BULLETIN, 1909: NO. 7

WHOLE NUMBER 407

INDEX TO THE
REPORTS OF THE COMMISSIONER
OF EDUCATION: 1867-1907

WASHINGTON
GOVERNMENT PRINTING OFFICE
1909

PREFATORY NOTE.

What is here presented is the first essay in the history of the Bureau of Education toward a comprehensive index of the annual reports of the Commissioner. It includes authors and subjects, with an analysis of the more important articles, for the years 1867 to 1907, inclusive.

In the Report for 1888-89 was published a subject-index of all the publications of the bureau for the years 1867 to 1890, which was reprinted as a separate chapter, with the imprint 1891. No attempt was then made, however, to present a complete index of the annual reports.

From 1867-68 to 1887-88 the reports were published annually in one volume. From 1888-89 they were issued in two volumes each year. The total number of volumes indexed is accordingly fifty-seven, as follows:
