LETTER OF TRANSMITTAL

DEPARTMENT OF THE INTERIOR,
BUREAU OF EDUCATION,
Washington, D. C., October 25, 1916.

Sir: The recording offices of many small colleges in various parts of the country have failed to develop appropriate and convenient systems for registering important data concerning the academic work of students. Members of the Bureau of Education who visit such institutions are frequently asked to suggest practical methods for recording the desired information. With a view to meeting the insistent needs of registrars of colleges of this type, I have requested Mr. Benjamin F. Andrews, specialist in land-grant college statistics, to gather the registration forms which have been successfully used in a number of collegiate institutions and to prepare a brief statement on the fundamental operations of the registrar's office. The accompanying document presents this material. I recommend that it be published as a bulletin of the Bureau of Education.

Respectfully submitted.

P. P. CLAXTON, Commissioner.

The SECRETARY OF THE INTERIOR.

The registrar's office is the pulse of a college. The machinery for recording every relation of the student to the university, and the completeness and availability for reference of this record, reveal the vitality and efficiency of the institution. Large universities have recognized this fact for some time. Most of them have developed systems of registration entirely adequate to the needs of administrative officers, systems which may be interpreted also by an outside inquirer seeking information as to the academic policies or standards.

Some small colleges have developed similar records, but many of them still tolerate very rudimentary systems of registration, or perhaps no system at all, depending wholly for knowledge of the standing of former students upon the memory of some overworked member of the faculty, reenforced perhaps by a few cryptic marks preserved in old ledgers or on loose and scattered sheets of paper. A few institutions where such slipshod methods prevail realize the importance of keeping accurate records, but do not know of what these should consist or what forms have been found most convenient for entering and for subsequent reference. Others have not yet perceived the value of the operations of the registrar.

Two paramount reasons may be cited for the keeping of adequate and systematic records. First, the college owes it to students who may transfer to another institution or who may later refer to their alma mater for statements of their character and academic achievements. Second, no institution may be sure of itself, of the honesty and consistency with which it maintains its standards, of the trend of its academic policies, unless all data bearing on these matters are immediately and fully recorded. Faculties are generally humans, they tend to make exceptions. The multitude of exceptions sometimes nullifies the rule. If an institution is to know whether its rules or the exceptions are really the rule, the facts must be put down in the records where they can not be forgotten.

In view of the desirability of encouraging certain of the smaller institutions to keep proper records, this brief summary of the fundamental processes of the registrar's office is offered. It is hoped that it may prove helpful. The material on which it is based consisted

of numerous printed forms submitted in response to inquiries from the Bureau of Education.

The forms submitted show that college registration records vary almost infinitely. Appa ntly no two institutions use identical methods. The larger universities have evolved forms and systems which answer their own purposes perfectly, but are of little help to the colleges of smaller organization. Columbia University, for example, with its many departments and very large enrollment, has an intricate system involving a multiplicity of forms. Yet there are certain major operations which must be carried on everywhere, and forms have been developed for recording them which approach a common type. These operations are described below and samples of some of the most convenient forms are reproduced.

The keeping of student records naturally divides itself into several main stages:

- I. Before entering college.
- II. At entrance.
- III. During the college course.
- IV. Alumni records.

I. FORMS USED BEFORE ENTRANCE.

1. THE APPLICATION BLANK.

The object of this blank is to file with the institution the name of the prospective student and such other advance information as may seem desirable. The blank may be simply an address card or a form designed for a somewhat detailed precollegiate and personal history. The detailed form has the advantage of showing at once whether the student has covered the preparatory ground and may be considered for certification or examination for admission. A number of the institutions accompany the application blank with the rules for admission printed either on the back (Northwestern, Ie) or on a separate slip fastened to it (Knox, If). This blank is sometimes used to reserve dormitory or classroom space, and for this purpose it may be filed months before actual enrollment. Such blank is used by Randolph-Macon Woman's College (Ia). Other examples of the various forms in use are those of Lehigh University (Ib), University of Cincinnati (Ic), Massachusetts Agricultural College (Id), Northwestern University (Ie), and Knox College (If).

From the forms submitted the following questions have been selected to form a complete application blank. Each of the ques-

In connection with each of these stages are many minor operations, for the recording of which numerous forms have been developed. These are, for instance, student identification cards, cards for admission to classes, athlatic tickets, report cards of all sorts, notifications of all ures, excuse for absence cards, transfer to other departments, etc. Since in the smaller institutions their place can generally be taken with much scooling by a typewritten letter, no attempt will be made to show their use. For samples see Appendix B.

FORMS USED BEFORE ENTRANCE.

9

tions given below appears in several, if not all, of the forms used by different institutions:

DATE OF APPLICATION.

- A. The Applicant...
 - 1. Name, home address.
 - 2. Place and date of birth, age.
 - 3. Religious or church preference or connection.
- B. Parents or Guardians.
 - 1. Name, home address.
 - 2. Occupation.
- C. Preparatory Training.
 - 1. Schools-name, location, principal of each.
 - 2. Length of time at each. Graduate or not.
 - 3. Other college.
 - 4. Teaching experience (for normal students only).
- 5. Preparatory studies completed—college units for each. Which may be certified? Which require examination? Conditions in entrance studies.
- D. College Course.
 - 1. What course do you intend to enter?
 - 2. When or in what class?
 - 3. Scholarship or other aid.

Upon return of this, a blank form of certificate

Although this blank is undoubtedly useful in giving the institution advance information, and thus enabling it to prepare for examinations and instruction, yet its use may be entirely dispensed with, especially in the small college, where correspondence with the prospective students has frequently been kept up for months before entering. Much of the same information is also given on the usual preparatory school certificate. The filing of such certificate may render the application blank unnecessary.

REGULATIONS CONCERNING ENTRANCE.

A. MODES OF ADMISSION.

Students are admitted to the freshman class either upon certificate or upon exami-

nation. No diploma from a secondary school will be accepted.

nation. No diploma from a secondary school will be accepted.

Certificates.—Certificates will be received from those schools in New England which have been approved by the New England College Entrance Certificate Board. Principals of schools in New England who desire the certificate privilege should address the secretary of the board, Prof. Frank W. Nicolson, Weeleyan University, Middletown, Conn. Certificates from schools outside of New England will be received if these schools are on the approved list of the College Entrance Certificate Board of the section in which the school in question is located.

Certificates, in order to be accepted, must present not less than 7 of the necessary 14 credits. The only exception to this rule is indicated under note 6, certification in these subjects being allowed, although no other subject be offered on certificate. All credits lacking on certificate must be made up at the time of the entrance examinations. (Two points condition will be allowed on entrance work.)

Blank forms for certification—sent to principals or school superintendents only—sent to be registered the subjects.

may be obtained on application to the registrar of the college.

The credentials of the board of regents of the State of New York are accepted as satisfying the entrance requirements of this college when offered subject for subject. Examinations.—The examination in each subject may be oral or written, or both. The standard required for passing an examination for admission is 65 per cent. Conditions to the amount of two units will be allowed.

B. REQUIREMENTS FOR ADMISSION.

The requirements for admission are based on the completion of a four-years' course in a high school, or its equivalent, and are stated in terms of units. The term unit means the equivalent of four or five recitations a week for a school year. Neither more nor less credit will be given in any subject than is indicated in the table appended. Fourteen units must be offered for admission. In the list appended, every subject in black-faced type is absolutely required and no substitution is allowed. The subjects so typed total eight and one-half units. In addition to these points five and one-half more units must be chosen from the subjects printed in light-faced type.

Presentation of notebooks.—The keeping of a notebook is required as part of the preparation in those subjects indicated (see note 2).

Candidates presenting themselves for examination in such subjects must present at

Candidates presenting themselves for examination in such subjects must present at the same time the required notebook, properly certified by the principal. Candidates presenting such subjects on certificate should not present notebooks; but their certificates must state that notebooks have been satisfactorily completed.

Provision is made for the removal of entrance conditions as follows: (1) First

entrance condition examination, in the week following the Thanksgiving recess. Second entrance condition examination, in the sixteenth week of the first semester.

¹ Entrance with condition in English.—Under the rule permitting entrance conditions of not more than two units of the preparatory subjects, applicants may be admitted upon examination, with a condition in English, provided that they show, upon examination, satisfactory preparation in work, entitling them to a ranking of 60 or higher.

Students, so admitted, must, to remove the condition, pass an examination covering the regular threa-units resulter annual results.

REQUIREMENTS FOR ADMISSION.

Candidates for admission to the college of liberal arts of Northwestern University must qualify by examination or by certificate on 15 units of high-school work. The unit is a course of study requiring a daily recitation on a prepared topic for a full school year, and covering in the various subjects the work defined in the university catalogue. These definitions of units are the same as those adopted by the North Central Association of Colleges and Secondary Schools. Two hours of laboratory work are counted as the equivalent of one hour of prepared recitation.

The subjects which may be presented for admission credit and the number of units acceptable in each are shown in the following table. English, three units; algebra, one or one and one-half units; and plane geometry, one unit, are required of all candidates. A choice is allowed in the selection of other subjects, but at least four units of foreign languages must be presented. These may be four units of Latin, or three units of one language and one unit of another, or two units of each of two languages. A single unit of any language will be accepted only when accompanied by at least three units of some other language or two units of each of two others. The remaining work may be selected at will from the subjects listed.

SUBJECTS WHICH MAY BE PRESENTED FOR ENTRANCE CREDIT.

The first three subjects in the amounts indicated are required of all candidates.

English 3 Algebra 1 or 11 Plane geometry 1	Botany	Units. 1 1
Latin 2, 3, or 4 Greek 2 or 3 German 2 or 3 French 2 or 3 Spanish 2 Advanced algebra 1/2 Plane trigonometry 1/2 Solid geometry 1/2 Physiography 1 Physics 1	Medieval and modern history. English history. American history (or with civil government). Civil government. Political economy. Commercial geography. Commercial law. Physiology. Subjects not specified.	1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1

Under the heading "Subjects not specified" such topics as manual training, domestic science, mechanical drawing, etc., may be presented at the discretion of the board of examiners. Subjects enumerated above as full units may be presented as half units, or they may be presented in excess of the amounts stated, only as "Subjects not specified" and such credit is thus limited to two units.

A candidate with not more than two units of condition may be admitted to college as a regular student at the beginning of the year, but all deficiencies must be made up within one year.

Persons of serious purpose and mature years may be admitted as special students for courses which they are qualified to pursue and which are not to be had elsewhere than in college. In general, special students must meet the regular entrance requirements.

461269-16-3

Several educational associations or groups of institutions have for some time endeavored to secure the adoption of uniform school certificates, each in its own section. Chief among these are the North Central Association of Colleges and Secondary Schools and the Association of Colleges and Secondary Schools of the Southern States. In spite of these movements, some institutions prefer to use their own forms, differing in a greater or less degree from those recommended by the associations; so that it seems advisable to reproduce several of the independent forms, as well as those used by associated colleges. As suggested above, by adding to the school certificate the few additional questions contained in the application blank, the small college need use but one form for filing all of a student's record previous to entering college.

Of the school certificates illustrated, the one recommended by the North Central Association of Colleges and Secondary Schools (Ig), and that of Harvard College (Ih), while differing in form, demand practically the same information, both being very complete. They differ chiefly in the fact that the North Central blank (Ig) prints the names of the studies and furnishes a column to state the year in which each is given, while Harvard (Ih) groups the studies in the different years, but leaves the subjects to be written in. The Allegheny College blank (Ik) is a model of brevity and compact arrangement. Other examples are those of the University of Rochester (Im) and of Dartmouth College (In).

Questions covering the following points are common to the best secondary school certificates.

PREPARATORY SCHOOL CERTIFICATE.

(Questions in italic are not usually asked, but are advisable,)

A. Applicant:

- 1. Name and home address.
- 2. Place and date of birth. Ago.
- 3. Church preference or connection:
- B. Parents or guardians:
 - 1. Name and address.
- 2. Occupation.
- C. Preparatory school:
 - 1. Name and location of school.
 - 2. Period in attendance.
 - 3. Graduate? Date.
 - 4. If any of the subjects certified were taken at another school, give name and date of attendance.

¹ In practice the certificate is examined by the proper officers of the college and the student notified of the result. No example of notification form is given here, although several were submitted, abowing admission by full certification, by part certification and part examination, by full certification with entrance conditions, and of failure to qualify. Frequently the preparatory school is also notified of its student's success on a special blank for that purpose.

HARVARD COLLEGE.

1914. APPLICATION FOR THE APPROVAL OF A SCHOOL RECORD FOR ADMISSION UNDER THE NEW PLAN. Candidates for admission under the new plan should present their school records for approval as early as possible and not later than two weeks before their examinations. No fee should be sent with this application. If the record sent herewith is approved, a blank form of registration with directions as to the fee will be sent with the notice of approval. Name in full.... Date of birth (month, day, year) Name of father or guardian.... Home address (street, city, State)..... High schools or academies attended, and the dates of entering and leaving each Name of principal of last school attended..... For which degree do you wish to register—A.B. or S.B.?.... At what place shall you present yourself for examination?..... If you have already taken examinations, either those of Harvard or those of the College Entrance Examination Board, give the date or dates of these examinations. Underline in the list of studies below those subjects in which you wish to present yourself for examination. COMPLETE LIST OF ADMISSION STUDIES (NEW PLAN). English. German. Mathematics. Greek. French. Physics. Latin. History. Chemistry.

^{*}Other subjects, not method here for inck of space, are: Drawing (freehang and mechanoles), biology, chamistry, physics, physicgraphy, physicisty, geology, other subjects.

It is distinctly understood that the acceptance of certificates is provisional. In case the student's work is not successful in college classes, additional preparatory work may be required. Permission to send students by certificate will ultimately be withdrawn from schools whose students prove to be imperfectly prepared. In all doubtful cases, the teacher is requested to throw the responsibility of the examination upon the college.

In Latin grammar and prose composition, Greek grammar and prose composition, algebra and geometry, no certificate will be accepted for work that has not been pursued or reviewed within the year preceding the time of admission. Solid geometry may be substituted for the review of plane geometry and either trigonometry or advanced algebra for the review of algebra.

Laboratory notebooks must be presented for all work in science offered for admirrion.

In view of the work completed as certified above, and because of my personal knowledge of the ability and maturity of the student named, I consider h... well student to fursue college work in the ... course at the University of Rochester with profit to the student and credit to the university.

II. AT ENTRANCE.

REGISTRATION OR MATRICULATION.

While matriculation usually means admission to class standing and registration means simply a formal notice of being present at the institution, the terms are so confused in ordinary practice as to become synonymous; consequently no distinction is made in the examples given.

Registration or matriculation frequently involves the use of two forms, one a card giving name and supplementary facts (a personal directory index), the other giving in detail the class to be entered and subjects to be studied (a class assignment card). Some institutions combine the two into a single form.

Examples of the personal index card are that of the Municipal University of Akron (IIa) and the State University of Iowa (IIb). The State University of Kentucky (IIc) uses this card in triplicate, the extra copies being for the dean's office and other supplementary records. Miami University (IId and IIe) accompanies the index card with a class assignment sheet, and De Pauw uses two cards, one (IIf) an index, and the other (IIg) a study card.

Although the majority of institutions show the two-card system, yet, for the small institutions especially, there seems to be no reason why one combined form might not be used. But whether two forms are used or a combined card, the detachable coupon card has certain advantages. In this a coupon is provided for each operation—payment of fees, entering each class, etc. These are detached by the bursar, professor, or other officer. The coupons may be used either for permanent filing or for the temporary information of the various

officials into whose hands they come. An excellent card of this style is used by the Massachusetts Agricultural College (IIh) for class assignment only. Another, somewhat different in form, is that of the State University of Iowa (IIk).

An examination of forms used by 25 different institutions assembles the following questions for a complete registration record. If it is desirable to use two forms, one for registration and another for class assignment, a division will readily suggest itself.

¹ Some questions asked by one or two institutions seem worthy of consideration, such as: "In what athletic sports do you participate?" "Are your parents college graduates? If so, of what college?" "Are you self-supporting, wholly or in part?", "Have you a scholarship?" One institution gives a brief statement of the marking system used. The two municipal universities submit forms requiring statements of ength of time resident in the city, ward, or district. Two institutions provide a special detachable coupon with information for the athletic association, including athletic fees. Among the questions which seem immedseary on this form are; "Probable future occupation." "Nationality, race, or cofor of applicant." "Is your father a United States citizen?" "Amount of academic work or reading in addition to required work." "Have you living brothers or sisters?" Some of these questions have been suggested for the preparatory achool certificate.

III. DURING THE COLLEGE COURSE.

After matriculation the number and variety of forms used will depend on the individual institution. Examples of some of the many different forms are shown in Appendix D. Of all records taken during the course, the student's class records, usually compiled at the end of each semester, are most important. The permanent record blank is designed to hold these.

PERMANENT RECORD FORM:

This form should contain, besides the class records, certain other fundamentals—name and personal history, record of admission and precollegiate work, and possibly a brief alumni record. This is one of two indispensable record forms, the other being the preparatory school certificate.

Three distinct types of permanent records are used. A large number of institutions follow the old custom of keeping their permanent records in bound books; others are using a card system because of its convenience, while the loose-leaf book record is popular for the same reason, having the further advantage of compactness where a large number of records are kept. Some institutions use several cards or records, an extreme case being where a different card is used for each student each year. In general, however, the academic record of each student is kept on one card or ledger sheet.

A brief comparison of a few of the forms in actual use perhaps will be of service.

Randolph-Macon Woman's College (III a) uses both sides of a loose-leaf ledger sheet and finds room for a brief alumnæ record. The University of Rochester (III b) also uses a loose-leaf sheet and gets all its information on one page; it substitutes a brief abstract of the financial relations of the student to the institution for the alumni record. The University of Kansas (III c) also uses one page of a loose-leaf ledger sheet, obtaining considerable reduction in size, but omitting both the alumni and financial records.

Among the card forms, that of the University of Cincinnati (III d) does not divide the course into years, although in practice this is done by rulings under the subjects written in for each year. While this form economizes space, it seems hardly as precise as the form used by Harvard College (III e). The use of both sides gives space for a very complete record. The form of Harvard College (III e) shows an excellent arrangement for class record. It also calls for a personal history, but for no financial, alumni, or student activity record. The reverse side of the form is not used. The State University of Iowa (III f) does use the reverse for some of these questions and shows the same study arrangement as the University of Cincinnati (III d). Northwestern University (III g) shows an arrangement of studies for five years, thus covering a possible postgraduate year. None of the others shows this, and yet a single graduate year is becoming quite common, while five-year courses, especially in engineering, are well established. De Pauw University (III h) and the College of Wooster (III k) illustrate the use of smaller cards.

From this comparison it is seen that an excellent form can be devised using a card about 8½ by 11½ inches, a standard size. For loose-leaf ledger purposes a longer form will be found more convenient; it should be printed leaving a wide binding margin and may be as large as 11 inches in width and 15 or even 20 inches in length. The use of both sides of either card or page gives much more room and seems advisable.

A comparison of forms used by over 25 different institutions indicates that a permanent record form may appropriately give the following information; in spreading it on the card it is suggested that the Harvard (III e) and Northwestern (III g) forms might serve for a basis of arrangement, the personal history and class records being on the front, and the reverse side used for the financial, student activity, and alumni records.

REGISTRATION AND STUDENT RECORDS. PERMANENT RECORD FORM. (Use a different color for each college of a university.) [Front.] 1. Name in full. Class. 2. Home address. 3. Date and place of birth. Age. 4. Church affiliation. 5. Name of parent or guardian. 6. Address of parent or guardian. 7. Occupation of parent or guardian. Preparatory school. 1. Name and address of preparatory school. 2. Name and address of other schools. 3. Preparatory subjects in detail, giving for each-(a) Value in units or hours. (b) Credit for certification. (c) Credit by examination. (d) Conditions—when removed. 4. Subjects and credits for advanced standing. Collegiate record. 1. College. 2. Course. 3. Degree. 4. Date of matriculation. . 5. Date of graduation. If nongraduate, date of withdrawal. 7. Honors, grade, etc., for the course. 8. Scholarships, fellowships, prizes, loans. 9. Nonacademic honors-fraternity, clubs, athletics. 10. Class record. Arrange studies in five columns, one for each year. List studies in detail and show for each-(a) Number of each subject-course as per catalogue. (b) Hours per week. (c) Credit in college units. (d) Grade obtained. (e) A brief statement of major and minor group subjects on which course was based. [Reverse side.] Financial record. Brief summary of ledger, showing amounts paid by student in course. Special college records. It desired, records of scholarships, prizes; etc., and nonacademic honors-fraternity, athletics, etc.—(collegiate records 8 and 9) may be given here in more detail and omitted from the front page. Alumni record. 1. Address. 2. Occupation. 3. Married to (a) Date (b) Address 4. Children. 5. Honors. • 6. Death-date, place, and place of burial. In case of transfer to another institution an abstract of the perma-

nent record form furnishes the information necessary for advanced standing. Printed abstracts are in common use, but need not be shown since in general the form is an exact duplicate of the permanent record form.

IV. ALUMNI RECORDS.

Few institutions seem to attach much importance to their alumni records, yet the keeping of alumni records is becoming more important every year; a series of main topics has therefore been suggested. By placing these on the permanent record form, the complete history of each student is collected in compact form on one record; if, however, it should prove to be more convenient, the alumni record can be entered in a simple card index file; this latter method may be preferable when there is a special official, such as an alumni secretary, to handle the records. A postal inquiry addressed to the last available address of each alumnus will usually keep this record up to date.

RESUME.

The forms outlined and discussed in this bulletin are, in the order of their appearance in the student's academic career:

1. The application blank.

2. The preparatory school certificate.

3. Registration forms—Student directory.

Class assignment.

4. Miscellaneous forms for daily record and care of students.

5. Permanent record form. This includes the information given in 2, 3, and 6.

6. Alumni record, included in 5.

It will be noted that the preceding forms are primarily for the regular undergraduate students, and that no provision has been made for special classes, such as graduate, irregular or special, short or winter term, and extension students. Undoubtedly an institution will find it advisable to use a special blank for one or more of these classes, but the variations from the standard forms will suggest themselves.

Appendix A.—Outline of systems used by Randolph-Macon Woman's College, Northwestern University, and Massachusetts Institute of Technology. Appendix B:-Miscellaneous forms:

(a) Remission of tuition fees, University of Cincinnati.

(b) and (c) Application for advanced standing, University of Michigan (2 forms).

(d) Change of registration, Earlham College.

(e) Matriculation card, Pennsylvania State College.

(f) Class report of examination to the registrar, Pennsylvania State College.

(g) Notice of low standing, Pennsylvania State College.

- (h) Instructor's report card of changes in class enrollment (not attendance), Massachusetts Institute of Technology.
- (i) Report of absence by instructor, University of Wooster.
- (k) Notice of absence to instructor, University of Wooster.

(1) Class grade report, Kentucky State University.

(m) Class list, Kentucky State University.

(n) Report to preparatory schools of Kentucky of grades of admitted students.

(o) Class standing report, Allegheny College.

(p) Notice of failure, Allegheny College.

(q) Personal grade card, Massachusetts Institute of Technology.

(r) Notice of personal interview, University of Kansas.

(s) Application for graduation, DePauw University.

(t) Application for permission to carry extra hours, DePsuw University.

OUTLINE OF CERTAIN SYSTEMS.

Randolph-Macon Woman's College.

As soon as the application for admission is received, an endeavor is made to secure as full and detailed statement as possible of the credits offered for entrance (using the preparatory school certificate)—these being certified by the principal of the preparatory school. The registrar estimates the value of each unit, in every instance requiring at least the minimum of 13 units to be offered. At the opening of the fall term these certificates of preparation are submitted to the committee on matriculation, which is composed of the heads of the several departments and the principal instructors; this committee, in turn, interviews each applicant personally and separately, and the credit accorded her in each subject, whether by certificate or examination, is entered on the matriculation ticket (registration and class assignment blank) by the instructor in that department. The matriculation ticket and certificate are then returned to the registrar's office, and the credits so given are entered on the student's record, these three forms—the certificate of preparation, the matriculation ticket, and the student's record-being our official records.

Northwestern University-College of Liberal Arts.

Description of Printed Forms Used in the Registrar's Office.

Before the days of registration the prospective student is urged to forward the matriculation blank properly filled out on the first page, and the certificate of entrance credits made out and signed by the principal of the high school. He is also urged to read carefully the "Undergraduate's Manual."

On the day of registration the freshman goes first to the library, where he meets the precident of the university and is given a time appointment with the dean of the These appointments are three minutes apart. If the matriculation blank college. These appointments are three minutes apart. If the matriculation many has not been sent previous to the student's coming, he fills that out before meeting the dean. From the certificate which has been formerly submitted a transcript memorandum of entrance credit is written. On this memorandum the dean assigns an adviser-professor, to whom the student then goes. In company with the adviser the program of studies is arranged and recorded in duplicate. After this appropriate the program of studies is arranged and recorded in duplicate. After this appropriate the program of studies is arranged and recorded in duplicate. program is approved by a committee—to prevent entrance to a section already over-crowded, or enrollment for more than three recitations in a half day—it is then approved by the registrar and the bill is issued. In the registrar's office the program is copied on a registration card (different colors being used for different years) and a class card is made out for each course and sent to the proper instructor before the time of the first recitation.

On the colored card the student's absences are recorded in the registrar's office.

The registration is finally copied on the large card, which is the permanent record of a student's work.

The program of a sophomore, or upper-class man, differs from that above mentioned in that he takes from the registrar's office to his adviser a blank on which the registrar has indicated certain prescribed studies which ought to be included in the registration. The adviser has received from the registrar's office a record of the student's previous work. With the help of this record it is possible to encourage the registration for prescribed studies in their proper place.

Absences are reported by instructors to this office every week. When a student has recorded against him absences in a course amounting to one-eighth of the class exercises in that course he receives a warning. When his absences amount to more than one-eighth, but not more than one-sixth of the class exercises in the course, he is notified by the registrar's office that he is due for an additional examination, and if the absences exceed one sixth he is notified that his registration in the course is canceled, and notice is also sent to his instructor. When a student's work is reported unsatisfactory, he is notified and asked to confer with his instructor at once. When a student wishes to change his program he secures from the registrar's office a blank on which the change his program he secures from the registrar's office a blank, on which the changes are recorded and necessary signatures secured. The blank is then filed at the registrar's office and instructors are notified of courses dropped and of courses entered by receiving class cards. At the close of the semester instructors report grades to the registrar's office, and from the registrar's office the

semester record of each student is sent to his parents or guardian.

Each student is required to designate the department which he chooses as his major at the beginning of his third year. At the close of the junior year a student expecting to graduate in the following year is required to file with the registers a senior petition. A student registering from another department of the university brings to the registrar's office a recommendation from the department in which he has his primary registration. The record of a student transferring to another school is furnished on the certificate of standing.

Massachusetts Institute of Technology.

Each student fills out an attendance card according to the course he elects. Roll

Each student fills out an attendance card according to the course he elects. Roll cards supplement the attendance card, and are kept in the registrar's office and used for a card catalogue for all courses. The address card is used at the information office for the address of students, and gives the tabular view of their exercises, which shows where they may be found during the school hours. The birsar's card is used by him. The attendance card, which is a petition for each student for admission to the subjects he desires, is approved by the registrar, and then the roll cards are checked to agree with each card, by assistants. These roll cards are then separated into subjects (it is found convenient to use numbers to represent these), and then each subject is separated into its various sections, if the class in this subject is divided into sections. The rolls are written by hand, or by the typewriter on paper, and these rolls are corrected by the instructors, by use of the roll correction card, a new roll is issued every ments.

Changes in the attendance card after the card is approved are made by the use of

petitions to the faculty.

Records are returned by instructors on the alpha betical lists. The names of students entitled to records are underlined in red ink. There are formal and informal reports. Informal reports are made for students in the first two years, at the end of the first

Informal reports are made for students in the first two years, at the end of the first five and first ten weeks of the two terms. Lists corresponding to these alphabetical lists are gummed and pasted into record books, that are ruled to agree with the spacing of the alphabetical lists, where these informal records are posted.

Formal records are returned on the same alphabetical lists, but these records are kept in a different way. The names of the students are separated into years, and for the three upper classes are again separated into courses. The choice of course is not made by first-year students until after the first term, and the courses do not differ enough in the second term to warrant the separation. The names of students are enough in the second term to warrant the separation. The names of students are

enough in the second term to warrant the separation. The names of students are written, 30 on a page, at the left, and the subjects are written across the top. A copying ribbon is used on the typewriter, so that immediately before the faculty meeting to consider these records a copy can be made for the head of each department. Reports are sent to students on a blank similar to the attendance card in form. Various printed forms and notes are used in regard to the absence of students from exercises, and notices requesting them to consult various officers.

Entrance records are kept on cards, and students register for the entrance examinations on a special card, and gummed labels are attached to these cards as well as to all examination books. A different color is used for each candidate, such as preliminary, final, complete, and partial. The color of the label, together with the name on it, assists greatly with the rapid separation of the papers immediately after the examination, in the registrar's office. These are examined to correspond with the examination book, and it is customary to separate the books into groups, as preliminary, final, complete, and partial, and dividing each group, when necessary, into smaller groups, for examination. The records are returned on these written lists and are entered on the attendance cards. These are kept until the student enters the institute, and from these the entrance record is recorded on the permanent record of institute, and from these the entrance record is recorded on the permanent record of the student.

APPENDIX B.-MISCELLANEOUS FORMS.

[FORM Ba.]

University of Cincinnati.
Application for the Remission of Tuition Fees.
The undersigned, claiming that is a bona fide citizen of the city of Cincinnati, requests that be matriculated without payment of tuition.
1. Name of applicant in full. 2. Date of birth
Name of parents living Residence of parents
6. Are your parents native-born or naturalized citizens? 7. When did you first come to Cincinnati?
8. What school or college, if any, have you attended since your removal to Cincinnati?
9. (a) When did you enter such school or college? (b) How long did you attend same?
(c) If such school or college had been located elsewhere, would you have come to Cincinnati?
10. (a) Did you come to Cincinnati primarily to obtain an education? (b) If not, state fully the purposes for which you came to Cincinnati
11. When you removed to Cincinnati was it your intention to-remain in Cincinnati permanently?
12. Had you any intention of ever returning to your former place of residence?13. (a) Have you ever returned to your former place of residence since your removal
to Cincinnati? If so, how often, and during what periods and for what purposes?
(b) Where and how do you spend your vacations? 14. How long do you expect to remain in Cincinnati?
15. Do you expect ever to leave Cincinnati? If so, when and for what purpose?
16. Where do you expect to live after your graduation? 17. What profession or business do you intend to pursue or engage in after your
graduation? 18. Do you or your parents own property in Cincinnati?
19. What is your source of support? Parents, friends, self, school fund. (Cross out all but actual source of support.)
20. Have you any employment in Cincinnati? If so, what? 21. Have you any employment elsewhere? If so, what?
22. Are you a voter?
24. When and where have you voted in Cincinnati? 25. Where are you now registered?

SPECIAL INSTRUCTIONS.

Please fill out this application for advanced standing, paying special attention to all details. Kindly insert on the second page of the application your preparatory work, stating the high school in which it was done, and have the principal of that high school render the statement official by affixing his signature. If more convenient, you may forward an entrance certificate, filled out and signed by the principal, direct to this office. The third page is for the work you have done of collegiate or normal grade. Be careful to specify not only the number of weeks, but the number of hours per week devoted to each study. This statement may be rendered official by having it signed by the registrar or president of the college where the work was done. This paper properly filled out and accompanied by a letter of honorable dismissal from will enable the committee to inform you immediately upon its receipt as to the number of hours of advanced credit which you may expect to receive should you decide to transfer to this department.

Admission to Advanced Standing from Other Colleges and Universities.

The following credentials are required: A. A letter of honorable dismissal from the college or university last attended. B. An official detailed statement of preparatory studies. C. An official detailed statement of college studies completed for which credit is desired. D. A marked catalogue of the college or university, showing each subject, including entrance.

This blank should be filled out with care and accuracy, and forwarded with the applicant's credentials, as early as possible, to the Registrar of the University of Michigan, Ann Arbor, Mich

Michigan, Ann Arbor, Mich. 19...... To the Committee on Advanced Standing: I, the undersigned, respectfully apply for admission in October, 13...., to the and herewith submit the following answers in support of the application: 1. When did you enter the above institution?..... When did you leave?..... 2. Did you offer for entrance any school confiscate?...... If so, apply for a University of Michigan Certificate of Recommendation. 4. If not, what deficiencies?.... 5. How did you make up these deficiencies?.... 6. Were you credited toward graduation with any subjects at entrance?..... 7. If so, what subjects and how much credit for each?..... 8. How many full years have you attended regular instruction in the above institution? 9. How many terms are there in each year?..... 10. How many hours are required for the degrees, exclusive of drill and gymnasium? 11. What portion of your course have you already completed? E. g. 58/120, 135/180, etc..... 12. Can you continue in your institution, if you desire to do so?..... 13. How many hours did you pass during your last term of attendance?..... 14. Do you hold an Honorable Dismiseal?..... Send it. 15. Have you sent a catalogue of the institution, marking the exact subjects offered t entrance and those completed by you?...... If not, send one. Name in full....

PREPARATORY STUDIES.

Preparatory high school. 191.
Fifteen units are required for admission, a unit meaning the equivalent of five reci-Fifteen units are required for admission, a unit meaning the equivalent of five recitations a week in one branch of study for one year, amounting in the aggregate to not less than one hundred and twenty 60-minute hours in the clear. Two to three hours of laboratory, drawing, or shop work will be counted as equivalent to one of recitation. These fifteen units must include three units of English composition and literature, two units of a foreign language, one unit of algebra and one of geometry, and one unit of one of the sciences, physics, chemistry, botany, or zoology, and may include not more than three units from Group II. They must embrace two subjects of three units each from Group I. It is, however, strongly recommended that one or more studies be pursued throughout the four years of the high-school course. The subjects studies be pursued throughout the four years of the high-school course. The subjects from which choice may be made, and the number of units which will be accepted in each subject, are as follows:

Group I.

Subject.	Hours per week.	No. of weeks.	Grade.	Subject.	Hours per week.	No. of weeks.	Grade.
English composition and literature, for 4 units. Greek, 2 or 3 units. Latin, 2, 3, or 4 units. French, 2, 3, or 4 units. German, 2, 3, or 4 units. Bpanish, 2, 3, or 4 units. History, 1, 2, or 3 units. Algebra, 1, 12, or 3 units.				Zoology, unit		· · · · · · · · · · · · · · · · · · ·	••••••••••••

Three units of science may be offered as a three-unit subject. In order that a half unit in science may be accepted it must be supplemented by a second half unit in science may be accepted it must be supplemented by a second half unit in science. For this purpose the only groupings permitted are the following: (a) Botany and zoology; (b) Zoology (or botany) and physiology; (c) Physiography and geology; (d). Physiography and physiology.

Two units of mathematics and one unit of physics may be offered as a three-unit subject in which case a second unit of science must be presented.

subject, in which case a second unit of science must be presented.

Group II.

Subject.	Hours per week.	No. of weeks.	Orade.	Subject.	Hours per week.	No. of weeks.	Grade.
Agriculture, 1 or 2 units Domestic science, 1 or 2 units Drawing, § or 1 unit				Manual training, 1 or 2 units			

The above is not designed to take the place of the required official statement. The preparatory school, however, may make the above statements official by signing the following statement:

I hereby certify to the accuracy of the above statement.

Date of report, 191... Signature.....

PLEASE OBSERVE CAREFULLY THE FOLLOWING DIRECTIONS.

Two reports must be made of every examination, the results of which are to go on record. The report to the registrar (184 Main Building) should contain the names of all the students enrolled in the class, arranged alphabetically with initials affixed. The class should then be divided according to the school or freshman division in which each student is enrolled, and a report of each group, with names arranged alphabetically and initials affixed, sent to its proper dean or freshman advisor.

Give each subject its catalogue name and number (e.g., math. 5). Use a separate sheet for each subject. Note the time and reason for any withdrawals from the class. If a student's dean or adviser has authorized the deferring of a grade in a given subject, note the fact and state the reason.

If a student fails in the examination, but has a combined term and examination

If a student fails in the examination, but has a combined term and examination grade of 60 or more, indicate this fact by giving him a grade of "D."
