Acknowledgments

I am deeply grateful to all of those who helped to produce this year's Guide. It could not have been published without the work and dedication of hundreds of employees throughout the Department, in particular the team who served as principal office editors and reviewers. This year's editors were: Mike High, Federal Student Aid; Tom Brown, Institute of Education Sciences; Susan Winingar, Office of Elementary and Secondary Education; Stephanie Salvato, Office of English Language Acquisition; Liza Araujo-Rouse, Office of Innovation and Improvement; Dolly Stevenson, Office of Postsecondary Education; Kelly Litchfield, Office of Safe and Drug-Free Schools; Melanie Winston, Office of Special Education and Rehabilitative Services; and Kiawanta Hunter-Keiser, Office of Vocational and Adult Education.

The reviewers included Stephanie Robinson-Kimble of the Office of the General Counsel. Reviewer Jan Solomon of the Budget Service, a longtime contributor to the success of this Guide, deserves particular mention for her considerable efforts to ensure the accuracy of the data in this book and for providing indispensable technical assistance whenever needed.

Margaret Darling, Jennifer Killingley, Lydia Jun, Autumn Patterson, and Jasna Rodulfa, all former interns of the Office of Communications and Outreach (OCO), unselfishly donated their time to assist in various roles and provided invaluable assistance with numerous facets of production; their input significantly contributed to a high-quality product. Intern Maria-Luiza Popescu and Claire Geddes, Edward Ohnemus, and John Smith, all also of OCO, provided valuable input as well.

I owe much to all who helped bring this year's Guide to fruition.

Introduction

The *Guide to U.S. Department of Education Programs* (Guide) provides an overview of U.S. Department of Education programs authorized and funded under federal law. It includes information as well on the laboratories, centers, and other facilities funded by the Department that provide important resources for education.

Currently, ten offices are responsible for operating these programs. These offices are:

- Federal Student Aid (FSA);
- Institute of Education Sciences (IES);
- Office of Elementary and Secondary Education (OESE);
- Office of English Language Acquisition (OELA);
- Office of Innovation and Improvement (OII);
- Office of Postsecondary Education (OPE);
- Office of Safe and Drug Free Schools (OSDFS);
- Office of Special Education and Rehabilitative Services (OSERS);
- Office of the Deputy Secretary (ODS); and
- Office of Vocational and Adult Education (OVAE).

Format of Entries in the Guide

Each entry, which gives a brief overview of a program or resource, is listed initially by a broad topical heading. The Guide is organized alphabetically according to these topical headings, and then alphabetically by program title within each heading. The program title as well as any commonly or formerly used names for the program come next, followed by the name of the principal office that administers the program. A unique identifier, either a number based on the CFDA (Catalog of Federal Domestic Assistance) or an assigned ED number follows. (For more information on CFDA numbers, see the CFDA website at: <http://www.cfda.gov>.) After the CFDA or ED number, information is provided about the entities that are eligible to apply to programs. Next comes information on any current competitions, including application deadlines; this is followed by a categorical description of type of assistance, such as “formula grants” or “competitive/discretionary grants,” by which a program operates.

Funding levels for FY 2011 and the previous two fiscal years, a three-year format similar to the federal government’s annual budget, follow next. The FY 2011 appropriation for the Department, signed into law on April 15, 2011, as the *Department of Defense and Full-Year Continuing Appropriations Act*, P.L. 112-10, included a .2 percent across-the-board rescission, reduced the funding for many programs below FY 2010 levels, and eliminated funding for approximately 30 programs. No funding was provided for new programs, so there are no new program entries in the Guide this year. Additionally, each year, programs with three years of zero funding are archived automatically from the Guide; this year five programs were retired.

The next section provides information about new awards in FY 2011, if any, as well as any continuation awards. Information may include the number of these awards, and their average amount and range, in dollars. In FY 2009, the Department received about \$100 billion under the *American Recovery and Reinvestment Act of 2009* (ARRA; also called the *Recovery Act*), which provided one-time funding for four new programs and 20 existing education programs. The profiles of those programs that received ARRA funds include a note indicating the *Recovery Act* amount received and the CFDA number associated with that funding.

Following awards information are the citation for a program’s authorizing legislation and applicable program regulations. For major pieces of legislation, unless otherwise noted, the words “as amended” refer readers to the most recent reauthorization of the law cited. For example, the most recent amendments to the *Elementary and Secondary Education Act* are contained in the *No Child Left Behind Act of 2001* (NCLB). Therefore, the citation “*Elementary and Secondary Education Act of 1965*, as amended” refers to the changes made by NCLB. When a program is authorized under an amendment prior to the most recent reauthorization, the name of the earlier amendment is listed. Other significant legislation and their most recent major amendments include: the *Higher Education Act of 1965*, most recently amended in 2008 by the *Higher Education Opportunity Act*; the *Individuals with Disabilities Education Act* or IDEA, most recently amended by the *Individuals with Disabilities Education Improvement Act of 2004*; the *Rehabilitation Act of 1973*, most

recently amended by Title IV of the *Workforce Investment Act of 1998*; and the *Carl D. Perkins Career and Technical Education Act of 2006* amended the *Carl D. Perkins Vocational and Applied Technology Education Act of 1998*. The *Education Department General Administrative Regulations*, referred to as *EDGAR*, generally apply to all discretionary and competitive grants. The same is true for the governmentwide *Federal Acquisition Regulation*, or *FAR*, for contracts. (Although the Guide is primarily a resource tool highlighting Departmental funded programs, which are primarily grant opportunities, contracts of high-dollar value that contribute to the information base regarding the national status of education are included as well.)

A brief description of the program's purpose and information about the types of projects carried out are provided next, followed by the target education level(s) for each program. Key subject terms, which readers can use to reference other related programs, follow. Finally, at the end of each entry, the Department has provided contact information, along with related websites that may be of interest.

Other Guide Features

The Guide contains a list of abbreviations and their meanings, an index of programs by title, an index of programs by CFDA number, an index of subject terms, typically several of which are listed with each program for identifying programs with a similar focus, and an index of programs by Department office. A list of other Web addresses that may be of interest to the reader is found on the inside back cover.

Program Information on the Web

The Department's website (<http://www.ed.gov>) houses the current and more recent historical editions of the Guide at: <http://www.ed.gov/programs/gtep/gtep.pdf>. The PDF can be searched by word, program title, CFDA or ED number, for example. Additionally, the Department's website contains extended program profiles, allowing a user to perform a full-text search on these pages or to perform more customized searches by administering office, title, subject, ED or CFDA number, assistance type, and eligibility. The Department's website also contains an archive of programs that generally have not been funded for three or more years, starting in fall 2003.

Other Notices of Grants and Contracts

Readers interested in the Department's discretionary grant competitions should refer frequently to the Forecast of Funding Opportunities Under the Department of Education Discretionary Grant Programs for Fiscal Year (FY) 2011 at: <http://www.ed.gov/fund/grant/find/edlite-forecast.html>. Notices of all competitions for the Department of Education discretionary and competitive grants are published in the *Federal Register*, which is published by the National Archives and Records Administration's Office of the Federal Register (see: http://www.archives.gov/federal_register). You also may access *Federal Register* documents specific only to the Department of Education at: <http://www.ed.gov/news/fedregister>.

Those interested in the Department's contract opportunities should refer frequently to the Forecast of ED Contract Opportunities at: <http://www.ed.gov/fund/contract/find/forecast.html>. General information on the Department's contracts may be found at: <http://www.ed.gov/about/offices/list/ocfo/contracts/contracts.html>. As of Jan. 2, 2002, requests for proposals (RFPs) for Department procurement opportunities exceeding \$25,000, which were previously announced in the *Commerce Business Daily*, are now advertised on the Federal Business Opportunities website at: <https://www.fbo.gov>. This Web publication was designated in the *Federal Acquisition Regulation* to provide universal public access on the Internet to governmentwide federal procurement opportunities (see 66 *Federal Register* 27407, May 16, 2001).

PROGRAM DESCRIPTION

This program supports community learning centers that provide academic enrichment opportunities during nonschool hours for children, particularly students who attend low-performing schools. The program is intended to help students meet state and local performance standards in core academic subjects, such as reading and math; offers students a broad array of enrichment activities to complement their regular academic programs; and offers literacy and other educational services to the families of participating children.

TYPES OF PROJECTS

Each eligible entity that receives an award from the state may use the funds to carry out a broad array of before- and after-school activities (including those held during summer recess periods) to advance student achievement. These activities may include:

- Remedial education activities and academic enrichment learning programs, including those that provide additional assistance to students to allow the students to improve their academic achievement;
- Mathematics and science education activities;
- Arts and music education activities;
- Entrepreneurial education programs;
- Tutoring services, including those provided by senior citizen volunteers, and mentoring programs;
- Programs that provide after-school activities for limited English proficient (LEP) students that emphasize language skills and academic achievement;
- Recreational activities;
- Telecommunications and technology education programs;
- Expanded library service hours;
- Programs that promote parental involvement and family literacy;
- Programs that provide assistance to students who have been truant, suspended, or expelled to allow them to improve their academic achievement;
- Drug and violence prevention programs;
- Counseling programs; and
- Character education programs.

PROGRAM DESCRIPTION

The High School Graduation Initiative (HSGI) awards discretionary grants to SEAs and LEAs to support the implementation of effective, sustainable, and coordinated dropout prevention and reentry programs in high schools with annual dropout rates that exceed their state average annual dropout rate. Funds also may be used to support activities at middle schools that feed into high schools that have dropout rates that exceed the state average annual date.

TYPES OF PROJECTS

Grants are awarded for up to 60 months to SEAs and LEAs to support school dropout prevention and reentry efforts. Grant funds may be used for such activities as: the early and continued identification of students at risk of not graduating; providing at-risk students with services designed to keep them in school; identifying and encouraging youths who have left school without graduating to reenter and graduate; implementing other comprehensive approaches; and implementing transition programs that help students successfully transition from middle school to high school.

PROGRAM REGULATIONS

34 *CFR* 74, 75, 77, 80, 81, 82, 84, 85, 86, 97, 98, 99

PROGRAM DESCRIPTION

The purpose of the program is to provide competitive grants to applicants with a record of improving student achievement and attainment in order to expand the implementation of, and investment in, innovative practices that are demonstrated to have an impact on improving student achievement or student growth, closing achievement gaps, decreasing dropout rates, increasing high school graduation rates, or increasing college enrollment and completion rates.

TYPES OF PROJECTS

The Department awards three types of grants: Scale-up grants, Validation grants, and Development grants. Scale-up grants provide funding to “scale up” practices, strategies, or programs for which there is strong evidence that the proposed practice, strategy, or program will have a statistically significant effect on improving student achievement or student growth, closing achievement gaps, decreasing dropout rates, increasing high school graduation rates, or increasing college enrollment and completion rates, and that the effect of implementing the proposed practice, strategy, or program will be substantial and important.

Validation grants provide funding to support practices, strategies, or programs that show promise, but for which there is currently only moderate evidence that the proposed practice, strategy, or program will have a statistically significant effect on improving student

achievement or student growth, closing achievement gaps, decreasing drop-out rates, increasing high school graduation rates, or increasing college enrollment and completion rates and that, with further study, the effect of implementing the proposed practice, strategy, or program may prove to be substantial and important.

Development grants provide funding to support high-potential and relatively untested practices, strategies, or programs whose efficacy should be systematically studied. An applicant must provide evidence that the proposed practice, strategy, or program, or one similar to it, has been attempted previously, albeit on a limited scale or in a limited setting, and yielded promising results that suggest that more formal and systematic study is warranted. An applicant must provide a rationale for the proposed practice, strategy, or program that is based on research findings or reasonable hypotheses, including related research or theories in education and other sectors.

PROGRAM REGULATIONS

EDGAR

PROGRAM DESCRIPTION

The purpose of this program is to carry out a coordinated program of scientifically based research, demonstration projects, innovative strategies, and similar activities designed to build and enhance the ability of elementary and secondary schools to meet the special education needs of gifted and talented students. A major goal of the program is to serve students who are traditionally underrepresented in gifted and talented programs, particularly economically disadvantaged, limited English proficient (LEP), and disabled students, to help reduce the gap in achievement at the highest levels among certain groups of students.

Grants are awarded under two priorities. Priority One supports initiatives to develop and scale up models serving students who are underrepresented in gifted and talented programs. Priority Two supports state and local efforts to improve services for gifted and talented students.

The program also supports a National Research Center on the Gifted and Talented administered by the Department's Institute of Education Sciences (IES) with research competition information posted, when available, at <http://www.gifted.uconn.edu/nrcgt.html>. No more than 30 percent of appropriated funds may be spent for research.

TYPES OF PROJECTS

Projects must carry out one or more of the following:

- Conducting scientifically based research on methods and techniques for identifying and teaching gifted and talented students and for using gifted and talented programs and methods to serve all students;
- Conducting program evaluations, surveys, and other analyses needed to accomplish the purpose of the program;
- Carrying out professional development for personnel involved in the education of gifted and talented students;
- Establishing and operating model projects and exemplary programs for serving gifted and talented students, including innovative methods of serving students whose needs may not be met by more traditional gifted and talented programs (including summer programs, mentoring, service learning, and programs involving business, industry, and education);

- Implementing innovative strategies, such as cooperative learning, peer tutoring, and service learning;
- Providing technical assistance and information on how to serve gifted and talented students and, where appropriate, how to adapt gifted and talented programs to serve all students;
- Making materials and services available through state regional education service centers, IHEs, or other entities; or
- Providing challenging, high-level course work, disseminated through technologies (including distance learning), for students in schools or LEAs that would not otherwise have the resources for such course work.

In addition, the program supports the National Research Center on the Gifted and Talented for the purpose of carrying out the allowable activities described above.

PROGRAM DESCRIPTION

The purpose of this program is to encourage and reward states making dramatic education reforms in the four assurance areas (listed in Type of Assistance (specifically)). The Department seeks to fund systemic approaches to reform and continuous improvement that drive substantial gains in student achievement, close achievement gaps, and improve graduation rates and college success.

TYPES OF PROJECTS

This program is designed to help grantees create the conditions for innovation and reform, implement ambitious plans in the four reform areas (see Current Competitions), and achieve dramatic improvement in student outcomes. Funded activities occur at the state, LEA, and school levels.

PROGRAM DESCRIPTION

The purpose of the program is to provide financial assistance to rural districts to assist them in meeting their state's definition of adequate yearly progress (AYP). Applicants do not compete but rather are entitled to funds if they meet basic eligibility requirements. Eligibility is restricted by statute.

Awards are issued annually to SEAs, which make subgrants to LEAs that meet the applicable requirements. Awards are made to all SEAs that apply and meet the applicable requirements of the act (see Legislative Citation above). If an SEA does not participate, awards are issued by the U.S. Department of Education to eligible LEAs in the state either competitively or by formula.

TYPES OF PROJECTS

Recipients may use program funds to conduct the following activities:

- Teacher recruitment and retention, including the use of signing bonuses and other financial incentives;
- Teacher professional development, including programs that train teachers to use technology to improve teaching and that train teachers of students with special needs;
- Support for educational technology, including software and hardware, that meets the requirements of *ESEA*, Title II, Part D (see Enhancing Education Through Technology Program; see # 84.318, under topical heading Technology);
- Parental involvement activities;
- Activities authorized under the Safe and Drug-Free Schools and Communities: State Grants program (*ESEA*, Title IV, Part A, Subpart 1; see # 84.186A, under topical heading Safe and Drug-Free Schools);

PROGRAM DESCRIPTION

This program funds LEAs to create or expand smaller learning communities that are part of a comprehensive effort to prepare all students to succeed in postsecondary education and careers without need for remediation.

TYPES OF PROJECTS

LEAs receive funds on behalf of large high schools to enable those schools to undertake research-based reforms and restructure themselves into smaller learning environments. Structures include “houses,” career academies, theme-based academies, or other smaller organizational units. Accompanying strategies that support the creation or expansion of these smaller learning environments include block scheduling, mentoring programs, teacher-advisory systems, and other innovations that create a more personal educational experience for students.

TYPE OF ASSISTANCE (BY CATEGORY)

Formula Grants

TYPE OF ASSISTANCE (SPECIFICALLY)

Formula grants were awarded to states. These funds were used to help restore for FY 2009, FY 2010, and FY 2011 state support for public elementary, secondary, and postsecondary education to the greater of the FY 2008 or FY 2009 level. The funds needed to restore support for elementary and secondary education had to be distributed using the state’s primary funding formulae as described in its application. The funds for higher education went to public IHEs. If any State Fiscal Stabilization Fund (SFSF) funds remained after the state had restored state support for elementary and secondary education and higher education, the state was required to award those funds to LEAs on the basis of their relative shares under Title I of the *Elementary and Secondary Education Act of 1965 (ESEA)*, as amended.

PROGRAM DESCRIPTION

The State Fiscal Stabilization Fund was a one-time appropriation of approximately \$48.6 billion that the Department awarded to governors to help stabilize state and local budgets in order to minimize and avoid reductions in education and other essential services, in exchange for a state's commitment to advance essential education reform in four areas: (1) making improvements in teacher effectiveness and in the equitable distribution of qualified teachers for all students, particularly students who are most in need; (2) establishing prekindergarten-to-college-and-career data systems that track progress and foster continuous improvement; (3) making progress toward rigorous college- and career-ready standards and high-quality assessments that are valid and reliable for all students, including limited English proficient (LEP) students and students with disabilities; and (4) providing targeted, intensive support and effective interventions for the lowest-performing schools.

There were two components of the State Fiscal Stabilization Fund: the Education Stabilization Fund (# 84.394) and the Government Services Fund (see # 84.397, also under topical heading Academic Improvement). By statute, the Department awarded 81.8 percent of a state's total program allocation under the Education Stabilization Fund and the remaining 18.2 percent of its allocation under the Government Services Fund.

States were required to use the Education Stabilization Fund to restore state support for elementary and secondary education, public higher education, and, as applicable, early childhood education programs and services. Subject to limited restrictions in the *ARRA*, LEAs used their share of Education Stabilization funds for any activity authorized under *ESEA*, the *Individuals with Disabilities Education Act (IDEA)*, the *Adult Education and Family Literacy Act (Adult Education Act)*, or the *Carl D. Perkins Career and Technical Education Act of 2006 (Perkins Act)*, including the modernization, renovation, or repair of public school facilities. Public IHEs may use their share

of the funds for education and general expenditures in a way that will mitigate the need to raise tuition and fees for in-state students, or for modernization, renovation, or repair of higher education facilities that are primarily used for instruction, research, or student housing.

TYPES OF PROJECTS

LEAs could use these funds for a wide variety of purposes, for example:

- Pay the salaries of teachers or other school personnel who would have to be laid off in the absence of these funds;
- Modernize school facilities in such ways as by investing in green technology;
- Increase student participation in rigorous advanced courses, such as Advanced Placement, International Baccalaureate, and dual high school-college enrollment;
- Train principals, teachers, guidance counselors, and other staff to use data to identify the specific help students need to succeed;
- Adjust classroom instruction in order to better address student strengths and weaknesses;
- Target professional development and other resources on student and teacher needs;
- Redesign teacher professional development and school schedules to ensure that teacher learning opportunities are sustained, job-embedded, collaborative, data-driven, and focused on student instructional needs;
- Extend learning time; and
- Strengthen and expand early learning.

Public IHEs can use Education Stabilization funds for:

- Education and general expenditures, in such a way as to mitigate the need to raise tuition and fees for in-state residents; and
- Modernization, renovation, or repair of IHE facilities that are primarily used for instruction, research, or student housing, including modernization, renovation, and repairs that are consistent with a recognized green-building rating system.

PROGRAM DESCRIPTION

The *Compact Amendments Act* eliminated the participation of FSM and RMI in most domestic formula programs funded by the departments of Education, Health and Human Services (HHS), and Labor. In lieu of eligibility for grants under these programs, the act authorizes supplemental education grants, which the Department appropriates for FSM and RMI in an amount roughly equivalent to the total formula funds these entities received prior to fiscal year 2005. The Department is required to transfer funds to the Department of the Interior for disbursement and use at the local school level.

TYPES OF PROJECTS

Types of direct educational services provided by this program include: school readiness, early childhood education, elementary and secondary education, vocational training, adult and family literacy, the transition from high school to postsecondary education and careers, education improvement programs, vocational and skills training, and professional development.

PROGRAM DESCRIPTION

This program is designed to support the development of the state assessments and standards required by Sec. 1111(b) of *ESEA*. If a state has developed the assessments and standards required by Sec. 1111(b), funds support the administration of those assessments or other activities related to ensuring that the state's schools and local education agencies (LEAs) are held accountable for results.

TYPES OF PROJECTS

Projects include development or subsequent implementation of standards and standards-based state academic assessments in reading or language arts, mathematics, and science as required by Sec. 1111(b) of *ESEA*. When the state has met all standards and assessment requirements, the funds may be used, for example, to improve standards, alignment, reporting, or expanded use of test accommodations.

PROGRAM DESCRIPTION

NAEP, also known as the Nation's Report Card, is the only nationally representative and continuing assessment of what America's students know and can do in various subject areas. The first assessments were conducted in 1969.

The NAEP budget supports the following program components:

- National NAEP—These assessments report information for the nation and specific geographic regions of the country and include students from grades 4, 8, and 12, drawn from both public and nonpublic schools. The assessments periodically measure student achievement in reading, mathematics, science, writing, U. S. history, civics, geography, and the arts.
- State NAEP—State assessments address the needs of state-level policymakers for reliable data concerning student achievement in their states in reading, mathematics, science, and writing. Title I requires state NAEP participation in biennial reading and math assessments for grades 4 and 8.
- NAEP Trial Urban District Assessment (TUDA)—Initiated in 2002, the TUDA provides information on student achievement in a small number of large urban school districts. Participation is voluntary. In 2011, 18 districts (including the District of Columbia) participated in TUDA.
- Long-Term Trend—NAEP long-term trend assessments, designed to give information on the changes in the basic achievement of America's youths, are administered nationally and report student performance at ages 9, 13, and 17 in reading and mathematics.

PROGRAM DESCRIPTION

Statewide data system grants enable SEAs to design, develop, and implement statewide longitudinal data systems to efficiently and accurately manage, analyze, disaggregate, and use individual student data, consistent with the *Elementary and Secondary Education Act of 1965 (ESEA)*, as amended (20 U.S.C. 6301 *et seq.*).

Up to \$10 million of the funds may be used for awards to public or private organizations or agencies to improve data coordination, quality, and use.

TYPES OF PROJECTS

The FY 2011 funds will be used for two separate activities:

1. Statewide data systems development awards—
These awards enable SEAs to design, develop, and implement statewide longitudinal data systems to efficiently and accurately manage, analyze, disaggregate, and use individual student data.
 2. Data coordination awards—These awards provide technical assistance and resources to facilitate states' implementation of statewide longitudinal data systems, including assistance to ensure compliance with privacy regulations; development of common education data standards; and effective use of data by teachers, principals, and LEA staff.

PROGRAM REGULATIONS

EDGAR

PROGRAM DESCRIPTION

Federal funds are made available to develop more fully the academic, career, and technical skills of secondary and postsecondary students who elect to enroll in CTE programs. In accordance with the statute, states must allocate at least 85 percent of the funds to eligible recipients, which include local education agencies (LEAs), two- and four-year colleges and universities that offer subbaccalaureate CTE programs, area CTE centers, and postsecondary education institutions controlled by the Department of the Interior's Bureau of Indian Education (BIE).

TYPES OF PROJECTS

This program provides states with support for state leadership activities, administration of the state plan for CTE, and subgrants to eligible recipients to improve CTE programs. To be eligible for a subgrant, an eligible recipient must operate a CTE program that:

- Strengthens the academic, career, and technical skills of students participating in CTE programs, achieved by integrating core academic subjects into CTE programs through a coherent sequence of courses;
- Provides students with strong experience in and understanding of all aspects of a particular industry;
- Develops, improves, or expands the use of technology in CTE;
- Develops and implements evaluations of the CTE programs carried out with funds under the *Perkins Act*, including an assessment of how the needs of special populations and other student populations are being met;
- Initiates, improves, expands, and modernizes quality CTE programs;
- Provides professional development programs to teachers, faculty, counselors, and administrators;
- Provides services and activities that are of sufficient size, scope, and quality to be effective;
- Links secondary CTE with postsecondary CTE programs, including offering at least one CTE program of study; and
- Provides activities to prepare special populations for high-skill, high-wage, or high-demand occupations that will lead to self-sufficiency.

PROGRAM REGULATIONS

EDGAR and Federal Register program notices, as applicable

PROGRAM DESCRIPTION

The *Perkins Act* National Activities authority supports research, evaluation, information dissemination, technical assistance to states, and other activities aimed at improving the quality and effectiveness of career and technical education (CTE). The legislation specifically calls for, among other activities, the operation of a national center for research, dissemination, and technical assistance in career and technical education, and a national assessment of CTE programs operated under the *Perkins Act*. Current major activities funded under the Perkins Act national activities authority (by CFDA #) include:

- National Research Center for Career and Technical Education (NRCCTE) (# 84.051A)—This program supports the establishment of a national center to conduct scientifically based research and evaluation, development, dissemination, technical assistance, and training activities in the field of career and technical education.
 - Promoting Rigorous Programs of Study (#84.051C)—This program provides assistance to states to develop, implement, and evaluate programs of study that incorporate a set of key components that together ensure programs of study are rigorous and effective.
-

TYPES OF PROJECTS

Projects include: research, development, demonstration, dissemination, identification of best methods, capacity building, technical assistance, evaluation, and assessment activities.

- The NRCCTE supports scientifically based research and evaluation, information dissemination, technical assistance, and professional development.
- The Promoting Rigorous Programs of Study program provides resources and technical

assistance to support implementation of rigorous programs of study that link secondary and postsecondary education, combine academic and career and technical education in a structured sequence of courses, and offer students the opportunities to earn postsecondary credits for courses taken in high school that lead to a postsecondary credential, certificate, or degree. Grantees must incorporate the components defined in the Rigorous Programs of Study Framework described in the Notice Inviting Applications (NIA) and evaluate the effectiveness of their projects.

Awards are made to eligible state boards for career and technical education (CTE), which in turn award funds on the basis of a formula or competition to consortia that include at least one member from each of the two following categories:

- A local education agency (LEA), an intermediate education agency, education service agency, or an area CTE school serving secondary school students, or a secondary school funded by the U.S. Department of the Interior's Bureau of Indian Education.
- Either (a) a nonprofit institution of higher education (IHE) that offers a two-year associate degree, two-year certificate, or two-year postsecondary apprenticeship program or (b) a proprietary IHE that offers a two-year associate degree program.

Under the provisions of Sec. 203(a)(1) of the *Carl D. Perkins Career and Technical Education Act of 2006*, to be eligible for consortium membership, both nonprofit and proprietary IHEs (including institutions receiving assistance under the *Tribally Controlled College or University Assistance Act of 1978* [25 U.S.C. 1801 *et seq.*] and tribally controlled postsecondary vocational and technical institutions) must be qualified as IHEs pursuant to Sec. 102 of the *Higher Education Act of 1965 (HEA)*. In addition, nonprofit IHEs are eligible only if they are not prohibited from receiving assistance under *HEA*, Title IV, Part B (20 U.S.C. 1071 *et seq.*) pursuant to the provisions of *HEA*, Sec. 435(a)(2) (20 U.S.C. 1083 (a)). Proprietary IHEs are eligible only if they are not subject to a default management plan required by the secretary of education.

PROGRAM DESCRIPTION

This program provides assistance to states to award grants to consortia of LEAs and postsecondary education institutions for the development and operation of programs consisting of the last two years of secondary education and at least two years of postsecondary education, and which are designed to lead to technical-skill proficiency, an industry-recognized credential, a certificate, or a degree in a specific career field. The program also is designed to strengthen links between secondary and postsecondary schools.

TYPES OF PROJECTS

The *Perkins Act* requires that Tech Prep programs have the following elements:

- An articulation agreement between secondary and postsecondary consortium participants;
- A program of study that combines a minimum of two years of secondary education with a minimum of two years of postsecondary education in sequential course of study or an apprenticeship program of not less than two years following secondary education instruction;
- A specifically developed Tech Prep curriculum;
- Joint in-service training of secondary teachers; postsecondary faculty, and administrators to implement the Tech Prep curriculum effectively;
- Training of counselors to provide comprehensive counseling services to students and to ensure program completion and appropriate employment;

- Equal access for special populations to the full range of Tech Prep programs;
- Preparatory services; and
- Coordination with programs under Title I of the *Perkins Act*.

PROGRAM REGULATIONS

EDGAR

PROGRAM DESCRIPTION

The We the People program was established to improve the quality of civics and government education by educating students about the history and principles of the U.S. Constitution, including the Bill of Rights, and to foster civic competence and responsibility. The program has two main components: (1) The Citizen and the Constitution and (2) Project Citizen. The Citizen and the Constitution is an instructional program on the principles of the U.S. Constitution and the Bill of Rights for elementary, middle, and high school students to promote understanding of the principles and values on which our political institutions are based. Project Citizen provides instruction at the middle school level on the role of state and local governments in the federal system established by the U.S. Constitution to enhance student attainment of challenging academic content standards in civics and government. The Center for Civic Education also operates the School Violence Prevention Demonstration as well as Representative Democracy in America through the We the People grant.

TYPES OF PROJECTS

The We the People program provides teacher training and curricular materials to public and private elementary and secondary schools, including schools administered by the Bureau of Indian Education, in the 435 congressional districts, the District of Columbia, Puerto Rico, and the outlying areas (American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, and the U.S. Virgin Islands). Schools participating in The Citizen and the Constitution implement a curriculum that focuses on promoting citizenship and increasing students' understanding of the rights and responsibilities of citizens and improves students' knowledge of the Constitution of the U.S. Activities include simulated congressional hearings with community members acting as judges and an annual national competition in which secondary student teams compete in simulated congressional hearings. Students participating in Project Citizen learn about state and local government by choosing a social problem, evaluating policy alternatives, and developing a plan to address the problem that is presented to school and community leaders through simulated legislative hearings.

PROGRAM DESCRIPTION

The primary purpose of NIDRR is to carry out a program of research and related activities designed to maximize the full inclusion, employment, independent living, and economic sufficiency of individuals with disabilities, with particular emphasis on improving the effectiveness of services authorized under the *Rehabilitation Act*. NIDRR focuses on such applied research as:

1. The transfer of rehabilitation technology to individuals with disabilities;
2. Widespread distribution of practical scientific and technological information in usable formats; and
3. Identification of effective strategies to enhance opportunities for individuals with disabilities to engage in productive work and live independently.

TYPES OF PROJECTS

NIDRR funds are used to support rehabilitation research, demonstration projects, and related activities, including the training of persons who provide rehabilitation services or who conduct rehabilitation research. In addition, NIDRR supports projects to disseminate and promote the use of information concerning developments in rehabilitation procedures, methods, and devices. NIDRR also supports data analyses of the demographics of individuals with disabilities.

PROGRAM DESCRIPTION

RERCs support research on issues dealing with rehabilitation technology, including rehabilitation engineering and assistive technology devices and services. RERCs generally either:

1. Lead to the development of methods, procedures, and devices that will benefit individuals with disabilities, especially those with the most severe disabilities; or
2. Involve technology for the purposes of enhancing opportunities for meeting the needs of and addressing the barriers confronted by individuals with disabilities in all aspects of their lives.

TYPES OF PROJECTS

Types of activities supported by RERCs include: the development of technological systems for persons with disabilities; stimulation of the production and distribution of equipment in the private sector; and clinical evaluations of equipment. Awards are for five years, except that grants to new recipients or to support new or innovative research may be made for fewer than five years.

PROGRAM REGULATIONS

PROGRAM DESCRIPTION

The NIDRR Model Systems are specialized programs of
care in spinal cord injury (SCI), traumatic brain injury
(TBI), and burn injury, which gather information and
conduct research with the goal of improving long-term
functional, vocational, cognitive, and quality-of-life
outcomes for individuals with disabilities in these areas.
Model System grantees contribute data to national
statistical centers that track the long-term consequences
of SCI, TBI, and burn injuries, and conduct research in
the areas of medical rehabilitation, health and wellness,
service delivery, short- and long-term interventions, and
systems research. Each Model System also is charged
with disseminating information and research findings
to patients, family members, health-care providers,
educators, policymakers and the general public.

TYPES OF PROJECTS

Specifically, this Model Systems program assists
demonstration projects that provide comprehensive
rehabilitation services to individuals with spinal cord
injuries. Demonstration projects that support spinal cord
research also are funded.

TYPES OF PROJECTS

Awards support activities to increase the participation of low-income students in both pre-AP and AP courses and tests. Grants support the development, enhancement, or expansion, of AP courses, including pre-AP courses aligned with AP courses in mathematics, science, English, and other subject areas.

Allowable activities include:

1. Professional development for teachers;
2. Curriculum development;
3. The purchase of books and supplies; and
4. Other activities directly related to expanding access to and participation in AP courses and tests for low-income students.

PROGRAM DESCRIPTION

Formula grants are made to the 50 states, the District of Columbia, and Puerto Rico based on each state's share of Title I, Part A, funds. The outlying areas and the U.S. Department of the Interior's BIE also receive funds.

These grants are designed to help SEAs ensure that homeless children, including preschoolers and youths, have equal access to public education. States must review and revise laws and practices that impede such access and are required to have an approved plan for addressing problems associated with the enrollment, attendance, and success of homeless children in school. The program supports an office for coordination of the education of homeless children and youths in each state, which gathers comprehensive information about homeless children and youths and the impediments they must overcome to attend school regularly.

States must use at least 75 percent of their allocations to make competitive subgrants to local education agencies (LEAs) to facilitate the enrollment, attendance, and success in school of homeless children and youths.

TYPES OF PROJECTS

With subgrant funds, LEAs provide a variety of educational and other services to homeless children and their families, including addressing problems due to transportation needs, immunization and residency requirements, lack of birth certificates and school records, and guardianship issues.

PROGRAM DESCRIPTION

This program provides financial assistance to LEAs and schools with high numbers or high percentages of children from low-income families to help ensure that low-achieving children meet challenging state academic standards. Federal funds are currently allocated through four statutory formulas that are based primarily on census poverty estimates and the cost of education in each state, as measured by each state's expenditures per elementary and secondary student. These formulas are:

1. Basic Grants—these provide funds to LEAs in which the number of children counted in the formula is at least 10 and exceeds 2 percent of an LEA's school-age population.
2. Concentration Grants—these flow to LEAs in which the number of formula children exceeds 6,500 or 15 percent of the total school-age population.
3. Targeted Grants—these are based on the same data used for Basic and Concentration Grants except that the data are weighted so that LEAs with higher numbers or higher percentages of formula children receive more funds. Targeted Grants flow to LEAs in which the number of children counted in the formula (without application of the formula weights) is at least 10 and at least 5 percent of the LEA's school-age population.
4. Education Finance Incentive Grants (EFIGs)—these distribute funds to states based on factors that measure:

- a. A state's effort to provide financial support for education compared to its relative wealth as measured by its per capita income; and
- b. The degree to which education expenditures among LEAs within the state are equalized.

Once a state's EFIG allocation is determined, funds are allocated (using a weighted count formula that is similar to Targeted Grants) to LEAs in which the number of formula children is at least 10 and at least 5 percent of the LEA's school-age population.

LEAs target the Title I funds they receive to schools with the highest percentages of children from low-income families. Unless a participating school is operating a schoolwide program, the school must focus Title I services on children who are failing, or most at risk of failing, to meet state academic standards. Schools in which children from low-income families make up at least 40 percent of enrollment are eligible to use Title I funds for schoolwide programs that serve all children in the school. LEAs also must use Title I funds to provide academic enrichment services to eligible children enrolled in private schools.

TYPES OF PROJECTS

More than 50,000 public schools across the country use Title I funds to provide additional academic support and learning opportunities to help low-achieving children master challenging curricula and meet state standards in core academic subjects. For example, funds support extra instruction in reading and mathematics, as well as preschool, after-school, and summer programs to extend and reinforce the regular school curriculum for eligible children.

PROGRAM DESCRIPTION

The Title I, Part D, Subpart 1, State Agency Neglected and Delinquent program provides formula grants to SEAs that then make subgrants to state agencies. State agencies use funds for supplementary education services to help provide education continuity for children and youths in state-operated institutions for children and youths, in community day programs for neglected and delinquent children and youths, and in adult correctional institutions so that these children and youths can make successful transitions to school or employment once they are released.

The Subpart 2 Local Education Agency Program requires each SEA to reserve, from its Title I, Part A, allocation, funds generated by the number of children and youths in local correctional facilities or attending community day programs for delinquent children and youths. Subgrants are awarded to LEAs with high numbers or percentages of children and youths residing in locally operated correctional facilities for children and youths (including community day programs) to support programs in these facilities or in the LEAs' schools.

TYPES OF PROJECTS

Grants support supplemental instruction in core subject areas, such as reading and mathematics, as well as tutoring, counseling, and transition services.

PROGRAM REGULATIONS

PROGRAM DESCRIPTION

This program is designed to improve the education of limited English proficient (LEP) children and youths by helping them to learn English and meet challenging state academic content and student academic achievement standards. The program provides enhanced instructional opportunities for immigrant children and youths. Funds are distributed to states based on a formula that takes into account each state's share of immigrant and LEP students.

TYPES OF PROJECTS

States must develop annual measurable achievement objectives for LEP students that measure their success in achieving English language proficiency and meeting challenging state academic content and achievement standards and provide high-quality professional development. Schools use the funds to implement language instruction programs designed to help LEP students achieve these standards. Approaches and methodologies must be founded on scientifically based research. LEAs may develop and implement new language instruction programs and expand or enhance existing programs. LEAs also may implement schoolwide programs within individual schools or implement systemwide programs to restructure, reform, or upgrade all programs, activities, or operations related to the education of their LEP students.

PROGRAM DESCRIPTION

The *Higher Education Reconciliation Act of 2005* created two need-based grant programs to complement the Federal Pell Grant Program (# 84.063, also under topical heading Federal Student Aid):

1. Academic Competitiveness Grants (ACG), awarded to first- and second-year undergraduates who completed a rigorous high school curriculum (the Department posts a list of rigorous high school programs on the Web, see Links to Related Websites below). To receive an ACG, a first-year student must have completed secondary school after Jan. 1, 2006; and not have been enrolled in an ACG-eligible program while at or below the age of compulsory school attendance (unless the ACG-eligible classes were also part of his or her high school program). A second-year student must have completed secondary school after Jan. 1, 2005, and have at least a 3.0 grade point average (GPA) as of the end of the first year of undergraduate study.
2. National Science and Mathematics Access to Retain Talent (SMART) Grants, awarded to third-, fourth-, and fifth-year undergraduates who are majoring in technical fields, critical foreign languages, or who are in a qualifying liberal arts program. The student must have at least a 3.0 GPA for all classes taken in the program as of the most recently completed payment period.

To be eligible for either grant, a student must be eligible for a Pell Grant (see Federal Pell Grant Program, # 84.063, also under topical heading Federal Student Aid) for that award year (as indicated above) and be enrolled at least half-time.

WHO MAY APPLY (SPECIFICALLY)

Note: No new loans are being made under this program.

Previously, the following individuals could apply:

- Subsidized and Unsubsidized Stafford: Undergraduate, vocational, or graduate students who will be enrolled at least half-time in participating schools.
- Federal PLUS: Graduate and professional students, and parents of dependent undergraduate students who will be enrolled at least half-time in participating schools.
- Federal Consolidation: Individuals who have outstanding student loans and are in a grace period or repayment status.

TYPE OF ASSISTANCE (BY CATEGORY)

Loans

TYPE OF ASSISTANCE (SPECIFICALLY)

Assistance consisted of reduced-interest loans, made by private lenders to postsecondary students, subsidized and guaranteed by the U.S. Department of Education. The postsecondary institution had to certify the student's eligibility for an FFEL loan, and ensure that the loan did not exceed annual and aggregate loan limits, and that the loan, in combination with other financial aid, did not exceed the student's financial need.

APPROPRIATIONS

Fiscal Year 2009	-\$14,208,513,000
Fiscal Year 2010	-\$1,701,415,000
Fiscal Year 2011	\$0

Note: The appropriation amounts listed provided the federal subsidy costs that were associated with new FFEL guaranteed program loans for fiscal years as shown; however, typically it is the volume of loans made that is more relevant to those seeking student aid. FFEL loan volume (aid available), including Federal Consolidation Loans, was \$19.7 billion in FY 2009, \$0 in FY 2010, and \$0 in FY 2011. These amounts include programs authorized under the *Ensuring Continued Access to Student Loan Act of 2008*.

The FFEL Program costs were estimated consistent with the *Federal Credit Reform Act of 1990*. A negative subsidy occurs when the present value of cash inflows to the government is estimated to exceed the present value of the outflows. For FY 2009 and FY 2010, the FFEL Program reflects a total negative subsidy because net revenues, primarily from borrower and lender fees, exceed program costs.

PROGRAM DESCRIPTION

As of July 1, 2010, no new loans were made under the FFEL Program. The program provided loans to postsecondary students and to the parents of dependent students to promote access to postsecondary education. Eligible students could receive FFEL loans at any postsecondary institution that participated in the FFEL Program.

Students applied for FFEL loans (and apply for other student aid) by filing a *Free Application for Federal Student Aid* (FAFSA). The FAFSA can be completed on the Web at <http://www.fafsa.ed.gov>. For more information on the student aid award process, see the entry for the Federal Pell Grant Program (# 84.063, also under topical heading Federal Student Aid).

FFEL borrowers are eligible for loan cancellation for teacher service at low-income schools and under certain other limited conditions as provided in *HEA*. Students may defer repayment of the loan while enrolled (at least half-time) at a postsecondary school. A student or parent borrower who has difficulty repaying an FFEL loan should contact the lender to find out if he or she is eligible for a deferment or forbearance based on economic hardship or other conditions.

Loan Type	Characteristics	Interest Rate for New Borrowers
Subsidized Stafford	Interest paid by government when student is in school and during periods of grace and deferment.	3.4-4.5% for undergraduate; 6.8% for graduate and professional
Unsubsidized Stafford	Interest NOT paid by government when student is in school nor during periods of grace and deferment.	6.8%
Federal PLUS	Enables parents to borrow to pay the costs of higher education for their dependent undergraduates and graduate students to pay their costs.	8.5%
Federal Consolidation	Combines more than one federal education loan into a single loan.	Weighted average of loans rounded upward to nearest 1/8%; capped at 8.25%.

Grants are based on financial need and primarily awarded to undergraduate students. Selection of recipients and the amount of awards are largely determined by federal rules (see Program Description below); the Department provides funds to the institution to fund all of its Pell-eligible students. Pell Grants are considered the first source of financial aid, and, consequently, a Pell Grant is not reduced if the student receives additional aid from other sources.

PROGRAM REGULATIONS

PROGRAM DESCRIPTION

The Federal Pell Grant Program provides need-based grants to low-income undergraduate students (and certain postbaccalaureate students) to promote access to postsecondary education. Students may use their grants at any one of approximately 5,300 participating postsecondary institutions. Students apply for Pell Grants (and other student aid) by filing a *Free Application for Federal Student Aid* (FAFSA). The FAFSA can be completed on the Web at <http://www.fafsa.ed.gov>. The FAFSA collects information concerning the family's income and assets, family size, and number of family members in college. Parental information is collected for most single undergraduate students under the age of 23.

The Department's FAFSA processor uses a standard formula established by Congress to calculate an Expected Family Contribution (EFC) for that award year. In addition to sending a *Student Aid Report* (SAR) to the student, the FAFSA processor automatically sends the student's information and the EFC to the schools that the student listed on the application. The school uses this and other information to determine the student's eligibility for aid.

The Department releases a Pell Grant Payment Schedule prior to the start of each award year that sets award amounts based on education costs (including tuition, required fees, living expenses, etc.), the EFC calculated by the FAFSA processor, and the student's enrollment status.

If the student is awarded a Pell Grant or other funds from the Federal Student Aid (FSA) programs, the institution will usually credit the funds to the student's account to pay school charges, and pay any remaining amount to the student for other expenses. The institution must pay Pell Grants and most other FSA awards (except for Federal Work-Study; see # 84.033, Federal Work-Study Program, also under topical heading Federal Student Aid.) in installments, on a payment period basis. For institutions using a traditional calendar, the payment period is the academic term (semester, trimester, or quarter); nonterm programs have two payment periods per academic year.

WHO MAY APPLY (SPECIFICALLY)

- Undergraduate and graduate students attending participating postsecondary institutions may apply for Perkins funds through the institution's financial aid office, which selects recipients according to federal guidelines.

CURRENT COMPETITIONS

Formula grants are made directly to eligible postsecondary institutions.

TYPE OF ASSISTANCE (BY CATEGORY)

Loans, Formula Grants

TYPE OF ASSISTANCE (SPECIFICALLY)

The Department allocates Federal Perkins Loan Program funds for postsecondary institutions to use to provide low-interest loans to financially needy undergraduate and graduate students.

Perkins is one of the three “campus-based programs” (see also Federal Supplemental Educational Opportunity Grant, # 84.007, and Federal Work-Study Program, # 84.033, both also under topical heading Federal Student Aid). Participating postsecondary institutions maintain “revolving funds” to make new Perkins loans and to

receive installment payments of principal and interest from Perkins borrowers who are in repayment status. The postsecondary institution must follow federal regulations in awarding Perkins Loans to students with financial need, but it has substantial flexibility in determining the award amounts that best meet the needs of its Perkins-eligible population. However, the institution must ensure that the Perkins award does not exceed annual and aggregate limits, and that the loan, in combination with other financial aid, does not exceed the student's financial need.

APPROPRIATIONS

Fiscal Year 2009	\$67,164,000
Fiscal Year 2010	\$0
Fiscal Year 2011	\$0

Note: Funding in FY 2009 was limited to Perkins Loan cancellations. For all three years, no funds have been appropriated for new Federal Capital Contributions.

PROGRAM DESCRIPTION

The Federal Perkins Loan Program provides low-interest loans to help needy students finance the costs of postsecondary education. Students attending any one of approximately 1,700 participating postsecondary institutions can obtain Perkins loans from the school.

The school's revolving Perkins loan fund is replenished by ongoing activities, such as collections by the school on outstanding Perkins loans made by the school and

reimbursements from the Department for the cost of certain statutory loan cancellation provisions.

Students must file a *Free Application for Federal Student Aid* (FAFSA) as part of the application process for a Perkins Loan. The FAFSA can be completed on the Web at <http://www.fafsa.ed.gov>. For more information on the student aid award process, see the Federal Pell Grant Program (# 84.063, also under topical heading Federal Student Aid).

Students also will need to complete a Perkins promissory note in order to receive a loan.

Perkins borrowers are eligible for loan cancellation for teacher service at low-income schools and under certain other circumstances specified in the law (*HEA*). Students may defer repayment of the loan while enrolled (at least half-time) at a postsecondary school. A borrower who has difficulty repaying a Perkins Loan should contact the school where he or she received the loan to find out if he or she is eligible for a deferment or forbearance based on economic hardship or other circumstances.

WHO MAY APPLY (BY CATEGORY)

Individuals, Institutions of Higher Education (IHEs)

WHO MAY APPLY (SPECIFICALLY)

- Eligible postsecondary institutions (colleges, universities, and career schools) may apply for an allocation of funds to be used to award grants to undergraduate students with financial need.
- Undergraduate students attending participating postsecondary institutions may apply for FSEOG funds through the institution's financial aid office, which selects recipients according to federal guidelines.

CURRENT COMPETITIONS

Formula grants are made directly to eligible postsecondary institutions.

TYPE OF ASSISTANCE (BY CATEGORY)

Formula Grants

TYPE OF ASSISTANCE (SPECIFICALLY)

The Department allocates FSEOG funds to participating postsecondary institutions to make grants to financially needy undergraduate students. FSEOG is one of the three "campus-based programs" (see also Federal Work-Study, # 84.033, and Federal Perkins Loan Program, # 84.037, both also under topical heading Federal Student Aid). Unlike the Federal Pell Grant Program, the allocation for each campus-based program is a fixed amount for a specific school that is not automatically increased based on the number of student awards at that school.

The institution must follow federal regulations in awarding FSEOG funds to students, but it has substantial

flexibility in determining the award amounts that best meet the needs of its FSEOG-eligible students. However, the institution must ensure that the FSEOG award does not exceed annual limits, and that the award, in combination with other financial aid, does not exceed the student's financial need.

PROGRAM DESCRIPTION

The FSEOG Program provides need-based grants to help low-income undergraduate students finance the costs of postsecondary education. Students can receive these grants at any one of approximately 3,800 participating postsecondary institutions. When making FSEOG awards, the institution must give priority to those students with "exceptional need" (those with the lowest Expected Family Contributions, or EFCs, at the institution) and those who are also Federal Pell Grant recipients (see # 84.063, also under topical heading Federal Student Aid).

A participating institution applies each year for an FSEOG allocation by submitting a Fiscal Operations Report and Application to Participate (FISAP) to the U.S. Department of Education. Using a statutory formula, the Department allocates funds based on the institution's previous funding level and the aggregate need of eligible students in attendance in the prior year. Institutions must contribute 25 percent of the award amounts.

Students must file a *Free Application for Federal Student Aid* (FAFSA) as part of the application process for an FSEOG. The FAFSA can be completed on the Web at <http://www.fafsa.ed.gov>. For more information on FAFSA and the student aid award process, see the entry for the Federal Pell Grant Program (# 84.063, also under topical heading Federal Student Aid).

PROGRAM REGULATIONS

PROGRAM DESCRIPTION

The FWS Program provides funds for part-time employment to help needy students to finance the costs of postsecondary education. Students can receive FWS funds at approximately 3,400 participating postsecondary institutions. Hourly wages must not be less than the federal minimum wage.

A participating institution applies each year for FWS funding by submitting a Fiscal Operations Report and Application to Participate (FISAP) to the U.S. Department of Education. Using a statutory formula, the Department allocates funds based on the institution's previous funding level and the aggregate need of eligible

students in attendance in the prior year. In most cases, the school or the employer must pay up to a 50 percent share of a student's wages under FWS. (In some cases, such as FWS jobs as reading or mathematics tutors, the federal share of the wages can be as high as 100 percent.)

Students may be employed by: the institution itself; a federal, state, or local public agency; a private nonprofit organization; or a private for-profit organization. Institutions must use at least 7 percent of their Work-Study allocation to support students working in community service jobs, including: reading tutors for preschool age or elementary school children; mathematics tutors for students enrolled in elementary school through ninth grade; literacy tutors in a family literacy project performing family literacy activities; or emergency preparedness and response.

Students must file a *Free Application for Federal Student Aid* (FAFSA) as part of the application process for FWS assistance. The FAFSA can be completed on the Web at <http://www.fafsa.ed.gov>. WHO MAY APPLY (SPECIFICALLY)

A student whose parent or guardian was a member of the Armed Forces who died as a result of performing military service in Iraq or Afghanistan after Sept. 11, 2001, and who is not eligible for a Pell Grant because his or her Expected Family Contribution is above the maximum for receipt of the Pell Grant. The student must meet the general eligibility requirements for a Pell Grant (see # 84.063, also under topical heading Federal Student Aid), such as undergraduate status and status as a citizen or eligible noncitizen. The student must have been less than 24 years old or have been enrolled in an institution of higher education at the time of the parent or guardian's death.

TYPE OF ASSISTANCE (SPECIFICALLY)

This assistance is non-need-based grants that are awarded to eligible dependents of veterans who cannot receive a Pell Grant because of a high Expected Family Contribution. The Department provides funds to the institution to fund all of its IASG-eligible students. Like a Pell Grant, an IASG is considered the first source of financial aid, and consequently it is not reduced if the student receives additional aid from other sources.

PROGRAM DESCRIPTION

The Iraq and Afghanistan Service Grants program provides non-need-based grants to students whose parent or guardian died as a result of military service in Iraq or Afghanistan after 9/11. An eligible student may use the grants at any one of approximately 5,400 participating postsecondary institutions.

To establish eligibility for the Service Grant, an eligible student must first apply for a Pell Grant (and other student aid) by filing a *Free Application for Federal Student Aid* (FAFSA). The FAFSA can be completed on the Web at <http://www.fafsa.ed.gov>. If the resulting Expected Family Contribution is above the maximum for receipt of a Pell Grant, the student can receive an Iraq and Afghanistan Service Grant in lieu of the Pell Grant.

The maximum Service Grant amount is equal to the maximum Pell Grant for a given award year, which is projected to be \$5,550 for the 2010–11 award year. (Awards may not exceed the student's cost of attendance, and are prorated for part-time enrollment.) Service Grants are excluded from the total "estimated financial assistance" used to determine a student's eligibility for other aid from the Federal Student Aid programs.

Each state's allocation is based on its relative share of the total national population of students eligible to participate in the LEAP Program. If LEAP (formerly SSIG) appropriations are below 1979 levels, each state is allocated an amount proportional to the amount of funds it received in 1979. States must, at a minimum, match LEAP grants dollar-for-dollar with state funds. If a state does not use all of its allocation, the excess funds are distributed to other states in the same proportion as the original distribution.

Pursuant to the *Higher Education Act (HEA)*, Sec. 415A(b)(2), when the appropriation for the LEAP Program exceeds \$30 million, the excess shall be available to carry out either the Special Leveraging Educational Assistance Partnership (SLEAP) Program (see # 84.069B, also under topical heading Federal

WHO MAY APPLY (SPECIFICALLY)

Undergraduate and graduate students who attend eligible institutions and are enrolled in an academic program that prepares them to be highly qualified teachers in a high-need field may apply. In most cases, the student must have a grade point average (GPA) of at least 3.25 (on a 0 to 4.0 scale) or receive a qualifying score on an admission test. (There are exceptions for graduate students who are current or former teachers, or who are retirees in certain high-need fields.)

Recipients must sign an agreement to teach in qualifying schools and subject areas (see Program Description) for at least four years, and to complete that teaching service within eight years of graduation. If the student does not fulfill the teaching service requirement, the grant amount must be repaid as a Direct Unsubsidized Stafford Loan.

TYPE OF ASSISTANCE (SPECIFICALLY)

TEACH Grants are merit-based grants awarded through participating institutions to students who have financial need and are planning to become teachers in high-need areas. In addition to documenting that the student meets the academic qualifications, the postsecondary institution must ensure that the TEACH grant, in combination with other financial aid, does not exceed the student's financial need.

APPROPRIATIONS

Fiscal Year 2009	-\$2,924,326
Fiscal Year 2010	\$14,709,848
Fiscal Year 2011	\$21,680,215

The TEACH Grant Program costs are estimated consistent with the *Federal Credit Reform Act of 1990*. A negative subsidy occurs when the present value of cash inflows to the government is estimated to exceed the present value of the outflows. In FY 2009, the TEACH Grant Program reflected a total negative subsidy because a large number of the grants were expected to turn into loans for which borrower repayments were estimated to exceed federal costs.

PROGRAM DESCRIPTION

The TEACH Grant Program provides merit-based grants to students who agree to teach full-time for four years at a low-income school, in such high-need fields as: mathematics, science, foreign language, bilingual education, special education, or reading. The four years of required service must be completed within eight years of graduation. For students who fail to fulfill this service requirement, grants are converted to Direct Unsubsidized Stafford Loans, with interest accrued from the date the grants were disbursed.

Students must file a *Free Application for Federal Student Aid* (FAFSA) as part of the application process for TEACH grants. The FAFSA can be completed on the Web at <http://www.fafsa.ed.gov>. For more information on the student aid award process, see the entry for the Federal

Pell Grant Program (# 84.063, also under topical heading Federal Student Aid).

Loans

TYPE OF ASSISTANCE (SPECIFICALLY)

These are loans that the U.S. Department of Education makes to postsecondary students. The postsecondary institution must certify the student's eligibility for a Direct Loan, and ensure that the loan does not exceed annual and aggregate loan limits, and that the loan, in combination with other financial aid, does not exceed the student's financial need.

APPROPRIATIONS

Fiscal Year 2009	-\$5,828,418,000
Fiscal Year 2010	-\$8,632,536,982
Fiscal Year 2011	-\$21,094,226,424

Note: The appropriations amounts listed provide the federal subsidy costs associated with new Direct Loans each fiscal year. It is the volume of loans made, however, that is often more relevant to those seeking student aid. Loan volume, including Direct Consolidation Loans, was \$42.3 billion in FY 2009, \$101.8 billion in FY 2010, and is estimated to be \$135.6 billion in FY 2011.

The Direct Loan Program costs are estimated consistent with the *Federal Credit Reform Act of 1990*. A negative subsidy occurs when the present value of cash inflows to the government is estimated to exceed the present value of the outflows. In FY 2009, FY 2010, and FY 2011, the Direct Loan Program reflects a total negative subsidy due, in part, to reduced discount rates that lower the federal government's borrowing costs, while borrower repayments contribute to increased cash flows as collections to the federal government, helping to offset federal costs.

PROGRAM DESCRIPTION

The Direct Loan Program provides loans to postsecondary students and to the parents of dependent students to promote access to postsecondary education. Eligible students may receive Direct Loans at any postsecondary institution that participates in the Direct Loan Program.

Students apply for Direct Loans (and other student aid) by filing a *Free Application for Federal Student Aid* (FAFSA). The FAFSA can be completed on the Web at <http://www.fafsa.ed.gov>. For more information on the student aid award process, see the entry for the Federal Pell Grant Program (# 84.063, also under topical heading Federal Student Aid). To borrow a Direct Loan, the student (or parent PLUS borrower) also must have

completed a Master Promissory Note (MPN), which can be used to receive Direct Loans over multiple years of postsecondary study. Direct Loan borrowers are eligible for loan cancellation or forgiveness under certain conditions listed on the MPN. Students may defer repayment of the loan while enrolled (at least half-time) at a postsecondary school. A student or parent borrower who has difficulty repaying a Direct Loan should contact the Direct Loan Servicing Center (see Links to Related Websites below for more information) to find out if he or she is eligible for a deferment or forbearance based on economic hardship or other conditions.

Such programs must be designed to enable successful students to achieve a superior level of proficiency in those languages as they advance from elementary school through high school and college.

TYPES OF PROJECTS

The program supports LEA projects that work in partnership with one or more IHEs to establish or expand articulated programs of study in foreign language learning that exclusively teach one or more select languages critical to United States national security. These languages are Arabic, Chinese, Korean, Japanese, Russian, and languages in the Indic, Iranian, and Turkic language families.

PROGRAM DESCRIPTION

The CACG Program is a formula grant program in which funds are awarded based on the relative number

of people in each state between the ages of 5 and 17 and between the ages of 15 and 44 who are living below the poverty line. This program fosters partnerships among federal, state, and local governments and philanthropic organizations through matching challenge grants that are aimed at increasing the number of low-income students who are prepared to enter and succeed in postsecondary education.

TYPES OF PROJECTS

CACG Program grant projects are authorized to implement an array of programs and strategies to ensure access to and participation in postsecondary education for underserved populations. Some of these activities include: the dissemination of information pertaining to postsecondary education benefits and opportunities, career preparation, outreach activities, need-based grant aid, and professional development for middle and high school counselors as well as financial aid and admissions counselors at institutions of higher education (IHEs).

This discretionary grant program is designed to increase the number of low-income students prepared to enter and succeed in postsecondary education. GEAR UP provides six- or seven-year grants to states and partnerships to provide services at high-poverty middle and high schools. GEAR UP Partnership grantees serve an entire cohort of students beginning no later than grade 7 and follow the cohort through high school. GEAR UP state grantees must either serve these cohorts of students or other priority students identified in the statute. GEAR UP funds also are used to provide college scholarships to low-income students served by the projects.

TYPES OF PROJECTS

GEAR UP offers state and partnership grants. State grants are competitive six- or seven-year matching grants that must include both an early intervention component designed to increase college attendance and success and raise the expectations of low-income students, as well as a scholarship component. Partnership grants are competitive six- or seven-year matching grants that must support an early intervention component and may support a scholarship component designed to increase college attendance and success, and raise low-income students' expectations.

PROGRAM REGULATIONS

EDGAR

PROGRAM DESCRIPTION

The goal of the program is to provide low-cost capital to finance improvements to the infrastructure of the nation's HBCUs. Specifically, the program provides HBCUs with access to capital financing or refinancing for the repair, renovation, and construction of classrooms, libraries, laboratories, dormitories, instructional equipment, and research apparatus. The program's authorizing statute (see Legislative Citation above) limits the total amount of loans and accrued interest available through the program to \$1.1 billion. This assistance comes through the issuance of the federal guarantee upon full payment of principal and interest on qualified bonds, the proceeds of which are used for loans.

TYPES OF PROJECTS

The loan proceeds of the HBCU Capital Financing Program can be used for repair, renovation or, in exceptional circumstances, for the construction or acquisition of:

- Any classroom facility, library, laboratory facility, dormitory (including dining facilities) or other facility customarily used by colleges and universities for instructional or research purposes or for housing students, faculty, and staff, and any real property or interest therein underlying such facilities;
- Instructional equipment, technology, research instrumentation, and any capital equipment or fixture related to the above facilities;
- A facility for the administration of an educational program, or a student center or student union, except that not more than 5 percent of the loan proceeds may be used for the facility, center, or union if the facility, center, or union is owned, leased, managed, or operated by a private business that, in return for such use, makes a payment to the eligible institution;
- A facility designed to provide primarily outpatient health care for students or faculty;
- Any other facility, equipment, or fixture which is essential to the maintaining of accreditation of the member institution by an accrediting agency or

association recognized by the secretary under Title IV, Part H, Subpart 2, of the *Higher Education Act of 1965*, as amended, and any real property or interest therein underlying such facilities;

- A maintenance, storage, or utility facility that is essential to the operation of a facility, a library, a dormitory, equipment, instrumentation, a fixture, or real property described above; or
- Physical infrastructure essential to support the projects authorized under the program, including roads, sewer and drainage systems, and water, power, lighting, telecommunications, and other utilities.

LEGISLATIVE CITATION

20 U.S.C. 121 *et seq.*

PROGRAM DESCRIPTION

Howard University was established in 1867 as a federally chartered, private, nonprofit education institution. As a comprehensive, research-oriented, predominantly African-American university, its mission is to provide a high-quality educational experience at a reasonable cost. The annual appropriation for Howard University

provides partial support for construction, development, improvement, endowment, and maintenance of the university and the Howard University Hospital. Howard University has discretion in allocating funds for its academic, research, and endowment programs, and for its construction activities.

TYPES OF PROJECTS

Funding supports three areas:

- Academic Programs—academic programs, research, and construction for the university, including a wide range of administrative, library, computer, and technology resources for the university;
- Endowment Program—matching support to Howard University's endowment, which assists the university in increasing its financial strength and independence by stimulating private contributions; and
- Howard University Hospital—a major acute and ambulatory care center as well as a teaching and training hospital in Washington, D.C.

2. Have an average education and general expenditure that is low, per full-time equivalent undergraduate student in comparison with the average education and general expenditure per full-time equivalent undergraduate student of IHEs that offer similar instruction, except that the secretary of education may waive this requirement under certain circumstances described in Sec. 392(b) of *HEA*, as amended;
3. Have an enrollment of undergraduate students—
 - a. That consists of at least 40 percent black American students;
 - b. That consists of at least 1,000 undergraduate students;
 - c. Of which not less than 50 percent of the undergraduate students enrolled are low-income individuals or first-generation college students; and
 - d. Of which not less than 50 percent of the undergraduate students are enrolled in an education program leading to a bachelor's or associate degree that the institution is licensed to award by the state in which the institution is located;
4. Be legally authorized to provide, and provide within the state, an education program for which the IHE

awards a bachelor's degree or, in the case of a junior or community college, an associate degree;

5. Be accredited by a nationally recognized accrediting agency or association determined by the secretary to be a reliable authority as to the quality of training offered, or is, according to such agency or association, making reasonable progress toward accreditation; and
6. Not receive assistance from other programs under Title III, Part B, or Title V, Part A, of *HEA*, or an annual authorization of appropriations under the *Act of March 2, 1867* (14 Stat. 438; 20 U.S.C. 124) (Howard University).

PROGRAM DESCRIPTION

The purpose of this program is to strengthen eligible institutions to plan, develop, undertake, and implement programs to enhance the institution's capacity to serve more low- and middle-income black American students; to expand higher education opportunities for eligible students by encouraging college preparation and student persistence in secondary school and postsecondary

education; and to strengthen the financial ability of the institution to serve the academic needs of these students.

TYPES OF PROJECTS

Institutions may use federal funds for the activities that include:

- Academic instruction in disciplines in which black Americans are underrepresented;
- Establishing or enhancing a program of teacher education designed to qualify students to teach in a public elementary school or secondary school in the state that shall include, as a part of each program, preparation for teacher certification or licensure; and
- Establishing community outreach programs that will encourage elementary and secondary school students to develop the academic skills and the interest to pursue postsecondary education.

This program prepares participants for doctoral studies through involvement in research and other scholarly activities. Participants are from disadvantaged backgrounds and have demonstrated strong academic potential. Institutions work closely with participants as they complete their undergraduate requirements and encourage participants to enroll in graduate programs. These institutions then track participants' progress through to the successful completion of advanced degrees. The goal is to increase the attainment of Ph.D. degrees by students from underrepresented segments of society.

PROGRAM REGULATIONS

34 *CFR* 608 and 609

PROGRAM DESCRIPTION

These programs provide financial assistance to HBCUs and HBGIs to establish or strengthen their physical plants, financial management, academic resources, and endowment-building capacity. Activities may include:

- Student services, educational equipment acquisition, facility renovation and construction, faculty and staff development, the establishment of a program of teacher education designed to qualify students to teach in public schools;
- The establishment of community outreach programs that will encourage elementary and secondary school students to develop the academic skills and the interest to pursue postsecondary education;
- The acquisition of real property in connection with the construction, renovation, addition to, or improvement of, campus facilities,
- Education or financial information designed to improve the financial and economic literacy of students or student's families, especially with regard to student indebtedness and student assistance programs under Title IV; and
- Services necessary for the implementation of projects or activities that are described in the grant application and that are approved, in advance, by the Department, except that not more than 2 percent of the grant amount may be used for this purpose.

TYPES OF PROJECTS

Funds may be used for the purchase, rental, or lease of scientific or laboratory equipment. Also supported are the construction, maintenance, renovation, and improvement of instruction facilities. Funds support faculty exchanges and the development of academic instruction in disciplines in which black Americans are

underrepresented. Projects may support the purchase of library materials as well as tutoring, counseling, and student service programs. In addition, funds and administrative management; the joint use of facilities; the establishment or improvement of development offices; the establishment or enhancement of programs of teacher education; and the establishment of outreach programs are supported. Funds also may be used for other activities proposed in the application that contribute to carrying out the purpose of the program and are approved by the secretary as part of the review and acceptance of the application.

PROGRAM DESCRIPTION

This program supports the development and implementation of programs to provide integrated courses of study in science, technology, engineering, and

mathematics (STEM) or critical foreign languages, as well as teacher education, which lead to a baccalaureate degree in science, technology, engineering, mathematics, or a critical foreign language, with concurrent teacher certification.

TYPES OF PROJECTS

TCT-B grants are designed to enable grantees to develop and implement programs to provide courses of study in STEM fields or critical foreign languages that are integrated with teacher education. Graduates of these programs will receive baccalaureate degrees in STEM fields or critical foreign languages, concurrent with teacher certification. There is an absolute priority for projects to focus primarily on placing graduates in high-need schools. Required uses of funds include providing students with quality clinical experiences, offering training in the use and integration of educational technology, and providing graduates with ongoing activities and services.

PROGRAM REGULATIONS

34 CFR 222

PROGRAM DESCRIPTION

The Impact Aid program provides financial support to school districts affected by federal activities. The presence of certain children living on federal property across the country may place a financial burden on the school districts that educate them. The property on which these children live is exempt from local property taxes, denying districts access to the primary source of revenue used by most communities to finance education. Impact Aid helps to replace the lost local revenue that otherwise would be available to districts to pay for the education of these children. Several different kinds of payments are supported as described below.

Impact Aid Section 8002 provides payments for federal property to assist local school districts that have lost a portion of their local tax base because of federal ownership of property. To be eligible, a school district must demonstrate that the federal government has acquired, since 1938, real property with an aggregate assessed valuation of at least 10 percent of all real property in the district at the time of acquisition.

Section 8003 grants help educate federally connected children. These may be the children of members of the uniformed services, children who live on Indian lands, children who live on federal property or federally subsidized low-rent housing, and children whose parents work on federal property. Section 8003 grants include additional payments for children with disabilities for certain federally connected children who are eligible under the *Individuals with Disabilities Education Act (IDEA)*.

The U.S. Department of Education owns a limited number of school facilities that are operated by LEAs that serve military installations. Section 8008 grants help maintain these federally owned school facilities and restore or improve them where appropriate to enable an LEA to accept ownership. The Department directly oversees construction projects, unless the LEA has agreed to accept transfer of the facility, in which case funds may be provided to the LEA to complete the project after the transfer.

TYPES OF PROJECTS

Eligibility for Basic Support and Federal Property Payments is determined on an annual basis through applications that school districts submit. Payments generally are deposited in eligible LEAs' general fund accounts and are used for basic operating costs within the LEA, including teacher salaries, utilities, books, and supplies.

For Payments for Children with Disabilities (Section 8003(d)), any LEA that is eligible to receive basic support payments on behalf of federally connected children also may receive a payment for children with disabilities who are military dependents or who live on Indian lands. Eligibility is determined on an annual basis through applications submitted by school districts. Payments are used for the special education costs incurred by the LEAs. Some funding flows indirectly to private schools in those LEAs that pay tuition to private institutions for the education of disabled students whose Individualized Education Programs (IEPs) require such special services.

Under Facilities Maintenance (Section 8008), funds are provided for emergency repairs and comprehensive capital improvements to schools that the Department of Education owns but that LEAs use to serve federally connected military-dependent students. These funds also may support the transfer of these federal facilities to LEAs.

Formula Construction payments (Section 8007(a)) must be used to pay for construction-related expenses, such as developing drawings and plans for school buildings; building, purchasing, renovating, or expanding school buildings; inspecting and supervising the construction of school buildings; and paying the debt service associated with these activities.

PROGRAM DESCRIPTION

This program is designed to address the unique education- and culture-related academic needs of American Indian and Alaska Native students, including preschool children, so that these students can meet the same challenging state performance standards expected of all students. The program is one of the U.S. Department of Education's principal vehicles for addressing the particular needs of Indian children.

TYPES OF PROJECTS

Grant funds supplement the regular school program. Projects help Indian children sharpen academic skills, assist students in becoming proficient in core content areas, and provide students an opportunity to participate in enrichment programs that would otherwise be unavailable. Funds support such activities as after-school programs, early childhood education, tutoring, and dropout prevention.

PROGRAM DESCRIPTION

This program provides funding to schools of business for curriculum development, research, and training on issues of importance to U.S. trade and competitiveness.

TYPES OF PROJECTS

The centers funded:

- Are national resources for the teaching of improved business techniques, strategies, and methodologies that emphasize the international context in which business is transacted;
- Provide instruction in critical foreign languages and international fields needed to provide an understanding of the cultures and customs of U.S. trading partners;
- Provide research and training in the international aspects of trade, commerce, and other fields of study;
- Provide training to students enrolled in the institution or institutions in which a center is located;
- Serve as regional resources to local businesses by offering programs and providing research designed to meet the international training needs of such businesses; and

PROGRAM DESCRIPTION

The program provides short-term study and travel seminars abroad for U.S. educators in the social sciences and humanities for the purpose of improving their understanding and knowledge of the peoples and cultures of other countries. Support generally is made available through interagency agreements. The U.S. Department of Education transfers funds through the U.S. Department of State to Fulbright commissions in various countries to pay the costs associated with administering seminars. This partnership allows this program to use the services and expertise of binational organizations to plan and conduct seminars for U.S. educators.

PROGRAM REGULATIONS

EDGAR; 34 CFR 655 and 658

PROGRAM DESCRIPTION

This program provides funds to plan, develop, and carry out programs to strengthen and improve undergraduate instruction in international studies and foreign languages.

TYPES OF PROJECTS

Each program assisted with federal funds must enhance primarily the international academic program of the institution. Eligible activities may include but are not limited to:

- Development of a global or international studies program that is interdisciplinary in design;
- Development of a program that focuses on particular issues or topics, such as international business or international health;
- Development of an area studies program and programs in corresponding foreign languages;
- Creation of innovative curricula that combine the teaching of international studies with professional and preprofessional studies, such as engineering;
- Research for and development of specialized teaching materials, including language instruction, e.g., business French;
- Establishment of internship opportunities for faculty and students in domestic and overseas settings; and
- Development of study abroad programs.

PROGRAM REGULATIONS

EDGAR; 34 CFR 200 and 299

PROGRAM DESCRIPTION

Funds support high-quality education programs for migratory children and help ensure that migratory children who move among states are not penalized in any manner by disparities among states in curriculum, graduation requirements, or state academic content and student academic achievement standards. Funds also ensure that migratory children not only are provided with appropriate education services (including supportive services) that address their special needs but also that such children receive full and appropriate opportunities to meet the same challenging state academic content and student academic achievement standards that all children are expected to meet. Federal funds are allocated by formula to SEAs, based on each state's per-pupil expenditure for education and counts of eligible migratory children, age 3 through 21, residing within the state.

TYPES OF PROJECTS

States use program funds to provide instructional services (e.g., educational activities for pre-K children, instruction in elementary and secondary school, and recovery services to out-of-school youths) and support services (e.g., education-related activities, such as advocacy for migrant children and health, nutrition, and social services for migrant families). States also may use program funds for allowable activities, which include, but are not limited to, identification and recruitment, parental involvement, program evaluation, professional development, and administration of the program.

PROGRAM DESCRIPTION

CAMP assists students who are migrant or seasonal farmworkers and members of their immediate family enrolled full time in their first year of undergraduate studies at an IHE. The funding supports completion of the first year of studies. Competitive five-year grants for CAMP projects are made to IHEs or to nonprofit private agencies that cooperate with such institutions. The grants funded under CAMP grantees serve approximately 2,000 participants each year.

TYPES OF PROJECTS

Services include counseling, tutoring, skills workshops, financial aid stipends, health services, and housing assistance to eligible students during their first year of college. Limited follow-up services are provided to participants after their first year. Students must be enrolled on a full-time basis.

PROGRAM DESCRIPTION

Coordination funds are used to provide grants and contracts to improve the interstate and intrastate coordination of migrant education programs.

TYPES OF PROJECTS

Grants and contracts supported through this program include:

1. Consortium Incentive Grants, which assist SEAs in improving the delivery of services to migrant children whose education has been interrupted; up to \$3,000,000 may be used for Consortium Incentive Grants. SEAs may use funds for
 - Improving the identification and recruitment of eligible migrant children;
 - Using scientifically based research to implement activities to improve school readiness;
 - Improving reading and math proficiency;
 - Carrying out activities to increase high school completion rates and reduce the dropout rate;
 - Strengthening the involvement of parents;
 - Expanding access to innovative technologies; and
 - Carrying out activities to improve the educational attainment of out-of-school migratory youths.
2. The Migrant Education Coordination Support contract, a logistical support contract to organize and implement effective meetings and recommend and procure subject matter experts in support of national interstate coordination initiatives.
3. The Migrant Student Information Exchange (MSIX), which links state migrant student record systems to electronically exchange academic and health-related information on a national basis.
4. The MSIX IV&V and Management Support contract, which provides independent oversight of the MSIX contractors' performance and assistance with investment acquisition, management, and oversight activities.
5. The MSIX State Data Quality Grants, which provide additional resources to SEAs receiving MEP Basic State Formula Grant awards in order to assist them and their local operating agencies (LOAs) in implementing the interstate exchange of migrant children's records electronically through the MSIX.
6. The RESULTS contract, which supports intra- and interstate coordination efforts by (a) enhancing communication between states, (b) producing a literature review related to the MEP, (c) conducting intra- and interstate meetings and presentations, and (d) providing logistical and technical support for the Office of Migrant Education annual conference.

7. The Records Exchange Advice, Communication, and Technical Support (REACTS) contract, which provides technical assistance to SEAs through state site visits, newsletters, listserv messages, and website tools on the implementation of the records exchange initiative.

PROGRAM DESCRIPTION

This program helps migrant and seasonal farmworkers and members of their immediate families, who are 16 years of age or older and not currently enrolled in school, to obtain the equivalent of a high school diploma and, subsequently, to gain employment or begin postsecondary education or training. The program serves more than 7,000 students annually. Competitive awards are made for up to five years of funding.

TYPES OF PROJECTS

HEP participants receive developmental instruction and counseling services intended to prepare them to:

1. Complete the requirements for high school graduation or for General Educational Development (GED) certificates;
2. Pass standardized tests of high school equivalency; and
3. Participate in subsequent postsecondary education and career activities.

The major support services offered through HEP are counseling, job placement, health care, preparation for college entrance examinations, financial aid stipends, housing for residential students, and exposure to cultural and academic programs not usually available to migrant participants.

PROGRAM DESCRIPTION

This program is designed to help break the cycle of poverty and improve the literacy of participating migrant families by integrating early childhood education, adult literacy or adult basic education, and parenting education into a unified family literacy program.

TYPES OF PROJECTS

This program supports family literacy projects. Projects provide for: early childhood education; adult literacy (adult basic and secondary-level education and instruction for English learners); parenting education; and interactive parent-child literacy activities for participating families, often through other entities providing these services, such as government agencies, colleges and universities, public schools, Head Start programs, and other public and private community-based groups. Projects provide staff training and support services, such as child care and transportation, when unavailable from other sources, to enable participation in core education activities.

EDGAR

PROGRAM DESCRIPTION

The program supports and disseminates innovative reform projects that promise to be models for improving the quality of postsecondary education and increasing student access. Under FIPSE, the Department also has the flexibility to establish specialized programs to address national needs.

FIPSE's main activity is the Comprehensive Program, a competitive grant program intended to support innovative educational reform projects that can serve as national models for the improvement of postsecondary education. FIPSE also includes four International Consortia competitions:

- The European Union-U.S. Atlantis Program provides funding for joint or dual undergraduate degrees in a wide range of academic and professional disciplines;
- The Program for North American Mobility in Higher Education provides funding for institutional cooperation and student exchange among colleges and universities in the U.S., Canada, and Mexico;
- The U.S.-Brazil Higher Education Consortia Program sponsors projects promoting institutional cooperation and student mobility between the U.S. and Brazil; and
- The U.S.-Russia Program supports consortia of IHEs to promote cooperation in education and science between the U.S. and Russia.

These programs are designed to foster multilateral and bilateral partnerships so that students have increased opportunities to enhance their education by studying abroad.

In FY 2010, Congress appropriated funding within FIPSE to carry out several special initiatives—including Centers for Excellence for Veteran Student Success, College Textbook Rental Pilot Initiative, Training for Real-Time Writers, Off-Campus Community Service Program, and Erma Byrd Scholarship Program (see # 84.116E, under topical heading Higher and Continuing Education). In FY 2011, Congress appropriated funding for only one special initiative, Training for Real-Time Writers.

TYPES OF PROJECTS

Awards are made in a number of areas, including: postsecondary education access; retention and completion; student preparation for college; cost-effectiveness; curricula reform; foreign exchange; and dual degrees.

PROGRAM DESCRIPTION

The program supported the development of early childhood centers of excellence that focus on all areas of development, especially on the early language, cognitive, and pre-reading skills that prepare children for continued school success and that serve particularly children from low-income families.

TYPES OF PROJECTS

Grants were designed to help existing early childhood centers improve their programs, by creating centers of excellence that provide preschool-age children with language and cognitive skills, and an early reading foundation. Funds must be used to:

- Enhance children's language, cognitive, and early reading skills through professional development for teachers;
- Provide early language and reading development and instructional materials as developed from scientifically based reading research;
- Provide preschool-age children with cognitive learning opportunities in high-quality language and literature-rich environments;
- Use screening assessments to effectively identify preschool children who may be at risk for reading failure; and
- Improve existing early childhood programs by integrating scientifically based reading research into all aspects of the program (including instructional materials, teaching strategies, curricula, parent engagement, and professional development).

PROGRAM REGULATIONS

EDGAR; 34 CFR 74, 75, 76, 77, 80, 81, 82, 84, 85, 86, 97, 98, and 99

PROGRAM DESCRIPTION

This program authorizes grants to states for subgrants that support local family literacy projects. Local projects integrate early childhood education, adult literacy (adult basic and secondary-level education and instruction for English learners), parenting education, and interactive parent and child literacy activities for low-income families with parents who are eligible for services under the *Adult Education and Family Literacy Act (AEFLA)* and their children from birth through age 7. Teen parents and their children from birth through age 7 also are eligible. All participating families must be those most in need of program services.

Five percent of the annual appropriation is set aside for family literacy grants for migratory worker families, the outlying areas, and Indian tribes and tribal organizations. In addition, the U.S. Department of Education must award one grant to a project located in a women’s prison; awarding this grant is a one-time, not an annual, requirement. Up to 3 percent of the annual appropriation is reserved for national evaluation and technical assistance. The remaining funds are allocated by formula to SEAs based on their relative shares of Title I, Part A, funds. SEAs make competitive subgrants to partnerships of LEAs and other organizations and agencies, giving priority to proposals that primarily target areas with large numbers of most-in-need families or to projects located in empowerment zones or enterprise communities. The statute also requires that subgrants be equitably distributed among urban and rural areas and that local projects assume an increasing share of program costs each year. The increasing share of the program expenses ranges from 10 percent in the first year to 40 percent in the fourth year. Cost sharing for the fifth year through the eighth is 50 percent, and, after the eighth year of federal Even Start funding, the cost share is at least 65 percent.

TYPES OF PROJECTS

Projects provide for early childhood education; adult literacy (adult basic and secondary-level education and instruction for English learners); parenting education; and interactive parent-child literacy activities for participating families, often through other entities providing these services, such as government agencies, colleges and universities, public schools, Head Start programs, and other public and private community-based groups. Projects operate year-round and provide staff training and support services, such as child care and transportation, when unavailable from other sources, to enable participation in core education activities.

This program integrates early childhood education, adult literacy, adult basic education, parenting education, and interactive parent-child literacy activities into a unified family literacy program for federally recognized Indian tribes and tribal organizations.

TYPES OF PROJECTS

Projects provide integrated family literacy services that include: research-based early childhood education; adult literacy (adult basic and secondary-level education and instruction for English learners); parenting education; and interactive parent-child literacy activities for eligible families, often through other entities providing these services, such as Head Start programs and other public and private community-based groups. PROGRAM DESCRIPTION

This program awards a contract to Reading Is Fundamental, Inc. (RIF) to provide aid to local nonprofit groups and volunteer organizations that serve low-income children through book distribution and reading motivation activities.

TYPES OF PROJECTS

RIF enters into agreements with local nonprofit private groups or organizations and public agencies to administer free book distributions and reading motivation activities. Federal funds provide up to 75 percent of the cost of the books, with the balance obtained from private and local sources. Migrant programs may receive funding for up to 100 percent of their costs. In selecting projects, priority must be given to those that will serve a substantial number or percentage of children of low-income families. Priority also must be given to projects that support those at risk of school failure, those who are disabled, those who are homeless, and those who have certain other special needs as indicated in the statute.

PROGRAM REGULATIONS

PROGRAM DESCRIPTION

The Striving Readers program provides grants to eligible entities to support efforts to improve literacy instruction in high-need middle and high schools.

Striving Readers funds from FY 2005 through FY 2009 supported competitive grants to implement schoolwide improvements to reading instruction as well as supplemental reading interventions for middle or high school students reading significantly below grade level. Local evaluators, on an annual basis, analyzed implementation and impacts from both literacy programs through quasi- and experimental design evaluations. During the five-year tenure of the program, a total of eight grantees focused on literacy implementation and evaluation, including by providing professional development in reading instruction for secondary school teachers in the core academic subjects and supporting the implementation of targeted reading curricula that are appropriate for struggling readers.

After making continuation awards to the first cohort of these eight grantees, the Department awarded the remaining FY 2009 funds to eight state education agencies (SEAs). These SEAs first receiving awards as the FY 2009 cohort are required to implement a research-based literacy intervention that supplements the regular English language arts instruction students receive. The literacy model must include explicit vocabulary instruction, comprehension strategy instruction, opportunities for extended discussion of text meaning and interpretation, instruction in reading foundational skills when needed, instruction in writing, and course content intended to improve student motivation and engagement in literacy learning. SEAs also must support a rigorous experimental evaluation of the effectiveness of the supplemental literacy intervention it implements.

In FY 2010, language in the appropriations act changed Striving Readers from an adolescent literacy program to a comprehensive literacy development and education program intended to advance the literacy skills, including pre-literacy skills, reading, and writing of students from birth through grade 12. (See # 84.371B and # 84.371C, also under topical heading Reading.)

TYPES OF PROJECTS

Eligible entities receiving grants had to use Striving Readers funds for services and activities that have the characteristics of effective literacy instruction. Examples of such activities included professional development, screening and diagnostic assessment, supplemental interventions for students reading below grade level, and other research-based methods for improving classroom instruction and practice. Projects were required to participate in an experimental design evaluation of the literacy model being implemented.

PROGRAM DESCRIPTION

The Striving Readers program provides grants to eligible entities to support efforts to improve literacy instruction in high-need schools. The FY 2010 appropriations language changed Striving Readers from an adolescent literacy program to a comprehensive literacy development and education program intended to advance the literacy skills, including pre-literacy skills, reading, and writing, of students from birth through grade 12.

From the total FY 2010 Striving Readers Comprehensive Literacy appropriation, the Department has reserved:

1. One-half of 1 percent for grants to the Department of the Interior's Bureau of Indian Education (BIE) and one-half of 1 percent for the outlying areas (American Samoa, the Commonwealth of the Northern Marianas Islands, Guam, and the U.S. Virgin Islands);
2. \$10,000,000 for formula grants to states for the establishment or support of a State Literacy Team, with expertise in literacy development and education for children from birth through grade 12, to assist the state in developing a comprehensive literacy plan; and
3. Up to 5 percent for national activities.

The remaining funds will be used to award competitive grants to SEAs.

Each SEA that receives a competitive grant must award at least 95 percent of its allocation competitively to local education agencies (LEAs) or, for the purposes of providing early literacy services, to LEAs or other eligible nonprofit providers of early childhood education that partner with a public or private nonprofit organization or agency. To be eligible for a subgrant, a nonprofit provider of early childhood education must have a demonstrated record of effectiveness in improving the early literacy development of children from birth through kindergarten entry and in providing professional development in early literacy. SEAs must give a priority to entities serving greater numbers or percentages of disadvantaged children. SEAs are required to ensure that at least 15 percent of the subgranted funds are used to serve children from birth through age 5; 40 percent to serve students in kindergarten through grade 5; and 40 percent to serve students in middle and high school. Further, within the 40 percent dedicated to serve students in middle and high school, SEAs must equitably distribute funds between the two grade ranges.

TYPES OF PROJECTS

Grantees will use funds to implement a comprehensive literacy program to advance literacy skills, including pre-literacy skills, reading, and writing, for students

from birth through grade 12, including limited English proficient (LEP) students and students with disabilities. These funds will be used for services and activities that have characteristics of effective literacy instruction. PROGRAM DESCRIPTION

This program provides competitive grants to eligible entities to expand and improve the provision of rehabilitation and other services authorized under the *Rehabilitation Act*. Funding also is provided to further the purposes and policies of the act. More specifically, the program supports activities that increase the provision, extent, availability, scope, and quality of rehabilitation services under the act. Sec. 303 authorizes support of activities serving individuals with disabilities in an array of project types. These diverse projects may include effective practices that demonstrate methods of service delivery to individuals with disabilities, as well as such activities as technical assistance, systems change, model demonstration, special studies and evaluations, and dissemination and utilization of findings from successful, previously funded projects. Such expansions and improvement of rehabilitation and other services will lead to more employment outcomes for individuals with disabilities.

TYPES OF PROJECTS

Types of projects include model demonstration projects, technical assistance centers, systems-change projects, field initiated demonstrations, and literacy demonstrations. In addition, this program supports grants for Braille Training (# 84.235E) and Parent Information and Training programs (# 84.235F and # 84.235G, both also under topical heading Rehabilitation). FY 2010 funds also supported a new Model Demonstration Project to Improve Outcomes for Individuals on Social Security Disability Insurance (SSDI) Served by State Vocational Rehabilitation (VR) Agencies (# 84.235L).

PROGRAM DESCRIPTION

The U.S. Department of Education provides support for Gallaudet University in order to help promote

education and employment opportunities for persons who are deaf. The university provides a wide range of undergraduate, graduate, and continuing education programs in fields related to deafness for students who are deaf and students who are hearing.

Gallaudet also operates the Laurent Clerc National Deaf Education Center. This center includes the Kendall Demonstration Elementary School, which is an elementary school for children who are deaf; the Model Secondary School for the Deaf, which is a secondary school for students who are deaf; and a National Mission Program, which provides training, technical assistance, and materials related to education of the deaf. The federal government funds these programs in order to support the development, evaluation, and dissemination of model curricula, instructional techniques and strategies, and materials that can be used in a variety of educational environments serving individuals who are deaf or hard of hearing throughout the nation.

In FY 2011, the university enrolled 1,064 degree-seeking undergraduate students, 316 nondegree and part-time students, and 413 graduate students, as well as 239 elementary and secondary education students.

TYPES OF PROJECTS

Gallaudet University offers a traditional liberal arts curriculum and graduate programs in fields related to deafness for students who are deaf as well as those who are hearing. To increase the effectiveness of its instructional programs, the university provides communications training, counseling, and other support services for its students who are deaf. Gallaudet also conducts a wide variety of basic and applied deafness research and provides public service programs for persons who are deaf and professionals who work with persons who are deaf.

PROGRAM DESCRIPTION

The center provides services on a national basis to individuals who are deaf-blind, their families, and service providers through a national headquarters center with a residential training and rehabilitation facility and a network of 10 regional field offices. The National Center and regional field offices provide referral, employment and independent living skills training, counseling, and transition assistance for individuals who are deaf-blind, and technical assistance and training for service providers. In FY 2010, the center served 72 adult training clients and provided specialized short-term training to 26 clients at its headquarters programs. In addition, the center reported that in FY 2010 regional programs served 1,478 consumers, 441 families, and 881 organizations and agency service providers, with a broad spectrum of services, including consultation, referral, training, and individualized services related to independent living and employment.

TYPES OF PROJECTS

The program provides training and counseling to individual consumers and training and technical assistance to service providers. The program also supports short-term training for youths in high school, a service project for elderly deaf-blind persons, a national parent and family services project, and an international internship program for professionals in the field of deaf-blindness.

PROGRAM DESCRIPTION

The purpose of the NTID is to promote the employment of persons who are deaf by providing technical and professional education for the nation's young people who are deaf. The U.S. Department of Education maintains an agreement with its host institution, the Rochester Institute of Technology (RIT), to operate a residential facility for postsecondary technical training and education for individuals who are deaf. The purpose of the relationship with the host institution is to provide NTID and its students with access to more facilities, institutional services, and career preparation options than could be provided otherwise by a national technical institute for the deaf standing alone. The host institution also offers NTID students health and counseling services, a library, and physical education and recreation facilities. General services, such as food, maintenance, grounds, and security, also are provided. RIT receives reimbursement for these services through indirect cost charges negotiated with the federal government.

In FY 2011, NTID enrolled 1,263 undergraduate deaf students, 147 interpreter students, and 101 graduate students.

TYPES OF PROJECTS

NTID offers a variety of technical programs at the certificate, diploma, and associate degree levels. Majors are available in such areas as business, engineering, science, and visual communications in its degree programs. In addition, NTID students may participate in approximately 200 education programs available through RIT, which offers advanced technological courses of study at the undergraduate and graduate degree levels. In addition to the associate degree programs it directly administers, NTID is responsible for a master's degree program that trains secondary education teachers who will be teaching students who are deaf. The institute also operates a bachelor's in applied science degree program to train interpreters for persons who are deaf and a tutor and note-taker training program. Students who are deaf and enroll in NTID or RIT programs are given a wide range of support services and special programs to assist them in preparing for their careers, including tutoring, remedial and language enrichment programs, counseling, note taking, interpreting, captioning, and mentoring. Students may work with specialized educational media and complete cooperative work experiences. Specialized job placement assistance also is provided.

NTID conducts applied research on occupational- and employment-related aspects of deafness. It also conducts studies related to communication assessment, the demographics of NTID's target population, and how

hearing loss affects learning in postsecondary education. In addition, NTID conducts training workshops and seminars related to deafness, which are offered to professionals throughout the nation who employ, work with, teach, or otherwise serve persons who are deaf.

PROGRAM DESCRIPTION

The purpose of this program is to create and expand job and career opportunities for individuals with disabilities in the competitive labor market. This is accomplished by involving private industry partners to help identify competitive job and career opportunities and the skills needed to perform these jobs, to create practical job and career readiness and training programs, and to provide job placement and career advancement.

TYPES OF PROJECTS

The program supports projects that demonstrate the capacity to provide job development, job placement, career advancement, and training services for program participants, many of whom are individuals with significant disabilities. Grantees arrange, coordinate, or conduct job readiness training, occupational or job skills training, and training to enhance basic work skills and workplace competencies. Grantees also provide supportive services and assistance for individuals with disabilities in order to maintain the employment or career advancement for which the individuals received training or placement services.

PROGRAM REGULATIONS

34 *CFR* 381

PROGRAM DESCRIPTION

The PAIR program supports the protection and advocacy system in each state to protect the legal and human rights of individuals with disabilities. In order to be eligible for advocacy services from the PAIR program, an individual with a disability must meet three criteria:

1. The individual's concern must be beyond the scope of the Client Assistance Program (see # 84.161A, also under topical heading Rehabilitation), which is authorized under Sec. 112 of the *Rehabilitation Act*.
2. The individual must be ineligible for services from the U.S. Department of Health and Human Services' (HHS) Protection and Advocacy of Developmental Disabilities (PADD) program (authorized under Part C of the *DD Act*).
3. The individual also must be ineligible for the Protection and Advocacy for Individuals with Mental Illness (PAIMI) program of HHS (authorized under the *Protection and Advocacy for Individuals with Mental Illness Act*).

Each PAIR program must set annual priorities and objectives to meet the needs of individuals with disabilities in each state. Although the objectives and priorities vary from state to state to meet the needs of individuals with disabilities in each state, most PAIR programs set priorities and objectives aimed at reducing barriers to education, employment, transportation, and housing. In addition, PAIR programs advocate on behalf of individuals with significant disabilities to promote community integration and full participation in society.

TYPES OF PROJECTS

Eligible systems have the authority to pursue legal, administrative, and other appropriate remedies or approaches to protect and advocate for the rights of individuals with disabilities. Protection and advocacy systems may be housed in public or private entities as designated by the governor.

PROGRAM REGULATIONS

34 *CFR* 395

PROGRAM DESCRIPTION

The Vending Facility program authorized by the *Randolph-Sheppard Act* provides persons who are blind with remunerative employment and self-support through the operation of vending facilities on federal and other property. The program, enacted into law in 1936, was intended to enhance employment opportunities for trained, licensed blind persons to operate facilities. The law was subsequently amended in 1954 and again in 1974 to ultimately ensure individuals who are blind a priority in the operation of vending facilities, which included cafeterias, snack bars, and automatic vending machines, that are on federal property. The program priority has broadened in most states through state laws to include state, county, municipal, and private locations as well. Under the Randolph Sheppard program, state licensing agencies recruit, train, license, and place individuals who are blind as operators of vending facilities located on federal and other properties. The act authorizes a blind individual licensed by the state licensing agency to conduct specified activities in vending facilities through permits or contracts.

PROGRAM DESCRIPTION

This program provides grants to assist states in developing and implementing collaborative programs with appropriate entities to provide programs of supported employment services for individuals with the most significant disabilities to enable them to achieve an employment outcome of supported employment. Grant funds are administered under a state plan supplement to the Title I (of the *Rehabilitation Act*) state plan for vocational rehabilitation services designated by each state.

TYPES OF PROJECTS

Supported employment grant funds are used to supplement funds provided under the state vocational rehabilitation grants program for the costs of providing supported employment services. Program funds may be used to supplement assessments under the Title I (of the *Rehabilitation Act*) program and supplement other vocational rehabilitation services necessary to help individuals with the most significant disabilities find work in the integrated labor market. Funds cannot be used to provide the extended services necessary to maintain individuals in employment after the end of supported employment services, the duration of which usually do not exceed 18 months.

PROGRAM DESCRIPTION

The purpose of this program is to make awards to minority entities and American Indian tribes to carry out activities under programs authorized under Titles II, III, VI, and VII of the *Rehabilitation Act*, and to conduct research, training and technical assistance, and related activities to improve services under the *Rehabilitation Act*, especially services provided to individuals with minority backgrounds. This program also makes awards to states, public or private nonprofit agencies, and organizations including IHEs and American Indian tribes to promote the participation of minority entities and Indian tribes to enhance their capacity to carry out activities under the act. A “minority entity” is defined by Sec. 21 as a Historically Black College or University (HBCU), Hispanic-Serving Institution (HSI) of higher education, an American Indian Tribal College or University, or another IHE whose minority student enrollment is at least 50 percent.

TYPES OF PROJECTS

Projects are designed to support training, technical assistance, and related activities provided by minority IHEs and Indian tribes; to improve services under the *Rehabilitation Act*, especially services provided to individuals with disabilities and minority backgrounds; and to promote the participation of minority entities and Indian tribes in activities under the *Rehabilitation Act*.

PROGRAM DESCRIPTION

The purpose of this program is to assist tribal governments in developing or increasing their capacity to provide a program of vocational rehabilitation services, in a culturally relevant manner, to American Indians with disabilities residing on or near federal or state reservations. The program's goal is to enable these individuals, consistent with their individual strengths, resources, priorities, concerns, abilities, capabilities, and informed choice, to prepare for and engage in gainful employment. Program services are provided under an individualized plan for employment and may include native healing services.

TYPES OF PROJECTS

The program provides financial assistance for an Indian tribe's (tribal consortium's) establishment and operation of vocational rehabilitation services programs for American Indians with disabilities living on or near a federal or state reservation.

PROGRAM DESCRIPTION

This program provides grants to states to support a wide range of services designed to help individuals with disabilities prepare for and engage in gainful employment consistent with their strengths, resources, priorities,

concerns, abilities, capabilities, interests, and informed choice. Eligible individuals are those who have a physical or mental impairment that results in a substantial impediment to employment and who require vocational rehabilitation (VR) services to achieve an employment outcome. Priority must be given to serving individuals with the most significant disabilities if a state is unable to serve all eligible individuals.

TYPES OF PROJECTS

Funds to cover the cost of direct services and program administration are distributed to states and territories based on a formula that takes into account population and per capita income. Grant funds are administered under an approved state plan by VR agencies designated by each state. The state matching requirement is 21.3 percent, although the state share is 50 percent for the cost of construction of a facility for community rehabilitation program purposes.

CONTRACT COMPETITIONS

IES Web-Related Research and Dissemination: This contract will provide support for a variety of dissemination activities, including publication and graphic design for all forms of communication, writing and editing, media planning, and Web research (e.g., conducting focus groups) aimed at improving the dissemination and use of education research. FY 2011 will be year 1 of a three-year contract. The competition is closed. Award expected: mid-March 2011.

Legal and News Information Services: This contract will provide indexing of and full-text access to national and statewide newspapers; federal case law, legislation, regulations, and administrative decisions; state codes, statutes, regulations, and judicial decisions; and public records. Funding comes from POCs throughout the agency; the contract is managed by the National Library of Education (NLE). Solicitation announcement in FedBizOpps: spring of 2011. Award expected: summer of 2011.

Analytic and Technical Support: This contract will provide technical support activities for (1) preparation of papers and analyses in such areas as cutting-edge evaluation methodologies; statistical analyses of education issues of national importance, expert reviews of major education studies and reports, and design papers on education research and evaluation, and (2) technical assistance that promotes the conduct of scientifically rigorous studies and the use of information from those studies. Solicitation announcement in FedBizOpps: summer of 2011. Award expected: January 2012.

Analytical and Technical Support for Advancing ED Research: This contract will provide analytic and technical support to the Department's National Center for Education Research (NCER), including the preparation of databases of scientific research publications and products of NCER-funded research, preparation of an assessment and measures compendium (including documentation of psychometric properties of instruments and description of samples and studies), identification of appropriate scientific expertise to prepare research syntheses and methodological briefs, identification of appropriate scientific expertise for methodological working groups, as well as delivery of methodological support, and ensuring that requested tasks are completed by the contract team, and contracted scientific experts, in a timely and appropriate fashion. Solicitation announcement in FedBizOpps: spring 2011. Award expected: summer 2011.

PROGRAM DESCRIPTION

The National Research Center for the Education of Gifted and Talented Youth conducts research for the purpose of carrying out activities described in Sec. 5464(b) of the statute (see Legislative Citation), including research on methods and techniques for identifying and teaching gifted and talented students and for using gifted and talented programs and methods to serve all students. It also conducts program evaluations and surveys. As part of its work, the center collects, analyzes, and develops information about gifted and talented education. Emphasis is given to the identification of and services for students traditionally not included in gifted and talented education, including individuals with limited English proficiency (LEP), individuals with disabilities, and individuals living in economically disadvantaged conditions.

For information about research activities conducted by the center, see the list of statutory use of funds for demonstration projects under the Javits authority (see Jacob K. Javits Gifted and Talented Students Education, # 84.206A, under topical heading Academic Improvement).

PROGRAM REGULATIONS

EDGAR, FAR

PROGRAM DESCRIPTION

This program funds research and development projects that propose a sound approach to the investigation of an important education or assistive technology, science, or engineering question under topics identified each year in the solicitation. The purpose of the program is to:

- Stimulate technological innovation;
- Increase small business participation in federal research and development;
- Foster and encourage participation by minority and disadvantaged persons in technological innovation; and
- Increase private sector commercialization of technology derived from federal research and development.

TYPES OF PROJECTS

Each year, the program funds Phase I feasibility projects for approximately six months. After completion of the Phase I stage, most of these businesses can compete for Phase II awards. Phase II awards can last up to 24 months. Through the Fast-Track option (Fast-Track proposal is a single proposal that contains both Phase I and Phase II activities) the Institute funds meritorious proposals for activities that cover both the Phase I and Phase II periods. Fast Track projects include full-scale development of an education technology product that contributes to improved student learning and academic achievement in the field of education, evaluation of the product in a school or other formal education delivery setting, and plans for the private sector commercialization of the product.

By providing funds for the Phase I period (six months, up to \$150,000) and an option for Phase II (two years, up to \$1,000,000), commencing as soon as Phase I ends, the Fast-Track mechanism has the potential to eliminate a funding gap between Phase I and Phase II. Firms with strong research or research and development (R/R&D) capabilities in education technology in the priority areas listed within the Request for Proposals are encouraged to participate.

PROGRAM DESCRIPTION

Grants support efforts by IHEs to develop, or review and improve, and fully integrate campus-based all-hazards emergency management planning efforts within the framework of the four phases of emergency management (prevention-mitigation, preparedness, response, and recovery).

TYPES OF PROJECTS

Projects that:

- Develop, or review and improve, and fully integrate a campuswide all-hazards emergency management plan that takes into account threats that may be unique to the campus;
- Train campus staff, faculty, and students in emergency management procedures;
- Coordinate with local and state government emergency management efforts;
- Ensure coordination of planning and communication across all relevant components, offices, and departments of the campus;
- Develop a written plan with emergency protocols that include the medical, mental health, communication, mobility, and emergency needs of persons with disabilities, as well as for those individuals with temporary special needs or other unique needs (including those arising from language barriers or cultural differences);
- Develop or update a written plan that prepares the campus for infectious disease outbreaks with both short-term implications for planning (e.g., outbreaks caused by methicillin-resistant *Staphylococcus aureus* [MRSA] or foodborne illnesses) and long-term implications for planning (e.g., pandemic influenza);
- Develop or enhance a written plan for preventing violence on campus by assisting and addressing the mental health needs of students, staff, and faculty who may be at risk of causing violence by harming themselves or others; and
- Develop or update a written campuswide continuity of operations plan that would enable the campus to maintain, or restore, or both, key education, business, and other essential functions following an emergency.

PROGRAM REGULATIONS

EDGAR

PROGRAM DESCRIPTION

The program provided support to SEAs for a variety of drug and violence prevention activities focused primarily on school-age youths. SEAs were required to distribute 93 percent of funds to local education agencies (LEAs) for drug and violence-prevention activities authorized under the statute.

These activities included:

- Developing instructional materials;
- Providing counseling services and professional development programs for school personnel;
- Implementing community service projects and conflict resolution, peer mediation, mentoring and character education programs;
- Establishing safe zones of passage for students to and from school;
- Acquiring and installing metal detectors; and
- Hiring security personnel.

The formula for the distribution of funds to LEAs is based on the state's prior-year share of Title I (*ESEA*) funds (60 percent) and enrollment (40 percent).

TYPES OF PROJECTS

Activities frequently funded by LEAs included: staff training; student instruction; curriculum development or acquisition; parent education and involvement; conflict resolution; peer mediation and student assistance programs, such as counseling, mentoring, identification and referral services; other programs to improve school culture and climate; and the enhancement and implementation of school emergency management plans.

PROGRAM DESCRIPTION

Grants support LEAs in the development of communitywide approaches to creating safe and

drug-free schools and promoting healthy childhood development. Programs are intended to prevent violence and the illegal use of drugs and to promote safety and discipline. Coordination with the local law enforcement, local juvenile justice agency, and mental health authority is required. This program is jointly funded by the Department Health and Human Services (HHS). The appropriation amounts listed above do not include funds appropriated for HHS.

TYPES OF PROJECTS

To be funded, local comprehensive strategies must address the following five elements but may address other elements as well, as determined by the needs of the community:

- Element One—Safe School Environments and Violence Prevention Activities;
- Element Two—Alcohol, Tobacco, and Other Drug Prevention Activities;
- Element Three—Student Behavioral, Social, and Emotional Supports;
- Element Four—Mental Health Services; and
- Element Five—Early Childhood Social and Emotional Learning Programs.

PROGRAM DESCRIPTION

The Arts in Education program authorizes noncompetitive awards to VSA arts, whose programs encourage the involvement in, and foster greater awareness of the need

for, arts programs for persons with disabilities. Financial support also is given to the John F. Kennedy Center for the Performing Arts for its arts education and professional development programs..

TYPES OF PROJECTS

Two grants are awarded: one to VSA arts and the other to the John F. Kennedy Center for the Performing Arts. VSA arts supports projects that encourage the involvement of disabled people in the arts and foster a greater awareness of the need for arts programs for the disabled. VSA arts projects include training and technical assistance activities, information services, and public awareness activities. The Kennedy Center provides performances, professional development, and other educational activities that emphasize the importance of the arts in education. The Kennedy Center also works with the Alliance for Arts Education, a network of state arts education committees, and Partners in Education, with 90 programs in 44 states and the District of Columbia, to focus on incorporating the arts into school curricula.

PROGRAM DESCRIPTION

The program supports the enhancement, expansion, documentation, evaluation, and dissemination of innovative, cohesive models that demonstrate effectiveness in:

- Integrating standards-based art education into the core elementary and middle school curricula;
- Strengthening standards-based arts instruction in those grades; and
- Improving students' academic performance, including their skills in creating, performing, and responding to the arts.

TYPES OF PROJECTS

Grants are designed to enable LEAs and organizations with arts expertise to further create and develop materials for the replication or adaptation of current comprehensive approaches for integrating a range of arts disciplines—such as music, dance, theater, and visual arts, including folk arts—into the elementary and middle school curricula. Funds may be used to:

- Further the development of programs designed to improve or expand the integration of arts education in elementary or middle school curricula;
- Develop materials designed to help replicate or adapt arts programs;

- Document and assess the results and benefits of arts programs; and
- Develop products and services that can be used to replicate arts programs in other settings.

Applicants must describe an existing set of strategies for integrating the arts into the regular elementary and middle school curricula, which then could be implemented successfully, expanded, documented, evaluated, and disseminated.

PROGRAM REGULATIONS

EDGAR

PROGRAM DESCRIPTION

This program provides financial assistance for the planning, program design, and initial implementation of charter schools, as well as the dissemination of information on charter schools. Grants are available, on

a competitive basis, to SEAs in states that have charter school laws; SEAs, in turn, make subgrants to developers of charter schools who have applied for a charter. If an eligible SEA elects not to participate or if its application for funding is not approved, the Department can make grants directly to charter school developers under # 84.282B and # 84.282C.

TYPES OF PROJECTS

An eligible applicant that receives a grant or subgrant may use the funds only for post-award planning and design of a charter school. It may carry out such activities as the articulation of desired education outcomes, refinement of methods for measuring progress toward achieving those outcomes, and the initial implementation of the charter school. Implementation may include informing the community about the charter school and acquiring necessary equipment, materials, and supplies. Other eligible operational costs that cannot be met by state and local sources also may be covered. A state may reserve up to 10 percent of its allocation to support dissemination activities for successful charter schools.

PROGRAM DESCRIPTION

The purpose of the Charter Schools Program is to increase national understanding of the charter school model and to expand the number of high-quality charter schools available to students across the nation. This expansion is by providing financial assistance for the planning, program design, and initial implementation of charter schools, and for evaluating the effects of charter schools, including their effects on students, student academic achievement, staff, and parents. Sec. 5205 of the *Elementary and Secondary Education Act of 1965*, as amended, authorizes the secretary to award grants under the CSP to carry out “national activities.”

TYPES OF PROJECTS

An eligible applicant that receives a grant may use the funds only for:

- (a) Disseminating information to charter schools about federal funds that they are eligible to receive and federal programs in which they may be eligible to participate;
- (b) Conducting evaluations or studies that include evaluation of the impact of charter schools on student academic achievement and other issues concerning charter schools, such as teacher qualifications and retention, and the demographic makeup of charter school students; or
- (c) Technical assistance, such as assisting states and charter school developers with aspects of planning, design, and implementing a charter school; disseminating information on best or promising practices in charter schools to other public schools; collecting and disseminating information about programs and financial resources available to charter schools for facilities; providing technical assistance to authorized public chartering agencies in order to increase the number of high-performing charter schools; and assisting LEAs in the planning and start-up of charter schools as a means of implementing school turnaround.

PROGRAM DESCRIPTION

The *Scholarships for Opportunity and Results (SOAR) Act* reauthorized the DC Opportunity Scholarship Program. The *SOAR Act* contains new provisions that include: increasing the maximum scholarship, increasing the amount of the grant that may be retained by the grantee for administration and parent and student support, giving a priority for the receipt of scholarships to current recipients and their siblings, adding new requirements for participating private schools, and requiring an evaluation to examine changes in parents' school involvement and satisfaction. Funds appropriated to the District of Columbia are awarded and administered by the U.S. Department of Education.

The D.C. School Choice Incentive Program provides low-income parents residing in the District with expanded options for the education of their children. This program is part of a broader school improvement effort in the District. The Department awards one grant on a competitive basis to administer the scholarship program for new as well as current student participants. These scholarships, of up to \$8,000 per student per school year for grades K–8 and \$12,000 per student per school year for grades 9–12, enable students to attend a participating nonpublic District elementary or secondary school of their choice.

PROGRAM DESCRIPTION

This program promotes economic and financial literacy among students in grades K–12 through the award of one grant to a national nonprofit education organization that has as its primary purpose the improvement of student understanding of personal finance and economics. In FY 2010, a five-year grant was awarded to the Council on Economic Education.

TYPES OF PROJECTS

The grantee must use 25 percent of grant funds to conduct direct activities and 75 percent of funds to make subgrants to eligible entities. Direct grantee activities must:

- Strengthen and expand the grantee’s relationships with state and local personal finance, entrepreneurial, and economic education organizations;
- Support and promote training of teachers who teach a grade from kindergarten through grade 12 regarding economics, including the dissemination of information on effective practices and research findings regarding the teaching of economics;
- Support research on effective teaching practices and the development of assessment instruments to document student understanding of personal finance and economics; and
- Develop and disseminate appropriate materials to foster economic literacy.

Subgrantees must use funds for one or more of the following purposes:

- Collaboratively establishing and conducting teacher training programs that use effective and innovative approaches to the teaching of economics, personal finance, and entrepreneurship;
- Providing resources to school districts that desire to incorporate economics and personal finance into the curricula of the schools in the districts;
- Conducting evaluations of the impact of economic and financial literacy education on students;
- Conducting economic and financial literacy education research;
- Creating and conducting school-based student activities to promote consumer, economic, and personal finance education (such as saving, investing, and entrepreneurial education) and to encourage awareness and student academic achievement in economics; or
- Encouraging replication of best practices to promote economic and financial literacy.

PROGRAM REGULATIONS

EDGAR

PROGRAM DESCRIPTION

FIE provides authority for the secretary of education to support nationally significant programs to improve the quality of elementary and secondary education at the state and local levels and to help all students meet challenging state academic content standards and student achievement standards. The types of projects that may be supported include: activities to promote systemic education reform at the state and local levels; programs at the state and local levels that are designed to yield significant results, including programs to explore approaches to public school choice and school-based decision making; recognition programs; and scientifically based studies and evaluations of education reform strategies and innovations. All funded programs must be designed so that their effectiveness is readily ascertainable and is assessed using rigorous, scientifically based research and evaluations.

TYPES OF PROJECTS

In 2011, FIE supports the following activities:

- Full Service Community Schools grants, which support activities to coordinate academic, social, and health services through partnerships among public elementary and secondary schools; the schools' LEAs; and community-based organizations (CBOs), nonprofit organizations, and other public or private entities.
- An educational facilities clearinghouse, which provides technical assistance and training related to educational facility planning, design, financing, construction, improvement, operation, and maintenance of public educational facilities.
- A data quality initiative, which provides assistance to improve the quality, analysis, and reporting of Department of Education elementary and secondary program data.

PROGRAM REGULATIONS

34 *CFR* 280

PROGRAM DESCRIPTION

These grants assist in the desegregation of public schools by supporting the elimination, reduction, and prevention of minority-group isolation in elementary and secondary schools with substantial numbers of minority-group students. In order to meet the statutory purposes of the program, projects also must support the development and implementation of magnet schools that assist in the achievement of systemic reforms and provide all students with the opportunity to meet challenging academic content and achievement standards. Projects support the development and design of innovative education methods and practices that promote diversity and increase choices in public education programs. The program supports capacity building through professional development and other activities that will enable the continued operation of the magnet schools at a high performance level after funding ends. Additionally, the program supports the implementation of courses of instruction in magnet schools that strengthen students' knowledge of core academic subjects and their grasp of marketable vocational skills. Finally, projects are designed to ensure that all students enrolled in the programs have equitable access to high-quality education that will enable them to succeed academically and continue with postsecondary education or productive employment.

TYPES OF PROJECTS

Magnet schools offer a wide range of distinctive education programs. A variety of program themes are offered, such as STEM, environmental sustainability, technology, language immersion, and the arts. Other schools focus on using specific instructional approaches, such as Montessori methods, or approaches found in international baccalaureate programs or early college programs.

PROGRAM REGULATIONS

EDGAR

PROGRAM DESCRIPTION

Parental Information and Resource Centers (PIRCs) help implement parental involvement policies, programs, and activities that are intended to lead to improvements in student academic achievement and strengthen partnerships among parents, teachers, principals, administrators, and other school personnel in meeting the education needs of children. Sec. 5563 of *ESEA* requires the recipients of PIRC grants to: serve both rural and urban areas; use at least half of their funds to serve areas with high concentrations of low-income families; and use at least 30 percent of the funds they receive for early childhood parent education programs.

TYPES OF PROJECTS

Centers must include activities that establish, expand, or operate early childhood parent education programs and engage in a variety of technical assistance activities designed to improve student academic achievement, including improving parent understanding of the accountability systems in the state and school districts being served by a project. Specific activities often include helping parents to understand the data that accountability systems make available to parents and the significance of those data in such areas as opportunities for supplemental services and public school choice afforded to their children under Sec. 1116 of *ESEA*. Projects help parents to communicate effectively with teachers, principals, counselors, administrators, and other school personnel, and help parents become active participants in the development, implementation, and review of school improvement plans.

Additionally, projects generally develop resource materials and provide information about high-quality family involvement programs to families, schools, school districts, and others through conferences, workshops, and dissemination of materials. Projects generally include a focus on serving parents of low-income, minority, and limited English proficient (LEP) children enrolled in elementary and secondary schools.

Elementary and Secondary Education Act of 1965 (ESEA), as amended, Title V, Part D, Subpart 1, Secs. 5411–5413; U.S. C. 7423–7423b

PROGRAM DESCRIPTION

The purpose of the Promise Neighborhoods program is to significantly improve the educational and developmental outcomes of children in the nation's most distressed communities and to transform those communities by:

- Identifying and increasing the capacity of Promise Neighborhoods organizations that are focused on achieving results for children and youths throughout an entire neighborhood;
- Building a complete continuum of cradle-through-college-to-career solutions of both educational programs and family and community supports, with great schools at the center;
- Integrating programs and breaking down agency "silos" so that solutions are implemented effectively and efficiently across agencies;
- Developing the local infrastructure of systems and resources needed to sustain and scale up proven, effective solutions across the broader region beyond the initial neighborhood; and
- Learning about the overall impact of the Promise Neighborhoods program and about the relationship between particular strategies in Promise Neighborhoods and student outcomes, including through a rigorous evaluation of the program.

TYPES OF PROJECTS

The secretary expects that Promise Neighborhoods implementation grantees will undertake the following activities:

- Implement a continuum of solutions that addresses neighborhood challenges, as identified in a needs assessment and segmentation analysis, and that will improve results for children and youths in the neighborhood;
- Continue to build and strengthen partnerships that will provide solutions along the continuum of solutions and that will commit resources to sustain and scale up what works;
- Collect data on indicators at least annually, and use and improve a data system for learning, continuous improvement, and accountability;
- Demonstrate progress on goals for improving systems, such as by making changes in policies and organizations, and by leveraging resources to sustain and scale up what works; and
- Participate in a community of practice.

Planning grantees would receive funds for a year to conduct activities that result in a plan for a Promise Neighborhood.

WHO MAY APPLY (BY CATEGORY)

State Education Agencies (SEAs)

WHO MAY APPLY (SPECIFICALLY)

The SEAs of the 50 states, the District of Columbia, and Puerto Rico, the Department of the Interior's Bureau of Indian Education (BIE), and the outlying areas (American Samoa, the Commonwealth of the Northern Mariana Islands, Guam, and the U.S. Virgin Islands) are entitled to receive FY 2011 School Improvement Grants in proportion to the FY 2011 funds they receive under Parts A, C, and D of Title I of the *Elementary and Secondary Education Act (ESEA)*, as amended. An SEA must allocate at least 95 percent to local education agencies (LEAs) with the lowest-achieving schools that have the greatest need for the funds and demonstrate the strongest commitment to use the funds to raise substantially the achievement of their students.

TYPE OF ASSISTANCE (BY CATEGORY)

Formula Grants

TYPE OF ASSISTANCE (SPECIFICALLY)

To receive a School Improvement Grant, an SEA must submit an application to the U.S. Department of Education. Under the final requirements issued by the Department for this program, these funds are intended to be used primarily for competitive awards to LEAs to implement one of four specified school intervention models—turnaround, restart, school closure, or transformation—in each state's persistently lowest-achieving schools.

APPROPRIATIONS

Fiscal Year 2009	\$545,633,000
Fiscal Year 2010	\$545,633,000
Fiscal Year 2011	\$534,561,734

Note: This program received \$3,000,000,000 in *American Recovery and Reinvestment Act of 2009* funds; awards were made under # 84.388A.

FISCAL YEAR 2011 AWARDS INFORMATION

Note: The Department is not bound by any estimates in this notice.

Number of New Awards Anticipated: 57

Average New Award: \$10,183,641

Range of New Awards: \$1,205,849-63,071,457

Note: Award information does not include the awards for the Bureau of Indian Education or the outlying areas.

LEGISLATIVE CITATION

Elementary and Secondary Education Act of 1965 (ESEA), as amended, Title I; 20 USC 6303(g)

PROGRAM DESCRIPTION

Title I, Sec. 1003(g), of *ESEA* authorizes formula grants to SEAs. Each SEA must award at least 95 percent of the funds it receives to LEAs on a competitive basis. To be eligible to receive a School Improvement Grant, an LEA must receive Title I, Part A, funds and must have one or more schools indentified by the SEA in its School Improvement Grant application as eligible to receive school improvement funds.

An SEA must identify three tiers of schools.

- In general, a Tier I eligible school is a Title I school in improvement, corrective action, or restructuring that is: (1) among the lowest-achieving 5 percent of such schools in the state (or the lowest-achieving five schools, whichever is greater) or (2) a Title I high school with a graduation rate below 60 percent over a number of years.
- A Tier II eligible school is a secondary school that is eligible for, but does not receive, Title I funds that is: (1) among the lowest-achieving 5 percent of such schools in the state (or lowest-achieving five schools) or (2) a high school with a graduation rate below 60 percent over a number of years.
- A Tier III eligible school is a Title I school in improvement, corrective action, or restructuring that is not included in Tier I.

At its discretion, an SEA also may make eligible a school that is eligible to receive Title I funds and is no higher achieving than the highest-achieving Tier I or Tier II school and that (1) has not made adequate yearly progress (AYP) for two consecutive years or (2) is in the lowest quintile of schools in the state in terms of achievement.

In awarding school improvement funds to LEAs, an SEA must give priority to LEAs that apply to serve Tier I or Tier II schools before awarding funds to LEAs to serve Tier III schools. An LEA must use school improvement

funds in any Tier I or Tier II school that it applies to serve to implement one of four school improvement models: Turnaround Model, Restart Model, School Closure, or Transformation Model.

TYPES OF PROJECTS

SEAs use School Improvement Grants primarily to make three-year awards to LEAs that commit to implement fully and effectively a locally selected school intervention model (turnaround, restart, school closure, or transformation), which typically requires such measures as replacement of school leadership and other staff, high-quality professional development, implementation of a research-based instructional program, and extended learning time. LEAs receiving School Improvement Grants must set annual school-level goals for improving student achievement and other performance indicators, and SEAs must review grantee performance against these goals before making second- and third-year awards.

PROGRAM DESCRIPTION

This program supports efforts to establish or expand intradistrict, interdistrict, and open-enrollment public school choice programs to provide parents, particularly parents whose children attend low-performing public schools, with expanded education options. Programs and projects assisted are required to use a portion of the grant funds to provide the students selected to participate in the program with transportation services, or funds to cover the cost of transportation, to and from the public elementary schools and secondary schools, including charter schools, that the students choose to attend under the program. A grantee may not use funds for school construction. No more than 5 percent of the funds made available through the grant for any fiscal year may be used for administrative expenses.

TYPES OF PROJECTS

Programs and projects may include the following activities:

- Planning or designing a program (for not more than one year);
- Making tuition transfer payments to public elementary or secondary schools to which students transfer under the program;
- Implementing capacity-enhancing activities that enable high-demand public elementary or secondary schools to accommodate transfer requests under the program; and
- Paying for other costs reasonably necessary to implement the public school choice program.

PROGRAM DESCRIPTION

This program promotes education equity for women and girls through competitive grants. The program designates most of its funding for local implementation of gender-equity policies and practices. Research, development, and dissemination activities also may be funded. Projects may be funded for up to four years.

TYPES OF PROJECTS

Examples of allowable activities include:

- Training for teachers and other school personnel to encourage gender equity in the classroom;
- Evaluating exemplary model programs to advance gender equity;
- School-to-work transition programs;
- Guidance and counseling activities to increase opportunities for women in technologically demanding workplaces; and
- Developing strategies to assist LEAs in evaluating, disseminating, and replicating gender-equity programs.

The FY 2009 competition included three absolute priorities (i.e., mandatory for consideration) for projects to support activities enabling students to achieve proficiency or advanced proficiency in mathematics, or science, or both, and projects that collect pre- and post-test data to assess the project's impact.

PROGRAM DESCRIPTION

APH produces and distributes educational materials adapted for students who are legally blind and enrolled in formal education programs below the college level. These materials are distributed to public and private nonprofit institutions serving individuals who are blind through allotments to the states. The allotments are based on an annual census conducted by APH of the number of students who are legally blind in each state and are provided in the form of credits. State education agencies (SEAs) and public and private nonprofit institutions serving persons who are blind may order materials free of charge up to the amount of funds allocated to each state for educational materials. APH also uses its appropriation to conduct research related to developing and improving products and provides advisory services to professional and consumer organizations on the availability and use of materials produced by APH. In FY 2010, APH served 59,341 students.

TYPES OF PROJECTS

Materials produced by APH include: textbooks in Braille and large type; education tools, such as Braille typewriters and computer software and hardware; teaching aides, such as tests and performance measures; and other special supplies. APH conducts applied research necessary to develop and improve instructional materials in such areas as Braille reading, science, mathematics, and social studies, and to adapt testing materials related to these subject areas. Special materials also are developed in such areas as early childhood education, prevocational training, the use of computer applications, the functional use of residual vision, and to teach students with additional disabilities. Additionally, advisory services activities include operation of APH's Student Registration System, Louis Database of Accessible Materials, Electronic File Repository, Expert Database, and National Instructional Partnership, and use of a variety of mechanisms to provide information on APH services, such as catalogs, brochures, and videos.

PROGRAM REGULATIONS

34 *CFR* 303

PROGRAM DESCRIPTION

This program provides grants under a statutory formula to the 50 states, the District of Columbia, Puerto Rico, the secretary of the interior, and four outlying areas (American Samoa, the Commonwealth of the Northern Mariana Islands, Guam, and the U.S. Virgin Islands) to assist in maintaining and implementing statewide systems of coordinated, comprehensive, multidisciplinary, interagency programs of early intervention services for infants and toddlers with disabilities and their families. Allocations are based on the number of children from birth through age 2 in the general population in the state relative to the population in this age range for all states. In addition, no state may receive less than 0.5 percent of the funds available to all states or \$500,000, whichever is greater. The outlying areas may receive an aggregated amount of up to 1 percent of the funds appropriated, and the secretary of the interior receives 1.25 percent of the aggregate of the amount available to states, which must be distributed to federally recognized Indian tribes, tribal organizations or consortia of these entities.

States are responsible for making early intervention services available to all eligible children and their families, including Indian infants and toddlers residing within the state on reservations. States also may elect to provide services to infants and toddlers who are at risk of having substantial developmental delays if appropriate early intervention services are not provided. In FY 2009, this program served 348,604 infants and toddlers with disabilities.

The *Individuals with Disabilities Education Act (IDEA)*, as amended, allows states, at their discretion, to make available early intervention services under Part C to children with disabilities beyond age 3 until the children enter or are eligible under state law to enter kindergarten or elementary school, if such children are eligible for services under the Preschool Grants for Children of Disabilities Program (see # 84.173, also under topical heading Special Education) and previously received services under the Part C program. *Recovery Act* funds were set aside in FY 2009 for states that elected to pursue this option.

TYPES OF PROJECTS

Lead agencies are responsible for ensuring the provision of appropriate early intervention services and development of formal interagency agreements that define responsibilities for services between agencies and providers and procedures to ensure their timely delivery. Funds also may be used to provide direct services that otherwise are not available from other public or private sources. Through evaluation and assessment, services are identified to address the physical, cognitive, communication, social-emotional, and adaptive developmental needs of infants and toddlers

with disabilities (e.g., special instruction, speech therapy, occupational therapy, physical therapy, and psychological services) and to support families (e.g., family training and counseling). In addition, each eligible child and family must be provided service coordination, a key component of family-centered services. Depending on whether a state has adopted a system-of-payments policy, which must be on file with and approved by the secretary of education, families who do not meet the state's definition of inability to pay may be required to pay for some services.

Individuals with Disabilities Education Act (IDEA), Part B, Sec. 619, as amended; 20 *U.S.C.* 1419

PROGRAM REGULATIONS

34 *CFR* 300, Subpart H

PROGRAM DESCRIPTION

This program provides grants to states, the District of Columbia, and Puerto Rico to make special education and related services available to children with disabilities, ages 3 through 5, and, at the state's discretion, to 2-year-olds with disabilities who will turn 3 during the school year. At their discretion, states may include preschool-age children who are experiencing developmental delays, as defined by the state and measured by appropriate diagnostic instruments and procedures, who need special education and related services. Funds are distributed to eligible SEAs based on the amount each state received in FY 1997 and on the relative number of children ages 3 through 5 in the state's general population and the number of these children living in poverty. The formula contains provisions for situations in which the appropriation for the program remains constant, increases, or decreases, and several maximum and minimum funding requirements.

States must distribute the bulk of their grant awards to local education agencies (LEAs). They may retain funds for state-level activities up to an amount equal to 25 percent of the amount they received for FY 1997 under this program, adjusted upward each year by the lesser of either the rate of increase in the state's allocation or the rate of inflation. The amount that may be used for administration is limited to not more than 20 percent of the amount available to a state for state-level activities. Funds reserved for administration also may be used for the administration of Part C of *IDEA*.

TYPES OF PROJECTS

Funds under this program are used by SEAs and LEAs to make special education and related services available to 3- through 5-year-old children with disabilities and, at a state's discretion, to 2-year-old children with disabilities who will reach age 3 during the school year. Permissible expenditures include the salaries of special education teachers and costs associated with related services, including, but not limited to, speech-language pathology services, physical and occupational therapy, psychological services, parent counseling and training, and social work services in schools.

States may use state set-aside funds not reserved for administration for:

- Direct services for children eligible for services under this program;
- Support services;
- The provision of early intervention services (which shall include an educational component that promotes school readiness and incorporates preliteracy, language, and numeracy skills), in accordance with Part C, to children with disabilities who are eligible for services under Sec. 619 and who previously received services under Part C until such

children enter, or are eligible under state law to enter, kindergarten; and

- Other specified activities.

In FY 2010, this program served 731,832 children.

Individuals with Disabilities Education Act (IDEA), as amended, Part B, Sec. 611; 20 U.S.C. 1411

PROGRAM REGULATIONS

34 *CFR* 300

PROGRAM DESCRIPTION

The Grants to States program provides formula grants to assist the 50 states, the District of Columbia, Puerto Rico, the U.S. Department of the Interior, outlying areas (American Samoa, the Commonwealth of the Northern Mariana Islands, Guam, and the U.S. Virgin Islands), and the freely associated states (the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau) in meeting the excess costs of providing special education and related services to children with disabilities. In order to be eligible for funding, states must serve all children with disabilities between the ages of 3 through 21, except that they are not required to serve children of ages 3 through 5 or 18 through 21 years if services are inconsistent with state law or practice or the order of any court.

Funds are allocated among states in accordance with the statutory formula in Sec. 611 of the *Individuals with Disabilities Education Act (IDEA)*. First, each state is allocated an amount equal to the amount that it received for FY 1999. If the amount available for allocation to states increases or is equal to the amount allocated the prior year, 85 percent of the remaining funds are allocated based on the number of children in the general population in the age range for which the state guarantees a free appropriate public education (FAPE) to children with disabilities. Fifteen percent of the remaining funds are allocated based on the number of children living in poverty that are in the age range for which the state guarantees FAPE to children with disabilities. If the amount available for allocation to states decreases from the prior year, any amount available for allocation to states above the 1999 level is allocated based on the relative increases in funding that the states received between 1999 and the prior year. If there is a decrease below the amount allocated for 1999, each state's allocation is ratably reduced from the 1999 level. The formula also includes several maximum and minimum funding requirements. Most of the federal funds provided to states must be passed on to LEAs. However, a portion of the funds may be used for state-level activities. Any funds not set aside by the state must be passed through to LEAs. These sub-state allocations are made in a fashion similar to that used to allocate funds among states when the amount available for allocation to states increases.

This is a forward-funded program that includes advance appropriations. In a typical year, a portion of the funds—the forward funded portion—become available for obligation on July 1 of the fiscal year of the appropriation and remain available for 15 months, through Sept. 30 of the following year. The remaining funds—the advance appropriation—become available for obligation on Oct. 1 of the fiscal year following the year of the appropriations act and remain available for 12 months, expiring at the same time as the forward-funded portion. For FY 2011,

school districts will use both the forward- and advance-funded amounts primarily during the 2011–12 school year.

TYPES OF PROJECTS

Funds under this program are combined with state and local funds to provide FAPE to children with disabilities. Permitted expenditures include the salaries of special education teachers and costs associated with related services personnel, such as speech therapists and psychologists. States may use funds reserved for other state-level activities for a variety of specified activities, including: support and direct services; technical assistance and personnel preparation; assisting LEAs in providing positive behavioral interventions and supports; and improving the use of technology in the classroom. Some portion of funds reserved for other state-level activities must be used for monitoring, enforcement, and complaint investigation, and to establish and implement the mediation process required by Sec. 615(e) of *IDEA*, including providing for the cost of mediators and support personnel.

Each state has the option to reserve a portion of the funds the state reserves for other state-level activities for a fund to assist LEAs in addressing the needs of high-cost children with disabilities. If the state opts to reserve for this fund, it may reserve a larger portion of its award for other state-level activities, and must reserve at least 10 percent of the amount set aside for other state-level activities for the fund.

In FY 2010, this program served 6,614,000 children.

WHO MAY APPLY (SPECIFICALLY)

For Parent Training and Information (PTI) Centers (# 84.328M), parent organizations may apply. A parent organization is a private nonprofit organization (other than an institution of higher education [IHE]) that:

1. Has a board of directors
 - a. The majority of whom are parents of children with disabilities who are between the ages of birth through 26; and
 - b. That includes
 - i. individuals working in the fields of special education, related services, and early intervention,
 - ii. individuals with disabilities,
 - iii. the parent and professional members of which are broadly representative of the population to be served, including low-income parents of limited English proficient (LEP) children; and
2. Has as its mission serving families of children with disabilities who are between the ages of birth through 26 and have the full range of disabilities described in Sec. 602(3) of the *Individuals with Disabilities Education Act (IDEA)*.

For Community Parent Resource Centers (CPRCs; # 84.328C), local parent organizations may apply. A local parent organization is a parent organization (see above) that:

1. Has a board of directors, the majority of whom are parents of children with disabilities who are between the ages of birth through 26 from the community to be served; and
2. Has as its mission serving parents of children with disabilities from that community who
 - a. Are between the ages of birth through 26, and
 - a. Have the full ranges of disabilities (as defined in Sec. 602(3) of *IDEA*).

The term “community to be served” (which appears in no. 1 directly above) refers to a community whose members experience significant isolation from available sources of information and support as a result of cultural, economic, linguistic, or other circumstances deemed appropriate by the secretary of education.

For Technical Assistance for Parent Training and Information Centers (# 84.328R), private nonprofit organizations may apply.

PROGRAM DESCRIPTION

The Fund for the Improvement of Education (FIE), which is authorized by Sec. 5411 of *ESEA*, supports nationally significant programs to improve the quality of elementary and secondary education at the state and local levels and help all children meet challenging academic content and achievement standards. The Full-Service Community Schools program, which is being carried out under FIE, encourages coordination of education, developmental, family, health, and other services through partnerships between:

- Public elementary and secondary schools;
- The schools' LEAs; and
- CBOs, nonprofit organizations, and other public or private entities.

Such collaboration is intended to provide comprehensive education, social, and health services for students, families, and communities.

TYPES OF PROJECTS

Full-service community schools provide comprehensive academic, social, and health programs and services to meet individual, family, and community needs. These services may include:

- High-quality early learning programs and services;
- Remedial education, aligned with academic supports and other enrichment activities, providing students with a comprehensive academic program;
- Family engagement, including parental involvement, parent leadership, family literacy, and parent education programs;
- Mentoring and other youth development programs;
- Community service and service-learning opportunities;
- Programs that provide assistance to students who have been chronically absent, truant, suspended, or expelled;
- Job training and career counseling services;
- Nutrition services and physical activities;
- Primary health and dental care;
- Activities that improve access to and use of social service programs and programs that promote family financial stability;
- Mental health services; and
- Adult education, including instruction of adults in English as a second language.

PROGRAM DESCRIPTION

The purpose of the program is to increase academic achievement by improving teacher and principal quality. This program is carried out through efforts to: increase the number of highly qualified teachers in classrooms; increase the number of highly qualified principals and assistant principals in schools; and increase the effectiveness of teachers and principals by holding LEAs and schools accountable for improvements in student academic achievement.

TYPES OF PROJECTS

State-level activities include but are not limited to efforts designed to:

1. Recruit and retain highly qualified teachers, assistant principals, and principals;
2. Increase the number of highly qualified teachers in classrooms; and
3. Reform teacher and principal certification programs.

These activities must be based on a needs assessment, and, among other things, be aligned with state academic content standards, student academic achievement standards, and state assessments (for formula grants). The SAHE works in conjunction with the SEA to make competitive subgrants to partnerships of IHEs, high-need LEAs, and other entities for specific activities that focus on professional development for teachers, highly qualified paraprofessionals, and, if appropriate, principals. In addition, SEAs distribute the bulk of program funds they receive by formula to LEAs in the state for a wide variety of teacher-quality activities that LEAs design consistent with their assessment of need.

PROGRAM DESCRIPTION

This program is designed to improve the content knowledge of teachers and the performance of students in the areas of mathematics and science by encouraging states, IHEs, LEAs, and elementary and secondary schools to participate in programs that:

- Improve and upgrade the status and stature of mathematics and science teaching by encouraging IHEs to improve mathematics and science teacher education;
- Focus on the education of mathematics and science teachers as a career-long process;
- Bring mathematics and science teachers together with scientists, mathematicians, and engineers to improve their teaching skills;
- Develop more rigorous mathematics and science curricula that are aligned with challenging state and local academic content standards and with the standards expected for postsecondary study in engineering, mathematics, and science; and
- Improve and expand training of mathematics and science teachers, including training such teachers in the effective integration of technology into curricula and instruction.

PROGRAM DESCRIPTION

This program supports efforts to develop and implement performance-based compensation systems for teachers, principals, and other personnel in high-need schools. Goals include:

- Improving student achievement by increasing teacher and principal effectiveness;
- Reforming compensation systems so that teachers, principals, and other personnel in high-need schools are rewarded for increases in student achievement;
- Increasing the number of effective teachers teaching poor, minority, and disadvantaged students in hard-to-staff subjects; and
- Creating sustainable performance-based compensation systems.

TYPES OF PROJECTS

Projects develop and implement performance-based compensation systems for teachers, principals, and other personnel in high-need schools. Performance-based compensation systems must consider gains in student academic achievement as well as classroom evaluations conducted multiple times during each school year, among other factors, and provide educators with incentives to take on additional responsibilities and leadership roles.

PROGRAM DESCRIPTION

The Teacher Quality Partnership Grants program seeks to improve student achievement and the quality of teachers working in high-need schools and ECE programs by improving the preparation of teachers and enhancing professional development activities for teachers; holding teacher preparation programs accountable for preparing effective teachers; and recruiting highly qualified individuals, including minorities and individuals from other occupations, into the teaching force. Projects also may include a component for training school leaders in high-need or rural LEAs and a component for partnering with a public broadcast television station or another entity that develops digital education content, to improve the quality of teacher preparation programs. The program is intended to help create effective pathways into teaching and support the nation's teaching force in effectively improving student outcomes.

TYPES OF PROJECTS

This program provides five years of support to improve the quality of new teachers working in high-need LEAs and high-need schools by creating high-quality model teacher preparation programs to enable teachers to meet the specific learning needs of all students, including those with disabilities, limited English proficiency (LEP), and low literacy levels. Grant funds must be used to strengthen pre-baccalaureate or fifth-year education programs, or to develop one-year teacher residency programs that enable participants to earn master's degrees and teacher certification, or to do both. Projects also may include leadership components to train superintendents, principals, ECE program directors and other school leaders, and an initiative to support development of digital education content.

PROGRAM REGULATIONS

PROGRAM DESCRIPTION

This program supports 21 comprehensive centers (five content centers and 16 regional centers) intended to help states increase their capacity to assist districts and schools in meeting their student achievement goals. By statute, the Department is required to establish at least one center in each of the 10 geographic regions served

by the Department's regional education laboratories (see Regional Educational Laboratories, # 84.117, under topical heading Research).

TYPES OF PROJECTS

Grantees are required to develop plans for carrying out authorized activities that address state and regional needs. The 16 regional centers provide services primarily to state education agencies (SEAs) to enable them to assist school districts, regional education agencies, and schools, especially low-performing schools. At a minimum, each regional center provides training and technical assistance in the implementation and administration of programs authorized under the *Elementary and Secondary Education Act (ESEA)*; the use of scientifically valid teaching methods and assessment tools in mathematics, science, reading and language arts, English language acquisition, and educational technology; and the facilitation of communication among education experts, school officials, teachers, parents, and librarians. In addition, the centers disseminate information, including reports, on improving academic achievement, closing achievement gaps, and sustaining school improvement to schools, teachers, parents, and policymakers.

The five content centers each focus on one of the specific content areas of assessment and accountability, instruction, teacher quality, innovation and improvement, and high schools. These centers supply much of the research-based information and products in the specific area that regional centers use when working with states.

PROGRAM DESCRIPTION

Equity Assistance Centers are funded by the U.S. Department of Education to provide technical assistance and training, upon request, in the areas of race, sex, and national origin to public school districts and other responsible government agencies to promote equitable education opportunities. The centers work in the areas of civil rights, equity, and school reform. This assistance helps schools and communities ensure that equitable education opportunities are available and accessible for all children.

TYPES OF PROJECTS

Typical activities include:

- Technical assistance in the identification and selection of appropriate education programs to meet the needs of limited English proficient (LEP) students;
- Training designed to develop educators' skills in specific areas, such as the dissemination of information on successful education and the legal requirements related to nondiscrimination on the basis of race, sex, and national origin in education programs; and
- Technical assistance and training for education issues occasioned by school desegregation.

The centers also develop materials, strategies, and professional development activities to assist schools and communities in preventing and countering harassment including bullying, based on race, ethnicity, or gender, and ensuring that all students have equal access to a high-quality, college preparatory curriculum.

The one-time FY 2009 competition under # 84.004F enabled LEAs to obtain technical assistance in preparing, adopting, or modifying, and implementing student assignment plans in accordance with recent Supreme Court decisions.

PROGRAM DESCRIPTION

The primary goal of this program is to improve student achievement through the use of technology in elementary

and secondary schools. Additional goals include helping all students to become technologically literate by the end of grade 8 and, through the integration of technology with both teacher training and curriculum development, establishing research-based instructional methods that can be widely implemented.

TYPES OF PROJECTS

Local activities include the support of continuing, sustained professional development programs and public-private partnerships. Activities also include: the use of new or existing technologies to improve academic achievement; the acquisition of curricula that integrate technology and are designed to meet challenging state academic standards; the use of technology to increase parent involvement in schools; and the use of technology to collect, manage, and analyze data to enhance teaching and school improvement.

LEGISLATIVE CITATION

Elementary and Secondary Education Act of 1965 (ESEA), as amended, Title V, Part D, Subpart 8, Secs. 5481–5485; 20 U.S.C. 7257–7257d

PROGRAM REGULATIONS

EDGAR; 34 CFR 74, 75, 77, 79, 81, 82, 84, 85, 86, 97, 98 and 99

PROGRAM DESCRIPTION

The Ready-to-Teach Grant Program supported two types of competitive grants to nonprofit telecommunications:

1. Grants to carry out a national telecommunications-based program to improve teaching in core curriculum areas; and
2. Digital educational programming grants that enable eligible entities to develop, produce, and distribute educational and instructional video programming.

National telecommunications-based program grants are generally five-year awards. Digital educational programming grants must last three years, require a match of not less than 100 percent from funded applicants, and must be based on challenging state academic content and student academic achievement standards.

TYPES OF PROJECTS

This program supported projects that promote online professional development for teachers in core curricular areas.

Subject Index

Guide users may find this index useful for locating programs with a similar focus. The terms highlighted here are from a controlled vocabulary developed by the Department's Education Resources Information Center (ERIC) for providing access to more than 1.3 million journal articles, research reports, curriculum and teaching guides, conference papers, and books. Known as the "ERIC descriptors," these terms are from the Thesaurus of ERIC Descriptors (see the ERIC website at <http://eric.ed.gov> for more information).
