INTRODUCTION

INTRODUCTION

MCPS School Safety and Security at a Glance provides, in a single document, information about the reporting of incidents related to school safety and security, school climate, local school safety program descriptions, and serious incidents. Information is presented for each school. While much of this information is available in various documents produced throughout the year, *MCPS School Safety and Security at a Glance* provides this information for stakeholders in a single comprehensive report with a user-friendly format.

MCPS School Safety and Security at a Glance is a valuable tool to help monitor accurate reporting of incidents related to school safety and security. It provides a concise, easily understood, and easily accessible snapshot for administrators, teachers, students, and parents for discussion on the best learning environment possible in every school.

Guidelines for Reporting Data

The federal government has given new guidance regarding the *Family Educational Rights and Privacy Act* (FERPA) that has resulted in restrictions in the amount of student data that can be publically reported. FERPA (20 U.S.C. § 1232g; 34 CFR Part 99) prohibits the release of individually identifiable information to the public. Therefore, the Maryland State Department of Education (MSDE) has adopted the new guidelines for the reporting of aggregate student data and Montgomery County Public Schools (MCPS) is implementing these guidelines ~~for~~ as follows:

Student Enrollment Data

- Any percentage rates greater than or equal to 95.0% or less than or equal to 5.0% will be noted as $\geq 95.0\%$ or $\leq 5.0\%$, respectively.
- If the percentage rate is greater than or equal to 95.0% or less than or equal to 5.0%, the corresponding number of students (N) will not be published.
- When the total N is less than 10, the corresponding N's and percentage rate will not be published.
- When the total N is between 10 and 20, only the percentage rate will be published, provided the percentage rate is not greater than or equal to 95.0% or less than or equal to 5.0%.
- When the total N is greater than 20, the corresponding N's and percentage rate will be published, provided the percentage rate is not greater than or equal to 95.0% or less than or equal to 5.0%.

Out-of-School Suspension Data

- Any percentage rates greater than or equal to 95.0% or less than or equal to 3.0% will be noted as $\geq 95.0\%$ or $\leq 3.0\%$, respectively.
- If the percentage rate is greater than or equal to 95.0% or less than or equal to 3.0%, the corresponding number of students enrolled, number of suspension incidents, and number of students suspended will not be published.
- When the number of students enrolled is less than 10 or the number of students suspended is less than 5, no data will be published.
- When the number of students enrolled is between 10 and 20, only the percentage rate will be published, provided the percentage rate is not greater than or equal to 95.0% or less than or equal to 3.0%.
- When the number of students enrolled is greater than 20, the corresponding number of suspension incidents, number of students suspended, and percentage rate will be published, provided the percentage rate is not greater than or equal to 95.0% or less than or equal to 3.0%.

Explanation of School Profile Sections

Section 1: Number of Out-of-School Suspension Incidents

This chart reports the number of suspension incidents for particular categories. This information is reported annually to MSDE and is available in more detail on its website. The number in the column represents the number of students suspended for the category. This represents a duplicated count of students, meaning a student could be counted in more than one category and/or a student could be counted more than once in the same category. A list of the categories and an explanation of the incidents in each category is included in the glossary of terms.

Section 2: Out-of-School Suspension Rate

This chart reports the number and percentage of students suspended during the three most recent school years. This information is reported annually to the Montgomery County Board of Education. These data represent an unduplicated count of students, meaning a student is counted only once, regardless of the number of times that student may be suspended. A description of the column labels and of each column's content is included in the glossary of terms.

Section 3: Reported Serious Incidents

This chart states incidents reported to the Office of School Support and Improvement as well as the number of incidents for which police were notified. Events may be reported as a serious incident if they result in or lead to any incident resulting in death or serious injury of any person on an MCPS site or while conducting MCPS business; potential or actual disruption of the planned school day; or any of the other criteria outlined in MCPS Regulation COB-RA, *Reporting a Serious Incident* (see page 439). Notification is dictated by several documents, including MCPS Regulation COB-RA, *Reporting a Serious Incident*; MCPS Regulation JFA-RA, *Student Rights and Responsibilities*; and the *Memorandum of Understanding Between MCPS and Montgomery County Department of Police and Montgomery County State's Attorney's Office*. A list of the categories and an explanation of the incidents found in each category is included in the glossary of terms.

Section 4: Bullying Incidents

This chart reports the number of bullying incidents reported and confirmed. The "Number Reported" is the number of written reports of bullying incidents (MCPS Form 230-35, *Bullying, Harassment, or Intimidation Reporting Form*) submitted to a school. The "Number Confirmed" is the number of reported bullying events deemed accurate upon investigation by a school administrator.

Section 5: Drills Conducted

This chart reflects the actions taken by schools to prepare students for emergency situations and those situations at a school that require declaration of some alert status. Definitions for each category are included in the glossary of terms.

Section 6: Safety Incidents Requiring Alert Status

This chart reflects the actions taken by schools when actual incidents occur at a school or in a school's community requiring staff members and students to remain within their classrooms, within a secured area, and possibly accounted for and under supervision. Definitions for each category are included in the glossary of terms.

Section 7: Programs

This section lists those programs offered in the school to develop the behaviors and skills that promote safe and secure school environments. All MCPS schools require fire, lockdown, evacuation, and emergency weather drills. The majority of MCPS schools also have visitor management systems in place, with the remaining schools due for completion by the end of the 2013–2014 school year.

Section 8: School Climate

School Climate survey data is not available for the 2012–2013 school year.
