INTRODUCTION

INTRODUCTION

MCPS School Safety and Security at a Glance provides, in a single document, information about the reporting of incidents related to school safety and security, school climate, local school safety program descriptions, and serious incidents. The information is presented for each school. While much of this information is available in various documents produced throughout the year, *MCPS School Safety and Security at a Glance* provides this information in a single comprehensive report in a user-friendly format for stakeholders.

MCPS School Safety and Security at a Glance is a valuable tool to help monitor accurate reporting of incidents related to school safety and security. It provides a concise, easily understood, and easily accessible snapshot for administrators, teachers, students, and parents for discussion on the best learning environment possible in every school.

Explanation of School Profile Sections

Section 1: Number of Out-of-School Suspension Incidents

This chart reports the number of suspension incidents for particular categories. This information is reported annually to the Maryland State Department of Education and is available in more detail on their website. The number in the column represents the number of students suspended for the category. This represents a duplicated count of students, meaning a student could be counted in more than one category and/or a student could be counted more than once in the same category. A list of the categories and an explanation of the incidents in each category is included in the glossary of terms.

Section 2: Out-of-School Suspension Rate

This chart reports the number and percentage of students suspended during the school year. This information is reported annually to the Montgomery County Board of Education and is available in more detail on the Montgomery County Public Schools (MCPS) website. These data represent an unduplicated count of students, meaning a student is only counted once, regardless of the number of times that student may be suspended. A description of the column labels and of each column's content is included in the glossary of terms.

Section 3: Reported Serious Incidents

This chart states incidents reported to the Office of School Performance as well as the number of incidents for which police were notified. Notification is dictated by several documents, including MCPS Regulation COB-RA, *Reporting a Serious Incident*; MCPS Regulation JFA-RA, *Student Rights and Responsibilities*; and the *Memorandum of Understanding Between MCPS and Montgomery County Department of Police and Montgomery County State's Attorney's Office*. A list of the categories and an explanation of the incidents found in each category is included in the glossary of terms.

Section 4: Drills Conducted

This chart reflects the actions taken by schools to prepare students for emergency situations and those situations at a school that require declaration of some alert status. Definitions for each category are included in the glossary of terms.

Section 5: Programs

This section lists those programs offered in the school to develop the behaviors and skills that promote safe and secure school environments.

Section 6: School Climate

This chart reports the percentage of students, parents, and school staff who responded positively to items related to perceptions of safety and security on the *Surveys of School Environment*. Survey results are reported to each school. The student and parent *Surveys of School Environment* are available in more detail on the MCPS website.
