, retrieved September 2, 2010, from <http://www.ideadata.org/PartBData.asp>. National Center for Education Statistics, Common Core of Data (CCD), "State Nonfiscal Survey of Public Elementary/Secondary Education," 2008–09. (This table was prepared September 2010.)

#Rounds to zero.

!Interpret data with caution.

<sup>1</sup>Data are based on universe counts of schools and school districts; therefore, these figures do not have standard errors.

<sup>2</sup>Data for 2006 are based on universe counts of schools and school districts; therefore, these figures do not have standard errors.

NOTE: Race categories exclude persons of Hispanic ethnicity. Standard errors appear in parentheses. Detail may not sum to totals because of rounding.

—Not available.

<sup>1</sup>Includes a relatively small number of secondary ungraded students.

<sup>2</sup>Data for 1890 through 1950 are from the decennial censuses of population. Later data are Census Bureau estimates as of July 1 preceding the opening of the school year.

<sup>3</sup>Gross enrollment ratio based on school enrollment of all ages in grades 9 to 12 divided by the 14- to 17-year-old population. Differs from enrollment rates in other tables, which are based on the enrollment of persons in the given age group only.

<sup>4</sup>Data are for 1927–28.

<sup>5</sup>Data are for 1940–41.

<sup>6</sup>Estimated.

<sup>7</sup>Projected.

NOTE: Includes enrollment in public schools that are a part of state and local school systems and also in most private schools, both religiously affiliated and nonsectarian. Some data have been revised from previously published figures. Detail may not sum to totals because of rounding.

—Not available.

†Not applicable.

#Rounds to zero.

<sup>1</sup>Estimated.

<sup>2</sup>Includes enrollment in ancient Greek (not shown separately). Fewer than 1,000 students were enrolled in this language in each of the years shown.

<sup>3</sup>Until 1990, student enrollment in Japanese courses was included in the Other modern foreign languages category.

<sup>4</sup>Includes students enrolled in unspecified modern foreign languages. Since 1990, enrollment in Japanese courses is reported as a separate category.

NOTE: Percent change computed from unrounded numbers.

<sup>1</sup>Data collected using new procedures. Data may not be comparable with figures prior to 1994.

<sup>2</sup>Enrollment data include only those students in preprimary programs.

NOTE: Data are based on sample surveys of the civilian noninstitutional population. Although cells with fewer than 75,000 children are subject to wide sampling variation, they are included in

the table to permit various types of aggregations. Detail may not sum to totals because of rounding. Standard errors appear in parentheses.

†Not applicable.

#Rounds to zero.

<sup>1</sup>Mean hours per week per child, among preschool children enrolled in any type of nonparental care arrangement. For children with more than one arrangement, the hours of each weekly arrangement were summed to calculate the total amount of time in child care per week.

<sup>2</sup>Children who spend equal hours per week in multiple nonparental care arrangements.

<sup>3</sup>Excludes children living apart from their parents.

<sup>4</sup>Excludes children living in households with no mother or female guardian present.

<sup>5</sup>Poverty status was determined by household income and number of persons in household.

NOTE: A child's "primary arrangement" was defined as the regular nonparental care arrangement or early childhood education program in which the child spent the most time per week. Race categories exclude persons of Hispanic ethnicity. Detail may not sum to totals because of rounding. Standard errors appear in parentheses.

†Not applicable.

‡Reporting standards not met.

<sup>1</sup>Distribution of weighted Early Childhood Longitudinal Study, Birth Cohort survey population with data on primary care arrangements.

<sup>2</sup>Primary type of care arrangement is the type of nonparental care in which the child spent the most hours.

<sup>3</sup>Care provided in the child's home or in another private home by a relative (excluding parents).

<sup>4</sup>Care provided in the child's home or in another private home by a person unrelated to the child.

<sup>5</sup>Care provided in places such as early learning centers, nursery schools, and preschools.

<sup>6</sup>Children who spent an equal amount of time in each of two or more arrangements.

<sup>7</sup>Distribution of weighted Early Childhood Longitudinal Study, Birth Cohort survey population between 44 and 65 months of age with data on primary care arrangements.

<sup>8</sup>Poverty status based on Census Bureau guidelines from 2002 (for 2-year-olds in 2003–04) and 2005 (for 4-year-olds in 2005–06), which identify a dollar amount determined to meet a household's needs, given its size and composition. In 2002, a family of four was considered to live below the poverty threshold if its income was less than or equal to \$18,392.

<sup>9</sup>Socioeconomic status (SES) was measured by a composite score on parental education and occupations, and family income. NOTE: Data are based on a representative sample of children born in 2001. Estimates for children at about 2 years of age weighted by W2R0. Estimates for children at about 4 years of age weighted by W3R0. Race categories exclude persons of Hispanic ethnicity. Detail may not sum to totals because of rounding and suppression of cells that do not meet standards. Some data have been revised from previously published figures. Standard errors appear in parentheses.

Middle 60 percent.....	43.3 (5.26)	49.7 (5.50)	7.0 (2.57)	11.2 (1.83)	56.5 (2.69)	32.3 (2.68)	3.2 (1.22)	59.7 (4.07)	37.1 (4.05)	14.0 (2.28)	55.4 (3.37)	30.6 (3.37)
Highest 20 percent.....	7.8 (4.79)	66.3 (7.41)	25.9 (6.85)	7.3 (2.54)	52.2 (6.27)	40.5 (6.19)	† (†)	† (†)	† (†)	7.5 (2.61)	52.7 (6.33)	39.8 (6.21)

†Not applicable.

‡Reporting standards not met.

<sup>1</sup>Primary type of care arrangement is the type of nonparental care in which the child spent the most hours.

<sup>2</sup>Care provided in the child's home or in another private home by a relative (excluding parents) or by a person unrelated to the child.

<sup>3</sup>Quality rating based on the Family Day Care Rating Scale (FDCRS). Low quality = score of 1 but less than 3. Medium quality = score of 3 but less than 5. High quality = score of 5 to 7.

<sup>4</sup>Quality rating based on the Early Childhood Environment Rating Scale (ECERS). Low quality = score of 1 but less than 3. Medium quality = score of 3 but less than 5. High quality = score of 5 to 7.

<sup>5</sup>Care provided in places such as early learning centers, nursery schools, and preschools, not classified as Head Start.

<sup>6</sup>Poverty status based on Census Bureau guidelines from 2002, which identify a dollar amount determined to meet a household's needs, given its size and composition. In 2002, a family of four was considered to live below the poverty threshold if its income was less than or equal to \$18,392.

<sup>7</sup>Socioeconomic status (SES) was measured by a composite score based on parental education and occupations, and family income. NOTE: Estimates weighted by W33P0. Estimates pertain to children assessed between 44 months and 65 months of age. Rating is for child's primary type of care arrangement, which was the type of nonparental care in which the child spent the most hours. Children who were primarily cared for by parents or in multiple arrangements are not included in this table. Ratings of care arrangement quality using both the FDCRS and ECERS scales were based on interviewer observations of children's interactions with adults and peers, children's exposure to materials and activities, the extent to which and the manner in which routine care needs were met, and the furnishings and displays in the classroom. The FDCRS and ECERS metrics are designed to be equivalent. Race categories exclude persons of Hispanic ethnicity. Detail may not sum to totals because of rounding and suppression of cells that do not meet standards. Some data have been revised from previously published figures. Standard errors appear in parentheses.

#Rounds to zero.

<sup>1</sup>Figures exclude children for whom no grade equivalent was available.

<sup>2</sup>Table includes a very small number of older children enrolled in first and second grade and excludes children for whom no grade equivalent was available.

<sup>3</sup>Excludes children living in households with no mother or female guardian present.

NOTE: Detail may not sum to totals because of rounding. Standard errors appear in parentheses.

—Not available.

†Not applicable.

<sup>1</sup>The respondent was the parent most knowledgeable about the child's care and education. Responding parents reported on their own activities and the activities of their spouse/other adults in the household.

<sup>2</sup>In 1993, there were two versions of the survey question that asked how often the child was read to. Each respondent was asked one version of the question. Percentages represent all respondents who indicated a frequency of three or more times in the past week in response to either version of the question.

<sup>3</sup>Excludes children living in households with no mother or female guardian present.

<sup>4</sup>Poverty status was determined by household income and number of persons in household.

NOTE: Totals include other racial/ethnic groups not separately shown. Race categories exclude persons of Hispanic ethnicity. Detail may not sum to totals because of rounding. Standard errors appear in parentheses. Some data have been revised from previously published figures.

<sup>1</sup>In 1999 and 2007, a single item asked parents if they had attended an event sponsored by a community, ethnic, or religious group. In 2003, attendance at an event sponsored by a religious group was asked about separately from attendance at an event sponsored by a community or ethnic group.

<sup>2</sup>GED = General Educational Development.

NOTE: The respondent was the parent most knowledgeable about the child's education. Responding parents reported on their own activities and the activities of their spouse/other adults in the household. Excludes homeschooled children. Totals include other racial/ethnic groups not separately shown. Race categories exclude persons of Hispanic ethnicity. Standard errors appear in parentheses.

—Not available.

†Not applicable.

‡Reporting standards not met.

<sup>1</sup>Included in "Other" in 1999 and 2003 data.

<sup>2</sup>Includes all other races or two or more races.

<sup>3</sup>GED=General Educational Development.

NOTE: Includes children enrolled in kindergarten through grade 12 and ungraded students. Excludes homeschooled children. The respondent was the parent most knowledgeable about the child's education. Responding parents reported on their own and

their spouse's, or other household adults', activities. Race categories exclude persons of Hispanic ethnicity. Standard errors appear in parentheses.

#Rounds to zero.

<sup>1</sup>Includes students in prekindergarten through grade 12 in schools that offer kindergarten or higher grade.

<sup>2</sup>Race/ethnicity is not known for an estimated 837,719 prekindergarten private school students. Percentage distribution is calculated based on the students for whom race/ethnicity is known.

<sup>3</sup>Reported in full-time equivalents (FTE). Excludes teachers who teach only prekindergarten students.

NOTE: Includes special education, vocational/technical education, and alternative schools. Tabulation includes schools that offer kindergarten or higher grade. Detail may not sum to totals because of rounding. Standard errors appear in parentheses.

†Not applicable.

‡Reporting standards not met.

<sup>1</sup>Only includes kindergarten students who attend schools that offer first or higher grade.

<sup>2</sup>Tuition weighted by the number of students enrolled in schools.

NOTE: Excludes schools not offering first or higher grade. Elementary schools have grade 6 or lower and no grade higher than 8. Secondary schools have no grade lower than 7. Combined schools have grades lower than 7 and higher than 8.

Excludes prekindergarten students. Includes schools reporting tuition of 0. Detail may not sum to totals because of rounding and cell suppression. Standard errors appear in parentheses.

†Not applicable.

‡Interpret data with caution.

‡Reporting standards not met.

<sup>1</sup>Includes schools beginning with grade 6 or below and with no grade higher than 8.

<sup>2</sup>Schools with no grade lower than 7.

<sup>3</sup>Schools with grades lower than 7 and higher than 8.

<sup>4</sup>Includes student support services professional staff, such as school psychologists, social workers, and speech therapists or pathologists.

<sup>5</sup>Includes other employees not identified by function.

NOTE: Data are based on a sample survey and may not be strictly comparable with data reported elsewhere. Excludes all prekindergarten students from calculations, but includes kindergarten students attending schools that offer first or higher grade. Includes only schools that offer first or higher grade. Standard errors appear in parentheses. Detail may not sum to totals because of rounding.

<sup>1</sup>Elementary enrollment is for kindergarten through grade 8, and secondary enrollment is for grades 9 through 12.

<sup>2</sup>From 1919–20 through fall 1960, includes part-time teachers. From 1969–70 through 1993–94, excludes part-time teachers. Beginning in 1994–95, reported in full-time equivalents (FTE). Prekindergarten teachers not counted separately, but may be included with elementary teachers.

<sup>3</sup>Includes middle schools.

<sup>4</sup>Prekindergarten enrollment was not reported separately, but may be included in elementary enrollment.

<sup>5</sup>Includes estimates for the nonreporting schools.

<sup>6</sup>Excludes the Archdiocese of New Orleans.

NOTE: Data collected by the National Catholic Educational Association and data collected by the National Center for Education Statistics are not directly comparable because survey procedures and definitions differ. Some data have been revised from previously published figures.

†Not applicable.  
!Interpret data with caution.  
‡Reporting standards not met.  
¹Reported in full-time equivalents (FTE). Excludes teachers who teach only prekindergarten students.  
NOTE: Includes special education, vocational/technical education, and alternative schools. Tabulation includes schools that offer kindergarten or higher grade. Includes enrollment of

students in prekindergarten through grade 12 in schools that offer kindergarten or higher grade. Some data have been revised from previously published figures. Detail may not sum to totals because of rounding. Standard errors appear in parentheses.

NOTE: Pupil/teacher ratios are based on data reported by types of schools rather than by instructional programs within schools. Only includes schools that reported both enrollment and teacher data. Ratios are based on data reported by schools and may differ from data reported in other tables that reflect aggregate totals reported by states.

<sup>1</sup>Estimated.

<sup>2</sup>Projected.

NOTE: Data for teachers are expressed in full-time equivalents (FTE). Counts of private school teachers and enrollment include prekindergarten through grade 12 in schools offering kindergarten or higher grades. Counts of public school teachers and enrollment include prekindergarten through grade 12. The pupil/teacher ratio includes teachers for students with disabilities and other special teachers, while these teachers are generally excluded from class size calculations. Ratios for public schools reflect totals reported by states and

differ from totals reported for schools or school districts. Some data have been revised from previously published figures. Detail may not sum to totals because of rounding.

SOURCE: U.S. Department of Education, National Center for Education Statistics, *Statistics of Public Elementary and Secondary Day Schools, 1955–56 through 1984–85; Common Core of Data (CCD), "State Nonfiscal Survey of Public Elementary/Secondary Education," 1985–86 through 2008–09; Private School Universe Survey (PSS), 1989–90 through 2007–08; Projections of Education Statistics to 2019*, and unpublished data. (This table was prepared November 2010.)

†Not applicable.

‡Reporting standards not met.

<sup>1</sup>Teachers with less than a bachelor's degree are not shown separately.

<sup>2</sup>Elementary teachers are those who taught self-contained classes at the elementary level, and secondary teachers are those who taught departmentalized classes (e.g., science, art, social science, or other course subjects) at the secondary level. Teachers were classified as elementary or secondary on the basis of the grades they taught, rather than on the level of the school in which they taught.

<sup>3</sup>Includes certificate of advanced graduate studies.

NOTE: Data are based on a head count of all teachers rather than on the number of full-time-equivalent teachers appearing in other tables. Excludes prekindergarten teachers. Standard errors appear in parentheses. Detail may not sum to totals because of rounding, cell suppression, and omitted categories (less than bachelor's).

SOURCE: U.S. Department of Education, National Center for Education Statistics, Schools and Staffing Survey (SASS), "Public Teacher Questionnaire," 2007–08. (This table was prepared September 2009.)

**Table 72. Highest degree earned and years of full-time teaching experience for teachers in public and private elementary and secondary schools, by selected teacher characteristics: 1999–2000, 2003–04, and 2007–08**

—Not available.

†Not applicable.

‡Reporting standards not met.

<sup>1</sup>Includes certificate of advanced graduate studies.

<sup>2</sup>Data for 1999–2000 are only roughly comparable to data for later years, because the new category of two or more races was introduced in 2003–04.

<sup>3</sup>Includes Pacific Islander.

<sup>4</sup>Included under other elementary.

<sup>5</sup>Included under other secondary.

NOTE: Excludes prekindergarten teachers. Data are based on a head count of full-time and part-time teachers rather than on the number of full-time-equivalent teachers reported in other tables. Detail may not sum to totals because of rounding and cell suppression. Race categories exclude persons of Hispanic ethnicity. Standard errors appear in parentheses.

—Not available

<sup>1</sup>Includes education specialist or professional diploma based on 6 years of college study.

<sup>2</sup>Measured in semester hours.

<sup>3</sup>Includes extra pay for extra duties.

<sup>4</sup>Constant dollars based on the Consumer Price Index, prepared by the Bureau of Labor Statistics, U.S. Department of Labor, adjusted to a school-year basis.

NOTE: Data are based on sample surveys of public school teachers. See Appendix A: Guide to Sources for information on interpreting data from this survey. Data differ from figures appearing in other tables because of varying survey processing procedures and time period coverages. Detail may not sum to totals because of rounding.

SOURCE: National Education Association, *Status of the American Public School Teacher*, selected years, 1960–61 through 2005–06. (This table was prepared June 2010.)

†Not applicable.

‡Reporting standards not met.

<sup>1</sup>Education specialist degrees or certificates are generally awarded for 1 year's work beyond the master's level.

<sup>2</sup>Data may sum to more than 100 percent because (1) a teacher who reported more than one major is represented in more than one field of study and (2) a teacher with multiple degrees in different fields of study is represented in more than one field of study.

NOTE: Race categories exclude persons of Hispanic ethnicity. Detail may not sum to totals because of rounding. Standard errors appear in parentheses.

#Rounds to zero.

!Interpret data with caution.

<sup>1</sup>Only the 2003–04 survey included questions about how often problems occurred.

<sup>2</sup>For 2003–04, combined schools are included in the total but not shown separately.

NOTE: Standard errors appear in parentheses. Some data have been revised from previously published figures.

†Not applicable.

‡Reporting standards not met.

<sup>1</sup>Includes teachers with levels of education below the bachelor's degree (not shown separately).

<sup>2</sup>Includes certificate of advanced graduate studies.

<sup>3</sup>Constant dollars based on the Consumer Price Index, prepared by the Bureau of Labor Statistics, U.S. Department of Labor, adjusted to a school-year basis.

NOTE: This table includes regular full-time teachers only; it excludes other staff even when they have full-time teaching duties (regular part-time teachers, itinerant teachers, long-term substitutes, administrators, library media specialists, other professional staff, and support staff). Some data have been revised from previously published figures. Detail may not sum to totals because of rounding. Standard errors appear in parentheses.

†Not applicable.

‡Reporting standards not met.

<sup>1</sup>Includes compensation for extracurricular or additional activities such as coaching, student activity sponsorship, or teaching evening classes.

<sup>2</sup>Includes teaching summer sessions and other non-teaching jobs at any school.

<sup>3</sup>Includes certificates of advanced graduate studies.

<sup>4</sup>Located inside a principal city within an urbanized area.

<sup>5</sup>Located inside an urbanized area, but outside of a principal city.

<sup>6</sup>Located inside an urban cluster.

<sup>7</sup>Located outside any urbanized area or urban cluster.

NOTE: This table includes regular full-time teachers only; it excludes other staff even when they have full-time teaching duties (regular part-time teachers, itinerant teachers, long-term substitutes, administrators, library media specialists, other professional staff, and support staff). Race categories exclude persons of Hispanic ethnicity. Standard errors appear in parentheses. Detail may not sum to totals because of rounding, missing values in cells with too few cases to report, and survey item nonresponse.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Schools and Staffing Survey (SASS), "Public Teacher Questionnaire" and "Private Teacher Questionnaire," 2007–08. (This table was prepared October 2009.)

**Table 80. Average base salary for full-time public elementary and secondary school teachers with a bachelor's degree as their highest degree, by years of full-time teaching experience and state: 1993-94, 1999-2000, 2003-04, and 2007-08**

<sup>1</sup>The average monetary remuneration earned by FTE employees across all industries in a given year, including wages, salaries, commissions, tips, bonuses, voluntary employee contributions to certain deferred compensation plans, and receipts in kind that represent income. Calendar-year data from the U.S. Department of Commerce, Bureau of Economic Analysis, have been converted to a school-year basis by averaging the two appropriate calendar years in each case.

<sup>2</sup>Constant dollars based on the Consumer Price Index, prepared by the Bureau of Labor Statistics, U.S. Department of Labor, adjusted to a school-year basis.

NOTE: Some data have been revised from previously published figures. Standard errors are not available for these estimates, which are based on state reports.

—Not available.

<sup>1</sup>Includes school district administrative support staff, school and library support staff, student support staff, and other support services staff.

<sup>2</sup>Because of classification revisions, categories other than teachers, principals, librarians, and guidance counselors are only roughly comparable to figures for years after 1980.

<sup>3</sup>Data included in column 8.

NOTE: Data for 1949–50 through 1969–70 are cumulative for the entire school year, rather than counts as of the fall of the year. Some data have been revised from previously published figures. Detail may not sum to totals because of rounding.

SOURCE: U.S. Department of Education, National Center for Education Statistics, *Statistics of State School Systems*, various years; *Statistics of Public Elementary and Secondary Schools*, various years; and Common Core of Data (CCD), "State Nonfiscal Survey of Public Elementary/Secondary Education," 1986–87 through 2008–09. (This table was prepared November 2010.)

**Table 85. Staff employed in public elementary and secondary school systems, by type of assignment and state or jurisdiction: Fall 2008**  
(In full-time equivalents)

State or jurisdiction	Total	School district staff			School staff						Student support staff	Other support services staff
		Officials and administrators	Administrative support staff	Instruction coordinators	Principals and assistant principals	School and library support staff	Teachers	Instructional aides	Guidance counselors	Librarians

<sup>1</sup>Data revised from previously published figures.

<sup>2</sup>U.S. totals include imputations for underreporting and nonreporting states.

<sup>3</sup>Includes imputations for underreporting.

NOTE: DoD = Department of Defense.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Common Core of Data (CCD), "State Nonfiscal Survey of Public Elementary/Secondary Education," 2000–01 through 2008–09. (This table was prepared November 2010.)

Table 89. Number, highest degree, experience, and salaries of principals in public and private elementary and secondary schools, by selected characteristics: 1993-94, 2003-04, and 2007-08

Table with 15 columns: Characteristic, Number of principals (1993-94, 2003-04, 2007-08), Percentage distribution by highest degree earned (Bachelor's or less, Master's, Education specialist, Doctor's and first-professional), Average years of experience (As a principal, Teaching experience), and Average annual salary in constant 2008-09 dollars (1993-94, 2003-04, 2007-08). Rows include Public schools (Total, Sex, Race/ethnicity, Age, Type of school, Location of school) and Private schools (Total, Sex, Race/ethnicity, Age, Type of school, Location of school).

—Not available.

†Not applicable.

!Interpret data with caution.

‡Reporting standards not met.

<sup>1</sup>Counts of principals in this table differ from totals appearing in some other tables because this table reflects counts of full- and part-time principals, while other counts of principals are reported as full-time equivalents.

<sup>2</sup>Constant dollars based on the Consumer Price Index, prepared by the Bureau of Labor Statistics, U.S. Department of Labor, adjusted to a school-year basis. Excludes principals reporting a salary of \$0.

<sup>3</sup>Education specialist degrees or certificates are generally awarded for 1 year's work beyond the master's level. Includes certificate of advanced studies.

<sup>4</sup>Data include Native Hawaiian/Pacific Islander.

NOTE: Race categories exclude persons of Hispanic ethnicity. Detail may not sum to totals because of rounding and survey item nonresponse. Standard errors appear in parentheses.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Schools and Staffing Survey (SASS), "Public School Principal Questionnaire" and "Private School Principal Questionnaire," 1993-94, 2003-04, and 2007-08. (This table was prepared August 2010.)

—Not available.

<sup>1</sup>Includes operating and nonoperating districts.

<sup>2</sup>Schools with both elementary and secondary programs are included under elementary schools and also under secondary schools.

<sup>3</sup>Data for most years prior to 1976–77 are partly estimated. Prior to 1995–96, excludes schools with highest grade of kindergarten.

<sup>4</sup>Includes regular schools and special schools not classified by grade span.

<sup>5</sup>Includes elementary, secondary, and combined elementary/secondary schools.

<sup>6</sup>These data cannot be compared directly with the data for years after 1980–81.

<sup>7</sup>Because of expanded survey coverage, data are not directly comparable with figures after 1983–84.

<sup>8</sup>Some data have been revised from previously published figures.

<sup>1</sup>Revised from previously published figures.

NOTE: Size not reported includes school districts reporting enrollment of zero. Regular districts exclude regional education service agencies and supervisory union administrative centers, state-operated agencies, federally operated agencies, and other types of local education agencies, such as independent charter schools. Enrollment totals differ from

other tables because this table represents data reported by regular school districts rather than states or schools. Detail may not sum to totals because of rounding.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Common Core of Data (CCD), "Local Education Agency Universe Survey," 1979–80 through 2008–09. (This table was prepared November 2010.)

<sup>1</sup>Regular school districts include both independent districts and those that are a dependent segment of a local government. Components of supervisory unions operate schools, but share superintendent services with other districts.

<sup>2</sup>New York City counted as one school district.

NOTE: DoD = Department of Defense. Some data have been revised from previously published figures.

**Table 93. Public elementary and secondary students, schools, pupil/teacher ratios, and finances, by type of locale: 2007–08 and 2008–09—Continued**

Selected characteristic	Total	City, large <sup>1</sup>	City, midsize <sup>2</sup>	City, small <sup>3</sup>	Suburban, large <sup>4</sup>	Suburban, midsize <sup>5</sup>	Suburban, small <sup>6</sup>	Town, fringe <sup>7</sup>	Town, distant <sup>8</sup>	Town, remote <sup>9</sup>	Rural, fringe <sup>10</sup>	Rural, distant <sup>11</sup>	Rural, remote <sup>12</sup>
1	2	3	4	5	6	7	8	9	10	11	12	13	14
Current expenditure per student (in dollars).....	\$9,992	\$10,894	\$9,561	\$9,825	\$10,391	\$9,608	\$9,246	\$9,364	\$9,155	\$9,180	\$9,200	\$9,401	\$10,703
Instruction expenditure per student (in dollars).....	6,282	7,090	5,982	6,204	6,567	6,066	5,735	5,809	5,665	5,579	5,693	5,697	6,307

<sup>1</sup>Located inside an urbanized area and inside a principal city with a population of at least 250,000.

<sup>2</sup>Located inside an urbanized area and inside a principal city with a population of at least 100,000, but less than 250,000.

<sup>3</sup>Located inside an urbanized area and inside a principal city with a population less than 100,000.

<sup>4</sup>Located inside an urbanized area and outside a principal city with a population of 250,000 or more.

<sup>5</sup>Located inside an urbanized area and outside a principal city with a population of at least 100,000, but less than 250,000.

<sup>6</sup>Located inside an urbanized area and outside a principal city with a population less than 100,000.

<sup>7</sup>Located inside an urban cluster that is 10 miles or less from an urbanized area.

<sup>8</sup>Located inside an urban cluster that is more than 10 but less than or equal to 35 miles from an urbanized area.

<sup>9</sup>Located inside an urban cluster that is more than 35 miles from an urbanized area.

<sup>10</sup>Located outside any urbanized area or urban cluster, but 5 miles or less from an urbanized area or 2.5 miles or less from an urban cluster.

<sup>11</sup>Located outside any urbanized area or urban cluster and more than 5 miles but less than or equal to 25 miles from an urbanized area, or more than 2.5 miles but less than or equal to 10 miles from an urban cluster.

<sup>12</sup>Located outside any urbanized area or urban cluster, more than 25 miles from an urbanized area, and more than 10 miles from an urban cluster.

<sup>13</sup>Average for schools reporting enrollment. Enrollment data were available for 94,820 out of 98,706 institutions in 2008–09.

<sup>14</sup>Ratio for schools reporting both full-time-equivalent teachers and fall enrollment data.

<sup>15</sup>Includes tuition and fee revenues from other in-state school systems, which are excluded from state data reported through the "National Public Education Financial Survey."

<sup>16</sup>Property tax and parent government contributions are determined on the basis of independence or dependence of the local school system and are mutually exclusive.

NOTE: Detail may not sum to totals because of rounding. Race categories exclude persons of Hispanic ethnicity.

†Not applicable.

#Rounds to zero.

<sup>1</sup>The averaged freshman graduation rate provides an estimate of the percentage of students who receive a regular diploma within 4 years of entering ninth grade. The rate uses aggregate student enrollment data to estimate the size of an incoming freshman class and aggregate counts of the number of diplomas awarded 4 years later.

<sup>2</sup>Includes regular diplomas only.

<sup>3</sup>Total for districts reporting data.

<sup>4</sup>Reported data indicated an averaged freshman graduation rate of greater than 100.0 percent.

NOTE: Total enrollment, staff, and teacher data in this table reflect totals reported by school districts and may differ from data derived from summing school-level data to school district aggregates. ISD = independent school district. CISD = consolidated independent school district. Race categories exclude persons of Hispanic ethnicity. Detail may not sum to totals because of rounding. SOURCE: U.S. Department of Education, National Center for Education Statistics, Common Core of Data (CCD), "Public Elementary/Secondary School Universe Survey," 2008–09; "Local Education Agency Universe Survey," 1990–91, 2000–01, and 2008–09; and "Local Education Agency-Level Public-Use Data File on Public School Dropouts: School Year 2006–07." (This table was prepared October 2010.)

**Table 95. Revenues, expenditures, poverty rate, and Title I allocations of public school districts enrolling more than 15,000 students: 2007–08 and fiscal year 2010**

Name of district	State	Revenues by source of funds, 2007–08 (in thousands of dollars)				Percentage distribution of revenues, 2007–08				Expenditures, 2007–08 (in thousands of dollars)					Poverty rate of 5- to 17-year-olds, 2008 <sup>1</sup>	Current expenditure per pupil, <sup>2</sup> 2007–08	Title I allocations, fiscal year 2010, <sup>3</sup> in thousands	Title I allocations, fiscal year 2010, per poverty child <sup>3</sup>

†Not applicable.

<sup>1</sup>Poverty is defined based on the number of persons and related children in the family and their income. For information on poverty thresholds for 2008, see <http://www.census.gov/hhes/www/poverty/data/threshld/thresh08.html>.

<sup>2</sup>Current expenditure per pupil based on fall enrollment collected through the "School District Finance Survey (Form F-33)," 2007–08.

<sup>3</sup>Fiscal year 2010 Department of Education funds available for spending by school districts beginning with the 2010–11 school year divided by number of poverty children in 2008.

<sup>4</sup>Includes other expenditures not shown separately.

<sup>5</sup>Data included under Modesto City Elementary.

NOTE: Detail may not sum to totals because of rounding. ISD = independent school district. CISD = consolidated independent school district.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Common Core of Data (CCD), "School District Finance Survey (Form F-33)," 2007–08, and "Local Education Agency Universe Survey," 2008–09; and unpublished Department of Education budget data. (This table was prepared October 2010.)

**Table 96. Enrollment, poverty, and federal funds for the 100 largest school districts, by enrollment size in 2008: Fall 2008, 2007–08, and federal fiscal year 2010**

Name of district	State	Rank order	Enrollment, fall 2008	5- to 17-year-old population, 2008	5- to 17-year-olds in poverty, 2008 <sup>1</sup>	Poverty rate of 5- to 17-year-olds, 2008 <sup>1</sup>	Revenues by source of funds, 2007–08				Revenue for selected federal programs (in thousands), 2007–08						Title I allocations (in thousands), fiscal year 2010 <sup>2</sup>				
							Total (in thousands)	Federal (in thousands)	Federal as a percent of total	Federal revenue per student <sup>3</sup>	Title I basic and concentration grants	School lunch	Vocational education	Drug-free schools	Eisenhower math and science	Special education	Total	Basic grants	Concentration grants	Targeted grants	Education finance incentive grants

<sup>1</sup>Poverty is defined based on the number of persons and related children in the family and their income. For information on poverty thresholds for 2008, see <http://www.census.gov/hhes/www/poverty/threshld/thresh08.html>.

<sup>2</sup>Fiscal year 2010 Department of Education funds available for spending by school districts in the 2010–11 school year.

<sup>3</sup>Federal revenue per student is based on fall enrollment collected through the "School District Finance Survey (Form F-33)."

NOTE: Detail may not sum to totals because of rounding. ISD = independent school district.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Common Core of Data (CCD), "School District Finance Survey (Form F-33)," 2007–08, and "Local Education Agency Universe Survey," 2008–09; and unpublished Department of Education budget data. (This table was prepared October 2010.)

#Rounds to zero.

<sup>1</sup>Totals differ from those reported in other tables because this table represents data reported by schools rather than by states or school districts. Percentage distribution and average enrollment calculations exclude data for schools not reporting enrollment.

<sup>2</sup>Includes elementary, secondary, combined elementary/secondary, and other schools.

<sup>3</sup>Includes schools beginning with grade 6 or below and with no grade higher than 8.

<sup>4</sup>Includes schools with no grade lower than 7.

<sup>5</sup>Includes schools beginning with grade 6 or below and ending with grade 9 or above.

<sup>6</sup>Includes special education, alternative, and other schools not reported by grade span.

<sup>7</sup>Excludes special education schools, vocational schools, and alternative schools.

<sup>8</sup>Data are for schools reporting their enrollment size. Enrollment data were available for 94,164 out of 98,793 schools in 2006–07, 94,775 out of 98,916 in 2007–08, and 94,820 out of 98,706 in 2008–09.

NOTE: Detail may not sum to totals because of rounding.

—Not available.

<sup>1</sup>Includes schools that provide nontraditional education, address needs of students that typically cannot be met in regular schools, serve as adjuncts to regular schools, or fall outside the categories of regular, special education, or vocational education.

<sup>2</sup>Includes schools beginning with grade 6 or below and with no grade higher than 8.

<sup>3</sup>Includes schools with no grade lower than 7.

<sup>4</sup>Includes schools beginning with grade 6 or below and ending with grade 9 or above.

<sup>5</sup>Magnet and charter schools are also included under regular, special education, vocational, or alternative schools as appropriate. SOURCE: U.S. Department of Education, National Center for Education Statistics, Core of Data (CCD), "Public Elementary/Secondary School Universe Survey," 1990–91 through 2008–09. (This table was prepared October 2010.)

**Table 101. Public elementary and secondary school students, by racial/ethnic enrollment concentration of school: Fall 1995, fall 2000, and fall 2008**

Racial/ethnic group	Distribution of students in racial/ethnic group, by percent combined Black, Hispanic, Asian/Pacific Islander, and American Indian/Alaska Native students in the school							Distribution of students in each racial/ethnic group, by percent of that racial/ethnic group in the school

†Not applicable.  
<sup>1</sup>Includes data for two or more races reported by Alaska, California, Massachusetts, New Jersey, and Vermont.  
 NOTE: Data reflect racial/ethnic data reported by schools. Because some schools do not report complete racial/ethnic data, totals may differ from figures in other tables. Excludes 1995 data for

Idaho and 2000 data for Tennessee because racial/ethnic data were not reported. Race categories exclude persons of Hispanic ethnicity. Detail may not sum to totals because of rounding.

—Not available.

<sup>1</sup>Excludes vocational, special education, and alternative schools.

<sup>2</sup>Vocational schools are also included under appropriate grade span.

<sup>3</sup>Average for schools reporting enrollment data. Enrollment data were available for 22,793 out of 24,348 public secondary schools in 2008–09.

NOTE: Includes schools with no grade lower than 7. Excludes schools not reported by grade level, such as some special education schools for the disabled. DoD = Department of Defense.

†Not applicable.

<sup>1</sup>Data for combined schools are included in the totals and in analyses by other school characteristics, but are not shown separately.

<sup>2</sup>Due to definitional changes for community type, estimates for years prior to 2005 may not be directly comparable with estimates for later years.

<sup>3</sup>Free or reduced-price lunch information was obtained on the questionnaire and supplemented, if necessary, with data from the Common Core of Data (CCD)

<sup>4</sup>Includes computers used for instructional or administrative purposes.

<sup>5</sup>In 2008, instructional rooms included classrooms only and excluded computer labs and library/media centers. Prior to 2008, instructional rooms included classrooms, computer labs and other labs, library/media centers, and other rooms used for instructional purposes.

<sup>6</sup>Some data differ slightly (e.g., by 1 percent) from previously published figures.

NOTE: Detail may not sum to totals because of rounding. Standard errors appear in parentheses

†Not applicable.

#Rounds to zero.

!Interpret data with caution.

<sup>1</sup>Based on students regularly enrolled in the districts. Enrollments may include duplicated counts of students, since districts were instructed to count a student enrolled in multiple courses for each course in which he or she was enrolled.

<sup>2</sup>Combined or ungraded schools are those in which the grades offered in the school span both elementary and secondary grades or that are not divided into grade levels.

NOTE: Percentages are based on unrounded numbers. Percentages are based on the estimated 89,310 and 89,610 public schools in the nation in 2002–03 and 2004–05, respectively. For the 2002–03 FRSS study sample, there were 3 cases for

which district enrollment size was missing and 112 cases for which poverty concentration was missing. For the 2004–05 FRSS study sample, there were 7 cases for which district enrollment size was missing and 103 cases for which poverty concentration was missing. Detail may not sum to totals because of rounding or missing data. Some data have been revised from previously published figures. Standard errors appear in parentheses.

—Not available.

<sup>1</sup>Includes graduates of public and private schools.

<sup>2</sup>Data for 1929–30 and preceding years are from *Statistics of Public High Schools* and exclude graduates from high schools that failed to report to the Office of Education. Includes estimates for jurisdictions not reporting counts of graduates by sex.

<sup>3</sup>The averaged freshman graduation rate provides an estimate of the percentage of students who receive a regular diploma within 4 years of entering ninth grade. The rate uses aggregate student enrollment data to estimate the size of an incoming freshman class and aggregate counts of the number of diplomas awarded 4 years later. Averaged freshman graduation rates in this table are based on reported totals of enrollment by grade and high school graduates, rather than on details reported by race/ethnicity.

<sup>4</sup>Derived from Current Population Reports, Series P-25. For years 1869–70 through 1989–90, 17-year-old population is an estimate of the October 17-year-old population based on July data. Data for 1990–91 and later years are October resident population estimates prepared by the Census Bureau.

<sup>5</sup>Estimated.

<sup>6</sup>Projected by private schools.

<sup>7</sup>Includes estimates for New York and Wisconsin. Without estimates for these two states, the averaged freshman graduation rate for the remaining 48 states and the District of Columbia is 75.0 percent.

<sup>8</sup>Projected by NCES.

NOTE: Includes graduates of regular day school programs. Excludes graduates of other programs, when separately reported, and recipients of high school equivalency certificates. Some data have been revised from previously published figures. Detail may not sum to totals because of rounding.

—Not available.

<sup>1</sup>Includes estimates for New York and Wisconsin. Without estimates for these two states, the averaged freshman graduation rate for the remaining 48 states and the District of Columbia is 75.0 percent.

<sup>2</sup>U.S. total includes estimates for nonreporting states.

<sup>3</sup>Projected high school graduates from NCES 2008-078, *Projections of Education Statistics to 2017*.

<sup>4</sup>Estimated high school graduates from NCES 2006-606rev, *The Averaged Freshman Graduation Rate for Public High Schools From the Common Core of Data: School Years 2002–03 and 2003–04*.

<sup>5</sup>Projected high school graduates from NCES 2010-069, *Projections of Education Statistics to 2019*.

NOTE: The averaged freshman graduation rate provides an estimate of the percentage of students who receive a regular diploma within 4 years of entering ninth grade. The rate uses aggregate student enrollment data to estimate the size of an incoming freshman class and aggregate counts of the number of diplomas awarded 4 years later. Averaged freshman graduation rates in this table are based on reported totals of enrollment by grade and high school graduates, rather than on details reported by race/ethnicity. Some data have been revised from previously published figures.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Common Core of Data (CCD), "State Nonfiscal Survey of Public Elementary/Secondary Education," 1986–87 through 2008–09; *The Averaged Freshman Graduation Rate for Public High Schools From the Common Core of Data: School Years 2002–03 and 2003–04*; and *Projections of Education Statistics to 2017*. (This table was prepared August 2010.)

<sup>1</sup>Data differ slightly from figures reported in other tables due to varying reporting practices for racial/ethnic survey data.

<sup>2</sup>High school graduate counts include estimates for nonreporting states, based on 2007 12th-grade enrollment racial/ethnic distribution reported by state. Event dropout rate totals are totals for reporting states only.

<sup>3</sup>Projected data from NCES 2010-069, *Projections of Education Statistics to 2019*.

NOTE: Includes only graduates for whom race/ethnicity was reported. Race categories exclude persons of Hispanic ethnicity. Event dropout rates measure the percentage of public school students in grades 9 through 12 who dropped out of school between one October and the next. DoD = Department of Defense.

—Not available.

<sup>1</sup>People who did not report their age were excluded from this calculation. Age data for 1988 and prior years are for all test takers and may not be comparable to data for later years.

<sup>2</sup>All people taking the GED tests (one or more subtests).

<sup>3</sup>People completing the entire GED battery of five tests.

<sup>4</sup>Data for 2002 and later years are for people passing the GED tests (i.e., earning both a passing total score on the test battery and a passing score on each individual test). Data for 2001 and prior years are for high school equivalency credentials issued by the states to GED test passers. In order to receive high school equivalency credentials in some states, GED test passers must meet additional state requirements (e.g., complete an approved course in civics or government).

<sup>5</sup>Includes other jurisdictions, such as Puerto Rico, Guam, and American Samoa.

<sup>6</sup>For 1988 and prior years, 19-year-olds are included with the 16- to 18-year-olds instead of the 19- to 24-year-olds.

<sup>7</sup>A revised GED test was introduced in 2002. In 2001, test takers were required to successfully complete all five components of the GED or else begin the five-part series again with the new test that was introduced in 2002.

NOTE: Data are for the United States only and exclude other jurisdictions, except where noted. Detail may not sum to totals because of rounding. Some data have been revised from previously published figures.

—Not available.

†Not applicable.

<sup>1</sup>Includes other racial/ethnic categories not separately shown.

<sup>2</sup>Based on the April 1960 decennial census.

<sup>3</sup>White and Black include persons of Hispanic ethnicity.

<sup>4</sup>Because of changes in data collection procedures, data may not be comparable with figures for years prior to 1992.

<sup>5</sup>White and Black exclude persons identifying themselves as two or more races.

NOTE: "Status" dropouts are 16- to 24-year-olds who are not enrolled in school and who have not completed a high school program, regardless of when they left school. People who have received GED credentials are counted as high school completers. All data except for 1960 are based on October counts. Data are based on sample surveys of the civilian noninstitutionalized population, which excludes persons in prisons, persons in the military, and other persons not living in households. Race categories exclude persons of Hispanic ethnicity except where otherwise noted. Standard errors appear in parentheses.

SOURCE: U.S. Department of Commerce, Census Bureau, Current Population Survey (CPS), October 1967 through October 2009. (This table was prepared August 2010.)

**Table 116. Percentage of high school dropouts among persons 16 through 24 years old (status dropout rate), by income level, and percentage distribution of status dropouts, by labor force status and educational attainment: 1970 through 2009**

Year	Status dropout rate	Status dropout rate, by family income quartile				Percentage distribution of status dropouts, by labor force status				Percentage distribution of status dropouts, by years of school completed				
		Lowest quartile	Middle low quartile	Middle high quartile	Highest quartile	Total	Employed <sup>1</sup>	Unemployed	Not in labor force	Total	Less than 9 years	9 years	10 years	11 or 12 years

—Not available.

†Not applicable.

‡Reporting standards not met.

<sup>1</sup>Includes persons employed, but not currently working.

<sup>2</sup>Because of changes in data collection procedures, data may not be comparable with figures for years prior to 1992.

NOTE: "Status" dropouts are 16- to 24-year-olds who are not enrolled in school and who have not completed a high school program, regardless of when they left school. People who have received GED credentials are counted as high school completers.

Data are based on sample surveys of the civilian noninstitutionalized population, which excludes persons in prisons, persons in the military, and other persons not living in households. Some data have been revised from previously published figures. Detail may not sum to totals because of rounding. Standard errors appear in parentheses.

†Not applicable.

<sup>1</sup>Students may exit special education services due to maximum age beginning at age 18 depending on state law or practice or order of any court.

<sup>2</sup>"Dropped out" is defined as the total who were enrolled at some point in the reporting year, were not enrolled at the end of the reporting year, and did not exit through any of the other bases described. Includes students previously categorized as "moved, not known to continue."

<sup>3</sup>"Transferred to regular education" was previously labeled "no longer receives special education."

<sup>4</sup>"Moved, known to be continuing" is the total number of students who moved out of the administrative area or transferred to another district and are known to be continuing in an educational program.

<sup>5</sup>Other health impairments include having limited strength, vitality, or alertness due to chronic or acute health problems such as a heart condition, tuberculosis, rheumatic fever, nephritis, asthma, sickle cell anemia, hemophilia, epilepsy, lead poisoning, leukemia, or diabetes.

†Not applicable.

<sup>1</sup>Based on assessments collected using the Bayley Short Form Research Edition (BSF-R), a shortened field method of administering the Bayley Scales of Infant Development-II (BSID-II) (Bayley 1993). The scores are fully equated with the BSID-II; for more information, see NCES's *Early Childhood Longitudinal Study, Birth Cohort (ECLS-B) Psychometric Report for the 2-year Data Collection*. The proficiency probabilities indicate mastery of a specific skill or ability within mental or physical domains.

<sup>2</sup>Ability to explore objects, for example, reaching for and holding objects. The child may have no specific purpose except to play or discover.

<sup>3</sup>Ability to explore objects with a purpose, such as to explore a bell to understand the source of the sound.

<sup>4</sup>Measures proficiency in communication through diverse nonverbal sounds and gestures, such as vowel and vowel-consonant sounds.

<sup>5</sup>Measures proficiency in engaging in early problem solving, such as using a tool to reach an out-of-reach toy or locating a hidden toy.

<sup>6</sup>Measures proficiency in early communication skills, such as saying simple words like "mama" and "dada."

<sup>7</sup>Measures proficiency in being able to use visual tracking to guide hand movements to pick up a small object.

<sup>8</sup>Measures proficiency in ability to maintain control of the muscles used in sitting with and without support.

<sup>9</sup>Measures proficiency in ability to engage in various prewalking types of mobility, with and without support, such as shifting weight from one foot to the other.

<sup>10</sup>Measures proficiency in ability to walk with help and to stand independently.

<sup>11</sup>Measures proficiency in being able to walk independently.

<sup>12</sup>Measures proficiency in ability to maintain balance while shifting position.

<sup>13</sup>The type of nonparental care in which the child spent the most hours.

<sup>14</sup>Care provided in the child's home or in another private home by a relative (excluding parents).

<sup>15</sup>Care provided in the child's home or in another private home by a person unrelated to the child.

<sup>16</sup>Care provided in places such as early learning centers, nursery schools, and preschools.

<sup>17</sup>Children who spent an equal amount of time in each of two or more arrangements.

<sup>18</sup>Poverty status based on Census Bureau guidelines from 2002, which identify a dollar amount determined to meet a household's needs, given its size and composition. In 2002, a family of four was considered to live below the poverty threshold if its income was less than or equal to \$18,392.

<sup>19</sup>Socioeconomic status (SES) was measured by a composite score based on parental education and occupations, and family income. NOTE: This table is based on a survey that sampled children born in 2001 and was designed to collect information about them for the first time when the children were about 9 months of age (i.e., 8 to 10 months). As shown in the table, some children were older than this, although only 6.5 percent were over 13 months of age. Estimates weighted by W1C0. Race categories exclude persons of Hispanic ethnicity. Detail may not sum to totals because of rounding and survey item nonresponse. Standard errors appear in parentheses. Some data have been revised from previously published figures.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Early Childhood Longitudinal Study, Birth Cohort 9-month–Kindergarten 2007 Restricted-Use Data File and Electronic Codebook. (This table was prepared December 2010.)

**Table 119. Percentage of children demonstrating specific cognitive skills, motor skills, and secure emotional attachment to parents at about 2 years of age, by selected characteristics: 2003–04**

See notes at end of table.

**Table 119. Percentage of children demonstrating specific cognitive skills, motor skills, and secure emotional attachment to parents at about 2 years of age, by selected characteristics: 2003–04—Continued**

Selected characteristic	Percentage distribution of children <sup>1</sup>	Percent of children who demonstrate skills or secure emotional attachment												
		Specific cognitive skills <sup>2</sup>					Specific motor skills <sup>2</sup>					Secure emotional attachment to parent <sup>3</sup>		
		Receptive vocabulary <sup>4</sup>	Expressive vocabulary <sup>5</sup>	Listening comprehension <sup>6</sup>	Matching/discrimination <sup>7</sup>	Early counting <sup>8</sup>	Skillful walking <sup>9</sup>	Balance <sup>10</sup>	Fine motor control <sup>11</sup>	Uses stairs <sup>12</sup>	Alternating balance <sup>13</sup>		Motor planning <sup>14</sup>	
2	3	4	5	6	7	8	9	10	11	12	13	14		
Socioeconomic status <sup>21</sup>														
Lowest 20 percent.....	19.1 (0.53)	77.3 (0.89)	51.7 (1.12)	26.5 (0.78)	22.5 (0.67)	1.5 (0.12)	91.7 (0.37)	88.1 (0.60)	53.7 (0.75)	46.5 (0.63)	28.3 (0.66)	9.4 (0.26)	51.5 (1.90)	
Middle 60 percent.....	60.3 (0.73)	84.5 (0.47)	63.8 (0.69)	36.3 (0.56)	31.5 (0.53)	3.5 (0.17)	92.5 (0.24)	89.4 (0.41)	55.4 (0.60)	48.0 (0.52)	30.0 (0.60)	10.2 (0.27)	61.3 (1.49)	
Highest 20 percent.....	20.6 (0.56)	91.1 (0.43)	75.4 (0.80)	46.7 (0.70)	41.5 (0.70)	7.0 (0.38)	93.4 (0.24)	90.9 (0.40)	57.2 (0.64)	49.5 (0.54)	31.5 (0.63)	10.9 (0.29)	71.7 (1.86)	

†Not applicable.

<sup>1</sup>Distribution of weighted Early Childhood Longitudinal Study, Birth Cohort survey population between 22 and 25 months of age.

<sup>2</sup>Based on assessments collected using the Bayley Short Form Research Edition (BSF-R), a shortened field method of administering the Bayley Scales of Infant Development-II (BSID-II) (Bayley 1993). The scores are fully equated with the BSID-II; for more information, see NCES's *Early Childhood Longitudinal Study, Birth Cohort (ECLS-B) Psychometric Report for the 2-year Data Collection*. The proficiency probabilities indicate mastery of a specific skill or ability within mental or physical domains.

<sup>3</sup>Secure attachment was measured by trained observers using the Toddler Attachment Sort-45 Item (TAS-45) assessment. The formation of secure attachments in early childhood is an indicator that the child is able to use the parent as a secure base from which to explore novel stimuli in the environment freely and acquire a sense of self-confidence and adaptability to new and challenging situations. Other possible attachment classifications were avoidant, ambivalent, and disorganized/disorientated.

<sup>4</sup>Ability to recognize and understand spoken words or to indicate a named object by pointing.

<sup>5</sup>Verbal expressiveness using gestures, words, and sentences.

<sup>6</sup>Ability to understand actions depicted by a story, in pictures, or by verbal instructions.

<sup>7</sup>Ability to match objects by their properties (e.g., color) or differentiate one object from another.

<sup>8</sup>Knowledge of counting words, knowledge of ordinality, and understanding of simple quantities.

<sup>9</sup>Ability to walk independently.

<sup>10</sup>Ability to maintain balance when changing position.

<sup>11</sup>Ability to use fine motor control with hands, such as grasping a pencil or holding a piece of paper while scribbling.

<sup>12</sup>Ability to walk up and down stairs, with or without alternating feet.

<sup>13</sup>Ability to maintain balance when changing position or when in motion, such as jumping.

<sup>14</sup>Ability to anticipate, regulate, and execute motor movements, such as being able to attempt to replicate the motions of others.

<sup>15</sup>The type of nonparental care in which the child spent the most hours.

<sup>16</sup>Care provided in the child's home or in another private home by a relative (excluding parents).

<sup>17</sup>Care provided in the child's home or in another private home by a person unrelated to the child.

<sup>18</sup>Care provided in places such as early learning centers, nursery schools, and preschools.

<sup>19</sup>Children who spent an equal amount of time in each of two or more arrangements.

<sup>20</sup>Poverty status based on Census Bureau guidelines from 2002, which identify a dollar amount determined to meet a household's needs, given its size and composition. In 2002, a family of four was considered to live below the poverty threshold if its income was less than or equal to \$18,392.

<sup>21</sup>Socioeconomic status (SES) was measured by a composite score based on parental education and occupations, and family income. NOTE: Estimates weighted by W2R0. Estimates pertain to sample of children born in 2001 and assessed between 22 months and 25 months of age. Children younger than 22 months (less than 1 percent of the survey population) and children older than 25 months (approximately 9 percent of the survey population) are excluded from this table. Race categories exclude persons of Hispanic ethnicity. Detail may not sum to totals because of rounding and survey item nonresponse. Standard errors appear in parentheses. Some data have been revised from previously published figures.

<sup>1</sup>Reflects performance on language and literacy items (e.g., conventions of print, letter recognition, understanding of letter-sound relationships, phonological awareness, sight word recognition, and understanding words in the context of simple sentences). Potential score ranges from 0 to 85.

<sup>2</sup>Includes number sense, geometry, counting, operations, and patterns. Potential score ranges from 0 to 71.

<sup>3</sup>Measures the ability to use fine motor skills in drawing basic forms and shapes. Potential score ranges from 0 to 4.

<sup>4</sup>The type of nonparental care in which the child spent the most hours.

<sup>5</sup>Care provided in the child's home or in another private home by a relative (excluding parents).

<sup>6</sup>Care provided in the child's home or in another private home by a person unrelated to the child.

<sup>7</sup>Care provided in places such as early learning centers, nursery schools, and preschools, excluding Head Start.

<sup>8</sup>Children who spent an equal amount of time in each of two or more arrangements.

<sup>9</sup>Primary home language was asked of the parent interview respondent.

<sup>10</sup>Poverty status based on Census Bureau guidelines from 2006 (for 2006–07 kindergarten entrants) and 2007 (for 2007–08 kindergarten entrants), which identify a dollar amount determined to meet a household's needs, given its size and composition. In 2006, a family of four was considered to live below the poverty threshold if its income was less than or equal to \$20,614.

<sup>11</sup>Socioeconomic status (SES) was measured by a composite score based on parental education and occupations, and family income.

NOTE: Estimates weighted by WKRO. Estimates pertain to a sample of children who were born in 2001. About 75 percent of the children born in 2001 entered kindergarten in the 2006–07 school year, and the other 25 percent entered kindergarten in the 2007–08 school year; estimates in this table combine data collected in these two school years. Race categories exclude persons of Hispanic ethnicity. Detail may not sum to totals because of rounding and survey item response. Standard errors appear in parentheses.

<sup>1</sup>Status during kindergarten year.

NOTE: Reading scale ranges from 0 to 209. Estimates for each assessment round include all children assessed in English in that round, even if they were not assessed in English in a previous round. In fall 1998, 8 percent of the kindergarten sample was not administered the English battery because of non-passing scores on the OLDS (Oral Language Development Scale) English proficiency assessment. By spring of first grade, this percentage had decreased to 2 percent. In the third grade and subsequent years, the OLDS was not administered and all children were assessed in English. Most of the children were in first grade in 1999–2000, but 5 percent were in kindergarten or other grades (e.g., second grade, ungraded classrooms); most were in third grade in 2001–02, but 11 percent were in second grade or other grades (e.g., fourth grade, ungraded

classrooms); most were in fifth grade in 2003–04, but 14 percent were in fourth grade or other grades (e.g., sixth grade, ungraded classrooms); most were in eighth grade in 2006–07, but 14 percent were in seventh grade or other grades (e.g., ninth grade or ungraded classrooms). Data were calculated using C1\_7FC0 weight. Estimates differ from previously published figures because the data were recalibrated to represent the kindergarten through eighth-grade reading assessment item pool. Race categories exclude persons of Hispanic ethnicity. Standard errors appear in parentheses.

<sup>1</sup>Status during kindergarten year.

NOTE: Mathematics scale ranges from 0 to 172, and science scale ranges from 0 to 108. Estimates for each assessment round include all children assessed in that round, including children assessed in Spanish. In kindergarten and first grade, the mathematics assessment was administered in Spanish for Spanish-speaking children who did not pass the English OLDS (Oral Language Development Scale). All assessments were administered in English in third grade through eighth grade. Most of the children were in first grade in 1999–2000, but 5 percent were in kindergarten or other grades (e.g., second grade, ungraded classrooms); most were in third grade in 2001–02, but 11 percent were in second grade or other grades (e.g., fourth grade, ungraded classrooms); most were in fifth grade in 2003–04, but 14 percent were in fourth grade or other grades

(e.g., sixth grade, ungraded classrooms); most were in eighth grade in 2006–07, but 14 percent were in seventh grade or other grades (e.g., ninth grade or ungraded classrooms). Data were calculated using C1\_7FC0 weight. Estimates differ from previously published figures because the data were recalibrated to represent the kindergarten through eighth-grade mathematics assessment item pool and the third-grade through eighth-grade science assessment item pool. Race categories exclude persons of Hispanic ethnicity. Standard errors appear in parentheses.

<sup>1</sup>Data for 1971 include persons of Hispanic ethnicity.

<sup>2</sup>Test scores of Hispanics were not tabulated separately.

NOTE: The NAEP reading scores have been evaluated at certain performance levels. Scale ranges from 0 to 500. Students scoring 150 (or higher) are able to follow brief written directions and carry out simple, discrete reading tasks. Students scoring 200 are able to understand, combine ideas, and make inferences based on short uncomplicated passages about specific or sequentially related information. Students scoring 250 are able to search for specific information, interrelate ideas, and make generalizations about literature, science, and social studies materials. Students scoring 300 are able to find, understand, summarize, and explain relatively complicated literary and informational material. Includes

public and private schools. Excludes persons not enrolled in school and students who were unable to be tested due to limited proficiency in English or due to a disability. Beginning in 2004, data are for a revised assessment format that provides accommodations for students with disabilities and English language learners. Race categories exclude persons of Hispanic ethnicity, except where noted. Totals include other racial/ethnic groups not shown separately. Some data have been revised from previously published figures. Standard errors appear in parentheses.

†Not applicable.

‡Reporting standards not met.

<sup>1</sup>Accommodations were not permitted for this assessment.

<sup>2</sup>The percentile represents a specific point on the percentage distribution of all students ranked by their reading score from low to high. For example, 10 percent of students scored at or below the 10th percentile score, while 90 percent of students scored above it.

<sup>3</sup>The standard deviation provides an indication of how much the test scores varied. The lower the standard deviation, the closer the scores were clustered around the average score. About two-thirds of the student scores can be expected to fall within the range of one standard deviation above and one standard deviation below the average score. For example, the average score for all 4th-graders was 221, and the standard deviation was 35. This means that we would expect about two-

thirds of the students to have scores between 256 (one standard deviation above the average) and 186 (one standard deviation below). Standard errors also must be taken into account when making comparisons of these ranges. For a discussion of standard errors, see Appendix A: Guide to Sources.

NOTE: Scale ranges from 0 to 500. Includes public and private schools. Excludes persons not enrolled in school and those who were unable to be tested due to limited proficiency in English or due to a disability. Race categories exclude persons of Hispanic ethnicity. Standard errors appear in parentheses.

†Not applicable.

‡Reporting standards not met.

<sup>1</sup>Accommodations were not permitted for this assessment.

NOTE: Scale ranges from 0 to 500. Includes public and private schools. Excludes persons not enrolled in school and those who were unable to be tested due to limited proficiency in English or

due to a disability. Race categories exclude persons of Hispanic ethnicity. Some data have been revised from previously published figures. Standard errors appear in parentheses.

†Not applicable.

‡Reporting standards not met.

NOTE: The NAEP reading scores have been evaluated at certain performance levels. Scale ranges from 0 to 500. Students scoring 150 (or higher) are able to follow brief written directions and carry out simple, discrete reading tasks. Students scoring 200 are able to understand, combine ideas, and make inferences based on short uncomplicated passages about specific or sequentially related information. Students scoring 250 are able to search for specific information, interrelate ideas, and make generalizations about literature, science, and social studies materials. Students scoring 300 are able to find, understand, summarize, and explain relatively complicated literary and informational material. Includes public and private schools. Excludes per-

sons not enrolled in school and students who were unable to be tested due to limited proficiency in English or due to a disability. Beginning in 2004, data are for a revised assessment format that provides accommodations for students with disabilities and English language learners. Detail may not sum to totals because of rounding. Some data have been revised from previously published figures. Standard errors appear in parentheses.

†Not applicable.

<sup>1</sup>Data for 1971 include persons of Hispanic ethnicity.

<sup>2</sup>Test scores of Hispanics were not tabulated separately.

NOTE: The NAEP reading scores have been evaluated at certain performance levels. Scale ranges from 0 to 500. Students scoring 150 (or higher) are able to follow brief written directions and carry out simple, discrete reading tasks. Students scoring 200 are able to understand, combine ideas, and make inferences based on short uncomplicated passages about specific or sequentially related information. Students scoring 250 are able to search for specific information, interrelate ideas, and make generalizations about literature, science, and social studies materials. Students scoring 300 are able to find, understand, summarize, and explain relatively complicated literary and informational material. Includes public and private

schools. Excludes persons not enrolled in school and students who were unable to be tested due to limited proficiency in English or due to a disability. Beginning in 2004, data are for a revised assessment format that provides accommodations for students with disabilities and English language learners. Race categories exclude persons of Hispanic ethnicity, except where noted. Standard errors appear in parentheses.

‡Reporting standards not met.

<sup>1</sup>Scale ranges from 0 to 500.

<sup>2</sup>Race/ethnicity based on school records.

<sup>3</sup>Basic denotes partial mastery of the knowledge and skills that are fundamental for proficient work at the 4th-grade level.

<sup>4</sup>Proficient represents solid academic performance for 4th-graders. Students reaching this level have demonstrated competency over challenging subject matter.

<sup>5</sup>Advanced signifies superior performance.

<sup>6</sup>Did not satisfy one or more of the guidelines for school participation in 1998. Data are subject to appreciable nonresponse bias.

<sup>7</sup>Did not satisfy one or more of the guidelines for school participation in 2002. Data are subject to appreciable nonresponse bias.

<sup>8</sup>Did not satisfy one or more of the guidelines for school participation in 1992. Data are subject to appreciable nonresponse bias.

<sup>9</sup>Did not satisfy one or more of the guidelines for school participation in 1994. Data are subject to appreciable nonresponse bias.

<sup>10</sup>Prior to 2005, NAEP divided the Department of Defense (DoD) schools into two jurisdictions, domestic and overseas. In 2005, NAEP began combining the DoD domestic and overseas schools into a single jurisdiction. Data shown in this table for years prior to 2005 were recalculated for comparability.

NOTE: The reading data include students for whom accommodations were permitted except for the 1992 and 1994 data. Race categories exclude persons of Hispanic ethnicity. Standard errors appear in parentheses.

—Not available.

†Not applicable.

‡Reporting standards not met.

<sup>1</sup>Scale ranges from 0 to 500.

<sup>2</sup>Basic denotes partial mastery of prerequisite knowledge and skills that are fundamental for proficient work at a given grade.

<sup>3</sup>Proficient represents solid academic performance. Students reaching this level have demonstrated competency over challenging subject matter.

NOTE: Beginning in 2009, if the results for charter schools are not included in a school district's Adequate Yearly Progress (AYP) report to the U.S. Department of Education under the Elementary and Secondary Education Act, they are excluded from that district's results.

This change had little or no impact on differences between any participating district's 2007 and 2009 average reading scores except those of the District of Columbia at grade 8. For details, see the Technical Notes in *The Nation's Report Card: Reading 2009 Trial Urban District Assessment* (NCES 2010-459). Race categories exclude persons of Hispanic ethnicity. Detail may not sum to totals because of rounding and missing data. Totals include racial/ethnic groups not shown separately.

SOURCE: U.S. Department of Education, National Center for Education Statistics, National Assessment of Educational Progress (NAEP), 2007 and 2009 Reading Assessments, retrieved May 20, 2010, from the Main NAEP Data Explorer (<http://nces.ed.gov/nationsreportcard/naepdata/>). (This table was prepared May 2010.)

**Table 132. Average reading scale scores of 4th- and 8th-graders in public schools and percentage scoring at or above selected reading achievement levels, by English language learner (ELL) status and state or jurisdiction: 2009**

State or jurisdiction	4th-graders							8th-graders

#Rounds to zero.  
‡Reporting standards not met.  
<sup>1</sup>Scale ranges from 0 to 500.  
<sup>2</sup>Basic denotes partial mastery of prerequisite knowledge and skills that are fundamental for proficient work at the specified grade level.  
<sup>3</sup>Proficient represents solid academic performance. Students reaching this level have demonstrated competency over challenging subject matter.

NOTE: The results for English language learners are based on students who were assessed and cannot be generalized to the total population of such students; some English language learners—making up about 2 percent of all public school students at grade 4 and 1 percent at grade 8—were excluded from the 2009 Reading Assessment. Standard errors appear in parentheses.  
SOURCE: U.S. Department of Education, National Center for Education Statistics, National Assessment of Educational Progress (NAEP), 2009 Reading Assessment, retrieved April 13, 2010, from the Main NAEP Data Explorer ([http://nces.ed.gov/nationsreportcard/naep\\_data/](http://nces.ed.gov/nationsreportcard/naep_data/)). (This table was prepared April 2010.)

†Not applicable.

#Rounds to zero.

‡Reporting standards not met.

<sup>1</sup>Scale ranges from 1 to 300 for all three grades, but scores cannot be compared across grades. For example, a score of 156 at grade 8 does not denote higher performance than a score of 153 at grade 12.

<sup>2</sup>Basic denotes partial mastery of the knowledge and skills that are fundamental for proficient work at a given grade.

<sup>3</sup>Proficient represents solid academic performance. Students reaching this level have demonstrated competency over challenging subject matter.

<sup>4</sup>Advanced signifies superior performance for a given grade.

NOTE: Includes public and private schools. Excludes persons unable to be tested due to limited proficiency in English or due to a disability (if the accommodations provided were not sufficient to enable the test to properly reflect the students' writing proficiency). In 2002, the NAEP national samples of 4th- and 8th-graders were obtained by aggregating the samples from each state, rather than by independently selecting national samples for grades 4 and 8. As a consequence, the size of the national samples increased for these grade levels, and smaller differences were found to be statistically significant than would have been detected in previous assessments. Grade 4 was not included in the 2007 survey. Race categories exclude persons of Hispanic ethnicity. Some data have been revised from previously published figures. Detail may not sum to totals because of rounding. Standard errors appear in parentheses.

‡Reporting standards not met.

<sup>1</sup>Students were asked to analyze and describe aspects of music they heard, critique instrumental and vocal performances, and demonstrate their knowledge of standard musical notation and music's role in society.

<sup>2</sup>Responding questions asked students to analyze and describe works of art and design, while creating questions required students to create works of art and design of their own.

NOTE: Excludes students unable to be tested due to limited proficiency in English or due to a disability (if the accommodations provided were not sufficient to enable the test to properly reflect the students' music or visual arts proficiency). Detail may not sum to totals because of rounding. Race categories exclude persons of Hispanic ethnicity. Totals include other racial/ethnic groups not shown separately. Standard errors appear in parentheses.

‡Reporting standards not met.

<sup>1</sup>Basic denotes partial mastery of the knowledge and skills that are fundamental for proficient work at a given grade.

<sup>2</sup>Proficient represents solid academic performance. Students reaching this level have demonstrated competency over challenging subject matter.

<sup>3</sup>Advanced signifies superior performance for a given grade.

NOTE: Includes public and private schools. Excludes students unable to be tested due to limited proficiency in English or due to a disability (if the accommodations provided were not sufficient to enable the test to properly reflect the students' U.S. history proficiency). Race categories exclude persons of Hispanic ethnicity. Totals include other racial/ethnic groups not shown separately. Standard errors appear in parentheses.

‡Reporting standards not met.

<sup>1</sup>Scale ranges from 0 to 300.

<sup>2</sup>Basic denotes partial mastery of the knowledge and skills that are fundamental for proficient work at a given grade.

<sup>3</sup>Proficient represents solid academic performance. Students reaching this level have demonstrated competency over challenging subject matter.

<sup>4</sup>Advanced signifies superior performance for a given grade.

<sup>5</sup>Accommodations were not permitted for this assessment.

NOTE: Includes public and private schools. Excludes students unable to be tested due to limited proficiency in English or due to a disability (if the accommodations provided were not sufficient to enable the test to properly reflect the students' proficiency in civics). Race categories exclude persons of Hispanic ethnicity. Totals include other racial/ethnic groups not shown separately. Standard errors appear in parentheses.

SOURCE: U.S. Department of Education, National Center for Education Statistics, National Assessment of Educational Progress (NAEP), 1998 and 2006 Civics Assessments, retrieved July 3, 2007, from the NAEP Data Explorer (<http://nces.ed.gov/nationsreportcard/nde/>). (This table was prepared July 2007.)

—Not available.

†Not applicable.

NOTE: Scale ranges from 0 to 500. Students scoring 150 (or higher) know some basic addition and subtraction facts. Students scoring 200 have considerable understanding of two-digit numbers and know some basic multiplication and division facts. Students scoring 250 have an initial understanding of the four basic operations and are developing an ability to analyze simple logical relations. Students scoring 300 can perform reasoning and problem solving involving fractions, decimals, percents, elementary geometry, and simple algebra. Students scoring 350 can perform reasoning and problem solving involving geometry, algebra, and beginning statistics and probability. Includes public and private schools. Excludes persons not enrolled in school and students who were unable to be tested due to limited proficiency in English or due

to a disability. Beginning in 2004, data are for a revised assessment format that provides accommodations for students with disabilities and English language learners. Race categories exclude persons of Hispanic ethnicity. Totals include other racial/ethnic groups not shown separately. Some data have been revised from previously published figures. Standard errors appear in parentheses.

†Not applicable.

#Rounds to zero.

‡Reporting standards not met.

<sup>1</sup>Includes Asians/Pacific Islanders and American Indians/Alaska Natives.

NOTE: Score level 200 indicates ability to perform simple additive reasoning and problem solving. Score level 250 indicates ability to perform simple multiplicative reasoning and two-step problem solving. Score level 300 indicates ability to perform reasoning and problem solving involving fractions, decimals, percents, elementary geometry, and simple algebra. Score level 350 indicates ability to perform reasoning and problem solving involving geometry, algebra, and beginning statistics and probability. Scale ranges from 0 to 500. Excludes

persons not enrolled in school and students who were unable to be tested due to limited proficiency in English or due to a disability. Beginning in 2008, data are for a revised assessment format that provides accommodations for students with disabilities and English language learners. Includes public and private schools. Race categories exclude persons of Hispanic ethnicity. Detail may not sum to totals because of rounding. Standard errors appear in parentheses.

—Not available.

†Not applicable.

<sup>1</sup>Scale ranges from 0 to 500.

<sup>2</sup>Basic denotes partial mastery of prerequisite knowledge and skills that are fundamental for proficient work at the 4th-grade level.

<sup>3</sup>Proficient represents solid academic performance for 4th-graders. Students reaching this level have demonstrated competency over challenging subject matter.

<sup>4</sup>Advanced signifies superior performance.

<sup>5</sup>Did not meet one or more of the guidelines for school participation in 2000. Data are subject to appreciable nonresponse bias.

<sup>6</sup>Prior to 2005, NAEP divided the Department of Defense (DoD) schools into two jurisdictions, domestic and overseas. In 2005, NAEP began combining the DoD domestic and overseas

schools into a single jurisdiction. Data shown in this table for years prior to 2005 were recalculated for comparability.

<sup>7</sup>Because of modifications to the 2005 Puerto Rico administration, results from 2003 should not be compared to results from 2005. Although parallel changes were not made in the nation in 2005, within-year comparisons between Puerto Rico and the nation are valid.

NOTE: With the exception of 1992, includes students for whom accommodations were permitted. Excludes students unable to be tested (even with accommodations) due to limited proficiency in English or due to a disability. Some data have been revised from previously published figures. Detail may not sum to totals because of rounding. Standard errors appear in parentheses.

SOURCE: U.S. Department of Education, National Center for Education Statistics, National Assessment of Educational Progress (NAEP), 1992, 2000, 2003, 2005, 2007, and 2009 Mathematics Assessments, retrieved November 19, 2009, from the Main NAEP Data Explorer (<http://nces.ed.gov/nationsreportcard/naepdata>). (This table was prepared November 2009.)

**Table 144. Average mathematics scale score of 8th-grade public school students and percentage attaining mathematics achievement levels, by level of parental education and state or jurisdiction: Selected years, 1990 through 2009**

State or jurisdiction	Average scale score <sup>1</sup>							Percent attaining mathematics achievement levels, 2009				Average scale score, by highest level of education attained by parents, 2009 <sup>2</sup>

—Not available.

†Not applicable.

‡Reporting standards not met.

<sup>1</sup>Scale ranges from 0 to 500.

<sup>2</sup>Excludes students who responded "I don't know" to the question about educational level of parents.

<sup>3</sup>Basic denotes partial mastery of prerequisite knowledge and skills that are fundamental for proficient work at the 8th-grade level.

<sup>4</sup>Proficient represents solid academic performance for 8th-graders. Students reaching this level have demonstrated competency over challenging subject matter.

<sup>5</sup>Advanced signifies superior performance.

<sup>6</sup>Did not meet one or more of the guidelines for school participation in 2000. Data are subject to appreciable nonresponse bias.

<sup>7</sup>Prior to 2005, NAEP divided the Department of Defense (DoD) schools into two jurisdictions, domestic and overseas. In 2005, NAEP began combining the DoD domestic and overseas schools into a single jurisdiction. Data shown in this table for years prior to 2005 were recalculated for comparability.

<sup>8</sup>Because of modifications to the 2005 Puerto Rico administration, results from 2003 should not be compared to results from 2005. Although parallel changes were not made in the nation in 2005, within-year comparisons between Puerto Rico and the nation are valid.

NOTE: Excludes persons not enrolled in school and those who were unable to be tested due to limited proficiency in English or due to a disability. Data for 2000, 2003, 2005, 2007, and 2009 include students for whom accommodations were permitted. Detail may not sum to totals because of rounding. Standard errors appear in parentheses.

SOURCE: U.S. Department of Education, National Center for Education Statistics, National Assessment of Educational Progress (NAEP), 1990, 1996, 2000, 2003, 2005, 2007, and 2009 Mathematics Assessments, retrieved November 18, 2008, from the Main NAEP Data Explorer (<http://nces.ed.gov/nationsreportcard/naepdata>). (This table was prepared November 2009.)

†Not applicable.

‡Reporting standards not met.

<sup>1</sup>Scale ranges from 0 to 500.

<sup>2</sup>*Basic* denotes partial mastery of the knowledge and skills that are fundamental for proficient work at a given grade.

<sup>3</sup>*Proficient* represents solid academic performance. Students reaching this level have demonstrated competency over challenging subject matter.

NOTE: Beginning in 2009, if the results for charter schools are not included in a school district's Adequate Yearly Progress (AYP) report to the U.S. Department of Education under the Elementary and Secondary Education Act, they are excluded from that district's results.

This change had little or no impact on differences between any participating district's 2007 and 2009 average mathematics scores except those of the District of Columbia at grade 8. For details, see the Technical Notes in *The Nation's Report Card: Mathematics 2009 Trial Urban District Assessment* (NCES 2010-452). Race categories exclude persons of Hispanic ethnicity. Totals include racial/ethnic groups not shown separately. Standard errors appear in parentheses.

‡Reporting standards not met.

<sup>1</sup>Accommodations were not permitted for this assessment.

<sup>2</sup>Because of major changes to the framework and content of the grade 12 assessment, scores from 2005 and 2009 cannot be compared with scores from earlier assessment years. Therefore, this table does not include scores from the earlier grade 12 assessment years (1990, 1992, 1996, and 2000). For data pertaining to comparisons between earlier years, see *Digest of Education Statistics 2009*, table 138 ([http://nces.ed.gov/programs/digest/d09/tables/dt09\\_138.asp](http://nces.ed.gov/programs/digest/d09/tables/dt09_138.asp)).

NOTE: For the grade 4 and grade 8 assessments, scale ranges from 0 to 500. For the grade 12 assessment, scale ranges from 0 to 300. Includes public and private schools. Excludes persons not enrolled in school and students who were unable to be tested due to limited proficiency in English or due to a disability. Race categories exclude persons of Hispanic ethnicity. Some data have been revised from previously published figures. Standard errors appear in parentheses.

<sup>1</sup>Scale ranges from 0 to 500.

NOTE: Includes public and private schools. Includes students for whom accommodations were permitted. Excludes students unable to be tested (even with accommodations) due to limited proficiency in English or due to a disability. Race categories exclude persons of Hispanic ethnicity. Detail may not sum to totals because of rounding. Standard errors appear in parentheses.

—Not available.

†Not applicable.

‡Reporting standards not met.

<sup>1</sup>Testing accommodations (e.g., extended time, small group testing) for children with disabilities and limited-English-proficient students were not permitted on the 1996 science assessment.

<sup>2</sup>The percentile represents a specific point on the percentage distribution of all students ranked by their science score from low to high. For example, 10 percent of students scored at or below the 10th percentile score, while 90 percent of students scored above it.

<sup>3</sup>*Basic* denotes partial mastery of the knowledge and skills that are fundamental for proficient work.

<sup>4</sup>*Proficient* represents solid academic performance. Students reaching this level have demonstrated competency over challenging subject matter.

<sup>5</sup>*Advanced* signifies superior performance.

NOTE: The NAEP science scale ranges from 0 to 300. Race categories exclude persons of Hispanic ethnicity. Standard errors appear in parentheses.

†Not applicable.

‡Reporting standards not met.

<sup>1</sup>Accommodations were not permitted for this assessment.

<sup>2</sup>Significantly different from 2005 when only one jurisdiction or the nation is being examined.

<sup>3</sup>Did not satisfy one or more of the guidelines for school participation in 1996. Data are subject to appreciable nonresponse bias.

<sup>4</sup>Did not satisfy one or more of the guidelines for school participation in 2000. Data are subject to appreciable nonresponse bias.

<sup>5</sup>Before 2005, Department of Defense domestic and overseas schools were separate jurisdictions in NAEP. Data for 1996 and 2000 were recalculated for comparability.

NOTE: Excludes persons not enrolled in school and those who were unable to be tested due to limited proficiency in English or due to a disability (if sample not tested with accommodations or if the accommodations provided in 2000 and 2005 were not sufficient to enable the test to properly reflect the students' science proficiency). Scale ranges from 0 to 300. Race categories exclude persons of Hispanic ethnicity. Standard errors appear in parentheses. Some data have been revised from previously published figures.

NOTE: Data are for seniors who took the SAT any time during their high school years through March of their senior year. If a student took a test more than once, the most recent score was used. The SAT was formerly known as the Scholastic Assessment Test and the Scholastic Aptitude Test. Possible scores on each part of the SAT range from 200 to 800. The critical reading section was formerly known as the verbal section. The writing section was introduced in March 2005.

†Not applicable.

<sup>1</sup>Data for 1966–67 to 1985–86 were converted to the recentered scale by using a formula applied to the original mean and standard deviation. For 1986–87 to 1994–95, individual student scores were converted to the recentered scale and then the mean was recomputed. For 1995–96 to 1998–99, nearly all students received scores on the recentered scale; any score on the original scale was converted to the recentered scale prior to recomputing the mean. From 1999–2000 on, all scores have been reported on the recentered scale.

<sup>2</sup>Writing data are based on students who took the SAT writing section, which was introduced in March 2005.

NOTE: Data for 1966–67 through 1970–71 are estimates derived from the test scores of all participants. Data for 1971–72 and later are for seniors who took the SAT any time during their high school years through March of their senior year. If a student took a test more than once, the most recent score was used. The SAT was formerly known as the Scholastic Assessment Test and the Scholastic Aptitude Test. Possible scores on each part of the SAT range from 200 to 800. The critical reading section was formerly known as the verbal section. SOURCE: College Entrance Examination Board, *College-Bound Seniors: Total Group Profile [National] Report*, 1966–67 through 2009–10, retrieved September 14, 2010, from <http://professionals.collegeboard.com/data-reports-research/sat/cb-seniors-2010>. (This table was prepared September 2010.)

†Not applicable.

#Rounds to zero.

<sup>1</sup>Prior to 2006, the critical reading section was known as the verbal section.

<sup>2</sup>Writing data are based on students who took the SAT writing section, which was introduced in March 2005.

<sup>3</sup>Beginning in 2005–06, the College Board has reported third, fourth, and fifth quintiles as the bottom three quintiles instead of reporting them separately as in previous years.

<sup>4</sup>Data may not be comparable over time because of additions to the list of majors and changes in subspecialties within majors.

<sup>5</sup>Prior to 2006–07, family and consumer sciences/human sciences was called home economics.

NOTE: Data are for seniors who took the SAT any time during their high school years through March of their senior year. If a student took a test more than once, the most recent score was used. The SAT was formerly known as the Scholastic Assessment Test and the Scholastic Aptitude Test. Possible scores on each part of the SAT range from 200 to 800. Detail may not sum to totals because of rounding and survey item nonresponse.

<sup>1</sup>Participation rate is based on the projection of high school graduates by the Western Interstate Commission for Higher Education (WICHE), and the number of seniors who took the SAT in each state.

<sup>2</sup>Writing data are based on students who took the SAT writing section, which was introduced in March 2005.

<sup>3</sup>Beginning with the spring SAT administration in 2006, all Maine high school juniors, including all students in their third year of high school, are required to take SAT tests in critical reading, writing, and mathematics.

NOTE: Data are for seniors who took the SAT any time during their high school years through March of their senior year. If a student took a test more than once, the most recent score was used. The SAT was formerly known as the Scholastic Assessment Test and the Scholastic Aptitude Test. Possible scores on each part of the SAT range from 200 to 800. The critical reading section was formerly known as the verbal section.

—Not available.

<sup>1</sup>Minimum score is 1 and maximum score is 36.

<sup>2</sup>Standard deviations not available for racial/ethnic groups.

<sup>3</sup>Includes business and management, business and office, and marketing and distribution.

<sup>4</sup>Includes engineering and engineering-related technologies.

<sup>5</sup>Includes social science and philosophy, religion, and theology.

<sup>6</sup>Includes education and teacher education.

NOTE: Data are for high school graduates who took the ACT during their sophomore, junior, or senior year. If a student took a test more than once, the most recent score was

used. Race categories exclude persons of Hispanic ethnicity. Some data have been revised from previously published figures.

<sup>1</sup>Includes general labor market preparation, consumer and homemaking education, and occupational education in agriculture, business, marketing, health, occupational home economics, trade and industry, and technical courses.

<sup>2</sup>Includes general skills, personal health and physical education, religion, military sciences, special education, and other courses not included in other subject fields.

<sup>3</sup>Though shown separately here, computer-related courses are also included in the mathematics and career/technical categories.

<sup>4</sup>Includes students who complete at least 12 Carnegie units in academic courses, but less than 3 Carnegie units in any occupational education field.

<sup>5</sup>Includes students who complete at least 3 Carnegie units in an occupational education field, but less than 12 Carnegie units in academic courses.

<sup>6</sup>Includes students who complete at least 12 Carnegie units in academic courses and at least 3 Carnegie units in an occupational education field.

<sup>7</sup>Includes students who complete less than 12 Carnegie units in academic courses and less than 3 Carnegie units in an occupational education field.

NOTE: The Carnegie unit is a standard of measurement that represents one credit for the completion of a 1-year course. Data differ slightly from figures appearing in other NCES reports because of differences in taxonomies and case exclusion criteria. Race categories exclude persons of Hispanic ethnicity. Detail may not sum to totals because of rounding. Standard errors appear in parentheses. SOURCE: U.S. Department of Education, National Center for Education Statistics, High School and Beyond Longitudinal Study of 1980 Sophomores (HS&B-So:80/82), "High School Transcript Study"; and 1987, 1990, 1994, 1998, 2000, and 2005 High School Transcript Study (HSTS). (This table was prepared January 2007.)

#Rounds to zero.

<sup>1</sup>Includes unclassified courses not shown separately.

<sup>2</sup>Includes students who complete at least 12 Carnegie units in academic courses, but less than 3 Carnegie units in any occupational education field.

<sup>3</sup>Includes students who complete at least 3 Carnegie units in an occupational education field, but less than 12 Carnegie units in academic courses.

<sup>4</sup>Includes students who complete at least 12 Carnegie units in academic courses and at least 3 Carnegie units in an occupational education field.

<sup>5</sup>Includes students who complete less than 12 Carnegie units in academic courses and less than 3 Carnegie units in an occupational education field.

NOTE: The Carnegie unit is a standard of measurement that represents one credit for the completion of a 1-year course. Data differ slightly from figures appearing in other NCES reports because of differences in taxonomies and case exclusion criteria. Race categories exclude persons of Hispanic ethnicity. Detail may not sum to totals because of rounding. Standard errors appear in parentheses.

†Not applicable.

<sup>1</sup>These data only report the percentage of students who earned the indicated credit (0.5 = one semester; 1.0 = one academic year) in each course while in high school and do not count those students who took these courses prior to entering high school.

<sup>2</sup>Excludes pre-algebra.

<sup>3</sup>Includes courses where trigonometry or geometry has been combined with algebra II.

NOTE: The Carnegie unit is a standard of measurement that represents one credit for the completion of a 1-year course. Data differ slightly from figures appearing in other NCES reports because of differences in taxonomies and case exclusion criteria. Some data have been revised from previously published figures. Race categories exclude persons of Hispanic ethnicity. Standard errors appear in parentheses.

<sup>1</sup>Advanced courses are defined as those with higher level content or those designated as "advanced," "honors," Advanced Placement (AP), or International Baccalaureate (IB). Advanced mathematics includes algebra II and more advanced courses such as pre-calculus/analysis, calculus, trigonometry, and statistics/probability. Advanced science and engineering includes second- and third-year biology and environmental/earth sciences, chemistry, academic courses applying science and mathematics concepts and skills to engineering problems, and specialized topics such as aerospace materials and metallurgy.

<sup>2</sup>School poverty rate is defined as the percentage of students eligible for the national free or reduced-price lunch program: very low = 5 percent or less, low = 6 to 25 percent, medium = 26 to 50 percent, and high = 51 to 100 percent.

NOTE: The Carnegie unit is a standard of measurement that represents one credit for the completion of a 1-year course. Race categories exclude persons of Hispanic ethnicity, and Other includes American Indian/Alaska Native. Detail may not sum to totals because of rounding. Standard errors appear in parentheses.

#Rounds to zero.

!Interpret data with caution.

‡Reporting standards not met.

<sup>1</sup>Enrollments may include duplicated counts of students in each type of course, since schools were instructed to count a student enrolled in multiple courses of a particular type for each course in which he or she was enrolled.

<sup>2</sup>Excludes schools not reporting these data.

NOTE: Data were collected during the 2002–03 12-month school year. Dual credit courses are those in which high school students can earn both high school and postsecondary credits for the same course. Percentages are based on unrounded numbers. Detail may not sum to totals because of rounding or missing data. Standard errors appear in parentheses.

<sup>1</sup>Socioeconomic status (SES) was measured by a composite score on parental education and occupations, and family income. The "low" SES group is the lowest quartile; the "middle" SES group is the middle two quartiles; and the "high" SES group is the upper quartile.

<sup>2</sup>Question does not specify where computer is used.

NOTE: Race categories exclude persons of Hispanic ethnicity. Standard errors appear in parentheses.

<sup>1</sup>Interscholastic refers to competition between teams from different schools. Intramural refers to competition between teams or students within the same school. Data on these categories are available only for 2004.

<sup>2</sup>These data were not collected in 2004.

<sup>3</sup>Composite test performance quartile on mathematics, reading, science, and social studies in 1990 (for 1994 seniors) and composite test performance quartile on mathematics, reading, and science in 2002 (for 2004 seniors).

<sup>4</sup>Socioeconomic status (SES) was measured by a composite score on parental education and occupations, and family income. NOTE: Race categories exclude persons of Hispanic ethnicity. Standard errors appear in parentheses.

†Not applicable.

‡Reporting standards not met.

!Interpret data with caution.

<sup>1</sup>Refers to one or more parent or other household adult. Only includes students who had homework outside of school.

NOTE: Includes children enrolled in kindergarten through grade 12 and ungraded students. Data based on responses of the parent most knowledgeable about the student's education. Race categories exclude persons of Hispanic ethnicity. Detail may not sum to totals because of rounding. Standard errors appear in parentheses. Totals include data for other racial/ethnic groups not separately shown.

<sup>1</sup>Socioeconomic status (SES) was measured by a composite score on parental education and occupations, and family income. The "low" SES group is the lowest quarter; the "middle" SES group is the middle two quarters; and the "high" SES group is the upper quarter.

NOTE: Race categories exclude persons of Hispanic ethnicity. Data for 2002 for persons reporting two or more races are not shown separately, but are included in totals. Detail may not sum to totals because of rounding. Standard errors appear in parentheses.

†Not applicable.

#Rounds to zero.

!Interpret data with caution.

<sup>1</sup>Access to buildings is controlled during school hours (e.g., by locked or monitored doors).

<sup>2</sup>Access to grounds is controlled during school hours (e.g., by locked or monitored gates).

<sup>3</sup>All students must pass through a metal detector each day.

<sup>4</sup>All or most students are required to stay on school grounds during lunch.

<sup>5</sup>Elementary schools have grade 6 or below, with no grade higher than 8; secondary schools have no grade lower than 7; and combined schools have grades lower than 7 and higher than 8.

NOTE: Detail may not sum to totals because of rounding. Standard errors appear in parentheses.

#Rounds to zero.

!Interpret data with caution.

‡Reporting standards not met.

<sup>1</sup>Violent incidents include serious violent incidents (i.e., rape or attempted rape, sexual battery other than rape, physical attack or fight with a weapon, threat of physical attack with a weapon, and robbery with or without a weapon) plus physical attack or fight without a weapon and threat of physical attack without a weapon.

<sup>2</sup>Serious violent incidents include rape or attempted rape, sexual battery other than rape, physical attack or fight with a weapon, threat of physical attack with a weapon, and robbery with or without a weapon.

<sup>3</sup>Rape was defined for respondents as “forced sexual intercourse (vaginal, anal, or oral penetration). This includes penetration from a foreign object.”

<sup>4</sup>Sexual battery was defined for respondents as an “incident that includes threatened rape, fondling, indecent liberties, child molestation, or sodomy.”

<sup>5</sup>Physical attack or fight was defined for respondents as an “actual and intentional touching or striking of another person against his or her will, or the intentional causing of bodily harm to an individual.”

<sup>6</sup>Weapon was defined for respondents as “any instrument or object used with the intent to threaten, injure, or kill. Includes look-alikes if they are used to threaten others.”

<sup>7</sup>Robbery was defined for respondents as “the taking or attempting to take anything of value that is owned by another person or organization, under confrontational circumstances by force or threat of force or violence and/or by putting the victim in fear. A key difference between robbery and theft/larceny is that robbery involves a threat or battery.”

<sup>8</sup>Theft/larceny (taking things over \$10 without personal confrontation) was defined for respondents as “the unlawful taking of another person’s property without personal confrontation, threat, violence, or bodily harm. Included are pocket picking, steal-

ing purse or backpack (if left unattended or no force was used to take it from owner), theft from a building, theft from a motor vehicle or motor vehicle parts or accessories, theft of bicycles, theft from vending machines, and all other types of thefts.”

<sup>9</sup>Other incidents include possession of a firearm or explosive device; possession of a knife or sharp object; distribution, possession, or use of illegal drugs or alcohol; and vandalism.

<sup>10</sup>Firearm/explosive device was defined as “any weapon that is designed to (or may readily be converted to) expel a projectile by the action of an explosive. This includes guns, bombs, grenades, mines, rockets, missiles, pipe bombs, or similar devices designed to explode and capable of causing bodily harm or property damage.”

<sup>11</sup>Vandalism was defined for respondents as “the willful damage or destruction of school property including bombing, arson, graffiti, and other acts that cause property damage. Includes damage caused by computer hacking.”

NOTE: Either the school principal or the person most knowledgeable about discipline issues at school completed the questionnaire. If the respondent did not provide a value for the total number of specified incidents at the school, the value was imputed to equal the number of specified incidents reported to police. Includes incidents happening in school buildings, on school grounds, on school buses, and at places that are holding school-sponsored events or activities. Covers times during normal school hours or when school activities/events were in session. Primary schools are defined as schools in which the lowest grade is not higher than grade 3 and the highest grade is not higher than grade 8. Middle schools are defined as schools in which the lowest grade is not lower than grade 4 and the highest grade is not higher than grade 9. High schools are defined as schools in which the lowest grade is not lower than grade 9 and the highest grade is not higher than grade 12. All public schools also includes schools with other combinations of grades (including K–12 schools), which are not shown separately. The table excludes schools with a high grade of kindergarten or lower and nonregular schools such as special education, vocational, alternative/other, and ungraded schools. Detail may not sum to totals because of rounding. Standard errors appear in parentheses.

SOURCE: U.S. Department of Education, National Center for Education Statistics, School Survey on Crime and Safety (SSOCS), 2000, 2006, and 2008. (This table was prepared June 2009.)

†Not applicable.

#Rounds to zero.

!Interpret data with caution.

<sup>1</sup>A student is counted only once, even if suspended more than once during the same school year.

<sup>2</sup>Data are based on universe counts of schools and school districts; therefore, these figures do not have standard errors.

NOTE: Race categories exclude persons of Hispanic ethnicity. Detail may not sum to totals because of rounding. Standard errors appear in parentheses.

SOURCE: U.S. Department of Education, Office for Civil Rights, Civil Rights Data Collection: 2006. (This table was prepared July 2008.)

**Table 170. Percentage of students suspended and expelled from public elementary and secondary schools, by sex, race/ethnicity, and state: 2006**

State	Percent suspended								Percent expelled								
	Total	Sex		Race/ethnicity					Total	Sex		Race/ethnicity					
		Male	Female	White	Black	Hispanic	Asian/Pacific Islander	American Indian/Alaska Native		Male	Female	White	Black	Hispanic	Asian/Pacific Islander	American Indian/Alaska Native

†Not applicable.  
#Rounds to zero.  
‡Reporting standards not met.  
<sup>1</sup>Includes other illegal drug use not shown separately.  
NOTE: Marijuana includes hashish usage for 1996 and later years. Data for 1999 and later years were gathered using Computer Assisted Interviewing (CAI) and may not be directly comparable to previous years. Because of survey improvements in

2002, the 2002 data constitute a new baseline for tracking trends. Valid trend comparisons can be made for 1985 through 1998, 1999 through 2001, and 2002 through 2008. Some data have been revised from previously published figures. Race categories exclude persons of Hispanic ethnicity. Standard errors appear in parentheses.

†Not applicable.

<sup>1</sup>Survey question changed in 1993; later data are not comparable to figures for earlier years.

<sup>2</sup>Other illicit drugs include any use of LSD or other hallucinogens, crack or other cocaine, or heroin, or any use of other narcotics, amphetamines, barbiturates, or tranquilizers not under a doctor's orders.

NOTE: Detail may not sum to totals because of rounding. Standard errors appear in parentheses. Standard errors were calculated from formulas to perform trend analysis over an interval greater than 1 year (for example, a comparison between

1975 and 1990). A revised questionnaire was used in 1982 and later years to reduce the inappropriate reporting of nonprescription stimulants. This slightly reduced the positive responses for some types of drug abuse.

—Not available.

X Denotes that the state has a policy. A blank denotes that the state does not have a policy.

<sup>1</sup>Most states have a provision whereby education is provided up to a certain age or completion of secondary school, whichever comes first.

<sup>2</sup>Child may be exempted from compulsory attendance if he/she meets state requirements for early withdrawal with or without meeting conditions for a diploma or equivalency.

<sup>3</sup>Parent/guardian may delay child's entry until a later age per state law/regulation.

<sup>4</sup>Student may continue in the program if 22nd birthday falls before the end of the school year.

<sup>5</sup>Attendance is compulsory until age 18 for Manatee County students, unless they earn a high school diploma prior to reaching their 18th birthday.

<sup>6</sup>Through age 21 or until child graduates with a high school or special education diploma or equivalent.

<sup>7</sup>Some districts operate on a multitrack system; the schools are open year-round, but different cohorts start and end at different times.

<sup>8</sup>State requires districts with full-day programs to offer half-day programs.

<sup>9</sup>To be determined by rules and regulations adopted by the state board.

<sup>10</sup>Children from birth through age 2 are eligible for additional services.

<sup>11</sup>Must be age 5 before October 15, and not age 20 before start of school year.

<sup>12</sup>Policies about year-round schools are decided locally.

<sup>13</sup>State did not participate in 2008 online survey. Data are from 2006.

<sup>14</sup>New York City and Buffalo require school attendance until age 17 unless employed; Syracuse requires kindergarten attendance at age 5.

<sup>15</sup>Beginning in 2011–12, it will be mandatory for all districts in Oklahoma to offer full-day kindergarten.

<sup>16</sup>Student may complete school year if 21st birthday occurs while attending school.

<sup>17</sup>Compulsory attendance beginning at age 5 effective July 1, 2010.

<sup>18</sup>Severely handicapped children may begin receiving services at age 3.

NOTE: The Education of the Handicapped Act (EHA) Amendments of 1986 make it mandatory for all states receiving EHA funds to serve all 3- to 18-year-old disabled children.

—Not available.

†Not applicable.

X Denotes that the state has a policy. A blank denotes that the state does not have a policy.

<sup>1</sup>Includes time for staff development.

<sup>2</sup>1994 data.

<sup>3</sup>Or an equivalent number of minutes of instruction per year for districts on an alternate schedule.

<sup>4</sup>Does not include time for staff development.

<sup>5</sup>No statewide policy; varies by district.

<sup>6</sup>1996 data.

<sup>7</sup>Instructional time for graduating seniors may be reduced.

<sup>8</sup>1998 data.

<sup>9</sup>Middle schools (any combination of grades 4 through 8) are required to have the same hours as secondary schools (grades 9 through 12).

<sup>10</sup>Teachers may use 33 hours of the full-day kindergarten program and 22 hours of the grades 1 through 5 programs for home visits or parent-teacher conferences.

<sup>11</sup>Does not include time for staff development and parent-teacher conferences.

<sup>12</sup>The Board of Education sets the minimum number of hours in the school term for grades 1 through 3.

NOTE: Minimum number of instructional days refers to the actual number of days that pupils have contact with a teacher. Some states allow for different types of school calendars by setting instructional time in both days and hours, while others use only days or only hours. For states in which the number of days or hours varies by grade, the relevant grade(s) appear in parentheses. †Not applicable.  
<sup>1</sup>Exit exam subjects tested: E = English (including writing), M = Mathematics, S = Science, and H = History/social studies.  
<sup>2</sup>Graduation requirements are determined locally.  
<sup>3</sup>Florida offers three graduation programs: one 4-year, 24-credit program, and two 3-year, 18-credit programs. The 4-year program requires 4 credits of mathematics, and both 3-year programs require 3 credits of mathematics.  
<sup>4</sup>Expressed in semester credits instead of Carnegie units.  
<sup>5</sup>Students must pass either the science or social studies components of the Graduation Exit Examination (GEE) to receive a standard diploma.  
<sup>6</sup>For the graduating classes of 2010 through 2014, students can graduate by passing statewide reading and writing assessments and either passing mathematics assessments or meeting other requirements.  
<sup>7</sup>State did not participate in the 2008 online survey; data are from 2006.  
<sup>8</sup>Expressed in credit hours instead of Carnegie units.  
<sup>9</sup>Requirement takes effect for class of 2012.

<sup>10</sup>To receive the standard diploma, students must earn at least six verified credits by passing end-of-course assessments. One of those credits may be earned by passing a student-selected test in computer science, technology, career and technical education, or other areas.  
<sup>11</sup>For the graduating class of 2010, students must pass an exit exam in reading and writing. Students in the class of 2013 will be required to pass reading, writing, math, and science assessments.  
<sup>12</sup>Determined locally, but state encourages school boards to adopt this requirement.  
 NOTE: Local school districts frequently have other graduation requirements in addition to state requirements. The Carnegie unit is a standard of measurement that represents one credit for the completion of a 1-year course. Some data have been revised from previously published figures. X State has a test.

<sup>1</sup>Off-the-shelf/norm-referenced tests (NRTs) are commercially developed tests that have not been modified to reflect state content standards.

<sup>2</sup>Custom-developed criterion-referenced tests (CRTs) are explicitly designed to measure state content standards.

<sup>3</sup>Augmented or hybrid tests incorporate elements of both NRTs and CRTs. These tests include NRTs that have been augmented or modified to reflect state standards.

NOTE: ES = elementary school, MS = middle school, and HS = high school.

X State has program.

<sup>1</sup>Testing program is for instructional purposes.

<sup>2</sup>Testing program is for the purpose of student accountability.

<sup>3</sup>Testing program is for school accountability.

<sup>4</sup>Inclusion is voluntary for students, schools, or school districts for one or more grades.

<sup>5</sup>Endorsed diploma.

<sup>6</sup>Honors diploma.

<sup>7</sup>A sample of students is tested for one or more grades.

<sup>8</sup>High school skills guarantee.

#Rounds to zero.

<sup>1</sup>Includes a relatively small amount from nongovernmental private sources (gifts and tuition and transportation fees from patrons). These sources accounted for 2.1 percent of total revenues in 2007–08.

<sup>2</sup>Revised from previously published figures.

NOTE: Beginning in 1980–81, revenues for state education agencies are excluded. Beginning in 1988–89, data reflect new survey collection procedures and may not be entirely comparable with figures for earlier years. With the exception of federal revenue per stu-

dent, data are not adjusted for changes in the purchasing power of the dollar due to inflation. Detail may not sum to totals because of rounding.

—Not available.

<sup>1</sup>Prior to 1959–60, items included under "other school services" were listed under "auxiliary services," a more comprehensive classification that also included community services.

<sup>2</sup>Includes expenditures for summer schools, adult education, community colleges, and community services.

<sup>3</sup>Prior to 1969–70, excludes capital outlay by state and local school housing authorities.

<sup>4</sup>Plant operation also includes plant maintenance.

<sup>5</sup>Data not comparable to figures prior to 1989–90.

<sup>6</sup>Data have been revised from previously published figures.

NOTE: Beginning in 1959–60, includes Alaska and Hawaii. Beginning in 1989–90, state administration expenditures were excluded from both "total" and "current" expenditures. Beginning in 1989–90, extensive changes were made in the data collection procedures. Detail may not sum to totals because of rounding.

<sup>1</sup>Constant dollars based on the Consumer Price Index, prepared by the Bureau of Labor Statistics, U.S. Department of Labor, adjusted to a school-year basis.

<sup>2</sup>Excludes capital outlay for years through 1979–80, and 1989–90 to the latest year. From 1980–81 to 1988–89 total transportation figures include capital outlay.

<sup>3</sup>Estimate based on data appearing in January issues of *School Bus Fleet*.

<sup>4</sup>Estimate based on data reported by *School Transportation News*.

NOTE: Some data have been revised from previously published figures.

—Not available.

<sup>1</sup>Data have been revised from previously published figures.

NOTE: Beginning in 1980–81, expenditures for state administration are excluded. Data are not adjusted for changes in the purchasing power of the dollar due to inflation. Detail may not sum to totals because of rounding.

SOURCE: U.S. Department of Education, National Center for Education Statistics, *Statistics of State School Systems, 1969–70; Revenues and Expenditures for Public Elementary and Secondary Education, 1979–80 and 1980–81; and Common Core of Data (CCD), "National Public Education Financial Survey," 1989–90 through 2007–08.* (This table was prepared August 2010.)

**Table 186. Total expenditures for public elementary and secondary education, by function and state or jurisdiction: 2007–08**

[In thousands of current dollars]

State or jurisdiction	Total expenditures																	
	Current expenditures for elementary and secondary programs															Other current expenditures <sup>1</sup>	Capital outlay <sup>2</sup>	Interest on school debt
	Total	Elementary/secondary current expenditures, total	Instruction	Support services											Enterprise operations <sup>3</sup>			
				Total	Student support <sup>4</sup>	Instructional staff <sup>5</sup>	General administration	School administration	Operation and maintenance	Student transportation	Other support services	Food services

<sup>1</sup>Includes expenditures for adult education, community colleges, private school programs funded by local and state education agencies, and community services.

<sup>2</sup>Includes expenditures for property and for buildings and alterations completed by school district staff or contractors.

<sup>3</sup>Includes expenditures for operations funded by sales of products or services (e.g., school bookstore or computer time). Also includes small amounts for direct program support made by state education agencies for local school districts.

<sup>4</sup>Includes expenditures for health, attendance, and speech pathology services.

<sup>5</sup>Includes expenditures for curriculum development, staff training, libraries, and media and computer centers.

NOTE: Excludes expenditures for state education agencies. Detail may not sum to totals because of rounding.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Common Core of Data (CCD), "National Public Education Financial Survey," 2007–08. (This table was prepared June 2010.)

<sup>1</sup>Includes expenditures for adult education, community colleges, private school programs funded by local and state education agencies, and community services.  
<sup>2</sup>Includes expenditures for property and for buildings and alterations completed by school district staff or contractors.  
<sup>3</sup>Includes expenditures for operations funded by sales of products or services (e.g., school bookstore or computer time). Also includes small amounts for direct program support made by state education agencies for local school districts.

<sup>4</sup>Includes expenditures for health, attendance, and speech pathology services.  
<sup>5</sup>Includes expenditures for curriculum development, staff training, libraries, and media and computer centers.  
 NOTE: Excludes expenditures for state education agencies. Detail may not sum to totals because of rounding.

—Not available.

†Not applicable.

<sup>1</sup>Data have been revised from previously published figures.

<sup>2</sup>Includes estimated data for subfunctions of food services and enterprise operations.

<sup>3</sup>Includes expenditures for guidance, health, attendance, and speech pathology services.

<sup>4</sup>Includes expenditures for curriculum development, staff training, libraries, and media and computer centers.

<sup>5</sup>Includes business support services concerned with paying, transporting, exchanging, and maintaining goods and services for local education agencies; central support services, including planning, research, evaluation, information, staff, and data processing services; and other support services.

<sup>6</sup>Includes expenditures for operations funded by sales of products or services (e.g., school bookstore or computer time).

Includes very small amounts for direct program support made by state education agencies for local school districts.

<sup>7</sup>Includes expenditures for property, and for buildings and alterations completed by school district staff or contractors.

NOTE: Excludes expenditures for state education agencies. Data are not adjusted for changes in the purchasing power of the dollar due to inflation. Detail may not sum to totals because of rounding.

—Not available.

<sup>1</sup>Data for 1919–20 to 1953–54 are based on school-year enrollment.

<sup>2</sup>Constant dollars based on the Consumer Price Index, prepared by the Bureau of Labor Statistics, U.S. Department of Labor, adjusted to a school-year basis.

<sup>3</sup>Excludes "Other current expenditures," such as community services, private school programs, adult education, and other programs not allocable to expenditures per student at public schools.

<sup>4</sup>Estimated.

<sup>5</sup>Revised from previously published figures.

NOTE: Beginning in 1980–81, state administration expenditures are excluded from both "total" and "current" expenditures. Current expenditures include instruction, student support

services, food services, and enterprise operations. Total expenditures include current expenditures, capital outlay, and interest on debt. Beginning in 1988–89, extensive changes were made in the data collection procedures.

—Not available.

<sup>1</sup>Excludes "Other current expenditures," such as community services, private school programs, adult education, and other programs not allocable to expenditures per pupil in public schools.

<sup>2</sup>Includes expenditures for property and for buildings and alterations completed by school district staff or contractors. Excludes capital outlay related to "Other current expenditures."

<sup>3</sup>Includes expenditures for operations funded by sales of products or services (e.g., school bookstore or computer time).

<sup>4</sup>Includes expenditures for health, attendance, and speech pathology services.

<sup>5</sup>Includes expenditures for curriculum development, staff training, libraries, and media and computer centers.

NOTE: Excludes expenditures for state education agencies. "0" indicates none or less than \$0.50. Detail may not sum to totals because of rounding.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Common Core of Data (CCD), "National Public Education Financial Survey," 2007–08. (This table was prepared June 2010.)

**Table 192. Total and current expenditures per pupil in fall enrollment in public elementary and secondary education, by function and state or jurisdiction: 2006–07**

State or jurisdiction	Current expenditures, capital expenditures, and interest on school debt

—Not available.

<sup>1</sup>Excludes "Other current expenditures," such as community services, private school programs, adult education, and other programs not allocable to expenditures per pupil in public schools.

<sup>2</sup>Includes expenditures for property and for buildings and alterations completed by school district staff or contractors. Excludes capital outlay related to "Other current expenditures."

<sup>3</sup>Includes expenditures for operations funded by sales of products or services (e.g., school bookstore or computer time).

<sup>4</sup>Includes expenditures for health, attendance, and speech pathology services.

<sup>5</sup>Includes expenditures for curriculum development, staff training, libraries, and media and computer centers.

NOTE: Excludes expenditures for state education agencies. "0" indicates none or less than \$0.50. Some data have been revised from previously published figures. Detail may not sum to totals because of rounding.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Common Core of Data (CCD), "National Public Education Financial Survey," 2006–07. (This table was prepared August 2010.)

<sup>1</sup>Constant dollars based on the Consumer Price Index (CPI), prepared by the Bureau of Labor Statistics, U.S. Department of Labor, adjusted to a school-year basis. The CPI does not account for differences in inflation rates from state to state.

NOTE: Expenditures for state administration are excluded in all years except 1969–70 and 1979–80. Beginning in 1989–90, the survey was expanded and coverage of state expendi-

tures for public school districts was improved. Some data have been revised from previously published figures.

SOURCE: U.S. Department of Education, National Center for Education Statistics, *Statistics of State School Systems, 1969–70; Revenues and Expenditures for Public Elementary and Secondary Schools, 1979–80; and Common Core of Data (CCD), "National Public Education Financial Survey," 1989–90 through 2007–08.* (This table was prepared August 2010.)

**Table 194. Current expenditure per pupil in average daily attendance in public elementary and secondary schools, by state or jurisdiction:  
Selected years, 1959–60 through 2007–08**

—Not available.

<sup>1</sup>Constant dollars based on the Consumer Price Index (CPI), prepared by the Bureau of Labor Statistics, U.S. Department of Labor, adjusted to a school-year basis. The CPI does not account for differences in inflation rates from state to state.

<sup>2</sup>Estimated by the National Center for Education Statistics.

NOTE: State administration expenditures are excluded in all years except 1959–60, 1969–70, and 1979–80. Beginning in 1989–90, extensive changes were made in the data

collection procedures. There are discrepancies in average daily attendance reporting practices from state to state. Some data have been revised from previously published figures.

SOURCE: U.S. Department of Education, National Center for Education Statistics, *Statistics of State School Systems, 1959–60 and 1969–70; Revenues and Expenditures for Public Elementary and Secondary Education, 1979–80; and Common Core of Data (CCD), "National Public Education Financial Survey," 1989–90 through 2007–08.* (This table was prepared November 2010.)

## CHAPTER 3

# Postsecondary Education

Postsecondary education includes an array of diverse educational experiences offered by American colleges and universities and technical and vocational institutions. For example, a community college may offer vocational training or the first 2 years of training at the college level. A university typically offers a full undergraduate course of study leading to a bachelor's degree, as well as first-professional and graduate programs leading to advanced degrees. Vocational and technical institutions offer training programs that are designed to prepare students for specific careers.

This chapter provides an overview of the latest statistics on postsecondary education, which includes academic, career and technical, and continuing professional education programs after high school. However, to maintain comparability over time, most of the data in the *Digest* are for degree-granting institutions, which are defined as postsecondary institutions that grant an associate's or higher degree and whose students are eligible to participate in the Title IV federal financial aid programs.<sup>1</sup> Degree-granting institutions include almost all 2- and 4-year colleges and universities; they exclude institutions offering only career and technical programs of less than 2 years' duration and continuing education programs. The degree-granting institution classification is very similar to the higher education institution classification that the National Center for Education Statistics (NCES) used prior to 1996–97.<sup>2</sup> This chapter highlights historical data that enable the reader to observe long-range trends in college education in America.

Other chapters provide related information on postsecondary education. Data on price indexes and on the number of degrees held by the general population are shown in

chapter 1. Chapter 4 contains tabulations on federal funding for postsecondary education. Information on employment outcomes for college graduates is shown in chapter 5. Chapter 7 contains data on college libraries as well as non-postsecondary educational opportunities for adults. Further information on survey methodologies is presented in Appendix A: Guide to Sources and in the publications cited in the table source notes.

## Enrollment

Enrollment in degree-granting institutions increased by 9 percent between 1989 and 1999 (table 197 and figure 11). Between 1999 and 2009, enrollment increased 38 percent, from 14.8 million to 20.4 million. Much of the growth between 1999 and 2009 was in full-time enrollment; the number of full-time students rose 45 percent, while the number of part-time students rose 28 percent. During the same time period, the number of females rose 40 percent, while the number of males rose 35 percent. Enrollment increases can be affected both by population growth and by rising rates of enrollment. Between 1999 and 2009, the number of 18- to 24-year-olds increased from 26.7 million to 30.4 million, an increase of 14 percent (table 20), and the percentage of 18- to 24-year-olds enrolled in college rose from 36 percent in 1999 to 41 percent in 2009 (table 212). In addition to enrollment in accredited 2-year colleges, 4-year colleges, and universities, about 472,000 students attended non-degree-granting, Title IV eligible, postsecondary institutions in fall 2008 (table 195).

In recent years, the percentage increase in the number of students age 25 and over has been larger than the percentage increase in the number of younger students, and this pattern is expected to continue (table 199 and figure 13). Between 2000 and 2009, the enrollment of students under age 25 increased by 27 percent. Enrollment of students 25 and over rose 43 percent during the same period. From 2010 to 2019, NCES projects a rise of 9 percent in enrollments of students under 25, and a rise of 23 percent in enrollments of students 25 and over.

<sup>1</sup> Title IV programs, which are administered by the U.S. Department of Education, provide financial aid to postsecondary students.

<sup>2</sup> Included among degree-granting institutions are some institutions (primarily 2-year colleges) that were not previously designated as higher education institutions. Excluded from degree-granting institutions are a few institutions that were previously designated as higher education institutions even though they did not award an associate's or higher degree. Institutions of higher education were accredited by an agency or association that was recognized by the U.S. Department of Education, or recognized directly by the Secretary of Education. Institutions of higher education offered courses that led to an associate's or higher degree, or were accepted for credit towards a degree.

Enrollment trends have differed at the undergraduate and postbaccalaureate levels (which include graduate and first-professional programs). Undergraduate enrollment generally increased during the 1970s, but dipped from 10.8 million to 10.6 million between 1983 and 1985 (table 213). From 1985 to 1992, undergraduate enrollment increased each year, rising 18 percent before stabilizing between 1992 and 1998. Undergraduate enrollment rose 39 percent between 1999 and 2009. Postbaccalaureate enrollment had been steady at about 1.6 million in the late 1970s and early 1980s, but rose about 73 percent between 1985 and 2009 (table 214).

Since 1988, the number of females in postbaccalaureate programs has exceeded the number of males (table 214). Between 1999 and 2009, the number of male full-time postbaccalaureate students increased by 36 percent, compared with a 63 percent increase in the number of females. Among part-time postbaccalaureate students, the number of males increased by 14 percent and the number of females increased by 26 percent.

Eleven percent of undergraduates reported having a disability in 2007–08, similar to the percentage in 2003–04 (table 240). In 2007–08, the percentages of undergraduates who were male (43 percent) and female (57 percent) were the same for undergraduates reporting disabilities as for those not reporting disabilities. There were some differences in characteristics such as race/ethnicity, age, dependency status, and veteran status between undergraduates reporting disabilities and those without disabilities in 2007–08. For example, White students made up a larger percentage of undergraduates reporting disabilities than of undergraduates without disabilities (66 percent vs. 61 percent). Undergraduates under age 24 made up a smaller percentage of those reporting disabilities than of those not reporting disabilities (54 percent vs. 60 percent). A smaller percentage of undergraduates who reported disabilities than of those without disabilities were dependents (47 percent vs. 54 percent). About 4 percent of undergraduates who reported disabilities were veterans, compared with 3 percent of those who did not report disabilities.

The percentage of American college students who are Hispanic, Asian/Pacific Islander, and Black has been increasing (table 235). From 1976 to 2009, the percentage of Hispanic students rose from 3 percent to 12 percent, the percentage of Asian/Pacific Islander students rose from 2 percent to 7 percent, and the percentage of Black students rose from 9 percent to 14 percent. During the same period, the percentage of White students fell from 83 percent to 62 percent. Nonresident aliens, for whom race/ethnicity is not reported, made up 3 percent of the total enrollment in 2009.

Despite the sizable numbers of small degree-granting colleges, most students attend larger colleges and universities. In fall 2009, some 39 percent of institutions had fewer than 1,000 students; however, these campuses enrolled 4 percent of all college students (table 244). While 13 percent of the campuses enrolled 10,000 or more students, they accounted for 59 percent of total college enrollment.

In 2009, the five postsecondary institutions with the highest enrollment were University of Phoenix, Online Campus, with 380,232 students; Kaplan University, with 71,011 students; Arizona State University, with 68,064 students; Miami-Dade College, with 59,120 students; and Ohio State University, with 55,014 (table 246).

## Faculty, Staff, and Salaries

Approximately 3.7 million people were employed in colleges and universities in fall 2009, including 2.8 million professional and 0.9 million nonprofessional staff (table 255). In fall 2009, there were 1.4 million faculty members in degree-granting institutions, including 0.7 million full-time and 0.7 million part-time faculty. The proportion of executive, administrative, and managerial staff was 6 percent in 2009, compared to 5 percent in 1976 (table 254). The proportion of other non-teaching professional staff rose from 10 percent in 1976 to 21 percent in 2009, while the proportion of nonprofessional staff (including technical and paraprofessional, clerical and secretarial, skilled crafts, and service and maintenance staff) declined from 42 percent to 25 percent. The full-time-equivalent (FTE) student/FTE staff ratio at colleges and universities was about the same in 2009 as in 1976 (5.4 in both years). The FTE student/FTE faculty ratio was lower in 2009 (16.0) than in 1976 (16.6).

Colleges and universities differ in their practices of employing part-time and full-time staff. In fall 2009, some 47 percent of the employees at public 2-year colleges were employed full time, compared with 68 percent at public 4-year colleges and universities, 67 percent at private 4-year colleges and universities, and 65 percent at private 2-year colleges (table 255). A higher percentage of the faculty at public 4-year colleges and universities were employed full time (68 percent) than at private 4-year colleges and universities (48 percent), private 2-year colleges (44 percent), or public 2-year colleges (30 percent). In general, the number of full-time staff has been growing at a slower rate than the number of part-time staff (table 253). Between 1999 and 2009, the number of full-time staff increased by 24 percent, compared to an increase of 39 percent in the number of part-time staff. Most of the increase in the part-time staff was due to the increase in the number of part-time faculty (63 percent) and graduate assistants (43 percent) during this time period.

In fall 2009, some 7 percent of college and university faculty were Black (based on a faculty count that excludes persons whose race/ethnicity was unknown), 6 percent were Asian/Pacific Islander, 4 percent were Hispanic, and 1 percent were American Indian/Alaska Native (table 256). About 79 percent of all faculty were White; 42 percent were White males and 37 percent were White females. Staff who were Black, Hispanic, Asian/Pacific Islander, or American Indian/Alaska Native made up about 19 percent of executive, administrative, and managerial staff in 2009 and about 33 percent of nonprofessional staff. The proportion of total staff made up of Blacks, Hispanics, Asians/Pacific Island-

ers, and American Indians/Alaska Natives was similar at public 4-year colleges (23 percent), private 4-year colleges (22 percent), and public 2-year colleges (23 percent), but the proportion at private 2-year colleges (31 percent) was slightly higher.

On average, full-time instructional faculty and staff spent 58 percent of their time teaching in 2003 (table 261). Research and scholarship accounted for 20 percent of their time, and 22 percent was spent on other activities (administration, professional growth, etc.).

Faculty salaries generally lost purchasing power in the period from 1970–71 to 1980–81, during which average salaries for faculty on 9-month contracts declined by 16 percent after adjustment for inflation (table 267). During the 1980s, average salaries rose and recouped most of the losses. Between 1999–2000 and 2009–10, there was a further increase in average faculty salaries, resulting in an average salary in 2009–10 that was about 8 percent higher than the average salary in 1970–71, after adjustment for inflation. The average salary in current dollars for males in 2009–10 (\$80,885) was higher than the average salary for females (\$66,653). Between 1999–2000 and 2009–10, the average salary for males increased by 5 percent and the average salary for females increased by 6 percent, after adjustment for inflation.

The percentage of faculty with tenure has declined in recent years. Of those faculty at institutions with tenure systems, about 49 percent of full-time instructional faculty had tenure in 2009–10, compared with 56 percent in 1993–94 (table 274). Also, the percentage of institutions with tenure systems in 2009–10 (48 percent) was lower than in 1993–94 (63 percent). Part of this change was due to the expansion in the number of for-profit institutions, relatively few of which have tenure systems (1.5 percent in 2009–10). At institutions with tenure systems, a difference was observed between males and females in the percentage of full-time instructional faculty having tenure. Fifty-five percent of males had tenure in 2009–10, compared with 41 percent of females. About 51 percent of full-time instructional faculty had tenure at public and private for-profit institutions with tenure systems, compared with 44 percent at private not-for-profit institutions with tenure systems in 2009–10.

## Degrees

During the 2009–10 academic year, 4,495 accredited institutions offered degrees at the associate's degree level or above (table 276). These included 1,672 public institutions, 1,624 private not-for-profit institutions, and 1,199 private for-profit institutions. Of the 4,495 institutions, 2,774 awarded degrees at the bachelor's or higher level, and 1,721 offered associate's degrees as their highest award. Institutions awarding various degrees in 2008–09 numbered 2,786 for associate's degrees, 2,348 for bachelor's degrees, 1,777 for master's degrees, and 737 for doctor's degrees (table 289).

Growing numbers of people are completing college degrees. Between 1998–99 and 2008–09, the number of associate's, bachelor's, master's, first-professional, and doctor's degrees that were conferred rose (table 279). During this period, associate's degrees increased by 41 percent, bachelor's degrees increased by 33 percent, master's degrees increased by 49 percent, first-professional degrees increased by 17 percent, and doctor's degrees increased by 54 percent. Since the mid-1980s, more females than males have earned associate's, bachelor's, and master's degrees. In 2006–07, 2007–08, and 2008–09, the number of females earning doctor's degrees exceeded the number of males. Also, the number of females receiving degrees has increased at a faster rate than the number of males. Between 1998–99 and 2008–09, the number of bachelor's degrees awarded to males increased by 32 percent, while the number awarded to females increased by 34 percent. The number of males earning doctor's degrees rose 28 percent between 1998–99 and 2008–09, while the number of females earning doctor's degrees rose 87 percent. In addition to degrees awarded at the associate's and higher levels, 806,000 certificates were awarded by postsecondary institutions participating in federal Title IV financial aid programs in 2008–09 (table 292).

Of the 1,601,000 bachelor's degrees conferred in 2008–09, the greatest numbers of degrees were conferred in the fields of business (348,000); social sciences and history (169,000); health sciences (120,000); and education (102,000) (table 282). At the master's degree level, the greatest numbers of degrees were conferred in the fields of education (179,000) and business (168,000) (table 283). At the doctor's degree level, the greatest number of degrees were conferred in the fields of health professions and related clinical sciences (12,100); education (9,000); engineering (7,900); biological and biomedical sciences (7,000); psychology (5,500); and physical sciences (5,000) (table 284).

In recent years, the numbers of bachelor's degrees conferred have followed patterns that differed significantly by field of study. While the number of degrees conferred increased by 33 percent overall between 1998–99 and 2008–09, there was substantial variation among the different fields of study, as well as shifts in the patterns of change during this time period (table 282). The number of bachelor's degrees conferred in the combined fields of engineering and engineering technologies increased 8 percent between 1998–99 and 2003–04, and then increased a further 8 percent between 2003–04 and 2008–09 (table 282 and figure 15). In contrast, the number of degrees conferred in the health professions declined by 13 percent between 1998–99 and 2003–04, but then rose 63 percent between 2003–04 and 2008–09. Similarly, the number of degrees conferred in biological sciences was 5 percent lower in 2003–04 than in 1998–99, but then increased by 31 percent between 2003–04 and 2008–09; and the number conferred in the physical sciences was 2 percent lower in 2003–04 than in 1998–99, but then increased by 25 percent between 2003–04 and 2008–09. Some technical fields experienced a contrasting pattern. After an increase of 95 percent between

1998–99 and 2003–04, the number of degrees conferred in computer and information sciences decreased by 36 percent between 2003–04 and 2008–09. Other fields with sizable numbers of degrees (over 5,000 in 2003–04) that showed increases of over 30 percent between 2003–04 and 2008–09 included security and protective services (48 percent) and parks, recreation, and leisure studies (43 percent).

Approximately 57 percent of first-time students seeking a bachelor's degree or its equivalent and attending a 4-year institution full time in 2002 completed a bachelor's degree or its equivalent at that institution within 6 years (table 341). This graduation rate was calculated as the total number of completers within the specified time to degree attainment divided by the cohort of students who first enrolled at that institution in the 2002–03 academic year. Graduation rates were higher at private not-for-profit institutions than at public or private for-profit institutions. The 6-year graduation rate for the 2002 cohort at private not-for-profit institutions was 65 percent, compared with 55 percent at public institutions and 22 percent at private for-profit institutions. Graduation rates also varied by race/ethnicity. At 4-year institutions overall, the 6-year graduation rate for Asians/Pacific Islanders in the 2002 cohort was 67 percent, compared with 60 percent for Whites, 49 percent for Hispanics, 40 percent for Blacks, and 38 percent for American Indians/Alaska Natives.

## Finances and Financial Aid

For the 2009–10 academic year, annual prices for undergraduate tuition, room, and board were estimated to be \$12,804 at public institutions and \$32,184 at private institutions (table 345). Between 1999–2000 and 2009–10, prices for undergraduate tuition, room, and board at public institutions rose 37 percent, and prices at private institutions rose 25 percent, after adjustment for inflation.

In 2007–08, about 80 percent of full-time undergraduate students received financial aid (grants, loans, work-study, or aid of multiple types) (table 349). About 63 percent of full-time undergraduates received federal financial aid in 2007–08, and 63 percent received aid from nonfederal sources. (Some students receive aid from both federal and nonfederal sources.) Section 484(r) of the Higher Education Act of 1965, as amended, suspends a student's eligibility for Title IV federal financial aid if the student is convicted of certain drug-related offenses that were committed while the student was receiving Title IV aid. Less than 0.1 percent of postsecondary students had their eligibility to receive aid suspended for 2009–10 (table C).

**Table C. Postsecondary students denied access to Title IV financial aid because eligibility was suspended due to a drug-related conviction: 2009–10**

Suspension status	Number of applications	Percentage distribution
<b>Total</b> .....	<b>19,490,666</b>	<b>100.00</b>
No suspension of eligibility.....	19,487,370	99.98
Suspension of eligibility		
For part of award year (suspension ends during year)	666	#
For full award year		
Due to conviction.....	1,751	0.01
Due to failure to report conviction status on aid application form.....	879	#

#Rounds to zero.

NOTE: It is not possible to determine whether a student who lost eligibility due to a drug conviction otherwise would have received Title IV aid, since there are other reasons why an applicant may not receive aid. Detail may not sum to totals because of rounding.

SOURCE: U.S. Department of Education, Federal Student Aid, Free Application for Federal Student Aid (FAFSA), unpublished data.

In 2008–09, average total expenditures per full-time-equivalent (FTE) student at public degree-granting colleges were \$27,135 (table 373). This total reflects an increase of about 6 percent between 2003–04 and 2008–09, after adjustment for inflation. In 2008–09, public 4-year colleges had average total expenditures per FTE student of \$36,707, compared with \$12,153 at public 2-year colleges. At private not-for-profit colleges, total expenditures per FTE student rose 16 percent between 1998–99 and 2008–09, after adjustment for inflation (table 375). In 2008–09, total expenditures per FTE student at private not-for-profit colleges were \$45,853; they averaged \$46,080 at 4-year colleges and \$19,129 at 2-year colleges. The expenditures per FTE student at private for-profit institutions were \$12,848 in 2008–09, which was about 1 percent higher than in 1999–2000, after adjustment for inflation (table 377). The difference between average expenditures per FTE student at private for-profit 4-year colleges (\$12,654) and private for-profit 2-year colleges (\$13,498) was relatively small compared to the differences between 2-year and 4-year public and private not-for-profit colleges.

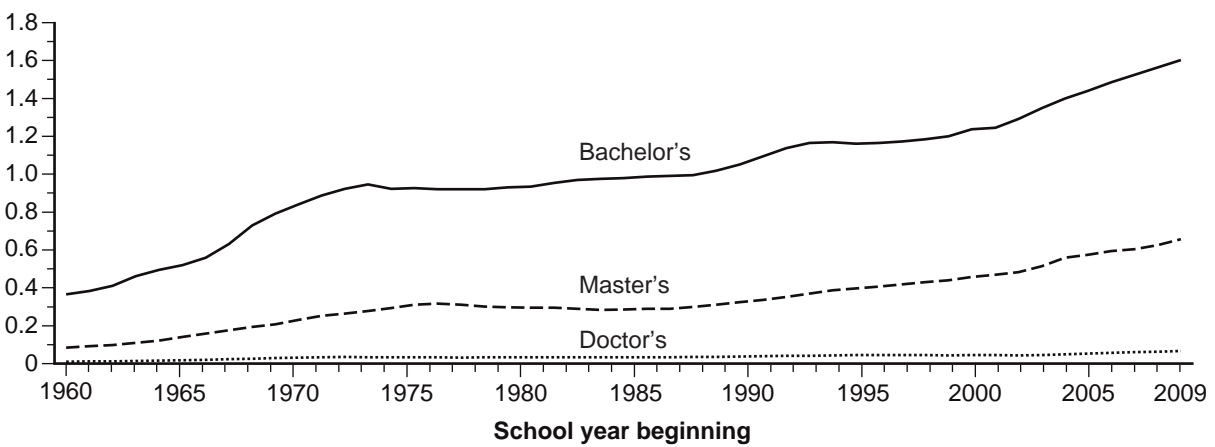

As of June 30, 2009, the market value of the endowment funds of colleges and universities was \$326 billion, reflecting a decrease of 21 percent compared to 2008, when the total was \$413 billion. In 2009, the 120 colleges with the largest endowments accounted for \$243 billion, or about three-fourths of the national total (table 372). The five colleges with the largest endowments in 2009 were Harvard University (\$26 billion), Yale University (\$16 billion), Princeton University (\$13 billion), Stanford University (\$13 billion), and the University of Texas System (\$11 billion).

†Not applicable.

<sup>1</sup>Includes degree-granting and non-degree-granting institutions.

<sup>2</sup>Data are for degree-granting institutions, which grant associate's or higher degrees and participate in Title IV federal financial aid programs.

<sup>3</sup>Data are for institutions that did not offer accredited 4-year or 2-year degree programs, but were participating in Title IV federal financial aid programs. Includes some schools with nonaccredited degree programs.

<sup>4</sup>Ratios based on fall 2008 enrollment.

—Not available.

<sup>1</sup>Prior to 1979–80, excludes branch campuses.

<sup>2</sup>Total number of different individuals (not reduced to full-time equivalent). Beginning in 1959–60, data are for the first term of the academic year.

<sup>3</sup>Estimated.

<sup>4</sup>Estimated number of senior instructional staff based on actual enrollment data for the designated year and enrollment/staff ratios for the prior staff survey. Excludes graduate assistants.

<sup>5</sup>Because of revised survey procedures, data may not be directly comparable with figures prior to 1989–90. Estimated number of senior instructional staff based on actual enrollment data for the designated year and enrollment/staff ratios for the prior staff survey. Excludes graduate assistants.

<sup>6</sup>Data for 1869–70 to 1939–40 are for resident degree-credit students who enrolled at any time during the academic year.

<sup>7</sup>From 1869–70 to 1959–60, first-professional degrees are included under bachelor's degrees.

<sup>8</sup>Figures for years prior to 1969–70 are not precisely comparable with later data.

<sup>9</sup>Includes unexpended plant funds.

<sup>10</sup>Book value. Includes other nonexpendable funds.

NOTE: Data through 1989–90 are for institutions of higher education, while later data are for degree-granting institutions. Degree-granting institutions grant associate's or higher degrees and participate in Title IV federal financial aid programs. The degree-granting classification is very similar to the earlier higher education classification, but it includes more 2-year colleges and excludes a few higher education institutions that did not grant degrees. (See Appendix A: Guide to Sources for details.) Detail may not sum to totals because of rounding.

—Not available.

<sup>1</sup>Degree-credit enrollment only.

<sup>2</sup>Includes part-time resident students and all extension students (students attending courses at sites separate from the primary reporting campus). In later years, part-time student enrollment was collected as a distinct category.

<sup>3</sup>Large increases are due to the addition of schools accredited by the Accrediting Commission of Career Schools and Colleges of Technology.

<sup>4</sup>Because of imputation techniques, data are not consistent with figures for other years.

NOTE: Data through 1995 are for institutions of higher education, while later data are for degree-granting institutions. Degree-granting institutions grant associate's or higher degrees

and participate in Title IV federal financial aid programs. The degree-granting classification is very similar to the earlier higher education classification, but it includes more 2-year colleges and excludes a few higher education institutions that did not grant degrees. (See Appendix A: Guide to Sources for details.)

SOURCE: U.S. Department of Education, National Center for Education Statistics, *Biennial Survey of Education in the United States; Opening Fall Enrollment in Higher Education*, 1963 through 1965; Higher Education General Information Survey (HEGIS), "Fall Enrollment in Colleges and Universities" surveys, 1966 through 1985; and 1986 through 2009 Integrated Postsecondary Education Data System, "Fall Enrollment Survey" (IPEDS-EF:86-99), and Spring 2001 through Spring 2010. (This table was prepared September 2010.)

—Not available.

<sup>1</sup>Data for 2-year branch campuses of 4-year institutions are included with the 4-year institutions.

<sup>2</sup>Large increases are due to the addition of schools accredited by the Accrediting Commission of Career Schools and Colleges of Technology.

<sup>3</sup>Because of imputation techniques, data are not consistent with figures for other years.

NOTE: Data through 1995 are for institutions of higher education, while later data are for degree-granting institutions. Degree-granting institutions grant associate's or higher degrees and participate in Title IV federal financial aid programs. The degree-granting classification is very similar to the earlier higher education classification, but it includes

more 2-year colleges and excludes a few higher education institutions that did not grant degrees. (See Appendix A: Guide to Sources for details.) Some data have been revised from previously published figures.

SOURCE: U.S. Department of Education, National Center for Education Statistics, *Opening Fall Enrollment in Higher Education, 1965*; Higher Education General Information Survey (HEGIS), "Fall Enrollment in Institutions of Higher Education" surveys, 1966 through 1985; and 1986 through 2009 Integrated Postsecondary Education Data System, "Fall Enrollment Survey" (IPEDS-EF:86-99), and Spring 2001 through Spring 2010. (This table was prepared September 2010.)

**Table 199. Total fall enrollment in degree-granting institutions, by sex, age, and attendance status: Selected years, 1970 through 2019**

—Not available.

<sup>1</sup>Counts of institutions in this table may be lower than reported in other tables, because counts in this table include only institutions reporting separate enrollment data.

<sup>2</sup>Included under "Other public."

<sup>3</sup>Religious affiliation as reported by institution.

NOTE: Data through 1995 are for institutions of higher education, while later data are for degree-granting institutions. Degree-granting institutions grant associate's or higher degrees and participate in Title IV federal financial aid programs. The degree-

granting classification is very similar to the earlier higher education classification, but it includes more 2-year colleges and excludes a few higher education institutions that did not grant degrees. (See Appendix A: Guide to Sources for details.) Some data have been revised from previously published figures.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Higher Education General Information Survey (HEGIS), "Fall Enrollment in Institutions of Higher Education" and "Institutional Characteristics" surveys, 1980; and 1990 through 2009 Integrated Postsecondary Education Data System, "Fall Enrollment Survey" (IPEDS-EF:90), "Institutional Characteristics Survey" (IPEDS-IC:90), and Spring 2001 through Spring 2010. (This table was prepared October 2010.)
