

Profile of GMAT® Testing: Citizenship Report

Testing Years 2010 Through 2014

November 2014

Globally, more than 1.2 million Graduate Management Admission Test® (GMAT®) exams have been taken over the past five years by individuals interested in pursuing graduate management education. The GMAT exam is an important part of the admissions process for more than 6,100 graduate management programs worldwide. A total of 243,529 GMAT exams were taken by prospective business school students around the world in testing year 2014 (TY2014), which ran from July 1, 2013 through June 30, 2014. These examinees sent a total of 687,976 score reports to graduate-level management programs across the globe.

This report summarizes five-year global GMAT testing trends and includes:

- GMAT exams taken by citizenship,
- GMAT exams taken by gender,
- Mean age of GMAT examinees,
- Mean GMAT Total score, and
- GMAT score-sending breakdowns by program type (MBA, non-MBA master's, and doctoral/other), TY2014.

Mean GMAT Total scores and mean age of examinees are provided for citizenship groups with five or more exams taken and 10 or more score reports sent.

What Can I Do With the Data?

This data brief can help you build candidate profiles for specific country and regional groups. For example, you can use the tables to determine the following about German citizens who sat for the GMAT exam in TY2014:

- German citizens sat for 4,230 GMAT exams.
- The mean age of German test takers was 24.4 and the mean GMAT Total score was 574.
- Of the 10,222 GMAT score reports sent by German citizens, 69.4 percent were directed to non-MBA specialized master's programs.
- German men (30%) were somewhat more likely than German women (24%) to send scores to MBA programs.
- German citizens represented 23 percent of GMAT testing by Western European citizens and 2 percent of global testing.

Use this report as a starting point to target your search of potential students and enhance school recruitment efforts. For example, you can purchase names of prospective students using the **Graduate Management Admission Search Service® (GMASS®)** database or develop profiles of the decision-making process for German candidates based on data in the **mba.com Prospective Students Survey Interactive Report**.

See the back of this report for links to these and other resources.

Notes About the GMAT® Exam

The GMAT exam consists of four sections: Verbal, Quantitative, Analytical Writing, and Integrated Reasoning. GMAT "Total" scores, which are reported in this report, are calculated based on performance on the Verbal and Quantitative sections of the exam. Total scores are reported in increments of 10, on a scale ranging from 200 to 800. Results are valid for a five-year period from test sitting. Please note that GMAT volume was artificially elevated in TY2012 as many examinees opted to sit for the exam before the addition of Integrated Reasoning (IR) in June 2012.

About GMAT® Examinees

Data in this report reflect the total number of GMAT exams that generated valid, reportable scores during a given testing year. Examinees who took the exam more than once during the year are included in the aggregate data each time they generated a valid score. For example, if an individual took the GMAT exam twice during the 2014 testing year, he or she would represent a total of two exams taken during that year. Program data are based on a school's current GMAT code classifications for its respective programs.

About This Report

This Data-to-Go brief, prepared by GMAC researchers, summarizes five years of data for GMAT exams taken and score reports sent worldwide, filtered by citizenship.

Note: Dashes that appear in the table are used to indicate “not applicable”, such as when there are no examinees in a given subgroup, and thus, no scores exist. For examinee privacy, dashes are also used in place of mean age and mean Total scores when there are fewer than five examinees from a given subgroup or country.

Contributors

The following individuals from the Research Department in the School Products Division of GMAC made significant contributions to the publication of this report: **Alex Chisholm**, Director, Statistical Analysis, report concept and design, analysis, interpretation of data, and drafting, revising of manuscript for intellectual content; **David Svancer**, Research Analyst Manager, data preparation and manuscript review; **Michelle Sparkman Renz**, Director, Research Communications, manuscript review; **Paula Bruggeman**, Editor/Writer, Manager, Research Communications, editorial review and publication management; **Tacoma Williams**, Research Coordinator, quality assurance; **Paula McKay**, Director, School Products, content review; and **Robert Alig**, Executive Vice President, School Products, manuscript review.

Contact Information

For questions or comments regarding the study findings, methodology, or data, please contact Alex Chisholm at achisholm@gmac.com or the GMAC Research Department at research@gmac.com.

For more information about all Research products, surveys, and services, visit gmac.com/research.

Related Publications

- **2014 mba.com Prospective Students Survey Report**
This survey report offers information about the motivations, reservations, intended career outcomes, and funding expectations of prospective graduate management students who have registered on mba.com. Rich survey data offer insights into key issues that affect school recruitment success.
gmac.com/prospectivestudents
- **2014 mba.com Prospective Students Interactive Research Tool** (For GMAT using schools)
This interactive data research tool allows schools to create customized searches of survey data regarding the motivations, preferences, and program choices of thousands of individuals who are considering applying to a graduate business school program. This report represents data collected from more than 12,000 prospective students who registered on mba.com from October 2012 through September 2013.
gmac.com/interactiveresearch
- **GMAT® Trends Tracker 2014** (For GMAT using schools)
The GMAT Trends Tracker is an Adobe® Flex tool that presents GMAT exam data from testing years 2010 through 2014 in a dynamic format with additional student mobility data. The GMAT Trends Tracker offers graphical displays of data tables and the ability to select and view the regional and demographic data of interest to you. All data can be downloaded for further use.

Related Admissions Recruiting Resources

Looking for more students? The **Graduate Management Admission Search Service® (GMASS®)** database can help you find the best talent to recruit for your programs. As a GMAT score recipient, you have access to the GMASS global database of prospective candidates interested in graduate management education—nearly 400,000 candidates who are waiting to hear from you.

The benefits of using the GMASS service:

- **Target your audience:** Use more than 30 criteria to narrow your search and tailor your message for the best response rate.
- **Get the most up-to-date contacts:** The global GMASS database is updated daily.
- **Find the best candidates anytime, anywhere** with our easy-to-use web-based application.
- **Save time:** Receive automatic results daily, weekly, or monthly, and save your best searches.
- **Recruit early:** Target GMAT pre-test candidates early in their decision-making process.
- **Save money:** GMASS is a cost-effective way to build multichannel marketing programs.

To get more information, or to start a GMASS subscription, please contact Paula McKay at pmckay@gmac.com or visit gmac.com/gmass.
