

**TENNESSEE EDUCATION LOTTERY
SCHOLARSHIP PROGRAM
ANNUAL REPORT**

Recipient Outcomes Through Fall 2012

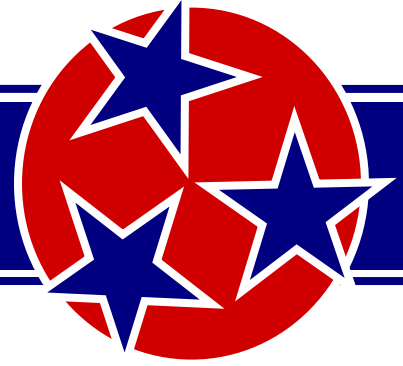

Prepared by the Tennessee Higher Education Commission

TENNESSEE HIGHER EDUCATION COMMISSION

The Tennessee Higher Education Commission is the state's coordinating agency for higher education. Guided by the Public Agenda for Tennessee Higher Education, THEC oversees an array of finance, academic, research and consumer protection initiatives that promote student success and support the State's completion agenda for postsecondary education. THEC actively seeks to develop policy recommendations, programmatic initiatives, and partnerships that increase educational attainment in the state while improving higher education access and success for all Tennesseans.

OVERVIEW OF REPORT

This report is prepared pursuant to T.C.A. §49-4-903(b), which directs the Tennessee Higher Education Commission (THEC) to:

“...provide assistance to the general assembly and to the Tennessee Student Assistance Corporation (TSAC) by researching and analyzing data concerning the scholarship and grant programs created under this part, including, but not limited to, student success and scholarship renewal.”

The Tennessee Education Lottery Scholarship (TELS) program was designed to meet the unique needs of the state of Tennessee while also incorporating the hallmark elements of existing merit-based aid programs in other states. Developed through a process involving elected officials and members of the academic community, the TELS program aims to address the following broad public policy objectives:

- Improve academic achievement in high school through scholarship incentive (GAMS, HOPE, ASPIRE);
- Provide financial assistance as a means of promoting access to higher education (ASPIRE, Access);
- Retain the state’s “best and brightest” students in Tennessee colleges and universities (GAMS); and
- Enhance and promote economic and community development through workforce training (Wilder-Naifeh).

The Tennessee Education Lottery began operations on January 20, 2004. Lottery proceeds fund scholarships for Tennessee students attending eligible public or private institutions and universities across the state. Initial qualification and renewal criteria for the program were set in 2003. The legislature adjusted the qualification criteria in 2005 and the renewal criteria in 2008. Additionally, the legislature added a Non-traditional Student Grant and Dual Enrollment Grant in 2005 and several smaller provisions in 2006 and 2008. Finally, lottery scholarship coverage for summer school enrollments of six credit hours or more began in summer 2012 for students who first received the scholarship in fall 2009 or after.

Technical Notes & Definitions

- All data contained within this report are from the Tennessee Higher Education Commission's (THEC) Student Information System (SIS), as reported to the Commission by institutions through their respective governing board or association.
- THEC'S SIS is a transactional database; therefore, data changes year over year. Each year both historical and current year's data are rerun reflecting a snapshot of THEC's SIS at that moment in time. As a result data reported in previous years' annual reports may differ from data in this year's report.
- Data for Vanderbilt University are excluded or incomplete due to data submission issue.
- Students are identified by higher education sector and scholarship type at college entry.
- Students with inadmissible or missing data values are reported in the Unknown category.
- Unless otherwise noted, all tables and figures include TBR Universities, TBR Community Colleges, UT Campuses, and Private Institutions, and HOPE, GAMS, ASPIRE, and Access programs.
- When Tennessee Education Lottery Scholarship (TELS) students are compared to the general student population (e.g., in Section 6), the general population refers to public institutions only because THEC data on private institutions are limited to TELS recipients.
- The "6-year graduation rate" is defined as the percent of TELS first-time freshmen who attained either an associate's or bachelor's degree, whichever is higher, within six years of enrollment regardless of scholarship status at graduation.
- The "graduation rate with TELS intact" is defined as the percent of TELS first-time freshmen who attained either an associate's or bachelor's degree, whichever is highest, within five years of enrollment without losing scholarship eligibility (having the scholarship intact in the fall semester prior to graduation). Five years is chosen for this statistic because that is the maximum number of years for which students can renew a scholarship.
- Renewal, Retention, and Graduation rates are attributed to the higher education sector and scholarship type at college entry.
- Percentages may not add to 100 percent due to rounding.

Program Overview

- Since the Tennessee Education Lottery Scholarship (TELS) program began operation in 2004-05, the program costs and the number of students served have more than doubled from over 40,000 students and \$93 million in 2004-05 to over 100,000 students and over \$312 million in 2011-12 (**Table 4**).
- In addition to the growth in the number of students and dollars, the program has also experienced numerous changes due to legislation (**Table 2**).
- At its peak, the maximum HOPE award covered 78 percent of average tuition and fees at a public 4-year institution and 77 percent at a public 2-year institution in 2006-07. In 2012-13, the maximum HOPE award, excluding summer, covered 54 percent of average tuition and fees at both public four-year and two-year institutions (**Table 5 & Figure 2**).
- In the fall of 2012, the percentage of eligible first-time freshmen (FTF) receiving a TELS award reached a high of 69 percent (**Table 9 & Figure 5**).
- Since 2008, the proportion of TELS FTF that have qualified for the base HOPE award has declined, while the proportion qualifying for ASPIRE has increased (**Table 8 & Figure 4**). To qualify for the ASPIRE supplemental award a student must have an adjusted gross income of \$36,000 or less. This shift is likely related to the economic recession.

Recipient Demographics

- Since 2004, there has been a shift in the family income profile of TELS FTF. While the proportion of scholarship recipients with a family adjusted gross income (AGI) below \$36,000 was nearly the same in 2012 as it was in 2004, the proportion with a family AGI above \$96,000 has increased by 7 percentage points (**Table 12**).

- The proportion of African American TELS FTF eligible for a Pell grant has increased from 59 percent to 75 percent from fall 2004 to fall 2012, compared to an increase from 27 percent to 39 percent for Caucasian students (**Table 20**).
- Family AGI of the median TELS FTF has declined for African Americans from 2004 to 2012, and the difference between the highest (Caucasian) and lowest (African American) median family AGI by ethnicity has increased over the same period (**Table 14 & Figure 8**).
- 64 percent of TELS FTF Caucasian students qualify for a HOPE or ASPIRE award by meeting both eligibility criteria (3.0 high school GPA and 21 ACT) compared to 36 percent for African American FTF (**Figure 10**). As is shown in Section 3: Scholarship Renewal, students that met both eligibility criteria have renewal rates higher than students that met only one of the eligibility criteria.
- Less than four percent of TELS FTF were enrolled part-time in fall 2012 (**Table 19**).

Scholarship Renewal

- 56 percent of 2011 TELS FTF retained their scholarship in the fall of 2012 (**Table 24 & Figure 11**).
- Since 2004, the UT system's 1-year renewal rate has increased 14 percentage points from 55 percent to 69 percent, over four times the increase of any other system [TBR Universities - two percentage points; TBR Community Colleges – two percentage points; Private Institutions – three percentage points] (**Figure 11**).
- In fall 2012, 66 percent of fall 2011 HOPE and ASPIRE FTF that met both eligibility criteria renewed their award for their sophomore year compared to 44 percent that qualified on GPA alone and 22 percent for those that qualified on ACT alone (**Table 28 & Figure 13**).
- There is a positive correlation between students' AGI and their 1-year renewal rate, with students with higher AGIs having higher renewal rates (**Table 27**).

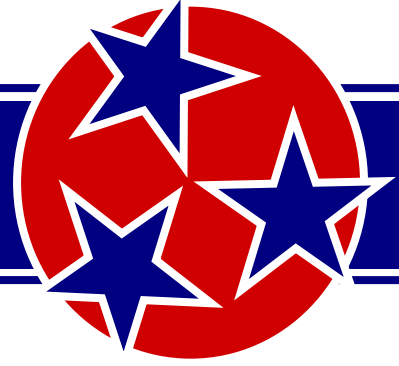

- Scholarship renewal rates are 19 percentage points higher for recipients that do not need remedial or developmental coursework (**Table 29**).
- ACCESS recipients have the lowest renewal rates; however, the eligibility requirements for an ACCESS award are less stringent and the award amount is less (**Figure 12**).

Retention

- 58 percent of fall 2011 TELS FTF that lost the award returned to college for their sophomore year (**Table 35 & Figure 14**).
- The percent of TELS FTF that lost the award and returned to college for their sophomore year has decreased for the fall 2011 FTF cohort compared to the fall 2004 FTF cohort for all scholarship programs (**Table 36 & Figure 15**).
- 66 percent of African American 2011 TELS FTF returned for their sophomore year after losing their TELS scholarship compared with 55 percent of Caucasian 2010 TELS FTF (**Table 38**).
- With the exception of students with a family adjusted gross income of \$72,000 or more and students with a family adjusted gross income of \$12,000 or less, fall 2011 non-renewers returned to college in the fall of 2012 at about the same rate regardless of their family income (**Table 39**).
- With the exception of those that qualified on ACT alone, HOPE and ASPIRE TELS recipients that lose their award return to college for their sophomore year at nearly the same rate regardless of the eligibility criteria they initially met, although these rates have dropped over time (**Table 40 & Figure 16**).
- Fall to fall cohort scholarship renewal and retention rates have remained fairly stable across all cohorts (**Table 55**).
- Regardless of whether or not TELS FTF retained their TELS scholarship after their freshmen year, 79 percent return for their sophomore year of college. 72 percent of the original freshmen cohort returned for their junior year and almost two-thirds (65 percent) returned for their senior year (**Table 55**).

Graduation

- The 6-year graduation rate for 2006 TELS FTF, regardless of whether they kept the scholarship intact, was 58 percent, down from 60 percent for the 2005 TELS FTF cohort (**Table 55**).
- Over 88 percent of 2006 TELS FTF that qualified for a GAMS scholarship graduated within 6-years with or without the scholarship intact compared with 61 percent for HOPE recipients, 48 percent for ASPIRE recipients, and 34 percent for ACCESS recipients (**Table 52 & Figure 21**).
- For the fall 2006 TELS FTF cohort, Caucasian students (60.0 percent) had a higher 6-year graduation rate than African American students (47.5 percent) by thirteen percentage points. However, the gap between the two ethnicity groups has decreased due to the growth in African Americans' 6-year graduation rates (**Table 54**).
- 2006 HOPE and ASPIRE FTF's 6-year graduation rate (with or without the scholarship intact) for students that met both eligibility criteria (67 percent) was higher than for students that met the GPA only requirement (49 percent) and students that met only the ACT criterion (36 percent) (**Figure 22**).
- Graduation rates, with and without the scholarship intact, have remained fairly stable across all cohorts (**Table 55**).
- About 30 percent of FTF TELS recipients graduated within 4-years with or without the scholarship intact (**Table 55**).
- Half of 2007 TELS FTF graduated within 5-years, but only 35 percent did so with the scholarship intact (**Table 55 & Figure 23**).
- For the 2005 TELS FTF cohort, there is a positive correlation between students' AGI and their longitudinal renewal and graduation rates, with students with higher AGIs having higher renewal and graduation rates (**Table 57**).

Section 2: Recipient Demographics

Recipient Demographics: Key Findings

Recipient Demographics

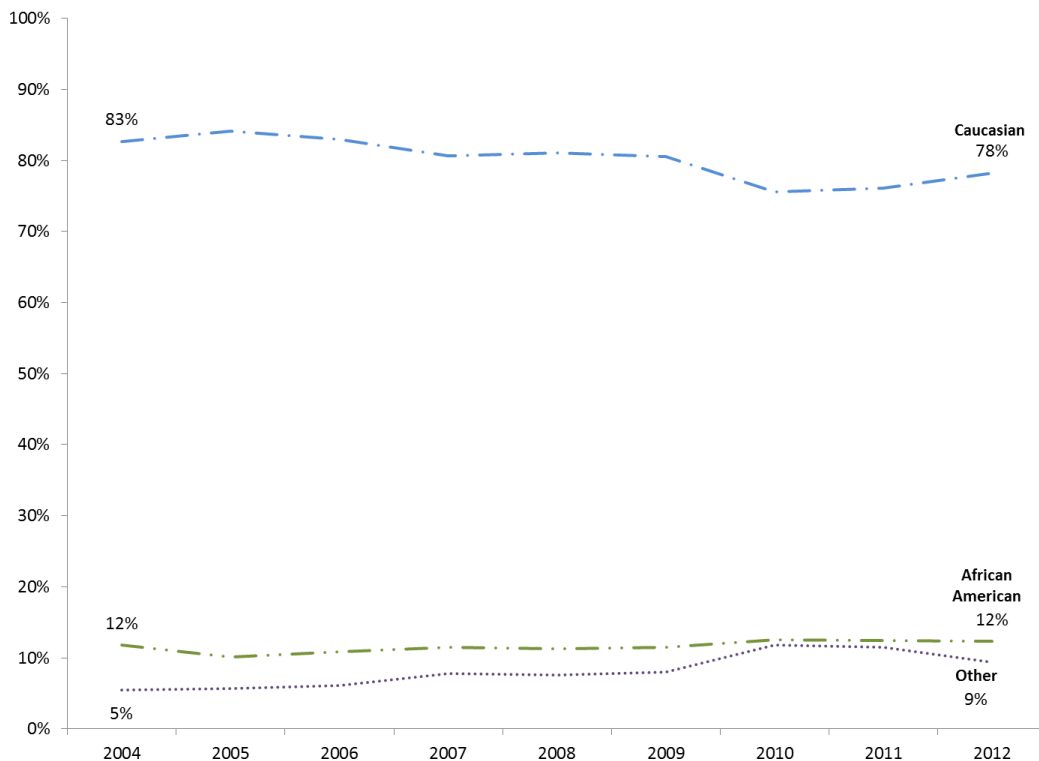

- Since 2004, there has been a shift in the family income profile of TELS FTF. While the proportion of scholarship recipients with a family adjusted gross income (AGI) below \$36,000 was nearly the same in 2012 as it was in 2004, the proportion with a family AGI above \$96,000 has increased by 7 percentage points (**Table 12**).
- The proportion of African American TELS FTF eligible for a Pell grant has increased from 59 percent to 75 percent from fall 2004 to fall 2012, compared to an increase from 27 percent to 39 percent for Caucasian students (**Table 20**).
- Family AGI of the median TELS FTF has declined for African Americans from 2004 to 2012, and the difference between the highest (Caucasian) and lowest (African American) median family AGI by ethnicity has increased over the same period (**Table 14 & Figure 8**).
- 64 percent of TELS FTF Caucasian students qualify for a HOPE or ASPIRE award by meeting both eligibility criteria (3.0 high school GPA and 21 ACT) compared to 36 percent for African American FTF (**Figure 10**). As is shown in Section 3: Scholarship Renewal, students that met both eligibility criteria have renewal rates higher than students that met only one of the eligibility criteria.
- Less than four percent of TELS FTF were enrolled part-time in fall 2012 (**Table 19**).

Section 3: Scholarship Renewal

Renewal Requirements

TELS recipients are evaluated for scholarship renewal at every 24 attempted credit hours in college. At the 24- and 48-hour check points, students must maintain a minimum cumulative 2.75 college GPA to maintain scholarship eligibility. Upon accumulating 72 credit hours, a minimum cumulative 3.0 college GPA is required to keep scholarship eligibility; this continues at every subsequent 24 credit hours up to 120 credit hours. Limited to those with 72 credit hours or above, state law also allows students to maintain eligibility even if their cumulative GPA was less than 3.0, as long as they:

- have maintained a cumulative grade point average of at least 2.75;
- have earned a semester grade point average of at least 3.0 for the semester in which continuing eligibility was reviewed;
- have enrolled full-time in the semester when continuing eligibility was reviewed; and
- will enroll full-time in the subsequent semester.
- This is referred to as “provisional” renewal.

The award is available for up to five years, baccalaureate degree attainment, or 120 cumulative attempted credit hours, whichever comes first. The 120 hour cap is applicable only to students who first received TELS in Fall 2009 and after. Students in a program requiring more than 120 credit hours for completion are exempted from the 120 hour cap. They can receive a scholarship until they have attempted the number of hours required to earn the degree, but no more than 136 credit hours.

Scholarship Renewal: Key Findings

- 56 percent of 2011 TELS FTF retained their scholarship in the fall of 2012 (**Table 24 & Figure 11**).
- Since 2004, the UT system's 1-year renewal rate has increased 14 percentage points from 55 percent to 69 percent, over four times the increase of any other system [TBR Universities - two percentage points; TBR Community Colleges – two percentage points; Private Institutions – three percentage points] (**Figure 11**).
- In fall 2012, 66 percent of fall 2011 HOPE and ASPIRE FTF that met both eligibility criteria renewed their award for their sophomore year compared to 44 percent that qualified on GPA alone and 22 percent for those that qualified on ACT alone (**Table 28 & Figure 13**).
- There is a positive correlation between students' AGI and their 1-year renewal rate, with students with higher AGIs having higher renewal rates (**Table 27**).
- Scholarship renewal rates are 19 percentage points higher for recipients that do not need remedial or developmental coursework (**Table 29**).
- ACCESS recipients have the lowest renewal rates; however, the eligibility requirements for an ACCESS award are less stringent and the award amount is less (**Figure 12**).

Section 4: College Retention for Scholarship Non-Renewals

Retention for Non-Renewals: Key Findings

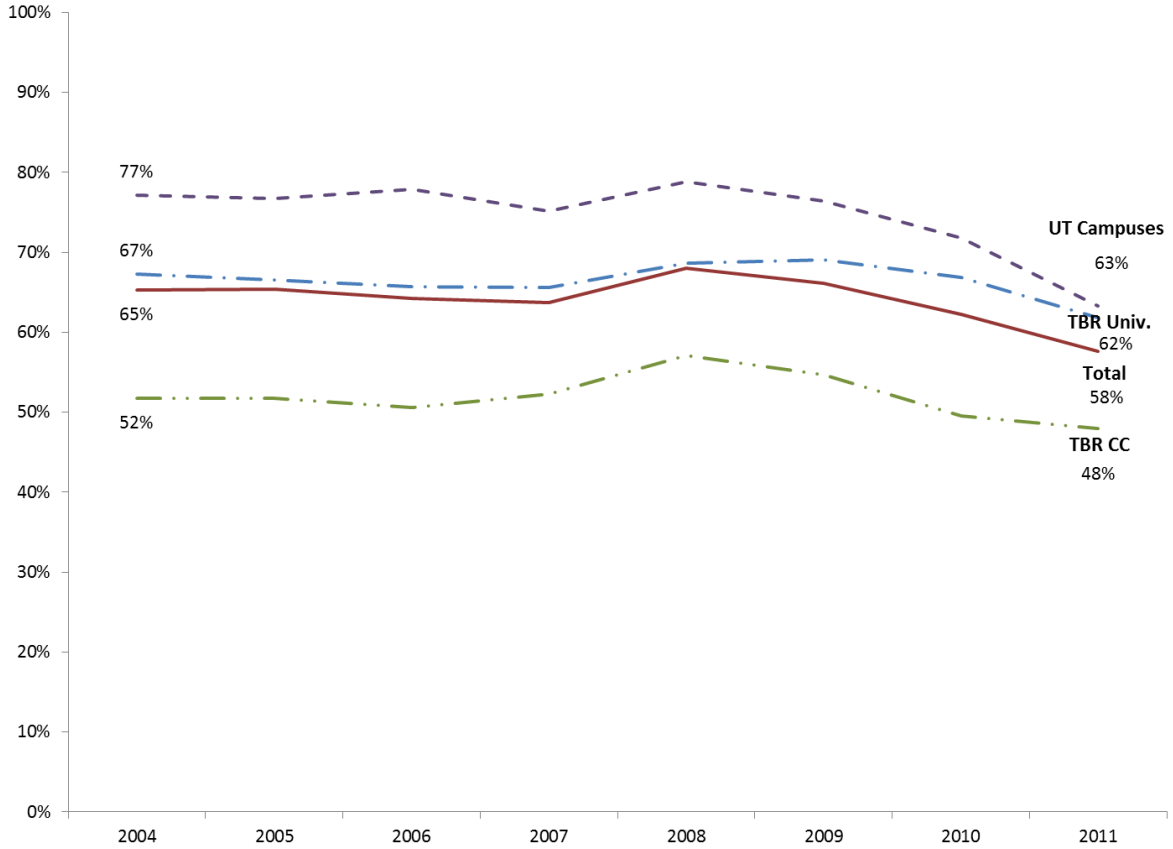

- 58 percent of fall 2011 TELS FTF that lost the award returned to college for their sophomore year (**Table 35 & Figure 14**).
- The percent of TELS FTF that lost the award and returned to college for their sophomore year has decreased for the fall 2011 FTF cohort compared to the fall 2004 FTF cohort for all scholarship programs (**Table 36 & Figure 15**).
- 66 percent of African American 2011 TELS FTF returned for their sophomore year after losing their TELS scholarship compared with 55 percent of Caucasian 2010 TELS FTF (**Table 38**).
- With the exception of students with a family adjusted gross income of \$72,000 or more and students with a family adjusted gross income of \$12,000 or less, fall 2011 non-renewers returned to college in the fall of 2012 at about the same rate regardless of their family income (**Table 39**).
- With the exception of those that qualified on ACT alone, HOPE and ASPIRE TELS recipients that lose their award return to college for their sophomore year at nearly the same rate regardless of the eligibility criteria they initially met, although these rates have dropped over time (**Table 40 & Figure 16**).

Section 5: 5-year Graduation Rates with TELS Intact

5-year Grad Rates w/TELS Intact: Key Findings

- 34.6 percent of 2007 TELS FTF graduated in 5-years with the scholarship intact (**Table 41 & Figure 17**).
- By system, 40 percent of the 2007 TELS FTF graduated in 5-years with the scholarship intact at Private Institutions compared with 42 percent at UT campuses, 34 percent at TBR Universities, and 23 percent at TBR Community Colleges (**Table 41 & Figure 17**).
- GAMS students' graduation rate (70 percent) with the scholarship intact is double the intact graduation rate of other scholarship programs for the fall 2007 FTF cohort (**Table 42 & Figure 18**).
- 39.0 percent of 2007 female TELS FTF graduated in 5-years with the scholarship intact compared to 29.0 percent for 2007 male TELS FTF (**Table 43**).
- 37.5 percent of 2007 Caucasian TELS FTF graduated in 5-years with the scholarship intact compared to 19.0 percent for African American TELS FTF (**Table 44**).
- HOPE and ASPIRE 2007 TELS FTF that met both eligibility criteria have a graduation rate that is nearly twice as high as TELS FTF that qualified based on their GPA or ACT score alone (**Table 45 & Figure 19**).

Section 6: 6-year Graduation Rates for TELS Recipients

6-year Graduation Rates: Key Findings

- The 6-year graduation rate for 2006 TELS FTF, regardless of whether they kept the scholarship intact, was 58 percent, down from 60 percent for the 2005 TELS FTF cohort (**Table 55**).
- Over 88 percent of 2006 TELS FTF that qualified for a GAMS scholarship graduated within 6-years with or without the scholarship intact compared with 61 percent for HOPE recipients, 48 percent for ASPIRE recipients, and 34 percent for ACCESS recipients (**Table 52 & Figure 21**).
- For the fall 2006 TELS FTF cohort, Caucasian students (60.0 percent) had a higher 6-year graduation rate than African American students (47.5 percent) by thirteen percentage points. However, the gap between the two ethnicity groups has decreased due to the growth in African Americans' 6-year graduation rates (**Table 54**).
- 2006 HOPE and ASPIRE FTF's 6-year graduation rate (with or without the scholarship intact) for students that met both eligibility criteria (67 percent) was higher than for students that met the GPA only requirement (49 percent) and students that met only the ACT criterion (36 percent) (**Figure 22**).

Section 7: Longitudinal Renewal, Retention, and Graduation Rates

Longitudinal Renewal, Retention, and Graduation Rates: Key Findings

- Fall to fall cohort scholarship renewal and retention rates have remained fairly stable across all cohorts (**Table 55**).
- Regardless of whether or not TELS FTF retained their TELS scholarship after their freshmen year, 79 percent return for their sophomore year of college. 72 percent of the original freshmen cohort returned for their junior year and almost two-thirds (65 percent) returned for their senior year (**Table 55**).
- Graduation rates, with and without the scholarship intact, have remained fairly stable across all cohorts (**Table 55**).
- About 30 percent of FTF TELS recipients graduated within 4-years with or without the scholarship intact (**Table 55**).
- Half of 2007 TELS FTF graduated within 5-years, but only 35 percent did so with the scholarship intact (**Table 55 & Figure 23**).
- For the 2005 TELS FTF cohort, there is a positive correlation between students' AGI and their longitudinal renewal and graduation rates, with students with higher AGIs having higher renewal and graduation rates (**Table 57**).

Notes: Renewal and Retention rates are fall to fall. Retention means a student came back the next fall with or without the scholarship intact. Students are only eligible to receive a TELS scholarship for up to 5-years or 120 hours, whichever event occurs first. As a result, for the figure, retention rates are not calculated past the fifth year of enrollment. There are students that are still enrolled in year 6 that have not yet graduated; however, they are no longer receiving a TELS award. The graduation rates are inclusive (not additive), meaning that the six year graduation rates include students that graduated within four or five years.

For the 2007 cohort, the following schools have students included in the initial cohort, but completion/graduation data was not reported, which affects, and probably lowers, the private institutions' graduation rate: Vanderbilt University, Victory University, John A. Gupton, Hiwassee College, and Lambuth University.
