

WEB TABLES

U.S. DEPARTMENT OF EDUCATION
DECEMBER 2013 NCES 2014-169

Undergraduate Financial Aid Estimates by Type of Institution in 2011–12

These Web Tables present estimates of tuition and fees, the total price of attendance (tuition and fees plus living expenses), and several types and combinations of financial aid packages that undergraduates received in 2011–12. The price of an undergraduate education varies widely depending on a number of characteristics, including institution type and attendance status (Berkner and Choy 2008). To take these factors into account, estimates are shown by institution type for those enrolled in public 4-year, private nonprofit 4-year, private for-profit 4-year, public 2-year, and private for-profit 2-year institutions.¹

Both for all undergraduates and for those within each institution type, estimates are presented by students' attendance status, dependency status, and income.² Many institutions charge full-time/full-year undergraduates

higher tuition and fees than their part-time counterparts. Further, eligibility for certain financial aid programs is based upon attendance status: to qualify for a federal Direct Loan, a student must be enrolled at least half time. Therefore, these Web Tables present results for full-time/full-year undergraduates as well as all undergraduates. Students' or their families' income level affects the amount of aid for which students are eligible, and the effects of income depend on whether a student is financially dependent on his or her family or is independent. Consequently, estimates are presented by dependency status and income categories for all undergraduates and undergraduates in each type of institution.

Tables 1–4 show the percentage of students receiving aid and the average amount of aid received by aided students enrolled in all types of institutions.

Tables 5–8 show the same data for those enrolled in public 4-year institutions; tables 9–12 present the data for those enrolled in private nonprofit 4-year institutions; tables 13–16 show the statistics for those attending private for-profit 4-year institutions; tables 17–20 show estimates for those attending public 2-year institutions; and tables 21–24 show the same data for undergraduates enrolled in private for-profit 2-year institutions.

DATA

The estimates presented in these Web Tables were generated from the 2011–12 National Postsecondary Student Aid Study (NPSAS:12), a comprehensive, nationally representative survey of how students finance their postsecondary education conducted by the National Center for Education Statistics (NCES). NPSAS also includes a broad array of demographic and enrollment characteristics.

NPSAS uses a two-stage sampling design. Institutions are selected for inclusion in the first stage, and students are selected from these institutions in the second stage. The NPSAS:12 target population consisted of all eligible undergraduate and graduate students enrolled any time between July 1, 2011, and June 30, 2012 at Title IV³ eligible postsecondary institutions in the 50 states and the District of Columbia. Approximately 95,000 undergraduates and 16,000 graduate students were study respondents for NPSAS:12.

For an overview of the survey methodology, see Appendix B—NPSAS:12 Technical Notes and Methodology of

VARIABLES USED

All estimates presented in these Web Tables were produced using PowerStats, a web-based software application that allows users to generate tables for many of the postsecondary surveys conducted by NCES. The variables used in these Web Tables are listed below. Visit the NCES DataLab website (<http://nces.ed.gov/datalab>) to view detailed information on how these variables were constructed and their sources. Under *Detailed Information About PowerStats Variables, NPSAS Undergraduates: 2012*, click by *subject* or by *variable name*. The program files that generated the statistics presented in these Web Tables can be found at <http://nces.ed.gov/pubsearch/pubsinfo.asp?pubid=2014169>.

the *2011–12 National Postsecondary Student Aid Study (NPSAS:12) Student Financial Aid Estimates for 2011–12: First Look* (<http://nces.ed.gov/pubs2013/2013165.pdf>).

ABOUT POWERSTATS

PowerStats produces the design-adjusted standard errors necessary for testing the statistical significance of differences in the estimates. It also

contains a detailed description of how each variable was created and question wording for items coming directly from an interview.

With PowerStats, users can replicate or expand upon the tables presented in this report. The output from PowerStats includes the table estimates (e.g., percentages or means), standard errors,⁴ and weighted

sample sizes for the estimates. If the number of valid cases is too small to produce a reliable estimate (i.e., fewer than 30 cases), PowerStats prints the double dagger symbol (‡) instead of the estimate.

In addition to producing tables, PowerStats users may conduct linear or logistic regressions. Many options are available for output with the regression results. For a description of all the options available, users should access the PowerStats website at <http://nces.ed.gov/datalab/index.aspx>.

For more information, contact powerstats@ed.gov.

ENDNOTES

¹ Estimates shown by institution type do not include students who attended more than one institution.

² Dependent student family income and independent student income are divided into categories based upon income percentiles. For dependent students' income, "Less than

\$30,000" includes students in the lowest quarter of the distribution by family income; "\$30,000 to \$105,999" includes those in the middle two quarters; and "\$106,000 or more" includes those in the highest quarter. For independent students' income, "Less than \$20,000" includes those students whose income falls below the median income level, while "\$20,000 or more" includes those with incomes at or above the median.

³ Title IV institutions are those eligible to participate in the federal financial aid programs included in Title IV of the Higher Education Act. These programs include Pell Grants, federal student loans, work-study, and other federal aid.

⁴ The NPSAS samples are not simple random samples; therefore, techniques for estimating sampling error assuming simple random sampling cannot be applied to these data. PowerStats takes into account the complexity of the NPSAS sampling procedures and calculates standard errors appropriate for such samples. The method for computing sampling errors used by PowerStats approximates the estimator by replication of the sampled population using a bootstrap technique.

Less than \$20,000	9,600	23,800	91.4	14,100	87.5	7,000	62.9	9,300
\$20,000 or more	9,400	23,500	85.8	12,500	63.3	5,400	60.6	9,600

NOTE: Average aid amounts are calculated for recipients only. "Average total price of attendance" includes tuition and fees, room and board, and other expenses as estimated by the institutions. "Total aid" includes all types of financial aid from any source except parents, friends, or relatives. Direct PLUS Loans to parents and other types of aid such as veterans' benefits and job training funds are included in "Total aid." Does not include federal tax credits for education. "Total grants" include grants, scholarships, or tuition waivers from federal, state, institutional, or private sources, including employers. "Student loans" may be from any source, but exclude other forms of financing such as credit cards, home equity loans, loans from individuals, and Direct PLUS Loans to parents. Students may receive more than one type of aid and aid from more than one source. Full-time/full-year students were enrolled full time for 9 or more months from July 1, 2011 to June 30, 2012. Independent students are age 24 or over and students under 24 who are married, have dependents, are veterans or on active duty, are orphans or wards of the courts, are homeless or at risk of homelessness, or were determined to be independent by a financial aid officer using professional judgment. Other undergraduates under age 24 are considered to be dependent. For dependent students, income is the income of their parents. Independent student income includes the income of a spouse if the student is married. Prior year (2010) income is used in federal need analysis. Estimates include students enrolled in Title IV eligible postsecondary institutions in the 50 states and the District of Columbia. Prior cycles of NPSAS included sampled institutions from Puerto Rico; to yield comparable estimates across cycles, use the COMPT087 variable to exclude Puerto Rican institutions from estimates.

NOTE: Average aid amounts are calculated for recipients only. "Federal grants" are Pell Grants, Federal Supplemental Educational Opportunity Grants (FSEOG), the Teacher Education Assistance for College and Higher Education (TEACH) Grants, the Iraq and Afghanistan Service Grants, and a small number of other federal grants. "State grants" and "Institutional grants" include any grants, scholarships, or tuition waivers that are funded by a state or by the institution attended, respectively. "Other grants" include grants and scholarships from private sources outside of the institution, including tuition aid from employers. Students may receive more than one type of grant and grants from more than one source. Full-time/full-year students were enrolled full time for 9 or more months from July 1, 2011 to June 30, 2012. Independent students are age 24 or over and students under 24 who are married, have dependents, are veterans or on active duty, are orphans or wards of the courts, are homeless or at risk of homelessness, or were determined to be independent by a financial aid officer using professional judgment. Other undergraduates under age 24 are considered to be dependent. For dependent students, income is the income of their parents. Independent student income includes the income of a spouse if the student is married. Prior year (2010) income is used in federal need analysis. Estimates include students enrolled in Title IV eligible postsecondary institutions in the 50 states and the District of Columbia. Prior cycles of NPSAS included sampled institutions from Puerto Rico; to yield comparable estimates across cycles, use the COMPT087 variable to exclude Puerto Rican institutions from estimates.

‡ Reporting standards not met – too few cases for a reliable estimate.

NOTE: Average aid amounts are calculated for recipients only. Components do not add to totals because denominators vary. "Total aid" includes all types of financial aid from any source except parents, friends, or relatives. Does not include federal tax benefits for education. "Grants or any other aid" include any combination of grants, scholarships, or tuition waivers as well as work-study, veterans' benefits, job training, and Direct PLUS Loans to parents. "Student loans only" may be from any source, but exclude other forms of financing such as credit cards, home equity loans, loans from individuals, and Direct PLUS Loans to parents. Students may receive more than one type of aid and aid from more than one source. Full-time/full-year students were enrolled full time for 9 or more months from July 1, 2011 to June 30, 2012. Independent students are age 24 or over and students under 24 who are married, have dependents, are veterans or on active duty, are orphans or wards of the courts, were homeless or at risk of homelessness, or were determined to be independent by a financial aid officer using professional judgment. Other undergraduates under age 24 are considered to be dependent. For dependent students, income is the income of their parents. Independent student income includes the income of a spouse if the student is married. Prior year (2010) income is used in federal need analysis. Estimates include students enrolled in Title IV eligible postsecondary institutions in the 50 states and the District of Columbia. Prior cycles of NPSAS included sampled institutions from Puerto Rico; to yield comparable estimates across cycles, use the COMPTO87 variable to exclude Puerto Rican institutions from estimates.

NOTE: Average aid amounts are calculated for recipients only. "Average total price of attendance" includes tuition and fees, room and board, and other expenses as estimated by the institutions. "Total aid" includes all types of financial aid from any source except parents, friends, or relatives. Direct PLUS Loans to parents and other types of aid such as veterans' benefits and job training funds are included in "Total aid." Does not include federal tax credits for education. "Total grants" include grants, scholarships, or tuition waivers from federal, state, institutional, or private sources, including employers. "Student loans" may be from any source, but exclude other forms of financing such as credit cards, home equity loans, loans from individuals, and Direct PLUS Loans to parents. Students may receive more than one type of aid and aid from more than one source. Full-time/full-year students were enrolled full time for 9 or more months from July 1, 2011 to June 30, 2012. Independent students are age 24 or over and students under 24 who are married, have dependents, are veterans or on active duty, are orphans or wards of the courts, are homeless or at risk of homelessness, or were determined to be independent by a financial aid officer using professional judgment. Other undergraduates under age 24 are considered to be dependent. For dependent students, income is the income of their parents. Independent student income includes the income of a spouse if the student is married. Prior year (2010) income is used in federal need analysis. Estimates exclude students who attended more than one institution. Estimates include students enrolled in Title IV eligible postsecondary institutions in the 50 states and the District of Columbia. Prior cycles of NPSAS included sampled institutions from Puerto Rico; to yield comparable estimates across cycles, use the COMPT087 variable to exclude Puerto Rican institutions from estimates.

Independent student income				
Less than \$20,000	9.0	23.5	64.5	2.9
\$20,000 or more	16.4	18.9	48.1	16.5

‡ Reporting standards not met – too few cases for a reliable estimate.

NOTE: “Grants or any other aid except student loans” include any combination of grants, scholarships, or tuition waivers as well as work-study, veterans’ benefits, job training, and Direct PLUS Loans to parents. “Student loans only” may be from any source, but exclude other forms of financing such as credit cards, home equity loans, loans from individuals, and Direct PLUS Loans to parents. Students may receive more than one type of aid and aid from more than one source. Full-time/full-year students were enrolled full time for 9 or more months from July 1, 2011 to June 30, 2012. Independent students are age 24 or over and students under 24 who are married, have dependents, are veterans or on active duty, are orphans or wards of the courts, were homeless or at risk of homelessness, or were determined to be independent by a financial aid officer using professional judgment. Other undergraduates under age 24 are considered to be dependent. For dependent students, income is the income of their parents. Independent student income includes the income of a spouse if the student is married. Prior year (2010) income is used in federal need analysis. Estimates exclude students who attended more than one institution. Detail may not sum to totals because of rounding. Estimates include students enrolled in Title IV eligible postsecondary institutions in the 50 states and the District of Columbia. Prior cycles of NPSAS included sampled institutions from Puerto Rico; to yield comparable estimates across cycles, use the COMPT087 variable to exclude Puerto Rican institutions from estimates.

† Interpret data with caution. Estimate is unstable because the standard error represents more than 30 percent of the estimate.

‡ Reporting standards not met – too few cases for a reliable estimate.

NOTE: Average aid amounts are calculated for recipients only. "Federal grants" are Pell Grants, Federal Supplemental Educational Opportunity Grants (FSEOG), the Teacher Education Assistance for College and Higher Education (TEACH) Grants, the Iraq and Afghanistan Service Grants, and a small number of other federal grants. "State grants" and "Institutional grants" include any grants, scholarships, or tuition waivers that are funded by a state or by the institution attended, respectively. "Other grants" include grants and scholarships from private sources outside of the institution, including tuition aid from employers. Students may receive more than one type of grant and grants from more than one source. Full-time/full-year students were enrolled full time for 9 or more months from July 1, 2011 to June 30, 2012. Independent students are age 24 or over and students under 24 who are married, have dependents, are veterans or on active duty, are orphans or wards of the courts, are homeless or at risk of homelessness, or were determined to be independent by a financial aid officer using professional judgment. Other undergraduates under age 24 are considered to be dependent. For dependent students, income is the income of their parents. Independent student income includes the income of a spouse if the student is married. Prior year (2010) income is used in federal need analysis. Estimates exclude students who attended more than one institution. Estimates include students enrolled in Title IV eligible postsecondary institutions in the 50 states and the District of Columbia. Prior cycles of NPSAS included sampled institutions from Puerto Rico; to yield comparable estimates across cycles, use the COMPT087 variable to exclude Puerto Rican institutions from estimates.

Rounds to zero.

! Interpret data with caution. Estimate is unstable because the standard error represents more than 30 percent of the estimate.

‡ Reporting standards not met – too few cases for a reliable estimate.

NOTE: “Grants or any other aid except student loans” include any combination of grants, scholarships, or tuition waivers as well as work-study, veterans’ benefits, job training, and Direct PLUS Loans to parents. “Student loans only” may be from any source, but exclude other forms of financing such as credit cards, home equity loans, loans from individuals, and Direct PLUS Loans to parents. Students may receive more than one type of aid and aid from more than one source. Full-time/full-year students were enrolled full time for 9 or more months from July 1, 2011 to June 30, 2012. Independent students are age 24 or over and students under 24 who are married, have dependents, are veterans or on active duty, are orphans or wards of the courts, were homeless or at risk of homelessness, or were determined to be independent by a financial aid officer using professional judgment. Other undergraduates under age 24 are considered to be dependent. For dependent students, income is the income of their parents. Independent student income includes the income of a spouse if the student is married. Prior year (2010) income is used in federal need analysis. Estimates exclude students who attended more than one institution. Detail may not sum to totals because of rounding. Estimates include students enrolled in Title IV eligible postsecondary institutions in the 50 states and the District of Columbia. Prior cycles of NPSAS included sampled institutions from Puerto Rico; to yield comparable estimates across cycles, use the COMPT087 variable to exclude Puerto Rican institutions from estimates.

! Interpret data with caution. Estimate is unstable because the standard error represents more than 30 percent of the estimate.

‡ Reporting standards not met – too few cases for a reliable estimate.

NOTE: "Grants or any other aid except student loans" include any combination of grants, scholarships, or tuition waivers as well as work-study, veterans' benefits, job training, and Direct PLUS Loans to parents. "Student loans only" may be from any source, but exclude other forms of financing such as credit cards, home equity loans, loans from individuals, and Direct PLUS Loans to parents. Students may receive more than one type of aid and aid from more than one source. Full-time/full-year students were enrolled full time for 9 or more months from July 1, 2011 to June 30, 2012. Independent students are age 24 or over and students under 24 who are married, have dependents, are veterans or on active duty, are orphans or wards of the courts, were homeless or at risk of homelessness, or were determined to be independent by a financial aid officer using professional judgment. Other undergraduates under age 24 are considered to be dependent. For dependent students, income is the income of their parents. Independent student income includes the income of a spouse if the student is married. Prior year (2010) income is used in federal need analysis. Estimates exclude students who attended more than one institution. Detail may not sum to totals because of rounding. Estimates include students enrolled in Title IV eligible postsecondary institutions in the 50 states and the District of Columbia. Prior cycles of NPSAS included sampled institutions from Puerto Rico; to yield comparable estimates across cycles, use the COMPT087 variable to exclude Puerto Rican institutions from estimates.

[!] Interpret data with caution. Estimate is unstable because the standard error represents more than 30 percent of the estimate.

[‡] Reporting standards not met – too few cases for a reliable estimate.

NOTE: Average aid amounts are calculated for recipients only. "Federal grants" are Pell Grants, Federal Supplemental Educational Opportunity Grants (FSEOG), the Teacher Education Assistance for College and Higher Education (TEACH) Grants, the Iraq and Afghanistan Service Grants, and a small number of other federal grants. "State grants" and "Institutional grants" include any grants, scholarships, or tuition waivers that are funded by a state or by the institution attended, respectively. "Other grants" include grants and scholarships from private sources outside of the institution, including tuition aid from employers. Students may receive more than one type of grant and grants from more than one source. Full-time/full-year students were enrolled full time for 9 or more months from July 1, 2011 to June 30, 2012. Independent students are age 24 or over and students under 24 who are married, have dependents, are veterans or on active duty, are orphans or wards of the courts, are homeless or at risk of homelessness, or were determined to be independent by a financial aid officer using professional judgment. Other undergraduates under age 24 are considered to be dependent. For dependent students, income is the income of their parents. Independent student income includes the income of a spouse if the student is married. Prior year (2010) income is used in federal need analysis. Estimates exclude students who attended more than one institution. Estimates include students enrolled in Title IV eligible postsecondary institutions in the 50 states and the District of Columbia. Prior cycles of NPSAS included sampled institutions from Puerto Rico; to yield comparable estimates across cycles, use the COMPT087 variable to exclude Puerto Rican institutions from estimates.

! Interpret data with caution. Estimate is unstable because the standard error represents more than 30 percent of the estimate.

‡ Reporting standards not met – too few cases for a reliable estimate.

NOTE: Average aid amounts are calculated for recipients only. "Federal grants" are Pell Grants, Federal Supplemental Educational Opportunity Grants (FSEOG), the Teacher Education Assistance for College and Higher Education (TEACH) Grants, the Iraq and Afghanistan Service Grants, and a small number of other federal grants. "State grants" and "Institutional grants" include any grants, scholarships, or tuition waivers that are funded by a state or by the institution attended, respectively. "Other grants" include grants and scholarships from private sources outside of the institution, including tuition aid from employers. Students may receive more than one type of grant and grants from more than one source. Full-time/full-year students were enrolled full time for 9 or more months from July 1, 2011 to June 30, 2012. Independent students are age 24 or over and students under 24 who are married, have dependents, are veterans or on active duty, are orphans or wards of the courts, are homeless or at risk of homelessness, or were determined to be independent by a financial aid officer using professional judgment. Other undergraduates under age 24 are considered to be dependent. For dependent students, income is the income of their parents. Independent student income includes the income of a spouse if the student is married. Prior year (2010) income is used in federal need analysis. Estimates exclude students who attended more than one institution. Estimates include students enrolled in Title IV eligible postsecondary institutions in the 50 states and the District of Columbia. Prior cycles of NPSAS included sampled institutions from Puerto Rico; to yield comparable estimates across cycles, use the COMPT087 variable to exclude Puerto Rican institutions from estimates.

Percentage distribution of undergraduates by student characteristics, within type of institution: 2011–12

Student characteristics	Total	Public 4-year	Private nonprofit 4-year	Private for-profit 4-year	Public 2-year	Private for-profit 2-year
All undergraduates						
Total	100.0	100.0	100.0	100.0	100.0	100.0
Attendance pattern						
Full-time/full-year	38.4	53.0	62.7	32.0	20.3	33.1
Part-time/part-year	61.6	47.0	37.3	68.0	79.7	66.9
Dependency status						
Dependent	48.7	64.4	67.3	13.0	40.3	32.4
Independent	51.3	35.6	32.7	87.0	59.7	67.6
Dependent student income						
Less than \$30,000	25.3	21.9	18.1	45.7	30.5	42.4
\$30,000–105,999	49.6	48.7	49.0	43.9	52.4	44.2
\$106,000 or more	25.2	29.3	32.8	10.4	17.1	13.4
Independent student income						
Less than \$20,000	50.0	50.8	42.1	50.0	48.0	65.0
\$20,000 or more	50.0	49.2	57.9	50.0	52.0	35.0
Full-time/full-year undergraduates						
Total	100.0	100.0	100.0	100.0	100.0	100.0
Dependency status						
Dependent	69.3	80.4	85.1	16.4	57.8	35.5
Independent	30.7	19.6	14.9	83.6	42.2	64.5
Dependent student income						
Less than \$30,000	23.4	22.5	17.0	44.5	32.3	46.0
\$30,000–105,999	48.2	47.8	48.0	43.7	51.9	39.8
\$106,000 or more	28.4	29.6	34.9	11.7	15.8	14.2
Independent student income						
Less than \$20,000	61.2	68.4	58.1	49.9	62.1	63.6
\$20,000 or more	38.8	31.6	41.9	50.1	37.9	36.4

NOTE: Totals include students who attended public less-than-2-year, private nonprofit less-than-4-year, and for-profit less-than-2-year institutions as well as those who attended more than one institution. Full-time/full-year students were enrolled full time for 9 or more months from July 1, 2011 to June 30, 2012. Independent students are age 24 or over and students under 24 who are married, have dependents, are veterans or on active duty, are orphans or wards of the court, are homeless or at risk of homelessness, or were determined to be independent by a financial aid officer using professional judgment. Other undergraduates under age 24 are considered to be dependent. For dependent students, income is the income of their parents. Independent student income includes the income of a spouse if the student is married. Income is total income in 2010. Prior year (2010) income is used in federal need analysis. Estimates include students enrolled in Title IV eligible postsecondary institutions in the 50 states and the District of Columbia. Prior cycles of NPSAS included sampled institutions from Puerto Rico; to yield comparable estimates across cycles, use the COMPT087 variable to exclude Puerto Rican institutions from estimates. Detail may not sum to totals because of rounding.
