LETTER OF TRANSMITTAL

DEPARTMENT OF THE INTERIOR,
OFFICE OF EDUCATION,
Washington, D. C., November, 1931.

SIR: Information regarding scholarships and fellowships available at institutions of higher learning in the United States is of vital interest to many thousands of students who need financial assistance to enable them to complete their education. Several compilations of funds available for advanced study and research have been made by educational organizations, but no agency has assembled data on scholarship offerings for undergraduate study. These data are available at present only in scattered form in the catalogues of the individual institutions of higher learning. The manuscript submitted herewith, prepared in the division of colleges and professional schools, brings together information on the scholarship offerings for both undergraduate and graduate study which will undoubtedly be welcomed by a large body of students. I recommend the publication of the manuscript as a bulletin of the Office of Education.

Respectfully submitted.

WM. JOHN COOPER,
Commissioner.

The SECRETARY OF THE INTERIOR.

INTRODUCTION

This publication is a handbook of scholarships and fellowships available in colleges and universities of the United States.

Information regarding scholarships and fellowships available at institutions of higher learning in the United States is of vital interest to many thousands of students.

The demand for it is evidenced by the large number of requests from both students and parents, particularly in regard to undergraduate scholarships which come to the Office of Education. Principals of high schools, superintendents, and deans also receive numerous inquiries about scholarships available. While several lists of the scholarship offerings for students interested in advanced study and research have been compiled by educational organizations, no attempt has been made to bring together similar information for the use of undergraduate students. The present study was therefore undertaken to supply this lack. It is more comprehensive than previous studies, inasmuch as it indicates offerings in both the undergraduate and the graduate fields.

The study was made from data obtained from college catalogues (including those of law, medicine, dentistry, pharmacy, and theology, but not teachers' colleges and normal schools), verified and augmented by the institutions themselves by means of a questionnaire, copies of which were sent to all institutions of higher learning in the United States. It contains the scholarship offerings at 402 institutions, including practically all of the larger colleges and universities, which have a preponderance of the scholarships and fellowships available, and a fair proportion of those at smaller institutions. Of the institutions not mentioned in the bulletin, 110 reported that they had no scholarship funds; 12 others, several of which have large funds, found it impossible to furnish information; the rest did not reply to the questionnaire.

Effort was made to obtain data both as to the number of scholarships and fellowships available and the number awarded in 1927-28. So few institutions, however, reported the former figure that information on this point is not included in the tables which follow, except (as furnished) in the detail tables on pages 23 to 119.

By far the greater number of scholarships and fellowships are given without restriction as to the field of study in which they may be used. Grants designated for study in special subjects are more often limited to graduate work and are usually, but not always, called "fellowships." Grants for undergraduate study, on the other hand, are more frequently given for study in the general field of higher education and are usually termed "scholarships." The word "scholarship," however, is commonly applied to any form of student aid.

The form of student aid in which the student, in return for a stipend, is expected to render educational service to the institution giving the aid, is usually called an "assistantship," although some kind of service is often required of students holding "fellowships" or "scholarships."

The National Research Council¹ has published three compilations of funds available for research along scientific and technical lines. The first listed the funds available in the United States for scientific research; the second listed funds available for research in science and its technologies; the third listed fellowships and scholarships available for advanced work in science and technology. Smith College¹ published in 1928 a pamphlet listing fellowships and scholarships available to women for graduate study. The Institute of Women's Professional Relations¹ published in 1930 a bulletin which aimed to list all fellowships, scholarships, assistantships, and special grants for advanced work having a value of \$250 or more for the academic year 1929-30. A supplement issued later in the same year and another issued in 1931 list additional grants. The Institute of International Education¹ has published two bulletins listing fellowships and scholarships offered to American students for study in foreign countries. All of these publications, except the two earlier bulletins of the National Research Council, have listed individual scholarships and fellowships or groups of scholarships and fellowships awarded from the same funds under the same conditions, with brief statements concerning their values, tenures, conditions of award, and places of application, an undertaking which was found to be impracticable in this publication.

¹ See p. 147 for information relative to publications listing fellowships and scholarships for advanced study.

SCHOLARSHIPS AND FELLOWSHIPS

Grants Available In United States Colleges And Universities

Part I

SCHOLARSHIPS AND FELLOWSHIPS AWARDED AT INSTITUTIONS OF HIGHER LEARNING IN THE UNITED STATES IN 1927-28

A college education is made possible to many thousands of students through the medium of scholarships. The States of the Union, the institutions which they have created as well as the privately endowed institutions, alumni, patriotic societies, women's clubs, industrial organizations, churches, and individuals have given and continue to give annually large sums of money to provide opportunities for higher education to an increasing number of students. The donation of funds for scholarship purposes, indeed, is a form of philanthropy which has been gaining favor ever since the impetus to the desire for higher education was created by the World War. People of wealth have given in the last decade not thousands but millions of dollars for the endowment of scholarships and fellowships. The funds have grown to such proportions that a tabulation of every scholarship and fellowship available at the institutions of higher learning in the United States for a single year would total more than 50,000 and represent a money value of more than \$10,000,000.

Many scholarships and fellowships given during any one year are given for that year only. Others are offered for longer periods of time, to be withdrawn at the will of the donors. Sometimes they are given for the pursuit of some investigation and terminate upon completion of the project.

But the vast majority of scholarships and fellowships are given from permanent funds created for the purpose, or from funds procured annually from such stable sources as State appropriations authorized by State scholarship laws and are therefore continued from year to year. Only a few of the older colleges in the East record scholarships a century or two old, and only Harvard University can boast of one as hoary as 300 years (a scholarship given by Lady Ann Mowlson, of London, England, in 1643, when Harvard was but 7 years old), but most of the higher institutions that give scholarships have funds that are not affected by time.

The 34,013 scholarships, fellowships, and assistantships reported in the following tabulations were awarded in 1927-28 at 402 higher educational institutions from funds supplied by five major sources—the States; the higher institutions; organizations of different types, including alumni, clubs, patriotic societies, the industries; religious denominations; and private individuals. They ranged in annual value from less than \$50 to \$1,500 and above. Men were awarded 21,168 scholarships, women 8,834, and for the remaining 4,011 the sex of the recipients was not reported. To undergraduate students were given, 28,928 scholarships, while 4,370 were reserved for graduate students engaged in advanced study and research. Only 5,419 of them required the holders to render any service.

ANNUAL VALUE

The scholarships and fellowships have been divided into 14 value ranges. In Table 1 are shown the number within the various value ranges granted from funds given by each of the agencies, together with the number in each value range tenable for 1, 2, 3, 4, and 5 years and above, and the number for which no tenure was designated; the number in each value range in which service was required and the number free from the obligation of service; and the number in each value range awarded to men and the number awarded to women. There were more scholarships given at values ranging from \$50 to \$150 than there were in the higher value ranges. The table shows that the greatest number of scholarships and fellowships carry annual values ranging from \$50 to \$300. Above the \$300 value the number of awards decreases until the value range of \$500 to \$750 is reached. It is about at this point that scholarships and fellowships for graduate study begin, and the greatest number of funds for advanced work is given.

TABLE 1.—Scholarships and fellowships granted in 1927-28, classified according to value, donors, tenure, service, and division of awards among men and women

Annual value	Donors						Years tenable						Service		Awarded to—		Total

* A number of institutions could not separate the awards made to men from those made to women.

TENURE

No definite period of tenure was given for 14,408 of the 34,013 scholarships and fellowships awarded at the 402 institutions in 1927-28; the tenure for 9,710 of them was given as four years, and that for 7,442 was given as one year. Comparatively few were tenable two or three or more than four years. While a scholarship may be available for the same student for several years, its continuance for the period of time specified is contingent upon the ability of the student to do the required work. Many institutions set a definite percentage which the holder must maintain in his studies in order to retain the scholarship.

The tenure of scholarships seems to bear little relation to their annual values. Table 1 shows that in proportion just as many scholarships and fellowships carrying large stipends run for more than one year as those carrying small stipends.

FREE AND SERVICE SCHOLARSHIPS AND FELLOWSHIPS

The number of free scholarships and fellowships awarded at the 365 institutions in 1927-28 was more than five times as great as the number of scholarships that involved the rendering of service. Only a very small proportion of the number having annual values from \$50 to \$500 required any service. Of those at \$500 and more, about one-half required service.

An attempt was made to classify the 5,419 service scholarships and fellowships according to the kinds of service believed to be most usual in institutions of higher learning. Division was made into research, teaching, laboratory, library, clerical, and domestic and janitor services. It was found, however, that some services that were required did not lend themselves to grouping under these designations, and it was necessary, therefore, to include some services in a miscellaneous group which should comprise such work as might fall under the statements that "some service is required," "correcting papers," "assistance in the department," "work in connection with the project," etc. This group of miscellaneous services proved to be larger than any of the other groups. In Table 2 are shown the number of scholarships and fellowships awarded in 1927-28 by the 402 institutions classified according to annual values and services required.

TABLE 2.—Annual values of scholarships and fellowships awarded in 1927-28, for which various kinds of service were required, and those for which no service was required

The laws establishing State scholarships¹ in 21 of the States contain no requirement of service while the students are in attendance at the institutions. Those of six States, however, which offer scholarships to prospective teachers stipulate that the holders shall teach in the State for a specified period after graduation, and those of two others establishing State medical scholarships provide that the holders shall practice their profession in the State after graduation.

Teaching is more frequently required in return for scholarships and fellowships than is any other kind of service. Some of the higher institutions find it of advantage, in exchange for fellowships and assistantships, to utilize the services of students in the graduate school as part-time instructors. Research work by scholarship and fellowship holders is another kind of service of direct value to the institution as well as the students. The work assigned is usually along the line of the student's major subject and the results of it are permitted to count toward the fulfillment of the requirements for a higher degree. Other forms of service for the institution which both graduate and undergraduate students may perform are correcting papers, assisting in laboratories and libraries, and in office work.

¹ For a résumé of the laws and regulations governing State scholarships, see p. 120 to 131.

It should be mentioned that it is the policy of institutions which give scholarships and fellowships to students in exchange for certain services not to permit the work to make such demands upon the student's time as to interfere with the efficient pursuit of his studies. Only in the case of teaching and research fellowships and assistantships where the annual stipends range from about \$750 to \$1,500 or more is the student expected to devote any considerable proportion of his time to service for the institution.

It will be noted by Table 2 that domestic and janitor service is performed only by students holding scholarships ranging from less than \$50 to \$200. These scholarships, for the most part, are given by institutions committed to the purpose of extending higher educational opportunities to a class of students to whom they would otherwise be impossible. It is true that many college students engage in some form of domestic labor to aid them in paying their expenses, but this is private work that is sought by the student and for which he is paid on the same basis as persons outside the institution doing the same kind of work.

Comparatively few scholarships given by individuals and by churches require any service. Such service as is demanded usually takes the form of some social or religious activity.

The following table shows the number of free and the number of service scholarships and fellowships for graduate and undergraduate students awarded from funds given by different agencies in 1927-28.

CONDITIONS FOR AWARD

Many of the 34,013 scholarships, fellowships, and assistantships granted by the 402 institutions in 1927-28 were single offerings awarded under special conditions imposed by the donors. While

these conditions were so varied, particularly for scholarships offered for study in the undergraduate field, that their voluminousness precluded an attempt to list them, prospective applicants may be interested in knowing what requirements they may ordinarily be expected to meet in order to obtain a scholarship or a fellowship. In Table 4, therefore, are stated briefly the conditions of award most commonly specified, together with the number of scholarships and fellowships awarded in 1927-28 at the institutions that required these conditions. Some scholarships required the fulfillment of a number of the conditions; for others no conditions were specified.

It will be noted that the requirement most commonly made is that of good scholarship. Indeed, although not always specifically stated, that is a fundamental that must be taken into consideration by the institution in awarding and permitting the retention by the student of any scholarship. So, although the donor of a scholarship desirous of glorifying the name of "Murphy" may make the possession of that name the one prerequisite for the scholarship, the institution at which it is placed undoubtedly demands that the recipient meet in full all the university entrance requirements and in addition that he maintain a fair standing in his classes in order to retain it.

Suitable scholarship may be determined through high-school or previous college records or through the passing of a competitive examination. State scholarships, usually offered to freshman students, are more frequently awarded on the competitive basis; while institutions generally give them on the basis of general scholarship as evidenced by high-school grades or standing in college classes. Organizations of alumni, clubs, and patriotic societies may select the beneficiaries of their offerings or they may leave the selection to the institutions at which they are placed. In either case scholarship, as one of the determining factors in their award, may be demonstrated either by previous records or by examination. The funds given by industrial organizations being designed generally for the conduct of special lines of research requiring previous training are given usually to holders of a bachelor's or a higher degree. (This fact does not always show up in the tables, because most of the institutions failed to report it.) For scholarships given by individuals, general scholarship is mentioned most frequently as a requirement, although financial need, nationality or race, relation to donor, character, leadership, and promise, or some other condition may be specified by the donor as the primary consideration.

The requirement of financial need stands next in frequency to that of scholarship. This requirement is one that is often made by

the institutions in granting students aid from their own funds, generally after the students have been enrolled at the institution for a sufficient length of time to demonstrate their worthiness. Individuals, alumni, clubs, patriotic, and other organizations also make financial need a prerequisite for the award of many of the scholarships which they offer. It was a requirement in the case of 697 State scholarships awarded in 1927-28, as shown in the table. Such qualities as character, leadership, and promise are more frequently stipulated by individuals and by the institutions themselves than by other scholarship donors. The same is true of those with reference to good health and participation in student activities.

It may seem strange that the table shows the requirement that the beneficiary shall have done military service or that he shall be a descendant of one who has performed such service was made more frequently in the case of scholarships given by individuals than of those given by any other agency. This, however, is due to the large number of scholarships offered to World War veterans and their descendants by the late LaVerne Noyes.²

SCHOLARSHIPS AND FELLOWSHIPS DESIGNATED FOR UNDERGRADUATE AND FOR GRADUATE STUDY

Of the 34,013 scholarship and fellowship grants made to students in 1927-28, from funds furnished by the various agencies, 28,928 were for undergraduate study. A little more than 50 per cent of these were without restriction as to the year of availability. Practically all of the State scholarship laws designate State scholarships for high-school graduates, consequently making them available in the freshman year, to be held by the recipients throughout the college course. Some colleges and universities, more particularly the privately endowed institutions, require that the student be in residence for a year or at least a semester before he may receive a scholarship. The large number of scholarships shown in Table 4, as offered to students in the freshman year in 1927-28 by the institutions is due in part to the giving by the State-supported colleges and universities of scholarships to the graduates of accredited high schools in the State.³ It is due also to the further fact that although scholarships may not be available to freshman students until after they have been in the institution a sufficient length of time to show that they can carry college work, the scholarships frequently are made retroactive. Most of the scholarships given by individual donors either designate them for use during the entire four years of college, and hence make them available in the freshman year, or else do not restrict their

² See Sec. III, p. 120.

availability to any particular year. The undergraduate scholarships given by organizations of different kinds are more frequently made available in any year of the college course. Few scholarships are designed especially for the sophomore, junior, and senior years, as compared to those for the freshman year and those available in any college year.

Scholarships and fellowships numbering 4,370 awarded at the 402 institutions were given for graduate study and research. This number included scholarships and fellowships that were given outright for graduate work to which the student devoted full time in preparation for a higher degree; grants made for the conduct of special investigations of interest to the donors and demanding the full time of the beneficiaries; and assistantship appointments in various departments of the institutions which required a specified per cent of the student's time, the remainder to be spent in study for a higher degree.

Provision is not made by any of the States for aiding graduate students by means of scholarships and fellowships. On the other hand, a large number of the State supported and of the privately endowed institutions as well make such provision, affording also further opportunity for graduate study through the medium of assistantships. Of the 4,370 scholarship, fellowship, and assistantship awards made to graduate students, more than one-half originated with the institutions. In 943 cases the scholarships and fellowships given by individual donors were designated for the use of graduate students, and in 506 cases those given by organizations were so designated. Religious denominations and other agencies designated 14 scholarships and fellowships for graduate study.

Residence requirements.—Scholarships established by State law are designed for citizens of the State. One exception to this is that of the State of Wisconsin, where with legislative sanction the board of regents of the State university has established scholarships for students of other States.¹ State and privately endowed institutions in many cases prescribe the locality—State, region, county, or city—or the secondary school or college from which students will be admitted to certain scholarships. The prescription as to locality, particularly as to college or university attended, is made frequently also by individual donors.

1 A number of institutions could not separate the awards made to men from those made to women.

SCHOLARSHIPS AND FELLOWSHIPS FOR STUDY IN SPECIAL FIELDS

There is scarcely a field of study in which some definite provision for scholarships and fellowships has not been made. Nevertheless, of the 34,013 scholarship and fellowship awards, 26,286, or only a little less than three-fourths, were designated for use in the general field of arts and sciences or were without limitation upon the choice of the field. The other one-fourth was distributed among more than 50 other subjects, including a miscellaneous group in which the awards were too few to warrant listing individually. The special field claiming the highest number of awards was theology, in which there were but 7.6 per cent as many awards as were made in the general field of higher education. After theology with 2,001 awards came engineering including its specialized branches with 958 scholarships. In the fields of agriculture and law more than 500 awards were made, in home economics 210, in chemistry 187, in music 174, in business 108. The number of awards in other fields ranged from 77 to 4.

Of the 5,469 scholarships given from State funds, 80 per cent were given for general higher education; 10.9 per cent were given for study in teacher training, while the remainder were distributed among agriculture, dentistry, engineering, medicine, pharmacy, and veterinary medicine. One hundred and forty-three scholarships listed in Table 5 under "miscellaneous" were given by the State of South Carolina for use at Clemson Agricultural College for agriculture and textiles, the awards in which were not reported separately.

While the institutions gave scholarships and fellowships in every one of the 54 fields listed in the table except physiology and transportation, 77 per cent of the number given by institutions were in the arts and sciences or for general use. Six and seven-tenths per cent were in theology and missionary work, 3.6 per cent in engineering, 2 per cent each were in agriculture and law, 1.4 per cent were in miscellaneous fields, and the remainder were distributed over the other 48 fields. The 222 scholarships and fellowships listed as "miscellaneous" are largely scholarships and fellowships which could be used in two or more departments, the institutions not reporting the departments in which awards were made.

Of the 2,540 scholarships and fellowships given by organizations of different types, 1,690, or 66.5 per cent, were for general higher education or were designated for use in the arts and sciences; 12.4 per cent were for medicine; 4.2 per cent were for use in miscellaneous fields, and the remainder were distributed among the other 51 fields. The 107 scholarships and fellowships in miscellaneous fields are mostly

scholarships and fellowships given by industrial and other organizations for the study of some particular problem. The rather large number of awards in medicine made by organizations were made principally at one institution, the University of Minnesota, and were in the nature of assistantships for which the recipients rendered half-time service and received \$800, and in some cases more, and free tuition. Two hundred and ninety-nine of these were given by the Mayo Foundation alone.

Of the 8,881 awards, 6,742, or 75 per cent, made from funds supplied by individuals were designated either for work in the arts and sciences or for general college work; 828, or 9.3 per cent, were for theology and missionary work; 311, or 3.5 per cent, were for engineering; 262, or 2.9 per cent, were for medicine; and the rest were awarded in the other 50 fields of study.

The 220 awards made from funds given by religious denominations were designated, with one exception for the arts and sciences and theology and missionary work, 139 in the former and 80 in the latter.

Only 22 of the 1,013 scholarships and fellowships given by agencies other than the States, the institutions, organizations, individuals, and religious denominations were for use in special fields.

SCHOLARSHIPS AND FELLOWSHIPS DESIGNATED FOR GRADUATE AND UNDERGRADUATE STUDY IN SPECIAL FIELDS

In the general field of higher education, including the arts and sciences, in agriculture, ceramics, dentistry, education, engineering, home economics, journalism, law, music, pharmacy, theology, and missionary work, and in veterinary medicine, a very large proportion of the scholarships and fellowships granted at the 402 institutions in 1927-28 were designated for undergraduate study. In practically all of the other fields the greater number of awards were for graduate study and research. In the case of such scientific fields as biology, botany, chemistry, geology, and mineralogy, hygiene and public health, metallurgy, philosophy, physics, sociology, and zoology, the preponderance of awards was made for graduate study. Likewise the grants made in such fields as art and archaeology, economics, history, languages, mathematics, and political science were designed very largely for the pursuit of advanced study and research. In business, dentistry, and speech the larger number of awards were for undergraduate study. In medicine a little more than one-half of the number were for graduate study and research.

Tenure in special fields.—As has been stated, there seems to be little relationship between the different fields of study for which scholar-

ships and fellowships are given and the length of time for which they may be held. The length of time most commonly stated is four years. The tenure of 9,710, or 28.5 per cent of the scholarships and fellowships awarded by the 402 institutions in 1927-28, was four years; for 7,442, or 21.8 per cent, it was one year, while for 14,408, or 42.3 per cent, no tenure was stated. A very small percentage of scholarships and fellowships run for 2, 3 and 5 years or more. Seventy-one per cent of those in 1927-28 for two years were in the general field of higher education, including arts and sciences, while of those for three years, one-half were for theology, where the course of study is of three years' duration. Almost one-half of the remainder were in arts and sciences and the general field. Forty of the 506 scholarships that were awarded in law had a 3-year tenure, which likewise covers the period of study for the law degree. All but 41 of the 313 scholarships and fellowships having a tenure of five years or more were in the arts and sciences; 31 were in theology.

Service in special fields.—The only fields of study in which any large proportion of the scholarships and fellowships awarded required the rendering of service were education, medicine, theology and missionary work, and certain miscellaneous fields. In the case of education, 596 of the 777 scholarships and fellowships awarded by the 402 institutions in 1927-28, were State scholarships which, while included under "miscellaneous" service scholarships, were virtually free, since the only service involved was not required at the time the scholarships were in operation, but after the students had completed their college work, when they were pledged to teach for at least two years in the State. The holders of the 23 service scholarships and fellowships in education (other than State) were required to devote some time to teaching while in attendance at the institution; three did research work, and one assisted in the library.

Seventy-four of the 440 scholarships in medicine that called for "miscellaneous" service were likewise State scholarships requiring only the deferred service of practicing the medical profession within the State for a specified period after graduation. The definite kinds of services required for the other 366 scholarships, fellowships, and assistantships in medicine listed in the miscellaneous service group were not stated. Twenty-four of the remainder required research, 24 teaching, and 3 assistance in laboratory.

Of the 396 scholarships and fellowships in theology necessitating service, 25 required teaching and 371 required miscellaneous service, which usually called for the performance of some religious or sociological work.

In the group of "miscellaneous" subjects in the table, 129 scholarships and fellowships required research, 70 teaching, 5 assistance in laboratory, and 2 assistance in library. Two hundred and fourteen required some sort of service, which was stated so indefinitely as to be included in the miscellaneous service group.

Table 5 lists the 54 fields in which scholarships, fellowships, and assistantships were awarded by the 402 institutions in 1927-28, showing the number given by each of the donors, the number for undergraduate and the number for graduate study, the number tenable for 1, 2, 3, 4 years, etc., and the number of service and the number of free awards made in each field.

Annual values in special fields.—The scholarships and fellowships awarded by the 402 institutions in 1927-28 in the arts and sciences and the general higher educational field covered the entire range of values of less than \$49 to \$2,000 and over. The largest number of awards were in values ranging from less than \$49 to \$149, almost 50 per cent of the total number given being between these values. The number of awards were fairly well distributed between the \$150 and the \$349 values. At the latter point there was a decided falling off in the number of awards, which rose again with the value range of \$500 to \$749, and then decreased until at a value above \$2,000 only nine awards were made. In the special fields also, except chemistry, medicine, and theology, the largest number of awards was between \$50 and \$149. In chemistry and medicine more awards were made at values ranging from \$750 to \$999. This is due somewhat, no doubt, to the greater expense involved in the study of chemistry and medicine but also, and perhaps more particularly, to the considerable number of advanced students employed as laboratory and hospital part-time assistants in these fields. In theology the greatest number of awards was made in the \$150 to \$199 value range.

A little less than 65 per cent of the scholarships given in agriculture had values of \$100 to \$149; 35 per cent of those in education, 70 per cent of those in home economics, and 32 per cent of those in law were at values ranging from \$50 to \$99. In engineering, although the largest number was for \$100-\$149, this number constituted but 17.6 per cent of the total number awarded, and almost as many awards were made in the \$200-\$249 value range, namely, 15.8 per cent, and the \$500-\$749 value range, 15.4 per cent. In all of the other special fields the numbers of scholarships and fellowships awarded were fairly well distributed among the different value ranges.

In Table 6 are shown the annual values of the scholarships, fellowships, and assistantships given in 54 fields of study by the 402 institutions listed in the bulletin.

Sex distribution of scholarship offerings.—Men have greater opportunities to reduce the cost of their college education by means of scholarship aid than do women. In addition to the 21,206 scholar-

ships and fellowships reported by the 402 institutions as available in 1927-28 to both men and women, there were 9,685 open only to men, in contrast to 3,122 open only to women. Furthermore, in the award of the scholarships and fellowships available to both sexes, preference either is given to men or else the women do not take advantage of their opportunities to the same extent as do the men. While men were awarded 880 scholarships and fellowships over and above one-half of the number available to both men and women and the 9,685 open to them alone, women were awarded 4,891 less than one-half of the number available to both men and women in addition to the 3,122 open to women alone. For every undergraduate year as well as for advanced study, the awards to men greatly outnumbered those to women. Only in the case of the 716 grants available for either graduate or undergraduate study did the awards made to women exceed those made to men.

In Table 7 are shown the scholarships, fellowships, and assistantships available and awarded to men, to women, and to both sexes in 402 institutions of higher learning in 1927-28.

TABLE 7.—Scholarships, fellowships, and assistantships available and awarded to men and to women for graduate and for undergraduate study in 1927-28

¹ The figures do not represent the total number of scholarships, fellowships, and assistantships available in the 402 institutions in 1927-28. As stated in the introduction many institutions reported only the number awarded. The purpose of the table is to show the proportion of scholarship opportunities offered to men as compared to those offered to women, and the extent to which each sex takes advantage of these opportunities.

² A number of institutions could not separate the awards made to men from those made to women.

SCHOLARSHIPS AND FELLOWSHIPS FOR NEGRO STUDENTS

The very meager provisions for assisting financially students of the Negro race to obtain a college education are in striking contrast to the exceedingly generous provisions made for white students. Information regarding their scholarship offerings was requested of the 31 Negro colleges and universities listed in the Educational

Directory of the Office of Education for 1928. One-half of the institutions replied, six of them—among the leading colleges and universities for Negroes—to the effect that they offered no scholarships. One institution reported the award of 222 scholarships in 1927-28, 119 of which had an annual value of but \$20, and 85 of which had an annual value of \$30. The highest number of awards reported by any other institution was 36, of which 20 were for \$12. An annual value of \$175 was the highest reported by any of the institutions.

There may be opportunities for Negro students to obtain some of the scholarships in colleges and universities for white students for which no proscription as to race or color is made, but for the institutions for white students which reported offerings only five mentioned scholarships specifically designated for Negro students. At the University of Pittsburgh seven scholarships are available for Negro men students. Each scholarship has an annual value of \$150 and is tenable for four years. At the University of Kansas there are two scholarships for Negro students, each carrying an annual stipend of \$50, with no restriction as to tenure; but one of them may be given only to a student above freshman standing. The University of Wichita (Kans.) has one \$75 scholarship for Negro graduates of the Wichita High School, the tenure of which is limited to one year. The University of Minnesota offers one \$50 scholarship to Negro women of "high scholarship and fine character." It is tenable for one year only. One \$325 scholarship is available for Negro students in the medical school of Harvard University. If there are no suitable applicants in the medical school the scholarship may be used in other departments of the university. It may be given to the same student one or more years or it may be divided between two or more students. All of these scholarships were placed at the institutions by private donors.

The 41 Negro colleges and universities that reported scholarships furnished the data given in Table 8.

1 For next to highest standing young man and highest standing young woman in each of the high-school classes.
 2 For highest standing young man and highest standing young woman in each of the high-school classes.

Part II

SCHOLARSHIP OFFERINGS DESIGNATED FOR THE GENERAL AND FOR SPECIAL FIELDS OF HIGHER EDUCATION

The tabulations which follow show for the year 1927-28 (1) the scholarships and fellowships available and awarded in the general field of higher education including the arts and sciences; (2) the scholarships and fellowships available and awarded in special fields of higher education including grants made, largely by industrial organizations, for the conduct of special investigations during the year, to be terminated upon completion of the investigation; and (3), the scholarships available and awarded at junior colleges.

The data indicate (1) the number of scholarships and fellowships available at each institution at various annual values; (2) the number for graduate and the number for undergraduate study; (3) the number tenable for 1, 2, 3, 4, and 5 years or longer; (4) the number designated for foreign study; (5) the number requiring the rendering of service; and (6) the number awarded to men and the number awarded to women.

In fields such as arts and sciences where the range of values is large, the total number of scholarships and fellowships available follows the name and address of the institution. The addresses of the institutions are given in the tabulations on arts and sciences, and general, and are not repeated in subsequent tables unless they relate to departments of the institutions which are located at places other than that of the main division of the institution.

TABLE 9.—Scholarships and fellowships in the general field of higher education, including the arts and sciences, available and awarded at institutions of higher learning in 1927-28

19 Scholarships divided.
 20 2 scholarships divided equally among Korean students in the college.
 21 24 of these are State scholarships. They were abolished by the legislature of 1927.
 22 State scholarships. Abolished by the legislature of 1927.
 23 Not all for the same amount. \$48 was the average for the group in 1927-28.
 24 For a graduate of Louisiana State University pursuing a graduate course in some other designated institution of higher learning.
 25 Available in departments of English, history, biology, geology, and chemistry.
 26 This probably does not represent the total number available, as the scholarships are open to first-honor students of affiliated high schools and junior colleges.

Approximate value.

‡ Holders of 4 must teach in schools of Virginia for 2 years, or serve with State highway commission. Holder of the fifth must enter the Army or the Navy.

† This does not represent the total number available, as any standard high school or preparatory school may have the privilege of accepting one scholarship for 1 of its best students.

‡ Scholarships covering half year room rent in 1 of the college residence halls offered to valedictorian or salutatorian in the graduating class of each accredited 4-year high school in Washington.

‡ 3 for South American students.

‡ Available also in other departments.

‡ 2 for German students; 1 for a Swiss student.

‡ Administered by Institute of International Education.

‡ Not total number available. 2 scholarships are available for each 4-year high school in State.

1 In horticulture; 1 in dairy husbandry.
 2 In animal husbandry.
 3 In plant nutrition.
 4 According to amount of fee exemption.
 5 For research projects at agricultural experiment station.
 6 See also Home economics.
 7 May be used also for home economics.
 8 1 may be used for home economics.
 9 For work in agronomy.
 10 1 for each county in the State.
 11 Beneficiaries must teach for 2 years in an agricultural school, or serve in an agricultural experiment station, or farm in the State for 2 years after graduation.
 12 Since increased to \$60.
 13 2 teaching fellows as follows: 2 in soils, 6 in horticulture, 1 in farm crops, 1 in animal husbandry, at \$675; 1 in dairy husbandry at \$900. 2 research fellows at agricultural experiment station at \$900 each.
 14 And exemption from all fees except laboratory.

¹ Open only to Jewish students.
² Awarded for proficiency in Spanish.
³ Three of these are offered in cooperation with the United States Bureau of Mines.
⁴ For investigation in highway engineering.

¹ And exemption from all fees except laboratory.
² Average value for group.
³ May be used also for chemistry or physics.
⁴ Open to graduates in mechanical, civil, and electrical engineering.

1 Scholarship divided.
 2 Summer scholarships of 3 months.
 3 For experimental studies in nutrition.
 4 3 of these awarded by university through competitive examination, discontinued in 1923.
 5 Beneficiary must agree to practice in the State 1 year for each year the scholarship is held or refund the amount received.
 6 May be used also for law.

† May be used also for botany, sociology, geology, or geography.
 ‡ Fellowship divided
 § One for study of ethics in its relations to jurisprudence or sociology; the other for a student of ethics and metaphysics.
 ¶ In practical ethics.
 § See also Hygiene and public health.
 § For study in some branch of physical science.
 ¶ In pure science; † in experimental science.
 † Applicant must be a resident of a Spanish-speaking country.

SCHOLARSHIPS OFFERED AT COLLEGES AND UNIVERSITIES TO STUDENTS
IN ARTS AND SCIENCES WHO CONTEMPLATE ENTERING THE MINISTRY

In addition to the funds available for students in schools of theology many colleges and universities provide scholarships or offer reduction of fees to students who contemplate entering the ministry or the missionary field. These scholarships have been included in the table on arts and sciences. For the information of prospective students of theology or missionary work their number and annual value are repeated below:

- Spring Hill College—1 at \$300.
 College of the Pacific—1 at \$75.
 Pasadena College—14 at \$50.
 Trinity College (Connecticut)—1 at \$30; 1 at \$50; 1 at \$65; 1 at \$120;
 3 at \$230; 1 at \$250; 2 at \$300.
 Wesleyan University—1 at \$165.
 Emory University—4 at \$125.
 Paine College—7 at \$100.
 Elmhurst College—99 at \$100; 4 at \$200.
 Evansville College—1 at \$50.
 Illinois College—25 at \$75.
 Knox College—1 at \$65; 1 at \$125; 2 at \$162.
 Lake Forest College—1 at \$75.
 Mount Morris College—1 at \$32; 1 at \$60; 12 at \$65; 1 at \$100.
 Hanover College—10 at \$150.
 Central College (Iowa)—8 at \$30; 2 at \$75.
 Parsons College—1 at \$25; 1 at \$50; 1 at \$75; 1 at \$500.
 St. Ambrose College—11 at \$275.
 University of Dubuque—26 at \$142.
 Wartburg College—31 at \$43; 10 at \$128.
 Bethel College (Kansas)—1 at \$300.
 College of Emporia—1 at \$100.
 University of Wichita—2 at \$75.
 Bowdoin College—3 at \$50; 1 at \$57; 1 at \$58; 3 at \$145; 2 at \$215; 4 at
 \$285; 1 (value not designated).
 Boston College—2 at \$75.
 Carleton College—1 at \$8; 2 at \$50; 1 at \$95; 2 at \$100.
 Macalester College—1 at \$150.
 Missouri Valley College—7 at \$60; 5 at \$75; 11 at \$90; 2 at \$120.
 Grand Island College—1 at \$73; 1 at \$100.
 Rutgers University—13 at \$440.
 University of Rochester—1 at \$125; 7 at \$150.
 Catawba College—12 at \$100.
 Davidson College—65 at \$100.
 Lenoir-Rhyne College—1 at \$42; 1 at \$350.
 Ashland College—1 at \$25.
 Bluffton College—1 at \$50; 1 at \$75.
 Defiance College—30 at \$25; 1 at \$100.
 Denison University—29 at \$100; 4 at \$125.
 Findlay College—1 at \$25; 7 at \$54.

- Ohio Wesleyan University—1 at \$10; 1 at \$17; 1 at \$80; 5 at \$83; 8 at \$104;
9 at \$151; 1 at \$250.
- Otterbein College—1 at \$25; 1 at \$30; 2 at \$50; 1 at \$85.
- Allegheny College—18 at \$82; 1 at \$245.
- Grove City College—2 at \$150.
- Juniata College—4 at \$125.
- Lafayette College—1 at \$100; 2 at \$250.
- Washington and Jefferson College—4 at \$100.
- Waynesburg College—1 at \$30; 4 at \$60; 3 at \$120; 1 at \$150.
- Brown University—12 at \$50; 1 at \$75; 1 at \$100; 1 at \$105; 1 at \$125.
- Huron College—2 at \$55.
- Yankton College—2 at \$60; 1 at \$75.
- Abilene Christian College—35 at \$120.
- Howard Payne College—42 at \$150.
- Hampden-Sidney College—1 at \$67.
- Roanoke College—2 at \$50; 2 at \$60; 2 at \$120.
- University of Virginia—5 at \$190; 8 at \$250.

PART III

STATE SCHOLARSHIPS

SCHOLARSHIPS GIVEN UNDER AUTHORITY OF STATE LAW

Several States have provided by law for the free or partially free attendance of their citizens at institutions of higher learning by means of scholarships or by exemption from the payment of certain fees. These scholarship privileges are, as a rule, made tenable for the entire length of the college course and are, in general, for use in any undergraduate department of the institution, although in a few cases their tenure is limited to one or two years and some are designated for study in special fields such as agriculture, teacher training, and medicine.

The methods of apportioning and the requirements for obtaining State scholarships vary somewhat in the different States, but commonly the laws provide that they shall be apportioned to the counties or to the legislative districts according to representation in the legislatures, the approval of the appointments by the members being given sometimes as a requisite. In nearly all cases scholarships, as indicated by the student's high-school record or as determined by a competitive examination, is the chief basis for award. Financial need is given also as a requirement in some States.

The laws commonly assign the scholarships to the State-supported institutions, but in Maryland, New York, Pennsylvania, and Vermont State scholarships have been provided for at privately endowed institutions. New York having no State university and having made no other provision for general higher education at State expense, passed a law in 1913 making scholarships available at all approved institutions of higher learning in the State. Seven hundred and fifty scholarships are awarded each year and 3,000 are annually in operation, at an expenditure of \$3,000,000.

In the early days, before the establishment of State-supported universities and colleges, the custom of granting aid to privately endowed institutions, frequently in the form of scholarships, prevailed in some of the States. Maryland and Pennsylvania, although both now have higher institutions supported by State funds, continue this practice. A unique feature in the case of Maryland with reference to scholarship aid is that, although such aid is given by State law to several of the privately endowed institutions of higher learning in the State, none is given to the University of Maryland.

There are now 21 States where some sort of scholarship aid is furnished by legislative enactment to institutions in the State. Within recent years three other States which had statutes providing for the granting of scholarships to citizens of the State from State funds have repealed the statutes. Massachusetts, New Jersey, and South Dakota have taken action within the past few years to abolish State scholarships. The New Jersey law was put into effect only in 1929, the South Dakota law in 1927.

A brief résumé of the legal provisions and of the regulations that have been adopted for the award of State scholarships in the 21 States which have established them follow.

ARIZONA

University of Arizona.—County scholarships. One for each county in State, available to men and women. Value, \$1,000; one-fourth available each year of college course. Payable by State direct to the university, to be applied on the student's bill for board, room, incidentals, and other fees. Awarded annually on basis of competitive examination offered by the university and given under supervision of county school superintendent of each county.

CALIFORNIA

(See section on Scholarships and fee exemptions for World War veterans and their children, p. 129.)

DELAWARE

University of Delaware.—State board of education scholarships. Sixty. For students taking 2-year course in education. Annual value, \$200. Available to men and women approved by the State board of education. Beneficiaries must give to the State board of education satisfactory assurance that he or she will teach in the elementary schools of the State for the two years immediately following his or her graduation.

FLORIDA

University of Florida and Florida State College for Women.—Senatorial scholarships. One for each senatorial district (38) available annually at each institution. For use in any department. Annual value, \$200; tenable for four years. Award based on competitive examination.

University of Florida and Florida State College for Women.—County scholarships (in education). One for each representative in the State legislature (95) available annually at each institution. Annual value, \$200; tenable for four years. Award based on competitive examination. Holders are obligated to teach two years in State after graduation. Information concerning the examinations for these scholarships will be given by the State superintendent of public instruction, Tallahassee, Fla.

University of Florida.—County agricultural scholarships. One for each county, to be offered and provided for at the discretion of the board of county commissioners of each county. Annual value represents a sum sufficient to pay for board in the dining hall and room in the dormitory. Award based on competitive examination. Information concerning these scholarships furnished by the clerk of the board of county commissioners.

Florida State College for Women.—County scholarships. One scholarship for each county covering registration and library fees of the holders.

ILLINOIS

University of Illinois.—County scholarships. One scholarship for each county in the State. Annual value covers tuition, \$50 to \$165, depending upon the college or school in which the student enrolls. Awarded on basis of competitive examination. Candidates must be at least 16 years of age and must be residents of the county in which examination is held. Open to men and women. Tenure four years.

General assembly scholarships.—One nomination annually by each member of the general assembly. Cover tuition and matriculation charges, \$50 to \$165, depending upon the college or school in which the student enrolls. Candidates must be graduates of accredited high schools or must take competitive examination. They must be at least 16 years of age and must be residents of the districts represented in the general assembly by the members who nominate them. Tenable four years.

Information regarding examinations for these scholarships may be obtained from the county superintendents of schools in the several counties.

State military scholarships. (See section on Scholarships and fee exemptions for World War veterans, p. 129.)

INDIANA

Indiana University.—County scholarships. Available to two students from each county in the State, selected by county superintendent of schools upon the basis of scholarship attained during the entire course of training in the high schools of said county. Annual value covers contingent fee (\$65). First preference given to student having highest general average over his or her entire high-school course; succeeding preference given according to comparative rank of general average. Tenable one year.

Purdus University.—County appointments. Two appointments are authorized annually from each county in the State, made by the commissioners of the various counties. Appointees are exempt from the payment of certain entrance and incidental fees, amounting (in 1930-31) to \$20. Men and women are eligible. Appointments are made for one year, but may be renewed.

IOWA

University of Iowa and Iowa State College.—Exemption of fees for World War veterans. (See section of Scholarships and fee exemptions for World War veterans.)

KENTUCKY

(See section on Scholarship and fee exemptions for World War veterans and their children, p. 129.)

MARYLAND

Blus Ridge College, New Windsor (a privately supported institution).—State scholarship. One for each senatorial district. Appointments made by school commissioners, with advice and consent of senators in the respective districts. Annual value, \$100. Open to men and women and awarded upon basis of competitive examination. Tenable four years. Holders must pledge themselves to teach at least two years in the public schools of Maryland.

Johns Hopkins University, Baltimore (a privately supported institution).—

(1) State scholarships (ordinary). For use in the school of engineering. One hundred and twenty-nine scholarships, apportioned to the counties of the State and to the legislative districts of Baltimore. Six scholarships at large are open to residents of the State without reference to the county or legislative district in which they reside. Applicants must be deserving and unable to pay for their college education without assistance. They must satisfy the university entrance requirement by means of an examination. Holders are entitled to free tuition (\$400 in 1930-31), free textbooks, and exemption from laboratory fees. Appointments are for one year, but may be renewed for the length of the course. Three scholarships are offered to Maryland graduates of each of the following colleges: Loyola College, Baltimore; University of Maryland, College Park; Mount St. Mary's College, Emmitsburg; St. John's College, Annapolis; Washington College, Chestertown; Western Maryland College, Westminster. Award is made without reference to ability of applicants to pay the fees and is solely on basis of merit as certified by the presidents of the colleges.

(2) Senatorial scholarships, held in addition to the State scholarships. In each county and in each city legislative district the senator has the privilege of recommending one of the scholarship holders for the senatorial scholarship, which entitles him to \$200, or other provision for defraying the expense of his board and lodging.

Applications for scholarships must be made on forms furnished by the registrar of the university.

St. John's College, Annapolis (a privately supported institution for men).—

(1) Senatorial scholarships. One for each county in the State and one for each of the legislative districts of Baltimore City. Award based on competitive examination. Cover tuition (\$300 in 1930-31) and board and room rent. Tenable four years.

(2) Tuition scholarships. One for each county in the State and one for each of the legislative districts of Baltimore. Award based on competitive examination. Annual value, \$300. Tenable four years.

Washington College, Chestertown (a privately supported institution).—State scholarships (1) by agreement with the State, two male students from each county of the Eastern Shore are received free of charge for tuition, board, room, and textbooks. Appointments are made by the orphans' court of the different counties. (2) A scholarship for one male student in each senatorial district on the Western Shore is available annually. Assigned by the board of education of the senatorial district, by and with the consent of the senator from that district. Annual value of all scholarships, \$236 plus the cost of books. All are tenable four years.

Western Maryland College, Westminster (a privately supported institution).—

State scholarships. One for young man and one for young woman from each county of the State and from each legislative district of Baltimore. Awarded on basis of competitive examination, and with the approval of the senator from the county or district concerned. Appointments made by the boards of education of the counties and of the city of Baltimore. Annual value covers tuition (\$150 in 1930) and board. Tenable four years. Holder is required to give bond that he will teach within the State for not less than two years after graduation.

NEW JERSEY

Rutgers University (the land-grant college of the State).—Tuition scholarships. A number of students from the State are admitted annually exempted from the payment of tuition. Students are admitted to such scholarships on recommendation of the superintendent of schools in each county after having qualified for admission.

NEW YORK

University of the State of New York (State education department, Albany).—University scholarships. For use in the approved institutions of higher learning in the State. Seven hundred and fifty available annually; five to each county for each assembly district therein. Annual value, \$100. Tenable four years. College entrance diplomas constitute in part basis for award. Such diplomas are issued only to those who have been pupils in the registered secondary schools of the State for at least half of the school year immediately preceding the date of award of the diploma; who have attended such schools for at least three school years (except in unusual and extraordinary cases); who have completed within six years of enrollment an approved 4-year high-school course (certain exceptions noted); who have passed the prescribed regents' examinations with an average standing of 75 per cent; and who file in the State education department, not later than July 5 next succeeding the completion of the course of study, principal's certificate of good moral character, a formal application for the scholarship on a blank furnished by the department, and evidence of citizenship and residence in the State of New York. Candidates are required to pass comprehensive examinations in certain prescribed subjects. Awards are made in the order of merit.

University scholarships are available for use at the following institutions:

Adelphi College, Garden City.	Hamilton College, Clinton.
Alfred University, Alfred.	Hobart College, Geneva.
Barnard College, New York.	Houghton College, Houghton.
Brooklyn Law School, Brooklyn.	Hunter College of the City of New York, New York.
Canisius College, Buffalo.	Keuka College, Keuka Park.
Clarkson College of Technology, Potsdam.	Long Island College Hospital, Brooklyn.
Colgate University, Hamilton.	Manhattan College, New York.
College of the City of New York, New York.	Marymount College, Tarrytown.
College of Mount St. Vincent, New York.	Nazareth College, Pittsford.
College of New Rochelle, New Rochelle.	New York Homeopathic Medical College and Flower Hospital, New York.
College of St. Rose, Albany.	New York State College of Forestry (Syracuse University), Syracuse.
College of the Sacred Heart, Manhattanville.	New York State College for Teachers, Albany.
Columbia University, New York.	New York University, New York.
Cooper Union Institute of Technology, New York.	Niagara University, Niagara Falls.
Cornell University, Ithaca.	Polytechnic Institute of Brooklyn, Brooklyn.
D'Youville College, Buffalo.	Rensselaer Polytechnic Institute, Troy.
Elmira College, Elmira.	Russell Sage College, Troy.
Fordham University, New York.	
Good Counsel College, White Plains.	

St. Bonaventure's College and Seminary, St. Bonaventure.
 St. Francis College, Brooklyn.
 St. John's College, Brooklyn.
 St. Joseph's College for Women, Brooklyn.
 St. Joseph's Seminary and College, Yonkers and New York.
 St. Lawrence University, Canton.
 St. Stephen's College, Annandale-on-Hudson.
 Skidmore College, Saratoga Springs.

State Teachers College of Buffalo, Buffalo.
 Syracuse University, Syracuse.
 Union University, Schenectady.
 University of Buffalo, Buffalo.
 University of Rochester, Rochester.
 Vassar College, Poughkeepsie.
 Wagner Memorial Lutheran College, Staten Island.
 Wells College, Aurora.
 William Smith College, Geneva.

Scholarships for war veterans. (See section on Scholarships and fee exemptions for World War veterans, p. 129.)

Industrial teachers' scholarships.—Twenty-five available annually. Entitle holders to receive \$2,000 for one year while in attendance upon vocational department of a State normal school. Only men who possess satisfactory educational qualifications, in the opinion of the commissioner of education, and who have had at least five years of successful experience in a trade, industrial, or technical occupation, are eligible.

Cornell University.—State tuition scholarships (in addition to university scholarships). Equal to the number of assembly districts in the State (150 in 1930). Annual value, tuition in any college of the university, less the sum of \$100, which the student must pay. Tenable four years. Award made after student has satisfied regular entrance requirements and registered as a student of the university. Given in consideration of superior ability and scholarship.

For information concerning all of the above New York State scholarships, application should be made to the commissioner of education, Albany, N. Y.

NORTH CAROLINA †

North Carolina College of Agriculture and Engineering:

(1) Regular scholarships (required under college charter). One hundred and twenty, distributed among the different counties. Afford free tuition (\$60 in 1930-31). Tenable four years. Appointments made by president of the college after inquiries as to the needs and character of applicants, and after a written recommendation from a member of the legislature from the applicant's county. Applicant must be needy, and must be of excellent moral character.

(2) Agricultural scholarships. Trustees are authorized to give a limited number of scholarships to students who agree to teach for two years in an agricultural school, or to serve in an agricultural experiment station, or to farm in the State for two years after graduation. Grant free tuition to holders, and are tenable four years. Applicants must show financial need and be of excellent moral character.

University of North Carolina.—Free tuition is given to teachers and prospective teachers who are residents of the State. In order to secure free tuition, students preparing to teach must be candidates for the A. B. degree in education, and must agree to teach in North Carolina for at least two years after leaving the university. Free tuition is also given in the college and in the nonprofessional schools to candidates for the ministry, to the sons of ministers residing in the State, and to residents of North Carolina under bodily infirmity.

OHIO

Wilberforce University, Wilberforce (Negro).—State scholarships. Each senator and representative of the general assembly of the State may designate one or more youths resident in his district, who shall be entitled to enter the combined normal and industrial department (the only State-aided division of the university). Scholarships provide tuition, room, heat, and light.

PENNSYLVANIA

State scholarships.—One to each county. Valid in any approved college or university in the State. Annual value, \$100. Tenable four years. Award made on basis of competitive examination given under supervision of State board of education. Information regarding examination obtainable from the State department of public instruction at Harrisburg.

State scholarships may be used at the following institutions:

Albright College, Reading.	Mount St. Joseph College, Philadelphia.
Allegheny College, Meadville.	Muhlenberg College, Allentown.
Beaver College, Jenkintown.	Pennsylvania College for Women, Pittsburgh.
Bryn Mawr College, Bryn Mawr.	Pennsylvania Military College, Chester.
Bucknell University, Lewisburg.	Pennsylvania State College, State College.
Carnegie Institute of Technology, Pittsburgh.	Philadelphia College of Pharmacy and Science, Philadelphia.
Cedar Crest College, Allentown.	Rosemont College, Rosemont.
College Misericordia, Dallas.	Seton Hill College, Greensburg.
Dickinson College, Carlisle.	St. Francis College, Loretto.
Drexel Institute, Philadelphia.	St. Joseph's College, Philadelphia.
Dropsie College, Philadelphia.	St. Thomas College, Scranton.
Duquesne University, Pittsburgh.	St. Vincent College, Latrobe.
Elizabethtown College, Elizabethtown.	Susquehanna University, Selinsgrove.
Franklin and Marshall College, Lancaster.	Swarthmore College, Swarthmore.
Geneva College, Beaver Falls.	Temple University, Philadelphia.
Gettysburg College, Gettysburg.	Thiel College, Greenville.
Grove City College, Grove City.	University of Pennsylvania, Philadelphia.
Haverford College, Haverford.	University of Pittsburgh, Pittsburgh.
Immaculata College, Immaculata.	Ursinus College, Collegeville.
Juniata College, Huntingdon.	Villa Maria College, Erie.
Lafayette College, Easton.	Villanova College, Villanova.
LaSalle College, Philadelphia.	Washington and Jefferson College, Washington.
Lebanon Valley College, Annville.	Waynesburg College, Waynesburg.
Lehigh University, Bethlehem.	Westminster College, New Wilmington.
Lincoln University, Lincoln University. ¹	Wilson College, Chambersburg.
Marywood College, Scranton.	
Mercyhurst College, Erie.	
Moravian College and Theological Seminary, Bethlehem.	
Moravian College for Women, Bethlehem.	

¹Negro.

SOUTH CAROLINA

The Citadel, The Military College of South Carolina.—The legislature appropriates annually \$20,000 for the support of 78 cadets throughout their college course. Distribution is made among counties. Applicants must be residents of the State, must be financially unable to meet expenses of the college, must be not less than 16 years of age nor more than 20, at least five feet in height, physically able to do duty, and must possess good moral character. Appointments made on basis of competitive examination. Appointees must give two years of service, after graduation, as teachers in the highway department.

Clemson Agricultural College.—Agricultural and textile scholarships. Two hundred and twenty-three, distributed among the counties according to representation in the State legislature. Annual value, \$140. Available to needy and worthy students in the two departments. Award based on competitive examination. Appointments made by State board of education.

Medical College of the State of South Carolina.—State scholarships.

(1) School of medicine. Seven scholarships, one for each congressional district. Entitle holder to free tuition, \$150. Appointments made annually by the governor.

(2) School of pharmacy. Seven scholarships, one for each congressional district. Entitle holder to free tuition, \$80. Appointments made annually by the governor.

University of South Carolina.—Teachers' scholarships. Forty-six. Offered to one young man from each county. Annual value, \$100 and remission of semester fees (\$50). Award based on scholarship as determined by a competitive examination, and upon financial need. No applicant who has already attended the university, or any other institution of higher learning, is eligible to stand an examination unless there is no other applicant. Scholarship holders are required to take the regular teachers' normal course.

Free tuition. Residents of the State who do not feel that they are financially able to pay the tuition fee of \$20 a semester may apply for free tuition.

Winthrop College.—State scholarships. One hundred and twenty-four, distributed among counties of State according to number of representatives in general assembly. Annual value \$100 and free tuition (\$40). Awarded on basis of scholarship, as determined by a competitive examination, and evidence of financial need. Eligible girls must be 16 years of age, of irreproachable moral character, of sound physical health, and must intend to teach.

SOUTH DAKOTA

South Dakota State institutions of higher learning. (See section on Scholarships and fee exemptions for World War veterans, page 129.)

UTAH

University of Utah.—Normal scholarships. One hundred. For use in the school of education of the university. Exempts the holders from registration fee of \$25. For term of years corresponding to length of course.

VERMONT

Middlebury College, Middlebury (a privately supported institution).—State scholarships. Sixty; two for each State senator. Appointments made annually by senators of worthy and needy students from their respective counties. Annual value, \$120. Tenable four years.

Norwich University, Northfield (the State military school).—State scholarships. Sixty; two for each State senator. Appointments made annually by senators of students from their respective counties. Annual value, \$120. Tenable four years.

University of Vermont.—(1) State scholarships. For use in colleges of agriculture, arts and sciences, and engineering. Ninety, at annual value of \$120. Tenure, two years. Three appointments are made biennially, upon nomination of senators, one of which must be given to a student in agriculture, if such is available. Applicants must be needy and worthy.

(2) State scholarships in medicine. For the benefit of students who need financial assistance and who have resided in Vermont for two consecutive years preceding enrollment. Annual value, \$100. Tenable four years. Beneficiaries must agree to practice in the State of Vermont one year for each year the scholarship is held or refund the amount received.

VIRGINIA

College of William and Mary.—Teachers' scholarships. Each county and city in the State is entitled to send one student to the college, on nomination of division superintendent of schools, and each county and city is also entitled to one additional student for each additional representative in the house of delegates above one. Students holding these scholarships are given a credit of \$37.50 a semester on their fees. Those who board in the college dining hall are given an additional credit of \$9 a semester on their board. They must pledge themselves to teach two years in the public schools of Virginia.

University of Virginia.—State teachers' scholarships. Given in the department of education. Twenty at \$200, and 10 at \$100, annual value. Students must be in need of financial assistance, and must pledge themselves to teach or engage in some other form of public school work in Virginia for at least two years, or, failing this, to repay to the university the full value of the scholarship.

Virginia Military Institute.—Not less than 50 State cadets, one from each senatorial district and the other 11 from the State at large, are received at the institute free of expense. They must furnish evidence that they are unable to pay their own expenses. Young men between the ages of 16 and 25 who give evidence of fair moral character are eligible.

Virginia Polytechnic Institute.—State scholarships. Open to men only. Number equal to four times the number of members of the house of delegates, apportioned in the same manner. Selections made by school trustees from students attending free schools, or, in the discretion of the trustees, to others. Annual value, \$120. Usual tenure two years, but for more than usual diligence and proficiency may be held for four years.

Virginia State College for Negroes, Ettrick.—A number of students, men and women, equal to twice the number of members of the house of delegates and apportioned in the same manner, are given free tuition at the institute.

Selections are made by division superintendents of schools for the respective counties and cities. Candidates must give evidence of good scholarship and good moral character.

WISCONSIN

University of Wisconsin.—Legislative scholarships. For non-State residents. Remission in whole or in part of tuition (\$124) to a number of needy and worthy nonresident students registered in the preceding year. Number not to exceed 8 per cent of nonresident students registered in preceding year. Awarded on basis of merit as shown by suitable tests, examinations, or scholarship records. Available for graduates as well as undergraduates.

STATE PROVISION OF SCHOLARSHIPS AND FEE EXEMPTIONS FOR WORLD WAR VETERANS AND THEIR CHILDREN

Immediately after the close of the World War several States enacted legislation providing scholarships or granting free tuition at institutions of higher learning to citizens of the State who participated actively in the war as members of the armed forces of the United States. In two States, Montana and South Dakota, the laws were so framed as to include veterans of previous and future wars, but the dates of the acts indicate clearly that the World War was the inspiration for such legislation. Following are statements of the main provisions of the acts in the several States.

CALIFORNIA

Veterans' dependents' education fund.—Created under act of 1930. Dependents of persons killed in action or having died from other causes in the World War while serving in the Army, the Navy, or Marine Corps of the United States, may apply to the Veterans' Welfare Board for assistance in completing their education. The board, in so far as the fund permits, may provide for transportation charges once each year from home of student to and from the institution of learning at which the student may enroll; for tuition and other fees; for purchase of necessary books and supplies; for the monthly payment of allowance to cover all or part of the living expenses of student, in an amount not to exceed \$50 a month during the period student is in actual attendance upon a day school. The amount expended for any one applicant may not exceed \$450 for any one year. Private tuition schools may be chosen only when suitable opportunity is not available in public or semipublic institutions. Applications are considered in the order received. If sufficient funds are not available for all worthy applicants, those most urgently in need are given first consideration. Applicants must be over 16 and not more than 21 years of age, and must have been residents of California for five years immediately preceding the date upon which application is filed.

ILLINOIS

State military scholarships.—Available at the University of Illinois. Established by statute of June 28, 1919. For World War veterans who served in the Army, Navy, or Marine Corps of the United States, who at time of entering the service

were residents of Illinois or were students in the University of Illinois at the time of enlistment. Scholarships are tenable for four years and cover tuition and matriculation charges (\$50-\$165), the amount of which depends upon the college in which the student enrolls. Candidate must possess all necessary entrance requirements for the college or curriculum which he proposes to enter.

Application for necessary blanks should be made to G. P. Tuttle, registrar, University of Illinois, Urbana, Ill.

IOWA

Fee exemptions for World War veterans.—State University of Iowa and Iowa State College of Agriculture and Mechanic Arts. Authorized by acts of 1919 and 1921. Made to all honorably discharged soldiers and sailors of the World War who are citizens of Iowa. Exemption to the amount of \$20 for each semester.

KENTUCKY

Scholarships for war veterans.—Established by act of 1920. Available at University of Kentucky; Eastern Kentucky State Teachers College, Richmond; Western Kentucky State Teachers College, Bowling Green; and Kentucky State Industrial College (Negro), Frankfort. For persons who served in the Army or Navy during the World War and who at the time of enlistment were residents of Kentucky. Scholarships cover tuition, matriculation, and other fees, room rent, fuel and light (but not board), and transportation to and from the university or other institutions for those who continue their studies for a consecutive school year of 10 months. Act applies also to summer sessions.

Scholarships for children of persons killed in action or who died from other causes while serving in the Army, Navy, or Marine Corps in the World War, from April, 1917, to July, 1921.—Established by act of 1930. Available as State institutions of collegiate or secondary grade. Children shall not be under 16 nor over 21 years of age and shall have resided in the State for 12 months. Scholarships cover tuition, matriculation, board and room rent, and textbooks.

MONTANA

Military service scholarships.—Upon the proper certification of the president of the State University of Montana, the Montana State College, or the Montana State School of Mines that a student has rendered military or naval service to the United States during the time of the Nation's actual participation in war and has been honorably discharged, the chancellor of the University of Montana (who is the chief executive officer of the combined institutions of higher learning in Montana) will authorize the award to such student of a military service scholarship exempting him from the payment of all regular fees, exclusive of laboratory deposits and special course tuitions throughout his college course.

NEW YORK

Scholarships for war veterans.—Established by legislative act of 1919 and amendments of 1920 and 1930. Awarded upon basis of competitive examination to (1) resident soldiers, sailors, marines, and trained nurses who served in the World War and have been honorably discharged from such service, and to (2) children of such soldiers, sailors, and marines who died while serving in the armed forces or as a result thereof. Scholarships entitle holders to free tuition not to exceed \$100 a year for four years, in any college, university, normal, technical, or trade school of his selection located within the State, together with \$100 additional a year for maintenance. Not more than three appointments are to be made from any one assembly district.

For further information regarding these scholarships inquiry should be made of the State commissioner of education, Albany, N. Y.

SOUTH DAKOTA

Free tuition at State higher institutions.—Under a State statute of 1919, residents of the State who have rendered active war service in the Army or Navy of the United States and who have been discharged from such service are entitled to free tuition at any of the State educational institutions under the control of the regents of education of South Dakota. This includes persons who have performed active war service in nursing or assisting in the care of soldiers or sailors as members of recognized war relief organizations, such as the Red Cross. The University of South Dakota, the South Dakota State College of Agriculture and Mechanic Arts, and the South Dakota State School of Mines come under the provisions of the statute.

Independent of legislative enactment, two State-supported institutions of higher learning provide scholarships for past members of the United States armed forces. The University of Michigan offers five scholarships to honorably discharged soldiers who are recommended by the War Department. The scholarships cover the annual fee in any college or school of the university and range in annual value from \$93 to \$108 for residents of Michigan, to \$118 to \$268 for nonresidents, according to the college or school in which the student enrolls. The Colorado School of Mines grants scholarships to men who have been honorably discharged from the Army, the Navy, or the Marine Corps, who were in service during the World War.

NOTE.—For an account of La Verne Noyes scholarships for World War veterans, see page 143.

SCHOLARSHIPS AND FELLOWSHIPS GIVEN UNDER AUTHORITY OF BOARDS OF TRUSTEES OF STATE INSTITUTIONS

In some of the States where scholarships have not been established by legislation and in a few others where they have been, the boards of trustees of State-supported higher institutions have authorized the granting of scholarships and fellowships from institutional funds. The scholarships, available usually only to State citizens, although in a few instances specially designated for citizens of other States, are generally given for superior scholarship in the high school. The fellowships, available to residents and nonresidents alike, are granted to graduate students of ability, possessors of bachelor's or higher degrees, from standard institutions. In addition to fellowships, nearly all State-supported institutions of higher learning offer opportunities for graduate students to carry on advanced study and research while serving for a portion of their time as paid assistants in the various departments.

SCHOLARSHIPS

University of Arkansas.—University scholarships. One annually to each class A and class B high school. Awarded to honor graduate, or, as second choice, to the graduate of that year who has made the highest record during his or her entire course. Cover cost of matriculation, registration, and library fees, \$30 for one year.

University of California.—State of California scholarships. Distributed among the 11 congressional districts of State. Twenty-eight available annually. Awarded to poor and deserving students. Annual value, \$125.

University of Colorado, Colorado Agricultural College, Colorado School of Mines.—High-school honor scholarships. Available for use in any State institution of higher learning in Colorado. Regulations are the same at all the institutions. Granted to graduates of accredited high schools; one for each 25 graduates, or any part thereof up to 5, the maximum to be granted any high school. Award based on scholarship standing. Recipients must have had two full years of work in the high schools from which they graduate. Scholarships may not be used for the summer terms nor in the professional schools of the University of Colorado. Annual value covers tuition or fees. Tenable four years.

In addition to the high-school honor scholarships, each of the institutions may remit tuition or fees of exceptionally worthy students who do not qualify under the high-school scholarship plan. Such students must be recommended by a committee of the high-school faculty and passed upon by a committee of the university or college faculty. Total number of students who may receive remission of tuition or fees at any of the institutions, 25.

University of Georgia.—Scholarships for honor graduates of accredited high schools. Presentation of an official certificate by the principal of an accredited high school, the honor graduate is awarded a scholarship exempting him from the payment of the university matriculation fee.

University of Illinois.—Scholarships in agriculture and home economics. Two for each county (except Cook and Lake) and two for each of the first 10 congressional districts, one for students in agriculture and one for students in home economics. Applicants must meet the university requirements for admission, either as candidates for a degree or as unclassified students, and must be at the time of recommendation and for one year prior thereto a bona fide resident of county or district from which he or she is recommended. Scholarships cover exemption from all matriculation, incidental, and tuition fees, fees for purchase of laboratory and other supplies. Tenable four years, for students who are candidates for degrees; two years, for unclassified students. Appointments to scholarships in agriculture made on recommendation of Illinois Farmers' Institutes; to scholarships in home economics on recommendation of the respective county domestic science associations organized in connection with farmers' institutes.

Scholarships in ceramics. One for each county in State. Candidates must be residents of counties from which nominated and must meet in full university admission requirements. No student who has attended the university previously is eligible. Scholarships cover matriculation fee of \$50 and incidental fees, \$10. Tenable four years. Nominations made by Illinois Clay Workers' Association, Urbana, Ill.

Summer session scholarships. All high-school teachers in Illinois, and all teachers in the State who can matriculate in the university are entitled to

summer session scholarships of \$12. Similar scholarships are granted to librarians and assistants employed by Illinois libraries and persons under appointment to such positions. Privilege also extended to persons graduated from State teachers colleges during academic year preceding session in which scholarship is desired, and to persons (otherwise qualified) who are under contract to teach in the State during coming year.

Iowa State College of Agriculture and Mechanic Arts, and State University of Iowa.—Fee exemptions. Granted to a limited number of Iowa students who make proper showing of merit and need.

University of Maine.—Trustee scholarships. Four, covering one year's tuition; 3 for residents of State, 1 in each of three colleges of the university; 1 for student without regard to residence, in any of the three colleges. Basis of award, scholarship. Annual value of resident scholarship, \$150; of non-resident, \$250.

Michigan College of Mining and Technology.—One scholarship to every high-school graduating class in State. Given to deserving students. Carries exemption from all tuition and laboratory fees for length of college course. Applications should be made to high-school principals.

Michigan State College of Agriculture and Applied Science.—The income of a fund of \$4,000 is given to a man and a woman student, respectively, who at the close of their junior year shall have shown the best scholastic record considered in its broadest sense, regardless of the course pursued. Annual value, about \$100.

University of Michigan. (See section of Scholarships and fee exemptions for World War veterans, page 129.)

State University of Montana, Montana State College, Montana School of Mines.—High-school honor scholarships. Open to graduates of accredited high schools. Available for use at any State higher educational institution in Montana. Nominations made by principals of accredited high schools of from one to four graduates, depending upon size of class (but not more than two for any one institution). Scholarships exempt holders from payment of entrance, registration, and incidental fees. Tenable five years.

Military service scholarships. (See section on Scholarships and fee exemptions for World War veterans, page 129.)

University of Nebraska.—Tuition scholarships. One hundred. Open to students above freshman standing. Distributed among the various colleges. Granted upon basis of scholarship and need.

University of Nevada.—Regents' scholarships. Five: 1 to freshman; 2 to sophomores; 2 to juniors. Award on basis of scholarship and need. Annual value \$50.

Tuition exemption (\$150) to (1) officers and enlisted men of United States Army and Navy and their children; to (2) sons and daughters of officers, warrant officers, and enlisted men in the Coast Guard.

University of New Hampshire.—State scholarships. Two hundred. Recommendations for scholarships may be made by the subordinate and Pomona Granges, State senators, State federations of women's clubs, and citizens of New Hampshire. Award based primarily on need. Annual value, \$75 for 4-year student; \$50 for a 2-year student. Tenable one year.

Pennsylvania State College.—Senatorial scholarships. Three appointments made annually by each State senator. Entitle holders to exemption from the incidental fee of \$100 a year. Applicants must meet in full all college entrance

requirements and be enrolled for a 4-year course of study. (These scholarships were established by the board of trustees of the college, in accordance with a resolution of the State senate "that each college, university, or other institution of learning, receiving appropriations from the Commonwealth, shall for each appropriation period, award to each member of the senate of the general assembly of the Commonwealth, three scholarships in a complete course of study at said college, university, or institution.")

University of Texas.—Two scholarships, one for men and one for women graduates of accredited high schools having at least 15 accredited units. Recipient shall have made an average of at least 90 per cent in the senior year. Holders entitled to exemption from matriculation fee in all colleges and schools of the university. Tenable four years.

University of Vermont.—Honor scholarships. For the young man and the young woman graduating with highest standing from college preparatory course in Vermont high schools approved by State board of education. Annual value \$175. Tenable four years.

University of Virginia.—Accredited school scholarships. For use in college of arts and sciences, education, and engineering. One for each accredited public and private secondary school in State, and one for each of a list of accredited secondary schools in other States. Appointment made on recommendation of schools. Holder must be a graduate of one of the schools and must have ranked in highest quarter of his class. Annual value, remission of tuition fees. For Virginia students, in college of arts and sciences, \$40; department of education, \$30; engineering department, \$30; for non-Virginia students, college of arts and sciences or department of education, \$180; engineering department, \$70. Tenable one year. (A list of the accredited schools may be had upon application to the dean.)

Virginia State medical scholarships. Two. Awarded annually in the department of medicine, toward the close of the session, to students from Virginia, on basis of rank and need. Retroactive for the session. Annual value, remission of tuition fee (\$195 in 1930-31). Tenure four years.

Medical College of Virginia (Richmond).—State scholarships. Distributed among four districts into which State is divided for purpose. Three available in each of sophomore, junior, and senior classes. Awards made on basis of character, scholarship, attested financial need, and indorsement of State senator. Competitive examinations may also be held. Awards made for one year but may be renewed. Holders expected to practice for at least one year in section of State recommended by State commissioner of health or to return total amount of scholarship, with interest at 6 per cent from date of graduation. Annual value, \$125 or \$250.

School of Dentistry (Richmond).—Four. Conditions and requirement of practice in State same as for medical school. Annual value, \$125.

School of Pharmacy.—Eight; four for second-year students, four for third year. Conditions same as for medical school. Annual value, \$75.

Applications for all of above scholarships should be made to the dean of the medical school.

State College of Washington.—High-school scholarships. Offered each year to the valedictorian or the salutatorian in graduating class of each accredited 4-year high school in State. Entitles holder to free room rent for one-half year in one of college residence halls.

University of Wisconsin.—Wisconsin scholarships. Fifty. Open to freshmen in need of financial assistance who show worth and ability during first semester. Awarded upon recommendation of faculty committee on undergraduate scholarships, to whom application should be made. Value, \$100.

University of Wyoming.—High-school honor scholarships. Two for each 4-year high school in State, one for boys and one for girls. Awarded to members of graduating class who show high scholarship, evidence of growth, qualities of leadership. Annual value covers fees amounting to \$44. Tenable four years.

SCHOLARSHIPS OFFERED BY ACTION OF BOARDS OF TRUSTEES OF STATE INSTITUTIONS TO CITIZENS OF OTHER STATES

Colorado School of Mines.—United States scholarships. One for each State in Union and one for each territorial and insular possession. Award made on recommendation of superintendent of public instruction. Annual value, \$250. Tenable four years.

University of Virginia. (See under University of Virginia above.)

University of Wisconsin. (See under University of Wisconsin, p. 129.)

FELLOWSHIPS AND ASSISTANTS

UNIVERSITY OF ALABAMA, University, Ala.

Assistantships in accounting, botany, chemistry, economics, education, engineering, English, geology, history, home economics, library, mathematics, modern languages, physics, physical education, psychology, sociology, and zoology. Annual stipend, \$200; not over 12 hours per week service.

Research Fellowships in School of Mines. Offered in cooperation with United States Bureau of Mines. Four. For research in the mining and metallurgy of the ores and mineral resources of Alabama and the South. Annual stipend, \$675.

UNIVERSITY OF ARIZONA, Tucson, Ariz.

Fellowships.—Eleven. In archaeology (1), metallurgy (1), chemistry (2), biology (2), civil engineering (1), English (1), geology (2), and home economics (1). Annual stipend, \$600. Fellowships in biology, geology, and home economics require assistance in these departments.

Bureau of Mines fellowships.—Two. For men who have specialized in metallurgy or chemistry. Annual stipend, \$600; one-half time service for research in connection with United States Bureau of Mines.

UNIVERSITY OF ARKANSAS, Fayetteville, Ark.

Departmental scholarships.—In various departments. Annual stipends, \$250 to \$600. The \$600 scholarships require half-time service; the \$250 scholarships a reasonable amount of service.

UNIVERSITY OF CALIFORNIA, Berkeley, Calif.

University fellowships.—Ten. Available in any department or in professional schools (provided the student is engaged in research). Annual stipend, \$750.

Teaching fellowships or assistantships.—Available in many departments. Annual stipends, \$600 to \$900; one-half time in service.

Lick Observatory fellowships.—Available for study of astronomy at Lick Observatory. Annual stipend, \$750; assistance in work of observation.

COLORADO SCHOOL OF MINES, Golden, Colo.

Graduate fellowships in mining, metallurgy, geology, and petroleum. Annual stipend, \$675; 18 hours per week as laboratory assistants.

UNIVERSITY OF COLORADO, Boulder.

University fellowships.—Six. Annual stipend, \$250, plus tuition and fees in the major department; not over three hours of service per week.

Graduate scholarships.—Ten, providing for tuition and fees in the major department.

Research fellowships.—Eight. Annual stipend, \$500, plus tuition and fees in major department; not over three hours of service per week.

UNIVERSITY OF DELAWARE, Newark, Del.

Graduate scholarships.

UNIVERSITY OF FLORIDA, Gainesville, Fla.

Teaching fellowships in education. Three. Annual stipend, \$200; four or five hours of service per week.

FLORIDA STATE COLLEGE FOR WOMEN, Tallahassee, Fla.

Half-time teaching scholarships.—For teaching in public schools. Open to 2-year and 4-year graduates who have proved their ability to teach successfully. Salary divided between two students, each of whom teaches half time, attending classes the remainder.

UNIVERSITY OF IDAHO, Moscow, Idaho.

Graduate scholarships.—Annual stipend, \$350, plus fees; limited service.

Graduate fellowships.—Annual stipend, \$500, plus fees; limited service.

Teaching fellowships.—Annual stipend, \$750 plus fees. "Holders of teaching fellowships will not under normal circumstances find it possible to complete the requirements for the master's degree in less than two years."

Graduate fellowships in School of Mines. Two. Offered in cooperation with United States Bureau of Mines. Annual stipend, \$750. Research related to the mineral industry.

UNIVERSITY OF ILLINOIS, Urbana, Ill.

Graduate scholarships.—For first-year graduate students. Annual stipend, \$300 and freedom from tuition, incidental, and laboratory fees.

Graduate fellowships.—Annual stipends, \$400 to \$500, with freedom from tuition, incidental, and laboratory fees.

Research assistantships in engineering experiment station.—Fourteen. Annual stipend, \$600; half-time service.

INDIANA UNIVERSITY, Bloomington, Ind.

University fellowships.—Six. Annual stipend, \$600, and exemption from payment of contingent fees.

Special fellowships.—Three. For persons of exceptional ability who may or may not have received the Ph. D. degree. Annual stipends, \$1,000 to \$1,500.

PURDUE UNIVERSITY, La Fayette, Ind.

Fellowships at engineering experiment station.—Annual stipend, \$800; half-time service.

Research fellowships at agricultural experiment station.—One in home economics at annual stipend of \$1,200; one in poultry nutrition, at \$900.

Assistantships.—Annual stipends, \$800 to \$1,000; 12 hours of service per week.

IOWA STATE COLLEGE OF AGRICULTURE AND MECHANIC ARTS, Ames, Iowa.

Teaching scholarships.—Offered by departments of college. Annual stipend, \$270; minimum requirement of three hours of teaching, or six hours in laboratory per week, or other equivalent service.

Teaching fellowships.—One or more in scientific and technical departments. Annual stipend, \$540; minimum requirement of five hours per week of teaching, or 12 hours in laboratory, or equivalent service.

Research scholarships.—In agricultural and engineering experiment stations, industrial research, department of veterinary research, and certain other departments. Annual stipend, \$270. Scholars are expected to do their major work largely in connection with the experiment station work being carried on and to be on duty except for such time as is required for the minor and supporting work.

Research fellowships (in same departments as above).—Not commonly awarded except to those who have already had some graduate training. Annual stipend, \$540. (Service same as above.)

Special research and industrial fellowships.—Several offered annually, either by the college or by other agencies, for study of special industrial problems. Stipend varies with nature and importance of work and the preparation of the fellow.

Graduate assistantships in many of the college departments and in several sections of the agricultural and engineering experiment stations. Annual stipends, \$700 to \$1,000; teaching in class or laboratory one-half of standard teaching schedule assigned to an instructor in the department in which he is employed, or performing similar duties.

STATE UNIVERSITY OF IOWA, Iowa City, Iowa.

Scholarships.—Eighteen. Open to men and women with A. B. degree. Annual stipends, \$200 to \$300; not more than six hours of service per week.

Junior fellowships.—Eighteen. Open to men and women with master's degree. Annual stipends, \$300 to \$400; maximum of 12 hours per week of service.

Senior fellowships.—Three. Open to men and women with doctor's degree or having preparation equivalent thereto. Annual stipends, \$500 to \$800; maximum of 12 hours per week of service.

Research assistants.—Twenty. Open to men and women with master's degree. Annual stipends, \$600 and upwards; half-time service.

Research associates.—Ten. Open to men and women who have completed requirements for doctorate or equivalent training. Annual stipend, \$1,000 and upwards. Two may be international research associates, yielding \$1,000 each.

Graduate assistants.—About 60. Open to men and women graduates of standard colleges who have taken advanced courses in the subjects in which they may serve as assistants. Annual stipends, \$700 to \$800; half-time service.

UNIVERSITY OF KANSAS, Lawrence, Kans.

University fellowships.—Twenty to twenty-five. Annual stipends, \$400 to \$600; not exceeding six clock hours' service per week.

Fellowships for graduates of Kansas colleges.—One each for several colleges of Kansas (about 10). Annual stipend, \$400; not exceeding six clock hours' service per week.

Assistantships.—Annual stipends, \$300 to \$1,000, depending upon amount of service rendered.

KANSAS STATE AGRICULTURAL COLLEGE, Manhattan, Kans.

Graduate assistantships.—Twenty-five. Annual stipend, \$500; one-third time.

Graduate research assistants.—Eighteen. Annual stipends, \$500 to \$666; one-third time.

UNIVERSITY OF KENTUCKY, Lexington, Ky.

University scholarships.—Ten. Annual stipend, \$200.

University fellowships.—Five. Annual stipend, \$400.

Registrar's fellowship.—Annual stipend, \$500.

LOUISIANA STATE UNIVERSITY, Baton Rouge, La.

Assistantships and teaching fellowships.—The number is limited only by needs of the various departments for such service. Annual stipends, \$450 to \$1,200; 12 to 18 hours per week of service.

University fellowships.—Ten. Annual stipends, \$360 to \$450, and exemption from all fees except laboratory, library, and diploma; 10 hours per week of service.

UNIVERSITY OF MAINE, Orono, Me.

Trustee scholarships.—Six. Three are for graduates of institutions located in the maritime provinces of Canada. Stipend, one year's tuition.

UNIVERSITY OF MARYLAND, College Park, Md.

Fellowships.—Twelve. Annual stipend, \$500; 10 hours per week of service.

Graduate assistantships.—Twenty-nine. Annual stipend, \$1,000; one-half time in service.

MICHIGAN COLLEGE OF MINING AND TECHNOLOGY, Houghton, Mich.

Research fellowships.—Twelve. For study in various problems in connection with the general research program of the college. Annual stipend, \$1,200 and exemption from all fees except matriculation and diploma.

UNIVERSITY OF MICHIGAN, Ann Arbor, Mich.

Graduate scholarships and graduate fellowships.—A limited number of each. Annual stipends, \$400 to \$1,000, and exemption from annual fee.

University fellowships in law.—Three.

Assistantships.—About 100. Annual stipends, \$100 to \$600.

Assistantships in business administration.—Annual stipends, \$500 to \$700; 21 hours per week in service.

Reading assistantships in school of business administration.—\$250.

UNIVERSITY OF MINNESOTA, Minneapolis, Minn.

Assistantships and teaching assistantships.—*Assistantships:* Agriculture and home economics (30), anthropology (2), astronomy (1), botany (6), economics (7), education (7), English (5), geology and mineralogy (2), German (2), history (2), mathematics (3), medicine and surgery (17), (special requirements), philosophy (1), physics (11), political science (2), psychology (1), Romance languages (1), Scandinavian (1), sociology (4), zoology (8). *Teaching assistantships:* In botany (6), chemistry and chemical engineering (27), English (2), geology and mineralogy (2), German (6), history (1), physics (10), political science (5), psychology (6).

Romance languages (4), sociology (2), and zoology (1). Annual stipends, \$225 to \$1,200, with remission of tuition; one-fifth to four-fifths time in service.

Research fellowships.—Civil engineering (4), engineering experiment station (5), mechanical engineering (3). Annual stipend, \$750 and remission of tuition; one-half time in service.

University fellowships.—Sixteen. In medicine and surgery. Annual stipend, \$800 and remission of tuition; one-half time in service.

Graduate fellowships.—Four. In offices of comptroller, registrar, dean of women, and dean of student affairs. Annual stipend, \$600; one-half time in service.

UNIVERSITY OF MISSOURI, Columbia, Mo.

University scholarships and fellowships.—A limited number of each. Annual stipends \$300 and \$600.

Agricultural research fellowships and scholarships.—A limited number available in all departments of the college of agriculture.

Teaching fellowships.—A limited number. Annual stipends up to \$600, according to the number of hours taught.

UNIVERSITY OF NEBRASKA, Lincoln, Nebr.

University research fellowships.—For students pursuing work for Ph. D. Annual stipend, \$500, plus free tuition.

Graduate teaching fellowships and scholarships.—Stipends dependent upon kind and amount of assistance rendered. Part of stipend consists in remission of certain fees.

Graduate fellowships and scholarships.

UNIVERSITY OF NEW MEXICO, Albuquerque, N. Mex.

Graduate fellowships.—Six to eight. Annual stipend \$500; limited service.

NORTH CAROLINA STATE COLLEGE OF AGRICULTURE AND ENGINEERING, Raleigh, N. C.

Graduate scholarships.—Eight. Annual stipend, \$225; six hours per week of service.

Graduate fellowships.—Six. Annual stipend, \$450; 10 hours per week of service.

Teaching and research fellowships.—Annual stipend, \$750 and remission of tuition; one-half time given to teaching or laboratory work.

UNIVERSITY OF NORTH CAROLINA, Chapel Hill, N. C.

University fellowships.—Twenty-six. For men only. Annual stipend, \$500 and free tuition; limited teaching or laboratory service.

Research assistantships.—Ten. In sociology and related fields. Candidates must have had at least one year of graduate work. Annual stipend, \$1,500, and remission of tuition and certain other expenses.

University scholarships.—Available to men and women. Annual stipend, remission of tuition.

Teaching assistants.—Annual stipends, \$500 to \$800 and tuition; approximately one-half time in teaching.

NORTH DAKOTA AGRICULTURAL COLLEGE, Agricultural College, N. Dak.

Experiment station fellowship.—Annual stipend, \$500. Thesis to be on some experiment station problem.

UNIVERSITY OF NORTH DAKOTA, University, N. Dak.

Graduate fellowships and scholarships.—Several. Annual stipends, \$500 to \$1,200; one-half time in service.

Industrial fellowship.—Annual stipend, \$500. Research on problems connected with development of resources and industries of State.

OHIO STATE UNIVERSITY, Columbus, Ohio.

Graduate assistantships.—About 100. Annual stipend, \$500, and remission of all fees except matriculation and diploma; one-half time in service.

University scholarships.—Annual stipend, \$300, and remission of all fees except matriculation and diploma.

University fellowships.—Annual stipend, \$500, and remission of all fees except matriculation and diploma.

Research fellowships in ceramics.—Three. Offered in cooperation with United States Bureau of Mines. Open only to those with sufficient training in ceramics, metallurgy, or chemistry to undertake the required research. Annual stipend, \$750.

Fellowships in engineering experiment station.—Several. For work on research projects of station. Annual stipend, \$750.

OHIO UNIVERSITY, Athens, Ohio.

Teaching fellowships.—Several.

UNIVERSITY OF OKLAHOMA, Norman, Okla.

University scholarships.—Twenty or more. Annual stipend, free tuition and remission of all departmental and incidental fees, except that charge may be made for materials.

Graduate assistantships.—Annual stipends, \$250 to \$1,200, depending upon nature and amount of service rendered.

University scholarships.—Twenty or more. Free tuition and remission of all departmental and incidental fees, except that charge may be made for cost of materials.

Research scholarships and fellowships.—Ten or more. Annual stipends; scholarships, \$150 to \$250; fellowships, \$300 to \$500; remission of fees in major departments in each case. Limited amount of service may be required.

Fellowships in petroleum engineering.—Several. Annual stipends, \$600 to \$800.

OREGON STATE AGRICULTURAL COLLEGE, Corvallis, Oreg.

Research and teaching fellowships.—Twenty-eight. Annual stipend, \$675, and exemption from all fees except laboratory; one-half time in teaching or research.

UNIVERSITY OF OREGON, Eugene, Oreg.

Graduate assistantships.—Fifty or sixty. Annual stipend, \$500 for first year, \$600 on reappointment; from 16 to 20 hours of service a week.

Research assistantships.—Five or more. Annual stipend, \$500; approximately 20 hours per week of service.

Part-time graduate assistantships.—These carry a smaller stipend and fewer hours of work than the assistantships.

Teaching fellowships.—Five to ten. Open usually to candidates with master's degree or equivalent. Annual stipends, \$750 to \$1,100; part-time teaching required.

PENNSYLVANIA STATE COLLEGE, State College, Pa.

Graduate assistantships.—Number varies from year to year. Annual stipend, about \$800; service equivalent to one-half the duties required of instructors or full-time assistants.

Graduate scholarships.—A limited number assigned to different departments. Carry exemption from graduate student and practicum fees; some service required.

Graduate stipend scholarships.—Number varies from year to year. Annual stipend, \$300; one-fourth time given to service.

SOUTH DAKOTA STATE SCHOOL OF MINES, Rapid City, S. Dak.

Fellowships in engineering.—Two. Annual stipend, \$800; one-half time in laboratory service.

SOUTH DAKOTA STATE COLLEGE OF AGRICULTURE AND MECHANIC ARTS, Brookings, S. Dak.

Graduate assistantships.—Nine. Annual stipend, \$800; one-half time in teaching.

AGRICULTURAL AND MECHANICAL COLLEGE OF TEXAS, College Station, Tex.

Graduate scholarships and fellowships.—A limited number. Annual stipends; scholarships, \$200; fellowships, \$600; amount of service determined by dean and department heads.

UNIVERSITY OF TEXAS, Austin, Tex.

University advanced fellowships.—Open only to graduate students of at least one year's standing. Annual stipend, \$500, with remission of matriculation and laboratory fees.

University fellowships.—Annual stipend, \$250.

University scholarships.—Annual stipend, \$100 or \$200 (amount to be determined by graduate faculty), with remission of matriculation and laboratory fees.

UNIVERSITY OF UTAH, Salt Lake City, Utah.

Metallurgical research fellowships.—Five. Awarded preferably to graduates of mining schools who have shown special aptitude for research in metallurgy. For cooperative research with the United States Bureau of Mines. Annual stipend, \$720.

School of mines fellowships.—Two. Annual stipend, \$350.

UNIVERSITY OF VIRGINIA, Charlottesville, Va.

Service fellowships.—In chemistry, six. Annual stipends, \$650 to \$750; not more than 15 hours per week in teaching. In economics and related subjects, two. Annual stipend, \$500; a portion of fellow's time to be given to instruction. In physics, three. Annual stipends, \$650 to \$750, subject to possible increase from year to year. The amount of service to be rendered is made as light as possible.

Rector and visitors' fellowships in schools of English, English literature, and Romance languages, three. Annual stipend, \$200; service in one of the designated schools.

College fellowships.—One for each of a list of colleges selected by the faculty. Annual stipend, remission of tuition fee—for Virginians, \$50; for non-Virginians, \$90.

STATE COLLEGE OF WASHINGTON, Pullman, Wash.

Teaching fellowships.—In business administration, one, at \$650; in botany, three, at \$750; in chemistry, four, at \$750; in bacteriology, three, at \$500 to \$750; in English, eight, at \$720; in geology, one at \$500; in the college of agriculture and agricultural experiment station, two, at \$900 and \$1,200, respectively; in mechanical engineering, one, at \$1,100; in college of mechanic arts and engineering and engineering experiment station, three to six (teaching and research fellowships), at \$600 or over.

Research fellowships.—In bacteriology, one, at \$500 to \$750. In college of agriculture and agricultural experiment station, three to six, at \$450 to \$1,200.

College scholarships.—Offered in many departments of the college to students from junior to graduate standing. Annual stipends, \$100 to \$500; a specified amount of work of instructional value is required.

UNIVERSITY OF WASHINGTON, Seattle, Wash.

Research fellowships.—Five. In college of mines, for research in coal and clay, in cooperation with United States Bureau of Mines. Annual stipend, \$720, and remission of tuition and fees.

University teaching fellowships.—In various departments. Annual stipends, \$540 to \$720; one-half time in service.

Graduate scholarships.—Open each year to students who perform service as laboratory assistants, assistants in charge of quiz sections, or readers. Annual stipends, \$180 to \$360, in proportion to service.

UNIVERSITY OF WISCONSIN, Madison, Wis.

University fellowships.—Forty-four. Annual stipend, \$750; equivalent of one hour of teaching daily.

School of education fellowships.—Two. For students interested primarily in problems of secondary-school teaching. Annual stipend, \$600.

Graduate research fellowships in engineering.—Three. Appointments for two years. Stipend, first year, \$900; second year, \$1,100; one-half time in service.

Graduate scholarships.—Twenty-one. Annual stipend, \$250.

Honorary fellowships.—Forty-four. Restricted to graduates of at least one year's standing who have already held academic honors, such as fellowships or teaching or research appointments. Carry remission of non-resident and general fees.

Honorary scholarships.—Twenty-one. Open only to persons who have received baccalaureate degree at least one year previous to their nomination. Carry remission of nonresident tuition and general fees.

PART IV

PRIVATELY ENDOWED SCHOLARSHIPS

Scholarship funds given through private philanthropy at many of the endowed and also State-supported institutions equal or surpass in value those available through State provision. The Price Greenleaf fund at Harvard, the Sterling fund at Yale, and the Roberts and Pulitzer funds at Columbia are comparable in value and in the number of students benefited to State funds. Like the State institutions also, many of the privately endowed colleges and universities create funds both for undergraduate and graduate study, or they offer reductions in fees which may be taken advantage of by students of good quality. Stevens Institute of Technology, Hoboken, N. J., is an example of an institution in which a well-worked-out plan for a systematic reduction in tuition, based on scholarship achievement and affecting students in all classes, has been put into effect. Under this plan it is anticipated that 162 awards, at a total value of \$34,200, will be made annually.

Within recent years there has been a number of notably generous gifts for scholarship purposes. While consideration can not be given to all such gifts, the following are mentioned because they are of unusual munificence and affect a large body of students.

LA VERNE NOYES SCHOLARSHIPS FOR WORLD WAR VETERANS

Under the will of the late La Verne Noyes (1918) the trustees of his estate are authorized to pay to such universities and colleges as they may from time to time select, an amount sufficient to pay the tuition, in whole or in part, of needy students who themselves served in the Army or the Navy during the World War and shall have been honorably discharged from such service or are descended by blood from some one who served in the Army or the Navy during that conflict and who either is still in the service or whose service has been terminated by death or by an honorable discharge. No restrictions as to sex, race, religion, or political party are to be observed in the award of the scholarships created from these funds, but the beneficiaries must be citizens of the United States.

La Verne Noyes scholarships are now offered in the following universities and colleges, and eligible students should make application direct to the institutions in the list they may wish to attend:

- | | |
|---|---|
| Amherst College, Amherst, Mass. | Lombard College, Galesburg, Ill. |
| Baker University, Baldwin City, Kans. | James Millikin University, Decatur, Ill. |
| Beloit College, Beloit, Wis. | Monmouth College, Monmouth, Ill. |
| Blackburn College, Carlinville, Ill. | North Central College, Naperville, Ill. |
| Bradley Polytechnic Institute, Peoria, Ill. | Northwestern University, Evanston, Ill. |
| Carleton College, Northfield, Minn. | Oberlin College, Oberlin, Ohio. |
| Carthage College, Carthage, Ill. | George Peabody College for Teachers, Nashville, Tenn. |
| Central College, Fayette, Mo. | Purdue University, La Fayette, Ind. |
| Coe College, Cedar Rapids, Iowa. | Rush Medical College, Chicago, Ill. |
| College of Wooster, Wooster, Ohio. | Shurtleff College, Upper Alton, Ill. |
| Cornell College, Mount Vernon, Iowa. | State University of Iowa, Iowa City, Iowa. |
| Cornell University, Ithaca, N. Y. | University of California, Berkeley, Calif. |
| Denison University, Granville, Ohio. | University of Illinois, Urbana, Ill. |
| Doane College, Crete, Nebr. | University of Kansas, Lawrence, Kans. |
| Drake University, Des Moines, Iowa. | University of Minnesota, Minneapolis, Minn. |
| Eureka College, Eureka, Ill. | University of Missouri, Columbia, Mo. |
| Franklin College, Franklin, Ind. | University of Nebraska, Lincoln, Nebr. |
| Grinnell College, Grinnell, Iowa. | University of Oklahoma, Norman, Okla. |
| Hamline University, St. Paul, Minn. | University of South Dakota, Vermillion, S. Dak. |
| Illinois College, Jacksonville, Ill. | University of Texas, Austin, Tex. |
| Illinois Wesleyan University, Bloomington, Ill. | University of Wisconsin, Madison, Wis. |
| Indiana University, Bloomington, Ind. | Wabash College, Crawfordsville, Ind. |
| Iowa State College, Ames, Iowa. | Washburn College, Topeka, Kans. |
| William Jewell College, Liberty, Mo. | Washington University, St. Louis, Mo. |
| Johns Hopkins University, Baltimore, Md. | Wheaton College, Wheaton, Ill. |
| Kansas State Agricultural College, Manhattan, Kans. | Y. M. C. A. College, Chicago, Ill. |
| Knox College, Galesburg, Ill. | |
| Lake Forest College, Lake Forest, Ill. | |
| Lawrence College, Appleton, Wis. | |
| Lewis Institute, Chicago, Ill. | |

Scholarships for nurses only are offered in Teachers College, Columbia University, New York, N. Y., and University of Virginia, Charlottesville, Va.

EDWARD RECTOR SCHOLARSHIPS AND FELLOWSHIPS

SCHOLARSHIPS

Chiefly for the encouragement of scholarship in the high schools and colleges of Indiana, a fund established by Edward Rector in 1927 provides for 500 free scholarships, to be awarded at DePauw University, Greencastle, Ind., to young men graduates of commis-

sioned high schools in Indiana. The scholarships cover tuition and fees, amounting to about \$200 annually, in the college of liberal arts, and may be held throughout the college course, provided the holders maintain a high grade of scholarship. They are awarded to the students taking first or second honors in their graduating classes, on the recommendation of their superintendents or principals. If no first or second honor student applies, the scholarship may be given to any young man ranking in the high 10 per cent of his class whom the superintendent or principal recommends. In cases of special fitness, scholarships are sometimes granted to graduates of high schools in other States. A special scholarship for the remainder of the course is granted to the freshman, sophomore, and junior student, man or woman, who during the year ranks highest in his or her class. If a Rector scholar ranks highest in his class, he receives \$100 instead of a second scholarship. To the senior student, man or woman, who ranks highest during the senior year \$100 is given.

A scholarship for the remainder of his college course will be given to any freshman man, exclusive of Rector scholars, who makes 50 or more points and has no conditions or failures during the year, provided he fulfills all requirements of the foundation. A scholarship for the remainder of his course will be given to a non-Rector scholarship man who makes 40 points the first semester, provided he fulfills all of the conditions.

Five hundred and thirty-two Rector scholarship holders were registered in 1927-28. They represented 267 high schools in Indiana and high schools of 15 other States, as well as 2 foreign countries.

FELLOWSHIPS

Six Rector fellowships for travel, good for one year and carrying a stipend of \$1,200, are granted to members of the graduating class of DePauw University who can qualify. Awards are made to such men and women graduates as are deemed especially worthy and promising and are based on college work, personality, and evidence that applicants can do creative, scholarly work.

PHILIP FRANCIS DU PONT SCHOLARSHIPS AND FELLOWSHIPS

From a bequest of Philip Francis du Pont, made in 1928, the University of Virginia has founded the following scholarships and fellowships:

SCHOLARSHIPS

(1) In the *College of Arts and Sciences*, 150: 60 at \$100, 50 at \$200, and 40 at \$300. Approximately one-half are awarded to students who have not previously attended the university. Applicants must

have complied with the entrance requirements, must give evidence of financial need, and must have ranked in the highest quarter of their classes, preference being given to those who ranked in the highest tenth of their classes. (2) In the *Department of Education* scholarships are awarded to both new and old students. The value depends upon the income available and upon the recommendation of the faculty of education. Three with an annual value of \$300 and a 2-year tenure are available to students in nursing education. (3) In the *Department of Engineering* also scholarships are given to both new and old students. Their value ranges from \$100 to \$300. The conditions of tenure and award are similar to those for the college of arts and sciences. (4) In the *Department of Law* there are approximately 32 scholarships, with annual values of \$200 and \$250. (5) In the *Department of Medicine* scholarships are awarded to both old and new students. Their value varies, depending upon the income available.

FELLOWSHIPS

(1) Twenty junior fellowships, with a stipend of \$300 for Virginians and \$360 for non-Virginians, from which must be paid a university and tuition fee of \$90 for Virginians and \$150 for non-Virginians, are available, without privilege of renewal, to students holding bachelor's degrees. (2) Twelve senior fellowships, with a stipend of \$500, from which must be paid the university and tuition fee of \$90 for Virginians and \$150 for non-Virginians, are available and may be renewed. Recipients must have had at least one full year of graduate study, with work completed equivalent to that required for the master's degree. (3) Twelve research fellowships, with annual incomes varying from \$750 to \$1,200, with exemption from university and tuition fees and not renewable, are offered to candidates for the Ph. D. or to holders of that degree, who must devote their time to research under the direction of the school concerned.

SOLON E. SUMMERFIELD SCHOLARSHIPS

For the support of scholarships at the University of Kansas for young men graduates of Kansas high schools, Solon E. Summerfield, of New York, provided in 1929 an endowment fund intended to yield \$20,000 annually. It is expected that from 30 to 40 students a year will receive assistance, which is to be given in amount according to the financial needs of the student. Award will be made upon a competitive basis and will continue during the college years if the scholastic standing of the student merits it.

FREDERICK C. AUSTIN SCHOLARSHIPS FOR THE TRAINING OF BUSINESS EXECUTIVES

The income of a gift of more than \$3,000,000 made to Northwestern University, Evanston, Ill., in 1929, by Frederick C. Austin, of Chicago, is to be used exclusively in providing scholarships for the training of young men for executive positions in large business and industrial enterprises. The scholarships will be awarded to freshmen and will be continued throughout the four undergraduate years, with the possible addition of a fifth year for study and travel abroad for the applicants who prove worthy. No definite amount will be given every scholar, but each will be granted such financial assistance as the university deems most beneficial for him. The amount may vary from cost of tuition to \$1,500 a year. Applicants will be examined in such qualifications as scholarship, leadership, character, and health, and those will be selected who in the judgment of the university have the greatest potential capacity for proficiency in business.

PUBLICATIONS LISTING SCHOLARSHIPS AND FELLOWSHIPS FOR ADVANCED STUDY

NATIONAL RESEARCH COUNCIL. Funds available in 1920 in the United States of America for the encouragement of scientific research. Compiled by Callie Hull. Bulletin No. 9, National research council, Washington, D. C., March, 1921.

— Funds available in the United States for the support and encouragement of research in science and its technologies. Compiled by Callie Hull and Clarence J. West. Bulletin No. 66, November, 1928.

— Fellowships and scholarships for advanced work in science and technology. Compiled by Callie Hull and Clarence J. West. Bulletin No. 72, August, 1929.

SMITH COLLEGE. Graduate fellowships and scholarships open to women. Smith College, Northampton, Mass. January, 1928.

INSTITUTE OF WOMEN'S PROFESSIONAL RELATIONS. Fellowships and other aid for advanced work. Compiled by Grace Hays Johnson. Bulletin No. 3, Institute of women's professional relations, North Carolina college for women, Greensboro, N. C. January, 1930.

— Supplement No. 1, February, 1930.

— Supplement No. 2, February, 1931.

INSTITUTE OF INTERNATIONAL EDUCATION. Fellowships and scholarships offered to American students for study in foreign countries and to foreign students for study in the United States. Bulletin No. 4, Institute of international education, New York, May 1, 1923.

— Fellowships and scholarships open to American students for study in foreign countries. Bulletin No. 1, July 1, 1929.
