Oregon University System
2013 Fact Book

SYSTEM ORGANIZATION

Oregon University System Overview

Note regarding the Oregon University System Fact Book:

This is the last Fact Book that will be published under the auspices of the Oregon University System. On July 1, 2014, OUS will transition to a new structure.

Higher Education Governance Legislation Brings Change to OUS

Overview

The critical need to educate more Oregonians to meet student, state and workforce needs prompted the Governor, the Legislature, and the State Board of Higher Education to seek a number of higher education reforms. Adopted in recent legislative sessions, these reforms have intensified the focus on student outcomes through K-12 and postsecondary achievement compacts, addressed the need for new sources for funding Oregon's public universities, and created a more flexible, decentralized governance structure.

This is an exciting time for higher education in Oregon. A shared goal of improved student outcomes brought together high quality universities and faculty; an excellent and diverse student body; and a committed group of educators, policy makers and other Oregonians, who all contributed to the reform process. The result has aligned the Legislature, the Governor, and the higher education sector in an effort to achieve 40-40-20, Oregon's education attainment goal.

University Governance and Campus Changes

Beginning July 1, 2014, Oregon's three largest public universities — Oregon State University, Portland State University, and the University of Oregon — will have their own institutional governing boards and will no longer be governed by the State Board of Higher Education. This new model of governance for Oregon decentralizes all decision making, academic strategies, and financial management to campus leadership — institutional boards, the presidents, and their teams — who are more immediately sensitive to the needs of students and the individual campuses. Information on the new institutional boards is available on campus websites.

The system's four technical and regional universities — Eastern Oregon University, Oregon Institute of Technology, Southern Oregon University, and Western Oregon University — will continue to be governed by the State Board of Higher Education through June 30, 2015. State Board and legislative work groups are studying future governance of the technical and regional institutions, and outside experts, such as the Association of Governing Boards, will help the state determine the most appropriate options.

40-40-20

The Legislative Assembly declares that the mission of all education beyond high school in Oregon includes achievement of the following by 2025:

1. Ensure that at least 40 percent of adult Oregonians have earned a bachelor's degree or higher.
2. Ensure that at least 40 percent of adult Oregonians have earned an associate's degree or postsecondary credential as their highest level of educational attainment.
3. Ensure that the remaining 20 percent or less of all adult Oregonians have earned a high school diploma, an extended or modified high school diploma or the equivalent of a high school diploma as their highest level of educational attainment.

ORS 351.009 [1993 c.240 §5; 2011 c.638 §3]

Under the new model, all seven Oregon public universities will continue to collaborate with each other much as they do now. The newly established Higher Education Coordinating Commission (HECC) will ensure effective partnering among community colleges and universities in pursuit of Oregon's ambitious higher education attainment goal.

Transition of the Chancellor's Office

The assets and authorities within the Chancellor's Office that facilitate student success and system efficiency will transition to several different entities on July 1, 2014. Some functions will be assumed by HECC and others will be transferred to a new shared services organization, to individual campuses, and perhaps to other entities. More information on reforms and transitions within higher education will emerge over the next 12-18 months as working groups on university shared services and Board and Legislative committees on university governance complete their work. The short February 2014 and regular 2015 Legislative Sessions may also produce additional legislation.

Transition of the State Board of Higher Education

In the absence of further changes by the Legislature, on July 1, 2014, the State Board of Higher Education will transition to a governing board of the four technical/regional universities. The three larger universities will be governed by their own institutional boards. The Board will be in place until July 1, 2015, after which the technical and regional universities will also move to a new governance structure.

For more information on the transition, please see www.ous.edu.

Mission Statement - Fundamental Goals of Public Higher Education

The Legislative Assembly recognizes the following as fundamental goals of public higher education in Oregon:

1. Create an educated citizenry to support responsible roles in a democratic society and provide a globally competitive workforce to drive this state's economy, while ensuring access for all qualified Oregonians to a high-quality postsecondary education.
2. Ensure a high-quality learning environment that allows students to succeed.
3. Create original knowledge and advance innovation.
4. Contribute positively to the economic, civic and cultural life of communities in all regions of Oregon.

ORS 351.006 [2011 c.637 §17]

To gauge the degree to which Board goals have been achieved, a performance measurement framework has been developed, built around a few key measures for the four goals, accompanied by more detailed metrics to further support the key measures.

Oregon State Board of Higher Education

Board Roster 2013-14

Many members will be ending their terms on June 30, 2014. For updated information please see www.ous.edu

Matthew Donegan, Chair

OUS Campuses and Centers

Excellence is exemplified in the accomplishments of our students and faculty, in the quality of our academic instruction, through innovation in research, and in the scope of public service at our diverse, high-quality institutions. Dedicated top faculty, students, and staff join to effect excellence in numerous programs and in diverse disciplines, becoming more widely recognized nationally and internationally as leaders in specialized fields in the arts, sciences, and professions. As of July 1, 2014, the governance structure of the OUS will change (see above regarding governance transitions).

Southwestern Oregon University Center (SOUC)

www.ous.edu/about/campcent/ucsw
1988 Newmark Ave, Tioga 318
Coos Bay, OR 97420
p.(541) 888-1518

SOUC provides services to place-bound residents of Oregon's south coast and advising support for school counselors and potential transfer students. More than forty different certificate, baccalaureate, and graduate degree programs and services are provided by the Oregon University System's universities and several private colleges, most distance delivered.

Office of the Chancellor

Chancellor's Office

<http://www.ous.edu/about/chanoff/>
p.(503) 725-5700

The Chancellor's Office serves as the executive and administrative arm of the Oregon State Board of Higher Education, charged to carry out Board policies and ensure effective oversight of OUS universities on behalf of the state and the broader public. The Chancellor's Office is organized under the Chancellor as chief executive officer, with two vice chancellors (finance/administration and academic strategies) and staff serving key Board and external relations functions. As of July 1, 2014, the Chancellor's Office will no longer exist in its current form. For updated information on the current structure, please see www.ous.edu.

Oregon Health & Science University (OHSU)

www.ohsu.edu
3181 SW Sam Jackson Park Road
Portland, OR 97239-3098
Dr. Joseph E. Robertson, Jr., President
p.(503) 494-8311

OHSU, an affiliated institution, is a major center for instruction, research, and public service in the fields of medicine, dentistry, nursing, and related health programs. Science and engineering programs are offered through a merger with the Oregon Graduate Institute (OGI).

Eastern Oregon University (EOU)

www.eou.edu
One University Blvd
La Grande, OR 97850-2807
Dr. Bob Davies, President
p.(541) 962-3672

EOU serves its regional mission through programs in the liberal arts; professional programs in business, education, and community service; and cooperative programs in agriculture, dental health, and nursing.

Oregon Institute of Technology (OIT)

www.oit.edu
3201 Campus Drive
Klamath Falls, OR 97601-8801
Dr. Christopher Maples, President
p.(541) 885-1000

OIT is the Northwest's only polytechnic institution and provides programs in business, engineering and health technologies, and cooperative programs in dental health and nursing.

Oregon State University (OSU)

www.oregonstate.edu
104 Kerr Administration Bldg
Corvallis, OR 97331-2106
Dr. Edward Ray, President
p.(541) 737-0123

OSU is a land, sea, sun, and space grant university with programs in the liberal arts and sciences, agricultural sciences, business, education, engineering, forestry, health and human sciences, oceanography, pharmacy, and veterinary medicine.

Oregon State University - Cascades

www.osucascades.edu
2600 NW College Way
Bend, OR 97701
Dr. Rebecca Johnson, Vice President
p.(541) 322-3100

OSU-Cascades Campus in Bend opened in fall 2001 as a branch of Oregon State University on the site of its major partner, Central Oregon Community College. It is currently expanding programs and facilities to build towards a 4-year institution for the Central Oregon region.

Portland State University (PSU)

www.pdx.edu
P.O. Box 751
Portland, OR 97207-0751
Dr. Wim Wiewel, President
p.(503) 752-3000

PSU is an urban university offering liberal arts and sciences programs and professional programs in business, education, engineering, health, social work, and urban and public affairs.

Southern Oregon University (SOU)

www.sou.edu
1250 Siskiyou Blvd
Ashland, OR 97520-5005
Dr. Mary Cullinan, President
p.(541) 552-7672

SOU provides liberal arts and sciences programs; professional programs in business, education, and performing arts; and a cooperative program in nursing.

University of Oregon (UO)

www.uoregon.edu
1217 University of Oregon
Eugene, OR 97403-1217
Dr. Michael Gottfredson, President
p.(541) 346-1000

UO is a major liberal arts and sciences university with professional programs in architecture and allied arts, business, education, journalism, law, music and performing arts, and planning and public policy.

Western Oregon University (WOU)

www.wou.edu
345 N. Monmouth Avenue
Monmouth, OR 97361-1394
Mark Weiss, President
p.(503) 838-8000

Western provides programs in liberal arts and sciences; professional programs in education, business, and public services; and a cooperative program in nursing.

Access and Opportunities

Students in Oregon have more higher education options than ever before. They can earn college credit in high school. They can attend one of the OUS institutions, an OUS branch campus, or a private college. They can earn a transfer degree at a community college and finish their bachelor's degree at an OUS university. They can pursue their studies through distance education or international programs. Following are some of the opportunities available to students that bring education within everyone's reach.

Early Options for High School Students

(for more information see www.ous.edu)

The Oregon University System coordinates and collaborates on numerous pre-college programs and opportunities for K-12 students to help them prepare for postsecondary education.

- Dual credit - Allows high school students to take college courses at their high school, earning credit towards both high school graduation and their college degree.
- Advanced Placement (AP) - Upon completion of a high school AP course, students may take an AP examination with the potential to receive college credit.
- International Baccalaureate (IB) - An intense two-year course of study in high school followed by a series of exams. Students who pass IB exams at a satisfactory level may receive college credit. In January, 2010, the Joint Boards of Education approved a statewide IB alignment policy. Postsecondary credit will be awarded for scores of 5, 6, or 7 on either standard or high level IB exams.
- Oregon GEAR UP - A collaborative program that strives to increase the number of low-income Oregon students who pursue and succeed in postsecondary education.

In addition to these system-wide programs, each campus has strong pre-college programs and partnerships serving K-12 institutions throughout the state. Also, the Oregon Student Access Commission (OSAC) administers other college outreach activities and programs such as the ASPIRE Program, College Goal Oregon, and more.

Community College Partnerships

(for more information see www.ous.edu)

Many partnerships between OUS campuses and Oregon community colleges enable college students to plan more effectively for transfer and in some cases to enroll at both a community college and an OUS campus at the same time.

This allows the student to take upper-division courses at the OUS campus while taking community college courses during the same quarter. Typical benefits include:

- A single application process for both institutions,
- Student advising at both campuses,
- Access to college life on both campuses,
- Access to classes at either institution,
- Integrated financial aid, and
- Defined pathways with easier transition.

Transfer Opportunities

(for more information see www.ous.edu)

In recent years, OUS institutions and Oregon community colleges have been working together to make the transfer of credit between institutions easier.

- A new program between Oregon's public community colleges and universities offers students the option of obtaining a degree through "Reverse Transfer." This recognizes students' achievements with an associate's degree after they have transferred to a 4-year school and have accumulated the credits needed to fulfill the 2-year degree program requirements. It also recognizes the degree completion for the community college, which receives no "credit" for the degree through current data measures tracking completions.
- The Oregon Transfer Module (OTM) is available to students who have completed a minimum of one year (45 credits) in an approved set of general education classes. This module fully transfers to any Oregon community college or OUS institution.
- The Associate of Arts/Oregon Transfer (AA/OT) degree is a two-year, 90-credit general education credential that is similarly transferable to any institution.

Access and Opportunities

- Even without packaging courses into an OTM or AA/OT, the Oregon ATLAS program facilitates transfer and course planning for students across Oregon. The national online Course Applicability System (“u.select”), which powers ATLAS, helps students learn about and compare program requirements, course equivalencies, and how courses they have taken or plan to take will transfer to another college or university.

Distance Education

Distance education is an excellent educational option that enables Oregonians to participate in OUS courses offered anywhere in the state. This program is especially valuable for place-bound students with family and career responsibilities. OUS distance education courses are accredited and usually appear no differently on a student’s transcript than an in-person course. Most distance education courses are taught using internet resources, but other formats are available. Following are links to OUS campus distance education websites:

EOU	www.eou.edu/advising/orient
OIT	www.oit.edu/online
OSU	ecampus.oregonstate.edu
PSU	www.pdx.edu/psuonline
SOU	www.sou.edu/distancelearning
UO	de.uoregon.edu
WOU	www.wou.edu/provost/extprogram

Western Undergraduate Exchange

www.wiche.edu/wue

The Western Undergraduate Exchange (WUE) program allows students in WICHE member states to enroll in many two- and four-year college programs at a reduced tuition level (usually 150 percent of the institution’s regular resident tuition). Some institutions require evidence of satisfactory academic performance, such as ACT/SAT test scores or high school GPA, or limit WUE enrollment in other ways.

EOU, OIT, PSU, SOU, and WOU currently participate in the WUE program. Interested students must apply for admission and WUE tuition status directly to the institution(s) of their choice.

The most current information on programs can be found in the updated WUE bulletin from the WICHE website. For further information, contact the WICHE Office, (303) 541-0200, or OUS Student Success Initiatives, (541) 346-5725.

OUS International Programs

oregonabroad.ous.edu

A wide range of international study opportunities are available to students at all OUS universities. International programs are designed to offer academic, cultural, and personal learning opportunities in a structured academic setting at partner universities abroad. OUS international programs are available in:

- Australia
- China
- Denmark
- Ecuador
- England
- France
- Germany
- Ireland
- Italy
- Japan
- Korea
- Mexico
- Spain
- Thailand

Individual OUS institutions have numerous additional exchange programs around the world. Coursework taken through OUS international programs qualifies for academic credit on the student’s home campus in Oregon. Not all programs have language prerequisites.

IE3 Global Internships

ie3global.ous.edu

IE3 Global Internships is a unique program that combines cultural learning with professional experience. Through IE3 Global Internships students earn academic credit on their home campus while gaining professional experience abroad. Internships are available in a variety of private-sector companies, nonprofit organizations, and educational institutions around the world. Since the program began in 1996, over 2,000 OUS students have engaged in international internships. IE3 Global Internships provides internship placement, pre-departure orientations, international health insurance, learning tools, and monitoring and support by a regional director in the U.S.

Accelerated Baccalaureate

www.sou.edu/abp

Southern Oregon University offers an accelerated baccalaureate degree for students who have the motivation, maturity, time-management skills, and academic strengths necessary to finish a degree in three years. Advantages include financial savings, a focused undergraduate program, and an earlier entry into the job market. Visit the website for a listing of the participating degree programs.

Oregon University System
2013 Fact Book

STUDENTS

Enrollment Definitions

The Oregon University System (OUS), like all other higher education institutions, employs several different definitions in counting enrollment. The various definitions serve different purposes: budget preparation, workload evaluation, federal reporting, single-point snapshots, and description of OUS's provision of educational services. Additional definitions are provided in the Glossary.

Headcount Enrollment

Headcount enrollment represents the number of individual students enrolled in credit courses, regardless of course load. Historical enrollment has generally been expressed in terms of fall headcount. National comparisons of enrollment are most often made on the basis of fall headcount.

Including extended enrollment

In summer 1999, OUS began including extended enrollment in its reports, including enrollment in continuing education courses, web-based courses, contract courses, and other off-campus courses. For historical purposes in this Fact Book, we have gone back to 1991 to have comparable enrollment headcounts that include extended enrollment.

Historical

For long-term comparisons, however, we sometimes tabulate fall term headcounts that include students only if they enroll for at least one regular, or in-load, course (historically, this was called "base enrollment"). In such tabulations only, students enrolled exclusively in extended enrollment courses are excluded.

Total unduplicated headcount

Total unduplicated headcount provides a more comprehensive picture of student enrollment. This number reflects the total of all students, counted only once, enrolled in an OUS institution during any of the four terms of the year, regardless of course load. Both regular and extended campus enrollments are included.

Student Full-time Equivalent (FTE)

The student full-time equivalent (FTE) translates credit into enrollment, showing how many students it would take to produce the total credit-bearing activity of a campus if each student took exactly a full-time load. Calculation of the student full-time equivalent varies depending on the level of the student. The full-time equivalent for an undergraduate is assumed to be 15 term credit hours (or 45 annual credit hours). For master's and professional level students, the divisor is 12 term credit hours (36 annual credit hours), and for a doctoral student, it is 9 term credit hours (27 annual credit hours).

Fall Headcount, Actual and Projected¹ 2003 through 2022

	EOU	OIT	OSU Corvallis	OSU Cascades ²	PSU	SOU	UO	WOU	Total
2003 (Actual)	3,287	3,236	18,974	373	23,117	5,505	20,034	5,032	79,558
2004	3,338	3,373	19,159	438	23,486	5,161	20,339	4,772	80,066

Headcount is total enrollment and includes all extended enrollment.

¹ This projection was made in June 2013 so it could not reflect actual enrollment in fall 2013.

² In this report OSU Cascades had one student who was double-counted in fall 2003.

Includes extended enrollment. FTE enrollment represents annual credit hours divided by 45 for undergraduates; by 36 for master's, postbaccalaureate graduate, nonadmitted graduate, and professional level students; and by 27 for doctoral students.

¹ This projection was made in June 2013.

² Because of rounding, values for each institution may not sum exactly to the system total.

Enrollment by Racial/Ethnic Group, Fall 2003 through Fall 2013 (Minorities Grouped in a Single Category)

In fall 2010, federal methodology for collecting and reporting race/ethnicity changed (see the Glossary entry under “race/ethnicity” for a description of these changes). Most notably for this table, many students who previously were reported as “unknown race/ethnicity” are now associated with a specific ethnic or racial category.

Includes all distance-delivered courses including correspondence, video, and computer-based delivery. In 2011-12, the definition of distance education changed to include any course where technology is used to deliver instruction to students who are separated from the instructor.

¹ The annual student headcount reports all students enrolled in an OUS institution during any of the four terms of the academic year, counted only once even when a student changes level from undergraduate to graduate during the year.

Source: OUS Institutional Research.

2012-13	38,606	7,469	19.3
2013-14	38,166 (projected)	7,546	19.8

¹ The freshman participation rate is the ratio of OUS first-time freshmen from Oregon high schools (regardless of year of graduation) to Oregon high school graduates of the previous school year. For example, OUS fall 2001 resident freshmen new from high school comprised 24.1% of the June 2001 Oregon high school graduates.

Before 1994-95, counts exclude extended enrollment students.

Oregon University System
2013 Fact Book

PERFORMANCE MEASUREMENT

OUS Performance Measurement

Historical Overview

In 1997, the Oregon University System began developing a performance measurement system in response to Senate Bill 919. In the years following, OUS engaged Chancellor's Office staff, campus leaders, and members of the public to identify performance indicators for the System. In October 1997, the State Board of Higher Education approved an array of 30 measures. Through subsequent reviews, performance reporting was further refined and streamlined to focus on high-level outcomes. Currently, the Board receives annual performance reports on 13 indicators.

The Oregon University System also participates in a formal reporting process for a set of legislatively approved performance measures. This state-level effort began in 1989 with the publication of *Oregon Shines*, which articulated the state's strategic vision. The Oregon University System tracks 23 different indicators, reported annually to the Department of Administrative Services (DAS) and biennially to the Oregon Legislature.

In 2010, the State Board of Higher Education and its member institutions proposed restructuring the relationship between the Oregon University System and the State of Oregon. To that end, three bills were enacted by the 2011 Legislature that altered OUS governance, accountability, and performance measurement. The first, Senate Bill 242, created the Higher Education Coordinating Commission (HECC) to coordinate postsecondary education policy between OUS and Oregon community colleges. Additionally, SB 242 gave OUS more administrative and financial autonomy. The second bill, SB 909, established the Oregon Education Investment Board (OEIB) to oversee a unified pre-K-to-20 public education system. And the third bill, SB 253, established a statewide goal for educational attainment (commonly called "40-40-20"): by 2025, it is Oregon's intention that 40 percent or more of its adult residents should hold a four-year degree or higher, another 40 percent or more should hold a two-year degree or other postsecondary certificate, and the remainder should have earned a high school diploma or equivalent credential.

To advance Oregon toward its 40-40-20 goal, in April 2012 the university system adopted a set of outcome measures in an Achievement Compact reported annually to the OEIB. The Achievement Compact comprises eight outcome measures covering completion, quality, and connections with other education sectors. Each measure is reported for all Oregon students, for Oregon students who are underrepresented minorities, and for economically disadvantaged Oregonians.

At present, it is necessary to report these three different, and sometimes overlapping, sets of performance measures. The following pages include excerpts from all three: the OEIB Achievement Compacts, the DAS Key Performance Measures (as approved by the Legislature), and the OUS Board Performance Report. This Fact Book reports data that have been compiled at a system level, but the Achievement Compact and OUS Board measures also contain campus-level data, and OUS Board reports include mission-driven or campus-specific metrics.

Performance reporting will change in 2014 as the Oregon University System is restructured. On July 1, the administrative authorities and resources within the OUS Chancellor's Office that facilitate student success and system efficiency will be divided among several different organizations. Some functions will move to HECC, some to a new shared services organization, and still others to individual campuses or to other administrative bodies, pending any additional changes by the Legislature. Also on July 1, the system's three largest universities will assume independence from OUS under their own institutional governing boards, and the State Board of Higher Education will govern only the four technical and regional universities. The State Board will continue in place through June 30, 2015, after which the technical and regional universities will move to a new governance structure.

Ratio of Students to Full-Time Faculty ⁷	●	●	25.1	25.6	26.9	27.2	26.8	24.2

NOTE: With the exception of "ratio of students to full-time faculty," data for this section result from a biennial survey of bachelor's degree recipients. Reductions in the Chancellor's Office forced the suspension of survey activities in both 2008-09 and 2010-11. However, a 2012-13 survey is currently underway. Results are pending and will be made available electronically in the OUS Fact Book early spring 2014.

¹ Percentage of bachelor's degree recipients, surveyed six to twelve months following graduation, who report that they are employed, continuing their studies, volunteering, or working at home.

² Percentage of bachelor's degree recipients, surveyed six to twelve months following graduation, who report that they are employed or continuing their studies.

³ Percentage of employed bachelor's degree recipients, surveyed six to twelve months following graduation, who report that they are employed in the state of Oregon.

⁴ Percentage of bachelor's degree recipients completing an OUS-approved internship.

⁵ Average rating of overall quality of experience by recent OUS bachelor's graduates on a 5-point scale.

⁶ Percentage of OUS bachelor's degree recipients rating the quality of their overall experience as "very good" or "excellent" on a 5-point scale.

⁷ The ratio of fall FTE enrollment (calculates full-time plus 1/3 of part-time headcount) to full-time instructional faculty headcount.

Efficient Fiscal Stewardship

	State KPM†	Board PM‡	2007-08	2008-09	2009-10	2010-11	2011-12	2012-13
Total Gifts from Philanthropic Sources (\$ in millions) ¹	●		\$137.4	\$150.8	\$209.7	\$143.4	\$128.0	\$150.4
External Funds Generated per State Dollar Invested in SWPS ²	●		\$1.3	\$1.6	\$1.5	\$2.2	\$2.1	\$2.0

% Very or Extremely Satisfied	82/155 (53%)	
% At Least Somewhat Satisfied	145/155 (94%)	
Alumni Satisfaction	Data Available 2014	

Connections	2011-12 Actuals			2012-13 Projected			2013-14 Targets		
	Disadvantaged Students ¹			Disadvantaged Students ¹			Disadvantaged Students ¹		
	All Oregonians	Minority	Pell Eligible	All Oregonians	Minority	Pell Eligible	All Oregonians	Minority	Pell Eligible
# and % of newly admitted Oregon freshmen entering with HS dual credit or other early college credit	3,321 44%	529 38%	1,253 39%	3,438 46%	579 40%	1,278 41%	3,466 46%	584 40%	1,291 41%
# of bachelor's degrees awarded to transfer students from Oregon community colleges	3,796	564	2,560	3,909	577	2,634	4,053	593	2,732

¹ A student is defined as being disadvantaged per OEIB 705-0010-0040 by being either a member of an under-represented racial or ethnic group and/or eligible to receive a Pell Grant. The Federal Pell Grant is a need-based grant intended for undergraduate students who have not earned a bachelor's degree; eligibility is subject to change by criteria set forth by the federal government. For this report, only Pell recipients are counted. Students self-identify both race and ethnicity. Inclusion in the multi-racial category is determined by self-identification with more than one race. A student may be both Pell eligible and a member of an underrepresented minority group.

² Employer survey administered during 2012-13 to Oregon engineering and technology employers; targets for 2013-14 are not available for these employers. Employers were not asked to rate their satisfaction with OUS alumni's performance in terms of race/ethnicity, thus this data is not available.

Includes associate's degrees and higher in the United States and type A and B tertiary programs in other countries. The two tables on this page rely on different years and different U.S. Census surveys (American Community Survey vs. Current Population Survey). The result is a small discrepancy in estimates for the United States.

NOTE: Rates for 2013-14 are for fall and may change after winter and spring. Starting in 2004-05, full-time represents 15 credits for undergraduates and 12 for graduates. The earlier full-time tuition plateau was commonly 12-18 credits for undergraduates and 9-15 for graduates.

¹ Tuition and fees include: tuition, universal resource, building, incidental, health services, and recreation center fees.

² In 2011-12, only the Promise rate was offered. See "Western Promise" in the Glossary for a more complete description.

³ In accordance with OAR-010-0081, Eastern Oregon University's nonresident rate was the same as the resident rate through 2011-12.

⁴ In 2006-07, UO rolled resource fees for law into tuition rates.

⁵ In 2008-09, EOU, PSU, SOU and WOU rolled programmatic and universal resource fees into tuition rates.

⁶ In 2009-10, programmatic and universal resource fees were rolled into undergraduate tuition at OSU and into graduate tuition at UO.

⁷ In 2010-11, UO rolled all undergraduate programmatic fees into tuition and OSU rolled all graduate programmatic and universal resource fees into tuition. OIT rolled programmatic and universal resource fees into tuition rates.

⁸ In 2011-12, EOU instituted an international rate (UG: \$19,169; GR: \$30,441). This was folded into the new nonresident rate in 2012-13.

⁹ In 2013-14, resident undergraduate rates initially approved by the Board were reduced effective winter term due to legislative action.

¹ This table reports regular full-time faculty (.90 FTE or greater) whose primary assignment is instruction (more than .50 FTE in an instructional department). Regular faculty on sabbatical leave are included. For Oregon State University, ranked full-time faculty at the Agricultural Experiment Station, the Forest Research Laboratory, and the Extension Service are included as long as some of their FTE is budgeted in an instructional department. OSU-Cascades faculty are included in counts for OSU.

¹ This table reports regular full-time faculty (.90 FTE or greater) whose primary assignment is instruction (more than .50 FTE in an instructional department). Regular faculty on sabbatical leave are included. For Oregon State University, ranked full-time faculty at the Agricultural Experiment Station, the Forest Research Laboratory, and the Extension Service are included as long as some of their FTE is budgeted in an instructional department. OSU-Cascades faculty are included in counts for OSU.

Salaries reported here are the average 9-month salaries (with 12-month converted to a 9-month equivalent), weighted by FTE. OSU-Cascades faculty are included in counts for OSU.

¹ High-market disciplines include computer science, business, law, veterinary medicine, and engineering.

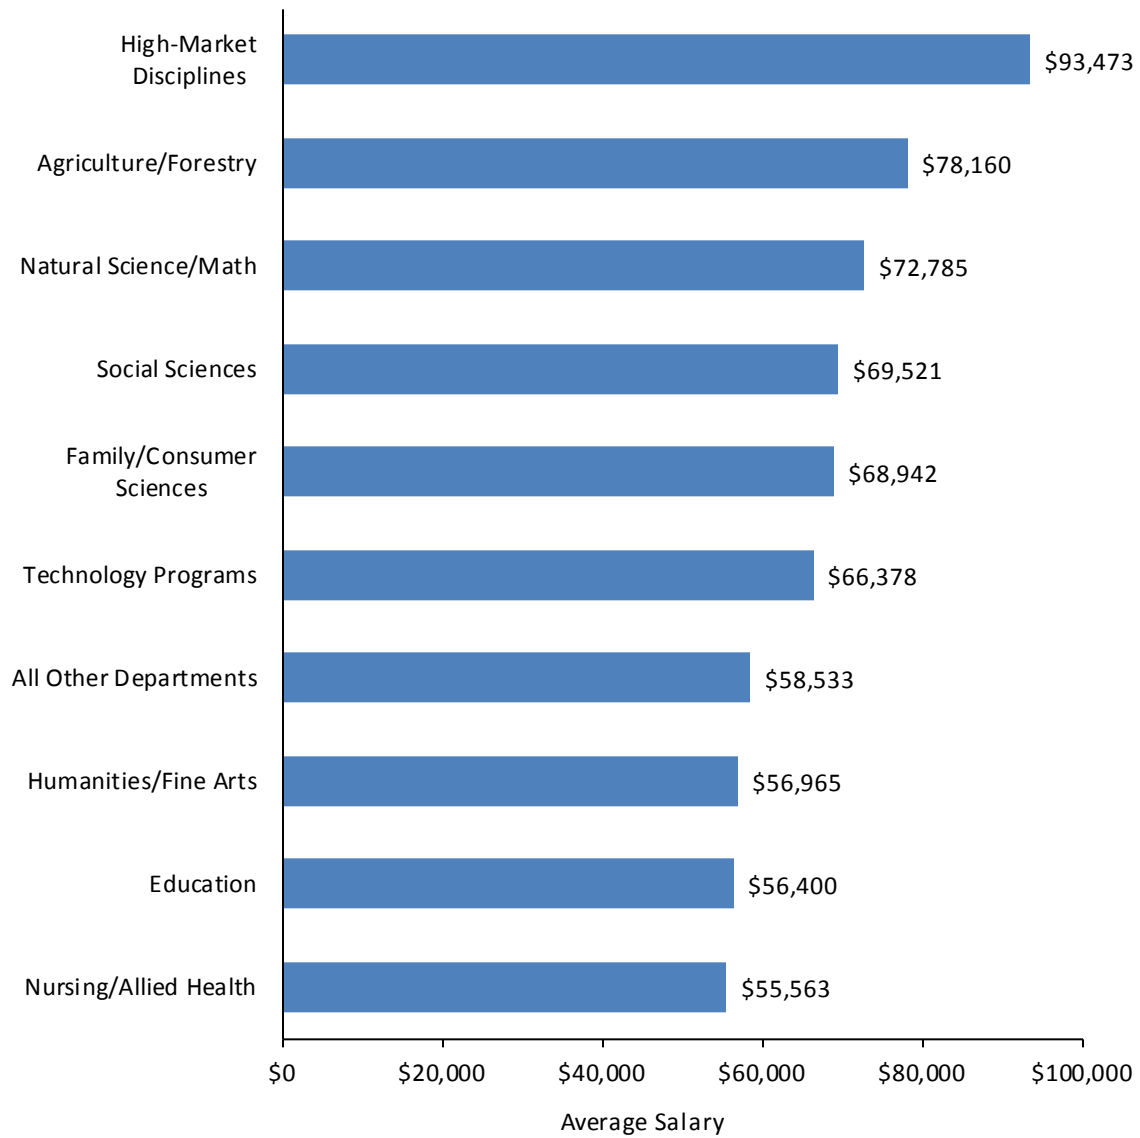

² OHSU nursing faculty teaching courses at EOU, OIT, SOU and WOU are not included in this table.

³ In some cases, total FTE does not reflect the exact sum of institution totals, due to rounding.

In 2010, our method for calculating expenditures on sponsored research was adjusted: the calculation now includes indirect cost recovery and federal support to statewide public services, and it now excludes gifts and student work-study aid. The adjustment was applied across all the years reported in the present table, but Fact Books published before 2010 do not incorporate the adjustment.

¹ Restricted funds expenditures. Excludes student aid and gifts. Includes sponsored research, teaching/training grants, student services grants, library grants, and similar support.

² This table reports regular full-time faculty (.90 FTE or greater) whose primary assignment is instruction (more than .50 FTE in an instructional department). Regular faculty on sabbatical leave are included. For Oregon State University, ranked full-time faculty at the Agricultural Experiment Station, the Forest Research Laboratory, and the Extension Service are included as long as some of their FTE is budgeted in an instructional department.

³ Excludes OHSU and the Chancellor's Office.

Oregon University System
2013 Fact Book

BUDGET AND FACILITIES

2013-14 OUS Annual Budget (Excluding Capital Construction)

Total = \$2,955.1 (Dollars in Millions)

Source of Funds

Use of Funds by Natural Expense Classification

Use of Funds by Functional Expense Classification

In prior Fact Book publications, this information was presented on a biennial basis. Due to governance changes resulting from the passage of SB 270 (2013), UO, OSU and PSU will become separate legal entities from OUS effective July 1, 2014. Therefore, this is an annual view of the OUS operating budget as approved by the State Board of Higher Education in November 2013.

¹ Auxiliary Programs include student housing and food services, student centers, intercollegiate athletics, student health services, parking operations, bookstores, etc.

² Service Departments include printing and mailing, facilities, motor pool, IT support, surplus property, telecom, etc.

Includes legislative actions through October 2013.

State General Funds

State General Funds are appropriated to OUS biennially by the Legislature. The distribution of these funds to the campuses is developed in compliance with legislative budget notes and board policy. Funds are allocated through the OUS Resource Allocation Model and are split between the two fiscal years of the biennium unless otherwise requested by the campuses.

Lottery Funds

OUS receives lottery support to fund athletics, scholarships, and capital debt service payments. Lottery funding for athletics and scholarships comes through the sports lottery program and is distributed 88% to athletics and 12% to scholarships. Distributions for athletics are required to be allocated 70% for non-revenue-producing sports, with at least half being directed to women's athletics. Lottery funding is also used to fund principal and interest debt service payments on lottery bonds used for capital construction projects.

Education and General Other Funds

Education and General (E&G) Other Funds revenue is comprised principally of estimated campus tuition and fees (calculated on the basis of enrollment projections) and indirect cost recovery from sponsored research, as well as lesser amounts of other income. Prior to the passage of SB 242, this category was known as Other Funds Limited, and expenditure limitation for revenue in this category was established legislatively.

Other Funds

Other Funds revenue includes designated operations (e.g., community workshops and other self-sustaining public service and education activities); auxiliary activities such as student housing, parking, and athletics; internal service departments such as printing and mailing, facilities, and telecom; gifts, grants and contracts; sponsored research and programs; and student financial aid programs. Prior to the passage of SB 242, this category was known as Other Funds Non-Limited.

OUS Share of State General Fund Appropriation 1987-89 through 2013-15 (Dollars in Millions)

Biennium	State of Oregon Total General Fund	OUS Operations	OUS %
1987-89	\$3,703.6	\$565.2	15.3%
1989-91	4,535.7	572.3	12.6%
1991-93	5,515.4	588.4	10.7%
1993-95	6,411.3	549.8	8.6%
1995-97	7,408.0	503.2	6.8%
1997-99	8,805.5	608.1	6.9%
1999-01	10,129.1	754.9	7.5%
2001-03	9,674.2	745.8	7.7%
2003-05	10,295.5	671.4	6.5%
2005-07	11,640.6	736.9	6.3%
2007-09	12,964.5	847.2	6.5%
2009-11	12,910.1	800.5	6.2%
2011-13	14,161.5	668.3	4.7%
2013-15	16,006.9	752.9	4.7%

Notes: (1) The State of Oregon General Fund comprises all general fund appropriations for the biennium. (2) The figures for OUS operations from 1987-89 through 1993-95 depart significantly in the 2010 Fact Book. Oregon Health & Science University was part of the university system until 1995, and the 2010 Fact Book included OHSU's appropriation in the system total during those years. However, for the sake of comparability between earlier and later years, OHSU's appropriation is now excluded from all years. (3) The OUS General Fund appropriations are also now reconciled to audited financial statements for the university system, something that was not done in the 2010 Fact Book. The reconciliation results in small corrections to the figures for 1997-99 and later years. (4) Biennia 2007-09 and 2009-11 include federal ARRA funds as General Fund offset.

Source: OUS Budget Operations.

1989-91 ²	572.3	517.9	-8.4%	117,117
1991-93	588.4	485.5	-6.3%	109,994
1993-95	549.8	425.0	-12.5%	107,499
1995-97	503.2	365.8	-13.9%	110,513
1997-99	608.1	417.8	14.2%	114,707
1999-01	754.9	488.8	17.0%	122,539
2001-03	745.8	466.1	-4.6%	137,737
2003-05	671.4	405.3	-13.0%	142,838
2005-07	736.9	421.0	3.9%	143,000
2007-09	847.2	456.3	8.4%	147,880
2009-11	800.5	421.0	-7.7%	165,901
2011-13	668.3	339.2	-19.4%	174,169
2013-15 ²	752.9	363.8	7.3%	177,078

Notes: (1) General Fund Appropriations adjusted for Emergency Board actions and Governor's Allotment reductions. (2) Includes debt service and capital construction. (3) The State of Oregon General Fund comprises all general fund appropriations for the biennium. (4) The figures for OUS operations from 1987-89 through 1993-95 depart significantly in the 2010 Fact Book. Oregon Health & Science University was part of the university system until 1995, and the 2010 Fact Book included OHSU's appropriation in the system total during those years. However, for the sake of comparability between earlier and later years, OHSU's appropriation is now excluded from all years. (5) The OUS General Fund appropriations are also now reconciled to audited financial statements for the university system, something that was not done in the 2010 Fact Book. The reconciliation results in small corrections to the figures for 1997-99 and later years. (6) Biennia 2007-09 and 2009-11 include federal ARRA funds as General Fund offset.

¹ Portland-Salem Consumer Price Index. Changes in dollars are relative to the base biennium of 1987-89.

² Data for 1989-91 and 2013-15 are estimates due to missing or incomplete data.

Biennial State Appropriation and FTE Enrollment 1987-89 through 2013-15

OUS Revenue per Student FTE, 1989-90 through 2013-14

Fiscal Year	Tuition & Fees		State Appropriation		Other E&G Funds		Total	
	Amount	% of Total	Amount	% of Total	Amount	% of Total	Amount	% of Total
1989-90	\$1,990	29%	\$4,292	62%	\$659	9%	\$6,941	100%
1991-92	2,797	36%	4,247	55%	714	9%	7,758	100%
1993-94	3,736	43%	4,038	47%	903	10%	8,677	100%
1995-96	3,881	48%	3,454	43%	716	9%	8,051	100%
1997-98	4,000	47%	3,793	44%	735	9%	8,528	100%
1999-00	3,990	43%	4,543	49%	722	8%	9,255	100%
2001-02	4,453	47%	4,375	46%	725	8%	9,553	100%
2003-04	5,508	56%	3,619	37%	744	8%	9,871	100%
2005-06	6,306	57%	3,858	35%	930	8%	11,094	100%
2007-08	7,125	56%	4,606	36%	1,026	8%	12,757	100%
2009-10	8,362	64%	3,761	29%	1,024	8%	13,147	100%
2011-12	9,842	72%	2,633	19%	1,171	9%	13,646	100%
2013-14	10,590	73%	2,739	19%	1,167	8%	14,496	100%

Notes: (1) Revenue per FTE is for comparison purposes only and does not factor in cost differentials between resident and nonresident students. Resident undergraduate costs per FTE may be lower than the average revenue per FTE. (2) Data excludes OSU Statewide Public Services, OHSU, and Chancellor's Office/Industry Affairs/OMI/ETIC/OCKED/Other. (3) Other E&G Funds Revenue includes sales & service revenue, state agency transfers-in, investment/debt service, and all other Education and General revenue.

Oregon University System Facilities

Capital Renewal - The Deferred Maintenance (DM) Backlog

Like most colleges and universities across the country, almost 50 percent of OUS buildings were constructed within a 15-year window, from 1960 to 1975, in order to meet the huge enrollment growth attributed to the baby boomers. Now, almost 50 years later, the major subsystems (roofing; heating, ventilation, and air conditioning; plumbing; electrical) within those buildings are wearing out and must be replaced.

Oregon was one of the first states to develop a comprehensive plan to address deferred maintenance needs, establishing a “best-in-class” program to focus on critical life safety, code compliance and substantial renewal needs. With limited state support to fund the periodic renewal of major building subsystems, a backlog of capital renewal projects has developed and has continued to grow to an alarming \$600 million. The following table provides a current capital renewal snapshot for all Education and General (E&G) facilities at OUS institutions.

Capital Renewal Snapshot for 2012
On-Campus Education and General Facilities Only

Institution	2012 Gross Square Feet	Current Replacement Value (CRV) (\$ in millions) ¹	Deferred Maintenance Backlog ² (\$ in millions)	Seismic Backlog (\$ in millions) ³	DM and Seismic as a % of CRV
Eastern Oregon University	585,481	\$182	\$18	\$17	19%
Oregon Institute of Technology	468,211	132	33	3	27%
Oregon State University	4,454,036	1,553	155	166	21%
Portland State University	2,414,452	766	169	23	25%
Southern Oregon University	865,645	239	18	28	19%
University of Oregon	3,483,674	1,166	105	73	15%
Western Oregon University	695,132	191	30	40	36%
Total	12,966,631	\$4,230	\$528	\$352	21%

¹ Current Replacement Value: Calculated value for total building replacement (using the same construction systems).

² The calculated deferred maintenance backlog is \$528 million. This figure does not include ADA improvements, hazardous materials abatement, and infrastructure upgrades. The aggregate cost of these needs is estimated to add 14 percent to the calculated amount, bringing the total to approximately \$600 million.

³ OUS estimate from 2007 DOGAMI study.

Source: Sightlines, OUS 2012.

OUS System Physical Profile

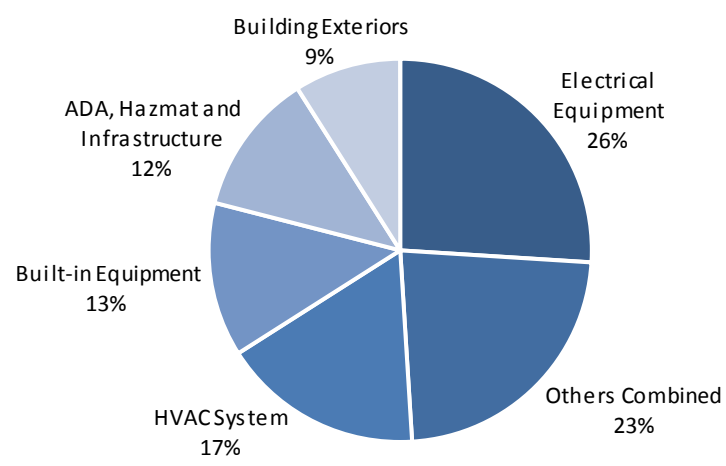

- Institutions in system: 7
- Campus acres: 1,550
- Total buildings: 1,020
- Total gross square feet (GSF): 23 million
- Total E&G space (GSF): 12,966,631
- Average renovation age (E&G): 40.5 years

Deferred Maintenance Backlog:

The accumulated dollar amount of systems or subsystem components that have exceeded their useful life. From 2001 to 2012, the backlog decreased 11%; however, it increased significantly between 2002 and 2007 due to numerous subsystems reaching their end of life. In 2007, OUS tackled this growing backlog through the Capital Renewal program. Since 2008, the backlog has decreased by 21%. Despite this progress, OUS will need to invest \$135.6 million per biennium to maintain the backlog at current levels.

Deferred Maintenance Backlog by Subsystem

Net Asset Value (NAV):

An annual statistic that represents the aggregate condition of OUS buildings. NAV is expressed as a percentage and is calculated by subtracting the deferred maintenance backlog from the Current Replacement Value (CRV) and dividing the result by the CRV. An NAV of 100% is a building with no backlog. The university system’s NAV from 2004-2012 increased by 16 percentage points, which indicates progress in addressing the backlog.

OUS Facilities: Energy Consumption Total Energy Consumed¹ per Gross Square Foot², 2012

Institution	BTU per GSF
Eastern Oregon University	110,687
Oregon Institute of Technology	51,150
Oregon State University	179,235
Portland State University	75,942
Southern Oregon University	138,294
University of Oregon	164,045
Western Oregon University	93,110

¹ The sum of total fossil and electric BTU's per square foot the campus consumes each year. Energy consumption is influenced by many factors, including region/climate, type of institution, technical complexity, utility systems, campus backlog, etc.

² Includes main campus Education and General gross square footage only.

³ Includes selected Institutions for comparison from a list of available institutions surveyed. Comparators for larger institutions include Bloomsburg University of Pennsylvania, Bowling Green State University, Cleveland State University, Dalhousie University, Kansas State University, Kent State University, New Mexico State University, Rutgers University - Cook/Douglass Campus, The University of Maine, The University of Mississippi, University of Alaska Fairbanks, University of Arkansas, University of Idaho, University of Massachusetts – Lowell, University of New Hampshire, University of North Texas, University of Rhode Island-Facilities Services, University of Southern Mississippi, Virginia Commonwealth University, and Youngstown State University. Comparators for regional institutions include Alcorn State University, Armstrong Atlantic State University, California University of Pennsylvania, Cheyney University of Pennsylvania, Clarion University of Pennsylvania, Delta State University, East Stroudsburg University of Pennsylvania, Indiana University of Pennsylvania, Keene State College, Kutztown University of Pennsylvania, Lock Haven University of Pennsylvania, Massachusetts College of Art and Design, Millersville University of Pennsylvania, Mississippi University for Women, Mississippi Valley State University, Missouri University of Science and Technology, Plymouth State University, Shippensburg University of Pennsylvania, University of Missouri - St. Louis, Virginia State University, Washburn University, West Chester University of Pennsylvania, and Worcester State University.

Oregon University System
2013 Fact Book

GLOSSARY

Glossary

Academic year

The year beginning with summer term and ending with spring term.

Admitted student

Student admitted to a degree program (e.g., bachelor's, master's).

All ranks average salary

The weighted average salary of professors, associate professors, assistant professors, and instructors. To provide a more comparable all ranks average in peer salary comparisons, the distribution by faculty rank is standardized to reflect 35% professors, 30% associate professors, 30% assistant professors, and 5% instructors.

Applied

Student who applied for admission to an OUS degree program.

Average faculty salary

The average salary of full-time 9-month and 12-month instructional faculty. Salaries of 12-month faculty are converted to a 9-month basis by multiplying the salary by .8182.

Base enrollment

Enrollment in regular (i.e., in-load) credit courses. Excludes enrollment in summer session, continuing education, or remedial courses.

Census Data

The U.S. census data used in the national comparison section was drawn from the US Census Bureau's 2012 *American Community Survey* one-year estimates. The figures reported in this section of the fact book are based on samples, and as such, are subject to sample variability in any given year. The degree of uncertainty for an estimate arising from sampling is represented through the use of margin of error. The US Census uses a 90% margin of error which can be interpreted as providing a 90% probability that the true value lies within the range of the estimate plus or minus the standard error. For a detailed list of the margins of error by state, see factfinder.census.gov and open the *American Community Survey* link.

Certificate

A formal award, distinct from a degree, certifying the satisfactory completion of an instructional program or course of study. Within the Oregon University System, most certificates are postbaccalaureate awards, though OHSU also awards post-master's certificates, first-professional certificates, and postsecondary certificates of at least one but less than two years of college study.

Completer

Student who completed a course of study and received a diploma (high school) or a degree (college).

Consumer Price Index (CPI)

The Portland Consumer Price Index, used in all CPI data reported here. Effective in 1998, the geographic area covered by the Portland-Vancouver CPI was expanded to include the Salem Metropolitan Statistical Area (MSA).

Credit hour enrollment

The credit hour value of a course or courses multiplied by the number of students enrolled in the course.

Current Replacement Value

The estimated cost of replacing a structure as determined by each campus physical plant, based on contemporary per unit cost by building type (e.g., housing, library, parking garage).

Deferred Maintenance

Capital upkeep or repair that is not done on a timely basis.

Discipline (CIP)

The academic discipline as reflected in the Classification of Instructional Programs published by the National Center for Education Statistics, for which a "CIP" code is assigned.

Distance education

The delivery of instruction in those circumstances where instructor and students are in different locations, using a variety of technologies and telecommunications networks.

Education and General funds

The portion of OUS universities' or the Chancellor's Office's budget that is devoted to instructional and support services for students and faculty, including managerial and administrative functions needed to provide the services.

Glossary

Educational source

The school or college the student last attended prior to entering the OUS institution.

Enrollment demand

The estimated number of students who would attend an Oregon University System institution, assuming no budget or financial restrictions or policies that would serve to reduce or increase enrollment. Demand estimates take into account projected numbers of high school graduates and historical freshman participation rates.

Ethnic group

See race/ethnicity.

Extended enrollment

Enrollment in courses that extend the traditional university curriculum. Such courses include those offered through continuing education as well as many web-based courses, contract courses, and courses offered in other off-campus venues.

Faculty

See Instructional faculty, full-time and Instructional faculty, part-time.

Fee category

Base enrollment category reflecting the type of fee assessed (e.g., resident, nonresident).

First-time freshmen

Students attending an OUS institution for the first time who were admitted on the basis of their high school performance (including those with a limited amount of college transfer credit).

Freshman participation rate

The percentage of newly admitted OUS first-time freshmen from Oregon high schools divided by the total number of Oregon high school graduates of the previous school year.

Full Time Equivalent (FTE)

See instructional FTE or student FTE.

General fund, total operating budget

State of Oregon General Fund resources for use in the operating budget, exclusive of capital construction.

Grade point average (GPA)

Average grade based on a scale of 0 to 4 grade points, where A = 4, B = 3, C = 2, D = 1, and F = 0.

Graduation rate

The percentage of an entering cohort of students who complete a degree within a specified length of time. The common practice, reinforced by the U.S. Department of Education, is to report the percentage of entering freshmen who complete a bachelor's degree within six years.

Headcount enrollment, unduplicated

A count of distinct students enrolled during a multi-term reporting period (usually, an academic year). Students who enroll in more than one term during the reporting period are counted only once. However, students having both admitted undergraduate and admitted graduate status in separate terms during the reporting period are counted twice in unduplicated totals.

High school GPA

High school grade point average.

Independent or individualized study

Nonformal class arrangements between an instructor and a student for irregular hours of instruction. Includes such classes as dissertation, field experience, internship, practicum, reading and conference, research, student teaching, and thesis.

Instructional faculty, full-time

Regular faculty with a total institutional FTE of .90 or greater whose primary assignment is instruction (more than .50 FTE in an instructional department). Includes regular faculty on sabbatical leave.

Instructional faculty, part-time

Regular faculty with a total institutional FTE of less than .90 whose primary assignment is instruction.

Instructional FTE

The full-time equivalent (FTE) of ranked faculty, graduate assistants, and other instructors engaged in teaching, based on the portion of each faculty member's workload that was funded from instructional accounts within the Education and General budget.

Glossary

IPEDS

Integrated Postsecondary Education Data System, part of a series of reports collected annually by the National Center for Education Statistics. Formerly called the Higher Education General Information Survey (HEGIS) prior to 1982.

Nonadmitted students

Students enrolled in credit courses in the regular campus program but not admitted to a degree program.

Nonresident alien

A student or faculty member who is neither a U.S. citizen nor a resident alien.

OUS

Oregon University System. Consists of seven public four-year institutions in Oregon: Eastern Oregon University (La Grande); Oregon Institute of Technology (Klamath Falls); Oregon State University (Corvallis) with a branch campus, OSU-Cascades, located in Bend; Portland State University (Portland); Southern Oregon University (Ashland); the University of Oregon (Eugene); and Western Oregon University (Monmouth). The Oregon Health & Science University (Portland) became an affiliated institution on July 1, 1995.

Part-time undergraduate

For most purposes, and consistent with national definitions, a part-time undergraduate is one who is enrolled in fewer than 12 credit hours per term. Students enrolled in fewer than 9 credit hours may enroll under the OUS Part-Time Fee Policy in certain circumstances.

Postbaccalaureate nongraduate

Students enrolled in a second baccalaureate program who have already received a first baccalaureate, and who pay fees through the Postbaccalaureate Nongraduate Fee Policy.

Race/Ethnicity

Ethnic or racial category with which a person most closely identifies. Reported categories are those listed on the federal IPEDS reports: American Indian or Alaska Native; Asian; Black or African American; Hispanic of any race; Native Hawaiian or Pacific Islander; and White (including people of Middle Eastern origins). When reporting a person who identifies with two or more racial/ethnic groups, students reporting as Hispanic ethnicity are always identified as Hispanic, otherwise the student is reported in the “two or more races” category. These ethnic categories do not include international students, who are reported separately under “nonresident alien.” Please note that effective 2010 these race/ethnicity definitions changed from previously accepted racial categories, resulting in a lack of comparability with previous years.

Rank (faculty)

Regular faculty with ranks of professor, associate professor, assistant professor, instructor (including senior instructor), and lecturer.

Retention rate

The percentage of the freshman cohort either completing the bachelor’s degree or still enrolled at an OUS institution.

Sponsored research dollars

Includes sponsored research, teaching/training grants, and library grants. Excludes federal funds associated with land grant university programs.

Student budget

Average student expenditures for tuition and fees, room and board, books and supplies, transportation, and personal expenses.

Glossary

Student Full-time Equivalent (FTE)

The student full-time equivalent (FTE) translates credit into enrollment, showing how many students it would take to produce the total credit-bearing activity of a campus if each student took exactly a full-time load. Calculation of the student full-time equivalent varies depending on the level of the student. The full-time equivalent for an undergraduate is assumed to be 15 term credit hours (or 45 annual credit hours). For master's and professional level students, the divisor is 12 term credit hours (36 annual credit hours), and for a doctoral student, it is 9 term credit hours (27 annual credit hours).

Tuition and fee rates

The total mandatory charges assessed students for enrolling in the institution, including tuition, universal resource, building, incidental, health service, and recreation center fees. Excludes programmatic resource fees that have not been rolled into tuition.

Western Promise

Beginning in 2007-08 and continuing, Western Oregon University implemented the Western Promise tuition rate for resident undergraduate students. The WOU Tuition Promise guarantees that the per-credit tuition rate for undergraduate students will not increase for four academic years.
