MEMORANDUM

From: Geoffrey T. Sanderson, Associate Superintendent *GTS*

Subject: INFORMATION: Class of 2013 Advanced Placement and International Baccalaureate Exam Participation and Performance

Advanced Placement Exam

Students in the Montgomery County Public Schools (MCPS) Class of 2013 continued to outperform students in the state of Maryland and the nation on Advanced Placement (AP) examinations based on *The 10th Annual AP Report to the Nation* released by the College Board on February 11, 2014. In 2013, nearly two thirds of MCPS graduates took one or more AP exams (66.0%), a rate that was 18.6 and 32.8 percentage points higher than the rate for public school graduates in the state (47.4%) and the nation (33.2%), respectively (Figure 1). More than one half of the 2013 MCPS graduates earned at least one AP exam score of 3 or higher (51.4%), which was 21.8 percentage points higher than the rate for Maryland public school graduates (29.6%) and more than twice the rate for public school graduates nationwide (20.1%).

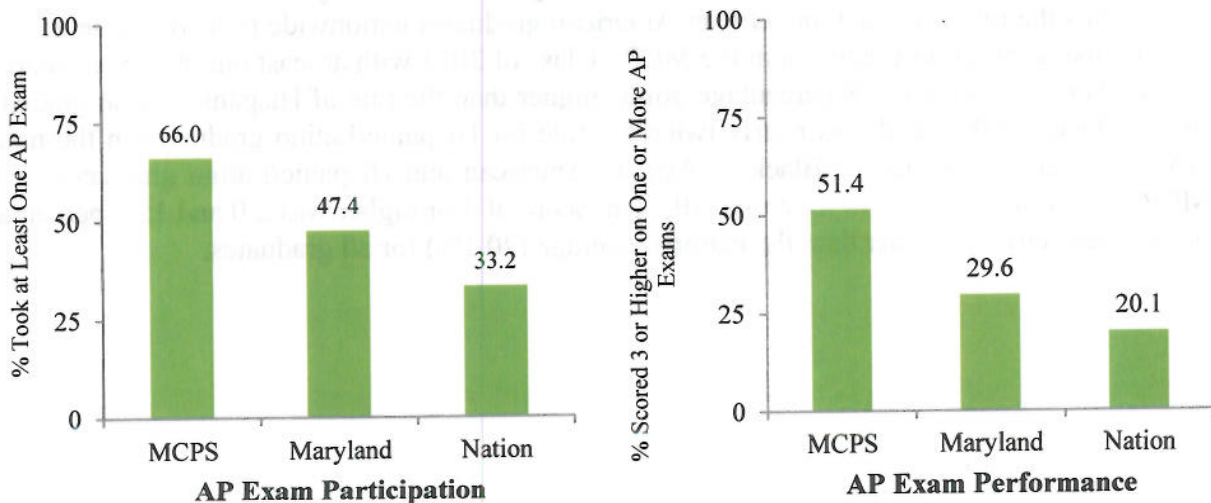

Figure 1. Advanced Placement (AP) exam participation and performance of 2013 public school graduates in MCPS, the state of Maryland, and the nation.

Beginning in 2006, Maryland has had the highest percentage among all states of graduates who earned one or more AP exam scores of 3 or higher. Particularly noteworthy is the fact that MCPS graduates significantly contributed to Maryland's first-place national ranking for AP exam performance. In fact, MCPS students account for 51.4 percent of all of the 2013 Maryland graduates who earned a 3 or higher on at least one AP exam (Table 1).

In 2013, MCPS minority graduates maintained the high AP exam participation rate compared with their peers in the state and the nation. Nearly 40 percent of MCPS Black or African American graduates took at least one AP exam, a rate that was 10.3 and 18.5 percentage points higher than those for Maryland public school graduates (29.3%) and the national graduates (21.1%), respectively (Table 2). More than one half of 2013 MCPS Hispanic/Latino graduates (51.6%) took at least an AP exam, compared with 43.5 percent of public school graduates in the state and 33.2 percent of public school graduates in the nation.

AP exam performance among Black or African American and Hispanic/Latino graduates in the MCPS Class of 2013 was notable districtwide. The percentage of 2013 Black or African American graduates who earned at least one AP exam score of 3 or higher (22.1%) was more than twice the rate for Black or African American graduates in Maryland (9.7%) and more than three times the rate for Black or African American graduates nationwide (6.4%) (Table 2). The rate of Hispanic/Latino graduates in the MCPS Class of 2013 with at least one AP exam score of 3 or higher (35.8%) was 7.8 percentage points higher than the rate of Hispanic/Latino graduates in Maryland (28.0%) and was nearly twice the rate for Hispanic/Latino graduates in the nation (18.1%). The percentage of Black or African American and Hispanic/Latino graduates in the MCPS Class of 2013 with at least one AP exam score of 3 or higher was 2.0 and 15.7 percentage points, respectively, higher than the national average (20.1%) for all graduates.

As evidenced in the Tables included in the attachment, MCPS high schools continued to support AP exam participation and performance for minority graduates. Between 2012 and 2013, 10 of the 25 high schools demonstrated an increase in the AP exam participation rate for Black or African American graduates, and for Hispanic/Latino graduates (Tables A6a and A6b). Ten of the 25 high schools noted an increase in the percentage of Black or African American graduates who earned an AP exam score of 3 or higher, and 13 of the 25 high schools confirmed an increase in the percentage of Hispanic/Latino graduates who earned an AP exam score of 3 or higher (Tables A8a and A8b). Four of the 25 high schools displayed increases for both AP exam participation and performance rates for Black or African American graduates, and 10 of the 25 high schools indicated increases for both AP exam participation and performance rates for Hispanic/Latino graduates (Tables A6a, A6b, A8a, and A8b).

Of note for the Class of 2013, two high schools—Bethesda-Chevy Chase and Rockville—demonstrated increases in both AP exam participation and performance for both Hispanic/Latino and Black or African American graduates (Tables A6a, A6b, A8a, and A8b). Three out of 25 high schools—Bethesda-Chevy Chase, Poolesville, and Rockville—reflected an increase in AP exam participation for both Hispanic/Latino and Black or African American graduates. Six of the 25 high schools—Bethesda-Chevy Chase, Winston Churchill, Damascus, Northwest, Rockville, and Sherwood—demonstrated an increase in AP exam performance for both Hispanic/Latino and Black or African American graduates.

International Baccalaureate Exam

MCPS provides the International Baccalaureate (IB) program for students at selected high schools as an option for experiencing college-level coursework and earning college credits in high school. The IB program continues to grow, and MCPS high school students demonstrate a steady increase in taking IB courses and exams. Nearly 7.5 percent of 2013 MCPS graduates took one or more IB exams, a 1.9 percentage point increase compared with 2011 MCPS graduates (5.6%) (Table 3). The increased participation of graduates in IB exams had a corresponding increase in the proportion of graduates who earned at least one IB exam score of 4 or higher—from 5.1 percent in 2011 to 6.4 percent in 2013. A similar trend was observed with regard to IB exam participation and performance for all racial/ethnic groups. Between 2011 and 2013, Asian graduates demonstrated the greatest improvement for both the rates of taking at least one IB exam (6.6% to 9.7%) and of earning an IB score of 4 or higher (6.4% to 8.8%).

^a IB exam results reflect all scores received by September 2013.

In 2013, eight high schools in MCPS had IB programs. While Richard Montgomery High School offered a countywide magnet IB program, the remaining seven high schools had school-based programs. Among the eight IB high schools, the proportion of graduates who took at least one IB exam ranged from 12.4 to 56.9 percent (Table B2, included in the attachment). On average, slightly more than 21 percent of these graduates earned at least one IB score of 4 or higher. From 2012 to 2013, six out of eight high schools with IB programs—Bethesda-Chevy Chase, John F. Kennedy, Richard Montgomery, Seneca Valley, Springbrook, and Watkins Mill—improved both IB exam participation and performance.

The attached tables provide additional information for your review. Table A1 describes AP exam participation and performance of 2011 to 2013 public school graduates in MCPS, Maryland, and the nation. Tables A2 to A5 provide data on AP exam participation and performance for the graduates in the MCPS Classes of 2011 to 2013 by student groups and by high schools.

Tables A6 to A9 provide data on AP exam participation and performance of MCPS graduates in 2012 and 2013 by high school and student group. Tables B1 and B2 provide data on AP exam participation and performance, IB exam participation and performance, and data on the AP and/or IB exam participation and performance and the attainment of college readiness scores—at least one AP exam score of 3 or higher or one IB exam score of 4 or higher—by student group and by high school from 2011 to 2013. Table B3 displays breakdown on AP and IB exams similar to that of Table B2, but provides detailed information by student group for each high school for the Class of 2013 only.

Note. AP = Advanced Placement; FARMS = Free and Reduced-price Meals System; ESOL = English for Speakers of Other Languages. Results are reported separately for graduates who received FARMS, special education, and ESOL services during Grade 12. To comply with federal requirements, any percentage rates greater than or equal to 95.0% or less than or equal to 5.0% are noted as ≥95.0 or ≤5.0, respectively, and the numbers of graduates and of graduates who took one or more AP exams are not reported (--). Additionally, results are not reported (--) for groups with fewer than 10 graduates. For groups of between 10 and 20 graduates, only the percentage rate is reported.

^a AP exam results reflect all scores received by September 2013.

To comply with federal requirements, any percentage rates greater than or equal to 95.0% or less than or equal to 5.0% are noted as ≥95.0 or ≤5.0, respectively, and the numbers of graduates who took one or more IB exams and of graduates who earned a score of 4 or higher on one or more IB exams are not reported (--). Additionally, results are not reported (--) for groups with fewer than 10 graduates. For groups of between 10 and 20 graduates, only the percentage rate is reported.

^a AP or IB exam results reflect all scores received by September 2013.

^b The college readiness scores are met by attaining at least an AP exam score of 3 or higher or at least an IB exam score of 4 or higher.

^c Includes graduates enrolled in special schools during Grade 12.
